polynuclear aromatic
hydrocarbon, bottom sediment, bitumen, organic matter, Weddell Sea; 05960.

polynya
cycle, rhythm, event, Quaternary, glaciomarine deposit, facies pattern, glaciomarine continental margin environment, basal lodgement till, glacio-isostatic uplift, prograding slope sequence, carbonate, opal productivity, ice rafted debris input, floating ice shelf, Arctic; Southern Ocean, Weddell Sea; 02620. frazil ice production, ice production, wind speed, salinity, supercooled water, 03080. sea ice model, heat transfer rate, lake, ice sheet, heat flux, Canada, North West Territories, Yukon River Basin; 01465. sea surface temperature, NOAA-7, AVHRR, Antarctica; 02190. surface energy balance, boundary layer height, resistance law, ice shelf, turbulent flux, Monin-Obukhov similarity, Antarctica, Filehner/Ronne Ice Shelf; 00735.

polyphenolic fraction
vegetation zone, humic acid, fulvic acid, phenolic acid, Andosol, Mexico, Sierra Nevada, Iztaccihuatl Volcano; 13260.

polysaccharide
kaolinite, kaolinite polysaccharide system, xanthan, soil structure, dextran, 10861. microstructure, transmission electron microscopy, textural organisation, montmorillonite, adsorption, 01349.

polystyrene latex
polymethylmethacrylate, methylene blue aerosol, aerosol, ultra violet, aerosol charging, particle, 03193.

polytetrafluoroethylene
spectral property, Lambertian property, field, reflection panel, 02109.

polytropic gas
algorithm, isentropic flow, convex gas law, 04185.

polyurethane foam
hexachlorocyclohexane, pesticide, sampling, organochloride pesticide, 03190.

Pomeranian stage
palaeoclimatic sequence, periglacial cycle, Dryas stadial, Weichselian, permafrost, Europe, (Western); France; Belgium; 06198.

pond
aeolian dune, dune, animal track, interdune, mud drape, Tunisia, Tozeur, Chott el Gharsa; Oued el Melah; 09436.

pond formation
impoundment, open water formation, erosion, sediment deposition, wetland fragmentation, hydrologic change, deltaic coast, spoil bank, canalisation, remote sensing, coastal wetland, USA, Louisiana, Gulf of Mexico; 05252.

pond sediment
agricultural drain water, groundwater contamination, remedial measure, selenium immobilisation, USA, California, Merced County, Kesterson Reservoir; 00615.

pond seepage
seepage, three dimensional flow, groundwater flow, linear flow, radial flow, unsaturated flow, Richards equation, saturated flow, USA, North Carolina Barrier Islands; 05207.

pond system
mire vegetation, water chemistry, pH, peat mat, nutrient dynamic, floating mat, Japan, Mizorogaike Pond; 05107.

ponded condition
predictive equation, infinite diffusivity near saturation, infiltration, 04113.

ponded infiltration
infiltration, Green and Ampt equation, wetting front, hydraulic conductivity, viscosity, matric potential gradient, cumulative infiltration, transmission zone saturation, temperature dependence, 13403. saturated flow, unsaturated flow, soil hydraulic property, soil water potential, infiltration ring, disc permeameter, macropore, diffusivity, sorptivity, hydraulic conductivity, 00585. saturated hydraulic conductivity, matric flux potential, hydraulic conductivity pressure head relationship, ring factor, groundwater flow, infiltration ring, 11039. saturated hydraulic conductivity, sorptivity, tillage, infiltration, cumulative infiltration, 00385.

ponded river origin
radiocarbon date, sedimentology, paleohydrology, Quaternary(Late), lake deposit, sand sea, desert dunefield, linear dune, carbonate, Namibia, Namib Sand Sea; 04981.

ponded soil
encapsulated air, drainage first stage, air expansion shrinkage phenomenon, pore drainage, groundwater flow, unsaturated zone, drainage, 00580.

ponded water
surface microrelief, rainfall energy, surface crust, surface roughness, infiltration, 01700.

ponderosa pine
pinyon juniper, chaparral, vegetation strip, watershed, hillslope stabilisation, erosion control, sediment delivery, USA, Arizona; 08539.

ponding
slope, surface roughness, depressional storage, soil, 03511.

pool evaporation
dispersion model, emissions model, landfill, dust, wind speed, 04454.

pool riffle topography
hydraulic geometry, velocity reversal hypothesis, gravel bedded stream, riffle, channel stability, shear velocity, UK, England, River Severn; 06961.

pool water
water vapour, stable isotope, cave pool system, cave hydrology, isotopic ratio, hydrologic model, drip water, USA, New Mexico, Carlsbad Cavern; 07446.

poor foundation
liquefaction, stability, breakwater, Brazil; 03791.

Poozerskiy substage
geochronology, Pleistocene(Late), TL, Muravo interglacial stage, USSR, Belorussia; 06090.

pop-up
stress system, orientation, near surface compressive stress, quarry floor, Canada, Quebec, Quebec City; 01390.

population
atlas, map compilation, China; 04684. census, expert system, mapping, database, China; 11635. census, microdata, GIS, statistics, 04685. dwelling unit, aerial photography, Saudi Arabia, Riyadh; 13978. economic base, integrated information system, regional analysis, GIS, land allocation, USA, Houston; 06913. state atlas, thematic content, physical environment, 05689.

population balance equation
upwind differencing, Smolarkiewicz method, particle growth, moving finite element method, 00491.

population bias
Fujita scale rating, distribution map, tornado, wind speed probability, 10123.

population change
expert GIS, urban land use, 06937.

population distribution
GIS, hazardous material, hazard zone map, USA; 05779.

populus euphratica chronology
temperature reconstuction, temperature sequence, 10143.

porcellanite
Non Pareil series, highly weathered soil, biogenic opal, Kaolinite, leaching, mineralogy, weathering, Ultisol, Trinidad and Tobago; 02706.

pore
calcium carbonate, calcium oxalate, fungi, calcrete, litho diagenesis, semiarid area, 10605. chemical composition, grain size distribution, soil bulk property, aggregation, 03961. reservoir, porosity, shale, sandstone, cement, 06955.

pore drainage
groundwater flow, unsaturated zone, drainage, ponded soil, encapsulated air, drainage first stage, air expansion shrinkage phenomenon, 00580.

pore fluid
continental margin, uranium, well logging, ooze, mudstone, gamma ray curve, geochemical log, 02489. forearc basin, Quaternary, cement, carbonate, porosity, Pacific, Peru Margin; 01195. frictional heating, stability, creeping landslide, long term slope stability, landslide, 02536. probe, fluid pressure, marine sediment, seafloor, hydrothermal circulation, 11817. reduction rate, dissolution, carbonate, bioturbation, sea water, USA, Florida, Florida Keys; 02456.

pore fluid pressure
finite element, undrained heating, thermal consolidation, stiffness property, numerical analysis, oil sand, nonisothermal condition, Canada, Alberta, Athabasca; 10699.

pore geometrical characteristics
penetration coefficient, hydraulic conductivity, soil texture, pore meas-

urement, quick capillary rise, 09731.
pore geometry
hydrocarbon, chalk, Cretaceous, porosity, permeability, North Sea; Greece; UK, England; 03505. solute transport, solute flux, permeability, porosity, specific surface, biofilm growth, porous medium, dispersivity, groundwater flow, inverse problem, 06375.
pore ice
dunes, sublimation, particle supply, aeolian transport, cold environment, periglacial environment, particle size, 07249.
pore measurement
quick capillary rise, pore geometrical characteristics, penetration coefficient, hydraulic conductivity, soil texture, 09731. tillage, macropore, AUTOCAD, image analysis, 09719.
pore pressure
accretionary prism, Pacific; Peru, Continental Margin; 04713. accretionary prism, permeability, flow velocity, fluid flow, decollement, Caribbean Sea, Barbados Ridge; 02305. antecedent moisture, tensiometer, piezometer, hydrologic condition, debris flow initiation, hillslope hydrology, USA, California, San Francisco; 10712. constitutive model, cyclic behaviour, variable dilatancy, 00249. forearc environment, deformation, microstructure, mudstone, tectonics, rheology, Caribbean Sea, Barbados Forearc, ODP Hole 671B; 01188. lateral stress, in situ property, liquefaction behaviour, earthquake loading, earthquake, Beaufort Sea; China, Ying Kou City; 03768. marine sediment, hydrology, geotechnical engineering, measurement, 01185. overconsolidation ratio, excavation stability, clay, short term stability, long term stability, 06023. shear strength, instrumented, laboratory, flowslide, failure, landslide, liquefaction, 04916. stress ratio relationship, soft clay, undrained stress path, 03740. undrained cyclic principal stress rotation, cyclic loading, Miner's rule of superpositon, prediction, 03762.
pore pressure behaviour
soft clay, undrained shear test, 03765.
pore pressure field
rapidly eroded soil mass, clay shale, swelling, erosion, Italy, Appennines; 02544.
pore pressure modification
slope stability, chaparral, vegetation effect, soil slippage, USA, California, Transverse Ranges; 02549.
pore radius
hydraulic conductivity, porous media, water content, 00371.
pore size
consolidation, compressibility, soil fabric structure, pore size distribution, secondary consolidation, clay, mercury intrusion porosimetry, 11887. particle size, aggregate size, water retention, 03959.
pore size distribution
alterite, macroporous horizon, pore space, hydric behaviour, ferrallitic cover, soil cover, microaggregated horizon, French Guiana; 09745. clay permeability, soil permeability, mercury intrusion porosimetry, Champlain Sea clay, Louiseville clay, Canada, Quebec, Louiseville; 10927. Kozeny-Carman permeability model, Mualem permeability model, Childs and Collis-George permeability model, porous medium, biofilm growth, Millington and Quirk permeability model, groundwater contamination, permeability reduction, permeability model, 06374. manganese nodule, nodule, Pacific, Clarion-Clippeton Province; Guatemala Basin; 01251. porosity, clay soil, clay fabric, 00009. secondary consolidation, clay, mercury intrusion porosimetry, pore size, consolidation, compressibility, soil fabric structure, 11887. soil porosity, microvoid, mesovoid, deforestation, revegetation, cryptovoid, water availability, Brazil, Amazon; 09748. specific water capacity, unsaturated flow, Monte Carlo simulation, spectral perturbation analysis, groundwater flow, soil hydraulic property, hydraulic conductivity, 06344.
pore solution
diffusion, advection, cementation, sandstone, time interval, 03651. illite, sandstone, reservoir, Mossbauer spectra, 12993.
pore space
air permeability, soil structure, macropore orientation, soil deformation, permeability, 13226. diagenesis, permeability, cementation, porosity, Mississippian, Salem limestone, stylolitisation, USA, Indiana; 00123. engineering, biomass, porous media, biofilm, 02433. hydric behaviour, ferrallitic cover, soil cover, microaggregated horizon, pore size distribution, alterite, macroporous horizon, French Guiana; 09745. image analysis, soil structure, ANOSOL, 03987. Pennsylvanian, algal-mound complex, carbonate, mound, diagenesis, USA, Colorado; Utah, Paradox Basin; 04811.
pore space quantification
biota, soil structure, biotic factor, aggregate separation, soil microenvironment, 10909.
pore structure
fractal geometry, particle size distribution, Sierpinski carpet, Brooks-Corey model, Campbell model, soil water retention, unsaturated hydraulic conductivity, soil texture, 01706. macroporosity, soil mesomorphology, soil horizon, manganese nodule, iron rich nodule, image analysis, 09718. saturated conductivity, capillary retention, unsaturated conductivity, hydraulic conductivity, Van Genuchten capillary retention model, 07520. soil moisture, moisture retention curve, fractal dimension, fractal structure, soil aggregate, 13223. thin section, coal, fluorescence microscopy, 04869.
pore volume
statistical analysis, fabric, granular soil, 03818.
pore volume balance estimation
mercury porosimetry, backscattered electron scanning image, textural porosity, silty clay soil, 08594.
pore water
adsorption, diffusion, diagenesis, dissolution, cement, 12959. anaerobic condition, humic substance, tidal flat, percolation technique, laboratory method, Germany, Elbe Estuary; 08314. anoxic, algae, phosphorus, lake water, Canada, Alberta; 00024. benthic community, bacteria, organism, Monterey Formation, shale, phosphorite, USA, California, Naples Beach; 01311. biomass, seafloor, bacteria, methanogenesis, 04851. bioturbation, radionuclide, tracer, actinium-227, Pacific, (Northwest), Izu-Ogasawara Trench; 05867. clay soil, organic carbon, carbon cycle, glacial till, solid organic matter, dissolved organic carbon, radiocarbon dating, carbon isotope, geochemistry, Canada, Alberta, Western Interior Great Plains; 09900. copper, organic matter, sewage, flocculation, biogeochemical process, bottom water, USA, Washington, Puget Sound; 09379. Cretaceous, coal, till, hydrogeologic characteristic, groundwater, organic matter, Canada, Alberta; 08148. diagenesis, phosphate, carbonate, nutrient, Middle East, Dead Sea; 00033. dissolved free amino acid, cycling, amino acid, anoxic sediment, sediment-water interface, USA, North Carolina, Cape Lookout Bight; 05952. dolomitisation, magnesium, calcite, organic matter, 10639. groundwater contamination, aluminium speciation, podsolisation, WATEQ, GEOCHEM, dissolved aluminium species, thermodynamic computer model, oxalic acid, 11066. illite, silica, smectite, equilibration, clay mineral, 11809. interstitial water, organic matter, diagenesis, carbonate, sea water, 05946. methylamine, adsorption, aliphatic amine, upwelling, USA, Long Island Sound; Peru; 05951. micropore, organic contaminant, volatile organic solvent, chalk aquifer, groundwater contamination, sampling method, 11075. organic matter, amino compound, carbohydrate, ammonia, Arabian Sea, Oman Margin, ODP Site 723; ODP Site 724; 11805. organic matter, spoil, sulphur, lake, mine drainage, strip mine, USA; 09327. peat, methane flux, subarctic fen, boreal fen, fen margin, Canada, Quebec; 09014. pelagic sedument, degradation, organic matter, diagenesis, DOC, deep sea sediment, 03574. photosynthesis, nutrient, phosphorus, nitrogen, sampling, 04874. porosity, water extraction, interstitial water, sediment core, centrifugation, 10660. quartz grain, precipitation, dolomite, mineral dissolution, surface texture, quartz solubility, 05930. radiotracer, microorganism, xenon, 01310. recrystallisation, carbonate sediment, diagenesis, interstitial fluid, carbonate platform, Indian Ocean, ODP Leg 115; Mascarene Plateau; 03671. rhizoconcretion, salt marsh sediment, plant, Spartina, oxygen, rhizosphere, iron hydroxide, Portugal, Tagus Estuary; 04842. sea bottom, breakwater, flow theory, offshore structure, 03500. seasonal change, sulphate, fresh water sediment, concentration profile, temperature, reduction, Germany, Lake Constance; Switzerland, Lake Constance; 09336. seasonal variation, groundwater, cement, Oolite Group, Dinantian, UK, Wales; 10601. sediment mixing, iron, phosphorite, apatite, continental margin, glauconite, 03569. sediment pore water, alkalinity production, oxic condition, groundwater seepage, acidic lake, acid chemistry, base chemistry, near shore region, lake water quality, 11011. sedimentation rate, Neogene, dolomite, diagenesis, reduction, mineralisation, 00117. solubility, marine sediment, dissolution, silica, diagenesis, opal, 05941. strontium, carbonate, isotope ratio, sea water, reservoir, Weddell Sea, Maud Rise, ODP Site 689; 03657. trophic status, lake, phosphorus, bottom sediment, Canada, Alberta; 00025. unsaturated soil, cup property, sampler geometry, vacuum, porous cup sampler, cup conductance, groundwater contamination, soil, 04131. Valtos Sandstone Formation, calcite, cement, concretion, sandstone, UK, Scotland, Skye; 07081. venting, chemosynthetic animal community, seafloor, diapir, carbonate crust, Barbados; 01250. water column, sediment-water interface, lake water quality, chloride, USA, New York, Onondaga Lake; 06309.
pore water chemistry
benthic fauna, sill, oxygen, anoxic, Quaternary, Indonesia, Halmahera, Kau Bay; 00050. bioturbation, Spartina alterniflora, seagrass, sulphate, reduction, 12953. current, particle deposition, organic matter, bottom topography, nitrogen, post industrial sediment, North Sea, Skagerrak; 08182. salt marsh, solute transport, marshland, tidal marsh, groundwater, discharge, 04120. silica, Oligocene, Pliocene, microbial filament, neoformation, Atlantic, ODP Hole 699A; 12985.
pore water flowline
convective flow, streambed, sea lamprey, beaver, hyporheic zone, flow pattern, stream ecosystem, 01686.
pore water pressure
mechanic, tropical region, flowslide, landslide, residual shear strength, subsoil flow, West Indies, Dominica; 03826. permafrost, ice margine thrusting, drift, bedrock, thermal regime, subglacial aquifer, glacial surge, hummocky stagnation moraine, Rainy lobe, Laurentide Ice Sheet, subglacial meltwater production, USA, Minnesota; 02638. resilient property, granular material, hollow cylinder apparatus, stress, 03817. slope failure, hazard, landslide, sandstone shale sequence, deep seated landslide, UK, England, Derbyshire; 07182.
pore water profile
organic carbon, sea bed, oxidation, sediment-water interface, diffusive flux, Indonesia, Savu Basin; 00182.
pore water sample
biogenic cycling, diagenesis, burial rate, climate, sea floor, benthic lander, 10667.
pore water sediment interaction
fluid geothermometry, diagenesis, 11776.
pore water stress
piezocone penetration, clay, cone penetrometer, fissuring, in situ test, 04908.
pore water velocity
flow path, particle travel time, hillslope hydrology, runoff, Darcys law, slope water flow, groundwater flow, 11034. low permeability layer, point source, diffuse source, advection-dispersion equation, transverse dispersion, solute transport, groundwater flow, soil pollution, 13405. parameter estimation technique, heterogeneous media, solute transport model, distance dependent dispersion, convection dispersion equation, hydrodynamic dispersion, diffusion, 08781. water exchange, immobile water, solute transport, unsaturated sand column, soil water content, steady flow, unsteady flow, 08765.
pore-interaction factor
soil particle-size data, Hecla soil series, soil texture, hydraulic conductivity, soil water retention, fine-textured soil, unsaturated hydraulic conductivity, 12057.
pore-water pressure
decollement, complex, overburden stress, consolidation, permeability, Caribbean Sea, Barbados Ridge, ODP Site 671; ODP Site 672; Caribbean Sea, Barbados Ridge, ODP Site 676; 02303.
porecast
porosity, carbonate, SEM, vacuum impregnation, 12998.

porewater
bacteria, organic material, sulphate, reduction, freshwater, lake sediment, iron, manganese, 03525. PCBs, PAH, pesticide, chemical, lacustrine sediment, Canada; USA, Great Lakes, Lake Superior; 01255.
porewater chemistry
lacustrine sediment, Lake T'oo'dichi', Brushy Basin Member, Jurassic, Morrison Formation, USA, Colorado Plateau; 11737. tidal marsh, redox potential, oxidation, iron, phosphate, 02323.
porewater pressure
Mohr-Coulomb analysis, Monot double-hardening model, strain softening dilatant soil model, localisation, 00252.
Porika Glaciation
uplift, erosion, interglacial shoreline, radiocarbon dated, Pliocene(Late), Quaternary, glaciation, Ross Glaciation, New Zealand; 02642.
Porland stone
pollutant-material response relationship, damage function, dry deposition, wet deposition, laboratory exposure system, simulation, atmospheric degradation, building stone, wet deposition, atmospheric pollutant, acid rain, wet-dry cycling, 02704.
porometry
microlysimeter, energy balance, soil wetness, eddy correlation measuring device, semi arid area, water balance, dryland millet, evaporation, evapotranspiration, transpiration, soil evaporation, Institute of Hydrology, ICRISAT Sahelian Center, Niger; 06270.
Poros Formation
accretionary complex, orogenic belt, Tethys, Cretaceous, suture, carbonate margin, basin, Greece, Argolis Peninsula; 01298.
porosity
aeration, soil physical property, soil amendment, kelp, bulk density, particle density, 02757. aquifer formation, aquifer depth, groundwater flow, electrical tracer, induction logging, invasion radius, tracer, hydraulic conductivity, 01710. beach rock, Holocene, dolostone, grainstone, cementation, 09355. beachrock, methane, dolomite, Holocene, carbonate sediment, Egypt, Sinai Peninsula, Bardawil Lagoon; 10554. bulk density, aggregate size, cultivation, organic carbon distribution, 01544. burial depth, sandstone, feldspar, dissolution, China, Songliao Basin; 10510. capillary effect, bulk density, snow temperature, grain size, meltwater infiltration, subfreezing snow, mathematical model, water flow, heat transfer, meltwater refreezing, 01745. carbonate, fuzzy sets theory, Monte Carlo method, reservoir, compaction, 08310. carbonate, SEM, vacuum impregnation, porecast, 12998. cement, reservoir, gas field, sandstone, Miocene, USA, Texas, Picaroon Field; 00011. cement, Salina Formation, Eocene, hydrocarbon, forearc basin, tectonic history, Peru, Talara Basin; 12941. cementation, Arctic carbonate, Carboniferous, Permian, algal buildup, Otto Fiord Formation, Nansen Formation, Canada, Northwest Territories, Ellesmere Island; 02403. cementation, compaction, silica content, carbonate content, bulk density, acoustic velocity, Atlantic, ODP Site 698-704; 12830. cementation, reservoir, gas, diagenesis, sandstone, 01187. clay soil, clay fabric, pore size distribution, 00009. compaction, forest soil, soil disturbance, logging, Andesitic Dystrochrept, bulk density, saturated hydraulic conductivity, Chile; 10936. compaction, thermal maturation, temperature, Wilcox Group, Paleocene, Carrizo Formation, Eocene, USA, Texas, Gulf Coast; 08218. consolidation, carbonate sediment, stress, geotechnical property, permeability, 03509. consolidation, cementation, limestone, chalk, 03506. consolidation, microfabric, clay, smectite, permeability, Weddell Sea, South Orkney; Antarctica, Leg 113, South Orkney; 03519. cultivation, aggregate size, void type, UK, England, Berkshire; 01545. decollement, thrust, Miocene, dewatering, diagenesis, deformation, accretionary prism, Caribbean Sea, Barbados Ridge; 02304. dewatering, subduction, sediment loading, convergent margin, permeability, compaction, Caribbean Sea, Barbados Ridge; 02370. diagenesis, carbonate platform, Zechstein, permeability, leaching, Denmark; 03614. diagenesis, sandstone, shale, thermal maturation, 09395. diatom, clay, shear strength, geotechnical, consolidation, Weddell Sea; Antarctica, Maud Rise; Antarctica, South Orkney; 03518. effective pore space, soil erosion, erosion, cultural technique, vineyard, France, Champagne, Epernay, Moussy; 03941. Ellenburger Group, carbonate, Ordovician, dolomitisation, USA, Texas; New Mexico; 11736. Galway Formation, Ordovician, Cambrian, burial, oil, USA, New York, Washington County; 11655. groundwater resource, hydrogeology, chalk matrix, permeability, Poland, Lublin Coal Basin; 05249. impedance, biogenic opal, carbonate, upwelling, Atlantic, ODP Hole 704A; Meteor Rise; 12831. infiltration, rainfall simulation, micromorphology, crust morphology, USA; 01584. Jurassic, Bathonian, Great Oolite, ooid fabric, meteoric water, UK, England; 11656. karst, sea water, Oligocene, Miocene, Bluff Formation, dolostone, Caribbean, West Indies, Grand Cayman; 04812. limestone, dissolution, cement, Eocene, hydrocarbon exploration, Qatar, Fahaihil; 03620. limestone, lithification, ooze, chalk, diagenesis, Atlantic, East Georgia Basin, ODP Site 700; 12937. Magnus Sandstone Member, hydrocarbon exploration, permeability, Jurassic, leaching, sandstone, fresh water, North Sea, Magnus Oilfield; 06957. mean grain size, till, saturated hydraulic conductivity, Scandinavia; 00296. micromorphology, feldspar weathering, lithic clast, open system, till palaeosol, weathering, USA; 01481. Mississippian, Burlington Keokuk Formation, brine, trace element, diagenesis, carbonate, fractionation, USA; 05937. Mississippian, packstone, cementation, diagenesis, neomorphism, St. Louis Limestone, Ste. Genevieve Limestone, USA, Kansas, Gray County; 09316. Mississippian, Salem limestone, stylolitisation, pore space, diagenesis, permeability, cementation, USA, Indiana; 00123. Mississippian, sandstone, Kekiktuk Formation, silica, cementation, burial history, USA, Alaska, North Slope, 1 Leffingwell well; 09315. neutron log, laboratory measurement, sediment core, Atlantic, Meteor Rise; ODP Hole 704B; 13000. ooid, spine, diagenesis, aragonite, compaction, Tunisia, Sebkha el Melah; 03514. permeability, carbonate, laboratory value, Atlantic, (Northwest); Bahamas, Great Bahama Bank; 05804. permeability, hydrocarbon reservoir, infiltration, interstitial clay, Sergi Formation, surface water, Jurassic, Brazil, Reconcavo Basin; 05801. permeability, oolitic sediment, particle packing, laboratory method, microfabric, Atlantic, (Northwest); Bahamas, Great Bahama Bank; 05805. permeability, pore geometry, hydrocarbon, chalk, Cretaceous, North Sea; Greece; UK, England; 03505. pore fluid, forearc basin, Quaternary, cement, carbonate, Pacific, Peru Margin; 01195. pressure, gold, uranium, fluid, interstitial water, temperature, South Africa, Witwatersrand Basin; 02447. root, stress, soil, biopore channel, 03957. rotary cultivator, soil structure, 03955. sandstone, diagenesis, siliciclastic rock, burial, pressure solution, 12914. saturated hydraulic conductivity, glacial till slope, slope, hydraulic conductivity, Sweden; 07381. shale, sandstone, cement, pore, reservoir, 06955. Sisquoc Formation, Monterey Formation, burial history, Neogene, bulk density, USA, California, Point Pedernales; 10503. soil void, soil aggregate, aeration porosity, irrigation, specific volume, 10862. soil water content, bulk density, 00388. soil water, air filled porosity, paludified mineral soil, peatland, water table depth, aeration, water potential, soil aeration, forest ploughing, Finland, Karelia; 10847. specific surface, biofilm growth, porous medium, dispersivity, groundwater flow, inverse problem, pore geometry, solute transport, solute flux, permeability, 06375. stylolite, compaction, cementation, sandstone, pressure solution, 02385. subsidence, basin evolution, backstripping, sedimentation, 02408. temperature, sandstone, diagenesis, compaction, burial history, Thailand, Gulf of Thailand, Pattani Basin; 03608. tillage, soil physical property, micromorphological characteristic, 01542. time net, groundwater flow method, flow net, coastal aquifer, Glover model, exit time, hydraulic conductivity, 13409. water extraction, interstitial water, sediment core, centrifugation, pore water, 10660. water holding capacity, forest soil, soil moisture content, litter layer, soil hydro-ecology, specific volume, specific weight, capillary water, China, Tianmu Mountain; 02957. water temperature, water column, seasonal variation, Biot theory, USA, Gulf of Mexico; 10497.
porosity model
ion exclusion, exchange process, groundwater flow, diffusion, advection dispersion, solute transport, clay, UK, England, London; 09844.
porosity preservation
laumontite, zeolite, Manda Bed, Triassic, diagenesis, Tanzania, Ruhuhu Basin; 08272.
porosity ratio
dispersivity, matrix diffusion, parameter estimation, tracer test, solute transport, groundwater contamination, fissured media, 09867.
porosity saturation variation
Peclet number, saturated flow, unsaturated flow, groundwater flow, one dimensional flow, mass transport equation, Galerkin finite element method, convection, dispersion, 07526.
porous barrier
vorticity equation, Reynolds stress, simplified equation, perturbation analysis, turbulent flow, 12307.
porous block
groundwater flow, volcanic tuff, unsaturated zone, nuclear waste repository, Van Genuchten Mualem characteristic curve, water absorption, USA, Nevada, Yucca Mountain; 09840.
porous cup sampler
cup conductance, groundwater contamination, soil, pore water, unsaturated soil, cup property, sampler geometry, vacuum, 04131.
porous ice
polycrystalline ice, crystal anisotropy, crack nucleation, elastic anisotropy, 07293.
porous media
biofilm, pore space, engineering, biomass, 02433. compressible fluid, Bessel function, groundwater flow, multiple porosity, multiple permeability, 04122. contaminant transport, groundwater flow, fluid viscosity difference, dispersion, mass transfer, viscous fingering, non-uniform flow, granular media, 07567. hydrocarbon, swelling, clay mineral, filtration, 02299. water content, pore radius, hydraulic conductivity, 00371. water flow, heat transfer, basin, pressure, compaction, 09311.
porous medium
bacteria, biofilm growth, groundwater contamination, hydraulic conductivity, permeability reduction, 06373. biofilm growth, Millington and Quirk permeability model, groundwater contamination, permeability reduction, permeability model, pore size distribution, Kozeny-Carman permeability model, Mualem permeability model, Childs and Collis-George permeability model, 06374. dispersivity, groundwater flow, inverse problem, pore geometry, solute transport, solute flux, permeability, porosity, specific surface, biofilm growth, 06375.
porous tuff
groundwater flow simulation, hydraulic conductivity, fracture transmissivity, fracture flow, dispersivity, solute transport, 12245.
porphyrin
biomarker, bacteria, palaeoenvironment, Messel Shale, Greenhorn Formation, 07091. heterotroph, methanogen, diagenesis, Eocene, lake, Cretaceous, pelagic environment, 12968. tandem mass spectrometry, chert, crude oil, Tunisia, Gafsa Basin; 03665.
Porphyroskelic fabric
micromorphology, cryoturbation, soil structure, turbic cryosol, pattern ground, mud hummock, Canada, Yukon Territory, Herschel Island; 13184.
port
estuarine, geomattress, technology, bed protection, India, West Bengal, Hugli River; Haldia; India, West Bengal, Calcutta; 11712. estuary, discharge, tidal range, braided pattern, dredging, China, Changjiang Estuary, Shanghai; Hangzhou Wan, Shanghai; 01218. sea water, muddy coast, dredging, marine resource, China, Lianyungang; 04794. siltation, engineering, harbour, gamma ray density gauge, China, Lianyun Harbour; 02491.
portable computer
expert system, drilling risk, well hydrodynamics, groundwater exploration, groundwater resource, HYDROLAB computer model, Cameroon; 06418.
portable equipment
wind erosion tunnel, soil erodibility, aerodynamics, 00357.
Portneuf Till
deglaciation varve, Deschambault Varve, lodgement till, Sainte Anne diamicton, Becancour Till, varve, St. Pierre Sediment, Canada, Quebec, Sainte-Anne-de-la-Perade; 13115.

portolan map
nautical map, Mediterranean; 01071.
pose clustering
matching, dihedral junction, vision, 13784. reconstruction, RST transformation, 10309.
pose verification
object recognition, dihedral junction, 10315.
position
velocity, Lasertrace, measurement system, accuracy, 04477.
position finding
level, Channel Tunnel, excavating, 12618.
position fixing
ship position, simulation and matching, coastal image, radar, 02133.
position related activity
GIS, survey control, Canada, Alberta; 01015.
positional accuracy
data quality, digital geographical product, Statistics Canada, Circular Map Accuracy Standard, 01022.
positional data
data capture, storage, cartographic data, 13863.
positional data accurate transformation
positional data rapid transformation, ground survey, datum, 06723.
positional data rapid transformation
ground survey, datum, positional data accurate transformation, 06723.
positional data revision
spatial information system, datum redefinition, datum transformation, optimal modelling, 07950. topological relationship, spatial information system, geodetic reference system, coordinate system, 01014.
positional error ellipsoid
VLBI, sea level monitoring, 10256.
positional uncertainty
linear model, variance component analysis, digital map, coordinate data, 05577.
positioning
GPS survey, pseudo range data, Antarctica; 07947. gravity field, plate tectonics, deformation analysis, geodetic technology, 00973. recognition, intensity, polyhedra, 04504.
positioning system
GIS, video data, GPS, 01010.
positive feedback
feedback amplification, volcanic activity, extraterrestrial disturbance, Younger Dryas, cold spell cause, deep sea record, climatic change, last deglaciation, Nordic heat pump, heat pumping mechanism, 07193. global warming, deglaciation trigger, glaciation extent, marine gas hydrate, methane, thermal decomposition, climatic warming, sea level rising, 10734. sea surface temperature, cloud climatology, marine stratocumulus, stratocumulus, cloud climate interaction, climate feedback, 12374.
positive flash
return stroke, negative flash, lightning characteristic, lake effect, thunderstorm, North America, Great Lakes; 08838.
positive ion
rocket flight, heterogeneous chemical process, water vapour, methane, formaldehyde, hydrogen peroxide, hydrogen cyanide, mesosphere, 00785.
positive lightning
cloud to ground lightning, lightning, mesoscale system, convective system, flash, charge structure, stratiform precipitation, ice-ice interaction, 12315.
post adjustment assessment
levelling network, network error, 10266.
post depositional process
rock shelter, Pleistocene(Late), palaeoenvironment, radiocarbon dating, pollen analysis, depositional process, Italy, Venetio Region; 06163.
post depositional weathering
carbonate content, till, geochemical profile, mineralogical profile, weathered till, fresh till, diagenetic alteration, Canada, Quebec, Appalachian Region; 06209. pluvial period, loess, loess like deposit, palaeoclimatic significance, Pleistocene(Upper), dust, steppe environment, France; Italy; Africa, (North); 07216. scanning electron microscope, zircon, rutile, podsol, chronosequence, aeolian sand, soil age, pedogenic change, weathering, Australia, Queensland, Cooloola; 09629.
post glacial
desiccation, desertification, arid land, overgrazing, deforestation, salinisation, dryland, desert degradation, 11937. pollen, Bolling, Older Dryas, Allerod, UK, Scotland, Fife; 13151. rebound model, long period variation, sea level variation, global tide, tide gauge data, North Sea; 13170. sea level history, Weichselian(Late), Holocene, raised beach sequence, emergence rate, transgression, standline tilt, glacier load, Svalbard, Spitsbergen; 05039. sea level rise, dating, coral reef terraces, rise rate, Younger Dryas, New Guinea, Huon Peninsula; 06187. vegetational change, catchment event, pollen analysis, multiple profile, Late Glacial, UK, Scotland, Fife, Black Loch; 13150.
post glacial colonisation
warming, salmonid community, temperature relation, climate change, Canada, Labrador; Quebec; 12487.
post glacial condition
glacial landform, landscape component, ecosystem, mountain building process, Switzerland; 06003.
post glacial history
vegetation history, Bolling, Late Glacial, radiocarbon date, anthropogenic influence, pollen analysis, Germany, Bavaria, Rhon, Schwarzes Moor; Grabfeld; Germany, Bavaria, Rhon, Lange Berge; 09592.
post glacial landscape
badland, melt water, gully, pinnacle, mound, mesa, Canada, Alberta, Dinosaur Provincial Park; 11893.
post glacial marine clay
marine clay, undisturbed strength, remoulded strength, quick clay, flocculation, oxide mineral, sensitive marine clay, Canada; 08385.
post glacial period
radiocarbon dating, Holocene, mire ecosystem, peat, Finland; 09590.
post glacial rebound
mantle compressibility, mantle viscosity, post glacial relaxation, viscous, stratification, compressible mantle, 07165. mantle viscosity, isostatic adjustment, radiocarbon dating, glacioisostacy, ICE 3G model, Pleistocene(Late), deglaciation, sea level change, 13076. resolving power analysis, inverse theory, mantle viscosity, isostatic adjustment, glacial isostasy, rebound inversion, 07164. rheology, lithospheric parameter, glacial isostasy, sea level, mantle rheology, viscosity, Earth, 13025. rotational signature, hard transition zone, post glacial uplift, geophysical signature, 13028. tomographic result, uplift modelling, lateral variation, viscosity, Fennoscandia; 13031.
post glacial relaxation
viscous, stratification, compressible mantle, post glacial rebound, mantle compressibility, mantle viscosity, 07165.
post glacial uplift
geophysical signature, post glacial rebound, rotational signature, hard transition zone, 13028.
post glacial woodland
charcoal analysis, pollen analysis, fire climax woodland, anthropogenic fire, fire, man, UK, England, East Anglia; 05018.
post industrial sediment
pore water chemistry, current, particle deposition, organic matter, bottom topography, nitrogen, North Sea, Skagerrak; 08182.
post Miocene
diagenetic history, eustatic history, model, data, sea level, magnetic polarity reversal, comparison, Pacific, Enewetak Atoll; 02685.
post rain attenuation
microwave, vertical transport, water vapour, 05697.
post-glacial
sea-level, lowstand, glacioisostatic response, isostatic response, deglacial downdraw, seismic-stratigraphic, geomorphic evidence, USA, Maine, Gulf of Maine; 11982. vegetation history, peat profile, radiocarbon, forest-tundra vegetation, pollen analysis, Canada, Yukon Territory, Ittlemit Lake; 11964.
post-glacial rebound
water load, uplift, computer simulation, 02528.
post-Tioga fault scarp
slope process, soil development rate, fault scarp dating, soil catena development, fault scarp, USA, California, Sierra Nevada; 02530.
postal code
GIS, socio economic variable, demographic variable, Canada; 13995. GIS, statistical area, street network, Canada; 13967. Statistics Canada, boundary file, census tract, street network file, Canada; 01031.
postal zip code
planning responsibility, urban area mapping, address matching, USA, New York, Broome County; 08021.
postglacial
climatic change, landuse, slope failure history, palaeoenvironmental history, marine terrace, tephrochronology, pollen analysis, radiocarbon dating, Allerod Interstadial, Japan, Hokkaido, Hidaka District; 08401. deglaciation, landslide, seismite, Quaternary(Late), faulting, palaeoseismicity, fault scarp, Late-Glacial, Sweden, Lansjarv Area; 08363. environmental history, sea level, lateglacial, UK, Isle of Man; 06151. Late Glacial, vegetation, pollen analysis, France, Massif Central, Haute Loire; 09584. palaeoceanography, stratigraphic, microfaunal, palynological evidence, Tyrrell Sea, latitudinal gradient, biogenic productivity, Canada, Hudson Bay; 04973. periglacial, landform, Devensian age, moraine, Dimlington Stadial, vegetation history, mass movement, corrie development, particle size analysis, SEM surface texture, UK, England, Derbyshire, Seal Edge, Middle Seal Clough; 06197. sea level, glaciation, ice free period, speleothem fragment, cave, Norway; 06160. terrace chronology, lateral erosion, climatic change, channel condition, valley side, slope development, Last Glacial Stage, fluvial terrace, alluvial cone, tephra cover, Shikotsu pumice fall, Eniwa "a' pumice fall, Tarumae "d' pumice fall, Tokachi "c-2' ash fall, tephrochronological analysis, Last Glacial, Japan, Hokkaido, Tokachi Plain; 04922. uplift rate, coseismic uplift, radiocarbon date, sea level, Holocene, marine terrace, earthquake, New Zealand, North Island, Pourerere; Aramoana; 06190.
postglacial adjustment
isostatic model, sea level curve, relative sea level, technique uplift hypothesis, postglacial uplift, raised beach, ice sheet extent, ice sheet thickness, Innuitian Ice Sheet, Canada; 11940.
postglacial deposit
cirque, intramorainic depression, lithostratigraphic unit, Atlantic period, subBoreal, subAtlantic, slope erosion, Little Ice Age, human disturbance, Poland, Tatra Mountains; 09601. Quaternary fill, intramorainic depression, cirque, lithostratigraphic unit, Atlantic period, Subboreal, radiocarbon date, deforestation, slope degradation, sedimentation, Poland, Tatra MountainsStarorobocianski Cirque; 11971.
postglacial emergence
Holocene, marine transgression, eustatic, glacio-isostatic, peripheral forebulge, transgression, Svalbard, Spitsbergen; 02687.
postglacial faulting
deplaced glacial striae, glacial erosion, striae, glaciotectonic loading, unloading, glacigenic, Canada, New Brunswick, Saint John; 04999.
postglacial history
environmental history, valley mire sediment, archaeological excavation, pollen data, Mesolithic, Neolithic, Bronze Age, arable agriculture, UK, England, Cheshire, Tatton Park; 10784. glacio-isostatically adjustment, palaeohydrology, incision, aggradation, river terrace, flood plain, evapotranspiration, Finland, Ivalojoki River; Oulankajoki River; 11848.
postglacial isostatic sea
Champlain Sea invasion, Illinoian-Sangamonian transition, Wisconsinan, La Perade Clay, marine episode, Cartier Sea, fauna, radiocarbon date, Canada, Quebec, St Lawrence Valley; 02659.
postglacial landscape history
stratigraphic study, pollen analysis, peat bog, agricultural activity, radiocarbon date, Norway, Trondheim, Dragvoll; 02669.
postglacial marine invasion
radiocarbon dating, piston core, microfossil, freshwater lake, Weichselian times, sea level, timing, Indonesia, Halmahera, Kau Bay; 02682.

postglacial marine limit
deglaciation, glacio isostatic rebound, pumice, Weichselian(Late), glaciation, Holocene, shore displacement, glacial sculpture, lake sediment, Svalbard, Nordaustlandet, Prins Oscars Land; 07278.
postglacial marine terrace
thermal regime, sandy postglacial soil, soil temperature measurement, permafrost, Canada, Quebec, Kangiqsualujjuaq; 03912.
postglacial rebound
heat flux, geoid anomaly, plate velocity, sea level, asthenospheric viscosity, deglaciation, mantle viscosity, model, 13029. secular change, sea level change, tide gauge, deglaciation, glacier melting, eustatic rise, 13162.
postglacial relief
deglaciation, kame hill, ice moraine, melted form, melt water runoff, relief, lowland zone, Poland, Biala Podlaska; 07242.
Postglacial sea
geological evolution, groundwater, aquifer, Denmark, Aarhus, Brabrand valley; 05022.
postglacial sea level
glacial deposit, Quaternary stratigraphy, deglaciation, sea level, isostatic shift, UK, Isle of Man; 13131.
postglacial shoreline displacement
shoreline displacement, late glacial, glaciation, Older Dryas, Younger Dryas, Iceland, Skagi Peninsula; 03907.
postglacial transgression
human activity, landform, Pleistocene upland, Holocene lowland, terrace surface, tephra layer, Japan, Tokyo; 02519. Kandogawa Formation, Sambe Ohirayama pyroclastic flow, bedrock topography, transgression, sea level, geomorphological development, alluvial plain, microrelief, deltaic plain, stratigraphy, tephrochronology, Tatara, Aira Tn ash, tephra, Hikawa Formation, Japan, Izumo Plain; 08350.
postglacial uplift
raised beach, ice sheet extent, ice sheet thickness, Innuitian Ice Sheet, postglacial adjustment, isostatic model, sea level curve, relative sea level, technique uplift hypothesis, Canada; 11940.
postglacial vegetation
vegetational history, pollen analysis, biostratigraphic regional synthesis, France, Western Pyrenees; 08479.
postglacial vegetation change
tree line advance, forest tundra boundary, Holocene, vegetation change, tree line, radiocarbon dated core, Canada, Northwest Territories, Yellowknife; 03888.
PostScript image setter
desktop mapping system, colour separation, 10361.
postseismic relaxation
tide gauge, subduction zone, eustatic rise, sea level, earthquake, postseismic uplift, coseismic uplift, uplift rate, USA, Alaska; 09503.
postseismic uplift
coseismic uplift, uplift rate, postseismic relaxation, tide gauge, subduction zone, eustatic rise, sea level, earthquake, USA, Alaska; 09503.
postsettlement deposition
sediment basin, sediment transport, fly ash, spatial variability, soil erosion acceleration, overland flow, rain splash transport, freeze thaw, depositional quantification, USA, Illinois; 08540.
postwar condition
nitrogen oxide, nuclear fireball, smoke, stratospheric air, ozone depletion, 11332.
potabilisation process
chemical degradation, toxicology, pesticide, drinking water contamination, water quality, microbial degradation, xenobiotic, 11088.
potable water
acidification, atmospheric deposition, water quality, toxicity, water quality, health, aluminium, 00496. arsenic, sodium hydroxide, sand filter, sorption screening test, groundwater quality, 12289. artificial recharge, dune, recharge, deep well, infiltration, ecological impact, groundwater recharge, Netherlands, North Holland Dunes Area; 07576. artificial recharge, recharge, deep well infiltration, environmental impact, groundwater recharge, Netherlands, North Holland Dune Area; 07552. cyanobacteria, toxin, surface water quality, cytotoxicity assay, immuno assay, bioassay, chromatographic assay, blue-green algae, Europe; 00569. disinfectant, bacteria, virus, protozoan cyst, by product, groundwater treatment, water purification, ultraviolet technology, ultraviolet disinfection, USA; 00641. Dissolved Air Flotation, filtration, sedimentation, water treatment, surface water quality, eutrophication, South Africa; 05195. ground water quality, trace element, neutron activation analysis, chemical parameter, chromium, cadmium, chemical analysis, India, Patiala; 05230. groundwater resource, aquifer hydrodynamic, geothermal energy recovery, salinity, detritic element, gravity flow, compaction flow, Triassic aquifer, Africa, Sahara; Algeria; Tunisia; 05212. halo acetic acid, chlorine disinfection, chlorinated acid, brominated acid, water quality management, water treatment, Netherlands; 13459. industrial pollutant, organic water quality, groundwater contamination, chlorinated solvent, UK, England, Birmingham; 01730. pesticide dynamics, water quality, soil property, UK, England, Lincolnshire, Sleaford; 07582. radon tracing, groundwater exploitation, groundwater resource, groundwater prospecting, irrigation development, Burkina Faso; 02977. sedimentation, filtration, dissolved air flotation, micropollutant, taste problem, odour problem, surface water quality, eutrophication, South Africa; 07503. sewerage, institutional arrangement, water supply, sanitation, Philippines; 04174. surface water contamination, PAH, risk assessment, highway runoff, 00562. urban water supply, rural water supply, water resource development, water supply, Malaysia; 04171. village water demand, water demand model, water demand behaviour, Kenya, Ukunda; 00646. water chemistry, carbonate, bicarbonate, pH, anionic mineral species, ozone decomposition, 07449. water management, water distribution network, commercial management, technical management, Switzerland, Lausanne; 01770. water quality analysis, industrial pollutant, neutron activation analysis, chromium, cadmium, alkali, groundwater quality, India, Patiala; 02920. water quality management, water treatment, water purification, pesticide removal, 00658. water quality monitoring, alarm system, radioactive contamination, oil pollution, water resource management, surface water quality, Portugal, Tejo River; 00566. water quality protection, water resource management, point of use-point of entry device, 04168. water quality, toxicity, health problem, heavy metals, USA, Kansas, Galena; 01768. water quality, water treatment, nitrate, nitrate elimination process, ion exchange, heterotrophic biological treatment, 00652. water resource management, water tariff, water supply, water quality, Japan; 04170. waterborne disease, groundwater quality, groundwater contamination, sewage disposal, waste water, well design, Congo, Brazzaville Aquifer; 06379.
potable water demand
island hydrology, groundwater resource, salt water intrusion, freshwater lens, groundwater flow model, Pacific, Nauru Island; 02973.
potable water quality
remedial technique, Freundlichs sorption isotherm equation, sorption mechanism, pesticide, water treatment, charcoal, DDT, 07500.
potable water treatment
water quality management, nitrogen removal process, waste water treatment, ammonia removal, suspended solids retention, biological purification, biological aerated filter, aerobic degradation, 00656.
potash
brine, basin, fluid inclusion, evaporite, 11733. palynology, evaporite, Rhinegraben, Oligocene, organic matter, France, Alsace, Mulhouse; 07053.
potassium
ammonium, anion, organic acid, cation, aerosol, precipitation chemistry, sampling, rain water, ion chromatography, chloride, nitrate, sulphate, sodium, 03186. ammonium, magnesium, calcium, fluoride, chloride, bromide, nitrate, sulphate, precipitation, nitric acid, sulphuric acid, hydrochloric acid, precipitation chemistry, sea salt, sodium, Japan, Tokyo; 00856. ammonium, nitrate, snowpack chemistry, meltwater, forest floor leachate, chemical transformation, sodium, chloride, sulphate, hydrogen, USA, New York, Adirondacks; 02936. ammonium, soil clay mineral, subsoil, ternary exchange, binary exchange, USA, Kentucky; 00421. biotite, muscovite, particle size, adsorption, India; 01611. calcium, illitic soil, kaolinitic soil, exchange equilibrium, smectitic soil, exchangeable potassium percentage, India; 12119. calcium, magnesium, sodium, sulfite, nitrite, acid deposition, dry deposition, nitrate, carbonate, sulphate, dew chemistry, frost, USA, Indiana, Indianapolis; 05512. calcium, potassium calcium exchange, adsorption kinetics, stirred flow chamber, clay mineral, vermiculite, montmorillonite, USA, Texas, Llano; Arizona; 07395. chloride, dry season, air mass, marine origin, precipitation chemistry, wet season, sodium, Brazil, Amazon; 10208. diffusion coefficient, non exchangeable potassium, cation saturated resin, Vertisol, Alfisol, Inceptisol, release kinetics, India; 08633. extractant procedure, plant available potassium, predictive model, soil extractant, available potassium, Canada, Ontario; 08614. fertiliser addition, Vertisol, electro ultrafiltration, phosphorus, Italy; 07383. fire, preharvest burning, stream flow, water quality, nutrient, nitrate nitrogen, ammonium nitrogen, phosphate, calcium, magnesium, sodium, 06323. foliar washoff, acid rain, rainfall, deposition, washoff, forest, tree, leaf, dry deposition, sulphate, 13665. green alga, Chloromonas, acid rain, snow algae, snow chemistry, sulphate, nitrate, ammonium, USA, New York; Canada, Quebec; 04406. illitic soil, smectitic soil, kaolinitic soil, exchange equilibrium, India; 12118. kinetics, electrode response time, ion selective electrode, 05091. lanthanum, manganese, titanium, elemental composition, chlorine, iodine, arsenic, nitrate, ammonium, sulphate, vanadium, zinc, trace element, aerosol, bromine, aluminium, calcium, cobalt, iron, Arctic; Canada, Ellesmere Island, Alert; 02030. loess, conservation, tillage effect, USA, Kentucky; 00462. magnesium, calcium, chloride, sulphate, pine needle, sea salt, marine aerosol, storm, dry deposition, sodium, Sweden; 03219. magnesium, salt type, precipitation, bromine, chloride, Poland, Puck Gulf; 12932. magnesium, sodium, calcium, subsurface flow, silicate hydrolysis, acid neutralisation capacity, surface water chemistry, precipitation chemistry, throughfall chemistry, soil water chemistry, forest catchment, Spain, Montseny Mountains; 04090. manganese, boron, calcium, molybdenum, forest plant, herbarium plant, precipitation, soil acidification, mineral weathering, strontium, titanium, zinc, cadmium, rubidium, Norway; 00933. microbial activity, Haploboroll, microwave-radiation treatment, incubation effect, resin-extractable nutrient, calcium, magnesium, phosphorus, USA, Montana; 12095. nickel, lead, zinc, cadmium, chromium, aerosol, heavy metals, particle, sampling, sulphate, calcium, iron, magnesium, Spain, Valladolid; 03179. nitrogen, microbial sulphur, soil flush, pastoral soil, sulphur, plant root, phosphorus, New Zealand; 07366. organic matter, potassium calcium exchange, exchange equilibrium, Anglberg, Ottenhofen, Buchhofen, Germany; 08588. oxalate, vermiculute, hydroxy vermiculite, interlayered vermiculite, secondary mineral, nonexchangeable potassium, quartzipsamment, USA, Southeastern Coastal Plain; 07378. pH, deposition, fossil fuel, cement, long range transport, acid precipitation, sulphate, acidity, alkalinity, nitrate, chloride, fluoride, ammonium, calcium, magnesium, sodium, USA, New York, Albany; 04436. phosphate, sodium, chloride, pH, aluminium concentration, iron, clearfelling, drainage water chemistry, forest hydrology, seasonal variability, nitrate, 04155. phosphorus, double equilibration soil test, Mehlich III, Bray Kurtz 1, fixation, USA, Arkansas; 07411. phosphorus, electro ultrafiltration, Vertisol, phosphorus desorption, desorption rate, Italy; 07384. quantity-intensity relationship, calcareous soil, buffering capacity, potassium quantity-intensity, 12079. reservoir, nutrient loss, sediment loss, surface water quality, catchment study, pasture improvement, streamflow, upland management, runoff, nitrate, eutrophication, phosphorus, UK, Wales, Nant-y-Moch; 02947. sandstone, sodium, dissolution, burial temperature, feldspar, reservoir, albite, Norway, Norwegian Shelf; 02474. shear strength, magnesium, exchangeable cation, tensile strength, soil mechanical property, sodium, calcium, 13221. soil nutrient, beach plain, phosphorus, spatial variation, temporal variation, nitrogen, Netherlands; 06257. soil suspension, concentration ratio, quantity intensity relationship, ion selective electrode, USA, Iowa; 08605. solution, toxicity, arsenic, birnessite, oxidation, 03654. strontium, rubidium, cascade impactor, isotope dilution mass spectrometry, sea salt, dust, aerosol, Pacific easterly, lead, barium, Pacific, American Samoa; 02044. structural formula, solubility, equilibration method,

illite, 11810. surface level concentration, deposition, dry deposition, aerosol, precipitation, scavenging ratio, calcium, sodium, magnesium, 07887. vermiculite, X-ray powder diffraction, interstratification, ion exchange, magnesium, Malawi; 03679. zinc, calcium, manganese, magnesium, cadmium, silicon, sulphur, marine aerosol, soil particle, aerosol, urban atmosphere, carbon, sulphate, nitrate, ammonium,, chloride, aluminium, sodium, copper, nickel, Japan, Sapporo; 03199.

potassium adsorption
buffering capacity, copper, cadmium, 00409.

potassium availability
electro ultrafiltration technique, alfalfa, potassium supplying power, extraction technique, fertiliser, Canada, Quebec; 10926.

potassium calcium exchange
adsorption kinetics, stirred flow chamber, clay mineral, vermiculite, montmorillonite, potassium, calcium, USA, Texas, Llano; Arizona; 07395. exchange equilibrium, Anglberg, Ottenhofen, Buchhofen, potassium, organic matter, Germany; 08588.

potassium chloride
ammonium acetate, aluminium, cation exchange capacity, aluminium saturation, exchangeable cation, ammonium chloride, 07398.

potassium depletion
fertiliser, semi-arid soil, India; 02813.

potassium enrichment
sea water, ocean, crustal element, wet deposition, chemical analysis, rain sample, calcium enrichment, Pacific; 11335.

potassium exchange
calcareous soil, montmorillonitic soil, binary system, ternary system, selectivity coefficient, 10888.

potassium fertilisation
simulation model, multicomponent transport model, water transport, matter transport, leaching, cation leaching, 08576.

potassium fertiliser
fertiliser application, sod podsolic soil, organic compound, nitrogen compound, USSR, Ramenskaya; 10876.

potassium hydroxide
pollution control, oxidant, annular denuder, ozone, nitrogen dioxide, nitric acid, peroxyacetyl nitrate, formaldehyde, potassium iodide, phenoxazine, sodium carbonate, 00878.

potassium illite
pH, critical coagulation concentration, sodium illite, 00372.

potassium iodide
phenoxazine, sodium carbonate, potassium hydroxide, pollution control, oxidant, annular denuder, ozone, nitrogen dioxide, nitric acid, peroxyacetyl nitrate, formaldehyde, 00878.

potassium iodide tracer
unsaturated soil, frozen soil, macropore channel, preferential water movement, glacial till, snow melt, groundwater movement, 05240.

potassium permanganate
potassium permanganated silicagel solid adsorption, atomic absorption spectrometry, ozone, sampling, arsine, ultraviolet radiation, 03159.

potassium permanganated silicagel solid adsorption
atomic absorption spectrometry, ozone, sampling, arsine, ultraviolet radiation, potassium permanganate, 03159.

potassium quantity-intensity
potassium, quantity-intensity relationship, calcareous soil, buffering capacity, 12079.

potassium rate
exchangeable potassium, fertiliser, soil property, potassium supply, 07369.

potassium supply
potassium rate, exchangeable potassium, fertiliser, soil property, 07369.

potassium supplying power
extraction technique, fertiliser, potassium availability, electro ultrafiltration technique, alfalfa, Canada, Quebec; 10926.

potassium-calcium exchange
sodium-calcium exchange, ion transport, unsteady water flow, cation exchange, clay soil, 00384.

potassium/argon dating
tectonically active island, mountain ice cap, radiocarbon age, last glaciation, Equilibrium Line Altitude, moraine limit, neoglacial cooling, Quaternary glaciation, weathered glacial deposit, New Guinea; 02633.

potato
maize, cassava, soil surface temperature, crop cover, surface temperature, vegetative cover, biomass, USA, Hawaii; 08870.

potato area estimation
crop monitoring, crop condition assessment, Canada; 10417.

potato cropping
water runoff, soil erosion, soil loss, rainfall erosion index, erodibility, USLE, rainfall erosion index, topographic factor, soil erodibility factor, Canada, New Brunswick; 00358.

potential
erosion, erosion hazard, soil erosion, actual, Zimbabwe; 12039.

potential denitrification activity
denitrification, nitrification, tillage, microbial activity, Gilpin silt loam, potential nitrification activity, 12061.

potential earthquake segment
surface faulting, fault segmentation, surface rupture, earthquake, extensional tectonic setting, USA, Basin and Range Province; 08357.

potential enstrophy dissipating
enstrophy, dissipation, shallow water equation, energy conservation, 11251.

potential erosion
mined, reclaimed land, prediction, sediment yield, USLE, USLE parameter, soil loss tolerance level, nonparametric approach, USA, Pennsylvania; 02725.

potential evaporation
heat flux density, soil moisture, mountainous terrain, evaporation, alpine tundra, water balance, energy balance, Canada, Cordillera; 08658.

potential evapotranspiration
climate change, hydrological regime, water resource, water balance model, runoff, precipitation, China; 10989. neutron probe, soil moisture content, pasture growth, crop water use, silt loam, Penman equation, soil moisture deficit, New Zealand, Christchurch; 04108. precipitation, root zone capacity, irrigation map, map, irrigation water requirement, irrigation need, climate data, soil classification, Denmark; 00634. rainfall-runoff model, HYDROLOG, groundwater recharge, Horton's equation, surface watershed model, water balance model, Australia, Victoria, Campaspe River Basin; 01653. soil water balance, plant physiology, database, cultural practice, wateruse efficiency, evaporation, crop water requirement, Africa, Sudan; Sahel; 12142. traditional agriculture, soil moisture retention, soil moisture content, rainfall variability, agricultural calendar, Benin, Upper Borou; 06426. water balance, groundwater recharge, Penman estimate, lysimeter, pan evaporation, soil moisture deficit, water table level, transpiration, evaporation, actual evapotranspiration, UK, Northern Ireland, Coleraine; 09790. water body proximity, model calibration, Penman model, Baier and Robertson model, evapotranspiration equation, cold air drainage, wind velocity, Canada, Quebec; 07460.

potential field
digital data, geologic data, geophysics, USA; Canada; 04606.

potential field anomaly
processing map, field map, gradient tensor, 09095.

potential gradient
electric field, conductivity, Ohms law, electricity, Finland, Helsinki-Vantaa Airport; 07660.

potential gully erosion
gully erosion, geographical information system, luvisol, Mexico, Hidalgo; 09635.

potential mineralisation rate
cropping practice, Chernozem, organic matter, organic nitrogen, nitrogen mineralisation, Canada, Saskatchewan, Indian Head; 13240.

potential nitrification activity
potential denitrification activity, denitrification, nitrification, tillage, microbial activity, Gilpin silt loam, 12061.

potential sediment input
sea ice characteristic, sediment inclusion, deep sea deposition, rafting, Arctic Ocean; Antarctica; 02699.

potential sliding layer
avalanche release, snowpack structure, recrystallisation process, temperature gradient, New Zealand, Craigieburn Range; 03837.

potential temperature
boundary layer, local similarity theory, Monin-Obukhov similarity theory, stratification, turbulence, vertical velocity, Australia; 03064. gravity wave, wave, variability, stratosphere, Arctic; 00759. ozone, ozonesonde, lidar, satellite profile, polar vortex, stratosphere, nitrogen dioxide, potential vorticity, 00828. potential vorticity, polar vortex, ozone depletion, chlorine monoxide, bromine monoxide, Arctic; 00918. satellite data, aircraft data, nitrogen dioxide, ozone, potential vorticity, Arctic; 00829. specific humidity, wind profile, radiosonde, surface roughness, surface flux, Monin-Obukhov layer, temperature, humidity, complex hilly grassland, USA, Kansas; 01846. stable stratification, precipitation, foehn, synoptic data, air mass, Italy, Po Valley; Europe, Alps; 04225. stratosphere, chlorine nitrate, chlorine compound, nitrogen oxide, nitric acid, hydrogen chloride, transport, potential vorticity, Arctic; 00831. temperature profile, humidity profile, unstable boundary layer, radiosonde, Bowen ratio, humidity, USA, Kansas; 05397. vortex, orographically induced mesoscale vortex, Denver Cyclone, mesoscale vortex, low level convergence, USA, Colorado, Denver; 05418. wind velocity, sensible heat flux, surface roughness, nocturnal cooling, topographic parameter, 04251.

potential transpiration
actual evaporation, Priestly Taylor equation, runoff, Penman equation, evaporation, transpiration, bare soil surface, Africa, Sudan; Sahel; Niger; 12156.

potential vorticity
baroclinic wave, air-sea interaction, sensible heat flux, latent heat flux, slantwise convective adjustment, boundary layer, explosive cyclone, hurricane, wind, temperature, 04273. barotropic calculation, horizontal eddy transport, eddy transport, thermal drive, stratosphere, 10082. cold air blocking, lee cyclogenesis, Alps; 04300. cold front, isentrope, cyclogenesis, frontal cyclone, baroclinic life cycle, 12436. Coriolis parameter, density stratification, baroclinic instability, shear, vertical shear, easterly shear, westerly shear, 00756. cyclone, isentropic surface, cyclone, wave, latent heat release, quasi stationary front, China, Changjiang-Huaihe Valley; 10052. detuning, baroclinic vortice, unstable baroclinic wave, periodic channel, super critical shear, 04259. dissipation, planetary wave critical layer, equivalent barotropic framework, 04266. frontogenesis, semigeostrophic equation, boundary layer, 00760. global transport, equivalent barotropic system, stratosphere, 01877. heat influx, troposphere, Atlantic; 03098. isentropic surface, conservation theory, impermeability theory, 10070. low level front, baroclinic zone, jet, front, Alpine lee cyclogenesis, cyclone, upper level jet, Alps; 04298. ozone depletion, total ozone, winter, TOMS, total ozone, stratospheric warming, 00888. polar vortex, ozone depletion, chlorine monoxide, bromine monoxide, potential temperature, Arctic; 00918. polar vortex, polar stratospheric cloud, wintertime chemistry, nitric acid chemistry, model calculation, 12579. potential temperature, ozone, ozonesonde, lidar, satellite profile, polar vortex, stratosphere, nitrogen dioxide, 00828. potential temperature, satellite data, aircraft data, nitrogen dioxide, ozone, Arctic; 00829. potential temperature, stratosphere, chlorine nitrate, chlorine compound, nitrogen oxide, nitric acid, hydrogen chloride, transport, Arctic; 00831. radiation, stratosphere, 08921. semi geostrophic theory, Eady wave, stability, horizontal shear, shear front, 12442. stability, frontogenesis, air mass, 07767. streamfunction, modon, vorticity, blocking, 01893. trace species, polar stratospheric chemistry, aircraft mission, polar vortex, ozone depletion, Antarctica; 07870. tracer, stratospheric tracer, Ertels potential vorticity, 10069. upper level jet, semi geostrophic flow, orography, stratified rotating atmosphere, lee cyclogenesis, relative vorticity, cyclonic vorticity, convergence, 04278. vortex interaction, cyclogenesis, baroclinic instability, 01914. vorticity anomaly, frontal wave, frontogenesis, rainband, frontal instability, 07766.

potential vorticity analysis

meteorological field, polar air mass, personal computer, 01791.
potential vorticity anomaly
frontogenesis, explosive cyclogenesis, latent heat release, cyclogenesis, tropopause fold, Canada; 01916. instability, long lived convective system, mesoscale convective system, convective system, latent heat release, 12443. jet front system, turbulence, upper level jet front system, 08954.
potential vorticity field
warming, stratosphere, polar vortex, 08922.
potential vorticity flux
enstrophy, nonacceleration theorem, transient eddy, quasi geostrophic eddy, eddy, three dimensional time mean flow, 10071.
potential vorticity inversion
shallow water flow, Rossby number, primitive equation model, barotropic vorticity equation, invertibility principle, 04270.
potential vorticity perturbation
semigeostrophic model, Eady model, zonal wave number, dry surface, frontogenesis, 12441.
potentiometric level
hydrologic perturbation, groundwater regime, coal mine, subsidence, land reclamation, USA, Indiana, Terre Haute; 01757.
potentiometric surface lowering
groundwater divide, irrigated agriculture, water table rise, deep percolation, groundwater flow system, aquifer depletion, USA, California, San Joaquin Valley; 12272.
pothole
reflection face, channel morphology, sill formation, flysch, bed form, 12186.
pothole formation
experimental simulation, helictite, cave study, karstification, karst corrosion, dolomite, mixing corrosion, Hungary; 06053.
pottery
petrology, Neolithic, archaeological site, ceramic, 07118.
Pottery Road Formation
TL dating, sand, clay, interglacial bed, climatic indicator, Sangamonian, Scarborough Formation, Canada, Ontario, Toronto; 07260.
Poulter index
summer, rainfall, sunshine day, UK, Jersey; 01834.
powder snow avalanche
Boussinesq approximation, turbulence, avalanche, snow, numerical simulation, Japan, Niigata Prefecture, Maseguchi; 01411.
power function approximation
flow routing, cross section flow area, wetted perimeter, conveyance factor, flow depth, channel hydraulics, cross section hydraulics, 07476.
power generation
cost effectiveness approach, cost consideration, abatement, carbon dioxide, greenhouse effect, environmental control, 11134.
power law exponent
stable stratification, atmospheric stability, wind profile, 13560.
power plant
dispersion, mixing, jet phase module, nitrogen oxide, plume, 06605. particulate sulphur, source attribution, receptor modelling, long range transport, sulphur, eigenvector, USA, (Western); 11374. plume model, nitrogen dioxide, nitrogen oxide, emission, 02010. plume, night, modelling, ozone, reaction, measurement, nitrogen oxide, 13728.
power plant emission
industrial emission, ozone, air quality, photosmog modelling, pollution, hydrocarbon, nitrogen oxide, emission, 00853.
power plant plume
nitrogen oxide, urban plume, transport-chemistry model, ozone, USA; 00875.
power spectra analysis
sample series, lag, 08822.
power spectral density
GPS, measurement error, airborne gravity measurement, 03295.
power spectrum
Fourier transform, digital texture analysis, ocean wave image, 08115. maximum entropy spectrum, solar radiation, ocean circulation, sea surface temperature, maritime continental contrast, sea ice extent, empirical orthogonal function, 10042. sandstone, mathematical framework, Fourier transform, spatial analysis, petrology, 02484.
power spectrum analysis
empirical orthogonal function, sea surface temperature, interannual oscillation, rainfall, quasi biennial oscillation, China; 12329.
power station
acid deposit, plume, deposition, pollution, stratus cloud, cumulus cloud, precipitation, 04445. meandering river, sandstone, coastal protection, dam, Switzerland, Berne, Lake Wohlen; 05885. motor vehicle, emission, pollution, dispersion modelling, nitrogen oxide, trajectory model, UK; 04424. plume, acid deposition, sulphate, nitrate, precipitating cloud, 07824.
power station waste
fly ash, microbial population, soil, 02758.
powerline corridor
GIS, database, environmental impact, USA, Utah; Nevada; USA, Idaho; 05558.
Poynting flux
auroral kilometric radiation, propagation, polarisation, 03392. magnetic field component, wave phenomenon, VLF, 03393.
Poznan Phase
Gniezno Oscillation, meltwater, terrace, outwash plain, Pleni-Vistulian deposit, Last glaciation maximum, Leszno phase, Poland, Pyzdry Basin, Prosna River, Macew; 00310.
practical need
land classification, hierarchical system, geomorphic systems approach, landscape analysis, USA, Maryland, Piedmont Province; Utah, Uinta Mountains; 11834.
practical research application
mineral, supergene deposit, relief, morphodynamic paradigm, geomorphology, 04926.
Praetiglian Stage
Waltonian, Reuverian Stage, Anglian Stage, Elsterian, Pleistocene(Early), Pleistocene(Early Middle), correlation, faunal data, floral data, palaeoclimatic data, Pastonian Stage, Tiglian(Late), Bramertonian, Tiglian(Middle), Ludhamian, Tiglian(Early), pre Ludhamian, North Sea; 08446.
Prague manuscript
variant, Sydney city plan, research methodology, Australia, New South Wales, Sydney; 13849.
prairie
atmospheric boundary layer, latent heat flux, planetary boundary layer, Bowen Ratio, evaporation, regional evaporation, 13314. Holocene, palaeoecological material, palaeoclimate, vegetational change, forest, USA, Iowa, Roberts Creek; 02428.
prairie ecosystem
grazing, infiltration, grassland ecosystem, Canada, Alberta; 13442.
Prairie Evaporite
Devonian, reef, carbonate, Winnipegosis Formation, salt, Canada, Saskatchewan; 07051.
prairie grassland
nitrogen oxide, ozone, eddy correlation, deposition velocity, USA, Colorado; 06584.
prairie province
pesticide, surface water, Canada; 13960.
prairie snow
snow, temperature, solar altitude, albedo decay, 04217.
prairie soil
Mollisol, forest soil, Entisol, Alfisol, sandy Mollisol, jack pine forest, total nitrogen, organic matter, available water capacity, USA, Minnesota; 08617. pH, clay content, zinc, Canada, Saskatchewan; 05094.
pre Akchagyl relief
pre Apsheron relief, thalweg length, erosional form, palaeogeomorphological reconstruction, magnitude order, buried relief, USSR, Volga Basin, Saratov Region; 08347.
pre alpine basin
mesometeorological temperature field, mesoscale analysis, zeta coordinate system, Yugoslavia, Slovenia; 04287.
pre Apsheron relief
thalweg length, erosional form, palaeogeomorphological reconstruction, magnitude order, buried relief, pre Akchagyl relief, USSR, Volga Basin, Saratov Region; 08347.
pre Boreal
peat, Boreal, tufa, chalk, pollen, France, Eure, Saint-Jean d'Asnieres; 07000.
pre Cromerian age
Anglian age, Pleistocene, gravel, lithology, proto Thames system, UK, England, Norfolk; 06154.
pre event water
soil water chemistry, organic acidity, spate specific flow pathway, surface water quality, acid stream, stream episodicity, tracer study, flow path, Sweden, Svartberget; 13378.
pre industrial acidification
acidification, diatom analysis, lake water quality, historical hydrology, sediment, Norway, Agder, Tveita Fiskelostjern Lake; Erdsal Fiskelostjern Lake; 13347. biogeochemistry, acid deposition, vegetational development, fish extinction, lake water quality, landuse effect, Norway; 13444.
pre late Weichselian
glaciotectonised sediment, marine limit, pollen, Sweden, Vastergotland, Sjotrop area; 05001.
pre Ludhamian
Praetiglian Stage, Waltonian, Reuverian Stage, Anglian Stage, Elsterian, Pleistocene(Early), Pleistocene(Early Middle), correlation, faunal data, floral data, palaeoclimatic data, Pastonian Stage, Tiglian(Late), Bramertonian, Tiglian(Middle), Ludhamian, Tiglian(Early), North Sea; 08446.
pre MAGELLAN name
topographic feature, coordinate, map name, Venus; 07163.
pre press technology
design criteria, digital technology, water supply paper series, 10366.
pre Quaternary
landscape evolution, uplift, relief differentiation, lithostructural control, long term relief, relief development, erosion depth, deep weathering, correlation, UK, Scotland, Highlands; 11866.
pre-diversion Thames
Pleistocene(Middle), Cromerian, palaeomagnetic measurement, Thames-Medway river system, geology, interglacial sediment, borehole, channel sediment, UK, England, Essex, Little Oakley; 02664.
preAnglian
glacial deposit, St. Erth Beds, cave, plateau gravel, UK; 13148.
Preboreal
Bolling, atmospheric radiocarbon, last glacial, radiocarbon date, accelerated mass spectrometry, terrestrial macrofossil, lake sediment, Swedish varve chronology, Switzerland; 02592. wind, aeolian, dune, sand, Holocene, vegetation, Finland, Saarijarvi; 09321.
preboreal chronozone
melt water pulse IB, deglaciation, discharge rate, climate event age, climate event origin, Younger Dryas, Dye 3 ice core, Greenland; 08430.
Preboreal deglaciation
Rogen moraine, cirque moraine, peat development, deglaciation, Breisterdalen moraine, marginal moraine, radiocarbon date, Breiseterdalen(Upper), evidence, Norway, Jotunheimen; 03882.
Preboreal flood
jokulhlaup, ice dammed lake, Nedre Glamsjo, palaeocurrent, iceberg scour, gravity crater, current erosion mark, Norway, Romerike; 09578.
Precambrian
biomarker, hydrocarbon, branched alkane, hot spring, cyanobacterial mat, New Zealand, Korako Thermal Area; USA, Yellowstone National Park; 02451. black shale, organic matter, metal, organism, USSR; 11794. carbon dioxide, pH, sea water, carbonate system, silicate, model, sedimentation process, 07078. crystalline bedrock, frost induced wedging, stress release, neotectonic activity, isostatic rebound, methane hydrate, methane venting, glacial plucking, bedrock fragmentation, Finland; 08466. crystalline rock, aquifer yield, fracture, rock terrain, groundwater exploration, saprolite zone, India; 11119.

Eriksfjord Formation, graben, conglomerate, braidplain, Majut Member, Greenland, Gardar Province; 03634. fanglomerate, basin, Bima Formation, Cretaceous, Nigeria, Benue Trough; 03631. Holocene, stromatolite, organo-sedimentary structure, cyanobacteria, growth rate, lamination, Australia, Western Australia, Shark Bay; 01318. kerogen, black shale, Proterozoic, organic matter, carbonisation, graphitisation, Czechoslovakia, Bohemian Massif; 07103. Moraeneso Formation, Proterozoic, conglomerate, sandstone, mass flow, palaeovalley, Greenland; 03609. Mundallio Subgroup, Yadlamalka Formation, dolomite, magnesite, sandstone, Australia, South Australia, Adelaide Geosyncline; 12949. Nubian Series, cementation, heavy mineral, sandstone, provenance, Cretaceous, Jordan; 12948. palaeokarst, breccia, calcrete, silcrete, Proterozoic, Mount Harper Group, Windermere Supergroup, Canada, Yukon Territory, Ogilvie Mountains; 02410. sedimentary structure, fining upward sequence, tidalite, quartzite, bedform, India, Bihar, Singhbhum, Ghatsila; 08222. stream, rifting, isotopic data, geochemical survey, tectonostratigraphic unit, Greenland; 07065. stromatolite, carbon-13 depletion, sea water, brine, carbon cycle, microbial mat, Israel, Elat; 05911. stromatolite, microbial community, saline lake, stromatolite, benthic, Australia, Western Australia, Cervantes, Lake Thetis; 01212.

Precambrian basement
sediment, remote geophysics, statistical trend anlysis, mineralogy, Egypt, Central Eastern Desert; 03411.

Precambrian basement complex
well yield, groundwater exploration, electromagnetic profiling, Nigeria; 07605.

Precambrian limestone
electromagnetic horizontal loop method, limestone aquifer, groundwater exploration, low frequency geoelectric method, very low frequency resistivity method, electromagnetic bipole method, resistivity method, karstified fracture, geoelectrical method, horizontal loop profiling, Slingram method, Mali, Gondo Plain; 06358.

Precambrian rift
preglacial drainage, structural control, regional slope, USA, Kentucky, Kentucky River; Licking River; USA, Ohio; USA, Indiana; 01395.

precious metal
region geological data, lineament, geomorphology, hydrothermal alteration, gold, USA, Nevada, Great Basin; 06820.

precipitable water
outgoing longwave radiation, rainfall rate, satellite measurement, tropical precipitation, precipitation rate, heat source, moisture sink, 01827. sun photometry, aerosol variability, water vapour variability, Africa, Sahel; Mali; Niger; 07645. surface temperature, split window technique, skin temperature, radiance change, AVHRR, VISSR atmospheric sounder, precipitation retrieval, 09969.

precipitable water estimation
radiance measurement, aircraft data, split window, 09971.

precipitable water variation
precipitation frequency, precipitation intensity, topography, convective rainfall, Guinea, Fouta Djallon Mountains; 07452.

precipitate
pattern formation, supersaturation, nucleation, 04847.

precipitating cloud
power station, plume, acid deposition, sulphate, nitrate, 07824.

precipitation
accretion, snow, freezing rain, ice pellet, particle shape, terminal velocity, Canada; 04315. acid deposition, pH, ammonium, nitrate, acidity, deposition, trace metal, acid rain, sample storage, stability, 12512. aerosol, copper, manganese, long range transport, scavenging, Saharan dust, transport event, deposition, Mediterranean Sea; 13733. aerosol, particle, aerosol physics, snow, snow flake, 04407. air temperature, empirical verification, parameter justifiability, hydrometeorological series, Markov autoregressive model, runoff, 10964. annual precipitation, weather record, Europe, Balkans; 03041. Arctic region, melt water, climate, hydrology, vegetation, Canada, Ellesmere Island, Hot Weather Creek; 13440. atmospheric stability, summertime, aerosol measurement, remote aerosol, size distribution, Ross Sea; 13704. bedrock, soil, landuse, slope, temporal perspective, gullying pattern, spatial variation, Zimbabwe, Eastern Highlands; 08553. berthierine, ooid, Cretaceous(Early), Wealden, weathering, UK, England, West Sussex; 08295. bromine, chloride, potassium, magnesium, salt type, Poland, Puck Gulf; 12932. burial, limestone, stratiform, stylolite, dissolution, 04809. cadmium, copper, iron, manganese, lead, zinc, chromium, nickel, vanadium, trace metal, wet deposition, sampling protocol, Sweden; 04441. carbonate, arid soil, calcrete, desertification, dissolution, Morocco, Ksabi Basin; 13096. Cedrus atlantica, tree ring width, palaeoclimate, Morocco; 01956. chemistry, cloud process, acid, cation exchange, clay mineral, 13678. chemistry, snow, rain water, snow chemistry, inorganic ion, hydrogen peroxide, sulphate, sodium, chloride, nitrate, USA, California; 04419. climate, Younger Dryas, palaeoclimatic reconstruction, temperature, Northern Hemisphere; 08425. climatic warming, Little Ice Age, mass balance, glacier, Switzerland, Rhonegletscher; 01466. cloud process, Doppler radar, cloud, 05330. cloud water content, cloud cover, numerical weather prediction, radar, satellite imagery, mesoscale model, boundary condition, humidity, 05425. cloud-radiative climatic forcing, long term trend, ice nucleus concentration, cloud seeding, Australia; Antarctica; Australia, Tasmania; USA, Hawaii; 03107. cloudiness, glacier fluctuation, climate, ablation stake network, Peru, Cordillera Blanca; 03029. coagulation, phytoplankton, velocity, viscosity, sedimentation, 05792. cold front, occulsion, lee trough, dryline, squall line, cloud, USA; Pacific; 01901. complex formation, hydroloysis, redox process, photochemical reaction, microbial decomposition, nitrification, fish growth, sediment water exchange model, water quality model, volatilisation reaeration, adsorption, ion exchange, heat exchange, sedimentation, coagulation, 09828. convection, rainfall, Southern Oscillation, upper air sounding, ship observation, stratiform cloud, El Nino, Mexico; 01838. convective initiation, dryline, splitting convective cloud, convective tower, storm, shear, 07778. copper, heavy metal, pH, water quality, 05928. correlation technique, numerical weather prediction, radar imagery, nowcasting, satellite image, 05449. cryosuction, cryostalliation, calcium carbonate, arctic, crust, dessication, 07083. cyclonic episode, sunshine variation, Germany; 07659. deep convection, squall line, hail, cloud dynamics, cloud microphysics, radar measurement, 00762. deposition, methanesulphonate, sea salt, sulphate, marine aerosol, Atlantic; 06650. deposition, nitrate, ammonium, scavenging, 11375. deposition, surface fitting algorithm, kriging, spatial analysis, statistical analysis, statistical error, wet deposition, acid rain, 13667. dolomite, mineral dissolution, surface texture, quartz solubility, pore water, quartz grain, 05930. dolomitisation, dolostone, magnesium, fluid flow, 11732. Doppler operation, weather radar network, Deutscher Wetterdienst, convective development, Germany; 05358. drying trend, drought, USA; 10144. electrospray ionisation, mass spectrometry, precipitation chemistry, hydroxymethanesulphonate, 11378. enrichment factor, ionic equivalent ratio, rain depth, acid rain, chemistry, Saudi Arabia, Gulf Coast; 11381. evaporation, baroclinic experiment, barotropic experiment, stratification, gyre, circulation, 01182. evaporation, general circulation model, soil water storage, climate, equilibrium state, land surface, hydrology, 07699. evaporation, runoff, groundwater, water resource data, development plan, data base system, water resource management, computer system, China; 09942. evaporation, runoff, Sudano-Sahelian climate, groundwater recharge, soil moisture estimation, hydrological balance, Africa, Sudano-Sahelian Region; 06356. evaporation, spruce forest, interception, throughfall, stem flow, forest hydrology, UK, Scotland, Balquhidder; 05116. evaporation, transpiration, runoff, drainage, temperature, cloud cover, humidity, wind speed, moisture estimation, soil characteristic, evapotranspiration, water balance model, USA, Midwest; 12224. evapotranspiration, fluvial history, braided river, meandering channel, incision, aggradation, floodplain, palaeohydrological development, temperature, Netherlands, Mark Basin; 10677. evapotranspiration, salinity, soil salinity, intertidal gradient, sediment, salt marsh, mud flat, Netherlands; 12140. evapotranspiration, water cycle, meteoric water, hydrogenisotope, oxygen isotope, light stable isotope, hydrological regime, USA, California; Nevada; 12130. extratropical cyclone, oxygen isotope analysis, cloud top temperature, evaporation, convective precipitation, stratiform precipitation, isotopic composition, 01959. flood prediction, flood, extreme event, historical record, France, Ariege Valley; 02846. flood prediction, weather forecasting, weather radar network, UK; 05352. foehn, synoptic data, air mass, potential temperature, stable stratification, Italy, Po Valley; Europe, Alps; 04225. fogginess, cyclone, climate characteristics, cloud amount, Antarctica, King Sejong Station; 09992. forestry reserve, erosion, Venezuela, Ticopora; 07708. fossil fuel consumption, carbon-14, gamma fallout, clean air, Chernobyl effect, Sweden; 05553. foundation problem, champlain clay, drought, rainfall deficit, settlement problem, clay deposit, evapotranspiration method, Canada, Quebec, Montreal; 02537. freezing, soil, Stefan problem, ablation, thawing, glacier growth, glacier decay, ice formation, thermodynamics, melting, 11082. frost depth, snow cover, frost, USA, Idaho, Reynolds Creek; 00708. GCM, land surface-atmopshere coupling, runoff, evaporation, tropical forest, regional climate, 04323. general circulation model grid resolution, agricultural activity, water supply, surface climate, Biosphere Atmosphere Transfer Scheme, climate model, land surface, climatology, hydrology, Australia; 07745. geographical factor, meteorological variable, Japan; 08862. glacier growth, glacial mass balance, temperature, USA, Alaska, Wolverine Glacier; 03031. glacier, evaporation, water balance, stream flow, hydrological atlas, water resource, map, lake, water quality, Switzerland; 10967. ground level gauge, raingauge, evaporimeter, evaporation, 07648. groundwater recharge, surface water, hydrogeochemistry, stable isotope, adjacent closed basin, Chile, Atacama Desert, Punta Negra Basin; Hamburgo Basin; 05236. hydrological regime, land surface, subgrid scale process, climate simulation, 13542. hydrometer concentration, winter, scavenging efficiency, wet deposition, aerosol, nucleation, in cloud scavenging, 13710. imaging system, data analysis, monsoon study, monsoon evolution, tropical storm, intraseasonal oscillation, cloudiness, 05285. infiltration, denudation rate, climate, fluvial soil loss, global scale, erodibility, sediment yield, relief, erosion rate, stream power, slope gradient, 01374. insolation, pollution, urban climate, temperature, heat island, Japan, Tokyo; 05390. interception, forest canopy, canopy interception rate, rainfall rate, 07453. interception, unsaturated zone model, groundwater flow model, flow characteristics spatial variation, evapotranspiration, infiltration, Netherlands, Hupselse Beek; 06337. ion exchange, waste water irrigation, contaminant reduction, filtration, adsorption, Spain, La Mancha, Guadiana River Basin; 07603. jet, mesoscale coastal process, frontogenesis, frontolysis, cyclone, 01905 Krakatoa eruption, drought, sunspot activity, volcanic eruption, rainfall, Spain, Valence; 00702. Late Glacial, Holocene, climatic record, pluvial event, Niger, Bougdouma; 00282. lightning, thunderstorm, tilted dipole hypothesis, electrostatic field, 01809. lithology, vegetation cover, drainage density, runoff, drainage development, India, Uttar Pradesh, Dhauli-Ganga Basin; 01646. Little Ice Age, temperature, glacier, river discharge, China, Xinjiang, Urumqi River; 01951. mesoscale convective complex, low-level jet, hodograph, mesoscale organisation, rainstorm, USA, Oklahoma; 01915. meteorologic characteristics, isotopic composition, chloride concentration, USA, Texas, Southern High Plains; New Mexico, Southern High Plains; 11323. microwave radiometer, polarization lidar, radar, Doppler radar, ice cloud, storm, supercooled liquid water development, USA, Utah; 04317. model, general circulation model, skill, glaciation, 12498. mountain glacial climate, glacier, continentality, longwave radiation, condensation, evaporation, sublimation, 03028. nitric acid, sulphuric acid, hydrochloric acid, precipitation chemistry, sea salt, sodium, potassium, ammonium, magnesium, calcium, fluoride, chloride, bromide, nitrate, sulphate, Japan, Tokyo; 00856. numerical advection, moisture transport, spectral model, transport scheme, 00754. ocean, water surface, 11216. oxidation, manganese retention, water quality, wetland, iron retention, acid drainage, peat, mine drainage, cation exchange, complexation, 00499. oxygen resonance, temperature sounding, cloud, water vapor, surface emissivity, radiometric imaging, tropospheric temperature, 04210. particle analysis, particle area temporal variation, phytoplankton, tributary loading, calcium carbonate, USA, New York, Syracuse, Onondaga Lake;

09332. pedogenic zonation, temperature, plane species, zonality concept, Chile; Antarctica; 01594. phosphorus, coprecipitation, lake sediment, calcite, Austria, Salzburg, Wallersee; 12848. PIXE, preconcentration, freeze drying, rain water, fog water, trace element, 13746. pollution, nitric acid, ammonia, forest damage, suspended particle, leaching, spruce forest, 03259. potential evapotranspiration, climate change, hydrological regime, water resource, water balance model, runoff, China; 10989. power station, acid deposit, plume, deposition, pollution, stratus cloud, cumulus cloud, 04445. prediction scheme, thunderstorm, rainfall onset, Nigeria, Kano; 07669. probability, frequency distribution, Box-Cox transform normal distribution, 13513. Probable Maximum Flood, terrain induced precipitation, digital terrain representation, mountain, Austria, Vienna; 06467. radar network, weather radar, radar horizon, Europe; 05339. radar, rainfall forecast, weather radar, raingauge, water management, 01947. radar, reflectivity factor, horizontal polarisation, differential reflectivity, differential propagation constant, rain, hail, 01930. radiation, land surface hydrology, regional field, model validation, surface process, general circulation model, 07749. rain fall, regionalisation, principal component analysis, common factor analysis, mean annual rain fall, Ethiopia; 04236. rain fall, surface energy balance, evapoclimatonomy, water balance, evapotranspiration, runoff, soil moisture, Africa, Sahel; Niger, Niamey; 04249. rain gauge, hydrometeorological radar data, data display, data analysis, Meteorological and Hydrological Radar Network, weather radar, 05338. rain gauge, solar cycle, tidal forcing, drought, deterministic signal, USA, Wyoming; Montana; USA, Idaho; 05392. rain rate distribution, threshold method, rain fall, 04201. rain water acidity, ion concentration, storm system, sulphate, nitrate, acid rain, 13750. rain, snow, hail, radar, radar satellite, weather radar networking, real time measurement, Europe; 05365. rainfall modelling, smoothed altitude, modelisation, France, Vosgien Massif; 09985. rainfall probability analysis, agrometeorology, India, West Bengal, Nadia District; 00705. rainfall rate, flash flood, Spain, Barcelona; Mediterranean Sea; 01833. rainfall, rain cell, cloud cluster, 03111. rainfall, squall line, Meteosat imagery, cloud cluster, tropical storm, convection index, Africa, Sahel; 10099. rangeland growth, environmental change, vegetation index, AVHRR, 01115. rare weather event, extreme climate, growing season, frost, Sweden, Karesuando; 03035. remote sensing, water vapour, microwave, radiometer, Doppler radar, riming, 04311. river runoff, terrestrial source, nitrogen, phosphorus, sulphur, organic carbon, river, hydrological cycle, 12217. root zone capacity, irrigation map, map, irrigation water requirement, irrigation need, climate data, soil classification, potential evapotranspiration, Denmark; 00634. runoff, evapotranspiration, groundwater flow, water balance, catchment, interflow, 02826. runoff, flooding, low flow, flood plain agriculture, artificial flood, river regulation, Africa, Niger River; Senegal River; 06421. runoff, Laurentide Ice Sheet, Younger Dryas, climate change, last deglaciation, pack ice, salinity, Atlantic Ocean conveyor circulation, melt water, Arctic Ocean; Atlantic, (North); USA, Gulf of Mexico; 08435. salt content, acid rain, meteorological condition, chemical composition, USSR; 11391. sandur, aeolian transport, niveo aeolian transport, winter transport, lag, arctic setting, Canada, Northwest Territories, Pangnirtung Pass, Crater Lake; 10513. satellite imagery, weather radar, radar data processing, data presentation, Canada, Quebec; 05335. scavenging ratio, calcium, sodium, magnesium, potassium, surface level concentration, deposition, dry deposition, aerosol, 07887. scavenging, wet deposition, particulate material, below cloud scavenging, 13697. sea ice, general circulation model, climate sensitivity, temperature, pressure, wind pattern, Arctic; 05441. season, geoclimatic parameter, Spain, Tagus River Basin; 12333. simulation, seasonal snowcover, snowcover, temperature, Japan; 13521. snow cover, frost, ground temperature, valley, Sweden, Abisko; 03038. snow storm, traffic, snowfall, seasonal variability, Canada, Quebec; 12339. snow, rain, melting, refreezing, terminal velocity, storm, air-sea interaction, Canada, Nova Scotia; 01927. snowline modelling, snow accumulation, ablation, temperature, New Zealand, Otago, The Remarkables; 00620. soil acidification, mineral weathering, strontium, titanium, zinc, cadmium, rubidium, potassium, manganese, boron, calcium, molybdenum, forest plant, herbarium plant, Norway; 00933. soil moisture deficit, evapotranspiration, hydrologic magnification, anti-transpirant effect, atmospheric carbon dioxide, carbon dioxide, climatic change, runoff, 04021. soil water, arid rangeland, matrix potential, USA, New Mexico; 01554. soil water, groundwater, watershed hydrology, hydrological cycle, water movement, water storage, evaporation, condensation, infiltration, antecedent moisture condition, variable source area, return period, environmental water, transpiration, interception, photosynthesis, respiration, 10963. solar activity, lightning, cosmic ray, nitrous oxide, sulphuric acid, sulphur dioxide, volcanic ash, precipitation chemistry, nitrate, Antarctica; 02029. Spearman rank correlation test, precipitation maximum, short term interval, Yugoslavia, Zagreb; 07639. spring, biological process, carbonate, travertine, microenvironment, USA, Colorado; 08169. storm water, evaporation, precipitation chemistry, 00869. stream flow, evapotranspiration, water budget, broadleaved sclerophyllous forest, forested catchment, rainfall runoff relationship, interannual variability, Spain, Montseny Mountains; 06387. stream flow, flooding, drought, climatic variation, El Nino/Southern Oscillation, snow melt, annual fluctuation, seasonal fluctuation, Chile, Aconcagua River Basin; 09786. sulphate, nitrate, chloride, wet deposition, washout, aerosol, Spain; 03177. sulphate, nitrate, seasonal concentration ratio, concentration ratio, USA; Sweden; 11338. sulphur dioxide, nitrogen dioxide, acid rain, wet deposition, emission, sulphur concentration, 06677. suspended sediment, turbidity, mountain river, USSR, Abkhaziya, River Bzyb'; 03523. synoptic circulation change, principal component analysis, Lamb Catalogue, daily weather type, climatic change, UK; 06456. target, seeding effect, statistical analysis, rainfall stimulation experiment, Israel; 12471. telemetry, flood warning system, hydrometeorological data, river level, France, Garonne River; 02848. temperature, crop, production, agrometeorology, rainfall, frost, Pakistan, Balochistan; 03034. throughfall, Montane rain forest, tropical rain forest, rain forest, forest, ash fall, precipitation chemistry, nutrient flux, Colombia; 11299. topography soils index, water balance flux, land surface atmosphere interaction, surface hydrology, climate modelling, general circulation model, evapotranspiration, runoff, atmospheric model, soil moisture, 12129. trend, time dependent series, spatially averaged precipitation, USA; USSR; Europe; 12485. turbulent motion, calcite solution, liquid solid interface, reaction rate, karst terrane, mass transfer model, dissolution, 10719. variance analysis, dryness, wetness, drought, flood, China, Beijing; 00709. visibility, wave, climate, ship observation, lightvessel observation, temperature, sea surface temperature, pressure, cloud cover, North Sea; 11214. wadi system, morphological process, water resource, landuse potential, runoff, Sudan, Nile River; 12288. water budget, Palmer Drought Severity Index, flooding, climate data, USA, Louisiana; 12162. water vapour flux, monsoon, satellite data, evporation rate, bulk aerodynamic formula, Arabian Sea; 00746. water vapour, air temperature, sea temperature, wind speed, sea ice cover, supersaturation, stable isotope model, oxygen isotope, deuterium, 04198. weather classification scheme, Markov model, rain gauge, Pacific, (Northwest); 07665. weather radar image, agriculture, forecast distribution, 05351. weather radar network, rainfall, nowcasting, Brazil, Sao Paulo; 05321. weathering, solar input, Neogene, phosphorite, transgression, 01275. wheat producing area, micro scale data, vegetation cover, meteorological research, Nigeria, Niger State; 05309. whirlwind velocity, kinematic structure, monsoon, divergence, India; 11233. wind speed, foggy day, sunshine time, lapse rate, vapour pressure, China, Bashan Mountains; 08864. wind speed, water vapour pressure, global radiation, cloud cover, snow water equivalent, snow cover, runoff estimation, water equivalent variation, air temperature, Switzerland, Alps; 08798. wind, temperature, solar radiation, avalanche, Czechoslovakia, West Carpathians; Chopok; Czechoslovakia, Nizke Tatry Mountains; 01837. wine sample, carbon-14, dendrochronology, tritium, tree ring, cellulose, Hungary, Matra; 05471. winter temperature, runoff peak, soil moisture condition, rainfall intensity, rainfall runoff model, climate change, peak flow, snow melt, Sweden; Finland; 05149.

precipitation acidity
deposition, nitrate, sulphate, acid rain, trend, USA, Sierra Nevada; 13656.

precipitation amount
autoregressive model, regressive model, temperature precipitation regime, runoff, Caspian Sea; 12384. tourist industry, diurnal rainfall, rainfall variation, Greece, Thessaloniki; 07680.

precipitation analysis
dispersion and deposition model, nuclear accident, Chernobyl, radar data, surface observation, Meteosat imagery, numerical weather prediction, Europe; 05325.

precipitation anomaly
ocean temperature, tropics region, sea surface temperature anomaly, winter circulation, Australia; 08903.

precipitation assessment
daily rainfall, semi Markov presentation, circulation pattern, atmospheric circulation, Germany; 13312. drought, meteorological drought, agricultural drought, desiccation, Niger, Sahel; Africa, Sahel; 00505. effective precipitation, oblique rain, inclined surface, nomograph, rain gauge correction factor, rain, 02834. parameter estimation, Markov process model, Poisson cluster process model, point rainfall model, 00503. radar rainfall measurement, non-rainfall echo, wind effect, signal attenuation, Z-R relationship, warm season rainstorm, surface rainfall estimation, radar signal interpretation, 00504. synoptic analysis, rainfall intensity, rainfall duration, Germany, Saidenbach Reservoir; 12148.

precipitation band
radiosonde data, saturated equivalent potential temperature, absolute angular momentum, equivalent potential temperature, slantwise convective instability, cyclone, 01909.

precipitation catch
clay content, infiltration, soil water relation, topography, soil water distribution, water availability, soil physical property, surface curvature, USA, West Virginia, Central Appalachia; 06330.

precipitation change
isotope stage, Cenozoic, glacier fluctuation, polar region, terrestrial record, sea level fluctuation, Antarctica; Atlantic; 02652.

precipitation charactersation
hail, polarized echo, hail size, polarisation, 10132.

precipitation chemistry
acid precipitation, orographic cloud, aerosol, sulphate, cloud microphysics, 00862. acid precipitation, wet deposition, atmospheric pollutant, urban precipitation, suburban precipitation, atmospheric deposition, USA, Chicago, Illinois; 10973. acidic precipitation, cold front, conductivity, sea salt, sulphuric acid, nitric acid, rainwater composition, USA, North Carolina; 01958. acidification, stream water chemistry, surface water, chemical dynamics, acid stream, atmospheric deposition, wet deposition, sulphate, aluminium, carbon, organic acidity, Sweden, Svartberget; 13376. acidification, wet deposition, bulk deposition, mist, fog, enhancement deposition, vegetation ecosystem, soil water flow, sulphate, buffering, flow path, UK, Scotland, Allt a'Mharcaidh; Norway; 13374. aerosol, long range transport, forest ecosystem, pollution, meteorological parameter, sulphur dioxide, nitrogen oxide, sulphate, ammonium, 03157. air pollutant, monitoring network, deposition field, acidic deposition estimate, sulphate deposition field, acid precipitation, Canada, Ontario; North America; 10975. andesitic soil, sulphur balance, atmospheric deposition, sea spray, marine aerosol, Tonga; 10974. catchment process, chemical budget, surface water quality, attenuation, chloride, oxygen isotope, forest catchment, moorland catchment, UK, Scotland, Crinan Canal; 02958. chloride, evapotranspiration, regional evapotranspiration, geochemical model, radionuclide, Israel, Jordan River; 04029. chloride, nitrate, sulphate, snow, Australia, Snowy Mountains; 00863. cloud water acidity, aircraft measurement, sulphur, nitrogen oxide, hydrogen chloride, ammonia, 03153. deposition, particle, rainwater composition, aerosol, calcium, acid deposition, 03182. deposition, wet deposition, heteroscedasticity, mean deviation, standard deviation, 13666. forest cover, nutrient leaching, acid rainfall, leaching, leaf, 13443. forest hydrology, throughfall chemistry, stand age, spatial location, nutrient, 11094. gas phase profile, cloud chemistry, wet deposition, sulphate linearity, 13687. geothermal system, stable

isotope, tritium, groundwater chemistry, carbon-14 dating, Yugoslavia, Surdulica; 04144. Granat model analysis, acid rain, wet deposition, bulk deposition, Korea, Seoul; 01635. hydroxymethanesulphonate, precipitation, electrospray ionisation, mass spectrometry, 11378. infiltration, throughfall, soil water chemistry, forest hydrology, runoff water quality, acidification, surface water quality, nitrogen, 06391. isotope hydrology, environmental isotope, isotope concentration, 01629. isotopic study, geochemical study, groundwater flow path, leaching, mineralization, Atlantic, Canary Islands, Gran Canaria, Amurga; 00600. lake water quality, acid deposition, hill top lake, diatom, pollen, chrysophyte, heavy metal, acidification, land use, Norway; 06303. mapping, acidity, hydrogen, nitrate, ammonium, sulphate, Regionalized Variable Theory, spatial analysis, UK; 10972. marine aerosol, aerosol, snowfall, Norway, Alta; Arctic; Norwegian Sea; 03210. meltwater, preferential elution, snowpack chemistry, ion loss, ion accumulation, USA, Michigan; 00618. metal concentration, vasilinated plexiplate, cascade impactor, resuspension flux, trace metal, wet deposition, dry deposition, North Sea; 04422. methanesulphonate, rainwater, sulphur, wet deposition, emission, dimethyl sulphide, Australia, Tasmania, Cape Grim; 02024. model ecosystem, mineral cycling, forest hydrology, lysimeter, canopy leaching, soil water chemistry, acidification, canopy deposition, cation leaching, throughfall enrichment, sulphate, dry deposition, leaching, 11087. mountain, acid rain, sulphate, nitrate, UK, Wales, Snowdonia; 06701. National Acid Precipitation Assessment Program, mineralogical characterisation, Shelburne Marble, Salem Limestone, acid rain, marble, limestone, building stone, USA; 00508. nitrate, precipitation, solar activity, lightning, cosmic ray, nitrous oxide, sulphuric acid, sulphur dioxide, volcanic ash, Antarctica; 02029. nutrient flux, precipitation, throughfall, Montane rain forest, tropical rain forest, rain forest, forest, ash fall, Colombia; 11299. oxidation, acid precipitation, sulphate, USA, Hawaii, Kilauea Volcano; 10976. oxygen isotope, deuterium, isotopic analysis, Italy, Sicily; Mediterranean Sea; 04397. pollutant, deposition, cluster analysis, meteorology, USA; Canada; 10201. precipitation collector, precipitation monitoring, sequential precipitation sampling, 04026. precipitation, storm water, evaporation, 00869. runoff water quality, throughfall, oxygen 18, hydrograph separation, forested watershed, isotopic separation, Mediterranean watershed, chemical separation, France, Corsica, Solenzara, Cannone; 06285. s-triazine herbicide, lake water contamination, agricultural pollutant, atrazine, herbicide, Switzerland, Lake Zurich; 01675. Saharan dust, deposition, sulphate, rainforest, sea salt, aerosol, long range transport, Puerto Rico, El Verde; 11311. sampling, rain water, ion chromatography, chloride, nitrate, sulphate, sodium, potassium, ammonium, anion, organic acid, cation, aerosol, 03186. sea salt, sodium, potassium, ammonium, magnesium, calcium, fluoride, chloride, bromide, nitrate, sulphate, precipitation, nitric acid, sulphuric acid, hydrochloric acid, Japan, Tokyo; 00856. siting criteria, paired comparison, ammonium, USA, Mississippi; 12529. snow chemistry, snow cover, groundwater recharge, water quality, Switzerland, Alps; 08654. snow, ice core, spatial variability problem, depth profile, core, chemistry temporal change, 09605. snow, lead, sulphur, fossil fuel, acid precipitation, USA, California, Sierra Nevada; 03205. soil water chemistry, biogeochemical ion exchange, weathering reaction, water pathway, chemical change, acid rain, runoff chemistry, surface water chemistry, lake water chemistry, 04082. stream water chemistry, alpine catchment, snowmelt, turbidity, colour, organic carbon, aluminium, sulphate retention, Norway, Atna River, Storbekken; 13375. sulphate, nitrate, deposition, acid deposition, Japan, Shimane; 13670. sulphate, nitrogen, USSR, Lake Baikal; 03249. sulphur dioxide, ozone, hydrogen peroxide, sea salt nuclei, stratus cloud, cloud droplet chemistry, droplet chemistry, 03245. sulphur dioxide, sulphate, nitrate, dew, dry deposition, guttation, aerodynamic resistance, deposition velocity, 03235. surface wind, wind direction, atmospheric deposition, Netherlands; 07456. throughfall chemistry, soil water chemistry, forest catchment, potassium, magnesium, sodium, calcium, subsurface flow, silicate hydrolysis, acid neutralisation capacity, surface water chemistry, Spain, Montseny Mountains; 04090. throughfall density, stream water chemistry, runoff chemistry, nitrogen, sulphur, canopy throughfall, drainage pattern, subsurface runoff, biogeochemical cycling, element budget, Germany, Black Forest; 04087. throughfall, leaching, surface water quality, hydrograph separation, France, Corsica, Cannone; 02870. transport pattern, cluster analysis, meteorology, USA; 09990. trend, sulphate, sulphur dioxide, nitrate, nitrogen oxide, hydrogen ion, chemical impact, regional emission, acid rain, emission, USA, (East); Midwest; 13668. wet deposition, deposition, sulphite, nitrite, organic substance, sulphur dioxide, hydroxymethanesulphonic acid, ammonia, dew chemistry, 03155. wet deposition, snow chemistry, electrical conductivity, air pollution, Switzerland, Canton of Appenzell, Gais; Alpstein; 08653. wet season, sodium, potassium, chloride, dry season, air mass, marine origin, Brazil, Amazon; 10208. zinc, sodium, magnesium, aluminium, iron, calcium, sulphate, chloride, cadmium, copper, lead, snow core, volcanic emission flux, trace element, snow, Colombia, Nevado del Ruiz; 03148.

precipitation climatology
urban area, downwind effect, USA, Pennsylvania, Pittsburgh; 03046.

precipitation cloud
aerosol, particle, lead concentration, rain, wet deposition, scavenging, microphysics, transport, trace metal, 13705.

precipitation collector
mist collector, occult collector, sampling, chemical data, 05319. precipitation monitoring, hydrogen, ion concentration, wet deposition, Winkler diagram, precipitation conductivity, pH, USA, Nebraska, Omaha; 04027. precipitation monitoring, sequential precipitation sampling, precipitation chemistry, 04026.

precipitation condition
mountainous region, monsoon system, cyclone activity, elevation, China, Xinjiang Province, Tianshan Mountains; 08652.

precipitation conductivity
pH, precipitation collector, precipitation monitoring, hydrogen, ion concentration, wet deposition, Winkler diagram, USA, Nebraska, Omaha; 04027.

precipitation cyclicity
pasture, productivity, USSR, Turkmenistan; 04189.

precipitation data
observational error, linear regression, secular trend, 04200. spatial variability, kriging technique, areal precipitation, mapping, topography, USA, Arizona; 12146. temperature data, agroclimatology, fruit production, China; 07722.

precipitation data analysis
frequency distribution, orographic precipitation, lumped period, Japan; 03000.

precipitation depth
runoff coefficient, surface hydrology, arid area, semi arid area, rainfall runoff relationship, basin characteristic, infiltration class, unit hydrograph, flood flow, runoff depth, Africa; 06288.

precipitation distribution
frontal depression, flood, severe storm, wet bulb potential temperature, orographic enhancement, mesoscale distribution, UK, Northern Ireland; 07768. probability distribution, single parameter distribution, Weibull distribution, USA, Rocky Mountains; 09788.

precipitation drop
particle, collision efficiency, below cloud scavenging, scavenging rate, aerosol, drizzle drop, 13695.

precipitation dynamics
pluvial regime, annual precipitation, USSR, Kharkov; Poland, Poznan; 12349.

precipitation estimate
rainfall rate, Hurricane Debby, thermodynamic field, convective instability, moisture field, storm, 10093. watershed variable, Markov chain-mixed exponential model, annual precipitation, ungauged catchment, daily precipitation, mountain basin, measurement technique, USA, South Dakota; Idaho, Reynolds Creek; 08655.

precipitation estimation
radar data, areal rainfall, covariance analysis, rainfall forecast, mean areal rainfall, rainfall prediction, 13311. rainfall measurement, snowfall measurement, precipitation gauge, forest hydrology, water use, stream flow, water quality, gauge distribution, domain theory, UK, Scotland, Balquhidder; 08650.

precipitation event
hydrochemistry, dissolved organic carbon, El Nino/Southern Oscillation event, discharge, carbon transport, suspended sediment, dissolved solid, surface water quality, flood, Argentina, Parana River; 11025. rainfall rate, gauge network, dual-polarisation radar, 09968.

precipitation forecast
climatology, probabilistic quantitative precipitation forecast, forecast, skill score, 07813.

precipitation forecasting
Fourier domain shape analysis, rainfall area evolution, hydrologic process, atmospheric process, 06588. rainfall estimation, Meteosat, bispectral technique, radar, satellite data, 05366.

precipitation frequency
diurnal variation, airflow pattern, Japan; 06449. precipitation intensity, topography, convective rainfall, precipitable water variation, Guinea, Fouta Djallon Mountains; 07452.

precipitation gauge
bird protection ring, wind field deformation, turbulence, wind tunnel, orifice rim, 13702. forest hydrology, water use, stream flow, water quality, gauge distribution, domain theory, precipitation estimation, rainfall measurement, snowfall measurement, UK, Scotland, Balquhidder; 08650. hydrologic process, monitoring technique, analytical procedure, quality control, water budget, nutrient budget, mountain basin, data collection, stream flow measurement, Switzerland, Alptal Valley; 06286. mountain basin, dual gauge system, recording gauge, air temperature, tipping bucket gauge, rainfall measurement, snowfall measurement, USA, Idaho, Reynolds Creek Watershed; 08649.

precipitation groundwater level model
rain water level model, groundwater resource, water balance, groundwater recharge, Guinea-Bissau, Bolama Islands, Bijagos-Guinea-Bissau-Archipelago; Bubaque Islands, Bijagos-Guinea-Bissau Archipelago; 06412.

precipitation heterogeneity
arid desert, Humbolt cold sea current, stable condition, Bolivia, Andes; 07667.

precipitation identification
Nimbus-7, microwave radiometer, winter MONEX, digital rain parameter, China Sea; 12325.

precipitation intensity
hydrological cycle, ocean atmosphere land system, active layer system, 10970. polarisation diversity radar, weather radar technique, frequency-agile radar, Doppler weather radar, particle velocity, 05332. topography, convective rainfall, precipitable water variation, precipitation frequency, Guinea, Fouta Djallon Mountains; 07452.

precipitation map
map, ocean surface precipitation, 09260.

precipitation maximum
short term interval, precipitation, Spearman rank correlation test, Yugoslavia, Zagreb; 07639.

precipitation measurement
mountainous terrain, beam interception, radar installation site, weather radar, ground clutter, digitized elevation model, France, Cevennes Region; 08651. raingauge, snowfall, snow core data, snow water equivalent, Martinec and Rango degree day method, tree morphology, alpine catchment, USA, Wyoming, Glacier Lakes Ecosystem Experiments Site; 09909. snow, glacier, water balance, river flow, bed load, water cycle, hydrological modelling, acid rain, basin characteristic, surface water resource, measurement method, mountain hydrology, evaporation estimation, river discharge, 12135.

precipitation monitoring
hydrogen, ion concentration, wet deposition, Winkler diagram, precipitation conductivity, pH, precipitation collector, USA, Nebraska, Omaha; 04027. sequential precipitation sampling, precipitation chemistry, precipitation collector, 04026. spatial resolution, Meteosat, rain gauge measurement, 12686.

precipitation prediction
tropics region, global spectral model, forecast, cumulus parameterisa-

tion, 08988.
precipitation probability
forecast probability, sufficiency relation, forecast skill, forecast sufficiency, 08977.
precipitation process
HENDYS kinetic equation, speleothem, palaeoclimatic significance, isotopic composition, carbonate cave deposit, equilibrium, 02563.
precipitation production
hailstorm, airflow, particle growth trajectory, updraft fringe, graupel, hail, embryo growth stage, 10134.
precipitation profile
airborne radar, radar, radiometer, dual frequency radar measurement, retrieval, 12324.
precipitation quality
acidification, cirque lake, lake water quality, snow melt, acid pulse, dystrophic lake, buffer capacity, Germany, Black Forest; 08729. sulphate, nitrate, acid deposition, wet deposition, inorganic ion, bulk deposition sample, Finland; 10977. wet deposition, aerodynamic blockage, ionic composition, sulphate, dry deposition, ammonium, biological loss mechanism, bulk precipitation collector, wet only precipitation collector, UK; 10978.
precipitation rate
divergent wind, frontal zone, diabatic initialisation, regional finite element model, satellite data, storm, prediction model, forecasting, spinup problem, latent heating, Canada; 10102. gas absorption, aqueous chemical reaction, cloud microphysics, droplet chemistry, acid rain model development, 05506. heat source, moisture sink, precipitable water, outgoing longwave radiation, rainfall rate, satellite measurement, tropical precipitation, 01827. ice thickness, age depth profile, ice sheet, ice core record, non-steady state ice dynamic model, accumulation rate, Holocene, climatic optimum, past change, Canada, Devon Island Ice Cap; Greenland, Greenland Ice Sheet; 02635. pollutant rain concentration, pollutant, scavenging, sequential sampling model, cloud dynamics, 06553. seawater, manganese, calcite growth, calcite overgrowth, metal, 05929.
precipitation record
archaeological record, cultural impact, drought, ice core, Peru, Andes; 13631. luni solar 18.6 year term, rainfall, bistable phase switch, maximum entropy spectrum analysis, 07805.
precipitation regime
dry season, rainy season, climatic variability, Mexico, Baja California Peninsula; 06452. rain fall, drought, El Nino/Southern Oscillation, rainfall distribution, Peru; 04348.
precipitation region
principal components analysis, time series simlation, homogeneous precipitation, France, IJzer Watershed; Belgium, IJzer Watershed; 09987.
precipitation retrieval
precipitable water, surface temperature, split window technique, skin temperature, radiance change, AVHRR, VISSR atmospheric sounder, 09969.
precipitation retrieval algorithm
microwave, brightness temperatures, hailstorm, radiative structure, 10137.
precipitation sensor
rain event, collector deviation, wet only collector, wet deposition, bulk ion, trace metal, 06641.
precipitation separation
rainfall, snowfall, mixed rainfall snowfall, USA, Vermont, Danville; France, Durance River Basin; 08648.
precipitation to runoff conversion model
storm runoff, snowmelt runoff, runoff generation, environmental isotope, tracer study, hillslope hydrology, oxygen-18, deuterium, tritium, New Zealand; 11003.
precipitation trend
confluence, rainy season, drought, climate change, Africa, Sahel; Atlantic; 04347.
precipitation type transition
winter, storm, updraft, snow region, mesoscale circulation, radar detection, Canada, Ontario; 11170.
precipitation variability
anisotropy, rainfield, fractal characterisation, 07632.
precipitation variation
hurricane activity, drought, landfall, Africa, Sahel; USA; Caribbean; Africa, (West); 07663.
precipitation-weighted-mean concentration
sulphate concentration, nitrate concentration, missing data, wet deposition, acid deposition, 04025.
precise levelling network
levelling bench mark, control point, Israel; 10267.
precise surveying
kinematic position determination, GPS, inertial system, 06715.
precision
calibration, radiometric sensitivity, AVHRR, 03278. EDM, reflector, 04472. ellipsoid height, GPS, geoid, Switzerland, Alps; 03281. industrial photogrammetry, photogrammetry, 04482.
precision correction
geometric correction, digital image, ortho image, 11441.
precision indicator
phase reduction, satellite selection, systematic error, GPS survey planning, 10260.
precision levelling
error distribution, levelling, 11415.
precision vector
baseline vector, GPS, relative position, USA, California; 09111.
preconcentration
chemiluminescence detection, hydrogen peroxide, solar actinic irradiance, 13736. freeze drying, rain water, fog water, trace element, precipitation, PIXE, 13746.
preconsolidation load
lacustro glacial clay, consolidation history, Terzaghi theory, oedometer consolidation test, fossil overburden pressure, geotechnical data, ice sheet thickness, Saalian ice sheet, Netherlands, Groningen Province, Marum; 10773.
precursor
photochemical formation, fog, nitrated phenol, phenol, cresol, 12508. photochemical ozone, ozone monitoring, photosmog, Mediterranean; 09044. successor, algorithm, quasi stationary pattern, tendency, blocked flow, zonal flow, blocking event, weather regime, Atlantic, (North); Greenland; 11176.
precursor concentration
sulphur dioxide, hydrogen peroxide, ozone, nitrogen oxide, acid, USA, (Northeastern); 06539.
precursor relationship
ozone, nitrogen oxide, nitric acid, carbon monoxide, chlorofluorocarbon 11, non methane hydrocarbon, peroxyacetyl nitrate measurement, 04373.
preDevensian
glacial event, Devensian glaciation, deep weathering, glaciated region, weathered bedrock, periglacial deposit, UK, Scotland, Buchan; 13129.
predicate calculus
mathematical language, GIS, artificial intelligence, geographical data processing, 03358.
predict
collapsing soil, kriging variance, oedometer, geostatistical method, USA, Arizona, Tucson; 03799.
predictability
atmospheric flow, normal mode, forecast, divergence measurement, error dynamics, 13618. erosion rate, rill erosion, arable land, rate, control, Belgium; 12035. low frequency mode, extended integration, filtering, initial state, sea surface temperature, monsoon, 12473. numerical weather prediction, forecast skill, 01936. pressure height, forecast model error, weather system, skill, jet stream splitting, feature based predictability, 10161. sea breeze, local prediction, initial condition, numerical weather prediction, Argentina, La Plata River; 04290.
predictability estimate
limited area model, lateral boundary, forecast error, topography, forecast difference, mesoscale model, 10159.
predicted cadmium adsorption
Freundlich equation, calcareous soil, adsorption isotherm, cadmium adsorption capacity, Spain; 10939.
predicting
deposition, debris flow, mountain channel, travel distance, USA, Washington, Cascades; Oregon Coast, Coast Range; 03707. young volcanic soil, Andosol, void ratio, undrained shear strength, plastic limit, 03798.
prediction
climate reversal(1988-89), seasonal weather forecasting, climate variability, weather forecasting, USA; 08989. climate, warming, greenhouse effect, environmental disaster, ecosystem alteration, 07804. cumulus onset, cloud amount, heterogeneous land surface, parcel method, 12470. daytime mixed layer, mixed layer heights, dispersion modelling, inversion, operational prediction, 12365. deep convection migration, rainfall, annual variation, Southern Oscillation, ITCZ, Brazil; 12347. drought, sea surface temperature, global climate model, statistical method, simulation, 13622. ephemeral gully erosion, cropland, USLE, gullying, annual tillage, USA; 01497. estuary, model, water quality, management, USA, Atlantic Coast; 04878. expert system, forecast, decision threshold, bridge frost, roadway frost, frost, 10160. expert system, geographical knowledge, model concept, artificial intelligence, model, 00201. life cycle, supertyphoon, global model, tropical storm, hurricane, 11231. long term heave, heave test, swelling mechanism, hydration, clay mineral, oedometer test, Spain; 03800. model, scaling, avalanche speed, run-out distance, dense granular flow, granular flow concept, 01410. pore pressure, undrained cyclic principal stress rotation, cyclic loading, Miner's rule of superpositon, 03762. seasonal frost, time domain reflectometry, Konrad-Morgenstern theory, cumulative frost heave, frost heave, displacement transducer, segregational potential, field frost heave measurement, Canada, Ontario, Ottawa; 01454. sediment yield, USLE, USLE parameter, soil loss tolerance level, nonparametric approach, potential erosion, mined, reclaimed land, USA, Pennsylvania; 02725. skill, forecast, ensemble forecasting, European Centre for Medium Range Weather Forecasts, extended range prediction, 13615. summer monsoon, Indian monsoon, monsoon rainfall, meridional wind index, regression analysis, India; 12472. waterborne soil erosion, high magnitude erosion event, soil erosion event, knowledge based approach, rule based expert system, UK, England, Sussex, East Sussex; 01510.
prediction accuracy
meteorological quantity, frost predicting, 10164.
prediction bias
erosion risk, forest land, discriminant analysis, timber harvest area, forest road, logged area, linear discriminant function, bootstrapping, USA, California; 02724.
prediction erosion
soil erosion, surface roughness, rainfall intensity, slope angle, slope length, water erosion, arable field, cause erosion, impact erosion, UK; 08542.
prediction experiment
analogy dynamical model, long range prediction, dynamical prediction, 10156. Hurricane Gloria(1985), multiply nested model, movable mesh model, skill, storm structure, 12476.
prediction method
opal, allophane, karst, quartzite karst, Itacolomi Group, subterranean drainage prediction method, sinkhole, swallowhole, karrens, caves, speleothem, conduit direction, Brazil, Minas Gerais, Ouro Preto; 02555.
prediction model
forecasting, spinup problem, latent heating, precipitation rate, divergent wind, frontal zone, diabatic initialisation, regional finite element model, satellite data, storm, Canada; 10102. Kalman filtration, pollution, 03266. tropical Australia, weather service, forecast, severe weather warning, cyclone warning accuracy, Australia; 08978.
prediction policy
prevention policy, forest landing failure, rainfall area, exotic forest harvesting, steepland area, New Zealand; 06065.
prediction procedure

moisture deficit, kriging, isolinear map, soil attribute, soil profile attribute, Netherlands, Mander; 10853.
prediction scheme
thunderstorm, rainfall onset, precipitation, Nigeria, Kano; 07669.
prediction technology
soil erosion, water, research, erosion prediction technology, simulation model, Universal Soil Loss Equation, rill, interrill erosion, USA; 12028. Water Erosion Prediction Project, soil erosion, computer program, erosion, 13201.
prediction uncertainty
groundwater model, parameter estimation, sensitivity analysis, model reliability, flow modelling, model calibration, transport modelling, 09861.
prediction vagueness criterion
soil electrical resistivity, hydraulic permeability, fuzzy regression, statistical hydrology, regression analysis, maximum average vagueness criterion, 04019.
prediction verification
stochastic difference model, weather prediction, barotropic stochastic difference model, empirical orthogonal function, forecasting, 10053.
predictive equation
deformation test, resilient modulus, 03742. infinite diffusivity near saturation, infiltration, ponded condition, 04113.
predictive model
soil extractant, available potassium, potassium, extractant procedure, plant available potassium, Canada, Ontario; 08614.
predictor variable
land zoning, insurance rate, flow magnitude, flow frequency, debris flow, USA, California, Los Angeles; 09519.
Predynastic archaeological assemblage
land cultivation, temperature, flood, rain, palaeotemperature record, perch, Nile perch, Egypt, Nile River; 09571.
preferential dissolution
carbonate platform, prograding system, genesis, atoll morphology, palaeoecological study, cored well, lagoon, fringing reef, French Polynesia, Mururoa; 04893.
preferential elution
ion chromatographic property, meltwater chemistry, snow chemistry, chromatographic process, 02939. snowpack chemistry, ion loss, ion accumulation, precipitation chemistry, meltwater, USA, Michigan; 00618.
preferential flow
aggregated soil, groundwater flow, solute transport, convective movement, hydraulic head gradient, diffusion, micropore, macropore, 11036. base flow, acid shock, surface water quality, acidification, stream flow, soil chemistry, flow path, catchment drainage, runoff chemistry, UK, Scotland, Allt a'Mharcaidh; 13373. dual water flow, piston flow, saline water, irrigation water quality, unsaturated zone, gypsum amended soil, groundwater flow rate, 01697. groundwater recharge, hillslope, translatory flow, snow melt, deuterium, soil moisture, recharge, unsaturated flow, isotopic investigation, hydrometric investigation, 07529. hillslope hydrology, flow path, stream flow chemistry, acidification, soil water through flow, stem flow, throughfall, canopy effect, infiltration, water chemistry, UK, Scotland, Loch Ard; Allt a'Mharcaidh; 13316. immobile pore water fraction, groundwater flow, infiltration, tillage practice, solute transport, macropore, 13398. pesticide transport, nutrient transport, drainage water quality, leaching, land drainage, tile drain, groundwater quality, surface water quality, silt loam soil, USA, Indiana; 13453. piston flow, slug flow, herbicide, groundwater contamination, chemical fate, bromide, atrazine, contaminant transport, tracer, USA, Kansas, Great Bend Prairie; 02928. soil water characteristic curve, through flow, runoff, soil water storage, pipe flow, bypass flow, old water, water discharge, macropore, humid catchment, hillslope, 09804.
preferential flow path
contaminant transport, dissolved organic carbon, forested hillslope, colloid-mediated contaminant mobility, groundwater quality, 02921. unstable flow, groundwater flow, coarse textured soil, solute transport, water repellent soil, unsaturated flow, infiltration, soil water redistribution, Richards equation, convection dispersion equation, 09837.
preferential path
geophysical investigation, groundwater resource, drilling site, air photo interpretation, groundwater recharge, hydrogeological field study, isotope analyses, lithology, diffuse infiltration, Burkina Faso, Yatenga Province; 06368.
preferential water movement
glacial till, snow melt, groundwater movement, potassium iodide tracer, unsaturated soil, frozen soil, macropore channel, 05240.
preferred pathway
saturated volume fluctuation, recharge, storativity, water balance equation, water level response, groundwater recharge, neutron probe measurement, saturated zone, unsaturated zone, soil matrix flow, South Africa, Karoo, Dewetsdorp; De Aar; 11055.
preglacial drainage
structural control, regional slope, Precambrian rift, USA, Kentucky, Kentucky River; Licking River; USA, Ohio; USA, Indiana; 01395.
preglacial relict
rove beetle, beetle, refugium, Omalonomus relictus, blind rove beetle, Canada, Saskatchewan, Cypress Hills; Alberta, Cypress Hills; 10765.
preharvest burning
stream flow, water quality, nutrient, nitrate nitrogen, ammonium nitrogen, phosphate, calcium, magnesium, sodium, potassium, fire, 06323.
preheating
automotive emission, carbon monoxide, cold starting effect, vehicle, driving time, exhaust gas, air, 07833.
prehistoric
ice sheet, Ice Age hunter, landscape change, UK, England, London; 05019.
prehistoric gullying
Recent, gullying, gully growth, colluvium, stoneline, headward extension, Zimbabwe, St. Michaels Mission; 08552.
prehistoric liquefaction
earthquake induced liquefaction, liquefaction, sand dyke, glaciomarine sediment, ground shaking, earthquake hazard, historic liquefaction, USA, Massachusetts, Newbury; 13071.
prehistoric settlement
palaeoclimate, relief development, Palaeolithic(Middle), artefact, neolithic settlement, palaeogeography, Egypt, Eastern Desert; 04984.
prehistory
climate change, arid landscape, environmental transformation, Ecuador, Loma Alta; 09570. marine limit, deglaciation, sea level curve, glacial lake, Canada, Labrador, Nain; Hopedale; 06120. minerogenic layers, blanket peat, pollen analysis, mire, vegetational disturbance, palaeoecology, UK, Scotland, Galloway Hills, Loch Dee; 10783.
preindustrial acidification
lake water quality, fish extinction, landuse effect, vegetational development, Norway, Agder, Tveita Lake; Ersdal Lake; 13445.
Preissmann scheme
Abbott Ionescu scheme, river geometry, open channel flow model, cross section selection, flow equation, St Venant equation, 05178. flood propagation, mountainous terrain, flood hazard, finite difference solution, river network, hydrograph, Hong Kong, Shing Mun River; Sham Chun River; 08676.
prelaunch calibration
infrared, AVHRR, brightness temperature, 03279.
preliminary assessment
aerosol, contamination effect, SAGE, ozone trend, stratosphere, 11394.
premature breakup
breakup prediction, breakup modelling, ice breakup, river ice, ice cover, 02937.
premature frost
tardy frost, frost, tropical cyclone, Mexico; 01841.
preMidlandian
glacial deposit, glacial stratigraphy, Gortonian stage, Hoxnian, Ipswichian, Midlandian, Ireland; 13122.
premonsoon transition
convective activity, thunderstorm, island, Australia, Northern Territory, Darwin, Melville Island; Bathurst Island; 13601.
preparation
sample, international collaborative study, radiocarbon dating, design, 02583.
preparation technique
spore, pollen, dinoflagellate cyst, acritarch, microfossil, palynological preparation technique, macerationtank-method, 11910.
prepress mapping
digital mapping, map database, mapmaking, 05672.
preprocessing
lineament, digital data set, remote sensing, crystalline basement, Burkina Faso; 03415.
present sea level
sea level variation, tectonic movement, melt water, ice sheet, Antarctic melting, tide gauge record, glacial rebound, warming, glaciostatic shoreline origin, hydrostatic shoreline origin, isostatic shoreline origin, Pleistocene(Late) sea level, Holocene sea level, 07270.
preservation
event layer, sedimentation rate, sediment mixing, bioturbation, 03508. organic carbon, fjord, bacterial biomass, Hypsithermal period, Neoglacial, Little Ice Age, sedimentation rate, flux, Canada, Baffin Island; 04975.
preservation potential
fossilization potential, Arctic fjord, continental shelf, benthic microfauna, organic remains, marine invertebrate, Canada, Baffin Island; 04974. plant remains, microfossil, palynomorph, provenance, burial, fossil, 07067.
preservation spike
dissolution spike, climate optima, glacial maxima, differential dissolution, Pleistocene, oxygen isotope record, calcium carbonate, Pacific; 03867.
Presidents' Day cyclone
four dimensional McIDAS system, model diagnostic study, 11232.
pressure
cloud cover, precipitation, visibility, wave, climate, ship observation, lightvessel observation, temperature, sea surface temperature, North Sea; 11214. compaction, porous media, water flow, heat transfer, basin, 09311. gold, uranium, fluid, interstitial water, temperature, porosity, South Africa, Witwatersrand Basin; 02447. height, temperature, zonal wind, middle atmosphere, reference profile, 11136. isotope enhancement, ozone, oxygen isotope, 00841. statistical trend, statistical periodicity, sea level pressure, Mediterranean; 07675. temperature, geologic history, erosion, anthracite, microcline, geothermal gradient, 03624. temperature, humidity, wind, electric field, radiosonde, balloon sounding, observation, storm, 01803. temperature, radiosonde, rocketsonde, SBUV, SAGE II, ozone gradient, satellite, ozone comparision, 12545. wind pattern, precipitation, sea ice, general circulation model, climate sensitivity, temperature, Arctic; 05441. zonal wind, geopotential height, mesopause, middle atmosphere, reference atmosphere, tropopause, stratopause, zonal mean, temperature, 11141.
pressure change
interstitial solution, mass transfer, solute transport, diagenesis, buoyancy flow, heat transfer, sedimentary basin, temperature change, 08269.
pressure corrected adjustment
elevational gradient, ozone concentration, high elevation site, USA; 11303.
pressure dependence
chlorine reaction, ozone depletion, 07883.
pressure drag
boundary layer, surface Rossby number, form drag, Reynolds number similarity, molecular viscosity, turbulent viscosity, 05396.
pressure effect
temperature dependence, ozone, deposition, tree, exposure pattern, forest, high altitude, 11302.
pressure field
turbulent flow, bluff body, hill, wave, velocity field, 10104. uneven spacing grid system, iterative solver, convergence acceleration technique, 10096.

ressure field simulation
velocity field simulation, particle tracking method, groundwater model, MARCHAL, three dimensional model, flow model, quality model, solute transport, 09874.
ressure gradient
channel flow, laminar incompressible boundary layer, boundary layer flow, 07475. equatorial divergence, Younger Dryas, nutricline depth variation, last deglaciation, Florisphaera profunda, deep sea core, albedo, sea surface temperature, Atlantic, (Equatorial); 08443.
ressure height
circulation change, rainfall change, summer, climatic jump, sea level pressure, 13635. forecast model error, weather system, skill, jet stream splitting, feature based predictability, predictability, 10161.
ressure height trend
temperature trend, subsidence, subtropical high, long term drought, drought, atmospheric circulation, rainbelt, Africa, Sahel; 11179.
ressure jump relaxation
kinetics, sulphate adsorption, sulphate desorption, adsorption, desorption, goethite, 07364.
ressure measurement
interstitial pressure, slope unstability, geological structure, geotechnical characteristic, aquifer, hydraulic process, France, Meurthe et Moselle, Chateau-sous-Clevant; 10702. nonlinear formulation, snow creep, alpine snow, slow deformation, creep load, 08403.
ressure plate measurement
psychrometric measurement, soil water potential, calibration, thermocouple psychrometer, 09841.
ressure record
level displacement, time series, sea state condition, pressure transducer, transfer function, Germany; North Sea, Island of Sylt; 05982.
ressure reduction
statistical comparison, geostrophic wind estimate, surface wind; Froude number, sea level pressure, 12416.
ressure ridge
SAR, ice island, ribbed texture, island orientation, shelf ice cliff, ice ridging, Canada, Queen Elizabeth Islands; 01127. shear strength, geophysical scale, ice rubble, granular flow, shear box, 13190.
ressure ridge keel
arctic field test, sea ice thickness, airborne electromagnetic sounding system, system noise, drift problem, 05044.
ressure sensor
data logger, coal mine, gas flow, 12719.
ressure solution
porosity, sandstone, diagenesis, siliciclastic rock, burial, 12914. porosity, stylolite, compaction, cementation, sandstone, 02385.
ressure surface
algorithm, space time structure, empirical space time, orthogonal function, 12302.
ressure transducer
transfer function, pressure record, level displacement, time series, sea state condition, Germany; North Sea, Island of Sylt; 05982.
ressure velocity correlation
turbulence structure, stratus cloud, boundary layer, kinetic energy, radiative cooling, Arctic; 04318.
ressuremeter test
self boring pressuremeter, consolidation, creep effect, clay, 03767. Self-Boring Pressuremeter Test, limit pressure, 03777. subsoil property, India, South Gujarat; 03785.
ressuremeter testing
in situ testing, piezocone, dilatometer, soil investigation, cone-piezocone penetration test, 13042. in situ testing, swelling soil, international conference, soil mechanics, laboratory strength, deformation testing, 06018.
ressurized meltwater discharge
Artesian condition, finite element analysis, fracture filling, ice retreat, silty fracture filling, crystalline bedrock, hydraulic lifting, ice retreat rate, adfrozen, 04992.
ressurized water reactor
tree ring measurement, carbon-14, gaseous effluent, nuclear power plant, carbon dioxide, carbon monoxide, hydrocarbon, liquid scintillation counting, Hungary, Paks; 05481.
resumpscot Formation
Wisconsinan(Late), palaeoenvironment, isostatic rebound, pollen, AMS date, marine formation, fossil, USA, Maine, Portland; 06175.
retreatment
contaminated sample, archaeological bone, semi-automated system, bone pretreatment system, 02567.
retreatment technique
radiocarbon dating, evaluation, organic fraction, paleosol, loess-paleosol sequence, China, Xian; 02589.
revailing wind
causeway, research base, aerodrome, coastal airstrip, Antarctica, Terre Adelie, Dumont d'Urville; 01473.
reventing flood damage
flooding, surveying profession, appropriate land use, flood plain, Australia; 03710.
revention
landslide, forecast, mountain dominated, natural hazard, debris flow, China; 01409.
revention policy
forest landing failure, rainfall area, exotic forest harvesting, steepland area, prediction policy, New Zealand; 06065.
rewetting technique
soil wetting, aggregate stability, vacuum wetting, wet aggregate, 13269.
riging
analytical aerotriangulation, rectification parameter, photographic product, aerial photography, USA; 07925. franchising, marketing, digital cartographic data, market research, promotion, 01091.
rising policy
pollution charge, water charge, water resource management, 00647.
riestley Taylor concept
soil heat flux, vegetation cover, soil drying, evapotranspiration, surface soil moisture, 10980.
Priestley Taylor model
residual method, evaporation model, alpine tundra, Bowen ratio, energy budget, latent heat flux density, aerodynamic equation, Canada, British Columbia; 08660.
Priestley-Taylor formulation
alpha diurnal variation, Bowen ratio, stability, parameter alpha, net radiation partitioning, Brazil, Amazon Forest; 13527.
Priestley-Taylor method
evapotranspiration, Arctic watershed, permafrost, water balance, pan evaporation, energy balance, USA, Alaska, Imnavait Creek; 13439.
Priestly Taylor equation
runoff, Penman equation, evaporation, transpiration, bare soil surface, potential transpiration, actual evaporation, Africa, Sudan; Sahel; Niger; 12156.
primary alluvial landform
magnitude-frequency relationship, alluvial landform, flood flow, point bar, aerial photography, dendrochronological evidence, USA, Tennessee, Cumberland Plateau; 00213.
primary circulation
quasi balanced dynamic, tropics, balance scheme, Kelvin wave, long-wave approximation, 12403.
primary framework
adjustment, North American Datum, GIS, coordinate base, national datum, Canada; 01016.
primary mineral dissolution rate
soil formation rate, soil development, stable landform, landscape study, time, surface stability, field morphology, climatic change, USA, California; Great Basin; 02495.
primary production
autoradiography, algae, epipsammic, microphytobenthos, depth profile, Baltic Sea; 00188. AVHRR, NDVI, monitoring, savanna, tree leaf production, vegetation index, Senegal; 13950. global carbon cycle, carbon cycle, Coastal Zone Color Scanner, ocean, 11226. grassland, semiarid grassland, AVHRR, remote sensing, Africa, Sahel; 13943. multiple linear regression, incident irradiance, photosynthetic rate, phytoplankton, Pacific; 03465. nutrient, anthropogenic nutrient, estuarine anoxia, estuary, chlorophyll, Adriatic Sea, Sibenik Bay; Yugoslavia, Krka River Estuary; 09385. photic zone, glacial North Atlantic, export production, seasonality, intermittency, palaeoceanographic implication, 07194. sedimentation, phytoplankton, settling velocity, neritic ecosystem, chlorophyll, biomass, Caribbean, Jamaica, Kingston; 05955.
primary productivity
carbon disulphide, carbonyl sulphide, hydrogen sulphide, ocean atmosphere interaction, biogeochemical sulphur cycle, dimethylsulphide, algal biomass, 05543. climatic cycle, sedimentation rate, stable isotope record, Quaternary(Late), sedimentation rate, Antarctic continental margin, ice shelf edge, diagenetic process, meltwater spike, Antarctica; 02622.
primary productivity map
upwelling, oxygen isotope stage, coastal upwelling, Quaternary(Late), productivity, diatom, Peru; 11930.
primary school
spatial cognitive ability, cognitive mapping, Korea(South); Korea(North); 06801.
primitive equation
prognostic equation, terrain-following coordinate system, simulation, orography, frontal process, model development, 13597.
primitive equation forecast
filtered system, forecast, slow equation model, data initialisation, 07792.
primitive equation forecast model
momentum flux, sensible heat flux, boundary layer, wind speed, low level wind, 04324.
primitive equation model
barotropic vorticity equation, invertibility principle, potential vorticity inversion, shallow water flow, Rossby number, 04270. boundary layer, frictional forcing, semi-geostrophic model, sea breeze, 00719. forecasting, implicit equation model, semi Lagrangian model, 11244. Kuroshio current, sea surface temperature anomaly, monsoon, Pacific; 10035. quasi geostrophic model, linear interpolation model, cold front, surface friction, wind field model, 04289.
primitive equation numerical model
coastal wave, Kelvin wave, Rossby wave, El Nino, Pacific, (Northeast); 07731.
primitive equations dynamics
frontal zone, quasi geostrophic, semi geostrophic, Richardson number, cyclone wave, baroclinic instability, 04267.
primordial atmosphere
Urey effect, free oxygen, photodissociation constant, 06536.
principal axis
rotationally symmetric shape, polar sampling, 10304.
principal component
Bluefield Formation, Girvanella, mud mound, terrigenous material, sand, USA, West Virginia, Pocahontas County; 10599. complex airshed, multivariate modelling approach, inhalable particulate matter, receptor model, source apportionment, factor analysis, USA, New Jersey, Newark; 13732. El Nino/Southern Oscillation, multiple circulation regime, anomalous weather, 500 mb height, teleconnection pattern, Japan; 05393. spectral analysis, coniferous forest classification, textural analysis, Canada, Ontario; 08089.
principal component analysis
aerosol, carbon, lead, source apportionment, chemical mass balance, USA, Pennsylvania, Allegheny Mountain; 11313. automotive emission, aerosol analysis, infrared spectroscopy, source allocation, size distribution, carbonyl carbon, aliphatic carbon, USA, Los Angeles; 05511. climate vegetation relationship, warming impact, warmer world, vegetation type, Kenya; 08990. common factor analysis, mean annual rain fall, precipitation, rain fall, regionalisation, Ethiopia; 04236. cyclone movement, anticyclone movement, sea level pressure, synoptic system, USA; 10005. discriminating, texturally similar till, multivariate technique, Rainy lobe, late Wisconsin advance, Superior lobe, sedimento-

logical parameter, USA, Minnesota; 03880. eigenvector, empirical orthogonal function, global precipitation, domain shape, 12298. eigenvector, orthogonal rotation, oblique rotation, pattern analysis, locational consistency, climate regionalisation, 10004. geological interpretation, Landsat TM, data processing, Pakistan, Indus; 06842. Lamb Catalogue, daily weather type, climatic change, precipitation, synoptic circulation change, UK; 06456. long range transport, multivariate analysis, trace element data, moss sample, atmospheric deposition, Norway; 07871. photochemical process, lower troposphere, chemical component, aerosol, pollution, Arctic; 06549. rainfall periodicity, Baiu season, rainfall variation, Japan; 06455. rainfall response, sea surface temperature, regression analysis, China; Pacific; 10036. rainfall, Albania; 12334. range spectrum, radar backscatter, forest, helicopter borne scatterometer, Finland, Helsinki, Espoo; 03442. rotating annulus, Rossby number, Ekman number, baroclinic wave, topography, 01874. soil characteristic, organic soil, cluster analysis, Canada, Ontario; Quebec; 05095. spectral analysis, quick flow, base flow, rainfall variability pattern, Southern Oscillation, runoff variability, climatic influence, stream flow variability, USA, (Southeast); Australia, (Southeast); 08666. sulphur dioxide, nitrogen oxide, intercalibration study, 06667. temperature field, global circulation, 07676. trace metal, sodium, vanadium, manganese, copper, zinc, arsenic, cadmium, lead, inversion, particulate, aerosol, pollution, impactor, Switzerland, Berne; 05509. ungauged catchment, homogeneous region, regionalisation, catchment characteristic, hydrological homogeneity, low flow characteristic, cluster analysis, multiple regression, Australia; 10992. visibility, pollution, sulphur, particulate matter, aerosol, fuel burning, agricultural burning, USA, California; 02067. wet deposition, anthropogenic precursor, alkaline particulate, marine ion, free acidity, Finland; 06608.

principal component image
classification accuracy, sampling strategy, land cover classification, SPOT, 03450.

principal component pattern
mean sea level pressure, sea surface temperature, El Nino/Southern Oscillation, Australia; 08906. sea surface temperature, rainfall, Australia, Victoria; 08907.

principal components analysis
annual variation, geographical distribution, aridity distribution, Greece; 12350. chemical mass balance, receptor, dispersion modelling, 01998. climatic pattern analysis, summer storm, thunderstorm, USA; 12332. clustering, sulphur dioxide, nitrogen dioxide, synoptic climatology, climate classification, pollution, air quality, 07865. clustering, synoptic classification, synoptic climatology, climate classification, USA; 07636. digital image processing, data integration method, geophysical data, satellite imagery, 12715. orchard, Landsat TM data, undergrowth, biomass, USA, New York State; 08103. probability density contour, maximum likelihood classifier, SPOT, Landsat TM, data space volume, 10314. spatial pattern, drought type, USA; 07662. time series simlation, homogeneous precipitation, precipitation region, France, IJzer Watershed; Belgium, IJzer Watershed; 09987.

Principal Osillation Pattern analysis
oscillation period, tropical troposphere, forecast, tropospheric oscillation pattern, 09981.

principal stress rotation
deformation, 03758. sand, stress path dependent soil behaviour, hollow cylinder, torsional apparatus, generalised stress path, 06020.

print
bibliography, Paolo Forlani, map, 12668.

printed map
Bering,V., cartographic thought, 05669. video disc, screen based map, 02169.

printing plate
raster map data, scanning, 08049.

Priory Bay deposit
Boxgrove deposit, Earnley deposit, Stone deposit, West Wittering deposit, deposit correlation, Pleistocene, sea level, neotectonic history, Steyne Wood Clay, raised beach, Bembridge Raised Beach, Lane End deposit, UK, England, Isle of Wight, Bembridge; Solent; 02679.

prismatic rectangular channel
flood routing, stage hydrograph, routing method, flood wave, St Venant's equation, 05183.

priswest test
laboratory equipment, shear test, wedge shear testing, unsaturated material, clay, gravel, cylwest test, iswest test, 09512.

private company
RIS, information system project, Canada, Manitoba; 13811.

private industry
government agency, GIS, National Center for Geographic Information and Analysis, academic institution, 00948.

private sector
business, land information, 13968. GIS, LIS, local government, Australia, Victoria, Shire of Bulla; 01145. national atlas, multi media technology, government, Canada; 13883.

private sector management
management project, cadastral project, 06792.

private weather service
Noble-Denton Weather Service, weather service, 02992.

probabilistic analysis collapsing soil
indicator kriging, indicator transform, kriging, USA; 03731.

probabilistic approach
rock slope stability, slope stability, joint, structural domain, stability analysis, sliding probability map, Italy, Rome Region; 08389.

probabilistic calibration
radiocarbon date, computer procedure, archaeological application, 02595.

probabilistic domain knowledge
template matching, probability density, digital image matching, 07986.

probabilistic estimate
Monte Carlo method, cluster, 12644.

probabilistic function
logistic regression, GIS, mathematical function, spatial modelling, 01051.

probabilistic knowledge
template matching, feature probability, 04511.

probabilistic method
Poisson Process theory, regional synthesis method, flood probability law, flood chronology, basin characteristic, return period, rainfall runoff relationship, Algeria; 12169. toppling failure, Monte Carlo simulation, Markov Chains theory, stability analysis, block toppling failure, rock slope, 04917.

probabilistic model
temporal series, rainfall deficit, statistical analysis, 00676.

probabilistic modelling
urban runoff, pollutant load, nonpoint source pollution, runoff pollution, North America, Great Lakes Basin; 07513.

probabilistic quantitative precipitation forecast
forecast, skill score, precipitation forecast, climatology, 07813.

probabilistic random function model
geostatistical modelling, dissolved oxygen, oxygen distribution, estuary, surface water quality, Italy, Taranto, Mar Piccolo; 13361.

probabilistic relaxation
land cover classification, classification accuracy, maximum likelihood classification, 01111.

probabilistic transform
Hough transform, computer vision, feature extraction, Monte Carlo method, 11482.

probability
frequency distribution, Box-Cox transform normal distribution, precipitation, 13513. multiresolution analysis, correlation filter, fractal geometry, 12630. pattern, form, divergence, 02116.

probability density
digital image matching, probabilistic domain knowledge, template matching, 07986.

probability density contour
maximum likelihood classifier, SPOT, Landsat TM, data space volume, principal components analysis, 10314.

probability density function
concentration fluctuation, plume, boundary layer, g and h distribution, 00722. deforming triangle, affine transform, 06728. Hough transform, additive noise, signal detection theory processor, 12634. meteorological research, Monte Carlo forecast, 01945.

probability distribution
aerosol backscatter, marine atmosphere, carbon dioxide wavelength, profile retrieval, wind profile, satellite wind sounder, Laser Atmosphere Wind Sounder, 12573. event sediment yield, stochastic analysis, laminated reservoir deposit, long term erosion rate, sediment yield, erosion rate, Israel, Negev Desert; 02741. flood frequency analysis, streamflow record, extreme flood event, palaeoflood record, parameter estimation, 00514. Pleistocene(Late), climatic record, model validation, SPECMAP record, statistical test, 09536. runoff model, model simulation uncertainty, reliability estimation, hydrograph, hydrological model, peak discharge, USA, Illinois; 08663. single parameter distribution, Weibull distribution, precipitation distribution, USA, Rocky Mountains; 09788. statistical inference, Box Cox Power transformation, probability model, acid rain, alkalinity, lake alkalinity, pH alkalinity relationship, Canada; 05187.

probability distribution function
drought duration, drought frequency analysis, critical drought analysis, Markov chain, 09787.

probability map
GIS, snow avalanche path, morphometric information, buffer, USA, Montana, Glacier National Park; 03460.

probability matching method
radar, reflectivity, rain rate, area - time integral, 13522.

probability model
acid rain, alkalinity, lake alkalinity, pH alkalinity relationship, probability distribution, statistical inference, Box Cox Power transformation, Canada; 05187. hydraulic conductivity, storage coefficient, specific yield, source-sink function, water table elevation, groundwater flow model, regional groundwater flow, lumped model, deterministic model, USA, California, Owens Valley; 04125. two-point estimate method, Monte Carlo method, regional groundwater flow, groundwater flow model, deterministic model, water table elevation, 04124.

probability plotting position
Cunnane formula, Gringorten formula, EVI distribution, unbiased plotting positions, general extreme value distribution, Arnell et al. formula, In na formula, statistical method, 10968. Weibull rule, unbiased plotting position formula, Cunnane formula, plotting position formula, historical flood, statistical method, 10991.

probability theory
storage, routing model, soil moisture storage capacity, return period, basin discharge, rainfall-runoff relation, 04040.

probability value
calendar year, calibration curve, histogram, radiocarbon age calibration, 02594.

probability weighted moment
partial probability weighted moment, generalized extreme value distribution, historical flood data, parameter estimation, flood frequency analysis, 09807.

probabilstic reasoning
model based vision, 03332.

probable maximum flood
maximum flood estimation, flood peak frequency characteristic, regional maximum flood, design flood estimation, Africa(Southern); 05140. retrofit, reservoir safety, risk evaluation, dam safety, extreme flood, flood control system, USA, Ohio, Walhonding River, Mohawk Dam; 01787. terrain induced precipitation, digital terrain representation, mountain, precipitation, Austria, Vienna; 06467.

probe
fluid pressure, marine sediment, seafloor, hydrothermal circulation, pore fluid, 11817.

problem center
plane, optimisation problem, center problem rectilinear, 09104.

problematical soil

tropical soil, acidification, acid sulphate soil, field identification, coastal reclamation, Indonesia, Kalimantan; 08635.
rocedure revision
sea level rise, tidal survey, 07962.
roceedings
conference, policy implication, landscape ecological impact, climatic change, 04928.
rocess
glaciology, landslide, soil erosion, field experimentation, physical geography, China; 01376.
rocess based modelling
soil erosion, water, agricultural land, erosion prediction, USLE, source area, USA; 01496.
rocess error
raster data structure, rasterisation, cell size, vector structure, GIS, 12675.
rocess model
description, modelling, glacimarine sediment, sedimentation, rate model, iceberg melting, 04987.
rocessing layer
memory network pattern classifier, multi-level architecture, 03316.
rocessing map
field map, gradient tensor, potential field anomaly, 09095.
rocessing parallelism
multiprocessor architecture, image processing, 11488.
rocessing tool
GIS, digital model, graphic representation, mental representation, 03352.
rocessor pyramid
Hough transform, divide and conquer, 03348.
roctor test
volcanic tropical soil, allophane, halloysite, geotechnical test, Martinique; 05097.
rodelta
river mouth, hyperpycnal mixing, Namurian, Carboniferous, Sear House Bed, delta, mudstone, UK, England, Yorkshire; 05896.
rodelta mud
progradational sequence, Pleistocene(Late), Holocene, sedimentary facies, continental shelf, delta, Spain, Ebro Continental Shelf; 06100.
rodelta rhythmite
glacimarine process, grounding line fan, ice contact delta, migrating barchanoid bar, trough cross bed, turbulent vorticity, plume, 04989.
roduct generation
GIS, commercial GIS, 05618.
roduct protocol
Digital Chart of the World, vector representation, microcomputer, Operational Navigation Chart, 01078.
roduct yield
alkane transport, hydrocarbon mixture, carbon, gas lifetime, 09020.
roduction
agrometeorology, rainfall, frost, precipitation, temperature, crop, Pakistan, Balochistan; 03034. semi arid, zero tillage fallow, grain yield, wind erodible aggregate, conservation tillage, spring wheat, Canada, Saskatchewan; 05055. stable isotopic composition, carbon dioxide, soil carbon dioxide, grass covered soil, diffusion equation, isotopic equilibrium, Switzerland, Bern; 11912.
roduction cost
economic map, school atlas, 10357.
roduction degradation process
eutrophication, chemical oxygen demand, total organic carbon, biochemical oxygen demand, surface water quality, lake water quality, nutrient, inflow river, carbon, nitrogen, phosphorus, discharge, organic matter, Japan, Lake Kasumigaura; 11020.
roduction environment
strapdown technology, inertial technology, surveying, geodesy, 03284.
roduction forecast
sugar beet crop, marketing, UK, England; 12764.
roduction measurement
productivity estimate, vegetation, grazing, 11561.
roduction organisation
education, GIS, geoinformation theory, educational institution, 01169.
roduction pattern
arid land, biological change, erosion, grazing, hypothetical paddock, Australia; 00366.
roduction rule
syntax, environmental management, expert system, spatial inferencing, 05654.
roduction system
runoff, soil erosion, cotton, coffee, andosol, talpetate, volcanic tuff, erosion, Nicaragua, Managua Lake; 02726.
roductivity
anoxic, sedimentation rate, organic carbon, deep sea sediment, 00171. anthropogenic influence, estuary, delta, surface property, suspended solid, organic matter, Mediterranean Sea; France, Rhone River Delta; Yugoslavia, Krka River Estuary; 11715. atmospheric carbon dioxide, ice volume, Pleistocene(Late), palaeoclimatology, flux pattern, biogenic sediment, mass accumulation rate, opal flux maxima, Pacific; 11929. biogenic debris, sedimentation, gyre, heavy metal, sediment source, pollution, Tyrrhenian Sea; 08172. biogeochemical cycle, organic carbon, nitrogen, phytoplankton, upwelling, Pacific, (North-east); 02466. carbon reservoir, planktonic foraminifera, alkalinity, ocean, surface water, phosphate, carbon dioxide, 08994. coastal evolution, environmental assessment, accretion, land reclamation, sea level rise, Spain, Cantabria; 10582. Cretaceous, sea floor, nannofossil, macrofossil, dysaerobic conditions, anoxia, Weddell Sea, ODP Site 692; ODP Site 693; 03639. deep sea bed, microbial, carbon, biomass, phytoplankton, Atlantic, (Northeast); 04761. diatom, primary productivity map, upwelling, oxygen isotope stage, coastal upwelling, Quaternary(Late), Peru; 11930. fire, decomposition, forest product, biomass energy, carbon dioxide, harvesting, 10212. geosystem functioning, functioning intensity, 08323. hydrographic, organic carbon, sedimentation rate, carbonate, Sea of Marmara, Izmit Bay; 03543. lagoonal flux, organic matter, atoll lagoon, pearl, fishery, Pacific, French Polynesia, Tuamotu Archipelago; 11714. last glaciation, biological productivity, upwelled nutrient, carbon dioxide, biological pumping, palaeoproductivity, accumulation rate, diatom shell, ocean productivity, atmospheric concentration, Antarctic Ocean; 11931. microfossil, oceanographic change, Recent, diatom, temperature, sea ice, glacial-interglacial cycle, Iceland Sea; Greenland Sea; Norwegian Sea; 02366. Milankovitch, organism, carbonate platform, Pleistocene, climate, palaeoclimate, palaeoceanography, sedimentary cycle, cycle, USA, Florida; 01227. nutrient accumulatiom, biogeochemistry, forested landscape, water chemistry, boreal forest, terminal moraine, oak, forest steppe, loess, tropical rain forest, phytomass, biomass, Brazil, Amazon Basin; USSR, Valday Hills; USSR, Oka-Don Plain; 00353. nutrient cycle, rock weathering, site productivity, mass balance equation, timber harvesting, weathering rate, cation nutrient pool, nutrient replenishment, mineral weathering, 08518. nutrient recycling, lake, stratification, oxygen regime, mixing depth, Canada; 00023. oxidation, organic matter, diagenesis, benthic fauna, mineralisation, 10635. oxygen profile, redox, carbon cycling, phosphorite, organic carbon, 03570. phosphorus, vesicular-arbuscular mycorrhizal fungi, biomass, 00424. phytodetritus, reef, phytoplankton, growth rate, bacteria, deep sea sediment, Solomon Sea; Coral Sea; 00184. Pleistocene(Late), sea surface temperature, North Atlantic Deep Water, Younger Dryas, deep water chemistry, Atlantic, (North); 06096. precipitation cyclicity, pasture, USSR, Turkmenistan; 04189. redox condition, biogenic detritus, accumulation, burial process, diagenesis, transition metal, trace metal, USA, California; 00176. river discharge, nutrient, oligotrophic, phytoplankton, fresh water, Mediterranean Sea, Gulf of Lions; 05961. sea ice cover, continental slope, opal, climate, Quaternary, Paleogene, Neogene, Weddell Sea, ODP Site 693; 03571. seasonality, particle flux, opal, organic carbon, benthic, sedimentation, Weddell Sea; Southern Ocean, Bransfield Strait; 02471. sedimentation, eutrophic lake, mineralisation, phosphorus, pollutant, lake, Netherlands, Lake Veluwe; 11667. stratification, organic matter, halocline, sedimentation, phosphorus, Baltic Sea; 10650. sulphate, sedimentation rate, diagenesis, sea water, bacteria, Mexico, Gulf of California; 05954. trace element, sea water, ferromanganese nodule, organic matter, copper, 00083. upwelling, phosphorite, accumulation rate, Peru; 00126. vegetation dynamics, AVHRR, vegetation index, Mexico; 08093. Younger Dryas event, Holocene, palaeoenvironmental event, Pteropoda, high resolution record, sedimentary sequence, core, R/V Meteor cruise, stable isotopic record, stratified water column, Red Sea; 10748.
productivity estimate
vegetation, grazing, production measurement, 11561.
productivity map
pigment, algal biomass profile, euphotic layer, 11592.
productivity rate
Pleistocene sediment, Pliocene sediment, orbital geometry, seafloor, Neogene, carbonate concentration, Indian Ocean, Mascarene Plateau, ODP Site 709; ODP Site 710; Indian Ocean, Mascarene Plateau, ODP Site 711; 08191.
professional institution
data processing, Hungary; 03488.
professional negligence
surveyor competence, land surveyor, USA, Kentucky; 07901.
professional organisation
Swiss surveying, 12824.
professional recognition
survey profession practice, public relations, 07900.
profile
glacial deposit, chronostratigraphy, raised marine terrace, proglacial river, radiocarbon dating, Vistulian, Holocene, litho-chronostratigraphy, Svalbard, Spitsbergen, Horbyedalen; 02690. remote sounding, error analysis, 06725. structure, triangulation, optical triangulation, cross section, 04478.
profile accuracy
high altitude overflight, aerotriangulation, photogrammetric compilation, 07923.
profile differentiation
clay formation, soil formation, podsolic soil, USSR, Siberia; 09774.
profile measurement
inhomogeneity, Monin-Obukhov similarity theory, turbulent exchange, surface, chessboard type surface, 13551.
profile method
Monin Obukhov function, latent heat flux, sensible heat flux, evaporation measurement, Alpine basin, ALPEX RHONEX project, bulk transfer method, energy balance, Bowen ratio, Switzerland, Gletsch; Oberwald; 08659.
profile readjustment
breakwater, flow field, armouring, 00101.
profile retrieval
wind profile, satellite wind sounder, Laser Atmosphere Wind Sounder, probability distribution, aerosol backscatter, marine atmosphere, carbon dioxide wavelength, 12573.
profile truncation
moisture regime, soil freezing, soil facies, classification, landscape zone, soil forming process, USSR, Soviet Central Asia; 10951.
profiler
measurement instrument, suspended sediment, AmasSeds, flow condition, sediment profiler, Brazil, Amazon River; Amazon Shelf; 10663.
profiling
sediment nourishment, backpassing, navigation, offshore bottom, beach, 05878.
proglacial
freezing, subglacial water, sparite, micrite, film flow, cyanobacteria, calcite, Switzerland, Glacier de Tasnfleuron; 01232. sedimentation, lake, supraglacial stream, deglaciation, Svalbard, Spitsbergen, Horbyebreen; 04725.
proglacial feature
kettle hole, kame, landsystem, glaciofluvial landform, melt water, ice-contact landform, UK; Ireland; 11948.
proglacial lake

diamictite, Gilbert type delta, progradation, Talchir Group, sedimentation, India, Sahajuri Gondwana Basin; 12922. drumlin field, morphometric analysis, Glacial Lake Iroquois, swash zone, submerged drumlin, wave planed summit, USA, New York; 07230. glaciation, Loch Lomond Stadial, UK, Scotland, Grampians; 13130. Lake Humber, Eskrick moraine, Withernsea till, Quaternary history, Wolstonian till, Ipswichian beach, Hoxnian, Dimlington Stadial, Skipsea till, weathered mantle, Hessley Clay, UK, England, Humberside; Yorkshire; 13138. outwash gravel, fluvial terrace, till, glaciation, Anglian, Wolstonian, Devensian, UK, England, Lincolnshire; 13139. suspended sediment concentration, push moraine, meltwater channel, glacial surging, sedimentation, ice contact lake, rapid sedimentation, terminus advance, USA, Alaska, Glacier Bay, Carroll Glacier; 02634.

proglacial lake basin
radiocarbon date, Younger Dryas, Little Ice Age, deglaciation, chronology, marine sediment, Svalbard, Spitsbergen, Linnevatnet Lake; 05009.

proglacial river
radiocarbon dating, Vistulian, Holocene, litho-chronostratigraphy, profile, glacial deposit, chronostratigraphy, raised marine terrace, Svalbard, Spitsbergen, Horbyedalen; 02690.

proglacial sediment
glacial tectonism, pleistocene, sedimentation, macrotidal piedmont coast, wave-cut exposure, facies analysis, USA, Alaska, Nushagak Lowland, Ekuk Bluffs; 01429. Scottish Readvance, delta sediment, weathered sediment, deep weathering, glacial history, Devensian, downwasting, UK, England, Cumbria; 13133.

proglacial storage
sediment concentration, Alpine sediment, sediment budget, sediment yield, suspended sediment, bedload transport, channel pattern, melt water flood, sandur, slopewash, flood event, Switzerland, Val d'Herens, Bas Glacier d'Arolla; 07239.

proglacial stream
sediment pulse, glacier, suspended sediment, sediment load, mountain basin, turbidity measurement, 08715.

prognostic equation
terrain-following coordinate system, simulation, orography, frontal process, model development, primitive equation, 13597.

progradation
backbarrier marsh, dune ridge, palynology, peat, relative sea level change, coastal response, sand beach, coastal dune, Canada, Newfoundland; 00316. carbonate megabank, seismic profile, submersible observation, sediment volume, vertical accumulation rate, lateral progradation, periplatform mud, sea level, accumulation, bank top sediment, Atlantic, Great Bahama Bank; 02611. carbonate platform, subsidence, Ella Bay Formation, Cambrian, Canada, Ellesmere Island; 00138. delta, estuary, tidal flow, Quaternary(Late), Canada, British Columbia, Fraser River; 06976. erosion surface, sea level change, Miocene, Reef Complex, sea cliff, reef, Spain, Mallorca; 10603. Holocene, transgression, longshore drift, delta, sedimentation, sand body, India, Nizampatnam Bay; River Krishna; 05838. Quaternary, delta, coring, Italy, Tagliamento River; 11662. sea level lowstand rate, tectonic subsidence rate, turbidite deposit, Quaternary(Late), sedimentation, continental margin, seismic stratigraphy, sea level history, Aegean Sea; 08449. Talchir Group, sedimentation, proglacial lake, diamictite, Gilbert type delta, India, Sahajuri Gondwana Basin; 12922. tectonics, submarine canyon, sediment drape, fault, turbidite, deformation, Pacific, (Southeast), Chile Trench; 05857. water depth, sedimentary structure, dipmeter, reservoir rock, nearshore bar, bedform, Canada, Gulf of Saint-Lawrence; 01222. wind erosion, stratigraphy, palaeoenvironmental significance, loess, shore platform, gelifraction, Adriatic Sea, Dalmatian Archipelago, Susak Island; 07214.

progradational sequence
Pleistocene(Late), Holocene, sedimentary facies, continental shelf, delta, prodelta mud, Spain, Ebro Continental Shelf; 06100.

prograde
onlapping sequence, sediment supply, stratigraphic response, carbonate platform, sea level change, Ocean Drilling Program, tectonic uplift, prograding clinoform, Indian Ocean, Broken Ridge; 11988.

prograding clinoform
prograde, onlapping sequence, sediment supply, stratigraphic response, carbonate platform, sea level change, Ocean Drilling Program, tectonic uplift, Indian Ocean, Broken Ridge; 11988.

prograding fluvial system
anastomosing river, zonal vegetation belt, semi arid climate, sedimentary history, intramontane basin, tectonic structure, sedimentation rate, sedimentary infill, Colombia, Pitalito Basin; 10679.

prograding slope sequence
carbonate, opal productivity, ice rafted debris input, floating ice shelf, polynya, cycle, rhythm, event, Quaternary, glaciomarine deposit, facies pattern, glaciomarine continental margin environment, basal lodgement till, glacio-isostatic uplift, Arctic; Southern Ocean, Weddell Sea; 02620.

prograding succession
barred shoreline type, sea level rise, Midley Sand, storm, sedimentation, radiocarbon date, Holocene(Late), depositional history, borehole, succession, UK, England, Kent, Dungeness; 06180.

prograding system
genesis, atoll morphology, palaeoecological study, cored well, lagoon, fringing reef, preferential dissolution, carbonate platform, French Polynesia, Mururoa; 04893.

program
LISP programming, student, sedimentary environment, SEDRULE, simple expert system, 03683.

program organisation
accuracy, database content, legal ramification, multiparticipant GIS, 01044.

programming
CAM, geographic information processing, FORTRAN, 01002.

programming language
image algebra, algorithm optimisation, 00989. line drawing, three dimensional graphics, computer graphics, 05692.

progress report
data retrieval management system, international database, radiocarbon database, 02600.

progressive failure
long slope, clay slope, shear deformation, finite element analysis, 07180.

project AM/FM
project GIS, prototyping, 06758.

project failure
GIS, AM/FM, 09120.

project GIS
prototyping, project AM/FM, 06758.

project goal
critical path method, quality assurance plan, 07898.

project impact
environmental project, calibrating model, water development, USA, Texas; 13977.

project management
database construction, strategic implementation, GIS, project planning, 01037. geographical data system, 10486. mapping, digital conversion, project tracking, spreadsheet, 07899.

project planning
project management, database construction, strategic implementation, GIS, 01037.

project tracking
spreadsheet, project management, mapping, digital conversion, 07899.

projection
edge detection, line drawing, 03326. greenhouse warming, Intergovernmental Panel on Climate Change, ocean model, polar ocean, scenario, 11279. labeled skeleton, 00981. map, survey service, UTM, Asia, (Southeast); Thailand; Malaysia; Indonesia; 04589. quadrilateral, perspective projection, vision, camera parameter, 13797.

projection pursuit
pattern classification, discriminant function, 06729.

projective line
isopleth, geometric characteristics, band combination, 07936.

projective model
conformal transformation, georeferencing, SPOT imagery, affine model, 07951.

projective transformation
relative orientation, camera, 11443. relative orientation, two dimensional projective, 11446.

Prolog
database, navigation, 04556. database, ORACLE, 04568. GIS, geometric object, 11507. relational database management system, relational database, 04570. SQL, database query language, object oriented modelling, GIS, 03359.

Prolog primitive
rule based system, cartographic name placement, map production, 01087.

Promise Formation
sedimentation, source area, hydrothermal, conglomerate, South Africa, West Rand; Klerksdorp; 02384.

promotion
pricing, franchising, marketing, digital cartographic data, market research, 01091.

proof of concept development
performance evaluation, GIS, benchmark, 13826.

proof probability
information theory, ice marginal ramp, Bortensander, mathematical logic, geomorphological proof, glacial landform, 08462.

propaganda
cartography, inter-war years, Poland; 01089.

propagating wave
surface wave spectral information, slightly rough facet model, SAR, ocean wave, 05747.

propagation
polarisation, Poynting flux, auroral kilometric radiation, 03392. Siberian High, cold surge, air mass transformation, Asia; 12337.

propagation classification
synoptic climatology, transient anomaly, tropical anomaly, intraseasonal convection anomaly, convection anomaly, 12396.

propagation differential phase shift
X-band specific attenuation, radar, ice, graupel, hail, differential reflectivity, depolarisation ratio, USA, Alabama; Colorado; Germany, Munich; 01794.

propane
acetaldehyde, pollution, formaldehyde, photochemical smog, ozone, hydrogen peroxide, hydrocarbon, ethene, 02041. n butane, acetylene, ethane, alkene, ethene, propene, alkane, latitudinal distribution, non methane, hydrocarbon, Atlantic; 06653. pentane, butane, ocean water, hydrocarbons, biological activity, nonmethane hydrocarbon, remote atmosphere, marine atmosphere, ethane, ethene, propene, 11345. seasonal variation, hydrocarbon, free troposphere, mid latitude, ozone, ethane, 11340.

propanoate
butanoate, carboxylic acid, drainage water quality, sediment, drainage channel, hypoxic sediment, eutrophic channel, gas chromatography, dissolved oxygen, acetate, 04135.

propene
alkane, latitudinal distribution, non methane, hydrocarbon, propane, n butane, acetylene, ethane, alkene, ethene, Atlantic; 06653. butene, pentene, hexene, rate constant, Arrhenius parameter, ozone, alkene, ethene, 06620. propane, pentane, butane, ocean water, hydrocarbons, biological activity, nonmethane hydrocarbon, remote atmosphere, marine atmosphere, ethane, ethene, 11345.

property
mapping, parcel indexing, Canada, New Brunswick; 02279. Torrens system, global positioning, land surveying, Bermuda; 12815.

property condition
photogrammetry, land registry, mapping, Switzerland, Nidwalden; 06919.

property description
title, document, 08140.

Property Fabric Information System
GIS, cadastral survey, Canada; 10477.
property information
cadastral base map, surveying, mapping, land information, Canada, Alberta, Edmonton; 05775. geographic theme, cadastral database, land parcel, New Zealand; 01147. GIS, transport, health care, forestry, regional planning, decision support, land information, Europe; 10323.
property location
emergency situation, civic address, rural area, Canada, Nova Scotia, Queens County; 01151.
property register
soil, land information, computer, surveying, 06918. surveying authority, mapping, land parcel, Switzerland; 06915. water pipe, gas pipe, electricity line, surveying system, Switzerland, Bern, Muri; 06914.
property sketch
archival data, map publisher, 12667.
property survey
aerial photograph, 10331.
property value
International Conference on Coastal Engineering, shore protection, erosion, groin, sea wall, sediment transport, 00051.
proportional method
calibration curve, calculation, net soil loss, caesium-137, Australia, New South Wales, Hunter Valley; 02744.
propylene oxide
toxic contaminant, aliphatic, acetaldehyde, dioxane, ethylene, glycol ether, 07890.
prospecting instrumentation
groundwater investigation, electrical prospecting, geoelectrical method, audiomagnetotelluric prospecting, 06360.
prostrate ground cover
wind erosion, aerodynamic roughness, soil flux, model, 02720.
prostrate vegetation cover
wind erosion, vegetation cover, wheat stubble, Fryrears model, threshold wind velocity, erosion hazard, wind tunnel, erosion model, Australia, New South Wales; 10852.
ProSURVEYOR
drafting system, CAD, 04489.
protease
organic carbon, nitrogen, enzyme activity, grass legume association, carbon, phosphatase, urease, 10896.
protected landscape management
management use, remote sensing, data, landscape, 09201.
protection measure
mathematical model, protection optimisation, avalanche study, 09518.
protection optimisation
avalanche study, protection measure, mathematical model, 09518.
protection system
avalanche, risk knowledge, casuality numbers, France, Alps; 11905.
protection work
bridge pier, scour depth, bed form, 04765.
protection works
Pleistocene deposit, Holocene deposit, erosion, coastline, UK, Isle of Man; 06994.
protection zone identification
water protection system, surface water, drainage basin, water conservation, 07494.
protective measure
beach, sand volume, aeolian transport, lagoon, wave, sediment transport, Spain, Canary Islands, Las Canteras Beach; 03556.
protective structure
groundwater flow, impervious layer, drainage condition, inflow rate, karstic water, mine drainage, 07533.
Proterozoic
aragonite, microbialite, stromatolite, sea water, cyanobacteria, calcite, Turkey, Anatolia, Lake Van; 07073. Ballara Quartzite, Quilalar Formation, Mary Kathleen Group, mudstone, Australia, Queensland, Mount Isa; 05902. Big Cusp Algal Dolomite Member, Kona Dolomite, diagenesis, dolomite, gypsum, ooid, stromatolite, chert, USA, Michigan, Marquette; 05904. conglomerate, sandstone, mass flow, palaeovalley, Precambrian, Moraeneso Formation, Greenland; 03609. Cuddapah Group, arenaceous, quartzite, basin, Srisailam quartzite, 00113. epeiric sea, tidal rhythm, storm, cyclic fluctuation, sedimentation, India; 00112. Espanola Formation, carbonate, Huronian Supergroup, Bruce Formation, glacigenic diamictite, Canada, Ontario; 01276. geodynamic evolution, source area, chert, Brioverian, France, Armorican Massif; 05897. glaciation, tillite, Elatina Formation, Marinoan glaciation, diamictite, Australia, South Australia, Central Flinders Ranges; 12923. gold exploration, TM data, Burundi, Kibaran; 06824. intracratonic trough, eustatic, molasse, sedimentary evolution, West Congolian Supergroup, Congo; 02420. Mount Harper Group, Windermere Supergroup, Precambrian, palaeokarst, breccia, calcrete, silcrete, Canada, Yukon Territory, Ogilvie Mountains; 02410. mudstone, Libby Formation, shrinkage, desiccation, synaeresis, crack, USA, Montana; 04701. Nagthat Formation, Jaunsar Group, sandstone, conglomerate, coarsening upward sequence, siliciclastic unit, India, Lesser Himalaya, Kumaun; 12921. Nonesuch Formation, sandstone, lake, shale, source rock, hydrocarbon, USA, Michigan; Wisconsin; 10640. organic matter, carbonisation, graphitisation, Precambrian, kerogen, black shale, Czechoslovakia, Bohemian Massif; 07103. overgrowth, sandstone, cementation, silica, quartzite, Mali; 12919. Reynolds Range Group, transgression, quartzite, pelite, metamorphism, Hatches Creek Group, Australia, Northern Territory, Reynolds Range, Arunta Block; 07047. sedimentary provenance, greywacke, Devonian, tectonic environment, UK, England, (Southeast); Germany; 08242. uranium, palaeoflow, South Africa, Witwatersrand, West Wits Line Goldfield; 10507. Venkatpur Sandstone, aeolian stratification, erg, sand sea, palaeowind, India, Pranhita Valley; Godavari Valley; 10595. Virginia Formation Biwabik Formation, thermal aureole, kerogen, organic carbon, USA, Minnesota, Animikie Basin; 11790.
Proterozoic(Early)
carbonate, chert, Brockman Iron Formation, iron, carbonate, Hamersley Group, Dales Gorge Member, Australia, Western Australia, Hamersley Range; 07082.
Proterozoic(Late)
sandstone, cross stratification, palaeocurrent, aeolian dune, Copper Harbor Formation, Canada, Lake Superior Basin, Five Mile Point; 08215.
Proterozoic(Middle) Belt Basin
shale, basin history, Belt Supergroup, turbidite, microbial mat, epicontinental shale, bioturbating organism, USA, Montana; 07040.
Proterozoic(Upper)
Cambrian(Early), halite, evaporite, Trans-Aravalli Vindhyan, India, Rajasthan; 10609. diagenesis, metamorphism, sea water, isotopic composition, carbonate, organic carbon, Namibia; 09463.
proto Thames system
pre Cromerian age, Anglian age, Pleistocene, gravel, lithology, UK, England, Norfolk; 06154.
protocol
aerosol, pollution prevention, ozone depletion, CFC's, Canada, Montreal; 10169.
protokerogen
pyrolysis, maceral composition, aliphatic hydrocarbon, organic carbon, 03567. soil lipid, lipid fraction, 09684.
proton
hydroxyl, hydro-peroxy, nitrogen, nitrogen monoxide, nitrogen dioxide, solar proton event, middle atmosphere, solar cycle, ion pair production, hydrogen, 03004.
proton balance
alkalinity concept, graph property, atmospheric source, acidity, sink, global balance, 06206.
proton buffering
soil acidification, forest soil, granitic soil, phyllitic soil, basaltic soil, organic horizon, acid forest soil, Germany, Bavaria; 12059. titration, aluminium precipitation, mineral horizon, forest soil, acid percolation, Germany, Bavaria; 13239.
proton concentration
effective-charge balance, Cecil soil, acidic solution, cation removal, acid infiltration, 12091.
proton cycle
deciduous forest ecosystem, soil acidification, acid neutralizing capacity, aluminium toxicity, solute budget, Netherlands; 05051.
proton diffusion
titration curve, soil lime requirement, pH change, 07401.
proton donor
pedogenesis, soil solution, chemical model, chemical reaction, weathering process, 09611.
proton induced X-ray emission
sea salt, chlorine, gas particle chemical interaction, particle size distribution, aerosol, Arctic aerosol, cascade impactor sampling, aerodynamic diameter, sulphur, Arctic; 05519.
proton load
proton source, forest soil, Germany; 02808.
proton source
forest soil, proton load, Germany; 02808.
protonation
iron oxide solubility, iron oxide dissolution, complexation, ferrihydrite, goethite, hematite, microbial reduction, 09610.
prototyping
project AM/FM, project GIS, 06758.
prototyping tool
forest inventory, SIRS, modelling tool, 13936.
protozoan
sediment water interface, foraminiferan, ecological disturbance, biogenic mound, mound, USA, California, Santa Catalina Basin; 10620.
protozoan cyst
by product, groundwater treatment, water purification, ultraviolet technology, ultraviolet disinfection, potable water, disinfectant, bacteria, virus, USA; 00641.
provenance
burial, fossil, preservation potential, plant remains, microfossil, palynomorph, 07067. Cervarola Sandstone, Cretaceous, Eocene, olistostrome, clay mineral, nannofossil, Italy, Northern Apennines, Pratomagno Ridge; 03601. continental shelf, clay mineral, montmorillonite, kaolinite, gibbsite, flocculation, India, Kerala; 00070. Cretaceous, Precambrian, Nubian Series, cementation, heavy mineral, sandstone, Jordan; 12948. garnet, Cretaceous, sandstone, Shimanto Terrane, heavy mineral, source area, Japan, Yahagi River; 11731. Gondwana, Mangapokia Formation, accretionary wedge, Cretaceous, trench, New Zealand, Te Awaiti; 00114. grain size data, shoreline, Laplace distribution, sand, harbour, Libya, Tripolitania, Lepcis Magna; 04879. heavy mineral, intrastratal solution, Cretaceous, Tertiary, basin, New Zealand, South Island; 05940. heavy mineral, Wajid sandstone, Cambrian, Ordovician, colour, fining upward, sedimentary structure, Saudi Arabia; 00110. Holocene, ilmenite, Renova Formation, Tertiary, weathering, USA, Rocky Mountains; Appalachian Mountains, Montana; 07079. Holocene, sand, heavy mineral, magnetite, thin section petrology, sandstone, 05972. Mesozoic basement, hemipelagic slope mudstone, Miocene, Mokau Mohakatino Group, New Zealand, Taranaki, Waikawau; 05919. mudflat, beach, sand, Quaternary, intertidal sediment, Kuwait; Arabian Gulf; 10539. Oligocene, sandstone, arkose, Italy, Punta Ala, Piombino; 03602. Pleistocene(Early) deposit, Tegelen, Kedichem Formation, lithostratigraphic unit, heavy mineral, sedimentary sequence, lithostratigraphy, Netherlands, Rhine; Belgium, Meuse; Belgium, Scheldt; 10787. quartz, sandstone, Desmoinesian, sedimentation, transgression, regression, USA, Oklahoma; 02390. Quaternary, clay mineral, sea level, delta, tilting, Egypt, Nile Delta, Manzala Lagoon; 02333. radiation damage track, fission track dating, zircon, apatite, 07117. roundness, quartz sand, source, Antarctica, Weddell Sea; 03517. sandstone, oceanic crust, Franciscan complex, Permanente terrane, continental margin, USA, California; 02411. sandstone, petrofacies, actualism, uniformitarianism, USA, New Mexico, Rio Grande Rift; 02413. sediment transport, sediment deposition, loess soil, river discharge, delta, erosion, suspended sediment, estuary, China, Huanghe River; 09816. smectite, volcanic activity, clay mineralogy, Cenozoic, Pacific, Peruvian Con-

tinental Margin; 02479. student, ternary diagram, classification, sandstone, 04882. suspended load, heavy mineral, isotopic ratio, continental crust, zircon, Cenozoic, tectonic evolution, Taiwan; 04829. synorogenic greywacke, Giessen Nappe, depositional environment, Germany, Rhenish Massif; 05915. tectonic control, Cretaceous, conglomerate, Little Muddy Creek conglomerate, thrust, sedimentation, USA, Wyoming; 02414. Variscan basement, denudation, uplift, basin evolution, fan deposit, Permo-Carboniferous, heavy mineral, Germany; 00141. volcanic debris, heavy mineral, dissolution, Oligocene, sandstone, Frio Formation, USA, Texas, Rio Grande Province; 04849. volcaniclastic sediment, sediment structure, sand, tephra, turbidite, Tyrrhenian Sea, Tyrrhenian Basin; 00077.

provenance analysis
source lithology, sandstone, quartz grain, granite, Hercynian, Holocene, Spain, Central System; 06962.

provenance research
sand, weathering, grain size, microprobe analysis, heavy mineral, 07116. sandstone, clastic, erosion, Torridonian, Wealden, UK; 07043.

provenance reversal
sedimentation, carbonate build up, flysch, Ordovician, foreland basin, orogen, erosion, platform, Canada, Newfoundland; 05913.

provenance study
diagenesis, petrofacies, sediment grain, turbidite, arenite, 06952.

provence
Cretaceous, sandstone, fault, geodynamic, alluvial, lineament, 03625.

provincial atlas
aerial photograph atlas, National Atlas, topographic atlas, Netherlands; 05688.

provo debris
solifluction, cryoturbation, loess, Kastanozem, Fluvisol, Quaternary(Upper), sediment, soil, USA, Utah, Great Salt Lake; 13091.

proximal
distal, glacimarine deposit, sedimentation, melt water supply, suspended sediment, Weichselian glacimarine deposit, varve, Sweden; 05002.

proximal deposit
thrust, tectonic provenance, Evanston Formation, Sublette Range Conglomerate, USA, Utah; Wyoming; USA, Idaho; 10590.

proxy
carbon dioxide, greenhouse effect, trace gas, radiative forcing, climatic effect, 11290.

proxy climate record
treeline fluctuation, natural hazard, Hypsithermal, mountain area, global change, Canada, Rocky Mountains; 01382.

proxy data
climate fluctuation, temperature, Medieval warm epoch, Little Ice Age, greenhouse gas, tree ring, Fennoscandia; Europe; 00780. climatic change, lake level, pollen study, palaeoclimate, Argentina, Lake Cardiel; 01949. climatic record, ice core, surface layer, oxygen isotope analysis, delta radioactivity, palaeoclimate, Antarctica, Wilkes Land; 01952. glacier recession, lake shrinkage, warming, drying, optimum, Little Ice Age, greenhouse effect, Holocene, carbon dioxide, China, Qinghai Lake; Tianshan, Tuyuksu Glacier; China, Tianshan, No.1 Glacier; China, Tianshan, Urumqi River; 00782. palaeoclimate, Little Ice Age, palaeoenvironmental condition, oxygen isotope, dust, surface temperature, westerly, Antarctica, Siple Station; 03128. particle, conductivity, stable isotope content, ice cap, palaeoclimate, China, West Kunlun; 03118.

proxy data record
anthropogenic modification, environmental change, interglaciation, global change, 07191.

proxy record
climate, blanket mire, Dark Age, climatic deterioration, peat humification, radiocarbon dating, UK; 10781. Southern Hemisphere, circulation pattern, isotope record, climate, deuterium record, Antarctica, Antarctica Peninsula, James Ross Island; 07308.

prymnesiophyte
Pavlova, sterol, methyl sterol, stanol, microalgae, 04837.

pseudo alpine zone
thermal condition, vertical distribution, tree species, Japan, Tohoku Mountains; 12367.

pseudo range data
positioning, GPS survey, Antarctica; 07947.

pseudo stress
monsoon flow, interannual variability, empirical orthogonal function, Indian Ocean; 12351.

pseudocylindrical map projection
minimum error technique, map projection, equal area, 01092.

pseudoenergy
pseudomomentum, negative energy, Casimir, Arnol'd's method, Kelvin-Helmhotz instability, 01180.

pseudogley
water balance, soil hydrology, forest hydrology, soil moisture content, soil water potential, infiltration, water table rise, waterlogged soil, runoff, seepage, hydraulic gradient, Germany, Hunsruck/Rhineland Palatinate; 01623.

pseudomomentum
negative energy, Casimir, Arnol'd's method, Kelvin-Helmhotz instability, pseudoenergy, 01180.

Pseudomonas
antimony, copper, tetrahedrite, dolomite, leaching, bacteria, Austria, Schwaz; 10629.

pseudomorph
olivine, pyroxene, amphibole, mica, feldspar, nepheline, quartz, microfabric, morphology, mineral weathering, neoinformation, weathering, silicate, 01477.

psychology
perception, science, remote sensing, 04467.

psychrometer constant
evapotranspiration, Bowen ratio, eddy correlation, Penman combination method, actual evapotranspiration, USA, California, Owens Valley; 01637.

psychrometric measurement
soil water potential, calibration, thermocouple psychrometer, pressure plate measurement, 09841.

psychrometry
anemometry, latent heat flux, Piche atmometer, ventilation term, Penman model, 00736.

Pterocladia
Rhodophyta, Gelidium, photosynthesis, physiological response, Portugal, Azores; 04841.

pteropod
shell size, East Greenland Current, Norwegian Current, dissolution, pelagic zone, sedimentation, Norwegian Sea, Lofoten Basin; Greenland Sea, Lofoten Basin; 02442.

pteropod preservation
equatorial, salinity, nutrient level, aragonite preservation, Quaternary(Late), planktonic foraminifer fauna, Maldives, Chagos-Laccadive Ridge; Indian Ocean; 03866.

Pteropoda
high resolution record, sedimentary sequence, core, R/V Meteor cruise, stable isotopic record, stratified water column, productivity, Younger Dryas event, Holocene, palaeoenvironmental event, Red Sea; 10748. Quaternary(Late) sediment, core TEV 1 BAN 85, palaeoclimatology, Pleistocene(Late), Holocene, foraminifera, Tyrrhenian Sea; 08447.

public
teaching, planning map, map reading, 04587.

public accessibility
liability issue, LIS, 09126.

public bath
map transformation, traffic condition, cartogram, Japan, Tokyo; 11638.

public development
airport, GIS, development monitoring, USA, Texas, Dallas; 09303.

public domain-GIS
GIS, image processing, remote sensing limitation, resource analysis, 06740.

public education
university, training institution, education, user education, 07616.

public health threat
soil evaluation, contaminated soil, hazardous waste, AAL soil contact criterion, risk assessment, USA, California; 08410.

public information
public information access, information commodification, security commodification, government role, 09128.

public information access
information commodification, security commodification, government role, public information, 09128.

public information symbol
tourism mapping, recreational mapping, 09306.

public land survey
meander line, water body, 05778.

public organisation
GIS, political condition, bureaucratic structure, 12664.

public participation
river corridor management, water resource management, environmental management, 12287.

public policy
information system quality, information system accuracy, GIS, informatics, 06749.

public register
GIS, mapping, Denmark; 12658.

public relations
professional recognition, survey profession practice, 07900.

public sector
data sharing, information sharing, management, 13835. technology transfer, information system, government, USA; 06942.

public sector perspective
meteorological service, user need, design process, government perspective, Canada; 07614.

public service
mesoscale weather prediction, weather prediction system, research service, teaching service, 10158.

public service corporation
database, cost benefit, organisational issue, USA, Wisconsin; 11629.

public utility
GIS, land ownership, topographic database, land development, Qatar; 00998. spatial handling, multiparticipant GIS, GIS, database construction, 03369.

public water supply
mercury, water tempeature, water quality monitoring, volcanic activity, groundwater contamination, heavy metal contamination, Japan, Izu-Oshima Island; 04134.

puente de erosion
farming system stabilizing, hillside farming system, Plan Sierra project, ecodevelopment, shifting cultivation, irrigated land, soil loss measurement, Dominican Republic, Sierra; 06221.

puff model
hydraulic modelling, instantaneous volume source, 01997. pollution, pollution dispersion, Portugal; 01985.

pulp mill
mapping, Landsat TM, waste water mapping, Finland; 09271.

pulsation
Kelvin-Helmholtz instability, wave breaking, internal wave, severe, downslope windstorm, windstorm, 13595.

pulse discrimination electronics
Packard low-level liquid scintillation counting system, background radiation, low background, liquid scintillation counting, active sample holder, 02575.

pulse disposal
dispersion, convection dispersion equation, surface water quality, velocity gradient, mechanical dispersion, pollutant transport, mixing, river pollution, 11019.

pulse response
runoff, hydrograph, unit hydrograph, rainfall variability, Czechoslovakia, Sputka Catchment; 08675.

pulsed fluorescence
ion chromatography, sulfur dioxide measurement technique, filter pack, USA, Eastern Colorado Plains; 04438.
pumice
clay mineral, spring water, smectite, montmorillonite, beidellite, Indian Ocean, Kerguelen Islands; 08301. ferromagnetic mineral, particle size, identification, Towada-Ooyu pumice, Towada Volcano, tephra, Japan, Tohoku District; 02674. magma, eruption, volcano, lahar, pyroclastic deposit, Colombia, Central Cordiellera, Nevado del Ruiz volcano; 02359. solifluction deposit, tephra, quantitative characteristics, periglacial slope deposit, smooth mountain slope, mass movement, Japan, Hokkaido, Hidaka Mountains; 00333. Weichselian(Late), glaciation, Holocene, shore displacement, glacial sculpture, lake sediment, postglacial marine limit, deglaciation, glacio isostatic rebound, Svalbard, Nordaustlandet, Prins Oscars Land; 07278.
pumice flow
slope instability, salt weathering, frost weathering, notch formation, cliff instability, Japan, Asama Volcano; 13062.
pump rate
groundwater remediation, capture zone design, optimisation technique, groundwater contamination, simulation model, well location, 02923.
pump test
chemical tracer test, reliability theory, non-converging flow field, head distribution, converging flow field, groundwater flow, Monte Carlo simulation, transmissivity, 09871.
pumped aquifer
aquifer characteristics, type curve, elastic property, aquitard, gravity drainage, water table, aquifer-water table aquitard system, groundwater flow, 00591.
pumped well
land use effects, groundwater recharge, groundwater contamination, recharge rate, water resource management, glacial drift aquifer, recharge area, USA; 01734.
pumping rate
dewatering, confined aquifer, head moment estimate, groundwater flow, Monte Carlo simulation, parameter uncertainty, 01724. water resource management, safe yield, river flow maintenance, sea water intrusion, water level decline, groundwater modelling, New Zealand, Nelson, Waimea Plains; 00637.
pumping schedule
aquifer remediation, parameter estimation, optimisation model, groundwater quality, 01737.
pumping test
alluvial aquifer, fracturation, East West Fault, crystalline massif, fault hydrogeology, groundwater recharge, Niger, Air Massif, Awagadi Valley; 06364. aquifer analysis, three dimensional map, Theis pumping test, cyclogram map, Denmark; 09849. convection diffusion equation, sensitivity analysis, inverse problem of parameter identification, leaky aquifer, groundwater modelling, adjoint state sensitivity method, 06347. delayed yield, drawdown, unconfined condition, well spacing, aquifer transmissivity, fracture zone, fissured sandstone, semi arid area, groundwater resource, aquifer low transmissivity, sandstone aquifer, hydraulic testing, Botswana, Kalahari; 06362. drawdown, confined aquifer, unsteady state flow, discharge-drawdown relationship, boundary effect, 01712. Gondwana basin, aquifer characteristics, seasonal variability, shallow groundwater, groundwater flow, coal field, water table fluctuation, hydrogeology, India, Bihar, Jharia Coal Field; 05215. hydrogeology, dewatering, chalk, groundwater level, UK, England, (Southeast); 07538.
pumping test analysis
groundwater flow, finite element method, discharge drawdown relationship, rectangular confined aquifer, steady state flow, 11053.
pumping well
groundwater research, soil water process, unsaturated zone, environmental database, lysimeter, tensiometer, research programme, instrumentation, observation well, Germany, Horkheimer Insel; 09780. surface water-groundwater interaction, stream depletion, superposition principle, stream flow, groundwater withdrawal, 01789.
Pungo River Formation
phosphate, lithofacies, Miocene, continental margin, palaeoceanographic event, USA, North Carolina; 02415. syn-rift basin, Cenozoic, continental margin, cyclical deposition, Miocene, phosphorite, USA, North Carolina; 02458. Yorktown Formation, continental shelf, sand, phosphate, foraminifera, USA, North Carolina; 02429.
push broom scanner
CCD detector, radiometric calibration, geometric correction, Netherlands; 10247.
push moraine
dead ice, glacio geological investigation, Weichselian glaciated area, melt water deposit, till, last ice advance, glacier tongue, Germany, Kiel; 08468. meltwater channel, glacial surging, sedimentation, ice contact lake, rapid sedimentation, terminus advance, proglacial lake, suspended sediment concentration, USA, Alaska, Glacier Bay, Carroll Glacier; 02634.
push moraine complex
Anglian Glaciation, ice contact outwash fan, Anglian age, glaciation timing, Pleistocene(Middle) glaciation, UK, England, Norfolk, Cromer Ridge; 06128. ice lobe, glacio isostasy, sea level, Pleistocene(Middle), glaciomarine deposit, USA, Alaska, Baldwin Peninsula; 00292.
Putnam clay
Bentonite, ion exchange, Hogfeldt model, inorganic ion exchanger, 03976.
Putnam soil
Floytville soil, particle interaction, clay suspension, shear stress, sodium chloride, pH, Cecil soil, 13238.
pycnocline
carbon-nitrogen ratio, organic matter, static stability, aggregate, marine snow, Pacific, (North); 02467. Findlater Jet, upwelling fauna, sediment record, upwelling field variability, model experiment, ocean model, monsoon wind, Indian Ocean; Middle East, Arabian Peninsula; 02616. storm, eutrophic, sedimentation, nutrient, nitrogen, estuary, Japan, Tokyo Bay; 02334.
pyramid architecture
iconic indexing, 04506.
pyramid machine
Hough transform, parallel processing, 07983.
pyramid segmentation
shift variance, multi resolution, connectivity, 07996.
pyrite
biogenic, sulphate, kerogen, anoxic sediment, iron mineral, Peru, ODP Site 680; 01341. diagenesis, sulphide, anoxic sediment, organic matter, trace metal, 01359. framboid, sulphide, lagoon, iron sulphide, Italy, Venice Lagoon; 11792. gas hydrate, green clay, glauconite, hydrothermal activity, mineral deposit, phosphorite, 11811. Landsat TM, biogeochemical anomaly, basemetal, Spain; 06864. limonite, aggregate, framboid, oxidation, biotic mold, Egypt, Fayoum Province, Garret Gehannam; 00156. marine sediment, organic matter, iron, reduction, Rickard's rate laws, diagenesis, sulphur, 01329. organic matter, decomposition, Miocene, upwelling, 12970. organic matter, redbed, redox state, stratiform, Kupferschiefer, 00170. oxidation front, dissolution front, mechanism, chemical weathering, mudstone, mountainous area, oxidation, Japan; 01487. paragenesis, phosphorite, fluorapatite, nodule, dolomite, Peru; 00178. sedimentation rate, organic carbon, delta sediment, shelf sediment, sulphate, iron sulphide, reduction, anoxic sediment, USA, Mississippi River Delta; Gulf of Mexico; USA, Texas; USA, Louisiana; 09359. sulphate, estuary, tidal, Spartina spp, salt marsh, China, Huanghe River; 03544. sulphur, carbonate, Cretaceous(Upper), phosphorite, sulphur sink, organic carbon, sulphater eduction, Israel; 09464. Virgilian, Pennsylvanian, organic matter, black shale, megacyclothem, USA, Kansas; 01337.
pyrite deposit
crystal morphology, gypsum, Oligocene, clay deposit, Germany, Hessen, Borken; 09444.
pyrite mine
environemtnal impact, acidity, sulphates, limestone-lime treatment technique, groundwater pollution, water quality, surface water contamination, remedial treatment, India, Amjhore; 12277.
pyrite sulphur
ester sulphate sulphur, carbon bonded sulphur, salt marsh soil, seasonal sulphur variation, soil fractionation, acid volatile sulphide, hydrogen chloride soluble sulphur, elemental sulphur, USA, Louisiana; 10931. sulphur dynamics, sulphur fraction, ester sulphate, carbon bonded sulphur, organic sulphur, inorganic sulphur, USA, Louisiana; 13288.
pyritic coal
coal refuse, total dissolved solid, sulphate, iron, soil moisture, runoff chemistry, acidification, acid drainage, groundwater chemistry, USA, Indiana; 13433.
pyritic mine spoil
spoil material, coal, weathered face, oxidized pyrite, sulphur, iron, solid phase transformation, biological oxidation, USA, Ohio; 09614.
pyritisation
extraction, iron, 04873.
pyroaurite
reevesite, hydroxy carbonate, brucite, anion, cation, 02472.
pyroclast
layer charge, smectite, halloysite, clay mineral, weathering, Cameroon; 02475.
pyroclastic
eruption, volcanoclastic, tuff cone, base surge, bed form, Atlantic, Canary Islands, Lanzarote, El Golfo Volcano; 10566. hazard, Peralta Tuff Member, Bearhead Rhyolite, tuff, surge deposit, USA, New Mexico, Jemez Mountains; 10565. till, diamicton, glaciation, residual lag, colluvial deposit, 03596.
pyroclastic ash deposit
tonstein, Carboniferous, pyroclastic eruption, fault, volcanic glass, Germany, Saar-Lorraine Basin; 05916.
pyroclastic deposit
lahar, Holocene, volcanic activity, New Zealand, North Island, Whakapapa Catchment, Mount Ruapehu; 12877. pumice, magma, eruption, volcano, lahar, Colombia, Central Cordiellera, Nevado del Ruiz volcano; 02359. rhyolite dacite dome, komatiite, volcanic resurfacing rate, volcanism, Magellan image, lava flow, Venus; 11875.
pyroclastic eruption
fault, volcanic glass, pyroclastic ash deposit, tonstein, Carboniferous, Germany, Saar-Lorraine Basin; 05916.
pyroclastic flow
Barberton greenstone belt, Onverwacht Group, volcaniclastic sediment, silicification, basin, South Africa, Eastern Transvaal; 03633. caldera, Onano Pyroclastic Formation, lithic map, volcanism, Italy, Tuscany, Vulsini Volcanic District; 08183. meltwater, debris flow, flood, eruption, lahar, Colombia, Nevado del Ruiz; 01197. subaerial deposition, subaqueous deposition, Miocene, Tecuya Formation, volcanic succession, USA, California, San Joaquin Basin; 07060. volcanic impact, buried forest, eruption, tephra, distal ash, China, Changbai Volcano; Korea(North), Changbai Volcano; 03729.
pyroclastic material
mountain soil, clay humic colloid, humus, particle translocation, Sombric horizon, organo clay horizon, Colombia, Andes; South America, Andes; 10935.
pyroclastic rock
volcanic region, hydrothermal alteration, hydrolysis, bentonite, smectite, Spain, Almeria, Cabo de Gata; 07115.
pyroclastic surge
tephra, eruption, blast surge deposit, volcano, USA, Washington, Mount St. Helens; 02358. tuff ring, base surge, volcano, phreatomagmatic eruption, Korea(South), Cheju Island, Songaksan Mount; 05856.
pyrodenitrification
nitrogen fixation, nitrogen oxide, hydrogen cyanide, acetonitrile, biomass burning, nitrogen containing gas, nitrogen, 04414.
pyrolysis
biopolymer, organic matter, petroleum, Rock Eval, Norway, Skagerrak; 05967. chemical composition, forest soil, humus, 05089. gas chromatography, flame, photometric detection, traffic density, suspended particulate matter, benzothiazole, urban pollution, pollution, tyre tread,

00849. Kukersite, Guttenberg Oil Rock, thiophene, phenolic compound, Ordovician, USSR, Estonia; 07105. maceral composition, aliphatic hydrocarbon, organic carbon, protokerogen, 03567. Rock Eval, kerogen, bitumen, petroleum, organic matter, 05975.
pyrolysis parameter
organic matter, upwelling, terrigenous, desert, bacterial mat, total organic carbon, Pacific, Peruvian Coast; (East-central); 02469.
pyrophosphate
hydrolysis, goethite, kaolinite, montmorillonite, Typic Hapludoll, Mollic Haplaquept, 00422. oxalate, dithionite, iron, extractable iron, aluminium, Australia, Queensland; 00487. zinc, autoclaved soil, orthophosphate, 00427.
pyrophyllite
Haploxeralf, clay mineralogy, mineral analysis, Spain; 08621.
pyroxene
amphibole, mica, feldspar, nepheline, quartz, microfabric, morphology, mineral weathering, neoinformation, weathering, silicate, pseudomorph, olivine, 01477. arctic alpine environment, gabbroic rock, chemical weathering, relative dating, lichen, differential weathering, feldspar, Norway, Leirdalen; 03927.
pyroxenite
texture effect, plagioclase alteration, labradorite evolution, weathering, basanite, France, Massif Central; Canada, Quebec, Mont Saint Bruno; 08521.
pyruvic acid
formic acid, acetic acid, wet season, emission, vegetation, carboxylic acid, 07845.
Q forcing
Bergeron deformation field, quasi geostrophic frontogenesis, frontogenesis, 08965.
Q mode factor analysis
cluster analysis, pollen dispersal data, research analog, Quaternary, palaeoecological research, pollen analysis, environmental hypothesis, Argentina, Neuquen, Cerro Domuyo; 07196.
Qaqarssuk Carbonatite Complex
geothermometry, carbonatite, magmatic water, isotope, Jurassic, Greenland; 10633.
QBO signal
interannual variability, transport, temperature, ozone, photochemical model, stratosphere, 12547.
Qilianshan Fault Zone
tectonic belt, uplift, recent tectonic movement, tectonic movement, fault zone, China, Qinghai-Xizang Plateau; 08372.
quadratic programming algorithm
linear regression theory, recharge component, geochemical species, environmental isotope, Singular Value Decomposition algorithm, groundwater recharge, mixing cell method, Botswana; 11054.
quadrature relationship
vorticity advection, eddy maintenance, stationary eddy, streamfunction budget, budget analysis, 13588.
quadrilateral
perspective projection, vision, camera parameter, projection, 13797.
quadtree
binary image, data structure, region data, line data, 07997. GIS, relational database, facilities data, 01054. GIS, soil mapping, soil analysis, Hungary; 11541. hydrological research, data storage, data processing, spatial data, land resource data, areal mean rainfall, climate data, 04016. nuclear disaster, GIS, emergency, 13997. peatland, forest fire, wildlife management, crop inventory, GIS, Canada, Ontario; 01113. polynomials, image algebra, binary image processing, contour, 03302. searching, data structure, content addressable memory, algorithm, 03361. spatial analysis, data structure, hierarchical representation, multidimensional point data, polygon map, three dimensional regional data, 06799. subtree merging, data structure, cartographic database, database, 02117.
quadtree data structure
linear quadtree, geographic function, GIS, 01055.
quadtree structure
gold mineralisation, geochemical signature, geoscience dataset, GIS, Canada, Nova Scotia; 05699.
QUAL model
waste load, surface water quality, water quality modelling, USA; 11016.
quality
standard, accuracy, GIS, data quality, digital point position, 13830.
qualitative area symbol
area symbol, map design, design principle, quantitative area symbol, 09159.
qualitative raster mode generalisation
GIS, conceptual framework, quantitative raster mode generalisation, 06804.
quality assurance
groundwater model, model assessment, 09881. quality validation, European Centre for Medium Range Weather Forecasts, ship observations, scatterometer data, forecast, 13619. radiocarbon dating, 02585. radiocarbon dating, quality control, 04947.
quality assurance plan
project goal, critical path method, 07898.
quality assurance protocol
radiocarbon dating laboratory, liquid scintillation, carbon-14, 04945.
quality control
groundwater monitoring, waste disposal, water quality management, statistical procedure, 11109. LIS, geodetic control, 08004. map overlay, edge matching, digital data, GIS, USA; 06753. quality assurance, radiocarbon dating, 04947. water budget, nutrient budget, mountain basin, data collection, stream flow measurement, precipitation gauge, hydrologic process, monitoring technique, analytical procedure, Switzerland, Alptal Valley; 06286.
quality control graph
radiocarbon dating, statistical, 04948.
quality criteria
data model, structuring, cartographic data, database management, 13864.
quality management
resource development, wateruse, waste water treatment, system dynamics method, regional water resource, water resource protection, 09947.
quality model
solute transport, pressure field simulation, velocity field simulation, particle tracking method, groundwater model, MARCHAL, three dimensional model, flow model, 09874.
quality validation
European Centre for Medium Range Weather Forecasts, ship observations, scatterometer data, forecast, quality assurance, 13619.
quantal calculation
entropy, heterogeneous nucleation process, formation heat, hydrogen bond strength, water cluster, ice, 00845.
quantification
karst data, sinkhole density, permeability, borehole, cave geology, USA, Iowa; Yugoslavia, Herzogovinia; 06046.
quantile estimate
partial duration series, maximum likelihood estimate, hydrological variable, Poisson distribution, statistical method, peak magnitude, estimate bias, estimate variance, 09785.
quantitative analysis
fluvial erosion system, bifurcation, longitudinal profile, hypsometric curve, hydrology, hydrographic network, geomorphological heterogeneity, morphology, Spain, Basque Country; 11845. geography, statistics, spatial analysis, time series, 06791.
quantitative appraisal
groundwater resource, groundwater recharge, water level, groundwater quality, Sri Lanka, Coconut Triangle; 02975.
quantitative area symbol
qualitative area symbol, area symbol, map design, design principle, 09159.
quantitative assessment
territorial differentiation, karst system, taiga, mathematico-statistical method, structural non uniformity, USSR, Arkhangel'sk Oblast'; 11902.
quantitative characteristic
Late Glacial, palaeoclimatic reconstruction, pollen, Europe, (North); Asia, (North); 06080.
quantitative characteristics
periglacial slope deposit, smooth mountain slope, mass movement, pumice, solifluction deposit, tephra, Japan, Hokkaido, Hidaka Mountains; 00333. shape, geographical feature, method, 02493.
quantitative erosion assessment
regionalisation, erosion prone land, soil erosion, deflation, conservation, map, erosion process, USSR, (European); 06229.
quantitative geomorphology
GIS, DTM, hazardous zone, SPOT, Bolivia, La Paz; 10395.
quantitative hydrology
sliding maxima, maxima, statistics of extreme, Hershfield coefficient, 05110.
quantitative information manipulation
archaeological study, GIS, spatial information, map processor, visual information manipulation, Canada, British Columbia, Thompson River Valley; 06931.
quantitative investigation
erosion form, loess, vineyard, field measurement, piping, runoff, terraced slope, soil erosion, Hungary, Tokaj Nagyegy; 08548.
quantitative model
hillslope, hydrology, sediment yield, landform evolution, greenhouse warming, landscape, model, 07131.
quantitative palaeobathymetry
uplift history, foreland basin, Cenozoic(Late), palaeobathymetry, geohistory analysis, Banda Arc, benthic foraminifera, Indonesia, Timor; 07174.
quantitative raster mode generalisation
qualitative raster mode generalisation, GIS, conceptual framework, 06804.
quantitative relationship
forest growth, reflectance measurement, management, Thematic Mapper, Canada, New Brunswick; 11567.
quantitative solution
fully saturated problem, computer program, SWANDYNE-X, static behaviour, dynamic behaviour, 01396. semi-saturated problem, cohesion, earthquake induced failure, static behaviour, dynamic behaviour, USA, California, San Fernando Dam; 01397.
quantitative study
debris movement, slope, sinkhole depression, fissure cave, weathering, block movement, creep, frost heaving, piping, forest clearing, Czechoslovakia, Western Carpathians, Javorniky Mountains; 11896. sediment transport, mountain drainage basin, Late Glacial, long term sediment transport, storage, alluvial fan, debris production, Holocene, slope stratigraphy, slope lowering rate, denudation rate, Japan, Central Japan, Matsumoto Basin; 11861.
quantitative substantialism
methodology, terminology, substantialismic geomorphology, phenomenalism, essentialism, causal relationship, 03694.
quantity intensity relationship
ion selective electrode, potassium, soil suspension, concentration ratio, USA, Iowa; 08605.
quantity-intensity relationship
calcareous soil, buffering capacity, potassium quantity-intensity, potassium, 12079.
quantization
motion estimation, threshold estimation, pattern matching, 02107.
Quantulus
underground counting laboratory, background source, Arizona Radiocarbon Laboratory, radiocarbon dating, 02586.
quantum yield
hydroxymethanesulphonate, iron(III) perchlorate, hydroxy radical, 06633. laser photolysis, nitrate, nitrite, hydrogen peroxide, absorption coefficient, hydroxy radical, 06629. nitrogen oxide, ozone, stratospheric chemistry, 02032.
quarry floor
pop-up, stress system, orientation, near surface compressive stress,

Canada, Quebec, Quebec City; 01390.
Quarternary
hydrophobic, alkyl chain, solvent, silicate, reactivity, 01331.
quartz
absolute age, thermoluminescence dating, Chelford Interstadial, radiometric dating, TL dating, feldspar, UK, England, Cheshire, Chelford; 11967. aeolian dust, parent material, silty mantle, sedentary soil, particle size distribution, oxygen isotope composition, Japan; Korea(South); 13300. chert, Rhaxella, shingle, flint, Pleistocene, UK, England, Suffolk, Orfordness; 06996. degassing, deep sea sediment, Mesozoic, chert, silica, USA; Japan; 10630. feldspar, detrital grain, source rock, sand, India, Kerala, Bharathapuzha; 11773. grain roundness, glacial deposit, subglacial environment, sand grain, sediment source, surface texture, 09313. in situ weathering, comminution, fracture pattern, grain release, physically weathered rock, granitic rock, microfracturing, 01480. kaolinite, diaspore, boehmite, illite, haematite, laterite, vermiculite, goethite, calcite, limonite, Pakistan; 07431. microfabric, morphology, mineral weathering, neoinformation, weathering, silicate, pseudomorph, olivine, pyroxene, amphibole, mica, feldspar, nepheline, 01477. mineral provenance, feldspar, shelf sediment, continental shelf, India; 08175. overgrowth, cement, Ordovician, Simpson Group, cycle, lithofacies, quartzarenite, tidal channel, USA, Oklahoma, Anadarko Basin, Knox Oil Field; 01271. Pliocene, chattermark, sand, France, Paris Basin, Haute-Normandie; 10505. sand texture, sedimentation, swash zone, foreshore, beach, longshore current, Greece, Zakynthos, Lagana Beach; 09353. sandstone, Desmoinesian, sedimentation, transgression, regression, provenance, USA, Oklahoma; 02390. soil, Quaternary(Late), volcanic ash, aeolian dust, tephra, oxygen isotope composition, Japan; 00270. soil, silt, feldspar, aeolian, loess, Germany, Ore Mountains; 02302. spallation ratio, erosion rate, uplift, cosmic ray, neon, Antarctica; 09489. vegetation, Buchanan Lake Formation, forest deposit, soil horizon, phytolith, Canada, Axel Heiberg Island, Geodetic Hills; 11767.
quartz fiber filter
polychlorinated dibenzo-p-dioxin, polychlorinated dibensofuran, PCBs, gas chromatography, pollution, particle, sampling, 00842. vapour adsorption artifact, organic aerosol, face velocity effect, 06560.
quartz grain
granite, Hercynian, Holocene, provenance analysis, source lithology, sandstone, Spain, Central System; 06962. microtextural study, chemical alteration, innershelf, sand, beach deposit, Holocene, India, Kerala Coast; 12871. precipitation, dolomite, mineral dissolution, surface texture, quartz solubility, pore water, 05930. quartzite, palaeoenvironmental deposition, textural parameter, India, Chittoor District; 04708. surficial sand, highly weathered terrain, deep weathering, laterite, duricrust, weathered quartz grain, Australia, Western Australia; 09498.
quartz sand
source, provenance, roundness, Antarctica, Weddell Sea; 03517.
quartz sand grain
sand, albic soil, micromorphology, SEM, China, Jiangsu Province; Heirongjiang Province; 01615.
quartz solubility
pore water, quartz grain, precipitation, dolomite, mineral dissolution, surface texture, 05930.
quartz synthesis
soxhlet leaching, basalt, tuff lapilli, leaching, laboratory simulation, 08517.
quartz thermal activation energy
loess, sandstone, limestone, enthalpy, activation energy, lithological discontinuity, USA, Kentucky; 12099.
quartz vein
Birrimien schist, aquifer model, volcano sedimentary schist, calcite, hydrogeological model, disseminated calcite, Burkina Faso; 06367.
quartzarenite
tidal channel, quartz, overgrowth, cement, Ordovician, Simpson Group, cycle, lithofacies, USA, Oklahoma, Anadarko Basin, Knox Oil Field; 01271.
quartzipsamment
potassium, oxalate, vermiculute, hydroxy vermiculite, interlayered vermiculite, secondary mineral, nonexchangeable potassium, USA, Southeastern Coastal Plain; 07378.
quartzite
basin, Srisailam quartzite, Proterozoic, Cuddapah Group, arenaceous, 00113. bedform, Precambrian, sedimentary structure, fining upward sequence, tidalite, India, Bihar, Singhbhum, Ghatsila; 08222. chelation, weathering, lichen, magaliesberg quartzite, Lecidea aff. Sarcogynoides, weathering pit, disintegration, hyphae expansion, South Africa; 02710. conglomerate, sediment supply, tidal current, Witwatersrand Supergroup, Zandfontein Quartzite Formation, metaquartzite, South Africa, Evander Goldfield; 02399. palaeoenvironmental deposition, textural parameter, quartz grain, India, Chittoor District; 04708. pelite, metamorphism, Hatches Creek Group, Proterozoic, Reynolds Range Group, transgression, Australia, Northern Territory, Reynolds Range, Arunta Block; 07047. Proterozoic, overgrowth, sandstone, cementation, silica, Mali; 12919.
quartzite karst
Itacolomi Group, subterranean drainage prediction method, sinkhole, swallowhole, karrens, caves, speleothem, conduit direction, prediction method, opal, allophane, karst, Brazil, Minas Gerais, Ouro Preto; 02555.
quartzofeldspathic sandstone
weathered core, mica hydration, weathering, greywacke type sandstone, outwash gravel, inside out weathering, boulder, glacial outwash gravel, New Zealand, North Westland; 09630.
quasi balanced dynamic
tropics, balance scheme, Kelvin wave, long-wave approximation, primary circulation, 12403.
quasi biennial cycle
stratospheric wind, grain crop, climate changeability, equatorial wind, USSR; 09962.
quasi biennial oscillation
ozone trends, total ozone, 06551. ozone, satellite data, station data, radiative-dynamical-photochemical model, seasonal cycle, 13650. power spectrum analysis, empirical orthogonal function, sea surface temperature, interannual oscillation, rainfall, China; 12329. rain day decline, rain day, Nigeria; 06451. sea-surface temperature, polar total, ozone hole, Antarctica; 12524. stratosphere, ozone, interannual variability, trace gas, middle atmosphere, 03222. wave damping, critical level absorption, multiwave model, 13585.
quasi geostrophic
semi geostrophic, Richardson number, cyclone wave, baroclinic instability, primitive equations dynamics, frontal zone, 04267.
quasi geostrophic approximation
spherical coordinate system, geographical coordinate system, beta plane approximation, 13584.
quasi geostrophic cyclogenesis
lee cyclogenesis, baroclinic instability, frontogenetic development, 12430.
quasi geostrophic eddy
eddy, three dimensional time mean flow, potential vorticity flux, enstrophy, nonacceleration theorem, transient eddy, 10071.
quasi geostrophic frontogenesis
frontogenesis, Q forcing, Bergeron deformation field, 08965.
quasi geostrophic instability
baroclinic instability, accuracy, WKBJ approximation, nonseparable baroclinic instability, 12419.
quasi geostrophic low spectrum model
numerical study, interannual time scale, low frequency oscillation, flow pattern, 12392.
quasi geostrophic model
blocking, zonal, transient eddy, feedback, linear theory, observation, baroclinic instability, 12420. dynamical model, blocking, linear theory, instability mode, Atlantic; 13591. linear interpolation model, cold front, surface friction, wind field model, primitive equation model, 04289. three level model, baroclinic wave, stability investigation, 07757.
quasi parabolic layer
backscatter, ionogram analysis, 11454.
quasi periodic amplification
planetary wave, wave wave interaction, winter warming, stratosphere, Southern Hemisphere; 12417.
quasi periodic oscillation
growing season, rainfall, Nigeria; 07815.
quasi stationary front
potential vorticity, cyclone, isentropic surface, cyclone, wave, latent heat release, China, Changjiang-Huaihe Valley; 10052.
quasi stationary pattern
tendency, blocked flow, zonal flow, blocking event, weather regime, precursor, successor, algorithm, Atlantic, (North); Greenland; 11176.
quasi steady problem
freezing soil, growth experiment, ice layer, freezing test, segregated ice, steady state method, 07283.
quasi steady state model
soil chemistry, soil solution, 05075.
quasi-biennial oscillation
Chandler tide, coupled ocean-atmosphere model, general circulation model, forty month signal, 03093. grain yield, snow cover, solar activity, 06429. stratosphere, planetary wave transport, planetary wave forcing, stratosphere, polar vortex, tropical wind, 01890. stratospheric condition, polar temperature, ozone, Southern Hemisphere spring(1988), Southern Hemisphere spring(1987), Southern Hemisphere; 08923. teleconnection, Chebyshev coefficient, geopotential field, Southern Oscillation, Asia, (East); 03088.
quasi-geostrophic omega-equation
nonlinear balance equation, diabatic processes, dynamic balance, mesoscale model, 01913.
quasibiennial oscillation
aerosol, stratosphere, lidar, ozone depletion, volcanic eruption, ozonesonde, Germany, Hohenpeissenberg; Garmisch-Partenkirchen; 02021.
quasilinear approximation
groundwater flow, unsaturated flow, soil moisture potential, hydraulic conductivity, Richards equation, 01709.
quasilinearisation
saturated-unsaturated flow, groundwater flow, soil cavity, water filled cavity, 01708.
Quaternary
tectonic movement, marine terrace, undulation, geological structure, continental slope, Japan, Shikoku; 13176.
Quaternary
aeolianite, calcarenite, karst, paleosol, carbonate, Bahamas; 12936. alluvium, iron, manganese, biological, Morocco; 03664. archaeological sample, carbon-14 radioactivity, radiocarbon measurement, sample age, Czechoslovakia; 13080. arid zone, Holocene(Late), vegetation change, pollen analysis, environmental change, Australia, South Australia, Dalhousie Springs; 06110. aridity, dune, aeolian sediment, paleosol, Holocene, USA, Colorado, Hudson; 02306. aridity, dunefield, groundwater, salt lake, playa, gypsum, Australia, Northern Territory, Lake Amadeus; 11661. ash layer, metalliferous sediment, basin, carbonate cycle, marl, hydrothermal sediment, Pacific, (Southwest), Lau Basin; 05871. basalt flow, internal texture, fissure, basaltic disintegration, weathering, 06207. basaltic material, landform, volcanic soil, soil pattern, geomorphology, physiographic unit, Cameroon, Mount Cameroon; 07430. basin, clay, platform, Riphean, USSR; 09471. botanist, research, Kalela, Kotilainen, Finland; 13011. Cainozoic(Late), glacial record, periodic volcanism, uplift, radiocarbon dating, Llanquihue Glaciation, glaciation, Chile, Andes; 02639. carbonate, calcite, freshwater, tufa deposit, plant, 02346. cement, carbonate, porosity, pore fluid, forearc basin, Pacific, Peru Margin; 01195. chalk, catastrophic flood, earthquake, tufa, France, Calvados, Honfleur; 06965. clay mineral, river runoff, dust, accumulation rate, Arabian Sea; 10515. clay mineral, sea level, delta, tilting, provenance, Egypt, Nile Delta, Manzala Lagoon; 02333. clay mineral, source, carbonate, miliolites, India, Gujarat, Kutch; Saurashtra; 03680. climate modelling, Boolean delay equation, hydrological feedback mechanism, thermohaline circulation, feedback

mechanism, glacial, 08423. climatic change, stone line, landform development, landscape development, soil moisture balance, forest, savanna, ecosystem pattern, Brazil; 05999. coastal geomorphology, tectonic history, Vatulele Beqa Ridge, emerged shoreline indicator, sea level, uplift, Fiji, Yanuca Islands; Beqa Island; 06191. coastal tectonics, land bridge, marine terrace deformation, cauldron saddle topography, Tsugaru land bridge problem, Japan, Tsugaru Strait; 04898. continental shelf, river discharge, suspended load, sedimentation, subsidence, China; 08176. continental shelf, sediment accumulation, climate, sedimentation, Chukotsk Sea; Pacific, Bering Strait; 08180. coral reef, storm surge, climatic change, palaeoshoreline, reef, sea level rise, USA, Florida Keys; 09598. crust, lithification, cement, ooze, diffusion, omission surface, 02363. cryoplanation terrace, goletz, altiplanation terrace, nivation, Weichsel(Late), periglacial condition, Norway; Finland, Lapland; 00330. deep-sea sediment, dolomite, magnesium oxide, diagenesis, faulting, Pliocene, Tyrrhenian Sea, Vavilov Basin; Gortani Ridge; Tyrrhenian Sea, Marsili Basin; 00146. deepwater, palaeoceanography, radiocarbon age, deepwater chemistry, circulation change, Atlantic; 02603. delta, coring, progradation, Italy, Tagliamento River; 11662. Devensian(Late), Lateglacial, national database, flood event, catastrophic flood, UK; 01439. diatom stratigraphy, stratigraphic marker species, datum age, palaeoceanographic condition, Pliocene(Late), Southern Ocean; Atlantic, (South); 11932. erosional surface, seafloor, clinoform, tectonic deformation, structural high, Holocene, seismostratigraphic unit, Italy, Adriatic coast, Gargano Promontory; 05848. fluvial deposit, aeolian deposit, sand, trace element, sediment provenance, sorting, Netherlands, Limburg; 09443. foraminifera, Recent, Holocene, deep sea fan, Mediterranean Sea, Gulf of Lions; 07069. fossil fish, continental water body, climatic factor, USSR; 13156. geological history, Amazon lowland, floodplain formation, humid tropical climate, Brazil, Amazon Lowlands; 02626. geological map, stratigraphy, British Geological Survey, drift geology, geology, UK, England, Avon, Weston Super Mare; Wales, Cardiff; 10682. geological mapping, Holocene, sand spit system, Weichselian glacial deposit, melt water deposit, Pleistocene deposit, gyttyas, peat, marine sand, glacial deposit, Germany, Schleswig Holstein, Gelting Peninsula; 08467. glacial deposit, time dependent sequence, weathering, age, Australia, Tasmania; 01420. glaciation, Isotope Stage, penultimate glaciation, deeply weathered drift, radiocarbon dated organic deposit, terminal moraine, neoglacial advance, Ecuador, Andes; Venezuela, Andes; Colombia, Andes; 02623. glaciation, last glacation, glacier, Africa; 02628. glaciation, last glaciation, Holocene advance, Southern Hemisphere; 02562. glaciation, Ross Glaciation, Porika Glaciation, uplift, erosion, interglacial shoreline, radiocarbon dated, Pliocene(Late), New Zealand; 02642. glaciomarine deposit, facies pattern, glaciomarine continental margin environment, basal lodgement till, glacio-isostatic uplift, prograding slope sequence, carbonate, opal productivity, ice rafted debris input, floating ice shelf, polynya, cycle, rhythm, event, Arctic; Southern Ocean, Weddell Sea; 02620. gravel, loess, lithofacies, fan delta, fossil, ichnofacies, alluvial fan, New Zealand, Hawkeswood Range, Conway Flat; 06969. high depth resolution, crustal growth rate, manganese crust, constant flux model, high resolution profile, manganese response, ocean, climatic cycle, Pacific; 08451. Holocene, fault, glide plane, trench slope basin, plate margin, earthquake, continental slope, New Zealand, North Island, Kidnappers Slide; 10568. Holocene, radiocarbon dating, eolian deposit, fossil soil, cover sand, stabilization, stratigraphic research, France, Pas de Calais, Wissant; 11968. ice age cycle, inorganic nitrogen, feedback, denitrification event, greenhouse warming, climate oscillator, biogeochemical cycling, ocean, 04930. ice sheet, Quaternary history, 06127. intertidal sediment, provenance, mudflat, beach, sand, Kuwait; Arabian Gulf; 10539. isotopic change, oxygen, carbon, foraminifera, ocean history, South China Sea; 02372. lacustrine deposit, core, explosion crater, forest refuge, lithostratigraphy, volcanism, palaeomagnetism, palynology, Cameroon, West Cameroon, Barombi Mbo; 02630. lacustrine evaporite, groundwater, aeolian gypsum, pedogenic gypsum, gypsum, evaporite, Australia, New South Wales, Willandra Lakes, Prungle Lakes; 11675. lake, fossil diatom, diatom, salt lake, correspondence analysis, ionic composition, salinity, Bolivia, Altiplano, Laguna Ballivian; 11938. loess, Gau landscape, microrelief, Germany, Enz-Neckar Area; 00223. magnitude-frequency relation, recurrence interval, ice sheet, glacier, catastrophic flood, definition, UK; 01438. marine deposit, methane, gas, organic matter, Denmark, Jutland; Kattegat Sea; 04858. marine deposit, morphogenetic processes, Jomon Transgression, sea-level fluctuation, tephra, paleoenvironmental analyses, Japan, Fukuoka City, Torikai Lowland; 11991. marine deposit, transgression, Elsterian(Late) age, Skaershoj deposit, glacial lake, ice rafted stone, glaciomarine environment, annual variation, Denmark, Jutland, Thyholm; 05035. Miocene, Pliocene, subduction, Nazca Plate, convergent margin, tephra, volcanic acticity, Peru; 01292. non glacial interval, pollen analysis, Missinaibi Formation, glacioisostatic sea, Sundance paleosol, Amery, till, Sangamon, interglaciation, Canada, Manitoba, Hudson Bay Lowlands; 07256. normal faulting, seismic hazard, wine glass valley, erosional surface, uplift, hanging glacial valley, earthquake, morphological evidence, Spain, Pyrenees; Catalonia; 08362. organic matter, amino acid, biomarker, diagenesis, China, Xinjiang, Chiawobao; 07108. organic matter, lake, river diversion, climate change, USA, Nevada, Walker Lake; 02316. outwash sediment, ice striated pebble, ice melt, graben structure, periglacial environment, ice rich diamicton, redeposited diamicton, diamicton block, structure, Austria, Inn Valley, Innsbruck; 07241. palaeoclimate, magnetic susceptibility, magnetic susceptibility record, loess, dating, orbital frequency, China, Loess Plateau; 09594. palaeoclimatology, monsoon, lake level, general circulation model, Milankovitch, albedo forcing, tropical monsoon, geological evidence, numerical simulation, sensitivity experiment, Africa; 09540. palaeoecological research, pollen analysis, environmental hypothesis, Q mode factor analysis, cluster analysis, pollen dispersal data, research analog, Argentina, Neuquen, Cerro Domuyo; 07196. Paleogene, Neogene, productivity, sea ice cover, continental slope, opal, climate, Weddell Sea, ODP Site 693; 03571. paleosol, buried paleosol, loess, palaeomagnetic evidence, extractable Fe Al, Kenya, Mount Kenya; 03929. periglacial phenomena, fossil frost crack, patterned ground, cryoturbation, France, Aube, Champagne; 13187. photo element analysis, beach, cliff, landform, geomorphology, India, Konkan Coast; 01225. planktonic foraminiferal assemblage zone, tropical, graphic correlation, oxygen, Florida Loop Current, subzonal boundary, accumulation rate, biogeographic model, Caribbean Sea, Colombia Basin; Atlantic; USA, Gulf of Mexico; 03857. pollen analysis, arid zone, sediment sequence, vegetational history, Australia, South Australia, Dalhousie Springs; 06111. pollen assemblage, palaeoclimate, isotopic stage, palynological study, Japan, Kyushu; 10796. pore water chemistry, benthic fauna, sill, oxygen, anoxic, Indonesia, Halmahera, Kau Bay; 00050. radium, calcium carbonate, aragonite, travertine, spring, USA, Wyoming, Mammoth Hot Springs; 03558. refugia, tree, cold stage distribution, forest tree, pollen analysis, Europe, (North); 09559. river terrace, Talgrundterrassen, Holocene terrace, soil type, loess covered terrace, fluvial geomorphodynamics, Germany, Isar River; Danube Valley; 06182. Saalian age, till, glaciofluvial sediment, Weichselian, Vennebjerg Stadial, Sandnes Interstadial, Skaerumhede Series, foraminifera, stratigraphy, Denmark, Kattegat, Anholt Island; 07209. saline, lake, Holocene, lacustrine, dolomitisation, 01226. salt crust, halite, brine, spring, gypsum, Bolivia, Altiplano, Uyuni; Coipasa; 12863. sedimentary deposit, continental shelf, accelerator radiocarbon measurement, gravity core, seismic unit, Wisconsinan interstadial, Holocene, sedimentation rate, radiocarbon date, USA, New Hampshire, Merrimack Delta; 07202. sedimentary fill, Alpine valley, gravity modelling, bedrock topography, glacial trough, infill, Switzerland, Alps; 02640. sedimentation, continental shelf, delta, transgression, coastline, reef, Australia, Great Barrier Reef; Queensland, Townsville; 02355. sedimentation, sea level rise, mangrove, shoreline, Holocene, 10626. shelf, Bude Formation, foreland basin, Westphalian, turbidite, UK, England; 11722. shelf, mud, sediment physical property, nepheloid layer, surficial sediment, benthic layer, continental margin, France, Gulf of Lions; Rhone River; 06956. shore platform, Holocene, phosphogenesis, concretion, mud, New Zealand, Raglan Harbour; 02350. smectite, submarine volcanism, hydrothermal reaction, pelagic sediment, Neogene, clay mineral, Pacific, (Central); 11699. soil, clay mineral, smectite, Indian Ocean, Kerguelen-Heard Plateau; 11814. stress field change, palaeostress indicator, Kenya, Gregory Roft; 08369. subduction zone, back arc basin, lithosphere, geodynamic event, Philippine Sea; Japan Sea, Gulf of Peter the Great, Vostok Gulf; 10562. subsidence, Holocene, sedimentation, shelf, sea level rise, Mediterranean, Gulf of Lions; 12875. suspended material, organic matter, isotopic composition, terrigenous matter, biozone, Africa, Congo River; 10520. tectonic activity, regional aquifer flow, radiometric dating, sub aqueous precipitate, cave, tilting, faulting, geothermal gradient, boxwork, seasonal solutional enlargement, aquifer, USA, South Dakota, Wind Cave; 10722. tectonic control, eustatic control, season, climatic zone, paralic sedimentation, 12939. tectonic, climatic record, planation surface, saprolite, REE dispersion, laterite, India; 12020. terrace, isovolumetric method, Ti constant method, Weichselian, Holocene, rind, weathering intensity, alkali basalt gravel, weathering, France, Limagne, Allier River; 03926. transgressive regressive cycle, marine incursion, depositional sequence, soil, sea level history, chronology correlation, Greece, Gulf of Argos; Argive Plain; 06184. turbidite, sedimentation, ashfall deposit, Tyrrhenian Sea, Marsili Basin; Site 650; 00082. upwelling, phosphorite, continental shelf, Miocene, Pliocene, Pacific; Peru; 01283. volcanic activity, loess, rock dating, baked layer, TL date, tephra, China, Anhui Province; Shandong Peninsula; China, Jiangsu Province; 09508. volcanism, tectonics, Kaihu Group, sand mineralogy, sedimentary provenance, Neogene, New Zealand, South Auckland; 08248. Weichselian glaciofluvial deposit, water escape structure, cylindrical structure, Denmark, Spanager; Lynge; 03894. Wisconsin(Late), advance, retreat, climatic change, chronologic sequence, stratigraphic history, USA, Ohio; 00295.

Quaternary alluvium
TL age, alluvial sediment, fan delta, calcrete, diagenesis, Gilbert fan delta, sandy channel, distributary channel, fluvial phase, uranium thorium dating, dating, weathered alluvium, Australia, Queensland, Gilbert River; 13104.

Quaternary aquifer
detritical aquifer, groundwater quality, hydrochemistry, hydrodynamics, Spain, Durango; 07545.

Quaternary climate
coupled climate model, last glacial interglacial cycle, Milankovitch theory, palaeoclimate, 09542. landscape genesis, Quaternary(Upper), coast, cave, Saale, Eem, Weichsel, Holocene, anthropogenic effect, Mediterranean; 08459.

Quaternary dating technique
backscattered electron microscopy, varnish dating method, geochronology, age determination, rock varnish, USA, (Southwest); 01424.

Quaternary deposit
accretionary prism, submarine photograph, gravity core, diapiric high, turbidity, sea-level variation, mud diapir, Caribbean Sea, South Barbados Prism; 08440. cation leaching curve, rock varnish, dating method, Quaternary(Middle-Late), China, Gansu Province; Xinjiang Region; 08531. cryogenic perstruction, Tertiary deposit, pedogenic perstruction, Poland; 00474. landscape evolution, aeolian deposit, terrace gravel, hill slope, colluvium, loess, scree formation, cold desert, New Zealand, Southland; 07151. marine deposit, Eemian, Weichselian, ice sheet, Weichselian(Late), foraminiferal stratigraphy, geological framework, Denmark, Jutland, Skagen Area; 11956. road cutting, till, lacustrine clay, glaciofluvial gravel, UK, England, Devon, Barnstaple, Lake Cutting; 07233.

Quaternary detritism
mudflow, flood, till, glaciation, gelifraction, shoreline, Mediterranean, mountain, dynamics, chronology, France, Corsica; 01383.

Quaternary development
alluvial fan, Sarvis fan, Danube fan, deposition, landform sinking, sand, alluvial, Hungary, Great Hungarian Plain; 08332.

Quaternary environment
cold stage, steppe vegetation, tundra, palaeoclimate, vegetation, China; 08491.

Quaternary extinction
accelerator radiocarbon dating, molecular level dating, fossil bone,

amino acid, Clovis age, human fossil, bone dating, North America; 08428.
Quaternary fault
wave cut platform, Vertical movement rate, terrace, vertical displacement rate, New Zealand, Wanganui Basin; 00237.
Quaternary fill
intramorainic depression, cirque, lithostratigraphic unit, Atlantic period, Subboreal, radiocarbon date, deforestation, slope degradation, sedimentation, postglacial deposit, Poland, Tatra MountainsStarorobocianski Cirque; 11971.
Quaternary geology
bathymetry, palaeovalley, sheet 49<>oN-04<>oW, British Geological Survey, sea bed sediment, UK, Channel Islands, Guernsey; English Channel, Hurd Deep; 01421. cirque glacier, slope process, till, alpine slope, talus apron, rock glacier, snow avalanche, deglaciation, Canada, Yukon Territory, Frances Lake; Northwest Territories, Frances Lake; 08470. coloured map, superficial deposit, esker, melt water channel, end moraine, Canada, Alberta, Shetsen; 03879. Dogger Bank Formation, Bolders Bank Formation, Botney Cut Formation, Yarmouth Roads Formation, glacial valley, Weichselian, Elsterian, bathymetry, geotechnical property, borehole, British Geological Survey, Rijks Geologische Dienst, North Sea, Silver Well; Netherlands; 09565. geotechnical property, carbonate content, British Geological Survey, seabed sediment, UK, Scotland, Fair Isle; 09562. MacLeod sequence, glaciomarine sediment, diamict, sea floor geology, British Geological Survey, Atlantic, (North), Geikie; 07203. radiocarbon date, petrology, dating problem, Karal rock, micromorphological analysis, calcite, cementation, India, Maharashtra; 08431. seafloor, Morrison sequence, Otter Bank sequence, submarine end moraine, Sinclair sequence, stratigraphy, core, British Geological Survey, UK, Scotland, Judd; 09564. Shipek grab, bathymetry, sediment thickness, rock head contour, bedform, biogenic carbonate, sand sorting, British Geological Survey, sea bed sediment, UK, England, Hampshire, Wight; Solent; 07144. Tertiary(Late), Pleistocene(Early), glaciation, interglaciation, Beaufort Formation, Worth Point Formation, Duck Hawk Bluffs Formation, Morgan Bluffs Formation, Canada, Banks Island; 09581. trailing edge continental margin, palaeochannel, peninsula progradation, Delmarva Peninsula, sea level, Wisconsinan(Late) palaeochannel, climate change, USA, Virginia, Chesapeake Bay; Delaware, Chesapeake Bay; 07273. UK Norway median line, Ferdar Formation, Cape Shore Formation, Flags Formation, Elsterian, Saalian, Weichselian, subglacial channel, British Geological Survey, UK, Scotland, Bressay Bank; 09563.
Quaternary glaciation
ablation, ice sheet initiation, ice sheet-atmospheric moisture model, Loch Lomond ice sheet, climate, maritime ice sheet, glacial mass balance, 03124. aeolian relief, uplift, Asia, (Central); USSR, Siberia; 13023. Antarctic Convergence, intercalation, glacial sediment, lava flow, snowfall, volcanic island, Southern Ocean; Southern Ocean, Marion; Southern Ocean, Kerguelan; Southern Ocean, Heard Islands; 02653. Quaternary(Late), glacier fluctuation, sea level control, tectonics, equilibrium line altitude, tidewater glacier, radiometric dating, raised beach deposit, last glaciation, late glacial, Neoglacial, Southern Ocean; Antarctica, Antarctic Peninsula; 02654. weathered glacial deposit, potassium/argon dating, tectonically active island, mountain ice cap, radiocarbon age, last glaciation, Equilibrium Line Altitude, moraine limit, neoglacial cooling, New Guinea; 02633.
Quaternary gravel
Carg Gravel, Westleton Bed, Tertiary pebble bed, spicular flint, flint pebble, UK, England, East Anglia; 06002.
Quaternary groundwater reservoir
groundwater resource, groundwater quality, Denmark; 01766.
Quaternary history
glacial deposit, Anglian, Wolstonian, Devensian, UK, England, Peak District; 10769. Quaternary, ice sheet, 06127. sedimentological interpretation, raised terrace, seismic reflection profile, glacio eustatic change, sea level, fluvial dissection, Greece, Gulf of Patras; Gulf of Corinth; 10804. Wolstonian till, Ipswichian beach, Hoxnian, Dimlington Stadial, Skipsea till, weathered mantle, Hessley Clay, proglacial lake, Lake Humber, Eskrick moraine, Withernsea till, UK, England, Humberside; Yorkshire; 13138.
Quaternary map sheet
British Geological Survey, sea bed sample, Shipek grab, seismic record, glacial sequence, interglacial formation, North Sea; 10771.
Quaternary normal fault
paleoearthquake, thorium age, earthquake potential, palaeoseismic study, Quaternary(Late), faulting, TL dating, fault zone, enechelon, USA, Utah, Logan; 10689.
Quaternary palynology
palynology, chronostratigraphy, climatic reconstruction, vegetation dynamics, 04932.
Quaternary profile
Pleistocene(Upper), lithostratigraphy, Riss Wurm interglacial, paleosol, Hagelstadt brickyard, chronological classification, pedostratigraphy, Germany, Bavaria, Hagelstadt; 06162.
Quaternary record
deep sea sediment core, GRAPE density, carbonate content, magnetic susceptibility, orbital forcing function, cyclicity, Milankovitch cycle, nonlinear response, Southern Ocean, ODP Hole 704A; Atlantic, (South); 11934.
Quaternary Research Association
Fortrose sheet, British Geological Survey, field guide, UK, Scotland, Beauly Firth; 06144.
Quaternary rhythmite
varve, glaciomarine cycle, geology teaching, Markov chain analysis, pedagogic tool, cyclic trend, Kingston Peak Formation, USA, California, Death Valley; Sweden; 03701.
Quaternary sediment
aeolian sediment, radiocarbon age, infiltrating water, glacial sediment, carbon dioxide retention, carbon exchange, unsaturated, USA, Illinois, Sheffield; 03849. ground electromagnetic method, EM instrument, seismic method, sediment mapping, Canada, Ontario, Val Gagne; 07227. macrotidal bay, acoustic basement, tidal channel, Holocene, sea level, seismic stratigraphy, Korea, Bunhung Bay; 13174. Pleistocene, Holocene, greigite, palaeomagnetic research, Black Sea; 03862.
Quaternary sequence
alluvial reg, Nouakchottian marine formation, Holocene deposit, Ogolian dune, planed dune, limestone crust, palaeodunes, Mauritania, Tijirit; 03875. coastal aminostratigraphy, last interglaciation, amino acid, racemisation data, dating, oxygen isotope substage 5e, Australia; 07199.
Quaternary soil
Mossbauer spectroscopy, clay mineral, mineralogical investigation, soil component, Sudan, El Gezira; El Gunaid; Sudan, El Mukabrab; Sudan, El Gash; 09768.
Quaternary statigraphy
glacial deposit, lithostratigraphy, Elsterian glaciation, melt water sedimentation, Saalian glaciation, ice advance, Main Stationary Line, Denmark, Jutland; 05006.
Quaternary stratigraphy
deglaciation, sea level, isostatic shift, postglacial sea level, glacial deposit, UK, Isle of Man; 13131. malacology, Geologists' Association, Kennard,A.S.(1870-1948), Mollusca, 06074. palaeoclimatic model, palaeogeographical reconstruction, loess, environmental response, sedimentary environment, France, Alsace, Achenheim; Vosges, Grande Pile; 06085. radiolaria, Nigrini zonal scale, core sediment, cooling, Indian Ocean; 10749. stratigraphical record, discontinuity, stratigraphy concept, 06072. stratigraphical record, mollusc, pollen, radiocarbon, method, concept, France, Massif Central; 03845.
Quaternary uplift
dating, tectonism, terrace, eustatic sea level, uranium/thorium dating, coral, Pleistocene terrace, Pacific, New Hebrides, Vanuatu; Ile d'Efate; 01394. fluvial terrace, envelope surface, uplift, geomorphological criteria, neotectonics, Italy, Apennines; 00233. maar, volcanic relief, andesite, laccolith, Czechoslovakia, Cerova Vrchovina; 13039. Mendocino triple junction, fission track age, uplift, unroofing, stability, uplift history, strike slip offset, space problem, USA, California, King Range, San Andreas Fault; 11878.
Quaternary waters
Tertiary waters, manganese, sulphate, permanganate value, alkalinity, iron, chloride, total hardness, groundwater chemistry, Poland; 02971.
Quaternary(Early)
polje, karst, downfaulting, tectonic influence, hum, lateral corrosion, downwearing, Greece, Crete; 11900.
Quaternary(Late)
Agulhas Current, intra ocean heat transfers, coccolithophore species, palaeoproductivity, Indian Ocean; 03864. Anadara bearing deposit, Rangitoto lava, fault movement, Anadara trapezia, radiocarbon dating, sea level, New Zealand, Hauraki Gulf, Rangitoto Island; 06189. carbonate contamination, U series dating, impure carbonate, isochron technique, total sample dissolution, age determination, 09552. circulation pattern, surface current system, southerly current, cyclonic gyre, dropstone, Greenland Sea; Norwegian Sea; 02608. climatic change, isotopic relationship, faunal relationship, mineralogical relationship, oxygen isotope stage, pelagic carbonate, carbonate distribution, Mediterranean Sea, Balearic Slope; 08448. climatic change, packrat midden assemblage, fossil, insect evidence, USA, Texas, Chihuahuan Desert, Big Bend Region; 03871. displacement, Hope Fault, earthquake, offset moraine, slip rate, New Zealand, North Canterbury, Glynn Wye; 00239. dune incursion, archaeology, chronology, palaeoenvironment, aeolian sand, radiocarbon dating, hyperarid climate, climatic condition, Israel, Sinai; Negev; 07220. dune sand, coastal dune, radiocarbon dating, aeolian sediment, TL dating, New Zealand, North Island, Manawatu; Horowhenua; 06094. faulting, palaeoseismicity, fault scarp, Late-Glacial, postglacial, deglaciation, landslide, seismite, Sweden, Lansjarv Area; 08363. faulting, TL dating, fault zone, enechelon, Quaternary normal fault, paleoearthquake, thorium age, earthquake potential, palaeoseismic study, USA, Utah, Logan; 10689. fluvial sedimentation, radiometric dating, alluvial fill, alluviation, valley glaciation, overgrazing, stratigraphic unit, terrace, Greece, Epirus, Voidomatis Basin; 07215. folding, coral reef terrace, First High Cliff, constructional reef terrace, Second High Cliff, uplift rate, Barbados; 07169. folding, marine terrace deformation, warping, Neotectonic, Japan; 03720. fossil diatom, marine core, palaeoceanographic reconstruction, diatom productivity, Holocene, melt water spike, Canada, Baffin Island; 09560. glacial history, ice sheet reconstruction, geomorphological mapping, corrie glacier, Loch Lomond Stadial, Outer Hebridean ice cap, basal shear stress, UK, Scotland, Isle of Skye, Trotternish Escarpment; 06124. glacial history, vegetative history, deglaciation, Glacier Peak G, Mount St Helens Jy, ash, reforestation, moraine, radiocarbon age, USA, Montana, Glacier National Park; 00293. glaciation, end moraine, Holocene(Late) advance, moraine, equilibrium line altitude, Otira Glaciation, New Zealand, Mount Ruapehu; 02643. glacier fluctuation, sea level control, tectonics, equilibrium line altitude, tidewater glacier, radiometric dating, raised beach deposit, last glaciation, late glacial, Neoglacial, Quaternary glaciation, Southern Ocean; Antarctica, Antarctic Peninsula; 02654. gravity core, till, carbonate content, clast petrography, stratigraphy, Barents Sea; 00276. jet stream, monsoon, Milankovitch forcing, pluvial climate, climatic episode, global climate, North America; Africa, (North); 13077. lacustrine environment, trench, Lake Iroquois, subglacial melt water origin, Canada, Ontario, Lake Ontario, Bateau Channel; 04998. lake basin, pollen, aquatic vegetation, palaeogeographical condition, high mountain region, mountain lakes, USSR, Tien Shan; Pamirs; 03898. lake deposit, sand sea, desert dunefield, linear dune, carbonate, ponded river origin, radiocarbon date, sedimentology, paleohydrology, Namibia, Namib Sand Sea; 04981. mammalian fauna, succession reconstruction, faunal succession, Japan, Toyohashi, Suse Quarry; 08492. mass movement, continental rise, abyssal plain, gravity core, stratigraphic analysis, coccolith species, pelagic sediment type, oxygen isotope time scale, turbidite, slide, climatic change, Saharan Sediment Slide, Africa, Sahara; 09567. mixed layer, ocean, atmospheric carbon dioxide, carbon isotope record, 02565. moraine, loess, Holocene, moraine, till, soil development rate, radiocarbon date, loess reworking, fire, frost action, soil age relationship, New Zealand, Southern Alps, Arrowsmith Range; 07324. movement, Wel-

lington Fault, horizontal offset, slip rate, dextral slip rate, vertical movement rate, New Zealand, Upper Hutt; 00236. multivariate analysis, palynological data, phytosociological data, Tenagi Philippon core, interglacial, evergreen oak forest, steppe vegetation, maquis, garrigue, climatic condition, Greece; 10758. palaeoecology, palaeoenvironment, alluvial valley, radiocarbon dating, melt water, aeolian activity, sand dune, glacial meltwater, braided stream, meandering river, pollen assemblage, Holocene, stream terrace, USA, Missouri, Mississippi River; 07263. palaeotemperature record, speleothem, stalagmite, climatic change, ESR analysis, radiometric dating, Australia, Tasmania, Florentine Valley; 02677. planktonic foraminifer fauna, pteropod preservation, equatorial, salinity, nutrient level, aragonite preservation, Maldives, Chagos-Laccadive Ridge; Indian Ocean; 03866. pollen record, environmental change, climatic condition, Uganda, Rukiga Highlands; 04980. productivity, diatom, primary productivity map, upwelling, oxygen isotope stage, coastal upwelling, Peru; 11930. progradation, delta, estuary, tidal flow, Canada, British Columbia, Fraser River; 06976. regional deglaciation, fresh water influx, isotopic signature, Pleistocene Holocene transition, deglaciation effect, Sweden; 04961. sea level, erosion hole, sea caldron, buried valley, Shimosueyoshi transgression, land bridge, strait, Japan; 04966. sedimentary record, radiocarbon dated material, eolian landscape, soil formation, dune field, USA, New Mexico, Colorado Plateau, Chaco Dune Field; 02511. sedimentary response, tectonic activity, sea level fluctuation, seismic reflection profile, deltaic sequence, buried marine terrace, Hueneme Canyon, USA, California, Ventura Mainland Shelf; 03869. sedimentation rate, Antarctic continental margin, ice shelf edge, diagenetic process, meltwater spike, primary productivity, climatic cycle, sedimentation rate, stable isotope record, Antarctica; 02622. sedimentation rate, isotope flux, deep water, beryllium-10 stratigraphy, thorium-230 stratigraphy, Atlantic, Fram Strait; 02605. sedimentation, continental margin, seismic stratigraphy, sea level history, progradation, sea level lowstand rate, tectonic subsidence rate, turbidite deposit, Aegean Sea; 08449. sedimentation, deglaciation, seismic profile, sediment wedge, Laurentide ice sheet, sea level, USA, New Jersey, Hudson Apron; 06095. spatial variation, temporal variation, coastal upwelling, Peru; Pacific; 00274. stratigraphy framework, sapropel S1, stable oxygen isotope, anoxia, carbon-14, Mediterranean; 13084. tectonism, deltaic sedimentation, sea level change, graben subsidence, sedimentation history, Greece, Gulf of Patras; 10803. terrace deformation, marine terrace, Cascadia subduction zone, neotectonics, tectonic tilting, regional stress, subduction zone, USA, Oregon, Cape Blanco; 06174. uplift rate, paleosea level, marine terrace, coral reef, New Guinea, Huon Peninsula; 03905. uplift, Troodos ophiolite, uranium series dating, Pleistocene coral, coastal subsidence, Cyprus; 02680. upwelling, anoxic basin, planktonic foraminiferal fauna, piston core, trade wind, glacial interglacial transition, sea level, melt water discharge, Holocene, solar forcing, high resolution record, Venezuela, Cariaco Basin; Caribbean Sea; 10745. vegetation history, palaeovegetation map, pollen data, human impact, Europe; 06142. vegetation history, pollen, plant macrofossil, radiocarbon dated core, Pinus contorta woodland, Tsuga heterophylla, Tsuga mertensiana, plant migration, coastal forest, USA, Alaska, Chilkat Peninsula, Lily Lake; 00302. vegetation reconstruction, pollen, macrofossil, USA, New Mexico, Chaco Canyon; 06138. volcanic ash, aeolian dust, tephra, oxygen isotope composition, quartz, soil, Japan; 00270.

Quaternary(Late) reef
uplift, stratigraphy, chronology, Pleistocene(Late) reef, sea level, coral reef, makatea limestone, reefal limestone, uranium series dating, flexure, lithospheric flexure, Pacific, Cook Islands, Makatea Islands; 10808.

Quaternary(Late) sediment
borehole, palaeoenvironmental reconstruction, Holocene, last interglacial, last glacial, sea level, rocky shore environment, radiocarbon date, oxygen isotope evidence, foraminifera, Hong Kong, High Island; 10752. core TEV 1 BAN 85, palaeoclimatology, Pleistocene(Late), Holocene, foraminifera, pteropoda, Tyrrhenian Sea; 08447.

Quaternary(Late) sedimentation
acoustic stratigraphy, seabed deposit, glacially overdeepened valley, glaciomarine sediment, sea level, Canada, Newfoundland, St.George's Bay; 05000.

Quaternary(Late) sequence
moraine, rhyodacite, volcanic evolution model, glacial, volcanic geomorphology, andesite, cone collapse, corrie, dacite, debris avalanche, glacial valley, lahar, Ecuador, Andes, Chimborazo-Carihuairazo Massif; 02516.

Quaternary(Late) stratigraphy
sedimentology, seismic survey, core, stratigraphy, side scan sonar, Devensian(Late), Loch Lomond Stadial, radiocarbon dated, pollen, periglacial condition, Holocene, soil erosion, UK, Wales, Lyn Tegid; 02663.

Quaternary(Late) vegetation
semiarid coast, Nothofagus forests, pollen analysis, aridity, coast, Holocene, Chile; 03873.

Quaternary(Middle)
paleosol, Pleistocene(Early) age, extractable iron, till, loess, palaeomagnetic dating, extractable aluminium, Kenya, Mount Kenya, Gorges Valley; 08461.

Quaternary(Middle-Late)
Quaternary deposit, cation leaching curve, rock varnish, dating method, China, Gansu Province; Xinjiang Region; 08531.

Quaternary(Upper)
coast, cave, Saale, Eem, Weichsel, Holocene, anthropogenic effect, Quaternary climate, landscape genesis, Mediterranean; 08459. sediment, soil, provo debris, solifluction, cryoturbation, loess, Kastanozem, Fluvisol, USA, Utah, Great Salt Lake; 13091. tidal current, circulation pattern, discriminant function analysis, shelf, sand, shoal deposit, USA, Virginia, Lower Chesapeake Bay, James River; 09343.

quatree
conversion algorithm, optimal boundary, 13778.

Queen City Formation
transgression, sand body geometry, Eocene, delta, USA, Texas; 05894.

Queen's University Forecasting Model
soil plant atmospheric continuum, design flood, spillway design, reservoir design, water management, hydrosystem maintenance, flood prediction, flood warning system, stochastic model, deterministic model, equatorial lake, Sacramento Model, Stanford Watershed Model IV, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416.

Queensland University of Technology
education, surveying practice diploma, 01172.

query interface
DBMS, data model, GIS, semantic relationship, temporal relationship, 01058.

query language
database management, INGRES, historical data, 06759. GIS, semantics, object oriented database, object type, 01059. updating mechanism, database formalism, database system, management language, 08016.

query optimisation
relational database, buffer capacity, distributed, 09105.

query optimisation algorithm
database, semijoin, contributive tuples, 05649.

query processing
optimisation, hierarchically structured network, computer network, 02124.

query utility
three dimensional borehole, display utility, marine borehole data, geotechnical data, borehole data, Beaufort Sea; 13905.

querying
exploratory statistical analysis, statistical graphics, GIS, 03365.

queued editing
editing, scan digitising, 11428.

quick capillary rise
pore geometrical characteristics, penetration coefficient, hydraulic conductivity, soil texture, pore measurement, 09731.

quick clay
flocculation, oxide mineral, sensitive marine clay, post glacial marine clay, marine clay, undisturbed strength, remoulded strength, Canada; 08385.

quick flow
base flow, rainfall variability pattern, Southern Oscillation, runoff variability, climatic influence, stream flow variability, principal component analysis, spectral analysis, USA, (Southeast); Australia, (Southeast); 08666. peak flow, soil loss, catchment response ratio, suspended sediment, overland flow, water repellency, wildfire, soil wettability, afforested catchment, bedload, South Africa; 10993. slow flow, stream flow response, rainfall excess, parameter estimation, hydrograph separation, instantaneous unit hydrograph, upland catchment, UK, Wales; 05138. storm flow, suspended sediment, sediment concentration, watershed study, watershed pretreatment, forest hydrology, land management, basin stability, discharge characteristics, peak discharge, USA, California, Caspar Creek; 06382.

quick flow analysis
spatial variability, landuse, basin characteristic, flood, runoff, hydrologic process, soil water dynamics, 08667.

quickflow
antecedent condition, hydrograph recession, basin runoff, suburbanisation, runoff regime, snow melt, rain-on-snow event, 00622.

quicklime stabilisation
cementation, cohesion, laboratory chart, laboratory investigation, lime, stabilisation, sensitive clay, shear strength, USA, Alaska; Canada; Scandinavia; 02538.

quicksand liquefaction
water saturated soil, liquefaction, soil, dynamic problem, thixotropic liquefaction, gravitational liquefaction, 01407.

quiescent upper layer
North Atlantic Deep water, rotating hydraulics, stationarity, Atlantic, Faroe Bank Channel; Norwegian Sea; 02291.

Quilalar Formation
Mary Kathleen Group, mudstone, Proterozoic, Ballara Quartzite, Australia, Queensland, Mount Isa; 05902.

Quindalup Dune
coastal zone, geomorphology, soil, shoreline landform, Australia, Western Australia, Swan Coastal Plain, Yoongarillup Plain; 06010.

Quqaluit Formation
Cape Searle Formation, Cretaceous, Paleocene, graben, basalt, rifting, sedimentation, Canada, Northwest Territories, Baffin Island; 02409.

R tree
point, rectangle, access method, 13792.

R/V Meteor cruise
stable isotopic record, stratified water column, productivity, Younger Dryas event, Holocene, palaeoenvironmental event, Pteropoda, high resolution record, sedimentary sequence, core, Red Sea; 10748.

racemisation data
dating, oxygen isotope substage 5e, Quaternary sequence, coastal aminostratigraphy, last interglaciation, amino acid, Australia; 07199.

radar
airborne sodium lidar observation, gravity wave, mesopause, lidar data, 05417. areal rainfall, drainage basin, rain gauge, forecast, Switzerland; 05349. azimuthal anisotropy, jet stream, gravity wave, velocity fluctuation, Japan, Shigaraki; 01848. canting angle, raindrop, backscatter measurement, rain rate measurement, circular polarisation diversity, 05327. cokriging, rain gauge, ground truth rainfall, rainfall, 00660. complex terrain, second moment, turbulent velocity, wind velocity, Doppler radar, 13518. data transmission, weather radar network, Denmark; Sweden; Finland; Norway; 05361. Doppler radar, ice cloud, storm, supercooled liquid water development, precipitation, microwave radiometer, polarization lidar, USA, Utah; 04317. empirical coefficient, scavenging coefficient, radionuclide, radioactive fallout, Finland; USSR, Chernobyl; 13659. Fabry-Perot interferometer, oxygen, Doppler wind, airglow, semidiurnal tide, aurora, diurnal tide, middle atmospheric dynamics, Canada, Saskatoon; 03094. frequency domain interferometry, middle and upper atmosphere radar, scattering layer, stratosphere, 08829. front, jet stream, convection, mesoscale weather event, wave activity, storm system, gravity wave activity, vertical velocity,

Flatland VHF radar, 10098. frontogenesis, mesoscale feature, coastal front, satellite observation, 01904. gravity wave, topography, momentum flux, horizontal wind, vertical wind disturbance, stratosphere, 12309. ground clutter, weather radar network, France; 05359. hydrometeor, rain rate, airborne weather radar, Hitschfeld Bordan solution, attenuation correction, 05320. ice, graupel, hail, differential reflectivity, depolarisation ratio, propagation differential phase shift, X-band specific attenuation, USA, Alabama; Colorado; Germany, Munich; 01794. mean wind, momentum flux, velocity variance, wave energy flux, mesospheric momentum flux, USA, Alaska, Poker Flat; 04297. microburst dynamics, microburst fine structure, virtual potential temperature, buoyancy, 10135. momentum flux, energy density, wave dissipation, velocity fluctuation, Japan, Shigaraki; 01849. position fixing, ship position, simulation and matching, coastal image, 02133. radar satellite, weather radar networking, real time measurement, precipitation, rain, snow, hail, Europe; 05365. radiometer, dual frequency radar measurement, retrieval, precipitation profile, airborne radar, 12324. radiometer, microwave radiometer, storm, rain, melting phase, ice sphere, albedo, extinction coefficient, microwave radiative transfer, 04219. rainfall forecast, weather radar, raingauge, water management, precipitation, 01947. rainfall forecasting, sewer management, image processing, 01938. rainfall, polarization diversity, snowflake, bright band error, 05328. rainfall, rain gauge, flood forecasting, real time forecasting, rainfall runoff model, UK; 05448. reflectivity factor, horizontal polarisation, differential reflectivity, differential propagation constant, rain, hail, precipitation, 01930. reflectivity, rain rate, area - time integral, probability matching method, 13522. remote sensing, optical signature, signature type, angular signature, atmospheric effect, 03276. remote sensing, polarisation phase difference, orchard tree, USA, California, Fresno; 03444. renewable resource monitoring, land use inventory, mineral prospecting, Brazil; 03275. satellite data, data analysis, data transmission, Spain; 05353. satellite data, precipitation forecasting, rainfall estimation, Meteosat, bispectral technique, 05366. satellite imagery, mesoscale model, boundary condition, humidity, precipitation, cloud water content, cloud cover, numerical weather prediction, 05425. short period forecasting, squall line, mesoscale predictability, convection, low-level jet, internal undular bore, gravity current, gravity wave, USA, Kansas, Wichita; 01923. snow depth, microwave radar, Norway; 09280. snow gauge, rain, snow fall, 04203. snow gauge, snow fall, Japan, Sapporo; 04207. storage function model, large scale basin, mountain basin, rainfall distribution, runoff prediction, distributed model, Japan, Kusaki-dam Basin; 08688. storm tracking method, rainstorm, rain gauge, tracking procedure, 08835. storm warning, thunderstorm, Doppler radar, 05369. submarine sand wave, tidal channel, sand wave, 02203. surface fitting, image segmentation, laser, 02112. television weather industry, forecaster, NEXRAD, USA; 10166. updraft, saturation mixing ratio, storm, synoptic analysis, mesoscale kinematics, water release rate, condensation, deposition, cloud, USA, Utah; 04294. upper air sounding, low level jet, moist convection, baroclinic atmosphere, 01912. weather radar data, 05447. weather radar, rain cloud, ground clutter reduction, rain measurement, 05336. weather surveillance radar, USA; 05363.

radar albedo
volcanic resurfacing, impact crater, Magellan radar image, crater, central peak, ejecta, Venus; 11876.

radar altimeter
continental ice, katabatic wind measurement, SEASAT, satellite, 02267. full deramped signal, Brown model, Seasat, 00995. ice sheet, topographic change, satellite radar, Antarctica, Wilkes Plateau; 11605. scattering coefficient, computer simulation, waveform, 12598.

radar altimeter data
Geosat Geodetic Mission, satellite altimetry, semivariogram, seasonal elevation change, ablation zone, Greenland, West Greenland; 00341.

radar altimetry
altimeter height measurement, wave development, sea state bias, wave age, 12787. GEOSAT radar altimeter, SMMR, seasonal, inter annual variation, sea ice extent, Antarctica; 05048.

radar altimetry data
lunar crater, intercrater plain, degraded carter, Schroeters ratio, crater, radar result, Martian crater, Mars; 10686.

radar backscatter
artificial tree, azimuthal variation, polariation sensitivity, tree, 11572. crop canopies, soil, Canada; 11559. forest, helicopter borne scatterometer, principal component analysis, range spectrum, Finland, Helsinki, Espoo; 03442. Monte Carlo technique, sea ice, 00996. plant water content, agronomic application, wheat, 10420. sea ice, ice thickness, snow covered ice, 01125. soil moisture, SAR, 11540. surface geometry, corn field, Canada, Quebec; 11558.

radar backscattering
agricultural crop, canopy structure, 11556. agricultural crop, crop growth, 11555. infrared emission, microwave emission, surface wind field, wave spectra, ERS-1, calibration, 12596.

radar bright crater
Venera 15 and 16 spacecraft, impact crater, enhanced reflectivity, Venus; 07162.

radar bright surface
volcanic centre, caldera, eruption, edifice volume, Magellan data, dome, Venus; 07161.

radar calibration
raingauge, weather radar, flood warning, radar data, computer software, UK, England, Thames River; 04038.

radar characteristic
equatorial plain, Goldstone observation, interpretation, Magellan data, Heng-O ring structure, corona, soil dominated, Venus; 02523.

radar contour
hail cell, convective cell, parameterisation scheme, 08968.

radar cross section
microwave backscattering, wind speed, wave antenna angle, modulation transfer function, 08112.

radar data
airborne multiband scatterometer, speckle analysis, forest signature, Netherlands; 03441. areal rainfall, covariance analysis, rainfall forecast, mean areal rainfall, rainfall prediction, precipitation estimation, 13311. computer software, radar calibration, raingauge, weather radar, flood warning, UK, England, Thames River; 04038. data processing, France; 05337. flash flood, Aramis radar network, areal rainfall forecast, flood forecasting, hydrological service, France; 04039. multiple receiver, radar return, mesosphere, medium frequency range, wind velocity estimation, 08830. radar integration, IHS color display transform, 10364. radiation transport, rainfall, fallout, weather radar, meteorological factor, radioactive deposition, USSR, Chernobyl; Finland; 10199. reflectivity, radial velocity, data presentation, Doppler radar, meteorological data, lightning detection, 05326. sampling error, rain gauge, network configuration, gauge network, areal rainfall, 05114. satellite data, squall formation condition, aerological data, cumulonimbus, forecasting, squall forecasting, 06516. surface observation, Meteosat imagery, numerical weather prediction, precipitation analysis, dispersion and deposition model, nuclear accident, Chernobyl, Europe; 05325. urban hydrology, forecasting quality, rawinsonde data, rainfall forecast, 13313. weather radar network, Europe, (Western); 05364.

radar data networking
weather radar, data transmission, Europe; 05343.

radar data processing
data presentation, precipitation, satellite imagery, weather radar, Canada, Quebec; 05335. thunderstorm, detection, storm propagation, Canada, Quebec; 05345.

radar dependence
SAR, Tower Ocean Wave and Radar Dependence Experiment, ocean surface, 04642.

radar depth sounder
design, development, field observation, coherent Antarctic radar depth sounder, Antarctica; Greenland; 01474.

radar detection
dew, wheat, backscatter, soil moisture, 09251. precipitation type transition, winter, storm, updraft, snow region, mesoscale circulation, Canada, Ontario; 11170.

radar echo characteristics
Gulf Stream, USA, Georgia; North Carolina; 01910.

radar horizon
precipitation, radar network, weather radar, Europe; 05339. stratiform echo, reflectivity, weather radar, 05333.

radar image
slope statistic, radarclinometry, topographic map, 03286. tesserae, volcano, geologic unit, morphologic unit, Venera 15/16 mission, Venus; 07157.

radar imagery
initialisation, mesoscale initialisation, forecast, satellite imagery, 08955. nowcasting, satellite image, precipitation, correlation technique, numerical weather prediction, 05449. range normalisation, laser, 13793. vegetation analysis, forest, stand productivity, 03428.

radar imaging
geological area characteristic, tectonic deformation, Venus; 09196. ocean swell, wave directionality, 09257.

radar index
thunderstorm, ground stroke, thunder, Sweden; 07786.

radar installation site
weather radar, ground clutter, digitized elevation model, precipitation measurement, mountainous terrain, beam interception, France, Cevennes Region; 08651.

radar integration
IHS color display transform, radar data, 10364.

radar interferometric imaging
plasma irregularity, equatorial electrojet, ionospheric plasma, Peru, Jicamarca; 12693.

radar mapping satellite
data processing system, orbit determination, Venus; 10243.

radar measurement
crop damage, kinetic energy aloft, hailfall, 08970. fractal, raindrop, resolution dependence, rain measurement, blotting paper, 13603. hailfall parameter, urban hydrology, hail detection, rain gauge hailpad network, dual polarization radar, rainfall rate, 05348. ocean, wave propagation, Doppler radar, 06887. precipitation, deep convection, squall line, hail, cloud dynamics, cloud microphysics, 00762.

radar meteorological activity
avaiation, crop protection, water resources management, weather forecasting, Italy; 05355.

radar network
cost-benefit analysis, weather radar, flood warning, hydrological forecasting, UK; 04178. data transmission, Czechoslovakia; 05360. short period forecasting, road weather service, forecast, commercial forecasting, user requirement, climate service, UK; 08818. weather radar network, sugar cane, nowcasting, agriculture, Brazil, Sao Paulo; 05322. weather radar, radar horizon, precipitation, Europe; 05339.

radar networking
air traffic control, satellite data reception, weather radar station, USSR; Poland; Czechoslovakia; 05362. data dissemination, radar rain gauge data, Japan; 05354. rainfall, data analysis, radar precipitation measurement, rain gauge, UK; 05347.

radar observation
observational source, lightning, location system, mesoscale forecasting, numerical weather prediction, satellite observation, 00773. polar mesopause, Doppler Radar, mean flow acceleration, momentum flux, Norway, Andoya; 04257. storm(October 1987), frontal system, jet stream, Doppler radar, wind velocity, France, Brittany, Lannion; 00752. symmetric instability, warm sector rainband, rainband, China; 03033.

radar picture
Magellan spacecraft, Venus; 09500.

radar polarimeter
seeding area, hail suppression, polarisation characteristic, cumulonimbus, hail, shower, cloud, 11268.

radar precipitation
electrification, lightning, flash, thunderstorm origin, 12317.

radar precipitation measurement
rain gauge, radar networking, rainfall, data analysis, UK; 05347.

radar rain gauge data
radar networking, data dissemination, Japan; 05354.
radar rainfall
rainfall field drift, raindrop, 03011.
radar rainfall measurement
non-rainfall echo, wind effect, signal attenuation, Z-R relationship, warm season rainstorm, surface rainfall estimation, radar signal interpretation, precipitation assessment, 00504.
radar receiver
glacier, personal computer, ice radar receiver, USA, Alaska, Alaska Range, Mount Estelle Glacier; 01464.
radar reflectivity
ice water content, melting level, hurricane, 10113. microwave radiometer, Nimbus 7 SMMR, rain fall, 04209. orography, weather radar, hydrological application, 05340.
radar reflectivity isosurface
weather forecasting, cloud field evolution, 05346.
radar reflectivity-runoff model
rainfall-runoff, catchment characteristic, concentration time, flood forecasting model, 04037.
radar result
Martian crater, radar altimetry data, lunar crater, intercrater plain, degraded carter, Schroeters ratio, crater, Mars; 10686.
radar return
mesosphere, medium frequency range, wind velocity estimation, radar data, multiple receiver, 08830.
radar satellite
weather radar networking, real time measurement, precipitation, rain, snow, hail, radar, Europe; 05365.
radar scatter
geomagnetic disturbance, tide, atmospheric wind, Canada, Saskatoon; 09953.
radar scattering
landform, geologic unit, Arecibo image, Pioneer Venus Radar Mapper, scattering property, Venus; 02524. remote sensing, lava flow, morphology, USA, Idaho; 02204.
radar scatterometer
wave height, ocean surface, hydrodynamic effect, 08111.
radar sensor
trunk-ground interaction, complex forest structure, backscatter modelling, 03440.
radar signal
rainfall estimation, digital processing, weather, 04599.
radar signal interpretation
precipitation assessment, radar rainfall measurement, non-rainfall echo, wind effect, signal attenuation, Z-R relationship, warm season rainstorm, surface rainfall estimation, 00504.
radar sounding
polar ice, temperate ice, impluse radar system, Technical University of Denmark radar, airborne sounding, USA, Alaska, Columbia Glacier; Greenland; 10815.
radar survey
electromagnetic survey, waste water pond, groundwater contamination, leachate plume, lagoon seepage, 07551. reservoir monitoring, water resource management, salinisation, swamping, water conservation, arid land, USSR, Kazakhstan; 12294.
radar surveying
fish species, ice thickness, riverbed freezing, 03458.
radar system
terrain, model error, DEM, 11506.
radar technology
hydrology, radar-raingauge data combination, short term forecasting, Aramis radar network, France; 04020.
radar viewing angle
thunderstorm, echo size, echo asymmetry, NEXRAD, storm identification, 10114.
radar wavelength
ocean surface, scattering model, Bragg resonance condition, 00994.
radar wind
reference atmosphere, middle atmosphere, 11143. wind, middle atmosphere, reference atmosphere, atmosphere wind, 11142.
radar-raingauge data combination
short term forecasting, Aramis radar network, radar technology, hydrology, France; 04020.
radarclinometry
topographic map, radar image, slope statistic, 03286.
RADARSAT programme
SAR satellite, global environment, Canada; 06857.
RADARSAT Project
environmental monitoring, SAR, resolution, 13918.
radiaiton
fog model, radiative transfer, microphysics, droplet growth, gravitational settling, liquid water content, 12450.
radial basin related fault
fault, impact basin, ring, Mars, Daedalia Planum; 00229.
radial diffusion model
gas particle sorption kinetics, organic compound, Crank-Nicolson finite difference scheme, particle size distribution, particulate, 05536.
radial flow
unsaturated flow, Richards equation, saturated flow, pond seepage, seepage, three dimensional flow, groundwater flow, linear flow, USA, North Carolina Barrier Islands; 05207.
radial valley
bandjir, valley profile concavity, nuee ardente, lahar, longitudinal profile, Indonesia, Java, Merapi Volcano; 03728.
radial velocity
data presentation, Doppler radar, meteorological data, lightning detection, radar data, reflectivity, 05326.
radiance
delta-Eddington solution, transmission model, visibility, contrast, visual range, 12318.
radiance change
AVHRR, VISSR atmospheric sounder, precipitation retrieval, precipitable water, surface temperature, split window technique, skin temperature, 09969.
radiance difference
canopy water stress, coniferous forest, thermal infrared multispectral scanner, Germany; 03437.
radiance distribution
optical absorption coefficient, ocean, error source identification, 11600. water, wind, numerical model, 11611.
radiance measurement
aircraft data, split window, precipitable water estimation, 09971.
radiance model
radiometric temperature, vegetative surface, infrared radiance, 09244.
radiant canopy temperature
soil water content, neutron probe, upward flux, energy balance model, soil heat flux, agricultural water, water management, evapotranspiration, shallow watertable, crop evaporation, capillary rise, lysimeter, irrigation practice, watertable management, water balance model, 13454.
radiant surface temperature
vegetation index, forest, agricultural land, Australia; 10411.
radiation
chemical reaction, photo dissociation, instability, acoustic wave, 04361. climate modelling, shortwave absorption, cloud, 05378. double domed radiometer, radiation balance, radiometer, measurement error, 09972. dynamic property, microphysical characteristic, infrared radiative heating rate, optically thin cirrus, cirrus case study, observation, 12454. elevation gradient, unframed radiation, elevational gradient, longwave radiation, India, Himalayas; Nepal, Himalayas; 12312. energy storage term, sensible heat flux, short term measurement, lake evaporation, eddy correlation, energy budget, evaporation, latent heat flux, energy storage, 13315. evaporation process, hillslope hydrology, energy balance, water balance, hydroclimate, vegetation cover, soil characteristics, topography, rainfall, interception, wind speed, temperature, 10999. heat flux, satellite data, net radiation, surface heat flux, heat flux, NOAA-7 satellite, infrared data, fair weather, cloudy situation, France; 09977. lake, halite, sedimentation rate, brine, Middle East, Dead Sea; 04751. land surface hydrology, regional field, model validation, surface process, general circulation model, precipitation, 07749. narrow band spectra, vegetation index, photosynthetically active radiation, 04620. outgoing longwave radiation, winter temperature, teleconnection, time lag correlation, China; 09973. radiation flux, Landsat TM, GIS, spatial pattern, 09174. remote sensing, general circulation model, biosphere model, land surface atmosphere interaction, 07705. sea surface, radiation component, turbidity, ultraviolet, Atlantic; 06647. sensor, aircraft, satellite, data process, image processing, remote sensing, electromagnetic theory, 06710. soil heat flux, remote sensing, multispectral data, 06811. spectrometer, sea, optical property, FORTRAN, 04636. stratosphere, potential vorticity, 08921. temperature, humidity, droplet drying model, canopy, boundary layer, wind, 00726. tropical cyclone simulation, convective adjustment, saturation pressure, sea surface temperature, 01896. turbulent flux, sensible heat flux, short wave radiation, energy balance model, ablation, margin, ice sheet, albedo, Fohn event, Greenland, Nordbogletscher; Qamanarssup sermia; 01471. vegetation index, soil moisture, vegetation cover, satellite data, algorithm, land surface, insolation, albedo, longwave flux, 13476.
radiation absorption
aerodynamic roughness, K-theory, rainfall, micrometeorology, tropical forest, 03048.
radiation balance
albedo, humidity, water vapour, infrared irradiance, chinook, snow, soil water, Canada, Alberta; 04218. climate model, clouds radiation interaction, general circulation model, 10057. earth radiation budget, cloud condensation nuclei, phytoplankton, climate, global warming, cloud, 00690. mechanism, climate change, Milankovitch forcing, plate tectonics, trace gas, aerosol, 11292. polluted atmosphere, climatic changes, temperature, Middle East; 09005. radiometer, measurement error, radiation, double domed radiometer, 09972. sea surface, albedo, solar elevation angle, weather condition, Atlantic; 11221. surface atmosphere system, NIMBUS-7, atmospheric radiation balance, Hungary; 12689. vapour pressure, radiation model, snowmelt, open environment, climatological data, albedo, snowcover, 11194.
radiation budget
climate, radiative process, cloud, cloud radiation forcing, 00695. Earth Radiation Budget Experiment, data product, archival data, 11156. monsoon, eastward propagating mode, Hadley Cell perturbation, low frequency mode, tropical radiation, 12314. multiple reflection, stratus cloud, albedo, cloud amount, atmosphere transmittance, USA, Alaska, Barrow; 07658. out going longwave radiation, albedo, Earth Radiation Budget Experiment, solar radiation, 04213. radiation transfer, transfer parameterisation, cloud optical property, forecast model, ECMWF model, 07653. satellite climatology, bidirectional reflectance, diurnal variation, 00696. scanner measurement, nonscanner measurement, Earth Radiation Budget Experiment, 06436. snow cover, ozone, global change, sea surface temperature, vegetation index, 12587. solar radiation, empirical orthogonal function, tropical ocean, 06530. volcanic loading, climate response, aerosol, volcanic ash, eruption, ice core, sulphur gas, magma type, 07808.
radiation climatology
solar radiation, energy balance, Spain; 01820.
radiation component
energy balance, ground, radiation flux, 13539. turbidity, ultraviolet, radiation, sea surface, Atlantic; 06647.
radiation condition
wave radiation, scattering, infinite element, unbounded domain, 05786.
radiation cooling
stability, downslope flow, valley wind, boundary layer, 00734.
radiation damage track
fission track dating, zircon, apatite, provenance, 07117.
radiation damping effect
Laplace domain, wave propagation, foundation uplift, 00253.
radiation decay
river ice, solar radiation, snow cover, intergranular melt, borehole jack

indentation data, uniaxial compressive strength ratio, 12268.
radiation deficit
snow, temperature budget, sea ice, winter, inversion, air-ice momentum coupling, 13536. volcanic ash cloud, eruption, vulkani, 09978.
radiation exchange
energy partition, sensible heat flux, eddy diffusivity, micrometeorological measurement, latent heat flux, temperature, humidity, wind, Brazil, Amazon Forest; 05405.
radiation field
travelling current discontinuity, lightning, 01818.
radiation flux
infrared, rain estimation, satellite data, 04208. Landsat TM, GIS, spatial pattern, radiation, 09174. radiation component, energy balance, ground, 13539. surface flux, sea surface temperature, wind stress, air temperature, Indian Ocean, Bay of Bengal; 00742. turbulent transfer, boundary layer, cloud dynamics, cumulus parameterisation, rainband, cold air advection, Gulf Stream, USA, Appalachian Mountains; 01822.
radiation fog
fog chemistry, droplet sampling, fog water collection, fog sampling station, Italy, Po Valley; 04028.
radiation measurement
empirical separation model, model, direct component, diffuse component, solar irradiation, diffuse irradiation, 12313.
radiation method
spectrophotometry, uranium concentration, groundwater quality, stream water quality, spring water quality, water quality analysis, adsorption, ferric hydroxide, Turkey, Bergama-Balikesir Area; 07448.
radiation model
mixed crop, interception efficiency, conversion efficiency, radiative balance, canopy, fescue, 10019. nocturnal flux, long wave flux, model validation, urban canyon, 11207. snowmelt, open environment, climatological data, albedo, snowcover, radiation balance, vapour pressure, 11194.
radiation parameterisation scheme
forecast model, emissivity, water vapor path length, aerosol, solar radiation, cloud, ozone, Rayleigh scattering, 05371. mesoscale forecast model, short range forecast model, forecast model, narrow band model, 12327.
radiation penetration depth
frozen soil layer, bare soil, soil parameter, diurnal freeze thaw cycle, 08074.
radiation recoil effect
torque, electromotive force, temperature anisotropy, LAGEOS, rotational dynamics, 12594.
radiation transfer
cloud, solar radiation, 01810. optical property, leaf area density, bidirectional reflectance field, vegetation canopy, 05728. transfer parameterisation, cloud optical property, forecast model, ECMWF model, radiation budget, 07653.
radiation transport
rainfall, fallout, weather radar, meteorological factor, radioactive deposition, radar data, USSR, Chernobyl; Finland; 10199.
radiation-decayed ice
ice morphology, ice thermal condition, lake ice cover, ice flexural property, 02944.
radiative balance
canopy, fescue, radiation model, mixed crop, interception efficiency, conversion efficiency, 10019. heat low, biogeophysical feedback, albedo, atmospheric subsidence, horizontal divergence, vertical velocity, radiative cooling, Hadley cell, Australia; 08856. solar radiation, radiatively active trace gas, greenhouse gas, cloud, aerosol, carbon dioxide, methane, CFC's, nitrous oxide, tropospheric ozone, aerosol, 04326.
radiative convective equilibrium
surface temperature, radiative forcing, climate, ozone, carbon dioxide, climate change, 04360.
radiative convective model
greenhouse effect, Montreal Protocol, CFC's, global warming, climate change, surface temperature, 04345.
radiative cooling
convection, stratiform, cloud band, numerical experiment, virga settling, squall line, 12465. Hadley cell, radiative balance, heat low, biogeophysical feedback, albedo, atmospheric subsidence, horizontal divergence, vertical velocity, Australia; 08856. heat budget, polar troposphere, winter(1988-1989), continental air mass, warm advection, adiabatic warming, USA, Alaska; 09999. ice saturation, tropopause, cirrus cloud, nitrogen species, Norway, Stavanger; Chile, Punta Arena; 00763. lake water, coastal upwelling, thermal infrared, radiosonde, Sweden; 00957. mesopause, carbon dioxide, vibration-vibration transition, 01817. nocturnal cooling, surface inversion layer, Japan, Nagano Prefecture, Sugadaira Basin; 04247. pressure velocity correlation, turbulence structure, stratus cloud, boundary layer, kinetic energy, Arctic; 04318. Richardson number, nocturnal exchange, rain forest, carbon dioxide, heat flux, forest canopy, Brazil, Amazon; 07842.
radiative dynamical feedback
solar heating rate, global mean temperature, global mean solar heating, ozone, 00787.
radiative effectiveness
cloud, albedo, outgoing longwave radiation, cooling, 09975.
radiative entropy
temperature distribution, energy balance, radiative temperature, outgoing longwave radiation, 01812.
radiative flux
clear sky, ground emissivity, clear sky emissivity, Bahrain; 03024. energy balance, outgoing longwave radiation, surface downward flux, satellite observation, 01819. ice crystal, sea ice thickness, cloud optical property, pack ice, Arctic; 02990. sea surface, bulk formula, heat budget, solar height, surface heat budget, sea surface, Mediterranean, Sardinian Sea; 10033. surface geometry, canyon cooling, model validation, urban canyon radiation model, nocturnal long wave radiation, 08868.
radiative flux bias
Earth radiation budget experiment, bidirectional model, anisotropy, reflected sunlight, sunlight, 12319.
radiative forcing
climate, ozone, carbon dioxide, climate change, radiative convective equilibrium, surface temperature, 04360. climatic effect, proxy, carbon dioxide, greenhouse effect, trace gas, 11290. cloud forcing, Earth Radiation Budget Experiment, climate model, 06495. sea ice dynamic, temperature inversion, cloud cover, USA, Alaska; 03043. upwelling diffusion climate model, upwelling, energy balance climate model, climate model, 03116.
radiative gas
euphotic zone, biogeochemical system, climatic impact, 05444.
radiative heat transfer
numerical simulation, thermal structure, urban atmosphere, polluted atmosphere, aerosol characteristic, boundary layer, heat transfer, 12353.
radiative heating
longwave radiation, shortwave radiation, surface temperature, land breeze, sea breeze, non-hydrostatic mesoscale model, Greece, Athens; 01911. nitrous oxide, ozone depletion, temperature, ozone, cloud, Arctic; 00693. solar absorptivity, dust storm, optical property, aerosol, 07657. temperature, ozone, water vapour, tracer transport, diabatic circulation, stratosphere, 00757. tropical convective region, forcing seasonal variation, cloud radiative forcing, Earth Radiation Budget Experiment, cooling, 08843.
radiative heating profile
cirrus, cloud system, model, heating rate profile, 12451.
radiative parameter
lidar, spectral radiometer observation, infrared emission, cirrus structure, 12458.
radiative photochemical model
methane, nitrogen, chlorine, ozone, anthropogenic effect, photochemistry, gas composition, stratosphere, 12526.
radiative process
cloud, cloud radiation forcing, radiation budget, climate, 00695.
radiative property
cirrus cloud, climate, climatic feedback, particle scattering, microphysics, 10130.
radiative structure
precipitation retrieval algorithm, microwave, brightness temperatures, hailstorm, 10137.
radiative temperature
outgoing longwave radiation, radiative entropy, temperature distribution, energy balance, 01812. vegetative canopy, temperature distribution, 13528.
radiative transfer
anisotropic atmospheric, scattering, 08837. climate model, asymmetric scattering, surface albedo, bidirectional reflectance, 05727. cloud water, rain, ice, snow, graupel, hail, mie property, microwave radiative model, 05370. convection, cloud characteristics, radiometer, sounder observation, cloud top pressure, emissivity, Brazil, Amazon; 07872. Daedalus DS-1260, water volume, reflectance, airborne MSS, 02256. dry band, radiosonde, satellite imagery, blackbody temperature, 01813. dust cloud, photoacoustical technique, short-path transmissiometry, aerosol dosimetry, mass extinction coefficient, scattering albedo, 03202. ice crystal, cloud classification, Arctic; 08973. microphysics, droplet growth, gravitational settling, liquid water content, radiaiton, fog model, 12450. multifractal cloud, albedo paradox, 07649. nitric acid, cirrus cloud, tropopause, stratosphere, polar stratospheric cloud, 00694. solar radiative spectrum, trace gas, nitrogen dioxide, 06580. water vapour, ozone, nitrous oxide, polar vortex, ozone depletion, chlorine oxide, stratosphere, diabatic cooling, 00798.
radiative transfer algorithm
cloud, optical thickness estimation, irradiance measurement, 13487.
radiative transfer calculation
coastal water, airborne lidar, lidar measurement, radiometer, 09264.
radiative transfer code
rectification, multidate image, multisensor image, 13786.
radiative transfer model
infrared limb emission, ozone, middle atmosphere, emission calculation, non local thermodymamic equilibrium, 06697. microwave emission, vegetation, Africa; 08086. rainfall estimation, area averaged rainfall, rainfall, tropical ocean, ocean, microwave radiometry, single channel approach, 12322.
radiative transfer theory
observations, satellite, aircraft, Landsat radiance, cirrus case study, 12456. optical thickness, parameterisation, shortwave transmissivity, transmissivity, stratiform cloud, cloud, empirical data, 12320. satellite observation, near infrared, infrared, brightness temperature difference, optical depth, ice particle, remote sensing, cirrus cloud, lidar, 05374.
radiative transport
conductive transport, crop residue, 00440.
radiative-dynamical-photochemical model
seasonal cycle, quasi biennial oscillation, ozone, satellite data, station data, 13650.
radiatively active gas
carbon dioxide, global warming, policy strategy, climate change, tide gauge data, sea level change, Caribbean; 04235.
radiatively active trace gas
greenhouse gas, cloud, aerosol, carbon dioxide, methane, CFC's, nitrous oxide, tropospheric ozone, aerosol, radiative balance, solar radiation, 04326.
radical
adduct radical, benzyl radical, oxidation, hydroxy radical, toluene, 06627. photolysis, iodoethanol, molecular modulation technique, reaction kinetics, 06616.
radical decomposition
scavenging, troposphere, nitrate, dinitrogen pentoxide, nitrogen dioxide, nitrogen, 05526.
radical flux
solar simulator, biological process, photochemical transformation, natural water, USA, East Coast; Gulf of Maine; 10662.
radio carbon dating

aeolian material, Wisconsinan (Late), USA, Colorado; 01587.
radio echo data
subglacial bed topography, ice thickness, mass balance, climatic change, geostatistics, glaciology, Antarctica, Dronning Maud Land, Scharffenbergbotnen; 00346.
radio echo sounding
seismic method, water cycle, glacier, alpine basin, water resource, volume estimation, water storage, 08791. structure zone, boudinage, stratigraphic disturbance, glacial ice, hydrodynamic model, interface stability, stratified fluid, boudin, model, Sangamon ice, Greenland, Summit; 07305.
radio location
dangerous, natural phenomenon, thunderstorm, passive radio location, 02188.
radio nuclide
noble gas, halogen, accident source term, source term, critical review, USSR, Chernobyl; 12516.
radio transmitter
inshore seagrass beds, dugong, Australia, Queensland, Great Barrier Reef; 03454.
radioactive aerosol
ionic intensity, electrical charge, aerosol, radioactivity, 03268.
radioactive area
autocorrelation, lineament, structural lineament, desert, Egypt, Gebel El Missikat; 04600.
radioactive carbon
solvent contamination, groundwater quality, carbon isotope study, vadose zone, carbon dioxide production, vadose zone, stable isotope, USA, Arizona, Phoenix; 07549.
radioactive contaminant
contaminant transport, contaminant storage, flood wave, surface water quality, unit stream power, critical shear stress, thorium-230, sediment, USA, New Mexico, Puerco River, Church Rock; 05192.
radioactive contamination
fallout, alpine glacier, snow, vertical dispersion, Chernobyl fallout, melt water, glacier, Austria, Otztal Alps, Kesselwandferner; 12263. oil pollution, water resource management, surface water quality, potable water, water quality monitoring, alarm system, Portugal, Tejo River; 00566.
radioactive dating
PCB, plume, lake sediment, pollution, USA, Great Lakes, Lake Michigan, Green Bay; 11704. sedimentation rate, lake sediment, sediment water interface, storm, focusing, USA, Great Lakes, Lake Michigan; 11664.
radioactive decay
diffusion coefficient, dispersivion, effective porosity, water quality, groundwater flow, transport model, fractured till, contaminant migration, water quality, landfill, dilution, sorption, 07548.
radioactive deposition
radar data, radiation transport, rainfall, fallout, weather radar, meteorological factor, USSR, Chernobyl; Finland; 10199.
radioactive fallout
radar, empirical coefficient, scavenging coefficient, radionuclide, Finland; USSR, Chernobyl; 13659.
radioactive impurity
trajectory, turbulence, high temperature jet, wind drift, USSR, Chernobyl; 07711.
radioactive pollution
Chernobyl nuclear power plant, groundwater protection, isotopic study, radionuclide migration, 07557. nuclear lobby, marine discharge, sea radioactivity, sea to land pollution transfer, 07866.
radioactive solute
groundwater flow, solute transport, parameter estimation, automatic calibration, model calibration, maximum likelihood method, sensitivity analysis, Spain; 09870.
radioactive species
nuclear bomb test, Chernobyl accident, nitrate, sulphate, organochlorine, ice core, pollution, snow, ice, carbon dioxide, lead, methane, Antarctica; Greenland; 05525.
radioactive waste
arid zone, groundwater contamination, climate change, waste disposal, 13427. groundwater chemistry, waste disposal, chemical modelling, regional aquifer system, 11072. groundwater flow, water quality, tritium movement, hydrogeology, saturated zone, water balance, waste disposal, geohydrological study, USA, Illinois, Sheffield; 11069. infiltration, collapse cavity formation, runoff, sediment transport, erosion, surface collapse, waste disposal, landfill site, surface hydrology, USA, Illinois, Sheffield; 11092. organic contaminant, waste disposal, groundwater contamination, leachate, USA, South Carolina, Barnwell; Illinois, Sheffield; 11071. organic waste, permeability, Bandelier Tuff, waste disposal, USA, New Mexico, Los Alamos; 03991. radionuclide, groundwater contamination, waste disposal, biologically hazardous radionuclide, USA, Tennessee, Oak Ridge National Laboratory; 11070. soil moisture, runoff, snowmelt, wilting point, evapotranspiration, sensitivity testing, CREAMS, ERHYM-II, computer model, groundwater flow, model calibration, waste disposal, 11032.
radioactive waste disposal
hydrogeological study, groundwater quality, USA, California, Sonoran Region; 00599. model calibration, groundwater flow model, Switzerland, Grimsel Test Site; 09883. saturated zone, unsaturated zone, performance assessment modelling, groundwater flow model, model uncertainty, parameter estimation, USA, Nevada, Yucca Mountain; 09845.
radioactive waste repository
solute transport, fractured rock, delta-type source condition, adsorptive solute transport, flux injection, column breakthrough curve, fluid injection, 02907.
radioactive waste storage
groundwater chemistry, groundwater discharge, groundwater recharge, hydrogeology, USA, Arizona, Sonoran Region; 02972.
radioactivity
dune, barrier island, sediment transport, heavy mineral, tracer, USA, Florida, Apalachicola Bay; 09351. iodine, particulate, Chernobyl nuclear accident, radionuclide, deposition, strontium-90, caesium-137, Italy, Saluggia; 00926. nuclear power station, neptunium, plutonium, americium, Sellafield nuclear power station, radionuclide, UK, England, Cumbria; 13262. nuclear reactor, uranium mine, fallout, pollutant, radionuclide cycling, radionuclide transport, surface water quality, USA, Great Lakes, Lake Michigan; Lake Ontario; Canada, Great Lakes, Lake Ontario; 13351. radioactive aerosol, ionic intensity, electrical charge, aerosol, 03268. sea water quality, surface water quality, groundwater quality, water quality monitoring, gamma-ray spectral analysis, gamma emitter, Hong Kong; 04022. surface water quality, fission product, fallout, anthropogenic radioactivity, Canada, Ottawa River; St Lawrence River; Canada, Ottawa, Chalk River Nuclear Laboratories; USA, St Lawrence River; 08748. temporal variation, fallout, accident, strontium 90, caesium isotope, stratosphere, USSR, Chernobyl; Japan, Ibaraki, Tsukuba; 11371. volcanic activity, residence time, long range transport, continent to ocean transport, meteorological regime, transport process, trace element, mineral aerosol, sulphur, nitrogen, organic compound, pollution, 11304. water quality, monitoring, suspended load, salinity, current meter, Germany, River Ems, Gandersum; 05981.
radiocaesium
Chernobyl nuclear accident, fallout, deposition, resuspended dust, particulate matter, pollution, residence time, UK, England, Barrow-in-Furness; 00807.
radiocarbon
cation ratio dating, rock engraving, surface stability, rock varnish, case study, arid zone, Australia, Northern Territory, Henbury Meteor Craters; New South Wales; Ayers Rock; Australia, South Australia, Olary Province, Pepuarta Bluff; 01488. chronology, magnetic susceptibility, Kumaon Lake sediment, sedimentation rate, India, Kumaon Himalayas, Naini Tal District; 02631. firn, ice accumulation rate, cosmogenic carbon-14, Antarctica; 02564. forest-tundra vegetation, pollen analysis, post-glacial, vegetation history, peat profile, Canada, Yukon Territory, Ittlemit Lake; 11964. glacial stratigraphic interpretation, contamination, stump cluster, glacier advance, Laurentide ice sheet, readvance, Miami sublobe, USA, Ohio, Cincinnati, Sharonville Site; 01430. Holocene, coastal wetland, store carbon, global production, decay, 02590. lake sediment, moraine complex, timing, deglaciation, Costa Rica, Cordillera de Talamanca; 03872. method, concept, Quaternary stratigraphy, stratigraphical record, mollusc, pollen, France, Massif Central; 03845. neoglaciation, dendrochronology, Holocene, glacial chronology, Little Ice Age, USA, Alaska, Kenai Mountains; 03026. oxygen, mixing, redfield coefficient, Atlantic; 11801. pollen analysis, rainfall, summer monsoon, vegetation, seasonal climate, last full glacial, stratigraphy, Australia, South Australia, Lake Frome; 13108. sedimentation, spring deposit, travertine, playa, deflation, Australia, South Australia, Lake Torrens, Mountford Spring; 00037. stable isotope, ostracode, Holocene, palaeoclimatic evidence, sedimentation rate, core, palaeolimnology, USA, Great Lakes, Lake Michigan; 08474. tephra dated, early postglacial vegetation, temperature, Mazama tephra, Neoglacial ice advance, Late Quaternary, vegetation history, pollen zone, Canada, Alberta, Jasper National Park, Wilcox Pass; 05012. varve chronology, laminated lake sediment, annually laminated sediment, floating varve chronology, periodicity, varve thickness, Poland, Gosciaz Lake; 02671.
radiocarbon age
active fault, offshore fault, coseismic uplift, Holocene, marine terrace, tectonic uplift, terrace, marine transgression, New Zealand, North Island, Pakarae River; 13179. alluvial fill, stratigraphy, Wisconsinan(Middle), stratigraphy, palaeoenvironment, St. Charles site, USA, Iowa, Clanton Creek; 07262. coastal landform, stratigraphy, tidal shoal, tidal delta, estuarine embayment, beachridge system, lobate delta, sealevel curve, Australia, Western Australia, Peel-Harvey Estuary; 11992. colluvial sediment, debris flow, faulting event, TL dating, fault scarp derived colluvium, paleoearthquake timing, Holocene faulting, USA, Utah, Wasatch Fault Zone; 08360. computer program, automatic calibration, wiggle matching, calibration, 02593. coral reef, climatic fluctuation, Japanese research, relative sea level change, Holocene, sea level, shoreline map, Japan; 00324. deepwater chemistry, circulation change, Quaternary, deepwater, palaeoceanography, Atlantic; 02603. diagenesis, tephrochronology, paleosol, humic matter, Italy, Procida Island; 02588. digital data base, radiocarbon data base, International Radiocarbon Data Base, USA, Alaska; 10735. full glacial, Holocene, North Atlantic Drift, marine interglacial, intergiacial circulation, Windermere Interstadial, Younger Dryas, Europe, (Northwest); 09561. ground fissure, geological significance, black clay, calcrete, China, Jiangsu Province, Zhangshanzha; 05028. infiltrating water, glacial sediment, carbon dioxide retention, carbon exchange, unsaturated, Quaternary sediment, eolian sediment, USA, Illinois, Sheffield; 03849. lake deposit, Arkona low water phase, ice margin, Lake Michigan lobe, Mackinaw Interstade, transgression, intra Glenwood, low water phase, glacial lake, USA, Michigan, Riverside; Lake Michigan; 06141. landslide soil, drainage diversion, landslide, geomorphic history, pluvial Lake Parman, USA, Nevada, Summit Lake; 04919. last glaciation, Equilibrium Line Altitude, moraine limit, neoglacial cooling, Quaternary glaciation, weathered glacial deposit, potassium/argon dating, tectonically active island, mountain ice cap, New Guinea; 02633. Mazama, tephra, marker bed, Canada, British Columbia, Fraser River Delta; 10564. Milankovitch, dynamo process, climatic influence, geomagnetic influence, palaeomagentic secular variation record, secular variation, France, Haute Loire, Lac du Bouchet; 08427. piedmont lobe, deglaciation, glacial maximum, Wisconsin(Late) Glaciation, deep sea core, ice rafted detritus, Cordilleran ice sheet, Canada, British Columbia; 06118. Quaternary(Late), glacial history, vegetative history, deglaciation, Glacier Peak G, Mount St Helens Jy, ash, reforestation, moraine, USA, Montana, Glacier National Park; 00293. stable isotope chemistry, pedogenic carbonate, alluvial soil, terrace, Aridic Haplustalf, Pakistan, Punjab, Harappa; 00283. uranium series age, Walker Lake subbasin, highstand timing, Lake Lahontan, lake level change, palaeolimnology, palaeohydrology, USA, Nevada, Lahontan Basin; California, Lahontan Basin; 10779. varve chronology, annual lamination, absolute dating, late glacial, laminated sediment, atmospheric radiocarbon, Switzerland; 13079. wind blown sand transport, environmental history,

environmental dating, dunefield, sea level, carbonate content, coastal sand, South Africa, Cape Province; 10805. Younger Dryas, Holocene, jetstream, chronology, expansion, contraction, lake system, Lake Lahontan, Lake Bonneville, Lake Russell, Lake Searles, USA, Great Basin; 00304.

radiocarbon age calibration
probability value, calendar year, calibration curve, histogram, 02594.

radiocarbon age determination
climatic cooling, accelerated mass spectrometry dating, chronology, Holocene, glacier fluctuation, Canada, Ellesmere Island, Leffert Glacier; 02698.

radiocarbon chronology
lake sediment, Allerod, Younger Dryas, vegetation history, Late Weichselian, Weichselian(Late), pollen stratigraphy, palaeomagnetic secular variation, Sweden, Skane, Torreberga; 05024.

radiocarbon chronometry
radiometric dating, fossil dune soil, dune, 06073.

radiocarbon data base
International Radiocarbon Data Base, radiocarbon age, digital data base, USA, Alaska; 10735.

radiocarbon database
database, radiocarbon laboratory, keyword, Yugoslavia, Zagreb, Rudjer Boskovic Institute; 02598. progress report, data retrieval management system, international database, 02600. search and retrieve data, database, Japan; 02599.

radiocarbon date
accelerated mass spectrometry, terrestrial macrofossil, lake sediment, Swedish varve chronology, Preboreal, Bolling, atmospheric radiocarbon, last glacial, Switzerland; 02592. adiabatic lapse rate, Little Ice Age, Holocene(Late), tree limit, spruce forest, Sweden; 07268. Allerod, laminated rhythmite, deadice, Bolling interstadial, Weichselian(Late), Flandrian(Early), vegetation, pollen diagram, core, subglacial channel, Germany, Schleswig Holstein, Angeln; 08482. anthropogenic influence, pollen analysis, post glacial history, vegetation history, Bolling, Late Glacial, Germany, Bavaria, Rhon, Schwarzes Moor; Grabfeld; Germany, Bavaria, Rhon, Lange Berge; 09592. archaeologist, tree ring chronology, global multiplication factor, 04950. atmospheric circulation, circulation pattern, oxygen isotope, Holocene, land snail, snail shell, rainfall source area, Israel, Negev Desert; 13099. Breiseterdalen(Upper), evidence, Preboreal deglaciation, Rogen moraine, cirque moraine, peat development, deglaciation, Breisterdalen moraine, marginal moraine, Norway, Jotunheimen; 03882. bulk density, peat age, Canada; 10737. carbonate, lithostratigraphy, cyclical record, magnetic susceptibility, Kenya, Lake Turkana; 10523. carse clay, time altitude graph, Holocene, coastal lowland, sea level history, shoreline diagram, UK, Scotland, Beauly Firth; Conon Valley; 06178. chronology, archaeology, ice free corridor, Beringian, landbridge, USA, Alaska; 13146. comparison of method, calibration, 02597. computer procedure, archaeological application, probabilistic calibration, 02595. cummingtonite, andesitic tephra, periglacial condition, volcanic glass, tephra, tephrostratigraphy, high altitude, peat bog, axial range, New Zealand, North Island; 01444. deforestation, slope degradation, sedimentation, postglacial deposit, Quaternary fill, intramorainic depression, cirque, lithostratigraphic unit, Atlantic period, Subboreal, Poland, Tatra MountainsStarorobocianski Cirque; 11971. deglaciation, emergence curve, Cockburn moraine system, Melville Moraine, sea level change, Foxe ice dome, marine limit elevation, Canada, Northwest Territories, Melville Peninsula; 06117. denudation rate, badland, Holocene(Late), erosion, colluvium deposition, Bovu colluvium, Mphunga colluvium, paleosol, climate dependent, Swaziland, Mkhondvo Valley; 02740. equilibrium line, climatic change, Holocene(Late), glacier fluctuation, mass balance, lithostratigraphy, Norway, Jostedalsbreen, Bevringsdalen; 10817. forest fire, thermokarst lake, Holocene, talik profile, Stefan solution, thaw, ice rich soil, Canada, Yukon Territory, Mayo; 06196. glacial climate, Loch Lomond stadial, Younger Dryas, Nahanagan Stadial, geomorphological mapping, UK; Ireland; 13121. glacial readvance, Cockburn Substage, iceberg flux, ice rafted detritus, ice sheet fluctuation, Laurentide Ice Sheet, ocean ice sheet interaction, Younger Dryas, Canada, Hudson Strait; 08463. glacioisostasy, last glaciation, sea level history, piedmont lobe, deglaciation, calving phase, glacimarine sediment, Canada, Northwest Territories, Ellesmere Island; 06173. grassland, last glacial, humid montane forest, Holocene, Iron Age, pollen sequence, peatbog, Zaire, Burundi Highlands; 09573. Holocene(Late), depositional history, borehole, succession, prograding succession, barred shoreline type, sea level rise, Midley Sand, storm, sedimentation, UK, England, Kent, Dungeness; 06180. last interglacial paleosol, review, current research, TL dating, loess, China; North America; Europe, (Central); USA, Alaska; 04953. lithostratigraphy, equilibrium line altitude, Holocene, glacier variation, Little Ice Age, marginal moraine, Norway, Hardangerjokulen, Blaisen; 07304. loess reworking, fire, frost action, soil age relationship, Quaternary(Late), moraine, loess, Holocene, moraine, till, soil development rate, New Zealand, Southern Alps, Arrowsmith Range; 07324. lowland, raised bog, Neolithic, forest clearance, Bronze Age, vegetational history, pollen zone, UK, Northern Ireland, Antrim, Sluggan Bog; 13149. midden, beach ridge, washover deposit, palaeogeography, water temperature, Holocene, molluscan assemblage, climatic change, Peru; 07206. Midlandian(Late), glacial deposit, glaciation, offshore region, ice sheet reconstruction, Ireland; 11952. moraine, lichenometric date, lacustrine sediment, buried soil, weathering study, Little Ice Age, glacier fluctuation, Scandinavia; Sweden; Norway; Finland; 10774. oxygen isotope evidence, foraminifera, Quaternary(Late) sediment, borehole, palaeoenvironmental reconstruction, Holocene, last interglacial, last glacial, sea level, rocky shore environment, Hong Kong, High Island; 10752. palaeoclimatic event, water level fluctuation, sediment, lagoon, marsh, gyttjas, depositional cycle, Canada, Ontario, Kingston, Cataraqui River; 08495. palaeogeographical environment, glaciated highland, climate change, buried soil, peat, pollen, USSR, Tien Shan Highlands; 08348. permafrost aggradation, soil wedge polygon, palaeoclimatic significance, polygonal patterned ground, till, fire, thermal cracking, Canada, Quebec; 07288. petrology, dating problem, Karal rock, micromorphological analysis, calcite, cementation, Quaternary geology, India, Maharashtra; 08431. postglacial isostatic sea, Champlain Sea invasion, Illinoian-Sangamonian transition, Wisconsinan, La Perade Clay, marine episode, Cartier Sea, fauna, Canada, Quebec, St Lawrence Valley; 02659. postglacial landscape history, stratigraphic study, pollen analysis, peat bog, agricultural activity, Norway, Trondheim, Dragvoll; 02669. Quaternary, sedimentary deposit, continental shelf, accelerator radiocarbon measurement, gravity core, seismic unit, Wisconsinan interstadial, Holocene, sedimentation rate, USA, New Hampshire, Merrimack Delta; 07202. routine check, Uppsala carbon-14 laboratory, counter, Sweden, Uppsala; 04949. sea level change, raised beach, frost-riving, wash line, archaeology, emergence, raised marine feature, Canada, Foxe Basin, Melville Peninsula; 11981. sea level, Holocene, marine terrace, earthquake, postglacial, uplift rate, coseismic uplift, New Zealand, North Island, Pourerere; Aramoana; 06190. sedimentation rate, aeolian erosion, rotational landsliding, mass wasting, fluvial erosion, Holocene, geomorphological reconstruction, climatic reconstruction, Canada, Saskatchewan, Cypress Hills; Alberta, Cypress Hills; 09582. sedimentology, paleohydrology, Quaternary(Late), lake deposit, sand sea, desert dunefield, linear dune, carbonate, ponded river origin, Namibia, Namib Sand Sea; 04981. stage 3, International Collaborative Program, internal reproducibility, 04938. stratigraphy, nannofossil, foraminiferal assemblage, pelagic carbonate, stratigraphic record, benthic-planktonic age difference, ocean ventilation, oxygen isotope stratigraphy, Atlantic; 10746. stratigraphy, paleosol, Sale terrace, loess section, China, Sale Terrace Section; 02632. systematic bias, International Collaborative Study, calibration, counting system, 04940. Tapes transgression, sea level, pollen stratigraphy, palaeolake, Allerod, Younger Dryas, eustatic sea-level rise, Norway, Sunnmore; 00321. tephra unit, chronometric control, deltaic sequence, Dechambeau Ranch High Stand, Marina Low Stand, water balance model, Holocene(Late), lake fluctuation, hydrographically closed lake, palaeoclimatic reconstruction, USA, California, Mono Lake; 00303. thawing, ice wedge, deflation, tundra polygon, glaciofluvial outwash, outwash plain, permafrost environment, aeolian deflation, Canada, Quebec, Ungava Peninsula; 13185. time resolved, liquid scintillation counting, 04951. tree ring analysis, chronology, landslide activity, earthquake induced landslide, Canada, Quebec, Charlevoix, Riviere du Gouffre; 11894. Younger Dryas, Little Ice Age, deglaciation, chronology, marine sediment, proglacial lake basin, Svalbard, Spitsbergen, Linnevatnet Lake; 05009. Younger Dryas, melt water cooling, general circulation model simulation, climatic condition, water discharge, last deglaciation, USA, Gulf of Mexico; 08439.

radiocarbon date list
sea level, glacial event, Weichselian, Svalbard, Spitsbergen; 04935.

radiocarbon dated
Pliocene(Late), Quaternary, glaciation, Ross Glaciation, Porika Glaciation, uplift, erosion, interglacial shoreline, New Zealand; 02642. pollen, periglacial condition, Holocene, soil erosion, Quaternary(Late) stratigraphy, sedimentology, seismic survey, core, stratigraphy, side scan sonar, Devensian(Late), Loch Lomond Stadial, UK, Wales, Lyn Tegid; 02663. sea level, Holocene, sedimentary environment, model, relative uplift, lithology, fossil fauna, marine sequence, Greenland, West Greenland, Disko, Igpik; 05038.

radiocarbon dated core
clay mineralogy, kaolinite, smectite, delta lobe, Nile delta clay, palaeoclimate, palaeogeographic evolution, Egypt, Nile Delta; 11854. Pinus contorta woodland, Tsuga heterophylla, Tsuga mertensiana, plant migration, coastal forest, Quaternary(Late), vegetation history, pollen, plant macrofossil, USA, Alaska, Chilkat Peninsula, Lily Lake; 00302. postglacial vegetation change, tree line advance, forest tundra boundary, Holocene, vegetation change, tree line, Canada, Northwest Territories, Yellowknife; 03888.

radiocarbon dated evidence
freshwater lake, paleosol, Holocene, rainfall, desert, Algeria, Tanezrouft; 06517.

radiocarbon dated material
eolian landscape, soil formation, dune field, Quaternary(Late), sedimentary record, USA, New Mexico, Colorado Plateau, Chaco Dune Field; 02511.

radiocarbon dated organic deposit
terminal moraine, neoglacial advance, Quaternary, glaciation, Isotope Stage, penultimate glaciation, deeply weathered drift, Ecuador, Andes; Venezuela, Andes; Colombia, Andes; 02623.

radiocarbon dating
accelerator mass spectrometry, sputter source, sample changing, computer control system, carbon dioxide source, 02572. aeolian sediment, TL dating, Quaternary(Late), dune sand, coastal dune, New Zealand, North Island, Manawatu; Horowhenua; 06094. aerial photograph, tephra, levee, aggradation rate, debris accumulation rate, debris fan, slope failure, Japan, Hokkaido, Yubari area; 07184. Allerod Interstadial, postglacial, climatic change, landuse, slope failure history, palaeoenvironmental history, marine terrace, tephrochronology, pollen analysis, Japan, Hokkaido, Hidaka District; 08401. application, discussion meeting, abstract, 01416. arid environment, radiocarbon technique, chemical pretreatment, salt lake core, sediment input, playa condition, AMS dating, Australia, South Australia, Eyre Lake; 13107. background pulse spectrum, liquid scintillation counter, gas proportional counter, 02576. calcrete, cheniers, stratigraphy, Holocene, sandshell ridges, marine transgression, Argentina, Bahia Blanca Estuary; 03904. carbon isotope, geochemistry, pore water, clay soil, organic carbon, carbon cycle, glacial till, solid organic matter, dissolved organic carbon, Canada, Alberta, Western Interior Great Plains; 09900. climatic condition, snowline, pollen sequence, lake level history, ice core data, Little Ice Age, glacial history, palaeoclimate, Peru, Andes; Bolivia, Andes; 02624. debris flow, Little Ice Age, landuse change, Holocene(Late), erosion, upland erosion, climatic deterioration, human influence, solifluction, UK; 10843. design, preparation, sample, international collaborative study, 02583. detector, software, counter system, carbon-14 dating, 02582. Devensian, lateglacial, pollen stratigraphy, UK, Wales, South Wales, Glamorgan, Llanilid; 06152. elephant hunters, palaeolithic, bone tool, excavation season, Nojiri-ko Formation, Japan, Lake Nojiri, Tategahana; 02673. eolian deposit, fossil soil, cover sand, stabilization, stratigraphic research, Quaternary, Holocene,

France, Pas de Calais, Wissant; 11968. evaluation, organic fraction, paleosol, loess-paleosol sequence, pretreatment technique, China, Xian; 02589. floodplain, river channel change, chronology, stratigraphy, alluvial terrace, river terrace, Holocene chronology, UK, England, Cheshire, Dane Valley; 06179. gas chromatographic analysis, impurity, benzene purity, 02569. geological condition, ortstein, Canada, Quebec, St Lawrence River; Anticosti Island; Canada, Quebec, Gaspe Peninsula; 08615. Gif-sur-Yvette Tandetron Accelerator, isotopic fractionation, sputter ion source, 02571. glacioisostacy, ICE 3G model, Pleistocene(Late), deglaciation, sea level change, post glacial rebound, mantle viscosity, isostatic adjustment, 13076. Holocene history, El Nino, flood, sediment, Peru; 11283. Holocene, mire ecosystem, peat, post glacial period, Finland; 09590. Holocene, tufa deposit, groundwater, Czechoslovakia, Bohemia, Barrandian Region; 06164. hyperarid climate, climatic condition, Quaternary(Late), dune incursion, archaeology, chronology, palaeoenvironment, aeolian sand, Israel, Sinai; Negev; 07220. intercomparison sample, Zagreb Radiocarbon Laboratory, Rudjer Boskovic Institute, International Collaborative Study, Yugoslavia, Zagreb; 04941. interim progress report, international collaborative program, participating laboratory, sample pretreatment, 02584. international collaborative study, sample preparation, intercomparison exercise, 04937. lake sediment, Pleistocene, accelerator-mass spectrometer, chronology, organic carbon, USA, Great Basin, Bonneville Basin; Lahontan Basin; USA, Great Basin, Franklin Basin; 02317. liquid scintillation counting, intercomparison test, low carbon content, small sample, 02580. liquid scintillation spectrometry, radon elimination, benzene preparation, 02568. liquid scintillation, spectrometry, error, 02574. Little Ice Age, climate change, glacier fluctuation, moraine, lichenometry, dendrochronology, USSR, Tien Shan; 13192. Llanquihue Glaciation, glaciation, Quaternary, Cainozoic(Late), glacial record, periodic volcanism, uplift, Chile, Andes; 02639. loess, soil, thermoluminescence, Germany, Schiefergebirge, Bochum; 00308. melt water, aeolian activity, sand dune, glacial meltwater, braided stream, meandering river, pollen assemblage, Holocene, stream terrace, Quaternary(Late), palaeoecology, palaeoenvironment, alluvial valley, USA, Missouri, Mississippi River; 07263. melt water, oxygen isotope analyses, salinity reduction, deglaciation onset, North Atlantic Deep Water, Erie Interstade, ice retreat initiation, last deglaciation, Fennoscandia; 08465. microfossil analyses, tephrachronology, palaeoecology, Holocene(Late), lake sediment sequence, palaeoclimatic implication, Antarctica, South Shetland Islands, Livingston Island; 09596. molluscan assemblage, diatom assemblage, pollen assemblage, transgression, uplift, Holocene, sea level change, peat core, Japan, Choshi Peninsula, Takagami Lowland; 02684. Napo refugium, refugial hypothesis, Pleistocene(Late), temperature depression, vegetation change, pollen, phytolith, Ecuador, Amazonia; 07207. Neolithic, Bronze Age(Early), date, occupational phase, Greece, Macedonia, Mandalo; 02627. overview, interlaboratory study, 04936. overview, international radiocarbon intercomparison, Internal Consistency, External Consistency, 04943. oxygen isotope substage, marine episode, Wisconsin Glaciation, shell fragment, amino acid ratio, Canada, Hudson Bay, Nottingham Island; 07201. palaeochannel, peat age, land uplift, oxbow lake, Finland, Lapland, Pulmankijoki Valley; 08331. palaeoecology, pollen assemblage, Loch Lomond Stadial, elm decline, salt marsh, Devensian(Late), Holocene, stratigraphy, UK, England, Severnside; Vale of Gordano; 07264. particle size analysis, diatom, mineral magnetism, storm surge, tsunami, UK, England, Scilly Isles, St Agnes, Big Pool; 11683. peat, alluvial material, soil mapping, soil age, France, Haut-Rhin, Illhaeusern; 09754. pedostratigraphy, lithostratigraphy, Weichselian moraine, Warthe stage moraine, morphostratigraphy, landform evolution, Pleistocene, pollen analysis, stone counting, Germany, Schlesweg-Holstein, Schwansen; 13144. piston core, microfossil, freshwater lake, Weichselian times, sea level, timing, postglacial marine invasion, Indonesia, Halmahera, Kau Bay; 02682. pleniglacial environment, Holocene, palaeoenvironment, paleosol, palaeohydrology, tephrochronology, geochemistry, France, Massif Central, Limagne Rift Valley, Artiere Basin; 10785. pollen analysis, depositional process, post depositional process, rock shelter, Pleistocene(Late), palaeoenvironment, Italy, Venetio Region; 06163. pollen analysis, peat, mire, historical study, paleoecological study, Holocene peat, raised bog, Netherlands, Noord Brabant, Zundert Province; 08478. proxy record, climate, blanket mire, Dark Age, climatic deterioration, peat humification, UK; 10781. quality assurance, 02585. quality control, quality assurance, 04947. Quantulus, underground counting laboratory, background source, Arizona Radiocarbon Laboratory, 02586. remote computer control, Packard Instrument Tri-Carb 460C LSC, inexpensive upgrade, liquid scintillation equipment, 02578. reproducibility, Museo de la Plata, radiocarbon laboratory, Argentina, La Plata; 04942. rock varnish, palaeoclimatic implication, Tioga glaciation, Middle Creek glaciation, Younger Dryas, accelerator mass spectrometry, Pleistocene(Late), lake shoreline, glacial chronology, USA, Basin and Range Province; 00305. sample preparation, organic material, carbon-14 preparation, 02570. sea level, Quaternary(Late), Anadara bearing deposit, Rangitoto lava, fault movement, Anadara trapezia, New Zealand, Hauraki Gulf, Rangitoto Island; 06189. sediment, secular change, sea level history, palaeoclimate, fluctuation, global climatic change, USSR, Caspian Sea; 04982. soil microorganism, paleosol, Kenya, Mount Kenya; 00451. statistical, quality control graph, 04948. subsiding, delta margin, Holocene deltaic facies, saline ground water, subsidence, tilting, Egypt, Nile Delta; 01392. successional reconstruction, Holocene(Late), sea level fluctuation, diatom analysis, Japan, Sendai Bay, Matsushima Bay; 05036. terrace, aggradational deposit, vertical offset rate, scarp height, uplift rate, faulting, dated, Ohakean terrace, offset, Wellington Fault, New Zealand, Woodville, Ballantrae Research Station; 03721. thermal exchange, deep ocean current, ice sheet, Antarctica, Antarctic Peninsula; 00348. TL date, last interglacial glacial, sediment, climatic optimum, Illinoian deposit, Sangamonian deposit, Becquets Interstade, Trois-Rivieres Stade, Canada, Quebec, St Lawrence Valley; 06137. Vistulian, Holocene, litho-chronostratigraphy, profile, glacial deposit, chronostratigraphy, raised marine terrace, proglacial river, Svalbard, Spitsbergen, Horbyedalen; 02690.

radiocarbon dating laboratory
liquid scintillation, carbon-14, quality assurance protocol, 04945.

radiocarbon dating problem
acetylene, counting gas, lithium, contamination, International Collaborative Study, 04944.

radiocarbon difference
mixed layer reservoir age, Younger Dryas, upwelling, carbon cycling, ocean circulation, Holocene ocean circulation, ocean, atmosphere, Canada, British Columbia; Pacific, (North); 03868.

radiocarbon distribution
glacial ocean, benthic foraminifera, concordant age, deep water age, radiocarbon inventory, mixing rate, North Atlantic Deep Water, 08433.

radiocarbon evidence
foraminifera, Weichselian(Middle), sediment accumulation rate, Weichselian(Late), stratigraphy, amino acid, Barents Sea; 09569.

radiocarbon inventory
mixing rate, North Atlantic Deep Water, radiocarbon distribution, glacial ocean, benthic foraminifera, concordant age, deep water age, 08433.

radiocarbon laboratory
keyword, radiocarbon database, database, Yugoslavia, Zagreb, Rudjer Boskovic Institute; 02598. radiocarbon dating, reproducibility, Museo de la Plata, Argentina, La Plata; 04942.

radiocarbon measurement
Holocene, environmental change, pollen analysis, swamp deposit, lake deposit, sinkhole, Lake Otjikoto, Namibia, Windhoek; 10761. optimisation, liquid scintillation counting condition, vial, detector shield, low-activity radiocarbon, 02579. random error, Debrecen radiocarbon laboratory, methane filled counter system, gas contamination, Hungary, Debrecen; 04939. sample age, Quaternary, archaeological sample, carbon-14 radioactivity, Czechoslovakia; 13080.

radiocarbon record
volcanic event, sedimentation rate, carbonate profile, Ionian Sea; 05849.

radiocarbon technique
chemical pretreatment, salt lake core, sediment input, playa condition, AMS dating, radiocarbon dating, arid environment, Australia, South Australia, Eyre Lake; 13107.

radiocarbon time scale
calibration curve, dendrochronological study, Lake Pickering, UK, England, North Yorkshire, Star Carr; 08429.

radiocarbon time series
carbon cycle, cosmic ray, periodicity, tree ring data, Ionian Sea, Gulf of Taranto; 03693.

radiocarbon tracer technique
tracer, measurement method, hydroxyl radical measurement, 08827.

radiochemical data
impure carbonate, lacustrine environment, evaporite sediment, theoretical study, U series isochron, total sample dissolution, dating method, 09553.

radiodensitometrical study
tree ring, dendroclimatology, maximum density, temperature reconstruction, map, summer temperature, Western European summer temperature(1750-1975), Western North American summer temperature(1600-1982), USA; Europe; 11291.

radioiodine
radionuclide, resuspension, aerosol, particle size, isotope, iodine, nuclear facility, 13730.

radioisotope
core, sampling technique, heavy metal, Baltic Sea; 13001. nodule core, manganese, palaeomagnetic technique, iron manganese nodule, 05865. radiological protection, spatial data processing, 01150. scavenging, sediment water interface, settling particle, continental shelf, Pacific, Okinawa Trough; East China Sea; 09369. sedimentation rate, isotope, caesium, lead, fjord, USA, Alaska, Smeaton Bay; Boca de Quadra; 06977. sedimentation, silt, clay, flocculation, settling velocity, tracer sediment, 11649.

radioisotope data
tritium, lake surface, water balance, lake inflow, evaporation, USSR, Sarykamysh Lake; 07459.

radioisotope peak
nuclear test, Coulter Counter, ion chromatograph, atomic absorption spectrophotometer, aerosol, electrolytic conductivity, snow sample, acid concentration, ice cap sample, volcanic eruption, oxygen isotope ratio, 10139.

radiolaria
Nigrini zonal scale, core sediment, cooling, Quaternary stratigraphy, Indian Ocean; 10749.

radiolarian
calcium carbonate, organic carbon, foraminifera, factor analysis, continental margin, Arabian Sea; 03666. iron, manganese, concretion, Indian Ocean, Central Trough; 10578. Permian, Triassic, imbrication, gravity slide, greywacke, turbidite, New Zealand, Wellington Peninsula; 01300. pollen record, core, oxygen isotope stratigraphy, Late Glacial, Holocene, global cooling, Pleistocene(Late), Holocene, Okhotsk Sea; 10750. rhodochrosite, manganese, carbonate, Jurassic, shale, Japan; 09319. sedimentation rate, nodule, erosion, deep sea sediment, manganese, abyssal depth, Indian Ocean, Central Indian Basin; 07027. surface water productivity, upwelling, bottom water environment, coarse grain size distribution, benthic foraminifer, Ocean Drilling Program Holes, foraminiferal assemblage, Pacific; Peru; 00273.

radiological assessment code
iodine-129, nuclear fuel, reprocessing plant, Germany, Karlsruhe; 11370.

radiological contamination
drinking water, morainic soil, peat soil, strontium-90, caesium-137, nuclear fallout, groundwater contamination, surface water contamination, surface geology, Denmark; Greenland; Faroe Islands; 04023. surface water quality, groundwater quality, strontium-90, cesium-137, soil characteristic, Denmark; Faeroes; 06371.

radiological protection
spatial data processing, radioisotope, 01150.

radiolysis

diameter measurement analyser, aerosol charger, size distribution measurement, ultrafine aerosol, 12574.
radiometeor measurement
tidal motion, amplitide modulation, phase modulation, thermosphere dynamics, USSR, Kazan; 08945.
radiometer
Doppler radar, riming, precipitation, remote sensing, water vapour, microwave, 04311. dual frequency radar measurement, retrieval, precipitation profile, airborne radar, radar, 12324. marine stratocumulus, cloud optical depth, rain drop raduis, measurement inconsistency, remotely sensed measurement, stratocumulus property, 12326. measurement error, radiation, double domed radiometer, radiation balance, 09972. microwave radiometer, storm, rain, melting phase, ice sphere, albedo, extinction coefficient, microwave radiative transfer, radar, 04219. optical thickness, sky irradiance, 04597. polar cloud, satellite observation, cloud cover, Arctic; 03112. radiative transfer calculation, coastal water, airborne lidar, lidar measurement, 09264. reflectanc factor, soybean, field radiometry, phytomass, Brazil, Paraiba; 06867. satellite cloud observation, cloud particle, ice crystal, stratopspheric ozone, wave length scattering, cirrus, 04206. sea surface temperature, AVHRR, sensor induced correlation, 02250. site variability, SPOT calibration, ground reflectance measurement, 10246. solar radiation, aerosol, turbidity, 03021. solar reflective range, narrow band radiometer, 11425. sounder observation, cloud top pressure, emissivity, radiative transfer, convection, cloud characteristics, Brazil, Amazon; 07872. surface backscattering, bidirectional reflectance, desert, alkali soil, 05716. transmission property, savanna, tree, ground radiometer, Africa, (West); 13933.
radiometer channel
surface wind speed, sensor, special sensor microwave, imager observation, North Sea; 13573.
radiometer measurement
Earth radiation budget, longwave flux, shortwave flux, inversion, Nimbus-7, 13486. lidar measurement, coastal water, airborne lidar, Adriatic Sea; 09265.
radiometers
dual channel retrieval technique, water vapour band, anvil temperature, anvil emissivity, cloud temperature, remote sounding, tropical cloud temperature, cirrus cloud temperature, optical depth, 09970.
radiometric
measurement, airborne sensor, aircraft, soil moisture depth, Italy; 02194.
radiometric age
uranium/thorium method, iceberg melting, salinity, oxygen isotope stage 5, stable oxygen isotope stratigraphy, Atlantic, Fram Strait; 02606.
radiometric analysis
calibration experiment, Varan-S data, SAR, Italy, Oltrepo Pavese; 11423.
radiometric calibration
geometric correction, push broom scanner, CCD detector, Netherlands; 10247.
radiometric comparison
spectral greenness, Thematic Mapper, SPOT, digital elevation data, 10248.
radiometric consideration
image inversion, digital photogrammetry, analytical photogrammetry, image coordinate, Gauss Markov evaluation, 12603.
radiometric data
HRV data, grassland discrimination, grassland quality, biomass, France, Lorraine; 09249.
radiometric dating
alluvial fill, alluviation, valley glaciation, overgrazing, stratigraphic unit, terrace, Quaternary(Late), fluvial sedimentation, Greece, Epirus, Voidomatis Basin; 07215. fossil dune soil, dune, radiocarbon chronometry, 06073. Grande Pile, pollen record, last interglacial glacial cycle, sedimentation rate, Austria, Alps, Eastern Alps; 06089. Pleistocene(Middle), transgressive complex, soil chronosequence, Latina Complex, intercalated volcanite, Complesso dei Tufi Inferiori, isotopic stage 15, Minturno Complex, isotopic stage 5, stratigraphic hiatus, Italy, Agro Pontino; 08498. Quaternary(Late), palaeotemperature record, speleothem, stalagmite, climatic change, ESR analysis, Australia, Tasmania, Florentine Valley; 02677. raised beach deposit, last glaciation, late glacial, Neoglacial, Quaternary glaciation, Quaternary(Late), glacier fluctuation, sea level control, tectonics, equilibrium line altitude, tidewater glacier, Southern Ocean; Antarctica, Antarctic Peninsula; 02654. rapid vertical accumulation, reef island, Darwin, coral atoll, geomorphology, volcanic basement, reef growth, subsidence rate, sea level change, Indian Ocean, Cocos Islands; Keeling Islands; 02681. slip rate, strain accumulation cycle, offset, Holocene, stream channel, San Jacinto fault zone, fault, USA, California, San Bernardino Valley; 11879. sub aqueous precipitate, cave, tilting, faulting, geothermal gradient, boxwork, seasonal solutional enlargement, aquifer, Quaternary, tectonic activity, regional aquifer flow, USA, South Dakota, Wind Cave; 10722. TL dating, feldspar, quartz, absolute age, thermoluminescence dating, Chelford Interstadial, UK, England, Cheshire, Chelford; 11967.
radiometric determination
pigment, seston, shelf sea, 04645.
radiometric distortion
image calibration, range interpolation, antenna pattern, AgriSAR, 10245.
radiometric imaging
tropospheric temperature, precipitation, oxygen resonance, temperature sounding, cloud, water vapor, surface emissivity, 04210.
radiometric measurement
algorithm, vapour profile retrieval, water vapour profile, clear atmosphere, cloudy atmosphere, 12323. Thematic Mapper, irrigated crop, crop, France, Tarn; Morocco, Gharb Plain; 11564. water vapor profile, cloudy atmosphere, 05373.
radiometric method
radon, hazard mapping, methodological experiment, environmental problem, 12311. sand, heavy mineral, radionuclide, Netherlands, Texel; 07123.
radiometric observation
gravity wave, water vapour, geopotential height, thickness, wind shear, geopotential field, USA, Colorado, Denver; 03015.
radiometric sensitivity
AVHRR, precision, calibration, 03278.
radiometric study
clear air attenuation, water vapour, radiosonde, microwave, India, Calcutta; 04205.
radiometric surface temperature
soil moisture availability, vegetation cover, agricultural field, normalized difference vegetation index, 05742.
radiometric temperature
skin temperature, regional flux, surface flux, bulk similarity approach, boundary layer, 13552. vegetative surface, infrared radiance, radiance model, 09244.
radiometry
ice, snow, microwave, Antarctica; 04650. SAR image, image processing, image rectification, 09118. thermography, infrared, 11563. vegetation index, wheat, agronomic variable, Brazil, Assis; 02241.
radionculide
lysimetric water, uranium-238, radon-226, lead-210, polonium-210, thorium-232, 00429.
radionuclide
acid irrigation, liming, forest soil, Chernobyl nuclear accident, caesium-137, caesium-134, Germany, Bavaria, Hoglwald; 09683. advection, deposition pattern, transport, reactor, nuclear power station, Scandinavia; USSR, Chernobyl; 11308. air snow fractionation, beryllium-7, lead-210, snow, ice sheet, Denmark; Greenland; 11324. americium, organic matter, plutonium, UK, England, Cumbria; 09702. Chernobyl nuclear accident, heavy metals, bioturbation, sedimentation rate, Germany, Elbe Estuary; 04788. contaminant, caesium, sedimentation rate, anthropogenic product, settling rate, USSR, Lake Baikal; 10527. cosmogenic radionuclide, atmospheric circulation, 12527. deposition, strontium-90, caesium-137, radioactivity, iodine, particulate, Chernobyl nuclear accident, Italy, Saluggia; 00926. groundwater contamination, waste disposal, biologically hazardous radionuclide, radioactive waste, USA, Tennessee, Oak Ridge National Laboratory; 11070. lake sediment, sheep faeces, enrichment factor, seawater, actinide dose, air-sea exchange, UK; 00925. marine environment, scenario, impact assessment, dispersion model, caesium-137, nuclear weapon testing site, Pacific, French Polynesia; 11316. ooze, isotope, sedimentation, bottom sediment, 01357. organic matter, marine particle, particulate matter, 08309. oxygen isotope, glacier, snowpit, glaciochemical survey, ice core investigation, major anions, major cations, total acidity, Greenland; 01748. plant uptake, grassland management, UK, England, Cumbria; 01596. precipitation chemistry, chloride, evapotranspiration, regional evapotranspiration, geochemical model, Israel, Jordan River; 04029. radioactive fallout, radar, empirical coefficient, scavenging coefficient, Finland; USSR, Chernobyl; 13659. radioactivity, nuclear power station, neptunium, plutonium, americium, Sellafield nuclear power station, UK, England, Cumbria; 13262. radiometric method, sand, heavy mineral, Netherlands, Texel; 07123. resuspension, aerosol, particle size, isotope, iodine, nuclear facility, radioiodine, 13730. scavenging, bioturbation, plutonium, pathway, Baltic Sea; 12912. sediment, stratification, Chernobyl disaster, lake water quality, caesium transport, UK, England, Cumbria, Esthwaite Water; Windermere; 13343. speciation, bioavailability, sequential extraction, trace element, 03687. trace metal, uranium-238, thorium-232, USSR, Soviet Central Asia; 10952. trace, cycling, geochronometer, sedimentation, lead-210, lake sediment, USA, Massachusetts, Bickford Reservoir; 01206. tracer, actinium-227, pore water, bioturbation, Pacific, (Northwest), Izu-Ogasawara Trench; 05867. tracer, harbour, caesium, mixing rate, sedimentation rate, China, Fujian Province, Meizhou Bay; 01265. transport, air quality, global pollution, sulphur, carbon, nitrogen, ozone, aerosol, warming, trace gas, climate change, acid rain, 11298. wind stress, Bora wind, Scirocco wind, Adriatic Sea, Gulf of Trieste; 02034.
radionuclide cycling
radionuclide transport, surface water quality, radioactivity, nuclear reactor, uranium mine, fallout, pollutant, USA, Great Lakes, Lake Michigan; Lake Ontario; Canada, Great Lakes, Lake Ontario; 13351.
radionuclide dating
eutrophication, sediment accretion, pigment stratigraphy, lake, Netherlands, Lake Vechten; 01208.
radionuclide migration
nuclear waste disposal, fracture flow, boundary fitted finite difference method, groundwater flow, 12251. particle transport, solution transport, contaminant transport, groundwater quality, adsorption desorption, unsaturated zone, 07565. radioactive pollution, Chernobyl nuclear power plant, groundwater protection, isotopic study, 07557.
radionuclide mobility
sampling technique, dissolution precipitation process, environmental fate, water table contamination, nuclear waste disposal, groundwater monitoring, 05235.
radionuclide movement
unsaturated zone, Chernobyl nuclear power plant, migration component, diffusion model, groundwater contamination, 07556.
radionuclide transport
surface water quality, radioactivity, nuclear reactor, uranium mine, fallout, pollutant, radionuclide cycling, USA, Great Lakes, Lake Michigan; Lake Ontario; Canada, Great Lakes, Lake Ontario; 13351.
radiosonde
balloon sounding, observation, storm, pressure, temperature, humidity, wind, electric field, 01803. boundary layer wind profile, boundary layer, sodar, surface roughness, shear stress, France, Landes Forest; 04250. Bowen ratio, humidity, potential temperature, temperature profile, humidity profile, unstable boundary layer, USA, Kansas; 05397. forecasting, polar stratospheric cloud, temperature, Arctic; 00672. geopotential, temperature, satellite thermal sounding, 03016. microwave, radiometric study, clear air attenuation, water vapour, India, Calcutta; 04205. radiative cooling, lake water, coastal upwelling, thermal infrared, Sweden; 00957. rocketsonde, SBUV, SAGE II, ozone gra-

dient, satellite, ozone comparision, pressure, temperature, 12545. satellite imagery, blackbody temperature, radiative transfer, dry band, 01813. sea surface temperature, tropospheric temperature, El Nino, 04263. surface roughness, surface flux, Monin-Obukhov layer, temperature, humidity, complex hilly grassland, potential temperature, specific humidity, wind profile, USA, Kansas; 01846.

radiosonde data
atmospheric correction, thermal data, satellite data, 05586. forecast, trial field, interpolation statistics, data assimilation procedure, observed residual, Canada; 10083. mixing height, trajectory model, boundary layer model, pollutant transport, Saudi Arabia; 08959. saturated equivalent potential temperature, absolute angular momentum, equivalent potential temperature, slantwise convective instability, cyclone, precipitation band, 01909. wave cloud, cloud band, lee wave, Australia, Macquarie Island; 07782.

radiosonde measurement
temperature, humidity, satellite sounding, numerical weather prediction, 00768.

radiosonde observation
large amplitude gravity wave, gravity wave, stratosphere, wave property, 11255. monsoon, spectra, maximum entropy method, time scale, intraseasonal zonal wind, zonal wind fluctuation, India; 12402. zonal wind, meridional wind, gwostrophic balance, global forecast, error correlation, isobaric wind, geopotential, 12477.

radiosonde profile
trajectory, wind station, complex terrain, Switzerland, Swiss Midland Plateau; 13556.

radiosonde station
temperature change, land temperature, ocean temperature, satellite measurement, 07646.

radiotracer
microorganism, xenon, pore water, 01310. organism, thorium scavenging, adsorption rate constant, desorption rate constant, trace metal, 07084. phosphorous release, physical adsorption, chemical adsorption, surface water chemistry, uptake length, 07509.

radish plant
biological indicator, pollution, 03265.

radium
calcium carbonate, aragonite, travertine, spring, Quaternary, USA, Wyoming, Mammoth Hot Springs; 03558. radon, gamma radiation, indoor pollution, USA, (Northwest); 00838. surface water quality, coastal water quality, spring, submarine spring, groundwater discharge, USA, Florida, Suwannee River; Gulf of Mexico; 04079. uranium, radon, indoor pollution, USA, California; 00839.

radium isotope
bottom sediment, calcium, benthic fish, fish, USA, Washington, Puget Sound; 09378.

radon
barometric pressure, soil, indoor pollution, 00837. boundary layer, urban atmosphere, stabilty, 02003. detector, soil radon, 01578. gamma radiation, indoor pollution, radium, USA, (Northwest); 00838. groundwater quality, fractured rock, crack width, emission efficiency, fracture spacing, specific fracture, surface area, radon-222 concentration, uranium, USA, Connecticut; 01727. hazard mapping, methodological experiment, environmental problem, radiometric method, 12311. indoor pollution, alpha-scintillometer, sampling, soil gas, USA, Maryland, Prince Georges County; 00840. indoor pollution, radium, uranium, USA, California; 00839. lead-210, emission, soil, USA; 00835. radon daughter, diurnal variation, eddy diffusivity, meteorological parameter, 13723. radon daughter, maritime air, particle, 03241. scintillation method, orthoxylene, groundwater chemistry, Canada, Quebec; 07546. soil gas, soil temperature, emission, soil moisture, USA, Pennsylvania; 00836. soil, diffusion, moisture content, 07361. tracer transport, thoron B, boundary layer, diffusion, lower atmosphere, Spain, Malaga; 06534. trajectory, wind rose, tropospheric transport, particle concentration, Australia, Macquarie Island; Southern Ocean; Australia, Cape Grim; 03239. uraniferous fluorite vein, house, seasonal variation, Thailand; 12528.

radon 222
rain forest, clay soil, sand, soil, soil exchange rate, canopy exchange rate, exchange rate, Brazil, Amazon; 07859.

radon concentration
groundwater contamination, statistical analysis, lognormal distribution, 07571.

radon daughter
cold climate, seasonal variation, Canada, Montreal; 05493. diurnal variation, eddy diffusivity, meteorological parameter, radon, 13723. maritime air, particle, radon, 03241.

radon deficit technique
global oceanic sink, air sea gas exchange, stormy sea, tracer technique, carbon dioxide, sea surface, gas exchange, 09078.

radon elimination
benzene preparation, radiocarbon dating, liquid scintillation spectrometry, 02568.

radon gas
rock fracture, aquifer fracture, crystalline basement, soil radon analysis, groundwater exploration, Burkina Faso, Sanon; Katchari; Burkina Faso, Barogo; 06409.

radon measurement
permafrost distribution, discontinuous permafrost, USA, Alaska; 07286.

radon potential
GIS, Palaeozoic, metamorphic rock, USA, Virginia, Fairfax County; 10392.

radon tracing
groundwater exploitation, groundwater resource, groundwater prospecting, irrigation development, potable water, Burkina Faso; 02977.

radon-222
groundwater, soil, in situ determination, 04002. sulphur dioxide, subgrid scale vertical tracer transport, troposphere, convective cloud, frontal zone, carbon monoxide, krypton-85, 05533.

radon-222 concentration
uranium, radon, groundwater quality, fractured rock, crack width, emission efficiency, fracture spacing, specific fracture, surface area, USA, Connecticut; 01727.

radon-226
lead-210, polonium-210, thorium-232, radionculide, lysimetric water, uranium-238, 00429.

RAF Fighter Command
air attack, war, Battle of Britain, meteorological service, 09957.

rafted sediment
iceberg, passive loading, rafting, glacimarine environment, 04990.

rafting
glacimarine environment, rafted sediment, iceberg, passive loading, 04990. iceberg, diatom, glacial marine sediment, glaciation, ooze, Atlantic, Meteor Rise; 12884. potential sediment input, sea ice characteristic, sediment inclusion, deep sea deposition, Arctic Ocean; Antarctica; 02699.

rail service punctuality
weather sensitivity, rail transport, winter weather, UK, Scotland; 08819.

rail transport
winter weather, rail service punctuality, weather sensitivity, UK, Scotland; 08819.

railway
building databank, GIS, mensuration, Switzerland; 04686. fixed plant, GIS, Switzerland; 10470.

railway information
graphical information, Switzerland; 10471.

railway survey
construction, 10282.

railway surveying
underground railway, Switzerland; 12619.

railway surveyor
engineering drawing, track equipment siting, 10281.

rain
cloud, scaling iteration, cascade model, 07774. fog, isotopic analysis, USA, California, Point Reyes Peninsula; 07826. fog, sequential rainfall detector, acid rain, France, Vosges Region; 06613. forecasting, flooding, hydrometeorology, nowcasting, thunderstorm, UK; 01942. hail, precipitation, radar, reflectivity factor, horizontal polarisation, differential reflectivity, differential propagation constant, 01930. ice, snow, graupel, hail, mie property, microwave radiative model, radiative transfer, cloud water, 05370. lightning, thunderstorm, wind shear, 00685. low level jet, Bise, regional wind, mistral, cold air advection, Europe, Alps; 04226. melting phase, ice sphere, albedo, extinction coefficient, microwave radiative transfer, radar, radiometer, microwave radiometer, storm, 04219. melting, refreezing, terminal velocity, storm, air-sea interaction, precipitation, snow, Canada, Nova Scotia; 01927. palaeotemperature record, perch, Nile perch, Predynastic archaeological assemblage, land cultivation, temperature, flood, Egypt, Nile River; 09571. precipitation assessment, effective precipitation, oblique rain, inclined surface, nomograph, rain gauge correction factor, 02834. raincloud, climate, general circulation model, 13477. sea salt aerosol, salt, marine aerosol, aerosol, vertical profile, 09024. snow fall, radar, snow gauge, 04203. snow, hail, radar, radar satellite, weather radar networking, real time measurement, precipitation, Europe; 05365. visibility, weather radar data, road weather service, snow, ice, fog, 05323. weather radar network, rain gauge, rawindonde, synoptic map, meso beta scale complex cell, rainband, meso alpha scale cyclone, mesoscale, China, Beijing; 05324. wet deposition, scavenging, microphysics, transport, trace metal, precipitation cloud, aerosol, particle, lead concentration, 13705.

rain area
rain rate, marine wind, wind speed, October 1987 storm, great storm, storm, microwave evaluation, UK; 07642.

rain bearing wind
lichen, weathering, pit formation, pitting rate, microorganism, wall deterioration, limestone wall, marble monument, cyanobacteria, cyanophilous lichen, biodeterioration process, Israel, Jerusalem; Italy, Rome; 08530.

rain cell
cloud cluster, precipitation, rainfall, 03111.

rain chemistry
nitrate, ammonium nitrate, acid deposition, nitrogen, major ion, conifer forest, aerosol, nitric acid vapour, dry deposition, coarse particle, USA; Germany; 05510.

rain cloud
ground clutter reduction, rain measurement, radar, weather radar, 05336.

rain collection
rain scavenging, tephra aerosol, aerosol, long range transport, particulate, USA, Mount St. Helens; 05472.

rain composition
convective shower, frontal precipitation, aerosol particle, in cloud, below cloud, absorption, nucleation, scavenging, pollutant, 06554.

rain concentration index
mountain basin, rain runoff model, spatial variability, flood prediction, rainfall intensity, effective rain, 12171.

rain day
event recurrence, rainfall total, 06431. quasi biennial oscillation, rain day decline, Nigeria; 06451.

rain day decline
rain day, quasi biennial oscillation, Nigeria; 06451.

rain depth
acid rain, chemistry, precipitation, enrichment factor, ionic equivalent ratio, Saudi Arabia, Gulf Coast; 11381.

rain drop
contact nucleation, graupel, temperature change, cloud seeding, cloud microphysics, deposition nucleation, Brownian coagulation, 05428.

rain drop impact
infiltration capacity, sandy soil, weeding, rainfall intensity, storm duration, total rainfall, runoff rate, rainfall intensity threshold, soil surface, water storage capacity, Africa, Sahel, Yatenga Region; 12227. multifractal analysis technique, rain field, cloud field, 07631.

rain drop raduis

measurement inconsistency, remotely sensed measurement, stratocumulus property, radiometer, marine stratocumulus, cloud optical depth, 12326.
rain estimation
satellite data, radiation flux, infrared, 04208.
rain estimation technique
rainfall gauge, rainfall variation, geostationary satellite, Brazil, Amazon Basin; 06450.
rain event
collector deviation, wet only collector, wet deposition, bulk ion, trace metal, precipitation sensor, 06641.
rain fall
drought, El Nino/Southern Oscillation, rainfall distribution, precipitation regime, Peru; 04348. precipitation, rain rate distribution, threshold method, 04201. radar reflectivity, microwave radiometer, Nimbus 7 SMMR, 04209. raingauge, deterministic chaos, storm, USA, Massachusetts, Cambridge; 04319. regionalisation, principal component analysis, common factor analysis, mean annual rain fall, precipitation, Ethiopia; 04236. surface energy balance, evapoclimatonomy, water balance, evapotranspiration, runoff, soil moisture, precipitation, Africa, Sahel; Niger, Niamey; 04249.
rain fall distribution
orography, Israel, Galilee; 04224.
rain field
cloud field, rain drop impact, multifractal analysis technique, 07631.
rain flushing
spatial variation, hydrologic regime, coastal lagoon, salinity, temperature distribution, Mexico, Cancun, Nichupte Lagoon System; 01626.
rain forest
carbon dioxide, heat flux, forest canopy, radiative cooling, Richardson number, nocturnal exchange, Brazil, Amazon; 07842. clay soil, sand, soil, soil exchange rate, canopy exchange rate, exchange rate, radon 222, Brazil, Amazon; 07859. clay, dry season, wet season, nitric oxide, tropical forest soil, canopy, boundary layer, Brazil, Amazon; 07849. forest regression, tropical region, core, swamp, pollen analysis, Brazil, Amazon Basin, Serra dos Carajas; 10756. forest, ash fall, precipitation chemistry, nutrient flux, precipitation, throughfall, Montane rain forest, tropical rain forest, Colombia; 11299. humid tropics, Gash model, Mulder model, throughfall, interception, forest hydrology, Ivory Coast, Tai Forest; 01631. nitrogen oxide, tropical forest, forest canopy, wet season, Brazil, Amazon; 07848. ozone measurement, dry season, wet season, Brazil, Amazon; 07855. palaeokarst, limestone, isotope; carbonate, groundwater, bauxite, speleothem, Italy, Palermo, Monte Gallo; 03662. respiration, ecosystem, solar flux, deposition velocity, biosphere exchange, carbon dioxide, ozone, Brazil, Amazon; 07841. wet season, photochemical model, planetary boundary layer, soil, canopy, PAN, nitrogen, hydrocarbon, ozone, Brazil, Amazon; 07850.
rain gauge
flood forecasting, real time forecasting, rainfall runoff model, radar, rainfall, UK; 05448. forecast, radar, areal rainfall, drainage basin, Switzerland; 05349. ground truth rainfall, rainfall, radar, cokriging, 00660. hydrometeorological radar data, data display, data analysis, Meteorological and Hydrological Radar Network, weather radar, precipitation, 05338. lightning flash, thunderstorm, Doppler radar, lighning detection, electric field mill, USA, Florida, Kennedy Space Center; 00684. network configuration, gauge network, areal rainfall, radar data, sampling error, 05114. precipitation, weather classification scheme, Markov model, Pacific, (Northwest); 07665. radar networking, rainfall, data analysis, radar precipitation measurement, UK; 05347. rawindonde, synoptic map, meso beta scale complex cell, rainband, meso alpha scale cyclone, mesoscale, rain, weather radar network, China, Beijing; 05324. solar cycle, tidal forcing, drought, deterministic signal, precipitation, USA, Wyoming; Montana; USA, Idaho; 05392. topography, atmospheric circulation, station height, spatial distribution, rainfall, Greece, Athens; 13497. tracking procedure, radar, storm tracking method, rainstorm, 08835.
rain gauge correction factor
rain, precipitation assessment, effective precipitation, oblique rain, inclined surface, nomograph, 02834.
rain gauge data
meteorological data, hydrological forecasting, reservoir operation, flood forecasting, stream flow forecasting, telemetry, water resource forecasting, drought management, weather radar, UK, England, London; 06273. river level, flow hydrograph, computer controlled system, automated data retrieval, flood warning system, real time data retrieval, flood forecasting, conceptual model, rainfall runoff model, telemetry, hydrometric network, flow routing routine, rainfall radar image, UK, England, Severn-Trent region; 05259.
rain gauge hailpad network
dual polarization radar, rainfall rate, radar measurement, hailfall parameter, urban hydrology, hail detection, 05348.
rain gauge location
UK Meterological Office rain gauge, correction equation, rainfall catch, 12147.
rain gauge measurement
precipitation monitoring, spatial resolution, Meteosat, 12686.
rain gauge network
rainfall, intense point rainfall, storm, UK, England, Thames Valley; 08848.
rain gauge site
rainfall duration, extreme precipitation event, rainfall intensity, hyetograph, stochastic model, convective precipitation, Spain, Valencia, Alicante; 05113.
rain impacted flow
degraded woodland, hazard, fire effect, soil, semi arid woodland, erosion susceptibility, Australia, New South Wales, Coolabah; 07329. flow depth, suspended load, entrainment, erosion modelling, 10828. flow roughness, transport inception, sediment transport, overland flow, Shields criterion, overland flow, 10831.
rain intensity
electric potential gradient, condensation nuclei, microphysical observation, electrical observation, dynamical observation, monsoon, cloud, India; 13610.
rain measurement
blotting paper, radar measurement, fractal, raindrop, resolution dependence, 13603. radar, weather radar, rain cloud, ground clutter reduction, 05336.
rain on snow event
lake outburst, impoundment failure, avalanche, channel system, flood, peak flow, snowmelt, USA, California, Sierra Nevada; 08691.
rain onset
millet, soil water, cowpea, rainy season, Niger, Niamey; Africa, Sahel; 00713.
rain rate
airborne weather radar, Hitschfeld Bordan solution, attenuation correction, radar, hydrometeor, 05320. area - time integral, probability matching method, radar, reflectivity, 13522. marine wind, wind speed, October 1987 storm, great storm, storm, microwave evaluation, rain area, UK; 07642. stratiform situation, convective situation, scavenging mechanism, scavenging ratio, air mass, trajectory, rain volume, 12507.
rain rate distribution
threshold method, rain fall, precipitation, 04201.
rain rate measurement
circular polarisation diversity, radar, canting angle, raindrop, backscatter measurement, 05327.
rain recorder
data collection, hydrological data, gauging station, hydrological network, developing country, South Africa, Transkei; 10966.
rain runoff model
spatial variability, flood prediction, rainfall intensity, effective rain, rain concentration index, mountain basin, 12171.
rain sample
amine nitrogen, aerosol, terrestrial material, oceanic input, ammonium flux, Atlantic; 12519. calcium enrichment, potassium enrichment, sea water, ocean, crustal element, wet deposition, chemical analysis, Pacific; 11335.
rain scavenging
tephra aerosol, aerosol, long range transport, particulate, rain collection, USA, Mount St. Helens; 05472.
rain splash transport
freeze thaw, depositional quantification, postsettlement deposition, sediment basin, sediment transport, fly ash, spatial variability, soil erosion acceleration, overland flow, USA, Illinois; 08540.
rain volume
rain rate, stratiform situation, convective situation, scavenging mechanism, scavenging ratio, air mass, trajectory, 12507.
rain wash
differentiated USLE, modified, USLE, DTM, high resolution map, soil loss, 02715.
rain water
aerosol concentration, rainfall condition, surface kinematic condition, GOES West imagery, convective system, mesoscale network, chemical analysis, Brazil, Amazonia; 10209. air pollution, acid rain, Japan; 09040. crop destruction, agricultural meteorology, frost, Colombia, Bogota Savanna; 05382. fog water, trace element, precipitation, PIXE, preconcentration, freeze drying, 13746. ion chromatography, chloride, nitrate, sulphate, sodium, potassium, ammonium, anion, organic acid, cation, aerosol, precipitation chemistry, sampling, 03186. polarographic determination, voltamperometric determination, spectrophotometric determination, hydrogen peroxide, 06669. snow chemistry, inorganic ion, hydrogen peroxide, sulphate, sodium, chloride, nitrate, precipitation, chemistry, snow, USA, California; 04419. snow, atmospheric deposition, acid, heavy metal, carbon, nutrient, pollutant, wet only sampler, ecotoxic heavy metal, dissolved organic carbon, Netherlands, Yerseke; 09043. sulphur oxidation, iron, cobalt, vanadium, chromium, manganese, hydrogen peroxide, ozone, Japan; 00850.
rain water acidity
ion concentration, storm system, sulphate, nitrate, acid rain, precipitation, 13750.
rain water chemistry
rain water storage, phenol, acidic organic compound, carboxylic acid, microbial degradation, acid concentration, USA, California, Los Angeles; 05112.
rain water level model
groundwater resource, water balance, groundwater recharge, precipitation groundwater level model, Guinea-Bissau, Bolama Islands, Bijagos-Guinea-Bissau-Archipelago; Bubaque Islands, Bijagos-Guinea-Bissau Archipelago; 06412.
rain water storage
phenol, acidic organic compound, carboxylic acid, microbial degradation, acid concentration, rain water chemistry, USA, California, Los Angeles; 05112.
rain-on-snow event
quickflow, antecedent condition, hydrograph recession, basin runoff, suburbanisation, runoff regime, snow melt, 00622.
rain-snow boundary
melting snow, temperature, low pressure centre, winter, storm, 13502.
rainband
cold air advection, Gulf Stream, radiation flux, turbulent transfer, boundary layer, cloud dynamics, cumulus parameterisation, USA, Appalachian Mountains; 01822. downdraft modification, mixed layer recovery, boundary layer structure, boundary dynamics, hurricane, 10108. frontal instability, potential vorticity, vorticity anomaly, frontal wave, frontogenesis, 07766. meso alpha scale cyclone, mesoscale, rain, weather radar network, rain gauge, rawindonde, synoptic map, meso beta scale complex cell, China, Beijing; 05324. mesoscale rainfall, kinematic structure, boundary layer structure, boundary dynamics, hurricane, 10107. radar observation, symmetric instability, warm sector rainband, China; 03033.
rainbelt
pressure height trend, temperature trend, subsidence, subtropical high, long term drought, drought, atmospheric circulation, Africa, Sahel; 11179. rainfall, long term variability, ITCZ, tropical rainbelt, Africa,

Sahel; Kalahari; 11178.
raincloud
climate, general circulation model, rain, 13477.
rainday
computer program, meteorological data, Australia; 00661. regionally stable coefficient, rainfall, solar radiation, Australia; 00698.
rainday effect
plant growth model, runoff, germination, growth, climatological record, rainfall, daily rainfall record, Australia; 07807.
raindrop
airborne study, altitudinal variability, microphysical structure, ice free cloud, cumulus cloud, cloud boundary, 13613. backscatter measurement, rain rate measurement, circular polarisation diversity, radar, canting angle, 05327. flow transport, drop size, drop impact, mechanics, 02716. microphysical scheme, mesocale modelling, pollutant transport, deposition, 06610. microphysics, oceanic mesoscale, convective system, melting layer, snowflake, Taiwan; 11266. radar rainfall, rainfall field drift, 03011. resolution dependence, rain measurement, blotting paper, radar measurement, fractal, 13603. throughfall drop, canopy height, model, erosion simulation, size distribution simulation, 06219.
raindrop distribution
drop size, raindrop spectra, breakup, coalescence, three peak equilibrium, 12448.
raindrop impact
Guerlach trough, badland slope, erosion monitoring, sheet erosion, rilling, Mexico; 13056. impact energy, water erosion, rock fragment, soil flume, rainfall simulator, percentage rock fragment cover, Portugal, Alentejo; 06224. rainstorm intensity, rainfall energy, infiltration, sealing soil, soil permeability, numerical model, rainfall characteristic, seal formation, 08766.
raindrop impression
fossil record, 04699.
raindrop shape
electric field, electrified raindrop, 04320.
raindrop size
rainfall kinetic energy, USLE, raindrop velocity, 11259.
raindrop size distribution
coalescence, breakup, 01933. one dimensional shaft model, single pulse rain, coalescence, breakup, 12468.
raindrop spectra
breakup, coalescence, three peak equilibrium, raindrop distribution, drop size, 12448.
raindrop velocity
raindrop size, rainfall kinetic energy, USLE, 11259.
rainfal intensity
sediment loading, surface water quality, soil erosion, stream loading, average rainfall, USLE, USA, Iowa, Iowa City, Iowa River; 04070.
rainfall
annual variation, Southern Oscillation, ITCZ, prediction, deep convection migration, Brazil; 12347. anomaly patterns, dry year, wet year, inter tropical discontinuity, Nigeria; 12340. bed material, relief, saprolite, montane, sediment yield, humid tropical area, Puerto Rico; 05808. bistable phase switch, maximum entropy spectrum analysis, precipitation record, luni solar 18.6 year term, 07805. catchment scale, storm, surface runoff, topography, 02999. climatic change, agricultural production, extreme event, climatological analysis, Argentina, Buenos Aires Province; 11172. cover, rock fragment, infiltration, micromorphology, rock flow, rock mulch, saturated hydraulic conductivity, surface sealing, vesicle, hydrological response, soil surface, 03930. cyclone, geochemical mapping, stream sediment, trace element, tropical rainforest, rainforest, Solomon Islands, Guadalcanal; 09484. daily rainfall record, rainday effect, plant growth model, runoff, germination, growth, climatological record, Australia; 07807. data analysis, radar precipitation measurement, rain gauge, radar networking, UK; 05347. deposition, washoff, forest, tree, leaf, dry deposition, sulphate, potassium, foliar washoff, acid rain, 13665. desert, radiocarbon dated evidence, freshwater lake, paleosol, Holocene, Algeria, Tanezrouft; 06517. drought year, summer monsoon, India; 09991. drought, Africa, Sahel; 00703. drought, dry weather interval, growing season, Yugoslavia, Backa; 05383. drought, El Nino/Southern Oscillation, vegetation, Australia; 13504. early warning system, crop growth, agrometeorology, socio economic benefit, crop forecasting system, growing season, Zimbabwe; 05387. ecological significance, pollen, dryland, hyperarid zone, Holocene(Early), summer, Middle East; 06107. erosion risk, agricultural land, soil erosion, landuse, UK, England, South Downs; Sussex, Lewes; 10844. evaporation, runoff formation, hydrological process, drought management, arid area, semi arid area, hydrological modelling, water management, rainfall runoff model, data requirement, Africa; 06289. evaporation, transpiration, runoff, deep drainage, soil water storage, crop wateruse, wateruse efficiency, tillage, fertiliser application, soil characteristic, water balance, plant physiology, crop water balance, Africa, Sudan; Sahel; 12141. evaporation, water balance study, Neutron moisture meter, calibration procedure, regional evaporation, soil moisture, Australia, New South Wales, Goulburn-Marulan Region; 12154. fallout, weather radar, meteorological factor, radioactive deposition, radar data, radiation transport, USSR, Chernobyl; Finland; 10199. flood, drought, agricultural production, seasonality, India, Western Ghats; 13496. fog, sunshine hour, wind, climate, agroclimate, valley climate, air temperature, 00701. forecasting, European Centre for Medium Range Weather Forecasts, soil wetness distribution, short range forecasting, Africa, Sahel; 13621. fresh water lakelet, eolian formation, TL dated, Paleosols, Holocene, Mali, Tanezrouft Desert; Algeria, Tanezrouft Desert; 03874. frost, precipitation, temperature, crop, production, agrometeorology, Pakistan, Balochistan; 03034. geomorphic evolution, mountain area, meteorological model, mass movement, low frequency rainfall, 11837. gravity wave attenuation, surface gravity wave, 06721. Holocene(Middle), organic matter, land snail shell, stable carbon isotope ratio, Chenopodiaceae, Israel, Negev Desert; 03878. hydrological series, climatic evolution, non stationarity, Africa, (West); 12344. hygrophyllous plant formation, glacial climate, vegetation, palynological evidence, Subantarctic forest, Magellanic moorland mosaic, Chile, Isla de Chiloe; 05015. intense point rainfall, storm, rain gauge network, UK, England, Thames Valley; 08848. interception, wind speed, temperature, radiation, evaporation process, hillslope hydrology, energy balance, water balance, hydroclimate, vegetation cover, soil characteristics, topography, 10999. isotopic analysis, carbonate, lake sediment, palaeohydrology, palaeolimnology, 05813. jet, deformation forcing, updraft, Mei Yu Front, low level jet, frontal model, midlatitude baroclinic property, tropical convective property, Asia, (East); 10094. law utilisation, law of gaps, pluviometric regime, 12304. leaf wetness, sugar cane, evapotranspiration, automatic weather station, irrigation water management, agro-meteorology, solar radiation, temperature, humidity, wind, Reunion; 03012. linkage analysis, topographic rainfall, UK, Wales; 01830. long term variability, ITCZ, tropical rainbelt, rainbelt, Africa, Sahel; Kalahari; 11178. lowflow, streamflow, flow estimation, river recession rate, soil characteristic, 04031. mechanical breakdown, runoff, erosion, experimental study, crusting modelling, soil surface, crusting process, aggregate, slaking, 10826. micrometeorology, tropical forest, radiation absorption, aerodynamic roughness, K-theory, 03048. mixed layer, sea surface temperature, interannual variability, El Nino/Southern Oscillation NSO event, monsoon, coupled atmosphere-ocean system, India; Pacific; 12375. nitrogen, inorganic nitrogen, Mediterranean; 00822. nowcasting, precipitation, weather radar network, Brazil, Sao Paulo; 05321. oceanographic variability, weather, climate, Agulhas Current, marine boundary layer, South Africa; 12376. parent material, acid soil, expert system, fertility, altitude, Rwanda; 05100. pedogeomorphic aspect, spatial variability, catenary sequence, intergrade, granitic material, hillslope development, slope, South Africa, Kruger National Park; 09523. pH, soil, Australia, New South Wales; 02814. polarization diversity, snowflake, bright band error, radar, 05328. precipitation, Krakatoa eruption, drought, sunspot activity, volcanic eruption, Spain, Valence; 00702. principal component analysis, Albania; 12334. principal component pattern, sea surface temperature, Australia, Victoria; 08907. quasi biennial oscillation, power spectrum analysis, empirical orthogonal function, sea surface temperature, interannual oscillation, China; 12329. quasi periodic oscillation, growing season, Nigeria; 07815. radar, cokriging, rain gauge, ground truth rainfall, 00660. rain cell, cloud cluster, precipitation, 03111. rain gauge, flood forecasting, real time forecasting, rainfall runoff model, radar, UK; 05448. rain gauge, topography, atmospheric circulation, station height, spatial distribution, Greece, Athens; 13497. rainy season, storm, spatial variability, Niger; 07674. regression equation, surface temperature, upper air temperature, temperature, monsoon, India; 12346. reservoir, sedimentation, soil erosion, conservation, Italy, Sicily; 06971. runoff, soil loss, conservation, supplemental irrigation, water harvesting, rates of soil erosion, India, Punjab; 12042. runoff, soil water storage, evaporation, transpiration, drainage, water balance study, storage, loss, 12144. satellite, infrared data, Meteosat, remote sensing, Africa, Sahel; 06448. sea surface temperature, forecasting, air-sea interaction, Africa, Sahel; 01865. seasonal climate, climate summary, surface wind, seasurface temperature, Southern Hemisphere; Australia; 13494. seasonal forecast, model hybrid, daily rainfall forecasting, Bangladesh, Dhaka City; 08985. snow line, tree line, lake level, palaeoclimate, glaciation, temperature, Burundi; 00778. snowfall, mixed rainfall snowfall, precipitation separation, USA, Vermont, Danville; France, Durance River Basin; 08648. sodium, acidic deposition, sampling, deposition, tree canopy, forest, Brazil, Rio de Janeiro; 00865. soil erodibility, overland flow, infiltration, loess, tilled soil response, wetting, Netherlands, South-Limbourg; 01512. soil loss, landuse, suspended sediment, sediment yield, soil erosion, transported sediment, urban watershed, humid tropics, discharge, Zaire, Lubumbashi; 08700. soil moisture, ground water recharge, 00677. solar radiation, rainday, regionally stable coefficient, Australia; 00698. solution rate, pollution, acid rain, anthropogenic influence, dissolution rate, dolomitic marble, marble, Greece, Thessaloniki; Plagiari; 10821. Southern Oscillation, upper air sounding, ship observation, stratiform cloud, El Nino, precipitation, convection, Mexico; 01838. squall line, Meteosat imagery, cloud cluster, tropical storm, convection index, precipitation, Africa, Sahel; 10099. storage facility, water resource management, surface water, India; 08804. summer monsoon, vegetation, seasonal climate, last full glacial, stratigraphy, radiocarbon, pollen analysis, Australia, South Australia, Lake Frome; 13108. sunshine day, Poulter index, summer, UK, Jersey; 01834. synoptic aspect, rainfall variability, circulation pattern, blocking, Southern Oscillation, Chile; 11168. temperature factor, carbon cycle, vegatation belt, ecosystem, climatic parameter, 12495. thunderstorm, torrential rain, hail formation, lightning, Pacific, Micronesia, Ponape; 07651. topography, spatial variation, altitude, pluviometry, rainfall distribution, Burkina Faso, Ouagadougou; 02832. tropical ocean, ocean, microwave radiometry, single channel approach, radiative transfer model, rainfall estimation, area averaged rainfall, 12322. vegetation, catchment characteristic, stream flow pattern, runoff characteristics, flow duration curve, flow variability, flood, low flow, Guyana; 07467. warm pool, sea surface temperature, monsoon, Pacific; India; 07744. weather radar observation, data processing, Hungary; 05356. wet deposition, dry deposition, transport, heavy metals, urban environment, particulate matter, lead, zinc, cadmium, copper, deposition, surface dust, stormwater runoff, 00818. wind erodible material, crusted soil, soil crust, soil texture, 08534. wind, climatic change, UK, England, Sunderland; 01835.
rainfall acidity
trajectory analysis, spatial pattern, acid rain, long range transport, orographic enhancement, UK, Scotland; 12534.
rainfall amount
periglacial belt, distribution pattern, debris flow, geomorphological aspect, meteorological aspect, Switzerland, Alps; 06036.
rainfall angle
rainfall partitioning, forest hydrology, stemflow, Australia; 00510. throughfall, stemflow, interception, rainfall partitioning, forest hydrology, throughfall measurement, measurement method, Australia; 00509.
rainfall anomaly
El Nino, tropical climate, climate prediction, general circulation, statistical method, numerical modelling, 10157. numerical study, meso gamma scale indexing, heat island, urban rainfall, orography, Israel,

Jerusalem; 11200.
rainfall area
exotic forest harvesting, steepland area, prediction policy, prevention policy, forest landing failure, New Zealand; 06065.
rainfall area evolution
hydrologic process, atmospheric process, precipitation forecasting, Fourier domain shape analysis, 06588.
rainfall average
rainfall fluctuation lognormality, rainfall fluctuation scaling, 07773.
rainfall catch
rain gauge location, UK Meterological Office rain gauge, correction equation, 12147.
rainfall change
summer, climatic jump, sea level pressure, pressure height, circulation change, 13635.
rainfall characteristic
seal formation, raindrop impact, rainstorm intensity, rainfall energy, infiltration, sealing soil, soil permeability, numerical model, 08766.
rainfall characteristics
hydraulic conductivity, saturated hydraulic conductivity, pipe flow, runoff, surficial process, rainforest, rill, gully, overland flow, South America, Amazonia; 09801. hydrograph estimation, geomorphologic rainfall-runoff model, flash flood, hyetograph, catchment morphology, arid catchment, slope, infiltration rate, flood hydrograph, Saudi Arabia; 00513.
rainfall climatology
hydrological cycle, land air flux, Simple Biosphere model, biosphere, general circulation model, 06494.
rainfall condition
surface kinematic condition, GOES West imagery, convective system, mesoscale network, chemical analysis, rain water, aerosol concentration, Brazil, Amazonia; 10209. water quality management, sediment budget, coal mining, sediment source, USA, Maryland; 00534.
rainfall data
abrupt climate change, climate change, Mauritania; 12503. erosion index, iso erodent map, India, Vidarbha; 06234. evapotranspiration, evaporation, drought persistence, hydro metric data, flood, hydrological low flow, urban hydrology, rainfall mrunoff model, hydrological education, arid area, semi arid area, Interafricain Committee for Hydraulic Studies, hydrological data, climatological data, Africa, (West); (Central); 06262. hydrological series, data analysis, statistical method, periodicity, stream flow data, Turkey; Saudi Arabia; USA; 13307.
rainfall decline
soil water balance, available soil water, climate change, Nigeria, Sudano-Sahelian Zone; 12232. surface water balance, Lettau climatonomy model, evapotranspiration, runoff, soil moisture, vegetation change, satellite data, climate change, Africa, Sahel; 12145.
rainfall deficit
runoff distribution, surface runoff, water resource, interannual fluctuation, stream flow, climatic variation, drought, Africa, Sahel; Senegal River; Africa, Niger River; 06266. settlement problem, clay deposit, evapotranspiration method, precipitation, foundation problem, champlain clay, drought, Canada, Quebec, Montreal; 02537. statistical analysis, probabilistic model, temporal series, 00676.
rainfall depth
slope, infiltration, runoff factor values, ungauged basin, flood estimation, peak discharge estimation, runoff coefficient, unit hydrograph, hydrograph characteristic, Africa, Sahel; 06293. watershed management, rainfall runoff relationship, mountainous watershed, stream flow record, historical data, flow reduction, cloud seeding, 05124.
rainfall disaggregation model
dry period, shower event, shower depth, shower duration, Hershenhorn's technique, daily rainfall, parameter transferability, USA; 05115.
rainfall distribution
interception, evapotranspiration, infiltration, land cover, runoff hydrograph, rainfall runoff relationship, Poland, Carpathian Mountains, Trzebunka; 06282. landscape, Africa, Sahel; 10002. precipitation regime, rain fall, drought, El Nino/Southern Oscillation, Peru; 04348. rainfall, topography, spatial variation, altitude, pluviometry, Burkina Faso, Ouagadougou; 02832. runoff prediction, distributed model, radar, storage function model, large scale basin, mountain basin, Japan, Kusaki-dam Basin; 08688. runoff, unit hydrograph, rainfall excess, France, Petite Creuse Basin; 08656.
rainfall duration
design flood, flood forecasting, contributing area, regional unit hydrograph, unit hydrograph, rainfall runoff relationship, Switzerland; 08686. dry antecedent condition, soil pipe, inorganic aluminium, throughflow, rainfall intensity, stormflow hydrochemistry, upland catchment, runoff chemistry, flow path, subsurface flow, surface water chemistry, UK, Wales; 04094. extreme precipitation event, rainfall intensity, hyetograph, stochastic model, convective precipitation, rain gauge site, Spain, Valencia, Alicante; 05113. intensity duration curve, areal reduction factor, rainfall rate distribution, tilting bucket, raingauge, rainfall intensity, Spain, Barcelona; 10971. precipitation assessment, synoptic analysis, rainfall intensity, Germany, Saidenbach Reservoir; 12148. saturation permeability, rainfall intensity, infiltration model, Burkina Faso; 12228. surface parameter, length scale, rainfall-runoff relationship, overland flow, spatial variability, slope, width, roughness, rainfall intensity, dimensionless hydrograph, runoff discharge, 04044.
rainfall duration curve
rainfall frequency curve, urban catchment, rainfall intensity curve, peak flow, continuous model, linear regression model, impervious surface, semipervious surface, infiltration, percolation, evaporation, rainfall runoff, 07465.
rainfall energy
dispersion test, soil aggregate, soil stability, infiltration, aggregate stability, Australia, South Australia, Mount Lofty Ranges; 12054. infiltration, sealing soil, soil permeability, numerical model, rainfall characteristic, seal formation, raindrop impact, rainstorm intensity, 08766. soil aggregate, aggregate breakdown, soil stability, aggregate, soil loss magnitude, wet sieving method, Broughton clay, Heiden clay, antecedent water, water content, 08537. surface crust, surface roughness, infiltration, ponded water, surface microrelief, 01700.
rainfall enhancement
metaanalytic reappraisal, environmental science, cloud seeding, 05431.
rainfall erosion index
erodibility, USLE, rainfall erosion index, topographic factor, soil erodibility factor, potato cropping, water runoff, soil erosion, soil loss, Canada, New Brunswick; 00358. topographic factor, soil erodibility factor, potato cropping, water runoff, soil erosion, soil loss, rainfall erosion index, erodibility, USLE, Canada, New Brunswick; 00358.
rainfall estimate
cloud statistics, Meteosat thermal infrared, operational system, satellite observation, Africa, Sudano-Sahelian Region; 10001.
rainfall estimation
area averaged rainfall, rainfall, tropical ocean, ocean, microwave radiometry, single channel approach, radiative transfer model, 12322. digital processing, weather, radar signal, 04599. GIS, raingauge network, image enhancement, 06812. Meteosat, bispectral technique, radar, satellite data, precipitation forecasting, 05366.
rainfall estimation method
infrared channel, geostationary satellite, forecasting, flood hazard monitoring application, Italy, Arno River Basin; 08984.
rainfall event
field experiment, fractal approach, spatial variability, Africa, (West); 12345. mass movement, slump, slide, sediment transport, flood discharge, high magnitude, geomorphic work, Spain, Pyrenees; 13016. storm, recording station, hyetograph, Sweden, Lund; 07776. storm, soil erosion, corn, wheat, contoured watershed, USA, Ohio, Coshocton; 13207.
rainfall excess
flood peak, basin response, rainfall runoff model, overland flow, Monte Carlo study, rainfall sampling effect, stream flow, catchment model, USA, Iowa, Ralston Creek Watershed; 12164. Kibler-Wollhiser criterion, shock formation, overland flow, kinematic cascade, kinematic wave, 04033. parameter estimation, hydrograph separation, instantaneous unit hydrograph, upland catchment, quick flow, slow flow, stream flow response, UK, Wales; 05138. rainfall distribution, runoff, unit hydrograph, France, Petite Creuse Basin; 08656.
rainfall field drift
raindrop, radar rainfall, 03011.
rainfall fluctuation
climatic trend, climatic periodicity, wet season, Nigeria; 07670.
rainfall fluctuation lognormality
rainfall fluctuation scaling, rainfall average, 07773.
rainfall fluctuation scaling
rainfall average, rainfall fluctuation lognormality, 07773.
rainfall forecast
mean areal rainfall, rainfall prediction, precipitation estimation, radar data, areal rainfall, covariance analysis, 13311. radar data, urban hydrology, forecasting quality, rawinsonde data, 13313. weather radar, raingauge, water management, precipitation, radar, 01947.
rainfall forecasting
remote sensing, weather prediction, forecasting technique, meteorological data, hydrological forecasting, 06267. sewer management, image processing, radar, 01938.
rainfall frequency
heavy rainfall, storm, UK, England; 09984.
rainfall frequency curve
urban catchment, rainfall intensity curve, peak flow, continuous model, linear regression model, impervious surface, semipervious surface, infiltration, percolation, evaporation, rainfall runoff, rainfall duration curve, 07465.
rainfall gauge
rainfall variation, geostationary satellite, rain estimation technique, Brazil, Amazon Basin; 06450.
rainfall impact
diffusion, soil adsorbed chemical, infiltration rate, chemical transfer, runoff, 00587.
rainfall impulse tracking
runoff routing, data logger, storm hyetograph, tipping bucket rain gauge, headwater piezometer, stream flow gauging, lag time, unit area discharge, steep terrain, drainage basin, forested terrain, 08673.
rainfall induced runoff
solute transfer, soil solution, runoff water, overland flow, hillslope, convective dispersive solute transport, concentration hydrograph, 06316.
rainfall intensity
antecedent moisture condition, surface runoff, pervious basin, tropical basin, recession curve, total runoff, base flow, unit hydrograph, hydrograph separation, Africa, Sahel; 00524. boreal forest, through fall, intercepted snow, ecosystem, interception, forest hydrology, Sweden, Vasterbotten Province; 00506. dimensionless hydrograph, runoff discharge, rainfall duration, surface parameter, length scale, rainfall-runoff relationship, overland flow, spatial variability, slope, width, roughness, 04044. effective rain, rain concentration index, mountain basin, rain runoff model, spatial variability, flood prediction, 12171. hyetograph, stochastic model, convective precipitation, rain gauge site, rainfall duration, extreme precipitation event, Spain, Valencia, Alicante; 05113. infiltration model, rainfall duration, saturation permeability, Burkina Faso; 12228. interception, canopy, stem flow, single factor simulation experiment, leaf area index, branch configuration, 09782. kinetic energy, bifurcation, braided channel, knickpoint evolution, rillwash, laboratory flume, 10832. rainfall duration, intensity duration curve, areal reduction factor, rainfall rate distribution, tilting bucket, raingauge, Spain, Barcelona; 10971. rainfall duration, precipitation assessment, synoptic analysis, Germany, Saidenbach Reservoir; 12148. rainfall runoff model, climate change, peak flow, snow melt, precipitation, winter temperature, runoff peak, soil moisture condition, Sweden; Finland; 05149. rainfall runoff model, Rosenbrock optimisation technique, deterministic model, conceptual model, saturated flow, groundwater flow, subsurface drainage, peak flow, 06339. redeposition, infiltration, snow melt, soil erosion, runoff measurement, experimental plot, Hungary, Gaja Valley; 08549. rill, gully erosion, agricultural method,

agricultural practice, cultivated land, concentrated flow erosion, France, Haute-Normandie, Pays de Caux; 03940. simulated rainfall, design simulator, rainfall simulator, field study, runoff, erosion, Spain; 09637. slope angle, slope length, water erosion, arable field, cause erosion, impact erosion, prediction erosion, soil erosion, surface roughness, UK; 08542. storm duration, total rainfall, runoff rate, rainfall intensity threshold, soil surface, water storage capacity, rain drop impact, infiltration capacity, sandy soil, weeding, Africa, Sahel, Yatenga Region; 12227. storm, rainfall runoff, spatial variation, 08972. stormflow hydrochemistry, upland catchment, runoff chemistry, flow path, subsurface flow, surface water chemistry, rainfall duration, dry antecedent condition, soil pipe, inorganic aluminium, throughflow, UK, Wales; 04094. surface crust, hydraulic resistance, aggregate size, microrelief, soil crust, infiltration rate, 10857. threshold condition, thalweg gullying, loess, slope wash, sediment transport rate, gullying, France, Paris Basin; Belgium; 10845.

rainfall intensity curve
peak flow, continuous model, linear regression model, impervious surface, semipervious surface, infiltration, percolation, evaporation, rainfall runoff, rainfall duration curve, rainfall frequency curve, urban catchment, 07465.

rainfall intensity threshold
soil surface, water storage capacity, rain drop impact, infiltration capacity, sandy soil, weeding, rainfall intensity, storm duration, total rainfall, runoff rate, Africa, Sahel, Yatenga Region; 12227.

rainfall interception
interception, rainforest, storage capacity, canopy storage, epiphyte, evaporation, montane tropical rainforest, 07455. montane tropical rainforest, interception, canopy storage, storage capacity, rainforest, epiphyte cover, Colombia; 07454.

rainfall kinetic energy
alluvial soil, infiltration, rainfall simulation, surface crusting, soil crust, crusting process, ORSTOM, 72 Route d'Aulnay, 93134 Bondy Cedex, France; 13294. USLE, raindrop velocity, raindrop size, 11259.

rainfall mapping
evapotranspiration mapping, mapping, ARTEMIS system, Meteosat mapping, Africa, Sahel; 09252.

rainfall measurement
snowfall measurement, precipitation gauge, forest hydrology, water use, stream flow, water quality, gauge distribution, domain theory, precipitation estimation, UK, Scotland, Balquhidder; 08650. snowfall measurement, precipitation gauge, mountain basin, dual gauge system, recording gauge, air temperature, tipping bucket gauge, USA, Idaho, Reynolds Creek Watershed; 08649.

rainfall modelling
smoothed altitude, modelisation, precipitation, France, Vosgien Massif; 09985.

rainfall monitoring
continental rainfall, coastal sea, satellite, 09967.

rainfall mrunoff model
hydrological education, arid area, semi arid area, Interafricain Committee for Hydraulic Studies, hydrological data, climatological data, rainfall data, evapotranspiration, evaporation, drought persistence, hydro metric data, flood, hydrological low flow, urban hydrology, Africa, (West); (Central); 06262.

rainfall onset
precipitation, prediction scheme, thunderstorm, Nigeria, Kano; 07669.

rainfall oscillation
inter annual variability, temperature variability, sea surface temperature, forcing mechanism, South Africa; 07742.

rainfall partitioning
forest hydrology, interception, canopy storage capacity, eucalypt forest, antecedent weather, leaf area, water holding capacity, Australia; 00511. forest hydrology, stem flow, interception, canopy storage capacity, storage capacity, forest thinning, 00512. forest hydrology, stemflow, rainfall angle, Australia; 00510. forest hydrology, throughfall measurement, measurement method, rainfall angle, throughfall, stemflow, interception, Australia; 00509.

rainfall pattern
agriculture, irrigation, water management, India, Indo-Gangetic Plain; 11108. infiltration, soil moisture storage, rainfall spatial distribution, evaporation, groundwater recharge, urban catchment, rural catchment, mathematical model, semi arid area, rainfall runoff modelling, model applicability, soil type, topography, Tunisia; 06295. ITCZ, low level flow intensity, anticyclone, Zimbabwe; Atlantic; Indian Ocean; 07673.

rainfall patterns
drought, arroyo cutting, climatic change, arroyo filling, USA, New Mexico, Zuni River; 07817.

rainfall periodicity
Baiu season, rainfall variation, principal component analysis, Japan; 06455.

rainfall point process
stochastic model, rainfall runoff model, Poisson model, Neyman Scott model, runoff model, 09802.

rainfall prediction
Markov chain, forecast skill, Australia, Melbourne; 08980. precipitation estimation, radar data, areal rainfall, covariance analysis, rainfall forecast, mean areal rainfall, 13311.

rainfall probability
maize species suitability, agrometeorological study, Zambia; 11166.

rainfall probability analysis
agrometeorology, precipitation, India, West Bengal, Nadia District; 00705.

rainfall processing
forecasting system, flood forecasting, forecasting accuracy, real time correction, China, Yangtze River, Three Gorges; 10990.

rainfall radar image
rain gauge data, river level, flow hydrograph, computer controlled system, automated data retrieval, flood warning system, real time data retrieval, flood forecasting, conceptual model, rainfall runoff model, telemetry, hydrometric network, flow routing routine, UK, England, Severn-Trent region; 05259.

rainfall rate
flash flood, precipitation, Spain, Barcelona; Mediterranean Sea; 01833. gauge network, dual-polarisation radar, precipitation event, 09968. Hurricane Debby, thermodynamic field, convective instability, moisture field, storm, precipitation estimate, 10093. precipitation, interception, forest canopy, canopy interception rate, 07453. radar measurement, hailfall parameter, urban hydrology, hail detection, rain gauge hailpad network, dual polarization radar, 05348. satellite derived heating rate, data assimilation, tropics region, longwave radiation, 08912. satellite measurement, tropical precipitation, precipitation rate, heat source, moisture sink, precipitable water, outgoing longwave radiation, 01827.

rainfall rate distribution
tilting bucket, raingauge, rainfall intensity, rainfall duration, intensity duration curve, areal reduction factor, Spain, Barcelona; 10971.

rainfall redistribution
semi-arid region, throughfall, stemflow, interception loss, Mexico; 02833.

rainfall response
sea surface temperature, regression analysis, principal component analysis, China; Pacific; 10036.

rainfall runoff
rainfall duration curve, rainfall frequency curve, urban catchment, rainfall intensity curve, peak flow, continuous model, linear regression model, impervious surface, semipervious surface, infiltration, percolation, evaporation, 07465. snow melt, channel flow, telemetry system, flood warning system, flow forecasting system, river control, water management, 05142. spatial variation, rainfall intensity, storm, 08972.

rainfall runoff event
Landsat TM, watershed, accuracy classification, USA, Texas, Forth Worth; 09273.

rainfall runoff method
flood estimation, Flood Studies Report, FSR rainfall runoff method, FSSR16 rainfall runoff method, observed data, FSR statistical method, design flood estimation, UK; 07464.

rainfall runoff model
climate change, peak flow, snow melt, precipitation, winter temperature, runoff peak, soil moisture condition, rainfall intensity, Sweden; Finland; 05149. daily runoff, tank model, mountain basin, stream flow model, India, Malaprabha River; 08683. data requirement, rainfall, evaporation, runoff formation, hydrological process, drought management, arid area, semi arid area, hydrological modelling, water management, Africa; 06289. hillslope velocity term, hillslope effect, geomorphologic instantaneous unit hydrograph, instantaneous unit hydrograph, hydrograph, gamma distributed stream length, 08664. hydrograph recession coefficient, stream flow, tropical environment, peakflow estimation, antecedent precipitation index model, India, Wainganga River; USA, Hawaii; USA; 09800. hydrologic data, uncertainty analysis, network operation, water resources development, reservoir, meteorological data, isoline mapping, square grid regionalization, Venezuela; 05315. kinematic wave routing, overland flow, soil moisture, infiltration, peak discharge, runoff volume, drainage basin, arid region, model calibration, model verification, channel flow, Saudi Arabia; 09810. overland flow, Monte Carlo study, rainfall sampling effect, stream flow, catchment model, rainfall excess, flood peak, basin response, USA, Iowa, Ralston Creek Watershed; 12164. parameter estimation, parameter transformation, nonlinear discrete flood event model, flood event model, Australia; 05134. point infiltration model, small basin, semi arid area, runoff storage, soil type, surface retention, antecedent soil moisture, separation curve, incipient runoff curve, infiltration, USA, Wyoming; 09792. Poisson model, Neyman Scott model, runoff model, rainfall point process, stochastic model, 09802. radar, rainfall, rain gauge, flood forecasting, real time forecasting, UK; 05448. Rosenbrock optimisation technique, deterministic model, conceptual model, saturated flow, groundwater flow, subsurface drainage, peak flow, rainfall intensity, 06339. telemetry, hydrometric network, flow routing routine, rainfall radar image, rain gauge data, river level, flow hydrograph, computer controlled system, automated data retrieval, flood warning system, real time data retrieval, flood forecasting, conceptual model, UK, England, Severn-Trent region; 05259. temporal hydrological variability, temporal meteorological variability, spatial hydrological variability, spatial meteorological variability, stream flow, water balance modelling, areal precipitation, semi arid area, Botswana, Mahalapswe; 06294. water resources management, water resources evaluation, rainfall runoff relationship, Tunisia; Burkina Faso; 06415.

rainfall runoff modelling
microcatchment, mountain basin, runoff, hydrograph, Saudi Arabia; 08684. model applicability, soil type, topography, rainfall pattern, infiltration, soil moisture storage, rainfall spatial distribution, evaporation, groundwater recharge, urban catchment, rural catchment, mathematical model, semi arid area, Tunisia; 06295.

rainfall runoff relationship
basin characteristic, infiltration class, unit hydrograph, flood flow, runoff depth, precipitation depth, runoff coefficient, surface hydrology, arid area, semi arid area, Africa; 06288. forest basin, capillary rise, non capillary flow, convolution integral, mountain watershed, kinematic wave equation, Boussinesq equation, subsurface flow, runoff formation, USSR, Carpathian Mountains; 09808. hydrograph, Recursive Least Square identification, Autoregressive model with exogeneous input, iterative deconvolution process, Nash Unit Hydrograph, unit hydrograph technique, flood modelling, Africa, Sahel; 06296. initial contributing area, stream surface, surface saturation, subsurface flow, stream flow model, base flow, hydrograph, groundwater discharge, runoff, 05139. interannual variability, precipitation, stream flow, evapotranspiration, water budget, broadleaved sclerophyllous forest, forested catchment, Spain, Montseny Mountains; 06387. lumped conceptual model, environmental model, experimental basin, 06277. mountainous watershed, stream flow record, historical data, flow reduction, cloud seeding, rainfall depth, watershed management, 05124. probabilistic method, Poisson Process theory, regional synthesis method, flood probability law, flood chronology, basin characteristic, return period, Algeria; 12169. rainfall distribution, interception, evapotranspiration, infiltration, land cover, runoff hydrograph, Poland, Carpathian Moun-

tains, Trzebunka; 06282. rainfall duration, design flood, flood forecasting, contributing area, regional unit hydrograph, unit hydrograph, Switzerland; 08686. rainfall runoff model, water resources management, water resources evaluation, Tunisia; Burkina Faso; 06415. runoff coefficient, plant physiological process, transpiration, forest decline, acid deposition, soil acidification, water yield, forest catchment, Germany, Black Forest, Eyach Catchment; 08801. stream flow, groundwater storage, soil water storage, runoff, flood genesis, France, Massif Central, Mont-Lozere; 06279. surface characteristic, runoff estimation, vegetation cover, infiltration, crusting, soil characteristic, water balance model, soil wetting index, Mali, Kassela; Senegal, Thysse Kaymor; 12237. water balance, afforestation, climatic fluctuation, air pollution, stream flow regime, forested basin, Czechoslovakia, Carpathian Mountains; 06389. water resource study, regionalisation technique, flow duration curve, ungauged basin, stream flow, data shortage, arid area, semi arid area, Zimbabwe; 06290.

rainfall runoff transformation method
drought persistence, stochastic model, observation network, theoretical hydrology, data acquisition, Africa, (West); 06261.

rainfall sampling effect
stream flow, catchment model, rainfall excess, flood peak, basin response, rainfall runoff model, overland flow, Monte Carlo study, USA, Iowa, Ralston Creek Watershed; 12164.

rainfall seasonality
Holocene, climatic change, micromammal, archaeological site, Africa, (Southern); 10763.

rainfall simulation
catena, organic matter content, savanna, surface crusting, wet savannah, aggregate, soil erodibility assessment, crusting, Ivory Coast; 03947. micromorphology, crust morphology, porosity, infiltration, USA; 01584. nutrient, leaching, forest floor, pine plantation, 05073. surface crusting, soil crust, crusting process, rainfall kinetic energy, alluvial soil, infiltration, ORSTOM, 72 Route d'Aulnay, 93134 Bondy Cedex, France; 13294. water balance, erosion susceptibility, arid zone ecosystem, erodibility, Tunisia; 03945.

rainfall simulation experiment
infiltration, runoff, vegetation cover, faunal activity, surface roughness, surface crust, tillage, soil surface characteristic, remote sensing, surface classification, surface mapping, surface hydraulic parameter, Africa, Sahel; 06292.

rainfall simulator
desert pavement, infiltration rate, soil erosion, soil crust, Torriorthent, infiltration, sediment production, soil surface condition, shrubland, Argentina, Patagonia; 01500. field study, runoff, erosion, rainfall intensity, simulated rainfall, design simulator, Spain; 09637. infiltration rate, polymer effect, erosion, laboratory, 03934. infiltration, surface runoff, spatial variation, throughflow, erosion, vegetation cover, soil characteristic, France, Mount Lozere; 01645. percentage rock fragment cover, raindrop impact, impact energy, water erosion, rock fragment, soil flume, Portugal, Alentejo; 06224. pine plantation, nutrient, leaching, 05072.

rainfall source area
radiocarbon date, atmospheric circulation, circulation pattern, oxygen isotope, Holocene, land snail, snail shell, Israel, Negev Desert; 13099.

rainfall spatial distribution
evaporation, groundwater recharge, urban catchment, rural catchment, mathematical model, semi arid area, rainfall runoff modelling, model applicability, soil type, topography, rainfall pattern, infiltration, soil moisture storage, Tunisia; 06295.

rainfall stimulation experiment
precipitation, target, seeding effect, statistical analysis, Israel; 12471.

rainfall time scale
rainfall variability, area averaged rainfall, tropical rainfall, ocean rainfall, satellite, ITCZ, 10038.

rainfall total
forecaster, storm(1989), Spain, Valencia; 09996. homogeneous zone, heavy rainfall, monsoon, India; 07679. rain day, event recurrence, 06431.

rainfall value
summer monsoon, monsoon rainfall, sea surface temperature, India; Australia; 10006.

rainfall variability
agricultural calendar, potential evapotranspiration, traditional agriculture, soil moisture retention, soil moisture content, Benin, Upper Borou; 06426. area averaged rainfall, tropical rainfall, ocean rainfall, satellite, ITCZ, rainfall time scale, 10038. circulation pattern, blocking, Southern Oscillation, rainfall, synoptic aspect, Chile; 11168. pulse response, runoff, hydrograph, unit hydrograph, Czechoslovakia, Sputka Catchment; 08675. runoff generating mechanism, slope, topography, hydrogrph separation, hydrological modelling, mountainous terrain, 08681. runoff model, soil water property, topography, water balance, hydrograph, France, Vosges, Fecht Basin; 08682.

rainfall variability pattern
Southern Oscillation, runoff variability, climatic influence, stream flow variability, principal component analysis, spectral analysis, quick flow, base flow, USA, (Southeast); Australia, (Southeast); 08666.

rainfall variation
documentary data, historical evidence, Southern Oscillation, South Africa; 07678. geostationary satellite, rain estimation technique, rainfall gauge, Brazil, Amazon Basin; 06450. greenhouse effect, climate change impact, Australia, New South Wales, Murray Darling Basin; 09008. mountainous region, wind effect, 08831. precipitation amount, tourist industry, diurnal rainfall, Greece, Thessaloniki; 07680. principal component analysis, rainfall periodicity, Baiu season, Japan; 06455. thunder, tropical climate, storm, Indonesia, Jakarta; 10003.

rainfall-runoff
catchment characteristic, concentration time, flood forecasting model, radar reflectivity-runoff model, 04037.

rainfall-runoff model
catchment dynamics, hillslope hydrology, antecedent condition, overland flow, subsurface flow, model calibration, streamflow time series, saturated overland flow, soil moisture accounting model, evapotranspiration flux, Hortonian overland flow, 04042. groundwater flow model, Dupuit-Forchheimer theory, Muskat theory, Darcy equation, average river runoff, streamflow, 02844. hillslope hydrology, overland flow, subsurface flow, antecedent conditions, flow mechanism, soil moisture accounting model, 04043. HYDROLOG, groundwater recharge, Horton's equation, surface watershed model, water balance model, potential evapotranspiration, Australia, Victoria, Campaspe River Basin; 01653. model calibration, flow rate, parameter estimation, comparative analysis, Italy, Arno River, Sieve Watershed; 13323. model calibration, SSARR, catchment characteristic, hydrograph prediction, 01649. overland flow, infiltration, rangeland catchment, Horton overland flow, Dunne overland flow, 01652. soil moisture content, excess rainfall, antecedent precipitation index, flood forecasting, DPFT method, total rainfall, France, Aveyron River; 00525. spatial variability, infiltration, rangeland catchment, geostatistical technique, steady state infiltration, 01705.

rainfall-runoff modelling
infiltration, stone cover, semiarid hillslope, gravel, hillslope hydrology, vegetation cover, rainsplash, overland flow, organic matter, USA, Arizona; 13321.

rainfall-runoff process
Nash-Dooge linear reservoir cascade, streamflow generation, evapotranspiration loss, stochastic conceptual model, catchment model, unit hydrograph, 02842.

rainfall-runoff relation
probability theory, storage, routing model, soil moisture storage capacity, return period, basin discharge, 04040.

rainfall-runoff relationship
overland flow, spatial variability, slope, width, roughness, rainfall intensity, dimensionless hydrograph, runoff discharge, rainfall duration, surface parameter, length scale, 04044. transpiration, atmospheric deposition, forested catchment, water yield, forest decline, soil acidification, Germany, Black Forest, Eyach; 01753. weather radar data, real time hydrological forecasting, flood forecasting, forecasting model, Belgium, Meuse River; 04036.

rainfield
fractal characterisation, precipitation variability, anisotropy, 07632. stochastic model, frequency wavenumber spectrum, 10097.

rainforest
canopy vegetation, pollen trapping, Australia, Queensland; 06091. epiphyte cover, rainfall interception, montane tropical rainforest, interception, canopy storage, storage capacity, Colombia; 07454. eucalypt forest, tree, pollen, Australia, New South Wales, Central Tablelands, Robertson; 06092. rainfall, cyclone, geochemical mapping, stream sediment, trace element, tropical rainforest, Solomon Islands, Guadalcanal; 09484. rill, gully, overland flow, rainfall characteristics, hydraulic conductivity, saturated hydraulic conductivity, pipe flow, runoff, surficial process, South America, Amazonia; 09801. sea salt, aerosol, long range transport, precipitation chemistry, Saharan dust, deposition, sulphate, Puerto Rico, El Verde; 11311. shear strength, penetration resistance, Australia, Queensland; 01617. sorptivity, forestry, infiltration rate, soil disturbance, Malaysia, Sabah; 09913. storage capacity, canopy storage, epiphyte, evaporation, montane tropical rainforest, rainfall interception, interception, 07455.

rainforest catchment
suspended sediment, road construction, sediment yield, forestry, erosion, sediment storage, logging, Malaysia, Sabah, Ulu Segama; 09921.

rainforest ground
terra firme, Plio-Pleistocene fluvial landscape, dating, aggradation, younger alluvium, biogeography, lowland relief, Andean foreland dynamics, depositional origin, Brazil, Amazon Lowlands; 02625.

rainforest soil
soil chemical property, tropical soil, basaltic soil, carbon, nitrogen, Australia, Queensland; 09776. soil particle migration, soil transformation, forest clearance, tillage, burning, organic matter, Brazil, Amazon; 09749. tropical soil, organic matter, deforestation, burning, cultivation, Latosol, organic carbon, Brazil, Amazon, Manaus; 09750. tropical soil, soil boundary, forest-savanna boundary, Brazil, Maraca Island; 12104. tropical soil, soil erosion, forest clearance, soil hydrology, Brazil, Maraca Island; 12105. wetland, vegetation, boundary layer experiment, chemistry field experiment, trace gas, aerosol, Brazil, Amazon, Manaus; 10229.

raingauge
deterministic chaos, storm, rain fall, USA, Massachusetts, Cambridge; 04319. evaporimeter, evaporation, precipitation, ground level gauge, 07648. rainfall intensity, rainfall duration, intensity duration curve, areal reduction factor, rainfall rate distribution, tilting bucket, Spain, Barcelona; 10971. snowfall, snow core data, snow water equivalent, Martinec and Rango degree day method, tree morphology, alpine catchment, precipitation measurement, USA, Wyoming, Glacier Lakes Ecosystem Experiments Site; 09909. water management, precipitation, radar, rainfall forecast, weather radar, 01947. weather radar, flood warning, radar data, computer software, radar calibration, UK, England, Thames River; 04038.

raingauge network
image enhancement, rainfall estimation, GIS, 06812.

RAINS model
acidification, strategy, emission, transport, sulphur dioxide, Europe; 11295. acidification, strategy, sulphur, nitrogen compound, acid deposition, transport models, emission scenario, Europe; 11296. receptor area, uncertainty, source receptor relationship, transboundary air, pollution, control strategy, emission reduction cost, Austria; 11367. soil acidification, buffering capacity, acidification modelling, Europe; 09701.

rainsplash
overland flow, organic matter, rainfall-runoff modelling, infiltration, stone cover, semiarid hillslope, gravel, hillslope hydrology, vegetation cover, USA, Arizona; 13321.

rainstorm
flood, urban hydrology, flood precaution, France, Nimes; 00522. precipitation, mesoscale convective complex, low-level jet, hodograph, mesoscale organisation, USA, Oklahoma; 01915. rain gauge, tracking procedure, radar, storm tracking method, 08835. tillage, USLE, tem-

poral variation, soil erodibility, erodibility factor, 10827.
rainstorm intensity
rainfall energy, infiltration, sealing soil, soil permeability, numerical model, rainfall characteristic, seal formation, raindrop impact, 08766. soil surface sealing, rainstorm intensity, surface seal, USA; 10839. surface seal, rainstorm intensity, soil surface sealing, USA; 10839.
rainwash
cultivated field, erosion pin measurement, pluvial regime, soil erosion, soil loss, Rwanda, Runyinya Butare, Rwaza Hill; 10848.
rainwater
seasalt, chloride, air-sea interaction, emission, deposition, sodium-chloride ratio, sodium, Germany; 00868. sulphur, wet deposition, emission, dimethyl sulphide, precipitation chemistry, methanesulphonate, Australia, Tasmania, Cape Grim; 02024.
rainwater composition
aerosol, calcium, acid deposition, precipitation chemistry, deposition, particle, 03182. precipitation chemistry, acidic precipitation, cold front, conductivity, sea salt, sulphuric acid, nitric acid, USA, North Carolina; 01958.
rainy day distribution
summer, Polyas method, Aegean Sea; 12348.
Rainy lobe
late Wisconsin advance, Superior lobe, sedimentological parameter, principal component analysis, discriminating, texturally similar till, multivariate technique, USA, Minnesota; 03880. Laurentide Ice Sheet, subglacial meltwater production, pore water pressure, permafrost, ice margine thrusting, drift, bedrock, thermal regime, subglacial aquifer, glacial surge, hummocky stagnation moraine, USA, Minnesota; 02638.
rainy month
residential area, atmospheric dust, dust level, India, Chandigarh; 12505.
rainy season
climatic variability, precipitation regime, dry season, Mexico, Baja California Peninsula; 06452. cumulus, cloud line, cloud top cooling, shower, waterspout, Australia, Gulf of Carpentaria; 08949. desertification, afforestation, cultivation, vegetation cover, albedo, early rain, landuse change, Israel; 10021. drought, climate change, precipitation trend, confluence, Africa, Sahel; Atlantic; 04347. interannual variability, study period(1932-1983), Africa, (East); 07677. rain onset, millet, soil water, cowpea, Niger, Niamey; Africa, Sahel; 00713. storm, spatial variability, rainfall, Niger; 07674.
raised beach
accumulation, boulder track, ice pushing, ice cover, coast, wave cut platform, Sweden, Gotland; Baltic Sea; 02344. Amino acid dating, uranium series dating, speleothem, Ipswichian, erratic, glacial deposit, Devensian age, UK, Wales; 10768. Bembridge Raised Beach, Lane End deposit, Priory Bay deposit, Boxgrove deposit, Earnley deposit, Stone deposit, West Wittering deposit, deposit correlation, Pleistocene, sea level, neotectonic history, Steyne Wood Clay, UK, England, Isle of Wight, Bembridge; Solent; 02679. frost-riving, wash line, archaeology, emergence, raised marine feature, radiocarbon date, sea level change, Canada, Foxe Basin, Melville Peninsula; 11981. Godhavn stade, Disko stade, marine limit, equilibrium line altitude, palaeoclimatic implication, Holocene(Early), glacier advance, Greenland, West Greenland, Disko Island; 07280. ice sheet extent, ice sheet thickness, Innuitian Ice Sheet, postglacial adjustment, isostatic model, sea level curve, relative sea level, technique uplift hypothesis, postglacial uplift, Canada; 11940. Loch Lomond Readvance, glacial deposit, till, glacial landform, UK, Scotland, Inner Hebrides; Outer Hebrides; 13128. measurement, calibration, weathering process, wave washed moraine, bedrock, Schmidt Test hammer, isostatic uplift, rock weathering rate, Sweden, Norrland; 03928. Mytilus edulis, transgression, sea level, glacial history, shoreline displacement, deglaciation, Svalbard, Spitsbergen, Bohemanflya; Erdmannflya; 07279. sediment transport, sea level change, facies, gravel, Holocene, Greece, Crete, Chora Skafion; 02345. till, Wolstonian, Devensian, head, glacial deposit, erratic, UK, England, Scilly Isles; 13143.
raised beach chronology
interglacial raised beach, thermoluminescence, feldspar, Eemian, dune sand, beach sand, loess, UK, Channel Islands; France; 07275.
raised beach deposit
last glaciation, late glacial, Neoglacial, Quaternary glaciation, Quaternary(Late), glacier fluctuation, sea level control, tectonics, equilibrium line altitude, tidewater glacier, radiometric dating, Southern Ocean; Antarctica, Antarctic Peninsula; 02654.
raised beach sequence
emergence rate, transgression, standline tilt, glacier load, post glacial, sea level history, Weichselian(Late), Holocene, Svalbard, Spitsbergen; 05039.
raised bog
heather, wind erosion, bog relief, Heidemoore development, Germany, Lower Saxony; 08485. Neolithic, forest clearance, Bronze Age, vegetational history, pollen zone, radiocarbon date, lowland, UK, Northern Ireland, Antrim, Sluggan Bog; 13149. ombrotrophic bog, methane reservoir, bog, peatland, greenhouse gas, elevated water table, hydraulic conductivity, 02830. pH effect, alkaline fertilising, acid fertilising, sorption capacity, soil property, peat soil, Germany, Lower Saxony, Konigsmoor; 08625. radiocarbon dating, pollen analysis, peat, mire, historical study, paleoecological study, Holocene peat, Netherlands, Noord Brabant, Zundert Province; 08478. soligenous fen, ombrotrophic bog, peatland, surface water chemistry, Sphagnum moss, sodium, chloride, blanket bog, soligenous poor fen, Canada, British Columbia, Queen Charlotte Islands, Graham Island; 02873.
raised deposit
British Geological Survey, drift map, till, marine deposit, former coastline, morainic landform, Loch Lomond Stadial, UK, Scotland, Greenock; Clyde Estuary; 07143.
raised landscape dynamics
space and time structure, time structure, landscape research, Germany; 04887.
raised marine beach
clisimeter route, altimeter route, photogeological map, aerial photograph, morphological profile, Svalbard, Spitsbergen; 02688.
raised marine feature
radiocarbon date, sea level change, raised beach, frost-riving, wash line, archaeology, emergence, Canada, Foxe Basin, Melville Peninsula; 11981.
raised marine terrace
proglacial river, radiocarbon dating, Vistulian, Holocene, litho-chronostratigraphy, profile, glacial deposit, chronostratigraphy, Svalbard, Spitsbergen, Horbyedalen; 02690.
raised reef terrace
terrace, interglacial raised reef, uplift, stratigraphy, tectonic implication, uranium series dating, coral reef, Red Sea, Zabargad Island; Northern Brother Island; 10806.
raised shoreline
glacioisostatic depression, forebulge, ice-sheet thickness, rebound, sea level, Arctic; 11979. palaeoecology, tectonic implication, uplift, earthquake damage, Holocene, Turkey, Hatay Coasts; Syria, Orontes Delta; 08500.
raised terrace
seismic reflection profile, glacio eustatic change, sea level, fluvial dissection, Quaternary history, sedimentological interpretation, Greece, Gulf of Patras; Gulf of Corinth; 10804.
Ramblian
carbonate, basin infill, lacustrine deposit, Miocene, Spain, Cuenca Province, Loranca Basin; 11757.
ramiform cave
dissolution rate, artesian flow, cave origin, cave morphology, limestone cave, flow route, wall retreat rate, sinkhole recharge, maze cave, 06043.
ramp
reef, Carboniferous, carbonate platform, eustatic, sediment accumulation, sea floor, limestone, 00120.
ramp margin
Muskiki Formation, Marshybank Formation, Coniacian, Santonian, sandstone, shelf facies, sea level curve, Canada, Alberta; 11716.
Rampas de coluvies
subsurface flow, slope geometry, gully erosion, hillslope geometry, concave slope, gully evolution, colluvial sheet, Brazil, Sao Paulo, Bananal; 10674.
rana soil
clay mineral, high-charge smectite, kaolinite, illite, hydroxy-interlayered clay, Spain; 12107.
random boundary condition
recharge, stochastic boundary value problem, domain recharge, boundary element solution, groundwater flow, 13413.
random dot stereogram
computer stereo vision, human binocular vision, stereo matching, 07913.
random effect probability model
parameter bias, hydrograph, model parameter, runoff routing model, incompatible storm data, 00519.
random error
Debrecen radiocarbon laboratory, methane filled counter system, gas contamination, radiocarbon measurement, Hungary, Debrecen; 04939. statistical framework, diagnostic tool, random observational error, model performance evaluation, data error, observational error, Monte Carlo simulation, value bias, 08324.
random graph
Poisson process, cluster, percolation, 12645.
random initial value
initial value, forecasting result, Monte Carlo forecast, forcing, 10054.
random measurement error
nugget variance, error estimation model, pH, instrumental drift, 03990.
random noise
digital image, pixel, box filter, 06738.
random observational error
model performance evaluation, data error, observational error, Monte Carlo simulation, value bias, random error, statistical framework, diagnostic tool, 08324.
random sampling
sampling variability, groundwater elevation, groundwater monitoring, contour map, 01711. statistical analysis, coliform bacteria, fecal streptococci, membrane filtration technique, water quality monitoring, surface water quality, fecal indicator, 01684.
random surface
self affinity, landform, measurement, fractal geometry, scaling parameter, 03697.
random walk model
dispersion, fracture network, groundwater flow, contaminant migration, percolation, 09879.
random walk particle method
advection process, dispersion process, unsaturated media, variable flow field, plume dispersion, mixing, numerical model, three dimensional method, solute transport, groundwater flow, saturated media, heterogeneous flow system, 08776.
random walk particles model
groundwater flow, Richards equation, contaminant transport, unsaturated zone, France, Orleans; 06340.
range
global shape classification, Fourier descriptor, shape definition, 07973. interval, classification, 04582. soil loss equation, simulated rainfall, bare ground, runoff, pasture, USA, North Dakota; 13206.
range degradation
herd size, land cover, vegetation class, degradation indicator, Botswana; 05744. Landsat MSS, natural vegetation cover, drought, Botswana; 12744.
range fire
exposure age, geomorphic surface, spalling, rock varnish, erosion rate, USA, California, Owens Valley; 13195.
range image
morphological decomposition, pattern recognition, 10305.
range interpolation
antenna pattern, AgriSAR, radiometric distortion, image calibration, 10245.

range limit
Scots pine, climate change, greenhouse effect, forest retreat, rapid change, 13626.
range management
sediment geochemistry, environmental change, sediment record, lake, diatom stratigraphy, elk population, erosion rate, lead-210 dating, pollen analysis, USA, Wyoming, Yellowstone National Park; 10778.
range noise
system pointing capability, geodetic parameter, Geoscience Laser Ranging System, three dimensional relative position, 07908.
range normalisation
laser, radar imagery, 13793.
range spectrum
radar backscatter, forest, helicopter borne scatterometer, principal component analysis, Finland, Helsinki, Espoo; 03442.
rangeland
cultivation, organic matter, carbon, phosphorus, nitrogen, labile form, USA, Great Plains; 09744. evapotranspiration, transpiration, lysimeter, grassland, soil water evaporation, crop coefficient, USA, South Dakota, Newell; Idaho, Reynolds; USA, Wyoming, Gillette; 10979. experiment, soil erodibility, Water Erosion Prediction Project, surface runoff, ephemeral gully, rill, erodibility value, USLE, cropland, 13202. experiment, Water Erosion Prediction Project, vegetation canopy, USLE, runoff, soil erosion, canopy cover, infiltration, interception loss, USA; 13205. infiltration, groundwater recharge, harvester ant, soil moisture pattern, USA, Idaho; 02893. runoff model, evapotranspiration model, erosion model, runoff prediction, hydrological model, 10969. succession, abandoned cropland, organic matter, soil chemical property, Chernozemic zone, soil transformation, Canada, Alberta; 08613. terracing, wheat field, saline seep, groundwater quality, salinity, nitrate, 13447. water balance, lysimeter, runoff, interrill erosion, evapotranspiration, water yield, drainage, watershed management, land management, USA, Texas, Rolling Plains; 11096.
rangeland catchment
curve number method, Green and Ampt equation, model parameterisation, catchment characteristic, Soil Conservation Service curve number, runoff prediction, USA, Texas; Oklahoma; USA, Arizona; USA, Nebraska; USA, Idaho; 08665. geostatistical technique, steady state infiltration, rainfall-runoff model, spatial variability, infiltration, 01705. Horton overland flow, Dunne overland flow, rainfall-runoff model, overland flow, infiltration, 01652.
rangeland growth
environmental change, vegetation index, AVHRR, precipitation, 01115.
rangeland hydrology
Kostiakov equation, grassland, Canada, Alberta; 12221. water holding capacity, litter, soil organic matter, grassland ecosystem, interception, grazing intensity, Canada, Alberta; 12276.
rangeland inventory
aerial photograph, resource management, USA, Arizona; 03429.
rangeland watershed
KINEROS, runoff, tillage practice, contour ripping, hydrological modelling, 10986.
ranging
high frequency, polar motion, LAGEOS, 02098.
Rangitoto lava
fault movement, Anadara trapezia, radiocarbon dating, sea level, Quaternary(Late), Anadara bearing deposit, New Zealand, Hauraki Gulf, Rangitoto Island; 06189.
rank
fluorescence, vitrinite reflectance, thermal evolution, oil, organic matter, source rock, maturity, 11785.
rank-order operator
image enhancement, filter, 03306.
ranking
toxic contaminant, methyl bromide, epichlorhydrin, phosgene, 13641.
Rapaiti catamaran
surface wind vector, wind water transfer factor, beaching, drift velocity, 07736.
rapid change
range limit, Scots pine, climate change, greenhouse effect, forest retreat, 13626.
rapid deposition
manganese, ocean, atmospheric carbon dioxide, redox cycle, spike, glacial interglacial boundary, 11917.
rapid determination
corrosion property, surface water, chemical composition, seasonal change, carbon dioxide, nomogram, scaling, 02703.
rapid development
ice particle concentration, polar cloud, maritime cloud, cumuliform cloud, cloud, 12467.
rapid response
short term flow, chemical response, catchment model, stream chemistry, water chemistry, stream flow, UK, Scotland, Allt a'Mharcaidh; 13390.
rapid sea level rise
marine ice sheet, ice sheet decoupling, sea level change, sedimentation, mass wasting, USA, Texas, Texas Continental Shelf, Trinity Valley; Gulf of Mexico; Sabine Valley; 10801.
rapid sedimentation
terminus advance, proglacial lake, suspended sediment concentration, push moraine, meltwater channel, glacial surging, sedimentation, ice contact lake, USA, Alaska, Glacier Bay, Carroll Glacier; 02634.
rapid sedimentation event
glacial Lake Agassiz, esker, subaqueous fan, drainage network instability, discharge surging, moraine formation, subglacial sedimentation, glaciolacustrine sedimentation, Canada, Ontario; 09575.
rapid tectonic uplift
weathering, uplift, abandoned channel, incised meander, Korea(South); 04890.
rapid uplift
horizontal creep, vertical crustal movement, tectonic implication, leveling survey, tidal observation, Philippine Sea Plate, Eurasian Plate, deformation, Taiwan; 04902.
rapid vertical accumulation
reef island, Darwin, coral atoll, geomorphology, volcanic basement, reef growth, subsidence rate, sea level change, radiometric dating, Indian Ocean, Cocos Islands; Keeling Islands; 02681.
rapid warming
oceanographic change, melt water flow, North Atlantic Deep Water, climatic shift, global change, Younger Dryas, Atlantic, (North); 08426.
rapid weathering
permafrost, nivation, weathering, Schmidt hammer, enhanced boulder weathering, snowpatch, Switzerland; UK, Scotland; Norway, Glittertinden; 00352.
rapid wetting
air entrapment, differential swelling, mellowing, tensile strength, moulded soil, 00377.
rapidly eroded soil mass
clay shale, swelling, erosion, pore pressure field, Italy, Appennines; 02544.
rapidly intensifying cyclone
bomb, air-sea interaction, storm, cyclone, 00747.
rare earth element
cerium, Tamba Group, accretionary prism, Panthalassa Ocean, shale, 02448. crust, fractionation, seawater, Pacific, Hawaiian Archipelago, Schumann Seamount; 12890. crust, hydrothermal input, oxyhydroxide, nodule, manganese iron oxyhydroxide, Atlantic, Cape Verde Abyssal Plain, Krylov Seamount; 07021. deep sea fan, mud, weathering, kaolinite, Atlantic, Amazon Deep Sea Fan; 04760. geochronology, hydrothermal sediment, ooze, ferromanganese deposit, trace element, accumulation rate, Pacific, North Fiji Basin; 12892. guano, apatite, reef, supersaturation, phosphate, Pacific, Nauru; 00134. isotopic data, siliceous rock, chondritic pattern, 09439. palaeoceanographic, cerium, carbonate, seawater, sedimentation rate, Indian Ocean, ODP Leg 115; Mascarene Plateau; 03673. phosphate, diagenesis, apatite, crystallinity index, 04853. riverine input, crustal abundance, diagenesis, marine sediment, dissolution method, 04872. sea water, Ulva lactuca L., partition coefficient, carbonate ion, macroalgae, 02432. sedimentary provenance, diagenesis, turbidite, mudrock, Llandovery, UK, Wales; 08294. Smackover Formation, isotopic composition, burial, interstitial fluid, Jurassic, USA, Gulf Coast, Arkansas Shelf; 01278.
rare earth elements
waste water, anthropogenic input, bastnasite, monazite, USA, California, Santa Barbara Basin; San Pedro Shelf; 08196.
rare weather event
extreme climate, growing season, frost, precipitation, Sweden, Karesuando; 03035.
raster
data model, geomatics, object, vector, 13858. geographical information system, microcomputer, 10327. GIS, pollution information, tidal mixing, harbour, USA, Massachusetts, Boston; 06908. GIS, spatial data, vector, 04540. image handling, vector, GIS, 13829. mapping, micro computer, vector, 02178. optical disk technology, SMARTSCAN, scanner technology, 05579. topographic map, vector, Germany, Saxony; 11534. vector data, ecological research, GIS, temporal ecological phenomena, spatial ecological phenomena, 06803.
raster archive
hybrid, GIS, photogrammetric camera, remote sensing, scanner system, Germany; 06789.
raster conversion
vector conversion, gypsy moth infestation, GIS, accuracy standard, USA, Virginia; 06763.
raster data
GIS, data structure, vector data, 11505. land use development, database, GIS, LIS, 06744.
raster data structure
rasterisation, cell size, vector structure, GIS, process error, 12675.
raster device
circle drawing, algorithm, 11485.
raster element
Borgefors distance transform, contour, GIS, digital elevation model, 12679.
raster form
database, planimetric data, vector form, 11499.
raster image
information system, photogrammetric workstation, image superimposition, 07919. object identification, dilation, vector domain, 13873.
raster image organisation
manual digitisation, DEM, digital map revision, 10369.
raster map data
scanning, printing plate, 08049.
raster scan
photogrammetry, GIS, aerial photography, utility mapping, New Zealand; 13838.
raster scanning
scanning efficiency, service bureaux, cartographic document, digitising process, 06717.
raster technology
vector technology, GIS, vector overlay, 06762.
raster-vector integration
Voronoi diagram, spatial adjacency, interpolation, polygon skeletonisation, 00978.
rasterisation
cell size, vector structure, GIS, process error, raster data structure, 12675.
rate
control, predictability, erosion rate, rill erosion, arable land, Belgium; 12035. frequency, cause, agricultural policy, erosion impact, soil erosion, review, flooding, UK, England, Sussex, South Downs; 01509. laboratory study, lysimeter study, chemical weathering, feldspar, dissolution rate, weathering rate, microorganism, percolation lysimeter, Sweden, Svartberget; 09625. resurfacing, crater obliteration, crater production, crater lifetime, volcanic crater, viscous relaxation, crater ejecta halo, tectonic feature, nature, Venus; 02526.
rate coefficient

hydroxyl radical, hydrofluoroethane, hydrofluorochloroethane, 12556. nitric oxide, nitrogen dioxide, 11352. photolysis, nitrate radical, molecular modulation spectroscopic technique, 06618.
rate constant
absorption spectrum, sulphate radical, kinetics, 06635. Arrhenius parameter, ozone, alkene, ethene, propene, butene, pentene, hexene, 06620. bromine, chlorine, ozone hole, polar stratospheric ozone, branching ratio, 06660. camphene, sabinene, hydroxyl radical, nitrate radical, ozone, monoterpene, 06568. chlorocarbon, tropspheric oxidation, removal process, chlorine containing compound, trichloroethane, 06639. dimethyl selenide, hydroxyl, nitrate, ozone, selenium, 05537. hydroxy radical, chlorine, alkyl, nitrate, 06628. infrared absorption, chloroacetaldehyde, alkane, alkene, photolysis, 06663. kinetic, hydroxy radical, hydroxyvinyl, hydroxyvinyl adduct, 06617. kinetics, chlorine, ozone depletion, photolysis, 06683. mixing layer, nitrous acid, aerosol surface, Germany, Mainz; 06607. secondary reaction, sulphur compound, peroxyacetyl radical, PAN, 06661. self reaction, laser flash photolysis, nitrate radical, 06657. sulphite, ammonium, photofragment emission flow tube, ammonium sulphate, 05528.
rate constant value
chlorine, UV spectrum, kinetics, trichloromethyl radical, 06638.
rate estimation procedure
nitrogen-15, fertiliser, mineralisation, immobilisation, 09727.
rate model
iceberg melting, process model, description, modelling, glacimarine sediment, sedimentation, 04987.
rate of comminution
transport distance, basal till, transport, magnetite, ilmenite, glaciers, comminution, USA, New York, Adirondack Mountains; 13117.
rate of cryoplanation
frost action, gelifluction, wash, cryoplanation surface, smooth slope, slope evolution, periglacial denudation, frost-riven cliff, cryopediment, Hungary, Tokaj Mountains; 12003.
rate of erosion
shoreline change, erosion rate, aerial photographic coverage, USA, Massachusetts, Boston Harbor; 12722.
rate of shoreline erosion
global warming, sea level, barrier beach erosion, rising sea level, kinematic model, USA, Atlantic Coast; Gulf of Mexico; 05034.
rate of submergence
pollen geochronology, subsidence, land loss, marsh, vertical accretion rate, sea-level change, USA, Maryland, Chesapeake Bay; 11983.
rate rate
frontal development, spinup time, diabatic initialisation, regional finite element model, satellite data, humidity enhancement, latent heating profile, Canada; 10103.
rate ratio
photochemical theory, solar occultation data, stratospheric chemistry, 06548.
rate type law
modelling, soil-structure interface behaviour, elastoplasticity, 00248.
rates of growth
length, volume, gully erosion rate, 12024.
rates of net organic accumulation
slope process, macroclimatic change, Holocene, soligenous fen, high Arctic, fault block, autochthonous peat deposit, macrofossil, Canada, Northwest Territories, Ellesmere Island, Grant Land Mountains; 11965.
rates of soil erosion
rainfall, runoff, soil loss, conservation, supplemental irrigation, water harvesting, India, Punjab; 12042.
rates of soil redistribution
soil zone, slope class, regional erosional inventory, caesium-137, soil erosion, Canada, Saskatchewan; 05053.
rating curve
monitoring programme, sediment production, soil erosion, suspended sediment, assessment strategy, Hong Kong; 06244. transport formula, Helley Smith bed load sampling, Schoklitsch sediment transport formula, glacier, melt water, bedload, sediment yield, bed width, particle size, mountain stream, sediment trap, Switzerland, Valais, Bas Glacier d'Arolla; 08713.
ratio estimator
AVHRR, Landsat MSS, forest, vegetation index, USA; 02223.
ratio of low-pass pyramid
image fusion, visual perception, 03301.
rational regime theory
hydraulic geometry, gravel bed, stream, slope induced change, channel character, channel pattern, downstream fining, UK, Scotland, Allt Dubhaig; 07138.
Ravenscar Group
depositional environment, groundwater, pedogenesis, Jurassic, diagenesis, UK, England, Yorkshire, Whitby; 10646.
ravine
canyon, permeability, brine, erosion, escarpment, USA, Gulf of Mexico, Florida Escarpment; 01242. runoff, anthropogenic erosion, accelerated soil erosion, soil erosion, upland erosion, France, Cevennes, Lingas Uplands; 08340.
ravine formation
hazard, anthropogenic, gully erosion, USSR, Volgograd Area; 03949.
ravinement
forearc basin, Middle Yezo Group, Cretaceous, facies change, Mikasa Formation, sandstone, Japan, Yezo Basin; 11728.
raw material
tile, floodplain, ceramic feature, Germany, River Elbe, Riesa; 00189.
rawindonde
synoptic map, meso beta scale complex cell, rainband, meso alpha scale cyclone, mesoscale, rain, weather radar network, rain gauge, China, Beijing; 05324.
rawinsonde data
rainfall forecast, radar data, urban hydrology, forecasting quality, 13313.
rawinsonde observation
error growth, four dimensional data, data assimilation, limited area model, mesoscale model, synoptic scale data, 07759.
ray theory
oceanic mixed layer, geostrophic flow, wave propagation, Rossby wave, 01179.
Rayleigh
lidar, case study, mesosphere, stratospehre, saturation limit, gravity wave, middle atmosphere, 12305. lidar, climatology, seasonal variability, wind intensity, gravity wave, middle atmosphere, 12306.
Rayleigh damping
parcel rise rate, hydrometeor drag, temperature deviation, thunderstorm, cloud top dynamic, overshooting thunderstorm cloud top, 04302.
Rayleigh equation
fractionation, carbon, carbonate, pH, isotopic fractionation, 01320.
Rayleigh mode
convective pattern, stratocumulus, mesoscale cloud structure, boundary layer, sea surface, cloud top, 07779.
Rayleigh radiance
phytoplankton pigment, CZCS, aerosol scattering, water leaving radiance, 12694.
Rayleigh scatter observation
stratospheric height, lidar, gravity wave, UK, Wales, Aberystwyth; 09965.
Rayleigh scattering
backscatter, absorption coefficient, satellite measurement, ultraviolet radiation, ozone, 07655. radiation parameterisation scheme, forecast model, emissivity, water vapor path length, aerosol, solar radiation, cloud, ozone, 05371.
Rayleigh theory
Mie theory, ensemble averaging, backscattering, nonspherical particle, particle, statistical approach, 12561.
Rayleigh-lidar sounding technique
middle atmosphere, reference atmosphere, lidar, 11155.
RC 14-99
regional vegetation, gymnosperm, angiosperm, glacial interval, pollen record, deep sea core, V28-304, Japan; 04967.
re-frozen slush ice
bi-directional reflectance, fresh water ice, cryospheric albedo, 03019.
reach back characteristics method
dispersion, pollutant transport, advection, diffusion, channel flow, 12200.
reaction
kinetic, weathering, geology student, dissolution rate, microwave oven, field weathering study, earth science teaching, 03923. measurement, nitrogen oxide, power plant, plume, night, modelling, ozone, 13728.
reaction front
fingering, scalloping, calcite, sandstone, weathering, 04848.
reaction kinetics
diagenesis, feldspathic sand, sea water, sediment dissolution, 07077. HFC's, ozone depletion, greenhouse warming, infrared absorption cross section, hydroxyl radical, 06555. Holocene, pollen curve, model, plant population growth, 04933. radical, photolysis, iodoethanol, molecular modulation technique, 06616.
reaction partner
nitrate radical, laser flash photolysism, nitrate self reaction, 06646.
reaction probability
polar stratosphere, cloud material, chlorine, ozone hole, nitric acid tryhydrate, 12546. stratospheric chemistry, chlorine, photooxidation, eruption, alkalic volcano, volcano, nitrogen oxide, sodium chloride, 10218.
reaction products
chlorine, methylperoxy self reaction, branching ratio, 06623.
reaction rate
atmospheric persistence, ozone, hydroxyl radical, nitrate radical, aliphatic, aromatic toxic organics, chloroprene, hexachlorocyclopentadiene, cresol, nitrosamine, maleic anhydride, nitrobenzene, methyl bromide, phosgene, toxic contaminant, 10206. fluorine, chlorine, methane, ethane, Mulliken charge, hydrofluorocarbon, HFC's, 06573. karst terrane, mass transfer model, dissolution, precipitation, turbulent motion, calcite solution, liquid solid interface, 10719.
reaction rate constant
photo cross section, satellite observation, trace molecule spectroscopy, nitrogen oxide, nitrogen dioxide, dinitrogen pentoxide, photochemical model, 04386.
reactive gas uptake
transport behaviour, gas transport model, aggregated soil, 07336.
reactive odd nitrogen
stratosphere, nitrous oxide, ozone, water vapour, Arctic; 00796.
reactive phosphorus
nitrogen, phosphorus, nutrient, trophic state, seasonal variation, spatial variation, physico chemical variable, solubility, reservoir water chemistry, alkalinity, ammonium, pH, Venezuela, Guanapito Reservoir; 13336.
reactive solute
diffusion, solute transport, fracture flow, groundwater flow, advection, 13411.
reactivity
Quarternary, hydrophobic, alkyl chain, solvent, silicate, 01331.
reactor
atmospheric carbon dioxide, carbon 14, carbon 13, carbon, isotope, Poland, Krakow; USA, California, La Jolla; 06581. nuclear power station, radionuclide, advection, deposition pattern, transport, Scandinavia; USSR, Chernobyl; 11308.
readvance
Miami sublobe, radiocarbon, glacial stratigraphic interpretation, contamination, stump cluster, glacier advance, Laurentide ice sheet, USA, Ohio, Cincinnati, Sharonville Site; 01430. moraine, calving glacier, topographic control, glaciological control, Holocene, ice-sheet margin dynamics, Sisimiut glacial maximum, Greenland, West Greenland, Ilulissat; 00301.
readvance status
Gwynedd readvance, Irish Sea glacier, Devensian glaciation, ice direction, UK, Wales, Lleyn Peninsula; 13132.
reaeration

oxygen absorption, water quality model, surface water quality, 09830.
eafforestation
carbon dioxide, global effect, tropical deforestation, carbon stock, 07802.
eal estate
cadastre, inventory, developing country, 04682. park map, municipal GIS, GIS, Canada, Ontario, Scarborough; 01154. retailing, GIS, 05769.
eal estate developer
GIS, land development, planning, 09297.
eal estate surveying
liability, GPS, 05599.
eal time
transport, trajectory forecast model, forecast, debris transport, 12475.
eal time alert system
flood forecasting, ice dam outburst, glacier-dammed lake, flood wave, snowmelt wave, flood tables, inundation maps, flood forecasting, Argentina, Mendoza River; 05241.
eal time compression
compression, X-SAR data, data, 09115.
eal time correction
rainfall processing, forecasting system, flood forecasting, forecasting accuracy, China, Yangtze River, Three Gorges; 10990.
eal time data processing
rectification, meteorology, nowcasting, 05585.
eal time data retrieval
flood forecasting, conceptual model, rainfall runoff model, telemetry, hydrometric network, flow routing routine, rainfall radar image, rain gauge data, river level, flow hydrograph, computer controlled system, automated data retrieval, flood warning system, UK, England, Severn-Trent region; 05259.
eal time display
pollution monitoring, data presentation, France, Ile de France; 01973.
eal time forecasting
linear perturbation model, flow forecasting, river flow model, China, Hankou, Yangtze River; 09809. rainfall runoff model, radar, rainfall, rain gauge, flood forecasting, UK; 05448.
eal time hydrological forecasting
flood forecasting, forecasting model, rainfall-runoff relationship, weather radar data, Belgium, Meuse River; 04036.
eal time information system
climate, information system, Midwestern Climate Information System, USA; 13478.
eal time measurement
precipitation, rain, snow, hail, radar, radar satellite, weather radar networking, Europe; 05365.
eal time operational methodology
streamflow forecasting, AutoRegressive Integrated Moving Average model, reservoir operation, India, Karnataka, Bhadra Reservoir; 02849.
eal time optimal flood control
flood-routing simulation model, flood control operation, reservoir, USA, Texas, Lower Colorado River, Lake Travis; 02851.
eal world image
motion blurred image, image, point spread function, 13781.
eal-time control
hydroelectric power, reservoir dynamics, reservoir operation, reservoir, Venezuela, Caroni River; 00541.
eal-time monitoring
time-domain subaperture approach, SAR processing, 10251.
ealistic geography
cryodynamics, geodynamics, solar forcing, sea level, last glacial interglacial cycle, greenhouse gas, ice sheet model, Pleistocene(Late), ice sheet growth, Northern Hemisphere; 09544.
ealtime forecasting
National Weather Service River Forecast System, WMO, streamflow forecasting, hydrologic forecasting, USA, Oklahoma, Bird Creek; France, Orgeval Basin; 00518.
ealtime monitoring
monitoring, soil moisture, reflectometry, USA, New Hampshire, Hubbard Brook Forest; 13895.
eattachment bar
dune, bedform, ripple, channel, USA, Arizona, Grand, Canyon; Colorado River; 05810.
ebound
sea level, raised shoreline, glacioisostatic depression, forebulge, ice-sheet thickness, Arctic; 11979.
ebound inversion
post glacial rebound, resolving power analysis, inverse theory, mantle viscosity, isostatic adjustment, glacial isostasy, 07164.
ebound model
long period variation, sea level variation, global tide, tide gauge data, post glacial, North Sea; 13170.
eceiving position
GPS, time comparison, adjustment, 04495.
ecent
bacteria, microbial mediation, phosphogenesis, continental margin, Peru; 05905. calcic microstructure, petrocalcic microstructure, palaeosol, micromorphological classification, fossil, 01476. diatom, temperature, sea ice, glacial-interglacial cycle, productivity, microfossil, oceanographic change, Iceland Sea; Greenland Sea; Norwegian Sea; 02366. gullying, gully growth, colluvium, stoneline, headward extension, prehistoric gullying, Zimbabwe, St. Michaels Mission; 08552. Holocene, deep sea fan, Quaternary, foraminifera, Mediterranean Sea, Gulf of Lions; 07069. Pleistocene, subpolar, Permian, subtropical climate, Ordovician, cool temperate climate, Australia, Tasmania; 12935. tectonic stress, basalt dyke, magnetic susceptibility, microstructure, tectonic overprinting, stress orientation, Cretaceous(Late), Italy, Sicily, Capo Passero; 07170.
ecent crustal movement
geodetic measurement, levelling, Hungary, Pannonian Basin; 06015.
ecent evolution
gulley, dry phase, sangol, slope deposit, fire, forest, savannas, cattle grazing, rilling of slopes, gullying, Nigeria, Adamawa Highlands; Cameroon, Adamawa Highlands; 12038.
recent morphodynamic
arid-morphodynamic process, terrace-sediment, hydration-dehydration, salt crystallization, microscale feature, weathering product, cavernous weathering, cliff retreat, geomorphological study, Israel, Sinai Desert; Egypt, Negev Desert; 02497.
recent record
long term record, soil erosion record, field study, soil erosion, agricultural land, lake sediment, Sweden; 01515.
recent sediment
catchment process, dating tool, caesium 137, Australia; 08336.
recent stress history
soil stiffness, overconsolidated soil, London Clay, reconstituted sample, clay, shear modulus, triaxial test, 04905.
recent tectonic movement
tectonic movement, fault zone, Qilianshan Fault Zone, tectonic belt, uplift, China, Qinghai-Xizang Plateau; 08372. tectonic movement, vertical movement, neotectonic framework, subsidence zone, strain value, crustal deformation, geodetic measurement, China; 08373.
recent trend
perspective, regional geography, physiography, geological structure, Sri Lanka; 01385.
receptor
dispersion modelling, principal components analysis, chemical mass balance, 01998.
receptor area
uncertainty, source receptor relationship, transboundary air, pollution, control strategy, emission reduction cost, RAINS model, Austria; 11367.
receptor model
source apportionment, factor analysis, principal component, complex airshed, multivariate modelling approach, inhalable particulate matter, USA, New Jersey, Newark; 13732. trace metal, inorganic anion, factor analysis, pollution, dispersion model, Hong Kong; 03170.
receptor modelling
aerosol, factor analysis, Belgium, Antwerp; 11382. chemical mass balance, aerosol, particle, urban pollution, regional pollution, lead, nickel, USA, California Desert; 12539. long range transport, sulphur, eigenvector, power plant, particulate sulphur, source attribution, USA, (Western); 11374. particle, empirical orthogonal function, multivariate statistics, sulphate, pollution, advection differential equation, 13683.
recession
chalk cliff, cliff failure, coastal recession rate, stability, UK, England, Isle of Wight, Compton Down; 03827. Greenland Inland Ice margin, Holocene, climatic optimum, fjord system, climatic record, Greenland, West Greenland, Jakobshavn Isfjord Area; 02645. mountain region, snowline, glaciation, Great Asau glacier, USSR, Caucasus Mountains; 13145.
recession analysis
low flow, ungauged catchment, automated technique, base flow separation, Australia; 04041.
recession curve
total runoff, base flow, unit hydrograph, hydrograph separation, rainfall intensity, antecedent moisture condition, surface runoff, pervious basin, tropical basin, Africa, Sahel; 00524.
recession time
soil conservation, conservation measure, runoff response, India, Rajasthan, Aravalis Hills; 00520.
recessional event
Moody South Meadows ice margin, marginal alignment, lake stage, spillway, deglacial thinning, outwash, Wisconsinan(Late), ice margin, USA, New York, Adirondack Mountains; 07231.
recharge
abstraction, drawdown, water management, model calibration, model reliability, groundwater model, Botswana, Jwaneng Northern Wellfield; 09925. acidification, aluminium concentration, buffering capacity, nitrate, sulphate, chloride, atmospheric deposition, forested catchment, groundwater contamination, Germany, Fichtelgebirge; Spessart; Germany, Ebersberger Forst; 08785. bicarbonate:calcium ratio, infiltration, karst aquifer, groundwater flow, water quality, France, Foussoubie Karstic System; 11078. brine, salinity, groundwater, sabkha, gypsum, Egypt, Sinai, El-Shatt; Ayun Musa; 12865. carbonate alluvial aquifer, flow model, water storage, groundwater age, deuterium isotope, groundwater recharge, mixing cell flow model, USA, Nevada, White River; 07544. coastal lowland, flow model, saline groundwater, peatbog water, groundwater circulation, groundwater recharge, unsteady flow model, water table fluctuation, exchange rate, Poland, Bielawskie Blota; 07543. deep well infiltration, environmental impact, groundwater recharge, potable water, artificial recharge, Netherlands, North Holland Dune Area; 07552. deep well, infiltration, ecological impact, groundwater recharge, potable water, artificial recharge, dune, Netherlands, North Holland Dunes Area; 07576. discharge drawdown relationship, aquifer characteristic, hydrogeology, transmissivity, storage coefficient, groundwater flow, leakage coefficient, water chemistry, USA, Florida; 11117. discharge, inflow rate, outflow rate, surface water groundwater interaction, groundwater lake system, groundwater exchange, solute transport model, stable isotope plume, flow model, USA, Wisconsin; 08773. ground-water, dilution, confined ground water, vertical recharge, isotopically heavy, Pleistocene water, aquifer, USA, Iowa; 11966. groundwater discharge, saltd degraded landscape, salinity, electrical conductivity, soil profile, Thailand; 12218. groundwater discharge, spring model, rhythmic spring, ebb and flow spring, intermittent spring, siphon action, karst spring, Yugoslavia; 12242. groundwater discharge, water balance, mineral balance, capillary rise, high altitude zone, water table fluctuation, rice cultivation, crystalline schist, humid intertropical zone, Madagascar; 09853. groundwater extraction, water management, irrigation water management, runoff yield model, infiltration, soil moisture, groundwater table, evaporation, hysteresis, consumptive wateruse, evapotranspiration, China; 11122. groundwater hydrology, evaporation, fissure system, drainage, unsaturated zone, aquifer recharge, moisture content, piston flow, hydraulic conductivity,

tracer experiment, soil moisture potential, chalk, UK, England, (Southeast); 07523. groundwater resource, infiltration, evaporation, lysimeter, permeability, oasis, suspended sediment, Mali, Air Mountains, Agrar Egalan; 13407. inverse problem, regional head distribution, hydraulic parameter, stochastic inverse modelling, groundwater flow, head distribution, aquifer characteristic, transmissivity, Portugal, Rio-Maior Aquifer; 05223. irrigation water, heterogeneous aquifer, water quality evolution, chloride ion, soluble ion, groundwater quality, upland area, leaching, layered aquifer, Japan, Ibaraki Prefecture, Dejima; 11068. palaeorecharge, groundwater geochemistry, noble gas, Mali, Niger River; 13412. single sampling episode, carbon-14, tritium, half life, periodic sampling, aquifer dynamics, groundwater flow, Canada, Ontario, Waterloo; 11051. stochastic boundary value problem, domain recharge, boundary element solution, groundwater flow, random boundary condition, 13413. storativity, water balance equation, water level response, groundwater recharge, neutron probe measurement, saturated zone, unsaturated zone, soil matrix flow, preferred pathway, saturated volume fluctuation, South Africa, Karoo, Dewetsdorp; De Aar; 11055. unsaturated flow, isotopic investigation, hydrometric investigation, preferential flow, groundwater recharge, hillslope, translatory flow, snow melt, deuterium, soil moisture, 07529. vadose zone, water table fluctuation, hydrogeology, groundwater resource management, water storage, India, Peninsular Indian Shield; 11031.

recharge area
geophysical electromagnetic prospection, wadi, alluvial nappe, groundwater flow, groundwater resource, aquifer geology, aquifer hydrogeology, groundwater recharge area, Niger, Telova-Agadez Wadi; 06408. pumped well, land use effects, groundwater recharge, groundwater contamination, recharge rate, water resource management, glacial drift aquifer, USA; 01734.

recharge component
geochemical species, environmental isotope, Singular Value Decomposition algorithm, groundwater recharge, mixing cell method, quadratic programming algorithm, linear regression theory, Botswana; 11054.

recharge estimate
vadose zone, lysimeter, caesium-137, groundwater contamination, hazardous waste disposal, nuclear waste disposal, groundwater discharge, USA, Washington, Hanford Site; 02918.

recharge estimation
arid area, semi arid area, estimation technique, temporal groundwater variability, spatial groundwater variability, groundwater recharge, 06355.

recharge flux
groundwater pollution, pollution potential, agricultural watershed, manure, fertiliser, herbicide, pesticide, contaminant transport, USA, Pennsylvania; 07579.

recharge pathway
zero flux plane method, water balance, soil water content, soil water potential, chalk aquifer, sandstone aquifer, groundwater recharge, 11035.

recharge potential
turbulent flow, regolithic aquifer, groundwater flow, flow model, aquifer index, flow conductance, Africa, (West), Sahel; 06366.

recharge preferential pathway
chloride balance, tritium concentration, groundwater recharge mechanism, diffuse recharge, crystalline basement complex, localised recharge, Burkina Faso; 06357.

recharge process
aquifer flow model, chloride balance, soil moisture study, semi arid area, groundwater resource, groundwater recharge, aquifer low transmissivity, sandstone aquifer, Botswana, Kalahari; 06361.

recharge rate
artificial recharge, unsaturated zone, infiltration rate, water table response, Iran, Ghazvin Plain; 13406. groundwater circulation, hydrochemical study, confined aquifer, isotopic study, hydrogeological study, cretaceous aquifer, groundwater resource, groundwater recharge, Benin; 00596. linear estimation, Monte Carlo simulation, groundwater flow model, model calibration, geostatistical technique, hydraulic conductivity, 09865. seepage, groundwater recharge, isotopic study, water chemistry, surface water chemistry, China, Harbin; Songhuajiang River; 09937. solute transport, heat transport, groundwater recharge, mobile water content, water flux, infiltration, soil water, tracer technique, unsaturated hydraulic conductivity, 07524. water resource management, glacial drift aquifer, recharge area, pumped well, land use effects, groundwater recharge, groundwater contamination, USA; 01734.

recharge reduction
subsurface drainage, land degradation, irrigation recharge, water table rise, land use change, Australia, Murray-Darling Basin, Riverine Plains; 05265.

recharge regime
water resource planning, urbanisation, groundwater contamination, urban water, water management, urban hydrology, Latin America; Caribbean; 13471.

recharge source
groundwater resource, groundwater recharge, groundwater circulation, saline water, desert aquifer, Chile, Andes Mountains, Pampa del Tamarugal; 02909.

recharge zone
groundwater residence time, gas chromatography, mass spectrometry, carbon-14 dating, groundwater biogeochemistry, organic carbon cycle, geochemical evolution, dissolved organic carbon, liquid chromatography, groundwater dating, 04141.

reciprocal observation
photogrammetry, network geometry, orientation parameter, 12606.

reciprocal water transfer
resource management, groundwater storage, water resource development, conjunctive water use, artificial recharge, China; 09938.

recirculating drag
specific momentum, current, coast, topographic drag, 01178.

recirculation
dispersion, argon, wind tunnel, gravitational settlement, 03063.

recirculation zone
flow separation, meander bend, bar, sedimentation, USA, Arizona, Colorado River; Grand Canyon; 02312.

reclaimed land
prediction, sediment yield, USLE, USLE parameter, soil loss tolerance level, nonparametric approach, potential erosion, mined, USA, Pennsylvania; 02725.

reclamation
coastal protection, intertidal zone, dike, Wadden Sea, Margrethe-Koog; 00044. erosion affected land, soil conservation, soil degradation, soil loss, land utilisation, identification, Italy, Emilia-Romagna Region; 01516. indurated soil material, permeability, strength moisture relation, hydraulic conductivity, tepetate, Mexico; 07423. peat cutting, peatland, satellite data, aerial photograph, UK, Northern Ireland; 12742. sodic soil, rice, leaching, rinsing, 02780.

reclamation capability
forest clearance, discontinuous gully, allometric pattern, gully erosion, agricultural land, Romania, Moldavian Hills; 01517.

reclamation scheme
map, Netherlands, Haarlemmermeer; 11521.

reclamation technique
desert reclamation, degradation, wind erosion, dust storm control, soil salinity, irrigation, water erosion, soil conservation, 08532.

recognition
intensity, polyhedra, positioning, 04504. road, satellite, GIS, image, 02288. statistical approach, feature analysis, 02106.

reconnaissance geological mapping
airborne geomagnetic survey, Landsat TM, geological structure, volcanosedimentary sequence, Ethiopia, Kurmuk Gizen; 10389.

reconstituted sample
clay, shear modulus, triaxial test, recent stress history, soil stiffness, overconsolidated soil, London Clay, 04905.

reconstructed surface profile
Alpine glacier, dry valleys, grounding line position, sea level changes, Cenozoic(Late), glacial history, ice core, Sirius Formation, uplift, Antarctica, Ross Embayment; Transantarctic Mountains; 02656.

reconstructing
particle flux, tropical, sediment trap study, sediment accumulation pattern, carbonate productivity rate, Atlantic, Sierra Leone Rise; Ceara Rise; 03861.

reconstruction
dynamics, Wisconsin(Late), ice dome, drumlin, glaciological model, Valley Heads Moraine System, ice thickness, basal shear stress, outlet glacier, trough, USA, New York, Finger Lakes; 01431. Holocene, snail, vertebrate, fauna, palaeoclimatic reconstruction, palaeoenvironmental reconstruction, Poland, Cravow, Grodzisko, Nad Mosurem Starym Duza Cave; 06165. image, digital image data, computer vision, surface reconstruction, 13788. ocean carbon system variation, Antarctic nutrient hypothesis, Vostok ice core, ocean carbon pump, Atlantic deep water, Antarctic net carbon production, upwelling, net production value, model, carbon pump efficiency, 02602. past erosional force, tree ring information, torrential rainfall, landslide, debris flow, slope movement, Japan, Rokko Mountains; 03835. RST transformation, pose clustering, 10309. tropical Atlantic hydrography, Planktontic foraminifera, photic zone, well mixed surface layer, trade wind strength, thermocline, ocean model, Atlantic; 02610.

record calibration
eustatic record, palaeomagnetic measurement, core, magnetostratigraphy, sea level, coral atoll, atoll magnetostratigraphy, French Polynesia, Mururoa Atoll; 08504.

recording gauge
air temperature, tipping bucket gauge, rainfall measurement, snowfall measurement, precipitation gauge, mountain basin, dual gauge system, USA, Idaho, Reynolds Creek Watershed; 08649.

recording station
hyetograph, rainfall event, storm, Sweden, Lund; 07776.

recovery
dating, carbon dioxide, polar ice, ice core, 02697.

recovery well model
remediation, fractured bedrock, groundwater pollution, contaminant transport, 02916.

recreation
beach, contingent valuation method, erosion, coastal protection, UK, England; 08200. drinking water, regulatory programme, US Army Corps of Engineers, legislative change, civil works, mitigation, USA; 04772. economic benefit, river protection, USA, Colorado, Rocky Mountains; 04162. ozone layer, climate change, global warming, ultraviolet radiation, impact minimisation, forestry, 13637. phosphorus loading, flood prevention, lake design, lake water quality, artificial lake, trophic state, storm water management, UK, Northern Ireland, Craigavon Lakes; 04059. sand blowing, dunefield, beach, South Africa, Port Alfred; 00157. shellfish, PCBs, estuary, contamination, biota, USA, Hudson River, New York Harbor; 04777. surface water quality, water quality improvement, economic methodology, cost-benefit analysis, 00655. tourism, landuse, erosion rate, urbanisation, USA, Gulf Coast; 11707. transportation, management, water supply, cropland, erosion, sedimentation, USA, Missouri; 12900. urban water, water management, environmental planning, 13474.

recreational mapping
public information symbol, tourism mapping, 09306.

recrystallisation
carbonate mineral, glacial sediment, geochemical clue, palaeoenvironment, diagenetically altered material, carbonate geochemistry, 04991. carbonate sediment, diagenesis, interstitial fluid, carbonate platform, pore water, Indian Ocean, ODP Leg 115; Mascarene Plateau; 03671.

recrystallisation process
temperature gradient, potential sliding layer, avalanche release, snowpack structure, New Zealand, Craigieburn Range; 03837.

rectangle
access method, R tree, point, 13792.

rectangular confined aquifer
steady state flow, pumping test analysis, groundwater flow, finite element method, discharge drawdown relationship, 11053.

ctangular coordinate
boundary error, Barnes objective analysis scheme, 05275.
ctangular weir
sediment flow, weir, V-notch weir, stream flow gauging, 12179.
ctification
meteorology, nowcasting, real time data processing, 05585. multidate image, multisensor image, radiative transfer code, 13786.
ctification accuracy
image fusion, data fusion, synergistic merging, 11458.
ctification parameter
photographic product, aerial photography, pricing, analytical aerotriangulation, USA; 07925.
currence interval
earthquake, headward migration rate, knickpoints age, gully, knickpoint, piedmont fan, China, Helanshan Mountain; 02506. extensional tectonism, neotectonic history, structural style, Campo Grande Fault, fault, basin and range tectonism, fault scarp, movement rate, USA, Texas, Hueco Basin; 11881. historical flood chronology, flood frequency, flood magnitude, UK, Scotland, Berwickshire, Tweed River; 00515. ice sheet, glacier, catastrophic flood, definition, Quaternary, magnitude-frequency relation, UK; 01438.
currence probability
meteorology, weather, USA, Colorado; Wyoming; 02996.
cursive decision rule
heuristics, feature extraction, pattern classification, 06730.
ecursive Least Square identification
Autoregressive model with exogeneous input, iterative deconvolution process, Nash Unit Hydrograph, unit hydrograph technique, flood modelling, rainfall runoff relationship, hydrograph, Africa, Sahel; 06296.
cycling
diagenesis, flux chamber, benthic exchange rate, nutrient, sediment-water interface, Pacific; 05983. input rate, organic carbon, continental margin sediment, seafloor, particle flux, USA, California, Santa Monica Basin; 01241. meiofauna, sedimentation, continental shelf, nepheloid layer, gyre, ecosystem response, Mediterranean Sea, Gulf of Lions; 05852. nitrogen, isotopic ratio, tracer, euphotic zone, nutrient, Bermuda; Sargasso Sea; 04857. nitrogen, sewage, nutrient, estuary, bottom water, USA, Rhode Island, Narragansett Bay; 06980. pollen, spore, river, vegetation, sedimentation, palynomorph load, flowering peak, USA, Texas, Trinity River; 06077.
cycling programme management
solid waste, GIS, 06932.
d bed
aeolian deposit, Triassic, Molteno Formation, alluvial, graben, coal, 03604. back arc basin, dune type, Mesozoic, aeolian sandstone, sandstone, sedimentary structure, Chile, Atacama Region; 10504. Brehe unit, Ordovician, basin, France, Armorican Massif, North Brittany, Brehec; 11724. clay, ceramic, clay mineral, Italy, Emilia, Parma; Piacenza; 03677. Devonian, Catskill Formation, sandstone, shale, source area, antimony, USA, Pennsylvania; 02445. foreland basin, Devonian, miospore, Oneonta Formation, floodplain sediment, magnafacies, USA, New York State, Catskill; 10623. Mesozoic, Jurassic, Cretaceous, factor analysis, sedimentation, Morocco, High Atlas; 04803. Pangea, Triassic, Huizachal Formation, channel pattern, La Joya Formation, Mexico, Sierra Madre Oriental; 11754.
d clay
clay, Zechstein, Rotliegend, loess, glaciation, grain size distribution, Germany; 03676. todorokite, ferromanganese nodule, ooze, nodule, crust, pelagic sediment, Indian Ocean, Central Indian Basin; 00095.
d deer
winter habitat, GIS, 12773.
d dust fall
Saharan dust, long range transport, particle size distribution, SEM, Ireland, Cork; Mayo; Ireland, Galway; 00662.
ed Eagle Formation
cyclothem, mollusc, palaeoecology, shale, Permian, Bennett Shale, USA, Nebraska, Richardson County; 01305.
d earth
soil property, subtropical soil, yellow earth, catena, USSR, Georgia; 12085.
d edge reflectance
vegetation reflectance, infrared shoulder reflectance, chlorophyll well minimum reflectance, 08088.
d edge reflection
biological parameter, vitality indicator, 05738.
d formation
Mesozoic, upward fining sequence, sedimentation, siltstone, sandstone, conglomerate, carbonate, Morocco, High Atlas, Telouet area; 05908.
d interbasaltic level
volcanism, weathering, palaeoclimate, red parting, paleosol, France, Massif Central, Cantal; Velay; 13198.
d laterised soil
mulching, mass movement, creep, clayey soil, shearing test, terracette, stability analysis, landslides, Rwanda, Zaire-Nile Divide; 02551.
d parting
paleosol, red interbasaltic level, volcanism, weathering, palaeoclimate, France, Massif Central, Cantal; Velay; 13198.
d pine
Norway spruce, acidification, soil acidification, 03982.
d pine plantation
hardwood stand, nitrous oxide, soil, emission, USA; 05530.
d soil
conservation measure, agricultural land, black soil, water conservation, land conservation, India; 06232. fersiallite, morphopedology, semi arid area, limestone crust, Algeria; 07426. residual soil, construction material, earth dam, compaction, permeability, shear strength test, dam, Algeria, Souani; 01403. soil structure, yellow soil, soil transformation, mineralogical investigation, tropical soil, Ivory Coast, Booro Borotou; 07761.
d vegetation index
soil, AVHRR, infrared vegetation index, vegetation index, Africa, Sahara; 13952.
redbed
Cambrian, weathering, Billy Creek Formation, Frome Group, haematite, Australia, South Australia, Kangaroo Island; Flinders Ranges; 11775. concretion, carbonate, organic matter, shale, Ninnescah Shale, Permian(Early), USA, Kansas; 09317. detrital mineral, copper, metal, 00159. redox state, stratiform, Kupferschiefer, pyrite, organic matter, 00170. source, fluvial deposit, cycle, Cretaceous, Neocomian, Iran, Kopet-Dagh Basin; 00143.
redeposited diamicton
diamicton block, structure, Quaternary, outwash sediment, ice striated pebble, ice melt, graben structure, periglacial environment, ice rich diamicton, Austria, Inn Valley, Innsbruck; 07241.
redeposition
infiltration, snow melt, soil erosion, runoff measurement, experimental plot, rainfall intensity, Hungary, Gaja Valley; 08549.
redfield coefficient
radiocarbon, oxygen, mixing, Atlantic; 11801.
redistribution
caesium-137, chemical indicator, environmental stress, soil erosion, tolerable soil loss, Canada, Saskatchewan; 05052.
redox
benthic boundary layer, oxygen, phosphorous, 10636. carbon cycling, phosphorite, organic carbon, productivity, oxygen profile, 03570. interstitial water, iron, lake sediment, calcium carbonate, fresh water sediment, 12849. sedimentation, sulphur, oceanic water, reduction, oxidation, disproportionation, organic matter, 05942.
redox buffering
glacial drift, aquifer, organic acid, iron, pH buffering, groundwater contamination, WATEQF geochemical model, landfill, USA, Michigan, Kalamazoo County; 07575.
redox condition
biogenic detritus, accumulation, burial process, diagenesis, transition metal, trace metal, productivity, USA, California; 00176. goethite, carbon, soil colour, mineral surface, organic carbon, 07375.
redox cycle
spike, glacial interglacial boundary, rapid deposition, manganese, ocean, atmospheric carbon dioxide, 11917.
redox measurement
reference electrode, hydrogen sulphide detection, lake water chemistry, liquid junction, in situ potentiometry, pH determination, Israel, Lake Kinneret; 05188.
redox potential
Alfisol, Ultisol, secondary iron accumulation, landscape position, secondary manganese accumulation, geomorphic position, iron, manganese, USA, North Carolina, Piedmont; 10930. manganese, nodule, pelagic sediment, carbonate, back arc basin, continental margin, pH, 08186. metabolism, microorganism, reduction, aquatic sediment, aquifer, 11779. nitrogen, phosphorus, ammonium, iorganic phosphorus, water quality, soil water chemistry, nutrient, vegetation growth, wetland, sewage effluent, pH, New Zealand, Waitangi Forest; 12278. oligotrophy, submarine cave, cave, ecosystem, benthos, Mediterranean; 09466. oxidation, iron, phosphate, porewater chemistry, tidal marsh, 02323. reduction-oxidation, submerged soil, phosphate, phosphorus, calcareous soil, Egypt, Nile Delta; 13244.
redox process
oxidation, iron, manganese, toxic substance, water quality model, parameter estimation, hydrolysis process, chemical redox process, 09833. photochemical reaction, microbial decomposition, nitrification, fish growth, sediment water exchange model, water quality model, volatilisation reaeration, adsorption, ion exchange, heat exchange, sedimentation, coagulation, precipitation, complex formation, hydroloysis, 09828.
redox profile
anoxic sediment, heavy metal, intertidal flat, mud flat, estuary, Belgium, Scheldt Estuary, Ballasplaat Mud Flat; 10583.
redox reaction
carbonate, deep sea sediment, abyssal plain, organic matter, oxidation, Atlantic, (North); 01247. oxidation, salt water intrusion, sea sand, heavy metal, groundwater quality, infiltration, road construction, sodium, ion exchange, 07550.
redox regime
Chernozem, meadow-Chernozem soil, calcium, magnesium, iron, manganese, rice, 12078.
redox state
sea water, osmium, ferromanganese, speciation, 12961. stratiform, Kupferschiefer, pyrite, organic matter, redbed, 00170.
redox zone
amino acid, sedimentation rate, organic matter, interstitial water, dissolved organic carbon, Tyrrhenian Sea; 00186.
reduced deposition
MIDAS, cation exchange, acidification, base saturation recovery, acid deposition, percolation, forest soil, soil chemistry, ion dynamics, Sweden; 11100.
reduced gravity model
wind, basin, circulation, sea boundary condition, Spain, Catalan Sea; 12387.
reduced nitrogen cycle
sulphur cycle, dimethylsulphide, ammonia, non seasalt sulphate, methanesulphonate, trajectory, air mass regime, Pacific; 06688.
reducing condition
fertiliser, nitrate concentration, indicator bacteria, groundwater contamination, ion chemistry, karst aquifer, residence time, water chemistry, USA, Kentucky, Inner Bluegrass Karst Region; 07559.
reduction
anoxic sediment, pyrite, sedimentation rate, organic carbon, delta sediment, shelf sediment, sulphate, iron sulphide, USA, Mississippi River Delta; Gulf of Mexico; USA, Texas; USA, Louisiana; 09359. aquatic sediment, aquifer, redox potential, metabolism, microorganism, 11779. bacteria, sulphur, sulphate, oxygen isotope, 12973. biogeochemistry, oxidation, anoxic sediment, sulphur, sulphate, thiosulphate, 01333.

denitrification, glucose, iron, manganese, biogeochemistry, sulphate, USA, Gulf of Maine, Jeffreys Basin; Wilkinson Basin; 10641. estuarine sediment, oxidative pathway, reductive pathway, thiosulphate, sulphur, oxidation, Denmark, Kysing Fjord; 05828. fermentation, nitrogen, glutamic acid, alanine, sulphate, USA, Virginia, Bordenstake Bay; Chesapeake Bay; 12976. freshwater, lake sediment, iron, manganese, porewater, bacteria, organic material, sulphate, 03525. mineralisation, pore water, sedimentation rate, Neogene, dolomite, diagenesis, 00117. organic matter, carbon dioxide, aquifer, groundwater, bacteria, buried sediment, microorganism, USA, Atlantic Coastal Plain; 02437. oxidation, disproportionation, organic matter, redox, sedimentation, sulphur, oceanic water, 05942. oxidation, organic matter, sulphate, anoxic sediment, continental slope, Peru, ODP Site 680; ODP Site 688; 01244. oxygen, denitrification, nitrate, bacteria, 08278. phosphorus availability, surface water quality, biological reduction, acidification, acid lake, oligotrophic lake, Sweden, Gardsjon Lake; 13348. pore water chemistry, bioturbation, Spartina alterniflora, seagrass, sulphate, 12953. pore water, seasonal change, sulphate, fresh water sediment, concentration profile, temperature, Germany, Lake Constance; Switzerland, Lake Constance; 09336. Rickard's rate laws, diagenesis, sulphur, pyrite, marine sediment, organic matter, iron, 01329. sedimentation, dam, pelitic material, heavy mineral, USSR, Neva Bay; 08207. sulphate, fresh water system, ion chromatography, lake sediment, Germany, Lake Constance; Switzerland, Lake Constance; 09475. sulphate, iron oxide, salinity, marsh, Eh, soil, USA, Chesapeake Bay; Maryland, Dorchester County; 02457.

reduction activity
Shewanella putrefaciens, iron reduction, oxygen, microorganism, respiration, electron acceptor, 08274.

reduction furnace
Cherry Canyon Formation, acidification technique, isotopic composition, carbonate mineral, clay, roasting treatment, USA, Delaware Basin; 02488.

reduction pathway
sulphur, oxidation, disproportionation, transformation pathway, bacteria, electron flow, Denmark, Kattegat; 09460.

reduction rate
dissolution, carbonate, bioturbation, sea water, pore fluid, USA, Florida, Florida Keys; 02456.

reduction-oxidation
submerged soil, phosphate, phosphorus, calcareous soil, redox potential, Egypt, Nile Delta; 13244.

reductive pathway
thiosulphate, sulphur, oxidation, reduction, estuarine sediment, oxidative pathway, Denmark, Kysing Fjord; 05828.

REE dispersion
laterite, Quaternary, tectonic, climatic record, planation surface, saprolite, India; 12020.

REE geochemistry
grain size, clay mineral, heavy mineral, weathering, Yellow Sea; 10560.

reed bed
river geography, delta, water resource, flow rate, Romania, Danube River; 11114.

reed harvesting
alum treatment, lake water quality, nutrient, trophic status, polluted lake, eutrophication, lake restoration, Greece, Lake Kastoria; 13335.

reef
accretion, coral reef, sea level rise, 10551. algae, foraminifera, foralgal crust, Pleistocene, Cretaceous, Red Sea; 01284. algae, Triassic, Monte Spitz Limestone, cyanophycean, Italy, Vicentinian Alps, Recoaro; 08258. carbonate platform, bottom sediment, beach, terrigenous clastic, heavy mineral, Red Sea, Jubal Strait; 10553. carbonate sand deposit, sand, Holocene, tidal current, platform, USA, Florida Keys, Quicksands; 05844. carbonate, isotopic signal, micrite, Indian Ocean; Red Sea; 00066. carbonate, organism, calcite, aragonite, Phanerozoic, bioherm, tectonics, 00119. carbonate, Winnipegosis Formation, salt, Prairie Evaporite, Devonian, Canada, Saskatchewan; 07051. Carboniferous, carbonate platform, eustatic, sediment accumulation, sea floor, limestone, ramp, 00120. coral, calcium carbonate, bioerosion, carbonate production, storm, slumping, Virgin Islands, St.Croix; 00065. crust, sedimentary structure, saltern, microbe, petee, tepee, 04750. cyanobacteria, mollusc, algae, sponge, stromatolite, lamination, Holocene, Atlantic, (Northwest); Bahamas; 05924. Holocene sand, limestone, uranium series age, coral, Darwins hypothesis, atoll, subsidence rate, last interglacial, Indian Ocean, Cocos Islands; Kelling Islands; 08501. limestone, rudstone, packstone, biogene, Devonian, Elbingerode Complex, conodont chronology, Germany, Harz Mountains; 08231. marl, basin, sponge, Jurassic(Upper), shelf sediment, limestone platform, 08286. Mfamosing limestone, microfacies, Cretaceous, carbonate, shelf, Nigeria, Lower Benue Trough; 00142. microboring, pelecypod, algae, fungi, sponge, boring, carbonate, Mexico, Yucatan, Cozumel; 00150. phytoplankton, growth rate, bacteria, deep sea sediment, productivity, phytodetritus, Solomon Sea; Coral Sea; 00184. progradation, erosion surface, sea level change, Miocene, Reef Complex, sea cliff, Spain, Mallorca; 10603. Quaternary, sedimentation, continental shelf, delta, transgression, coastline, Australia, Great Barrier Reef; Queensland, Townsville; 02355. sea level rise, Quaternary, coral reef, storm surge, climatic change, palaeoshoreline, USA, Florida Keys; 09598. seafloor, remotely operated vessels, microcomputer, bathymetry, coral, submarine terrain, 07120. shelf environment, scleractinian, rhodolite, sponge, Holocene, coral, algae, 08253. supersaturation, phosphate, rare earth element, guano, apatite, Pacific, Nauru; 00134. temperature, sea level rise, coral reef, carbon sink, greenhouse scenario, Australia, Queensland, Great Barrier Reef; 10555. thematic mapping, SPOT, structural mapping, mapping, coral, Pacific, New Caledonia, Tetembia Reef; 04660. wave tank, plunge, reflection, breaker, bar, 03549. Wilkawillina Limestone, Parara Limestone, Cambrian, palaeoecology, platform carbonate, Australia, South Australia, Flinders Ranges, Wilkawillina Gorge; 05923. windward margin model, carbonate platform, Pleistocene, Holocene, USA, Florida, Florida Keys; 07003.

reef carbonate
cementation, compaction, hydrocarbon, dolomitisation, Palaeozoic, carbonate, 00121.

Reef Complex
sea cliff, reef, progradation, erosion surface, sea level change, Miocene, Spain, Mallorca; 10603. spatial variation, form, rock slope, tropical limestone, rock mass strength, limestone, Devonian, Australia, Western Australia, Kimberley Region, Napier Range; 02554.

reef exhumation
geomorphology, Devonian reef, Windjana Limestone, Pillara Limestone, Napier Formation, foot slope pediment, rillenkarren, tufa, gilgai, Pleistocene(Late) dune, karst, slope, Australia, Western Australia, Napier Range; 07150.

reef facies
boundstone, gravel, coral, atoll, South China Sea; 12867. notch, Holocene, sea level, lithospheric flexure, geomorphology, volcanic island, rim, elevated limestone, Cenozoic, reef limestone, makatea, Pacific, Cook Islands, Makatea Islands, Mauke; Mitiaro; Pacific, Cook Islands, Makatea Islands, Atiu; 11873. Permian, Mino terrane, organism, bindstone, seamount, Japan; 04818.

reef growth
continental shelf, algae, USA, Gulf of Mexico, East and West Flower Garden Banks; 05841. siltation, sediment load, coral reef, terrigenous sediment, Costa Rica, Golfo Dulce; 11690. subsidence rate, sea level change, radiometric dating, rapid vertical accumulation, reef island, Darwin, coral atoll, geomorphology, volcanic basement, Indian Ocean, Cocos Islands; Keeling Islands; 02681.

reef island
Darwin, coral atoll, geomorphology, volcanic basement, reef growth, subsidence rate, sea level change, radiometric dating, rapid vertical accumulation, Indian Ocean, Cocos Islands; Keeling Islands; 02681.

reef limestone
makatea, reef facies, notch, Holocene, sea level, lithospheric flexure, geomorphology, volcanic island, rim, elevated limestone, Cenozoic, Pacific, Cook Islands, Makatea Islands, Mauke; Mitiaro; Pacific, Cook Islands, Makatea Islands, Atiu; 11873.

reef slope
crust, biozonation, algae, Holocene, coral, atoll, Red Sea; 12868.

reef terrace
biota, tectonics, erosion, transgression, diagenesis, Pleistocene, Red Sea; 00062. glacio eustatic, sea level, sediment accumulation rate, tectonic uplift, sedimentology, sequence stratigraphy, Pleistocene(Upper), carbonate, reef-associated carbonate, Barbados; 07274.

reef-associated carbonate
reef terrace, glacio eustatic, sea level, sediment accumulation rate, tectonic uplift, sedimentology, sequence stratigraphy, Pleistocene(Upper), carbonate, Barbados; 07274.

reefal limestone
uranium series dating, flexure, lithospheric flexure, Quaternary(Late) reef, uplift, stratigraphy, chronology, Pleistocene(Late) reef, sea level, coral reef, makatea limestone, Pacific, Cook Islands, Makatea Islands; 10808.

reequilibration
deformation, palaeotemperature, fluid inclusion, diagenesis, stretching, 09440.

reevesite
hydroxy carbonate, brucite, anion, cation, pyroaurite, 02472.

reference atmosphere
atmosphere wind, radar wind, wind, middle atmosphere, 11142. climatological study, interannual variability, middle atmosphere, 11138. lidar, Rayleigh-lidar sounding technique, middle atmosphere, 11155. middle atmosphere, radar wind, 11143. middle atmosphere, wind, Southern Hemisphere; 11144. numerical weather prediction, computational instability, medium range weather forecast, 03114. tropopause, stratopause, zonal mean, temperature, pressure, zonal wind, geopotential height, mesopause, middle atmosphere, 11141.

reference dating
cyclic feature, geomorphology, pedology, stoneline, Brazil; 07424.

reference electrode
hydrogen sulphide detection, lake water chemistry, liquid junction, in situ potentiometry, pH determination, redox measurement, Israel, Lake Kinneret; 05188.

reference element
aluminium, contamination, heavy metals, estuarine sediment, anthropogenic source, USA, Florida, Miami River; Biscayne Bay; 02379.

reference model
middle atmosphere, ozone, 11372.

reference point stability
deformation analysis, datum defect, vertical reference network, 07960.

reference profile
pressure, height, temperature, zonal wind, middle atmosphere, 11136.

reference system
global reference, Australian Height Datum, geodetic coordinate, datum, transformation, 04476.

referencing
highway, transportation planning, GIS, 04680.

relief form
geomorphological map, space photograph, geological age, Vietnam; 13069.

reflectance factor
soybean, field radiometry, phytomass, radiometer, Brazil, Paraiba; 06867.

reflectance
airborne MSS, radiative transfer, Daedalus DS-1260, water volume, 02256. albedo, Landsat TM, snow depth, USA, Minnesota; 08123. error, field measurement, bidirectional reflectance, 13787. water vapour, vegetation, liquid water, airborne imaging spectrometer, 01797. water, simulation, suspended sediment, sediment, volume, 04657.

reflectance correlation
satellite data, crop reflectance, Turkey; 11551.

reflectance factor
mapping, DEM, SPOT, 04524. spectral data, biophysical data, corn, USA, Texas, Bushland; 06873.

eflectance measurement
chlorophyll measurement, spruce forest, fluorescence measurement, 09233. energy balance, agricultural field, remote sensing, arid environment, 06879. light polarisation, plant canopy, agronomy, 08087. management, Thematic Mapper, quantitative relationship, forest growth, Canada, New Brunswick; 11567.
eflectance property
vegetation reflectance, fire hazard, USA; 11550.
eflectance spectra
ozone, conifer, air pollution, 03432.
eflected infrared image
thermal image, laval flow, visible image, USA, Hawaii; 11537.
eflected radiation
temperature inversion, turbid ground layer, short wave radiation flux, solar radiation, wind velocity, 05375.
eflected solar radiation
droplet radius, cloud top, optical thickness, particle radius, cloud, 10128.
eflected sunlight
sunlight, radiative flux bias, Earth radiation budget experiment, bidirectional model, anisotropy, 12319.
eflection
breaker, bar, reef, wave tank, plunge, 03549. forest, tree, spectroradiometer measurement, damage sympton, 02220.
eflection face
channel morphology, sill formation, flysch, bed form, pothole, 12186.
eflection panel
polytetrafluoroethylene, spectral property, Lambertian property, field, 02109.
eflectivity
radial velocity, data presentation, Doppler radar, meteorological data, lightning detection, radar data, 05326. rain rate, area - time integral, probability matching method, radar, 13522. weather radar, radar horizon, stratiform echo, 05333.
eflectivity factor
horizontal polarisation, differential reflectivity, differential propagation constant, rain, hail, precipitation, radar, 01930.
eflectivity pattern
volcaniclastic, pelagic sediment, magnetic anomaly, seafloor, Pacific, Lau Basin; 08189.
eflectivity structure
mesosphere, scattering layer, gravity wave, 08834.
eflectometry
realtime monitoring, monitoring, soil moisture, USA, New Hampshire, Hubbard Brook Forest; 13895.
flector
channel, unconsolidated sediment, coastal sea, acoustic survey, Japan, Osaka Bay; 10561. precision, EDM, 04472.
forestation
biogeocoenosis, pipeline construction, Sod-Podzolic loam, USSR, Moscow; 00477. climate change, global warming, carbon dioxide, greenhouse gas, agriculture, storm, drought, renewable energy source, water resource, 05460. geoecology, mountain area, montane environment, geomorphological process, land management, 11862. GIS, vegetation survey, Sudan, Kordofan, Kazgail; 09242. grassland watershed, sediment yield, runoff, suspended sediment, burning, Philippines, Bulacan, Angat; 09919. groundwater level, salinity, water table elevation, Australia, Western Australia, Darling Range; 02959. moraine, radiocarbon age, Quaternary(Late), glacial history, vegetative history, deglaciation, Glacier Peak G, Mount St Helens Jy, ash, USA, Montana, Glacier National Park; 00293. multispectral classification, Landsat MSS, deforestation, China, Zhaoqing; 08094. Saalian sediment, till, Holsteinian, Eemian, Kleszczow Graben, Pilica Interstadial, Younger Saalian, Poland, Belchatow; 09579. salinisation, revegetation, salinity management, groundwater management, land degradation, surface water quality, Australia, Murray-Darling Basin; 05268. watertable rise, deforestation, groundwater level, salinity, Australia, Western Australia, Darling Range; 07586.
form
surveying, education, technical advance, 06917.
fraction
cycle, sediment transport, beach profile, shoreline evolution, wave, 02335. light scattering, urban aerosol, refractive index prediciton, 12578. rip current, tidal channel, bar, energy flux, wave, France, Aquitaine, Cap-Ferret Coast; 04746.
fraction correction
ionospheric refraction, satellite, Doppler count, 11439.
fractional water flow
layered soil, stream line, colour tracer, unsaturated flow, saturated flow, hydraulic conductivity, groundwater flow, 04114.
fractive index
optical counter calibration, monodispersion aerosol, particle, 13681. stratospheric aerosol, aerosol, sampling, sulphuric acid, calibration, active scattering spectrometer probe, 03195.
fractive index prediciton
refraction, light scattering, urban aerosol, 12578.
fractive index structure
sensible heat flux, latent heat flux, scintillation, path averaged flux, heat flux, convection, 13512.
freezing
active layer, model, permafrost, temperature variation, thermal diffusivity, USA, Alaska, Toolik Lake; 11995. dry snow, wet snow, freezing rate, wetting-front propagation, analysis, modelling, melt water, 01461. terminal velocity, storm, air-sea interaction, precipitation, snow, rain, melting, Canada, Nova Scotia; 01927.
fresh buffer
color composite image, 10365.
fugia
taiga zone, alpine tundra, northern landbridge, vegetation, permafrost, periglaical phenomena, pollen data, boreal forest, Japan, Soya Strait; Hokkaido; Japan, Sakhalin; 05031. tree, cold stage distribution, forest tree, pollen analysis, Quaternary, Europe, (North); 09559.
refugial hypothesis
Pleistocene(Late), temperature depression, vegetation change, pollen, phytolith, radiocarbon dating, Napo refugium, Ecuador, Amazonia; 07207.
refugium
Omalonomus relictus, blind rove beetle, preglacial relict, rove beetle, beetle, Canada, Saskatchewan, Cypress Hills; Alberta, Cypress Hills; 10765.
refuse incineration
soil, sea salt, steel mill, vanadium, fuel oil combustion, aerosol, chemical mass balance, motor vehicle emission, sulphate, factor analysis multiple regression model, source apportionment, suspended particulate matter, Japan, Tokyo; 05501.
regelation
cavitation, polished surface, subglacial process, landform, glacial erosion, plucking, abrasion, basal ice pressure, freeze thaw, Greenland; 07247.
regelation cycle
debris rich ice layer, temperate glacier, subglacial boundary, boundary layer, water pocket, 07298.
regelation flow
experimental evidence, thermodynamic behaviour, complex visco plastic material, thermally induced regelation, Clausius-Clapeyron equation, frozen soil, irreversible thermodynamics, rheology, 01450.
Regenct Interglaciation
Henty Glaciation, Moore Glaciation, Cainozoic(Late), glaciation, interglaciation, interstadial, pollen analysis, weathering, Margaret Glaciation, Tullabardine Interstadial, Pieman Interglaciation, Langdon Interglaciation, Baxter Interstadial, Linda Glaciation, Australia, Tasmania; 02641.
regime
solar radiation, factor analysis, sine curve, solar serenity, 12300. wintertime circulation, dynamical predictability, cluster, European Centre for Medium Range Weather Forecasts model, planetary wave, 13590.
regime theory
DWOPER, routing model, river routing, Muskingum-Cunge routing scheme, geomorphologic characteristic, 01650. sediment transport, frictional effect, flood berm, aquatic macrophytes, flood alleviation scheme, channel change, river engineering, critical tractive force, velocity theory, Griffiths natural stability index, Brookes stream power index, shear stress analysis, UK, England; Wales; 05152.
regime transition
particle, two-phase flow, multi-scale modelling, energy minimisation, fast fluidisation, 00008.
region
contour tracing, algorithm, boundary, 13800. GIS, resource, planning, Indonesia; 04664. urban growth, GIS, Landsat MSS, maximum likelihood classification, France; 04670.
region adjacency analysis
blob extraction, region neighbour searching, SIR-B, 10297.
region bias
forecast, depression track, 08976.
region boundary positioning
dot size, region perception, dot map, 08058.
region data
line data, quadtree, binary image, data structure, 07997.
region geological data
lineament, geomorphology, hydrothermal alteration, gold, precious metal, USA, Nevada, Great Basin; 06820.
region neighbour searching
SIR-B, region adjacency analysis, blob extraction, 10297.
region perception
dot map, region boundary positioning, dot size, 08058.
regional
snowfall intensity, lake anomaly, lake effect storm, USA, Great Lakes; 11173.
regional acid deposition model
chemical mechanism, air quality modelling, alkane, alkene, 06685. Oxidation and Scavenging Characteristics of April Rains, Northeast Regional Oxidant Study, acid rain, deposition model, nitrogen species, sulphur dioxide, ozone, 05504.
Regional Acidification Information and Simulation model
acidification, acid rain, Europe; 13461. modelling, acid rain, acidification control, Europe; 13460. surface water quality, groundwater quality, acidification, lake water quality, sulphur dioxide, acid deposition, Europe; Norway; Scandinavia; 13462.
regional analysis
GIS, land allocation, population, economic base, integrated information system, USA, Houston; 06913. knowledge database, change detection, remote sensing, GIS, 10340.
regional aquifer flow
radiometric dating, sub aqueous precipitate, cave, tilting, faulting, geothermal gradient, boxwork, seasonal solutional enlargement, aquifer, Quaternary, tectonic activity, USA, South Dakota, Wind Cave; 10722.
regional aquifer system
radioactive waste, groundwater chemistry, waste disposal, chemical modelling, 11072.
regional assessment
groundwater quality, National Water Quality Assessment Program, water quality measurement, field method, laboratory methods, data collection, data analysis, USA; 12254.
regional classification
physico geography, microregion, lithological variability, tectonic structure, landform regionalisation, Poland, Swietokrzyskie Mountains; 09495. topography, cartometric research, hypsometric map, relief type, Afghanistan; 08349.
regional climate
agroclimatic map, agriculture, Sweden; 10011. bio-climatology, topoclimatology, climatic variation, 00776. precipitation, GCM, land surface-atmopshere coupling, runoff, evaporation, tropical forest, 04323. sensible heat flux, latent heat flux, turbulent heat flux, albedo, landscape

structure, 03045.
regional climate model
energy balance, climate modelling, parameterisation, Hungary; 11246.
regional climate simulation
nested mesoscale model, limited area model, general circulation model, Europe; 08933.
regional conflict
Clean Air Act, efficiency criteria, government regulation, pollution policy, coal region, environmental change, USA; 10204.
regional cyclogenesis
cyclogenesis, baroclinic jet streak, zonal wind, 04295.
regional data
data assimilation system, spinup, forecast rainfall rate, forecast skill, 07788.
regional database
subregional planning, two planning data, GIS, 10458.
regional deglaciation
fresh water influx, isotopic signature, Pleistocene Holocene transition, deglaciation effect, Quaternary(Late), Sweden; 04961.
regional development
eco climatic resource, agriculture, eco environment protection, resource exploitation, China, Chaidamu Basin; 06457.
regional discharge
discharge drainage area relationship, base flow, stream flow, topography, elevation, groundwater flow, gravity flow, Canada, Alberta, Plains Region; 07471.
regional diversity
tropical region, monsoon, China; 01387.
regional effect
global mean warming, climate sensitivity, carbon dioxide, general circulation model, greenhouse gas, climate change, transient response, 05463.
regional elevation
local relief, denudation rate, elevation, slope gradient, sub aerial denudation, passive margin, Africa, (Southern); 11833.
regional emission
acid rain, emission, precipitation chemistry, trend, sulphate, sulphur dioxide, nitrate, nitrogen oxide, hydrogen ion, chemical impact, USA, (East); Midwest; 13668.
regional erosional inventory
caesium-137, soil erosion, rates of soil redistribution, soil zone, slope class, Canada, Saskatchewan; 05053.
regional evaporation
Mortons model, daily evaporation, long wave radiation flux, complementary relationship areal evapotranspiration model, evapotranspiration, atmospheric radiation flux, short wave radiation, surface albedo, vapour transfer coefficient, wind speed, wind correction factor, Canada; 09791. prairie, atmospheric boundary layer, latent heat flux, planetary boundary layer, Bowen Ratio, evaporation, 13314. soil moisture, rainfall, evaporation, water balance study, Neutron moisture meter, calibration procedure, Australia, New South Wales, Goulburn-Marulan Region; 12154.
regional evapotranspiration
geochemical model, radionuclide, precipitation chemistry, chloride, evapotranspiration, Israel, Jordan River; 04029.
regional field
model validation, surface process, general circulation model, precipitation, radiation, land surface hydrology, 07749.
regional finite element model
satellite data, humidity enhancement, latent heating profile, rate rate, frontal development, spinup time, diabatic initialisation, Canada; 10103. satellite data, storm, prediction model, forecasting, spinup problem, latent heating, precipitation rate, divergent wind, frontal zone, diabatic initialisation, Canada; 10102.
regional flood frequency
flood frequency analysis, stream gauging, gauge network, influence approach region, 08662.
regional flux
surface flux, bulk similarity approach, boundary layer, radiometric temperature, skin temperature, 13552.
regional forecast model
semi implicit model, semi Lagrangian forecast model, 11250.
regional geochemical group
geological information, GIS, aeromagnetic data, mineral exploration, Austria; 12717.
regional geography
physiography, geological structure, recent trend, perspective, Sri Lanka; 01385.
regional geology
tectonic deformation, field tectonic analysis, Indonesia, Kalimantan; 05706.
regional GIS
LIS, GIS, Australia, New South Wales, Jervis Bay; 10326.
regional government
transportation, planning, municipal GIS, common data, Canada, Ontario; 01142.
regional groundwater flow
groundwater flow model, deterministic model, water table elevation, probability model, two-point estimate method, Monte Carlo method, 04124. lumped model, deterministic model, probability model, hydraulic conductivity, storage coefficient, specific yield, source-sink function, water table elevation, groundwater flow model, USA, California, Owens Valley; 04125.
regional groundwater flow system
mesotrophic fen, poldered river plain, fenland restoration, groundwater flow, water management, ecosystem management, calcium saturation, Netherlands, Vecht River, Het Gooi; 11113.
regional head distribution
hydraulic parameter, stochastic inverse modelling, groundwater flow, head distribution, aquifer characteristic, transmissivity, recharge, inverse problem, Portugal, Rio-Maior Aquifer; 05223.
regional hydrogeology
river piracy, coarse change, palaeochannel, vertical movement, India, Madras, Palar River; 06017.
regional identification
seasonal circulation, optical state, optical thickness, turbidity, India; 13491.
regional impact
subsidence problem, carbon dioxide, warming, climate change, urban infrastructure planner, water supply, sea level rise, coastal community, 10149.
regional impact assessment
database, microcomputer workstation, GIS, global change programme, 08002.
regional information system
national data system, data quality, UK; 10456.
regional interaction
canopy, energy balance model, evaporation, 11190.
regional landuse
landuse planning, environmental geological map, engineering geological map, urban planning, thematic map, Netherlands; 07189.
regional level study
soil database, GIS, soil conservation, USA; 09189.
regional map series
digital geographic information, military map, NATO, 05686.
regional maximum flood
design flood estimation, probable maximum flood, maximum flood estimation, flood peak frequency characteristic, Africa(Southern); 05140.
regional mean estimation
ground based sampling, remote sensing, 11646.
regional model
acidification, surface water quality, MAGIC model, UK, Wales; 04104. mapping, groundwater contamination, DRASTIC, USA, Florida; 06901. sulphur, dispersion model, meteorological model, explicit treatment, cloud, Scandinavia; 11341.
regional optimization
infrared measurement, sea surface temperature, Iceland; Greenland; Norwegian Sea; 04639.
regional planning
cartographic accuracy, facilities database, GIS, AM-FM, 01162. decision support system, spatial analysis, GIS, urban planning, 05616. decision support, land information, property information, GIS, transport, health care, forestry, Europe; 10323. developing country, GIS, urban planning, 11637. developing country, planning, urban planning, Asia; Pacific; 02278. developing country, urban planning, GIS, 04673. GIS technology, planning process, urban planning, 05759. GIS, modelling, 13976. GIS, multitemporal data, urbanisation, agricultural land, Nepal, Kathmandu Valley; 08083. GIS, thematic map, satellite data, 05757. GIS, Third World, 04672. GIS, transportation planning, strategy, 04679. GIS, urban planning, Brunei; 04671. information system, data organisation, Botswana; 11626. pilot project, data layer, waste storage, disposal facility, USA, Vermont; 13974. service bureau, GIS, USA, Vermont; 06911. soil pattern, vegetation pattern, pine afforestation, Mali; Chile; 11573. spatial interaction model, US Census, urban planning, USA; Canada; 10465. storm, anthropogenic response, rescue operation, coastal planning, Europe, (Northwest); 13498.
regional pollution
lead, nickel, receptor modelling, chemical mass balance, aerosol, particle, urban pollution, USA, California Desert; 12539.
regional primary production
resolution satellite data, 13942.
regional research laboratory
GIS, research, development, UK; 13807.
regional resource
monitoring system, resource management, 05721.
regional scale
natural resource, GIS, database, USA, Florida; 06847.
regional scale model
episodic concentration, episodic deposition, acidifying components, transport model, smog episode, 07832. personal computer, computer model, air quality assessment, 11364.
regional scenario
general circulation model, instrumental data, impact analysis, climate scenario, 07798.
regional slope
Precambrian rift, preglacial drainage, structural control, USA, Kentucky, Kentucky River; Licking River; USA, Ohio; USA, Indiana; 01395.
regional source discrimination
atmospheric aerosol, lead isotopic composition, transport model, Sweden; 07862.
regional spectral radiance
water excess, thermal image, drought damage, model simulation, 01139.
regional strain
neotectonics, stress, fracture pattern, Alpine Fault, lineament, extension fracture, normal displacement, New Zealand, Westland; 09505.
regional strategy
warming, climate change, greenhouse effect, convention, Intergovernmental Panel on Climate Change, emission reduction, 10148.
regional stress
subduction zone, Quaternary(Late), terrace deformation, marine terrace, Cascadia subduction zone, neotectonics, tectonic tilting, USA, Oregon, Cape Blanco; 06174.
regional subsidence
subsidence, geomorphology, Okhotsk slope, submarine volcano, guyot, hypsometric analysis, planation surface, USSR, Kuril Ridge, Iturup Island; Sea of Okhotsk; 08383.
regional survey
terminology, palaeokarst, review, 00256.
regional synthesis method
flood probability law, flood chronology, basin characteristic, return period, rainfall runoff relationship, probabilistic method, Poisson Process theory, Algeria; 12169.
regional transport

deposition, nitrogen oxide, emission inventory, 01986. mesoscale flow, deposition, source apportionment, transport, acid, aerosol, ozone, Canada, Ontario; 11377. methylchloroform, pollution, CFC 11, carbon tetrachloide, methyl chloroform, emission, complex terrain, USA, Nevada-Arizona Desert; 04399.
gional unit hydrograph
unit hydrograph, rainfall runoff relationship, rainfall duration, design flood, flood forecasting, contributing area, Switzerland; 08686.
gional variation
statistical trend analysis, total ozone, ozone trend, Northern Hemisphere; 04349.
gional vegetation
gymnosperm, angiosperm, glacial interval, pollen record, deep sea core, V28-304, RC 14-99, Japan; 04967.
gional water balance
water cycle, water resource, surface water resource, wateruse, China; 11120.
gional water quality
water data, monitoring programme, data quality, sampling regime, water management, water quality, USA, Ohio; Colorado; 11112.
gional water resource
large scale water resources planning, water resources planning, North Atlantic Regional Water Resources Study, storage yield model, institutional arrangement, environmental consideration, mathematical model, water demand, water supply, 05255. water resource protection, quality management, resource development, wateruse, waste water treatment, system dynamics method, 09947.
gional weather pattern
clustering, synoptic meteorological class, pollution, particulate matter, Spain, Valladolid; 00858.
gional wind
mistral, cold air advection, rain, low level jet, Bise, Europe, Alps; 04226.
gional yield forecasting
crop yield, map, soil moisture, water balance, computer program, evapotranspiration, water supply, Mali; Niger; Senegal; 12283.
gionalisation
catchment characteristic, hydrological homogeneity, low flow characteristic, cluster analysis, multiple regression, principal component analysis, ungauged catchment, homogeneous region, Australia; 10992. environmental disturbance, landuse consequence, nature management, mapping, USSR; 13915. erosion prone land, soil erosion, deflation, conservation, map, erosion process, quantitative erosion assessment, USSR, (European); 06229. principal component analysis, common factor analysis, mean annual rain fall, precipitation, rain fall, Ethiopia; 04236. river channel forming activity, fluvial process, channel forming discharge, USSR; 05994.
gionalisation method
spatial stochastic process, Bayes regionalisation method, hydraulic conductivity, 12219.
gionalisation technique
flow duration curve, ungauged basin, stream flow, data shortage, arid area, semi arid area, rainfall runoff relationship, water resource study, Zimbabwe; 06290. remote sensing, groundwater recharge, arid region, semi arid region, water resource management, artificial recharge, infiltration capacity, Issars method, comparable hydrogeological provinces method, 09928.
gionality
integrity, geoinformation system, 12656.
gionalization method
flood regime, topography, geometry, river network, soil, vegetation, digital terrain model, flood estimation formula, basin characteristic, flood hydrograph, computer program, slope, Austria; 05143.
gionalized Variable Theory
spatial analysis, precipitation chemistry, mapping, acidity, hydrogen, nitrate, ammonium, sulphate, UK; 10972.
gionally stable coefficient
rainfall, solar radiation, rainday, Australia; 00698.
golith
cracks, grain boundary, joint, feldspar, mica, weathering grade classification, granite, India, Himalayas, Lesser Himalyan Belt; 10823. crust, weathering, planation, 13018. deglaciation, uplift, soil profile development, surficial deposit, landform, bedrock morphology, weathering, glacial erosion, Finland; Baltic Sea; 10685. patterned ground, soil erosion, miniature patterned ground, nets and stripes, frost sorted pattern, Falkland Islands, L'Antioja Valley; 13068. slope, erosion, forest destruction, erosion rate, soil-stratigraphic technique, landform evolution, pedogenesis, terrace, New Zealand, Southern Alps; 02520. weathered rock, site investigation problem, residual soil, Birrimian rock, Ghana; 04910. weathering product, debris flow, lava slope, mud flow, altitudinal zonality, slope process, slope evolution, USSR, Armenian Highland; 08400. weathering, silicic massif, volcanic massif, ignimbrite, bornhardt, sheeting fracture, columnar joint, Beck Surface, stripping, Australia, South Australia, Gawler Ranges; 13038. weathering, soil geomorphic relation, slope process, mica gneiss, mica schist, saprolite, soil residuum, colluvium, secondary mineral, USA, North Carolina, Blue Ridge Front; 07420.
golithic aquifer
groundwater flow, flow model, aquifer index, flow conductance, recharge potential, turbulent flow, Africa, (West), Sahel; 06366.
gression
coastal development, sediment supply, beachrock, erosion, transgression, 11682. Cretaceous, Eocene, palaeochannel, sponge, transgression, Australia, Western Australia, Eucla Basin; 02423. mangrove ecosystem, paryno plankton stratigraphy, environmental change, Holocene, intertidal, freshwater biota, pollen diagram, transgression, India, Bengal Basin; 04985. provenance, quartz, sandstone, Desmoinesian, sedimentation, transgression, USA, Oklahoma; 02390. sedimentary history, coastal plain, diatom assemblage, Holocene transgression, Japan, Hokkaido, Kushiro Moor; 05037.
gression analysis
maximum average vagueness criterion, prediction vagueness criterion, soil electrical resistivity, hydraulic permeability, fuzzy regression, statistical hydrology, 04019. prediction, summer monsoon, Indian monsoon, monsoon rainfall, meridional wind index, India; 12472. principal component analysis, rainfall response, sea surface temperature, China; Pacific; 10036. river transport, stream flow, surface water constituent, transport estimate, flow record, 06274. soil-grass canopy, grass biomass assessment, AVHRR, vegetation index, leaf area index, Poland; 10413. spatial variability, runoff, total runoff, annual runoff, catchment characteristic, direct runoff, linear multiple correlation, 08672. transfer function model, river, streamflow, forecasting, suspended sediment, USA, Iowa; 09479.
regression equation
surface temperature, upper air temperature, temperature, monsoon, rainfall, India; 12346.
regression model
temperature, turbidity, water quality, mapping, Italy, Sicily, Augusta Bay; 11613.
regression modelling
groundwater flow, parameter estimation, groundwater recharge, measurement error, data inaccuracy, USGS, 04116.
regression procedure
demand model, water demand, autoregressive integrated moving average, Box Jenkins model, stepwise time series, 07597.
regression transgression cycle
river cyclicity, soil cyclicity, sea level change, river deposit, marine transgression, 06170.
regressive model
temperature precipitation regime, runoff, precipitation amount, autoregressive model, Caspian Sea; 12384.
regressive sequence
opal, sepiolite, intermediate unit, silcrete, Spain, Tajo Basin, Vicalvaro; 11723.
regressive stage
Yenotayev, Atelian stage, seismoacoustic profiling, Pleistocene(Late), delta, shelf, buried river valley, ancient delta, USSR, Caspian Sea; 04983.
regulation
bacteria population, forest soil, nitrification, ammonium oxidation, 00412. hydraulics, geomorphology, flood control, USA, Arizona, Colorado River, Grand Canyon; 11843. ordinance, landuse, legal consideration, local jurisdiction, GIS, decision making process, USA, Virginia; 09296.
regulatory programme
US Army Corps of Engineers, legislative change, civil works, mitigation, recreation, drinking water, USA; 04772.
regulatory purpose
air quality, sampling, industrial planning, Australia, Latrobe Valley; 03254.
rehabilitation
remediation, restoration, upland stream, ecological degradation, surface water quality, catchment management, water resource management, sedimentation, nutrient leakage, salinisation, heavy metals, Australia; 01767. stabilisation, limestone quarry, spoil bank, alkaline waste, grass cultivar, UK, England, West Yorkshire, Skipton, Embsay, Hawbank Rock; 03938.
rehabilitation design
water resource management, water quality management, expert system, rehabilitation planning, water quality, sewerage rehabilitation, water distribution, 00653.
rehabilitation planning
water quality, sewerage rehabilitation, water distribution, rehabilitation design, water resource management, water quality management, expert system, 00653.
reinforced
geotextile, full scale, in situ study, road, 03792.
reinforced embankment
embankment, soft foundation, finite element method, theory, 03736. soft ground, road embankment, fabric enforcement, embankment, geotechnical analysis, Ireland, Clare County, Bunratty Bypass; 03737.
reinforced slope
slope, design chart, geotextile, polymer grid, revised design chart, steep slope, 09517.
reinforced soil
slope stability, fabric reinforcement, cohesive soil slope, 07177.
reinforced soil retaining wall
sandbag, wrap around face construction, Stabilenka fabric, UK, England, Essex, Barking, Hewetts Quay; 03734.
reinforced soil slope
reinforcement bond, bond allowance, design chart, steep reinforced slope, 03732.
reinforced soil wall
field monitoring, creep, surcharge load, performance data, 06024. geotextile reinforced soil wall, acoustic barrier, design, construction, UK, England, Kent, Snodland; 03733.
reinforcement bond
bond allowance, design chart, steep reinforced slope, reinforced soil slope, 03732.
reinstatement boundary
geographical information, land administration, surveyor role, Australia; 07903.
rejuvenation
gibbsitisation, weathering character, weathering genesis, weathering product, basaltic rock, dolerite, peneplain, kaolinite, Zaire, Shaba, Kibambale; 08527. morphometric assessment, lithologic control, drainage basin evolution, karst process, nickpoint, cluster analysis, ergodic hypothesis, USA, Indiana, Crawford Uplands; 01378.
relational algebra
geomatic object, multimedia database, 12665.
relational database
buffer capacity, distributed, query optimisation, 09105. facilities data, quadtree, GIS, 01054. functional dependency, 04546. knowledge based technique, expert system, 04555. model, fuzzy, 04543. Prolog,

relational database management system, 04570.
relational database management
data format, GIS, interface, software package, 03363.
relational database management system
data format, standard interchange format, GIS, interface, 01020. Geological Survey of Finland, ore deposit databank, industrial mineral databank, mineral indication databank, Finland; 12716. relational database, Prolog, 04570.
relational model
independent, database, 04544.
relational query language
engineering database, functional programming, database machine, 03354.
relative age
moraine, catena profile development index, soil catena, field data, USA; 09549. weathering feature, lichenometry, soil, chronosequence, Holocene, plant dynamics, neoglacial chronology, floristics, USA, Wyoming, Teton Range; 06140.
relative age data
Stewart River glacial unit, relative dating, moraine, boulder weathering, moraine morphometrics, glacial advance, Salmon Lake glacial unit, USA, Alaska, Kigluaik Mountains; 04993.
relative angle
calibration, stereo system, 02130.
relative dating
ironstone, lateritic crust, crustal age, dating criteria, Zaire, Shaba; 08528. lichen, differential weathering, feldspar, pyroxene, arctic alpine environment, gabbroic rock, chemical weathering, Norway, Leirdalen; 03927. magnetoviscosity, soil horizon age, ash soil, USSR, Kamchatka; 09709. moraine, boulder weathering, moraine morphometrics, glacial advance, Salmon Lake glacial unit, relative age data, Stewart River glacial unit, USA, Alaska, Kigluaik Mountains; 04993. moraine, landform degradation, lateral moraine, slope, USA, California, Lee Vining Canyon; 13116.
relative erosion hazard
evaluation, land management, cropping practice, soil conservation, USLE, Australia, New South Wales; 02746.
relative humidity
air mass, mesoscale surface wind, cold front, mesoscale wind field, wind, temperature, New Zealand, Southern Alps; 05419. counting efficiency, particle size, hygroscopic aerosol, fog formation, cloud condensation process, clean room counter, optical particle counter, aerosol, 08826. gas to particle partitioning, adsorption theory, semivolatile organic chemical, aerosol, organic compound, 12551. heatwave, dry bulb temperature, Greece; 03042. marine atmospheric surface layer, aerosol concentration, particle size distribution, North Sea; 05476. plant water use, water potential gradient, non rooted aggregate, aggregate size, 05205. vapour profile retrieval, water vapour profile, microwave radiometric measurement, 12321.
relative motion
transform plate motion, transpressive plate motion, San Andreas Fault, Pacific Plate, California Plate, Neogene(Late), plate, USA, California; 08355.
relative neighbourhood graph
Gabriel graph, closest point graph, Voronoi tessellation, Delaunay triangulation, minimum spanning tree, 12648.
relative orientation
camera, projective transformation, 11443. coplanarity condition, 05581. forestry, Henry Georges Fourcade, 12670. two dimensional projective, projective transformation, 11446.
relative position
precision vector, baseline vector, GPS, USA, California; 09111.
relative positioning
GPS, time comparison data, VLBI method, error analyses, 12614.
relative sea level
Laurentide Ice Sheet, Foxe glaciation, marine transgression, glacial readvance, Canada; 13165. technique uplift hypothesis, postglacial uplift, raised beach, ice sheet extent, ice sheet thickness, Innuitian Ice Sheet, postglacial adjustment, isostatic model, sea level curve, Canada; 11940.
relative sea level change
coastal response, sand beach, coastal dune, progradation, backbarrier marsh, dune ridge, palynology, peat, Canada, Newfoundland; 00316. Holocene, sea level, shoreline map, radiocarbon age, coral reef, climatic fluctuation, Japanese research, Japan; 00324.
relative stage
river regime, flood scar, bank undercutting, tree establishment, multiple channel river, floodplain dynamics, wandering river, dendrochronological technique, flood occurrence, Canada, British Columbia, Morice River; 01656.
relative uplift
lithology, fossil fauna, marine sequence, radiocarbon dated, sea level, Holocene, sedimentary environment, model, Greenland, West Greenland, Disko, Igpik; 05038.
relative vorticity
cyclonic vorticity, convergence, potential vorticity, upper level jet, semi geostrophic flow, orography, stratified rotating atmosphere, lee cyclogenesis, 04278.
relaxation experiment
ECMWF model, forecast field, tropics, baroclinic wave, storm track, operational forecast, experimental systematic error, 07791.
relaxation time
solar radiation, photoelectric emission, instrumentation, balloon observation, conductivity, 00689.
release experiment
experimental method, lake sediment, pH, phosphate, 09477.
release kinetics
potassium, diffusion coefficient, non exchangeable potassium, cation saturated resin, Vertisol, Alfisol, Inceptisol, India; 08633.
released meltwater
eruption, snow pack, ice cap, slush avalanche, lahar, Colombia, Nevado del Ruiz Volcano; 00243.
reliability
AMS date, contamination, high precision, intercomparison, IsoTrace, 04946. GIS, mathematical model, human expertise, uncertainty model, 01023.
reliability estimation
hydrograph, hydrological model, peak discharge, probability distribution, runoff model, model simulation uncertainty, USA, Illinois; 08663.
reliability indicator
cost, benefit, GIS, outage reporting, utility company, USA, Connecticut, New Haven; 11632.
reliability theory
non-converging flow field, head distribution, converging flow field, groundwater flow, Monte Carlo simulation, transmissivity, pump test, chemical tracer test, 09871.
relic waste
waste site, urbanised area, GIS, Canada, Toronto; 13989.
relict
periglacial feature, palaeoclimatic significance, involution, patterned ground, wedge, cryoturbation, paleosol, Canada, Alberta, Waterton-Glacier Park; USA, Montana, Waterton-Glacier Park; 11999.
relict deposit
bypassing, particle size, continental shelf, grain size parameter, modal size classification, sand, Portugal; 00068.
relict dune
desert dune, climatic change, aridity, atmospheric circulation, palaeocirculation pattern, 07204.
relict ice cap
ice retreat, ice advance, glacial geomorphology, tourism, Canada, Rockies, Columbia Icefield, Athabasca Glacier; 08510.
relict sand
heavy mineral, Paleogene, Neogene, Korea; Korea, South Sea; 03563.
relict soil
soil distribution, soil association, soil survey, Austria, Thuringia; 08626.
relict valley
Villafranchian, rillwash, sheet flood, braided stream, stream channel, Pleistocene(Middle), hydrographic network, wadis, Morocco, Sahara, Daoura Hamada; Algeria, Sahara, Saovra Hamada; 08460.
relief
aeolian relief, fluvial relief, erg, terrace, crust, hygric gradient, hypsometric gradient, climate change, palaeoclimate, Namibia, Namib Desert; 11869. applied research, methodology, geomorphology, palaeogeography, genetic classification, 13006. erosion rate, stream power, slope gradient, precipitation, infiltration, denudation rate, climate, fluvial soil loss, global scale, erodibility, sediment yield, 01374. geomorphic process, geosystem budget, model, geomorphology, geoecology, 07129. Landsat-5, morphometric map, landscape complex, Czechoslovakia, Tribec Range; 12713. lowland zone, postglacial relief, deglaciation, kame hill, ice moraine, melted form, melt water runoff, Poland, Biala Podlaska; 07242. micro climate, climate, weather type, Switzerland; 08859. Miocene, valley entrenchment rate, wall retreat rate, erosion rate, Uranium series dating, speleothem, Tertiary, cave, Norway, Rana, Hammarnesgrotta; 00260. morphodynamic paradigm, geomorphology, practical research application, mineral, supergene deposit, 04926. parent material, river terrace, alluvial fan, soil erosion chronology, environmental change, vegetation change, soil degradation, Mediterranean; 08550. saprolite, montane, sediment yield, humid tropical area, rainfall, bed material, Puerto Rico; 05808. slope deposit, congelifluxion, slopewash, periglacial element, geological structure, Poland, Czestochowa Upland; 12002. soil, erosion, freeze thaw activity, climatic change, gullying, rock, Algeria, Oran-Atlas, Oued Mina; 07148. tectonic structure, planatation surface, morphotectonics, USSR, Karakorum Range; 08380. tidal flat, dead form, marine terrace, sea level, erosion pavement, outwash plain, glacier oscillation, Svalbard, Spitsbergen, Petuniabukta; 02689.
relief analysis
graphic computation, Wentworth method, clinographic map, Brazil, Assis; 06843.
relief change
slope denudation, colluvium, Poland, Kujawy Lakeland; 13058.
relief conscious hydrological modelling
remote sensing, basin, instrumentation, hydrological measurement, altitude, mountain hydrology, 08646.
relief development
erosion depth, deep weathering, correlation, pre Quaternary, landscape evolution, uplift, relief differentiation, lithostructural control, long term relief, UK, Scotland, Highlands; 11866. Palaeolithic(Middle), artefact, neolithic settlement, palaeogeography, prehistoric settlement, palaeoclimate, Egypt, Eastern Desert; 04984. volcanic mountain, tectonic movement, volcano research, relief inversion, Hungary; 03714.
relief differentiation
lithostructural control, long term relief, relief development, erosion depth, deep weathering, correlation, pre Quaternary, landscape evolution, uplift, UK, Scotland, Highlands; 11866.
relief evolution
dynamics, spatial organisation, geomorphic process, mountain area, timberline, snow, ice, 11836. runoff, sheet wash, marker, phytoindicator, natural trap, painted square technique, USSR, Issyk-Kul Lake; 05126.
relief form
heat exchange, permafrost, technogenous influence, landscape, Barents Sea; East Siberian Sea; 08509. palaeogeography, geographical landscape, photo montage, Salyut 6, Iraq; 06846. volcanic activity, lineament, geomorphological map, structural relief, Mexico, Basin of Mexico, Sierra de Monte Alto; 09528.
relief form hierarchy
oromorphological relief, cartography, geomorphological modelling, general system theory, 00204.
relief formation
inheritance principle, inheritance, new formation, geomorphology, 11832. physico chemical study, soil maturation, land disposal site, dredged material, soil ripening, nutrient, Germany, Essen Ruhr, Lake

Baldeney; 08524.
elief generation
planarian surface, soil development, erosional relief, humid tropical climate, oxisol, Thailand, Khorat Plateau; 02518.
elief inversion
hollow, seepage erosion, groundwater piracy, hillslope erosion, sedimentation, Brazil, Sao Paulo, Bananal; 06037. relief development, volcanic mountain, tectonic movement, volcano research, Hungary; 03714.
elief map
blind people, tactile map, 08045.
elief mapping
geocoding, digital orthophotograph, space photography, KFA-1000, 10368.
elief property
basin morphometry, drainage frequency, drainage density, morphometric analysis, geomorphometry, fluvial process, India, Karnataka, Gangolli River Basin; 11858.
elief remodelling
geomorphological mapping, glacier, Petuniabukta-Adolfbukta Stage, Marine terrace, Ebbadalen Stage, Thomsondalen Stage, Little Ice Age, Pleistocene(Late), Holocene, Svalbard, Spitsbergen, Olav V Land, Ebbadalen-Nordenskioldbreen Region; 02646.
elief shading
slope aspect display, DEM, landform, colouring scheme, 01075.
elief symmetry
earth relief, mega relief, model, global morphogenesis, geomorphological meta theory, 08321. natural formation, space photograph, symmetry theory, USSR; 08322.
elief type
regional classification, topography, cartometric research, hypsometric map, Afghanistan; 08349.
elief unit
geomorphological process, soil development, soil mapping, aerial photograph, morphodynamics, tundra zone, Canada, Yukon Territory, Richardson Mountains; 08610.
emanent magnetisation
declination change rate, palaeomagnetic evidence, glacial Lake Missoula, flood, rhythmically layered sediment, palaeomagnetic test, USA, Washington, Sanpoil River; 10777.
emedial action
anthropogenic effect, land use effect, water quality, pesticide, nitrate, environmental impact, organic pollutant, water quality legislation, water quality management, Europe; 00649. lake water quality reservoir, eutrophication, water quality management, nutrient load, 11111. one-dimensional transport, solute transport model, well-to-well recirculation, advection-dispersion equation, Laplace transform, groundwater contamination, 01718. risk analysis, groundwater contamination, transport model, storage process, contaminant migration, fracture matrix model, advection, diffusion, 09905.
emedial measure
selenium immobilisation, pond sediment, agricultural drain water, groundwater contamination, USA, California, Merced County, Kesterson Reservoir; 00615.
emedial technique
Freundlichs sorption isotherm equation, sorption mechanism, pesticide, water treatment, charcoal, DDT, potable water quality, 07500.
emedial treatment
chemical removal, nitrate, groundwater quality, 13429. pyrite mine, environemtnal impact, acidity, sulphates, limestone-lime treatment technique, groundwater pollution, water quality, surface water contamination, India, Amjhore; 12277.
emediation
fractured bedrock, groundwater pollution, contaminant transport, recovery well model, 02916. restoration, upland stream, ecological degradation, surface water quality, catchment management, water resource management, sedimentation, nutrient leakage, salinisation, heavy metals, rehabilitation, Australia; 01767.
emediation effort
mass transfer, nonaqueous phase liquid, aqueous solubility, vadose zone, phreatic zone, solute transport, immiscible fluid, vapour transport, fluid property, groundwater contamination, volatilisation, 07563.
emediation method
methane oxidising bacteria, biodegradation, chlorinated ethene, biostimulation experiment, biotransformation experiment, groundwater contamination, 07574.
emediation scheme
groundwater contamination, in situ test, retardation factor, contaminant migration, 07570.
emediation strategy
parameter identification, groundwater flow model, model calibration, transport model, concentration data, optimisation method, 09876.
emineralisation
nutrient, sediment water exchange, tide, lagoonal ecosystem, Portugal, Ria Formosa; 08166. organic carbon, biomass, grazing, bacteria, flagellate, Atlantic, (Northeast); 10574.
emnant stream
asymmetric valley, geomorphological feature, valley, gutter shaped form, tephra deposition, meandering valley, Pleistocene upland, Japan, Kanto Plain; Musashino Upland; 03717.
emonumentation programme
deed description, government survey, 10333.
emote
marine atmosphere, sea salt, mineral aerosol, deposition rate, aeolian material, trace element, New Zealand; 11337.
emote aerosol
size distribution, precipitation, atmospheric stability, summertime, aerosol measurement, Ross Sea; 13704.
emote atmosphere
marine atmosphere, ethane, ethene, propene, propane, pentane, butane, ocean water, hydrocarbons, biological activity, nonmethane hydrocarbon, 11345. urban atmosphere, zinc, vanadium, arsenic, manganese, bromine, iodine, mercury, copper, aerosol, particulate, Italy; 03176.
remote computer control
Packard Instrument Tri-Carb 460C LSC, inexpensive upgrade, liquid scintillation equipment, radiocarbon dating, 02578.
remote concentration
coastal site, marine aerosol, size spectra, dry deposition, aerosol, UK, Scotland, Outer Hebrides, South Uist; 13709.
remote control
virtual control, strangulation, sea strait, two-layer hydraulics, rotating hydraulics, 01175.
remote data collection
hydrogeologic monitoring, data acquisition system, data evaluation, sampling algorithm adjustment, 04018. hydrogeologic monitoring, telephone line, monitoring procedure, 05570.
remote database
cataloging method, geographic information, library, 08023.
remote geophysics
statistical trend anlysis, mineralogy, Precambrian basement, sediment, Egypt, Central Eastern Desert; 03411.
remote marine atmosphere
particle, sulphur dioxide, sulphate aerosol, sea salt aerosol, heterogeneous oxidation, homogeneous oxidation, oxidation, 12536.
remote marine boundary layer
air sea flux, nonmethane hydrocarbon chemistry, 09058.
remote marine condition
marine atmosphere, sulphur cycle, aerosol, methanesulphonate, sulphate nss, dimethylsulphide, Atlantic; North Sea; 13703.
remote sensing
active volcano, volcanic monitoring, 03419. aerial photography, resistivity, geophysical prospecting, image processing, archaeological prospecting, 08136. aerial photography, river discharge, snow depth, water content, dry weather discharge, snow covered area, snowmelt, Landsat, Israel, Jordan River; Mount Hermon; 00624. agriculture, microwave, 12755. aircraft, satellite, resource management, 02287. algorithm, water, passive remote sensing, 02255. altimetry, earth observation, climate, space, space observation, 11130. analytical chemistry, soil, vegetation, derivative spectra, 06865. areal evapotranspiration, satellite imagery, soil temperature, soil vegetation atmosphere interface, thermal infrared, remote sensing, energy budget, leaf area index, evapotranspiration, Finland, Eurajoki River Basin; 10982. arid environment, reflectance measurement, energy balance, agricultural field, 06879. arid geomorphology, fluvial activity, aeolian activity, literature review, Land Degradation and Rehabilitation journal, 08337. arid land, satellite, 11538. arid region, overgrazing, accelerated wind erosion, water erosion, soil conservation, land degradation, mapping, India; 12043. atmospheric property, weather, microwave remote sensing, 13891. basin, instrumentation, hydrological measurement, altitude, mountain hydrology, relief conscious hydrological modelling, 08646. biogeochemistry, river, surface water chemistry, organic matter, nutrient, spatial variability, 12209. biomass burning, emission, particulate, flaming fire, smouldering fire, trace gas, 04359. bird habitat, habitat monitoring, Costa Rica; 11577. bulk skin temperature, sea surface temperature, Atlantic; 04641. canopy water, water thickness, leaf spectrometer, USA, Oregon; 11582. canopy, fallow land, France, Auvergne, Livradois; 11569. cartography, satellite, 02172. cirrus cloud, lidar, radiative transfer theory, satellite observation, near infrared, infrared, brightness temperature difference, optical depth, ice particle, 05374. climatology, urban climatology, agroclimatology, 02991. coastal research, spatial resolution, 13958. coastal wetland, pond formation, impoundment, open water formation, erosion, sediment deposition, wetland fragmentation, hydrologic change, deltaic coast, spoil bank, canalisation, USA, Louisiana, Gulf of Mexico; 05252. computer graphic, cartography, geographics, geoiconic, space time model, 06711. crop quality, elevation, water storage capacity, corn production, GIS, Canada, British Columbia, Lower Fraser Valley; 01118. crystalline basement, preprocessing, lineament, digital data set, Burkina Faso; 03415. data acquisition, image processing, Australia; 10232. data acquisition, resource sensing, 06858. data analysis, image, data acquisition, 04470. data buoy, synoptic scale wind, wind data, ship survey measurement, marine boundary layer, 06471. data management, ESA-Earthnet, Polar Platform, 00944. data management, oceanography, France; 11602. data, landscape, protected landscape management, management use, 09201. database management, GIS, conservation database, Nepal; 10428. deforestation, Guinea; 04616. drifting ice, glaciology, climatology, Antarctica; Southern Ocean; 01130. ecological network, network, 02230. education, database development, cartography, 02140. education, photogrammetry, Greece; Cyprus; Yugoslavia; Albania; 06706. electrical anisotropy, fracturation, geophysical reconnaissance, groundwater exploration, hydrogeology, air photo interpretation, satellite imagery, Niger, Liptako; 06410. electromagnetic theory, radiation, sensor, aircraft, satellite, data process, image processing, 06710. emergency response, management training, GIS, 01155. energy budget, leaf area index, evapotranspiration, remote sensing, areal evapotranspiration, satellite imagery, soil temperature, soil vegetation atmosphere interface, thermal infrared, Finland, Eurajoki River Basin; 10982. environment, space shuttle, NASA, 04466. environmental analysis, reservoir, 02233. environmental change, planning tool, developing world, Peru; Bangladesh; 02275. environmental problem, environmental monitoring, land pollution, water pollution, EARSeL symposium, 09080. erosion, forest hydrology, hydrological research, runoff, China; 13320. foliage, biomass, woodland, Mali; 13935. forest inventory database, photointerpretation, digital change detection, mapsheet, Canada, British Columbia; 01107. forest inventory, vegetation type, multitemporal data, 03434. forest survey, management, Canada; 02225. forest, wood, satellite, 09230. general circulation model, biosphere model, land surface atmosphere interaction, radiation, 07705. geological mapping, automated lineament extraction, lineament extraction, 09184. geological structure, geomorphological structure, structure, USA; 02198. geology, structural mapping, France, Parisian Basin; 13901. georeference, agricultural statistics, inventory, Greece, Macedonia; 13941. geothermal field, Landsat TM, Seasat radar imagery, air photograph, geological structure, USA, California; 06834. GIS, academic status, physical geography, geographical science, human

geography, China; 01375. GIS, data integration, geophysics, 06835. GIS, ecological research, lake, USA; 06860. GIS, filtering, restoration, 13790. GIS, Global Change Encyclopedia, 13763. GIS, LIS, surveying, cartography, convention proceedings, photogrammetry, image data processing, 07891. GIS, meteorological satellite, crop yield, resolution image, ecological resource, Zambia; 11584. GIS, regional analysis, knowledge database, change detection, 10340. GIS, surface water quality, pollution control, nonpoint source pollution, detention basin, USA, Texas, Trinity River; 00553. GPS, GIS, resource database, coastal management, 13914. graduate research, research topic, forestry, 12583. grasshopper, locust, GIS, Africa, Sahel; 11576. groundwater recharge, arid region, semi arid region, water resource management, artificial recharge, infiltration capacity, Issars method, comparable hydrogeological provinces method, regionalisation technique, 09928. hydrogeology, groundwater exploration, salt water intrusion, fracturing, island hydrogeology, coastal aquifer, New Caledonia; 07609. hydrograph separation, monitoring technique, snow hydrology, ice hydrology, snowstorage, glacier, water balance, river flow, 08794. ice cover, submarine, ice thickness, Greenland; Arctic; 01798. ice floe, iceberg drift, surface circulation, Canada, Hudson Bay; 02269. image enhancement, meteorology, geomorphology, urban geography, 12582. image, GIS, 13843. infrared technology development, thermal infrared, 07892. inorganic sediment, suspended sediment, Beaufort Sea; 02264. instrumentation, data collection, Institute of Hydrology, catchment study, water quality, groundwater process, tree, energy balance, climate change, water information system, hydrological modelling, agrohydrology, hydrochemistry, land surface energy balance, vegetation water use, storm hazard, flow regime, flood study, 10960. irrigated agriculture, groundwater resource, water resource management, France, Poitou Region; 07610. lake chemistry, surface water pH, landscape disturbance, hydrologic pathway, pipe flow, forest blowdown, acidification, GIS, USA, New York, Adirondack Mountains; 05186. lake effect, snow storms, nowcast, snow band, forecast, winter storm, Canada, Great Lakes, Lake Ontario; 11275. lake water area, supervised classification technique, Finland, Kuusamo; 09270. land evaluation, ILWIS, GIS, watershed management, 13842. land surface atmosphere interaction, climate model, microwave, 07702. Landsat data, geological investigation, mineral exploration, mapping, Saudi Arabia; 06822. Landsat, SPOT, GIS, planners, 02082. Landsat, SPOT, Sojuzkarta, marketing, commercialisation, 05559. lava flow, morphology, radar scattering, USA, Idaho; 02204. lineament, mineral exploration, human factor, 10387. linear feature, edge enhancement, fault, UK; 09185. mapping, river, plume, France, Rhone River; 02261. marine fishery, tuna fishery, 11595. military application, international space law, ethical aspect, satellite, 10239. mineral exploration, Advanced Data Interface System, complex data archive system, 06814. mineral prediction, mineral prospecting, mineral resource, 06827. mineral, nonrenewable resource, resource, global scale, 02206. mining environmental effect, surface mining, map data model, digital elevation model, UK; 06823. mixed layer depth, thermal inertia, analytical model, 11453. monument care, environmental planning, landscape management, Czechoslovakia, Zdarske Vrchy; 13912. morphology, coastal erosion, deposition, Taiwan, Chang Hua; 10393. multispectral data, radiation, soil heat flux, 06811. multitemporal analysis, agricultural development, South America, Amazonia; Peru; 02240. natural resource management, GIS, Geographic Resource Analysis Support System, image processing system, 01048. neotectonics, geology, drainage pattern, river alignment, France, Paris Basin, Champagne, Berry; Sologne; 00231. nuclear facility, environmental problem, 02289. oceanography, environmental monitoring, 11420. oil spills, SLAR, Archimedes IIa, North Sea; 11623. online database, 05655. optical signature, signature type, angular signature, atmospheric effect, radar, 03276. ozone, nitric acid, polar stratospheric cloud, temperature, cloud formation, chlorine, ozone depletion, Arctic; Antarctica; 00907. ozone, satellite observation, infrared, ultraviolet, 03145. ozone, stratospheric ozone, seasonal variation, lidar, aerosol, 00784. particle size, spectral response, suspended sediment, sediment colour, satellite imagery, India; 13309. physiology, ecology, vegetation, geobotany, China; 06850. phytoplankton, suspended solid, lake, diatom, pollution, Japan, Lake Biwa; 06972. polarisation phase difference, orchard tree, radar, USA, California, Fresno; 03444. polarisation, feature space, environment, 04585. primary production, grassland, semiarid grassland, AVHRR, Africa, Sahel; 13943. psychology, perception, science, 04467. rainfall, satellite, infrared data, Meteosat, Africa, Sahel; 06448. regional mean estimation, ground based sampling, 11646. remote sensing society, remote sensing data, research establishment, educational establishment, governmental body, 05554. river junction, flow direction, branching geometry, dendritic river network, 00528. satellite data, 12580. satellite imagery, groundwater resource exploration, Sudan, Hassei; 07608. satellite observation, pollution, emission, aerosol, in-situ measurement, aircraft measurement, 00935. satellite, legal protection, legal implication, Germany; 03271. scanner system, raster archive, hybrid, GIS, photogrammetric camera, Germany; 06789. sea truth data, water temperature, water quality, bay area, 11616. sensor system, image interpretation, visual analysis, 10231. snow avalanche path, GIS, lithologic, structural, topographic influence, USA, Montana, Glacier National Park; 03825. snow melt, glacier, mass balance, runoff, mountain basin, river discharge, 08792. snow melt, runoff forecast, USA, Colorado; 09272. snow, microwave, 02274. soil moisture content, runoff production, contributing area, C band scatterometer, saturated area, temporal variation, spatial variation, 01704. soil process, canopy indicator, below ground process, spectral property, 09716. soil salinity, spectroradiometer, Australia, Western Australia; 00434. soil vulnerability assessment, groundwater vulnerability assessment, GIS, pollution modelling, 09192. soil, semi-arid region, Chile; 02195. soil, vegetation, spectrometry, colour, crop, Soviet research, USSR; 02210. solar almucantar, multiwavelength radiometer, aerosol, optical property, China, Beijing; 06557. Soviet space program, fine resolution, 00940. spatial variability, aerosol, optical depth, vegetation, Africa, Sahel; 13948. spectral signature, crop, Greece, Thessaloniki; 04623. SPOT, GIS, environmental sensitivity, oil spill, 01122. Statistics Canada, digital image analysis, agricultural census, crop monitoring, Canada, Alberta; Saskatchewan; Canada, Manitoba; 01117. surface classification, surface mapping, surface hydraulic parameter, rainfall simulation experiment, infiltration, runoff, vegetation cover, faunal activity, surface roughness, surface crust, tillage, soil surface characteristic, Africa, Sahel; 06292. surface measured data, stream flow forecasting, National Weather Service, Airborne Gammaa Radiation Snow Survey, gamma radiation, National Remote Sensing Hydrology Program, snow water equivalent, meltwater, USA; 02941. technology transfer, coastal zone, Caribbean; 04658. temporal database, spatial database, GIS, image data, 06767. terrain data, MEIS imagery, GIS, Canada, Ontario; 13844. terrain model, international conference, geomorphology, geomorphological mapping, Germany; 09527. terrain, alpine terrain, Austria, Salzburg; 09180. three-dimensional survey, submarine sediment, sedimentary trail, 13964. tree species change, climate change, forest, surface temperature, 05469. turbidity, classification technique, industrial activity, environmental condition, Japan, Seto Inland Sea, Kanmon; Hiroshima Bay; 09483. urban land use, information quality, information revision, GIS, 01152. vector, GIS, cartographic document, document, scanned map, Canada, Alberta; 13779. vegetal cover, semi arid tropics, Landsat, India; 09245. vegetation, agriculture, spectral consideration, stress, discrimination, biomass, 12754. vegetation, global warming, Canada; 05696. vegetation, soil water, canopy, optical data, USA, Arizona; 06871. water budget study, energy flux, Earth surface, thermal infrared, 11205. water property, Monte Carlo technique, upwelling light, light stream, natural water, visibility, 12316. water vapour, microwave, radiometer, Doppler radar, riming, precipitation, 04311. water vapour, Special Sensor Microwave/Imager, ocean, 01806. water, turbidity, erosion, France, Ouche, Eure; 04654. watershed, vegetative cover, flood forecasting, 04621. weather prediction, forecasting technique, meteorological data, hydrological forecasting, rainfall forecasting, 06267. world problem, physics, interpretation, 03272.

remote sensing application
application strategy, expert system, 07895. small satellite technology, design issue, 12593.

remote sensing applications
deep weathering, vegetation cover, fireburn scar, Australia; 10234.

remote sensing data
Cenozoic(Late), volcanism, block tectonics, glacial erosion, fluvial activity, morphostructure, volcanic upland, USSR, Georgia, Djavakhet Upland; 11871. coastal water quality, water quality, data measurement integration, oceanographic research, in situ measurement, Ligurian Sea; 09276. GIS, geocoding, 05557. GIS, image analysis, 05556. ice motion, ice edge position, satellite data, Greenland Sea; 09287. research establishment, educational establishment, governmental body, remote sensing, remote sensing society, 05554.

remote sensing geochemical study
forecasting hydrocarbon fields, onshore oil and gas fields, offshore oil and gas fields, 06817.

remote sensing image
lineament zone, oil field, hydrocarbon exploration, Libya, Sirt Basin; 05710.

remote sensing imagery
GIS, image analysis, format, digital topographic data base, 00947. mapping, soil structure mapping, vegetation structure mapping, USSR, Siberia; 09191.

remote sensing limitation
resource analysis, public domain-GIS, GIS, image processing, 06740.

remote sensing satellite
space debris, 05562.

remote sensing society
remote sensing data, research establishment, educational establishment, governmental body, remote sensing, 05554.

remote sensing system
environmental hazard, operational system, weather pattern, Earth resource, USSR; 05560. environmental satellite, commercial venture, 11411.

remote sensing technique
crop water demand, irrigation management, water shortage, salinisation, Argentina; 01138. estuarine mixing, spatial variability, river plume, eutrophication, estuary, surface water quality, sediment load, nutrient concentration, mixing water, 12210. Landsat, SPOT, Italy; 11410. sulphur dioxide, volcanic emission, emission, dial, 01969. water parameter, inland water, water management, Netherlands; 01135.

remote sensing technology
satellite sensor, telemetry, 07893.

remote sounding
error analysis, profile, 06725. tropical cloud temperature, cirrus cloud temperature, optical depth, radiometers, dual channel retrieval technique, water vapour band, anvil temperature, anvil emissivity, cloud temperature, 09970.

remotely operated vessels
microcomputer, bathymetry, coral, submarine terrain, reef, seafloor, 07120.

remotely sense data
GIS, data, accuracy, intgegrated, 13828.

remotely sensed data
GIS, forestry, base maps, sylviculture, forestry, Canada, Ontario; 13932.

remotely sensed measurement
stratocumulus property, radiometer, marine stratocumulus, cloud optical depth, rain drop raduis, measurement inconsistency, 12326.

remoulded strength
quick clay, flocculation, oxide mineral, sensitive marine clay, post glacial marine clay, marine clay, undisturbed strength, Canada; 08385.

removal
diagenetic material, buried bone, human femur, physical abrasion, chemical procedure, bone, contamination, method, USA, Illinois, Gibson Site; Peru, Estuquina Site; 03853.

removal process
chlorine containing compound, trichloroethane, rate constant, chlorocarbon, tropspheric oxidation, 06639.

removal rate
cosmogenic 35S, sulphur dioxide, isotope, 13753.

rendzina
chalkland, soil formation, erosion, pedogenic processes, soil erosion, Late Devensian, aeolian clay, Holocene weathering, chalk dissolution, clay mineral transformation, cultivation, brown calcareous earth, UK, England, Yorkshire Wolds; 12032. litter decomposition, humification, Germany, Bavarian Alps; 01537.
renewable energy source
water resource, reforestation, climate change, global warming, carbon dioxide, greenhouse gas, agriculture, storm, drought, 05460.
renewable resource
forestry, developing country, survey, 11565.
renewable resource monitoring
land use inventory, mineral prospecting, radar, Brazil; 03275.
Renova Formation
Tertiary, weathering, provenance, Holocene, ilmenite, USA, Rocky Mountains; Appalachian Mountains, Montana; 07079.
reorganisation
microcomputer, cartography, 13867.
repeated loading
oedometer, consolidation, Mexico City Clay, 03743. soil cyclic response, calcareous soil, triaxial test, liquefaction, offshore geotechnics, Australia, Western Australia, North West Shelf; 09516.
replenishment material
boundary layer, oyster shell, tire chip, shale, drag coefficient, USA, Virginia; 04776.
reporting method
landslide, UNESCO Working Party, World Landslide Inventory, 04915.
representative basin
basin study, anthropogenic impact, runoff study, experimental basin, China; 06284. leaching, agricultural practice, surface water quality, soil water chemistry, nitrate, France, Orgeval, Melarchez Basin; 06396. pollution control, nitrogen loss, phosphorus loss, sediment loss, surface water quality, agricultural pollutant, export coefficient model, UK, England, Windrush River; 06325. temporal flow variability, flow response, catchment, stationarity, stream flow, UK; 06280.
reprocessing plant
radiological assessment code, iodine-129, nuclear fuel, Germany, Karlsruhe; 11370.
reproducibility
Museo de la Plata, radiocarbon laboratory, radiocarbon dating, Argentina, La Plata; 04942.
reprographics
databank, map production, 02175.
rescue operation
coastal planning, regional planning, storm, anthropogenic response, Europe, (Northwest); 13498.
research
development, regional research laboratory, GIS, UK; 13807. educational curriculum, National Center for Geographic Information and Analysis, GIS, 05783. environmental evolution, glaciation, sea level, global change, climate change, China; Antarctica, King George Island, Great Wall Station; 11838. erosion prediction technology, simulation model, Universal Soil Loss Equation, rill, interrill erosion, prediction technology, soil erosion, water, USA; 12028. GIS, society, decision making, 01034. GIS, technological development, 05614. institutional development, spatial data handling, GIS, 05617. Kalela, Kotilainen, Quaternary, botanist, Finland; 13011. Korean, Antarctic research, ice, Antarctica; 04888. landscape change, dune management, dynamical GIS, landscape component, 12704. National Center for Geographic Information and Analysis, GIS, 13808. National Space Development Agency, spacecraft, Japan; 10235. source material, cartography, 02158. teaching, SEM, micromorphology, 01572. water research, Australia; 01620.
research agenda
GIS, decision support, 06770.
research analog
Quaternary, palaeoecological research, pollen analysis, environmental hypothesis, Q mode factor analysis, cluster analysis, pollen dispersal data, Argentina, Neuquen, Cerro Domuyo; 07196.
research and development
geomatics, undergraduate programme, Canada, Quebec; 01167.
research application
polar research, ERS-1, 09291.
research base
aerodrome, coastal airstrip, prevailing wind, causeway, Antarctica, Terre Adelie, Dumont d'Urville; 01473.
research establishment
educational establishment, governmental body, remote sensing, remote sensing society, remote sensing data, 05554.
research facility
image processing technique, rill, indoor research faciiity, erosion, 09632.
research library
bibliographic control, map preservation, USA, New York State; 03376.
research material
instruction, Landsat TM, South America, Andes; 04613.
research methodology
fluvial geomorphology, flood, ancient flood, risk analyses, research methodology, fluvial palaeohydrology, palaeohydrological research, 10672. fluvial palaeohydrology, palaeohydrological research, research methodology, fluvial geomorphology, flood, ancient flood, risk analyses, 10672. Prague manuscript, variant, Sydney city plan, Australia, New South Wales, Sydney; 13849. systems methodology, information system, 11491.
research needs
erosion, sedimentation, tropical steepland, international symposium, Fiji, Suva; 06213. residue cover, soil erosion, conservation tillage, USA; 02722. sedimentation, off site impact, surface erosion, decision aid, 06214. tropical soil, soil productivity, erosion problem, 06215.
research platform
Polarbjorn, Drift Experiment, Coordinated Eastern Arctic Experiment, ice floes, Arctic; 03921.
research problem
physical property, seasonal snow cover, layered character, snow cover, 10810.
research procedure
landscape research, soil erosion, soil, 09486.
research program
stability, mass movement, flysch slopes, slope, Poland, Karpaty Mountains, Szymbark, Bystrzyca; 08398.
research programme
instrumentation, observation well, pumping well, groundwater research, soil water process, unsaturated zone, environmental database, lysimeter, tensiometer, Germany, Horkheimer Insel; 09780.
research project
educational agenda, National Center for Geographic Information and Analysis, 00949. International Geosphere Biosphere Programme, global change, 08416.
research report
Institute of Hydrology, hydrological cycle, soil physics, river basin modelling, hydrological process, climate modelling, water balance study, runoff study, environmental hydrology, pesticide transport, hydrochemical study, engineering hydrology, flood estimation, low flow research, applications research, instrument development, irrigation study, 08640.
research review
slope development, slope stability, soil pipe, landslide, 07181.
research service
teaching service, public service, mesoscale weather prediction, weather prediction system, 10158.
research station
laboratory analysis, Swedish Antarctic Expedition, Antarctica; 00228.
research strategy
energy research, emission, greenhouse gas, climate change, 12488.
research topic
forestry, remote sensing, graduate research, 12583.
research vessel cruise
trace gas concentration, photolysis frequency, aerosol, ozone, nitrogen dioxide, 06589.
reseau image
close range photogrammetry, small format film product, camera design, 12604.
resedimented deposit
paleoenvironment, flysch, calciclastic, Maastrichtian, tectonics, carbonate, Italy, Friuli, Mount Mataiur; 11759.
reservoir
albite, potassium, sandstone, sodium, dissolution, burial temperature, feldspar, Norway, Norwegian Shelf; 02474. atmospheric deposition, acidic pollutant, El Nino, hydrogen ion concentration, USA, California, Sierra Nevada, Pardee Reservoir; 01630. cement, sedimentation, sandstone, Barremian, Atlantic, Gabon Basin; 00164. clastic, turbidite, submarine fan, tectonics, basin, Mediterranean Sea; 02426. clay mineral, unconformity, diagenesis, hydrocarbon, UK; Iraq; 03675. compaction, porosity, carbonate, fuzzy sets theory, Monte Carlo method, 08310. Cretaceous, Multiwell Experiment, sandstone, shale, natural gas, Mesaverde Group, USA, Colorado, Piceance Basin, Rifle Gap; 02293. dam, heavy metal, pollutant, anthropogenic influence, sedimentation, suspended sediment, Spain, Ebro Delta; 05883. desiltation, flushing operation, dam, Italy, Padua; 04723. erosion rate, catchment characteristic, land use, sediment yield, bulk sediment yield, UK, Scotland, Central Lowlands; 02730. erosion, sediment yield, sediment delivery, peat moorland, UK, England, Yorkshire, Wessenden Head Moor; 10519. flood event control, hydropower reservoir, Austria, Alps; 08730. flushing, sediment yield, sedimentation, hydraulic engineer, suspended load, 05811. gas field, sandstone, Miocene, porosity, cement, USA, Texas, Picaroon Field; 00011. gas, diagenesis, sandstone, porosity, cementation, 01187. groundwater flow, solute transport, conjunctive use management model, optimal operation strategy, reservoir operation, water quality, groundwater management, 11118. heavy metal, lead, bottom sediment, cadmium, USSR, Dneiper River; 10525. hydrological equilibrium, downstream channel, sediment flushing, ecological impact, flood control, sediment deposition, dam, flow modification, 08726. hydropower, sediment regime, erosion, sediment transport, sediment deposition, Austria, Altenwoerth; Danube River; 08720. isostatic subsidence, artificial lake, elastic deformation, modelled elastic deformation, Norway, Blasjo Reservoir; 02533. landscape change, airfield, Germany, Coburg; 05753. lithostratigraphic unit, conglomerate, permeability, Cardium Formation, Turonian, Coniacian, Canada, Alberta, Carrot Creek; 11717. meteorological data, isoline mapping, square grid regionalization, rainfall runoff model, hydrologic data, uncertainty analysis, network operation, water resources development, Venezuela; 05315. Mississippian, petroleum exploration, carbonate ramp, carboniferous limestone, oolitic, sandbody, UK; 01279. modified biochemical oxygen demand method, algal growth potential method, lake water quality, phosphorus, limiting nutrient, phytoplankton, biologically available phosphorus, chlorophyll-a, trophic state, eutrophication, Japan, Kiso River; 04051. Monterey Formation, Mohnian, Miocene, chert, USA, California, Santa Barbara Channel; 11718. Mossbauer spectra, pore solution, illite, sandstone, 12993. mountain plain ecology, environmental impact, channel shape, sediment accumulation, groundwater regime, salt balance, mountainous terrain, downstream hydrology, hydrological effect, China, Haihe River; 08647. nutrient loss, sediment loss, surface water quality, catchment study, pasture improvement, streamflow, upland management, runoff, nitrate, eutrophication, phosphorus, potassium, UK, Wales, Nant-y-Moch; 02947. pan coefficient, evaporation, seepage, water loss, India, Rajasthan, Pali, Sardar Samand Reservoir; 07485. particle size distribution, sedimentation, dam, France, Pyrennes, Tet River; 08206. pore water, strontium, carbonate, isotope ratio, sea water, Weddell Sea, Maud Rise, ODP Site 689; 03657. porosity, shale, sandstone, cement, pore, 06955. real time optimal flood control, flood-routing simulation model, flood control operation, USA, Texas, Lower Colorado River, Lake Travis; 02851. real-time control, hydroelectric power, reservoir dynamics, reservoir operation, Venezuela, Caroni River; 00541. remote sensing, environmental

analysis, 02233. river regulation, water demand, water quality, low flow, drought, water storage, France, Garonne River; 02986. runoff, sediment transport, silting, erosion, soil conservation, Morocco, Mohammed Ben Abdelkrim Al Khattabi Dam; 12183. salinity management, river basin, evaporation pond, water quality management, irrigation water quality, Iran, Shapur River; Dalaki River; 11106. sediment transport prediction, flow regime, runoff process, extreme flood, mountain hydrology, sediment deposition, flushing, slope morphology, hillslope hydrology, flood hazard, landslide hazard, hazard mapping, artificial reservoir, flood control, 12136. sedimentation, clay mineral, Brazil, River Lobo; 02319. sedimentation, flushing, sediment yield, engineering, deposition, 05812. sedimentation, organic matter, nutrient, bottom sediment, suspended matter, USSR, Dneiper River; 10524. sedimentation, soil erosion, conservation, rainfall, Italy, Sicily; 06971. seismic energy, earthquake, natural catastrophy, neotectonic, canal, pipeline, dam, Greece; 06016. seston, sediment trap, phosphorus, phytoplankton biomass, Czechoslovakia, Rimnov Reservoir; 12851. submarine fan, hydrocarbon, lobe, sand body, 06953. surface water chemistry, lake water, copper, cobolt, iron, zinc, aluminium, trace metal load, wind speed, Netherlands, Tjeukemeer; 06302. trap, Cretaceous, diagenesis, gas, sandstone, hydrocarbon, Canada, Alberta, Berrymore-Lobstick-Bigoray Fields; 04801. Triassic, burial, illite, brine, palaeotemperature, sandstone, Irish Sea, Morecambe Gas Field; 02473. tropics, subtropics, morphometry, retention time, thermal stratification, circulation pattern, dissolved oxygen consumption, eutrophication, loading capacity, river recovery, flow regime, biomass production, ecological modelling, South America; 12191. wash load, suspended sediment, sediment transport, sedimentation, 05790. water circulation, water temperature, sediment discharge, turbidity current, lake sedimentation, mixing, Japan, Hokkaido, Katsurazawa Reservoir; 05190. water conservation, surface water resource, water loss, swamp, water management, lagoon, water storage, Africa, Nile Basin; 06402. water management, retaining basin, suspended sediment, bedload transport, basin management, flooding, Switzerland, Cantons des Grisons; 12296. water purification, water quality, phytomass, macrophyte, shallow water, USSR, Dnieper River; 00545. water resource, runoff loss, river discharge, groundwater recharge, water table rise, evaporation loss, surface water resource, USSR; 08808. wave characteristic, numerical simulation, bed evolution, bed elevation, sediment transport model, downstream channel, Taiwan; 08722.

reservoir capacity
input output characteristic, partial flow regulation, reservoir design, storage capacity, 05189.

reservoir deposit
mountain basin, hydropower, sediment transport, bed load, suspended load, Austria, Kaunertal Hydroelectric Power Station; 08721.

reservoir design
spill probability, failure probability, storage yield design, arid area, semi arid area, reservoir management, water rationing, Gould probability matrix method, 06404. storage capacity, reservoir capacity, input output characteristic, partial flow regulation, 05189. water management, hydrosystem maintenance, flood prediction, flood warning system, stochastic model, deterministic model, equatorial lake, Sacramento Model, Stanford Watershed Model IV, Queen's University Forecasting Model, soil plant atmospheric continuum, design flood, spillway design, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416.

reservoir dynamics
reservoir operation, reservoir, real-time control, hydroelectric power, Venezuela, Caroni River; 00541.

reservoir facies
source rock, caprock, rift lake, basin, lithofacies architecture, Zaire, Lake Tanganyika; Tanzania, Lake Tanganyika; 11668.

reservoir hydrochemistry
salinity, oxygen regime, organic matter, nutrient load, water quality, Asia; 00539.

reservoir hydrodynamics
computer model, water movement, Canada, Quebec, La Grande; 02850.

reservoir hydrology
water colour, surface water quality, discolouration, organic iron complex, catchment hydrology, chemical composition, environmental genesis, hydrological process, iron complex, 13353.

reservoir impact
downstream impoundment effect, Serial Discontinuity Concept, agricultural runoff, urban effluent, nitrate concentration, surface water quality, water chemistry impoundment, South Africa, Eastern Cape, Buffalo River; 06319.

reservoir limnology
eutrophication, nutrient condition, dissolved oxygen, Secchi depth, algal growth, phytoplankton, Argentina, Uruguay River, Salto Grande Reservoir; 12193.

reservoir management
water rationing, Gould probability matrix method, reservoir design, spill probability, failure probability, storage yield design, arid area, semi arid area, 06404.

reservoir modelling
oil reservoir, modelling, anastomosed system, fluviatile system, France, Carcassonne; Canada, Saskatchewan; 13014.

reservoir monitoring
water resource management, salinisation, swamping, water conservation, arid land, radar survey, USSR, Kazakhstan; 12294.

reservoir operation
expert system, water resource management, storage reservoir, inflow hydrograph, reservoir volume, inflow rate, fuzzy inference, 09944. flood forecasting, stream flow forecasting, telemetry, water resource forecasting, drought management, weather radar, rain gauge data, meteorological data, hydrological forecasting, UK, England, London; 06273. real time operational methodology, streamflow forecasting, AutoRegressive Integrated Moving Average model, India, Karnataka, Bhadra Reservoir; 02849. reservoir, real-time control, hydroelectric power, reservoir dynamics, Venezuela, Caroni River; 00541. river regulation, water resource management, flood forecasting, runoff yield, China, Fengshuba Basin; 09945. search beam method, incremental dynamic programming, Fibonacci search method, multi-objective decision making, water resource management, 02976. water quality, groundwater management, reservoir, groundwater flow, solute transport, conjunctive use management model, optimal operation strategy, 11118. water resource management, optimal operation, multi unit reservoir system, stochastic stream flow, interbasin transfer system, China; 11128. water storage, river discharge, resource management, flood forecasting, water resource, 09948.

reservoir outfall
sewage treatment, run off, oxygen, organic compound, industrial wastewater, surface water quality, urban runoff, organic carbon, dam, Canada, Alberta, Bow River; 00560.

reservoir parameter
Saltwick Formation, Aspelintoppen Formation, Jurassic, continental shelf, Ness Formation, cut-and-fill, Atlantic, Norwegian Shelf; 04808.

reservoir performance
water shortage, water management, hedging, water conservation, 00542.

reservoir planning
stochastic model, risk methodology, peak flow, flood flow, low flow, stream flow modelling, 08731.

reservoir property
diagenesis, distributary channel, Carboniferous, transgression, sandstone, organic matter, UK, England, Yorkshire, Trumfleet Field; 12980.

reservoir rock
nearshore bar, bedform, progradation, water depth, sedimentary structure, dipmeter, Canada, Gulf of Saint-Lawrence; 01222. Triassic, Lunde Formation, albitisation, plagioclase, sandstone, North Sea, Viking Graben, Tampen Spur, Snorre Field; 00167.

reservoir safety
risk evaluation, dam safety, extreme flood, flood control system, probable maximum flood, retrofit, USA, Ohio, Walhonding River, Mohawk Dam; 01787.

reservoir sandstone
clay mineral, sediment source, climate, mudrock, sandstone diagenesis, North Sea, Moray Firth; Viking Graben; North Sea, East Shetland Basin; 09472.

reservoir storage
exceedance probability, parameter estimation, AR(1) log normal model, hydrological sequence, stream flow, historical sequence, index sequential method, USA, California, Colorado River; Lake Powell; USA, California, Lake Mead; 13310.

reservoir system
catchment characteristic, water supply system, runoff, snow melt, Spain, Madrid; 08677.

reservoir volume
inflow rate, fuzzy inference, reservoir operation, expert system, water resource management, storage reservoir, inflow hydrograph, 09944.

reservoir water
agriculture, satellite data, 11554.

reservoir water chemistry
alkalinity, ammonium, pH, reactive phosphorus, nitrogen, phosphorus, nutrient, trophic state, seasonal variation, spatial variation, physico chemical variable, solubility, Venezuela, Guanapito Reservoir; 13336.

reservoir water quality
buffering capacity, chlorophyll, phytoplankton, agricultural runoff, detention reservoir, sediment, nutrient, 04055. hydraulic structure, spillway operation, bottom outlet, water quality management, computer model, mathematical model, Brazil, Amazon Basin, Cachoeira Porteira Reservoir; 12192.

residence time
cadmium, contamination, oyster, estuary, France, Gironde Estuary, Marennes-Oleron; 04787. diffusion, scavenging, phytoplankton, anthropogenic hydrocarbon, macroaggregate, thorium, seafloor, USA, Washington, Puget Sound; 08163. environmental isotope, groundwater recharge, fissured aquifer, groundwater circulation, isotopic technique, infiltration, hydrogeological study, evapotranspiration, Burkina Faso, Sudan Shield; 00598. evaporation, water exchange, sea river interaction, mixing zone, surface water quality, oxygen isotope, salt exchange, salinity change, isotopic composition, Arctic Ocean; USSR, Caspian Sea; 07505. Holocene, accretion rate, valley form, anthropogenic, sediment supply, floodplain, UK, England, Shropshire; 04718. hydrochemistry, salinity, oceanic environment, hydrothermal activity, nitrate pollution, groundwater chemistry, island hydrogeology, volcanic basalt, Reunion; 07547. interhemispheric distribution, acetonitrile budget, emission rate, source strength, 11346. long range transport, continent to ocean transport, meteorological regime, transport process, trace element, mineral aerosol, sulphur, nitrogen, organic compound, pollution, radioactivity, volcanic activity, 11304. nitrogen, anthropogenic acidity, sulphate adsorption, base flow, cation release, hydrochemical flux, upland catchment, vegetation type, surface water quality, hydrological flux, acid neutralising capacity, soil characteristic, UK, Scotland, Cairngorms, Allt a'Mharcaidh Catchment; 04095. radiocaesium, Chernobyl nuclear accident, fallout, deposition, resuspended dust, particulate matter, pollution, UK, England, Barrow-in-Furness; 00807. riverine discharge, discharge rate, selenium flux variability, oil effluent, surface water quality, sewage treatment, chemical speciation, USA, California, San Francisco Bay; 08750. sampling period, trace gas, concentration fluctuation, 02025. sea water, anoxic sediment, sedimentation rate, cycling, Japan, Tokyo Bay; Funka Bay; 10558. trace metal, fresh water residence time, first order chemical reaction, chemical equilibrium modelling, kinetic model, dissolved metal, particle water metal exchange, metal exchange, estuarine chemistry, surface water chemistry, 08751. turbidity zone, PCB, PAH, estuary, microbial degradation, Netherlands, Scheldt Estuary; 05884. vegetation development, electrical conductivity, calcite, metacline water type, atmocline water type, lithocline water type, pH electrical conductivity relationship, ionic ratio electrical conductivity relationship, landscape ecology, groundwater quality classification, ecohydrological parameter, shallow groundwater, Netherlands; 09901. water chemistry, reducing condition, fertiliser, nitrate concentration, indicator bacteria, groundwater contamination, ion chemistry, karst aquifer, USA, Kentucky, Inner Bluegrass Karst

Region; 07559.
residential area
atmospheric dust, dust level, rainy month, India, Chandigarh; 12505. GIS, location decision, planning proposal, Netherlands, Randstad; 05758. GIS, subdivision planning, Canada, Saskatchewan, Saskatoon; 13973.
residential distribution
carbon monoxide, sulphur dioxide, nitrogen dioxide, air quality, particulate matter, exposure estimate, emission, dispersion, Norway, Oslo; 01995.
residential neighbourhood
diffusion, dispersion, gravity flow, tracer, urban dispersion, plume dispersion, 04428.
residual circulation
estuarine system, residual current, forcing, sea level fluctuation, USA, New York, Peconic Bays Estuary; 02329.
residual current
conservation equation, convection-dispersion, Fickian hypothesis, Eulerian, Lagrangian, 03499. forcing, sea level fluctuation, residual circulation, estuarine system, USA, New York, Peconic Bays Estuary; 02329.
residual effect
soil loss, particle size, bulk density, water stable aggregate, Canada, Ontario, Ottawa, Central Experimental Farm; 13204.
residual error data
error distribution, aerotriangulation residual, 03291.
residual formation
Jurassic, limestone, pedogenesis, marl, France, Paris Basin; 12981.
residual granitic soil
triaxial shear strength, granitic residual soil, cone penetrometer test, pile test, Portugal, Guimaraes, Azurem Site; 03795.
residual karst relief
mogote, karstic landform, lithology, structure, temperate karst, tropical karst, polymorphism, Spain; Poland; UK; 08405.
residual lag
colluvial deposit, pyroclastic, till, diamicton, glaciation, 03596.
residual mean circulation
temperature dependence, stratopause, mesosphere, gravity wave, ozone variability, equatorial middle atmosphere, semi annual oscillation, 04392.
residual method
evaporation model, alpine tundra, Bowen ratio, energy budget, latent heat flux density, aerodynamic equation, Priestley Taylor model, Canada, British Columbia; 08660.
residual shear strength
subsoil flow, pore water pressure, mechanic, tropical region, flowslide, landslide, West Indies, Dominica; 03826.
residual soil
Birrimian rock, regolith, weathered rock, site investigation problem, Ghana; 04910. construction material, earth dam, compaction, permeability, shear strength test, dam, red soil, Algeria, Souani; 01403. diabase, bonding property, Brazil, Santa Catarina; 03794.
residual strength
clay, Atterberg limit, chemical property, landslide, chemical control, mineralogical control, 09510.
residual suitability
modelling, economic evalution, sustainability, agricultural land, land degradation, soil erosion, soil life, Sierra Leone; Botswana; 03948.
residual time series
drought index, solar activity, sunspot cycle, cross correlation, 07640.
residual vector
geocoding, multi sensor image, image combination, geocoding accuracy, Tunisia; 10252.
residual vertical circulation
troposphere, stratosphere, mass continuity, stratosphere-troposphere exchange, downward control principle, 01883.
residual volcanic relief
geomorphological evolution, coral reef, makatea, MacDonald hot spot, Pacific plate, Pacific, Southern Cook Island; French Polynesia, Austral Islands; 08382.
residue component
stem, leaf sheath, chaff, leaf blade, crop residue decomposition, wheat, 00405.
residue cover
soil erosion, conservation tillage, research needs, USA; 02722.
residue seasonal variation
organochlorine insecticide, surface water quality, insecticide residue, India, Tamil Nadu, Vellar River; 09825.
resilient modulus
predictive equation, deformation test, 03742.
resilient property
granular material, hollow cylinder apparatus, stress, pore water pressure, 03817.
resin
geochemical process, podsolisation, chelating resin, spodic horizon, soil forming process, vermiculite, France; 13197.
resin extracted nutrient
soil testing, nutrient accumulation, Phytoavailability Soil Test, soil extraction method, ion exchange resin extraction, 07405.
resin treatment
aluminium organic matter, organic matter association, cementing substance, ochreous brown soil, soil aggregate, water stable organic soil, aggregate stability, wettability, 08519.
resin-extractable nutrient
calcium, magnesium, phosphorus, potassium, microbial activity, Haploboroll, microwave-radiation treatment, incubation effect, USA, Montana; 12095. nitrate, ammonium, sulphur, Haploboroll, microwave-radiation treatment, microbial activity, incubation effect, USA, Montana; 12094.
resistance
model evaluation, summertime ozone measurement, forest, ozone, dry deposition, 12538.
resistance envelope method
hydrology-slope stability modelling, improved specification, slope hydrology, tropics, slope instability, 13050.
resistance law
complex terrain, roughness length, deviation angle, fluid parcel, 13558. ice shelf, turbulent flux, Monin-Obukhov similarity, polynya, surface energy balance, boundary layer height, Antarctica, Filehner/Ronne Ice Shelf; 00735.
resistance model
sensible heat, aerodynamic resistance, surface temperature, diurunal trend, canopy air temperature, evaporation, pasture, infrared thermometry, Australia, New South Wales, Goulburn; 00729.
resistance thermometer
temperature measurement, thermometer, mercury thermometer, 05318.
resistivity
geophysical prospecting, image processing, archaeological prospecting, remote sensing, aerial photography, 08136.
resistivity map
piezometer, water exploration, groundwater, arid zone, palaeochannel, drainage system, electromagnetic bipole-bipole method, Niger, Agadez, Teloua; 13422.
resistivity method
karstified fracture, geoelectrical method, horizontal loop profiling, Slingram method, Precambrian limestone, electromagnetic horizontal loop method, limestone aquifer, groundwater exploration, low frequency geoelectric method, very low frequency resistivity method, electromagnetic bipole method, Mali, Gondo Plain; 06358.
resistivity profiling
horizontal profiling, square array, Schlumberger array, groundwater exploration, village water supply, fissured zone, fractured zone, crystalline formation, Benin; 06359.
resistivity recharge relationship
groundwater recharge, artificial groundwater recharge, hydraulic conductivity, vadose zone, electrical resistivity, USA, Nebraska; 05210.
resistivity sounding
groundwater exploration, hydrogeology, electro magnetic profiling, Yemen, Rada District; Dhamar District; 12292.
resolution
error, forecast skill, extended range prediction, European Centre for Medium Range Weather Forecasting model, 12479. RADARSAT Project, environmental monitoring, SAR, 13918.
resolution dependence
rain measurement, blotting paper, radar measurement, fractal, raindrop, 13603.
resolution image
ecological resource, remote sensing, GIS, meteorological satellite, crop yield, Zambia; 11584.
resolution imaging
imaging spectrometer, oceanography, upwelling measurement, 09259.
resolution satellite data
regional primary production, 13942.
resolving power analysis
inverse theory, mantle viscosity, isostatic adjustment, glacial isostasy, rebound inversion, post glacial rebound, 07164.
resonance
large scale topography, circulation, low order model, wave wave interaction, isolated mountain, 12423.
resonant column test
granular soil, crosshole seismic method, Saudi Arabia, Eastern Province; 02535.
resonant flow
shock dymamics, transcritical flow, nonlinear wave, wave, solitons, 01176.
resonant forcing
coastally trapped wave, wave, longshore current, 01177.
resource
database, landscape model, USA, Pennsylvania; 13898. GIS, mapping, mineral resource, Canada, Manitoba, Snow Lake Area; 13906. global scale, remote sensing, mineral, nonrenewable resource, 02206. groundwater quality, computer model, water management, 12291. inventory, SPOT, aerial photograph, field data, Tunisia, Kasserine; 04656. Landsat TM, data integration, GIS, image enhancement, USA, Montana, Glacier National Park; 04628. planning, region, GIS, Indonesia; 04664. tropical region, FAO, forest, 04626. two layered net, wind, seston, oyster, estuarine circulation, 12854.
resource analysis
GIS, historical description, grid-referenced data, State Development Plan, USA, Maryland; 05638. public domain-GIS, GIS, image processing, remote sensing limitation, 06740.
resource assessment
marine sand, marine gravel, GIS, resource extraction, 10443.
resource competition
subalpine, pine woodland, summer frost, pine climatic requirement, 06465.
resource database
coastal management, remote sensing, GPS, GIS, 13914. database, global monitoring, environment, 02235.
resource decision support system
resource management temporality, natural resource, 09203.
resource degradation
coastline, coastal protection, management plan, UK, England, Dorset; Hampshire; 08201.
resource development
wateruse, waste water treatment, system dynamics method, regional water resource, water resource protection, quality management, 09947.
resource ecology
energy transforming rate, basalt, geochemistry, soil, China, Zhejiang Province; 04014.
resource evaluation
GIS, peat, UK, Scotland, Caithness; 12732.
resource exploitation
regional development, eco climatic resource, agriculture, eco environ-

ment protection, China, Chaidamu Basin; 06457.
resource exploration
petroleum exploration, statistical technique, image analysis, computer mapping, 12701.
resource extraction
resource assessment, marine sand, marine gravel, GIS, 10443.
resource information
land management, LIS, USA; 13927. support policy, decision making, data integration, Australia; 13841.
resource inventory
mapping, forestry monitoring, India, Western Ghats; 11575.
resource issue
utility map, Canada, British Columbia; 05773.
resource management
agriculture, water, education, training, environmental modelling, data management, forestry, 13756. boundary dispute, hydrocarbon reserve, database, Canada, Gulf of Maine; Bay of Fundy; Canada, Georges Bank Region; 13925. colour infrared, vegetation, 05723. environmental protection, geopotential use, mineral resource, Norway; Germany; 09195. flood forecasting, water resource, reservoir operation, water storage, river discharge, 09948. GIS, digital database, database, USA, Oregon; 09198. GIS, water regulation, inventory, USA, Florida; 06900. groundwater storage, water resource development, conjunctive water use, artificial recharge, reciprocal water transfer, China; 09938. LIS, legal land parcel, USA; 06912. rangeland inventory, aerial photograph, USA, Arizona; 03429. regional resource, monitoring system, 05721. remote sensing, aircraft, satellite, 02287. river regulation, water supply, drought, Chad, Chad Basin; Lake Chad; Africa, Congo Zaire Basin; 09931. storage capacity, infiltration, bedrock, leakage, groundwater recharge, ephemeral stream, dam, river regulation, Cyprus; 09932. stream crossing, water storage, cost benefit analysis, data collection, stream flow data, 09939. subtidal region, site suitability management, marine management, benthic resource management, Chile, Yaldad Bay; 13957. technology transfer, integrated resource management, 13910. training, land ownership data, government structure, Asia; 11641. water demand, surface water, groundwater, eutrophication, lake water quality, Hungary, Danube River; Tisza River; Hungary, Lake Balaton; Hungary, Gabcíkovo-Nagymeros River Dam; 13468. water management scheme, climatic change, water resource, Africa, Sahel; 09934. water storage, groundwater recharge, artificial recharge, river reversal, salinity, irrigation, sea level rise, 09927. water supply, Water Use Analysis Model, water demand, database, forecast demand, Canada, Richelieu River; 13455.
resource management temporality
natural resource, resource decision support system, 09203.
resource manager
phytosanitary phenomena, forest cover type mapping, SPOT-1, GIS, France, Mercantour National Park; 05735.
resource over exploitation
physical model, land subsidence, salt water encroachment, flooding, groundwater resource management, water abstraction, Thailand, Bangkok; 07591.
resource overexploitation
water conservation, environmental impact, river degradation, water management, National Rivers Authority, river management, UK; 08802.
resource plan
standard, data accuracy, GIS, Canada, Ontario, Scarborough; 13971.
resource planning
peatland, database, GIS, UK, Scotland; 13899.
resource potential
water impoundment, wildlife, Burkina Faso, Nazinga Game Reserve; 08130.
resource sensing
remote sensing, data acquisition, 06858.
resource use issue
lapse rate, mountain hazard, deforestation, downstream impact, high mountain forest, 03704.
resources analysis
manpower, survey method, GIS, Nigeria; 13764.
resources research
water management, systems engineering, hydrology, 10962.
respirable size range
dispersion coefficient, pollution, dust, Gaussian dispersion model, particulate matter, 04417.
respiration
beach, tidal flat, decomposition, microorganism, water quality, 09430. diurnal carbon dioxide exchange, carbon dioxide, photosynthesis, tropical forest, forest ecosystem, Samoa; 09011. ecosystem, solar flux, deposition velocity, biosphere exchange, carbon dioxide, ozone, rain forest, Brazil, Amazon; 07841. electron acceptor, reduction activity, Shewanella putrefaciens, iron reduction, oxygen, microorganism, 08274. macropore, soil aeration, salt marsh, oxygen, sediment metabolism, USA, Massachusetts, Belle Isle Marsh; 05953. precipitation, soil water, groundwater, watershed hydrology, hydrological cycle, water movement, water storage, evaporation, condensation, infiltration, antecedent moisture condition, variable source area, return period, environmental water, transpiration, interception, photosynthesis, 10963. tidal outwelling, mangrove, oxygen flux, benthic lagoon, nutrient, Australia, Great Barrier Reef; 06986.
respiration process
benthic microalgae, microelectrode, oxygen, marine sediment, Netherlands, Oosterschelde; 08313.
respiratory disease
health history, smoking, ozone, particulate matter, sinusitis, hay fever, urban air quality, 09056.
response
CO2-induced, climatic warmsing, time-dependent model, carbon dioxide, trace greenhouse gases, accumulation rate, basal melting, flow band model, Antarctica, Ross Ice Shelf; 12009. energy balance, ice sheet, temperature change, ablation, outlet glacier, ablation-temperature equation, wind, Fohn event, Greenland, Nordbogletscher; Qamanarssup sermia; 01470.
response function
Fourier transform, smoothing scale length, observation spacing, Barnes objective analysis scheme, 05274.
response strategy
global warming, climate change, energy implication, fossil fuel, greenhouse effect, global circulation model, 06533.
response surface plot
statistical method, parameter uncertainty, conditional probability region, hydrological model, nonlinearity, 05111.
restoration
map, 04573. remote sensing, GIS, filtering, 13790. upland stream, ecological degradation, surface water quality, catchment management, water resource management, sedimentation, nutrient leakage, salinisation, heavy metals, rehabilitation, remediation, Australia; 01767.
restored soil
soil restoration, organic matter, mineralisation, microbial decomposition, anaerobic condition, topsoil, ammonia gas, sensing electrode, 08573.
restrained rebound
saturated clay, swell pressure growth, mathematical model, 03809.
restricted maximum likelihood
universal kriging, spatial prediction method, soil pH, 12090.
restricted oriented convex set
convex set, line intersection, 09107.
restricted water table
unrestricted water table, evaporation, turbulent airflow, column evaporation experiment, water table depth, deuterium concentration profile, bare land evaporation, 05123.
results accuracy
GPS survey, network adjustment, 07945.
resurfacing
crater obliteration, crater production, crater lifetime, volcanic crater, viscous relaxation, crater ejecta halo, tectonic feature, nature, rate, Venus; 02526.
resurfacing rate
impact crater, tessarae terrain, weathering, transport, thermochemistry, crater size frequency, aeolian process, Venus; 07153.
resuspended dust
particulate matter, pollution, residence time, radiocaesium, Chernobyl nuclear accident, fallout, deposition, UK, England, Barrow-in-Furness; 00807.
resuspension
accumulation rate, nepheloid layer, sedimentary budget, continental shelf, Mediterranean Sea, Gulf of Lions; 05853. accumulation rate, sediment concentration, macroaggregate, mud, rheology, USA, North Carolina, Cape Lookout Bight; 01215. aerosol, particle size, isotope, iodine, nuclear facility, radioiodine, radionuclide, 13730. arc trench system, suspended sediment, mud, tectonic provenance, transport, hemipelagic detritus, Pacific, Aleutian Arc; 10577. benthic community, abyssal water, biological activity, particle concentration, temporal variation, nephelometry, Module Autonome Pluridisciplinaire, Atlantic, Bay of Biscay, Meriadzek Terrace; 07024. deep-sea sediment, terrigenous flux, seafloor, Holocene, water depth, Atlantic, Sierra Leone Rise; Ceara Rise; 10575. ECOMARGE, sediment trap, biogeochemical cycling, settling particle, France; 05979. estuary, floodplain, transport route, mixing, Pleistocene, Brazil, Amazonia; Germany, Weser Estuary; North Sea; 04726. hydraulic jump, internal wave, suspended sediment, Kelvin-Helmholtz billow, lutocline, Korea(South), Yellow Sea Coast; 04694. lake sediment, accumulation rate, diatom, sediment trap, aspect ratio, UK, Northern Ireland, Lough Neagh; 10664. mud bed, shear stress, nearshore, 04687. mud, storm action, continental shelf, particulate matter, sediment supply, delta, Spain, River Ebro; 05855. PCB, nuclide, plutonium, americium, bottom sediment, Mediterranean Sea, Gulf of Lions; 05890. phosphorus, nitrogen, lake, bottom sediment, nutrient, mass balance, Canada, Ontario; 01204. sediment-water interface, mineralisation, mass balance, water quality, particulate matter, 05969. suspended sediment, particle size distribution, concentration profile, sediment concentration, continental shelf, USA, New York, Long Island; 03559.
resuspension flux
trace metal, wet deposition, dry deposition, precipitation chemistry, metal concentration, vasilinated plexiplate, cascade impactor, North Sea; 04422.
resuspension process
turbulence, Lagrangian modelling, dispersion process, sedimentation process, 08145.
retailing
GIS, real estate, 05769.
retaining basin
suspended sediment, bedload transport, basin management, flooding, reservoir, water management, Switzerland, Cantons des Grisons; 12296.
retardation factor
contaminant migration, remediation scheme, groundwater contamination, in situ test, 07570. hydrogeological parameter, flow model, environmental isotope, groundwater flow model, fissured rock catchment, fractured rock aquifer, dispersion model, tritium, subsurface storage, mobile water, Germany, Harz Mts; 05214.
retention
microbial, sulphate, adsorption, fractionation, sorption, isotope, Canada, Ontario, Dorset; 05948.
retention time
thermal stratification, circulation pattern, dissolved oxygen consumption, eutrophication, loading capacity, river recovery, flow regime, biomass production, ecological modelling, reservoir, tropics, subtropics, morphometry, South America; 12191.
retreat
climatic change, chronologic sequence, stratigraphic history, Quaternary, Wisconsin(Late), advance, USA, Ohio; 00295. computer model, glaciosostacy, accumulation, ablation rate, ice velocity, snowline elevation, ice volume, sea level, ice load, last glaciation, advance, 13109.
retreating glacier
inventory, Holocene, historical data, climatic condition, frontal move-

ment, glacier evolution, photo interpretation, advancing glacier, Canada, British Columbia, Glacier National Park; 06205.
retrieval
precipitation profile, airborne radar, radar, radiometer, dual frequency radar measurement, 12324.
retrieval accuracy
microwave observation, satellite, empirical orthogonal function analysis, humidity profile, ocean, eigenvector, 13567.
retrieval system
drought, climate information, climatic information, 06806.
retrofit
reservoir safety, risk evaluation, dam safety, extreme flood, flood control system, probable maximum flood, USA, Ohio, Walhonding River, Mohawk Dam; 01787.
retroflection region
cyclogenesis, baroclinicity, surface heat, heat flux, marine boundary, boundary layer modification, Atlantic, Agulhas Bank; 12381.
retrogression surface
earthflow, sensitive clay, river erosion, slope stability, landslide, Canada, Quebec, James Bay, La Grande River; 13052.
retrogressive thaw slump
ground ice, fluvial activity, coastal erosion, thawing sediment, permafrost, thermokarst, Canada, Yukon Territory, Herschel Island; 03910. slope instability, permafrost, ground ice, global change, sea level, coastal erosion, Canada, Beaufort Sea Coastlands; 03911.
return period
basin discharge, rainfall-runoff relation, probability theory, storage, routing model, soil moisture storage capacity, 04040. climatic change, flood assessment, water resource, extreme flood, 01643. environmental water, transpiration, interception, photosynthesis, respiration, precipitation, soil water, groundwater, watershed hydrology, hydrological cycle, water movement, water storage, evaporation, condensation, infiltration, antecedent moisture condition, variable source area, 10963. exceedence probability, statistical distribution, design flood, expert system, flood frequency analysis, 09793. extreme event, design flood, structure life, flood, 07474. extreme event, landuse effect, urbanisation, runoff, stream flow, catchment characteristics, runoff regime, afforestation, flood, Switzerland, Emme River; Reuss Valley; 09916. flood plain management, urban flood, flood hazard, mapping, land use management, flood frequency, Spain, Puente Genil; Nervion River; 04032. flood(1784), flooding, weather pattern, climatic precondition, Germany, Main River; 01644. flow-duration relationship, design flood, DELTA-QIX method, ten-year flood, flood estimation, peak discharge, 00523. hydraulic structure, design flood, hydraulic phenomena, flood damage, South Africa; 05148. partial probability weighted moment, generalized extreme value distribution, flood forecasting, flood frequency analysis, flood magnitude, 09806. rainfall runoff relationship, probabilistic method, Poisson Process theory, regional synthesis method, flood probability law, flood chronology, basin characteristic, Algeria; 12169. sea level rise, coastal protection, landuse, lagoon, storm surge, Italy, Venice; 09599.
return stroke
current model, transmission line, lightning, 11161. electric field, lightning stroke, leader electric field, 06446. leader, cloud pulse, lightning, electromagnetic radiation field spectra, energy spectral density, 11162. negative flash, lightning characteristic, lake effect, thunderstorm, positive flash, North America, Great Lakes; 08838.
return stroke current model
channel base current, lightning, 11160.
return stroke model
channel base current, channel current, leader head, leader core, lightning, 05380.
return stroke velocity
electromagnetic field, current amplitude, lightning, current risetime, 08841.
Reuverian Stage
Anglian Stage, Elsterian, Pleistocene(Early), Pleistocene(Early Middle), correlation, faunal data, floral data, palaeoclimatic data, Pastonian Stage, Tiglian(Late), Bramertonian, Tiglian(Middle), Ludhamian, Tiglian(Early), pre Ludhamian, Praetiglian Stage, Waltonian, North Sea; 08446.
revegetation
cryptovoid, water availability, pore size distribution, soil porosity, microvoid, mesovoid, deforestation, Brazil, Amazon; 09748. land clearance, salinisation, river salinity, groundwater recharge, water table rise, Australia, Mallee Region; River Murray; 05267. salinity management, groundwater management, land degradation, surface water quality, reforestation, salinisation, Australia, Murray-Darling Basin; 05268.
reverse fault
palaeoearthquake, seismic hazard studies, fault behaviour variation, tectonic province, marine terrace, subduction margin, dextral fault, New Zealand; 08375.
reverse faulting
geodetic survey, surface displacement, earthquake, San Francisco earthquake, Loma Prieta earthquake, strike slip, USA, California, San Andreas fault; 07168.
reverse osmosis
ion exchange process, electrodialysis, nitrogenous pollutant, water quality management, wastewater treatment, microbiological denitrification, water purification, 00657.
reversed direct stress
ice, equipment, uniaxial stress experiment, experimental result, stress testing, 07295. ice, fresh water ice, cyclic loading, Bausehinger effect, Granato Lucke theory, stress testing, 07296.
reversibility
iron(III) fulvic acid reaction, Mossbauer spectroscopy, fulvic acid, Countesswells series, Tipperty series, iron concentration, soil solution, 09612.
reversible aggregation
sedimentation velocity, humic acid, fulvic acid, humic aggregate, light scattering method, UK, England, North Yorkshire, Whitray Beck; 03231.
reversible process
thermodynamic foundation, modelling, moist atmosphere, conservative property, mass, entropy, 13607.
reversible reaction
adsorption, desorption, kinetics, diffusion, solid core model, coupled reaction, pollutant, suspended sediment, 07030.
Reversing Acidification in Norway project
sulphate, nitrate, atmospheric deposition, acidification, organic acid, runoff chemistry, Norway; 13381.
reversing sensor system
gradient measurement, humidity sensor, forest, flux gradient relationship, 08879.
revetment
model testing, flood, spillway, overflow, weir, erosion, Canada, Alberta, Bow River, Bearspaw Hydroelectric Development; Calgary, Bearspaw Hydroelectric Development; 02377.
review
current research, TL dating, loess, radiocarbon date, last interglacial paleosol, China; North America; Europe, (Central); USA, Alaska; 04953. engineering geological aspect, foundation, soil, 01406. flooding, rate, frequency, cause, agricultural policy, erosion impact, soil erosion, UK, England, Sussex, South Downs; 01509. particle size distribution, gas-to-particle conversion, dimethylsulphide, sea salt, sulphate, marine aerosol, aerosol, 13696. regional survey, terminology, palaeokarst, 00256. soil erosion, flood hazard, China, Loess Plateau; 02743.
revised design chart
steep slope, reinforced slope, slope, design chart, geotextile, polymer grid, 09517.
revision
digitising, USGS, data structure, 05679. large scale plan, Battle of the Scales, Ordnance Survey, 12666.
revision capacity
distributed file, street network, network file, Canada; 13985.
Rewa Formation
hummocky cross stratification, storm laid sediment, sedimentary structure, microsequence, India, Rajasthan, Bhainsrorgarh; 03516.
reworked loess
Pleistocene(Upper), loess, aeolian loess, Italy, Turin Hills; 07212.
reworking
Hawthorn Group, phosphate, carbonate, USA, Florida; 01339. polychaetes, bird feeding trace, bioturbation, tidal flat, Netherlands, Wadden Sea; 01315. turbidite, tempestite, shelf, siliciclastic sequence, storm, hurricane, 11688.
Reynolds averaged Navier Stokes equation
large eddy simulation, obstacle, turbulent flow, flow computation, 07685.
Reynolds number
Navier-Stokes equation, perturbation method, surface tension, fluid, linear stability analysis, 00002. permeability, laminar flow, percolation, groundwater flow, study soil, 06328.
Reynolds number region
Stokes range, settling velocity, particle, wind field, 13481.
Reynolds number similarity
molecular viscosity, turbulent viscosity, pressure drag, boundary layer, surface Rossby number, form drag, 05396.
Reynolds Range Group
transgression, quartzite, pelite, metamorphism, Hatches Creek Group, Proterozoic, Australia, Northern Territory, Reynolds Range, Arunta Block; 07047.
Reynolds stress
deciduous forest, forest, canopy, energy budget, turbulent energy, kinetic energy, 11181. simplified equation, perturbation analysis, turbulent flow, porous barrier, vorticity equation, 12307. turbulent kinetic energy, forest, shear production, canopy, atmospheric stability, stress budget, 10015.
Reynolds stress component
secondary current, turbulence modelling, channel flood plain flow, compound open channel, Navier Stockes equation, algebraic stress model, 05165.
Rhaetian
Bajocian, geotechnical investigation, organic matter, Tethys, Jurassic, palaeoenvironment, Switzerland, Jura Mountains; 04835. microfacies, cyclic sedimentation, carbonate, fossil, Triassic, Italy, Southern Alps, Lombardian Basin; 00153.
Rhaetic
eustasy, Triassic, cyclicity, subsidence, Milankovitch theory, sedimentation, Italy, Lombardy Basin; 02418.
Rhaxella
shingle, flint, Pleistocene, quartz, chert, UK, England, Suffolk, Orfordness; 06996.
rheological model
soil, stress history, consolidation model, Terzaghi, drainage condition, 03819. uplift, subsidence, Holocene, sea level change, model, crustal behaviour, UK, England, Thames River; North Sea; Netherlands; 13169.
rheological parameter
uplift paradigm, glacial isostatic theory, driving mechanism, subcrustal layering, Fennoscandia; 13034.
rheological stratification
depositional sequence, eustatic sea level, fluctuation, polar wander, sea level fluctuation, 01445.
rheological test
cone penetrometer, static cone penetrometer, 03779.
rheology
lithospheric parameter, glacial isostasy, sea level, mantle rheology, viscosity, Earth, post glacial rebound, 13025. mass balance, ice sheet, glaciology, palaeoclimate, ice evolution time scale, degrees of freedom, continental ice sheet, 09543. pore pressure, forearc environment, deformation, microstructure, mudstone, tectonics, Caribbean Sea, Barbados Forearc, ODP Hole 671B; 01188. regelation flow, experimental evidence, thermodynamic behaviour, complex visco plastic material, thermally induced regelation, Clausius-Clapeyron equation, frozen soil,

irreversible thermodynamics, 01450. resuspension, accumulation rate, sediment concentration, macroaggregate, mud, USA, North Carolina, Cape Lookout Bight; 01215. smectite, swelling, oil well drilling, calcium chloride, compaction, 09312. viscometer, suspension, Newtonian, 01358.
rheoplasis
flute mould, cavity, Carboniferous, Boss Point Formation, mud intrusion, Canada, New Brunswick, Sackville; 04700.
Rhine deposit
soil physical property, microfabric, Netherlands; 01601.
Rhine terrace
Vallendar pebble bed, peneplain, mountain research, Philippson works, Germany, Rhine River, Schiefergebirge; 08341.
Rhinegraben
Oligocene, organic matter, potash, palynology, evaporite, France, Alsace, Mulhouse; 07053.
Rhizocarpon
glacial advance, moraine, talus, glacierisation, lichenometric study, Holocene, rock glacier, neoglacial moraine, Canada, Northwest Territories, Frances Lake; Yukon Territory, Frances Lake; 08508.
Rhizocarpon geographicum
measurement, calibration, weathering process, lichenometric investigation, wave washed moraine, Schmidt Test hammer, boulder, isostatic uplift, rock weathering rate, Sweden, Bothnian coast, Badamalen; 07321.
Rhizocarpon geographium
glacier, Arrowsmith set, Marquee set, lichenometry, rock weathering rind curve, Aranuian, vegetation history, moraine chronology, New Zealand, Canterbury, Arrowsmith Range, Cameron Glacier; 08469.
rhizoconcretion
salt marsh sediment, plant, Spartina, oxygen, rhizosphere, iron hydroxide, pore water, Portugal, Tagus Estuary; 04842.
rhizosphere
copper, absorption, desorption, heavy metal, 13251. iron hydroxide, pore water, rhizoconcretion, salt marsh sediment, plant, Spartina, oxygen, Portugal, Tagus Estuary; 04842. root respiration, carbon dioxide, oxidation, carbonate, chloride, lepidocrocite, goethite, pipestem, 00169.
rhizosphere pH
pH, ion uptake, cation anion balance, 03975.
rhodanese activity
biological sulphur, sulphur oxidation, chemical sulphur, microbial biomass, sulphur oxidation, China; USA, Oregon; 13250. soil, oxidation, sulphur, 07371.
Rhodanian
tectonic movement, Pannonian, planation surface, fault, uplift, morphostructural analysis, horst, USSR, Carpathians, Lesser Carpathians; 08378.
Rhodazine-D colorimetric technique
low level dissolved oxygen, dissolved oxygen, groundwater chemistry, selenium contaminated aquifer, USA, California, Kesterson Reservoir; 02924.
rhodochrosite
manganese, carbonate, Jurassic, shale, radiolarian, Japan; 09319.
rhodolite
sponge, Holocene, coral, algae, reef, shelf environment, scleractinian, 08253.
Rhodophyta
Gelidium, photosynthesis, physiological response, Pterocladia, Portugal, Azores; 04841.
rhyodacite
volcanic evolution model, glacial, volcanic geomorphology, andesite, cone collapse, corrie, dacite, debris avalanche, glacial valley, lahar, Quaternary(Late) sequence, moraine, Ecuador, Andes, Chimborazo-Carihuairazo Massif; 02516.
rhyolite dacite dome
komatiite, volcanic resurfacing rate, volcanism, Magellan image, lava flow, pyroclastic deposit, Venus; 11875.
rhythm
event, Quaternary, glaciomarine deposit, facies pattern, glaciomarine continental margin environment, basal lodgement till, glacio-isostatic uplift, prograding slope sequence, carbonate, opal productivity, ice rafted debris input, floating ice shelf, polynya, cycle, Arctic; Southern Ocean, Weddell Sea; 02620.
rhythmic spring
ebb and flow spring, intermittent spring, siphon action, karst spring, recharge, groundwater discharge, spring model, Yugoslavia; 12242.
rhythmically layered sediment
palaeomagnetic test, remanent magnetisation, declination change rate, palaeomagnetic evidence, glacial Lake Missoula, flood, USA, Washington, Sanpoil River; 10777.
rhythmite
Deschaillons Varve, St. Maurice Rhythmite, Leclercville Rhythmite, St. Pierre Sediment, La Perade Clay, climatic optimum, lithostratigraphy, tectonically stable, allochtonous ice, glacioisostasy, glacial lake, climatic cycle, isostatic rebound, eustatic sea level, Canada, Quebec, St Lawrence Valley; 02657. Holocene, environmental change, lake sediment, subAntarctic, pollen, diatom, desmid, Antarctica, South Georgia; 09597. pollen content, Leclercville Rhythmites, last interglacial, lake sedimentation, stratigraphic position, palynology, Pleistocene, Canada, Saint-Lawrence Valley, Leclercville; 01437. pollen content, Pleistocene(Late), Deschaillons Varve, St. Maurice Rhythmite, Leclercville Rhythmite, St. Pierre Sediment, bioturbation, varve, glaciolacustrine event, Canada, Quebec, St Lawrence Valley; 02660. sedimentary cycle, fluvial, glacioisostatically depressed, St. Pierre Sediment, stratotype, lithozone, pollen, boreal vegetation, Canada, Quebec, St Lawrence Valley; 02658. till, ice lateral lake, glaciolacustrine, sedimentation, diamicton, Spain, Pyrenees, Llauset Valley; 03532.
ria subsidence
valley profile, subsidence, estuary, Spain, Galicia, Eo river; 07145.
rib like relief
ledge failure, stability analysis, critical length, ledge, artificially cut slope, slope, Japan, Ibaraki Prefecture, Tsukuba Upland; 08388.
Ribains interglacial
St Geneys, interstadial, Pleniglacial, Les Echets sequence, pollen analysis, Pleistocene(Upper), maar, vegetational history, France, Massif Central, Velay, Le Bouchet Lake; 03895.
ribbed texture
island orientation, shelf ice cliff, ice ridging, pressure ridge, SAR, ice island, Canada, Queen Elizabeth Islands; 01127.
rice
cattle, fertilisation, vegetation, greenhouse warming, biological source, biological sink, methane, nitrous oxide, emission, soil, nitrification, 09012. crop nitrogen status, spectral reflectance, 03424. leaching, rinsing, reclamation, sodic soil, 02780. redox regime, Chernozem, meadow-Chernozem soil, calcium, magnesium, iron, manganese, 12078.
rice agriculture
cattle rearing, methane level trend, 05516.
rice cultivation
crystalline schist, humid intertropical zone, recharge, groundwater discharge, water balance, mineral balance, capillary rise, high altitude zone, water table fluctuation, Madagascar; 09853.
rice field
biomass, methane production, methane emission, USA, Texas; 09015. fishery, lipophilic organochlorine, agrochemical, drainage, swamp, Malaysia, Krian River Basin; 03595. methane, urban, fluorocarbons, trace gas, global pollution, China; USA; Brazil; Australia; 06569. mosquito habitat, spatial characterisation, USA, California; 11562.
rice paddy field
soil temperature, methane emission, 10213.
rice soil
iron toxicity, soil chemical property, soil nutrition, clay content, flooded soil, nutrient deficiency, Senegal, Casamance; 13293. soil physical property, crop response, tillage, clay content, Philippines; 03953.
rice straw
soil moisture, paddy soil, manure application, soil physical property, China; 12121.
Richards equation
contaminant transport, unsaturated zone, random walk particles model, groundwater flow, France, Orleans; 06340. convection dispersion equation, preferential flow path, unstable flow, groundwater flow, coarse textured soil, solute transport, water repellent soil, unsaturated flow, infiltration, soil water redistribution, 09837. Fickian equation, soil moisture, hydraulic head distribution, flow velocity, capillary fringe, overland flow, S shaped basin, infiltration, solute transport, unsaturated zone, boundary fitted grid method, 13404. groundwater flow model, macropore, solute transport, sensitivity analysis, convection-dispersion equation, 13399. groundwater flow, percolation test, layered soil, unsaturated flow, saturated flow, horizontal flow, vertical flow, hydraulic conductivity, Guelph permeameter technique, silt loam soil, 11037. groundwater flow, unsaturated flow equation, diagonal time matrix, 04111. layer interface, infiltration, two layer soil, layered system, groundwater flow, flux boundary condition, numerical model, 11038. layered soil, groundwater flow, unsaturated-saturated flow, infiltration, 04107. quasilinear approximation, groundwater flow, unsaturated flow, soil moisture potential, hydraulic conductivity, 01709. saturated flow, pond seepage, seepage, three dimensional flow, groundwater flow, linear flow, radial flow, unsaturated flow, USA, North Carolina Barrier Islands; 05207. spatial variability, sensitivity analysis, groundwater flow, unsaturated flow, model verification, parameter uncertainty, soil heterogeneity, 00581. unsaturated flow, heterogeneous media, perturbation approach, effective medium property, groundwater flow, transient flow, infiltration redistribution, 09848. unsaturated flow, water content, centrifugal field, transient flow, sandy soil, 06341.
Richards theory
field monitoring, numerical prediction, moisture movement, unsaturated soil, UK, England, Wiltshire, Swindon; 13048.
Richards' equation
distributed mass matrix, subsurface flow, hillslope, lumped mass matrix, saturated-unsaturated flow, groundwater flow, 01703.
Richardson number
aircraft observation, boundary layer, spring, ice motion, drag coefficient, Arctic; 13535. cyclone wave, baroclinic instability, primitive equations dynamics, frontal zone, quasi geostrophic, semi geostrophic, 04267. dispersion coefficient, Monin-Obukhov length, sodar, pollution meteorology, acoustic sounding, inversion, thermal structure, Pasquill stability, 05496. flow measurement, shear stress, suspended solid, tidal flow, turbulence, estuary, 10531. frontal zone, secondary front, cyclogenesis, storm, thermal wind balance, 01908. nocturnal exchange, rain forest, carbon dioxide, heat flux, forest canopy, radiative cooling, Brazil, Amazon; 07842. Roach equation, clear air turbulence, mesoscale process, synoptic scale process, dynamic process, 12438. surface flux, turbulence characteristic, flux profile relationship, atmospheric surface layer, Monin Obukhov stability parameter, 04252.
Richter type slope
fluvial incision, parallel retreat, caprock, slope development, Clarens Sandstone, slope replacement, rock resistance, South Africa, Orange Free State, Klerkspruit Valley; 10715.
Richter,H.
geoecological model, geography, teaching, geocomplex model, 00205.
Rickard's rate laws
diagenesis, sulphur, pyrite, marine sediment, organic matter, iron, reduction, 01329.
ridge
break line, contour, terrain data modelling, terrain structure, 01076. runnel, beach classification, macro tidal beach, meso tidal beach, beach, Australia, Queensland; 10550. trough, industry, eastward movement, low frequency wave, system interaction, 12394.
ridge and runnel
tidal cycle, settling velocity, sand transport, beach, sediment flux, UK, England, Norfolk, Holkham Beach; 01223.
ridge bathymetry
map, multibeam, Atlantic, Mid Atlantic Ridge; 09143.
ridge belt
compressional structure, extensional structure, extension, spreading

zone, subduction zone, Venus; 07160. morphology, compressional origin, Magellan mission, Venus; 07159.
ridge extraction
skeleton, contour processing algorithm, thinning algorithm, 03314.
ridge orientation
ridge shape, topography, growth rate, baroclinic energy conversion, linear instability, sphere, 12404.
ridge process
seafloor model, SeaMARC II, bathymetry, sea beam data, stochastic model, abyssal hill, seafloor topography, Pacific, East Pacific Rise; 09506.
ridge regression
Kalman filter, multicollinearity, navigation, 04512.
ridge shape
topography, growth rate, baroclinic energy conversion, linear instability, sphere, ridge orientation, 12404.
ridge top
soil movement, tillage, slope, soil erosion, USA, Minnesota; 03937.
ridged lava plain
thrust fault, impact ejecta, headward sapping, thermokarst, fluvial valley origin, canyon, Mars, Aeolis Quadrangle; 06011.
ridged soil
groundwater flow, unsaturated zone, tilled soil, soil water, water transport, heat transport, 06334.
ridging
subsoiling, disc harrowing, soil physical property, tillage, maize, legume, Nigeria, Kurmin Biri; 05064.
riffle
channel stability, shear velocity, pool riffle topography, hydraulic geometry, velocity reversal hypothesis, gravel bedded stream, UK, England, River Severn; 06961. river bottom, dune, tunnel, buoyancy, flood, scouring, scour protection, erosion, Argentina, Parana River, Parana-Sante Fe Tunnel; 05882.
riffle and pool stream
sediment-water interaction, contamination, caesium, river water, adsorption, tracer, groundwater, bed load, USA, Tennessee, White Oak Creek; Oak Ridge National Laboratory; 01322.
riffle pool concept
river conservation, bar, river bed, braided channel, Japan; 06968.
riffle splitting
cone and quartering, homogenisation technique, soil homogenisation, grinding and sieving, 03985.
rift
alluvial fan, Paleogene, tectonic activity, sediment supply, sediment maturity, sedimentation, China, Liaoning Province, Liaohe Rift; Bohai Sea Gulf, Liaohe Rift; 02354. East African Rift, tectonics, volcanism, graben, sedimentation, 03628. floodplain, weathering, meandering, river behaviour, intertropical region, Zaire; Burundi; Rwanda; 13017. lacustrine deposit, basin, lake, subsidence, shale, hydrocarbon, 11751. modern analogue, lacustrine sediment, source rock, isotope, lake, 11826. tectonics, upheaval, strike slip, plate movement, sedimentation, Egypt, Red Sea; 03630.
rift basin
geothermal gradient, calcite, calcium carbonate, crystallisation, Atlantic, Gabon Basin; 00165. Jurassic, East Berlin Formation, black shale, tricyclic terpane, lacustrine, petroleum, source rock, USA, Connecticut, Hartford Basin; 02459. synrift, alginite, Jurassic(Lower), petroleum, terpane, USA, Connecticut; 07096.
rift basin deposit
Newark Supergroup, Mesozoic, lithofacies, sandstone, palaeolatitude, sedimentation, lake, 11752.
rift lake
basin, lithofacies architecture, reservoir facies, source rock, caprock, Zaire, Lake Tanganyika; Tanzania, Lake Tanganyika; 11668.
rift neotectonics
karstic system, neotectonics, brittle tectonics, geomorphology, drainage, Madagascar; 08377.
rift sediment
tectonics, organic matter, geothermal history, sedimentation, basin, Gabon; Congo; 03632.
rift system
geological photo interpretation, fault kinematics, morpho-structural analysis, SPOT, Landsat, China, Shaanxi, Wei He; 05704.
rift tectonics
shear zone, geological control survey, Tanzania, Burundi; 05705.
rift valley
hydrothermal vent, sediment geochemistry, aeolian material, Indian Ocean, Gulf of Aden, Tadjoura Rift; 08193.
rift zone
block tectonics, focal mechanism, basal slip, earthquake focal mechanism, seismic network, translational azimuth, USA, Hawaii; 11885.
rift-valley lake
source rock, facies architecture, passive margin, Tanzania, Lake Tanganyika; Zaire, Lake Tanganyika; Malawi, Lake Malawi; 11669.
rifting
chert, Jbel Tissouka Unit, Triassic, Hettangian, breccia, limestone, Morocco, Riffian Chain, Chaouen; 11760. cracking, decollement, Jurassic, breccia, neptunian dyke, Switzerland; Italy, Southern Alps; 11657. Cretaceous, volcaniclastic conglomerate, evaporite, shale, Lagoa Feia Formation, source rock, Brazil, Campos Basin; 11755. diagenesis, sedimentary basin, salinity, brine, USA, Gulf Coast; 11771. flysch, sedimentation, weathering, Cretaceous, burial, illite, smectite, erosion, Europe, Alps, Lombardian Basin; 11756. isotopic data, geochemical survey, tectonostratigraphic unit, Precambrian, stream, Greenland; 07065. palaeoenvironment, ferric oolite, sedimentation, ironstone, basin, Malawi, Lake Malawi; 05830. sedimentation, Quqaluit Formation, Cape Searle Formation, Cretaceous, Paleocene, graben, basalt, Canada, Northwest Territories, Baffin Island; 02409. subsidence, unroofing, uplift, Oligocene(Upper), Miocene(Middle), Red Sea, Gulf of Suez; 09424.
right lateral offset
gravity anomaly, earthquake, strike slip fault, foreland fold thrust belt, Kalabagh Fault, decollement thrust, Pakistan, Salt Range; 04897.
rigid foundation
limit analysis, cracked, layered soil, 03793.
Rijks Geologische Dienst
Quaternary Geology, Dogger Bank Formation, Bolders Bank Formation, Botney Cut Formation, Yarmouth Roads Formation, glacial valley, Weichselian, Elsterian, bathymetry, geotechnical property, borehole, British Geological Survey, North Sea, Silver Well; Netherlands; 09565.
rill
drainage network, channel, drainage stability, drainage initiation, surface drainage, short wavelength limit, 13012. erodibility value, USLE, cropland, rangeland, experiment, soil erodibility, Water Erosion Prediction Project, surface runoff, ephemeral gully, 13202. gully erosion, agricultural method, agricultural practice, cultivated land, concentrated flow erosion, rainfall intensity, France; Haute-Normandie, Pays de Caux; 03940. gully, overland flow, rainfall characteristics, hydraulic conductivity, saturated hydraulic conductivity, pipe flow, runoff, surficial process, rainforest, South America, Amazonia; 09801. gully, plot experiment, erosion estimate, soil erosion, photograph, arable field, UK; 08543. indoor research facility, erosion, research facility, image processing technique, 09632. interrill erosion, prediction technology, soil erosion, water, research, erosion prediction technology, simulation model, Universal Soil Loss Equation, USA; 12028. rock property, bedrock incised rill, gully, Schmidt hammer, weathering, joint, deep regolith, accelerated erosion, Africa, (Southern); 08555.
rill erosion
arable land, rate, control, predictability, erosion rate, Belgium; 12035. erosion rate, cropland, soil erosion dynamic, soil erosion declining, sheet erosion, USA; 09633. gully erosion, arable land, acceptable soil loss, water erosion, snow melt, frozen soil, thaw, Sweden; 02735. gully erosion, human disturbance, landslide, torrential rainstorm, geomorphic system, geomorphic process, hillslope runoff, Spain, Pyrenees, Prepyrenees; 04891. karst terrain, soil erosion, deposition, fallout cesium-137, USLE, USA, Alabama, Limestone Valley, Gilbert Farm Research Watershed; 12030. RUSLE, USLE, erosivity map, soil erosibility, 13200. slope shape, soil erosion hazard, erodibility, erosion hazard, India, Punjab; 12041. soil loss, water erosion, agricultural land, nutrient loss, eutrophication, Sweden; 13210. volcanic ash soil, sheet erosion, geoecological study, volcanic complex, Chile, Andes, Nevados de Chillan; 00361.
rill inter rill interaction
water sediment budget model, cyclic behaviour, colluviation, soil erosion flume, crust, one dimensional model, 10833.
rillenkarren
tufa, gilgai, Pleistocene(Late) dune, karst, slope, reef exhumation, geomorphology, Devonian reef, Windjana Limestone, Pillara Limestone, Napier Formation, foot slope pediment, Australia, Western Australia, Napier Range; 07150.
rilling
raindrop impact, Guerlach trough, badland slope, erosion monitoring, sheet erosion, Mexico; 13056. salinisation, drought, climate change, desertification, erosion, soil degradation, seif, barchan, Senegal; 09642. sedimentation, slope length, erosion, deposition, Horton runoff volume, surface sealing, headcut incision, colluvial fan formation, infiltration, percolation, overland flow, runoff generation, 05125.
rilling of slopes
gullying, recent evolution, valley, dry phase, sangol, slope deposit, fire, forest, savannas, cattle grazing, Nigeria, Adamawa Highlands; Cameroon, Adamawa Highlands; 12038.
rillwash
laboratory flume, rainfall intensity, kinetic energy, bifurcation, braided channel, knickpoint evolution, 10832. sheet flood, braided stream, stream channel, Pleistocene(Middle), hydrographic network, wadis, relict valley, Villafranchian, Morocco, Sahara, Daoura Hamada; Algeria, Sahara, Saovra Hamada; 08460.
rim
elevated limestone, Cenozoic, reef limestone, makatea, reef facies, notch, Holocene, sea level, lithospheric flexure, geomorphology, volcanic island, Pacific, Cook Islands, Makatea Islands, Mauke; Mitiaro; Pacific, Cook Islands, Makatea Islands, Atiu; 11873.
rim irradiance
shading, 12635.
riming
precipitation, remote sensing, water vapour, microwave, radiometer, Doppler radar, 04311. snowfall rate, aggregation, ice particle, USA, Sierra Nevada; 04313.
rimstone spatial variation
thermal spring, cold tributary, degassing, calcite undersaturation, cave, USA, Virginia, Warm River Cave; 08404.
rind
weathering intensity, alkali basalt gravel, weathering, Quaternary, terrace, isovolumetric method, Ti constant method, Weichselian, Holocene, France, Limagne, Allier River; 03926.
ring
radial basin related fault, fault, impact basin, Mars, Daedalia Planum; 00229.
ring factor
groundwater flow, infiltration ring, ponded infiltration, saturated hydraulic conductivity, matric flux potential, hydraulic conductivity pressure head relationship, 11039.
Ringold Formation
Miocene, Pliocene, lithofacies, waste, Cenozoic, aquifer, groundwater, USA, Washington, Hanford Site; 02378.
rinsing
reclamation, sodic soil, rice, leaching, 02780.
Rio Grande soil series
Victoria soil series, sodium saturation, sonication treatment, soil carbonate, dispersion treatment, particle size distribution, carbonate, calcareous soil, Austin soil series, USA, Texas; 10921.
rip current
tidal channel, bar, energy flux, wave, refraction, France, Aquitaine, Cap-Ferret Coast; 04746.

riparian ecosystem
ecosystem, Landsat TM, wildlife, USA; 02271.
riparian ecosystem management
channel stabilisation, erosion control, streamflow management, sediment deposition, check dam, flood control structure, catchment management, riparian vegetation, USA; 01782. stream classification, water quality objective, catchment management, USA, Washington; Oregon; 01783.
riparian vegetation
aerial photography, open reach, sedimentation, timber harvesting, channel morphology, forest hydrology, USA, Oregon, Elk River Basin; 13450. riparian ecosystem management, channel stabilisation, erosion control, streamflow management, sediment deposition, check dam, flood control structure, catchment management, USA; 01782.
riparian vegetative shading
greenhouse warming, water temperature, water quality, surface water quality, dissolved oxygen, USA, (Southeast); (South Central); 05191.
riparian zone
dissolved free amino acid, flow path, soil water chemistry, dissolved organic carbon, UK, Wales; 04093. groundwater quality, forest hydrology, hydrologic flow path, stream water chemistry, cation concentration, Canada, Ontario, Toronto; 00603. phosphorus, groundwater, lake water quality, surface water-groundwater interaction, specific conductance, phosphate, nutrient, eutrophication, ecotone, Sweden, Bysjon Lake; 13342. runoff water density, surface water chemistry, denitrification, plant uptake, mass balance, organic soil, nitrate depletion, New Zealand; 06318.
ripening
water supply, waste water, particle size, filtration, 00102.
Riphean
Quaternary, basin, clay, platform, USSR; 09471.
ripple
bedform, saltation, pattern, wavelength, 04714. channel, reattachment bar, dune, bedform, USA, Arizona, Grand, Canyon; Colorado River; 05810. dune, flow velocity, bed configuration, antidune, 02296. dune, flume, hot water modelling, scale modelling, temperature, 02295. dune, palaeocurrent pattern, Cambrian, coastal dune, aeolian deposit, Vassbo Formation, cross bedding, Sweden, Vassbo; 05802. dune, sand, bedform, pattern, fractal dimension, 04698. dune, temperature, bed configuration, sediment discharge, flow velocity, Mars; 02297. grain flow, grainfall, cross strata, aeolian dune, dune, air flow, lee face flow, 05806. gravity flow, flysch, Eocene, turbidite, Yugoslavia, Dalmatia, Marjan Peninsula; 02398. polygonal pattern, drainage network, geomorphological spatial self organisation, geomorphology, periodic bedform, patterned ground, scale invariant topography, spatial order, 05986. sand bar, wave, flume, Bragg reflection, sediment transport, 01220. sand, wave, current, Shields' curve, 00003. sandwave, wave length, sediment transport, bedform, UK, England, Taw Estuary; 03512. shear stress, sand, megaripple, dune, Israel, Sinai desert; 08153. viscous flow, suspended sediment, beach, 10491.
RIS
information system project, private company, Canada, Manitoba; 13811.
rise rate
Younger Dryas, post glacial, sea level rise, dating, coral reef terraces, New Guinea, Huon Peninsula; 06187.
rising barrier anticline
anticline, contemporary tectonics, frontal fault system, fold, blind thrust, Kangra Earthquake, overpressured anticline, basal decollement, India, Himalaya, Potwar Plateau; Nepal, Himalaya, Potwar Plateau; India, Himalaya, Salt Range; Nepal, Himalaya, Salt Range; 08370.
rising sea level
kinematic model, rate of shoreline erosion, global warming, sea level, barrier beach erosion, USA, Atlantic Coast; Gulf of Mexico; 05034.
rising water
methane flux, river floodplain, emission, Brazil, Amazon; 07847.
risk
accelerated erosion, arable land, upland, frost action, sheep disturbance, land use change, soil, UK, England; Wales; 02731. avalanche, mudflow, hazard forecast, USSR, Caucasus, Elbrus Region; 06063. biophysical unit, wind erosion, agricultural production, database, Canada, Alberta; 13938. debris slide, timber harvest, logging, mass movement checklist, classification accuracy, slope stability, USA, California; 02548. hail, natural catastrophe, civil proteciton, municipal vulnerability, Canada, Quebec; 12449. Hurricane Hugo, tropical cyclone, cyclone, 13499. traffic, accident, highway, GIS, Canada, Quebec; 13998. VULPEST model, contaminant transport, fate, unsaturated zone, water table contamination, groundwater contamination, pesticide, vulnerability, 00607.
risk analyses
research methodology, fluvial palaeohydrology, palaeohydrological research, research methodology, fluvial geomorphology, flood, ancient flood, 10672.
risk analysis
cost benefit analysis, groundwater flow, hydrogeology, contaminant remediation, engineering design, uncertainty model, geological uncertainty, parameter uncertainty, waste management, decision analysis, 07590. data security, information system, Switzerland; 11493. groundwater contamination, transport model, storage process, contaminant migration, fracture matrix model, advection, diffusion, remedial action, 09905.
risk assessment
chromium, air quality, pollution monitoring, urban atmosphere, PAH, PCBs, volatile organics, inorganic particular matter, Canada; 01980. highway runoff, potable water, surface water contamination, PAH, 00562. landslide, natural catastrophe, civil protection, municipal vulnerability, natural hazard, emergency preparedness, Canada, Quebec Province; 11904. public health threat, soil evaluation, contaminated soil, hazardous waste, AAL soil contact criterion, USA, California; 08410. subsidence cause, inundation cause, tidal gauge data, submergence rate, groundwater pumpage, petroleum production, Delphic analysis, USA, Texas, Gulf Coast; 06060.
risk assessment technique
erosion risk, mountain footpath, path erosion, low maintenance route, South Africa, Drakensberg Mountains; 08412.
risk evaluation
dam safety, extreme flood, flood control system, probable maximum flood, retrofit, reservoir safety, USA, Ohio, Walhonding River, Mohawk Dam; 01787. rock mass sliding, rock stability, temple, Thebes limestone, rock fall, circular failure, mechanical property, weathering, Egypt, Luxor, El Deir El Bahary Valley; 10703. water quality standard, Streeter-Phelps dissolved oxygen model, dissolved oxygen, 02963.
risk factor
motor vehicle, pollution, gasoline, lead, volatile halogenated hydrocarbon, carbonyl, automobile, Italy, Turin; 00809.
risk knowledge
casuality numbers, protection system, avalanche, France, Alps; 11905.
risk map
geomorphological criteria, landslide, flood, Andorra, Pyrenees, Gran Valira; Valira d'Orient; 06061. mud flow, ice breakup, cartographic survey, landslip, rockfall, Switzerland; 08396.
risk mapping
agricultural land, soil degradation, crop rotation, tillage, erosion, Switzerland, Sullens Region; 09640. landscape planning, local terrain, frost risk, 07719.
risk methodology
peak flow, flood flow, low flow, stream flow modelling, reservoir planning, stochastic model, 08731.
risk preference
climate related information, pest management, automated weather station, climatological network, crop specific location, biological data, crop pest interaction model, 07712.
risk prevention
flood warning system, flood control, flood forecasting, cost-benefit analysis, 04176.
risk vulnerability
architecture, landslide, urban planning, applied geomorphology, natural hazard, built environment, hazard mitigation, 10728.
Riss II stadial
Hiradoko stage, Tachikawa stage, Tateyami stadial, Murodo stage, Nyuzen stage, palaeoenvironment, Pleistocene(Early), sea level, Jomon transgression, Yayoi regression, Omma stage, Utatsuyama stage, Japan; 04968.
Riss Wurm interglacial
Mindel, Haslach glacial, Pleistocene, glaciation, bibliography, Wurm, Germany, Bavaria, Alpine Foreland; 11960. paleosol, Hagelstadt brickyard, chronological classification, pedostratigraphy, Quaternary profile, Pleistocene(Upper), lithostratigraphy, Germany, Bavaria, Hagelstadt; 06162.
Rissian
Eemian, Denekamp interstadial, sediment reworking, pedological study, micromorphological study, loessial deposit, soil survey, loess, rubified soil, paleosol, Spain, Gerona; 07208.
river
bedrock permeability, water retention, spatial variability, stream flow, slope, discharge variation, Poland; 00517. bottom transport, organic carbon, terrigenous material, Mediterranean Sea, Gulf of Lions; France, Rhone River; 05962. channel pattern, scaling procedure, braided river, sand bed river, Bangladesh, Jamuna River; 07034. coastal water, suspended matter, phytoplankton, Gelbstoff, factor analysis, aerial photography, 12795. crustal deformation, visual interpretation, Landsat mosaic, delta, Botswana, Okavango River; 13966. geochemical process, estuary, arsenic, antimony, surface water chemistry, comparative geochemistry, 08754. GIS, dredging, sediment, Canada, St. Lawrence River; 13959. hydrological cycle, precipitation, river runoff, terrestrial source, nitrogen, phosphorus, sulphur, organic carbon, 12217. ice, navigation, photointerpretation, Landsat, USA, Ohio, Allegheny, Monongahela; 04652. ice, spring break-up, historical record, Canada, Athabasca River, Pond's Fort; 01831. mobile bed model, sediment transport, alluvial resistance function, sand bed, 04690. model scaling, bed topography, meander, 06946. plume, remote sensing, mapping, France, Rhone River; 02261. sediment concentration, terrace, alluvial river, longitudinal profile concavity, China, Huanghuaihai Plain; 05995. sediment load, channel sediment, gravel, mathematical function type, longitudinal river profile, Japan; 08156. sediment transport, bed load, 06947. sediment transport, friction, 04689. soil, pollution, suspended soil, humic substance, China; 08210. streamflow, forecasting, suspended sediment, regression analysis, transfer function model, USA, Iowa; 09479. surface water chemistry, organic matter, nutrient, spatial variability, remote sensing, biogeochemistry, 12209. transport regime, climate, runoff, water regime, sediment yield, 08697. tropical region, dry season, study contribution, temperature, Zaire, Lubumbashi, Lubumbashi River; 11171. vegetation, sedimentation, palynomorph load, flowering peak, recycling, pollen, spore, USA, Texas, Trinity River; 06077.
river alignment
remote sensing, neotectonics, geology, drainage pattern, France, Paris Basin, Champagne, Berry; Sologne; 00231. river evolution, palaeohydrology, fluvial history, terrace, stratigraphical evidence, Holocene, USSR, Siberia; 11857.
river basin
evaporation pond, water quality management, irrigation water quality, reservoir, salinity management, Iran, Shapur River; Dalaki River; 11106.
river basin development
water resource management, land resource management, ecosystem, environmental impact, 05253.
river basin evolution
channel head advance, landscape evolution model, hillslope, channel, model, 04889.
river basin evolution model
uplift, hillslope, fluvial geomorphology, channel network, mathematical model, dynamic equilibrium, 10706.
river basin modelling
hydrological process, climate modelling, water balance study, runoff

study, environmental hydrology, pesticide transport, hydrochemical study, engineering hydrology, flood estimation, low flow research, applications research, instrument development, irrigation study, research report, Institute of Hydrology, hydrological cycle, soil physics, 08640.

iver basin study
hydrologic study, flood mapping, water resource mapping, India; 03468. river regulation, irrigation development, water management, water resource, Nigeria; 06420.

iver bed
braided channel, riffle pool concept, river conservation, bar, Japan; 06968. erosion, dam, sedimentation, deposition, 01200.

iver bed disturbance
gravel extraction, bank instability, water table fall, mining legislation, France, Garonne River; 02823.

iver bed migration
stress, disturbance, vegetation dynamics, overgrazing, cattle breeding, gallery forest, Argentina, Chaco Region; 08329.

iver bed morphology
flow history, braided gravel river, critical tractive stress, dimensionless shear stress, slope, cluster bedform, particle size, New Zealand, Springfield, Kowai River; 00531.

iver behaviour
intertropical region, rift, floodplain, weathering, meandering, Zaire; Burundi; Rwanda; 13017. palaeohydrology, alluvial sequence, flood plain deposit, agricultural activity, Holocene floodplain, climate change, Czechoslovakia, Morava River Basin; 11852.

iver bench
morphotectonics, climatic geomorphology, valley, 02500.

iver blindness
insecticide spraying, waterborne discharge, water resource management, Africa, (West); 00642.

iver borne nutrient
algal bloom, mass dieoff, dieoff, eutrophication, surface water quality, Romania, River Danube; Black Sea; 02886.

iver bottom
dune, tunnel, buoyancy, flood, scouring, scour protection, erosion, riffle, Argentina, Parana River, Parana-Sante Fe Tunnel; 05882.

iver channel
bedload, channel geometry, slide, slump, uplift, forest clearance, transformation threshold, slope transformation, India, Himalayas, Darjeeling Himalaya; 10717. channel adjustment, river regime, complex response principle, platform, cross sectional shape, gradient, channel sinuosity, China, Weihe River, Sanmenxia Reservoir; 04047. flood, compound channel modelling, hydraulic geometry, discharge capacity, flow resistance, overbank flow, cross sectional geometry, boundary roughness, 05180. fluvial process, bathymetric map, map, 09269. fluvio-periglacial landform, freeze-thaw, interlocking boulder pavement, boulder paved channel, Norway, Jotunheimen; 02695. roughness prediction, roughness coefficient, composite roughness coefficient, flood channel, flow resistance, compound channel, 05160. velocity, discharge, compound channel, channel flow estimation, lateral distribution of flow, 05164. weathering, mechanic weathering, biochemical weathering, channel alluvium, gravel, alluvium, abrasion, 11841.

iver channel bottom
bottom deformation, vertical deformation, 05156.

iver channel change
chronology, stratigraphy, alluvial terrace, river terrace, Holocene chronology, radiocarbon dating, floodplain, UK, England, Cheshire, Dane Valley; 06179.

iver channel forming activity
fluvial process, channel forming discharge, regionalisation, USSR; 05994.

iver channel model
scale distortion, compound river channel, boundary effect, velocity distribution, vertical scale, water depth, momentum transfer, flood plain, 05181.

iver channel pattern
bed material, grain size, channel geometry, fluvial sediment, grain size parameter, meandering river, 13328.

iver classification
British river, river survey, catchment characteristic, vegetation, nature conservation, UK; 05128. hydrograph shape, runoff fluctuation, water yield, drainage basin characteristic, glacier river, spring fed river, direct runoff river, Iceland; 06272. perennial streamflow, discharge-duration pattern, intermittent streamflow, variable flow, stream discharge, Nigeria; 02839.

iver conservation
bar, river bed, braided channel, riffle pool concept, Japan; 06968.

iver control
water management, rainfall runoff, snow melt, channel flow, telemetry system, flood warning system, flow forecasting system, 05142.

iver corridor management
water resource management, environmental management, public participation, 12287.

iver course
late Cenozoic, bedrock control, high level stream gravel, incision rate, carbonate rock, migration, USA, Virginia, New River; 05998.

iver cyclicity
soil cyclicity, sea level change, river deposit, marine transgression, regression transgression cycle, 06170.

ver degradation
water management, National Rivers Authority, river management, resource overexploitation, water conservation, environmental impact, UK; 08802.

iver deposit
Laurentide deposit, amino acid evidence, marine deposit, Bell Sea sediment, Missinaibi Formation, Canada, Ontario, Hudson Bay Lowlands; 07257. marine transgression, regression transgression cycle, river cyclicity, soil cyclicity, sea level change, 06170.

iver deposit resuspension
spore, pollen, suspended sediment concentration, marine sediment, USA, Louisiana, Mississippi River, Pointe a la Hache; 06078.

river development
alpine river, flooding, fluvial geomorphology, fluvial evolution, historical flood, braided river system, France, Alps; 09798.

river discharge
braided channel, valley floor development, palaeoclimatic research, past fluvial process, fluvial process, palaeohydrological interpretation, channel pattern, meandering, lithofacies, alluvial fill, Poland; 09491. delta, erosion, suspended sediment, estuary, provenance, sediment transport, sediment deposition, loess soil, China, Huanghe River; 09816. discharge plume, Landsat data, plume morphology, suspended sediment, estuary, USA, Louisiana, Mobile Bay; 05823. extreme event, extreme upstream discharge, extreme downstream storm surge, extreme value analysis, correlation analysis, storm surge, UK, England, Medway River; 05145. flow rate, high altitude source, water tower effect, France, Toulouse, Garonne River; 02845. global system, humidity regime, long range forecasting, USSR, Yenisei River; Ob River; 07451. groundwater recharge, water table rise, evaporation loss, surface water resource, reservoir, water resource, runoff loss, USSR; 08808. hydrocarbon, photo oxidation, organic compound, Thailand, Gulf of Thailand, Chao Phraya River; 04796. morphogenetic zone, tectonic, sea-level change, Black Sea; 03562. nutrient, oligotrophic, phytoplankton, fresh water, productivity, Mediterranean Sea, Gulf of Lions; 05961. opal, organic carbon, biogenic production, fresh water, deglaciation, carbon dioxide, Indian Ocean, Bay of Bengal; 11804. precipitation measurement, snow, glacier, water balance, river flow, bed load, water cycle, hydrological modelling, acid rain, basin characteristic, surface water resource, measurement method, mountain hydrology, evaporation estimation, 12135. precipitation, Little Ice Age, temperature, glacier, China, Xinjiang, Urumqi River; 01951. remote sensing, snow melt, glacier, mass balance, runoff, mountain basin, 08792. resource management, flood forecasting, water resource, reservoir operation, water storage, 09948. sediment transport, erosion, suspended matter, Poland, Vistula River; 11009. snow depth, water content, dry weather discharge, snow covered area, snowmelt, Landsat, remote sensing, aerial photography, Israel, Jordan River; Mount Hermon; 00624. soil moisture, evapotranspiration, runoff, floodplain inundation, water balance model, water transport model, continental scale model, Brazil, Amazon River; 02831. stream flow, hydrological data, flood, computer model, discharge forecasting, onchocerciasis, monitoring network, telemetry, Togo; 06300. suspended load, sedimentation, subsidence, Quaternary, continental shelf, China; 08176. suspended sediment, AVHRR, NOAA-TIROS-N satellite, tide, temperature, USA, Alabama, Mobile Bay; 03535. trace element, continental shelf, continental margin, factor analysis, sea level, transgression, Spain, Ebro Delta; 05826. water mass, trace element indicator, climate variability, El Nino/Southern Oscillation, coral, upwelling, 07809. water resource, momentum equation, stream momentum method, surface water quality, Poland, Odra Basin; Vistula Basin; 11110. weathering, organic carbon, nitrate, phosphate, agricultural pollution, Europe; 08157.

river disturbance
surface water quality, thermal regime, benthic matter, organic matter, substrate composition, suspended particulate matter, trophic structure, deforestation, USA, Maine, Piscataquis River; 12199.

river diversion
barrier island, delta, subsidence, USA, Mississippi River Deltaic Plain; 02328. climate change, Quaternary, organic matter, lake, USA, Nevada, Walker Lake; 02316. flood control, flood regime, environmental protection,. river regulation, France, Aire River; 12297. water supply, water conservation, water treatment, water resource development, distribution network, China, Shanghai, Huangpu River; 04173. well, karst region, land drainage, sinkhole, water resource, groundwater exploitation, 12293.

river dynamics
channel confluence, sediment transport, scour depth, junction angle, discharge ratio, bed morphology, tributary:main channel discharge ratio, 08704. climatic condition, morphological condition, river regulation, flooding, anthropogenic impact, flood plain, France, Loire River; 09795. flow model, wind drive current, water level fluctuation, flow measurement, lake stage, flow reversal, Doppler current profiler, USA, Michigan, Detroit River; 09794.

river ecology
inland water, limnology, floodplain, socio-economic feature, hydro engineering, wetland management, catchment hydrology, river regulation, water abstraction, water conservation, anthropogenic effect, Africa, (Southern); 04161.

river engineering
critical tractive force, velocity theory, Griffiths natural stability index, Brookes stream power index, shear stress analysis, regime theory, sediment transport, frictional effect, flood berm, aquatic macrophytes, flood alleviation scheme, channel change, UK, England; Wales; 05152. flood alleviation scheme, channel characteristic, geomorphological survey, channel instability, channel hydraulics, environmental engineering, river regime, 04046.

river erosion
slope stability, landslide, retrogression surface, earthflow, sensitive clay, Canada, Quebec, James Bay, La Grande River; 13052.

river evolution
palaeohydrology, fluvial history, terrace, stratigraphical evidence, Holocene, river alignment, USSR, Siberia; 11857.

river flood hydraulic
road construction, lake level fluctuation, bed scour, meander progression, channel movement, accretion, overtopping, erosion, lake level fluctuation, river regulation, Malawi, Rift Valley, Lake Malawi; 05184.

river floodplain
alluvial aggradation, Cromerian, Beestonian, palynology, interglacial deposit, correlation, UK, England, Essex, Little Oakley; 02665. emission, rising water, methane flux, Brazil, Amazon; 07847.

river flow
bed load, water cycle, hydrological modelling, acid rain, basin characteristic, surface water resource, measurement method, mountain hydrology, evaporation estimation, river discharge, precipitation measure-

ment, snow, glacier, water balance, 12135. flow forecasting system, data management, river network control, forecasting model, computer software, graphical presentation, 09797. long term drought, climatic change, drought, flow record, Ethiopia, Nile River; 06403. remote sensing, hydrograph separation, monitoring technique, snow hydrology, ice hydrology, snowstorage, glacier, water balance, 08794. sediment transport, channel hydraulics, riverbed process, fluvial process, erosion, 07477. tide, morphological change, elevation change, erosion, sedimentation, Germany, Lower Elbe, Rhinplatte Island; 00047. transport process, metal load, salinity, bivalve, Corbicula, industry, contamination, trace element, USA, California, San Francisco Bay, Suisun Bay; Sacramento River; USA, California, San Francisco Bay, San Joaquin River; 04838. water supply and demand, groundwater table, climate change, landscape ecological change, hydrological change, soil moisture, water pathway, water quality, ecohydrological zone, 05105.

river flow maintenance
sea water intrusion, water level decline, groundwater modelling, pumping rate, water resource management, safe yield, New Zealand, Nelson, Waimea Plains; 00637.

river flow model
real time forecasting, linear perturbation model, flow forecasting, China, Hankou, Yangtze River; 09809.

river flow simulation
flow resistance, flow model, bed generated turbulence, lateral shear turbulence, secondary flow, river gauging, current meter, flow measurement, open channel flow, 00526.

river freeze up
river ice, ice process, ice jam, flood control, Czechoslovakia, Berounka River; 12269.

river gauging
current meter, flow measurement, open channel flow, river flow simulation, flow resistance, flow model, bed generated turbulence, lateral shear turbulence, secondary flow, 00526.

river geography
delta, water resource, flow rate, reed bed, Romania, Danube River; 11114.

river geometry
open channel flow model, cross section selection, flow equation, St Venant equation, Preissmann scheme, Abbott Ionescu scheme, 05178.

river history
water abstraction, irrigation, USA, Arizona, Colorado River, Grand Canyon; 11842.

river hydrograph
groundwater response, surface water groundwater interaction, embanked river, water level, flood plain aquifer, groundwater flow system, 05216.

river hydrology
water resource, Himalayan hydrology, hydropower development, Nepal, Arun River; 08805.

river ice
bank resistance, ice jam, 12267. barrage, ice regime, ice thickness, channel morphology, ice jam formation, Hungary, Danube River; 12270. hydropower generation, early warning information system, ice jam, USA, Niagara River; Canada, Niagara River; 12271. ice breakup, ice cover loading, National Hydrology Research Institute, failure mode, Canada; 02943. ice cover, premature breakup, breakup prediction, breakup modelling, ice breakup, 02937. ice jam mitigation, flooding, controlled ice breakup, ice management, Canada; 08409. ice jam, ice transport, 12266. ice process, ice jam, flood control, river freeze up, Czechoslovakia, Berounka River; 12269. solar radiation, snow cover, intergranular melt, borehole jack indentation data, uniaxial compressive strength ratio, radiation decay, 12268.

river impoundment
natural dam, river regulation, lake emptying, dam overtopping, landslide, Italy, Valtellina, Adda River; 05261.

river incision
tufa dam, Holocene, pollen analysis, Atlantic, sub Boreal, France, Eure, Bernouville; 06964.

river inflow
mixing, estuary, sea water, alkalinity, fresh water, USA, California, San Francisco Bay; Delaware, Delaware Bay; 01214. sinking, decomposition, fresh water, phytoplankton, halocline, Yugoslavia, Krka Estuary; 09462.

river journey
river route, Brazil, Amazon Basin, Madeira River; 02820.

river junction
flow direction, branching geometry, dendritic river network, remote sensing, 00528.

river kinematics
bed process, confluence, vertical separation boundary, channel morphometry, hydrology, USSR, Ob River; Biya River; USSR, Katun River; USSR, Lena River; USSR, Aldan River; USSR, Vilyuy River; 13327.

river level
flood, flood plain management, river regulation, France, Garonne River; 02968. flow hydrograph, computer controlled system, automated data retrieval, flood warning system, real time data retrieval, flood forecasting, conceptual model, rainfall runoff model, telemetry, hydrometric network, flow routing routine, rainfall radar image, rain gauge data, UK, England, Severn-Trent region; 05259. precipitation, telemetry, flood warning system, hydrometeorological data, France, Garonne River; 02848.

river management
resource overexploitation, water conservation, environmental impact, river degradation, water management, National Rivers Authority, UK; 08802. sediment transport, sediment size, channel process, bed channel, gravel bed, flow regime, 06959. stream flow, flood propagation, St Venant equation, flood wave, Africa, Niger River; Senegal River; Africa, Gambia River; 06298. surface water quality, water quality conservation, Canadian Heritage Rivers System, 02869.

river metamorphosis
avulsion, meander wavelength, flood regime, channel geometry, floodplain, palaeohydrology, channel avulsion, Australia, Victoria, Thomson River; 00216.

river morphology
bedload transport, particle bed interaction, tracer technique, gravel bed river, sediment transport, coarse sediment, 08702.

river mouth
delta, spit, estuary, sediment transport, jetty, Colombia, Magdalena River, Puerto Colombia; 05824. hyperpycnal mixing, Namurian, Carboniferous, Sear House Bed, delta, mudstone, prodelta, UK, England, Yorkshire; 05896.

river mouth evolution
drumlin field, stagnation lake, kame hummock, flood plain, outwash, kettle gully, Vistula lobe, dead ice melting, Poland, Wierzyca Valley, Gniew; 01379.

river net
ancient river net, humification, aridisation, satellite image, Pakistan, Thar Desert; 13102.

river network
generalisation algorithm, data structure, numerical generalisation, 13965. hydrograph, Preissmann scheme, flood propagation, mountainous terrain, flood hazard, finite difference solution, Hong Kong, Shing Mun River; Sham Chun River; 08676. soil, vegetation, digital terrain model, flood estimation formula, basin characteristic, flood hydrograph, computer program, slope, regionalization method, flood regime, topography, geometry, Austria; 05143.

river network control
forecasting model, computer software, graphical presentation, river flow, flow forecasting system, data management, 09797.

river network generalisation
drainage area, generalisation scheme, 09275.

river network geometry
discharge drainage area power function, slope drainage area power function, spatial uniformity of power, altitudinal geometry, 08695.

river network modelling
computer model, model accuracy, hydraulic realism, UK; Bangladesh; 05179.

river piracy
coarse change, palaeochannel, vertical movement, regional hydrogeology, India, Madras, Palar River; 06017.

river plume
aquaculture, mangrove, swamp, tidal dynamics, flushing, Australia, Queensland, Hinchinbrook Channel; 06985. eutrophication, estuary, surface water quality, sediment load, nutrient concentration, mixing water, remote sensing technique, estuarine mixing, spatial variability, 12210. floc, marine snow, organism, suspended matter, suspension, Indonesia, Kalimantan, Flores Basin; Makasar Strait; Indonesia, Kalimantan, Mahakam River; 00080.

river pollution
pulse disposal, dispersion, convection dispersion equation, surface water quality, velocity gradient, mechanical dispersion, pollutant transport, mixing, 11019. surface water quality, industrial effluent, phytoplankton production, India, Periyar River; 01692.

river profile
mathematical model, dynamic equilibrium, sediment transport, computer simulation model, flume experiment, 06301.

river protection
recreation, economic benefit, USA, Colorado, Rocky Mountains; 04162.

river quality management
data interpretation, surface water quality, expert system, European Community Directive, episodic pollution event, 00558.

river recession rate
soil characteristic, rainfall, lowflow, streamflow, flow estimation, 04031.

river recovery
flow regime, biomass production, ecological modelling, reservoir, tropics, subtropics, morphometry, retention time, thermal stratification, circulation pattern, dissolved oxygen consumption, eutrophication, loading capacity, South America; 12191.

river regime
bank overflow, river regulation, flood, Spain, Ebro River; Tudela, Castejon; 07463. complex response principle, platform, cross sectional shape, gradient, channel sinuosity, river channel, channel adjustment, China, Weihe River, Sanmenxia Reservoir; 04047. cross sectional area, aggradation, bedload transport, fluvial geomorphology, dam, bedrock river, suspended sediment, mountain river, channel adjustment, Israel, Golan Heights; 12174. discharge, flood probability, flow regime, fluvial regime, basin characteristic, topography, Spain, Soria, Duero River; 02841. flood scar, bank undercutting, tree establishment, multiple channel river, floodplain dynamics, wandering river, dendrochronological technique, flood occurrence, relative stage, Canada, British Columbia, Morice River; 01656. geomorphic adjustment, curvature ratio, channel adjustment, channel bend, Poland, Parseta River; 11008. historical data, climate change, runoff, hydroclimatic characteristic, Poland; 10985. river engineering, flood alleviation scheme, channel characteristic, geomorphological survey, channel instability, channel hydraulics, environmental engineering, 04046. salt marsh, land reclamation, wetland, tidal lagoon, delta, France, Arcachon Bay, Leyre River; 09346.

river regulation
Alpine river, ecological consequence, water diversion, flow regime, low flow, peak flow, Switzerland; 08809. artificial lake, hydrometric data, water resources management, hydrometric network, water law, hydraulic structure, Burkina Faso; 06423. channel modification, channel adjustment, fractal analysis, spectral analysis, spatial interpolation technique, Nigeria, Elemi River; 11005. channel morphology, carbon budget, sediment budget, estuary, historical change, numerical flow model, mixing, stratification, tidal forcing, salinity intrusion length, riverflow data, USA, Washington, Columbia River; 10965. environmental impact analysis, water resource management, cumulative impact analysis, hydrologic model, USA, Montana, Flathead River Basin; 02966. environmental protection, capillary rise, loam soil, water table rise, Hungary, Danube River, Gabeikovo-Nagymaros; 06331. flood plain, dam construction, environmental change, delta region, Mali, Niger Valley; 06422. flood, river regime, bank overflow, Spain, Ebro

River; Tudela, Castejon; 07463. flooding, anthropogenic impact, flood plain, river dynamics, climatic condition, morphological condition, France, Loire River; 09795. fluvial evolution, canalisation, flow record, historical hydrology, flooding, France, Meuse River; 09799. hydrogeology, groundwater flow, water contamination, barrage construction, Hungary, Little Hungarian Plain; Danube River; 12252. hydrograph characteristic, low flow, flood regime, sediment load, channelization, flow regime, drainage scheme, 06281. irrigation development, water management, water resource, river basin study, Nigeria; 06420. lake emptying, dam overtopping, landslide, river impoundment, natural dam, Italy, Valtellina, Adda River; 05261. precipitation, runoff, flooding, low flow, flood plain agriculture, artificial flood, Africa, Niger River; Senegal River; 06421. resource management, storage capacity, infiltration, bedrock, leakage, groundwater recharge, ephemeral stream, dam, Cyprus; 09932. river diversion, flood control, flood regime, environmental protection, France, Aire River; 12297. river flood hydraulic, road construction, lake level fluctuation, bed scour, meander progression, channel movement, accretion, overtopping, erosion, lake level fluctuation, Malawi, Rift Valley, Lake Malawi; 05184. river level, flood, flood plain management, France, Garonne River; 02968. sediment, silt control, land management, bank erosion, flood control, Bangladesh; 07595. self purification, salinity, hydrologic regime, lake water quality, lake water chemistry, USSR, Dnieper-Bug Lagoon; 00546. water abstraction, water conservation, anthropogenic effect, river ecology, inland water, limnology, floodplain, socio-economic feature, hydro engineering, wetland management, catchment hydrology, Africa, (Southern); 04161. water demand, water quality, low flow, drought, water storage, reservoir, France, Garonne River; 02986. water resource management, flood forecasting, runoff yield, reservoir operation, China, Fengshuba Basin; 09945. water supply, drought, resource management, Chad, Chad Basin; Lake Chad; Africa, Congo Zaire Basin; 09931. weir structure, UK, England, River Avon; 05258. weir, hydrograph form, water level variation, environmental effect, flow regulation, Australia, South Australia, Murray River; 07592.

river response
palaeohydrological change, deglaciation, upland river system, Lateglacial, runoff, sediment yield, catchment behaviour, UK, Scotland; 10766.

river reversal
salinity, irrigation, sea level rise, resource management, water storage, groundwater recharge, artificial recharge, 09927.

river route
river journey, Brazil, Amazon Basin, Madeira River; 02820.

river routing
Muskingum-Cunge routing scheme, geomorphologic characteristic, regime theory, DWOPER, routing model, 01650.

river runoff
aquifer recharge, drought, water resource, UK; 02821. discharge, atmospheric GCM, global river runoff, global atmospheric GCM, 05136. dust, accumulation rate, Quaternary, clay mineral, Arabian Sea; 10515. macroscale rainfall field, complex relief condition, mountain river, runoff prediction, mathematical model, 05131. terrestrial source, nitrogen, phosphorus, sulphur, organic carbon, river, hydrological cycle, precipitation, 12217.

river salinity
groundwater recharge, water table rise, revegetation, land clearance, salinisation, Australia, Mallee Region; River Murray; 05267.

river sand
transport, weathering, heavy mineral, ultramafic source, beach, mechanical abrasion, olivine, New Zealand, Westland, Cascade-Martyr River System; 01490.

river sediment
chlorite, clay mineralogy, illite, montmorillonite, continental shelf, Arabian Sea, Gulf of Kutch; 12869. geoaccumulation index, pollution, heavy metals, Spain, Guipuzcoa; 04783. grain size, continental shelf, mud, sand ridge, sediment dispersal, Korea(South), Korea Strait; Korea(South, Nakdong River; 12874. pollution, adsorption site, particle size, PAH, organic matter, 03585. sediment provenance, bedload, particle suspension, riverine erosion, sedimentation, 08154.

river segmentation
mountain river, gravel, particle size, Japan, Tohoku District; 05157.

river stage
stream flow, flood frequency, drought index, Palmers drought index, USA, Tennessee, Hatchie River; 10984.

river survey
catchment characteristic, vegetation, nature conservation, river classification, British river, UK; 05128.

river system
Kapthurin Formation, paleosol, Late Acheulean industry, fauna, braided river, artifact, Kenya, Baringo; 07217. surface water quality, spatial distribution, temporal distribution, organic carbon, inorganic carbon, nutrient, sediment transport, Carbon in the Amazon River Experiment, biogeochemisry, Brazil, Amazon River; 12211.

river terrace
alluvial fan, soil erosion chronology, environmental change, vegetation change, soil degradation, relief, parent material, Mediterranean; 08550. buried channel, meandering, flood plain, bedload, environmental change, environmental process, fluvial response, temperate zone, UK, England, Sussex, Ouse River; 11844. flood plain, evapotranspiration, postglacial history, glacio-isostatically adjustment, palaeohydrology, incision, aggradation, Finland, Ivalojoki River; Oulankajoki River; 11848. Holocene chronology, radiocarbon dating, floodplain, river channel change, chronology, stratigraphy, alluvial terrace, UK, England, Cheshire, Dane Valley; 06179. neotectonics, seismotectonic map, France, Berry; 13030. Pleistocene terrace, Acheulean(Late), alluvial terrace, silicified wood, Cambodia, Mekong River; 09600. Talgrundterrassen, Holocene terrace, soil type, loess covered terrace, fluvial geomorphodynamics, Quaternary, Germany, Isar River; Danube Valley; 06182.

river transport
stream flow, surface water constituent, transport estimate, flow record, regression analysis, 06274. surface water quality, sediment transport, carbon transport, Burma, Irrawady; India, Ganges River; Bangladesh, Brahmaputra River; Pakistan, Indus River; 12215.

river undercutting
backwater sedimentation, catastrophic flood, rock avalanche, avalanche debris, Canada, British Columbia, Fraser River, Texas Creek; 08393.

river valley
fluvial process, palaeohydrological reconstruction, palaeoclimate, Poland, Vistula River Valley; 07140. landscape relative age, wetland surface, upland surface, pedogenic development, soil development index, upland interfluve, stream terrace, USA, North Carolina, Craven County; 08338. valley, thalweg displacement, neotectonics, asymmetrical structure, USSR, Samara River; 11856.

river water
adsorption, tracer, groundwater, bed load, riffle and pool stream, sediment-water interaction, contamination, caesium, USA, Tennessee, White Oak Creek; Oak Ridge National Laboratory; 01322. heavy metal, water quality, sewage treatment, toxicology, pollution, 09377. water quality, PCBs, partitioning, filtration plant, waste water plant, aqueous phase, adsorbed phase, drinking water, suspended matter, sewage sludge, particulate organic carbon, France, Paris, Seine River; 05204.

river water infiltration
alluvial aquifer, groundwater recharge, solute transport, migration process, advection, groundwater flow, Czechoslovakia, Slovakia, Danube River; 06345.

river water quality
fish population, PAH, Salmonella, chemical mutagen, industrial waste, USA, West Virginia, Kanawha River; 08198.

riverbed freezing
radar surveying, fish species, ice thickness, 03458.

riverbed process
fluvial process, erosion, river flow, sediment transport, channel hydraulics, 07477.

riverflow data
river regulation, channel morphology, carbon budget, sediment budget, estuary, historical change, numerical flow model, mixing, stratification, tidal forcing, salinity intrusion length, USA, Washington, Columbia River; 10965.

riverine discharge
discharge rate, selenium flux variability, oil effluent, surface water quality, sewage treatment, chemical speciation, residence time, USA, California, San Francisco Bay; 08750.

riverine erosion
sedimentation, river sediment, sediment provenance, bedload, particle suspension, 08154.

riverine input
biogeochemical cycling, trace metal, anthropogenic pollution, aerosol, Mediterranean Sea; 09394. crustal abundance, diagenesis, marine sediment, dissolution method, rare earth element, 04872.

riverine wetlands construction
wetland conservation, water sediment budget, channel stability, sediment storage, USA, Illinois, Des Plaines River Wetlands; 11007.

Roach equation
clear air turbulence, mesoscale process, synoptic scale process, dynamic process, Richardson number, 12438.

road
motor vehicle, dispersion, nitrogen oxide, emission, nitrogen dioxide, urban pollution, 00860. navigation system, traffic, 13983. reinforced, geotextile, full scale, in situ study, 03792. satellite, GIS, image, recognition, 02288. street network, database, navigation system, 13982. weather service, highway meteorology, weather hazard, 05313.

road administration
economic benefit, weather forecast, Sweden; 05299.

road alignment
geotechnical observation, unstable rock, rockslide, failure, India, Himalayas, Garhwal Higher Himalaya; 00264.

Road Canyon Formation
colour alteration index, fluid inclusion, Permian, thermal history, USA, Texas, Glass Mountains; 09409.

road construction
gully erosion, road realignment, hydrological modification, gully erosion, anthropogenic modification, Nigeria, Anambra State, Opi; 05993. lake level fluctuation, bed scour, meander progression, channel movement, accretion, overtopping, erosion, lake level fluctuation, river regulation, river flood hydraulic, Malawi, Rift Valley, Lake Malawi; 05184. logging, flow regime, hydrograph, storm runoff, streamflow, lag time, infiltration, subsurface flow, USA, California, Caspar Creek; 04152. monitoring, erosion, expressway, construction, extension, Australia, New South Wales, Sydney; 00368. sediment yield, forestry, erosion, sediment storage, logging, rainforest catchment, suspended sediment, Malaysia, Sabah, Ulu Segama; 09921. sodium, ion exchange, redox reaction, oxidation, salt water intrusion, sea sand, heavy metal, groundwater quality, infiltration, 07550.

road cutting
till, lacustrine clay, glaciofluvial gravel, Quaternary deposit, UK, England, Devon, Barnstaple, Lake Cutting; 07233.

road deicing
nitric acid, sodium chloride, particle, annular denuder, hydrpchlonic acid, salt, 06559.

road delineation
SPOT, urban street, street network, Canada; 13981.

road design
secondary road planning, erosion, sedimentation, steepland, 06058.

road detection
boundary detection, feature detection, linear feature, 11475.

road embankment
fabric enforcement, embankment, geotechnical analysis, reinforced embankment, soft ground, Ireland, Clare County, Bunratty Bypass; 03737.

road ice prediction
road weather information systems, road microclimate, thermal mapping, weather radar, weather forecast, Europe, (Northern); (Western); North America; 05300.

road information system

data integration, route determination, route guidance, vehicle location, 01157.
road length
pasture, deforestation, colonisation, Brazil, Rondonia; 12743.
road maintenance
temperature recording, road surface temperature, topography, wind, nocturnal temperature variation, traffic safety, Sweden; 07718.
road management
traffic zoning, transportation, GIS, 05774.
road microclimate
thermal mapping, weather radar, weather forecast, road ice prediction, road weather information systems, Europe, (Northern); (Western); North America; 05300.
road network
agricultural resource inventory, insurance, claim assessment, drought plan, insurance record, Canada, Ontario; 01165. forestry, SPOT, topographic mapping, Canada; 12673.
road realignment
hydrological modification, gully erosion, anthropogenic modification, road construction, gully erosion, Nigeria, Anambra State, Opi; 05993.
road salt storage
surface water quality, soil absorption, sodium chloride level, cyanide level, 07497.
road slipperiness
sublimation, warm air advection, frontal movement, Sweden; 10020.
road surface temperature
forecast, frost, weather service, highway authority, 08986. topography, wind, nocturnal temperature variation, traffic safety, road maintenance, temperature recording, Sweden; 07718.
road traffic effect
surface water quality, highway runoff, runoff pollution, urban runoff, Germany; 00564.
road transport
insurance, weather service, Weather Sensitivity Analyses, 05312.
road transport informatics
vehicle system, highway system, 06924.
road transportation
self scanning radiometer, spatial structure, accessibility, connectivity, inland water route, Japan, Nagoya; 08137.
road weather information systems
road microclimate, thermal mapping, weather radar, weather forecast, road ice prediction, Europe, (Northern); (Western); North America; 05300.
road weather service
forecast, commercial forecasting, user requirement, climate service, radar network, short period forecasting, UK; 08818. snow, ice, fog, rain, visibility, weather radar data, 05323.
roadside soil
calcium magnesium acetate, de icing salt, trace metal mobility, USA; 07377.
roadway
frost, de-icing salt, freeze thaw action, insulator, Canada, Quebec; 03914.
roadway frost
frost, prediction, expert system, forecast, decision threshold, bridge frost, 10160.
roasting treatment
reduction furnace, Cherry Canyon Formation, acidification technique, isotopic composition, carbonate mineral, clay, USA, Delaware Basin; 02488.
robot vision
stereopsis, camera geometry, 03311.
robotics
subsea technology, Exclusive Economic Zone, 10429.
robotics system
machine vision, vision metrology unit, three dimensional measurement, 07914.
robust edge detection
statistical classification, thin line edge, outlier detection, edge detection, 03321.
robust statistical method
statistical method, emission control, air quality, urban ozone, ozone trend, USA; 12513.
roches moutonnee
ice flow, glacial flow, shear stress surface, clast fabric, diamicton, Canada; Sweden; 07234.
rock
limestone, karst, tower karst, China, Yunnan, Kunning; 10727. logging technique, soil strength, field description, engineering soil, 13040. relief, soil, erosion, freeze thaw activity, climatic change, gullying, Algeria, Oran-Atlas, Oued Mina; 07148. weathering, phosphorus budget, terrestrial watershed, saprolite, isovolumetric process, P release rate, weathering index, atmospheric P input, USA, South Carolina, Liberty Hill; Brazil, Rio Negro; Brazil, Amazon River; 06210.
rock accessory
spectral resolution, sensor data, surface character, 09182.
rock avalanche
avalanche debris, river undercutting, backwater sedimentation, catastrophic flood, Canada, British Columbia, Fraser River, Texas Creek; 08393.
rock classification
phosphate, IGCP Project meeting, phosphorite nomenclature, 08224.
rock coating
laboratory spectra, spectral reflectance, rock varnish, arid area, 08066.
rock control
cross section, valley, coastal terrace, infiltration capacity, cone penetration hardness, slope form, Japan, Hokkaido, Funka Bay; 02507. slope profile, tropical limestone, savanna vegetation, limestone, Australia, Western Australia, Napier Range; 13063.
rock cored drumlin
sedimentary sequence, stratigraphy, drumlin, directional indicator, ice flow pattern, Ireland; 11950.
rock dating
baked layer, TL date, tephra, Quaternary, volcanic activity, loess, China, Anhui Province; Shandong Peninsula; China, Jiangsu Province; 09508.
rock dilation
slope monitoring, creep, interferometry, landslide, moire crack gauge, TM71 Crack Monitor, Canada, Alberta, Frank Slide; 10710.
rock engraving
surface stability, rock varnish, case study, arid zone, radiocarbon, cation ratio dating, Australia, Northern Territory, Henbury Meteor Craters; New South Wales; Ayers Rock; Australia, South Australia, Olary Province, Pepuarta Bluff; 01488.
Rock Eval
kerogen, bitumen, petroleum, organic matter, pyrolysis, 05975. pyrolysis, biopolymer, organic matter, petroleum, Norway, Skagerrak; 05967.
rock exhumation
mountain range dynamics, uplift rate, surface uplift, rock uplift, 04886.
rock fall
circular failure, mechanical property, weathering, risk evaluation, rock mass sliding, rock stability, temple, Thebes limestone, Egypt, Luxor, El Deir El Bahary Valley; 10703. solifluction, creep, block field, landslide, talus, alluvial debris cone, slope modelling, Czechoslovakia, Slanske Vrchy; 03830.
rock flow
rock mulch, saturated hydraulic conductivity, surface sealing, vesicle, hydrological response, soil surface, rainfall, cover, rock fragment, infiltration, micromorphology, 03930.
rock fracture
aquifer fracture, crystalline basement, soil radon analysis, groundwater exploration, radon gas, Burkina Faso, Sanon; Katchari; Burkina Faso, Barogo; 06409.
rock fragment
infiltration, micromorphology, rock flow, rock mulch, saturated hydraulic conductivity, surface sealing, vesicle, hydrological response, soil surface, rainfall, cover, 03930. soil flume, rainfall simulator, percentage rock fragment cover, raindrop impact, impact energy, water erosion, Portugal, Alentejo; 06224.
rock glacier
bore hole, heat flow, Holocene, creep, thermal characteristics, permafrost, Switzerland, Swiss Alps, Grisons, Murtel Corvatsch; 01459. interstitial ice, development model, Lateglacial, Nahanagan Stadial, glacial morphology, sedimentological characteristic, fossil rock glacier, talus foot debris, debris accumulation, Ireland, Muckish Mountain; 07290. neoglacial moraine, Rhizocarpon, glacial advance, moraine, talus, glacierisation, lichenometric study, Holocene, Canada, Northwest Territories, Frances Lake; Yukon Territory, Frances Lake; 08508. permafrost, discontinuous permafrost, Little Ice Age, permafrost, aerial photograph, Switzerland, Alps, Wallis, Turtmanntal; 03917. severe climate, Cryoboralf, Cryochrept, geology, geomorphology, soil, whitebark pine ecosystem, Pinus albicaulis, freeze thaw, mass wasting, glaciation, trough wall, moraine, cirque headwall, landslide, talus slope, Canada, Rocky Mountains; USA, Rocky Mountains; 03711. snow avalanche, deglaciation, Quaternary geology, cirque glacier, slope process, till, alpine slope, talus apron, Canada, Yukon Territory, Frances Lake; Northwest Territories, Frances Lake; 08470. solifluction lobe, terracette, patterned ground, altitudinal belt, geomorphic process, timberline, grazing, periglacial form, Spain, Pyrenees; 05042.
rock hardness
tensile strength, Schmidt rebound, infiltration capacity, v-shaped valley, headward erosion, mechanical strength, slope evolution, valley side slope, rock property, hilly land, Japan, Hokkaido, Shiranuka Hill; Soya Hill; 08402.
rock head contour
bedform, biogenic carbonate, sand sorting, British Geological Survey, sea bed sediment, Quaternary geology, Shipek grab, bathymetry, sediment thickness, UK, England, Hampshire, Wight; Solent; 07144.
rock joint
numerical implementation, joint strength data, constitutive model, 00247.
rock map
choreme, petroglyph, Mexico, Las Estacas; 05663.
rock mass
flow action, geomechanics, hydraulics, waterfall, hydraulic scale model, block dislodgement mechanism, erosion, 01377.
rock mass sliding
rock stability, temple, Thebes limestone, rock fall, circular failure, mechanical property, weathering, risk evaluation, Egypt, Luxor, El Deir El Bahary Valley; 10703.
rock mass strength
limestone, Devonian, reef complex, spatial variation, form, rock slope, tropical limestone, Australia, Western Australia, Kimberley Region, Napier Range; 02554.
rock matrix diffusion
granitic rock, tracer, groundwater flow, hydraulic conductivity, nuclear waste disposal, solute transport, Sweden; 09860.
rock movement
mass wastage, slope evolution, rockfall, canyon widening, debris movement, USA, Arizona, Colorado River, Grand Canyon; 11895.
rock mulch
saturated hydraulic conductivity, surface sealing, vesicle, hydrological response, soil surface, rainfall, cover, rock fragment, infiltration, micromorphology, rock flow, 03930.
rock polishing
sample preparation, mounting, ferromanganese nodule, 03684.
rock property
bedrock incised rill, gully, Schmidt hammer, weathering, joint, deep regolith, accelerated erosion, rill, Africa, (Southern); 08555. hilly land, rock hardness, tensile strength, Schmidt rebound, infiltration capacity, v-shaped valley, headward erosion, mechanical strength, slope evolution, valley side slope, Japan, Hokkaido, Shiranuka Hill; Soya Hill; 08402.
rock resistance

Richter type slope, fluvial incision, parallel retreat, caprock, slope development, Clarens Sandstone, slope replacement, South Africa, Orange Free State, Klerkspruit Valley; 10715.
rock shelter
Pleistocene(Late), palaeoenvironment, radiocarbon dating, pollen analysis, depositional process, post depositional process, Italy, Venetio Region; 06163.
rock slope
probabilistic method, toppling failure, Monte Carlo simulation, Markov Chains theory, stability analysis, block toppling failure, 04917. surficial excavation, slope stability, stability detection, Egypt, Asswan; 08065. tropical limestone, rock mass strength, limestone, Devonian, reef complex, spatial variation, form, Australia, Western Australia, Kimberley Region, Napier Range; 02554.
rock slope stability
slope stability, joint, structural domain, stability analysis, sliding probability map, probabilistic approach, Italy, Rome Region; 08389.
rock stability
temple, Thebes limestone, rock fall, circular failure, mechanical property, weathering, risk evaluation, rock mass sliding, Egypt, Luxor, El Deir El Bahary Valley; 10703.
rock strength
deformability, Schmidt hardness, compressive strength, Youngs modulus, carbonate rock, UK, England; Greece; 13049. lithomorphic relief, dynamic test, lithomorphogenesis, USSR; USSR, Kazakhstan; USSR, Great Caucasus; 03723.
rock surface temperature
mechanical rock weathering, rock temperature regime, weathering simulation, surface temperature change rate, weathering, daytime, Atlantic, Canary Islands, Tenerife; 02709.
rock temperature
discontinuous permafrost, periglacial, geomorphology, permafrost, freezing, thawing, weathering, soil temperature, Switzerland, Alps, Wallis, Unterrothorn; Gornergrat; 06199.
rock temperature regime
weathering simulation, surface temperature change rate, weathering, daytime, rock surface temperature, mechanical rock weathering, Atlantic, Canary Islands, Tenerife; 02709.
rock terrain
groundwater exploration, saprolite zone, Precambrian, crystalline rock, aquifer yield, fracture, India; 11119.
rock toe berm
embankment reliability, safety factor, slide repair, 08387.
rock type
geological map, Atkins Q-analysis, mineral resource endowment, USSR; USA; 12721.
rock uplift
rock exhumation, mountain range dynamics, uplift rate, surface uplift, 04886.
rock varnish
arid area, rock coating, laboratory spectra, spectral reflectance, 08066. case study, arid zone, radiocarbon, cation ratio dating, rock engraving, surface stability, Australia, Northern Territory, Henbury Meteor Craters; New South Wales; Ayers Rock; Australia, South Australia, Olary Province, Pepuarta Bluff; 01488. chemical analyses, cation ratio age, geomorphic surface, varnish, analyses precision, 07316. chemical analyses, cation ratio dating, interlaboratory comparison, analyses accuracy, 09554. dating method, Quaternary(Middle-Late), Quaternary deposit, cation leaching curve, China, Gansu Province; Xinjiang Region; 08531. erosion rate, range fire, exposure age, geomorphic surface, spalling, USA, California, Owens Valley; 13195. palaeoclimatic implication, Tioga glaciation, Middle Creek glaciation, Younger Dryas, accelerator mass spectrometry, Pleistocene(Late), lake shoreline, glacial chronology, radiocarbon dating, USA, Basin and Range Province; 00305. Quaternary dating technique, backscattered electron microscopy, varnish dating method, geochronology, age determination, USA, (Southwest); 01424.
rock varnish origin
hyperarid, coastal desert, bacteria, fog, dew, palaeoenvironmental interpretation, Peru; 07318.
rock weathering
organic matter, scavenging, sea water, particulate sorption, particulate matter, 09449. site productivity, mass balance equation, timber harvesting, weathering rate, cation nutrient pool, nutrient replenishment, mineral weathering, productivity, nutrient cycle, 08518.
rock weathering rate
raised beach, measurement, calibration, weathering process, wave washed moraine, bedrock, Schmidt Test hammer, isostatic uplift, Sweden, Norrland; 03928. Rhizocarpon geographicum, measurement, calibration, weathering process, lichenometric investigation, wave washed moraine, Schmidt Test hammer, boulder, isostatic uplift, Sweden, Bothnian coast, Badamalen; 07321.
rock weathering rind curve
Aranuian, vegetation history, moraine chronology, Rhizocarpon geographium, glacier, Arrowsmith set, Marquee set, lichenometry, New Zealand, Canterbury, Arrowsmith Range, Cameron Glacier; 08469.
Rock-Eval analysis
Mesaverde Group, organic carbon, coal, thermal maturity, vitrinite reflectance, Multiwell Experiment, USA, Colorado, Piceance Basin; 02454.
rocke wind data
diurnal tide, middle atmosphere, tropical station, semi diurnal tide, India, Balasore; 12405.
rocket borne instrument
nitric acid trihydrate, aerosol, nitric acid, winter, mass spectrometric method, Arctic; 00908.
rocket borne mass spectrometer
nitrogen, argon, BUGATTI Experiment, thermosphere eddy mixing, turbulence, 03003.
rocket emission
Space Shuttle, stratosphere, chlorine, ozone, 09069.
rocket flight
heterogeneous chemical process, water vapour, methane, formaldehyde, hydrogen peroxide, hydrogen cyanide, mesosphere, positive ion, 00785.
rocket measurement
electron density profile, summer mesopause, mesospheric cloud, noctilucent, ice particle, electron "bite out", 05436. Meinel band, oxygen, hydroxyl radical, middle atmosphere, night airglow, airglow, photometer, oxygen density profile, 11315.
rocket observation
turbulence, mesosphere, thermosphere, electrostatic positive ion probe, 00679.
rocket ozonesonde
stratospheric aerosol, satellite measurement, sampling, ozone profile, lidar, electrochemical, concentration cell, balloon sonde, 04363.
rocketsonde
SBUV, SAGE II, ozone gradient, satellite, ozone comparision, pressure, temperature, radiosonde, 12545.
rockfall
canyon widening, debris movement, rock movement, mass wastage, slope evolution, USA, Arizona, Colorado River, Grand Canyon; 11895. hazard, neighbourhood analysis, ILWIS, DTM, 02200. risk map, mud flow, ice breakup, cartographic survey, landslip, Switzerland; 08396. rockslide, avalanche, debris rock, debris torrent, glaciation, geomorphic impact, high magnitude event, geomorphic event, rockslope failure, Canada, Rocky Mountains; 11864. snow avalanche, debris flow, hazard, geological mapping, mass movement, land use planning, mass movement, rockslide, Norway; 07190.
rockfall accident
hazardous rockfall, warning sign, natural hazard, mass wasting, USA, Montana, Glacier National Park; 09533.
rockfall cause
landslide cause, slope stability, neotectonics, stability remedial measure, India, Himalayas, Kumaun Himalaya, Nainital, Naina Peak; 10716.
Rockland tephra
zircon grain, fossil fission track, fission track age, tephra, fission track age, USA, California; Nevada; 13078.
rockphosphate
manure, phosphorus availability, Mussoorie rockphosphate, 00423.
rockslide
avalanche, debris rock, debris torrent, glaciation, geomorphic impact, high magnitude event, geomorphic event, rockslope failure, rockfall, Canada, Rocky Mountains; 11864. debris avalanche, hazard, eruption, mass wasting, Holocene(Late), destructive phase, volcano, Arenas eruptive stage, Azufrado eruptive stage, Lagunillas eruptive stage, Colombia, Nevado del Ruiz Volcano; 00244. failure, road alignment, geotechnical observation, unstable rock, India, Himalayas, Garhwal Higher Himalaya; 00264. rockfall, snow avalanche, debris flow, hazard, geological mapping, mass movement, land use planning, mass movement, Norway; 07190.
rockslope failure
rockfall, rockslide, avalanche, debris rock, debris torrent, glaciation, geomorphic impact, high magnitude event, geomorphic event, Canada, Rocky Mountains; 11864.
rocky shore environment
radiocarbon date, oxygen isotope evidence, foraminifera, Quaternary(Late) sediment, borehole, palaeoenvironmental reconstruction, Holocene, last interglacial, last glacial, sea level, Hong Kong, High Island; 10752.
Rocourt soil
climatic condition, last interglacial, glacial, geosoil traverse, stratotype, European Loess Belt, Mediterranean Belt, Coversand Region, Italy, Sardina; Belgium; Greece; 07266.
Roda Sandstone
Pleistocene(Late), Holocene(Early), sediment supply, tidal sandbody, sandbody, Eocene, Spain, Pyrenees; East China Sea; 09400.
Rogen moraine
cirque moraine, peat development, deglaciation, Breisterdalen moraine, marginal moraine, radiocarbon date, Breiseterdalen(Upper), evidence, Preboreal deglaciation, Norway, Jotunheimen; 03882.
Rokko Movement
Pleistocene(Middle), fault block movement, sea level rise, Osaka Group, Manchidani Unconformity, Japan, Kinki; 08502.
roll vortex
heat flux profile, vertical velocity, turbulent kinetic energy, convective boundary layer, cold air outbreak, 05399. planetary boundary layer, convection, wave-wave interaction, large eddy state, cloud street pattern, wave-mean flow interaction, 01851.
rollback
plate motion, trench arc backarc system, hotspot, subduction hinge migration, Philippine Sea, Izu-Bonin-Mariana Arc; 03726.
Roman
aerial photograph, atlas, UK; 02164.
Roman Britain
forgery, forged map, 10347.
Romano Libyan farm
floodwater control, building stone, Site Lm4, cavernous weathering, case hardening, geomorphological study, Libya, Wadi el Amud; Wadi umm el Bagul; 06105.
Rondout Formation
dolostone, Devonian, parasequence, limestone, Manlius Formation, USA, New York, Albany, John Boyd Thacher State Park, Indian Ladder Trail; 00124.
root
calcrete, Triassic, Otter Sandstone, alluvial fan, pedogenesis, palaeosol, plant, UK, England, Devon; 11768. mixed deciduous tropical forest, soil metabolism, tropical forest soil, India, Orissa; 05074. plant, methane, oxidation, peat sediment, incubation, USA, Florida Everglades; 03642. plant, soil strength, Indonesia; 01547. soil aggregation, mycorrhizal fungi, 00374. stress, soil, biopore channel, porosity, 03957.
root cohesion
forested hillslope, safety factor, avalanche headscarp, debris avalanche initiation, slope stability, USA, Washington, Whatcom County, Smith

Creek Basin; 06031.
root development
compaction, soil physical property, cracking pattern, 09664.
root distribution
humic compound, soil moisture, France, Jura; 01600. yield response, subsoiling, Paleudult, chisel ploughing, 00401.
root extraction
unsaturated flow, lateral flow, sprinkler irrigation, irrigation non uniformity, soil water distribution, irrigated field, 07525.
root exudate
corn, bromegrass, soil stability, wet aggregate stability, dispersible clay, 05067.
root fossilisation
dune, aeolian deposit, stabilisation, vegetation, eolianite, Tunisia; 03648.
root growth
actual evapotranspiration, drainage, lysimeter, evapotranspiration, deterministic method, stochastic method, soil water balance, water balance model, crop characteristic, soil charactersitic, simulation model, tensiometer, neutron probe, water storage, Ivory Coast, Bouake; 12236. nitrogen cycle, agrosystem, tropical soil, soil model, crop yield, computer simulation, 13273. soil penetration, penetrometer, 03956. soil structure, vane shear strength, tactile clay content, shear strength, clay content, 10912. structural regeneration, sandy loam, penetration resistance, soil bulk density, hardsetting soil, UK; 12083.
root mat
vegetation, dune formation, mudflat, seagrass, Mauritania, Banc d'Arguin; 07072.
root penetrability
soil amelioration, soil cracking, aggregate fracture, soil structure, 12049.
root plaque
iron oxide, Phragmites australis, manganese, copper, Canada, Ontario, Quebec; 00420.
root reinforcement
soil slip pattern, unstable hillside, chaparral, direct shear test, slope stability, root strength value, USA, California, Transverse Ranges; 13054.
root respiration
carbon dioxide, oxidation, carbonate, chloride, lepidocrocite, goethite, pipestem, rhizosphere, 00169.
root strength value
root reinforcement, soil slip pattern, unstable hillside, chaparral, direct shear test, slope stability, USA, California, Transverse Ranges; 13054.
root zone
evapotranspiration, drainage, crop coefficient, soil water balance model, drought, actual evapotranspiration, millet crop, soil texture, soil moisture storage, Niger; 12240. leaching loss, soybean, nitrate leaching, no-till agriculture, conventional till agriculture, 01756. microlysimeter, soil column, pesticide movement, 09733. saline water reuse, saline water disposal, subsurface drainage effluent, land management, soil degradation, groundwater salinisation, evaporation basin, controlled outflow, dilution flow, aquifer disposal, desalinisation, Australia, Murray Basin; 05264. soil water storage, canopy, evapotranspiration, Douglas fir stand, carbon dioxide flux, summertime change, 12356.
root zone capacity
available water content, till soil, soil moisture storage, Scandinavia; 01702. irrigation map, map, irrigation water requirement, irrigation need, climate data, soil classification, potential evapotranspiration, precipitation, Denmark; 00634.
root zone drainage
denitrification, sulphate : chloride ratio, sulphate concentration, irrigated horticulture, nitrate concentration, lysimeter, groundwater quality, Australia, Western Australia, Swan Coastal Plain; 06383. lysimeter, nitrate, phosphate, groundwater quality, irrigated horticulture, nutrient status, denitrification, Australia, Western Australia, Swan Coastal Plain; 02925.
root zone model
tillage system, soil core, Upidsamment, Plainfield soil, pesticide mobility, USA, Wisconsin; 07347.
rooting depth
soil variable, plant community, elevation, total soil depth, water holding capacity, USA, Nevada, Humboldt National Forest; 00459.
rooting zone
drainage loss, soil water tension, available water content, hydrodynamic characteristic, sandy soil, soil hydraulic property, neutron probe, tensiometer, field capacity, Ivory Coast; 12230. soil hydrodynamics, soil data analysis, water transport, chemical transport, Africa, Sahel; 09735.
rootzone salinity
salinity, calibration, electromagnetic induction, 00445.
Rosenbrock optimisation technique
deterministic model, conceptual model, saturated flow, groundwater flow, subsurface drainage, peak flow, rainfall intensity, rainfall runoff model, 06339.
Rosin and Rammler distribution
weathered granite, head, slope, growan, solifluction material, grain size analysis, sorting, UK, England, Dartmoor; 07183.
Rosin distribution
bedload, grain size, gravels, sediment transport, USA, Oregon, Oak Creek; 03522.
ROSIS
imaging spectrometer, ocean parameter measurement, 11596.
Rosnaes Advance
sedimentological, geochemical study, magnetostratigraphic dating, mid Weichselian, ice dammed lake, Norwegian imprint, Denmark, Zealand, Istebjerg; 05005.
Ross Glaciation
Porika Glaciation, uplift, erosion, interglacial shoreline, radiocarbon dated, Pliocene(Late), Quaternary, glaciation, New Zealand; 02642.
Rossby flow
eddy viscosity, meridional cell, internally forced rotating spherical system, Hadley flow, 04260.
Rossby gravity wave
nonlinear wave, barotropic stability, tropical ocean, wave stability, current, shear, 10041. outgoing longwave radiation, synoptic scale disturbance, tropical meteorology, 04277. stratosphere, LIMS, momentum balance, middle atmosphere, observation, 12426.
Rossby mode
general circulation model, normal mode projection, gravity mode, wind, 00755.
Rossby number
Ekman number, baroclinic wave, topography, principal component analysis, rotating annulus, 01874. Froude number, vortex shedding, flow pattern, mesoscale vortex shedding, rotating stratified flow, 04187. oceanographic current system, stratified flow, isolated topography, rotating annulus experiment, 06498. primitive equation model, barotropic vorticity equation, invertibility principle, potential vorticity inversion, shallow water flow, 04270. semi geostrophic equation, updraft, hydrostatic approximation, slantwise convective adjustment, Brunt-Vaisala frequency, eddy flux, baroclinic wave, moist baroclinic instability, 04293.
Rossby radius
air sea interaction, orographically trapped wind event, coastal zone, oceanic response, bore, gravity current, sea surface temperature, 06473. eddy scale, buoy, infrared satellite image, Atlantic; 06720. sill crest, exchange flow, hydraulics, oceanography, 03497.
Rossby radius of deformation
vertical shear, mesoscale vortex couplet, anvil, multicellular convective complex, Doppler radar observation, convective updraft, vorticity, 05422.
Rossby wave
Ekman layer, diabatic heating, thermal equilibration, planetary wave, three level quasi geostrophic model, Newtonian process, 04258. El Nino, primitive equation numerical model, coastal wave, Kelvin wave, Pacific, (Northeast); 07731. gravity wave, mesosphere, thermosphere, middle atmospheric dynamics, 08920. intra seasonal oscillation, tropical atmosphere, monsoon dynamics, baroclinic disturbance, Hadley circulation, 04276. Kelvin wave, air-sea interaction, ocean response, El Nino, thermocline, Pacific, (Northeast); 01862. Kelvin wave, empirical orthogonal function, coastal Kelvin wave, Kelvin wave propagation, ocean modelling, USA, California; Pacific; 13571. Kelvin wave, moisture convergence, latent heating, Beta plane, sea surface temperature, 01884. monsoonal drought, teleconnection, 03091. planetary wave, middle atmosphere, 08925. ray theory, oceanic mixed layer, geostrophic flow, wave propagation, 01179. solar heating, infrared cooling, wave forcing, barotropic model, Hadley cell, 04274.
Rossby wave breaking
two-fifths rule, one-fifth rule, shear flow, 01892.
Rossby wave critical layer
jet, vorticity, 04291.
Rossby wave radiation
low frequency oscillation, total ozone measurement, total ozone mapping spectrometer, ozone perturbation, 04389. zonal mean flow, baroclinic waves, wave life cycle, tropospheric medium scale wave, stratospheric planetary wave, EP flux signature, 08924.
Rossby wave solution
semigeostrophic theory, beta plane, barotropic baroclinic instability, 10063.
Rossby wave train
convection, cold surge, intra seasonal oscillation, 04272.
Rossby waves
Ekman pumping, air-sea interaction, wind stress, Pacific, (North); 01867.
Rossby-Haurwitz wave
midlatitude jet, planetary scale wave, cloud top dynamics, cloud, Kelvin wave, zonal wind, gravity wave, Venus; 01792.
Rossfeld Formation
Alpine Orogeny, limestone, Urgonian, Cretaceous, tectonics, nappe, Austria, Northern Calcareous Alps, Transdanubian Central Range; Hungary; 03627.
rotary cultivator
soil structure, porosity, 03955.
rotary inertial impactor
nitrate, friction velocity, ozone, sampling, pollution, sulphate, particle, USA, California, Los Angeles; 02048.
rotating annulus
Rossby number, Ekman number, baroclinic wave, topography, principal component analysis, 01874. topography, vacillation, oscillation, low frequency oscillation, 12429.
rotating annulus experiment
Rossby number, oceanographic current system, stratified flow, isolated topography, 06498.
Rotating Arm Collector
Caltech Active Strand Cloudwater Collector, droplet chemistry, nitrate, sulphate, ammonium, sodium, calcium, magnesium, chloride, cloud water, fog water, USA, California, Santa Barbara Channel; 04421.
rotating hydraulics
remote control, virtual control, strangulation, sea strait, two-layer hydraulics, 01175. stationarity, quiescent upper layer, North Atlantic Deep water, Atlantic, Faroe Bank Channel; Norwegian Sea; 02291.
rotating stratified flow
Rossby number, Froude number, vortex shedding, flow pattern, mesoscale vortex shedding, 04187.
rotation
translation, stereo camera, meridional plane, 07976.
rotation invariance
invariance, pixel, edge detection, 09106.
rotation matix
duality, decomposition, 04509.
rotational dynamics
radiation recoil effect, torque, electromotive force, temperature anisotropy, LAGEOS, 12594.
rotational landsliding
mass wasting, fluvial erosion, Holocene, geomorphological reconstruction, climatic reconstruction, radiocarbon date, sedimentation rate, aeolian erosion, Canada, Saskatchewan, Cypress Hills; Alberta, Cypress

Hills; 09582.
rotational signature
hard transition zone, post glacial uplift, geophysical signature, post glacial rebound, 13028.
rotational slumping
fault movement, neotectonics, palaeoseismicity, timing, coseismic displacement, Alpine Fault, New Zealand, Fiordland; 00240.
rotational type
mass movement, fault plane, cataclastic rock, piping, trigger mechanism, gully system, slope retrogression, geomorphic effect, landslide, Venezuela, Andes, Aracay River, Buena Vista; 09521.
rotationally symmetric shape
polar sampling, principal axis, 10304.
Rotliegend
Carboniferous, sandstone, Variscan, Iapetus Suture, Tornquist Line, Europe, (Northwest); 05914. loess, glaciation, grain size distribution, red clay, clay, Zechstein, Germany; 03676.
Rotliegend Sandstone
carbon, strontium, ankerite, Permian, decarboxylation, North Sea, Leman Gas Field; 05964.
rough sea
dust storm, friction velocity, roughness, thermal stability, mobile surface, snow drift, 03068.
rough surface
stress, turbulence, boundary layer, roughness change, 07714. turbulence, boundary layer, momentum transfer, heat transfer, turbulent structure, 03066.
rough surface spectrum
surface scattering, Fourier transformation, directional sea spectrum, 00968.
rough water
water surface, backscatter, Bragg scattering, microwave Doppler spectra, 08110.
roughness
channel, bed topography, bedform, semivariogram, Hausdorff dimension, sorting, 12837. entrainment rate, dispersion rate, wind tunnel, tracer gas, homogeneous surface roughness, heterogeneous surface roughness, surface roughness, heavier than air gas dispersion, 10024. micrometeorological change, vegetation removal, desert formation, surface resistance, albedo, sensible heat flux, 07721. rainfall intensity, dimensionless hydrograph, runoff discharge, rainfall duration, surface parameter, length scale, rainfall-runoff relationship, overland flow, spatial variability, slope, width, 04044. stomatal resistance, surface energy budget, forest, mesoscale meteorology, albedo, 03100. surface resistance, boundary layer, surface layer, surface flux, turbulent transfer, drag coefficient, 00740. thermal stability, mobile surface, snow drift, rough sea, dust storm, friction velocity, 03068. topography, shear stress, boundary layer flow, 00737. turbulence, urban boundary layer, dispersion, 03077. wind wave, wave, airflow, drag coefficient, 13508.
roughness change
rough surface, stress, turbulence, boundary layer, 07714.
roughness coefficient
channel flow, earthlined channel, Mannings formula, flow capacity, flow resistance, submerged vegetation, discharge-depth equation, 13330. composite roughness coefficient, flood channel, flow resistance, compound channel, river channel, roughness prediction, 05160. discharge assessment, compound channel, floodplain roughness, channel geometry, boundary shear force, total shear force, stage discharge curve, floodplain width, channel width, floodplain height, water depth, 05163.
roughness height
bulk transfer coefficient, saturated barley field, Dalton number, Stanton number, neutral stratification, 05400.
roughness index
soil surface roughness, simulated rainfall, simulated rainfall impact, fractal theory, 02717.
roughness length
deviation angle, fluid parcel, resistance law, complex terrain, 13558. forest canopy, Marunich's hypothesis, turbulence, friction velocity, zero plane displacement, 00721. friction velocity, nocturnal boundary layer, boundary layer height, 07698. friction velocity, surface temperature, mesoscale model, surface based perturbation, sea breeze, 05420. surface roughness, wind velocity, boundary layer, displacement height, USA, Kansas, Flint Hills; 03075.
roughness level
anemometer height, mass consistent model, wind field, forecasting, 10101.
roughness pattern
conveyance distribution, multi section stream, channel flow, cross sectional geometry, velocity distribution, compound channel, 05162.
roughness prediction
roughness coefficient, composite roughness coefficient, flood channel, flow resistance, compound channel, river channel, 05160.
roundness
quartz sand, source, provenance, Antarctica, Weddell Sea; 03517. sand, dune, beach, skewness, kurtosis, India, West Bengal, Midnapur District, Junput Beach; 11685.
route determination
route guidance, vehicle location, road information system, data integration, 01157.
route guidance
vehicle location, road information system, data integration, route determination, 01157.
routine check
Uppsala carbon-14 laboratory, counter, radiocarbon date, Sweden, Uppsala; 04949.
routing
vehicle location, TIGER, census, topological information, USA; 09301.
routing method
flood wave, St Venant's equation, prismatic rectangular channel, flood routing, stage hydrograph, 05183.
routing model
river routing, Muskingum-Cunge routing scheme, geomorphologic characteristic, regime theory, DWOPER, 01650. soil moisture storage capacity, return period, basin discharge, rainfall-runoff relation, probability theory, storage, 04040.
rove beetle
beetle, refugium, Omalonomus relictus, blind rove beetle, preglacial relict, Canada, Saskatchewan, Cypress Hills; Alberta, Cypress Hills; 10765.
row cropping
sweet potato, soybean, small fruit crop, runoff, Gerlach trough, soil loss, USA, Alabama; 00359.
Royal Navy
ocean survey, coastal survey, data logging system, 05596.
Royal Society's Surface Water Acidification Programme
acidification, flow path indentification, surface water quality, tracer test, conceptual model, model uncertainty, 04066.
Rozetta soil
soil compaction, corn, subsoil compaction, soil strength, Kewaunee soil, USA, Wisconsin; 10858.
RRAM Project
soil loss, erosion control, Ruhengeri Resource Analysis and Management Project, contour planting, Rwanda, Rhuengeri Prefecture; 06228.
RST transformation
pose clustering, reconstruction, 10309.
rubber plantation
organic matter, nutrient element, tropical soil, plantation geochemistry, China, Hainan Island; 08634.
rubbish dump
groundwater pollution, glacial landscape, till, glaciofluvial deposit, buried Saalean valley, geological condition, 05023.
rubble mound structure
armour stability, breakwater, interlocking resistance, artificial block, 02376.
rubidium
caesium, cation distribution, distribution ratio, surface impedance factor, self diffusion coefficent, calcium, sodium, 07367. cascade impactor, isotope dilution mass spectrometry, sea salt, dust, aerosol, Pacific easterly, lead, barium, potassium, strontium, Pacific, American Samoa; 02044. niobium, Beaumont Seam, organics, mineralisation, coalification, UK, England, Northumberland; 00179. potassium, manganese, boron, calcium, molybdenum, forest plant, herbarium plant, precipitation, soil acidification, mineral weathering, strontium, titanium, zinc, cadmium, Norway; 00933.
rubification
desert pavement, soil development rate, soil chronosequence, soil development rate, cold desert ecosystem, boulder weathering feature, desert varnish, spalling, pitting, salinisation, Antarctica, Transantarctic Mountains; 01491.
rubified horizon
soil development, Tertiary(Late), Pleistocene(Early), paleosol, unglaciated area, Podzolic soil, Luvisolic soil, cryogenic soil, Canada, Yukon Territory; 11863.
rubified soil
paleosol, Rissian, Eemian, Denekamp interstadial, sediment reworking, pedological study, micromorphological study, loessial deposit, soil survey, loess, Spain, Gerona; 07208.
rudist
coral, terrigenous sedimentation, subsidence, Aptian-Albian, carbonate platform, Spain, Aitzgorri Massif; 12942.
Rudjer Boskovic Institute
International Collaborative Study, radiocarbon dating, intercomparison sample, Zagreb Radiocarbon Laboratory, Yugoslavia, Zagreb; 04941.
rudstone
packstone, biogene, Devonian, Elbingerode Complex, conodont chronology, reef, limestone, Germany, Harz Mountains; 08231.
Ruegen Interglacial
Drente phase, Eem interglacial, Weichsel Glacial, geology, palaeontology, palaeoecology, brown coal opencast mine, borehole, Voigtstedt warm period, Holsteinian, Saalian Glaciation, Zeitz phase, Leipzig phase, Treene Interglacial, Germany; 02670.
Rugen (substage 7a)
Fennoscandian ice sheet, ice sheet, last glaciation, Weichselian(Early) interstadial, Brorup, Odderade, Warthe glaciation, Elsterian, Saalian ice sheet (stage 8), Eemian interglacial, Domnitz interglacial, Norway; Sweden; Finland; 01434.
Ruhengeri Resource Analysis and Management Project
contour planting, RRAM Project, soil loss, erosion control, Rwanda, Rhuengeri Prefecture; 06228.
rule base
base map production, generalisation, national atlas, Canada; 01082.
rule based expert system
prediction, waterborne soil erosion, high magnitude erosion event, soil erosion event, knowledge based approach, UK, England, Sussex, East Sussex; 01510.
rule based programme
object extraction, aerial photography, 12653.
rule based system
C language, image classification, 03298. cartographic name placement, map production, Prolog primitive, 01087. linear map feature, feature interpretation, 02132. temporal reasoning, information system, TEMPORA paradigm, database, 13814.
run length
texture measure, tissue characterisation, 03339.
run length coding
template matching, computational cost, 03340.
run off
oxygen, organic compound, industrial wastewater, surface water quality, urban runoff, organic carbon, dam, reservoir outfall, sewage treatment, Canada, Alberta, Bow River; 00560.
run off measurement
gravelly soil, cultivation, ploughing, surface crusting, Ivory Coast, Bouake; 05060.

run up data
wave, beach, wave breaking, shoreline, 12827.
run-off
erosion, Weichselian landscape, agricultural land, farmland, France, Normandy, Pays de Caux; 12037.
run-out distance
dense granular flow, granular flow concept, prediction, model, scaling, avalanche speed, 01410.
runnel
beach classification, macro tidal beach, meso tidal beach, beach, ridge, Australia, Queensland; 10550.
runoff
acid rain, atmospheric deposition, deforestation, forest catchment, industrial emission, clear cutting, hydrological regime, stream flow, surface water regime, Czechoslovakia, Jizera Mountains; 06390. acoustic sensor, sediment transport, hydrophone, bedload indicator, mountain stream, 08705. air pollution, water budget, storm hydrograph, steam flow, forest renewal, hydrology, Czechoslovakia, Beskydy Mountains; 09915. anionic polyacrylamide, simulated rainfall, water quality, surface sealing, 02718. antecedent precipitation, logging, streamflow, yield, low flow, USA, California, Caspar Creek; 04153. anthropogenic erosion, accelerated soil erosion, soil erosion, upland erosion, ravine, France, Cevennes, Lingas Uplands; 08340. atmospheric model, soil moisture, precipitation, topography soils index, water balance flux, land surface atmosphere interaction, surface hydrology, climate modelling, general circulation model, evapotranspiration, 12129. bay superelevation, measurement, sea level change, tide gauge, dredging, inlet hydraulic, 03901. biochemical oxygen demand, chloride, copper, zinc, lead, pollutant, Sweden, River Hoje; 02383. catchment model, slope segment, computer model, solute transport, sediment transport, Germany, Karlsruhe, Weiherbach Catchment; 06393. Darcys law, slope water flow, groundwater flow, pore water velocity, flow path, particle travel time, hillslope hydrology, 11034. deep drainage, soil water storage, crop wateruse, wateruse efficiency, tillage, fertiliser application, soil characteristic, water balance, plant physiology, crop water balance, rainfall, evaporation, transpiration, Africa, Sudan; Sahel; 12141. deep drainage, tropical pasture, corn field, interception, Venezuela, Barinas; 13304. deforestation, stream flow, forested catchment, USA, Idaho, Horse Creek; Silver Creek; USA, Idaho, Tailholt Creek; 11091. diffusivity, matched diffusivity technique, kinematic cascade, overland flow model, 10994. discharge, soil texture, land cover, biogeochemical cycling, land surface atmosphere interaction, climate modelling, basin model, anthropogenic effect, impoundment, landuse change, climate change, hydrologic process, soil water, evapotranspiration, Africa, Zambezi River; 12275. drainage development, precipitation, lithology, vegetation cover, drainage density, India, Uttar Pradesh, Dhauli-Ganga Basin; 01646. drainage, temperature, cloud cover, humidity, wind speed, moisture estimation, soil characteristic, evapotranspiration, water balance model, precipitation, evaporation, transpiration, USA, Midwest; 12224. drainage, water balance, interception, infiltration, Africa, Sudan; Sahel; 12143. dryland, tracer, accelerated soil erosion, water erosion, conservation, soil conservation, detachment, transport, 12027. ecological impact, water quality, sediment, estuary, agricultural pollution, non point source pollution, pesticide, USA, Washington, Padilla Bay, Puget Sound Estuary; 07581. environmental variable, spatial variation, sediment yield, catchment characteristics, South Africa; 13318. erodibility, erosion, erosion map, Wischmeier's protocol, experimental plot, volcanic soil, agricultural development, Ecuador, Andes; 02728. erodibility, interrill erodibility, fragipan soil, erosion, simulated rainfall, USA, Mississippi, Holly Springs; Tennessee, Alamo; 09634. erosion, experimental study, crusting modelling, soil surface, crusting process, aggregate, slaking, rainfall, mechanical breakdown, 10826. erosion, Grumusol soil, Typic Chromoxerert, slope, aspect, phosphogypsum, Israel; 03950. erosion, pesticide, environmental management, nutrient, best management practice, agriculture, non point pollution model, water pollution, 11099. erosion, rainfall intensity, simulated rainfall, design simulator, rainfall simulator, field study, Spain; 09637. erosion, sediment transport, measurement, 12178. erosion, sedimentation, World Bank project, soil conservation, moisture conservation, literature review, conservation technology, 02711. evaporation, tropical forest, regional climate, precipitation, GCM, land surface-atmopshere coupling, 04323. evapotranspiration, groundwater flow, water balance, catchment, interflow, precipitation, 02826. evapotranspiration, soil moisture, soil type, surface runoff, normalized difference vegetation index, surface water balance, vegetation cover, Lettaus climatonomy model, soil moisture, Africa, (West); 12239. fertilizer, loess soil, model calibration, surface water quality, pollutant transport, sediment transport, solute transport, Germany, Karlsruhe, Weiherbach Catchment; 06324. flood forecasting, lysimetric snow pillow station, hydrology, monitoring station, snow cover, snow melt model, Austria, Kuhtai; Tyrol; 08795. flood genesis, rainfall runoff relationship, stream flow, groundwater storage, soil water storage, France, Massif Central, Mont-Lozere; 06279. flooding, bank erosion, torrentiality, deforestation, Rwanda, Birunga Volcanic Range, Susa Catchment; 02954. flooding, low flow, flood plain agriculture, artificial flood, river regulation, precipitation, Africa, Niger River; Senegal River; 06421. floodplain inundation, water balance model, water transport model, continental scale model, river discharge, soil moisture, evapotranspiration, Brazil, Amazon River; 02831. Gerlach trough, soil loss, row cropping, sweet potato, soybean, small fruit crop, USA, Alabama; 00359. germination, growth, climatological record, rainfall, daily rainfall record, rainday effect, plant growth model, Australia; 07807. glacier, temperature, ice cover, alpine basin, Switzerland, Rhone River; 08790. groundwater, water resource data, development plan, data base system, water resource management, computer system, precipitation, evaporation, China; 09942. halocline, nutrient, water column, continental shelf, ice cover, Canada, Ellesmere Island; 00185. hydraulic conductivity, soil moisture, deep percolation, effective rainfall, water balance, crop management, tensiometer, neutron probe, Burkina Faso, Mossi Plateau, Gampela; 12280. hydroclimatic characteristic, river regime, historical data, climate change, Poland; 10985. hydrograph computation, Hydrograph GGI-90 model, mountain basin, 08685. hydrograph, rainfall runoff modelling, microcatchment, mountain basin, Saudi Arabia; 08684. hydrograph, unit hydrograph, rainfall variability, pulse response, Czechoslovakia, Sputka Catchment; 08675. hydrologic process, soil water dynamics, quick flow analysis, spatial variability, landuse, basin characteristic, flood, 08667. hydrological effect, forest, 08880. hydrological process, eutrophication, sediment loss, solute loss, nutrient loss, lake water quality, UK, England, Devon, Slapton Ley; 06308. infiltration, contour tillage, silt loam soil, cropping pattern, agriculture, water management, water conservation, 12273. interrill erosion, evapotranspiration, water yield, drainage, watershed management, land management, rangeland, water balance, lysimeter, USA, Texas, Rolling Plains; 11096. landuse practice, soil erosion, sediment yield, monitoring network, mountain basin, soil erosion, transport parameter, Iran, Sefid Rud Basin; 08711. Late Glacial, Laurentide ice sheet, computerised model, melt water spike, USA, Mississippi River; Gulf of Mexico; Canada, St. Lawrence; 06076. Laurentide Ice Sheet, Younger Dryas, climate change, last deglaciation, pack ice, salinity, Atlantic Ocean conveyor circulation, melt water, precipitation, Arctic Ocean; Atlantic, (North); USA, Gulf of Mexico; 08435. mountain basin, river discharge, remote sensing, snow melt, glacier, mass balance, 08792. Muskingum Cunge method, turbulent kinematic flow, laminar flow, matched diffusivity technique, kinematic cascade, overland flow model, 10995. nitrate, eutrophication, phosphorus, potassium, reservoir, nutrient loss, sediment loss, surface water quality, catchment study, pasture improvement, streamflow, upland management, UK, Wales, Nant-y-Moch; 02947. pasture, range, soil loss equation, simulated rainfall, bare ground, USA, North Dakota; 13206. peak discharge, catchment characteristic, drainage density, spatial variablity, stream flow, France, Massif des Hautes Vosges; 12168. Penman equation, evaporation, transpiration, bare soil surface, potential transpiration, actual evaporation, Priestly Taylor equation, Africa, Sudan; Sahel; Niger; 12156. phosphorus transport, agricultural runoff, soil erosion, bioavailability, USA, Oklahoma; Texas; 01493. physical environment, mesoregion, altitude, slope, aridity coefficient, Hungary, North Hungarian Mountains; 08344. precipitation amount, autoregressive model, regressive model, temperature precipitation regime, Caspian Sea; 12384. precipitation, air temperature, empirical verification, parameter justifiability, hydrometeorological series, Markov autoregressive model, 10964. precipitation, potential evapotranspiration, climate change, hydrological regime, water resource, water balance model, China; 10989. precipitation, soil moisture deficit, evapotranspiration, hydrologic magnification, anti-transpirant effect, atmospheric carbon dioxide, carbon dioxide, climatic change, 04021. precipitation, wadi system, morphological process, water resource, landuse potential, Sudan, Nile River; 12288. rainfall impact, diffusion, soil adsorbed chemical, infiltration rate, chemical transfer, 00587. rainfall runoff relationship, initial contributing area, stream surface, surface saturation, subsurface flow, stream flow model, base flow, hydrograph, groundwater discharge, 05139. remote sensing, erosion, forest hydrology, hydrological research, China; 13320. sediment transport, erosion, surface collapse, waste disposal, landfill site, surface hydrology, radioactive waste, infiltration, collapse cavity formation, USA, Illinois, Sheffield; 11092. sediment transport, silting, erosion, soil conservation, reservoir, Morocco, Mohammed Ben Abdelkrim Al Khattabi Dam; 12183. sediment transport, soil loss, erosion index, sandy soil, climatic erosion index, France, Massif des Maures; 12184. sediment yield, catchment behaviour, river response, palaeohydrological change, deglaciation, upland river system, Lateglacial, UK, Scotland; 10766. sediment yield, dune terrain, modelling, water erosion, water repellency, Netherlands; 12036. sediment, burned sagebrush, sagebrush juniper community, USA, California, Susanville District, Eagle Lake Resource Area; 03936. seepage, hydraulic gradient, pseudogley, water balance, soil hydrology, forest hydrology, soil moisture content, soil water potential, infiltration, water table rise, waterlogged soil, Germany, Hunsruck/Rhineland Palatinate; 01623. sheet wash, marker, phytoindicator, natural trap, painted square technique, relief evolution, USSR, Issyk-Kul Lake; 05126. siltation, farm system adaptation, erosion, taro patch system, ditch, water, Pacific, Micronesia, Caroline Islands, Yap Island; 06248. snow melt, reservoir system, catchment characteristic, water supply system, Spain, Madrid; 08677. snowmelt, wilting point, evapotranspiration, sensitivity testing, CREAMS, ERHYM-II, computer model, groundwater flow, model calibration, waste disposal, radioactive waste, soil moisture, 11032. soil erosion, canopy cover, infiltration, interception loss, rangeland, experiment, Water Erosion Prediction Project, vegetation canopy, USLE, USA; 13205. soil erosion, control, vetiver grass, hedge, erosion, 00356. soil erosion, cotton, coffee, andosol, talpetate, volcanic tuff, erosion, production system, Nicaragua, Managua Lake; 02726. soil loss, bare fallow plot, Mollisol, USLE, erosivity index, Australia, New South Wales, Inverell; 02745. soil loss, conservation, supplemental irrigation, water harvesting, rates of soil erosion, rainfall, India, Punjab; 12042. soil loss, experimental plot, bare soil, cash crop, forest plantation, Thailand, Phu Wiang Watershed; 06239. soil loss, infiltration rate, thunderstorm, soil erosion measurement, plot measurement, Germany; Hungary; 02736. soil loss, irregular shape, slope shape, 06218. soil loss, silt loam, tillage, sediment, nutrient loss, Maury silt loam, Paleudalf, 07337. soil loss, sorghum, Kota clay soil, plot study, contour cultivation, India, Kota; 06235. soil loss, steep slope, field experiment, contour cropping, soil erosion, cropping system, India, Burnihat; 06236. soil moisture content, erosion control, sandy soil, soil surface, infiltration, Burkina Faso, Yatenga Province, Bidi Village; 06424. soil moisture, mathematical model, moisture storage, hydrologic process, vegetation cover, 06259. soil moisture, precipitation, rain fall, surface energy balance, evapoclimatonomy, water balance, evapotranspiration, Africa, Sahel; Niger, Niamey; 04249. soil moisture, vegetation change, satellite data, climate change, rainfall decline, surface water balance, Lettau climatonomy model, evapotranspiration, Africa, Sahel; 12145. soil water storage, evaporation, transpiration, drainage, water balance study, storage, loss, rainfall, 12144. soil water storage, pipe flow, bypass flow, old water, water discharge, macropore, humid catchment, hillslope, preferential flow, soil water characteristic curve, through flow, 09804. solar radiation, groundwater discharge, snow cover, mountain basin, karst aquifer, snow melt, aquifer recharge, France, Doubs; 08789.

splash, wash, aggregate stability, crust formation effect, soil erosion process, soil seal, infiltration rate, soil strength, 03931. storm event, hillslope sediment production, stream sediment load, overland flow, land use, sediment production controls, lowland catchment, sediment production, UK, England, Devon, Slapton Ley; 01507. storm runoff, catchment response, lithology, land use, Luxembourg; 07468. stream discharge, meltwater production, summer precipitation, monsoon, Pakistan, Karakoram; 02935. stream discharge, soil water discharge, water storage, water balance, snow cover, Antarctica, King George Island; 01744. stream flow, basin storage, drainage, wetland hydrology, beaver dam, subarctic wetland, 07470. stream flow, catchment characteristics, runoff regime, afforestation, flood, return period, extreme event, landuse effect, urbanisation, Switzerland, Emme River; Reuss Valley; 09916. stream flow, delay time, unit hydrograph, shape parameter, geomorphologic unit hydrograph, catchment geomorphology, stream length, 05135. stream water quality, drainage, bog, groundwater chemistry, leaching, nutrient budget, peatland, afforestation, 01752. subsurface drainage, phosphorus, sewage sludge, lysimeter, water quality, fertiliser, 02881. Sudano-Sahelian climate, groundwater recharge, soil moisture estimation, hydrological balance, precipitation, evaporation, Africa, Sudano-Sahelian Region; 06356. surface condition, infiltration, soil characteristic, crust, morphogenetic classification, 12226. surface water quality, water chemistry, specific yield, sodium, calcium, base flow, New Zealand; 11027. surface water quality, wet deposition, bulk deposition, urban hydrology, pollutant load, Germany, Hamburg; 00563. surficial process, rainforest, rill, gully, overland flow, rainfall characteristics, hydraulic conductivity, saturated hydraulic conductivity, pipe flow, South America, Amazonia; 09801. suspended sediment, burning, reforestation, grassland watershed, sediment yield, Philippines, Bulacan, Angat; 09919. suspended sediment, forested catchment, sediment concentration, sediment yield, Chile, Valdiva Area; 09817. terraced slope, soil erosion, quantitative investigation, erosion form, loess, vineyard, field measurement, piping, Hungary, Tokaj Nagyegy; 08548. tillage practice, contour ripping, hydrological modelling, rangeland watershed, KINEROS, 10986. total runoff, annual runoff, catchment characteristic, direct runoff, linear multiple correlation, regression analysis, spatial variability, 08672. transpiration, soil compaction, antecedent condition, dimensionless unit hydrograph, deforestation, flood hydrograph, stream flow, peak flow, Czechoslovakia, Sputka River; 06283. transport rate, sediment transport regime, snow melt, flood, sediment yield, dambreak, mountain stream, USA, Colorado, Roaring River; 08728. unit hydrograph, rainfall excess, rainfall distribution, France, Petite Creuse Basin; 08656. upwelling, Milankovitch, wind velocity, heavy mineral, carbonate, nutrient, Indian Ocean; Arabian Sea; 11700. vegetation cover, faunal activity, surface roughness, surface crust, tillage, soil surface characteristic, remote sensing, surface classification, surface mapping, surface hydraulic parameter, rainfall simulation experiment, infiltration, Africa, Sahel; 06292. water balance equation, discharge variability, stream flow, 13319. water balance, water exchange transfer, savannah catchment, evapotranspiration, computer model, stream flow, Ivory Coast; 06297. water discharge, agricultural land, channel runoff capacity, India, Central Lesser Himalaya, Almora, Daulaghat; 07583. water exchange process, tritium, lake, sea, mixing, water balance characteristics, vertical mixing, environmental tritium, groundwater, USSR, White Sea; Black Sea; USSR, Caspian Sea; USSR, Barents Sea; USSR, Azov Sea; USSR, Issyk Kul Lake; 07483. water quality, silviculture, grazing treatment, longleaf pine forest, interrill erosion, nitrogen, phosphorus, infiltration, USA, Louisiana, Kisatchie National Forest, Vernon District; 01499. water regime, sediment yield, river, transport regime, climate, 08697.

runoff accumulation
spatial variability, runoff depth, runoff rate, watershed response, 13317.

runoff characteristic
infiltration, Alpine stream, peak flow, stream discharge, catchment geology, surface water groundwater exchange, aquifer recharge, sackung, Switzerland, Poschiavo, Varuna; 08693.

runoff characteristics
flow duration curve, flow variability, flood, low flow, rainfall, vegetation, catchment characteristic, stream flow pattern, Guyana; 07467.

runoff chemistry
acidification, acid drainage, groundwater chemistry, pyritic coal, coal refuse, total dissolved solid, sulphate, iron, soil moisture, USA, Indiana; 13433. catchment treatment, sulphur treatment, acidification, groundwater chemistry, sodium sulphate treatment, surface water chemistry, soil water chemistry, Sweden; 13382. flow path, subsurface flow, surface water chemistry, rainfall duration, dry antecedent condition, soil pipe, inorganic aluminium, throughflow, rainfall intensity, stormflow hydrochemistry, upland catchment, UK, Wales; 04094. nitrogen, sulphur, canopy throughfall, drainage pattern, subsurface runoff, biogeochemical cycling, element budget, precipitation chemistry, throughfall density, stream water chemistry, Germany, Black Forest; 04087. organic acid, strong acid, peat soil, forest catchment, lysimeter, surface water quality, input output budget, chemical mineralisation, leaching, Sweden; 13379. oxygen-18 isotope, inorganic monomeric aluminium, soil water end member, surface water chemistry, soil water chemistry, hydrogen calcium, Norway, Birkenes Catchment; 04103. preferential flow, base flow, acid shock, surface water quality, acidification, stream flow, soil chemistry, flow path, catchment drainage, UK, Scotland, Allt a'Mharcaidh; 13373. Reversing Acidification in Norway project, sulphate, nitrate, atmospheric deposition, acidification, organic acid, Norway; 13381. solute transport, hillslope hydrology, coniferous forest, subsurface flow, free surface method, tangent continuity method, ionic concentration, water movement, surface water quality, UK, Wales; 04092. stream water chemistry, antecedent condition, flow path, base flow, hydrogeochemistry, soil chemistry, subsurface flow, Norway, Birkenes; 13377. surface water chemistry, lake water chemistry, precipitation chemistry, soil water chemistry, biogeochemical ion exchange, weathering reaction, water pathway, chemical change, acid rain, 04082.

runoff coefficient
aquifer recharge, mountain basin, infiltration rate, Kennessey method, Italy, Umbria Marche, Cucco Mountain; 08678. plant physiological process, transpiration, forest decline, acid deposition, soil acidification, water yield, forest catchment, rainfall runoff relationship, Germany, Black Forest, Eyach Catchment; 08801. surface hydrology, arid area, semi arid area, rainfall runoff relationship, basin characteristic, infiltration class, unit hydrograph, flood flow, runoff depth, precipitation depth, Africa; 06288. unit hydrograph, hydrograph characteristic, rainfall depth, slope, infiltration, runoff factor values, ungauged basin, flood estimation, peak discharge estimation, Africa, Sahel; 06293.

runoff collection
water hole, pastureland management, water management, Africa, Sahel; 06425.

runoff contamination
mass balance equation, overland water, surface runoff, convective mass transfer, diffusion, soil chemistry, 13349.

runoff delay
melt energy computation, ablatometer measurement, melting ice, snow, micrometeorological technique, diurnal pattern, Canada, Alberta, Peyto Glacier; 00338.

runoff depth
precipitation depth, runoff coefficient, surface hydrology, arid area, semi arid area, rainfall runoff relationship, basin characteristic, infiltration class, unit hydrograph, flood flow, Africa; 06288. runoff rate, watershed response, runoff accumulation, spatial variability, 13317.

runoff discharge
flood forecasting, snowmelt, surface temperature, freezing depth, heat balance method, snow, 04148. rainfall duration, surface parameter, length scale, rainfall-runoff relationship, overland flow, spatial variability, slope, width, roughness, rainfall intensity, dimensionless hydrograph, 04044.

runoff distribution
surface runoff, water resource, interannual fluctuation, stream flow, climatic variation, drought, rainfall deficit, Africa, Sahel; Senegal River; Africa, Niger River; 06266. water conservation, environmental formation, hydrology, ecological consideration, hydrological technical direction, geographical approach, water resource estimation, 07450.

runoff erosion
extreme event, geomorphological study, Israeli literature, runoff generation, Israel; 02498. universal soil loss equation, soil erosion data, USLE, P factor, subsurface drainage, low slope, humid climate, sediment loss, USA, Louisiana, Baton Rouge; 05058.

runoff estimation
vegetation cover, infiltration, crusting, soil characteristic, water balance model, soil wetting index, rainfall runoff relationship, surface characteristic, Mali, Kassela; Senegal, Thysse Kaymor; 12237. water equivalent variation, air temperature, precipitation, wind speed, water vapour pressure, global radiation, cloud cover, snow water equivalent, snow cover, Switzerland, Alps; 08798.

runoff event
stream flow, flood, travel time, crest, Israel; 13326.

runoff factor
erosivity factor, suspended sediment transport, Williams runoff factor, Universal Soil Loss Equation, sediment yield prediction, Italy, Sicily; 08716.

runoff factor values
ungauged basin, flood estimation, peak discharge estimation, runoff coefficient, unit hydrograph, hydrograph characteristic, rainfall depth, slope, infiltration, Africa, Sahel; 06293.

runoff farming
water conservation, water harvesting, soil conservation, nutrient loss, water storage, water resource management, Tanzania; Zimbabwe; Burkina Faso; Israel; Tunisia; 02984.

runoff fluctuation
water yield, drainage basin characteristic, glacier river, spring fed river, direct runoff river, river classification, hydrograph shape, Iceland; 06272.

runoff forecast
remote sensing, snow melt, USA, Colorado; 09272.

runoff forecasting
DEM, snow cover, snowmelt runoff, Italy, Cordevole River; 10448. long term forecasting, fuzzy inference method, expert system, 09811.

runoff formation
hydrological process, drought management, arid area, semi arid area, hydrological modelling, water management, rainfall runoff model, data requirement, rainfall, evaporation, Africa; 06289. rainfall runoff relationship, forest basin, capillary rise, non capillary flow, convolution integral, mountain watershed, kinematic wave equation, Boussinesq equation, subsurface flow, USSR, Carpathian Mountains; 09808.

runoff generating mechanism
slope, topography, hydrogrph separation, hydrological modelling, mountainous terrain, rainfall variability, 08681.

runoff generation
environmental isotope, tracer study, hillslope hydrology, oxygen-18, deuterium, tritium, precipitation to runoff conversion model, storm runoff, snowmelt runoff, New Zealand; 11003. rilling, sedimentation, slope length, erosion, deposition, Horton runoff volume, surface sealing, headcut incision, colluvial fan formation, infiltration, percolation, overland flow, 05125. runoff erosion, extreme event, geomorphological study, Israeli literature, Israel; 02498. sandy soil, algal crust, biological crust, Israel, Western Negev, Nizzana Sands; 06271. soil crust, runoff yield, soil cracking, plot length, topography, slope, topsoil, soil characteristic, 12160. soil texture, auger hole permeameter, subsurface flow, overland flow, disc permeater, soil hydraulic property, through flow, hillslope, macropore, 13324.

runoff generation mechanism
land use change, antecedent soil moisture condition, flow process, hydrograph, experimental basin, conceptual distributed model, physically based model, storm frequency, flow measurement, isotopic tracing, water table level monitoring, Switzerland, Haute Menthue Watershed; 06278.

runoff hydraulics
hydraulic resistance, microchannel flow, sheet flow, laminar flow, turbulent flow, water flow velocity, flow depth, hillslope hydrology, overland flow, infiltration, 11001.

runoff hydrograph
rainfall runoff relationship, rainfall distribution, interception, evapotranspiration, infiltration, land cover, Poland, Carpathian Mountains, Trzebunka; 06282. sediment yield, interrill overland flow, hillslope hydrology, flow resistance, overland flow hydraulics, USA, Arizona; 05137.
runoff loss
atrazine, metolachlor, runoff quality, runoff quantity, leaching, agricultural chemical loss, subsurface drainage, USA, Louisiana; 02950. hydraulic routing algorithm, alachlor, atrazine, cyanazine, edge of field runoff, herbicide, surface water quality, agricultural chemical, runoff quality, water quality model, SURFACE, 09911. river discharge, groundwater recharge, water table rise, evaporation loss, surface water resource, reservoir, water resource, USSR; 08808.
runoff measurement
experimental plot, rainfall intensity, redeposition, infiltration, snow melt, soil erosion, Hungary, Gaja Valley; 08549.
runoff model
catchment hydrology, data complexity, information imperfection, catchment nonlinear runoff, grey system appraoch, 09813. evapotranspiration model, erosion model, runoff prediction, hydrological model, rangeland, 10969. flow resistance equation, surface runoff, imprevious surface, kinematic wave approximation, 07473. hydrograph simulation, Storm Water Management Modelling package, water resources management, computer model, 09943. melt water, glacier, daily runoff, tank model, mountain basin, China, Xinjiang, Urumqi River Basin; 08689. model simulation uncertainty, reliability estimation, hydrograph, hydrological model, peak discharge, probability distribution, USA, Illinois; 08663. rainfall point process, stochastic model, rainfall runoff model, Poisson model, Neyman Scott model, 09802. snow storage, glacier, mass balance, mountain basin, melt water, discharge, 08788. soil water property, topography, water balance, hydrograph, rainfall variability, France, Vosges, Fecht Basin; 08682.
runoff modelling
mountainous terrain, contour based method, saturation overland flow, subsurface flow, hydrograph, forested catchment, landscape partitioning, Australia, (Southeast); 08680. snowmelt runoff, infiltration, frozen soil, variable source area model, lake water, discharge hydrograph, snowmelt temperature index model, drainage network, infiltrability index, storage, Canada, Quebec; 01746. stream discharge, flow condition, hydrological network, flow average, mountain basin, ungauged catchment, 08671.
runoff peak
soil moisture condition, rainfall intensity, rainfall runoff model, climate change, peak flow, snow melt, precipitation, winter temperature, Sweden; Finland; 05149.
runoff plot
design, double split divisor, Thailand; 01522. natural rainfall, erodibility index, Wischmeier's nomograph, ferrallitic soil, spatial variability, temporal variability, erodibility, tropical soil, Africa; Madagascar; Guyana; 02738. tropical steepland, erosion study, erosion control, Thailand; Jamaica; El Salvador; 06220.
runoff pollution
petroleum hydrocarbon, urban runoff, water quality, surface water quality, 07511. probabilistic modelling, urban runoff, pollutant load, nonpoint source pollution, North America, Great Lakes Basin; 07513. surface water quality, bottom sediment, urban runoff, aliphatic hydrocarbon, PAH, water quality, storm water runoff, hydrocarbon, Japan, Tokyo, Tama River Basin, Nogawa River; 07514. urban runoff, road traffic effect, surface water quality, highway runoff, Germany; 00564.
runoff prediction
distributed model, radar, storage function model, large scale basin, mountain basin, rainfall distribution, Japan, Kusaki-dam Basin; 08688. hydrological model, rangeland, runoff model, evapotranspiration model, erosion model, 10969. mathematical model, river runoff, macroscale rainfall field, complex relief condition, mountain river, 05131. physical model, anthropogenic effect, flood event, mountainous region, curve number method, alpine watershed, Soil Conservation Service curve number method, variable source area concept, saturation overland flow, Switzerland; 08679. rangeland catchment, curve number method, Green and Ampt equation, model parameterisation, catchment characteristic, Soil Conservation Service curve number, USA, Texas; Oklahoma; USA, Arizona; USA, Nebraska; USA, Idaho; 08665.
runoff process
chalkland, stream flow, boulder clay cover, lateral flow, field drainage system, groundwater recharge, stream head migration, UK, England; 05129. extreme flood, mountain hydrology, sediment deposition, flushing, slope morphology, hillslope hydrology, flood hazard, landslide hazard, hazard mapping, artificial reservoir, flood control, reservoir, sediment transport prediction, flow regime, 12136. industrial emission, basin sedimentation, plutonium, organic matter, Sweden, Gulf of Bothnia; 09384.
runoff production
contributing area, C band scatterometer, saturated area, temporal variation, spatial variation, remote sensing, soil moisture content, 01704. hillslope hydrology, surface runoff, hydrological pathway, subsurface flow, 11002. infiltration equation, simulated rainfall, arid area, semi arid area, soil surface deterioration, Niger; Burkina Faso; 06291. infiltration, frozen soil, variable source model, mountain basin, China, Qilian Mountains, Binggou Basin; 08687. peat covered catchment, soil water storage, catchment scale approach, water balance, hillslope hydrology, UK, England, East Anglia; Somerset Levels; 11004.
runoff quality
runoff quantity, leaching, agricultural chemical loss, subsurface drainage, runoff loss, atrazine, metolachlor, USA, Louisiana; 02950. urban runoff, rural runoff, long term simulation model, parameter estimation, runoff quantity, Germany, Northrhine-Westphalia; 07466. water quality model, SURFACE, runoff loss, hydraulic routing algorithm, alachlor, atrazine, cyanazine, edge of field runoff, herbicide, surface water quality, agricultural chemical, 09911.
runoff quantification
streamflow forecasting, water resource management, snowmelt, snowmelt-runoff, Streamflow Synthesis and Reservoir Regulation Model, India, Himalayas, Upper Yamuna Basin; 02942.
runoff quantity
leaching, agricultural chemical loss, subsurface drainage, runoff loss, atrazine, metolachlor, runoff quality, USA, Louisiana; 02950. runoff quality, urban runoff, rural runoff, long term simulation model, parameter estimation, Germany, Northrhine-Westphalia; 07466.
runoff rate
rainfall intensity threshold, soil surface, water storage capacity, rain drop impact, infiltration capacity, sandy soil, weeding, rainfall intensity, storm duration, total rainfall, Africa, Sahel, Yatenga Region; 12227. watershed response, runoff accumulation, spatial variability, runoff depth, 13317.
runoff reduction
sediment yield reduction, tree planting, channel erosion, control structure erosion, grazing management, watershed restoration, subtropical scrub zone, Pakistan; 08694.
runoff regime
afforestation, flood, return period, extreme event, landuse effect, urbanisation, runoff, stream flow, catchment characteristics, Switzerland, Emme River; Reuss Valley; 09916. snow melt, rain-on-snow event, quickflow, antecedent condition, hydrograph recession, basin runoff, suburbanisation, 00622.
runoff response
recession time, soil conservation, conservation measure, India, Rajasthan, Aravalis Hills; 00520.
runoff routing
data logger, storm hyetograph, tipping bucket rain gauge, headwater piezometer, stream flow gauging, lag time, unit area discharge, steep terrain, drainage basin, forested terrain, rainfall impulse tracking, 08673. sodium concentration, cation composition, sulphate concentration, tunnel flow, water chemistry, runoff source, semi arid basin, 10996.
runoff routing model
incompatible storm data, random effect probability model, parameter bias, hydrograph, model parameter, 00519.
runoff sampler
sampler, watershed, agricultural watershed, sediment concentration variation, erosion, soil erosion measurement, India; 09481.
runoff sediment
soil erosion, nutrient loss, enrichment ratio, nitrogen, 04034.
runoff sheet
micro basin, erosion study, semi arid zone, Tunisia; 08551.
runoff simulation
forest catchment, arable catchment, leaching, land use effect, catchment, lake, nitrate transport, Sweden; 00633. gypsum transport, gypsiferous soil, Spain, Ebro River Basin; 02779.
runoff source
semi arid basin, runoff routing, sodium concentration, cation composition, sulphate concentration, tunnel flow, water chemistry, 10996.
runoff storage
soil type, surface retention, antecedent soil moisture, separation curve, incipient runoff curve, infiltration, rainfall runoff model, point infiltration model, small basin, semi arid area, USA, Wyoming; 09792.
runoff study
environmental hydrology, pesticide transport, hydrochemical study, engineering hydrology, flood estimation, low flow research, applications research, instrument development, irrigation study, research report, Institute of Hydrology, hydrological cycle, soil physics, river basin modelling, hydrological process, climate modelling, water balance study, 08640. experimental basin, representative basin, basin study, anthropogenic impact, China; 06284.
runoff variability
climatic influence, stream flow variability, principal component analysis, spectral analysis, quick flow, base flow, rainfall variability pattern, Southern Oscillation, USA, (Southeast); Australia, (Southeast); 08666. glacier, mountain basin, stream flow gauging, ice cover, Switzerland, Alps; 08799.
runoff variation
parallel hydrometric measurement, hydrograph, snow melt, flood wave, glacier, snow cover, USSR, Pamir Mountains, Abramov Glacier; Europe, Alps, Vernagt Glacier; 08797. stage discharge measurement, suspended sediment, thermal property, sediment load, Arctic; Svalbard, Spitsbergen, Billefjorden, Ebbaelva River; Svalbard, Spitsbergen, Billefjorden, Petuniabukta River; 05245.
runoff volume
drainage basin, arid region, model calibration, model verification, channel flow, rainfall runoff model, kinematic wave routing, overland flow, soil moisture, infiltration, peak discharge, Saudi Arabia; 09810.
runoff water
overland flow, hillslope, convective dispersive solute transport, concentration hydrograph, rainfall induced runoff, solute transfer, soil solution, 06316.
runoff water chemistry
organic rich catchment, Birkenes model, dissolved organic carbon, tracer, surface water quality, acidification, 13395.
runoff water density
surface water chemistry, denitrification, plant uptake, mass balance, organic soil, nitrate depletion, riparian zone, New Zealand; 06318.
runoff water quality
acidification, surface water quality, nitrogen, precipitation chemistry, infiltration, throughfall, soil water chemistry, forest hydrology, 06391. agricultural practice, herbicide, contaminant transport, metolachlor, 04159. base flow water velocity, coastal plain watershed, sediment, surface water quality, dissolved solid, suspended solid, USA, Georgia, Tifton, Little River; 04073. on site sewage disposal, septic tank, surface water quality, estuary water quality, groundwater discharge, USA, Massachusetts, Cape Cod; 04081. sediment dynamics, watershed-lake process model, lake water quality, land use effect, water quality management, agricultural nonpoint source model, nitrogen, phosphorus, COD, temperature stratification, mixing, sedimentation, chlorophyll, 04156. surface water quality, bacterial quality, upland catchment, faecal coli-

form, overland flow, UK, England, Yorkshire Dales; 13366. through flow, deposition chemistry, acidification, soil piping, short term acidification, atmospheric deposition, aluminium concentration, soil chemistry, UK, Wales; 12195. throughfall, oxygen 18, hydrograph separation, forested watershed, isotopic separation, Mediterranean watershed, chemical separation, precipitation chemistry, France, Corsica, Solenzara, Cannone; 06285.

unoff yield
reservoir operation, river regulation, water resource management, flood forecasting, China, Fengshuba Basin; 09945. soil cracking, plot length, topography, slope, topsoil, soil characteristic, runoff generation, soil crust, 12160.

unoff yield model
infiltration, soil moisture, groundwater table, evaporation, hysteresis, consumptive wateruse, evapotranspiration, recharge, groundwater extraction, water management, irrigation water management, China; 11122.

unout distance
extreme value, value prediction, snow avalanche, avalanche runout, 13070.

unway
airport, scene, image detection, 02122.

unway visibility
turbid air, transparency meter, 07654.

upture
Pleistocene(Late), hanging wall, vertical offset, neotectonic history, geometric segmentation, Campo Grande Fault, fault, Cenozoic fill, calcrete, scarp height, USA, Texas, Hueco Basin; 11880.

upture propagation
interplate setting, geometric pattern, rupture termination, fault segmentation, active normal fault, intraplate setting, seismic hazard, USA, Nevada, Pleasant Valley; Dixie Valley; 08358.

upture termination
fault segmentation, active normal fault, intraplate setting, seismic hazard, rupture propagation, interplate setting, geometric pattern, USA, Nevada, Pleasant Valley; Dixie Valley; 08358.

ural activity
agricultural activity, landscape analysis, France, Lorraine; 11580.

ural airshed
particle bounce, trace element, aerosol, USA, Maryland; 05479.

ural appraisal
smallholder farming, food crop, GIS, crop modelling system, Papua New Guinea, Morobe Province; 08104.

ural area
corrosivity, handpump, organic waste, groundwater pollution, groundwater quality, Ivory Coast; Ghana; Mali; Niger; Burkina Faso; 06376. herbage lead levels, trend, lead decline, vegetation, deposition, UK; 13663. natural resource, GIS, land use, spatial factor, USA, California; 06920. property location, emergency situation, civic address, Canada, Nova Scotia, Queens County; 01151.

ural area addressing
computer mapping system, mile marker addressing system, USA, New Mexico; 08022.

ural area management
climatology, bioclimatology, Spain, Basque Country, Guipuzcoa; 11182.

ural catchment
mathematical model, semi arid area, rainfall runoff modelling, model applicability, soil type, topography, rainfall pattern, infiltration, soil moisture storage, rainfall spatial distribution, evaporation, groundwater recharge, urban catchment, Tunisia; 06295.

ural data
TIGER data file, census, GIS, USA; 13988.

ural development
agrarian reform, cartography, 12818. GIS, urban, Netherlands; 06936. simulation modelling, ecological planning, GIS, urban development, USA, Indiana; 01066.

ural engineering
LIS, concept, 03368.

ural industry
industrial activity, ninetenth century, county map, UK, Wales; England; 01074.

ural landscape
surface runoff, erosion, sedimentation, urban landscape, 12161.

ural landuse
landuse, agricultural mechanisation, China; 13946.

ural management
agricultural diversification, GIS, vineyard, France, Languedoc Roussillon; 10419.

ural pioneer zone
colonisation, space dynamics, Argentina, Misiones Province; 11627.

ural problem solving
school facility planning, address matching, GBF/DIME system, 08020.

ural region
urban region, alpine region, nitric oxide, pollution, photochemical smog, surface ozone, Switzerland; 06567.

ural runoff
long term simulation model, parameter estimation, runoff quantity, runoff quality, urban runoff, Germany, Northrhine-Westphalia; 07466.

ural settlement
geomorphology, spatial distribution, planning, India, Rajasthan, Barmer District; 00265.

ural site
ozone, sulphur dioxide, nitrogen dioxide, trend, USA; 13677.

ural station temperature data
warming, urbanisation, surface air temperature, 06523.

ural survey
cadastral survey, Thailand; 11648.

ural water supply
land use planning, groundwater protection, groundwater quality, groundwater resource, land use effect, USA, New York; Vermont; 00759. water resource development, water supply, potable water, urban water supply, Malaysia; 04171.

rural-urban fringe
classification, change detection, accuracy assessment, SPOT, 03476. GPS, SPOT, map revision, Canada, Ontario, Toronto; 13853.

RUSLE
USLE, erosivity map, soil erosibility, rill erosion, 13200.

rutile
podsol, chronosequence, aeolian sand, soil age, pedogenic change, weathering, post depositional weathering, scanning electron microscope, zircon, Australia, Queensland, Cooloola; 09629.

Ruzizi Plain Deposit
calcrete, ferricrete, stone line, meandering, braided river, sheetflood, pedology, climatic oscillation, Zaire, Lake Tanganyika; Burundi, Lake Tanganyika; Rwanda, Lake Tanganyika; 06106.

ryegrass
zinc, soil pool, zinc uptake, 09677.

S shaped basin
infiltration, solute transport, unsaturated zone, boundary fitted grid method, Richards equation, Fickian equation, soil moisture, hydraulic head distribution, flow velocity, capillary fringe, overland flow, 13404.

S wave measurement
lacustrine silty clay, soil S wave velocity, numerical analysis, in situ, Italy, Fucino Valley; 03782.

S(IV) oxidation
vertical transport, ion chromatography, field study, fog, aerosol, scavenging, ammonium, nitrate, sulphate, sulphur dioxide, 13658.

s-triazine
thiocarbamate, soil texture, organic matter content, sorption, herbicide, 02773.

s-triazine herbicide
lake water contamination, agricultural pollutant, atrazine, herbicide, precipitation chemistry, Switzerland, Lake Zurich; 01675.

Saale
Eem, Weichsel, Holocene, anthropogenic effect, Quaternary climate, landscape genesis, Quaternary(Upper), coast, cave, Mediterranean; 08459.

Saalian
glacial advance, glacial stratigraphy, till, melt water deposit, TL dating, Menapian age, Elsterian, Holsteinian, Denmark, Jutland; 05004. Weichselian, subglacial channel, British Geological Survey, Quaternary geology, UK Norway median line, Ferdar Formation, Cape Shore Formation, Flags Formation, Elsterian, UK, Scotland, Bressay Bank; 09563. Weichselian, till, gravel counting, correlation, ice margin, ice flow direction, Germany; 05007. Wolstonian, cold stage, type section, stratigraphy, stratotype, glaciation, Europe, (Northern); UK; 06122.

Saalian age
till, glaciofluvial sediment, Weichselian, Vennebjerg Stadial, Sandnes Interstadial, Skaerumhede Series, foraminifera, stratigraphy, Quaternary, Denmark, Kattegat, Anholt Island; 07209.

Saalian glaciation
ice advance, Main Stationary Line, Quaternary statigraphy, glacial deposit, lithostratigraphy, Elsterian glaciation, melt water sedimentation, Denmark, Jutland; 05006. ice wedge cast, synsedimentary frost crack, Warta cold sub-Stage, palaeogeographical significance, thermal contraction crack cast, outwash sand, Poland, Lodz; 00332. Zeitz phase, Leipzig phase, Treene Interglacial, Ruegen Interglacial, Drente phase, Eem interglacial, Weichsel Glacial, geology, palaeontology, palaeoecology, brown coal opencast mine, borehole, Voigtstedt warm period, Holsteinian, Germany; 02670.

Saalian ice sheet
geotechnical engineering, sub glacial sediment, sediment deformation model, geotechnical property, structural property, over consolidated clay, lacustro glacial clay, Netherlands, Groningen Province, Marum; 10772. preconsolidation load, lacustro glacial clay, consolidation history, Terzaghi theory, oedometer consolidation test, fossil overburden pressure, geotechnical data, ice sheet thickness, Netherlands, Groningen Province, Marum; 10773.

Saalian ice sheet (stage 8)
Eemian interglacial, Domnitz interglacial, Rugen (substage 7a), Fennoscandian ice sheet, ice sheet, last glaciation, Weichselian(Early) interstadial, Brorup, Odderade, Warthe glaciation, Elsterian, Norway; Sweden; Finland; 01434.

Saalian sediment
till, Holsteinian, Eemian, Kleszczow Graben, Pilica Interstadial, Younger Saalian, reforestation, Poland, Belchatow; 09579.

Saalian till
sandur, stockwerk, thrust fault imbrication, kinetostratigraphical unit, glaciodynamic structure, Main Stationary Line, Bovbjerg profile, Holsteinian marine clay, Denmark, Jutland; 00298.

sabinene
hydroxyl radical, nitrate radical, ozone, monoterpene, rate constant, camphene, 06568. terpinolene, monoterpene, nitrogen oxide, hydroxyl radical, beta pinene, d limonene, alpha pinene, 09065.

sabkha
anhydrite, gypsum, groundwater, evaporite, diagenesis, Kuwait, Al-Khiran; 07011. carbonate, anhydrite, gypsum, nodule, Devonian, Canada, Alberta; 12926. evaporite, Zechstein, Permian, Main Dolomite, dolomitisation, carbonate, Poland, Leba Elevation Area; 01281. gypsum, recharge, brine, salinity, groundwater, Egypt, Sinai, El-Shatt; Ayun Musa; 12865. Lias, Mestaoua Formation, basin, Jurassic, evaporite, 12933. organosedimentary facies, Holocene, diagenesis, organic matter, carbonate, hypersaline environment, United Arab Emirates, Abu Dhabi; 07107. sea water, lagoon, seepage channel, Saudi Arabia, Rabigh, Al-Kharrar Sabkha; 10606.

sabkha deposit
Upper Anhydrite, sulphate, periBaltic syneclise, anhydrite, Zechstein, Poland; 12931.

sabkha soil
saline soil, soil settlement, arid soil, Africa, (North); Middle East; 12084.

saccharide
biomarker, corrosion, seagrass bed, diagenesis, Australia, Victoria, Corner Inlet; 04844.

sackung
numerical modelling, toppling, Universal Distinct Element Code, block toppling, flexural toppling, landslide, Canada, British Columbia, Glacier National Park, Beaver River; 10711. runoff characteristic, infiltration, Alpine stream, peak flow, stream discharge, catchment geology, surface water groundwater exchange, aquifer recharge, Switzerland, Poschiavo, Varuna; 08693.
Sacramento Model
Stanford Watershed Model IV, Queen's University Forecasting Model, soil plant atmospheric continuum, design flood, spillway design, reservoir design, water management, hydrosystem maintenance, flood prediction, flood warning system, stochastic model, deterministic model, equatorial lake, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416.
Sadlerochit Group
unconformity, Echooka Formation, Ivishak Formation, Permian, Triassic, USA, Alaska, Brooks Range; 09396.
safe yield
groundwater development, water mining, fossil groundwater resource, drought mitigation, water resource management, Middle East, Arabian Peninsular; Africa, (North); 09929. river flow maintenance, sea water intrusion, water level decline, groundwater modelling, pumping rate, water resource management, New Zealand, Nelson, Waimea Plains; 00637. water resource utilisation, geosynclinal karst, groundwater regime modification, karst aquifer, 04169.
safety analysis
heavy gas, dispersion, wind tunnel modelling, accidental release, 13700.
safety factor
avalanche headscarp, debris avalanche initiation, slope stability, root cohesion, forested hillslope, USA, Washington, Whatcom County, Smith Creek Basin; 06031. circular failure, chalk, stability, slope, Cretaceous(Upper), carbonate slope, Israel; 03833. design approach, slope repair, embankment, widening, overconsolidated clay, shallow slope failure, limit equilibrium method, UK, England; 03735. slide repair, rock toe berm, embankment reliability, 08387.
Sag River Formation
carbonate, cement, Triassic, Jurassic, Shublik Formation, USA, Alaska, North Slope; 02443.
SAGE
ozone trend, stratosphere, preliminary assessment, aerosol, contamination effect, 11394.
SAGE II
ozone gradient, satellite, ozone comparision, pressure, temperature, radiosonde, rocketsonde, SBUV, 12545.
sagebrush
steppe landscape, caesium-137, soil erosion, semi arid region, wind driven redistribution, net erosion, USA, Wyoming; 10840.
sagebrush juniper community
runoff, sediment, burned sagebrush, USA, California, Susanville District, Eagle Lake Resource Area; 03936.
Sahara
desert environment, water abstraction, groundwater resource development, Sudan, Nubian sandstone aquifer; Egypt, Nubian sandstone aquifer; 07599.
Saharan depression
synoptic condition, depression classification, height anomaly, Africa, Sahara; 08867.
Saharan dust
aerosol, trace element, dust storm, aluminium, Mediterranean Sea; 04715. climatic change, France, Pyrenees; 03130. deposition, sulphate, rainforest, sea salt, aerosol, long range transport, precipitation chemistry, Puerto Rico, El Verde; 11311. dust, air filter sampling, aerosol, Senegal, Cape Verde, Dakar; 02490. haze, dust radiance, chlorophyll, CZCS imagery, 12567. long range transport, particle size distribution, SEM, red dust fall, Ireland, Cork; Mayo; Ireland, Galway; 00662. pollution, long range transport, dust event, synoptic vertical velocity, trajectory model, geochemical tracer, 05500. transport event, deposition, precipitation, aerosol, copper, manganese, long range transport, scavenging, Mediterranean Sea; 13733.
Saharan Platform
Devonian, ironstone, cycle, Palaeozoic, oolitic ironstone, 12962.
Saharan Sediment Slide
Quaternary(Late), mass movement, continental rise, abyssal plain, gravity core, stratigraphic analysis, coccolith species, pelagic sediment type, oxygen isotope time scale, turbidite, slide, climatic change, Africa, Sahara; 09567.
Sahel
natural vegetation, semi desert development, aerial picture, vegetation degradation, savanna, Niger; 08085.
Sahel drought
sea surface temperature, albedo change, climatic sensitivity, desert margin, glacial interglacial fluctuation, 08457.
Sahelian climate
deuterium, oxygen-18, soil characteristic, water table level, evaporation, isotopic profile, Niger, Niger Valley; 12158.
sailing direction map
Chaves rutter, geographical distortion, Bahamas; 08026.
sailplane
electric field measurement, electric charge, airplane, thunderstorm, 06447.
Saint Venant flow equation
suspended load, bedload, mobile bed modelling, sediment transport, 09819.
Sainte Anne diamicton
Becancour Till, varve, St. Pierre Sediment, Portneuf Till, deglaciation varve, Deschambault Varve, lodgement till, Canada, Quebec, Sainte-Anne-de-la-Perade; 13115.
Saiss limestone
sedimentation, carbonate, travertine, Pliocene, Pleistocene, Morocco, Saiss de Fez Basin; 01282.
Saksunarvatn ash layer
surface sediment, diatom distribution, Holocene palaeotemperature, palaeotemperature, Vedde ash layer, Iceland Sea; Greenland Sea; Norwegian Sea; 03855.
Salado Formation
Permian, fluid inclusion, brine, silicate, diagenesis, evaporite, USA, New Mexico, Delaware Basin; 10632.
salary
employment, GIS professional, USA; 10238.
Salawusu Group
sporo pollen analysis, Pleistocene(Late) deposit, second step platform, China, Nei Mongol, Ho Bao Basin; 08489.
Sale terrace
loess section, radiocarbon date, stratigraphy, paleosol, China, Sale Terrace Section; 02632.
Salem Limestone
acid rain, marble, limestone, building stone, precipitation chemistry, National Acid Precipitation Assessment Program, mineralogical characterisation, Shelburne Marble, USA; 00508. stylolitisation, pore space, diagenesis, permeability, cementation, porosity, Mississippian, USA, Indiana; 00123.
salicylic acid
cadmium reduction, ion electrode method, nitrate, transnitration, USA, Great Plains; 07409.
Salina Formation
Eocene, hydrocarbon, forearc basin, tectonic history, porosity, cement, Peru, Talara Basin; 12941.
saline
calcrete, playa, sedimentation, carbonate, clay, lake, India, Rajasthan, Jaisalmer, Pokaran; Rann; 04817. lake, Holocene, lacustrine, dolomitisation, Quaternary, 01226.
saline formation
isotope, dolomite, Triassic, carbonate, sea water, carbon isotope, oxygen isotope, China, Sichuan Province, Huaying Mountain; 07056.
saline ground water
subsidence, tilting, radiocarbon dating, subsiding, delta margin, Holocene deltaic facies, Egypt, Nile Delta; 01392.
saline groundwater
borehole analysis, hydrogeology, palynostratigraphy, aquifer characteristic, groundwater flow, Australia, Murray Basin; 05217. engineering hazard, salt weathering, 09613. groundwater intrusion, surface water groundwater interaction, surface water quality, low flow, saline pool, water table rise, Australia, Wimmera River, Victoria; 05194. groundwater seepage, barrier island, fresh water-saltwater interface, fresh water lens, transitiion zone, USA, New York, Long Island; 04121. hydrogeology, groundwater discharge, surface water quality, stratigraphy, structure, groundwater interception scheme, upward leakage, Australia, South Australia, Murray Basin; 05269. land management, Landsat MSS imagery, saline soil, hydrogeology, fault, solodised solonetz, Australia, Murray-Darling River Basin, Yelarbon; 05273. organic carbon oxidation, magnesium, isotopic evidence, hydrogeochemical process, groundwater chemistry, carbonate chemistry, calcite saturation, strontium, sulphate reduction, methane fermentation, sodium calcium ion exchange, calcite dissolution, nitrate reduction, UK, England, Lincolnshire Limestone; 11081. peatbog water, groundwater circulation, groundwater recharge, unsteady flow model, water table fluctuation, exchange rate, recharge, coastal lowland, flow model, Poland, Bielawskie Blota; 07543. tracer, chlorine-36, accelerator mass spectrometry, groundwater recharge, groundwater discharge, groundwater chemistry, Australia, Mallee Region, Murray Basin; 05237.
saline lake
brine, carbonate, mudflat, lake, Canada, British Columbia, Cariboo Plateau; 00060. hypersaline lake, isostatic uplift, sea water, lake, core, Antarctica, Vestfold Hills; 12852. lake formation, desert, India; 01667. palaeohydrology, palaeoclimate, evaporite, sedimentation, brine, playa, Canada, Saskatchewan, Ceylon Lake; 08158. playa lake, groundwater, diagenesis, glauberite, Australia, Northern Territory, Karinga Creek; 09339. stromatolite, benthic, Precambrian, stromatolite, microbial community, Australia, Western Australia, Cervantes, Lake Thetis; 01212. surface water quality, phosphorus, nitrogen, sewage effluent, El Nino/Southern Oscillation, terminal lake, lake water quality, nutrient concentration, USA, Nevada, Pyramid Lake, Truckee River; 04058.
saline lake deposit
lake basin, dinosaur, Lake T'oo'dichi', Brushy Basin Member, Jurassic, Morrison Formation, USA, Colorado Plateau; 09425.
saline pool
water table rise, saline groundwater, groundwater intrusion, surface water groundwater interaction, surface water quality, low flow, Australia, Wimmera River, Victoria; 05194.
saline sediment
bacteria, carboxylic biomarker, lake sediment, organic matter, biomarker, China, Hubei Province, Jianghan Basin; 01210.
saline seep
groundwater quality, salinity, nitrate, rangeland, terracing, wheat field, 13447.
saline seepage
land degradation, water table rise, salinisation, water resources, Australia, New South Wales, Murray-Darling Basin; 05266.
saline slug
electrical conductivity logging, in-well tracing, groundwater flow, contaminant migration, transmissive fracture, in-well flow, vertical flow, dispersion, dilution, 00594.
saline sodic soil
leaching, hydraulic conductivity, soil reclamation, salinity, Canada, Alberta; 05071. organic matter, hydraulic conductivity, leaching, 01694.
saline soil
alkaline soil, Landsat, soil reclamation, soil chemical property, Turkey, Cukurova; 12113. electrical conductivity, saturated soil extract, soil saturation extract, soil salinity, chloride ion, Iran, Great Desert; 13279. hydrogeology, fault, solodised solonetz, saline groundwater, land management, Landsat MSS imagery, Australia, Murray-Darling River Basin, Yelarbon; 05273. maritime soil, mineral content, seasonal

dynamics, USSR, Estonia; 01609. salinisation, irrigation, 12050. salinity, frost, solonetz, solonchak, Canada, Yukon Territory, Kluane National Park, Slims River Delta; 01582. soil salinity, soil amelioration, takir soil, USSR, Uzbekistan, Bukhara, Karaulbazar Massif; 13297. soil settlement, arid soil, sabkha soil, Africa, (North); Middle East; 12084.

line water

desert aquifer, recharge source, groundwater resource, groundwater recharge, groundwater circulation, Chile, Andes Mountains, Pampa del Tamarugal; 02909. desert region, fresh water, landscape indicator, groundwater resource, USSR, Caspian Sea; 02978. drainage water re-use, water conservation, water management, agricultural management practice, irrigation water quality, USA, California, Imperial Valley; 01776. fresh water, brackish water, palaeosedimentary environment, soil grain size, shallow water resource, frequency domain aeroelectromagnetic method, groundwater prospecting, China; 09923. geophysical survey method, coastal aquifer, electrical resistivity, salt water-fresh water interface, groundwater resource, Ghyben-Herzberg model, groundwater abstraction, water quality, salt water intrusion, Tanzania, Mtwara Region; 13416. groundwater discharge, surface water quality, groundwater interception scheme, groundwater river water density contrast, 05270. groundwater hydrochemistry, groundwater circulation, spring, artesian water, United Arab Emirates, Ain bu Sukhanah; 00601. groundwater quality, urbanisation, denitrification, nitrate, volatile organics, Australia, Western Australia, Swan Coastal Plain; 02926. groundwater resource, lithology, arid area, semi arid area, aquifer characteristic, sedimentary basin, Kenya; 06411. groundwater, chalk, chloride, fault, fracture, Germany, Holstein, Lagerdorf; 03613. groundwater, coastal sandy soil, silviculture, irrigation, India, Andhra Pradesh; 02812. irrigation water quality, unsaturated zone, gypsum amended soil, groundwater flow rate, preferential flow, dual water flow, piston flow, 01697. nitrite, flagellate, microplankton, suspended particle, size distribution, Atlantic, Bay of Biscay, Cantabrian Sea; 01343. soil salinisation, soil erosion, waterlogging, flooding, soil structure deterioration, Australia; 08636. strontium, barite, sandstone, Jurassic, Morrison Formation, USA, Colorado Plateau; 05936.

line water disposal

subsurface drainage effluent, land management, soil degradation, groundwater salinisation, evaporation basin, controlled outflow, dilution flow, aquifer disposal, desalinisation, root zone, saline water reuse, Australia, Murray Basin; 05264.

line water reuse

saline water disposal, subsurface drainage effluent, land management, soil degradation, groundwater salinisation, evaporation basin, controlled outflow, dilution flow, aquifer disposal, desalinisation, root zone, Australia, Murray Basin; 05264.

line-fresh water mixing

cave formation, conceptual model, karstic terrain, glaciation, USA, Appalachians; Illinois; USA, Michigan; 01412.

linisation

alkalinisation, sea level rise, irrigation, climatic change, soil attribute, 07311. alkalisation, soil, irrigated land, USSR, Kalmuk ASSR, Chernaya Zemlya Plain; 05102. climatic change, soil impact, land impact, Europe; 04012. drought, climate change, desertification, erosion, soil degradation, seif, barchan, rilling, Senegal; 09642. dryland, desert degradation, post glacial, desiccation, desertification, arid land, overgrazing, deforestation, 11937. groundwater rise, irrigation, agricultural development, subsurface geology, geological history, Australia, Murray Basin; 05262. groundwater, water table, evaporation, snowmelt, Canada, Alberta; 01583. gypsum, alkalinity, alkalinisation, Iran, Djajerud Basin; 06258. heavy metals, rehabilitation, remediation, restoration, upland stream, ecological degradation, surface water quality, catchment management, water resource management, sedimentation, nutrient leakage, Australia; 01767. irrigation, saline soil, 12050. land degradation, surface water quality, water table rise, groundwater quality, hydrogeology, aquifer, Australia, Murray Basin; 05263. matric suction profile, chloride profile, water table rise, groundwater recharge, surface water quality, land clearance, Australia, Murray Basin; 07585. remote sensing technique, crop water demand, irrigation management, water shortage, Argentina; 01138. revegetation, salinity management, groundwater management, land degradation, surface water quality, reforestation, Australia, Murray-Darling Basin; 05268. river salinity, groundwater recharge, water table rise, revegetation, land clearance, Australia, Mallee Region; River Murray; 05267. rubification, desert pavement, soil development rate, soil chronosequence, soil development rate, cold desert ecosystem, boulder weathering feature, desert varnish, spalling, pitting, Antarctica, Transantarctic Mountains; 01491. sodium, vegetation, steppe, moisture, USSR, Kestanay Oblast, Turgay Plateau; 05101. soil degradation, seepage scald, salinity, soil loss, Australia, New South Wales; 10906. soil resource, sea level rise, eustatic rise, drainage, 07272. soil salinity, salinity, Canada, Alberta, Blackspring Ridge; 04005. swamping, water conservation, arid land, radar survey, reservoir monitoring, water resource management, USSR, Kazakhstan; 12294. water resource development, environmental conservation, surface water quality, water resource, catchment degradation, flow regulation, irrigated land, GIS, soil erosion, Ethiopia, Awash River; 13465. water resources, saline seepage, land degradation, water table rise, Australia, New South Wales, Murray-Darling Basin; 05266.

linity

alkalinity, phytoplankton, zooplankton, nitrate, carbon dioxide, Gulf Stream system, carbon cycle, parcel model, mixed layer depth, Atlantic, (North); 05491. anoxia, Pliocene, Tertiary, laminated sediment, Pleistocene, climatic change, laminite, geochemistry, micropalaeontology, palaeoclimatic condition, stable isotope analysis, planktonic foraminifera, Italy, Calabria, Vrica; 00281. aquatic biological community, lake water level, biota, lake water quality, USA, Utah, Great Salt Lake; 01674. aridity, airborne salt, evapotranspiration, island hydrology, groundwater quality, Atlantic, Canary Islands; 09894. Atlantic Ocean conveyor circulation, melt water, precipitation, runoff, Laurentide Ice Sheet, Younger Dryas, climate change, last deglaciation, pack ice, Arctic Ocean; Atlantic, (North); USA, Gulf of Mexico; 08435. biota, blue green algae, water level, hydrologic characteristic, lake, USA, Utah, Great Salt Lake; 06310. bivalve, Corbicula, industry, contamination, trace element, river flow, transport process, metal load, USA, California, San Francisco Bay, Suisun Bay; Sacramento River; USA, California, San Francisco Bay, San Joaquin River; 04838. brightness temperature, microwave radiometer, waterlogging, 05719. brine, rifting, diagenesis, sedimentary basin, USA, Gulf Coast; 11771. brine, salt precipitation, hydrochemical simulation, lake water quality, equilibrant thermodynamic method, USSR, Baskunchak Lake; 11012. calcium, magnesium, estuary, trace metal, adsorption, Yugoslavia, Krka River; 11678. calibration, electromagnetic induction, rootzone salinity, 00445. cation-anion exchange, acidic water, groundwater quality, alkaline water, irrigation water quality, India, Andhra Pradesh, Mahabubnagar District, Koilsagar; 04133. coastal marsh, data record, fresh water marsh, surface water quality, salt water intrusion, USA, Louisiana; 07502. conveyor circulation, salt oscillator, glacial Atlantic, ice core, climate change, Greenland; Atlantic; 03854. current meter, radioactivity, water quality, monitoring, suspended load, Germany, River Ems, Gandersum; 05981. detritic element, gravity flow, compaction flow, Triassic aquifer, potable water, groundwater resource, aquifer hydrodynamic, geothermal energy recovery, Africa, Sahara; Algeria; Tunisia; 05212. diagenesis, kaolinite, Volksrust Formation, Permian, clay mineral, palaeoenvironment, South Africa, Orange Free Station, Bothaville; 10655. dinoflagellate cyst distribution, estuarine, shallow marine sediment, Australia; 04969. dissolved oxygen, nutrient, zooplankton, sediment, metal, NERC research programme, survey station, station measurement, temperature, North Sea; 11603. drilling mud, environmental impact, barium, suspension, China, Zhujiang Estuary; 04793. electrical conductivity, salt tolerance, plant, Australia; 02792. electrical conductivity, soil profile, recharge, groundwater discharge, saltd degraded landscape, Thailand; 12218. estuary, salt water intrusion, current velocity, 04727. flood sediment, arid region, leaching requirement, gypsum requirement, sodium adsorption ratio, infiltration characteristic, land reclamation, India; 01754. fossil, cathodoluminescence, biogenic carbonate, ontogeny, bathymetry, 07119. fresh water sea water interface, discharge, nutrient, biogeochemical process, stratification, sea water, estuary, halocline, Yugoslavia, Krka River; 11680. frontal structure, upwelling, nutrient supply, thermocline structure, mixed layer depth, currents, causative mechanism, interannual variability, marine environment, sea level, sea surface temperature, South Africa; 12341. frost, solonetz, solonchak, saline soil, Canada, Yukon Territory, Kluane National Park, Slims River Delta; 01582. groundwater salinity, palynology, salt marsh environment, vegetation, climate, Cainozoic, Australia, Murray Basin; 05239. groundwater, sabkha, gypsum, recharge, brine, Egypt, Sinai, El-Shatt; Ayun Musa; 12865. hydrochemistry, ostracode, Pleistocene, lacustrine deposit, palaeohydrochemistry, magnesium, strontium, Spain, Baza Basin; 00280. hydrologic regime, lake water quality, lake water chemistry, river regulation, self purification, USSR, Dnieper-Bug Lagoon; 00546. hydrolysis, dissociation, lake water chemistry, lake water quality, pH, USSR, Pamir, Lake Sasykkul; 00538. ion concentration, groundwater resource, groundwater hydrochemistry, spring, Saudi Arabia; 01725. irrigation development, groundwater quality, groundwater resource, hydrogeological investigation, groundwater management, Australia, South Australia, Tatiara; 05271. irrigation water management, agricultural development, land management strategy, land drainage, catchment drainage, 02953. irrigation water quality, drainage water re-use, water conservation, 01777. irrigation, sea level rise, resource management, water storage, groundwater recharge, artificial recharge, river reversal, 09927. land reclamation, magnesium chloride, groundwater quality, groundwater hydrodynamics, 02952. land salinisation, hydrogeology, fault, water table rise, basement ridge complex, Australia, New South Wales, Riverine Plain, Ivanhoe Block; 05272. Landsat TM, geology, Australia, Murray Basin; 04605. marsh, Eh, soil, reduction, sulphate, iron oxide, USA, Chesapeake Bay; Maryland, Dorchester County; 02457. marsh, strandline marker, carbon-14 dating, foraminiferal zonation, salt marsh, zonation, elevation, sea level, USA, Massachusetts, Falmouth, Great Sippewissett Salt Marsh; 10800. mathematical model, estuary, current velocity, erosion, deposition, density gradient, suspended solid, UK; 08164. Messinian sediment, heavy metals, evaporation, Tortonian, Pliocene, Cyprus, Polemi Basin; Pissouri Basin; 03618. metal, pelite, Messinian, clay mineral, Italy, Sicily, Eraclea Minoa; 01326. metal, spatial distribution, estuary, mud flat, France, Loire Estuary; 00042. mixing, acid rain, organic matter, sea water quality, carbonate dissolution, alkalinity, calcium, Baltic Sea; 04072. nitrate, rangeland, terracing, wheat field, saline seep, groundwater quality, 13447. non point source, gypsum transport, Spain, Ebro River; 08522. nutrient concentration, bacteria, eutrophication, water quality, waste water, water temperature, lagoon water, pH, Eh, Italy, Venice; 04052. nutrient level, aragonite preservation, Quaternary(Late), planktonic foraminifer fauna, pteropod preservation, equatorial, Maldives, Chagos-Laccadive Ridge; Indian Ocean; 03866. nutrient load, coastal water, phosphorus, nitrogen, Netherlands; North Sea; 01677. nutrient loading, sewage, agricultural drainage water, lake water quality, eutrophication, Egypt, Lake Manzala; 01673. oceanic environment, hydrothermal activity, nitrate pollution, groundwater chemistry, island hydrogeology, volcanic basalt, residence time, hydrochemistry, Reunion; 07547. oxygen isotope record, Southern Oscillation, coral, El Nino/Southern Oscillation event, surface water, Pacific, Tarawa Atoll; Galapagos Islands; Pacific; 11281. oxygen isotope stage 5, stable oxygen isotope stratigraphy, radiometric age, uranium/thorium method, iceberg melting, Atlantic, Fram Strait; 02606. oxygen regime, organic matter, nutrient load, water quality, reservoir hydrochemistry, Asia; 00539. phosphate, saturation, sea water, interstitial water, water column, Spain, Fuente Piedra Lagoon; 00029. Quaternary, lake, fossil diatom, diatom, salt lake, correspondence analysis, ionic composition, Bolivia, Altiplano, Laguna Ballivian; 11938. reforestation, watertable rise, deforestation, groundwater level, Australia, Western Australia, Darling Range; 07586. saline sodic soil, leaching, hydraulic conductivity, soil reclamation, Canada, Alberta; 05071. salinisation, soil salinity, Canada, Alberta, Blackspring Ridge; 04005. salt displacement, sand, sandy loam, hydraulic conductivitiy, irrigation, 08579. saturated paste, soil salinity, electrical conductivity, 07397. scald formation, seepage scald, grassland, hydrological pro-

perty, Australia, New South Wales, Yarralaw; 08638. sea level, coast, environmental change, terrestrial environment, estuary, South Africa; 10538. shallow water hydrology, flood bed, acidification, Africa, (West); 06384. sodium chloride, oxygen, polarographic method, Winkler method, sea water, Israel, Dead Sea; 07124. soil amendment, spoil deposit, soil chemical property, bentonite, mine spoil, gypsum, USA, South Dakota, Black Hills; Wyoming, Black Hills; 08591. soil loss, salinisation, soil degradation, seepage scald, Australia, New South Wales; 10906. soil salinity, intertidal gradient, sediment, salt marsh, mud flat, precipitation, evapotranspiration, Netherlands; 12140. solubility, cooling rate, solute partitioning, freezing soil, frost front, frost penetration rate, temperature gradient, clayey silt, 10809. solubility, halite, temperature, brine, Harned's rule, Middle East, Dead Sea; 04752. subarctic marsh, coastal marsh, subsurface water flux, advection, dispersion model, solute transport, chloride distribution, wetland, vertical water flux, Canada, James Bay; 09852. submarine canyon, continental shelf, shelf, density gradient, Spain, Gulf of Lyons; 11691. supercooled water, polynya, frazil ice production, ice production, wind speed, 03080. surface electrical resistivity method, groundwater exploration, electrical resistivity, coastal groundwater, fresh water-salt water transition zone, suppression effect, 04117. surface water quality, coal mining pollution, mineralisation, total dissolved solid, Poland, Silesia, Upper Vistula River; Gostynia River; Poland, Silesia, Przemsza River; 02876. temperature distribution, rain flushing, spatial variation, hydrologic regime, coastal lagoon, Mexico, Cancun, Nichupte Lagoon System; 01626. tidal range, fresh water, estuary, energy flux divergence, sand, USA, Oregon, Columbia River; 05820. topography, soil formation, leaching, salt accumulation, Israel, Negev Desert; 02810. total dissolved salts, hydrogeochemistry, surface water chemistry, Africa; 01683. turbidity, fresh water seawater interface, surface water quality, hydrocarbon transport, hydrocarbon fate, particulate phase, organic contaminant, dissolved phase, suspended matter, particle partitioning, France, Rhone River; China, Huanghe River; China, Changjiang River; 08738. Van Genuichen model, soil water retention, water diffusivity, hydraulic conductivity, Philips sorptivity, sodium adsorption ratio, soil swelling, soil hydraulic property, loam soil, 09843. voids ratio, flocculation, seabed sediment, permeability, compaction, Indian Ocean, Mauritius; 01191. water erosion, wind erosion, permafrost, grazing land, climate warming, arid region soil, soil crusting, 07314. water mass, sea ice anomaly, climate cycle, Labrador Sea; Greenland Sea; 13633. water table elevation, reforestation, groundwater level, Australia, Western Australia, Darling Range; 02959. water transmissivity, solute transport, groundwater flow, environmental tracer, model calibration, aquitard storage, storage coefficient, hydrodynamic model, storage effect, hydraulic head, France, Paris Basin, Dogger Aquifer; 09855.

salinity anomaly
thermohaline circulation, oceanic freshwater transport, last glacial maximum, freshwater transport, atmospheric model, sea surface temperature, global water budget, Atlantic; 02604.

salinity change
isotopic composition, residence time, evaporation, water exchange, sea river interaction, mixing zone, surface water quality, oxygen isotope, salt exchange, Arctic Ocean; USSR, Caspian Sea; 07505. melt water pulse, deglaciation record, Younger Dryas event, Globigerinoides ruber, Neogloboquadrina pachyderma, surface water temperature, Pacific, (Western); 08452.

salinity crisis
celestite, Messinian, evaporite, clay, diatomite, Italy, Puglia; 03617. evaporite, Miocene, Pliocene, transgression, ooze, foraminifera, Messinian, Tyrrhenian Sea; 00148. sea water, evaporite, gypsum, Messinian, isotopic ratio, brine, Mediterranean Sea, Nile River; Tyrrhenian Sea; 00137.

salinity difference
air sea interaction, ocean mixing, exchange, Mediterranean Sea; Mediterranean, Strait of Gibraltar; 12388.

salinity distibution
oxygen distribution, nutrient distribution, circulation, hydrographic field, temperature distribution, Atlantic, (North); 10648.

salinity driven oscillator
salt oscillator, glacial Atlantic, scale analysis model, thermohaline circulation, melting rate, Younger Dryas event, salinity flux, continental ice volume, oscillator feasibility, Atlantic; 08441.

salinity estimation
soil salinity, disjunctive kriging, Israel, Bet Shean Valley; 02793.

salinity flux
continental ice volume, oscillator feasibility, salinity driven oscillator, salt oscillator, glacial Atlantic, scale analysis model, thermohaline circulation, melting rate, Younger Dryas event, Atlantic; 08441.

salinity forcing
ocean model, inter basin transport, heat transport, 08894.

salinity front
density front, tidal motion, coastal water, inshore offshore waters interface, offshore near surface flux, inshore flux, fresh water salt water interface, France; UK, England, Dover Strait; 05197.

salinity gradient
organic matter, methanogenesis, carbon cycling, freshwater, macrophyte, plant, USA, North Carolina, White Oak River Estuary; 03538. wind stress, cadmium, oxidation, tidal river, metal pollution, surface water quality, marine sediment, fluvial sediment, suspended particulate matter, sediment chemistry, estuary, mixing, Germany, Elbe River; 08757.

salinity history
last deglaciation, Younger Dryas, melt water, conveyor circulation, deep water formation, Atlantic, (North); 03856.

salinity intrusion length
riverflow data, river regulation, channel morphology, carbon budget, sediment budget, estuary, historical change, numerical flow model, mixing, stratification, tidal forcing, USA, Washington, Columbia River; 10965.

salinity level
turbidity maximum zone, particle microstructure, suspended solid, carbon, iron, manganese, estuarine variability, surface water chemistry, UK, England, Humber Estuary; Mersey Estuary; UK, England, Tamar Estuary; Germany, Elbe Estuary; 08753.

salinity lowering
melt water injection, deglacial oscillation, climatic oscillation, accelerator radiocarbon dating, Deep Sea Drilling Project Site 480, Younger Dryas event, glacial forcing, atmospheric teleconnection, USA, Gulf of California; 08454.

salinity management
groundwater management, land degradation, surface water quality, reforestation, salinisation, revegetation, Australia, Murray-Darling Basin; 05268. river basin, evaporation pond, water quality management, irrigation water quality, reservoir, Iran, Shapur River; Dalaki River; 11106.

salinity model
electrical conductivity, pH calculation, sodium adsorption ratio, exchangeable sodium percentage, Australia, Murray Basin; 09736.

salinity prediction
soil salinity, groundwater salinity, watertable depth, land drainage, leaching efficiency, SALTMOD, irrigation water management, Egypt, Nile Delta. Zagazig, Mashtul; 11107.

salinity profile
bathythermograph profile, geoid, temperature profile, Geosat, altimetry, Atlantic, Cape Hatteras, Gulf Stream; USA, Cape Hatteras; 06727.

salinity reduction
deglaciation onset, North Atlantic Deep Water, Erie Interstade, ice retreat initiation, last deglaciation, radiocarbon dating, melt water, oxygen isotope analyses, Fennoscandia; 08465.

salinity status
salt movement, irrigated soil, electrical conductivity, Australia, Queensland; 07387.

salinity stress
heavy metal, pollution, polychaete, bioavailability, India, Bombay, Thane Creek; 12909.

Salmon Lake glacial unit
relative age data, Stewart River glacial unit, relative dating, moraine, boulder weathering, moraine morphometrics, glacial advance, USA, Alaska, Kigluaik Mountains; 04993.

Salmonella
chemical mutagen, industrial waste, river water quality, fish population, PAH, USA, West Virginia, Kanawha River; 08198.

salmonid community
temperature relation, climate change, post glacial colonisation, warming, Canada, Labrador; Quebec; 12487.

Salpausselka I moraine
delta, glacial lake, sedimentation, ice sheet, glaciolacustrine, meltwater stream, Finland, Salpausselka Moraines; 00108.

salt
deflation, solonchak, soil blowing, USSR, Balkhash Alakul Depression; 10850. general circulation model, ocean circulation, water vapour transport, 10030. heterogeneous production, smog chamber, sea spray, aerosol, chlorine, 06631. marine aerosol, aerosol, vertical profile, rain, sea salt aerosol, 09024. pollutant migration, biogeochemical cycle, industrial waste, groundwater quality, cyanide, 07553. Prairie Evaporite, Devonian, reef, carbonate, Winnipegosis Formation, Canada, Saskatchewan; 07051. road deicing, nitric acid, sodium chloride, particle, annular denuder, hydrpchlonic acid, 06559. trona, crust, efflorescence, soil, Peru, Jequetepeque Valley; 12864. water mixing, connate water, groundwater chemistry, shallow groundwater, water chemistry evolution, silicate mineral, India, Tamil Nadu, Tinneveli District; 09895.

salt accumulation
basalt, weathering, temperate marine environment, basalt cliff, tafoni, honeycomb weathering, micro crack, olivine, UK, Northern Ireland, Antrim; 01483. delta, sedimentation, calcrete, carbonate, silica, basin, Botswana, Okavango Delta; 05831. lake water chemistry, hypogene process, epigene process, ionic ratio, chloride, surface evaporation, isotopic ratio, sediment leachate, brine, Kenya, Lake Magadi; Tanzania, Lake Natron; 09822. palaeobasin, stratification, carbonate, Cambrian, USSR, Siberia; 12934. salinity, topography, soil formation, leaching, Israel, Negev Desert; 02810. soil salinity, irrigation water, 09669.

salt addition
sulphate retention, Spodosol, sulphate, forest soil, acid addition, USA, Maine; Illinois; 12076.

salt balance
estuary flow model, irrigation wateruse, water resource management, salt water intrusion, withdrawal rate, Bangladesh, Meghna Delta; 11029. mountainous terrain, downstream hydrology, hydrological effect, reservoir, mountain plain ecology, environmental impact, channel shape, sediment accumulation, groundwater regime, China, Haihe River; 08647.

salt blowing
soil salinisatioon, salt exchange, Aral Sea; 10953.

salt chemistry
Holocene(Middle), salt lake, Mongolia, Inner Mongolia, Jilantai Salt-Lake; 06166.

salt content
acid rain, meteorological condition, chemical composition, precipitation, USSR; 11391.

salt crust
halite, brine, spring, gypsum, Quaternary, Bolivia, Altiplano, Uyuni; Coipasa; 12863.

salt crystallization
microscale feature, weathering product, cavernous weathering, cliff retreat, geomorphological study, recent morphodynamic, arid-morphodynamic process, terrace-sediment, hydration-dehydration, Israel, Sinai Desert; Egypt, Negev Desert; 02497.

salt deposition
chemical model, masonry, weathering, acid rain, limestone, building facade, calcium carbonate, 00350.

salt dilution method
dilution gauging, stream gauging, flow meter, fluorescence dye tracer, flow measurement, 08670.

salt displacement
sand, sandy loam, hydraulic conductivitiy, irrigation, salinity, 08579.
salt dome
diapir, anhydrite, dewatering, USA, Texas, Hockley Dome; Louisiana, Winnfield Salt Dome; 03611. dissolution, groundwater, cap rock strata, subrosion, collapse breccia, 03610.
salt exchange
salinity change, isotopic composition, residence time, evaporation, water exchange, sea river interaction, mixing zone, surface water quality, oxygen isotope, Arctic Ocean; USSR, Caspian Sea; 07505. salt blowing, soil salinisatioon, Aral Sea; 10953.
salt impaction
coastal location, grapevine, vegetation, dust gauge, Australia; 12576.
salt impurity
dielectric profiling, ice core investigation, sulphuric acid, Antarctica, Dolleman Island; 01749.
salt intrusion
surge, global warming, sea level, flooding, Maldives; India; Bangladesh; 03902.
salt lake
AVHRR, evaporation rate, groundwater flow, Australia, South Australia, Lake Eyre; 10382. correspondence analysis, ionic composition, salinity, Quaternary, lake, fossil diatom, diatom, Bolivia, Altiplano, Laguna Ballivian; 11938. evaporite, arid weather, enrichment, mineralisation element, clay mineral, China; 10657. lake, China, Inner Mongolian Plateau; 11686. playa, gypsum, Quaternary, aridity, dunefield, groundwater, Australia, Northern Territory, Lake Amadeus; 11661. salt chemistry, Holocene(Middle), Mongolia, Inner Mongolia, Jilantai Salt-Lake; 06166. steppe vegetation, savanna grassland, lake level decline, seasonal climatic change, India, Thar Desert; 06108. trace metal, hypersaline, lake, mining, groundwater, Australia, Victoria; Western Australia; 00036.
salt lake basin
evaporite, carbonate pedogenesis, aeolian dune, uranium series date, dune stabilisation, Strzelecki dunefield, hyperaridity, uranium series, dating, lake, dune, hydrological cycle, Australia; 13106.
salt lake core
sediment input, playa condition, AMS dating, radiocarbon dating, arid environment, radiocarbon technique, chemical pretreatment, Australia, South Australia, Eyre Lake; 13107.
salt marsh
accretion, tidal flat, estuary, sediment budget, erosion, UK, England, Kent, Medway Estuary; 00040. Devensian(Late), Holocene, stratigraphy, radiocarbon dating, palaeoecology, pollen assemblage, Loch Lomond Stadial, elm decline, UK, England, Severnside; Vale of Gordano; 07264. estuary, carbon, nitrogen, phosphorus, ecosystem, USA, South Carolina, North Inlet, Bly Creek; 11677. estuary, stratification, peat, tidal flat, suspended sediment, sediment budget, mudflat, UK, Severn Estuary; 04734. fresh water, tidal range, submergence, sediment budget, sediment load, estuary, USA, Pennsylvania, Philadelphia; Philadelphia, Delaware River; 06981. land reclamation, wetland, tidal lagoon, delta, river regime, France, Arcachon Bay, Leyre River; 09346. macrotidal, estuary, sand, mudflat, megaripple, Canada, Bay of Fundy, Cobequid Bay; Salmon River Estuary; 02325. mud flat, precipitation, evapotranspiration, salinity, soil salinity, intertidal gradient, sediment, Netherlands; 12140. organic matter, estuary, pollutant, anthropogenic metal, mud flat, UK, England, Severn Estuary, Tites Point; 09383. oxygen, sediment metabolism, respiration, macropore, soil aeration, USA, Massachusetts, Belle Isle Marsh; 05953. oyster reef, tidal creek, estuary, phosphorus, USA, South Carolina, North Inlet, Bly Creek Basin; 12855. pyrite, sulphate, estuary, tidal, Spartina spp, China, Huanghe River; 03544. sediment supply, vegetation, sea level rise, 10532. solute transport, marshland, tidal marsh, groundwater, discharge, pore water chemistry, 04120. sulphur, dimethyl sulfide, methane thiol, carbonyl sulfide, emission, biogenic sulphur emission, USA, New Hampshire; 04427. sulphur, humic substance, iron, marsh sediment, organic matter, USA, Delaware; 10642. tidal flat deposit, coastal progradation, coastal lowland vulnerability, land subsidence, groundwater withdrawal, sediment supply, China, Shanghai, Yangtze Coastal Plain; 06064. zonation, elevation, sea level, salinity, marsh, strandline marker, carbon-14 dating, foraminiferal zonation, USA, Massachusetts, Falmouth, Great Sippewissett Salt Marsh; 10800.
salt marsh environment
vegetation, climate, Cainozoic, salinity, groundwater salinity, palynology, Australia, Murray Basin; 05239.
salt marsh sediment
dam, tide level, flooding, subsidence, Netherlands, Eastern Scheldt; 00041. organic matter, macrophyte, algae, bacteria, bioturbation, USA, South Carolina, Georgetown; 02436. plant, Spartina, oxygen, rhizosphere, iron hydroxide, pore water, rhizoconcretion, Portugal, Tagus Estuary; 04842.
salt marsh soil
ammonium, nitrate, denitrification, dinitrogen, nitrous oxide, emission, entrapment, 13639. seasonal sulphur variation, soil fractionation, acid volatile sulphide, hydrogen chloride soluble sulphur, elemental sulphur, pyrite sulphur, ester sulphate sulphur, carbon bonded sulphur, USA, Louisiana; 10931.
salt migration
Volobuyev equation, 09668.
salt movement
irrigated soil, electrical conductivity, salinity status, Australia, Queensland; 07387.
salt oscillator
glacial Atlantic, ice core, climate change, salinity, conveyor circulation, Greenland; Atlantic; 03854. glacial Atlantic, scale analysis model, thermohaline circulation, melting rate, Younger Dryas event, salinity flux, continental ice volume, oscillator feasibility, salinity driven oscillator, Atlantic; 08441.
salt pan
playa, brine, water chemistry, evaporite, basin, core, USA, California, Bristol Dry Lake Basin; 11735.
salt playa lake
chemical evolution, palynology, groundwater salinity, groundwater chemistry, brine pool, Australia, Victoria, Tresco; 05238.
salt pond
bacteria, lactone, sterol, hopane, phytanyl thiophene, isoprenoid, evaporite, Spain, Alacante, Santa Pola; 07098. suspended particle, lipid, particulate matter, sterol, fatty acid, anoxic pond, 06970. water depth, aragonite, gypsum, halite, evaporite basin, Netherlands Antilles, Bonaire; 01228.
salt precipitation
hydrochemical simulation, lake water quality, equilibrant thermodynamic method, salinity, brine, USSR, Baskunchak Lake; 11012. soil salinisation, water quality effect, irrigation, Alfalfa, Williams loam, Barnes loam, Svea loam, Parshall loam, saturation percentage, sodium adsorption ratio, electrical conductivity, USA, Great Plains; 10856.
salt problem
microbial turnover, anaerobiosis, climatic change, soil problem, alluvial domain, global climatic change, 07312.
salt rejection
ice lensing, soil deformation, solute rejection, freezing soil, dissolved compound, 08506.
salt solution series
equivalent salt solution series, sodium absorption ratio, electrolyte concentration, clay swelling, Australia, Tasmania; USA; 09737.
salt tolerance
plant, salinity, electrical conductivity, Australia; 02792.
salt tracer dilution
current meter, stage discharge relationship, dilution gauging, irregular channel geometry, microcomputer system, discharge measurement, stream flow, turbulent stream, 08668.
salt type
precipitation, bromine, chloride, potassium, magnesium, Poland, Puck Gulf; 12932.
salt water displacement
dispersivity, geochemical mixing cell model, water displacement, Gapon selectivity, ion chromatography, multicomponent transport modelling, transport model, fresh water salt water interface, groundwater chemistry, 12255.
salt water dynamics
confining layer, leakage, groundwater flow, interface model, fresh water-salt water interface, coastal aquifer, USA, California, Santa Cruz County, Soquel-Aptos Basin; 04123.
salt water encroachment
flooding, groundwater resource management, water abstraction, resource over exploitation, physical model, land subsidence, Thailand, Bangkok; 07591.
salt water environment
geostatistical technique, surface water quality, estuary, polluted stream, bay, dissolved oxygen, Italy, Taranto, Mar Piccolo; 07495.
salt water intrusion
carbonate dissolution, geochemistry, groundwater quality, aquifer characteristic, confined aquifer, sulphate reduction, chloride concentration, unconfined aquifer, USA, Alabama; South Carolina; USA, Florida, Floridan Aquifer System; USA, Georgia; 01733. chemical adsorption, factor analysis, hydrogeochemical study, coastal aquifer, groundwater quality, Spain, Alicante, Javea; 07558. coastal aquifer, fresh water-salt water interface, dispersion, Galerkin's method, molecular diffusion, 04118. concentration profile, mixing zone, convection dispersion equation, groundwater quality, transverse dispersivity, fresh water salt water interface, groundwater flow, dispersivity, coastal aquifer, 09902. current velocity, salinity, estuary, 04727. dispersion, equiconcentration, equipotential line, 2D-FED model, sea water encroachment model, groundwater flow, coastal aquifer, leaky aquifer, 05226. fracturing, island hydrogeology, coastal aquifer, remote sensing, hydrogeology, groundwater exploration, New Caledonia; 07609. fresh water salt water interface, fresh water lens, coastal aquifer, sharp interface model, Guam; 05220. freshwater lens, groundwater flow model, potable water demand, island hydrology, groundwater resource, Pacific, Nauru Island; 02973. groundwater, aquifer, cation exchange, 05971. phreatic aquifer, impermeable layer, hydrodynamic dispersion model, groundwater pollution, 06346. saline water, geophysical survey method, coastal aquifer, electrical resistivity, salt water-fresh water interface, groundwater resource, Ghyben-Herzberg model, groundwater abstraction, water quality, Tanzania, Mtwara Region; 13416. salinity, coastal marsh, data record, fresh water marsh, surface water quality, USA, Louisiana; 07502. sea sand, heavy metal, groundwater quality, infiltration, road construction, sodium, ion exchange, redox reaction, oxidation, 07550. two phase flow, coupled inverse problem, groundwater modelling, sensitivity analysis, parameter identification, flow mass transport, flow heat transport, 08774. withdrawal rate, salt balance, estuary flow model, irrigation wateruse, water resource management, Bangladesh, Meghna Delta; 11029.
salt water system
phosphorus immobilisation, phosphorus, sediment loading, surface water quality, phosphorus release, eutrophication, fresh water system, 00555.
salt water-fresh water interface
groundwater resource, Ghyben-Herzberg model, groundwater abstraction, water quality, salt water intrusion, saline water, geophysical survey method, coastal aquifer, electrical resistivity, Tanzania, Mtwara Region; 13416.
salt weathering
chalk, experimental weathering, frost weathering, freeze thaw, phase change, 03925. chalk, frost weathering, freeze thaw, experiment, 06195. frost weathering, notch formation, cliff instability, pumice flow, slope instability, Japan, Asama Volcano; 13062. saline groundwater, engineering hazard, 09613. sandblast erosion test, physical characterisation, chalk, standardised procedure, abrasion, Channel Tunnel, 04913. wetting-drying, tafoni weathering, statistical analysis, sandstone, model, Spain, Ebro Basin, Barbastro Anticline; 02708.
salt wedge
estuary, suspended matter, organic matter, bank erosion, sediment source, pollutant, natural tracer, Germany, Elbe Estuary; 03542.

salt-wedge
shoaling, discharge, channel, tide, estuary, Canada, British Columbia, Fraser River; 02324.
saltating material
dune field, high resolution, topography, albedo, layered deposit, photoclinometric technique, Mariner 9 image, weathering rind, Mars; 03718.
saltation
aeolian process, bed roughness element, shear stress, 06951. boundary level, wind tunnel experiment, erosion, threshold entrainment, 05796. decoupling, beach-dune complex, aeolian transport, trap, USA, California, Monterey Bay; 12834. particle size, bottom sediment, current, sedimentation, Bering Sea; 05850. pattern, wavelength, ripple, bedform, 04714. snow, wind transport, atmospheric shear force, aerodynamic roughness height, transport rate, friction velocity, 04147. suspension, aeolian transport, snow, desertification, wind speed, surface creep, 05794. suspension, particle size, similarity criteria, wind speed, 05795.
saltation mechanics
velocity distribution, sediment concentration, grain size interaction, sediment transport, graded sand, non uniform sediment, graded sediment, boundary effect, 05175.
saltation model
lift-up model, particulate matter, suspension, diffusion, detachment model, 01991.
saltd degraded landscape
salinity, electrical conductivity, soil profile, recharge, groundwater discharge, Thailand; 12218.
saltern
microbe, petee, tepee, reef, crust, sedimentary structure, 04750.
saltgrass
sodium adsorption ratio, soil chemical property, landform position, sodic soil, soil taxonomy, soil water regime, USA, North Dakota; 12101.
SALTMOD
irrigation water management, salinity prediction, soil salinity, groundwater salinity, watertable depth, land drainage, leaching efficiency, Egypt, Nile Delta, Zagazig, Mashtul; 11107.
saltwater intrusion
coastal aquifer, freshwater-saltwater interface model, dispersion model, transition zone, groundwater level, tide, Japan, Gogo Island; 02912. saltwater-freshwater interface, transition zone, hydrodynamic dispersion, saltwater upconing, groundwater quality, 02911.
saltwater upconing
groundwater quality, saltwater intrusion, saltwater-freshwater interface, transition zone, hydrodynamic dispersion, 02911.
saltwater-freshwater interface
transition zone, hydrodynamic dispersion, saltwater upconing, groundwater quality, saltwater intrusion, 02911.
Saltwick Formation
Aspelintoppen Formation, Jurassic, continental shelf, Ness Formation, cut-and-fill, reservoir parameter, Atlantic, Norwegian Shelf; 04808.
salvage harvest
harvest, thunderstorm, satellite imagery, hail damage assessment, Canada, Ontario, Algonquin; 09250.
Salyut 6
relief form, palaeogeography, geographical landscape, photo montage, Iraq; 06846.
Sambe Ohirayama pyroclastic flow
bedrock topography, transgression, sea level, geomorphological development, alluvial plain, microrelief, deltaic plain, stratigraphy, tephrochronology, Tatara, Aira Tn ash, tephra, Hikawa Formation, postglacial transgression, Kandogawa Formation, Japan, Izumo Plain; 08350.
sample
international collaborative study, radiocarbon dating, design, preparation, 02583. stochastically classified, discriminant analysis, 02118. survey analysis, GIS, 13810.
sample age
Quaternary, archaeological sample, carbon-14 radioactivity, radiocarbon measurement, Czechoslovakia; 13080.
sample changing
computer control system, carbon dioxide source, radiocarbon dating, accelerator mass spectrometry, sputter source, 02572.
sample collection
trace element, sampling method, surface water, water quality analysis, major ion, alkalinity, electrical conductivity, New Zealand; 13356.
sample generation method
thematic map accuracy, land use mapping, GIS database, USA, Florida; 08081.
sample packing
smectite, TGA, calcium, montmorillonite, sample size, 03682.
sample preparation
intercomparison exercise, radiocarbon dating, international collaborative study, 04937. mounting, ferromanganese nodule, rock polishing, 03684. organic material, carbon-14 preparation, radiocarbon dating, 02570.
sample preparation method
ion analysis, soil analysis, nutrient concentration, soil fertility, 07407.
sample pretreatment
radiocarbon dating, interim progress report, international collaborative program, participating laboratory, 02584.
sample processing
plant remains, sediment identification method, fabric, 09556.
sample series
lag, power spectra analysis, 08822.
sample size
carbon pool, exchangeable cation pool, element pool, soil property, soil nutrient pool, bootstrap method, USA, New Hampshire; 08603. sample packing, smectite, TGA, calcium, montmorillonite, 03682.
sample size requirement
leachate chemistry, tension lysimeter, pan lysimeter, groundwater quality, lysimeter, soil water chemistry, USA, Pennsylvania, Pea Vine Hill; 01731.
sample spacing
kriging, soil sampling, spoil physicochemistry, mine spoil, geostatistical technique, USA, Montana; 13270.
sample storage
stability, precipitation, acid deposition, pH, ammonium, nitrate, acidity, deposition, trace metal, acid rain, 12512. water sample, volatile organic compound, water quality analysis, organic compound, sample transport, 07443.
sample technique
landuse planning, groundwater protection, water management, point source pollution, sampling frequency, groundwater quality monitoring, site specific monitoring, automatic data acquisition system, monitoring network, Czechoslovakia; 12253.
sample transport
sample storage, water sample, volatile organic compound, water quality analysis, organic compound, 07443.
sample variation
exchangeable cation, forest soil, soil sampling, soil chemical property, cation exchange capacity, USA, Minnesota; Wisconsin; USA, Michigan; 13258.
sampler
atmospheric deposition, siting criteria, wet deposition, 07457. grab sampler, Shipek, sediment sampler, HORS, Caribbean Sea; 08311. watershed, agricultural watershed, sediment concentration variation, erosion, soil erosion measurement, runoff sampler, India; 09481.
sampler geometry
vacuum, porous cup sampler, cup conductance, groundwater contamination, soil, pore water, unsaturated soil, cup property, 04131.
sampling
aerosol sampler, visibility, air quality, 03231. aerosol, carbon, aethalometer, 00936. aerosol, carbon, ozone, USA, California; 02061. aerosol, carbon, particle deposition, Teflon filter, Fourier transform infrared spectroscopy, 00938. aerosol, denuder-filter pack, thermodenuder, wet denuder, ammonia, nitric acid, hydrochloric acid, ammonium, nitrate, chloride, sulphate, 03183. aerosol, particulate, ion chromatography, annular diffusion denuder, pollution, 03184. air quality, nitrogen dioxide, sodium hydroxide, hydrogen peroxide, lead dioxide, nitrate carbon paste coated-wire electrode, 03194. air quality, pollution, total suspended particulate, dust, sulphur dioxide, nitrogen dioxide, Poland, Lublin Coal Basin; 04452. air quality, pollution, toxicity, photoacoustic detection, 03189. air quality, sulphur dioxide, 03188. arsine, ultraviolet radiation, potassium permanganate, potassium permanganated silicagel solid adsorption, atomic absorption spectrometry, ozone, 03159. carbonaceous aerosol, aerosol, carbon, filtration, compaction, adsorption corrected filtration, USA, California, Los Angeles; 02062. carbonaceous aerosol, intercomparison, organic carbon, elemental carbon, woodsmoke, aerosol, USA, California, Claremont; 02057. carbonaceous species, particulate, wood burning, aerosol, USA, California; 02059. carcinogenic aerosol, aerosol, Germany; 03166. chemical analysis, pollution, wood stove, boiler, organic micropollutant, PAH, tar, intercalibration, combustion, biomass, Sweden; Norway; Finland; Denmark; 00811. chemical data, precipitation collector, mist collector, occult collector, 05319. chimney stack, pollution, calibration, impactor, aerosol, particle, 00682. combustion, nitrous oxide, emission, fossil fuel combustion, 03237. cryogenic trapping, trace gas, gas chromatography, flame ionisation, photo ionisation, carbonyl compound, oxygenated hydrocarbon, 03211. deposition, tree canopy, forest, rainfall, sodium, acidic deposition, Brazil, Rio de Janeiro; 00865. diffusion scrubber, formaldehyde, hydrogen peroxide, particle, USA, California; 02055. dimethylsulphide, sulphur dioxide, aerosol ion, marine atmosphere, methanesulphonate, non-sea salt sulphate, marine aerosol, Australia; Southern Ocean; 02015. emission, pollution, air quality monitoring, 04448. estuary, tracer, nutrient budget, material transport, water exchange, hydrodynamical distribution model, material budget estimate, Baltic Sea; 01628. formaldehyde, acetaldehyde, carbonaceous species, hydrazone, liquid chromatography, laser absorption spectroscopy, Fourier transform infrared spectroscopy, USA, California; 02050. Fourier transform infrared analysis, aerosol, ammonium, nitrate, aliphatic carbon, carbonyl group, sulphate, carbon, 00937. gas chromatography-mass spectrometry, pollution, volatile organic pollutant, thermodesorption, amines, U. dimethylhydrazine, 03270. glass impactor, annular denuder, filter pack, sulphate, particulate, 00681. groundwater monitoring, water contamination, sewer leak, sewage, 11061. groundwater resource, management, groundwater over-exploitation, carbon isotope analysis, Indonesia, Jakarta Basin Aquifer; 04167. hydrogen peroxide, formaldehyde, ozone, diurnal variation, photochemical smog, annular denuder, titanium (IV) sulphate, dinitrophenylhydrazine, eugenol, spectrophotometry, liquid chromatography, 03164. hydrogen peroxide, formaldehyde, p-hydroxyphenylacetic acid, USA, California, Glendora; 02051. hydrogen peroxide, impinger, diffusion scrubber, nitrogen oxide, ozone, USA, California; 02054. hydrogen peroxide, sulphur dioxide, convective storm, boundary layer, mixing process, 04354. hydroxyl, hydrocarbon, nonmethane hydrocarbon, urban plume, turbulent transport, 03234. industrial planning, regulatory purpose, air quality, Australia, Latrobe Valley; 03254. intercomparison, electron capture gas chromatography, cryogenically enriched sample, ambient air, peroxy acetyl nitrate, nitrogen dioxide, nitric acid, 04365. ion chromatography, Fourier transform infrared spectrometry, aerosol, carbonaceous species, sulphate, 02056. isokinetic sampling system, fly ash, gravimetric method, beta ray, dust, stack gas, pollution, 03192. kasten core barrel, core, sea bed, box corer, 01360. laser-photolysis fragment-fluorescence, nitric acid, laser detection method, 03214. magnetic filtration, paramagnetic dust, particle, cupric oxide, 00683. microparticle, chlorine, iron, zirconium, copper, sulphur, bromine, zinc, titanium, nickel, strontium, stratospheric particle, balloon-borne collector, particle, 03201. motor vehicle emission, PAH, urban street dust, capillary gas chromatography, sulphur heterocyclics, pollution, Japan, Tokyo; 03251. motor vehicle pollution, lead particle, car exhaust, urban environment, France, Paris; 03267. nitrate, aerosol, ammonia, acidity, Netherlands; 03172. nitric acid, hydrogen peroxide, ozone, photolysis-chemiluminescence instrument, tunable diode laser absorption spectrometer, Luminox, peroxyacetyl nitrate, n-propyl

nitrate, nitrogen dioxide, 01804. nitric acid, particulate, transition-flow reactor, carbonaceous species, sulphate, 02049. nitrogen dioxide, ozone, passive sampler, chemiluminescence, sulphur dioxide, 03187. organochloride pesticide, polyurethane foam, hexachlorocyclohexane, pesticide, 03190. ozone profile, lidar, electrochemical, concentration cell, balloon sonde, rocket ozonesonde, stratospheric aerosol, satellite measurement, 04363. particulate carbon, carbon, thermal oxidation, aerosols, flame ionisation detector, carbonate, manganese dioxide, 02058. pollution, sulphate, particle, rotary inertial impactor, nitrate, friction velocity, ozone, USA, California, Los Angeles; 02048. pore water, photosynthesis, nutrient, phosphorus, nitrogen, 04874. quartz fiber filter, polychlorinated dibenzo-p-dioxin, polychlorinated dibensofuran, PCBs, gas chromatography, pollution, particle, 00842. rain water, ion chromatography, chloride, nitrate, sulphate, sodium, potassium, ammonium, anion, organic acid, cation, aerosol, precipitation chemistry, 03186. sediment transport, sorption, hydrophobic material, particle size distribution, mineral composition, electrophoretic mobility, water quality analysis, contaminant transport, colloid, surface water quality, USA, Missouri, St Louis, Mississippi River; 07501. soil gas, radon, indoor pollution, alpha-scintillometer, USA, Maryland, Prince Georges County; 00840. sorbent cartridge sampling, gas chromatography/mass spectrometry, air monitoring strategy, personal exposure, volatile organic compound, indoor pollution, air quality monitoring, USA, California, Los Angeles County; 03217. submersible, deep sea work, BIOCYAN, sea floor, carbon flux, France, Bay of Biscay; 05980. sulphate, calcium, iron, magnesium, potassium, nickel, lead, zinc, cadmium, chromium, aerosol, heavy metals, particle, Spain, Valladolid; 03179. sulphuric acid, calibration, active scattering spectrometer probe, refractive index, stratospheric aerosol, aerosol, 03195. suspended material, sediment trap, settling tube, Canada, Lake Ontario; Lake St. Clair; 05977. test result, weak rock, engineering behaviour, Brazil; 10700. thermal optical, photo acoustic, carbonaceous aerosol, aerosol, elemental carbon, 04432. trichlorofluoromethane, dichlorodifluoromethane, dichlorofluoromethane, volcanic gas, volatile organic compound, solfataric gas, carbon tetrachloride, methylchloroform, ozone depletion, 02014. trophic state, water quality monitoring, lake water quality, 02865. tunable diode laser absorption spectroscopy, carbonaceous species, diurnal variation, hydrogen peroxide, formaldehyde, USA, California, Glendora; 02052. urban air, organic acid, alkaline trap, formaldehyde, acetaldehyde, formic acid, acetic acid, aldehyde, peroxyacetyl nitrate, USA, California; 03218. video camera, soft bottom sediment, coring, 12997. volatile organic compound, contaminated soil, 01581. wind tunnel, aerosol, particle, 03203.

sampling algorithm adjustment
remote data collection, hydrogeologic monitoring, data acquisition system, data evaluation, 04018.

sampling artefact
filter material, mutagenicity, PAH's, particle, 11152.

sampling bias
carbon dioxide, flask sample, Geophysical Monitoring for Climatic Change observatory, 04384.

sampling device
boundary flow, soil core, 03984. water quality, bacteria, suspended particle, filtration device, microbial transport, trace inorganic solute, 04074.

sampling distance
adaptive filtering, SAR, sea ice discrimination, texture statistics, 12794.

sampling error
rain gauge, network configuration, gauge network, areal rainfall, radar data, 05114.

sampling frequency
data handling, information system, water quality management, monitoring, water quality analysis, 11125. groundwater quality monitoring, site specific monitoring, automatic data acquisition system, monitoring network, sample technique, landuse planning, groundwater protection, water management, point source pollution, Czechoslovakia; 12253.

sampling intensity
liming, soil test, Pelloxerert, Bray Kurtz P1, phosphorus, 07406.

sampling landuse survey
landuse survey, satellite imagery, simulation, 12678.

sampling method
colloid, coal ash disposal site, suspended colloid, silicate colloid, contaminant transport, groundwater contamination, 11073. pore water, micropore, organic contaminant, volatile organic solvent, chalk aquifer, groundwater contamination, 11075. surface water, water quality analysis, major ion, alkalinity, electrical conductivity, sample collection, trace element, New Zealand; 13356.

sampling of stratopheric species
stratosphere, mass flow controller, 04350.

sampling period
trace gas, concentration fluctuation, residence time, 02025.

sampling procedure
microscopy, submicroscopy, micromorphology, 01527. shrimp, organic carbon, bioturbation, burrow, Red Sea, Gulf of Aqaba; 08265.

sampling protocol
precipitation, cadmium, copper, iron, manganese, lead, zinc, chromium, nickel, vanadium, trace metal, wet deposition, Sweden; 04441.

sampling rate
Warren Spring sampler, airborne particle, aerosol, experimental error, lead, 05515.

sampling regime
alkalinity source, acidification status, flow-ion relationship, low flow, time series sampling, flow related dip sample, short term ionic response, hydrochemical process, surface water chemistry, UK, Scotland, Cairngorms, Allt a'Mharcaidh Catchment; 04096. water management, water quality, regional water quality, water data, monitoring programme, data quality, USA, Ohio; Colorado; 11112.

sampling spacing
cone penetration test, site characterisation, statistical method, two dimensional soil property interpolation, Canada, British Columbia, Sea Island, Vancouver International Airport; 03775.

sampling strategy
classification method, contiguous grouping, discriminant analysis, nutrient, geographical zone, lagoon, surface water quality, ammonium, nitrate, phosphate, France, Herault, Thau Lagoon; 09824. land cover classification, SPOT, principal component image, classification accuracy, 03450. lateral variability, caesium-137, soil erosion, Canada, Quebec Province; 10838. outlier detection, statistical analysis, zinc, copper, chromium, nickel, cadmium, Gaussian distribution, wet deposition, 04434.

sampling system
soil water extraction, suction cup method, macropore flow, bypass flow, spatial variability, 13401.

sampling technique
agricultural pollutant, surface water quality, herbicide, triazine, acetanilide herbicide, atrazine, desethyl, desisopropylatrazine, cyanazine, simazine, metolachlor, alachlor, USA, Mississippi River; 08737. dissolution precipitation process, environmental fate, water table contamination, nuclear waste disposal, groundwater monitoring, radionuclide mobility, 05235. heavy metal, radioisotope, core, Baltic Sea; 13001. lysimeter, soil core, soil monolith, 10914. mercury content, ice, snow, Antarctica; 12550.

sampling variability
groundwater elevation, groundwater monitoring, contour map, random sampling, 01711.

San Andreas Fault
Oligocene, Vaqueros Formation, strike-slip fault, Miocene, subsidence, USA, California Coast Ranges, Cuyama Basin; 03626. Pacific Plate, California Plate, Neogene(Late), plate, relative motion, transform plate motion, transpressive plate motion, USA, California; 08355.

San Andres Formation
diagenesis, fresh water lens, carbonate, grainstone, palaeoisland, Holocene, Smackover Formation, USA, Louisiana; Texas; 08228.

San Cassiano Formation
carbonate platform, deep water cycle, platform progradation, eustatic oscillation, Triassic, Italy, Dolomites, San Cassiano Formation; 09413.

San Francisco earthquake
Loma Prieta earthquake, strike slip, reverse faulting, geodetic survey, surface displacement, earthquake, USA, California, San Andreas fault; 07168.

San Gregorio Formation
bioturbation, Thalassinoides, Gyrolithes, fossil, burrow, Monterey Formation, Mexico, Baja California; USA, California, Mussel Rock; USA, California, Lompoc; 05921. palaeoceanographic condition, phosphorite, Oligocene, Mexico, Baja California Sur, San Juan de la Costa; 00177.

San Jacinto fault zone
fault, radiometric dating, slip rate, strain accumulation cycle, offset, Holocene, stream channel, USA, California, San Bernardino Valley; 11879.

Sanbagawa schist
zoning structure, deep sea facies, nodule, metamorphic mapping, Japan, Kanto Mountains, Ayukawa Valley; 11774.

sand
aeolianite, wind, coastal dune, dune, continental shelf, fossil dune, 10511. albic soil, micromorphology, SEM, quartz sand grain, China, Jiangsu Province; Heirongjiang Province; 01615. algae, diatom, trapping, stromatolite, hypersalinity, Messinian, Spain, Almeria, El Joyazo; 11741. alluvial bench, terrace, soil, gravel, Australia, Queensland, Mary River; 01618. alluvial fan, delta facies, Gilbert type fan delta, foreset, lacustrine basin, Italy, Valdarno Basin; 10592. alluvial, Quaternary development, alluvial fan, Sarvis fan, Danube fan, deposition, landform sinking, Hungary, Great Hungarian Plain; 08332. arenite, clay, sandstone, mixing, attrition, ultrasonic vibration, 03686. Bassendean sand, dune field, decalcification, sedimentary feature, Australia, Western Australia, Swan Coastal Plain, Bassendean Dune; Spearwood Dune; 00017. beach deposit, Holocene, quartz grain, microtextural study, chemical alteration, innershelf, India, Kerala Coast; 12871. beach, littoral process, environmental impact, current, Spain, Cirro; Ares; 06997. beach, surf zone, sediment transport, accretion, storm, Atlantic, Middle Atlantic Bight; 06993. bedform, pattern, fractal dimension, ripple, dune, 04698. cementation, Twin Mountains Formation, silcrete, conglomerate, USA, Texas, Western Cross Timbers; 02391. clay, interglacial bed, climatic indicator, Sangamonian, Scarborough Formation, Pottery Road Formation, TL dating, Canada, Ontario, Toronto; 07260. cone penetration test, shear strength, 03772. constitutive modelling, soil behaviour, three modulus hypoelasticity, plastic clay, China, Wuhan; France, Paris; 03766. crystal face, silt, overgrowth, detrital, isotopic composition, spalling, 00010. dune, beach, skewness, kurtosis, roundness, India, West Bengal, Midnapur District, Junput Beach; 11685. dune, coastal protection, barrier island, coast, Wadden Sea; 07015. finite element method, penetrometer, numerical simulation, penetration, 00251. fluvioglacial origin, trace element, estuary, sand wave, coating, Canada, St. Lawrence Upper Estuary; 04769. grain size distribution, heavy mineral, beach, dune, Bangladesh, Cox's Bazar; 04710. grain size, sorting, skewness, texture, pebble, bedload, Nigeria, Imo River; Gulf of Guinea; 02315. gravel bed river, flume test, movable bed, bedload, dune, France, Chatou; 05798. gravel, beach, spit, longshore drift, shoreline change, USA, Massachusetts, Cape Cod; 04740. gravel, brick earth, drift mapping, till, mapping, glacial deposit, lithology, boulder clay, UK; Ireland; 11947. gravel, erosion, cohesive sediment, sediment transport, soil structure, 00005. gravel, heavy mineral, sedimentation, oil reserve, basin type, source rock, 03583. gravel, mud, clay, carbonate concentration, organic matter, shelf sediment, Turkey, Sea of Marmara, Dardanelles; Bosporus; 08173. gravel, oxygen isotope ratio, subsurface sediment, clay, Japan, Kinki District; 10596. gravel, sediment transport, wave theory, Stokes' wave theory, seabed, UK, Isle of Man; 02352. gravel, soil erosion, groundwater level, environmental problem, geoecology, loess, Germany, Frankfurt, Main River; 07147. gravel, textural, coastal sediment, Saudi Arabia, Wadi Al-Fagh; Red Sea, Wadi Al-Qunfidah; 03515. gravel, transportation, debris flow deposit, Ordovician, Mane Ting Formation, sedimentation, India, Himalayas, Black Mountain Basin; Bhutan; 04807. gravel, uplift, source area, transgres-

sion, Tortonian, Spain, Betic Cordilleras, Granada Basin; 12943. harbour, provenance, grain size data, shoreline, Laplace distribution, Libya, Tripolitania, Lepcis Magna; 04879. heavy mineral, magnetite, thin section petrology, sandstone, provenance, Holocene, 05972. heavy mineral, radionuclide, radiometric method, Netherlands, Texel; 07123. Holocene, tidal current, platform, reef, carbonate sand deposit, USA, Florida Keys, Quicksands; 05844. Holocene, vegetation, Preboreal, wind, aeolian, dune, Finland, Saarijarvi; 09321. in situ density, piezocone penetrometer, flat dilatometer, dune, calibration test, Canada, Quebec, Ottawa River; 13047. in situ testing, screwplate test, triaxial compression test, Danish Code of Practice, strength, Denmark, Sollerod; 03823. intertidal zone, shell, calcium carbonate, beachrock, India; 03557. Kreftenheye Formation, glaciation, Holocene(Early), grain size, Weichselian, Netherlands, Rhine River; 06967. lignite particle, low density turbide, turbidity current, aggradation, braided river, Souris spillway, sediment laden water, USA, North Dakota; 07229. limitation, Flat Plate Dilatometer, dilatometer test, 03780. lithology, alluvium, tributary, grain size distribution, source, gravel, Canada, British Columbia, Bella Coola River; 02311. loess, clay, Jing-Le Formation, alluvial, aeolian deposition, Pliocene(Late), China, Shanxi Province, Jing-Le Basin; 09402. lunette, lake barrier, aeolian landform, lake, deflation, Australia, Queensland, Cape York; New South Wales, Lake Victoria; Australia, New South Wales, Lake George; 11674. megaripple, dune, ripple, shear stress, Israel, Sinai desert; 08153. micromorphological pattern, pedological origin, Paleogene, diagenesis, clay, France, Massif Central, Pue-en-Velay Basin; 02396. mudflat, megaripple, salt marsh, macrotidal, estuary, Canada, Bay of Fundy, Cobequid Bay; Salmon River Estuary; 02325. organic material, trace metal, fossil, burrow, Pleistocene, USA, Georgia, Georgia Bight; 01314. particle shape, beach, sorting, gravel, 06990. particle size distribution, Laplace distribution, bimodality, dune, 05976. permeability, sandstone, connectivity, oil, percolation theory, 04697. phosphate, foraminifera, Pungo River Formation, Yorktown Formation, continental shelf, USA, North Carolina; 02429. principal component, Bluefield Formation, Girvanella, mud mound, terrigenous material, USA, West Virginia, Pocahontas County; 10599. quartz, feldspar, detrital grain, source rock, India, Kerala, Bharathapuzha; 11773. quartz, Pliocene, chattermark, France, Paris Basin, Haute-Normandie; 10505. Quaternary, intertidal sediment, provenance, mudflat, beach, Kuwait; Arabian Gulf; 10539. relict deposit, bypassing, particle size, continental shelf, grain size parameter, modal size classification, Portugal; 00068. salinity, tidal range, fresh water, estuary, energy flux divergence, USA, Oregon, Columbia River; 05820. sandy loam, hydraulic conductivitiy, irrigation, salinity, salt displacement, 08579. sea bottom, storm surge, sediment budget, beach, coast, nearshore area, Germany, Probstei Coast; Baltic Sea; 00054. seabed, nearshore region, wave, suspension, USA, Florida, Cape Canaveral; 12860. sedimentation rate, Pleistocene, peat, terrace, Holocene, Italy, Po River; 00019. seismic cone penetration test, dilatometer data, correlation, maximum shear modulus, Canada, British Columbia; 03790. shale, subsidence, Berea Sandstone, Mississippian, delta front facies, USA, Ohio, Black River, Elyria; 11720. shelf, sandstone, hummocky cross stratification, cross stratification, current, storm bed, 11654. shoal deposit, Quaternary(Upper), tidal current, circulation pattern, discriminant function analysis, shelf, USA, Virginia, Lower Chesapeake Bay, James River; 09343. silica sand, white sand, aeolian sand, India, Karnataka, South Kanara Coast; 10509. silt, continental shelf, mineral provenance, heavy mineral, Atlantic, (Northeast); 08179. silt, longshore current, carbonate mineral, bottom sediment, Holocene, Kuwait, Ras Al-Jalayah; Ras Al-Zour; 00069. silt, nickel, manganese, pelagic sediment, micronodule, Pacific, (North), Clarion-Clipperton Ore Province; 05870. sodium adsorption ratio, hydraulic conductivity, dispersion, hexametaphosphate, kaolinite, 12988. soil fragility, tree, podsolisation, France, Fontainebleau; 05098. soil horizon, Mesolithic, tsunami, transgression, UK, Scotland, Inverness; 03560. soil, nutrient, agriculture, arid land, dune, desertification, vegetation, 07028. soil, soil exchange rate, canopy exchange rate, exchange rate, radon 222, rain forest, clay soil, Brazil, Amazon; 07859. Sola Formation, tectonism, fault block, Cretaceous, North Sea, Witch Ground Graben; 07048. stress path dependent soil behaviour, hollow cylinder, torsional apparatus, generalised stress path, principal stress rotation, 06020. submarine fan, sedimentation, eustatic cycle, overbank deposit, mass transport, levee, USA, Gulf of Mexico, Mississippi Fan; 04731. surf zone, sediment movement, bed form, wave reflection, beach, 03548. tectonic setting, weathering, source terrain, palaeotectonics, Panama; Costa Rica; Venezuela; Colombia; 01323. tephra, turbidite, provenance, volcaniclastic sediment, sediment structure, Tyrrhenian Sea, Tyrrhenian Basin; 00077. Thalassia, air photograph, lagoon, image analysis, carbonate, Caribbean Sea, Grand Cayman; 07004. trace element, sediment provenance, sorting, Quaternary, fluvial deposit, aeolian deposit, Netherlands, Limburg; 09443. trap, basin, fault, Eocene, submarine fan, North Sea, Witch Ground Graben, Alba Field; 07066. triaxial, shear test, shear modulus, stress strain behaviour, 13046. turbidite, pelagic layer, abyssal plain, oxidation front, Atlantic, Horseshoe Abyssal Plain; Seine Abyssal Plain; Atlantic, Madeira Abyssal Plain; 11694. water tension, soil water, wick tensiometer, coarse soil, gravelly soil, 07391. wave direction change, beach nourishment, beach, groyne, Japan, Seto Inland Sea, Toban Coast; 09390. wave, current, Shields' curve, ripple, 00003. wave, sediment sorting, sea floor, tidal stream, gravel, France, Brest; 05827. weathering, geochemistry, terrace, chronosequence, geochemical variability, bulk geochemistry, fluvial terrace, France, Central Massif, Allier Basin; Dore Basin; Colombia, Caqueta Basin; 06211. weathering, grain size, microprobe analysis, heavy mineral, provenance research, 07116. wind, desertification, suspended particle, particle transport, 06950.

sand bar
wave, flume, Bragg reflection, sediment transport, ripple, 01220.

sand beach
coastal dune, progradation, backbarrier marsh, dune ridge, palynology, peat, relative sea level change, coastal response, Canada, Newfoundland; 00316.

sand bed
river, mobile bed model, sediment transport, alluvial resistance function, 04690.

sand bed river
river, channel pattern, scaling procedure, braided river, Bangladesh, Jamuna River; 07034.

sand blowing
dunefield, beach, recreation, South Africa, Port Alfred; 00157.

sand body
bathymetry, shoreface, erosion, accretion, USA, New York, Long Island; 03553. fossil, biofacies, Pennsylvanian, Francis Creek Shale, Carbondale Formation, Westphalian, clayrock, USA, Illinois; 04833. progradation, Holocene, transgression, longshore drift, delta, sedimentation, India, Nizampatnam Bay; River Krishna; 05838. reservoir, submarine fan, hydrocarbon, lobe, 06953. stratification, grain size, minipermeameter, permeability, channel, UK, England, Yorkshire coast; 04705. tidal inlet, bar, barrier inlet, ebb-tidal delta, coastline, flood, South Africa, Natal; 04747.

sand body geometry
Eocene, delta, Queen City Formation, transgression, USA, Texas; 05894.

sand budget
dune, vegetation cover, tourism impact, Atlantic, Canary Islands, Fuerteventura; 08152.

sand composition
sandstone, fluvial sediment, sedimentation rate, weathering, Brazil, Solimoes River, Macuapanim Island; 06960. tropical climate, arenite, molasse, seasonal tropical climate, foreland basin, Colombia, Guaviare River; Inirida River; Colombia, Llanos; 09324.

sand dam
drought, water resource management, subsurface dam, water conservation, dam, small dam, arid region, Africa, Sahara; Sahel; 09930.

sand deposit
arid formation, soil study, USSR; 00475. campsite, vegetation, discharge, flow regulation, sediment load, USA, Arizona.Grand Canyon National Park, Colorado River; 02313.

sand drift surface
wind, aeolian deposit, bounding surface, erosional surface, sand sheet deposit, 05799.

sand dune
alluvial terrace, Torripsamment, Camborthid, soil classification, arid zone soil, India, Punjab; 07432. glacial meltwater, braided stream, meandering river, pollen assemblage, Holocene, stream terrace, Quaternary(Late), palaeoecology, palaeoenvironment, alluvial valley, radiocarbon dating, melt water, aeolian activity, USA, Missouri, Mississippi River; 07263. land management, map, landscape ecology, coastal dune, Netherlands, Texel; 11867. loess, snow cover, Pleistocene, periglacial, eolian deposit, sedimentary facies, depositional process, sand sheet deposit, sand-loess intergrade, USA, Alaska; 02693. mean daily wind speed, turbulent wind, moisture, India; 03074. perched dune, cliff, nourishment, management, wind, erosion, USA, Lake Superior; Lake Michigan; Canada, Lake Superior; 03586.

sand dunes
water holding capacity, hydraulic conductivity, water characteristic curve, soil water hydrodynamics, ferruginous soil, Africa, Sudan; Sahel; 12229.

sand dyke
glaciomarine sediment, ground shaking, earthquake hazard, historic liquefaction, prehistoric liquefaction, earthquake induced liquefaction, liquefaction, USA, Massachusetts, Newbury; 13071.

sand fencing
vegetation, dune building, vegetation stabilisation, barrier island, beach, erosion, USA, Louisiana, Timbalier Island; 09433.

sand filled frost wedge
glaciotectonically deformed mo-clay, sand wedge, Tertiary mo-clay, Denmark, Limfjorden, Fur Island; 00328.

sand filter
sorption screening test, groundwater quality, potable water, arsenic, sodium hydroxide, 12289.

sand grain
aeolian, orientation, intensity gradient technique, microtexture, 03507. sea shell fragment, paint chip, wind speed, aluminium oxide, hydrochloric acid, particulate deposition, space shuttle launch, deposition, USA, Florida, John F.Kennedy Space Center; 05488. sediment source, surface texture, quartz, grain roundness, glacial deposit, subglacial environment, 09313.

sand intraclast
diamicton melange, glacial sedimentology, subglacial deposition, deformable bed, clast fabric, Canada, Ontario, Niagara Peninsula; 09576. diamicton, shore bluff, brecciated diamicton, heat flow simulation program, COLDSPOT, simulation, cryostatic desiccation process, Canada, Ontario, Mohawk Bay; 01428.

sand intrusion
gyttja, thawing permafrost, sediment displacement, till sand peat association, Holocene, cryoturbation, Weichselian Holocene, valley fill, gravity spreading, Netherlands, Tjonger Valley; 10813.

sand mineralogy
sedimentary provenance, Neogene, Quaternary, volcanism, tectonics, Kaihu Group, New Zealand, South Auckland; 08248.

sand mixing
aeolian dynamics, Landsat TM, Mexico, Sonora, Gran Desierto; 04604.

sand modulus
cone penetration test, Marchetti dilatometer test, silica sand, 03769.

sand movement
erosion control, movement stabilisation, date frond mat fence, wind erosion, barrier density, United Arab Emirates; 06231.

sand plume model
shelf environment, sandstone, sand ridge, Egypt, Nile Delta, Damietta Branch; 11689.

sand provenance
beach sand, texture, heavy mineral, India, Karnataka Coast; 10508.

sand ridge
platform, palaeowind, carbonate, eolianite, diagenesis, China, Fujian, Putian; 03521. sand plume model, shelf environment, sandstone,

Egypt, Nile Delta, Damietta Branch; 11689. sandstone, American Interior Seaway, Wall Creek Member, Frontier Formation, storm, current, USA, Wyoming, Powder River Basin; 08217. sandstone, cross bedding, erosion surface, transgression, Viking Formation, Albian, Canada, Saskatchewan, Eureka, Viking Oil Field; 04800. sediment dispersal, river sediment, grain size, continental shelf, mud, Korea(South), Korea Strait; Korea(South, Nakdong River; 12874. storm, sandstone, Holder Formation, Pennsylvanian, shelf facies model, USA, New Mexico, Sacramento Mountain; 02386. tidal inlet, delta, barrier island, transgression, Holocene, USA, Atlantic Shelf; 10556. wave, sediment transport, infragravity wave, storm, continental shelf, Atlantic, Scotian Shelf, Sable Island Bank; 08178.

sand sample
dune, sandsea, aeolian sedimentation, erg, Pleistocene(Upper), sediment homogeneity, sedimentation characteristic, Ogolian sand, Senegal, Mbour; Mauritania, Nouakchott; 10759.

sand sea
aeolian sand source, desert, spectral data, thematic mapper, climatic change, Mexico, Gran Desierto; 02307. desert dunefield, linear dune, carbonate, ponded river origin, radiocarbon date, sedimentology, paleohydrology, Quaternary(Late), lake deposit, Namibia, Namib Sand Sea; 04981. dune morphometry, Viking orbiter image, sediment volume, Mars, North Polar Region; 00230. palaeowind, Proterozoic, Venkatpur Sandstone, aeolian stratification, erg, India, Pranhita Valley; Godavari Valley; 10595.

sand sheet
bedform, palaeodune, dune, Bridgnorth Sandstone Formation, UK, England, Shropshire, Bridgnorth; 05895. niveo aeolian sedimentation, sedimentary structure, aeolian sand, diagnostic indicator, Greenland, Western Greenland, Sondre Stromfjord; 06204. Pleistocene(Late), aeolian sand, outwash river, dune, palaeowind vector, USA, Alaska; 06116.

sand sheet deposit
sand drift surface, wind, aeolian deposit, bounding surface, erosional surface, 05799. sand-loess intergrade, sand dune, loess, snow cover, Pleistocene, periglacial, eolian deposit, sedimentary facies, depositional process, USA, Alaska; 02693.

sand size
clast, debris avalanche deposit, particle particle interaction, scanning electron microscope, electron imagery, microcrack, hackly fracture surface, USA, Washington, Mount St. Helens; 09507.

sand sorting
British Geological Survey, sea bed sediment, Quaternary geology, Shipek grab, bathymetry, sediment thickness, rock head contour, bedform, biogenic carbonate, UK, England, Hampshire, Wight; Solent; 07144.

sand spit system
Weichselian glacial deposit, melt water deposit, Pleistocene deposit, gyttyas, peat, marine sand, glacial deposit, Quaternary, geological mapping, Holocene, Germany, Schleswig Holstein, Gelting Peninsula; 08467.

sand stabilisation
vegetation, arid zone, aeolian sand, Tunisia; 00015.

sand terrace
mangrove deposit, tidal flat deposit, fossil pollen, peat, coastal plain, Malaysia, Borneo; Indonesia, Sumatra; Brunei, Baram-Belait River Basin; 00285.

sand texture
sedimentation, swash zone, foreshore, beach, longshore current, quartz, Greece, Zakynthos, Lagana Beach; 09353.

sand transport
beach erosion, coast, wave hindcast, storm wave, USA, Virginia; North Carolina; 02340. beach, sediment flux, ridge and runnel, tidal cycle, settling velocity, UK, England, Norfolk, Holkham Beach; 01223. Devonian, braid plain deposit, Malbaie Formation, cyclic layering, conglomerate, Canada, Quebec, Gaspe, Pointe Saint-Pierre; 10502. dune, vegetation, 10581. engineering structure, beach, shoreline, bottom sediment, coast, Japan, Toyama Prefecture, Miyazaki coast; Sakai coast; 07002. gravel transport, chenier, intertidal mud flat, deflation, gravel drift, wind effect, sea level, beach, spit, tidal flat, longshore transport, Argentina, Tierra del Fuego, San Sebastian Bay; 10802. longshore bar, storm erosion, accretion, beach erosion, berm, 01221. threshold velocities, soil conservation, wind erosion, dust-storm, control, 12026. wave height, geological evidence, onshore sand transport, Holocene, marine transgression, USA, Florida, Ten Thousand Islands; 08496. wave, tide, ebb-tidal delta, longshore drift, surface sediment, Netherlands, Wadden Sea, Texel Inlet; 01216.

sand volume
aeolian transport, lagoon, wave, sediment transport, protective measure, beach, Spain, Canary Islands, Las Canteras Beach; 03556.

sand wave
coating, sand, fluvioglacial origin, trace element, estuary, Canada, St. Lawrence Upper Estuary; 04769. dune, anti dune, channel, friction, 06958. radar, submarine sand wave, tidal channel, 02203.

sand wedge
Tertiary mo-clay, sand filled frost wedge, glaciotectonically deformed mo-clay, Denmark, Limfjorden, Fur Island; 00328.

sand-ball
sandstone, Iriomote Formation, Miocene, Japan, Okinawa Prefecture, Iriomotejima; 11769.

sand-bentonite mixture
three modulus hypoelasticity, hypoelasticity, nonlinearity, anisotropy, dilatancy, compression, consolidation, constitutive modelling, Canada; 02542.

sand-loess intergrade
sand dune, loess, snow cover, Pleistocene, periglacial, eolian deposit, sedimentary facies, depositional process, sand sheet deposit, USA, Alaska; 02693.

sand-shell ridges
marine transgression, radiocarbon dating, calcrete, cheniers, stratigraphy, Holocene, Argentina, Bahia Blanca Estuary; 03904.

sand-wedge relics
periglacial, aeolian transport, weathered bedrock, Late Pleistocene, ice-wedge cast, USA, Wyoming; 12000.

sandbag
wrap around face construction, Stabilenka fabric, reinforced soil retaining wall, UK, England, Essex, Barking, Hewetts Quay; 03734.

sandbank
sandwave, estuary, tidal current, accretion, UK, England, The Wash; Humber; 09345.

sandblast erosion test
physical characterisation, chalk, standardised procedure, abrasion, Channel Tunnel, salt weathering, 04913.

sandblasting
mineral aerosol, wind speed, erosion, sandstorm, soil mobilisation, desert dust, Africa, Sahara; 05522.

sandbody
basin, oceanic crust, tectonic history, storm, Cretaceous, Atlantic, Grand Banks; Bay of Biscay; 01302. Eocene, Roda Sandstone, Pleistocene(Late), Holocene(Early), sediment supply, tidal sandbody, Spain, Pyrenees; East China Sea; 09400. reservoir, Mississippian, petroleum exploration, carbonate ramp, carboniferous limestone, oolitic, UK; 01279.

Sandia Formation
fault, sheetflood, sandstone, braid delta, subsidence rate, Pennsylvanian, USA, New Mexico, Taos Trough; 02412.

Sandnes Interstadial
Skaerumhede Series, foraminifera, stratigraphy, Quaternary, Saalian age, till, glaciofluvial sediment, Weichselian, Vennebjerg Stadial, Denmark, Kattegat, Anholt Island; 07209.

sandsea
aeolian sedimentation, erg, Pleistocene(Upper), sediment homogeneity, sedimentation characteristic, Ogolian sand, sand sample, dune, Senegal, Mbour; Mauritania, Nouakchott; 10759.

sandstone
abyssal plain, turbidite, terrigenous bed, upslope deposition, Atlantic, Lesser Antilles, Tiburon Rise; 04759. alluvial deposit, sedimentation, facies, Silurian, transgression, Egypt; Sudan; 03603. alluvial fan, carbonate, Mesozoic, Cretaceous, Tertiary, synorogenic deposit, Spain, Tajo Basin; 08221. American Interior Seaway, Wall Creek Member, Frontier Formation, storm, current, sand ridge, USA, Wyoming, Powder River Basin; 08217. arkose, provenance, Oligocene, Italy, Punta Ala, Piombino; 03602. Barakar Formation, Gondwana, coccolith, microfossil, India, Bihar, Ramgarh Coalfield; 01306. Barremian, reservoir, cement, sedimentation, Atlantic, Gabon Basin; 00164. beach, mudflat, Scheggs Bed, Eocene, Green River Formation, lithofacies, USA, Colorado, Sand Wash Basin; 07041. bedform, South Bar Formation, Pennsylvanian, antidune, palaeocurrent, Canada, Nova Scotia, Sydney; 02300. braid delta, subsidence rate, Pennsylvanian, Sandia Formation, fault, sheetflood, USA, New Mexico, Taos Trough; 02412. calcite, cementation, fossil, carbonate, concretion, 04798. Cambrian, siltstone, Zarnowiec Formation, 01273. categenesis, organic matter, cementation, shale, 12965. cement, pore, reservoir, porosity, shale, 06955. cementation, silica, quartzite, Proterozoic, overgrowth, Mali; 12919. clastic, erosion, Torridonian, Wealden, provenance research, UK; 07043. coastal protection, dam, power station, meandering river, Switzerland, Berne, Lake Wohlen; 05885. cobalt, lithiophorite, concretion, karst, cavern, cement, France, Pays de Sault, Belvis Cave; 01230. concretion, calcite, biogenic carbonate, sedimentary structure, cementation, 04696. conglomerate, carbonate, red formation, Mesozoic, upward fining sequence, sedimentation, siltstone, Morocco, High Atlas, Telouet area; 05908. conglomerate, cemented, zeolite, humid mountainous area, oxidation front, weathering mechanism, chemical weathering, engineering properties, Japan; 12021. conglomerate, coarsening upward sequence, siliciclastic unit, Proterozoic, Nagthat Formation, Jaunsar Group, India, Lesser Himalaya, Kumaun; 12921. conglomerate, mass flow, Devonian, Asenvagoya Conglomerate, Asen Formation, Fosen Group, Norway, Outer Trondelag; 09401. conglomerate, shelf sediment, facies trend, cycle, substitutability analyses, 11822. connectivity, oil, percolation theory, sand, permeability, 04697. cross bedding, channel bar, Cretaceous, Surajdeval Formation, India, Gujarat, Saurashtra; 11659. cross bedding, erosion surface, transgression, Viking Formation, Albian, sand ridge, Canada, Saskatchewan, Eureka, Viking Oil Field; 04800. cross bedding, facies change, Budleigh Salterton Pebble Bed, accretionary style, gravel bed stream, Triassic, conglomerate, UK, England, Devon, Budleigh Salterton; 01272. cross bedding, transgression, dispersal pattern, palaeocurrent, Cretaceous, India, Gujarat; 11726. cross stratification, palaeocurrent, aeolian dune, Copper Harbor Formation, Proterozoic(Late), Canada, Lake Superior Basin, Five Mile Point; 08215. Desmoinesian, sedimentation, transgression, regression, provenance, quartz, USA, Oklahoma; 02390. detrital mode, turbidite, accretionary wedge, transform system, Miocene, fault, Pakistan, Makran Coast Ranges; 04828. diagenesis, compaction, burial history, porosity, temperature, Thailand, Gulf of Thailand, Pattani Basin; 03608. diagenesis, siliciclastic rock, burial, pressure solution, porosity, 12914. dyke, clastic dyke, Archean, Chibougamau Formation, conglomerate, 04820. facies change, strike-slip fault, fan delta, sediment supply, Gilbert type, Miocene, alluvial fan, Korea, Ulleung Back-arc Basin, Pohang Basin; 00144. facies, Cretaceous, shale, India, Gujarat, Narmada Basin; 00111. fault, geodynamic, alluvial, lineament, provence, Cretaceous, 03625. feldspar, dissolution, porosity, burial depth, China, Songliao Basin; 10510. feldspar, shale, smectite, illite, Tertiary, Cretaceous, USA, Wyoming, Green River Basin; 02444. fluvial sediment, sedimentation rate, weathering, sand composition, Brazil, Solimoes River, Macuapanim Island; 06960. fossil sandstone, Askrigg Block, Namurian, eustasy, mudrock, delta top deposit, overbank deposit, UK, England, Cumbria; North Yorkshire; 09399. fresh water, porosity, Magnus Sandstone Member, hydrocarbon exploration, permeability, Jurassic, leaching, North Sea, Magnus Oilfield; 06957. Frio Formation, provenance, volcanic debris, heavy mineral, dissolution, Oligocene, USA, Texas, Rio Grande Province; 04849. heavy mineral, Cretaceous(Upper), flysch, source terrane, uplift, conglomerate, Switzerland, Southern Alps; Italy; 04821. heavy mineral, Mesozoic, Carnot Sandstone, exoscopic analysis, conglomerate, Central African Republic; 04804. Holder Formation, Pennsylvanian, shelf facies model, sand ridge, storm, USA, New Mexico, Sacramento Mountain; 02386. hum-

mocky cross stratification, cross stratification, current, storm bed, sand, shelf, 11654. hydrocarbon, reservoir, trap, Cretaceous, diagenesis, gas, Canada, Alberta, Berrymore-Lobstick-Bigoray Fields; 04801. hydrogen isotope composition, isotopic exchange, Cretaceous, clay mineral, kaolinite, Canada, Alberta; 07114. illite, diagenesis, Cretaceous, Senegal; Mauritania; 10593. Iriomote Formation, Miocene, sand-ball, Japan, Okinawa Prefecture, Iriomotejima; 11769. isotope, Permian-Triassic, carbonate, oxidation, organic matter, decarboxylation, cement, Spain, Iberian Range; 01325. Jurassic, alteration reaction, burial, diagenesis, mica, Norway, Haltenbanken; North Sea; 08296. Jurassic, Morrison Formation, saline water, strontium, barite, USA, Colorado Plateau; 05936. Kap Graah Group, cyclic variation, meandering, Milankovitch cycle, Devonian, Greenland, Gunnar Andersson Land; 02400. Kekiktuk Formation, silica, cementation, burial history, porosity, Mississippian, USA, Alaska, North Slope, 1 Leffingwell well; 09315. lake, shale, source rock, hydrocarbon, Proterozoic, Nonesuch Formation, USA, Michigan; Wisconsin; 10640. lamination, sedimentary structure, hummocky cross stratification, storm bed, grain fabric, 08147. limestone, enthalpy, activation energy, lithological discontinuity, quartz thermal activation energy, loess, USA, Kentucky; 12099. lithofacies, delta, lake basin, Gondwana, Talchir Group, India, Orissa, Dhenkanal District; 03607. mass flow, palaeovalley, Precambrian, Moraeneso Formation, Proterozoic, conglomerate, Greenland; 03609. mathematical framework, Fourier transform, spatial analysis, petrology, power spectrum, 02484. Miocene, Pliocene, turbidite, heavy mineral, Araya Formation, Kawaguchi Formation, Japan, Niigata Prefecture, Higashiyama Region, Nobegawa River; 11730. Miocene, porosity, cement, reservoir, gas field, USA, Texas, Picaroon Field; 00011. Mitterberg Formation, hinsdalite, dissolution, Permian, apatite, phosphate, diagenesis, aluminium phosphate, Austria, Northern Calcareous Alps; 02446. mixing, attrition, ultrasonic vibration, sand, arenite, clay, 03686. model, salt weathering, wetting-drying, tafoni weathering, statistical analysis, Spain, Ebro Basin, Barbastro Anticline; 02708. mud, clast, debris flow, arid climate, Jurassic, McCoy Brook Formation, conglomerate, Canada, Nova Scotia, Fundy Basin; 08216. mudrock, braided stream, Tongue River Member, Fort Union Formation, Paleocene, deposition, alluvial plain, USA, Wyoming, Powder River Basin; 05893. mudstone, Albian, chronostratigraphy, Viking formation, Canada, Alberta; 00107. mudstone, claystone, Kamieniec Shale Formation, Cambrian, Ocieseki Sandstone, Poland, Holy Cross Mountains; 01297. mudstone, fluvial facies, Devonian, palaeoclimate, Worange Point Formation, Australia, New South Wales, Eden; 01274. Murree Group, palaeoenvironment, palaeoclimate, sublitharenite, detritus source, India, Kashmir Himalaya, Jammu; 05901. oceanic crust, Franciscan complex, Permanente terrane, continental margin, provenance, USA, California; 02411. organic matter, reservoir property, diagenesis, distributary channel, Carboniferous, transgression, UK, England, Yorkshire, Trumfleet Field; 12980. orthoquartzite, diagenesis, paleosol, gore lignite measure, Miocene, silcrete, New Zealand, Maitland Basin, Landslip Hill; 00132. palaeolatitude, sedimentation, lake, rift basin deposit, Newark Supergroup, Mesozoic, lithofacies, 11752. petrofacies, actualism, uniformitarianism, provenance, USA, New Mexico, Rio Grande Rift; 02413. pore water, Valtos Sandstone Formation, calcite, cement, concretion, UK, Scotland, Skye; 07081. porosity, cementation, reservoir, gas, diagenesis, 01187. Precambrian, Mundallio Subgroup, Yadlamalka Formation, dolomite, magnesite, Australia, South Australia, Adelaide Geosyncline; 12949. pressure solution, porosity, stylolite, compaction, cementation, 02385. provenance, Cretaceous, Precambrian, Nubian Series, cementation, heavy mineral, Jordan; 12948. provenance, Holocene, sand, heavy mineral, magnetite, thin section petrology, 05972. provenance, student, ternary diagram, classification, 04882. quartz grain, granite, Hercynian, Holocene, provenance analysis, source lithology, Spain, Central System; 06962. ravinement, forearc basin, Middle Yezo Group, Cretaceous, facies change, Mikasa Formation, Japan, Yezo Basin; 11728. reservoir rock, Triassic, Lunde Formation, albitisation, plagioclase, North Sea, Viking Graben, Tampen Spur, Snorre Field; 00167. reservoir, Mossbauer spectra, pore solution, illite, 12993. reservoir, Triassic, burial, illite, brine, palaeotemperature, Irish Sea, Morecambe Gas Field; 02473. sand ridge, sand plume model, shelf environment, Egypt, Nile Delta, Damietta Branch; 11689. sedimentary provenance, Carboniferous, geochronology, zircon, monazite, drainage basin, UK, England, Pennines; 08270. sedimentary structure, red bed, back arc basin, dune type, Mesozoic, aeolian sandstone, Chile, Atacama Region; 10504. shale, coal, Westphalian, Coal Measures, peat, tectonism, sedimentation, UK, England, Northumberland, West Chevington Opencast Site; 04802. shale, Frontier Formation, Mancos Group, Cretaceous, marine rock, facies, USA, Colorado; Utah; 01270. shale, natural gas, Mesaverde Group, reservoir, Cretaceous, Multiwell Experiment, USA, Colorado, Piceance Basin, Rifle Gap; 02293. shale, source area, antimony, red bed, Devonian, Catskill Formation, USA, Pennsylvania; 02445. shale, thermal maturation, porosity, diagenesis, 09395. shelf facies, sea level curve, ramp margin, Muskiki Formation, Marshybank Formation, Coniacian, Santonian, Canada, Alberta; 11716. Shimanto Terrane, heavy mineral, source area, provenance, garnet, Cretaceous, Japan, Yahagi River; 11731. sodium, dissolution, burial temperature, feldspar, reservoir, albite, potassium, Norway, Norwegian Shelf; 02474. stack, morphological variation, calcareous sandstone, visor and notch morphology, mollusc, bioerosion, Australia, Western Australia, Trigg Beach; 07075. storm, tempestite, stratification, sedimentary structure, Bouma sequence, 10499. tempestite, ichnofossil, Ordovician(Late), Georgian Bay Formation, Canada, Ontario; 10619. time interval, pore solution, diffusion, advection, cementation, 03651. Triassic, climate, palaeoclimate, sediment provenance, diagenesis, USA; Canada; 08214. Upper Siwalik subgroup, fining upward cycle, lithofacies, conglomerate, India, Chandigarh, Punjab Sub-Himalaya; 10594. uranium, Jurassic, Morrison Formation, vitroclastic, volcanic ash, lake bed, basin, USA, New Mexico, San Juan Basin; 02388. Variscan, Iapetus Suture, Tornquist Line, Rotliegend, Carboniferous, Europe, (Northwest); 05914. volcanic arc, ophiolite, backarc basin, basin history, Indonesia, Halmahera; 08249. weathering, reaction front, fingering, scalloping, calcite, 04848.

sandstone aquifer
geophysical survey, airborne survey, magnetic-electromagnetic measurement, geological regional investigation, geological structure, graben, horst, dyke, fault, semi arid area, low transmissivity, groundwater resource, Botswana, Kalahari; 06413. groundwater recharge, recharge pathway, zero flux plane method, water balance, soil water content, soil water potential, chalk aquifer, 11035. hydraulic testing, pumping test, delayed yield, drawdown, unconfined condition, well spacing, aquifer transmissivity, fracture zone, fissured sandstone, semi arid area, groundwater resource, aquifer low transmissivity, Botswana, Kalahari; 06362. persistence, groundwater quality, pesticide, aldicarb residue, Canada, Prince Edward Island; 02922. recharge process, aquifer flow model, chloride balance, soil moisture study, semi arid area, groundwater resource, groundwater recharge, aquifer low transmissivity, Botswana, Kalahari; 06361.

sandstone cliff
Ardingly Sandstone, photographic method, wind direction, climate, algal growth, aspect, weathering rate, UK, England, Kent, Tunbridge Wells, High Rocks; West Sussex, West Hoathly, Chiddingly Wood; 07319.

sandstone colluvium
footslope surface colluvial soil, fragipan development, limestone valley, paleosol, clay mineral weathering, genesis, soil, landscape, cryoturbation, USA, Pennsylvania, Ridge and Valley Province; 02512.

sandstone diagenesis
reservoir sandstone, clay mineral, sediment source, climate, mudrock, North Sea, Moray Firth; Viking Graben; North Sea, East Shetland Basin; 09472.

sandstone shale sequence
deep seated landslide, pore water pressure, slope failure, hazard, landslide, UK, England, Derbyshire; 07182.

sandstone soil
siltstone soil, elemental analysis, soil texture, lithological discontinuity, soil development sequence, New Zealand, Canterbury; 12126.

sandstorm
soil mobilisation, desert dust, sandblasting, mineral aerosol, wind speed, erosion, Africa, Sahara; 05522.

sandur
aeolian transport, niveo aeolian transport, winter transport, lag, arctic setting, precipitation, Canada, Northwest Territories, Pangnirtung Pass, Crater Lake; 10513. slopewash, flood event, proglacial storage, sediment concentration, Alpine sediment, sediment budget, sediment yield, suspended sediment, bedload transport, channel pattern, melt water flood, Switzerland, Val d'Herens, Bas Glacier d'Arolla; 07239. stockwerk, thrust fault imbrication, kinetostratigraphical unit, glaciodynamic structure, Main Stationary Line, Bovbjerg profile, Holsteinian marine clay, Saalian till, Denmark, Jutland; 00298.

sandwave
estuary, tidal current, accretion, sandbank, UK, England, The Wash; Humber; 09345. wave length, sediment transport, bedform, ripple, UK, England, Taw Estuary; 03512.

sandy aquifer
groundwater recharge, groundwater resource, soil moisture, evapotranspiration, lysimeter, infiltration capacity, infiltration, melt water, water balance, Finland, Hyryla; 05251. isotope fractionation, sulphate oxygen fractionation, groundwater quality, sulphate sulphur fractionation, bacterial desulphurication, Germany, Fuhrberger Feld; 11080. particle size analysis, dispersion, geostatistical simulation technique, hydraulic conductivity, micro dispersion, transport model, groundwater flow, aquifer model, conductivity distribution, 09887.

sandy beach
beach, wave energy, planning, sediment transport, 12859. wave condition, beach stability, bar morphology, 02336.

sandy channel
distributary channel, fluvial phase, uranium thorium dating, dating, weathered alluvium, Quaternary alluvium, TL age, alluvial sediment, fan delta, calcrete, diagenesis, Gilbert fan delta, Australia, Queensland, Gilbert River; 13104.

sandy loam
hydraulic conductivitiy, irrigation, salinity, salt displacement, sand, 08579. loam soil, soil disturbance, soil physical property, cattle, trampling, seedbed preparation, USA, Arizona; 07417. penetration resistance, soil bulk density, hardsetting soil, root growth, structural regeneration, UK; 12083.

sandy Mollisol
jack pine forest, total nitrogen, organic matter, available water capacity, prairie soil, Mollisol, forest soil, Entisol, Alfisol, USA, Minnesota; 08617.

sandy postglacial soil
soil temperature measurement, permafrost, postglacial marine terrace, thermal regime, Canada, Quebec, Kangiqsualujjuaq; 03912.

sandy soil
algal crust, biological crust, runoff generation, Israel, Western Negev, Nizzana Sands; 06271. bare fallowing, mulching, drainage, evaporation, zero flux boundary, soil moisture storage, moisture conservation, Niger; 07584. climatic erosion index, runoff, sediment transport, soil loss, erosion index, France, Massif des Maures; 12184. erosion control, experimental plot, Wischmeiers' erosivity index, soil conservation, erodibility, Zaire; 02739. finite difference numerical model, aqueous phase concentration, simulation model, unsaturated flow, soil water content, cation transport, 08602. fungicide accumulation, transformation product, organotin residue, leaching, fentin acetate, Netherlands; 07350. leaching, decomposition, fluroxypyr, herbicide, contaminant migration, clay soil, Sweden; 05229. podsol profile, silicate weathering, weathering rate, long term weathering, Norway, Romerike, Nordmoen; 09623. Richards equation, unsaturated flow, water content, centrifugal field, transient flow, 06341. soil hydraulic property, neutron probe, tensiometer, field capacity, rooting zone, drainage loss, soil water tension, available water content, hydrodynamic characteristic, Ivory Coast; 12230. soil microorganism, soil aggregate, aggregate formation, soil stabilisation, 00373. soil moisture content, specific retention, hydraulic conductivity, electrical resistivity, Archie's law, saturated hydraulic conductivity, vadose zone sediment, Ottawa sand, unsaturated soil, 05209. soil

surface, infiltration, runoff, soil moisture content, erosion control, Burkina Faso, Yatenga Province, Bidi Village; 06424. soil water conservation, soil compaction, tillage system, infiltration rate, 06385. water management, nutrient management, compaction, soil permeability, 09667. weeding, rainfall intensity, storm duration, total rainfall, runoff rate, rainfall intensity threshold, soil surface, water storage capacity, rain drop impact, infiltration capacity, Africa, Sahel, Yatenga Region; 12227.

sandy substratum
delta, Benin Formation, foundation structure, laboratory test, liquefaction potential, Nigeria, Niger Delta; 10705.

sandy surface soil
tillage treatment, soil physical property, Cecil sandy loam, crop rotation, 12055.

sandy-clay
cohesion, engineering-geological evaluation, Eocene(Late), clay rock, civil engineering, weathered rock, USSR, Georgian SSR, Tbilisi; 01398.

Sangamon
interglaciation, Quaternary, non glacial interval, pollen analysis, Missinaibi Formation, glacioisostatic sea, Sundance paleosol, Amery, till, Canada, Manitoba, Hudson Bay Lowlands; 07256.

Sangamon ice
radio echo sounding, structure zone, boudinage, stratigraphic disturbance, glacial ice, hydrodynamic model, interface stability, stratified fluid, boudin, model, Greenland, Summit; 07305.

Sangamon Interglaciation
Illinoian, Pleistocene stratigraphy, drumlin, superposed till, nonglacial interval, weathering, USA, Massachusetts, Boston Harbor; 03881. Isotope Stage 5e, Wisconsinan interstadial, Coleoptera, Pleistocene(Late), vertebrate remains, plant remains, insect remains, Innerkip site, Canada, Ontario, Thames River; 07259. modern analog, Sangamonian, forest history, climate, organic deposit, climatic optimum, Canada, Atlantic Coast; 07261.

Sangamonian
forest history, climate, organic deposit, climatic optimum, Sangamon Interglaciation, modern analog, Canada, Atlantic Coast; 07261. inter till sediment, pollen, interglacial, till, Illinoian, Canada, Ontario, Pointe-Fortune; 07228. intertidal rock platform, erosional unloading, crustal stress, Late Quaternary, fault movement, Aspy Fault, Canada, Cape Breton Island, Cabot Landing; 04896. Scarborough Formation, Pottery Road Formation, TL dating, sand, clay, interglacial bed, climatic indicator, Canada, Ontario, Toronto; 07260.

Sangamonian deposit
Becquets Interstade, Trois-Rivieres Stade, radiocarbon dating, TL date, last interglacial glacial, sediment, climatic optimum, Illinoian deposit, Canada, Quebec, St Lawrence Valley; 06137.

Sangamonian interglacial
Holocene epoch, soil development, paleosol, interglaical climate, palaeoclimate, Canada; 07251. vertebrate, last interglaciation, data review, Canada; 07252.

sangol
slope deposit, fire, forest, savannas, cattle grazing, rilling of slopes, gullying, recent evolution, valley, dry phase, Nigeria, Adamawa Highlands; Cameroon, Adamawa Highlands; 12038.

sanitary embankment
failure, soft clay, embankment failure, oedometer test, vane test, triaxial test, cohesion, sanitary fill, analysis, Brazil, Rio de Janeiro, Caju District; 11891.

sanitary fill
analysis, sanitary embankment, failure, soft clay, embankment failure, oedometer test, vane test, triaxial test, cohesion, Brazil, Rio de Janeiro, Caju District; 11891.

sanitation
potable water, sewerage, institutional arrangement, water supply, Philippines; 04174. waste water disposal, contaminant source, water conservation, water pollutant, water quality, water supply, 00650.

Sanson copperplate
map copperplate, Atlas Nouveau, 08028.

Santonian
sandstone, shelf facies, sea level curve, ramp margin, Muskiki Formation, Marshybank Formation, Coniacian, Canada, Alberta; 11716.

sap flow
evaporation, energy balance, sensible heat flux, heat flux measurement, Pinus pinaster stand, forest, 13540.

saprobity
inorganic nitrogen, orthophosphate, chlorophyll-a, biological oxygen demand, historical data, hydrochemistry, phytoplankton, canal, lake water quality, eutrophication, water chemistry, Netherlands, Rijnland; 04068.

saprobity index
Pantle and Buck index, surface water quality, biological index, water quality index, statistical method, jacknife, bootstrap, indicator power, 05201.

saprolite
bulk density, bucket auger, modification, undisturbed sample, 12012. clastic sediment, sediment volume, planation surface, geomorphic evolution, ablation rate, Tertiary erosion, uplift, weathering-ablation model, Canada, Quebec, North Appalachians; 13019. hardpan, cementing agent, SEM, TEM, Australia; 01616. isovolumetric process, P release rate, weathering index, atmospheric P input, rock, weathering, phosphorus budget, terrestrial watershed, USA, South Carolina, Liberty Hill; Brazil, Rio Negro; Brazil, Amazon River; 06210. montane, sediment yield, humid tropical area, rainfall, bed material, relief, Puerto Rico; 05808. pedogenesis, micromorphology, 01535. REE dispersion, laterite, Quaternary, tectonic, climatic record, planation surface, India; 12020. soil residuum, colluvium, secondary mineral, regolith, weathering, soil geomorphic relation, slope process, mica gneiss, mica schist, USA, North Carolina, Blue Ridge Front; 07420. subsurface soil creep, shear strength, cove slope, landslide, soil process, slope failure mechanism, hillslope development, humid tropical forest, translational failure, earthflow, shallow slide, Puerto Rico; 02550. volcanic ash, weathering, halloysite, kaolinite, cation exchange capacity, tephra, Cameroon; 02476.

saprolite age
planation surface, polygenetic surface, etchplanation, deep weathering, granite decomposition, landform development, china clay, growan, humid temperate weathering, UK, England, Devon, Dartmoor; Cornwall, Bodmin Moor; UK, England, Cornwall, St. Austell Moor; 00221.

saprolite zone
Precambrian, crystalline rock, aquifer yield, fracture, rock terrain, groundwater exploration, India; 11119.

saprolith
depression, Bas fond, erosion processes, planation surface, laterite crust, piping, Togo; 13022.

saprolitic decomposition
gneiss, Budel's model, deep weathered soil, inselberg, Alfisol, paleosol, genesis, substratum, dynamics, peneplain, soil formation, weathering, India; 00227.

saprolitic soil
coefficients, Miniature Compacted Tropical soil classification, soil classification, tropical soil, lateritic soil, 03797. microfabric, weathering microenvironment, characterisation, granitic, Hong Kong; 03796.

sapropel
euxinic basin, organic matter, black shale, Cretaceous, anoxia, 04852. foraminifera, anoxia, Miocene, deep water circulation, Mediterranean; 01345.

sapropel S1
stable oxygen isotope, anoxia, carbon-14, Quaternary(Late), stratigraphy framework, Mediterranean; 13084.

SAR
agricultural landuse mapping, ground truth collection, FAO, Tunisia; 12735. autocorrelation function, non Gaussian speckle, dynamic sea surface, 10431. AVHRR, vegetation monitoring, geometric calibration, Canada; 05720. BEPERS-88, snow property, ice property, 09285. classification accuracy, forest mapping, forest type, near-infrared, airborne MSS, Canada, Ontario, Chalk River; 05731. data acquisition facility, ice forecasting, land use, ERS, 05564. DTM, flooded forest, wetland ecosystem, Bangladesh; 05604. flooding detection, forest canopy, floodplain, 02218. Fourier transform, ambiguity estimation, 10312. geocoding, geological application, geometrically rectified image, 00955. geomorphometry, DEM, texture processing, classification accuracy, SPOT, 12643. ice island, ribbed texture, island orientation, shelf ice cliff, ice ridging, pressure ridge, Canada, Queen Elizabeth Islands; 01127. ice mapping, BEPERS, Baltic Sea; 09294. illumination requirement, geological structure, forested terrain, slope orientation, Canada, Canadian Shield; 08062. image analysis, simulation, GIS, 01009. incidence angle, topography, forested region, SEASAT, 02217. inertial measurement, autofocus parameter, SAR platform motion, motion compensation, 10253. Landsat TM, digital analysis, Seasat, Iceland; 11461. Landsat TM, ice sheet, microwave radiometry, 01132. lineament class, aerial photography, moraine, geological reconnaissance, Canada, Newfoundland; 12718. map library, archiving, ERS-1, 11514. map resolution, elevation map, stereo image, Italy, Panamint Valley; 09178. microwave energy, high latitude study, geometric distortion, 07907. microwave sensor, SPOT, scanner, AVHRR, 10230. microwave, forest, ecosystem, USA, Alaska, Fairbanks; 02227. mixed layer environment, ship generated internal wave, short surface wave, turbulent wake, USA, Gulf of Alaska; 08113. Monte Carlo simulation, motion effect, hydrodynamic modulation, ocean surface wave, 08114. ocean image, Tower Ocean Wave and Radar Dependence Experiment, 04643. ocean wave system, directional buoy, buoy peak wavelength, Norway; 12781. ocean wave, propagating wave, surface wave spectral information, slightly rough facet model, 05747. optical data, cloud coverage, global deforestation, 05566. pack ice, Geosat, altimeter, ice, Greenland; 11606. personal computer system, image speckle, image classification, sea ice, Baltic Sea; 09292. photogrammetric map, linear regression model, cutover mapping, forestry research, Canada, Alberta; 08098. radar backscatter, soil moisture, 11540. radiometric analysis, calibration experiment, Varan-S data, Italy, Oltrepo Pavese; 11423. resolution, RADARSAT Project, environmental monitoring, 13918. sea ice discrimination, texture statistics, sampling distance, adaptive filtering, 12794. sea ice, marginal ice zone, microwave, Arctic Ocean, Fram Strait; 12792. shape from shading, terrain slope change, height measurement, Venus; 10302. soil moisture, Canada, Oxford County; 11560. speckle noise, image registration, autofocus, intensity segmentation algorithm, change detection algorithm, neural network, 10311. spectral information, topographic information, fault, TM, SPOT, USA, California, Mojave Desert; Bristol Mountains; USA, California, Cady Mountains; USA, California, Alvord Mountains; USA, California, Granite Mountains; USA, California, Fort Irwin; 06831. terrain corrected product, ground control, image processing, software tool, geocoding, 00954. tidal cycle, internal wave, oceanographic process, Mediterranean Sea, Strait of Gibraltar; 08117. Tower Ocean Wave and Radar Dependence Experiment, ocean surface, radar dependence, 04642. velocity bunching model, distributed surface model, Lyzenga model, CCRS RADARSAT model, ORE model, 08109. wave energy attenuation, ocean wave dispersion, sea ice cover, marginal ice zone, ocean buoy data, Canada, Newfoundland; 12780. wave number, Seasat, 11462. wave spectra, wave refraction, ice cover, Canada, Newfoundland; 12779.

SAR data
sea parameter, ice parameter, 09286. stress evalution, agricultural crop, 11552.

SAR flight
ice covered area, surface measurement, 09088.

SAR image
image processing, image rectification, radiometry, 09118. speckle, edge detection, detection algorithm, thresholding operation, linear feature extraction, 07980.

SAR imagery
digitisation, ERS-1, sea ice, 09293. geocoding, ERS-1 mission, 09103. landuse classification, digitised image, Spain; 09215. sea ice, ice backscatter, ground truth measurement, 09284.

SAR platform motion
motion compensation, SAR, inertial measurement, autofocus parameter, 10253.
SAR processing
real-time monitoring, time-domain subaperture approach, 10251.
SAR satellite
global environment, RADARSAT programme, Canada; 06857.
Sarawak Chamber
Clearwater Cave, national park, limestone pinnacle, cave, Malaysia, Sarawak, Gunung Mulu Park; 00261.
Sarvis fan
Danube fan, deposition, landform sinking, sand, alluvial, Quaternary development, alluvial fan, Hungary, Great Hungarian Plain; 08332.
satellite
aircraft, Landsat radiance, cirrus case study, radiative transfer theory, observations, 12456. altimeter, ocean model, subthermocline, 02257. altimetry, bathythermograph, geoid profile, Atlantic; 06726. ARGOS, NOAA, marine animal tracking, 11579. ARGOS, telemetry, wildlife tracking, USA, Alaska; 11578. data communication, mesh network, 13765. data process, image processing, remote sensing, electromagnetic theory, radiation, sensor, aircraft, 06710. datum, African Doppler Surveys, Doppler, Nigeria; 04501. Doppler count, refraction correction, ionospheric refraction, 11439. empirical orthogonal function analysis, humidity profile, ocean, eigenvector, retrieval accuracy, microwave observation, 13567. field information, land use, change, UK; 04666. galaxy, Earth satellite, surveyor, 11414. GIS, image processing, bandwidth, information transmission, database, 13777. GIS, image, recognition, road, 02288. glacial lineation, ice sheet, Canada; 02266. hydrological monitoring, base map, water balance, Australia, Murray-Darling Basin; 02272. ice drifting, polar exploration, pack ice movement, Arctic Ocean; 10753. impact crater morphology, central peak crater, central pit crater, surface rigidity, tectonically degraded terrain, dome crater, solid state volcanism, Neptune, Triton; 01389. information system, ecological mapping, Germany; 11585. infrared data, Meteosat, remote sensing, rainfall, Africa, Sahel; 06448. ITCZ, rainfall time scale, rainfall variability, area averaged rainfall, tropical rainfall, ocean rainfall, 10038. legal protection, legal implication, remote sensing, Germany; 03271. lidar data, ice crystal, optical depth, cirrus case study, parameter relationship, 12453. lidar system, aerosol measurement, microphysical measurement, infrared model, backscatter, optical extinction coefficient, 12568. mapping system, geographic analysis system, atlas, computer, China; 06781. mapping, ocean, fracture zone, gravity anomaly, Antarctica; Australia; 02197. METEOSAT, weather monitoring, meteorological satellite, Germany, Deutscher Wetterdienst; 13893. microwave measurement, liquid water content, stratiform cloud precipitation characteristic, stratiform, cloud, 06511. microwave radiometer, cartographic referencing, snow, land-sea boundary, 00960. monitoring, soil, vegetation, grazing, semi-arid region, Australia, New South Wales; 02209. Newman, Thematic Mapper data, ferric oxide, 11547. occultation measurement, extinction ratio, stratosphere, dust, global climatology, optical climatology, tropospheric aerosol, 12562. orbit, baseline repeatability, GPS, Japan; 04493. ozone comparision, pressure, temperature, radiosonde, rocketsonde, SBUV, SAGE II, ozone gradient, 12545. ozone, TOMS, tropopause fold, jet, air intrusion, stratospheric air, tropical cyclone, cyclone upper atmospheric interaction, 10200. photograph, map, Germany; 11525. radar altimeter, continental ice, katabatic wind measurement, SEASAT, 02267. rainfall monitoring, continental rainfall, coastal sea, 09967. remote sensing, arid land, 11538. remote sensing, cartography, 02172. remote sensing, forest, wood, 09230. remote sensing, military application, international space law, ethical aspect, 10239. resource management, remote sensing, aircraft, 02287. search coil magnetometer, fluxgate magnetometer, magnetic field experiment, 03389. short term variability, long term varability, calibration, trend, ozone measurement, NOAA-9, Nimbus-7, 12525. Siberian High, Aleutian Low, sea ice cover, air-sea interaction, Sea of Okhotsk; 03079. skin temperature, nocturnal temperature inversion, temperature inversion, mountainous area, 11213. stratosphere, thermosphere, mesosphere, 08823. surface, pigment, wind, California Current, Pacific; 02259. telemetry, hydrological data, 09966. water vapour analysis, mesoscale analysis, numerical modelling, sounding retrieval, 07764. wind data, objective analysis, meteorological field, 11145.
satellite altimeter
tide gauge data, mean sea surface, geocentric reference ellipsoid, error spectrum, 12788.
satellite altimetry
eddy transport, 10434. geoidal height, gravity anomaly, airborne gravimetry, Weddell Sea; 08121. ocean, gravitational field, Atlantic; 04497. sea surface variability, satellite altitude, ground based tracking data, gravity model error, 00962. sea surface, altimeter data, seafloor morphology, 10442. semivariogram, seasonal elevation change, ablation zone, radar altimeter data, Geosat Geodetic Mission, Greenland, West Greenland; 00341. wet tropospheric correction, mesoscale dynamic topography, 06808.
satellite altitude
ground based tracking data, gravity model error, satellite altimetry, sea surface variability, 00962.
satellite analysis
biomass burning, carbon monoxide, ozone, tropics, 06691.
satellite capability
global observation, surface energy balance, climate, 03400.
satellite climatology
bidirectional reflectance, diurnal variation, radiation budget, 00696.
satellite cloud imagery
dynamic clustering method, 03010.
satellite cloud images
vortex couples, tropical cyclones, Pacific; 00751.
satellite cloud observation
cloud particle, ice crystal, stratopspheric ozone, wave length scattering, cirrus, radiometer, 04206.
satellite colourimetric measurement
chlorophyll concentration, blue light attenuation, near surface chlorophyll concentration, Atlantic, (Northwest); 10436.
satellite constellation
crustal motion, GPS, Japan, Sagami Bay; 10261.
satellite data
accurate gradient computation, AVHRR, oceanic feature detection, oceanic feature enhancement, 06888. active remote sensing technology, atmospheric environment, meteorology, Australia; 10380. aerial photograph, reclamation, peat cutting, peatland, UK, Northern Ireland; 12742. aircraft data, nitrogen dioxide, ozone, potential vorticity, potential temperature, Arctic; 00829. algorithm, land surface, insolation, albedo, longwave flux, radiation, vegetation index, soil moisture, vegetation cover, 13476. altimeter, least square collocation, gravity field, sea surface, topography, Faeroes; 09096. anticyclonic weather, fog maps, Switzerland; 13553. AVHRR, GIS, crop information system, 01116. biomass, burning, tropospheric ozone, 02036. carbon dioxide, mesosphere, thermosphere, solar heating, 04221. climate change, rainfall decline, surface water balance, Lettau climatonomy model, evapotranspiration, runoff, soil moisture, vegetation change, Africa, Sahel; 12145. climatological data, vegetation monitoring, meteorological data, image analysis, GIS, 13947. cloud transmittance, global radiation, solar radiation, 04220. convection, trace gas concentration, water vapour feedback, climate model, 07775. convective heating, diabatic initialisation, moisture adjustment, numerical weather prediction, tropical circulation, outgoing longwave radiation, 01941. crop reflectance, reflectance correlation, Turkey; 11551. data analysis, data transmission, radar, Spain; 05353. digital elevation model, metal stressed vegetation, copper, Sweden, Kiruna; 06829. evporation rate, bulk aerodynamic formula, precipitation, water vapour flux, monsoon, Arabian Sea; 00746. famine, early warning system, Africa, Sahara; 13987. GIS, vegetation monitoring, crop information system, 03425. global change, International Space Year, 12771. global circulation model, energy balance experiment, ground truth, calibration, SEBEX, Africa, Sahel; 11204. ground based measurement, middle atmosphere, 08931. humidity enhancement, latent heating profile, rate rate, frontal development, spinup time, diabatic initialisation, regional finite element model, Canada; 10103. hydrological modelling, mountainous terrain, cloud cover, snow cover, Canada, Rocky Mountains, Kootenay Watershed; 08645. National Space Science Data Center, data listing, 09081. net radiation, surface heat flux, heat flux, NOAA-7 satellite, infrared data, fair weather, cloudy situation, radiation, heat flux, France; 09977. optical depth, cirrus case study, cloud, parameter field, 12461. precipitation forecasting, rainfall estimation, Meteosat, bispectral technique, radar, 05366. radiation flux, infrared, rain estimation, 04208. radiosonde data, atmospheric correction, thermal data, 05586. regional planning, GIS, thematic map, 05757. remote sensing data, ice motion, ice edge position, Greenland Sea; 09287. remote sensing, 12580. reservoir water, agriculture, 11554. sounding station, optimal interpolation method, meteorological information, objective analysis, 12301. squall formation condition, aerological data, cumulonimbus, forecasting, squall forecasting, radar data, 06516. station data, radiative-dynamical-photochemical model, seasonal cycle, quasi biennial oscillation, ozone, 13650. storm, prediction model, forecasting, spinup problem, latent heating, precipitation rate, divergent wind, frontal zone, diabatic initialisation, regional finite element model, Canada; 10102. thermal inertia, mixed layer, depth, 04647.
satellite data interpretation
fuzzy set concept, linguistic value approach, 10249.
satellite data reception
weather radar station, radar networking, air traffic control, USSR; Poland; Czechoslovakia; 05362.
satellite derived data
forest fuel, fire management, decision support model, Canada, Ontario; 13926.
satellite derived heating rate
data assimilation, tropics region, longwave radiation, rainfall rate, 08912.
satellite derived observation scale
ice velocity, direct observation scale, Arctic Ocean, Fram Strait; 09289.
satellite image
aerial photograph, photogrammetrists, 02090. airphoto, mapping shallow water, 09263. buoy, frontal fluctuation, water temperature, East China Sea, Kuroshio Front; 06909. canonical transformation technique, Digital Elevation Model, soil survey, soil separability, tallgrass prairie, SPOT, USA, Kansas, Manhattan; 08616. cartographic database, database, 13881. cold front model, front parameter, cloud band, 10100. crevasse, iceberg calving, melt water, ice shelf disintegration, atmospheric warming, Antarctica, Wordie Ice Shelf; 09547. DEM, data visualisation, image analysis, classification, Canada; 05603. diffusion, plume, dispersion, Landsat TM, 13533. euphotic zone, chlorophyll fluorescence, phytoplankton, solar irradiance, seasonal variation, 06899. image processing, personal computer training, multispectral image, 09117. instantaneous field of view, geometrical resolution, data cumulation, 02128. Landsat image, glacier, subglacial tunnel, lake, surge, Argentina, Mendoza, Grande Del Nevado Glacier; 07303. oceanic parameter, coastal parameter, Greenland Sea; 13963. polar front, polar low, baroclinicity, vortex, cold air stream, 00753. precipitation, correlation technique, numerical weather prediction, radar imagery, nowcasting, 05449. river net, ancient river net, humification, aridisation, Pakistan, Thar Desert; 13102. shape, morphological indicator, Africa, Sahel; 02202. SPOT, spectral mapping unit, soil mapping, USA, Illinois, Ford County; 12045. storm(January 1990), wind, storm(October 1987), UK; 01829. terrain resolution, transformation, accuracy, topographic map, 03381. texture classifier, landuse classification, 11459. urban analysis, spectral band, spatial resolution, Switzerland, Lausanne; 03474. vortex, mesocyclones, mesoscale vortex, Antarctica; Weddell Sea; 01920.
satellite image data
geological mapping, mineral exploration, GIS, GIS toolkit, digital image processing, China, Xinjiang; 06816.
satellite image map
SPOT system, digital elevation model, digital imagery, orthographic satellite, USA, California; 08041.
satellite image processing

artificial intelligence, land cover classification, artificial neural network, Landsat TM, 05725.
atellite imagery
airborne magnetic survey, fracture zone, electromagnetic method, groundwater, water exploration, faulting, lineament study, Botswana; 13424. atlas, GIS, AVHRR, Canada, Manitoba; 13837. blackbody temperature, radiative transfer, dry band, radiosonde, 01813. cloud cover, ocean, Arctic Ocean; Beaufort Sea; 09173. crop type, Italy, Veneto; 04635. flood monitoring, visual interpretation, AVHRR, flood area, Bangladesh; 10447. floodplain, ox bow, backswamp, point bar, human influence, Slovak Hungarian Barrage, environmental change monitoring, geo ecological mapping, Hungary; 09532. groundwater resource exploration, remote sensing, Sudan, Hassei; 07608. habitat mapping, fauna, GIS, Landsat TM, 02236. hail damage assessment, salvage harvest, harvest, thunderstorm, Canada, Ontario, Algonquin; 09250. land classification system, environmental mapping, mapping, 09212. mapping, change detection, India, Karnataka; 02211. mesoscale model, boundary condition, humidity, precipitation, cloud water content, cloud cover, numerical weather prediction, radar, 05425. principal components analysis, digital image processing, data integration method, geophysical data, 12715. radar imagery, initialisation, mesoscale initialisation, forecast, 08955. remote sensing, electrical anisotropy, fracturation, geophysical reconnaissance, groundwater exploration, hydrogeology, air photo interpretation, Niger, Liptako; 06410. remote sensing, particle size, spectral response, suspended sediment, sediment colour, India; 13309. secular variation, snow cover, negative anomaly, seasonal mean, Northern Hemisphere; 12484. simulation, sampling landuse survey, landuse survey, 12678. soil temperature, soil vegetation atmosphere interface, thermal infrared, remote sensing, energy budget, leaf area index, evapotranspiration, remote sensing, areal evapotranspiration, Finland, Eurajoki River Basin; 10982. topographic map, exploration base map, 06787. weather radar, radar data processing, data presentation, precipitation, Canada, Quebec; 05335.
atellite imaging
airborne microwave sensor, global coverage, 10233.
atellite infrared image
frontal jet, altimetry, ocean monitoring, cross frontal cold jet, Iceland; 09964.
atellite laser ranging
perturbations, Starlette, orbit, tide solution, 02097.
atellite magnetic observation
geological analysis, magnetic anomaly, MAGSAT, South America; 03418.
atellite mapping
alpine pasture, Landsat MSS, Asia, Himalayas; 11583.
atellite measurement
aerosol property, solar radiation, straw burning episode, aircraft measurement, North Sea; 13642. ocean biology, carbon dioxide, marine sedimentary record, climate change, carbon cycle, glacial period, marine productivity, global warming, 05456. pollution, aerosol optical thickness, particle size, scattering albedo, smoke, anthropogenic pollution, aerosol, 04357. pollution, forest fire smoke, smoke, particle size, optical thickness, USA; Canada; 04358. radiosonde station, temperature change, land temperature, ocean temperature, 07646. sampling, ozone profile, lidar, electrochemical, concentration cell, balloon sonde, rocket ozonesonde, stratospheric aerosol, 04363. tropical precipitation, precipitation rate, heat source, moisture sink, precipitable water, outgoing longwave radiation, rainfall rate, 01827. ultraviolet radiation, ozone, Rayleigh scattering, backscatter, absorption coefficient, 07655.
atellite method
albedo model, mean bias error, insolation, evapotranspiration, 06460.
atellite model coupled system
complex terrain, mesoscale analysis, 07765.
atellite monitoring
desertification, arid zone, USSR, Aral Region; Middle East, Mesopotamia; 04610. snow cover, hydro electric power, snow melt runoff, Switzerland, Tavanasa; Sedrun; 09279. stereoscopic coverage, topographic data, mapping, Landsat, 03273.
atellite network
localisability, data error, 11434.
atellite observation
biological pump, colour, carbon flux, biota, carbon dioxide, Sargasso Sea; 01344. circular median filter, wind field, scatterometer, surface wave, wind forcing, 01808. cloud cover, radiometer, polar cloud, Arctic; 03112. Dobson network, Umkehr, ozone depletion, solar backscattered ultraviolet, instrument degradation, 03225. fire, acid rain, photochemical smog, monsoon, environmental effects, oil burning, oil well, Kuwait; 13646. fog dissipation, boundary layer, Japan, Kanto, Plain; Tsukuba; 00714. GEOSAT, tropical ocean, cyclone pair, wind speed, storm track, Pacific ocean, 01807. infrared spectroscopic detection, sulphur hexafluoride, stratosphere, troposphere, 00876. infrared, ultraviolet, remote sensing, ozone, 03145. latent heat flux, sensible heat flux, sea surface, inverse problem, ocean model, 12383. long wave radiation, Earth radiation budget, 03025. methane, nitrous oxide, carbon monoxide, water vapour, ozone, sunrise occultation measurement, middle atmosphere, trace molecule spectroscopy, 04394. middle atmosphere instability, phase speed, growth rate, spatial structure, temperature, ozone, 04261. mixing ratios, carbon monoxide, 04353. near infrared, infrared, brightness temperature difference, optical depth, ice particle, remote sensing, cirrus cloud, lidar, radiative transfer theory, 05374. ocean thermal forcing, cloud effect, air sea interaction, monsoon, India; 12377. orthogonal function, snow cover variation, snow, Europe; Asia; North America; 04197. polar mesospheric cloud, solar backscattered ultraviolet, spectral radiometer, solar cycle dependence, middle atmosphere, ultraviolet, albedo data, noctilucent cloud, 09954. pollution, emission, aerosol, in-situ measurement, aircraft measurement, remote sensing, 00935. radar observation, observational source, lightning, location system, mesoscale forecasting, numerical weather prediction, 00773. radar, frontogenesis, mesoscale feature, coastal front, 01904. radiative flux, energy balance, outgoing longwave radiation, surface downward flux, 01819. rainfall estimate, cloud statistics, Meteosat thermal infrared, operational system, Africa, Sudano-Sahelian Region; 10001. trace molecule spectroscopy, nitrogen oxide, nitrogen dioxide, dinitrogen pentoxide, photochemical model, reaction rate constant, photo cross section, 04386.
satellite orbit ephemeris
orthometric height data, SEASAT radar altimeter, digital elevation model, geoid model, Australia, Simpson Desert; 12627.
satellite overpass
satellite receiving station, on line retrieval, 12589.
satellite picture
irrigation area, oasis, incense trade, Saudi Arabia; 08076. sounding, plume behaviour, chimney, deposition, modelling strategy, air pollution, pollution control, 11294.
satellite positioning
measurement station vector, accurate coordinate, 06724.
satellite profile
polar vortex, stratosphere, nitrogen dioxide, potential vorticity, potential temperature, ozone, ozonesonde, lidar, 00828.
satellite programme
global change, Earth observation, Japan; 12585. METEOSAT operational programme, polar orbiting meteorological satellite, 08824.
satellite radar
radar altimeter, ice sheet, topographic change, Antarctica, Wilkes Plateau; 11605.
satellite radar altimeter
climatology, wind, sea state, North Sea; 06910.
satellite receiving station
on line retrieval, satellite overpass, 12589.
satellite remote sensing
energy balance, modelling, water balance term, Earth surface, Botswana; 11184.
satellite retrieval
ozone, nitrogen dioxide, LIMS, chemical fluctuation, vertical propagation, equatorial wave, Kelvin wave, 11350.
satellite retrieval method
available potential energy, forecasting, numerical weather prediction, 01802.
satellite selection
systematic error, GPS survey planning, precision indicator, phase reduction, 10260.
satellite sensor
telemetry, remote sensing technology, 07893.
satellite sensor system
sensor system, landuse change detection, multi date imagery, 09211.
satellite snow cover product
snow cover, hydrologic, airborne snow cover product, 11604.
satellite sounding
numerical weather prediction, humidity profile, surface temperature, microwave emissivity, cloud top pressure, temperature profile, 00767. numerical weather prediction, radiosonde measurement, temperature, humidity, 00768.
satellite survey
aerial survey, GIS, national park, UK; 09207.
satellite system
data management, environment, International Space Year, global problem, 00943.
satellite technology
NAVSTAR GPS, GIS, LIS, 06750. pollution load, lake circulation, thermal plume, USA, Lake Michigan; 08126.
satellite thermal imagery
temperature, phytoplankton, biomass, coastal transition zone, USA, California; 06898.
satellite thermal sounding
radiosonde, geopotential, temperature, 03016.
satellite to satellite tracking
GPS, tracking, Shuttle-GPS Tracking for Anomalous Gravitation Estimation, 02101.
satellite tracking
iceberg drift, forecasting, ocean current, 02268. tracking simulation, systematic error, three dimensional similarity transformation, camera station, 07905.
satellite visibility
strain change, geodetic survey, GPS, Japan, Kanto; Chubu; 12612.
satellite wind sounder
Laser Atmosphere Wind Sounder, probability distribution, aerosol backscatter, marine atmosphere, carbon dioxide wavelength, profile retrieval, wind profile, 12573.
satellite-image-derived
velocity field, ice stream, sequential satellite imagery, mass-balance, Antarctica; 12010.
saturated
unsaturated spectra, spectra spectra, gravity wave, scale dependent diffusion, wave equation, 12433.
saturated area
temporal variation, spatial variation, remote sensing, soil moisture content, runoff production, contributing area, C band scatterometer, 01704.
saturated barley field
Dalton number, Stanton number, neutral stratification, roughness height, bulk transfer coefficient, 05400.
saturated clay
biaxial apparatus, clay, consolidation history, isochoric straining, shear strength, normally consolidated, 03763. swell pressure growth, mathematical model, restrained rebound, 03809.
saturated conductivity
capillary retention, unsaturated conductivity, hydraulic conductivity, Van Genuchten capillary retention model, pore structure, 07520. infiltration equation, inverse problem, one dimensional infiltration, groundwater flow, diffusion equation, Fokker Planck equation, unsaturated flow, 06342.
saturated depth
unconfined aquifer, aquifer deformation, tidal influence, water level fluctuation, atmospheric loading, 04128.
saturated equivalent potential temperature

absolute angular momentum, equivalent potential temperature, slantwise convective instability, cyclone, precipitation band, radiosonde data, 01909.

saturated flow
groundwater flow, subsurface drainage, peak flow, rainfall intensity, rainfall runoff model, Rosenbrock optimisation technique, deterministic model, conceptual model, 06339. horizontal flow, vertical flow, hydraulic conductivity, Guelph permeameter technique, silt loam soil, Richards equation, groundwater flow, percolation test, layered soil, unsaturated flow, 11037. hydraulic conductivity, groundwater flow, refractional water flow, layered soil, stream line, colour tracer, unsaturated flow, 04114. pond seepage, seepage, three dimensional flow, groundwater flow, linear flow, radial flow, unsaturated flow, Richards equation, USA, North Carolina Barrier Islands; 05207. unsaturated flow, groundwater flow, one dimensional flow, mass transport equation, Galerkin finite element method, convection, dispersion, porosity saturation variation, Peclet number, 07526. unsaturated flow, soil hydraulic property, soil water potential, infiltration ring, disc permeameter, macropore, diffusivity, sorptivity, hydraulic conductivity, ponded infiltration, 00585.

saturated ground
freezing interface, interface path, temperature profile, laplace transform, finite difference solution, permafrost, 07284.

saturated hydraulic conductivity
clayey till, fracture, vertical hydraulic conductivity, Denmark; 00297. glacial till slope, slope, hydraulic conductivity, porosity, Sweden; 07381. hydraulic conductivity, soil moisture retention curve, drainage modelling, water balance study, soil hydraulic property, unsaturated hydraulic conductivity, 06333. macroporosity, Ultisol, maize, tillage, mulching, soil water transmissivity, sorptivity, Nigeria, Nsukka; 09766. matric flux potential, hydraulic conductivity pressure head relationship, ring factor, groundwater flow, infiltration ring, ponded infiltration, 11039. permeability, hydraulic conductivity, chalk, groundwater flow, unsaturated zone, piezometer, shallow weathered chalk, infiltration, UK, England, Norfolk; 07522. pipe flow, runoff, surficial process, rainforest, rill, gully, overland flow, rainfall characteristics, hydraulic conductivity, South America, Amazonia; 09801. porosity, compaction, forest soil, soil disturbance, logging, Andesitic Dystrochrept, bulk density, Chile; 10936. porosity, mean grain size, till, Scandinavia; 00296. soil moisture, moisture transmission, moisture retention, Typic Hapludoll soil, cultivated land, landuse, forest, grassland, available water capacity, organic carbon, bulk density, infiltration rate, 11084. sorptivity, tillage, infiltration, cumulative infiltration, ponded infiltration, 00385. surface sealing, vesicle, hydrological response, soil surface, rainfall, cover, rock fragment, infiltration, micromorphology, rock flow, rock mulch, 03930. till soil, dug well, measurement, hydraulic conductivity, inverse auger hole method, 01713. tillage practice, infiltration, groundwater flow, soil characteristic, macroporosity, 06336. unsaturated zone, constant head well permeameter, saturated unsaturated flow, sorptive number, Australia, Western Australia; 07528. vadose zone sediment, Ottawa sand, unsaturated soil, sandy soil, soil moisture content, specific retention, hydraulic conductivity, electrical resistivity, Archie's law, 05209.

saturated lateral flow
groundwater flow, inter flow, groundwater discharge, stream flow generation, fissure, joint, flow path, infiltration, tensiometer, piezometer, overland flow, 05127.

saturated media
heterogeneous flow system, random walk particle method, advection process, dispersion process, unsaturated media, variable flow field, plume dispersion, mixing, numerical model, three dimensional method, solute transport, groundwater flow, 08776.

saturated overland flow
soil moisture accounting model, evapotranspiration flux, Hortonian overland flow, rainfall-runoff model, catchment dynamics, hillslope hydrology, antecedent condition, overland flow, subsurface flow, model calibration, streamflow time series, 04042.

saturated paste
soil salinity, electrical conductivity, salinity, 07397.

saturated porous layer
temperature distribution, groundwater flow, time dependent vertical temperature distribution, instability, 06350.

saturated soil
physical non equilibrium model, groundwater flow, adsorption, dispersion, solute transport, 04105.

saturated soil extract
soil saturation extract, soil salinity, chloride ion, saline soil, electrical conductivity, Iran, Great Desert; 13279.

saturated thickness
aquifer classification, hydrogeology, database, groundwater modelling, aquifer depth, water flow, hydraulic conductivity, seepage velocity, hydraulic gradient, USA; 07535.

saturated unsaturated analysis
water flow, slope, stability problem, Brazil, Rio de Janeiro; 10714.

saturated unsaturated flow
infiltration, soil property, groundwater flow, diffusion model, constant pond depth, sorptivity, absorption model, 08763. sorptive number, saturated hydraulic conductivity, unsaturated zone, constant head well permeameter, Australia, Western Australia; 07528.

saturated unsaturated soil water flow
pesticide leaching, pesticide root zone model, leaching, model evaluation, solute transport model, groundwater quality, 12257.

saturated volume fluctuation
recharge, storativity, water balance equation, water level response, groundwater recharge, neutron probe measurement, saturated zone, unsaturated zone, soil matrix flow, preferred pathway, South Africa, Karoo, Dewetsdorp; De Aar; 11055.

saturated water flow
till genesis, hydrogeological property, lodgement till, melt out till, flow till, till genesis, hydraulic conductivity, 00291.

saturated zone
unsaturated zone, performance assessment modelling, groundwater flow model, model uncertainty, parameter estimation, radioactive waste disposal, USA, Nevada, Yucca Mountain; 09845. unsaturated zone, soil matrix flow, preferred pathway, saturated volume fluctuation, recharge, storativity, water balance equation, water level response, groundwater recharge, neutron probe measurement, South Africa, Karoo, Dewetsdorp; De Aar; 11055. water balance, waste disposal, geohydrological study, radioactive waste, groundwater flow, water quality, tritium movement, hydrogeology, USA, Illinois, Sheffield; 11069.

saturated-unsaturated flow
groundwater flow, Richards' equation, distributed mass matrix, subsurface flow, hillslope, lumped mass matrix, 01703. groundwater flow, soil cavity, water filled cavity, quasilinearisation, 01708.

saturation
colour model, transform, 08035. sea water, interstitial water, water column, salinity, phosphate, Spain, Fuente Piedra Lagoon; 00029.

saturation deficit
sensible heat flux, evaporation model, suburban evaporation regime, advection, landuse effect, surface energy balance, latent heat flux, atmospheric influence, Bowen ratio, moisture availability, soil moisture, 12153.

saturation extract
calcium to total-cation ratio, calcium, nutrient availability, 00452.

saturation index
WATEQ4F, acid mine drainage, speciation, groundwater quality, thermodynamic error, mineral saturation, analytic error, sensitivity analysis, 13435.

saturation limit
gravity wave, middle atmosphere, Rayleigh, lidar, case study, mesosphere, stratospehre, 12305.

saturation mixing ratio
storm, synoptic analysis, mesoscale kinematics, water release rate, condensation, deposition, cloud, radar, updraft, USA, Utah; 04294.

saturation overland flow
runoff prediction, physical model, anthropogenic effect, flood event, mountainous region, curve number method, alpine watershed, Soil Conservation Service curve number method, variable source area concept, Switzerland; 08679. subsurface flow, hydrograph, forested catchment, landscape partitioning, runoff modelling, mountainous terrain, contour based method, Australia, (Southeast); 08680.

saturation paste method
soil water content, field capacity, wilting point, saturation percentage, New Zealand; 09739.

saturation percentage
saturation paste method, soil water content, field capacity, wilting point, New Zealand; 09739. sodium adsorption ratio, electrical conductivity, salt precipitation, soil salinisation, water quality effect, irrigation, Alfalfa, Williams loam, Barnes loam, Svea loam, Parshall loam, USA, Great Plains; 10856.

saturation permeability
rainfall intensity, infiltration model, rainfall duration, Burkina Faso; 12228.

saturation pressure
sea surface temperature, radiation, tropical cyclone simulation, convective adjustment, 01896.

saturation theory
universal spectrum, wave spectrum, atmospheric temperature, velocity fluctuation, stratosphere, 10061.

saturation vapor-pressure curve
combination equation, evaporation, approximation error, Penman equation, 12151.

saturation vapour pressure
formulae origin, Goff Gratch equation, Formula of Magnus, Antoine equation, 10121.

saturation vapour pressure vs. temperature curve
evapotranspiration, Penman equation, Penman-Monteith equation, energy budget, surface temperature, air temperature, flux density, latent heat, 01641.

saturation zone
liquefaction, debris flow, geological aspect, hydrogeological aspect, crystalline bedrock, Switzerland, Alps; 06035. soil water storage, forest hydrology, hillslope hydrology, soil water dynamics, fine textured soil, infiltration, neutron moisture meter, tensiometer, gypsum block, Australia, Western Australia; 02902.

savanna
algae, carbonate, tufa, Australia, Western Australia, Napier Range; 02349. ecosystem pattern, Quaternary, climatic change, stone line, landform development, landscape development, soil moisture balance, forest, Brazil; 05999. nitrogen oxide, nitrous oxide, emission, soil, fertilisation, forest, Venezuela, Guayana Shield; 11326. nutrient status, soil fertility, nutrient rich patch, dry savanna, Africa, (Southern); 09769. organic carbon, nutrient deficiency, soil chemical property, tropical soil, organic matter, decomposition, grazing, Nigeria, Guinea Savanna Zone; 13295. Sahel, natural vegetation, semi desert development, aerial picture, vegetation degradation, Niger; 08085. soil, Maya collapse, forest growth, anthropogenic control, lake, palaeolimnology, pollen, 08160. surface crusting, wet savannah, aggregate, soil erodibility assessment, crusting, rainfall simulation, catena, organic matter content, Ivory Coast; 03947. thermal emissivity, emissivity box, vegetation cover, Botswana; 12753. tree leaf production, vegetation index, primary production, AVHRR, NDVI, monitoring, Senegal; 13950. tree, ground radiometer, radiometer, transmission property, Africa, (West); 13933.

savanna climate
soil sampling, soil property, soil variability, land facet, Nigeria; 07429.

savanna grassland
lake level decline, seasonal climatic change, salt lake, steppe vegetation, India, Thar Desert; 06108.

savanna site
barotropic result, inertial oscillation, low level jet, sea breeze arrival, katabatic effect, dry season, Australia; 13515. boundary layer process, Koorin experiment data(1974), surface flux, heat flux, stress, inertial oscillation, sea breeze, dry season, Australia; 08871.

avanna soil
atmospheric element source, soil chemical property, vegetation gradient, organic matter, forest-grassland, cation exchange capacity, Venezuela, Orinoco Llanos; 12103. silt, Harmallan dust, soil mineralogy, clay mineral, soil chemical property, Nigeria; 12110. tropical soil, organic matter content, soil fauna, catena, forest savanna soil, denitrification, nitrogen mineralisation, carbon mineralisation, Ivory Coast, Lamto; 10942.
avanna vegetation
limestone, rock control, slope profile, tropical limestone, Australia, Western Australia, Napier Range; 13063.
avanna woodland
Acacia, Terminalia, Landsat, SPOT, vegetation cover, Botswana; 01105.
avannah
gullying, soil erosion, tropical region, Brazil, Brasilia; 00360. nitric acid, ammonia, tropical atmosphere, vegetation, burning, nitric acid seasonal variation, ammonia seasonal variation, 06547.
avannah catchment
evapotranspiration, computer model, stream flow, runoff, water balance, water exchange transfer, Ivory Coast; 06297.
avannas
cattle grazing, rilling of slopes, gullying, recent evolution, valley, dry phase, sangol, slope deposit, fire, forest, Nigeria, Adamawa Highlands; Cameroon, Adamawa Highlands; 12038.
ayif Formation
facies, palaeoenvironmental setting, lacustrine carbonate, spring travertine, terminal lake, Pleistocene, lake, Israel, Arava Valley; 03877.
BUV
SAGE II, ozone gradient, satellite, ozone comparision, pressure, temperature, radiosonde, rocketsonde, 12545.
cald formation
seepage scald, grassland, hydrological property, salinity, Australia, New South Wales, Yarralaw; 08638.
cale
object definition, aerial photography, small format photography survey, 02091.
cale 1:50 000
colour map, geomorphological map, Poland, Sawin; 01414.
cale analysis
forecasting, tropical cyclone, cyclone track, ITCZ region, 12474.
cale analysis model
thermohaline circulation, melting rate, Younger Dryas event, salinity flux, continental ice volume, oscillator feasibility, salinity driven oscillator, salt oscillator, glacial Atlantic, Atlantic; 08441.
cale collapse
semi Lagrangian solution, inviscid Burgers equation, 07627.
cale dependence
spatial feature, planar graph, 01052.
cale dependent diffusion
wave equation, saturated, unsaturated spectra, spectra spectra, gravity wave, 12433.
cale distortion
compound river channel, boundary effect, velocity distribution, vertical scale, water depth, momentum transfer, flood plain, river channel model, 05181.
cale factor
grid convergence, Transverse Mercator projection, spheroid, complex number theory, 05691.
cale interaction
blocking, forecast model atmosphere, weather predictability, 10085.
cale invariant topography
spatial order, ripple, polygonal pattern, drainage network, geomorphological spatial self organisation, geomorphology, periodic bedform, patterned ground, 05986.
cale mismatch
ecosystem interaction, atmosphere interaction, biological system, South Africa; 12359.
cale model test
wind break, coating agent, environmental impact, coal storage pile, wind tunnel, pollution reduction, 11312.
cale modelling
temperature, ripple, dune, flume, hot water modelling, 02295.
cale problem
surface moisture, moisture flux, evaporation, hydrologic model, general circulation, climate model, 07700.
cale reduction
mathematical morphology, contour smoothing, 08053.
cale selection
convection, sloping terrain, wind shear, baroclinicity, moist convection, 01853.
cale separation
cyclogenesis, orographic forcing, baroclinic wave, lee cyclogenesis, Mediterranean; 01918. orographic disturbance, mesoscale structure, lee cyclogenesis, Europe, Alps; 04301.
cale space
multi resolution method, iterative algorithm, clustering, 06742. topography, landform, fingerprint, fractal terrain, 03696.
caled chrysophte
lake water quality, biological monitoring, indicator organism, pH, USA, Connecticut; 02855.
caled chrysophyte
pH reconstruction, algal microfossil, palaeolimnology, canonical correspondence analysis, total alkalinity, acidification, lake water quality, USA, New England; 04062.
caila Rossa
Cretaceous, bentonite, montmorillonite, volcanic ash, Campanian, smectite, ash, Italy, Marchigiano Appenines, Furlo Gorge; 01354.
cing
avalanche speed, run-out distance, dense granular flow, granular flow concept, prediction, model, 01410. fractal, geophysics, non linear variability, 07629. intermittency, data variability, climatological data, 07750. rapid determination, corrosion property, surface water, chemical composition, seasonal change, carbon dioxide, nomogram, 02703. social study, economic study, transformed image, USA, New York, Troy; 03482.
scaling function
structure function, turbulent flow, shear flow, 07635.
scaling iteration
cascade model, rain, cloud, 07774.
scaling law
scour, physical model, movable bed, sediment transport, spatial lag, 05789.
scaling parameter
random surface, self affinity, landform, measurement, fractal geometry, 03697.
scaling procedure
braided river, sand bed river, river, channel pattern, Bangladesh, Jamuna River; 07034.
scaling property
fractal dimension analysis, cloud pattern, ITCZ, 07772.
scallop
tidal current, fishery, wind, bottom sediment, Chlamys varia, France, Bay of Brest; 04786.
scalloping
calcite, sandstone, weathering, reaction front, fingering, 04848. limestone solution, sea water, algae, marine influence, phytokarst, photokarren, Ireland, County Clare, Burren; 10724.
scan digitising
queued editing, editing, 11428.
scan line processing
parallel computer, grid cell GIS, data management technique, 07998.
Scandinavian ice sheet
ice sheet, ice thickness distribution, isostatic rebound, lithosphere thickness, autochthonous block field, geometry thickness, isostatic loading, Weichselian(Late), Norway; 09577.
scanned map
remote sensing, vector, GIS, cartographic document, document, Canada, Alberta; 13779.
scanner
AVHRR, SAR, microwave sensor, SPOT, 10230. digitisation, digital topographic data, topographic data, cost-benefit study, Canada; 13888. temperature, thermal infrared spectral index, TIMS, 09176. vectorising, automatic feature coding, automatic digitising, map production process, 12601.
scanner measurement
nonscanner measurement, Earth Radiation Budget Experiment, radiation budget, 06436.
scanner system
raster archive, hybrid, GIS, photogrammetric camera, remote sensing, Germany; 06789.
scanner technology
raster, optical disk technology, SMARTSCAN, 05579.
scanning
image processing, mathematical morphology, GIS, data acquisition, 05580. imaging, infrared sensor, performance model, 09175. printing plate, raster map data, 08049.
scanning digitiser
CCD scanner, GIS application, digitising table, 07932.
scanning efficiency
service bureaux, cartographic document, digitising process, raster scanning, 06717.
scanning electron microscope
electron imagery, microcrack, hackly fracture surface, sand size, clast, debris avalanche deposit, particle particle interaction, USA, Washington, Mount St. Helens; 09507. zircon, rutile, podsol, chronosequence, aeolian sand, soil age, pedogenic change, weathering, post depositional weathering, Australia, Queensland, Cooloola; 09629.
scanning radiometer
albedo, ocean surface, spectral absorption, solar radiation, marine stratocumulus, cloud, 04222. AVHRR, ERS-1, 11422.
scanning technology
error detection, geographical database, digitising, manual digitising, 05575.
Scarborough Formation
Pottery Road Formation, TL dating, sand, clay, interglacial bed, climatic indicator, Sangamonian, Canada, Ontario, Toronto; 07260.
scarp bevel
age, bevel inclination, fault scarp age, fault scarp, dating, soil strength behavior technique, cohesive strength, scarp height, USA, California, Owens Valley, Lone Pine Scarp; Nevada, Pleasant Valley; USA, Nevada, Dixie-Valley; USA, Nevada, Fairview Peak; 02531.
scarp height
rupture, Pleistocene(Late), hanging wall, vertical offset, neotectonic history, geometric segmentation, Campo Grande Fault, fault, Cenozoic fill, calcrete, USA, Texas, Hueco Basin; 11880. scarp bevel, age, bevel inclination, fault scarp age, fault scarp, dating, soil strength behavior technique, cohesive strength, USA, California, Owens Valley, Lone Pine Scarp; Nevada, Pleasant Valley; USA, Nevada, Dixie-Valley; USA, Nevada, Fairview Peak; 02531. uplift rate, faulting, dated, Ohakean terrace, offset, Wellington Fault, radiocarbon dating, terrace, aggradational deposit, vertical offset rate, New Zealand, Woodville, Ballantrae Research Station; 03721.
scarp retreat
weathering rate, mass diffusion model, geomorphology, modelling, slope development, landslide, Japan; 03699.
scattering
albedo, ultraviolet irradiance, plateau, diffuse irradiance, Antarctica, Plateau Station; 09976. discrete angle radiative transfer, optical media, cloud, 06439. Eddington's approximation, ultraviolet radiation, aerosol, 05377. electromagnetic energy, sea surface, 02251. fine particle, coarse particle, absorption, nitrogen dioxide, particle, extinction, light extinction budget, 06438. infinite element, unbounded domain, radiation condition, wave radiation, 05786. radiative transfer, anisotropic atmospheric, 08837. tree canopy, Michigan Microwave Canopy

Scattering model, microwave, canopy, 02219.
scattering albedo
radiative transfer, dust cloud, photoacoustical technique, short-path transmissiometry, aerosol dosimetry, mass extinction coefficient, 03202. smoke, anthropogenic pollution, aerosol, satellite measurement, pollution, aerosol optical thickness, particle size, 04357.
scattering coefficient
computer simulation, waveform, radar altimeter, 12598. optical depth, aerosol optical property, aerosol, boundary layer, cloud microphysics, meteorological observation, Atlantic; 02043. underwater irradiance, turbidity, phytoplankton, optical property, surface water quality, absorption coefficient, Australia, New South Wales, Murray-Darling Basin; South Australia, Murray-Darling Basin; 07498.
scattering layer
gravity wave, reflectivity structure, mesosphere, 08834. stratosphere, radar, frequency domain interferometry, middle and upper atmosphere radar, 08829.
scattering model
Bragg resonance condition, radar wavelength, ocean surface, 00994.
scattering property
radar scattering, landform, geologic unit, Arecibo image, Pioneer Venus Radar Mapper, Venus; 02524.
scattering ratio
aerosol depolarisation, stratosphere, lidar, polar stratospheric cloud, polar vortex, nitric acid trihydrate, Arctic; 00895. ice crystal, lidar, polar stratospheric cloud, polar vortex, depolarisation ratio, Arctic; 00896. ice crystal, polar stratospheric cloud, lidar, polar vortex, adiabatic cooling, depolarisation ratio, Arctic; 00765.
scatterometer
imaging radar, vegetation, active radar system, 12759. surface wave, wind forcing, satellite observation, circular median filter, wind field, 01808. wind data, ocean surface, wind divergence, mapping technique, 06434.
scatterometer data
forecast, quality assurance, quality validation, European Centre for Medium Range Weather Forecasts, ship observations, 13619. Seasat, analysis forecast model, forecast, Ark Royal storm, European Centre for Medium Range Weather Forecasts, 13620.
scatterometer observation
wind stress, ocean, baroclinic boundary layer model, thermal advection, stratification, surface wind, low level transport, mass transport, Seasat, 10045.
scatterometer system
SMMR, sea surface emissivity, SEASAT, 10384.
scatterometer wind
surface roughness, surface stress, temperature, stability, stratification, 00730.
scavenger
beryllium-10, cosmogenic radionuclide, accumulation rate, sedimentation rate, magnetostratigraphy, Arabian Sea, Owen Ridge; Indus Fan; Arabian Sea, ODP Site 720; Arabian Sea, ODP Site 722; Arabian Sea, ODP Site 728; 11701. city, anthropogenic source, suspended particle, bed sediment, heavy metals, agriculture, India, Krishna River; Bay of Bengal; 01199.
scavenging
acid rain, mass transfer, washout, sulphur dioxide, gas absorption, wind tunnel, water drop, hydrogen peroxide, 09019. ammonium, nitrate, sulphate, sulphur dioxide, S(IV) oxidation, vertical transport, ion chromatography, field study, fog, aerosol, 13658. bioturbation, plutonium, pathway, radionuclide, Baltic Sea; 12912. contamination, hydrocarbon, alkane, PAH, anthropogenic input, Mediterranean Sea, Gulf of Fos; France, Rhone Delta; 12911. deposition, atmospheric temporal variability, lead concentration, trajectory, aerosol particle, continental source, Mediterranean Sea; 10196. dispersion model, wet removal process, chemical cloud model, cloud chemistry, cloud microphysics, 02008. dust transport, lead, copper, manganese, atmospheric deposition, aerosol, trajectory analysis, long range transport, continental source region, France, Corsica; Africa, Sahara; 06586. microphysics, transport, trace metal, precipitation cloud, aerosol, particle, lead concentration, rain, wet deposition, 13705. ozone, nitric oxide, urban plume, photolysis, Canada, Alberta, Calgary; 06558. phytoplankton, anthropogenic hydrocarbon, macroaggregate, thorium, seafloor, residence time, diffusion, USA, Washington, Puget Sound; 08163. pollutant, rain composition, convective shower, frontal precipitation, aerosol particle, in cloud, below cloud, absorption, nucleation, 06554. precipitation, deposition, nitrate, ammonium, 11375. Saharan dust, transport event, deposition, precipitation, aerosol, copper, manganese, long range transport, Mediterranean Sea; 13733. sea water, particulate sorption, particulate matter, rock weathering, organic matter, 09449. sea water, sediment trap experiment, trace metal, sinking, biogenic silica, lateral transport, 09446. sediment water interface, settling particle, continental shelf, radioisotope, Pacific, Okinawa Trough; East China Sea; 09369. sequential sampling model, cloud dynamics, precipitation rate, pollutant rain concentration, pollutant, 06553. submicrometer, aerosol particle, nucleation, 11264. troposphere, nitrate, dinitrogen pentoxide, nitrogen dioxide, nitrogen, radical decomposition, 05526. wet deposition, particulate material, below cloud scavenging, precipitation, 13697.
scavenging coefficient
radionuclide, radioactive fallout, radar, empirical coefficient, Finland; USSR, Chernobyl; 13659.
scavenging efficiency
cloud chamber, small crystal, aerosol, cirrus cloud, 13711. deposition wet, background sulphur concentration, trajectory analyses, background, sulphur, UK, Northern Ireland; 13724. wet deposition, aerosol, nucleation, in cloud scavenging, precipitation, hydrometer concentration, winter, 13710.
scavenging mechanism
scavenging ratio, air mass, trajectory, rain volume, rain rate, stratiform situation, convective situation, 12507.
scavenging process
suspended particle, sinking particle, marine organism, bioelement, eutrophication, Japan, Osaka Bay; 09389.
scavenging rate
aerosol, drizzle drop, precipitation drop, particle, collision efficiency, below cloud scavenging, 13695.
scavenging ratio
air mass, trajectory, rain volume, rain rate, stratiform situation, convective situation, scavenging mechanism, 12507. calcium, sodium, magnesium, potassium, surface level concentration, deposition, dry deposition, aerosol, precipitation, 07887. deposition, sulphur, nitrogen, chlorine species, nitric acid, hydrochloric acid, ammonia, UK, England; 12541. source region, acid related compound, trace metal, winter, snow scavenging ratio, trajectory analysis, acid deposition, USA, Michigan; 12509.
scavening
snow crystal, acid snow, cloud chemistry, sulphur dioxide, 06550.
scenario
impact assessment, dispersion model, caesium-137, nuclear weapon testing site, radionuclide, marine environment, Pacific, French Polynesia; 11316. projection, greenhouse warming, Intergovernmental Panel on Climate Change, ocean model, polar ocean, 11279.
scene
image detection, runway, airport, 02122.
scene dependent radiometry
Thematic Mapper, information content, 07939.
scene recognition
genetic algorithm, feature labelling, semantic net, fitness function, 03336.
scene registration
aerial image analysis, automated interpretation, stereo disparity image, ground truth scene segmentation, 06713.
scene view
convex projection, vector field restoration, 12650.
Schamov equation
Schoklitsch equation, flood condition, mountain stream, sediment transport, bedload discharge, sediment trap technique, unsteady flow, 08707.
Scheggs Bed
Eocene, Green River Formation, lithofacies, sandstone, beach, mudflat, USA, Colorado, Sand Wash Basin; 07041.
schistosity
neotectonics, tectonic geomorphology, Cainozoic(Late), peneplain, Miocene, palaeorelief, transpressional folding model, New Zealand, Otago, Garvie Mountains; Old Man Range; 00241.
Schlumberger
facies recognition, dipmeter, Stratigraphic High-Resolution Dipmeter Tool, electrofacies, dip data, 00193.
Schlumberger array
groundwater exploration, village water supply, fissured zone, fractured zone, crystalline formation, resistivity profiling, horizontal profiling, square array, Benin; 06359.
Schmidt hammer
enhanced boulder weathering, snow patch, nivation, chemical weathering, Norway, Jotunheimen, Jostedalen; 00351. enhanced boulder weathering, snowpatch, rapid weathering, permafrost, nivation, weathering, Switzerland; UK, Scotland; Norway, Glittertinden; 00352. weathering, joint, deep regolith, accelerated erosion, rill, rock property, bedrock incised rill, gully, Africa, (Southern); 08555.
Schmidt hardness
compressive strength, Youngs modulus, carbonate rock, rock strength, deformability, UK, England; Greece; 13049.
Schmidt rebound
infiltration capacity, v-shaped valley, headward erosion, mechanical strength, slope evolution, valley side slope, rock property, hilly land, rock hardness, tensile strength, Japan, Hokkaido, Shiranuka Hill; Soya Hill; 08402.
Schmidt Test hammer
boulder, isostatic uplift, rock weathering rate, Rhizocarpon geographicum, measurement, calibration, weathering process, lichenometric investigation, wave washed moraine, Sweden, Bothnian coast, Badamalen; 07321. isostatic uplift, rock weathering rate, raised beach, measurement, calibration, weathering process, wave washed moraine, bedrock, Sweden, Norrland; 03928.
Schmidt thermal stability
Birgean wind work, humic lake, heat resistance, lake, mixing, forest lake, heat budget, Finland; 13332.
Schofield equation
frost action, clay soil, water location, suction, unfrozen water, ice location, clay shrinkage, 07282.
Schoklitsch equation
flood condition, mountain stream, sediment transport, bedload discharge, sediment trap technique, unsteady flow, Schamov equation, 08707.
Schoklitsch sediment transport formula
glacier, melt water, bedload, sediment yield, bed width, particle size, mountain stream, sediment trap, rating curve, transport formula, Helley Smith bed load sampling, Switzerland, Valais, Bas Glacier d'Arolla; 08713.
school
cartographic work, exercise book, France; 09162.
school atlas
atlas, exonym, standardised name, 09140. production cost, economic map, 10357.
school facility planning
address matching, GBF/DIME system, rural problem solving, 08020.
school geography
map, cartographic teaching, 09165.
School of Military Survey
Mekometer, baseline calibration, 05597.
Schroeters ratio
crater, radar result, Martian crater, radar altimetry data, lunar crater, intercrater plain, degraded carter, Mars; 10686.
Schumann-Runge band
absorption cross section, ozone, band oscillator strength, 06437.

science
remote sensing, psychology, perception, 04467. technology, ecosystem, acidification, modelling, 02783.
scientific concept
teaching, snow, field teaching medium, earth science, 09609.
scientific information system
user inferface, 10487.
scientific prediction system
sea level, surge event, coastal hazard, evacuation system, warning system, 06168.
scientific recognition
soil science, soil research, 09647.
scientific research
epidemiology, GIS, policy recommendation, 10480.
scientific visualisation
ARC/INFO, vector based GIS, data storage, temporal component, 05639.
Scilly Till
lobate surge, deformable marine sediment, sedimentology, micropalaeontology, glacimarine sediment, UK, Celtic Sea; 04959.
scintillation
path averaged flux, heat flux, convection, refractive index structure, sensible heat flux, latent heat flux, 13512.
scintillation method
orthoxylene, groundwater chemistry, radon, Canada, Quebec; 07546.
Scirocco wind
radionuclide, wind stress, Bora wind, Adriatic Sea, Gulf of Trieste; 02034.
scleractinian
rhodolite, sponge, Holocene, coral, algae, reef, shelf environment, 08253.
Scots pine
climate change, greenhouse effect, forest retreat, rapid change, range limit, 13626. forestry detection, GIS, stand index, Landsat TM, 09237. Landsat TM, SPOT 1, HRV information, forest management, 09228.
Scottish Readvance
delta sediment, weathered sediment, deep weathering, glacial history, Devensian, downwasting, proglacial sediment, UK, England, Cumbria; 13133.
scour
bedform, depression, turbidity current, sonar image, echo sounding, Canada, Newfoundland, Grand Banks; 02360. flocculation, erosion, deposition, fine sediment, consolidation, accretion, entrainment, 04729. mixing layer, channel confluence, hydraulic geometry, channel, bar, 09322. physical model, movable bed, sediment transport, spatial lag, scaling law, 05789. storm, beach profile, coastal process, structure, erosion, 01254.
scour depth
bed form, protection work, bridge pier, 04765. junction angle, discharge ratio, bed morphology, tributary:main channel discharge ratio, river dynamics, channel confluence, sediment transport, 08704. velocity, vortex, bed geometry, erosion, flow depth, 11650.
scour protection
erosion, riffle, river bottom, dune, tunnel, buoyancy, flood, scouring, Argentina, Parana River, Parana-Sante Fe Tunnel; 05882.
scouring
scour protection, erosion, riffle, river bottom, dune, tunnel, buoyancy, flood, Argentina, Parana River, Parana-Sante Fe Tunnel; 05882.
scree formation
cold desert, Quaternary deposit, landscape evolution, aeolian deposit, terrace gravel, hill slope, colluvium, loess, New Zealand, Southland; 07151.
scree slope
tree line, debris laden snow avalanche, avalanche, talus, fluctuation, forest margin, Canada, Quebec, Gaspesie; 02547.
screen based map
printed map, video disc, 02169.
screw plate test
settlement, deformation, triaxial test, embankment, deformability characteristic, consolidation characteristic, Bangkok clay, 06022.
screwplate test
triaxial compression test, Danish Code of Practice, strength, sand, in situ testing, Denmark, Sollerod; 03823.
Scythian
greenschist, lithofacies, fan delta, metamorphic, Mesozoic, clastic, Italy, Stubai Alps; Austria, Stubai Alps; 04822.
sea
accuracy, GPS positioning, Korea; 02080. mesoscale disturbance, gravity wave, mesoscale variability, storm, wind speed, 11225. mixing, water balance characteristics, vertical mixing, environmental tritium, groundwater, runoff, water exchange process, tritium, lake, USSR, White Sea; Black Sea; USSR, Caspian Sea; USSR, Barents Sea; USSR, Azov Sea; USSR, Issyk Kul Lake; 07483. navigation, Leslie-DeLury depletion experiment, trawl efficiency, 02089. optical property, FORTRAN, radiation, spectrometer, 04636.
sea beam data
stochastic model, abyssal hill, seafloor topography, ridge process, seafloor model, SeaMARC II, bathymetry, Pacific, East Pacific Rise; 09506.
sea bed
box corer, sampling, kasten core barrel, core, 01360. engineering, fluid force, friction, shear stress, water depth, wave, 00001. hazard prediction, hydrocarbon drilling, GIS, sea surface, Canada, Labrador Shelf, Grand Banks; 13907. ocean disposal, consolidation, cap design, dredging, contamination, USA, Connecticut; 00105. oxidation, sediment-water interface, diffusive flux, pore water profile, organic carbon, Indonesia, Savu Basin; 00182.
sea bed deposit
sedimentology, estuarine hydrography, hydrography, UK, England, Plymouth Sound; 09197.
sea bed morphology
bathymetry, morphology, plate tectonic, polar ocean, Ross Sea; Weddell Sea; Arctic; 03870.
sea bed sample
Shipek grab, seismic record, glacial sequence, interglacial formation, Quaternary map sheet, British Geological Survey, North Sea; 10771.
sea bed sediment
Quaternary geology, bathymetry, palaeovalley, sheet 49<>oN-04<>oW, British Geological Survey, UK, Channel Islands, Guernsey; English Channel, Hurd Deep; 01421. Quaternary geology, Shipek grab, bathymetry, sediment thickness, rock head contour, bedform, biogenic carbonate, sand sorting, British Geological Survey, UK, England, Hampshire, Wight; Solent; 07144.
sea bottom
breakwater, flow theory, offshore structure, pore water, 03500. continental shelf, sediment discharge, sedimentation, delta, Bohai Sea; Yellow Sea; China, Huanghe River; 12873. mapping, ocean, bathymetry, 04646. sea level rise, baseline, geoid, meteorology, North Sea, Helgoland; 00058. storm surge, sediment budget, beach, coast, nearshore area, sand, Germany, Probstei Coast; Baltic Sea; 00054.
sea bottom sediment
algal bloom, suspended sediment, sediment trap, sedimentation, faecal pellet, Adriatic Sea, Gulf of Trieste; 04789.
sea boundary condition
reduced gravity model, wind, basin, circulation, Spain, Catalan Sea; 12387.
sea boundary layer flow
turbulence model, coupled boundarey layer structure, air sea boundary layer, boundary layer structure, 11228.
sea breeze
aerosol, meteorological condition, carbonaceous species, solar radiation, temperature inversion, USA, California, San Gabriel Valley; 02046. cloud, convection frequency, geographic feature, GOES West satellite, deep convection, USA; 12462. convective mixing, valley wind, mixing layer, Japan, Tokyo; 01844. convergence line, non eulerian numerical model, Spain, Mallorca; 08961. drainage flow, seasonal condition, coastal site, sulphur dioxide, nitrogen oxide, ozone, Spain, Castellon; 12533. dry season, savanna site, boundary layer process, Koorin experiment data(1974), surface flux, heat flux, stress, inertial oscillation, Australia; 08871. emission, nitric oxide, urban atmosphere, photochemical air pollution, dispersion model, ozone, Greece, Athens; 03150. frontogenesis, aircraft based study, 08956. internal boundary layer, wind energy, Monin-Obukhov similarity, surface roughness, 00733. local breeze, breeze effect, emission, diffusion, industrial area, diurnal cycle, complex terrain, Italy, Genoa; 11199. local prediction, initial condition, numerical weather prediction, predictability, Argentina, La Plata River; 04290. mesoscale breeze variation, land sea breeze, 10090. non-hydrostatic mesoscale model, radiative heating, longwave radiation, shortwave radiation, surface temperature, land breeze, Greece, Athens; 01911. primitive equation model, boundary layer, frictional forcing, semi-geostrophic model, 00719. roughness length, friction velocity, surface temperature, mesoscale model, surface based perturbation, 05420. turbulent diffusion, Gaussian plume model, wind veering, pollutant dispersion, 05473. urban complex, frontal case, suburban area, breeze vertical structure, Japan, Tokyo; 10014. urban pollution, pollution, photochemical pollution, nitrogen oxide, non-methane hydrocarbon, Taiwan, Taipei; 00854.
sea breeze arrival
katabatic effect, dry season, savanna site, barotropic result, inertial oscillation, low level jet, Australia; 13515.
sea breeze front
air quality, turbulence, pollution, photochemical product, nitric acid, dispersion, 00758. pollution transport, turbulence model, 01984.
sea breeze onset
coastal, complex terrain, nitrogen oxide, sulphur dioxide, transportable laboratory, ozone, Spain, Castellon; 06702.
sea breeze system
K type disturbance, hydrostatic forcing, nonhydrostatic effect, 13592.
sea caldron
buried valley, Shimosueyoshi transgression, land bridge, strait, Quaternary(Late), sea level, erosion hole, Japan; 04966.
sea cave
bioerosion notch, Ghyben-Herzberg lens, mixing zone, carbonate diagenesis, flank margin model, dissolution cave development, carbonate platform, halocline, Bahamas; 00317.
sea chart
British Naval Aegean Survey, Aegean Sea; 11520.
sea cliff
erosion, accretion, island, sedimentation, littoral zone, beach, Canada, Quebec, Iles de la Madelaine; 03550. reef, progradation, erosion surface, sea level change, Miocene, Reef Complex, Spain, Mallorca; 10603.
sea defence
harbour, alluvium, wave, beach, coastline, erosion, USSR, Georgia, Inguri River; 11711.
sea floor
abyssal plain, plume convection, water ventilation, ocean basin, buoyancy, South China Sea, Mindoro Strait; South China Sea; Sulu Sea; 08188. AVHRR, oil slick, petroleum, Australia, Otway Basin; 13921. benthic lander, pore water sample, biogenic cycling, diagenesis, burial rate, climate, 10667. carbon flux, sampling, submersible, deep sea work, BIOCYAN, France, Bay of Biscay; 05980. carbonate, continental margin, accretionary prism, venting, continental shelf, USA, Oregon; 01289. continental shelf, sediment instability, continental slope, slope channel, USA, Gulf of Mexico; 08184. diagenesis, carbonate, foraminifer, deep sea floor, coral, cement, 11777. diapir, diatremes, melange, convergent margin, mud intrusion, accretionary wedge, 01287. ferromanganese, sea water, nodule, aeolian, sediment cores, 02365. limestone, ramp, reef, Carboniferous, carbonate platform, eustatic, sediment accumulation, 00120. lithification, geochemistry, cathodoluminescence, magnesian calcite, crystal habit, cement, Atlantic, Little Bahama Bank; 11749. nannofossil, macrofossil, dysaerobic conditions, anoxia, productivity, Cretaceous, Weddell Sea, ODP Site 692; ODP Site 693;

03639. Neogene, glaciation, Miocene, phosphorus, sedimentation, USA, California; 01335. organic carbon, oxidation, sinking, continental shelf, USA, California; 03659. organic matter, benthic community, euphotic zone, continental margin, camera tow, Atlantic, Georges Bank; 07018. particle flux, carbonate, organic carbon, pelagic system, sedimentation, Norwegian Sea; 03670. Pleistocene, lithification, mud, carbonate sediment, cementation, Tyrrhenian Sea, Vavilov Basin, ODP Hole 651A; ODP Hole 650A; 00098. sea water, geochemical cycling, Eh, bioturbation, manganese nodule, Canada, Gulf of St. Lawrence; 00086. sediment distribution, geotechnical aspect, sedimentation, Atterberg limit, upwelling, South Sea; 10559. tidal stream, gravel, sand, wave, sediment sorting, France, Brest; 05827.

sea floor geodesy
GPS, sea level, buoy, USA, California; 06891.

sea floor geology
British Geological Survey, Quaternary geology, MacLeod sequence, glaciomarine sediment, diamict, Atlantic, (North), Geikie; 07203.

sea floor sediment
lithofacies, volcanogenic sediment, turbidite, gravel, continental shelf, Indonesia, North Banda Sea; 00071. sedimentation, climate, Arctic, Fram Strait; 02375.

sea floor topography

sea ice
annual cycle, atmospheric influence, Antarctica; 00744. austral spring, ice cover, ozone hole, ultraviolet transmission, 08839. cliff, erosion rate, coastal retreat, Beaufort Sea; 02337. climate, ice balance, Arctic; 02988. deuterium, conductive heat flux, Antarctica; 03081. drag coefficient, ice, marginal ice zone, aerodynamic roughness, 13541. energy balance, climate sea-ice model, Milaknovitch cycle, surface air temperature, solar radiation, 03018. general circulation model, climate sensitivity, temperature, pressure, wind pattern, precipitation, Arctic; 05441. glacial-interglacial cycle, productivity, microfossil, oceanographic change, Recent, diatom, temperature, Iceland Sea; Greenland Sea; Norwegian Sea; 02366. global biosphere, ice, ice shelves, icebergs, Southern Ocean; Antarctica; 12011. ice backscatter, ground truth measurement, SAR imagery, 09284. ice barrier, current, sedimentary balance, cliff, storm surge, water level, Germany, Kiel Bay; 00055. ice cover, oceanography, Okhotsk Sea, Kuril Basin; 04648. ice edge location, Little Ice Age, Southern Ocean; 03132. ice geophysic, airborne radar data, wide beam altimeter, Arctic Ocean, Fram Strait; 12791. ice sheet, temperature, Antarctica; 01828. ice thickness, snow covered ice, radar backscatter, 01125. ice, marginal ice zone, Winter Weddel Sea Project, temperature gradient, Weddell Sea; 06476. image processing, ice parameter retrieval, Beaufort Sea; 01128. light availability, polar region, biogeochemical feedback, marine photosynthesis, greenhouse warming, carbon sink, Arctic; 10153. linear expansion, Michelson interferometer, hysteresis, thermal expansion coefficient, 07301. marginal ice zone, microwave, SAR, Arctic Ocean, Fram Strait; 12792. ocean circulation, temperature, wind-stress, decadal oscillation, atmospheric circulation, Barents Sea; Northern Hemisphere; 04339. polar region, ice distribution, interannual variability, spatial distribution, Canada, Hudson Bay; Barents Sea; Okhotsk Sea; Bering Sea; 13503. radar backscatter, Monte Carlo technique, 00996. SAR imagery, digitisation, ERS-1, 09293. SAR, personal computer system, image speckle, image classification, Baltic Sea; 09292. sea ice biota, seasonal sea ice, sea ice properties, Arctic, Antarctic, Arctic; Southern Ocean; 03922. sediment accumulation rate, ice proximal environment, cryosphere ocean interaction, Laurentide Ice Sheet, Younger Dryas chron, core, biogenic silica, silica production, Canada, Northwest Territories, Baffin Shelf; 08436. sensible heat flux, ice lead, general circulation model, climate change, ice sheet, Antarctica; 03113. snow ice, frazil ice, negative concentration, oxygen-18 concentration, Weddell Sea; 07309. spectral brightness, sea surface, outgoing radiation, 08845. winter, inversion, air-ice momentum coupling, radiation deficit, snow, temperature budget, 13536.

sea ice anomaly
climate cycle, salinity, water mass, Labrador Sea; Greenland Sea; 13633.

sea ice biota
seasonal sea ice, sea ice properties, Arctic, Antarctic, sea ice, Arctic; Southern Ocean; 03922.

sea ice characteristic
sediment inclusion, deep sea deposition, rafting, potential sediment input, Arctic Ocean; Antarctica; 02699.

sea ice concentration
active microwave, passive microwave, ice surface melt, microwave signature, 01126.

sea ice cover
air-sea interaction, satellite, Siberian High, Aleutian Low, Sea of Okhotsk; 03079. continental slope, opal, climate, Quaternary, Paleogene, Neogene, productivity, Weddell Sea, ODP Site 693; 03571. interglacial, diatom, Pleistocene, Pliocene, ice rafted debris, Weddell Sea, Jane Basin, ODP Site 697; 03566. marginal ice zone, ocean buoy data, SAR, wave energy attenuation, ocean wave dispersion, Canada, Newfoundland; 12780. microwave sensor, sonar, lidar profilometer, ice thickness, Arctic Ocean; 12793. Pliocene(Late), Pleistocene, palaeoclimate, diatom preservation pattern, Gauss Chron, opal, diatom, Matuyama Chron, Olduvai, Jaramillo Subchron, Brunhes Chron, Southern Ocean, Jane Basin; Antarctica; 01423. supersaturation, stable isotope model, oxygen isotope, deuterium, precipitation, water vapour, air temperature, sea temperature, wind speed, 04198.

sea ice decay
lead, ice albedo effect, shortwave radiation, open water, 03017.

sea ice discrimination
texture statistics, sampling distance, adaptive filtering, SAR, 12794.

sea ice distribution
geodetic application, ERS-1 mission objective, land use change, operational meterology, sea state forecasting, 12592.

sea ice dyanamic
climate, cavitating fluid, 04255.

sea ice dynamic
temperature inversion, cloud cover, radiative forcing, USA, Alaska; 03043.

sea ice extent
empirical orthogonal function, power spectrum, maximum entropy spectrum, solar radiation, ocean circulation, sea surface temperature, maritime continental contrast, 10042. radar altimetry, GEOSAT radar altimeter, SMMR, seasonal, inter annual variation, Antarctica; 05048.

sea ice interaction
one dimensional model, sensitivity study, deep water formation, climate change, Southern Ocean; 09545.

sea ice mapping
ice mapping, navigation safety, Greenland; 09288.

sea ice margin
polar continentality, climate, seasonal energy balance, energy balance model, annual cycle, supercontinent, summer snow, polar region, albedo feedback, 08934.

sea ice model
heat transfer rate, lake, ice sheet, heat flux, polynya, Canada, North West Territories, Yukon River Basin; 01465.

sea ice modelling
coupled model, climate study, 08888.

sea ice properties
Arctic, Antarctic, sea ice, sea ice biota, seasonal sea ice, Arctic; Southern Ocean; 03922.

sea ice thickness
air-sea ice interaction, oceanic heat flux, Arctic, Fram Strait; 03085. airborne electromagnetic sounding system, system noise, drift problem, pressure ridge keel, arctic field test, 05044. cloud optical property, pack ice, radiative flux, ice crystal, Arctic; 02990. sub ice bathymetry, AEM sounding system, sea water conductivity, airborne measurement, electromagnetic measurement, USA, Alaska, Prudhoe Bay; 10814.

sea ice transport
climate, energy balance, thermodynamic sea ice model, sensible heat flux, 03123.

sea ice type
linear unmixing, Geosat, altimeter waveform, ice index formulation, 10031.

sea lamprey
beaver, hyporheic zone, flow pattern, stream ecosystem, pore water flowline, convective flow, streambed, <I>Chara<R>, 01686.

sea land breeze circulation
Eulerian numerical model, diffusion, pollutant, mesoscale model, boundary layer model, dispersion model, coastal region, complex terrain, China, Bohai Sea; 07691.

sea level
accumulation, bank top sediment, progradation, carbonate megabank, seismic profile, submersible observation, sediment volume, vertical accumulation rate, lateral progradation, periplatform mud, Atlantic, Great Bahama Bank; 02611. air-ice-ocean feedback, ice oscillation, ocean temperature, ice accumulation, 03125. air-sea interaction, wind forcing, Canada, Quebec, Labrador; Newfoundland; Atlantic, (North); 01866. altitude measurement, geographical map, USSR; 10265. asthenospheric viscosity, deglaciation, mantle viscosity, model, postglacial rebound, heat flux, geoid anomaly, plate velocity, 13029. backbarrier deposit, coastal energy, coast, Holocene, storm beach, peat, beach ridge, Fiji, Viti Levu, Pacific Harbour; 06192. barrier beach erosion, rising sea level, kinematic model, rate of shoreline erosion, global warming, USA, Atlantic Coast; Gulf of Mexico; 05034. barrier island, subsidence area, fault, Pleistocene(Middle), beach ridge, Tyrrhenian, Spain, Alicante; 06982. beach, spit, tidal flat, longshore transport, sand transport, gravel transport, chenier, intertidal mud flat, deflation, gravel drift, wind effect, Argentina, Tierra del Fuego, San Sebastian Bay; 10802. bibliography, warming, climatic change, 12497. buoy, sea floor geodesy, GPS, USA, California; 06891. carbon dioxide, global warming, climate change, 05464. carbonate content, coastal sand, radiocarbon age, wind blown sand transport, environmental history, environmental dating, dunefield, South Africa, Cape Province; 10805. coast, environmental change, terrestrial environment, estuary, salinity, South Africa; 10538. coast, greenhouse effect, USA; Bangladesh; 07001. coastal barrier, Holocene(Late), vegetational change, wet sclerophyll forest, tropical rainforest, pollen, Australia, New South Wales, Illawarra Coastal Plain; 05032. coastal erosion, retrogressive thaw slump, slope instability, permafrost, ground ice, global change, Canada, Beaufort Sea Coastlands; 03911. continental flood, mantle lithosphere dynamics, eustatic sea level, mantle convection, 13164. coral atoll, atoll magnetostratigraphy, record calibration, eustatic record, palaeomagnetic measurement, core, magnetostratigraphy, French Polynesia, Mururoa Atoll; 08504. coral reef, makatea limestone, reefal limestone, uranium series dating, flexure, lithospheric flexure, Quaternary(Late) reef, uplift, stratigraphy, chronology, Pleistocene(Late) reef, Pacific, Cook Islands, Makatea Islands; 10808. crustal deformation, earthquake, 09501. dating method, coastline, neotectonics, eustasy, North Sea; 08497. delta, Messinian, Pliocene, sediment supply, Spain, Ebro Delta; 05863. delta, tilting, provenance, Quaternary, clay mineral, Egypt, Nile Delta, Manzala Lagoon; 02333. drought, warming, greenhouse effect, 12492. earthquake, postseismic uplift, coseismic uplift, uplift rate, postseismic relaxation, tide gauge, subduction zone, eustatic rise, USA, Alaska; 09503. ecosystem response, climate change, greenhouse effect, 04325. erosion hole, sea caldron, buried valley, Shimosueyoshi transgression, land bridge, strait, Quaternary(Late), Japan; 04966. erosion pavement, outwash plain, glacier oscillation, relief, tidal flat, dead form, marine terrace, Svalbard, Spitsbergen, Petuniabukta; 02689. estuary, marsh, nutrient, USA, Louisiana, Fourleague Bay; Barataria Basin; 06979. extraterrestrial impact, volcano, climate, 06172. flooding, salt intrusion, surge, global warming, Maldives; India; Bangladesh; 03902. fluvial dissection, Quaternary history, sedimentological interpretation, raised terrace, seismic reflection profile, glacio eustatic change, Greece, Gulf of Patras; Gulf of Corinth; 10804. geomorphological development, alluvial plain, microrelief, deltaic plain, stratigraphy, tephrochronology, Tatara, Aira Tn ash, tephra, Hikawa Formation, postglacial transgression, Kandogawa Formation, Sambe Ohirayama pyroclastic flow, bedrock topography, transgression, Japan, Izumo Plain; 08350. Geosat, spectral slope, Atlantic, Cape Hatteras, Gulf Stream; 06893.

glacial event, Weichselian, radiocarbon date list, Svalbard, Spitsbergen; 04935. glacial history, shoreline displacement, deglaciation, raised beach, Mytilus edulis, transgression, Svalbard, Spitsbergen, Bohemanflya; Erdmannflya; 07279. glaciation, ice free period, speleothem fragment, cave, postglacial, Norway; 06160. global change, climate change, research, environmental evolution, glaciation, China; Antarctica, King George Island, Great Wall Station; 11838. global geomorphology, climatic prediction, warming, 07130. high sea level stand, chronology, last interglacial period, fossil coral reef, uranium thorium age, Bahamas; 06176. Holocene, global isostacy, isostatic model, 13163. Holocene, marine terrace, earthquake, postglacial, uplift rate, coseismic uplift, radiocarbon date, New Zealand, North Island, Pourerere; Aramoana; 06190. Holocene, sedimentary environment, model, relative uplift, lithology, fossil fauna, marine sequence, radiocarbon dated, Greenland, West Greenland, Disko, Igpik; 05038. Holsteinian interglacial, microfossil, foraminifera, Ostracoda, Eemian, tidal flat sequence, Denmark, Hojer; 06158. ice load, last glaciation, advance, retreat, computer model, glaciosostacy, accumulation, ablation rate, ice velocity, snowline elevation, ice volume, 13109. ice sheet simulation, ice sheet, sensitivity study, glacial interglacial contrast, Antarctica; 09608. ice sheet, atmospheric mass change, global mean atmospheric pressure, deglaciation, glacial interglacial, sea level pressure, 10798. isostatic shift, postglacial sea level, glacial deposit, Quaternary stratigraphy, deglaciation, UK, Isle of Man; 13131. Jomon transgression, Yayoi regression, Omma stage, Utatsuyama stage, Riss II stadial, Hiradoko stage, Tachikawa stage, Tateyami stadial, Murodo stage, Nyuzen stage, palaeoenvironment, Pleistocene(Early), Japan; 04968. Last glacial cycle, oxygen isotope measurement, detailed chronology, melt water surge, uranium-thorium age, mass spectrometry, coral, Barbados; 00318. last glacial cycle, oxygen isotope variation, deep sea core, glacial maximum, ice volume, 05033. last glacial interglacial cycle, greenhouse gas, ice sheet model, Pleistocene(Late), ice sheet growth, realistic geography, cryodynamics, geodynamics, solar forcing, Northern Hemisphere; 09544. last interglacial glacial cycle, stratigraphy, Pleistocene(Late), environmental change, ice rafting, Denmark; 06086. lateglacial, postglacial, environmental history, UK, Isle of Man; 06151. levee, archaeological remains, Pleistocene, Holocene, sedimentation, human impact, Egypt, Nile Delta, Lake Burullus; 05829. lithospheric flexure, geomorphology, volcanic island, rim, elevated limestone, Cenozoic, reef limestone, makatea, reef facies, notch, Holocene, Pacific, Cook Islands, Makatea Islands, Mauke; Mitiaro; Pacific, Cook Islands, Makatea Islands, Atiu; 11873. magnetic polarity reversal, comparison, post Miocene, diagenetic history, eustatic history, model, data, Pacific, Enewetak Atoll; 02685. mantle rheology, viscosity, Earth, post glacial rebound, rheology, lithospheric parameter, glacial isostasy, 13025. mantle viscosity, isostatic loading, lateral variation, glacial loading, hydroglacial loading, Pleistocene(Late), Holocene, 13027. mean sea level data, tide gauge, New Zealand; 03906. melt water discharge, Holocene, solar forcing, high resolution record, Quaternary(Late), upwelling, anoxic basin, planktonic foraminiferal fauna, piston core, trade wind, glacial interglacial transition, Venezuela, Cariaco Basin; Caribbean Sea; 10745. neotectonic history, Steyne Wood Clay, raised beach, Bembridge Raised Beach, Lane End deposit, Priory Bay deposit, Boxgrove deposit, Earnley deposit, Stone deposit, West Wittering deposit, deposit correlation, Pleistocene, UK, England, Isle of Wight, Bembridge; Solent; 02679. palaeogeography, Miocene, phosphate, earth history, 02401. palaeohydrology, palaeogeography, delta, Iron Gate terrace, terrace, subsidence plain, stratigraphy, tectonic uplift, Romania, Danube River; 11853. Petuniabukta-Adolfbukta Stage, Billefjorden Stage, Holocene, Ebbadalen-Thomsondalen Stage, Little Ice Age, Late Quaternary, glacial episode, Svalbard, Spitsbergen, Billefjorden; 11993. Pleistocene(Middle), glaciomarine deposit, push moraine complex, ice lobe, glacio isostasy, USA, Alaska, Baldwin Peninsula; 00292. Pliocene, levee, abyssal sediment, bedform, turbidity current, New Zealand, Bounty Channel; 04758. pollen stratigraphy, palaeolake, Allerod, Younger Dryas, eustatic sea-level rise, radiocarbon date, Tapes transgression, Norway, Sunnmore; 00321. pollen zone, last interglacial, Muir Point Formation, Whidbey Formation, Highbury Formation, Canada, British Columbia, Vancouver Island; 07254. Quaternary(Late) sedimentation, acoustic stratigraphy, seabed deposit, glacially overdeepened valley, glaciomarine sediment, Canada, Newfoundland, St.George's Bay; 05000. Quaternary(Late), Anadara bearing deposit, Rangitoto lava, fault movement, Anadara trapezia, radiocarbon dating, New Zealand, Hauraki Gulf, Rangitoto Island; 06189. Quaternary(Late), sedimentation, deglaciation, seismic profile, sediment wedge, Laurentide ice sheet, USA, New Jersey, Hudson Apron; 06095. raised shoreline, glacioisostatic depression, forebulge, ice-sheet thickness, rebound, Arctic; 11979. rocky shore environment, radiocarbon date, oxygen isotope evidence, foraminifera, Quaternary(Late) sediment, borehole, palaeoenvironmental reconstruction, Holocene, last interglacial, last glacial, Hong Kong, High Island; 10752. salinity, marsh, strandline marker, carbon-14 dating, foraminiferal zonation, salt marsh, zonation, elevation, USA, Massachusetts, Falmouth, Great Sippewissett Salt Marsh; 10800. sea strait, barotropic current, baroclinic current, laboratory experiment, 03546. sea surface temperature, salinity, frontal structure, upwelling, nutrient supply, thermocline structure, mixed layer depth, currents, causative mechanism, interannual variability, marine environment, South Africa; 12341. secular trend, mean tidal range, time series, tidal harmonics, UK; Ireland; France; Belgium; Germany; Netherlands; 11985. sediment accumulation rate, tectonic uplift, sedimentology, sequence stratigraphy, Pleistocene(Upper), carbonate, reef-associated carbonate, reef terrace, glacio eustatic, Barbados; 07274. sediment fill, basin, basin fill simulation, sediment supply, 10659. seismic stratigraphy, Quaternary sediment, macrotidal bay, acoustic basement, tidal channel, Holocene, Korea, Bunhung Bay; 13174. shelf margin, Berriasian, Valanginian, Barremian, Cretaceous, carbonate platform, France, Jura, Subalpine Chains; 12929. shoreline map, radiocarbon age, coral reef, climatic fluctuation, Japanese research, relative sea level change, Holocene, Japan; 00324. spit, cuspate foreland, coastline, Australia, South Australia, Victor Harbor; 04749. Station Quarry Bed, Brigantian, carbonate platform, palaeogeography, basin, UK, England, Derbyshire, Millers Dale; 09412. storm, Appalachian Foreland Basin, siliciclastic sediment, carbonate sediment, shelf sediment, Silurian, USA, Pennsylvania; 07042. surge event, coastal hazard, evacuation system, warning system, scientific prediction system, 06168. thalweg, palynological study, Atlantic sedimentary deposit, marine transgression, pollen analysis, France, Nantes, Erdre-Loire Confluence; 00320. thermal signature, transgression, marine transgression, shoreline emergence, seabed, terrestrial, ground temperature, Canada; 11980. thermoluminescence, uraniumn thorium chronology, Pleistocene, coastal landform, TL determination, aeolian sand, crustal age, platform, Last Interglacial, Australia, New South Wales, Illawarra region; 07276. time series, spectral peak, interannual coherence, atmospheric surface pressure, USA; 11984. timing, postglacial marine invasion, radiocarbon dating, piston core, microfossil, freshwater lake, Weichselian times, Indonesia, Halmahera, Kau Bay; 02682. transgression, river discharge, trace element, continental shelf, continental margin, factor analysis, Spain, Ebro Delta; 05826. uplift, Quaternary, coastal geomorphology, tectonic history, Vatulele Beqa Ridge, emerged shoreline indicator, Fiji, Yanuca Islands; Beqa Island; 06191. vertical crustal movement, historic, Holocene(Late), neotectonism, tide gauge record, glacial unloading, forebulge, warping, USA, (Southeast); (Northeast); 01391. Villach II temperature scenario, mass balance model, ice sheet, greenhouse warming, Greenland; 10819. visco-elastic model, glacioisostasy, mantle viscosity, isostatic adjustment, Frechet kernel, 13026. wind profiler, tropopause, 04265. Wisconsinan(Late) palaeochannel, climate change, Quaternary geology, trailing edge continental margin, palaeochannel, peninsula progradation, Delmarva Peninsula, USA, Virginia, Chesapeake Bay; Delaware, Chesapeake Bay; 07273. world mean sea level, thermal expansion, mountain glacier, polar ice sheet, greenhouse warming, Antarctica, West Antarctic Ice Sheet; 01446.

sea level anomaly

amplitude, zonal shear flow, GEOSAT, Pacific; 03461. Geosat, tropical ocean, altimetry, Atlantic; Africa, Gulf of Guinea; 06889.

sea level change

aridification, desertification, Milankovitch forcing, Africa, Sahel; Sahara; 12502. bathymetric change, sedimentation, subsidence, syncline, Devonian, Carboniferous, facies evolution, deepening event, shallowing event, Belgium, Dinant; 07062. black shale, nodule, source rock, phosphorite, Pennsylvanian, cyclothem, USA; 01338. carbon dioxide concentration, global cooling, Younger Dryas, oxygen isotope data, melt water, coral reef data, Philippines, Sulu Sea; 07200. climate change, marine terrane, fluvial terrane, terrace, last interglacial, tephra layer, Japan, Hokkaido, Hidaka District, Shizunai River; Niikappu River; 10807. climatic change, astronomical time scale, two dimensional model, ice sheet, 12499. complex response, tectono climatic interaction, stone tablets, geomorphology, theoretical framework, 07128. diagenesis, carbonate rock, isotopic analysis, Holder Formation, Pennsylvanian, limestone, USA, New Mexico; 08226. Eocene, sedimentation, Ypresian, carbonate basin, Thebes Formation, Drunka Formation, carbonate succession, Egypt, Eastern Desert; 05907. facies, gravel, Holocene, raised beach, sediment transport, Greece, Crete, Chora Skafion; 02345. field guide, stratigraphic correlation, Devensian(Late) glaciation, Loch Lomond Stadial, UK, Scotland, Nairn; Beauly; 06145. Foxe ice dome, marine limit elevation, radiocarbon date, deglaciation, emergence curve, Cockburn moraine system, Melville Moraine, Canada, Northwest Territories, Melville Peninsula; 06117. geodetic network, global sea level, global warming, 01447. glacial cycle, glacimarine facies architecture, sedimentation model, global eustatic change, sedimentary change, 04988. glacio hydro isostatic model, tectonic movement, Pleistocene(Late), Holocene, Australia; 06188. global sea level, local effect, 06169. global signal, glacial, isostatic adjustment, tide gauge, secular, 11976. global warming, greenhouse gas, forcing, 13161. graben subsidence, sedimentation history, Quaternary(Late), tectonism, deltaic sedimentation, Greece, Gulf of Patras; 10803. human impact, environmental change, Little Ice Age, climate change, Pacific Islands; 13180. iridium anomaly, hardground, meteorite impact, microbial process, stromatolite, iron oxide, Australia, Western Australia, Canning Basin; 11799. mantle parameter, Holocene, glacial rebound, Fennoscandia; 06181. meltwater, deglaciation, ice sheet, model, Devensian, Flandrian, glacial rebound, UK, Scotland; 13167. Miocene, Reef Complex, sea cliff, reef, progradation, erosion surface, Spain, Mallorca; 10603. model, crustal behaviour, rheological model, uplift, subsidence, Holocene, UK, England, Thames River; North Sea; Netherlands; 13169. morphologic investigation, ESR dating, coral reef, palaeosealevel elevation, Barbados model, uplift rate, Pleistocene(Middle), chronology, Pleistocene(Late), Barbados; 00319. Ocean Drilling Program, tectonic uplift, prograding clinoform, prograde, onlapping sequence, sediment supply, stratigraphic response, carbonate platform, Indian Ocean, Broken Ridge; 11988. oxygen isotope data, coral terrace elevation, ICE 3G model, global model, Pleistocene(Late), deglaciation, geophysical prediction, 09541. palaeoceanography, palaeogeography, Miocene, palaeocirculation, Gulf Stream, Suwannee Current, USA, Georgia; Straits of Florida; 02455. peat core, radiocarbon dating, molluscan assemblage, diatom assemblage, pollen assemblage, transgression, uplift, Holocene, Japan, Choshi Peninsula, Takagami Lowland; 02684. phosphogenesis, Miocene, continental margin, Gulf Stream precursor, upwelling, USA, North Carolina; 02361. platform, limestone, ammonite, biochronology, Callovian, Oxfordian, carbonate, Argentina, Neuquen Basin; 09427. Pleistocene test, perched fauna, faunal hiatus, biotic effect, USA, California; 11911. Pleistocene(Early), Omma Formation, cyclic change, mollusc, fossil association, gladioeustatic change, Japan, Kanazawa; 13175. Pleistocene, Atsumi Group, depositional cycle, barrier island, strand plain system, glacio eustatic change, Japan; 13177. post glacial rebound, mantle viscosity, isostatic adjustment, radiocarbon dating, glacioisostacy, ICE 3G model, Pleistocene(Late), deglaciation, 13076. radiatively active gas, carbon dioxide, global warming, policy strategy, climate change, tide gauge data, Caribbean; 04235. radiometric dating, rapid vertical accumulation, reef island, Darwin, coral atoll, geomorphology, volcanic basement, reef growth, subsidence rate, Indian Ocean, Cocos Islands; Keeling Islands; 02681. raised beach, frost-riving, wash line, archaeology, emergence, raised marine feature, radiocarbon date, Canada, Foxe

Basin, Melville Peninsula; 11981. river deposit, marine transgression, regression transgression cycle, river cyclicity, soil cyclicity, 06170. sedimentation cycle, eustatic sea level change, tectonics, palaeoenvironment, Miocene, Egypt, Nile Delta; 09349. sedimentation, mass wasting, rapid sea level rise, marine ice sheet, ice sheet decoupling, USA, Texas, Texas Continental Shelf, Trinity Valley; Gulf of Mexico; Sabine Valley; 10801. submergent, emergent observer, thermal structure, isostatic effect, global isostasy, eustatic curve, modeling, 11977. tectonic movement, sedimentary cycle, sedimentary environment, Shimosa Group, glacioeustatic change, Japan, Boso Peninsula; 13160. tide gauge, deglaciation, glacier melting, eustatic rise, postglacial rebound, secular change, 13162. tide gauge, dredging, inlet hydraulic, runoff, bay superelevation, measurement, 03901. tide gauge, neotectonics, eustatic effect, meteorological effect, oceanic effect, Mediterranean Sea; 06183. wetland, estuary, sediment transport, accretion, marsh, USA, Louisiana, Atchafalaya River; Fourleague Bay; USA, Louisiana, Barataria Basin; 06978.

sea level changes
Cenozoic(Late), glacial history, ice core, Sirius Formation, uplift, reconstructed surface profile, Alpine glacier, dry valleys, grounding line position, Antarctica, Ross Embayment; Transantarctic Mountains; 02656.

sea level control
Messinian, sediment supply, sedimentation, continental margin, climatic change, deforestation, depocenter, Spain, River Ebro; 05847. tectonics, equilibrium line altitude, tidewater glacier, radiometric dating, raised beach deposit, last glaciation, late glacial, Neoglacial, Quaternary glaciation, Quaternary(Late), glacier fluctuation, Southern Ocean; Antarctica, Antarctic Peninsula; 02654.

sea level curve
Campanian, greensand, weathering, Cretaceous, phosphorite, Egypt; 03619. glacial lake, prehistory, marine limit, deglaciation, Canada, Labrador, Nain; Hopedale; 06120. passive margin, eustatic, subsidence, sedimentation, 01286. Pliocene, oxygen, biogeochemical cycle, weathering, Miocene, foraminifera, 02449. ramp margin, Muskiki Formation, Marshybank Formation, Coniacian, Santonian, sandstone, shelf facies, Canada, Alberta; 11716. relative sea level, technique uplift hypothesis, postglacial uplift, raised beach, ice sheet extent, ice sheet thickness, Innuitian Ice Sheet, postglacial adjustment, isostatic model, Canada; 11940.

sea level cycle
platform, eustatic change, environmental change, sediment supply, depositional bias, carbonate, 09485.

sea level fluctuation
bivalve fauna, tropical island, glacial regression, species zonation, lagoonal fauna, Cenozoic(Late), Pacific; 08503. diatom analysis, radiocarbon dating, successional reconstruction, Holocene(Late), Japan, Sendai Bay, Matsushima Bay; 05036. limestone petrology, cave morphology, horizontal dissolution cave, phreatic morphology, dead end dissolution tube, Bahamas, San Salvador Island; 00257. mimetism dolomite, dolomite, Cenozoic, carbonate, 07050. molluscan association, Pleistocene(Early), glacio eustatic, Japan, Shimokita Peninsula; 02683. palaeogeography, facies pattern, Cretaceous, tectonic subsidence, plate boundary, Spain, Jumilla-Cieza Region; 01295. precipitation change, isotope stage, Cenozoic, glacier fluctuation, polar region, terrestrial record, Antarctica; Atlantic; 02652. residual circulation, estuarine system, residual current, forcing, USA, New York, Peconic Bays Estuary; 02329. rheological stratification, depositional sequence, eustatic sea level, fluctuation, polar wander, 01445. sedimentary evolution, Pliocene, Pleistocene, unconformity, channel deposit, channel levee complex, turbidite system, Mediterranean Sea, Ebro Margin; 06099. seismic reflection profile, deltaic sequence, buried marine terrace, Hueneme Canyon, Quaternary(Late), sedimentary response, tectonic activity, USA, California, Ventura Mainland Shelf; 03869.

sea level history
chronology correlation, Quaternary, transgressive regressive cycle, marine incursion, depositional sequence, soil, Greece, Gulf of Argos; Argive Plain; 06184. glaciomarine delta, shell, Devensian(Late), shoreline, coastal lowland, UK, Scotland, Beauly Firth; Inverness; UK, Scotland, Nairn; 06177. palaeoclimate, fluctuation, global climatic change, radiocarbon dating, sediment, secular change, USSR, Caspian Sea; 04982. piedmont lobe, deglaciation, calving phase, glacimarine sediment, radiocarbon date, glacioisostasy, last glaciation, Canada, Northwest Territories, Ellesmere Island; 06173. progradation, sea level lowstand rate, tectonic subsidence rate, turbidite deposit, Quaternary(Late), sedimentation, continental margin, seismic stratigraphy, Aegean Sea; 08449. shoreline diagram, radiocarbon date, carse clay, time altitude graph, Holocene, coastal lowland, UK, Scotland, Beauly Firth; Conon Valley; 06178. Tertiary, ice sheet dynamic, snow gun hypothesis, isotopic signature, deepwater temperature, deep water, tectonic forcing, orbital forcing, warm saline deep water, ice volume fluctuation, 12008. Weichselian(Late), Holocene, raised beach sequence, emergence rate, transgression, standline tilt, glacier load, post glacial, Svalbard, Spitsbergen; 05039.

sea level impact
coastal vulnerability index, global coastal hazard, sea level rise, greenhouse warming, climate warming, coastal wetland, coral island, human risk, USA, Atlantic Coast; Canada; Mexico; 10799.

sea level lowering
carbon-13: carbon-12 ratio, glacial-interglacial excursion, carbon dioxide concentration, atmospheric carbon dioxide, wood cellulose, stable carbon isotope ratio, cellulose, carbon reservoir, 08421. Crotonian stage, marine regression, Eutyrrhenian, Neotyrrhenian, Tyrrhenian Stage, Pleistocene(Upper), terrace, tectonic dislocation, Cutro terrace, Leonardo Campolongo Isola di Capo Rizzuto Terrace, Le Castella Capo Rizzuot Terrace, Capo Colonne Terrace, Italy, Calabria, Crotone Peninsula; 08499. surface temperature, ice mass balance, ice cap, super adiabatic lapse rate, Antarctica; 04199.

sea level lowstand rate
tectonic subsidence rate, turbidite deposit, Quaternary(Late), sedimentation, continental margin, seismic stratigraphy, sea level history, progradation, Aegean Sea; 08449.

sea level monitoring
climatic change, ocean, atmosphere, 06895. positional error ellipsoid, VLBI, 10256.

sea level movement
coastal deposit, palaeoecological investigation, peat, clay, silt, Holocene, UK, England, Merseyside, Wirral, Newton Carr; 06153.

sea level observation
vertical crustal deformation, uplift, crustal deformation, tide gauge record, Taiwan; 00323.

sea level pressure
general circulation model, climate change, sea surface temperature, Atlantic, (North); 10050. pressure height, circulation change, rainfall change, summer, climatic jump, 13635. pressure reduction, statistical comparison, geostrophic wind estimate, surface wind; Froude number, 12416. pressure, statistical trend, statistical periodicity, Mediterranean; 07675. sea level, ice sheet, atmospheric mass change, global mean atmospheric pressure, deglaciation, glacial interglacial, 10798. sea surface temperature, air temperature field, ocean, buoy, climate change, Tropical Ocean Global Atmosphere programme, Southern Hemisphere; 09989. sea surface temperature, monsoon, El Nino, Asia; Pacific; Australia; USA, Alaska, Aleutian Islands; 00710. semiannual cycle, Pacific; 00707. synoptic system, principal component analysis, cyclone movement, anticyclone movement, USA; 10005. zonal wind, blocking index, Southern Hemisphere; 08861.

sea level rise
baseline, geoid, meteorology, sea bottom, North Sea, Helgoland; 00058. Bruun scheme, coastal zone, coastal submergence, erosion, anthropogenic process, 06987. climatic change, thermal expansion, land ice melting, global warming, 04331. coastal community, regional impact, subsidence problem, carbon dioxide, warming, climate change, urban infrastructure planner, water supply, 10149. coastal protection, landuse, lagoon, storm surge, return period, Italy, Venice; 09599. coasts, impact, 11975. coral reef, carbon sink, greenhouse scenario, reef, temperature, Australia, Queensland, Great Barrier Reef; 10555. dating, coral reef terraces, rise rate, Younger Dryas, post glacial, New Guinea, Huon Peninsula; 06187. eustatic rise, drainage, salinisation, soil resource, 07272. global climate, climatic process, hydrosphere, warming, 06171. global warming, greenhouse effect, climate risk, climate change, Asia, (Southeast); 13172. greenhouse warming, climate warming, coastal wetland, coral island, human risk, sea level impact, coastal vulnerability index, global coastal hazard, USA, Atlantic Coast; Canada; Mexico; 10799. groundwater recharge, artificial recharge, USA, California; Nigeria; 09933. ice age, climate response, feedback, warming, greenhouse effect, 12500. irrigation, climatic change, soil attribute, salinisation, alkalinisation, 07311. mangrove, shoreline, Holocene, Quaternary, sedimentation, 10626. Midley Sand, storm, sedimentation, radiocarbon date, Holocene(Late), depositional history, borehole, succession, prograding succession, barred shoreline type, UK, England, Kent, Dungeness; 06180. mudflat, coastal management, cliff, barrier island, dune, beach, marsh, coast, 06991. Osaka Group, Manchidani Unconformity, Rokko Movement, Pleistocene(Middle), fault block movement, Japan, Kinki; 08502. productivity, coastal evolution, environmental assessment, accretion, land reclamation, Spain, Cantabria; 10582. Quaternary, coral reef, storm surge, climatic change, palaeoshoreline, reef, USA, Florida Keys; 09598. Quaternary, subsidence, Holocene, sedimentation, shelf, Mediterranean, Gulf of Lions; 12875. reef, accretion, coral reef, 10551. resource management, water storage, groundwater recharge, artificial recharge, river reversal, salinity, irrigation, 09927. salt marsh, sediment supply, vegetation, 10532. seawall, erosion, nourishment, 09374. sediment supply, transgression, mudrock, black shale, Jurassic, UK, England; 10645. sedimentation rate, estuary, Holocene, USA, Chesapeake Bay; 02332. shore retreat, Bruun rule, 10543. shoreline change, gravel barrier, erosion, barrier migration, Canada, Nova Scotia, Story Head; 10544. temperature, thermal expansion, oceanic water, 10797. tidal survey, procedure revision, 07962. water balance, general circulation pattern, climate change, Caspian Sea; 05455. wave, headland, erosion, longshore transport, shoreline, Canada, Nova Scotia; 02338.

sea level rising
positive feedback, global warming, deglaciation trigger, glaciation extent, marine gas hydrate, methane, thermal decomposition, climatic warming, 10734.

sea level stand
continental shelf, seismic stratigraphy, shelf growth pattern, eustatic sea level, unconformity, delta, shelf margin, Spain, Ebro Shelf; Cap Salou; Mediterranean Sea, Columbretes Islands; 06098.

sea level variability
ocean, El Nino/Southern Oscillation, interannual variability, tropical ocean, coupled ocean atmosphere model, Pacific; 07732.

sea level variation
global tide, tide gauge data, post glacial, rebound model, long period variation, North Sea; 13170. Mesozoic, basin, plate movement, sedimentation, tectonic setting, Greenland; 05920. tectonic movement, melt water, ice sheet, Antarctic melting, tide gauge record, glacial rebound, warming, glaciostatic shoreline origin, hydrostatic shoreline origin, isostatic shoreline origin, Pleistocene(Late) sea level, Holocene sea level, present sea level, 07270.

sea parameter
ice parameter, SAR data, 09286.

sea radioactivity
sea to land pollution transfer, radioactive pollution, nuclear lobby, marine discharge, 07866.

sea river interaction
mixing zone, surface water quality, oxygen isotope, salt exchange, salinity change, isotopic composition, residence time, evaporation, water exchange, Arctic Ocean; USSR, Caspian Sea; 07505.

sea salt
aerosol, long range transport, precipitation chemistry, Saharan dust, deposition, sulphate, rainforest, Puerto Rico, El Verde; 11311. aerosol, microphysics, tropospheric size distribution, particle, sulphuric acid, sulphate morphology, Southern Hemisphere; 12571. air-sea exchange, sea water chemistry, aerosol, lead, Pacific, Enewetak Atoll; 02064.

chemical mass balance method, aerosol, particulate matter, source apportionment, Japan, Kashima; 11406. chlorine, gas particle chemical interaction, particle size distribution, aerosol, Arctic aerosol, cascade impactor sampling, aerodynamic diameter, sulphur, proton induced X-ray emission, Arctic; 05519. cloud droplet, stratus, albedo, global warming, wind dependent aerosol generation, ocean surface, 06472. convective mixing layer, deposition, snow melt run off, snow chemistry, sulphate, sodium, chloride, magnesium, sea water, Japan, Sapporo; 04405. dust, aerosol, Pacific easterly, lead, barium, potassium, strontium, rubidium, cascade impactor, isotope dilution mass spectrometry, Pacific, American Samoa; 02044. marine aerosol, storm, dry deposition, sodium, potassium, magnesium, calcium, chloride, sulphate, pine needle, Sweden; 03219. mineral aerosol, deposition rate, aeolian material, trace element, remote, marine atmosphere, New Zealand; 11337. sodium, potassium, ammonium, magnesium, calcium, fluoride, chloride, bromide, nitrate, sulphate, precipitation, nitric acid, sulphuric acid, hydrochloric acid, precipitation chemistry, Japan, Tokyo; 00856. soil particle, Mie scattering, solar radiation, complex index of refraction, solar heating, aerosol, organics, Japan, Sapporo; 00848. steel mill, vanadium, fuel oil combustion, aerosol, chemical mass balance, motor vehicle emission, sulphate, factor analysis multiple regression model, source apportionment, suspended particulate matter, refuse incineration, soil, Japan, Tokyo; 05501. sulphate, marine aerosol, aerosol, review, particle size distribution, gas-to-particle conversion, dimethylsulphide, 13696. sulphate, marine aerosol, precipitation, deposition, methanesulphonate, Atlantic; 06650. sulphuric acid, nitric acid, rainwater composition, precipitation chemistry, acidic precipitation, cold front, conductivity, USA, North Carolina; 01958. water flow path, hydrochemical control, aluminium density, acidification, surface water chemistry, atmospheric deposition, Norway, Birkenes; 00552.

sea salt aerosol
biomass burning, photochemical aerosol, pollution, fine particle mass, carbon, visibility, particulate matter, aerosol, Australia, Latrobe Valley; 00920. heterogeneous oxidation, homogeneous oxidation, oxidation, remote marine atmosphere, particle, sulphur dioxide, sulphate aerosol, 12536. ice crystal, dry deposition, air-snow fractionation, aerosol, aerosol removal process, sulphate, Antarctica; 03247. salt, marine aerosol, aerosol, vertical profile, rain, 09024.

sea salt deposition
forest soil, aluminium, cation leaching, leachate, sulphate, sodium chloride, throughfall solution, acid neutralising capacity, 13248.

sea salt nuclei
stratus cloud, cloud droplet chemistry, droplet chemistry, precipitation chemistry, sulphur dioxide, ozone, hydrogen peroxide, 03245.

sea salt sulphate
chloride, sodium, deposition, ocean surface, observation ship, ion chromatography, atomic absorption spectrometry, sulphate, Pacific, (North); 01992.

sea sand
heavy metal, groundwater quality, infiltration, road construction, sodium, ion exchange, redox reaction, oxidation, salt water intrusion, 07550.

sea shell fragment
paint chip, wind speed, aluminium oxide, hydrochloric acid, particulate deposition, space shuttle launch, deposition, sand grain, USA, Florida, John F.Kennedy Space Center; 05488.

sea spike
microwave, backscatter, 02252.

sea spray
aerosol, chlorine, salt, heterogeneous production, smog chamber, 06631. marine aerosol, precipitation chemistry, andesitic soil, sulphur balance, atmospheric deposition, Tonga; 10974. spray, time constant, droplet evolution, 11218.

sea state
ice, coastal area, water level, storm surge, Germany, Schleswig-Holstein; Baltic Sea; 00053. satellite radar altimeter, climatology, wind, North Sea; 06910.

sea state bias
wave age, radar altimetry, altimeter height measurement, wave development, 12787.

sea state condition
pressure transducer, transfer function, pressure record, level displacement, time series, Germany; North Sea, Island of Sylt; 05982.

sea state forecasting
sea ice distribution, geodetic application, ERS-1 mission objective, land use change, operational meterology, 12592.

sea strait
barotropic current, baroclinic current, laboratory experiment, sea level, 03546. two-layer hydraulics, rotating hydraulics, remote control, virtual control, strangulation, 01175. vorticity, weir flow, hydraulic jump, sill, deep water current, 03496. wave, tide, hydraulics, turbulence, oceanography, 03494.

sea straits
stratified flow, friction, 03498.

sea surface
albedo, solar elevation angle, weather condition, radiation balance, Atlantic; 11221. altimeter data, seafloor morphology, satellite altimetry, 10442. brightness temperature, 05746. bulk formula, heat budget, solar height, surface heat budget, sea surface, radiative flux, Mediterranean, Sardinian Sea; 10033. cloud top, Rayleigh mode, convective pattern, stratocumulus, mesoscale cloud structure, boundary layer, 07779. Coriolis force, maximum wind speed, typhoon, wind speed, 04256. gas exchange, radon deficit technique, global oceanic sink, air sea gas exchange, stormy sea, tracer technique, carbon dioxide, 09078. Hough Transform, Marine Traffic Control Radar, 03462. inverse problem, ocean model, satellite observation, latent heat flux, sensible heat flux, 12383. outgoing radiation, sea ice, spectral brightness, 08845. radiation component, turbidity, ultraviolet, radiation, Atlantic; 06647. radiative flux, sea surface, bulk formula, heat budget, solar height, surface heat budget, Mediterranean, Sardinian Sea; 10033. scattering, electromagnetic energy, 02251. sea bed, hazard prediction, hydrocarbon drilling, GIS, Canada, Labrador Shelf, Grand Banks; 13907. temperature, objective analysis, AVHRR, 11620. temperature, ocean surface, ultralong wave, simulation, winter blocking, blocking episode, 13577. topography, satellite data, altimeter, least square collocation, gravity field, Faeroes; 09096. topography, SEASAT, altimeter, orbit accuracy, gravity, 04637. water temperature variation, long chain alkenone, sea surface temperature variation, glacial period, interglacial, Pleistocene(Late), Indian Ocean; Arabian Sea; 11926.

sea surface colour
biological oceanography, water constituent, 11594.

sea surface condition
marine boundary layer, sea swell, thermoradiometer, turbulent transfer, humidity, swell propagation, sea surface temperature, sensible heat, latent heat, 05401.

sea surface elevation
current elevation, split explicit finite difference, model prediction, storm surge model, ocean current model, cold front, Australia; 12390.

sea surface emissivity
SEASAT, scatterometer system, SMMR, 10384.

sea surface front
sea surface temperature, eddy formation, infrared observation, Ireland; 09267.

sea surface height
Atlantic mesoscale variability, Geosat data, eddy kinetic energy, Atlantic, (North); 09258. Geosat altimeter, geoid height, Mediterranean Sea; 06894. Geosat, altimeter, wet tropospheric range correction, water vapour data, microwave imager, Greenland Sea; Iceland Sea; Norwegian Sea; 13566.

sea surface reflectance
particulate measurement, suspended particulate, 11619.

sea surface temperature
accelerator carbon-14 dating, deep sea sediment, last deglaciation, oxygen isotope, Atlantic, (North); Indian Ocean; 02615. aerosol, volcanic aerosol, El Nino/Southern Oscillation, 02065. air temperature data, ship data, island observation data, 08892. air temperature field, ocean, buoy, climate change, Tropical Ocean Global Atmosphere programme, sea level pressure, Southern Hemisphere; 09989. air temperature, temperature, Aegean Sea; 12389. air temperature, volcanic eruption, 03087. air-sea interaction, monsoon circulation, El Nino, 03089. albedo change, climatic sensitivity, desert margin, glacial interglacial fluctuation, Sahel drought, 08457. atmospheric water vapour content, Pacific, (West); 12777. AVHRR, sensor induced correlation, radiometer, 02250. boundary layer, coupled ocean mixed layer, cloud model, ocean, mixed layer, air ocean interface, 07729. chaotic dynamics, Markov process, climate predictability, 00772. CLIMAP, long range transfer function, foraminifer transfer function, Pleistocene(Late), last glacial maximum, last interglacial, Atlantic, (North); 11918. climate model, ocean atmosphere climatic system, orbital parameter, Pliocene, Pleistocene, non linear equation, 12413. climate oscillation, ocean atmosphere coupled model, El Nino/Southern Oscillation theory, 10043. climate summary, southern hemisphere, autumn(1989), summer(1988-89), Southern Oscillation index, Australia; Argentina; Uruguay; 08854. cloud climatology, marine stratocumulus, stratocumulus, cloud climate interaction, climate feedback, positive feedback, 12374. cloud condensation nuclei, cloud distribution, cloud thickness, cloud liquid water content, albedo, climate, 00769. coupled atmospheric oceanic model, albedo, absorptivity, aerosol layer, climate change, nuclear war, volcanic eruption, asteroid impact, 04212. determination, near-surface velocity, 04640. eddy formation, infrared observation, sea surface front, Ireland; 09267. El Nino/Southern Oscillation modelling, 08885. El Nino/Southern Oscillation, principal component pattern, mean sea level pressure, Australia; 08906. ENSO event, typhoon, China Sea; 06484. extended range forecast, forecasting, forecast skill increase, divergent circulation, 07787. extratropical response, extratropical response, El Nino, 08896. forcing mechanism, rainfall oscillation, inter annual variability, temperature variability, South Africa; 07742. forecasting, air-sea interaction, rainfall, Africa, Sahel; 01865. general circulation model, nonlinear model, stationary wave, wave response, tropical sea, 13583. global climate model, statistical method, simulation, prediction, drought, 13622. global water budget, salinity anomaly, thermohaline circulation, oceanic freshwater transport, last glacial maximum, freshwater transport, atmospheric model, Atlantic; 02604. Hadley cell, tropical-extratropical cloudband, Southern Oscillation, teleconnection, cloud climatology, cloudband, Australia; 01926. heat storage, thermocline, Middle East, Dead Sea; 03084. infrared, diurnal warming, Mediterranean Sea; 11622. interannual oscillation, rainfall, quasi biennial oscillation, power spectrum analysis, empirical orthogonal function, China; 12329. interannual variability, El Nino/Southern Oscillation NSO event, monsoon, coupled atmosphere-ocean system, rainfall, mixed layer, India; Pacific; 12375. ITCZ, monsoon-trade interaction, interannual oscillation, low frequency oscillation, meridional wind, Indian Ocean; Pacific; 12373. large scale interaction, air sea interaction, tropical ocean, interannual time scale, intraseasonal time scale, thermocline, Pacific; 11229. maritime continental contrast, sea ice extent, empirical orthogonal function, power spectrum, maximum entropy spectrum, solar radiation, ocean circulation, 10042. mixed layer depth, cloud amount, wind speed, solar radiation, Indian Ocean; 01815. model sensitivity, general circulation model, monsoon, 10062. molecular stratigraphic study, Peru margin sediment, Ocean Drilling Program, Pacific; Peru; 00275. monsoon, El Nino, sea level pressure, Asia; Pacific; Australia; USA, Alaska, Aleutian Islands; 00710. monsoon, predictability, low frequency mode, extended integration, filtering, initial state, 12473. monsoon, rainfall, warm pool, Pacific; India; 07744. NOAA-7, AVHRR, polynya, Antarctica; 02190. North Atlantic Deep Water, Younger Dryas, deep water chemistry, productivity, Pleistocene(Late), Atlantic, (North); 06096. nutrient, air-sea interaction, carbon dioxide, upwelling, El Nino, carbon cycle, Pacific; 00912. ocean atmosphere boundary, boundary model, climatological pattern, humidity, Atlantic; Africa, (West); 12391. ocean atmosphere interaction, cloud amount, Atlantic; 12386. ocean response simulation, El Nino, atmospheric circulation, Community Climate Model, Pacific; 13572. ocean transparency, mixed layer, solar radiation, heat budget, El Nino/Southern Oscillation, Pacific; 07728. ozone hole, stratosphere,

vertical propagation, planetary wave structure, Pacific, (South); 08928. palaeotemperature, calcareous nannofossil, deep sea core, palaeoecology, transfer function, Caribbean Sea; 06097. pigment concentration, upwelling, AVHRR, CZCS, Atlantic, (North); 12784. planktonic foraminifera, historical record, instrumental record, mountain climate, glaciohydrological response, climatic change, 03044. pressure gradient, equatorial divergence, Younger Dryas, nutricline depth variation, last deglaciation, Florisphaera profunda, deep sea core, albedo, Atlantic, (Equatorial); 08443. pressure, cloud cover, precipitation, visibility, wave, climate, ship observation, lightvessel observation, temperature, North Sea; 11214. radiation, tropical cyclone simulation, convective adjustment, saturation pressure, 01896. rainfall value, summer monsoon, monsoon rainfall, India; Australia; 10006. rainfall, principal component pattern, Australia, Victoria; 08907. regional optimization, infrared measurement, Iceland; Greenland; Norwegian Sea; 04639. regression analysis, principal component analysis, rainfall response, China; Pacific; 10036. remote sensing, bulk skin temperature, Atlantic; 04641. Rossby radius, air sea interaction, orographically trapped wind event, coastal zone, oceanic response, bore, gravity current, 06473. Rossby wave, Kelvin wave, moisture convergence, latent heating, Beta plane, 01884. salinity, frontal structure, upwelling, nutrient supply, thermocline structure, mixed layer depth, currents, causative mechanism, interannual variability, marine environment, sea level, South Africa; 12341. sea level pressure, general circulation model, climate change, Atlantic, (North); 10050. seasonal variation, interannual variation, El Nino, Indonesia, Banda Sea; Arafura Sea; 05391. sensible heat, latent heat, sea surface condition, marine boundary layer, sea swell, thermoradiometer, turbulent transfer, humidity, swell propagation, 05401. ship temperature field, Fourier transform, barotropic instability, wind stress, Atlantic; 05407. South Equatorial Current, interannual time scale, El Nino/Southern Oscillation, warm pool, Pacific; 10046. Southern Oscillation, annual cycle, biennial component, El Nino/Southern Oscillation variability, Pacific; 07733. Southern Oscillation, stratosphere, mesosphere, 10048. spectral method, microwave radiometry, temperature accuracy, 11621. surface flux, Gulf Stream, marine atmospheric boundary layer, Atlantic; 01858. teleconnection, tropical cyclone, El Nino, La Nina, Pacific; 04264. temperature field formation, heat budget, ocean surface, Pacific; 11224. temperature measurement technique, warming trend, climatology, Atlantic; 00783. temperature spatial variability, tropical ocean, Atlantic; Indian Ocean; 10039. thermal infrared, AVHRR, Indian Ocean; 01123. thermocline, marine sediment, upwelling field variability, data-model comparison, global circulation model simulation, Indian summer monsoon, monsoon, coastal upwelling, planktonic foraminifera, Indian Ocean; Middle East, Arabian Sea; 02617. thermocline, wind stress, El Nino, 01898. trade wind, surface atmospheric pressure, El Nino/Southern Oscillation, Intertropical Convergence Zone, Pacific; 03092. tropospheric temperature, El Nino, radiosonde, 04263. tuna fishing, southern bluefin tuna, Australia; 10433. vegetation index, radiation budget, snow cover, ozone, global change, 12587. wind stress forcing, coupled model, model predictability, model variability, ocean atmosphere model, 08899. wind stress, air temperature, radiation flux, surface flux, Indian Ocean, Bay of Bengal; 00742.

sea surface temperature anomaly
cold tongue water, auto regression model, open loop auto regression model, threshold auto regression model, El Nino, 04254. El Nino, ocean model, ENSO signal, heat flux, Pacific; 06480. monsoon, primitive equation model, Kuroshio current, Pacific; 10035. winter circulation, precipitation anomaly, ocean temperature, tropics region, Australia; 08903. world ocean, ocean, Pacific; 10032.

sea surface temperature change
climate change, cloud feedback, climate feedback process, general circulation model, 06528.

sea surface temperature contour
winter, lightning, USA, (Northeast); (Southeast); USA; 00700.

sea surface temperature variation
atmosphere ocean general circulation model, ocean model, atmosphere ocean interaction, coupled model, Pacific; 08902. glacial period, interglacial, Pleistocene(Late), sea surface, water temperature variation, long chain alkenone, Indian Ocean; Arabian Sea; 11926.

sea surface topography
GEOSAT, oceanographic result, 04638. ocean height, ocean surface temperature, GEOSAT, Atlantic, (North); 12790.

sea surface topography model
ocean circulation, Geosat altimetry, 06896.

sea surface variability
satellite altitude, ground based tracking data, gravity model error, satellite altimetry, 00962.

sea surface warming
greenhouse effect, tropical water, energy budget, hydrological cycle, warming, 08995.

sea swell
thermoradiometer, turbulent transfer, humidity, swell propagation, sea surface temperature, sensible heat, latent heat, sea surface condition, marine boundary layer, 05401.

sea temperature
wind speed, sea ice cover, supersaturation, stable isotope model, oxygen isotope, deuterium, precipitation, water vapour, air temperature, 04198.

sea temperature boundary
conductivity temperature density survey, infrared imagery, high frequency radar, UK, Wales; 12776.

sea temperature minima
mare sporco, dirty sea episode(1841-1990), water mass mixing, marine environment, Adriatic Sea, Gulf of Trieste; 10034.

sea to air flux
dimethyl sulphide, ocean colour, photochemical model, CZCS, 09256.

sea to land pollution transfer
radioactive pollution, nuclear lobby, marine discharge, sea radioactivity, 07866.

sea truth data
water temperature, water quality, bay area, remote sensing, 11616.

sea wall
sediment transport, property value, International Conference on Coastal Engineering, shore protection, erosion, groin, 00051.

sea water
aerosol, magnesium, chromium, manganese, iron, cobalt, nickel, copper, zinc, lead, sodium, chloride, calcium, Antarctica; Chile; 03168. algae, marine influence, phytokarst, photokarren, scalloping, limestone solution, Ireland, County Clare, Burren; 10724. alkalinity, fresh water, river inflow, mixing, estuary, USA, California, San Francisco Bay; Delaware, Delaware Bay; 01214. anoxic brine, geodynamic setting, basin, brine, Messinian, Mediterranean Sea, Bannock Basin; Tyro Basin; 10580. anoxic sediment, sedimentation rate, cycling, residence time, Japan, Tokyo Bay; Funka Bay; 10558. apatite, bacteria, carbonate, magnesium, fluorine, 08281. bacteria, productivity, sulphate, sedimentation rate, diagenesis, Mexico, Gulf of California; 05954. brine, carbon cycle, microbial mat, Precambrian, stromatolite, carbon-13 depletion, Israel, Elat; 05911. brine, shell, Messinian, evaporite, gypsum, Mediterranean Sea, Bannock Basin; Tyro Basin; 05873. brine, Swan Hills Formation, Devonian, dolostone, burial, Canada, Alberta, Rosevear Field; 08225. caesium, Chernobyl fallout, vertical mixing, sedimentation rate, France, Rhone estuary; Mediterranean, Rhone estuary; 07012. calcium carbonate, marine sediment, aragonite, magnesian calcite, benthic organism, Sargasso Sea; 12883. carbon isotope, oxygen isotope, saline formation, isotope, dolomite, Triassic, carbonate, China, Sichuan Province, Huaying Mountain; 07056. carbonate system, silicate, model, sedimentation process, Precambrian, carbon dioxide, pH, 07078. chemical weathering rate, dissolved flux, ocean, planktonic foraminifer, uplift rate, accumulation rate, marine sedimentary record, tectonism rate, strontium isotopic composition, 05049. clay mineral, carbonate sediment, dolomite, isotopic evidence, Devonian, Poland, Holy Cross Mountains; 09414. cyanobacteria, calcite, Proterozoic, aragonite, microbialite, stromatolite, Turkey, Anatolia, Lake Van; 07073. desalination plant, environmental impact, 11219. diagenesis, organic matter, adsorption, ion exchange, marine sediment, magnesium, 08275. dissolution rate, decomposition, organic carbon, oxygen, carbonate system, Pacific, (North); 10638. dolomitisation, Carboniferous(Lower), Ballagan Formation, mudrock, carbonate, mudflat deposit, cementstone, diagenesis, UK, Scotland; 09410. dolomitisation, diagenesis, burial, Arbuckle Group, Ordovician(Early), Cool Creek Formation, USA, Oklahoma, Slick Hills; 10598. ecotoxicology, analytical chemistry, dissolved organic carbon, metal bioavailability, trace metal, 09476. eddy current, sediment, bathymetry mapping, 08120. energy cycling, microorganism, virus, faecal pellet, organic carbon, particle cycling, Pacific, (North); 08289. estuary, halocline, salinity, fresh water sea water interface, discharge, nutrient, biogeochemical process, stratification, Yugoslavia, Krka River; 11680. evaporite, Devonian, Mississippian, carbonate, aquifer, isotopic composition, USA, Iowa; 10597. evaporite, gypsum, Messinian, isotopic ratio, brine, salinity crisis, Mediterranean Sea, Nile River; Tyrrhenian Sea; 00137. evaporite, isotope, carbonate, limestone, Italy, Sicily; 03615. ferromanganese nodule, microstructure, nodule, titanium, Indian Ocean, Somali Basin; 12898. ferromanganese nodule, organic matter, copper, productivity, trace element, 00083. fluid advection, subduction, accretionary wedge, methane, manganese, chloride, Caribbean Sea, Barbados Accretionary Complex, Leg 110; Leg 110; 08240. fluorapatite, pH, apatite, phosphorus, 11781. foraminifera, palaeoceanographic record, marine sediment, chronostratigraphy, strontium, 09371. fresh water, air sea exchange, apparent partition coefficient, formaldehyde, acetaldehyde, carbonyl compound, 09041. geochemical cycling, Eh, bioturbation, manganese nodule, sea floor, Canada, Gulf of St. Lawrence; 00086. halite, brine, Permian, evaporite pool, diagenesis, fluid inclusion, USA, Texas, Palo Duro Basin; 08227. hot spot area, crust, hydrothermal mineral, seamount, Pacific, Teahitia Seamount; Pihaa Seamount; Pacific, Macdonald Seamount; 12894. hydrogen peroxide, chromium, oxidation, speciation, 10631. hydrothermal origin, barite, Devonian Chert, Slaven Chert, stratiform body, chert, bedded barite, deep sea sediment, USA, Nevada; 09405. interstitial water, water column, salinity, phosphate, saturation, Spain, Fuente Piedra Lagoon; 00029. iodine, iodate, organic iodine, biogeochemical process, geochemical tracer, USA, Chesapeake Bay; 09458. iron, phytoplankton, iron availability, lability, photolysis, 11778. iron-manganese nodule, manganese, nodule, crust, fluorine, 00085. isotopic composition, carbonate, organic carbon, Proterozoic(Upper), diagenesis, metamorphism, Namibia; 09463. isotopic equilibrium, diagenesis, brachiopod, cement, Helderberg Group, Oriskany Sandstone, shell, USA, New York State; 05925. lagoon, seepage channel, sabkha, Saudi Arabia, Rabigh, Al-Kharrar Sabkha; 10606. lake, core, saline lake, hypersaline lake, isostatic uplift, Antarctica, Vestfold Hills; 12852. liquid chromatography, picomolar concentration, carbonyl compound, natural water, 06314. longshore current, continental shelf, baroclinic tide, India, Goa; 08174. marine atmosphere, dimethyl sulphide, carbonyl sulphide, carbon disulphide, biogenic, sulphur compound, Atlantic; 06648. mesocosms, phosphorus, nutrient loading, eutrophication, eutrophication, 00173. mineralization, Bonneterre Formation, Davis Formation, Cambrian, lagoon, dolomite, limestone, neomorphism, USA, Missouri; 02404. muddy coast, dredging, marine resource, port, China, Lianyungang; 04794. nodule, aeolian, sediment cores, sea floor, ferromanganese, 02365. ocean, crustal element, wet deposition, chemical analysis, rain sample, calcium enrichment, potassium enrichment, Pacific; 11335. oil seep, hydrocarbon, spill, nickel, vanadium, Mexico, Veracruz; 12902. Oligocene, Miocene, Bluff Formation, dolostone, porosity, karst, Caribbean, West Indies, Grand Cayman; 04812. ooze, Messinian, mud, evaporite, Tyrrhenian Sea; 00136. organism, harbour, hydrocarbon, trace metal, contaminant, Atlantic, Bermuda; 01268. osmium, ferromanganese, speciation, redox state, 12961. particulate sorption, particulate matter, rock weathering, organic matter, scavenging, 09449. Permian, Zechstein, sulphur, isotopic composition, strontium, Germany; 12930. phytoplankton, micronutrient, iron, labile fraction, mixing experiment, 09450. pore fluid, reduction rate, dissolution, carbonate, bioturbation, USA, Florida, Florida Keys; 02456. pore water, interstitial water, organic matter, diagenesis, carbonate, 05946. reservoir, pore water, strontium, carbonate, isotope ratio, Weddell Sea, Maud Rise, ODP Site 689; 03657. salinity, sodium chloride, oxygen, polarographic method, Winkler

method, Israel, Dead Sea; 07124. sea salt, convective mixing layer, deposition, snow melt run off, snow chemistry, sulphate, sodium, chloride, magnesium, Japan, Sapporo; 04405. seasonal cycle, marine biomass, algae, anthropogenic halocarbon, halocarbon, 09473. sediment dissolution, reaction kinetics, diagenesis, feldspathic sand, 07077. sediment trap experiment, trace metal, sinking, biogenic silica, lateral transport, scavenging, 09446. solubility, water bottom interface, pelagic water, manganese, nodule, solution rate, 07019. strontium isotope, carbonate, Carboniferous, isotope diagenesis, aragonite, 08276. trace metal adsorption, phytoplankton, spring bloom, chelator, copper, Canada, Nova Scotia, Bedford Basin; 09432. trace metal, mixing, estuary, Yugoslavia; Mediterranean Sea; Yugoslavia, Krka River Estuary; 11710. Ulva lactuca L., partition coefficient, carbonate ion, macroalgae, rare earth element, 02432.

sea water chemistry
aerosol, lead, sea salt, air-sea exchange, Pacific, Enewetak Atoll; 02064.

sea water conductivity
airborne measurement, electromagnetic measurement, sea ice thickness, sub ice bathymetry, AEM sounding system, USA, Alaska, Prudhoe Bay; 10814.

sea water encroachment model
groundwater flow, coastal aquifer, leaky aquifer, salt water intrusion, dispersion, equiconcentration, equipotential line, 2D-FED model, 05226.

sea water intrusion
land subsidence, groundwater development, water contamination, urban water, water resource management, over exploitation, Indonesia, Jakarta; 13472. water level decline, groundwater modelling, pumping rate, water resource management, safe yield, river flow maintenance, New Zealand, Nelson, Waimea Plains; 00637.

sea water lagoon
hydrodynamic model, water quality model, ecological process model, computer model, surface water quality, water quality prediction, Tunisia, Tunis, North Lake; 13354.

sea water quality
anthropogenic carbon dioxide, carbon dioxide penetration, Red Sea, Gulf of Elat; Gulf of Aqaba; 04071. carbonate dissolution, alkalinity, calcium, salinity, mixing, acid rain, organic matter, Baltic Sea; 04072. surface water quality, groundwater quality, water quality monitoring, gamma-ray spectral analysis, gamma emitter, radioactivity, Hong Kong; 04022.

sea water temperature
air temperature, logarithmic profile, stability correction, wind speed, Monin-Obukhov similarity theory, boundary layer, North Sea; 01856.

sea-air transfer
air-sea exchange, metal complexation, hydrogen sulphide, Henry's law, 02023.

sea-ice
climate, surface temperatures, sea-ice extent, Antarctica; Southern Ocean; 04340.

sea-ice extent
sea-ice, climate, surface temperatures, Antarctica; Southern Ocean; 04340.

sea-level
deglaciation, earth-rheology, coastal submergence, Netherlands; USA, Connecticut; USA, Virginia, Delmarva Peninsula; France, Brittany, Marais de Dol; 13166. lowstand, glacioisostatic response, isostatic response, deglacial downdraw, seismic-stratigraphic, geomorphic evidence, post-glacial, USA, Maine, Gulf of Maine; 11982.

sea-level change
global sealevel rise, tidal gauge, geodetic levelling, discharge data, China, Changjiang River; 11990. rate of submergence, pollen geochronology, subsidence, land loss, marsh, vertical accretion rate, USA, Maryland, Chesapeake Bay; 11983. river discharge, morphogenetic zone, tectonic, Black Sea; 03562.

sea-level fluctuation
Pleistocene, Holocene, buried, late Pleistocene, fluvial channel, continental shelf, buried channel, India, Vengurla, Burnt Island; 11989. tephra, paleoenvironmental analyses, Quaternary, marine deposit, morphogenetic processes, Jomon Transgression, Japan, Fukuoka City, Torikai Lowland; 11991.

sea-level rise
erosion, submergence, coastline, shoreline retreat, subsidence, USA, Texas, Gulf Coast; 03551.

sea-level stand
channel-fill sequence, paleochannel, estuary, drowned river valley, transgression, USA, Delmarva Peninsula; Chesapeake Bay; USA, Susquehanna River; 03537.

sea-level variation
mud diapir, Quaternary deposit, accretionary prism, submarine photograph, gravity core, diapiric high, turbidity, Caribbean Sea, South Barbados Prism; 08440.

sea-surface temperature
polar total, ozone hole, quasi biennial oscillation, Antarctica; 12524.

seabed
dredging, transport, gale, mud, suspended matter, Netherlands; Belgium, Zeebrugge; 02342. lake bottom, flow velocity, water column, sedimentation rate, sediment trap, high energy environment, 02483. nearshore region, wave, suspension, sand, USA, Florida, Cape Canaveral; 12860. sand, gravel, sediment transport, wave theory, Stokes' wave theory, UK, Isle of Man; 02352. sediment transport, acoustic backscatter, backscattering theory, suspended sediment, 11818. terrestrial, ground temperature, sea level, thermal signature, transgression, marine transgression, shoreline emergence, Canada; 11980.

seabed chemistry
water discharge pulse, AmasSeds, suspended sediment, cycling, Brazil, Amazon River; 05845.

seabed deposit
glacially overdeepened valley, glaciomarine sediment, sea level, Quaternary(Late) sedimentation, acoustic stratigraphy, Canada, Newfoundland, St.George's Bay; 05000. Holocene, transgression, continental shelf, heavy mineral, Canada, British Columbia, Queen Charlotte Sound; 08171.

seabed sediment
carbonate, skeletal fragment, turbidity, Australia, Queensland, Torres Strait; Papua New Guinea, Fly River; Indonesia, Irian Jaya, Fly River; 09362. consolidation, mollusc shell, faecal material, shear strength, Canada, Flemish Pass; 12954. glaciomarine sediment, till, macrofauna, carbonate content, Atlantic, (Northeast); 09363. permeability, compaction, salinity, voids ratio, flocculation, Indian Ocean, Mauritius; 01191. Quaternary geology, geotechnical property, carbonate content, British Geological Survey, UK, Scotland, Fair Isle; 09562. shelf material, water depth, acoustic character, Atlantic, Judd Region; 09367. water depth, Holocene, North Sea, Dogger Bank; 09364.

seaborne navigation
navigation, electronic chart, chart, 09144.

seafarer requirement
meteorological service, ship, marine transport, 07618.

seafloor
bacteria, methanogenesis, pore water, biomass, 04851. bedform, acoustic reflectivity, current region, Irish Sea; UK, Wales, Anglesey; 09361. clinoform, tectonic deformation, structural high, Holocene, seismostratigraphic unit, Quaternary, erosional surface, Italy, Adriatic coast, Gargano Promontory; 05848. diapir, carbonate crust, pore water, venting, chemosynthetic animal community, Barbados; 01250. dredge, direct pump-out, USA; 04773. Holocene, water depth, resuspension, deep-sea sediment, terrigenous flux, Atlantic, Sierra Leone Rise; Ceara Rise; 10575. hydrothermal circulation, pore fluid, probe, fluid pressure, marine sediment, 11817. iceberg, plough mark, slump, sediment supply, Atlantic, Miller Region; 09368. Miocene, CCD, bottom current, nodule, fracture zone, manganese, organic matter, Pacific, Clipperton Fracture Zone; Clarion Fracture Zone; 12887. Morrison sequence, Otter Bank sequence, submarine end moraine, Sinclair sequence, stratigraphy, core, British Geological Survey, Quaternary geology, UK, Scotland, Judd; 09564. Neogene, carbonate concentration, productivity rate, Pleistocene sediment, Pliocene sediment, orbital geometry, Indian Ocean, Mascarene Plateau, ODP Site 709; ODP Site 710; Indian Ocean, Mascarene Plateau, ODP Site 711; 08191. nephelometer profile, continental shelf, abyssal sediment, ferromanganese, sedimentation, Antarctica; 10576. offshore region, hot spot, classification, 12881. particle flux, recycling, input rate, organic carbon, continental margin sediment, USA, California, Santa Monica Basin; 01241. reflectivity pattern, volcaniclastic, pelagic sediment, magnetic anomaly, Pacific, Lau Basin; 08189. remotely operated vessels, microcomputer, bathymetry, coral, submarine terrain, reef, 07120. residence time, diffusion, scavenging, phytoplankton, anthropogenic hydrocarbon, macroaggregate, thorium, USA, Washington, Puget Sound; 08163. submarine fan, uplift, collision, turbidite, fan channel, Indian Ocean, Bengal Fan, ODP Site 717; ODP Site 718; Indian Ocean, Bengal Fan, ODP Site 719; 09423. Swan Hills Formation, diagenesis, burial, subsidence, Devonian, carbonate, cement, Canada, Alberta, Rosevear Field; 05934. void ratio, effective stress, geotechnical, carbonate sediment, Indian Ocean, ODP Leg 115; Mascarene Plateau; 03520. volcano, subsidence, submarine eruption, plate boundary, earthquake, tsunami, 08168.

seafloor erosion
continental slope, truncation, erosion, slumping, USSR, Black Sea; 12878.

seafloor model
SeaMARC II, bathymetry, sea beam data, stochastic model, abyssal hill, seafloor topography, ridge process, Pacific, East Pacific Rise; 09506.

seafloor morphology
satellite altimetry, sea surface, altimeter data, 10442.

seafloor palaeoflux
time resolution, deglaciation, carbonate flux, thorium-230 profiling, deep sea sediment, high-resolution record, carbonate dissolution, Atlantic, (Equatorial); 08444.

seafloor sediment
wave, current, landform, beach, bathymetry, New Zealand, Greater Cook Strait; 11828.

seafloor topography
ridge process, seafloor model, SeaMARC II, bathymetry, sea beam data, stochastic model, abyssal hill, Pacific, East Pacific Rise; 09506.

seafood
contamination, Sediment Quality Triad, pollution, heavy metals, toxic sediment, organism, 04768.

seagrass
inundation, organic carbon, carbonate, stable isotope composition, Thalassia, Atlantic, Bahamas, Bight of Abaco; 01236. root mat, vegetation, dune formation, mudflat, Mauritania, Banc d'Arguin; 07072. sulphate, reduction, pore water chemistry, bioturbation, Spartina alterniflora, 12953. water trapping, mudbank, water level recession, tidal deceleration, bank habitat, USA, Florida Bay; 12139.

seagrass bed
diagenesis, saccharide, biomarker, corrosion, Australia, Victoria, Corner Inlet; 04844.

seal development
crust formation, slope, hillslope hydrology, surface sealing, infiltration, surface runoff, topography, 11000.

seal formation
raindrop impact, rainstorm intensity, rainfall energy, infiltration, sealing soil, soil permeability, numerical model, rainfall characteristic, 08766. surface sealing, soil seal, crust, loamy sand, infiltration rate, USA, Georgia, Piedmont; Coastal Plain; 10932.

sealevel curve
radiocarbon age, coastal landform, stratigraphy, tidal shoal, tidal delta, estuarine embayment, beachridge system, lobate delta, Australia, Western Australia, Peel-Harvey Estuary; 11992.

sealing
aggregate breakdown, micromorphology, experimental study, soil crusting, crust formation, 03932.

sealing soil
soil permeability, numerical model, rainfall characteristic, seal formation, raindrop impact, rainstorm intensity, rainfall energy, infiltration, 08766.

SeaMARC II
bathymetry, sea beam data, stochastic model, abyssal hill, seafloor topography, ridge process, seafloor model, Pacific, East Pacific Rise; 09506.
seamount
atoll, hydrothermal, manganese nodule, Pacific, Manihiki Plateau; Cook Islands; 02374. basalt, geochemistry, oxyhydroxide crust, volcanic breccia, mineralogy, formation condition, manganese iron oxyhydroxide, Atlantic, Krylov Seamount; 07020. mineralisation, hydrothermal transformation, crust, Atlantic, Cape Verde Depression, Krylov Seamount; 11695. mud blanket, GLORIA survey, oceanic continental transition, back arc basin, side scan sonar, tectonism, volcanic seascape, New Zealand, Havre Trough; Taupo Volcanic Zone; New Zealand, Ngatoro Basin; 08381. reef facies, Permian, Mino terrane, organism, bindstone, Japan; 04818. sea water, hot spot area, crust, hydrothermal mineral, Pacific, Teahitia Seamount; Pihaa Seamount; Pacific, Macdonald Seamount; 12894. volcanism, oceanic ridge, seismic profile, lava flow, Atlantic, Greenland Basin, Vesterisbanken Seamount; 07022.
Sear House Bed
delta, mudstone, prodelta, river mouth, hyperpycnal mixing, Namurian, Carboniferous, UK, England, Yorkshire; 05896.
search algorithm
linear window, unsupervised classification, USA, New York, Syracuse; 07972.
search and retrieve data
database, radiocarbon database, Japan; 02599.
search beam method
incremental dynamic programming, Fibonacci search method, multiobjective decision making, water resource management, reservoir operation, 02976.
search coil magnetometer
fluxgate magnetometer, magnetic field experiment, satellite, 03389.
searching
data structure, content addressable memory, algorithm, quadtree, 03361.
seasalt
aerosol, particle, size distribution, sulphur conversion, aerosol water content, sulphate, sulphur dioxide, Bermuda; 12537. chloride, air-sea interaction, emission, deposition, sodium-chloride ratio, sodium, rainwater, Germany; 00868.
SEASAT
altimeter, orbit accuracy, gravity, sea surface, topography, 04637. analysis forecast model, forecast, Ark Royal storm, European Centre for Medium Range Weather Forecasts, scatterometer data, 13620. ice sheet, elevation data, GEOSAT, 07909. Polar platform, altimeter data, mean sea level, continental ice topography, 12786. radar altimeter, full deramped signal, Brown model, 00995. SAR, incidence angle, topography, forested region, 02217. SAR, Landsat TM, digital analysis, Iceland; 11461. SAR, wave number, 11462. satellite, radar altimeter, continental ice, katabatic wind measurement, 02267. scatterometer observation, wind stress, ocean, baroclinic boundary layer model, thermal advection, stratification, surface wind, low level transport, mass transport, 10045. scatterometer system, SMMR, sea surface emissivity, 10384. topography, altimetry, Australia; 04602.
SEASAT altimeter
global wave model, altimeter wind speed, model wave height, 12778.
SEASAT altimetry
isostatic process, geoid height anomaly, Indian Ocean; 07943.
SEASAT radar altimeter
digital elevation model, geoid model, satellite orbit ephemeris, orthometric height data, Australia, Simpson Desert; 12627.
Seasat radar imagery
air photograph, geological structure, remote sensing, geothermal field, Landsat TM, USA, California; 06834.
season
climatic zone, paralic sedimentation, Quaternary, tectonic control, eustatic control, 12939. geoclimatic parameter, precipitation, Spain, Tagus River Basin; 12333. snow cover, forest limit, permafrost, thermal seasonality, mountain belt, Spain, Pyrenees; France, Pyrenees; 11167.
seasonal
inter annual variation, sea ice extent, radar altimetry, GEOSAT radar altimeter, SMMR, Antarctica; 05048.
seasonal amplitude
carbon cycle, carbon dioxide, long term atmospheric carbon dioxide concentration change, Canada, Alert; Ocean Station P; 05475.
seasonal change
carbon dioxide, nomogram, scaling, rapid determination, corrosion property, surface water, chemical composition, 02703. climatic variable, temperature, insolation, sunshine hours, 08877. flood, glacial river, sediment supply, mass flow deposit, glaciolacustrine delta, glaciofluvial system, UK; Ireland; 10518. ozone, mesosphere, 03224. soil solution, lysimetry, centrifugation, 03989. sulphate, fresh water sediment, concentration profile, temperature, reduction, pore water, Germany, Lake Constance; Switzerland, Lake Constance; 09336. surfactant, alkylphenol polyethoxylate, macroalgae, Italy, Venice Lagoon; 01258. wind field, tropics, outgoing longwave radiation, ITCZ, monsoon, 12343.
seasonal change in sediment size
sediment transport, bedform, estuary, sediment supply, sediment size, sorting, USA, Oregon, Columbia River Estuary; 05800.
seasonal circulation
optical state, optical thickness, turbidity, regional identification, India; 13491.
seasonal climate
climate summary, surface wind, seasurface temperature, rainfall, Southern Hemisphere; Australia; 13494. last full glacial, stratigraphy, radiocarbon, pollen analysis, rainfall, summer monsoon, vegetation, Australia, South Australia, Lake Frome; 13108.
seasonal climatic change
salt lake, steppe vegetation, savanna grassland, lake level decline, India, Thar Desert; 06108.
seasonal colour change
normalisation, Landsat TM, ground reflectance, 05610.
seasonal concentration ratio
concentration ratio, precipitation, sulphate, nitrate, USA; Sweden; 11338.
seasonal condition
coastal site, sulphur dioxide, nitrogen oxide, ozone, sea breeze, drainage flow, Spain, Castellon; 12533.
seasonal cycle
carbon monoxide, ozone, biomass burning, diurnal cycle, Brazil, Natal; Cuiaba; 03236. dimethyl sulphide, methanesulphonate, sulphate, marine air, climate feedback, albedo, 07886. dimethylsulphide, oceanic sources, biogenic sulphur, sulphate, aerosol concentration, methanesulphonate, Antarctica, Mawson; Southern Ocean; 11215. hydroxyl radical, carbon monoxide, global production, 10187. marine biomass, algae, anthropogenic halocarbon, halocarbon, sea water, 09473. phytoplankton, biomass, colour scanner, surface pigment, mixed layer depth, nutrient, euphotic zone, biological process, Atlantic, (North); 10029. quasi biennial oscillation, ozone, satellite data, station data, radiative-dynamical-photochemical model, 13650. secular trend, column abundance, ethane, tropospheric burden, Switzerland, Jungfraujoch; 12552. snowline, ice sheet, climate change, nonlinear climate model, seasonal energy balance, climate model, steady state seasonal cycle, 08422. tropical deforestation, emission, nitrous oxide, Brazil, Amazon; 00913. tropical ocean, surface forcing, flux data set, model simulation, Pacific; 13570.
seasonal dynamics
landscape change, expert system development, 10086. saline soil, maritime soil, mineral content, USSR, Estonia; 01609.
seasonal elevation change
ablation zone, radar altimeter data, Geosat Geodetic Mission, satellite altimetry, semivariogram, Greenland, West Greenland; 00341.
seasonal energy balance
climate model, steady state seasonal cycle, seasonal cycle, snowline, ice sheet, climate change, nonlinear climate model, 08422. energy balance model, annual cycle, supercontinent, summer snow, polar region, albedo feedback, sea ice margin, polar continentality, climate, 08934.
seasonal event
upwelling, lamination, fabric, varve, palaeoceanography, Pacific, Peru Margin; 01194.
seasonal exchange
Monte Carlo simulation, biosphere, ecosystem model, carbon dioxide exchange, carbon dynamics, 11322.
seasonal flow
Mejia and Rousselle model, parameter estimation, disaggregation, stream flow, 09805. phosphorus, ferric hydroxide, equilibration, undersaturation, USA, Hudson River; 12977.
seasonal fluctuation
precipitation, stream flow, flooding, drought, climatic variation, El Nino/Southern Oscillation, snow melt, annual fluctuation, Chile, Aconcagua River Basin; 09786.
seasonal forcing
climatic variability, Pleistocene, marine varve, El Nino/Southern Oscillation, varve, bioturbation, carbon pump, USA, California; 00271.
seasonal forecast
model hybrid, daily rainfall forecasting, rainfall, Bangladesh, Dhaka City; 08985.
seasonal freezing
permafrost, frost activity, ice segregation, Pleistocene, loess deposit, till, Italy; 07291.
seasonal frequency
Pearson distribution, antecedent rainfall condition, India, Pantnagar; 00521.
seasonal frost
time domain reflectometry, Konrad-Morgenstern theory, cumulative frost heave, frost heave, displacement transducer, segregational potential, field frost heave measurement, prediction, Canada, Ontario, Ottawa; 01454.
seasonal growth band
pingo ice, pingo growth, Stefan's equation, permafrost, 05040.
seasonal insolation
climate model, model response, cycle filtering, Milankovitch cycle, orbitally induced perturbation, Antarctica; 10741.
seasonal mean
satellite imagery, secular variation, snow cover, negative anomaly, Northern Hemisphere; 12484.
seasonal model
carbon dioxide, CFCs, methane, nitrous oxide, ozone, surface temperature, stratosphere, troposphere, greenhouse gas, global warming, trace gas, climate, 01954.
seasonal oxygen budget
environmental cycle, Jurassic, epeiric basin, mudstone, anoxic condition, 07061.
seasonal particle flux
zooplankton, carbon flux, faecal pellet, sediment trap, Mediterranean Sea, Monaco Coast; 08290.
seasonal pollen variation
annual pollen variation, pollen content, snow, Arctic ice cap, ice cap, low Arctic, tundra, Canada, Ellesmere Island, Agassiz Ice Cap; 07224.
seasonal sea ice
sea ice properties, Arctic, Antarctic, sea ice, sea ice biota, Arctic; Southern Ocean; 03922.
seasonal snow cover
layered character, snow cover, research problem, physical property, 10810.
seasonal snowcover
snowcover, temperature, precipitation, simulation, Japan; 13521.
seasonal soil movement
sediment concentration, sediment source, overland flow, soil movement, forest, India, Himalayas, Kumaun Himalaya; 00365.
seasonal solutional enlargement
aquifer, Quaternary, tectonic activity, regional aquifer flow, radiometric dating, sub aqueous precipitate, cave, tilting, faulting, geothermal gradient, boxwork, USA, South Dakota, Wind Cave; 10722.
seasonal sulphur variation

soil fractionation, acid volatile sulphide, hydrogen chloride soluble sulphur, elemental sulphur, pyrite sulphur, ester sulphate sulphur, carbon bonded sulphur, salt marsh soil, USA, Louisiana; 10931.
seasonal surface water
surface water, low salinity surface water, oxygen isotopic analyses, Orbulina universa, melt water, surface salinity, USA, Gulf of Mexico; 08437.
seasonal temperature
bivariate linear regression, temperature prediction, analog prediction, persistence, USA; 01946. Chernobyl accident, lake, Italy; 09338.
seasonal thawing
permafrost, active layer, pingo, summer thawing, Mongolia; 09603.
seasonal trend
transmissivity, solar radiation, New Guinea, Port Moresby; 03020.
seasonal tropical climate
foreland basin, sand composition, tropical climate, arenite, molasse, Colombia, Guaviare River; Inirida River; Colombia, Llanos; 09324.
seasonal upwelling
interglacial episode, palaeoproductivity, water column scavenging, erosion, winnowing, Uranium-series disequilibrium, particle scavenging, sediment accumulation, Pleistocene(Late), Indian Ocean; Arabian Sea, Owen Ridge, ODP Site 722; 11927.
seasonal variability
air-sea interaction, wind stress, turbulent diffusion, Gulf of California, Guaymas Basin; 00745. continental margin, circulation pattern, hydrographic data, continental shelf, ocean current, coast, Mediterranean Sea, Ebro continental margin; 05861. nitrate, potassium, phosphate, sodium, chloride, pH, aluminium concentration, iron, clearfelling, drainage water chemistry, forest hydrology, 04155. precipitation, snow storm, traffic, snowfall, Canada, Quebec; 12339. shallow groundwater, groundwater flow, coal field, water table fluctuation, hydrogeology, pumping test, Gondwana basin, aquifer characteristics, India, Bihar, Jharia Coal Field; 05215. wind intensity, gravity wave, middle atmosphere, Rayleigh, lidar, climatology, 12306.
seasonal variation
Biot theory, porosity, water temperature, water column, USA, Gulf of Mexico; 10497. carbon dioxide, sulphur dioxide, urban-rural transect, fixed point measurement, 06561. daily variation, peroxypropionilnitrate, ozone, peroxyacetylnitrate, Italy, Tiber Valley; 03163. diurnal photosynthesis respiration cycle, carbon dioxide, sulphur dioxide, urban-rural transect, 06562. glaciology, cosmogenic isotope, snow chemistry, mineral dust, isotope, 13731. groundwater, cement, Oolite Group, Dinantian, pore water, UK, Wales; 10601. hydrocarbon, free troposphere, mid latitude, ozone, ethane, propane, 11340. interannual variation, El Nino, sea surface temperature, Indonesia, Banda Sea; Arafura Sea; 05391. iron, zinc, manganese, copper, trace metal, estuary, tidal zone, marine zone, surface water quality, India, Vellar Estuary; 02875. lidar, aerosol, remote sensing, ozone, stratospheric ozone, 00784. mesoscale fluctuation, wind speed peak, wind speed, air temperature, mesoscale, 05421. mesospheric sodium, tidal activity, laser radar measurement, sodium, vertical wind, Brazil, Sao Jose dos Campos; 03227. nitrate nitrogen, snow melt, atmospheric deposition, brackish lake, lake water quality, nitrogen metabolism, Japan, Lake Nakanoumi; 06311. radon daughter, cold climate, Canada, Montreal; 05493. radon, uraniferous fluorite vein, house, Thailand; 12528. satellite image, euphotic zone, chlorophyll fluorescence, phytoplankton, solar irradiance, 06899. sediment yield, sediment transport, suspended sediment, melt water, glacier, Switzerland, Pennine Alps, Gornera River; Gornergletscher; Switzerland, Pennine Alps, Gornersee; 08714. sedimentation, suspended matter, shelf, continental slope, Atlantic, (Centraleast); 07023. seston concentration, current speed, fresh water, tide, spatial variation, USA, Maryland, Choptank River; 03536. snow accumulation, integrated model, sulphate, snowmelt quality, snowmelt quantity, 02934. spatial variation, beach change, dry season, wet season, erosion, accretion, Nigeria; 11684. spatial variation, physico chemical variable, solubility, reservoir water chemistry, alkalinity, ammonium, pH, reactive phosphorus, nitrogen, phosphorus, nutrient, trophic state, Venezuela, Guanapito Reservoir; 13336. spectroscopic observation, trace gas, carbon dioxide, methane, air sampling, USA, Arizona, Kitt Peak; 04351. surface water quality, dissolved organic carbon, land management, forest catchment, moorland, peat soil, UK, Scotland, Loch Fleet Catchment; 02961. trend, PAH's, mutagenic activity, benzo (g,h,i)perylene, vehicle, organic emission, benzo(a)pyrene, USA, California, San Francisco Bay; 11408. tropospheric transport, hydroxyl, elemental carbon, carbon monoxide, 05477. warm period, cold period, truncated geometric distribution, UK, England, Birmingham, Edgbaston; 01839.
seasonal weather forecasting
climate variability, weather forecasting, prediction, climate reversal(1988-89), USA; 08989.
seasonality
carbonate flux, coccolith, sediment trap, nannoplankton, Norwegian Sea, Lofoten Basin; 04862. continentality, climate classification, bioclimatic condition, thermal climate, 10000. ECOMARGE program, continental slope, biogenic matter, nepheloid matter, organic matter, Mediterranean Sea, Gulf of Lions; 05859. intermittency, palaeoceanographic implication, primary production, photic zone, glacial North Atlantic, export production, 07194. particle flux, opal, organic carbon, benthic, sedimentation, productivity, Weddell Sea; Southern Ocean, Bransfield Strait; 02471. particulate matter, fatty acid, organism, organic matter, biogeochemistry, organic carbon, Arabian Sea; 01348. rainfall, flood, drought, agricultural production, India, Western Ghats; 13496. sedimentation, organic matter, varve, laminae, microbial, biostructuration, 03524.
seasonally ice covered area
perennially ice covered area, benthic foraminifera, siliceous sponge reef, sedimentation rate, food supply, niche, foraminifera, Canada, Axel Heiberg Island; Ellesmere Island; Canada, Axel Heiberg Shelf; Arctic Ocean, Baffin Bay, Lancaster Sound; Arctic Ocean, Axel Heiberg Shelf; 10755.
seasurface temperature
rainfall, seasonal climate, climate summary, surface wind, Southern Hemisphere; Australia; 13494.
seawall
erosion, nourishment, sea level rise, 09374.
seawater
actinide dose, air-sea exchange, radionuclide, lake sediment, sheep faeces, enrichment factor, UK; 00925. algae, Secchi transparency, Mediterranean Sea; 11591. coastal glacial deposit, till, sorption complex, glacial deposit, glaciomarine deposit, inland glacial deposit, Poland; Svalbard, Spitsbergen; 00300. kinetics, thermodynamics, carbon dioxide, trace metal speciation, 05541. manganese, calcite growth, calcite overgrowth, metal, precipitation rate, 05929. rare earth element, crust, fractionation, Pacific, Hawaiian Archipelago, Schumann Seamount; 12890. sedimentation rate, rare earth element, palaeoceanographic, cerium, carbonate, Indian Ocean, ODP Leg 115; Mascarene Plateau; 03673.
SEDEX
satellite data, global circulation model, energy balance experiment, ground truth, calibration, Africa, Sahel; 11204.
Secchi depth
algal growth, phytoplankton, reservoir limnology, eutrophication, nutrient condition, dissolved oxygen, Argentina, Uruguay River, Salto Grande Reservoir; 12193. eutrophication, fish farm, sedimentation, nutrient, nitrogen, phosphorus, Baltic Sea; 12913. suspended solid, chlorophyll, lake, water colour, optical clarity, New Zealand, Canterbury, Lake Coleridge; Wilberforce River; 06975.
Secchi transparency
seawater, algae, Mediterranean Sea; 11591.
Secchi-disk depth
chlorophyll, eutrophication, water quality, phytocenoses, Netherlands, Friesland; 01137.
secci depth
sulphur treatment, sodium sulphate treatment, lake water quality, catchment treatment, dissolved organic carbon, acidification, phosphorus, nitrogen, oligotrophication, Sweden, Gardsjon Lake; 13345.
Second High Cliff
uplift rate, Quaternary(Late), folding, coral reef terrace, First High Cliff, constructional reef terrace, Barbados; 07169.
second moment
turbulent velocity, wind velocity, Doppler radar, radar, complex terrain, 13518.
second step platform
Salawusu Group, sporo pollen analysis, Pleistocene(Late) deposit, China, Nei Mongol, Ho Bao Basin; 08489.
secondary calcite
micromorphology, calcium carbonate, bauxite processing waste, aluminum production, 12013.
secondary consolidation
clay, mercury intrusion porosimetry, pore size, consolidation, compressibility, soil fabric structure, pore size distribution, 11887. sensitive marine clay, consolidation, foundation, sensitive clay settlement, marine clay, Canada, Ontario, Gloucester; 02540.
secondary current
estuary, topographic feature, tidal cycle, lee wave, 02322. turbulence modelling, channel flood plain flow, compound open channel, Navier Stockes equation, algebraic stress model, Reynolds stress component, 05165.
Secondary Drinking Water Standards
groundwater recharge, groundwater contamination, pollution potential, dry well drainage, volatile organic compound, lead, chromium, pesticide, nickel, manganese, USA, Arizona, Pima County; 04139.
secondary flow
friction factor, eddy viscosity, channel flow, flow model, mathematical model, multi stage channel, lateral shear, depth averaged eddy viscosity, dimensionless eddy viscosity, two stage channel, depth averaged velocity, boundary shear stress, 05169. river gauging, current meter, flow measurement, open channel flow, river flow simulation, flow resistance, flow model, bed generated turbulence, lateral shear turbulence, 00526.
secondary formation
carbonaceous aerosol, aerosol, carbon concentration, organic carbon, gas-to-particle conversion, USA, California, Los Angeles Basin; 13655.
secondary front
cyclogenesis, storm, thermal wind balance, Richardson number, frontal zone, 01908.
secondary grassland environment
land cover map, grassland, deforestation, equatorial rain forest, Africa, (Equatorial); 12745.
secondary iron accumulation
landscape position, secondary manganese accumulation, geomorphic position, iron, manganese, redox potential, Alfisol, Ultisol, USA, North Carolina, Piedmont; 10930.
secondary manganese accumulation
geomorphic position, iron, manganese, redox potential, Alfisol, Ultisol, secondary iron accumulation, landscape position, USA, North Carolina, Piedmont; 10930.
secondary mineral
nonexchangeable potassium, quartzipsamment, potassium, oxalate, vermiculute, hydroxy vermiculite, interlayered vermiculite, USA, Southeastern Coastal Plain; 07378. regolith, weathering, soil geomorphic relation, slope process, mica gneiss, mica schist, saprolite, soil residuum, colluvium, USA, North Carolina, Blue Ridge Front; 07420.
secondary phyllosilicate
kaolinite, geochemical change, weathering, biotites, cupriferous rock, Brazil, Serra dos Carajas, Salobo; 09615.
secondary reaction
sulphur compound, peroxyacetyl radical, PAN, rate constant, 06661.
secondary road planning
erosion, sedimentation, steepland, road design, 06058.
secondary school
teaching, field work, geomorphological work, Germany, Nordhein-Westfalen, Cologne Basin, Mitbach Valley; 00207.
secondary sorting

patterned ground, sorted pattern, sorted circle, polygon, soil convection, desiccation cracking, Svalbard, Spitzbergen, Kapp Linne; USA, Colorado, Colorado Front Range, Arikaree Cirque; 12007.

section map
topographic map series, carto bibliography, Canadian topographical mapping, Canada; 08032.

secular
sea level change, global signal, glacial, isostatic adjustment, tide gauge, 11976.

secular change
sea level change, tide gauge, deglaciation, glacier melting, eustatic rise, postglacial rebound, 13162. sea level history, palaeoclimate, fluctuation, global climatic change, radiocarbon dating, sediment, USSR, Caspian Sea; 04982.

secular trend
column abundance, ethane, tropospheric burden, seasonal cycle, Switzerland, Jungfraujoch; 12552. mean tidal range, time series, tidal harmonics, sea level, UK; Ireland; France; Belgium; Germany; Netherlands; 11985. precipitation data, observational error, linear regression, 04200.

secular variation
atmospheric carbon-14, fine, hyperfine structure, 02591. radiocarbon age, Milankovitch, dynamo process, climatic influence, geomagnetic influence, palaeomagentic secular variation record, France, Haute Loire, Lac du Bouchet; 08427. snow cover, negative anomaly, seasonal mean, satellite imagery, Northern Hemisphere; 12484.

security commodification
government role, public information, public information access, information commodification, 09128.

sedentary soil
particle size distribution, oxygen isotope composition, quartz, aeolian dust, parent material, silty mantle, Japan; Korea(South); 13300.

sedge community
evaporation efficiency, vegetation cover, Penman's open water evaporation formula, evapotranspiration, wetland, 05117.

sedge meadow

sediment
accelerated mass spectrometry, ultra small carbon sample, carbon sample, dating, 02587. bathymetry mapping, sea water, eddy current, 08120. burned sagebrush, sagebrush juniper community, runoff, USA, California, Susanville District, Eagle Lake Resource Area; 03936. carbon skelton, sulphur, dimethylalkadiene, isomerisation, biological marker, diagenesis, lipid, 07090. climatic change, chemical release, soil, Europe; 04778. climatic optimum, Illinoian deposit, Sangamonian deposit, Becquets Interstade, Trois-Rivieres Stade, radiocarbon dating, TL date, last interglacial glacial, Canada, Quebec, St Lawrence Valley; 06137. dissolved organic carbon, nitrate, calcium, phosphorus, solute retention, stream, abiotic sorption, surface water quality, uptake rate, biotic sorption, USA, Oregon, Cascade Mountains; North Carolina, Appalachian Mountains; 11021. drainage channel, hypoxic sediment, eutrophic channel, gas chromatography, dissolved oxygen, acetate, propanoate, butanoate, carboxylic acid, drainage water quality, 04135. emergent, Pleistocene(Late), glaciomarine sequence, Devensian(Late), tidewater ice margin, shallow water glaciomarine environment, glacioisostatic crustal depression, lithofacies association, calving tidewater glacier, crustal rebound, biofacies, Ireland, Skerries; 01432. estuary, agricultural pollution, non point source pollution, pesticide, runoff, ecological impact, water quality, USA, Washington, Padilla Bay, Puget Sound Estuary; 07581. estuary, particulate matter process, suspended matter, deposition, clay mineral, organic matter, mineral particle, 12216. geochemical process, sorption coefficient, contaminant transport, groundwater contamination, chemical contaminant, surface complexation model, cation exchange capacity, Germany; 09904. glaciotectonic disturbance, loading, faulting, gravity induced deformation, deformation structure, Pleistocene, UK, England, Warwickshire, Stretton-on-Fosse; East Anglia, Norfolk; 11955. hyporheic zone, stream water chemistry, groundwater chemistry, denitrification, 00494. lagoon, marsh, gyttjas, depositional cycle, radiocarbon date, palaeoclimatic event, water level fluctuation, Canada, Ontario, Kingston, Cataraqui River; 08495. mesotrophic lake, lake water quality, heavy metals, plankton, zoobenthos, ichthyofauna, Poland, Lake Piaseczno; 02860. metal, NERC research programme, survey station, station measurement, temperature, salinity, dissolved oxygen, nutrient, zooplankton, North Sea; 11603. microstratigraphical analysis, anthropological influence, stratigraphy, laminated sediment, trophic change, diatom, pollen, Austria, Hollerer See; 10789. model scaling, information questionnaire, mobile bed, 06948. modern environment, ancient environment, glacimarine process, 06112. napropamide, pesticide sorption, herbicide, fractionation, organic matter, 07349. nitrate, phosphate, surface water quality, agricultural pollutant, tillage practice, sorghum culture, nonpoint-source pollution, desorption kinetics, enrichment ratio relationship, USA, Southern Plains; 13451. nitrate, phosphate, tillage practice, wheat culture, desorption kinetics, enrichment ratio relationship, surface water quality, groundwater quality, nonpoint-source pollution, USA, Southern Plains; 13452. nutrient loss, Maury silt loam, Paleudalf, runoff, soil loss, silt loam, tillage, 07337. nutrient, reservoir water quality, buffering capacity, chlorophyll, phytoplankton, agricultural runoff, detention reservoir, 04055. plankton, fish, atmospheric deposition, total organic carbon, pH, lake water quality, mercury, USA, Minnesota; 07480. pre industrial acidification, acidification, diatom analysis, lake water quality, historical hydrology, Norway, Agder, Tveita Fiskelostjern Lake; Erdsal Fiskelostjern Lake; 13347. radioactive contaminant, contaminant transport, contaminant storage, flood wave, surface water quality, unit stream power, critical shear stress, thorium-230, USA, New Mexico, Puerco River, Church Rock; 05192. radiocarbon dating, Holocene history, El Nino, flood, Peru; 11283. remote geophysics, statistical trend anlysis, mineralogy, Precambrian basement, Egypt, Central Eastern Desert; 03411. river, GIS, dredging, Canada, St. Lawrence River; 13959. salt marsh, mud flat, precipitation, evapotranspiration, salinity, soil salinity, intertidal gradient, Netherlands; 12140. secular change, sea level history, palaeoclimate, fluctuation, global climatic change, radiocarbon dating, USSR, Caspian Sea; 04982. silt control, land management, bank erosion, flood control, river regulation, Bangladesh; 07595. soil, provo debris, solifluction, cryoturbation, loess, Kastanozem, Fluvisol, Quaternary(Upper), USA, Utah, Great Salt Lake; 13091. stratification, Chernobyl disaster, lake water quality, caesium transport, radionuclide, UK, England, Cumbria, Esthwaite Water; Windermere; 13343. stratotype, Kauhajoki Formation, Kela Formation, Siuntio Till, Espoo Till, Pikkala Sand, Kauhajoki Till, Harrinkangas Formation, sedimentological analysis, lithostratotype, Weichselian, Finland; 07238. surface water quality, dissolved solid, suspended solid, runoff water quality, base flow water velocity, coastal plain watershed, USA, Georgia, Tifton, Little River; 04073. surface water quality, heavy metal, USA, Ohio River; 12208. suspended load, dissolved organic carbon, alkalinity level, particulate form sediment, copper, mine related discharge, sedimentation, surface water quality, Papua New Guinea, Fly River System; 08755. suspended sediment, arsenopyrite, bank deposit, surface water quality, contaminant transport, waste processing, mining, milling, lake bottom, bed sediment, arsenic, USA, South Dakota, Whitewood Creek; Belle Fourche; USA, South Dakota, Cheyenne River; USA, South Dakota, Lake Oahe; 08749. typological characteristic, fluvial form, meander migration, fluvial sediment, geomorphology, 10671. volume, reflectance, water, simulation, suspended sediment, 04657. water quality, trace element, pesticide, irrigation water quality, drainage water quality, alkaline soil, oxidised soil, water quality, biota, USA, California, Kesterson National Wildlife Refuge; 11085.

sediment accretion
pigment stratigraphy, lake, radionuclide dating, eutrophication, Netherlands, Lake Vechten; 01208. velocity distribution, sediment load, solute load, mountain basin, structure calibration, stream gauging, current meter, forested catchment, grass catchment, evaporative loss, crump weir, v notch weir, water balance, flat v weir, dilution gauging, UK, Scotland, Balquhidder, Kirkton Catchment; Monachyle Catchement; 08708.

sediment accumulation
accumulation rate, land sea correlation, fjord, deglaciation, Foxe glaciation, glacier retreat, offshore moraine, Canada, Baffin Island, Cambridge Fjord; 07225. climate, sedimentation, Quaternary, continental shelf, Chukotsk Sea; Pacific, Bering Strait; 08180. groundwater regime, salt balance, mountainous terrain, downstream hydrology, hydrological effect, reservoir, mountain plain ecology, environmental impact, channel shape, China, Haihe River; 08647. heavy metal accumulation, detention pond, highway runoff, Environmental Protection Agency Toxicity Characteristics Leaching Procedure, surface water quality, metal-sediment association, heavy metal transport, USA, Florida; 00565. macrophyte, accumulation rate, lake sediment, microfossil, mineral cycling, timescale, diatom, UK, Northern Ireland, County Tyrone, Lough Augher; 00028. nepheloid layer, plume front, organic matter, suspended matter, France, Rhone River; 08284. onlap, offlap, unconformity, sediment supply, eustatic boundary, 10589. Pleistocene(Late), seasonal upwelling, interglacial episode, palaeoproductivity, water column scavenging, erosion, winnowing, Uranium-series disequilibrium, particle scavenging, Indian Ocean; Arabian Sea, Owen Ridge, ODP Site 722; 11927. sea floor, limestone, ramp, reef, Carboniferous, carbonate platform, eustatic, 00120.

sediment accumulation pattern
carbonate productivity rate, reconstructing, particle flux, tropical, sediment trap study, Atlantic, Sierra Leone Rise; Ceara Rise; 03861.

sediment accumulation rate
glacial interglacial alternation, Pliocene, Holocene, Polar Front Zone, Southern Ocean, ODP Site 699A; ODP Site 701C; Southern Ocean, ODP Site 704B; Atlantic, (South); 11936. ice proximal environment, cryosphere ocean interaction, Laurentide Ice Sheet, Younger Dryas chron, core, biogenic silica, silica production, sea ice, Canada, Northwest Territories, Baffin Shelf; 08436. SPECMAP, Milankovitch periodicities, Pleistocene(Late), periodicity, oxygen isotope ratio, calcium carbonate, magnetic susceptibility, high resolution stratigraphy, planktonic foraminifer, Indian Ocean, ODP Site 728A; Arabian Sea, ODP Site 728A; 11923. tectonic uplift, sedimentology, sequence stratigraphy, Pleistocene(Upper), carbonate, reef-associated carbonate, reef terrace, glacio eustatic, sea level, Barbados; 07274. Weichselian(Late), stratigraphy, amino acid, radiocarbon evidence, foraminifera, Weichselian(Middle), Barents Sea; 09569.

sediment analysis
inorganic substance, water quality analysis, analytical method, laboratory manual, US Geological Survey, suspended sediment, bottom material, standard reference water sample, 00497.

sediment associated transport
particulate organic matter, particulate inorganic matter, phosphorus transport, surface water quality, agricultural catchment, Denmark, Gelbaek River; Lyngbygaards River; 02951.

sediment basin
Cenozoic, tectonic transpression, plate margin, Cretaceous(Late), Pleistocene, uplift, Hispaniola, Haiti, Peralta-Rio Ocoa Belt; Dominican Republic, Peralta-Rio Ocoa Belt; 09417. sediment transport, fly ash, spatial variability, soil erosion acceleration, overland flow, rain splash transport, freeze thaw, depositional quantification, postsettlement deposition, USA, Illinois; 08540.

sediment bound metal
surface water quality, metal contamination, chromium, lead, zinc, contaminant transport, Costa Rica, Rio Grande de Tarcoles; 02880.

sediment budget
beach, coast, nearshore area, sand, sea bottom, storm surge, Germany, Probstei Coast; Baltic Sea; 00054. channel instability, sediment transport, bank erosion, sedimentation, morphological change, trap sampler, bed load formula, Canada, British Columbia, Fraser River; 12172. Chernobyl accident, caesium-137, erosion, arable land, soil loss rate, long term rate, UK; 09636. clastic sediment, delta, aggrading, paraglacial sediment, debris flow, landslide, Neoglacial, Holocene, sediment production, Canada, British Columbia, Coast Mountains, Lillooet River; 13015. coal mining, sediment source, rainfall condition, water quality management, USA, Maryland; 00534. coastal erosion, vertical accretion, wetland soil formation, subsiding, mineral, organic matter, marsh,

USA, Louisiana, Mississippi Delta; 03903. erosion, gullying, sheetwash, topsoil, sedimentation, steepland, Tanzania, Shinyanga; 07033. erosion, salt marsh, accretion, tidal flat, estuary, UK, England, Kent, Medway Estuary; 00040. estuary, historical change, numerical flow model, mixing, stratification, tidal forcing, salinity intrusion length, riverflow data, river regulation, channel morphology, carbon budget, USA, Washington, Columbia River; 10965. general system theory, aerial photograph, denudation, caesium 137, geomorphological process, field experiment, Poland; 08325. mudflat, salt marsh, estuary, stratification, peat, tidal flat, suspended sediment, UK, Severn Estuary; 04734. sediment dating, Holocene, Pleistocene, dunefield, Australia, Queensland, Cape York; Northern Territory, Arnhem Land; 02308. sediment load, estuary, salt marsh, fresh water, tidal range, submergence, USA, Pennsylvania, Philadelphia; Philadelphia, Delaware River; 06981. sediment yield, suspended sediment, bedload transport, channel pattern, melt water flood, sandur, slopewash, flood event, proglacial storage, sediment concentration, Alpine sediment, Switzerland, Val d'Herens, Bas Glacier d'Arolla; 07239. semi-arid region, equatorial region, aggradation, sediment delivery ratio, drainage basin, sediment storage, Kenya, Katiorin Basin; 00021.

sediment burial
Laborcita Formation, Wolfcampian, dolomitic limestone, bioherm, fluid inclusion, brine, USA, New Mexico, Sacramento Mountains; 09404. organic matter, gas, continental shelf, nitrogen, Pacific, (North); 07013.

sediment cascade
dendrogeomorphology, Holocene, non equilibrium process, geomorphic process, geomorphic pattern, avalanche path, subalpine avalanche, sediment yield, microscale cascade, USA, Rocky Mountains; 13055.

sediment chemistry
atmospheric sulphur, lake water quality, palaeoecological investigation, acidification, acid deposition, diatom, USA, New York, Adirondack Mountains; 04061. estuary, mixing, salinity gradient, wind stress, cadmium, oxidation, tidal river, metal pollution, surface water quality, marine sediment, fluvial sediment, suspended particulate matter, Germany, Elbe River; 08757.

sediment classification
compositional data, logratio transformation, grain size distribution, South China Sea; 09482.

sediment colour
satellite imagery, remote sensing, particle size, spectral response, suspended sediment, India; 13309.

sediment concentration
Alpine sediment, sediment budget, sediment yield, suspended sediment, bedload transport, channel pattern, melt water flood, sandur, slopewash, flood event, proglacial storage, Switzerland, Val d'Herens, Bas Glacier d'Arolla; 07239. bottom sediment, suspended sediment, metal depth profile, estuary, particulate metal variation, metal, surface water quality, Portugal, Tagus River Estuary; 08743. continental shelf, resuspension, suspended sediment, particle size distribution, concentration profile, USA, New York, Long Island; 03559. eutrophic lake, anthropogenic activity, lake, trophic state, organic matter, Japan; 06974. grain size interaction, sediment transport, graded sand, non uniform sediment, graded sediment, boundary effect, saltation mechanics, velocity distribution, 05175. macroaggregate, mud, rheology, resuspension, accumulation rate, USA, North Carolina, Cape Lookout Bight; 01215. monsoon, total annual load, coarse silt fraction, sediment discharge, water discharge, stream flow, total suspended matter, India, Mahanadi River Basin; 05155. sediment source, overland flow, soil movement, forest, seasonal soil movement, India, Himalayas, Kumaun Himalaya; 00365. sediment yield, runoff, suspended sediment, forested catchment, Chile, Valdiva Area; 09817. stochastic modelling, Box-Jenkins model, suspended sediment, transfer-function/noise model, 04045. terrace, alluvial river, longitudinal profile concavity, river, China, Huanghuaihai Plain; 05995. turbulent viscous coefficient, standing wave, shallow water, 04692. water surface level, bedload, bed elevation, particle size distribution, downsteam channel, bed degradation, suspended sediment, Iraq, Tigris River; 08723. watershed study, watershed pretreatment, forest hydrology, land management, basin stability, discharge characteristics, peak discharge, quick flow, storm flow, suspended sediment, USA, California, Caspar Creek; 06382.

sediment concentration variation
erosion, soil erosion measurement, runoff sampler, sampler, watershed, agricultural watershed, India; 09481.

sediment contamination
mercury, human exposure rate, fish exposure rate, gold mining, surface water quality, Brazil, Rondonia, Madeira River; 12198. metal extraction procedure, anthropogenic contamination, trace metal, copper, 08308. PAH's, polychlorobiphenyl, hexachlorobenzene, DDT, DDT metabolite, heavy metal, organic micropollutant, floodplain, surface water quality, suspended matter, Netherlands, Waal River; Rhine River; 11024.

sediment content
herbicide, pesticide, clearfelling, aluminium, water quality, water chemistry, forest hydrology, acidification, colour, 04149.

sediment core
centrifugation, pore water, porosity, water extraction, interstitial water, 10660. coal content, surface circulation, ice drift reconstruction, ice rafted coal fragment, oxygen isotope stage 6, Arctic Ocean; Norwegian Sea; Greenland Sea; 04958. coccolith, climatic change, palaeoceanography, foraminifera, microfossil, Norwegian Sea; Greenland Sea; 03640. diatom, hydrology, palaeoecology, transfer function, lake, acidification, USA, Florida; 05814. diatom, phosphorus fraction, lake management, palaeolimnological investigation, eutrophication history, Finland, Tuusulanjarvi Lake; 07491. high salt content, nahcolite, gaylussite, magadiite, eitelite, lake, micromorphological study, Sudan, Darfur, Mahla Crater Lake; 01426. lake chemistry, anthropogenic disturbance, palynological technique, Pacific, French Polynesia, Society Islands, Moorea; 12853. palaeoclimatic record, oxygen isotope, foraminifera, clay mineral, Ligurian Sea; 04963. porosity, neutron log, laboratory measurement, Atlantic, Meteor Rise; ODP Hole 704B; 13000. sediment profile, particle size distribution, metal, Canada, St. Lawrence River, Lake St. Louis; 11706. sediment water interface, pigment, lake sediment, phorbin, carotenoid, USA, Wisconsin, Trout Lake; 09330. shallow lake interval, climatic aridity, diatom population, lake level record, stable isotope data, tufa data, tree stump data, lake size change, USA, Nevada, Walker Lake; California, Walker Lake; 08473.

sediment core analysis
lake acidification, Surface Waters Acidification Programme, acidification, historical water chemistry, surface water quality, UK; Norway; Sweden; 13346.

sediment cores
sea floor, ferromanganese, sea water, nodule, aeolian, 02365.

sediment dating
Holocene, Pleistocene, dunefield, sediment budget, Australia, Queensland, Cape York; Northern Territory, Arnhem Land; 02308.

sediment deformation model
geotechnical property, structural property, over consolidated clay, lacustro glacial clay, Saalian ice sheet, geotechnical engineering, sub glacial sediment, Netherlands, Groningen Province, Marum; 10772.

sediment delivery
agricultural land, map, suspended sediment yield, USLE, UK; 02729. peat moorland, reservoir, erosion, sediment yield, UK, England, Yorkshire, Wessenden Head Moor; 10519. ponderosa pine, pinyon juniper, chaparral, vegetation strip, watershed, hillslope stabilisation, erosion control, USA, Arizona; 08539.

sediment delivery ratio
drainage basin, sediment storage, sediment budget, semi-arid region, equatorial region, aggradation, Kenya, Katiorin Basin; 00021.

sediment deposition
check dam, flood control structure, catchment management, riparian vegetation, riparian ecosystem management, channel stabilisation, erosion control, streamflow management, USA; 01782. coarse sediment, sediment transport, stream gauging, ultrasonic gauge, Italy, Rio Cordon; 08709. dam, flow modification, reservoir, hydrological equilibrium, downstream channel, sediment flushing, ecological impact, flood control, 08726. flushing, slope morphology, hillslope hydrology, flood hazard, landslide hazard, hazard mapping, artificial reservoir, flood control, reservoir, sediment transport prediction, flow regime, runoff process, extreme flood, mountain hydrology, 12136. loess soil, river discharge, delta, erosion, suspended sediment, estuary, provenance, sediment transport, China, Huanghe River; 09816. reservoir, hydropower, sediment regime, erosion, sediment transport, Austria, Altenwoerth; Danube River; 08720. sediment transport, bedload, step pool river, mountain basin, 08717. slope angle, fabric, carbonate platform, eustatic, 02402. suspended sediment, dissolved material, soil erosion, sediment transport, sediment generation, Sweden; 07139. uplift, extensional region, localised uplift, isostasy, flexural rigidity, sediment erosion, USA, Basin and Range Province; 07167. wetland fragmentation, hydrologic change, deltaic coast, spoil bank, canalisation, remote sensing, coastal wetland, pond formation, impoundment, open water formation, erosion, USA, Louisiana, Gulf of Mexico; 05252.

sediment discharge
flow velocity, ripple, dune, temperature, bed configuration, Mars; 02297. ilmenite, source rock, heavy mineral analysis, shelf sediment, USA, Atlantic Shelf; Hudson River; 02393. sedimentation, delta, sea bottom, continental shelf, Bohai Sea; Yellow Sea; China, Huanghe River; 12873. turbidity current, lake sedimentation, mixing, reservoir, water circulation, water temperature, Japan, Hokkaido, Katsurazawa Reservoir; 05190. water discharge, stream flow, total suspended matter, sediment concentration, monsoon, total annual load, coarse silt fraction, India, Mahanadi River Basin; 05155.

sediment dispersal
river sediment, grain size, continental shelf, mud, sand ridge, Korea(South), Korea Strait; Korea(South, Nakdong River; 12874.

sediment displacement
till sand peat association, Holocene, cryoturbation, Weichselian Holocene, valley fill, gravity spreading, sand intrusion, gyttja, thawing permafrost, Netherlands, Tjonger Valley; 10813.

sediment dissolution
reaction kinetics, diagenesis, feldspathic sand, sea water, 07077.

sediment distribution
erosion resistance, bed process, bedform characteristic, bed armouring, slope development, particle size distribution, 08727. geotechnical aspect, sedimentation, Atterberg limit, upwelling, sea floor, South Sea; 10559. velocity, channel scour, concrete channel, flood dynamics, urban stream, flood event, Boundary shear stress, stream power, USA, Missouri, Kansas City, Brush Creek; 04049.

sediment drape
fault, turbidite, deformation, progradation, tectonics, submarine canyon, Pacific, (Southeast), Chile Trench; 05857.

sediment drift feature
Labrador Current, Western Boundary Undercurrent, sedimentation, depocentre, submarine sliding, Cenozoic, continental slope, Atlantic, Grand Banks, Sackville Spur; 02362.

sediment dynamics
watershed-lake process model, lake water quality, land use effect, water quality management, agricultural nonpoint source model, nitrogen, phosphorus, COD, temperature stratification, mixing, sedimentation, chlorophyll, runoff water quality, 04156.

sediment erosion
sediment deposition, uplift, extensional region, localised uplift, isostasy, flexural rigidity, USA, Basin and Range Province; 07167.

sediment estimator
nutrient load estimator, surface water quality, sediment load, statistical characteristics, 06317.

sediment facies
deposition rate, braided river, meandering, anthropogenic disturbance, agriculture, discharge, long distance correlation, correlation, fluvial event, temperate zone, channel pattern, 11840.

sediment failure
slump, debris flow, earthquake, slope failure, hazard, Japan Sea, Korea Plateau Slope; 10570.

sediment fill
basin, basin fill simulation, sediment supply, sea level, 10659.

sediment flow
sedimentation, suspension, settling, viscous fluid, 10493. weir, V-notch weir, stream flow gauging, rectangular weir, 12179.
sediment flushing
ecological impact, flood control, sediment deposition, dam, flow modification, reservoir, hydrological equilibrium, downstream channel, 08726.
sediment flux
Caesium-137, slope process activity, periglacial environment, topsoil, cascading system, Sweden, Aknes; Karkevagge; 12001. glacial sedimentation, Holocene sedimentation, change, carbonate sedimentation, clay sedimentation, thorium-230 profile, box core, carbonate dissolution rate, Pacific, (Equatorial); 08453. ridge and runnel, tidal cycle, settling velocity, sand transport, beach, UK, England, Norfolk, Holkham Beach; 01223. texture, tidal bore, delta, estuary, bar, China, Ganpu, Qiantang Estuary; Hangzhou Bay; 01219. uplift, mountain building, Phanerozoic, erosion, sedimentation cycle, 09415.
sediment fractionation
sediment trap, fallout, biogenic carbonate, sedimentation, biogenic silica, phosphorus, 09451.
sediment generation
sediment deposition, suspended sediment, dissolved material, soil erosion, sediment transport, Sweden; 07139.
sediment geochemistry
aeolian material, rift valley, hydrothermal vent, Indian Ocean, Gulf of Aden, Tadjoura Rift; 08193. contamination, marine sediment, multivariate statistical analysis, anthropogenic source, 00197. environmental change, sediment record, lake, diatom stratigraphy, elk population, erosion rate, lead-210 dating, pollen analysis, range management, USA, Wyoming, Yellowstone National Park; 10778.
sediment grain
turbidite, arenite, provenance study, diagenesis, petrofacies, 06952.
sediment grain size
Greenland ice core, Younger Dryas, carbon dioxide content of the atmosphere, wind intensity, eolian sediment, USA, Alaska, Nenana River; 03887.
sediment groundwater system
groundwater quality, surface complexation model, cation exchange capacity, sorption, speciation, strontium speciation, strontium sorption, Germany, Gorleben; 07569.
sediment homogeneity
sedimentation characteristic, Ogolian sand, sand sample, dune, sandsea, aeolian sedimentation, erg, Pleistocene(Upper), Senegal, Mbour; Mauritania, Nouakchott; 10759.
sediment identification method
fabric, sample processing, plant remains, 09556.
sediment inclusion
deep sea deposition, rafting, potential sediment input, sea ice characteristic, Arctic Ocean; Antarctica; 02699.
sediment input
monsoon, North Equatorial Current, Pleistocene, climatic change, pollen analysis, Site 717 core, Bengal deep sea fan, glacier, India, Bay of Bengal; River Brahmaputra; India, River Irrawaddy; India, River Ganges; India, Himalays; 04965. playa condition, AMS dating, radiocarbon dating, arid environment, radiocarbon technique, chemical pretreatment, salt lake core, Australia, South Australia, Eyre Lake; 13107.
sediment instability
continental slope, slope channel, sea floor, continental shelf, USA, Gulf of Mexico; 08184.
sediment interleaving
ice advance, ice retreat, glacial sediment, glaciofluvial sediment, Wildpoldsrieder Tongue Basin, terminal basin, Germany, Bavaria, Kempten; 11958.
sediment laden flow
clear water flow, hyperconcentrated flow, explicit finite difference formulation, implicit finite difference formulation, characteristic method, suspended sediment, physical model, flood routing, numerical method, 05150.
sediment laden water
sand, lignite particle, low density turbide, turbidity current, aggradation, braided river, Souris spillway, USA, North Dakota; 07229.
sediment landform association
moraine, glacier, depositional environment, glacial process, valley glacier, supraglacial debris, ablation area, sublimation, till, India, Kashmir, Karakorum, K2 Glacier; 09580.
sediment leachate
brine, salt accumulation, lake water chemistry, hypogene process, epigene process, ionic ratio, chloride, surface evaporation, isotopic ratio, Kenya, Lake Magadi; Tanzania, Lake Natron; 09822.
sediment load
apron, source, volcanism, sedimentation pattern, Eocene, USA, Texas, Big Bend Region; 02392. bed sediment, heavy metal, anthropogenic discharge, suspended sediment, urbanisation, India, Bay of Bengal; Godavari River; 10587. Casabianca Formation, volcanism, aggradation, Pliocene, Pleistocene, Colombia, Nevado del Ruiz; 01238. channel bed incision, alluvium, flood, hydraulic mining, tailings, USA, California, Bear River; 12839. channel sediment, gravel, mathematical function type, longitudinal river profile, river, Japan; 08156. channelization, flow regime, drainage scheme, river regulation, hydrograph characteristic, low flow, flood regime, 06281. coral reef, terrigenous sediment, reef growth, siltation, Costa Rica, Golfo Dulce; 11690. estuary, salt marsh, fresh water, tidal range, submergence, sediment budget, USA, Pennsylvania, Philadelphia; Philadelphia, Delaware River; 06981. flooding, erosion, vegetation, wetland, Peru, Ucayali River Basin; 02438. flow rate, bedload, coarse sediment, sediment transport, bypass structure, 08719. lake sedimentation, sedimentometric study, Brazil, Mato Grosso State, River Manso; 11010. loess partitioning, loess, denudation, China, Huanghe Yellow River; Loess Plateau; 05939. mountain basin, turbidity measurement, proglacial stream, sediment pulse, glacier, suspended sediment, 08715. mudflat, subaerial exposure, estuary, diatom, UK, England, Tamar Estuary; Severn Estuary; 03541. nutrient concentration, mixing water, remote sensing technique, estuarine mixing, spatial variability, river plume, eutrophication, estuary, surface water quality, 12210. runoff variation, stage discharge measurement, suspended sediment, thermal property, Arctic; Svalbard, Spitsbergen, Billefjorden, Ebbaelva River; Svalbard, Spitsbergen, Billefjorden, Petuniabukta River; 05245. sand deposit, campsite, vegetation, discharge, flow regulation, USA, Arizona.Grand Canyon National Park, Colorado River; 02313. solute load, mountain basin, structure calibration, stream gauging, current meter, forested catchment, grass catchment, evaporative loss, crump weir, v notch weir, water balance, flat v weir, dilution gauging, sediment accretion, velocity distribution, UK, Scotland, Balquhidder, Kirkton Catchment; Monachyle Catchement; 08708. statistical characteristics, sediment estimator, nutrient load estimator, surface water quality, 06317. streambank erosion, silt up reservoir, land use regulation, landslide problem, watershed management, typhoon season, Taiwan; 06039. Walling & Webb (1981), estimation, bias, variance, suspended sediment, 00535.
sediment load total
avalanche, debris transport, snow avalanche, Pakistan, Himalaya, Kaghan Valley; 03834.
sediment loading
convergent margin, permeability, compaction, porosity, dewatering, subduction, Caribbean Sea, Barbados Ridge; 02370. earthquake, geotechnical data, submarine slope, seismicity, slope instability, Banda Sea; 01245. gametophyte, Macrocystis, sewage, toxicity, kelp bed, USA, California, Palos Verdes Peninsula; 04774. surface water quality, phosphorus release, eutrophication, fresh water system, salt water system, phosphorus immobilisation, phosphorus, 00555. surface water quality, soil erosion, stream loading, average rainfall, USLE, rainfal intensity, USA, Iowa, Iowa City, Iowa River; 04070.
sediment loss
runoff erosion, universal soil loss equation, soil erosion data, USLE, P factor, subsurface drainage, low slope, humid climate, USA, Louisiana, Baton Rouge; 05058. solute loss, nutrient loss, lake water quality, runoff, hydrological process, eutrophication, UK, England, Devon, Slapton Ley; 06308. surface water quality, agricultural pollutant, export coefficient model, representative basin, pollution control, nitrogen loss, phosphorus loss, UK, England, Windrush River; 06325. surface water quality, catchment study, pasture improvement, streamflow, upland management, runoff, nitrate, eutrophication, phosphorus, potassium, reservoir, nutrient loss, UK, Wales, Nant-y-Moch; 02947.
sediment mapping
Quaternary sediment, ground electromagnetic method, EM instrument, seismic method, Canada, Ontario, Val Gagne; 07227.
sediment maturity
sedimentation, rift, alluvial fan, Paleogene, tectonic activity, sediment supply, China, Liaoning Province, Liaohe Rift; Bohai Sea Gulf, Liaohe Rift; 02354.
sediment metabolism
respiration, macropore, soil aeration, salt marsh, oxygen, USA, Massachusetts, Belle Isle Marsh; 05953.
sediment mixing
bioturbation, macrobenthos, coastal ecosystem, luminophore, macrofauna, water sediment interface, Mediterranean Sea; 08267. bioturbation, preservation, event layer, sedimentation rate, 03508. iron, phosphorite, apatite, continental margin, glauconite, pore water, 03569. trace metal, suspended matter, estuary, surface water quality, major element, minor element, aluminium, Netherlands, Rhine River; Meuse River; 08745.
sediment mixture
settling, flocculation, advection, diffusion, 06949.
sediment mobility
bed shear stress, aggradation, chute cut-off, gravel bed river, braiding, bar, 12836.
sediment movement
bed form, wave reflection, beach, sand, surf zone, 03548. current, continental shelf, storm, bottom stress, Grant-Madsen model, Atlantic, Mid-Atlantic Bight; Georges Bank; Canada; 00073.
sediment movement literature review
aquatic system, tracing, fine grained sediment, Canada, Great Lakes; St Lawrence; 05880.
sediment nourishment
backpassing, navigation, offshore bottom, beach, profiling, 05878.
sediment organic content
bottom deposit, heavy metal, copper, cadmium, particle size, sewage, UK, England, Norfolk, Broads; Yare River; 08203.
sediment oxygen consumption
sedimentation, oxygen, eutrophication, nitrogen dynamic, denitrification, North Sea, Kattegat; 00180.
sediment pathway
low stands of sea level, slope valley, glacimarine environment, subduction zone, sedimentological evidence, Yakataga diamict, GLORIA imagery, USA, Alaska, Gulf of Alaska; 04970.
sediment permeability
deposit consolidation, depositional history, uplift, turbidity current, sedimentation rate, mud, Indian Ocean, Bengal Fan, ODP Site 717; ODP Site 718; Indian Ocean, Bengal Fan, ODP Site 719; 09370.
sediment physical property
nepheloid layer, surficial sediment, benthic layer, continental margin, Quaternary, shelf, mud, France, Gulf of Lions; Rhone River; 06956.
sediment pore water
alkalinity production, oxic condition, groundwater seepage, acidic lake, acid chemistry, base chemistry, near shore region, lake water quality, pore water, 11011.
sediment porosity
Ordovician, diagenesis, cone in cone structure, France, Massif Central, Montagne Noire; 08150.
sediment production
runoff, storm event, hillslope sediment production, stream sediment load, overland flow, land use, sediment production controls, lowland catchment, UK, England, Devon, Slapton Ley; 01507. sediment budget, clastic sediment, delta, aggrading, paraglacial sediment, debris flow,

landslide, Neoglacial, Holocene, Canada, British Columbia, Coast Mountains, Lillooet River; 13015. soil erosion, suspended sediment, assessment strategy, rating curve, monitoring programme, Hong Kong; 06244. soil surface condition, shrubland, rainfall simulator, desert pavement, infiltration rate, soil erosion, soil crust, Torriorthent, infiltration, Argentina, Patagonia; 01500.

sediment production controls
lowland catchment, sediment production, runoff, storm event, hillslope sediment production, stream sediment load, overland flow, land use, UK, England, Devon, Slapton Ley; 01507.

sediment profile
particle size distribution, metal, sediment core, Canada, St. Lawrence River, Lake St. Louis; 11706. sedimentation, heavy metals, catchment, mining, floodplain, 04781.

sediment profiler
profiler, measurement instrument, suspended sediment, AmasSeds, flow condition, Brazil, Amazon River; Amazon Shelf; 10663.

sediment provenance
bedload, particle suspension, riverine erosion, sedimentation, river sediment, 08154. diagenesis, sandstone, Triassic, climate, palaeoclimate, USA; Canada; 08214. Llandeilo sediment, Llandovery sediment, mudstone, Eastern Avalonia terrane, UK, Wales; 08220. sorting, Quaternary, fluvial deposit, aeolian deposit, sand, trace element, Netherlands, Limburg; 09443.

sediment pulse
glacier, suspended sediment, sediment load, mountain basin, turbidity measurement, proglacial stream, 08715.

sediment quality
phosphorus, trophic status, anoxic hypolimnia, lake sediment, USA, Pennsylvania, Canadohta Lake; 09331.

Sediment Quality Triad
pollution, heavy metals, toxic sediment, organism, seafood, contamination, 04768.

sediment rating curve
soil loss, sediment transport, suspended load, semi arid area, Kenya, Malewa River; 07141.

sediment record
lake, diatom stratigraphy, elk population, erosion rate, lead-210 dating, pollen analysis, range management, sediment geochemistry, environmental change, USA, Wyoming, Yellowstone National Park; 10778. maar lake, lake, meromictic, monomictic, carbonate, palaeohydrology, Australia, Victoria, Western Volcanic Plains District; 05818. simulated upwelling, monsoon wind, upwelling strength, Globigerina bulloides, climate optimum, Arabian Sea; 13085. upwelling field variability, model experiment, ocean model, monsoon wind, pycnocline, Findlater Jet, upwelling fauna, Indian Ocean; Middle East, Arabian Peninsula; 02616.

sediment recovery
centrifuge system, suspended sediment, trace metal, particle size, Switzerland, Lake Geneva, Upper Rhone River; 01370.

sediment regime
erosion, sediment transport, sediment deposition, reservoir, hydropower, Austria, Altenwoerth; Danube River; 08720. turbidity field, sediment transport, turbulent diffusion, flooding, flood protection, USSR, Neva Inlet; 00533.

sediment remobilisation
continental shelf, continental rise, accumulation rate, bioturbation, organic carbon, USA, New England; Atlantic, Middle Atlantic Bight; 09360.

sediment reworking
erosion, trawling, otter board, fishery, Baltic Sea, Kiel Bay; 07038. pedological study, micromorphological study, loessial deposit, soil survey, loess, rubified soil, paleosol, Rissian, Eemian, Denekamp interstadial, Spain, Gerona; 07208.

sediment ridge
bed load transport, channel regime, deposition, bed formation, sediment transport, bottom relief, 07479.

sediment sampler
HORS, sampler, grab sampler, Shipek, Caribbean Sea; 08311.

sediment sampling
erosion pin, surface recession, upland catchment, erosion rate, blanket peat, erosion, drought, UK, Wales, Powys, Plynlimon; 00362. suspended sediment, surface water quality, chemical sampling, toxic chemical, downstream sampling, water sediment mixture, USA, Mississippi River; 08742.

sediment sequence
vegetational history, Quaternary, pollen analysis, arid zone, Australia, South Australia, Dalhousie Springs; 06111.

sediment shear strength
striated clast pavement, deforming sediment, subglacial sediment, glacier dynamics, abrasion, yield strength, subglacial deformation transport, Canada; USA; 11941.

sediment sink
hydrodynamic model, particle transport, cycling mechanism, fine sediment dispersal, sorption, estuarine circulation, kepone cycling, estuary, sedimentological fate, surface water quality, polychlorinated hydrocarbon, USA, Virginia, James River Estuary; 08760. suspended sediment, metal, contaminant, PCBs, sink, Canada, St. Lawrence River, Lac St-Louis; 04770.

sediment size
channel process, bed channel, gravel bed, flow regime, river management, sediment transport, 06959. sorting, seasonal change in sediment size, sediment transport, bedform, estuary, sediment supply, USA, Oregon, Columbia River Estuary; 05800.

sediment sorting
sea floor, tidal stream, gravel, sand, wave, France, Brest; 05827.

sediment source
clay mineral, continental shelf, mud, terrigenous sediment, Korea; Yellow Sea; 08181. climate, mudrock, sandstone diagenesis, reservoir sandstone, clay mineral, North Sea, Moray Firth; Viking Graben; North Sea, East Shetland Basin; 09472. current, shelf prism, platform, Eocene, Oligocene, Neogene, New Zealand, Canterbury Basin; 07017. dry valley network, assessment, erosion form, erosion risk, agricultural land, erosion risk, France, Paris Basin; 01514. erosion risk, soil erosion study, assessment, excessive soil erosion, off farm problem, 02714. lake sediment, palaeoenvironmental change, paraglacial sedimentation, neoglacial activity, alpine lake, geomorphological approach, sedimentary response, core, Canada, British Columbia, Coast Mountains, Kwoiek Creek; 08471. overland flow, soil movement, forest, seasonal soil movement, sediment concentration, India, Himalayas, Kumaun Himalaya; 00365. pollutant, natural tracer, salt wedge, estuary, suspended matter, organic matter, bank erosion, Germany, Elbe Estuary; 03542. pollution, productivity, biogenic debris, sedimentation, gyre, heavy metal, Tyrrhenian Sea; 08172. rainfall condition, water quality management, sediment budget, coal mining, USA, Maryland; 00534. surface texture, quartz, grain roundness, glacial deposit, subglacial environment, sand grain, 09313.

sediment source identification
catchment delivery ratio, lake sediment, soil erosion, dating, erosion study, conceptual model, temporal resolution, 01492.

sediment source terrain
arc unroofing, back arc basin, Cretaceous, Tertiary, volcanism, Antarctica, Antarctic Peninsula, Larsen Basin; 08250.

sediment storage
contaminant transport, fate, contaminant mass balance model, octachlorostyrene, caesium, PCBs, lake water quality, organic contaminant, North America, Great Lakes, Lake St Clair; 02856. lithologic erodibility, alluvial fan, erodibility, canyon, fan basin relationship, USA, Nevada, White Mountains; California, White Mountains; 07137. logging, rainforest catchment, suspended sediment, road construction, sediment yield, forestry, erosion, Malaysia, Sabah, Ulu Segama; 09921. riverine wetlands construction, wetland conservation, water sediment budget, channel stability, USA, Illinois, Des Plaines River Wetlands; 11007. sediment budget, semi-arid region, equatorial region, aggradation, sediment delivery ratio, drainage basin, Kenya, Katiorin Basin; 00021.

sediment stratification
Darcian seepage equation, Green Ampt infiltration equation, groundwater recharge, intermittent stream, stream channel sediment, permeability, 00576.

sediment stratigraphic method
pine stump, varved clay, Baltic Ice Lake, Yoldia stage, Ancylus transgression, bottom current, marine stratigraphy, Sweden, Hano Bay; 04962.

sediment strength
erosion, tidal power barrage, hypertidal zone, barrage construction, engineers, UK, England, Severn Estuary; 09382.

sediment structure
desilicification, soil, stone line, nodule, pebble, Brazil, Amazonia; 02301. sand, tephra, turbidite, provenance, volcaniclastic sediment, Tyrrhenian Sea, Tyrrhenian Basin; 00077.

sediment supply
barrier beach, beach, Holocene, shoreline, gravel, eustatic sea level, UK, England, Sussex; 06995. beachrock, erosion, transgression, regression, coastal development, 11682. cyclicity, shelf, mixing, karst, siliclastic rock, carbonate, facies mixing, 13003. delta, resuspension, mud, storm action, continental shelf, particulate matter, Spain, River Ebro; 05855. depositional bias, carbonate, sea level cycle, platform, eustatic change, environmental change, 09485. dune field, grainfall, lamination, vegetation, Canada, Alberta, Grande Prairie; 10512. eustatic boundary, sediment accumulation, onlap, offlap, unconformity, 10589. fjord, mass flow process, marine geology, seismic profile, u-shaped fjord, glacial erosion, Antarctica, King George Island, Maxwell Bay; 08455. floodplain, residence time, Holocene, accretion rate, valley form, anthropogenic, UK, England, Shropshire; 04718. Gilbert type, Miocene, alluvial fan, sandstone, facies change, strike-slip fault, fan delta, Korea, Ulleung Back-arc Basin, Pohang Basin; 00144. mass flow deposit, glaciolacustrine delta, glaciofluvial system, seasonal change, flood, glacial river, UK; Ireland; 10518. salt marsh, tidal flat deposit, coastal progradation, coastal lowland vulnerability, land subsidence, groundwater withdrawal, China, Shanghai, Yangtze Coastal Plain; 06064. sea level, delta, Messinian, Pliocene, Spain, Ebro Delta; 05863. sea level, sediment fill, basin, basin fill simulation, 10659. seafloor, iceberg, plough mark, slump, Atlantic, Miller Region; 09368. sediment maturity, sedimentation, rift, alluvial fan, Paleogene, tectonic activity, China, Liaoning Province, Liaohe Rift; Bohai Sea Gulf, Liaohe Rift; 02354. sediment size, sorting, seasonal change in sediment size, sediment transport, bedform, estuary, USA, Oregon, Columbia River Estuary; 05800. sedimentation, continental margin, climatic change, deforestation, depocenter, sea level control, Messinian, Spain, River Ebro; 05847. stratigraphic response, carbonate platform, sea level change, Ocean Drilling Program, tectonic uplift, prograding clinoform, prograde, onlapping sequence, Indian Ocean, Broken Ridge; 11988. tidal current, Witwatersrand Supergroup, Zandfontein Quartzite Formation, metaquartzite, quartzite, conglomerate, South Africa, Evander Goldfield; 02399. tidal sandbody, sandbody, Eocene, Roda Sandstone, Pleistocene(Late), Holocene(Early), Spain, Pyrenees; East China Sea; 09400. transgression, mudrock, black shale, Jurassic, sea level rise, UK, England; 10645. vegetation, sea level rise, salt marsh, 10532.

sediment temperature
ice sheet load, phase change, glaciation, methane hydrate, methane, interglacial period, Arctic; 04449.

sediment texture
mud, lag sediment, diamicton, sub-bottom profiling, overcompacted diamicton, Weddell Sea, Filchner Depression; 02357. organic content, lead, zinc, sediment transport, effluent, heavy metal, UK, England, Norfolk, Yare River; Broads; 08204.

sediment thickness
rock head contour, bedform, biogenic carbonate, sand sorting, British Geological Survey, sea bed sediment, Quaternary geology, Shipek grab, bathymetry, UK, England, Hampshire, Wight; Solent; 07144.

sediment trace metal
benthic macroinvertebrate, water quality, sewage discharge, intermittent pollution, surface water quality, biological indicator, algae trace metal,

07515.
sediment transfer
hillslope sediment, slope, fluvial system, wilderness manager, alpine sediment, USA, Colorado Front Range, Mummy Range; 09380.
sediment transport
accretion, marsh, sea level change, wetland, estuary, USA, Louisiana, Atchafalaya River; Fourleague Bay; USA, Louisiana, Barataria Basin; 06978. accretion, storm, sand, beach, surf zone, Atlantic, Middle Atlantic Bight; 06993. acoustic backscatter, backscattering theory, suspended sediment, seabed, 11818. agricultural catchement, paired lake catchment study, experimental catchment, magnitude, frequency, UK, England, Warwickshire, Seeswood Pool; Merevale Lake; 02732. alluvial channel, meandering, wavelength, 04716. alluvial resistance function, sand bed, river, mobile bed model, 04690. alluvial river, navigation, bedload, estuary, delta, dredging, slope, Zaire, River Zaire; 05887. bank erosion, sedimentation, morphological change, trap sampler, bed load formula, sediment budget, channel instability, Canada, British Columbia, Fraser River; 12172. beach profile, shoreline evolution, wave, refraction, cycle, 02335. bed armouring, tidal inlet, channel, USA, California; 09342. bed load, river, 06947. bed load, suspended load, reservoir deposit, mountain basin, hydropower, Austria, Kaunertal Hydroelectric Power Station; 08721. bedform, bedload, gravel bed river, bed microform, pebble cluster, bed roughness, 05809. bedform, estuary, sediment supply, sediment size, sorting, seasonal change in sediment size, USA, Oregon, Columbia River Estuary; 05800. bedform, ripple, sandwave, wave length, UK, England, Taw Estuary; 03512. bedload discharge, sediment trap technique, unsteady flow, Schamov equation, Schoklitsch equation, flood condition, mountain stream, 08707. bedload sampler, coarse material, particle size analysis, USA, Montana, Gallatin Range, Squaw Creek; 08706. bedload, step pool river, mountain basin, sediment deposition, 08717. bottom relief, sediment ridge, bed load transport, channel regime, deposition, bed formation, 07479. boundary effect, bed classification, bed topography, flood, flow resistance, sediment yield, Japan, Hokkaido, Ogawa River; Shiramizu River; 05177. burrowing mammal, long term sediment transport rate, erosion rate, bioturbation, USA, California, Marin County; 09520. bypass structure, sediment load, flow rate, bedload, coarse sediment, 08719. Carbon in the Amazon River Experiment, biogeochemisry, river system, surface water quality, spatial distribution, temporal distribution, organic carbon, inorganic carbon, nutrient, Brazil, Amazon River; 12211. carbon transport, river transport, surface water quality, Burma, Irrawady; India, Ganges River; Bangladesh, Brahmaputra River; Pakistan, Indus River; 12215. channel hydraulics, riverbed process, fluvial process, erosion, river flow, 07477. coarse sediment, river morphology, bedload transport, particle bed interaction, tracer technique, gravel bed river, 08702. computer simulation model, flume experiment, river profile, mathematical model, dynamic equilibrium, 06301. discharge, topography, landuse, loess region, solute transport, suspended sediment, Belgium, Burdinale River; 08699. dissolved material, suspended sediment, Andean drainage basin, Argentina, Rio de la Plata; Bolivia, Paraguay River; Bolivia, Pilcomayo River; Bolivia, Bermejo River; 09815. effluent, heavy metal, sediment texture, organic content, lead, zinc, UK, England, Norfolk, Yare River; Broads; 08204. erodible channel, flood wave, dam failure, channel morphology, flood routing, flood model, microcomputer program, 05170. erosion, beach, measuring device, surf zone, sheet flow condition, 05973. erosion, ecology, woody debris, vegetation, gravel bar, USA, Montana; 01312. erosion, mountain hydrology, stream flow, suspended solid, Bolivia, Rio Beni; 12181. erosion, surface collapse, waste disposal, landfill site, surface hydrology, radioactive waste, infiltration, collapse cavity formation, runoff, USA, Illinois, Sheffield; 11092. erosion, suspended matter, river discharge, Poland, Vistula River; 11009. evolution, alluvial channel, uncoupled model, coupled model, transient sediment transport problem, Taiwan, Cho-Shui River; 00536. flood discharge, high magnitude, geomorphic work, rainfall event, mass movement, slump, slide, Spain, Pyrenees; 13016. flood, channel geometry, bore velocity, desert, 01196. fluvial morphology, analytical photogrammetry, mountain torrent, Switzerland, Riale di Prugiasco; 03467. fly ash, spatial variability, soil erosion acceleration, overland flow, rain splash transport, freeze thaw, depositional quantification, postsettlement deposition, sediment basin, USA, Illinois; 08540. friction, river, 04689. frictional effect, flood berm, aquatic macrophytes, flood alleviation scheme, channel change, river engineering, critical tractive force, velocity theory, Griffiths natural stability index, Brookes stream power index, shear stress analysis, regime theory, UK, England; Wales; 05152. geomorphologically effective flood, gravel bed river, channel instability, effective flood, geomorphological change, 05161. geomorphology, sedimentation, estuary, circulation, fresh water, USA, North Carolina, Pamlico-Tar River System; 04732. graded sand, non uniform sediment, graded sediment, boundary effect, saltation mechanics, velocity distribution, sediment concentration, grain size interaction, 05175. heavy mineral, tracer, radioactivity, dune, barrier island, USA, Florida, Apalachicola Bay; 09351. hydraulic modelling, similarity law, physical model, movable bed, 05791. hydrophone, bedload indicator, mountain stream, runoff, acoustic sensor, 08705. infragravity wave, storm, continental shelf, sand ridge, wave, Atlantic, Scotian Shelf, Sable Island Bank; 08178. jetty, river mouth, delta, spit, estuary, Colombia, Magdalena River, Puerto Colombia; 05824. kinematic wave approach, flow resistance value, soil structure, erodibility, hillslope hydrology, overland flow, erosion, 11006. measurement, runoff, erosion, 12178. mountain drainage basin, Late Glacial, long term sediment transport, storage, alluvial fan, debris production, Holocene, slope stratigraphy, slope lowering rate, denudation rate, quantitative study, Japan, Central Japan, Matsumoto Basin; 11861. mountain stream, concentration record, suspended sediment, erosion, bedload, Iran, Jajroud River Basin; 08718. mucus, intergranular adhesion, erosion, Alteromonas atlantica, exopolymer, 08263. nearshore system, storm, surf zone, bar, shoreface, 09350. overland flow, Shields criterion, overland flow, rain impacted flow, flow roughness, transport inception, 10831. particle trajectory, gravel bed, tributary, channel confluence, 00018. peak discharge, water quality, wild fire, hydrologic process, land stability, total discharge, mineralisation, nutrient, overland flow, erosion, 06322. physical model, movable bed, fluvial process, 05788. pollutant transport, land use effect, nonpoint pollution, water quality, pollution abatement programme, 00635. property value, International Conference on Coastal Engineering, shore protection, erosion, groin, sea wall, 00051. protective measure, beach, sand volume, aeolian transport, lagoon, wave, Spain, Canary Islands, Las Canteras Beach; 03556. ripple, sand bar, wave, flume, Bragg reflection, 01220. Rosin distribution, bedload, grain size, gravels, USA, Oregon, Oak Creek; 03522. runoff, catchment model, slope segment, computer model, solute transport, Germany, Karlsruhe, Weiherbach Catchment; 06393. Saint Venant flow equation, suspended load, bedload, mobile bed modelling, 09819. sandy beach, beach, wave energy, planning, 12859. scour depth, junction angle, discharge ratio, bed morphology, tributary:main channel discharge ratio, river dynamics, channel confluence, 08704. sea level change, facies, gravel, Holocene, raised beach, Greece, Crete, Chora Skafion; 02345. sediment deposition, loess soil, river discharge, delta, erosion, suspended sediment, estuary, provenance, China, Huanghe River; 09816. sediment deposition, reservoir, hydropower, sediment regime, erosion, Austria, Altenwoerth; Danube River; 08720. sediment generation, sediment deposition, suspended sediment, dissolved material, soil erosion, Sweden; 07139. sediment size, channel process, bed channel, gravel bed, flow regime, river management, 06959. sediment transport model, computer model, marine geology, ice shelf, geomorphological development, nearshore, shelf, Sweden; Baltic Sea; 02609. sediment yield, transport event, tropical cyclone, soil erosion, Philippines; 06245. sedimentation, reservoir, wash load, suspended sediment, 05790. sedimentation, suspended solid, nitrogen, erosion, phosphorus, surface water quality, temporal variation, Finland, Koiransuelenoja; 05153. shear stress, engineering, entrainment, erosion, flow velocity, 00004. shear stress, grain size, channel cross section, 07478. silting, erosion, soil conservation, reservoir, runoff, Morocco, Mohammed Ben Abdelkrim Al Khattabi Dam; 12183. snowmelt, suspended sediment, Germany, Bavaria, Lainbach Creek; 01659. soil loss, erosion index, sandy soil, climatic erosion index, runoff, France, Massif des Maures; 12184. soil loss, pipe flow, hydrograph, channel adjustment process, state of the art timber harvest, mixed conifer forest, overland flow, erosion, forestry, USA, Arizona; 09912. soil structure, sand, gravel, erosion, cohesive sediment, 00005. solute transport, runoff, fertilizer, loess soil, model calibration, surface water quality, pollutant transport, Germany, Karlsruhe, Weiherbach Catchment; 06324. sorption, hydrophobic material, particle size distribution, mineral composition, electrophoretic mobility, water quality analysis, contaminant transport, colloid, surface water quality, sampling, USA, Missouri, St Louis, Mississippi River; 07501. spatial lag, scaling law, scour, physical model, movable bed, 05789. statistical technique, multivariate strategy, Tertiary, grain size distribution, Bangladesh, Bengal Basin; 01371. stream gauging, ultrasonic gauge, sediment deposition, coarse sediment, Italy, Rio Cordon; 08709. surf zone, shoaling, wave, coastal structure, nearshore zone, 03547. surface water quality, caesium-137 tracer, particle tracer, transport model, bed load fraction, USA, Tennessee, White Oak Creek; 01658. suspended load, semi arid area, sediment rating curve, soil loss, Kenya, Malewa River; 07141. suspended sediment, coastal process, nearshore, surf zone, Argentina, Monte Hermoso Coast; 04741. suspended sediment, melt water, glacier, seasonal variation, sediment yield, Switzerland, Pennine Alps, Gornera River; Gornergletscher; Switzerland, Pennine Alps, Gornersee; 08714. suspended sediment, water depth, current, benthic storm, storm, continental margin, Atlantic, Georges Bank; Mid-Atlantic Bight; 00067. temporal lag effect, bed form geometry, flow depth, bed load, open channel flow, flow regime, 01660. texture, beach, nourishment, dredging, estuary, tidal current, New Zealand, Tauranga Harbour, Pilot Bay Beach; 01266. tidal current, estuary, engineering, deposition, erosion, UK, England, Humber Estuary; 09310. tide gauge data, tidal asymmetry, bedload, estuary, tidal circulation, 04728. turbulent diffusion, flooding, flood protection, sediment regime, turbidity field, USSR, Neva Inlet; 00533. waste water, sewage pipe, pipe, sedimentary deposit, 05874. wave theory, Stokes' wave theory, seabed, sand, gravel, UK, Isle of Man; 02352. wave, bottom friction, 00007.
sediment transport equation
Shields parameter, particle resistance, bed structure, gravel bed, bed surface response, flume study, 12173. slope, soil catena, soil texture, grain size, catena, hillslope evolution, evolution model, 10708.
sediment transport model
computer model, marine geology, ice shelf, geomorphological development, nearshore, shelf, sediment transport, Sweden; Baltic Sea; 02609. downstream channel, reservoir, wave characteristic, numerical simulation, bed evolution, bed elevation, Taiwan; 08722.
sediment transport prediction
flow regime, runoff process, extreme flood, mountain hydrology, sediment deposition, flushing, slope morphology, hillslope hydrology, flood hazard, landslide hazard, hazard mapping, artificial reservoir, flood control, reservoir, 12136.
sediment transport rate
gullying, rainfall intensity, threshold condition, thalweg gullying, loess, slope wash, France, Paris Basin; Belgium; 10845.
sediment transport regime
hydropower scheme, morphological change, downstream channel, melt water, sedimentation basin, channel adjustment, Switzerland, Grande Dixence Hydro Power Scheme, Val de Ferpecle; Val d'Arolla; 08724. snow melt, flood, sediment yield, dambreak, mountain stream, runoff, transport rate, USA, Colorado, Roaring River; 08728.
sediment transportation
erosion, uplift, detrital mineral, soil, isotopic chemistry, India, Himalayas; Bengal Fan; 04826.
sediment trap
aerosol, current, nutrient, neodymium, tracer, water column, Mediterranean Sea; 03674. aspect ratio, resuspension, lake sediment, accumulation rate, diatom, UK, Northern Ireland, Lough Neagh; 10664. biogeochemical cycling, settling particle, resuspension, ECOMARGE, France; 05979. clay mineral, terrigenous material, deep sea fan, monsoon, continental shelf, Indian Ocean; Arabian Sea; 08185. fallout, biogenic carbonate, sedimentation, biogenic silica, phosphorus, sediment fractionation, 09451. high energy environment, seabed, lake bot-

tom, flow velocity, water column, sedimentation rate, 02483. nannoplankton, seasonality, carbonate flux, coccolith, Norwegian Sea, Lofoten Basin; 04862. organic carbon, turnover time, benthos, biomass, deep sea floor, Atlantic, (Northwest); 03575. organic particle, animal, euphotic zone, concentration gradient, phytoplankton, mass flux, 02431. phosphorus, phytoplankton biomass, reservoir, seston, Czechoslovakia, Rimnov Reservoir; 12851. rating curve, transport formula, Helley Smith bed load sampling, Schoklitsch sediment transport formula, glacier, melt water, bedload, sediment yield, bed width, particle size, mountain stream, Switzerland, Valais, Bas Glacier d'Arolla; 08713. seasonal particle flux, zooplankton, carbon flux, faecal pellet, Mediterranean Sea, Monaco Coast; 08290. sedimentation rate, shelf area, organic matter, benthic boundary layer, Mediterranean Sea, Gulf of Lions; 05854. sedimentation, faecal pellet, sea bottom sediment, algal bloom, suspended sediment, Adriatic Sea, Gulf of Trieste; 04789. seston, current, 02482. settling tube, sampling, suspended material, Canada, Lake Ontario; Lake St. Clair; 05977.

sediment trap experiment
trace metal, sinking, biogenic silica, lateral transport, scavenging, sea water, 09446.

sediment trap flux
benthic recycling, organic carbon, PAH's, PCB congener, lake water quality, USA, Great Lakes, Lake Superior; 13334.

sediment trap result
particle flux, biogenic opal flux, opal flux, ice coverage, ice rafted material, sedimentation, pelagic sedimentation process, Arctic Ocean, Fram Strait; 10754.

sediment trap study
sediment accumulation pattern, carbonate productivity rate, reconstructing, particle flux, tropical, Atlantic, Sierra Leone Rise; Ceara Rise; 03861.

sediment trap technique
unsteady flow, Schamov equation, Schoklitsch equation, flood condition, mountain stream, sediment transport, bedload discharge, 08707.

sediment trapping
moss, desert, vegetation, loess, dust, Israel, Negev Highlands Desert; 12957.

sediment use
water purification, nutrient reuse, eutrophication, aquaculture, lake water quality, irrigation water, sludge use, 02867.

sediment volume
planation surface, geomorphic evolution, ablation rate, Tertiary erosion, uplift, weathering-ablation model, saprolite, clastic sediment, Canada, Quebec, North Appalachians; 13019. sand sea, dune morphometry, Viking orbiter image, Mars, North Polar Region; 00230. vertical accumulation rate, lateral progradation, periplatform mud, sea level, accumulation, bank top sediment, progradation, carbonate megabank, seismic profile, submersible observation, Atlantic, Great Bahama Bank; 02611.

sediment water exchange
tide, lagoonal ecosystem, remineralisation, nutrient, Portugal, Ria Formosa; 08166.

sediment water exchange model
water quality model, volatilisation reaeration, adsorption, ion exchange, heat exchange, sedimentation, coagulation, precipitation, complex formation, hydroloysis, redox process, photochemical reaction, microbial decomposition, nitrification, fish growth, 09828.

sediment water interface
ferromanganese, manganese, iron, micronodule, deep sea sediment, Indian Ocean, Central Indian Basin; 10579. foraminiferan, ecological disturbance, biogenic mound, mound, protozoan, USA, California, Santa Catalina Basin; 10620. intertidal zone, lagoon, oxygen profile, Portugal, Ria Formosa; 08165. Lota lota, submersible image, fish, bioturbation, lake sediment, fresh water, burbot, USA, Great Lakes, Lake Superior, Caribou Island Basin; 09431. mussel culture, biodeposit, nutrient flux, France, Gulf of Fos, Carteau; 08205. pigment, lake sediment, phorbin, carotenoid, sediment core, USA, Wisconsin, Trout Lake; 09330. settling particle, continental shelf, radioisotope, scavenging, Pacific, Okinawa Trough; East China Sea; 09369. storm, focusing, radioactive dating, sedimentation rate, lake sediment, USA, Great Lakes, Lake Michigan; 11664.

sediment weathering
lacustrine level, chlorococcal algae, Typhaceae pollen, sterol content, humic acid, fulvic acid, organic wall, microfossil, organic substance, Holocene sediment, marine level, dinoflagellate cyst, pollen grain, Brazil, Rio de Janeiro, Guarapina Lagoon; 08458.

sediment wedge
Laurentide ice sheet, sea level, Quaternary(Late), sedimentation, deglaciation, seismic profile, USA, New Jersey, Hudson Apron; 06095.

sediment yield
bed width, particle size, mountain stream, sediment trap, rating curve, transport formula, Helley Smith bed load sampling, Schoklitsch sediment transport formula, glacier, melt water, bedload, Switzerland, Valais, Bas Glacier d'Arolla; 08713. bulk sediment yield, reservoir, erosion rate, catchment characteristic, land use, UK, Scotland, Central Lowlands; 02730. catchment behaviour, river response, palaeohydrological change, deglaciation, upland river system, Lateglacial, runoff, UK, Scotland; 10766. catchment characteristics, runoff, environmental variable, spatial variation, South Africa; 13318. catchment erosion rate, valley sedimentation, lake sediment, erosion rate, UK, England, Devon, Slapton; 01508. dambreak, mountain stream, runoff, transport rate, sediment transport regime, snow melt, flood, USA, Colorado, Roaring River; 08728. detachment, model building, soil erosion prediction, soil erosion management, soil erosion, transport, 01494. dune terrain, modelling, water erosion, water repellency, runoff, Netherlands; 12036. engineering, deposition, reservoir, sedimentation, flushing, 05812. erosion rate, probability distribution, event sediment yield, stochastic analysis, laminated reservoir deposit, long term erosion rate, Israel, Negev Desert; 02741. forecast, landscape change, climatic change, modelling, vegetation, water balance, 03703. forestry, erosion, sediment storage, logging, rainforest catchment, suspended sediment, road construction, Malaysia, Sabah, Ulu Segama; 09921. granitic roadfill, simulation model, Universal Soil Loss Equation, soil erosion, USA, Idaho, Idaho Batholith; 09696. hillslope stability simulation model, landslide prediction, stochastic landslide occurrence, landslide, USA, Washington State; 06030. humid tropical area, rainfall, bed material, relief, saprolite, montane, Puerto Rico; 05808. interrill overland flow, hillslope hydrology, flow resistance, overland flow hydraulics, runoff hydrograph, USA, Arizona; 05137. landform evolution, greenhouse warming, landscape, model, quantitative model, hillslope, hydrology, 07131. microscale cascade, sediment cascade, dendrogeomorphology, Holocene, non equilibrium process, geomorphic process, geomorphic pattern, avalanche path, subalpine avalanche, USA, Rocky Mountains; 13055. monitoring network, mountain basin, soil erosion, transport parameter, runoff, landuse practice, soil erosion, Iran, Sefid Rud Basin; 08711. relief, erosion rate, stream power, slope gradient, precipitation, infiltration, denudation rate, climate, fluvial soil loss, global scale, erodibility, 01374. river, transport regime, climate, runoff, water regime, 08697. runoff, suspended sediment, burning, reforestation, grassland watershed, Philippines, Bulacan, Angat; 09919. runoff, suspended sediment, forested catchment, sediment concentration, Chile, Valdiva Area; 09817. sediment delivery, peat moorland, reservoir, erosion, UK, England, Yorkshire, Wessenden Head Moor; 10519. sediment transport, boundary effect, bed classification, bed topography, flood, flow resistance, Japan, Hokkaido, Ogawa River; Shiramizu River; 05177. sediment transport, suspended sediment, melt water, glacier, seasonal variation, Switzerland, Pennine Alps, Gornera River; Gornergletscher; Switzerland, Pennine Alps, Gornersee; 08714. sedimentation, hydraulic engineer, suspended load, reservoir, flushing, 05811. soil erosion, transported sediment, urban watershed, humid tropics, discharge, rainfall, soil loss, landuse, suspended sediment, Zaire, Lubumbashi; 08700. soil erosion, vegetative cover, erosion, 10835. soil loss, suspended sediment, clear felling, forestry, tropical rainforest, Malaysia, Sabah; 09920. storage, steady state, colluvium, erosion rate, equilibrium, hillslope erosion, USA, Oregon, Coast Range; 13053. suspended sediment, bedload transport, channel pattern, melt water flood, sandur, slopewash, flood event, proglacial storage, sediment concentration, Alpine sediment, sediment budget, Switzerland, Val d'Herens, Bas Glacier d'Arolla; 07239. transport event, tropical cyclone, soil erosion, sediment transport, Philippines; 06245. USLE, USLE parameter, soil loss tolerance level, nonparametric approach, potential erosion, mined, reclaimed land, prediction, USA, Pennsylvania; 02725.

sediment yield model
discharge, suspended sediment, hydrologic regression model, ungauged watershed, Ethiopia, Atbara River; Sudan, Blue Nile River; 12840.

sediment yield prediction
runoff factor, erosivity factor, suspended sediment transport, Williams runoff factor, Universal Soil Loss Equation, Italy, Sicily; 08716. soil conservation, water resource management, monitoring technique, drainage basin, basin monitoring, 13331.

sediment yield reduction
tree planting, channel erosion, control structure erosion, grazing management, watershed restoration, subtropical scrub zone, runoff reduction, Pakistan; 08694.

sediment-water exchange
phytoplankton, eutrophication, denitrification, diagenesis, nutrient, pelagic ecosystem, North Sea, Dogger Bank; 05966.

sediment-water interaction
contamination, caesium, river water, adsorption, tracer, groundwater, bed load, riffle and pool stream, USA, Tennessee, White Oak Creek; Oak Ridge National Laboratory; 01322.

sediment-water interface
coastal sediment, submarine groundwater discharge, water table height, denitrification, nitrate concentration, microbial nitrogen transformation, USA, New York, Great South Bay; 04136. continental shelf, biogeochemical cycle, microflora, organic matter, humic substance, Mediterranean Sea, Gulf of Lions; 12880. cycling, diagenesis, organic carbon, electron acceptor, biological process, 02450. cycling, nutrient, dialysis chamber, bed sediment, phosphorus, Canada, Great Lakes, Lake Ontario, Bay of Quinte; 01365. diffusive flux, pore water profile, organic carbon, sea bed, oxidation, Indonesia, Savu Basin; 00182. iron transport, fresh water, trace metal, aggregation, sedimentation, diffusion, 05943. lake water quality, chloride, pore water, water column, USA, New York, Onondaga Lake; 06309. mineralisation, mass balance, water quality, particulate matter, resuspension, 05969. partitioning, gas bubble, suspended matter, pollutant, surfactant, flotation, Italy; 04790. pore water, dissolved free amino acid, cycling, amino acid, anoxic sediment, USA, North Carolina, Cape Lookout Bight; 05952. recycling, diagenesis, flux chamber, benthic exchange rate, nutrient, Pacific; 05983.

sedimentary aquifer
hydrochemical characterisation, groundwater mixing, groundwater quality, groundwater flow model, factor analysis, Piper's classification principle, metamorphic aquifer, France, Western Alps, Allevard; 01715. microbasin, groundwater dynamics, water resource, fold mountain, mountain region, monoclinal structure, hydrogeology, 08768.

sedimentary balance
cliff, storm surge, water level, sea ice, ice barrier, current, Germany, Kiel Bay; 00055.

sedimentary basin
basin pressure, hydrogeology, petroleum basin, groundwater flow, flowpath, 07534. piezometric depression, groundwater anomaly, hollow aquifer, aquifer hydrodynamics, cone of depression, evapotranspiration flux, palaeohydrogeology, Senegal; 05227. saline water, groundwater resource, lithology, arid area, semi arid area, aquifer characteristic, Kenya; 06411. salinity, brine, rifting, diagenesis, USA, Gulf Coast; 11771. temperature change, pressure change, interstitial solution, mass transfer, solute transport, diagenesis, buoyancy flow, heat transfer, 08269. volcanic body, Landsat TM, Miocene rock, USA, Arizona, Mohave Mountains; California, Whipple Mountains; 03409.

sedimentary budget
continental shelf, resuspension, accumulation rate, nepheloid layer, Mediterranean Sea, Gulf of Lions; 05853.

sedimentary change

sea level change, glacial cycle, glacimarine facies architecture, sedimentation model, global eustatic change, 04988.
sedimentary cycle
cycle, productivity, Milankovitch, organism, carbonate platform, Pleistocene, climate, palaeoclimate, palaeoceanography, USA, Florida; 01227. fluvial, glacioisostatically depressed, St. Pierre Sediment, stratotype, lithozone, pollen, boreal vegetation, rhythmite, Canada, Quebec, St Lawrence Valley; 02658. platform, Buntsandstein, Platy Dolomite, packstone, stromatolite, oolite, Poland, Leba Elevation, Puck Bay Area; 01280. sedimentary environment, Shimosa Group, glacioeustatic change, sea level change, tectonic movement, Japan, Boso Peninsula; 13160. transgressive phase, subsidence, lake water, fault, terrace, Japan, Lake Biwa, Echi River Delta; 11673.
sedimentary deposit
continental shelf, accelerator radiocarbon measurement, gravity core, seismic unit, Wisconsinan interstadial, Holocene, sedimentation rate, radiocarbon date, Quaternary, USA, New Hampshire, Merrimack Delta; 07202. sediment transport, waste water, sewage pipe, pipe, 05874.
sedimentary environment
deposit property, glacial deposit, till, particle size distribution, diagenesis, bedrock, Canada; Poland; Svalbard, Spitsbergen; 06135. model, relative uplift, lithology, fossil fauna, marine sequence, radiocarbon dated, sea level, Holocene, Greenland, West Greenland, Disko, Igpik; 05038. palaeogeography, limestone, karst, carbonate rock, mollusc, tufa, 10718. Quaternary stratigraphy, palaeoclimatic model, palaeogeographical reconstruction, loess, environmental response, France, Alsace, Achenheim; Vosges, Grande Pile; 06085. SEDRULE, simple expert system, program, LISP programming, student, 03683. Shimosa Group, glacioeustatic change, sea level change, tectonic movement, sedimentary cycle, Japan, Boso Peninsula; 13160.
sedimentary evolution
Pliocene, Pleistocene, unconformity, channel deposit, channel levee complex, turbidite system, sea level fluctuation, Mediterranean Sea, Ebro Margin; 06099. West Congolian Supergroup, Proterozoic, intracratonic trough, eustatic, molasse, Congo; 02420.
sedimentary exhalative deposit
hydrothermal phenomena, sedimentation, terrigenous sedimentation, 11819.
sedimentary facies
continental shelf, delta, prodelta mud, progradational sequence, Pleistocene(Late), Holocene, Spain, Ebro Continental Shelf; 06100. depositional process, sand sheet deposit, sand-loess intergrade, sand dune, loess, snow cover, Pleistocene, periglacial, eolian deposit, USA, Alaska; 02693. surf zone, breaker zone, swash zone, backbeach, boulder beach, dune environment, boulder beach, cementation, transgression, shoreline deposit, diagenesis, late Pleistocene, South Africa, Durban; 11987.
sedimentary feature
sand, Bassendean sand, dune field, decalcification, Australia, Western Australia, Swan Coastal Plain, Bassendean Dune; Spearwood Dune; 00017.
sedimentary fill
Alpine valley, gravity modelling, bedrock topography, glacial trough, infill, Quaternary, Switzerland, Alps; 02640.
sedimentary formation
dry wedge formation, groundwater resource, electrical resistivity, hydrogeology, dolerite dome, perched aquifer, Mauritania, Sarakolle desert; 13417.
sedimentary history
coastal plain, diatom assemblage, Holocene transgression, regression, Japan, Hokkaido, Kushiro Moor; 05037. intramontane basin, tectonic structure, sedimentation rate, sedimentary infill, prograding fluvial system, anastomosing river, zonal vegetation belt, semi arid climate, Colombia, Pitalito Basin; 10679.
sedimentary infill
prograding fluvial system, anastomosing river, zonal vegetation belt, semi arid climate, sedimentary history, intramontane basin, tectonic structure, sedimentation rate, Colombia, Pitalito Basin; 10679.
sedimentary interpretation
biozone concept, ecostratigraphy, biogeography, Pleistocene, pleniglacial, malacofauna, climatic implication, loess belt, France, Alsace, Achenheim; Europe; 03846.
sedimentary peat
aquatic organism, plant, organic carbon, organism, peat horizon, Canada, British Columbia, Vancouver Island; 02434.
sedimentary phenomena
climatic phenomena, colluvial deposit, Eemian interglacial, gelifluction deposit, permafrost, pleniglacial, colluvial deposit, palaeopedology, interglacial, pedological phenomena, France, Dordogne, Les Tares; 06156.
sedimentary process
Florida Current, configuration, carbonate slope, shelf margin progradation, depositional pattern, USA, Florida Carbonte Slope; 03858. pedological process, Pleistocene(Upper), loess, Bagaggera sequence, pleniglacial period, Holocene, illuviation, weathering, Italy; 07210.
sedimentary property
debris flow track, periglacial environment, debris flow levee, alpine debris flow, France, Alps; 06038.
sedimentary provenance
basin rifting, Jurassic(Upper), Cretaceous(Lower), uplift, erosion, subsidence, UK; France; 08243. Carboniferous, geochronology, zircon, monazite, drainage basin, sandstone, UK, England, Pennines; 08270. detrital grain, Oligocene, Holocene, Pliocene, back arc basin, Pacific, Tonga Arc; 08251. Devonian, Caledonian orogeny, conglomerate, uplift history, burial, Norway, Hornelen Basin; 08247. diagenesis, turbidite, mudrock, Llandovery, rare earth element, UK, Wales; 08294. greywacke, Devonian, tectonic environment, Proterozoic, UK, England, (Southeast); Germany; 08242. heavy mineral, palaeocurrent, Eocene, Oligocene, thrust, France, Haute Provence; 08246. isotopic technique, tectonics, island arc, palaeogeographic problem, climatic implication, 08303. Jurassic(Upper), palynomorphs, heavy mineral, feldspar, diagenesis, isotopic dating, North Sea, Central Graben, Argyll Embayment; 08302. Kirkcolm Formation, isotopic composition, strike slip movement, Galdenoch Formation, Ordovician, greywacke, UK, Scotland, Southern Uplands; 08244. Miocene, Macigno Formation, mineral species instability, Cervarola Formation, turbidite, Italy, Northern Apennines; 08271. Neogene, Quaternary, volcanism, tectonics, Kaihu Group, sand mineralogy, New Zealand, South Auckland; 08248.
sedimentary record
radiocarbon dated material, eolian landscape, soil formation, dune field, Quaternary(Late), USA, New Mexico, Colorado Plateau, Chaco Dune Field; 02511.
sedimentary response
core, sediment source, lake sediment, palaeoenvironmental change, paraglacial sedimentation, neoglacial activity, alpine lake, geomorphological approach, Canada, British Columbia, Coast Mountains, Kwoiek Creek; 08471. tectonic activity, sea level fluctuation, seismic reflection profile, deltaic sequence, buried marine terrace, Hueneme Canyon, Quaternary(Late), USA, California, Ventura Mainland Shelf; 03869.
sedimentary rock
pasture, forest, slope, base flow, organic species, surface water quality, water chemistry, lithology, landuse, topography, hydrology, major ion, specific yield, New Zealand; 11028. weathering, organic geochemistry, n alkanoic acid, Beacon Supergroup, Antarctica, Victoria Land, McMurdo Dry Valleys; 07440.
sedimentary rock aquifer
benzene, toluene, xylene, gas chromatograph analysis, flame ionisation detection, thermal desorption analysis, brackish groundwater, groundwater contamination, 00610.
sedimentary sequence
core, R/V Meteor cruise, stable isotopic record, stratified water column, productivity, Younger Dryas event, Holocene, palaeoenvironmental event, Pteropoda, high resolution record, Red Sea; 10748. lithostratigraphy, provenance, Pleistocene(Early) deposit, Tegelen, Kedichem Formation, lithostratigraphic unit, heavy mineral, Netherlands, Rhine; Belgium, Meuse; Belgium, Scheldt; 10787. overdeepened basin, erosion rate, till, melt water channel, eroded terrace, fluvial gravel, glacial, Switzerland, Mittelland; Seeland; 11961. palaeohydrology, Warta Valley Research Project, valley floor morphology, palaeochannel pattern, alluvial sedimentary sequence, chronology, discharge variation, Poland, Warta River; 11851. stratigraphy, drumlin, directional indicator, ice flow pattern, rock cored drumlin, Ireland; 11950.
sedimentary soil
basaltic soil, soil texture, soil moisture, vapour pressure method, thermocouple psychrometer, moisture retention curve, USA, Arizona; 12223.
sedimentary structure
absorption, tomography, deep sea sediment, Hounsfield unit, bulk density, 00196. aeolian sand, diagnostic indicator, sand sheet, niveo aeolian sedimentation, Greenland, Western Greenland, Sondre Stromfjord; 06204. Bouma sequence, sandstone, storm, tempestite, stratification, 10499. Calcari Grigi Formation, carbonate, Jurassic, tsunami, bedform, synsedimentary process, lagoon, Italy, Venetian Alps; 09318. cementation, sandstone, concretion, calcite, biogenic carbonate, 04696. dipmeter, reservoir rock, nearshore bar, bedform, progradation, water depth, Canada, Gulf of Saint-Lawrence; 01222. fining upward sequence, tidalite, quartzite, bedform, Precambrian, India, Bihar, Singhbhum, Ghatsila; 08222. hummocky cross stratification, storm bed, grain fabric, sandstone, lamination, 08147. microsequence, Rewa Formation, hummocky cross stratification, storm laid sediment, India, Rajasthan, Bhainsrorgarh; 03516. oxygenation, fossil, bioturbation, sedimentation, turbidite, Indian Ocean, Bengal Fan; Indian Ocean; 04845. palaeochannel, buried depth, Holocene, channel sediment, Pleistocene(Late), China, Shandong, North Shandong Plain; 11860. provenance, heavy mineral, Wajid sandstone, Cambrian, Ordovician, colour, fining upward, Saudi Arabia; 00110. red bed, back arc basin, dune type, Mesozoic, aeolian sandstone, sandstone, Chile, Atacama Region; 10504. saltern, microbe, petee, tepee, reef, crust, 04750. sedimentation, wind velocity, loess, 01550. viscoelastic representation, shear, bottom sediment, fluidisation, PCB's, 09309.
sedimentary trail
remote sensing, three-dimensional survey, submarine sediment, 13964.
sedimentation
absorption, fish, clay, 12994. accretion rate, manganese, nodule, Atlantic, Madeira Abyssal Plain; 11696. aeolian deposit, swamp, alluvial fan, graben, Botswana, Okavango Delta; 11663. anthropogenic activity, metal sink, pollution, grain size, 09376. aphotic, lake, pigment degradation, hypolimnion, palaeolimnology, USA, Wisconsin; 03526. ashfall deposit, Quaternary, turbidite, Tyrrhenian Sea, Marsili Basin; Site 650; 00082. Atterberg limit, upwelling, sea floor, sediment distribution, geotechnical aspect, South Sea; 10559. Barremo-Aptian, basin, extension, syncline, graben, tectonics, Cameroon; 04824. basement, tectonic movement, acoustic facies, terrace, hemipelagic mud, Japan Sea, Oki Trough; 11762. basin deposition, genetic stratigraphy, stratigraphic classification, coal, Permo-Triassic sequence, Australia, New South Wales, Gunnedah Basin; 09403. basin, alluvial fan, Devonian, Caledonian Orogeny, graben, Ireland, Munster Basin; 01293. basin, rift sediment, tectonics, organic matter, geothermal history, Gabon; Congo; 03632. biogenic silica, phosphorus, sediment fractionation, sediment trap, fallout, biogenic carbonate, 09451. biological uptake, microbial oxidation, photooxidation, petroleum contamination, oil spill, hydrocarbon fate, surface water quality, evaporation, dilution, wind, current, Antarctica, Arthur Harbour; 13362. bottom sediment, radionuclide, ooze, isotope, 01357. brine, playa, saline lake, palaeohydrology, palaeoclimate, evaporite, Canada, Saskatchewan, Ceylon Lake; 08158. Cainozoic, seismostratigraphy, USSR; 04884. calcrete, carbonate, silica, basin, salt accumulation, delta, Botswana, Okavango Delta; 05831. carbonate build up, flysch, Ordovician, foreland basin, orogen, erosion, platform, provenance reversal, Canada, Newfoundland; 05913. carbonate, clay, lake, saline, calcrete, playa, India, Rajasthan, Jaisalmer, Pokaran; Rann; 04817. carbonate, skeletal remains, trench, turbidite, dissolution, Pacific, Palau Trench; Japan Trench; 12885. carbonate, travertine, Pliocene, Pleistocene, Saiss limestone, Morocco, Saiss de Fez Basin; 01282. Carboniferous(Upper), deltaic cycle, Westward Ho! Formation, Bideford Group, subsidence rate, UK, England, Devon; 07044.

cement, pelagic carbonate, diagenesis, isotopic composition, strontium, Indian Ocean, ODP Site 709; Mascarene Plateau, ODP Site 709; 03623. Cenozoic, phosphorite, plate tectonics, palaeoclimatic event, palaeoceanographic event, 00118. chlorophyll, runoff water quality, sediment dynamics, watershed-lake process model, lake water quality, land use effect, water quality management, agricultural nonpoint source model, nitrogen, phosphorus, COD, temperature stratification, mixing, 04156. clay mineral, Callovian-Oxfordian, Jurassic, smectite, Europe, Anglo-Paris Basin; 01294. clay mineral, reservoir, Brazil, River Lobo; 02319. climate, sea floor sediment, Arctic, Fram Strait; 02375. coagulation, precipitation, complex formation, hydroloysis, redox process, photochemical reaction, microbial decomposition, nitrification, fish growth, sediment water exchange model, water quality model, volatilisation reaeration, adsorption, ion exchange, heat exchange, 09828. continental margin, climatic change, deforestation, depocenter, sea level control, Messinian, sediment supply, Spain, River Ebro; 05847. continental margin, seismic stratigraphy, sea level history, progradation, sea level lowstand rate, tectonic subsidence rate, turbidite deposit, Quaternary(Late), Aegean Sea; 08449. continental shelf, delta, transgression, coastline, reef, Quaternary, Australia, Great Barrier Reef; Queensland, Townsville; 02355. continental shelf, nepheloid layer, gyre, ecosystem response, recycling, meiofauna, Mediterranean Sea, Gulf of Lions; 05852. continental slope, turbidite, slumping, Pleistocene, Holocene, USSR, Caucasus, Black Sea Margin; 10567. continuum mixture theory, turbulent snow, air flow, 10122. core, dipmeter logging, cyclothem, tide, molasse, Miocene, France, Mont-Saint-Michel; Alpes-de-Haute-Provences, Digne Basin; 07121. Cretaceous, uplift, Adamantina Formation, Uberaba formation, lake deposit, tectonics, Brazil, Parana Basin, Triangulo Mineiro area; 02417. cumulative sedimentation, watershed management, cumulative effect, forest management, erosion, 13449. current, suspended sediment, circulation, mixing, filtering, China, Zhejiang, Ziangshan Bay; 05832. dam, pelitic material, heavy mineral, reduction, USSR, Neva Bay; 08207. dam, reservoir, particle size distribution, France, Pyrennes, Tet River; 08206. debris band, ablation, sublimation till, ice cored moraine, thermal regime, climate, melt out till, ice margin, depositional process, polar maritime environment, Antarctica, Vestfold Hills; 07248. deglaciation, seismic profile, sediment wedge, Laurentide ice sheet, sea level, Quaternary(Late), USA, New Jersey, Hudson Apron; 06095. delta, lake, terrigenous material, water level, Poland, Carpathian Mts, Lake Roznow; 04724. delta, sea bottom, continental shelf, sediment discharge, Bohai Sea; Yellow Sea; China, Huanghe River; 12873. depocenter, Cenozoic, erosion, Oligocene, source area, Barents Sea; 03580. depocentre, submarine sliding, Cenozoic, continental slope, sediment drift feature, Labrador Current, Western Boundary Undercurrent, Atlantic, Grand Banks, Sackville Spur; 02362. deposition, loess, aeolian dust, soil formation, dust deposition, Israel; 08632. deposition, river bed, erosion, dam, 01200. depression, marine basin, mineralisation, classification, Cretaceous, geochemical mapping, USSR; 13004. diagenesis, Kungurian deposit, halite, bromine, chlorine, USSR, Caspian Basin; 01235. diamicton, rhythmite, till, ice lateral lake, glaciolacustrine, Spain, Pyrenees, Llauset Valley; 03532. diffusion, sediment-water interface, iron transport, fresh water, trace metal, aggregation, 05943. dredging, harbour, engineering, erosion, 03582. ecological impact, surface water quality, oil spill, travel time, contaminant fate, contaminant transport, USA, Ohio River; Monongahela River; 02877. erosion, classification, tidal flat, coastline, tide gauge, Germany, Elbe Estuary, Neuwerk; Scharhorn; North Sea; 00046. erosion, uplift, silt, heavy mineral, clay, India, Bengal Fan; Himalayas; 04860. estuary, circulation, fresh water, sediment transport, geomorphology, USA, North Carolina, Pamlico-Tar River System; 04732. estuary, suspended solid, settling velocity, flocculation, silt, Turkey, Sea of Marmara, Golden Horn Estuary; 04735. eustatic curve, unconformity, Pleistocene, magnetostratigraphy, oxygen isotope record, New Zealand, Wanganui Basin; 02356. eustatic cycle, overbank deposit, mass transport, levee, sand, submarine fan, USA, Gulf of Mexico, Mississippi Fan; 04731. eutrophic lake, mineralisation, phosphorus, pollutant, lake, productivity, Netherlands, Lake Veluwe; 11667. facies, Silurian, transgression, sandstone, alluvial deposit, Egypt; Sudan; 03603. faecal pellet, sea bottom sediment, algal bloom, suspended sediment, sediment trap, Adriatic Sea, Gulf of Trieste; 04789. fault block, subsidence, Dinantian, transgression, palaeoenvironment, UK, England, Lancashire; Lake District; 00139. fault, graben, Messinian, oceanic crust, evaporite, subsidence, Tyrrhenian Sea, Site 652; Site 654; 00147. filtration, dissolved air flotation, micropollutant, taste problem, odour problem, surface water quality, eutrophication, potable water, South Africa; 07503. flushing, sediment yield, engineering, deposition, reservoir, 05812. fluted moraine, ground moraine, ablation relief, till, Svalbard, Spitsbergen, Wedel Jarlsberg Land; 02647. geochemical feature, Cretaceous, facies, depression, USSR, Tadzhikistan; 04806. geology student, shoreline, aeolian, USA, Gulf of Mexico; Bahamas; Atlantic, (Northwest); 11827. geomorphology, shell deposition, bottom current, oyster reef, USA, Virginia, James River; 04840. gyre, heavy metal, sediment source, pollution, productivity, biogenic debris, Tyrrhenian Sea; 08172. heavy metal, organic matter, carbonate, marine geology, pollution, eutrophication, India, Kerala, Mahe Estuary; 08208. heavy metals, catchment, mining, floodplain, sediment profile, 04781. human impact, sea level, levee, archaeological remains, Pleistocene, Holocene, Egypt, Nile Delta, Lake Burullus; 05829. hydraulic engineer, suspended load, reservoir, flushing, sediment yield, 05811. hydraulics, siltation, Lesotho Highlands Water Project, dam, water intake, Lesotho, Katse reservoir; 05817. ice contact lake, rapid sedimentation, terminus advance, proglacial lake, suspended sediment concentration, push moraine, meltwater channel, glacial surging, USA, Alaska, Glacier Bay, Carroll Glacier; 02634. ice cover, lake, microbial mat, stromatolite, Antarctica, Lake Hoare; 10530. ice sheet, glaciolacustrine, meltwater stream, Salpausselka I moraine, delta, glacial lake, Finland, Salpausselka Moraines; 00108. induced earth tremor, flood characteristic, erosion, surging, Nepal, Kali Gandaki River Valley; 05147. infiltration, groundwater supply, soil conservation, water conservation, available soil moisture, filtering dyke, water balance, crop yield, Burkina Faso, Rissiam Region; 12281. ironstone, basin, rifting, palaeoenvironment, ferric oolite, Malawi, Lake Malawi; 05830. Jurassic, Tornquist Line, transgression, eustatic curve, Poland; Sweden; 11721. Karoo sequence, Paleozoic, Mesozoic, Tertiary, graben, isostatic rebound, Tanzania, Rukwa-Tukuyu Region; 10616. kerogen, organic matter, upwelling, oxygen, Arabian Sea, Oman Shelf; 11806. lake, rift basin deposit, Newark Supergroup, Mesozoic, lithofacies, sandstone, palaeolatitude, 11752. lake, supraglacial stream, deglaciation, proglacial, Svalbard, Spitsbergen, Horbyebreen; 04725. lead-210, lake sediment, radionuclide, trace, cycling, geochronometer, USA, Massachusetts, Bickford Reservoir; 01206. lignin, chitin, marine sediment, Miocene, organic matter, Indian Ocean, Indus Fan; Arabian Sea, Owen Ridge; Arabian Sea, Oman Margin; 11808. lithology, lithogenesis, 04883. littoral zone, beach, sea cliff, erosion, accretion, island, Canada, Quebec, Iles de la Madelaine; 03550. loess, neolithic, Holocene, tufa, spring, France, Val d'Oise, Guiry-en-Vexin; 07009. macrotidal piedmont coast, wave-cut exposure, facies analysis, proglacial sediment, glacial tectonism, pleistocene, USA, Alaska, Nushagak Lowland, Ekuk Bluffs; 01429. Markov process, 11820. marsh, estuary, coast, littoral process, Spain, La Coruna, Bay of Betanzos; Bay of Ares; 02341. mass balance budget, water source, phosphorus, nitrogen, calcium, chlorine, internal sink, water budget, evaporation, denitrification, mixing, lake water chemistry, Israel, Lake Kinneret; 07488. mass movement, methane, diapirism, slumping, acoustic void, Indonesia, Savu Basin; 00145. mass wasting, rapid sea level rise, marine ice sheet, ice sheet decoupling, sea level change, USA, Texas, Texas Continental Shelf, Trinity Valley; Gulf of Mexico; Sabine Valley; 10801. melt water supply, suspended sediment, Weichselian glacimarine deposit, varve, proximal, distal, glacimarine deposit, Sweden; 05002. metadolomite, breccia, Trias, conglomerate, Jurassic, Italy, Alpi Apuane, Mount Corchia; 07054. Miocene, continental margin, grain size, Pliocene, tectonism, Tyrrhenian Sea; Tyrrhenian Sea, Site 652; 00081. Miocene, magnetic polarity record, accumulation rate, Argentina, Bermejo Basin; 02394. Miocene, orogeny, volcanic arc, volcaniclastic sediment, Eocene, Celebes Sea, ODP Site 767; ODP Site 770; 07026. morphological change, trap sampler, bed load formula, sediment budget, channel instability, sediment transport, bank erosion, Canada, British Columbia, Fraser River; 12172. mudflat, intertidal sedimentation, channel geometry, storm, ebb channel, Korea(South), Inchon; 04738. nutrient leakage, salinisation, heavy metals, rehabilitation, remediation, restoration, upland stream, ecological degradation, surface water quality, catchment management, water resource management, Australia; 01767. nutrient, nitrogen, estuary, pycnocline, storm, eutrophic, Japan, Tokyo Bay; 02334. nutrient, nitrogen, phosphorus, Secchi depth, eutrophication, fish farm, Baltic Sea; 12913. off site impact, surface erosion, decision aid, research needs, 06214. oil reserve, basin type, source rock, sand, gravel, heavy mineral, 03583. orbital parameter, unconformity, limestone, Milankovitch cycle, Puerto Rico, North Coast Basin, Toa Baja Well; 10573. organic matter, carbon budget, biogenic carbon, isotope ratio, bloom, Canada, St Lawrence Estuary; 09341. organic matter, eutrophic environment, organism, trap sample, upwelling, particle flux, 09453. organic matter, kerogen, burial depth, thermal history, phosphorite, diagenesis, 03658. organic matter, nutrient, bottom sediment, suspended matter, reservoir, USSR, Dneiper River; 10524. organic matter, varve, laminae, microbial, biostructuration, seasonality, 03524. oxygen consumption, anthropogenic source, benthic mortality, nutrient flux, carbon, nitrogen, North Sea, Kattegat; Baltic Sea; 00043. oxygen, eutrophication, nitrogen dynamic, denitrification, sediment oxygen consumption, North Sea, Kattegat; 00180. Palaeozoic, oolitic ironstone, cratonic, foreland basin, USA; 05935. Paleocene, fan-delta sequence, mudstone, shale, mass flow, Dizilitasler Formation, basin, Turkey, Anatolia; 04825. palynomorph load, flowering peak, recycling, pollen, spore, river, vegetation, USA, Texas, Trinity River; 06077. palynomorph, thermal maturity, Paleogene, Canada, British Columbia, Queen Charlotte Islands, Graham Island; 01304. pelagic sedimentation process, sediment trap result, particle flux, biogenic opal flux, opal flux, ice coverage, ice rafted material, Arctic Ocean, Fram Strait; 10754. Permian basin, epicontinental basin, lithofacies map, Mesozoic basin, basin evolution, Poland; 12944. phosphorite, eustatic movement, texture, Sinian, Doushantuo Formation, China, Jiangxi Province, Zhaoyang; 10610. phosphorus dynamics, lake water quality, modelling, eutrophication, flushing, 13337. phosphorus, productivity, stratification, organic matter, halocline, Baltic Sea; 10650. phytoplankton, settling velocity, neritic ecosystem, chlorophyll, biomass, primary production, Caribbean, Jamaica, Kingston; 05955. Pleistocene, climatic change, magnetic measurement, pollen analysis, particle size, China, Yunnan, Kunming Basin, Dianchi Lake; 00035. Pleistocene, fjord lake, bedrock incision depth, glaciolacustrine sedimentation, fjord lake basin, overdeepening, Canada, British Columbia, Okanagan Lake; 04995. pollution problem, control ordinance, local regulation, soil erosion, cropland, erosion prone site, USA, Minnesota, Olmstead County; 05057. porosity, subsidence, basin evolution, backstripping, 02408. postglacial deposit, Quaternary fill, intramorainic depression, cirque, lithostratigraphic unit, Atlantic period, Subboreal, radiocarbon date, deforestation, slope degradation, Poland, Tatra MountainsStarorobocianski Cirque; 11971. precipitation, coagulation, phytoplankton, velocity, viscosity, 05792. productivity, seasonality, particle flux, opal, organic carbon, benthic, Weddell Sea; Southern Ocean, Bransfield Strait; 02471. proglacial lake, diamictite, Gilbert type delta, progradation, Talchir Group, India, Sahajuri Gondwana Basin; 12922. Proterozoic, epeiric sea, tidal rhythm, storm, cyclic fluctuation, India; 00112. provenance, tectonic control, Cretaceous, conglomerate, Little Muddy Creek conglomerate, thrust, USA, Wyoming; 02414. pteropod, shell size, East Greenland Current, Norwegian Current, dissolution, pelagic zone, Norwegian Sea, Lofoten Basin; Greenland Sea, Lofoten Basin; 02442. Quaternary, continental shelf, sediment accumulation, climate, Chukotsk Sea; Pacific, Bering Strait; 08180. Quqaluit Formation, Cape Searle Formation, Cretaceous, Paleocene, graben, basalt, rifting, Canada, Northwest Territories, Baffin Island; 02409. radiocarbon date, Holocene(Late), depositional history, borehole, succession, prograding succession, barred shoreline type, sea level rise, Midley Sand, storm, UK, England, Kent, Dungeness; 06180. rate model, iceberg melting, process model, description, modelling, glacimarine sediment, 04987. recirculation zone, flow separation, meander bend, bar, USA, Arizona,

Colorado River; Grand Canyon; 02312. recreation, transportation, management, water supply, cropland, erosion, USA, Missouri; 12900. red bed, Mesozoic, Jurassic, Cretaceous, factor analysis, Morocco, High Atlas; 04803. relief inversion, hollow, seepage erosion, groundwater piracy, hillslope erosion, Brazil, Sao Paulo, Bananal; 06037. reservoir, wash load, suspended sediment, sediment transport, 05790. Rhaetic, eustasy, Triassic, cyclicity, subsidence, Milankovitch theory, Italy, Lombardy Basin; 02418. rift, alluvial fan, Paleogene, tectonic activity, sediment supply, sediment maturity, China, Liaoning Province, Liaohe Rift; Bohai Sea Gulf, Liaohe Rift; 02354. rift, East African Rift, tectonics, volcanism, graben, 03628. rift, tectonics, upheaval, strike slip, plate movement, Egypt, Red Sea; 03630. river flow, tide, morphological change, elevation change, erosion, Germany, Lower Elbe, Rhinplatte Island; 00047. river sediment, sediment provenance, bedload, particle suspension, riverine erosion, 08154. saltation, particle size, bottom sediment, current, Bering Sea; 05850. sand body, progradation, Holocene, transgression, longshore drift, delta, India, Nizampatnam Bay; River Krishna; 05838. sand, gravel, transportation, debris flow deposit, Ordovician, Mane Ting Formation, India, Himalayas, Black Mountain Basin; Bhutan; 04807. sandstone, Barremian, reservoir, cement, Atlantic, Gabon Basin; 00164. sandstone, shale, coal, Westphalian, Coal Measures, peat, tectonism, UK, England, Northumberland, West Chevington Opencast Site; 04802. sea floor, Neogene, glaciation, Miocene, phosphorus, USA, California; 01335. sea floor, particle flux, carbonate, organic carbon, pelagic system, Norwegian Sea; 03670. sea level curve, passive margin, eustatic, subsidence, 01286. sea level rise, mangrove, shoreline, Holocene, Quaternary, 10626. seafloor, nephelometer profile, continental shelf, abyssal sediment, ferromanganese, Antarctica; 10576. seismic record, bedform, Tsushima Current, mud, calcium carbonate, Japan Sea, San'in District; 12872. shelf, pollutant, migration path, bottom sediment, Pacific, Gulf of Siam; Japan Sea; Pacific, Sea of Japan; 10563. shelf, sea level rise, Quaternary, subsidence, Holocene, Mediterranean, Gulf of Lions; 12875. shelf, source, facies, ice cover, mud, Canada, Axel Heiberg Island, Axel Heiberg Shelf; 01239. silt, clay, flocculation, settling velocity, tracer sediment, radioisotope, 11649. siltstone, sandstone, conglomerate, carbonate, red formation, Mesozoic, upward fining sequence, Morocco, High Atlas, Telouet area; 05908. slope length, erosion, deposition, Horton runoff volume, surface sealing, headcut incision, colluvial fan formation, infiltration, percolation, overland flow, runoff generation, rilling, 05125. slope stability, Pleistocene, turbidite, deep sea fan, Mediterranean Sea, Ebro shelf; 05862. soil erosion, conservation, rainfall, reservoir, Italy, Sicily; 06971. soil erosion, steepland, topography, logging, land use control, Fiji; 06246. sorting, weathering, fractionation, titanium oxide, zircon, clay mineral, heavy mineral, Portugal; 09442. source area, hydrothermal, conglomerate, Promise Formation, South Africa, West Rand; Klerksdorp; 02384. spring deposit, travertine, playa, deflation, radiocarbon, Australia, South Australia, Lake Torrens, Mountford Spring; 00037. steepland, road design, secondary road planning, erosion, 06058. steepland, sediment budget, erosion, gullying, sheetwash, topsoil, Tanzania, Shinyanga; 07033. Stephanian, Variscan basin, volcanic control, tectonic control, lacustrine sedimentation, alluvial sedimentation, Spain, Catalonia, Malpas-Sort Basin; 09419. sublimation, ice crystal, parameterisation, ice cloud, water content, general circulation model, ice deposition, 10127. submarine volcanics, landslide, volcanic island, Reunion, Fournaise Volcano; 08192. subsidence, Quaternary, continental shelf, river discharge, suspended load, China; 08176. subsidence, syncline, Devonian, Carboniferous, facies evolution, deepening event, shallowing event, sea level change, bathymetric change, Belgium, Dinant; 07062. sulphate, chloride, Pitzers equation, evaporite, 12925. sulphur, oceanic water, reduction, oxidation, disproportionation, organic matter, redox, 05942. surface water quality, diatom, biogenic silicate, eutrophication, particulate silicate, phytoplankton, dissolved silicate, Netherlands, Rhine River; 00554. surface water quality, sediment, suspended load, dissolved organic carbon, alkalinity level, particulate form sediment, copper, mine related discharge, Papua New Guinea, Fly River System; 08755. suspended matter, shelf, continental slope, seasonal variation, Atlantic, (Centraleast); 07023. suspended sediment, discharge, flood, Belgium, Meuse River; 08698. suspended sediment, reservoir, dam, heavy metal, pollutant, anthropogenic influence, Spain, Ebro Delta; 05883. suspended solid, nitrogen, erosion, phosphorus, surface water quality, temporal variation, sediment transport, Finland, Koiransuelenoja; 05153. suspension, settling, viscous fluid, sediment flow, 10493. swash zone, foreshore, beach, longshore current, quartz, sand texture, Greece, Zakynthos, Lagana Beach; 09353. tectonic setting, deltaic sedimentation, carbonate basin, terrigenous discharge, arid climate, alluvial fan, Middle East, Arabian Gulf, Lower Mesopotamian Plain; 01217. tectonic setting, sea level variation, Mesozoic, basin, plate movement, Greenland; 05920. terrigenous material, mixed layered mineral, mineral structure, Pliocene, Egypt, Wadi El Natrum Basin; 05909. terrigenous sedimentation, sedimentary exhalative deposit, hydrothermal phenomena, 11819. tidal flat, erosion, vegetation, current, intertidal, Canada, St. Lawrence Estuary; 00154. tidal flat, German Coastal Engineering Board, erosion, Germany, Neuwerk; Scharhorner; 00045. tide, swash, backwash, tracer study, groundwater, USA, Washington, Puget Sound; 02327. timber harvesting, channel morphology, forest hydrology, riparian vegetation, aerial photography, open reach, USA, Oregon, Elk River Basin; 13450. transgression, regression, provenance, quartz, sandstone, Desmoinesian, USA, Oklahoma; 02390. tropical steepland, international symposium, research needs, erosion, Fiji, Suva; 06213. tropical watershed, soil erosion, simulation model, FGMOD, erosion reduction, Guatemala, Chixoy River; 06222. turbidite, sedimentary structure, oxygenation, fossil, bioturbation, Indian Ocean, Bengal Fan; Indian Ocean; 04845. turbidity current, bottom sediment, log-normal probability paper, suspension, Japan, Hokkaido, Chikita; 02321. uplift, palynological investigation, lake, swamp, pollen diagram, mangrove vegetation, tidal zone, Indonesia, Celebes, Sulawesi, Danau Tempe Depression; 00284. upwelling, epigenesis, diagenesis, barium, organic carbon, Peru; 01342. urban landscape, rural landscape, surface runoff, erosion, 12161. volcanic event, palaeoenvironment, maar crater, siliciclastic grain, pedogenic formation, Cameroon, Lake Barombi Mbo; 11671. volcanism, greenstone belt rock, conglomerate, Archaean, Fig Tree Group, South Africa, Barberton; 05899. waste, environmental contamination, sludge, fishing, USA, Massachusetts Bay; Massachusetts, Boston Harbour; 07032. water treatment, surface water quality, eutrophication, potable water, Dissolved Air Flotation, filtration, South Africa; 05195. weathering, Cretaceous, burial, illite, smectite, erosion, rifting, flysch, Europe, Alps, Lombardian Basin; 11756. weed growth, channel design, irrigation channel, drainage channel, environmental protection, water resource management, channel deterioration, UK; Europe; 13463. wind velocity, loess, sedimentary structure, 01550. World Bank project, soil conservation, moisture conservation, literature review, conservation technology, runoff, erosion, 02711. Ypresian, carbonate basin, Thebes Formation, Drunka Formation, carbonate succession, sea level change, Eocene, Egypt, Eastern Desert; 05907.

sedimentation basin
channel adjustment, sediment transport regime, hydropower scheme, morphological change, downstream channel, melt water, Switzerland, Grande Dixence Hydro Power Scheme, Val de Ferpecle; Val d'Arolla; 08724.

sedimentation characteristic
Ogolian sand, sand sample, dune, sandsea, aeolian sedimentation, erg, Pleistocene(Upper), sediment homogeneity, Senegal, Mbour; Mauritania, Nouakchott; 10759.

sedimentation cost
steepland, logging induced soil erosion, fishery industry, tourism industry, erosion monetizing, 06059.

sedimentation cycle
eustatic sea level change, tectonics, palaeoenvironment, Miocene, sea level change, Egypt, Nile Delta; 09349. sediment flux, uplift, mountain building, Phanerozoic, erosion, 09415.

sedimentation depth
uplift rate, micropalaeontology, movements detection, collision, vertical movement, microfossil assemblage, Indonesia, Timor; 07171.

sedimentation history
Quaternary(Late), tectonism, deltaic sedimentation, sea level change, graben subsidence, Greece, Gulf of Patras; 10803.

sedimentation model
global eustatic change, sedimentary change, sea level change, glacial cycle, glacimarine facies architecture, 04988.

sedimentation pattern
Eocene, sediment load, apron, source, volcanism, USA, Texas, Big Bend Region; 02392. facies geometry, glacial influence, continental shelf, Yakataga Formation, intertidal platform, ice rafted debris, USA, Alaska, Middleton Island; 04972.

sedimentation process
geomorphological mapping, genetic classification, landform type, subsidence, Italy, Po Plain, Ravenna; 09530. oxygen isotope, carbonate dissolution, Pleistocene, winnowing effect, dissolution effect, Pacific, Ontong Java Plateau; 08450. Precambrian, carbon dioxide, pH, sea water, carbonate system, silicate, model, 07078. resuspension process, turbulence, Lagrangian modelling, dispersion process, 08145.

sedimentation rate
aeolian erosion, rotational landsliding, mass wasting, fluvial erosion, Holocene, geomorphological reconstruction, climatic reconstruction, radiocarbon date, Canada, Saskatchewan, Cypress Hills; Alberta, Cypress Hills; 09582. Antarctic continental margin, ice shelf edge, diagenetic process, meltwater spike, primary productivity, climatic cycle, sedimentation rate, stable isotope record, Quaternary(Late), Antarctica; 02622. anthropogenic product, settling rate, radionuclide, contaminant, caesium, USSR, Lake Baikal; 10527. anthropogenic source, lead-210 chronology, metal load, Canada, Great Lakes, Georgian Bay; 01201. brine, radiation, lake, halite, Middle East, Dead Sea; 04751. burial, diagenesis, concretion, Kimmeridge Clay Formation, nodule, UK, England; 08149. carbonate profile, radiocarbon record, volcanic event, Ionian Sea; 05849. carbonate, productivity, hydrographic, organic carbon, Sea of Marmara, Izmit Bay; 03543. cold based glacier, deglaciation, subglacial meltwater, warm based glacier, climatic amelioration, turbid plume, glacier, glaciomarine sedimentation, floating glacier tongue, low energy depositional environment, Canada, Ellesmere Island, Disraeli Fiord; 01427. core, palaeolimnology, radiocarbon, stable isotope, ostracode, Holocene, palaeoclimatic evidence, USA, Great Lakes, Lake Michigan; 08474. cycling, residence time, sea water, anoxic sediment, Japan, Tokyo Bay; Funka Bay; 10558. diagenesis, sea water, bacteria, productivity, sulphate, Mexico, Gulf of California; 05954. diffuse input, transport problem, inverse modelling, coastal water, Adriatic Sea, Punat Bay; 03591. estuary, Holocene, sea level rise, USA, Chesapeake Bay; 02332. floodplain dynamic, channel process, floodplain formation, alluviation, alluvium, USSR, Amur Valley; 03709. flux, preservation, organic carbon, fjord, bacterial biomass, Hypsithermal period, Neoglacial, Little Ice Age, Canada, Baffin Island; 04975. fly ash, time marker, sedimentation study, USA, Illinois, Sangamon River, Springfield; 00212. food supply, niche, foraminifera, seasonally ice covered area, perennially ice covered area, benthic foraminifera, siliceous sponge reef, Canada, Axel Heiberg Island; Ellesmere Island; Canada, Axel Heiberg Shelf; Arctic Ocean, Baffin Bay, Lancaster Sound; Arctic Ocean, Axel Heiberg Shelf; 10755. foraminifer, barite, cyclicity, Pleistocene, ooze, Milankovitch, Indian Ocean, ODP Hole 709C; Mascarene Plateau, ODP Hole 709C; 03576. glacial interglacial cycle, monsoon, oxygen, carbon, isotope stratigraphy, thermocline, upwelling, Indian Ocean, ODP Site 723; Arabian Sea, ODP Site 725; 11924. hiatus, periodicity, Milankovitch obliquity cycle, eccentricity cycle, spectral analysis, downhole logging, geochemical logging, Atlantic, (South); Southern Ocean, ODP Site 704; 11935. high resolution 230 Th ex stratigraphy, high latitude, thorium-230, foraminifera, oxygen isotope stage, Norwegian Sea, Fram Strait; 04957. historical record, storm, estuary, anthropogenic event, land clearance, USA, Maryland, Chesapeake Bay; 04733. Holocene, Wisconsinan, benthic foraminiferal assemblage, palaeocirculation history, North Atlantic Deep Water, Antarctic Bottom Water, abyssal storm, turbidite, Atlantic, Scotian Margin; 10743. iceberg, iceberg melt rate, glacier flow velocity, glacier thermal regime, modelling, 04955. industry, organic matter, contaminant, PAH, smelting, Canada, Quebec, Saguenay Fjord;

00103. isotope flux, deep water, beryllium-10 stratigraphy, thorium-230 stratigraphy, Quaternary(Late), Atlantic, Fram Strait; 02605. isotope, caesium, lead, fjord, radioisotope, USA, Alaska, Smeaton Bay; Boca de Quadra; 06977. lake sediment, sediment water interface, storm, focusing, radioactive dating, USA, Great Lakes, Lake Michigan; 11664. magnetostratigraphy, scavenger, beryllium-10, cosmogenic radionuclide, accumulation rate, Arabian Sea, Owen Ridge; Indus Fan; Arabian Sea, ODP Site 720; Arabian Sea, ODP Site 722; Arabian Sea, ODP Site 728; 11701. meltwater, Termination Ia, magnetic susceptibility, environment, physical property, acoustic property, deep sea sediment, palaeoclimatic implication, climatically driven change, Arctic, Eurasian Basin; 02619. mud, sediment permeability, deposit consolidation, depositional history, uplift, turbidity current, Indian Ocean, Bengal Fan, ODP Site 717; ODP Site 718; Indian Ocean, Bengal Fan, ODP Site 719; 09370. Neogene, dolomite, diagenesis, reduction, mineralisation, pore water, 00117. nodule, erosion, deep sea sediment, manganese, abyssal depth, radiolarian, Indian Ocean, Central Indian Basin; 07027. organic carbon, deep sea sediment, productivity, anoxic, 00171. organic carbon, delta sediment, shelf sediment, sulphate, iron sulphide, reduction, anoxic sediment, pyrite, USA, Mississippi River Delta; Gulf of Mexico; USA, Texas; USA, Louisiana; 09359. organic matter, interstitial water, dissolved organic carbon, redox zone, amino acid, Tyrrhenian Sea; 00186. organic matter, oxygen isotope stage, ooze, bioproductivity, Norwegian Sea; Greenland Sea; 12882. oxygen isotope composition, organic carbon content, grain size distribution, upwelling region, Ocean Drilling Program, stratigraphy, Pacific; Peru; 00272. Pleistocene, peat, terrace, Holocene, sand, Italy, Po River; 00019. Pliocene, Tertiary, tectonic record, climatic record, palaeoclimate, Japan, Lake Biwa; 00286. pollen assemblage zone, dating, long continental pollen sequence, correlation, marine pollen, oxygen isotope stratigraphy, substage 5e, fossil pollen, USA, Washington State, Olympic Peninsula, Humptulips; 01418. pollen stratigraphy, magnetostratigraphy, palaeomagnetic age, Plio Pleistocene, Tsunozu Formation, Japan, San'in District, Tsunozu Area; 04952. radiocarbon date, Quaternary, sedimentary deposit, continental shelf, accelerator radiocarbon measurement, gravity core, seismic unit, Wisconsinan interstadial, Holocene, USA, New Hampshire, Merrimack Delta; 07202. radiocarbon, chronology, magnetic susceptibility, Kumaon Lake sediment, India, Kumaon Himalayas, Naini Tal District; 02631. radiometric dating, Grande Pile, pollen record, last interglacial glacial cycle, Austria, Alps, Eastern Alps; 06089. radionuclide, Chernobyl nuclear accident, heavy metals, bioturbation, Germany, Elbe Estuary; 04788. radionuclide, tracer, harbour, caesium, mixing rate, China, Fujian Province, Meizhou Bay; 01265. rare earth element, palaeoceanographic, cerium, carbonate, seawater, Indian Ocean, ODP Leg 115; Mascarene Plateau; 03673. sea water, caesium, Chernobyl fallout, vertical mixing, France, Rhone estuary; Mediterranean, Rhone estuary; 07012. sediment mixing, bioturbation, preservation, event layer, 03508. sediment trap, high energy environment, seabed, lake bottom, flow velocity, water column, 02483. sedimentary infill, prograding fluvial system, anastomosing river, zonal vegetation belt, semi arid climate, sedimentary history, intramontane basin, tectonic structure, Colombia, Pitalito Basin; 10679. shelf area, organic matter, benthic boundary layer, sediment trap, Mediterranean Sea, Gulf of Lions; 05854. stable isotope record, Quaternary(Late), sedimentation rate, Antarctic continental margin, ice shelf edge, diagenetic process, meltwater spike, primary productivity, climatic cycle, Antarctica; 02622. varve, lithofacies, Weichselian, deglaciation, glaciomarine, Sweden, Goteborg; 02353. varved sediment, chronology, El Nino, marker layer, environment history, USA, California, Santa Barbara Basin; 00087. weathering, sand composition, sandstone, fluvial sediment, Brazil, Solimoes River, Macuapanim Island; 06960.

dimentation record
brown snow, long range transport event, transport, particulate, trajectory, clay mineral composition, soot particle, snow, Arctic; Canada, Keewatin; 09017.

dimentation study
sedimentation rate, fly ash, time marker, USA, Illinois, Sangamon River, Springfield; 00212.

dimentation velocity
humic acid, fulvic acid, humic aggregate, light scattering method, reversible aggregation, UK, England, North Yorkshire, Whitray Beck; 13231.

dimentological
geochemical study, magnetostratigraphic dating, mid Weichselian, ice dammed lake, Norwegian imprint, Rosnaes Advance, Denmark, Zealand, Istebjerg; 05005.

dimentological analysis
lithostratotype, Weichselian, sediment, stratotype, Kauhajoki Formation, Kela Formation, Siuntio Till, Espoo Till, Pikkala Sand, Kauhajoki Till, Harrinkangas Formation, Finland; 07238.

dimentological characteristic
fossil rock glacier, talus foot debris, debris accumulation, rock glacier, interstitial ice, development model, Lateglacial, Nahanagan Stadial, glacial morphology, Ireland, Muckish Mountain; 07290.

dimentological evidence
aridity, charcoal, burning, Aboriginal people, Pleistocene(Late), Holocene, vegetation, environmental record, pollen, Australia, Victoria, Wangoom Lake; 04986. magnetostratigraphic evidence, groundwater discharge, discharge playa, playa sequence, deposition rate, Uluru Clay, Winnatti Bed, Blanchetown Clay, Tyrrell Beds, palaeolake, Bungunnia, deflated material, gypseous dune, dune, aridity, dune building, Australia, Northern Territories, Amadeus Lake; 13105. Yakataga diamict, SPOT-HRIA imagery, sediment pathway, low stands of sea level, slope valley glacimarine environment, subduction zone, USA, Alaska, Gulf of Alaska; 04970.

dimentological fate
surface water quality, polychlorinated hydrocarbon, sediment sink, hydrodynamic model, particle transport, cycling mechanism, fine sediment dispersal, sorption, estuarine circulation, kepone cycling, estuary, USA, Virginia, James River Estuary; 08760.

dimentological index
geochemical index, fire history, historical reconstruction, boreal forest, forest fire history, lake sediment, charcoal index, pollen index, Canada, Alberta, Wood Buffalo National Park; 08472.

sedimentological interpretation
raised terrace, seismic reflection profile, glacio eustatic change, sea level, fluvial dissection, Quaternary history, Greece, Gulf of Patras; Gulf of Corinth; 10804.

sedimentological parameter
principal component analysis, discriminating, texturally similar till, multivariate technique, Rainy lobe, late Wisconsin advance, Superior lobe, USA, Minnesota; 03880.

sedimentology
botany, spatial characteristic, flood frequency estimate, flood bar, alluvial fan, tree scar, flood hydrometeorology, flash flood, flooding, elevation, palaeohydrologic technique, geomorphology, USA, Colorado, Big Thompson River; Rocky Mountains; 01642. estuarine hydrography, hydrography, sea bed deposit, UK, England, Plymouth Sound; 09197. glacial deposit, chronology, lithology, UK; Ireland; 13118. mammoth, bison, bone bearing sediment, McConnell Glaciation, Wisconsinan(Middle), mammal, stratigraphy, Canada, Yukon Territory, Ketza River; 13147. micropalaeontology, glacimarine sediment, Scilly Till, lobate surge, deformable marine sediment, UK, Celtic Sea; 04959. paleohydrology, Quaternary(Late), lake deposit, sand sea, desert dunefield, linear dune, carbonate, ponded river origin, radiocarbon date, Namibia, Namib Sand Sea; 04981. seismic survey, core, stratigraphy, side scan sonar, Devensian(Late), Loch Lomond Stadial, radiocarbon dated, pollen, periglacial condition, Holocene, soil erosion, Quaternary(Late) stratigraphy, UK, Wales, Lyn Tegid; 02663. sequence stratigraphy, Pleistocene(Upper), carbonate, reef-associated carbonate, reef terrace, glacio eustatic, sea level, sediment accumulation rate, tectonic uplift, Barbados; 07274.

sedimentometric study
sediment load, lake sedimentation, Brazil, Mato Grosso State, River Manso; 11010.

SEDRULE
simple expert system, program, LISP programming, student, sedimentary environment, 03683.

seedbed preparation
sandy loam, loam soil, soil disturbance, soil physical property, cattle, trampling, USA, Arizona; 07417.

seeder feeder process
field measurement, wet deposition, deposition, complex topography, aerosol, complex terrain, 13517.

seeding
persistence effect, silver iodide seeding, hail suppression, South Africa, Nelspruit; 10120.

seeding area
hail suppression, polarisation characteristic, cumulonimbus, hail, shower, cloud, radar polarimeter, 11268.

seeding effect
statistical analysis, rainfall stimulation experiment, precipitation, target, Israel; 12471. storm cell, hailpad data, hail pattern, stratification, 05432.

seedling response
nitrogen, phosphorus, fertilisation, biomass, USA, Mississippi; 00461.

seep
carbon cycling, macrofauna, meiofauna, fault, hydrocarbon, USA, California, Santa Barbara; 04855. continental slope, wave base, mussel, clam, biofacies, shell bed, USA, Louisiana, Gulf of Mexico Shelf; 01313.

seepage
anoxic lagoon, nutrient release, mangrove, swamp, groundwater, Japan, Iriomote Island; 06984. grass yield, water resource development, soil hydrophysics, soil property, erosion, India, Shiwalik; 06237. groundwater recharge, isotopic study, water chemistry, surface water chemistry, recharge rate, China, Harbin; Songhuajiang River; 09937. hydraulic gradient, pseudogley, water balance, soil hydrology, forest hydrology, soil moisture content, soil water potential, infiltration, water table rise, waterlogged soil, runoff, Germany, Hunsruck/Rhineland Palatinate; 01623. hydrogeological zone, tritium analysis, groundwater origin, surface water origin, isotope study, groundwater flow, unsaturated flow, USSR, Verkhniaya Angara River; 06370. kinematic wave equation, surface water groundwater interaction, bank storage effect, hydrograph, groundwater flow equation, flood routing solution, open channel flow equation, 09803. surface water groundwater interaction, groundwater discharge, wetland maintenance, spring fed swamp, base flow, Canada, Ontario; 07442. surface water-groundwater interaction, groundwater discharge, groundwater flow, lake sediment, hydrogeophysical method, electrical resistivity, seismic data, hydraulic leakance, North America, Great Lakes, Lake Erie; Lake Huron; 01666. thermal power generation, fly ash, chemical waste, groundwater quality, surface water quality, ammonia, fluoride, aluminium, pH, iron, nitrate, India, Husdev River; 12202. three dimensional flow, groundwater flow, linear flow, radial flow, unsaturated flow, Richards equation, saturated flow, pond seepage, USA, North Carolina Barrier Islands; 05207. unsaturated soil, homogeneous soil, layered soil, boundary conditions, model sensitivity, soil moisture profile, soil moisture movement, hydraulic conductivity, infiltration rate, groundwater level, 02897. water loss, reservoir, pan coefficient, evaporation, India, Rajasthan, Pali, Sardar Samand Reservoir; 07485.

seepage channel
sabkha, sea water, lagoon, Saudi Arabia, Rabigh, Al-Kharrar Sabkha; 10606.

seepage erosion
groundwater piracy, hillslope erosion, sedimentation, relief inversion, hollow, Brazil, Sao Paulo, Bananal; 06037.

seepage flux
Monte Carlo simulation model, meter estimate, lake seepage, surface water groundwater interaction, Canada, Alberta, Narrow Lake; USA, Michigan, Lake Sallie; 07486. surface water groundwater interaction, seepage pattern, nearshore seepage, Canada, Alberta; 07487.

seepage lake
coastal pond, lake water quality, kettle pond, gull, phosphorus, nitrogen,

eutrophication, excretion, nutrient, USA, Massachusetts, Cape Cod; 06306.
seepage meter
lake, influx anomaly, Canada, Alberta, Narrow Lake; 07490.
seepage pattern
nearshore seepage, seepage flux, surface water groundwater interaction, Canada, Alberta; 07487.
seepage scald
grassland, hydrological property, salinity, scald formation, Australia, New South Wales, Yarralaw; 08638. salinity, soil loss, salinisation, soil degradation, Australia, New South Wales; 10906.
seepage surface
unconfined aquifer, Laplace equation, groundwater flow, water table height, Dupuit Forchheimer analysis, Kozenys parabola solution, Engelunds solution, 07541. well, unconfined aquifer, groundwater flow, well storage, elastic storage release, gravity drainage, anisotropy, partial penetration, vertical flow, 07540.
seepage velocity
hydraulic gradient, saturated thickness, aquifer classification, hydrogeology, database, groundwater modelling, aquifer depth, water flow, hydraulic conductivity, USA; 07535. Monte Carlo simulation, tracer, groundwater flow, heterogeneity, convective dispersion, Lagrangian velocity, Eulerian velocity, 05224.
seepage zone
fertiliser, mineralization, groundwater chemistry, groundwater classification, shallow groundwater, groundwater quality, Netherlands; 02930.
segment
convexity, straight line, 04508.
segment splitting
line correspondence, structural matching, 03328.
segmentation
agricultural application, multiband correlation, Canada, Quebec; 11553. Bernstein-Bezier curve, curve fitting, 02127. clustering, histogram, parallel, 04503. edge detection, thresholding, 03322. Holocene earthquake, Basin and Range province, active normal fault, palaeoseismological data, slip rate, USA, Utah, Wasatch Fault Zone; 08359. image, colour, fuzzy c-means, 04502. spectral textural cooperation, cooperation, SPOT, 12641. three dimensional image, image segmentation, 13805. tresholding, homogeneous region, 12640.
segmentation behaviour
coseismic behaviour, normal fault, fault scarp, en echelon offset, seismic hazard assessment, USA, Idaho, Basin and Range Province; Montana, Basin and Range Province; 08356.
segmentation implementation
image segmentation, split and merge, 11473.
segregated ice
steady state method, quasi steady problem, freezing soil, growth experiment, ice layer, freezing test, 07283.
segregation ice
stratified scree, sorted circle, cryoturbation, periglacial geomorphology, Arctic, thermokarstic feature, permafrost, warming, USA, Alaska; South America, Andes; China, Tibet; 07285.
segregational potential
field frost heave measurement, prediction, seasonal frost, time domain reflectometry, Konrad-Morgenstern theory, cumulative frost heave, frost heave, displacement transducer, Canada, Ontario, Ottawa; 01454.
self
barchan, rilling, salinisation, drought, climate change, desertification, erosion, soil degradation, Senegal; 09642.
seismic acquisition
multi-vessel surveying, acoustic positioning, 04471.
seismic activity
geotechnical implication, neotectonics, Greece, Corinthian Gulf; 00235.
seismic complex
Cainozoic, molasse, lithoseismostratigraphy, depression, USSR, Afghano-Tadzhik Depression; Fergana Depression; 07045.
seismic cone penetration test
dilatometer data, correlation, maximum shear modulus, sand, Canada, British Columbia; 03790.
seismic cycle
subduction zone, tectonic displacement, shoreline, earthquake, deformation, USA, Alaska; 07166.
seismic data
acoustic reflectivity, volcanic basement, uplift, Caribbean Sea, Bermuda Rise; 08187. continental shelf, fan deposit, channel levee system, interglacial, glacier, submarine fan, Weddell Sea, Crary Fan; 10569. hydraulic leakance, seepage, surface water-groundwater interaction, groundwater discharge, groundwater flow, lake sediment, hydrogeophysical method, electrical resistivity, North America, Great Lakes, Lake Erie; Lake Huron; 01666. solid geology, gravity model, stratigraphy, UK, Scotland, Outer Hebrides, Lewis; 10353.
seismic data collection
land surveyors, geophysical exploration, seismic survey, Africa; 00972.
seismic energy
earthquake, natural catastrophy, neotectonic, canal, pipeline, dam, reservoir, Greece; 06016.
seismic event
earthquake magnitude, fault timing, fault displacement, Holocene faulting, Median Tectonic Line, slip rate, trench study, Japan, Shikoku; 08374.
seismic fault motion
strike slip, fault motion, earthquake, surface ruptures, sinistral strike slip motion, neotectonic fault, compression, Greece, Akarnania Region; 08367.
seismic hazard
rupture propagation, interplate setting, geometric pattern, rupture termination, fault segmentation, active normal fault, intraplate setting, USA, Nevada, Pleasant Valley; Dixie Valley; 08358. wine glass valley, erosional surface, uplift, hanging glacial valley, earthquake, morphological evidence, Quaternary, normal faulting, Spain, Pyrenees; Catalonia; 08362.
seismic hazard assessment
segmentation behaviour, coseismic behaviour, normal fault, fault scarp, en echelon offset, USA, Idaho, Basin and Range Province; Montana, Basin and Range Province; 08356.
seismic hazard studies
fault behaviour variation, tectonic province, marine terrace, subduction margin, dextral fault, reverse fault, palaeoearthquake, New Zealand; 08375.
seismic liquefaction potential
earthquake, liquefaction potential, standard penetration test, laboratory cyclic test, excess pore pressure, granular soil, energy approach, 02541.
seismic loading condition
modelling, free torsion pendulum test, 03764.
seismic method
sediment mapping, Quaternary sediment, ground electromagnetic method, EM instrument, Canada, Ontario, Val Gagne; 07227. water cycle, glacier, alpine basin, water resource, volume estimation, water storage, radio echo sounding, 08791. wave velocity, settlement calculation, shear moduli, modulus of elasticity, ground moduli, Denmark, Copenhagen, Sollerod; 04912.
seismic network
translational azimuth, rift zone, block tectonics, focal mechanism, basal slip, earthquake focal mechanism, USA, Hawaii; 11885.
seismic profile
lava flow, seamount, volcanism, oceanic ridge, Atlantic, Greenland Basin, Vesterisbanken Seamount; 07022. piston core, palaeoclimatic model, Last Glacial Maximum, closed basin, lake level, oxygen isotope record, ostracoda, Pleistocene, China, Qinghai Lake; 13159. sediment wedge, Laurentide ice sheet, sea level, Quaternary(Late), sedimentation, deglaciation, USA, New Jersey, Hudson Apron; 06095. submersible observation, sediment volume, vertical accumulation rate, lateral progradation, periplatform mud, sea level, accumulation, bank top sediment, progradation, carbonate megabank, Atlantic, Great Bahama Bank; 02611. u-shaped fjord, glacial erosion, sediment supply, fjord, mass flow process, marine geology, Antarctica, King George Island, Maxwell Bay; 08455.
seismic record
bedform, Tsushima Current, mud, calcium carbonate, sedimentation, Japan Sea, San'in District; 12872. glacial sequence, interglacial formation, Quaternary map sheet, British Geological Survey, sea bed sample, Shipek grab, North Sea; 10771.
seismic reflection
fjord lake, bedrock relief, glacial sediment fill, glacial overdeepening, structural control, overdeepened lake, Canada, British Columbia, Kalamalka Lake; 07226.
seismic reflection profile
deltaic sequence, buried marine terrace, Hueneme Canyon, Quaternary(Late), sedimentary response, tectonic activity, sea level fluctuation, USA, California, Ventura Mainland Shelf; 03869. glacio eustatic change, sea level, fluvial dissection, Quaternary history, sedimentological interpretation, raised terrace, Greece, Gulf of Patras; Gulf of Corinth; 10804. tectonic depression, strike slip faulting, subduction, structure, continuous reflection profile, Aegean Sea; 03715.
seismic refraction
gravimetric investigation, geodetic survey, mass movement, Austria, Badgastein, Graukogel; 12707.
seismic sequence stratigraphy
tectonoeustasy, orbital forcing, low-frequency, glacioeustasy, stratigraphy, Antarctic ice volume, 11978.
seismic sounding
submerged relief, shallow water, coast line, littoral water, Laptev Sea; 06101.
seismic stratigraphy
Quaternary sediment, macrotidal bay, acoustic basement, tidal channel, Holocene, sea level, Korea, Bunhung Bay; 13174. sea level history, progradation, sea level lowstand rate, tectonic subsidence rate, turbidite deposit, Quaternary(Late), sedimentation, continental margin, Aegean Sea; 08449. shelf growth pattern, eustatic sea level, unconformity, delta, shelf margin, sea level stand, continental shelf, Spain, Ebro Shelf; Cap Salou; Mediterranean Sea, Columbretes Islands; 06098.
seismic survey
bathymetry, Landsat TM, Ethiopia; Red Sea; 06886. core, stratigraphy, side scan sonar, Devensian(Late), Loch Lomond Stadial, radiocarbon dated, pollen, periglacial condition, Holocene, soil erosion, Quaternary(Late) stratigraphy, sedimentology, UK, Wales, Lyn Tegid; 02663. groundwater investigation, groundwater resource, water exploration, velocity profile, uphole data, United Arab Emirates, Abu Dhabi; 13426. seismic data collection, land surveyors, geophysical exploration, Africa; 00972. survey positioning, three dimensional survey, 09093.
seismic unit
Wisconsinan interstadial, Holocene, sedimentation rate, radiocarbon date, Quaternary, sedimentary deposit, continental shelf, accelerator radiocarbon measurement, gravity core, USA, New Hampshire, Merrimack Delta; 07202.
seismic zone
polynomial, velocity field, crustal movement, trigonometry, Greece, Lake Volvi; 02196.
seismic-stratigraphic
geomorphic evidence, post-glacial, sea-level, lowstand, glacioisostatic response, isostatic response, deglacial downdraw, USA, Maine, Gulf of Maine; 11982.
seismicity
focal mechanism, stress pattern, crustal inhomogeneity, neotectonic fault, tectodynamics, earthquake activity, earthquake catalogue, Fennoscandia; 11882. glacial surge, hazard, flood, landslide, uplift, erosion, India, Himalayas, Western Himalaya; 04927. slope instability, sediment loading, earthquake, geotechnical data, submarine slope, Banda Sea; 01245. smectite, subduction, decollement, illite, earthquake, consolidation, 01184. volcanic zone, intraplate earthquake, neotectonics, earthquake, tectonism, bookshelf tectonics, Iceland; 10697.
seismite
earthquake, Katrol Formation, Jurassic, India, Kutch; 04709. Oligocene, Neogene, syndiagenetic structure, earthquake, deformation struc-

ture, Egypt; 00012. Quaternary(Late), faulting, palaeoseismicity, fault scarp, Late-Glacial, postglacial, deglaciation, landslide, Sweden, Lansjarv Area; 08363.
smoacoustic profiling
Pleistocene(Late), delta, shelf, buried river valley, ancient delta, regressive stage, Yenotayev, Atelian stage, USSR, Caspian Sea; 04983.
smological analysis
tectonic behaviour, GEOSIS project, Italy, Forli, Sofia; Appennines, Alta Romagna Appennines; 10692.
smostratigraphic study
continental shelf, terminal deposit, marine ending glacier, wedge, floating terminus, grounding line, gravity flow, ice rafted debris, glaciomarine sediment, subglacial undermelt till, deforming basal till, glacial erosion, lift off moraine, till tongue, Canada, Nova Scotia, Scotian Shelf; Norway, Norwegian Shelf; 11943.
smostratigraphic unit
Quaternary, erosional surface, seafloor, clinoform, tectonic deformation, structural high, Holocene, Italy, Adriatic coast, Gargano Promontory; 05848.
smostratigraphy
sedimentation, Cainozoic, USSR; 04884.
smotectonic feature
vertical movement, neotectonics, levelling, morphostructure, fault system, France, Provence; 00232.
smotectonic map
river terrace, neotectonics, France, Berry; 13030.
smotectonics
earthquake, short period seismograph network, P wave mechanism, normal faulting, crustal extension, USA, Oregon, Portland; 10688.
ective availability programme
GPS, accuracy downgrading, broadcast ephemeris, differential baseline component, 07944.
ective transport
gravel, bed load transport, armour layer, 11651.
ectivity coefficient
potassium exchange, calcareous soil, montmorillonitic soil, binary system, ternary system, 10888.
enate
selenite, goethite water interface, desorption, adsorption, 06254. selenite, selenomethionine, selenium transport, soil column, Panoche loam, transport model, 09682.
enious acid aerosol
glass fibre filter, selenium dioxide, selenium, 10191.
enite
goethite water interface, desorption, adsorption, selenate, 06254. selenomethionine, selenium transport, soil column, Panoche loam, transport model, selenate, 09682.
enium
rate constant, dimethyl selenide, hydroxyl, nitrate, ozone, 05537. selenious acid aerosol, glass fibre filter, selenium dioxide, 10191. spectral reflectance, morphology, soybean, 02238. sulphur, emission, mercury, Swedish mor layer, deposition, Sweden; 04442. trace element, volatilisation, organic amendment, toxic concentration, USA, California, Merced County, Kesterson Reservoir; 01205.
enium contaminated aquifer
Rhodazine-D colorimetric technique, low level dissolved oxygen, dissolved oxygen, groundwater chemistry, USA, California, Kesterson Reservoir; 02924.
enium dioxide
hydrogen bromide, hydrogen iodide, inorganic trace compound, flue gas, coal fired power plant, mercury, hydrochloric acid, hydrofluoric acid, 03191. selenium, selenious acid aerosol, glass fibre filter, 10191.
enium flux variability
oil effluent, surface water quality, sewage treatment, chemical speciation, residence time, riverine discharge, discharge rate, USA, California, San Francisco Bay; 08750.
enium immobilisation
pond sediment, agricultural drain water, groundwater contamination, remedial measure, USA, California, Merced County, Kesterson Reservoir; 00615.
enium transport
soil column, Panoche loam, transport model, selenate, selenite, selenomethionine, 09682.
enomethionine
selenium transport, soil column, Panoche loam, transport model, selenate, selenite, 09682.
f affinity
landform, measurement, fractal geometry, scaling parameter, random surface, 03697.
f boring pressuremeter
consolidation, creep effect, clay, pressuremeter test, 03767. penetration pore pressure, clay, piezocone, dilatometer test, 03784.
f calibrating model
optimisation model, computer model, groundwater flow, groundwater hydraulics, finite difference model, model calibration, 09873.
f diffusion coefficent
calcium, sodium, rubidium, caesium, cation distribution, distribution ratio, surface impedance factor, 07367.
f excited oscillation
tropical ocean atmosphere, ocean atmosphere system, linear analysis, ocean dynamics, El Nino/Southern Oscillation, Kelvin wave, coupling parameter, thermocline displacement, wind stress, 10047.
f liming effect
soil infertility, phosphogypsum, subsoil acidity, Cecil series, Wedowee series, Bladen series, 08574.
f lofting
solar heating, emission factor, optical property, temperature inversion, smoke, aviation fuel burning, 04385.
f occlusion
orientation estimation, surface patch, automatic inspection, 00982.
f organisation form
patterned ground, soil recurrently frozen, polygon, stripe, free convection model, 06193.
self potential method
volcanic area, palaeovalley, groundwater course, water exploration, 13456.
self purification
dissolved oxygen, nutrient, dissolved matter, suspended matter, BOD, COD, surface water quality, Poland, Lupawa River; 02872. salinity, hydrologic regime, lake water quality, lake water chemistry, river regulation, USSR, Dnieper-Bug Lagoon; 00546. surface water quality, urban effluent, pH, ionic composition, Burkina Faso, Ouagadougou, River We; 06313.
self reaction
laser flash photolysis, nitrate radical, rate constant, 06657.
self scanning radiometer
spatial structure, accessibility, connectivity, inland water route, road transportation, Japan, Nagoya; 08137.
self similarity
linear boundary, landuse type, boundary exchange, North America, Great Lakes, Lake St. Clair; 03455.
Self-Boring Pressuremeter Test
limit pressure, pressuremeter test, 03777.
selinium
soil, organic matter, USA, California; 04007.
Sellafield nuclear power station
radionuclide, radioactivity, nuclear power station, neptunium, plutonium, americium, UK, England, Cumbria; 13262.
Sellick Hill formation
Normanville Group, Cambrian, carbonate ramp, Archaeocyatha, bioherm, Australia, South Australia, Fleurieu Peninsula; 11748.
SEM
hazardous waste disposal, iron oxide, manganese oxide, micromorphology, USA, Tennessee; 01589. hornblende, weathering, dissolution, 01555. industrial drainage, titanium, soil pollution, Italy, Tuscany; 02800. micromorphology, research, teaching, 01572. micropitting, Udic Haplustalf, pedogenesis, 00382. podzol, aluminium, alumina, French Polynesia, Tahiti; 01619. quartz sand grain, sand, albic soil, micromorphology, China, Jiangsu Province; Heirongjiang Province; 01615. red dust fall, Saharan dust, long range transport, particle size distribution, Ireland, Cork; Mayo; Ireland, Galway; 00662. TEM, saprolite, hardpan, cementing agent, Australia; 01616. vacuum impregnation, porecast, porosity, carbonate, 12998. x-ray microprobe, micromorphology, calcium carbonate, loess, China, Loess Plateau, Xian; Dongzi Yuan; 01614.
SEM study
clastic fabric, calcareous concretion, Devensian(Late), Errol Bed, UK, Scotland, Tayside, Carse of Gowrie; 06150.
SEM surface texture
postglacial, periglacial, landform, Devensian age, moraine, Dimlington Stadial, vegetation history, mass movement, corrie development, particle size analysis, UK, England, Derbyshire, Seal Edge, Middle Seal Clough; 06197.
semantic data model
GIS, graphics, database structure, object oriented paradigm, 01061.
semantic net
fitness function, scene recognition, genetic algorithm, feature labelling, 03336.
semantic relationship
temporal relationship, query interface, DBMS, data model, GIS, 01058.
semantics
object oriented database, object type, query language, GIS, 01059.
semi annual oscillation
residual mean circulation, temperature dependence, stratopause, mesosphere, gravity wave, ozone variability, equatorial middle atmosphere, 04392.
semi arid
zero tillage fallow, grain yield, wind erodible aggregate, conservation tillage, spring wheat, production, Canada, Saskatchewan; 05055.
semi arid area
aquifer characteristic, sedimentary basin, saline water, groundwater resource, lithology, arid area, Kenya; 06411. erosion, weathering, sub humid area, plant cover, Morocco, Adour Basin; Sebou Basin; 09325. estimation technique, temporal groundwater variability, spatial groundwater variability, groundwater recharge, recharge estimation, arid area, 06355. groundwater resource, aquifer low transmissivity, sandstone aquifer, hydraulic testing, pumping test, delayed yield, drawdown, unconfined condition, well spacing, aquifer transmissivity, fracture zone, fissured sandstone, Botswana, Kalahari; 06362. groundwater resource, groundwater recharge, aquifer low transmissivity, sandstone aquifer, recharge process, aquifer flow model, chloride balance, soil moisture study, Botswana, Kalahari; 06361. hydrological modelling, water management, rainfall runoff model, data requirement, rainfall, evaporation, runoff formation, hydrological process, drought management, arid area, Africa; 06289. Interafricain Committee for Hydraulic Studies, hydrological data, climatological data, rainfall data, evapotranspiration, evaporation, drought persistence, hydro metric data, flood, hydrological low flow, urban hydrology, rainfall mrunoff model, hydrological education, arid area, Africa, (West); (Central); 06262. limestone crust, red soil, fersiallite, morphopedology, Algeria; 07426. low transmissivity, groundwater resource, sandstone aquifer, geophysical survey, airborne survey, magnetic-electromagnetic measurement, geological regional investigation, geological structure, graben, horst, dyke, fault, Botswana, Kalahari; 06413. rainfall runoff model, temporal hydrological variability, temporal meteorological variability, spatial hydrological variability, spatial meteorological variability, stream flow, water balance modelling, areal precipitation, Botswana, Mahalapswe; 06294. rainfall runoff modelling, model applicability, soil type, topography, rainfall pattern, infiltration, soil moisture storage, rainfall spatial distribution, evaporation, groundwater recharge, urban catchment, rural catchment, mathematical model, Tunisia; 06295. rainfall runoff relationship, basin characteristic, infiltration class, unit hydrograph, flood flow, runoff depth, precipitation depth, runoff coefficient, surface hydrology, arid area, Africa; 06288. rainfall runoff relationship, water

resource study, regionalisation technique, flow duration curve, ungauged basin, stream flow, data shortage, arid area, Zimbabwe; 06290. reservoir management, water rationing, Gould probability matrix method, reservoir design, spill probability, failure probability, storage yield design, arid area, 06404. runoff storage, soil type, surface retention, antecedent soil moisture, separation curve, incipient runoff curve, infiltration, rainfall runoff model, point infiltration model, small basin, USA, Wyoming; 09792. sediment rating curve, soil loss, sediment transport, suspended load, Kenya, Malewa River; 07141. soil surface deterioration, runoff production, infiltration equation, simulated rainfall, arid area, Niger; Burkina Faso; 06291. tropical pastureland, TOPOG model, erosion prediction, soil erosion area, digital terrain analysis, 06216. tropics, crop yield analysis, agroclimatological study, 07723. water balance, dryland millet, evaporation, evapotranspiration, transpiration, soil evaporation, Institute of Hydrology, ICRISAT Sahelian Center, porometry, microlysimeter, energy balance, soil wetness, eddy correlation measuring device, Niger; 06270. water quality, surface water, groundwater, pollution control, arid area, water resource, water management, Africa, Sahel; Sudan; Ghana; 06414. water resource management, hydrological monitoring, data collection, data storage, data processing, personel computer, computer software, hydrometeorological data, hydrogeological data, arid area, Africa; 06417.

semi arid basin
fluvial basin, desertification, soil erosion, desertification, Spain, Segura Basin; 08544. runoff routing, sodium concentration, cation composition, sulphate concentration, tunnel flow, water chemistry, runoff source, 10996.

semi arid climate
sedimentary history, intramontane basin, tectonic structure, sedimentation rate, sedimentary infill, prograding fluvial system, anastomosing river, zonal vegetation belt, Colombia, Pitalito Basin; 10679.

semi arid landscape
erosion rate, geomorphology, climato tectonic framework, uplift, denudation, monsoon, uplift rate, glacial landform, India, Himalaya; 07149.

semi arid region
environmental degradation, geoscientific map, planning, Spain, Valencia; Canary Islands, Gran Canaria; 09295. evaporation, shelterbelt, agroecological effect, China; 07682. hydrogen isotope, oxygen isotope, isotopic composition, soil water, atmospheric water vapour, leaf water, transport mechanism, soil plant atmosphere continuum, evapotranspiration, 05121. hydrological data, data shortage, drought, flash flood, water management, surface water hydrology, hydrogeology, water resource planning, arid region, Africa, Sahel; 06260. irrigation project, expansive, collapsible soil, Brazil, Itaparica Lake; 03811. water exploration, khondalitic terrain, groundwater potential index, electrical resistivity, hydrogeology, India, Andhra Pradesh, Vizianagaram District, Chipurupalli Taluk; 13419. water resource management, artificial recharge, infiltration capacity, Issars method, comparable hydrogeological provinces method, regionalisation technique, remote sensing, groundwater recharge, arid region, 09928. wind driven redistribution, net erosion, sagebrush, steppe landscape, caesium-137, soil erosion, USA, Wyoming; 10840.

semi arid sub-tropics
soil property, tillage, crop residue, Vertisol, sorghum, Australia, Queensland; 07388.

semi arid tropics
Landsat, remote sensing, vegetal cover, India; 09245.

semi arid woodland
depositional material, aggregate stability, micromorphological property, surface crust, cryptogam cover, soil physical property, fire, Australia, New South Wales, Coolabah; 07438. erosion susceptibility, rain impacted flow, degraded woodland, hazard, fire effect, soil, Australia, New South Wales, Coolabah; 07329.

semi arid zone
runoff sheet, micro basin, erosion study, Tunisia; 08551.

semi commercial meteorological service
commercial meteorology, weather service, 05295.

semi desert development
aerial picture, vegetation degradation, savanna, Sahel, natural vegetation, Niger; 08085.

semi diurnal tide
rocke wind data, diurnal tide, middle atmosphere, tropical station, India, Balasore; 12405.

semi geostrophic
Richardson number, cyclone wave, baroclinic instability, primitive equations dynamics, frontal zone, quasi geostrophic, 04267.

semi geostrophic equation
updraft, hydrostatic approximation, slantwise convective adjustment, Brunt-Vaisala frequency, eddy flux, baroclinic wave, moist baroclinic instability, Rossby number, 04293.

semi geostrophic flow
front formation, vorticity, energy spectrum, intermittency, 07763. orography, stratified rotating atmosphere, lee cyclogenesis, relative vorticity, cyclonic vorticity, convergence, potential vorticity, upper level jet, 04278.

semi geostrophic framework
vortex, instability, cold front, 04288.

semi geostrophic model
low latitude, wave CISK theory, latent heat parameter, CISK theory, baroclinic model, 11238.

semi geostrophic theory
Eady wave, stability, horizontal shear, shear front, potential vorticity, 12442.

semi geostrophic wave
baroclinic wave, vertical motion, frontal circulation, cold-warm frontal system, 12437.

semi implicit model
semi Lagrangian forecast model, regional forecast model, 11250.

semi Lagrangian forecast model
regional forecast model, semi implicit model, 11250.

semi Lagrangian model
primitive equation model, forecasting, implicit equation model, 11244.

semi Lagrangian scheme
multrigrid solver, trajectory discretisation, momentum equation, timestep, shallow water equation, vector scheme, 10084.

semi Lagrangian solution
inviscid Burgers equation, scale collapse, 07627.

semi Lagrangian technique
Eulerian grid, stratospheric chemistry, stratospheric transport, isentropic surface, ozone column, wavenumber one disturbance, photochemistry, 06542.

semi Markov presentation
circulation pattern, atmospheric circulation, precipitation assessment, daily rainfall, Germany; 13312.

semi mean trend analysis
water quality management, pollution, water transfer, Kendall trend analysis, surface water quality, China, Luanhe River; Tianjin; 11030.

semi-arid area
calcrete, Nubian sandstone, Cretaceous, hardpan, clay mineral, Egypt, Western Desert, Barget El-Shab; 01234.

semi-arid land
environmental impact, wetland destruction, climate effect, political hydrology, wetland management, urban development, arid land, 02982. inselberg landscape, Palaeozoic granite, chemical weathering, physical weathering, micromorphological study, weathering, granite, Sudan, Darfur, Kutum; 01484.

semi-arid region
ecosystem, vegetation, soil, desert, USA, California, Owens Valley; 02216. equatorial region, aggradation, sediment delivery ratio, drainage basin, sediment storage, sediment budget, Kenya, Katiorin Basin; 00021. remote sensing, soil, Chile; 02195. satellite, monitoring, soil, vegetation, grazing, Australia, New South Wales; 02209. throughfall, stemflow, interception loss, rainfall redistribution, Mexico; 02833.

semi-arid soil
mineralization, nitrogen, depth, amino acid, Morocco; 00482. potassium depletion, fertiliser, India; 02813. soil compaction, penetrometer resistance, virgin soil, mechanised agriculture, soil strength, 12056.

semi-automated system
bone pretreatment system, pretreatment, contaminated sample, archaeological bone, 02567.

semi-geostrophic model
sea breeze, primitive equation model, boundary layer, frictional forcing, 00719.

semi-saturated problem
cohesion, earthquake induced failure, static behaviour, dynamic behaviour, quantitative solution, USA, California, San Fernando Dam; 01397.

semiannual cycle
sea level pressure, Pacific; 00707.

semiarid
insolation, topographic asymmetry, insolation, asymmetry, glacial, periglacial, humid temperate, 03702.

semiarid area
pore, calcium carbonate, calcium oxalate, fungi, calcrete, litho diagenesis, 10605.

semiarid climate
gully, badland, USSR, Transcaucasus; 13213.

semiarid coast
Nothofagus forests, pollen analysis, aridity, coast, Holocene, Quaternary(Late) vegetation, Chile; 03873.

semiarid environment
oasis, landscape, arid environment, Asia, (Central); 13924. simulated runoff, erosion, gypsiferous soil, gypsum, suspended transport, simulated rainfall, hillslope, Spain, Ebro Valley; 12034.

semiarid grassland
AVHRR, remote sensing, primary production, grassland, Africa, Sahel; 13943.

semiarid hillslope
gravel, hillslope hydrology, vegetation cover, rainsplash, overland flow, organic matter, rainfall-runoff modelling, infiltration, stone cover, USA, Arizona; 13321.

semiarid region
groundwater contamination, waste disposal, water balance study, landfill cover design, 00613. NDVI, NOAA, AVHRR, Meteosat, vegetation, Africa, (West); 13951.

semiarid soil
humic fraction, cultivated soil, carbon, nitrogen, organic matter, carbon content, nitrogen content, Spain, Duero Basin; 10940. phosphate, phosphorus fixation, nodule, sorption, ferruginous nodule, Ghana; Brazil; 13264.

semiconductor metal oxide particulate
photocatalytic degradation, atrazine, metal oxide, herbicide, 07354.

semidiurnal tide
aurora, diurnal tide, middle atmospheric dynamics, radar, Fabry-Perot interferometer, oxygen, Doppler wind, airglow, Canada, Saskatoon; 03094. thermosphere wind regime, meteor wind measurement, USSR, Obninsk; 08946. tide, meridional circulation, zonal superrotation, cloud base, Venus; 10075.

semigeostrophic approach
coastal cyclogenesis, cyclogenesis theory, diabatic heating, 10077.

semigeostrophic approximation
coastally trapped disturbance, dynamic commonalities, USA, California; Australia; Africa; 03102.

semigeostrophic equation
boundary layer, potential vorticity, frontogenesis, 00760.

semigeostrophic frontal model
Eady wave frontal model, frontal model, momentum diffusion, kinetic energy, enstrophy dissipation, 12445.

semigeostrophic model
Eady model, zonal wave number, dry surface, frontogenesis, potential vorticity perturbation, 12441. Eady wave, frontal model, momentum diffusion, warm sector, ageostrophic circulation, 13587.

emigeostrophic theory
beta plane, barotropic baroclinic instability, Rossby wave solution, 10063.
emijoin
contributive tuples, query optimisation algorithm, database, 05649. distributed query processing, data transmission, 03355.
emiotics
information system theory, 11492.
emipervious surface
infiltration, percolation, evaporation, rainfall runoff, rainfall duration curve, rainfall frequency curve, urban catchment, rainfall intensity curve, peak flow, continuous model, linear regression model, impervious surface, 07465.
emivariogram
calcium carbonate content, spatial variability, distance lag, soil survey data, textural fraction, topsoil, Belgium, East Flanders, Polder Region; 08623. Hausdorff dimension, sorting, roughness, channel, bed topography, bedform, 12837. seasonal elevation change, ablation zone, radar altimeter data, Geosat Geodetic Mission, satellite altimetry, Greenland, West Greenland; 00341.
emivariograms
conifer canopy structure, Douglas fir, spatial resolution, 12748.
emivolatile organic chemical
aerosol, organic compound, relative humidity, gas to particle partitioning, adsorption theory, 12551.
emivolatile organic compound
PCB's, PAHs, organochlorine pesticide, n alkane, carbon preference index, organic compound, vapour particle partitioning, USA, Colorado, Denver; 06579.
emmel
Cainozoic sediment, stratified soil, tropical forest, Brazil; 00465.
emri Group
Kaimur Group, Vindhyan rock, heavy mineral, India, Uttar Pradesh, Banda District; 11727.
enonian
Eocene, carbonate platform, geotechnical, chalk, Cenomanian, Israel; 03594. Jouansalles Formation, correspondence analysis, eustacy, Sequential Bioquantitative Analysis plot, Palaeoenvironment, France, Aquitaine Basin; 07122.
ensible heat
aerodynamic resistance, surface temperature, diurunal trend, canopy air temperature, evaporation, pasture, infrared thermometry, resistance model, Australia, New South Wales, Goulburn; 00729. ECMWF, ocean, surface heat flux, forecast prediction, shortwave radiation, longwave radiation, latent heat, Atlantic; 06470. latent heat, advection, turbulence, 00727. latent heat, sea surface condition, marine boundary layer, sea swell, thermoradiometer, turbulent transfer, humidity, swell propagation, sea surface temperature, 05401. momentum, boundary layer, turbulent exchange, surface layer, surface flux, trace chemical species, water vapour, 00723.
ensible heat flux
boundary layer, wind speed, low level wind, primitive equation forecast model, momentum flux, 04324. eddy diffusivity, micrometeorological measurement, latent heat flux, temperature, humidity, wind, radiation exchange, energy partition, Brazil, Amazon Forest; 05405. evaporation measurement, Alpine basin, ALPEX RHONEX project, bulk transfer method, energy balance, Bowen ratio, profile method, Monin Obukhov function, latent heat flux, Switzerland, Gletsch; Oberwald; 08659. evaporation model, suburban evaporation regime, advection, landuse effect, surface energy balance, latent heat flux, atmospheric influence, Bowen ratio, moisture availability, soil moisture, saturation deficit, 12153. heat flux measurement, Pinus pinaster stand, forest, sap flow, evaporation, energy balance, 13540. ice lead, general circulation model, climate change, ice sheet, sea ice, Antarctica; 03113. insolation, vertical water vapour gradient, lapse rate, forest, microclimate, Malaysia, Negeri Sembilan, Pasoh Forest Reserve; 06463. latent heat flux, scintillation, path averaged flux, heat flux, convection, refractive index structure, 13512. latent heat flux, slantwise convective adjustment, boundary layer, explosive cyclone, hurricane, wind, temperature, potential vorticity, baroclinic wave, air-sea interaction, 04273. latent heat flux, turbulent heat flux, albedo, landscape structure, regional climate, 03045. microclimate variation, urban canyon asymmetry, solar radiation, net radiation, 05406. microclimate, latent heat flux, Bowen ratio, closed desert basin, osmotic potential, albedo, evapotranspiration, playa, transpiration, 09789. net radiation, soil heat flux, latent heat flux, eddy correlation measurement, dry deposition, energy balance, USA, Colorado, Pawnee Grasslands; 03076. roughness, micrometeorological change, vegetation removal, desert formation, surface resistance, albedo, 07721. sea ice transport, climate, energy balance, thermodynamic sea ice model, 03123. sea surface, inverse problem, ocean model, satellite observation, latent heat flux, 12383. short term measurement, lake evaporation, eddy correlation, energy budget, evaporation, latent heat flux, energy storage, radiation, energy storage term, 13315. short wave radiation, energy balance model, ablation, margin, ice sheet, albedo, Fohn event, radiation, turbulent flux, Greenland, Nordbogletscher; Qamanarssup sermia; 01471. surface roughness, nocturnal cooling, topographic parameter, potential temperature, wind velocity, 04251. water quality model, heat exchange, heat transport, advection, diffusion, air water interface, atmospheric radiation, 09832.
nsible heat transfer
air temperature, snow surface temperature, snow evaporation, bulk aerodynamic formula, 04244.
nsible heat transport
zonal average, averaged dynamic model, parametrisation, eddy, 13586.
nsible heating
latent heating, heat flux, moisture flux, aerodynamic roughness, land surface, skin temperature, surface climatology, 06461.
nsing electrode
restored soil, soil restoration, organic matter, mineralisation, microbial decomposition, anaerobic condition, topsoil, ammonia gas, 08573.
nsitive clay
river erosion, slope stability, landslide, retrogression surface, earthflow, Canada, Quebec, James Bay, La Grande River; 13052. shear strength, quicklime stabilisation, cementation, cohesion, laboratory chart, laboratory investigation, lime, stabilisation, USA, Alaska; Canada; Scandinavia; 02538.
sensitive clay settlement
marine clay, secondary consolidation, sensitive marine clay, consolidation, foundation, Canada, Ontario, Gloucester; 02540.
sensitive marine clay
consolidation, foundation, sensitive clay settlement, marine clay, secondary consolidation, Canada, Ontario, Gloucester; 02540. post glacial marine clay, marine clay, undisturbed strength, remoulded strength, quick clay, flocculation, oxide mineral, Canada; 08385.
sensitivity
three dimensional trajectory, wind field, temporal density, spatial density, meteorological data, trajectory sensitivity, 12431.
sensitivity analysis
Cenozoic, ocean circulation, general circulation model experiment, deep water circulation, gyre system, water formation, model result, 08432. convection-dispersion equation, Richards equation, groundwater flow model, macropore, solute transport, 13399. field test, water balance estimation model, available soil water, Eaglemans parameterisation, lysimeter, actual evapotranspiration, drainage, crop wateruse, 11040. groundwater flow, unsaturated flow, model verification, parameter uncertainty, soil heterogeneity, Richards equation, spatial variability, 00581. HYDROLOG, stream flow objective function, groundwater recharge, surface watershed model, 01654. inverse problem of parameter identification, leaky aquifer, groundwater modelling, adjoint state sensitivity method, pumping test, convection diffusion equation, 06347. map, GIS, error, 04547. model calibration, transmissivity, groundwater flow, generalized sensitivity analysis, Monte Carlo simulation, confined aquifer, aquifer system model, Australia, Victoria, Mildura; 09866. model reliability, flow modelling, model calibration, transport modelling, prediction uncertainty, groundwater model, parameter estimation, 09861. network density, measurement frequency, water level, monitoring network, Kalman filtering, groundwater flow model, estimation error standard deviation, China, Zhengzhou; 11050. ozone depletion, temperature change, oxidant concentration, ultraviolet radiation, photochemistry, transport model, 13737. parameter identification, flow mass transport, flow heat transport, salt water intrusion, two phase flow, coupled inverse problem, groundwater modelling, 08774. radioactive solute, groundwater flow, solute transport, parameter estimation, automatic calibration, model calibration, maximum likelihood method, Spain; 09870. saturation index, WATEQ4F, acid mine drainage, speciation, groundwater quality, thermodynamic error, mineral saturation, analytic error, 13435.
sensitivity experiment
Quaternary, palaeoclimatology, monsoon, lake level, general circulation model, Milankovitch, albedo forcing, tropical monsoon, geological evidence, numerical simulation, Africa; 09540.
sensitivity study
deep water formation, climate change, sea ice interaction, one dimensional model, Southern Ocean; 09545. glacial interglacial contrast, sea level, ice sheet simulation, ice sheet, Antarctica; 09608.
sensitivity testing
CREAMS, ERHYM-II, computer model, groundwater flow, model calibration, waste disposal, radioactive waste, soil moisture, runoff, snowmelt, wilting point, evapotranspiration, 11032.
sensor
airborne measurement, maritime pollution, hydrographic parameter, 13961. aircraft, satellite, data process, image processing, remote sensing, electromagnetic theory, radiation, 06710. calibration, AVHRR, USA, California, White Sands; 02081. forest, tropical region, non-photographic sensor, 04615. geometry, vegetation, canopy, image variance, 02208. special sensor microwave, imager observation, radiometer channel, surface wind speed, North Sea; 13573.
sensor data
surface character, rock accessory, spectral resolution, 09182.
sensor degradation
viewing geometry, Global Vegetation Index, cloud contamination, cloud screening, 12739.
sensor detail generalisation
map ground detail, Landsat TM, UK, England, Barking; Reading; 06743.
sensor induced correlation
radiometer, sea surface temperature, AVHRR, 02250.
sensor system
image interpretation, visual analysis, remote sensing, 10231. landuse change detection, multi date imagery, satellite sensor system, 09211.
sensor system requirement
earth science application, topographic mapping, 07894. earth science application, topographic mapping, 10241.
separation curve
incipient runoff curve, infiltration, rainfall runoff model, point infiltration model, small basin, semi arid area, runoff storage, soil type, surface retention, antecedent soil moisture, USA, Wyoming; 09792.
separation layer
biodegradation resistance, geotextile, coastal engineering, filtration, Poland; 07178.
sepiolite
intermediate unit, silcrete, regressive sequence, opal, Spain, Tajo Basin, Vicalvaro; 11723. palygorskite, clay, Neogene, Spain, Palencia, Duero Basin; 09469. zeolite, Miocene, Gulf Coast Geosyncline, Miocene, clay mineral, phosphorite, palygorskite, USA; 01352.
septic tank
agricultural pollutant, nitrate-nitrogen loss, leaching, fertiliser, groundwater contamination, 01728. soakaway, hydrological pathway, groundwater recharge, sewer leak, water main leak, urban hydrology, 13470. surface water quality, estuary water quality, groundwater discharge, runoff water quality, on site sewage disposal, USA, Massachusetts, Cape Cod; 04081. waste disposal, coastal surface water, ammonium, nitrate, soluble reactive phosphate, dissolved inorganic nitrogen, on site sewage disposal, surface water-groundwater interaction, surface water quality,

04080.
sequence
parasequence, Milankovitch, stratigraphic sequence, eustatic cycle, stacking pattern, 09314.
sequence stratigraphy
Pleistocene(Upper), carbonate, reef-associated carbonate, reef terrace, glacio eustatic, sea level, sediment accumulation rate, tectonic uplift, sedimentology, Barbados; 07274. shoreline, carbonate, basin, platform, France, Western Alps, Southern Vercors Plateau; 11742.
sequenced map
cartographic display, choropleth map, 04581.
Sequential Bioquantitative Analysis plot
Palaeoenvironment, Senonian, Jouansalles Formation, correspondence analysis, eustacy, France, Aquitaine Basin; 07122.
sequential extraction
trace element, radionuclide, speciation, bioavailability, 03687.
sequential extraction method
soil phosphorus pool, microbial phosphorus, soil fractionation, phosphorus fractionation method, 09726.
sequential precipitation sampling
precipitation chemistry, precipitation collector, precipitation monitoring, 04026.
sequential rainfall detector
acid rain, rain, fog, France, Vosges Region; 06613.
sequential sampling model
cloud dynamics, precipitation rate, pollutant rain concentration, pollutant, scavenging, 06553.
sequential satellite imagery
mass-balance, satellite-image-derived, velocity field, ice stream, Antarctica; 12010.
sequential-fractionation procedure
Olsen-phosphorus soil, phosphorus, calcareous soil, inorganic phosphorus, USA, Montana; 12071.
Sergi Formation
surface water, Jurassic, porosity, permeability, hydrocarbon reservoir, infiltration, interstitial clay, Brazil, Reconcavo Basin; 05801.
Serial Discontinuity Concept
agricultural runoff, urban effluent, nitrate concentration, surface water quality, water chemistry impoundment, reservoir impact, downstream impoundment effect, South Africa, Eastern Cape, Buffalo River; 06319.
serpentine weathering
smectite, soil, mineral weathering, phyllite colluvium, serpentinite, haplohumult, argixeroll, colluvium, weathering, chlorite, USA, California, Klamath Mountains; 12014.
serpentinisation
shale, black shale, magnesium, hydrothermal mineral, tosudite, USSR, Carpathians, Glavny Marmarosh; 09421.
serpentinite
haplohumult, argixeroll, colluvium, weathering, chlorite, serpentine weathering, smectite, soil, mineral weathering, phyllite colluvium, USA, California, Klamath Mountains; 12014.
Servance terminal moraine
glacial maximum, last glacial cycle, Linexert moraine complex, Ecromagny terminal moraine, France, Vosges; 00299.
service area boundary
transportation cost, transportation network, spatial grid, South Africa, Transvaal; 01160.
service bureau
GIS, regional planning, USA, Vermont; 06911.
service bureaux
cartographic document, digitising process, raster scanning, scanning efficiency, 06717.
service contracting
mapping privatisation, surveying service, mapping service, USA; 07904.
service management
national weather service, organisation transformation, Sweden; 08816.
service package
offshore oil industry, water industry, electricity industry, meteorological service, 05310.
sesquioxide
organic matter, copper, plant availability, soil copper fraction, copper fractionation, Canada, Saskatchewan; 13282.
sesquioxide accumulation
acidic pollution, experimental leaching column, inorganic soil process, organic soil process, soil process, percolating water, podsolic soil, acidic soil, upland soil, aluminium, Norway, Hoylandet; UK, Scotland, Allt a, Mharcaidh; UK, Scotland, Loch Chon; UK, Scotland, Kelty Water; 09620.
seston
current, sediment trap, 02482. organic matter, trap, stratification, settling rate, Italy, Lago di Mergozzo; 12850. oyster, estuarine circulation, resource, two layered net, wind, 12854. sediment trap, phosphorus, phytoplankton biomass, reservoir, Czechoslovakia, Rimnov Reservoir; 12851. shelf sea, radiometric determination, pigment, 04645.
seston concentration
current speed, fresh water, tide, spatial variation, seasonal variation, USA, Maryland, Choptank River; 03536.
set operation
intersection, node list, linear quadtree, 00979.
setting up
levelling staff, error determination, 02092.
settlement
deformation, triaxial test, embankment, deformability characteristic, consolidation characteristic, Bangkok clay, screw plate test, 06022. oedometer modulus, unconfined compression test, wetting, deformation parameter, macroporous loess soil, loess, 01402. water depth, velocity, suspension, spore, diatom, UK, England, Dorset, Waterston; 04693.
settlement calculation
shear moduli, modulus of elasticity, ground moduli, seismic method, wave velocity, Denmark, Copenhagen, Sollerod; 04912.
settlement frontier
national land survey, cadastral system, grid system, USA; 03477.
settlement growth
land use, topographical map, Germany, Steinheim-Murr; 05755.
settlement pattern
historical map, urban design, USA, Chicago; 08033.
settlement problem
clay deposit, evapotranspiration method, precipitation, foundation problem, champlain clay, drought, rainfall deficit, Canada, Quebec, Montreal; 02537.
settlement site
pedological study, landscape history, Bandkeramik, Germany, Bruchenbrucken; 00472.
settler
colony history, land company, mapping, USA, New York; 08031.
settling
flocculation, advection, diffusion, sediment mixture, 06949. pollutant, colloid, coagulation, 05793. viscous fluid, sediment flow, sedimentation, suspension, 10493.
settling particle
continental shelf, radioisotope, scavenging, sediment water interface, Pacific, Okinawa Trough; East China Sea; 09369. resuspension, ECOMARGE, sediment trap, biogeochemical cycling, France; 05979.
settling rate
radionuclide, contaminant, caesium, sedimentation rate, anthropogenic product, USSR, Lake Baikal; 10527. seston, organic matter, trap, stratification, Italy, Lago di Mergozzo; 12850.
settling speed
aggregation, suspended particle, faecal pellet, biomass, particle transport, coagulation, marine snow, 10571. suspended particle, microorganism, aggregate, floc, marine snow, 10496.
settling tube
sampling, suspended material, sediment trap, Canada, Lake Ontario; Lake St. Clair; 05977.
settling velocity
bubble, zeta potential, particle radius, thermocapillary velocity, electrophoretic velocity, 10492. flocculation, silt, sedimentation, estuary, suspended solid, Turkey, Sea of Marmara, Golden Horn Estuary; 04735. neritic ecosystem, chlorophyll, biomass, primary production, sedimentation, phytoplankton, Caribbean, Jamaica, Kingston; 05955. particle, wind field, Reynolds number region, Stokes range, 13481. sand transport, beach, sediment flux, ridge and runnel, tidal cycle, UK, England, Norfolk, Holkham Beach; 01223. tracer sediment, radioisotope, sedimentation, silt, clay, flocculation, 11649.
seven box ocean model
upwelling, North Atlantic Deep Water, core, upwelling enhancement, foraminiferal reconstruction, barium distribution, glacial ocean, 08434.
seventh order basin
bifurcation ratio, Hortons exponential relationship, drainage density, stream frequency, slope, hypsometric analysis, groundwater accumulation, geomorphological study, drainage pattern, basin development, India, Kabini River Basin; 11872.
severe
downslope windstorm, windstorm, pulsation, Kelvin-Helmholtz instability, wave breaking, internal wave, 13595.
severe climate
Cryoboralf, Cryochrept, geology, geomorphology, soil, whitebark pine ecosystem, Pinus albicaulis, freeze thaw, mass wasting, glaciation, trough wall, moraine, cirque headwall, landslide, talus slope, rock glacier, Canada, Rocky Mountains; USA, Rocky Mountains; 03711.
severe drought
Palmer Drought Severity Index, Markov chain analysis, drought, USA; 12328.
severe gully erosion risk
conservation priorities, gully erosion, modelling, GIS, volcanic terrain, Mexico, Tlalpujahua; Huasca; 12031.
severe storm
dryline, Doppler radar analysis, low precipitation storm, 10136. mesogamma scale, elastic atmospheric model, storm, 10111. wet bulb potential temperature, orographic enhancement, mesoscale distribution, precipitation distribution, frontal depression, flood, UK, Northern Ireland; 07768.
severe weather
aircraft take off, landing performance, heavy rain, snow, freezing condition, aviation, 07620.
severe weather event
ecological activity, weather service system, weather forecast, climate analysis, meteorological service, national economy, China; 05305.
severe weather warning
cyclone warning accuracy, prediction model, tropical Australia, weather service, forecast, Australia; 08978.
severity
ice cover, historical record, winter, North America, Great Lakes; 11174.
sewage
agricultural drainage water, lake water quality, eutrophication, salinity, nutrient loading, Egypt, Lake Manzala; 01673. environmental quality, water quality, indicator species, organic matter, UK, England, Humber Estuary; North Sea; 00039. eutrophication, denitrification, anoxic, nitrous oxide, contaminant, North Sea, German Bight; 01269. flocculation, biogeochemical process, bottom water, pore water, copper, organic matter, USA, Washington, Puget Sound; 09379. groundwater pollution, detergent, nonionic detergent, tracer, Israel; 02915. nutrient, estuary, bottom water, recycling, nitrogen, USA, Rhode Island, Narragansett Bay; 06980. organic carbon, landfill, leachate, heavy metal, USA, New York City, Jamaica Bay; 08197. pollutant, monsoon, heavy metal, contamination, India, Bombay, Ulhas River; Thane Creek; 12907. pollution, waste water, disposal system, Greece, Saronikos Gulf, Athens Sea Outfall; 12905. sampling, groundwater monitoring, water contamination, sewer leak, 11061. sediment organic content, bottom deposit, heavy metal, copper, cadmium, particle size, UK, England, Norfolk, Broads; Yare River; 08203. sludge, ocean dumping, dumping, floc, waste water, 08195. toxicity, kelp bed, sediment loading, gametophyte, Macrocystis, USA, California, Palos Verdes Peninsula; 04774. waste

water disposal, water quality management, phytosanitary product, nitrate, groundwater contamination, catchment management, 07607. waste water, dissolved organic carbon, particulate organic carbon, carbon cycle, pollution, Egypt, Alexandria, Eastern Harbour; 10586.
wage discharge
delta lake, speciation, arsenic, lake water quality, agricultural chemical, Egypt, Nile Delta; 04056. intermittent pollution, surface water quality, biological indicator, algae trace metal, sediment trace metal, benthic macroinvertebrate, water quality, 07515. intermittent pollution, water quality, surface water quality, sewage overflow, Netherlands, East Brabant; 07518. time of decay, surface water contamination, dispersion coefficient, pollutant dispersion, mathematical simulation model, Argentina, Buenos Aires, Rio de la Plata; 13355. water quality criteria, surface water quality, intermittent pollution, storm sewage, benthic community, pollution tolerant species, 07517.
wage disposal
waste water, well design, potable water, waterborne disease, groundwater quality, groundwater contamination, Congo, Brazzaville Aquifer; 06379.
wage effluent
chalk aquifer, aquifer recharge, groundwater quality, pollutant decay, water conservation, UK, England, Hampshire; 07561. El Nino/Southern Oscillation, terminal lake, lake water quality, nutrient concentration, saline lake, surface water quality, phosphorus, nitrogen, USA, Nevada, Pyramid Lake, Truckee River; 04058. fen, peat, weathering, vegetation, anthropogenic pollution, trace metal, USA, Minnesota, Filson Creek Fen; 09454. groundwater chemistry, shallow groundwater, metamorphic terrain, hand dug well, groundwater quality, colour, alkalinity, nitrate level, sulphate level, Nigeria, Modakeke; Ile Ife; 05231. metal concentration, groundwater quality, polluted aquifer, suspended material, fine sediment, agricultural pollutant, Israel; 01741. pH, redox potential, nitrogen, phosphorus, ammonium, iorganic phosphorus, water quality, soil water chemistry, nutrient, vegetation growth, wetland, New Zealand, Waitangi Forest; 12278.
wage leakage
sulphate, water management, urban water, urbanisation, groundwater contamination, Egypt, Cairo; 13473.
wage overflow
dissolved oxygen, Streeter Phelps equation, transport dispersion model, biodegradation, water quality, oxygen depletion, surface water quality, stream quality model, 07516. sewage discharge, intermittent pollution, water quality, surface water quality, Netherlands, East Brabant; 07518.
wage pipe
pipe, sedimentary deposit, sediment transport, waste water, 05874.
wage sludge
heavy metal, compost, nitrogen, mineralisation, elemental availability, 07357. lysimeter, water quality, fertiliser, runoff, subsurface drainage, phosphorus, 02881. particulate organic carbon, river water, water quality, PCBs, partitioning, filtration plant, waste water plant, aqueous phase, adsorbed phase, drinking water, suspended matter, France, Paris, Seine River; 05204. sludge amendment, PAH, soil pollution, heavy metal, agricultural soil, 09688. soil profile, heavy metal accumulation, soil pollution, heavy metal, sludge amended soil, 09680. trace metal, lead, zinc, copper, nickel, cadmium, Bahrain; 01562. trace metal, soil profile, Aeric Ochraqualf, sludge application, 09679.
wage sludge incineration
lake water contamination, water quality analysis, water quality sampling, source identification, mercury contamination, detection limit, North America, Great Lakes; 01676.
wage treatment
chemical speciation, residence time, riverine discharge, discharge rate, selenium flux variability, oil effluent, surface water quality, USA, California, San Francisco Bay; 08750. eutrophication, lake water quality, Swiss lake, lake restoration, phosphorus reduction, dissolved oxygen, nutrient input, Switzerland; 13339. oyster shell filter, water quality, microbe dynamics, activated sludge method by extended aeration, nitrification, contact oxidation method, 00640. run off, oxygen, organic compound, industrial wastewater, surface water quality, urban runoff, organic carbon, dam, reservoir outfall, Canada, Alberta, Bow River; 00560. storm sewage discharge, non-oxygenation, oxygen injection, surface water quality, dissolved oxygen, surface runoff, UK, England, Thames River; 00556. toxicology, pollution, river water, heavy metal, water quality, 09377.
wage water
eutrophication, organic carbon, decomposition, calcium carbonate, solubility, surface water quality, Jordan, King Talal Reservoir; 13333.
wer
digital map, networked software, GIS, USA, St. Louis; 11631.
wer leak
sewage, sampling, groundwater monitoring, water contamination, 11061. water main leak, urban hydrology, septic tank, soakaway, hydrological pathway, groundwater recharge, 13470.
wer management
image processing, radar, rainfall forecasting, 01938.
wer overflow
storm water runoff, urban pollutant, surface water, dissolved oxygen, oxygen, ammonia, toxic pollutant, pollutant, water quality, Netherlands, Amstel-en Gooiland; 13352.
werage
institutional arrangement, water supply, sanitation, potable water, Philippines; 04174. monsoon, suspended solids, heavy metal, industrialisation, anthropogenic discharge, pollutant, India, Bombay, Thane Creek; Ulhas River; 12906.
werage rehabilitation
water distribution, rehabilitation design, water resource management, water quality management, expert system, rehabilitation planning, water quality, 00653.
wd
air filtration, micrometeorology, urban forest, 03049.
wed Piche evaporation
Piche evaporation, aerodynamic term, open water evaporation, Piche evaporation rate, evaporation calculation, Penman equation, Sudan, Sennar Lake; 12152.
shading
floating material, free water surface, evaporation reduction, 07458. gradient descent technique, fractal surface, surface shape, 00983. rim irradiance, 12635.
shading analysis
shape analysis, shape from shading, algorithm, 07977.
shadow
energy budget, effective horizon, steep pasture, solar radiation, 07652. tree, Fourier transform, illumination, 13802.
shadow removal
pattern recognition, edge detection, aerial photography, image enhancement, 02110.
shadow-free image
colour composite image, geological interpretation, spectral signature, Spain; 05612.
Shakespeare Bay Thrust
Cenozoic(Late), thrust tectonics, erosional inlier, Picton Thrust, Old Freezing Works Thrust, New Zealand, Picton, Marlborough Sounds; 03727.
shale
Ameki Formation, black shale, calcium carbonate, concretion, Eocene, Nigeria; 10506. basin history, Belt Supergroup, turbidite, microbial mat, epicontinental shale, bioturbating organism, Proterozoic(Middle) Belt Basin, USA, Montana; 07040. black shale, magnesium, hydrothermal mineral, tosudite, serpentinisation, USSR, Carpathians, Glavny Marmarosh; 09421. cleat set, hydrothermal, stress field, plate convergence, authigenesis, coal, USA, Pennsylvania, Anthracite Region; 02416. coal, Westphalian, Coal Measures, peat, tectonism, sedimentation, sandstone, UK, England, Northumberland, West Chevington Opencast Site; 04802. Cretaceous, organic carbon, concretion, La Luna Formation, dysaerobic condition, laminae, marl, Venezuela, Andes de Merida; 04704. depositional history, anoxic lake, organic matter, thermal maturation, Carboniferous, 04695. drag coefficient, replenishment material, boundary layer, oyster shell, tire chip, USA, Virginia; 04776. Eocene, metallochlorin, chlorin, mesopyrophaeophorbide a, Messel shale, nickel, Germany, Messel; 07100. flute mark, palaeoflow, turbidite, Bouma division, Besa River Formation, Devonian, Mississippian, Canada, Northwest Territories, Meilleur River; 07039. fossil, nodule, Ordovician, phosphatic nodule, France, Brittany, Armorican Massif; 03635. Frontier Formation, Mancos Group, Cretaceous, marine rock, facies, sandstone, USA, Colorado; Utah; 01270. hydrocarbon, rift, lacustrine deposit, basin, lake, subsidence, 11751. inductively coupled plasma-mass spectrometry, organometallic complex, metalloporphyrin, iron porphyrin, organic matter, 02485. Joana limestone, conodont, foraminifera, petroleum, Mississippian, wackestone, USA, Nevada, White Pine; Schell Creek Range; USA, Nevada, Egan Range; 00149. Lagoa Feia Formation, source rock, rifting, Cretaceous, volcaniclastic conglomerate, evaporite, Brazil, Campos Basin; 11755. Lea Park Formation, Western Interior seaway, terrestrial index, organic matter, diagenesis, Cretaceous, Canada, Saskatchewan; 05947. Maastrichtian, Eocene, hydrocarbon, phosphorite, bituminous shale, Morocco, Oulad Abdoun; Timahdit; 08288. mass flow, Dizilitasler Formation, basin, sedimentation, Paleocene, fan-delta sequence, mudstone, Turkey, Anatolia; 04825. mudrock, isotope, illite, smectite, overpressuring, dehydration, USA, Texas, Gulf Coast; 11812. mudstone, lead, zinc, copper, manganese, Messinian, Miocene, Pliocene, Tyrrhenian Sea; 00097. natural gas, Mesaverde Group, reservoir, Cretaceous, Multiwell Experiment, sandstone, USA, Colorado, Piceance Basin, Rifle Gap; 02293. Ninnescah Shale, Permian(Early), redbed, concretion, carbonate, organic matter, USA, Kansas; 09317. organic matter, thermal maturity, coal, biomarker, hopanoid, China, Funan; 07109. Permian, Bennett Shale, Red Eagle Formation, cyclothem, mollusc, palaeoecology, USA, Nebraska, Richardson County; 01305. phosphorite, pore water, benthic community, bacteria, organism, Monterey Formation, USA, California, Naples Beach; 01311. radiolarian, rhodochrosite, manganese, carbonate, Jurassic, Japan; 09319. rare earth element, cerium, Tamba Group, accretionary prism, Panthalassa Ocean, 02448. sandstone, categenesis, organic matter, cementation, 12965. sandstone, cement, pore, reservoir, porosity, 06955. sandstone, facies, Cretaceous, India, Gujarat, Narmada Basin; 00111. smectite, illite, Tertiary, Cretaceous, sandstone, feldspar, USA, Wyoming, Green River Basin; 02444. source area, antimony, red bed, Devonian, Catskill Formation, sandstone, USA, Pennsylvania; 02445. source rock, hydrocarbon, Proterozoic, Nonesuch Formation, sandstone, lake, USA, Michigan; Wisconsin; 10640. subsidence, Berea Sandstone, Mississippian, delta front facies, sand, USA, Ohio, Black River, Elyria; 11720. thermal maturation, porosity, diagenesis, sandstone, 09395. vegetation, Cambrian, shoreline deposit, arenite, Munising Formation, conglomerate, USA, Michigan; 02435.
shallow aquifer
geophysical exploration instrument, Geonics EM-34, groundwater exploration, groundwater resource, Australia, Victoria, Shepparton; 02979. surface water groundwater interaction, waste disposal, water quality, groundwater flow model, hydrogeology, water seep, alluvial aquifer, USA, Colorado, West Sharrard Gulch; 07447.
shallow channel
navigation, channel process, USSR, Vilyui River; 00022.
shallow foundation
lateritic soil, shear strength, foundation, Brazil, Parana State; 01404.
shallow groundwater
groundwater flow, coal field, water table fluctuation, hydrogeology, pumping test, Gondwana basin, aquifer characteristics, seasonal variability, India, Bihar, Jharia Coal Field; 05215. groundwater quality, seepage zone, fertiliser, mineralization, groundwater chemistry, groundwater classification, Netherlands; 02930. metamorphic terrain, hand dug well, groundwater quality, colour, alkalinity, nitrate level, sulphate level, sewage effluent, groundwater chemistry, Nigeria, Modakeke; Ile Ife; 05231. residence time, vegetation development, electrical conductivity, calcite, metacline water type, atmocline water type, lithocline water type, pH electrical conductivity relationship, ionic ratio electrical conductivity relationship, landscape ecology, groundwater quality classification, ecohydrological parameter, Netherlands; 09901. water chem-

istry evolution, silicate mineral, salt, water mixing, connate water, groundwater chemistry, India, Tamil Nadu, Tinneveli District; 09895.
shallow lake
lake water level, bird life, hydro power, wetland management, Sweden, Lake Hornborga; 11115. model prediction, lake water quality, water quality management, eutrophication, algae, uncertainty model, parameter identification procedure, 09821.
shallow lake interval
climatic aridity, diatom population, lake level record, stable isotope data, tufa data, tree stump data, lake size change, sediment core, USA, Nevada, Walker Lake; California, Walker Lake; 08473.
shallow marine sediment
salinity, dinoflagellate cyst distribution, estuarine, Australia; 04969.
shallow slide
saprolite, subsurface soil creep, shear strength, cove slope, landslide, soil process, slope failure mechanism, hillslope development, humid tropical forest, translational failure, earthflow, Puerto Rico; 02550.
shallow slope failure
limit equilibrium method, safety factor, design approach, slope repair, embankment, widening, overconsolidated clay, UK, England; 03735.
shallow water
coast line, littoral water, seismic sounding, submerged relief, Laptev Sea; 06101. reservoir, water purification, water quality, phytomass, macrophyte, USSR, Dnieper River; 00545. sediment concentration, turbulent viscous coefficient, standing wave, 04692.
shallow water basin
hydrochemistry, snow melt, permafrost degradation, biogenic process, Svalbard, Spitsbergen, Billefjorden, Ebbadalen; Arctic; 05246.
shallow water equation
energy conservation, potential enstrophy dissipating, enstrophy, dissipation, 11251. friction velocity, nocturnal boundary layer, fog front, SODAR, density current, 01845. gravity wave noise, assimulation forecast, operational assimilation, variational assimilation, distance function gradient, 06505. vector scheme, semi Lagrangian scheme, multrigrid solver, trajectory discretisation, momentum equation, timestep, 10084.
shallow water flow
Rossby number, primitive equation model, barotropic vorticity equation, invertibility principle, potential vorticity inversion, 04270.
shallow water glaciomarine environment
glacioisostatic crustal depression, lithofacies association, calving tidewater glacier, crustal rebound, biofacies, sediment, emergent, Pleistocene(Late), glaciomarine sequence, Devensian(Late), tidewater ice margin, Ireland, Skerries; 01432.
shallow water hydrology
flood bed, acidification, salinity, Africa, (West); 06384.
shallow water integration
forcing scheme, small-scale forcing, staggered grid, finite difference model, 00667.
shallow water resource
frequency domain aeroelectromagnetic method, groundwater prospecting, saline water, fresh water, brackish water, palaeosedimentary environment, soil grain size, China; 09923.
shallow water surveying
multibeam echosounding, echosounding, accuracy evaluation, surveying, Monaco; 09266.
shallow water vortex
barotropic vortex, vortex, angular momentum, linear normal mode, normal mode, 12406.
shallow watertable
crop evaporation, capillary rise, lysimeter, irrigation practice; watertable management, water balance model, radiant canopy temperature, soil water content, neutron probe, upward flux, energy balance model, soil heat flux, agricultural water, water management, evapotranspiration, 13454.
shallow weathered chalk
infiltration, saturated hydraulic conductivity, permeability, hydraulic conductivity, chalk, groundwater flow, unsaturated zone, piezometer, UK, England, Norfolk; 07522.
shallowing event
sea level change, bathymetric change, sedimentation, subsidence, syncline, Devonian, Carboniferous, facies evolution, deepening event, Belgium, Dinant; 07062.
shape
geographical feature, method, quantitative characteristics, 02493. morphological indicator, satellite image, Africa, Sahel; 02202.
shape analysis
elliptical fit, ellipsoidal fit, image processing, pattern recognition, 10303. shape from shading, algorithm, shading analysis, 07977.
shape definition
range, global shape classification, Fourier descriptor, 07973.
shape determination
microwave radiometer, earth, crop, ocean, 00959.
shape factor
finite element analysis, analysis, constant-head permeability test, clay, soil permeability, permeability, 02539.
shape from shading
algorithm, shading analysis, shape analysis, 07977. terrain slope change, height measurement, SAR, Venus; 10302.
shape parameter
geomorphologic unit hydrograph, catchment geomorphology, stream length, runoff, stream flow, delay time, unit hydrograph, 05135.
shape preserving method
advection process, computational aspect, moisture transport, general circulation model, mass conservation, negative specific humidity, 13578.
shape representation
thinning algorithm, skeleton, 12638.
shape transformation
splitting shooting method, computer vision, digital image transformation, pattern transformation, 07989.
Sharkey clay soil
cation mobility, calcium, magnesium, sodium, montmorillonite, binary miscible displacement, ternary miscible displacement, exchange selectivity coefficient, USA, Louisiana; 12092.
sharp interface model
salt water intrusion, fresh water salt water interface, fresh water lens, coastal aquifer, Guam; 05220.
shear
baroclinic zone, observational study, vertical wind shear, USA; Canada; 09988. bottom sediment, fluidisation, PCB's, sedimentary structure, viscoelastic representation, 09309. curvature, fine mesh analysis, divergence, cyclogenesis, orographically induced cyclogenesis, Alps; 04299. dispersion patchiness, advection, velocity field, solute cloud, tidal flow, diffusion, Wadden Sea; North Sea, Western Scheldt Estuary; 08144. isotropic soil, elasto plastic soil, plastic strain increment, yield function, flow rule, hardening function, boundary stress, 11890. precipitation, convective initiation, dryline, splitting convective cloud, convective tower, storm, 07778. Rossby gravity wave, nonlinear wave, barotropic stability, tropical ocean, wave stability, current, 10041. vertical shear, easterly shear, westerly shear, potential vorticity, Coriolis parameter, density stratification, baroclinic instability, 00756.
shear band inclination
strain localisation, elastoplastic soil, 10698.
shear box
pressure ridge, shear strength, geophysical scale, ice rubble, granular flow, 13190.
shear case
nonlinear interaction, lee side, orography, frontal process, simulated front, deformation case, 13598.
shear deformation
finite element analysis, progressive failure, long slope, clay slope, 07180. micromorphological clay orientation, plasmic fabric, plasma separation, swelling, stress-strain regime, stress, 02534.
shear flow
Rossby wave breaking, two-fifths rule, one-fifth rule, 01892. scaling function, structure function, turbulent flow, 07635.
shear front
potential vorticity, semi geostrophic theory, Eady wave, stability, horizontal shear, 12442.
shear moduli
modulus of elasticity, ground moduli, seismic method, wave velocity, settlement calculation, Denmark, Copenhagen, Sollerod; 04912.
shear modulus
stress strain behaviour, sand, triaxial, shear test, 13046. test, generalized theory, visco elasticity, London Clay, elasticity, laboratory test, 04907. triaxial test, recent stress history, soil stiffness, overconsolidated soil, London Clay, reconstituted sample, clay, 04905.
shear production
canopy, atmospheric stability, stress budget, Reynolds stress, turbulent kinetic energy, forest, 10015.
shear strength
Atterberg consistency limit, ice thickness reconstruction, subglacial consolidation, fine grained sediment, stratified sediment, ice thickness, Pleistocene, valley glacier, ice loading, Austria, Alps, Vorarlberg; 07240. clay content, root growth, soil structure, vane shear strength, tactile clay content, 10912. cove slope, landslide, soil process, slope failure mechanism, hillslope development, humid tropical forest, translational failure, earthflow, shallow slide, saprolite, subsurface soil creep, Puerto Rico; 02550. foundation, shallow foundation, lateritic soil, Brazil, Parana State; 01404. geophysical scale, ice rubble, granular flow, shear box, pressure ridge, 13190. geotechnical, consolidation, porosity, diatom, clay, Weddell Sea; Antarctica, Maud Rise; Antarctica, South Orkney; 03518. instrumented, laboratory, flowslide, failure, landslide, liquefaction, pore pressure, 04916. magnesium, exchangeable cation, tensile strength, soil mechanical property, sodium, calcium, potassium, 13221. marine clay, liquid limit, drying, engineering behaviour, Cochin marine clay, India, Kerala State; 09515. normally consolidated, saturated clay, biaxial apparatus, clay, consolidation history, isochoric straining, 03763. organic matter, diagenesis, diatom, geotechnical, Atterberg limits, Peru, Continental Margin; 04703. penetration resistance, rainforest, Australia, Queensland; 01617. plane strain experiment, compression experiment, water saturated sand, fine grained sand, granular material, liquefaction, permeability, 09513. plate margin, pelagic clay, volcanic sediment, subduction zone, geotechnical study, bulk density, Banda Sea; 00093. quicklime stabilisation, cementation, cohesion, laboratory chart, laboratory investigation, lime, stabilisation, sensitive clay, USA, Alaska; Canada; Scandinavia; 02538. sand, cone penetration test, 03772. seabed sediment, consolidation, mollusc shell, faecal material, Canada, Flemish Pass; 12954. strength, deformation, partly saturated soil, suctions test, penetration test, 03745. structure, natural soil, weak rock, engineering property, compressibility, constitutive relations, fabric-structure of soil, 04904. wave, channel bank, bioturbation, tidal channel, slumping, Argentina, Bahia Blanca Estuary; 03539.
shear strength test
dam, red soil, residual soil, construction material, earth dam, compaction, permeability, Algeria, Souani; 01403.
shear stress
benthic environment, tidal resuspension, depth erosion, USA, Chesapeake Bay; 12799. boundary layer flow, roughness, topography, 00737. collisional flow, particle flux, granular flow, kinetic theory, 03503. engineering, entrainment, erosion, flow velocity, sediment transport, 00004. friction angle, grain protrusion, erodibility, transport rate, 01183. grain shear stress, bed form shear stress, bed load motion, particle transport, 08703. grain size, channel cross section, sediment transport, 07478. ice bed interface, laboratory simulation, glacial abrasion, theory, abrasion rate, 07221. nearshore, resuspension, mud bed, 04687. numerical study, turbulence, Ekman layer, Navier Stokes equation, drag coefficient, 12360. radiosonde, boundary layer wind profile, boundary layer, sodar, surface roughness, France, Landes Forest; 04250. saltation, aeolian process, bed roughness element, 06951. sand, megaripple, dune, ripple, Israel, Sinai desert; 08153. sodium chloride, pH, Cecil soil, Putnam soil, Hoytville soil, particle interaction, clay suspension, 13238. suspended solid, tidal flow, turbulence, estuary, Richardson

number, flow measurement, 10531. tidal inlet, littoral transport, coast, USA, Florida, Capri Pass; Marco Pass; 05822. velocity distribution, Galerkin method, beach, longshore current, engineer, 12828. water depth, wave, sea bed, engineering, fluid force, friction, 00001.

shear stress analysis
regime theory, sediment transport, frictional effect, flood berm, aquatic macrophytes, flood alleviation scheme, channel change, river engineering, critical tractive force, velocity theory, Griffiths natural stability index, Brookes stream power index, UK, England; Wales; 05152.

shear stress distribution
discharge calculation method, steady flow, uniform flow, channel hydraulics, main channel, flood plain, 01662. skewed flow, open channel flow, compound channel, cross flow, 01664.

shear stress partitioning
arid land, canopy structure, erosion threshold, non-erodible roughness element, sheltering, wind erosion, vegetation, soil erosion, 12025.

shear stress surface
clast fabric, diamicton, roches moutonnee, ice flow, glacial flow, Canada; Sweden; 07234.

shear test
dynamic history, cycle number, cyclic-dynamic simple shear test, 03753. laboratory equipment, triaxial test, strength measurement, soil strength, 13045. shear modulus, stress strain behaviour, sand, triaxial, 13046. wedge shear testing, unsaturated material, clay, gravel, cylwest test, iswest test, priswest test, laboratory equipment, 09512.

shear velocity
pool riffle topography, hydraulic geometry, velocity reversal hypothesis, gravel bedded stream, riffle, channel stability, UK, England, River Severn; 06961.

shear volumetric coupling
soil behaviour theory, soil constitutive behaviour, dilatant capability, endochronic plasticity, plasticity theory, 09514.

shear wave
far infragravity wave, SUPERDUCK experiment, longshore current, beach profile, USA, North Carolina, Duck; 03552.

shear wave velocity
forced vibration test, compacted gravel sand, Bulgaria; 03776. very soft clay, measurement, correlation, clay, dynamic shear moduli, Greece, Euboea; 03774.

shear zone
geological control survey, rift tectonics, Tanzania, Burundi; 05705. gold mineralisation, structural analysis, France, Brittany; 06819. permeability, fluid, burial, accretionary prism, fracture, 02292. structural map, granitic dome, SPOT, Variscan basement, France, Brittany; 05707.

shearing test
terracette, stability analysis, landslides, red laterised soil, mulching, mass movement, creep, clayey soil, Rwanda, Zaire-Nile Divide; 02551.

sheep disturbance
land use change, soil, risk, accelerated erosion, arable land, upland, frost action, UK, England; Wales; 02731.

sheep faeces
enrichment factor, seawater, actinide dose, air-sea exchange, radionuclide, lake sediment, UK; 00925.

sheet 1812 III and IV
borehole, groundwater, cyclogram, geological map, Denmark, Bornholm; 02517.

sheet 49 oN-04 oW
British Geological Survey, sea bed sediment, Quaternary geology, bathymetry, palaeovalley, UK, Channel Islands, Guernsey; English Channel, Hurd Deep; 01421.

sheet erosion
geoecological study, volcanic complex, rill erosion, volcanic ash soil, Chile, Andes, Nevados de Chillan; 00361. rill erosion, erosion rate, cropland, soil erosion dynamic, soil erosion declining, USA; 09633. rilling, raindrop impact, Guerlach trough, badland slope, erosion monitoring, Mexico; 13056.

sheet flood
braided stream, stream channel, Pleistocene(Middle), hydrographic network, wadis, relict valley, Villafranchian, rillwash, Morocco, Sahara, Daoura Hamada; Algeria, Sahara, Saovra Hamada; 08460.

sheet flow
laminar flow, turbulent flow, water flow velocity, flow depth, hillslope hydrology, overland flow, infiltration, runoff hydraulics, hydraulic resistance, microchannel flow, 11001.

sheet flow condition
sediment transport, erosion, beach, measuring device, surf zone, 05973.

sheet line system
topographic map, Netherlands; 05676.

sheet structure
hillslope profile, subsurface weathering, columnar joint, etching, dilatation joint, bornhardt, silicic volcanic rock, inselberg, granitic rock, Australia, South Australia, Gawler Ranges; 09499.

sheet wash
marker, phytoindicator, natural trap, painted square technique, relief evolution, runoff, USSR, Issyk-Kul Lake; 05126.

sheetflood
pedology, climatic oscillation, Ruzizi Plain Deposit, calcrete, ferricrete, stone line, meandering, braided river, Zaire, Lake Tanganyika; Burundi, Lake Tanganyika; Rwanda, Lake Tanganyika; 06106. sandstone, braid delta, subsidence rate, Pennsylvanian, Sandia Formation, fault, USA, New Mexico, Taos Trough; 02412.

sheeting fracture
columnar joint, Beck Surface, stripping, regolith, weathering, silicic massif, volcanic massif, ignimbrite, bornhardt, Australia, South Australia, Gawler Ranges; 13038.

sheetless database
digital database, indexing algorithm, tile, 01057.

sheetwash
deflation, gully form, soil erosion, sub tropical complex, coastal dune complex, fossil dune complex, accelerated erosion, South Africa, Transkei; 08554. mass wasting, slope, stochastic aspect, climate, hydrology, landform evolution, debris flow, climatic geomorphology, hydrogeomorphology, hillslope evolution, 11892. topsoil, sedimentation, steepland, sediment budget, erosion, gullying, Tanzania, Shinyanga; 07033.

Shelburne Marble
Salem Limestone, acid rain, marble, limestone, building stone, precipitation chemistry, National Acid Precipitation Assessment Program, mineralogical characterisation, USA; 00508.

shelf
bryozoan, sponges, biofacies, Eocene, Spain; 10624. Bude Formation, foreland basin, Westphalian, turbidite, Quaternary, UK, England; 11722. buried river valley, ancient delta, regressive stage, Yenotayev, Atelian stage, seismoacoustic profiling, Pleistocene(Late), delta, USSR, Caspian Sea; 04983. continental slope, seasonal variation, sedimentation, suspended matter, Atlantic, (Centraleast); 07023. delta, bottomset deposit, accumulation rate, Yellow Sea; 11692. density gradient, salinity, submarine canyon, continental shelf, Spain, Gulf of Lyons; 11691. estuary, mud, suspended matter, grain size, France, Gironde Estuary; 06983. mixing, karst, siliclastic rock, carbonate, facies mixing, sediment supply, cyclicity, 13003. mud, sediment physical property, nepheloid layer, surficial sediment, benthic layer, continental margin, Quatemary, France, Gulf of Lions; Rhone River; 06956. pollutant, migration path, bottom sediment, sedimentation, Pacific, Gulf of Siam; Japan Sea; Pacific, Sea of Japan; 10563. reef, Mfamosing limestone, microfacies, Cretaceous, carbonate, Nigeria, Lower Benue Trough; 00142. sand, shoal deposit, Quaternary(Upper), tidal current, circulation pattern, discriminant function analysis, USA, Virginia, Lower Chesapeake Bay, James River; 09343. sandstone, hummocky cross stratification, cross stratification, current, storm bed, sand, 11654. sea level rise, Quaternary, subsidence, Holocene, sedimentation, Mediterranean, Gulf of Lions; 12875. sediment transport, sediment transport model, computer model, marine geology, ice shelf, geomorphological development, nearshore, Sweden; Baltic Sea; 02609. siliciclastic sequence, storm, hurricane, reworking, turbidite, tempestite, 11688. source, facies, ice cover, mud, sedimentation, Canada, Axel Heiberg Island, Axel Heiberg Shelf; 01239.

shelf area
organic matter, benthic boundary layer, sediment trap, sedimentation rate, Mediterranean Sea, Gulf of Lions; 05854.

shelf deposit
cementation, carbonate, Abrakurrie Limestone, continental margin, hardground, Australia, Eucla Platform; 10611.

shelf deposition
terrigenous deposition, marine sand, accumulation, glacio fluvial detritus, lake, New Zealand, Waitaki River; 03564.

shelf ecosystem
CZCS data, data description, Lagrangian experiment, particle tracing, biological model, continental shelf, USA; 09216. Eulerian model, CZCS, biological model, continental shelf, USA; 09217. nutrient flux, phytoplankton flux, CZCS data, biological model, continental shelf, USA; 09218.

shelf environment
sandstone, sand ridge, sand plume model, Egypt, Nile Delta, Damietta Branch; 11689. scleractinian, rhodolite, sponge, Holocene, coral, algae, reef, 08253.

shelf facies
sea level curve, ramp margin, Muskiki Formation, Marshybank Formation, Coniacian, Santonian, sandstone, Canada, Alberta; 11716.

shelf facies model
sand ridge, storm, sandstone, Holder Formation, Pennsylvanian, USA, New Mexico, Sacramento Mountain; 02386.

shelf frontogenesis
stable layer, storm, mesoscale process, synoptic scale process, coastal-shelf circulation, coastal physical oceanography, air sea interaction, USA; 10044.

shelf growth pattern
eustatic sea level, unconformity, delta, shelf margin, sea level stand, continental shelf, seismic stratigraphy, Spain, Ebro Shelf; Cap Salou; Mediterranean Sea, Columbretes Islands; 06098.

shelf ice cliff
ice ridging, pressure ridge, SAR, ice island, ribbed texture, island orientation, Canada, Queen Elizabeth Islands; 01127.

shelf margin
Berriasian, Valanginian, Barremian, Cretaceous, carbonate platform, sea level, France, Jura, Subalpine Chains; 12929. sea level stand, continental shelf, seismic stratigraphy, shelf growth pattern, eustatic sea level, unconformity, delta, Spain, Ebro Shelf; Cap Salou; Mediterranean Sea, Columbretes Islands; 06098.

shelf margin progradation
depositional pattern, sedimentary process, Florida Current, configuration, carbonate slope, USA, Florida Carbonte Slope; 03858.

shelf material
water depth, acoustic character, seabed sediment, Atlantic, Judd Region; 09367.

shelf prism
platform, Eocene, Oligocene, Neogene, sediment source, current, New Zealand, Canterbury Basin; 07017.

shelf sea
Archaean, dolostone, lacustrine playa, geochemical carbonate composition, isotopic analysis, mineralogy, carbonate, 07049. pollution, trace metal, suspended sediment, estuary, anthropogenic, North Sea; 10541. radiometric determination, pigment, seston, 04645.

shelf sediment
continental shelf, quartz, mineral provenance, feldspar, India; 08175. Cyclone Winifred, mudrock, storm, suspended sediment, Australia, Great Barrier Reef; 00072. facies trend, cycle, substitutability analyses, sandstone, conglomerate, 11822. limestone platform, reef, marl, basin, sponge, Jurassic(Upper), 08286. organic carbon, transgression, upwelling, phosphorite, weathering, 05903. sand, gravel, mud, clay, carbonate concentration, organic matter, Turkey, Sea of Marmara, Dardanelles; Bosporus; 08173. sediment discharge, ilmenite, source rock, heavy mineral analysis, USA, Atlantic Shelf; Hudson River; 02393. Silurian, sea level, storm, Appalachian Foreland Basin, siliciclastic sedi-

ment, carbonate sediment, USA, Pennsylvania; 07042. sulphate, iron sulphide, reduction, anoxic sediment, pyrite, sedimentation rate, organic carbon, delta sediment, USA, Mississippi River Delta; Gulf of Mexico; USA, Texas; USA, Louisiana; 09359.
shelf zone
coagulation, microorganisms, gold, copper, manganese, bacteria, biogenic metal accumulation, 08262.
shell
calcium carbonate, beachrock, sand, intertidal zone, India; 03557. Clinocardium fastosum, Omma Formation, Pleistocene, orientation, current flow, Japan, Kanazawa City, Okuwa; 11766. Devensian(Late), shoreline, coastal lowland, sea level history, glaciomarine delta, UK, Scotland, Beauly Firth; Inverness; UK, Scotland, Nairn; 06177. Messinian, evaporite, gypsum, sea water, brine, Mediterranean Sea, Bannock Basin; Tyro Basin; 05873. mudstone, amino acid, carbonate, 10634. sea water, isotopic equilibrium, diagenesis, brachiopod, cement, Helderberg Group, Oriskany Sandstone, USA, New York State; 05925.
shell assemblage
mollusc shell, gravel lag, barrier island, beach, Holocene, shoreline migration, USA, Gulf Coast; 09426.
shell bed
seep, continental slope, wave base, mussel, clam, biofacies, USA, Louisiana, Gulf of Mexico Shelf; 01313.
shell deposition
bottom current, oyster reef, sedimentation, geomorphology, USA, Virginia, James River; 04840.
shell fragment
amino acid ratio, radiocarbon dating, oxygen isotope substage, marine episode, Wisconsin Glaciation, Canada, Hudson Bay, Nottingham Island; 07201.
shell size
East Greenland Current, Norwegian Current, dissolution, pelagic zone, sedimentation, pteropod, Norwegian Sea, Lofoten Basin; Greenland Sea, Lofoten Basin; 02442.
shellfish
PCBs, estuary, contamination, biota, recreation, USA, Hudson River, New York Harbor; 04777. PCBs, polychlorinated terphenyl, organism, fishing, oyster, USA, Virginia, Chesapeake Bay, Back River; 04775.
shelly till
chronological control, glacial deposit, Munsterian, Southern Irish End Moraine, till, leaching, granite erratic, Ireland; 13125. constrained trough, deformable bed, ice-limit, Sutherland, Weichselian(Late), till, UK, Scotland, Caithness; Moray Firth; 01433.
shelter belt
forest edge, turbulent wake, turbulent transport, micrometeorology, 03050. strip cropping, soil erosion, conservation policy, water management, Europe; 01501.
shelter effect
vegetation belt, field measurement, shelterbelt, 11210.
shelterbelt
agroecological effect, semi arid region, evaporation, China; 07682. deflation, effectiveness, single-row shelterbelt, contour land management, USSR, Stavropol' Upland; 12040. shelter effect, vegetation belt, field measurement, 11210. terrace, irrigation, erosion hazard, erosion rate, soil conservation, policy, cropland, environmental protection, Hungary, Komarom County; 01518.
sheltering
wind erosion, vegetation, soil erosion, shear stress partitioning, arid land, canopy structure, erosion threshold, non-erodible roughness element, 12025.
Shewanella putrefaciens
iron reduction, oxygen, microorganism, respiration, electron acceptor, reduction activity, 08274.
shield
basal altitude, areal distribution, shield structure, geological history, coronae, Venus; 07158.
shield area
glacial boulder, transport, till lithofacies, boulder transport, Canada, Quebec; Finland; 06119.
shield structure
geological history, coronae, shield, basal altitude, areal distribution, Venus; 07158.
shield volcano
caldera formation, magma rise, volcanic landform, compression tectonics, crustal thickening, Venus; 10687.
shields criterion
bed granulometry, erosion, bed load transport, channel hydraulics, traction force, pebble charge, flume experiment, 12185. overland flow, rain impacted flow, flow roughness, transport inception, sediment transport, overland flow, 10831.
Shields parameter
particle resistance, bed structure, gravel bed, bed surface response, flume study, sediment transport equation, 12173.
Shields' curve
ripple, sand, wave, current, 00003.
shift variance
multi resolution, connectivity, pyramid segmentation, 07996.
shifting cultivation
irrigated land, soil loss measurement, puente de erosion, farming system stabilizing, hillside farming system, Plan Sierra project, ecodevelopment, Dominican Republic, Sierra; 06221. multispectral data, multitemporal data, 11557. phytolith counting procedure, forest soil, opal phytolith, phytolith distribution, Belgium, Ardennes; 10938.
Shihr group
bentonite, volcanism, drilling mud, gypsum, Yemen, Hadramawt Province, Gayl Bawazir; 00191.
Shikotsu pumice fall
Eniwa "a' pumice fall, Tarumae "d' pumice fall, Tokachi "c-2' ash fall, tephrochronological analysis, Last Glacial, Postglacial, terrace chronology, lateral erosion, climatic change, channel condition, valley side, slope development, Last Glacial Stage, fluvial terrace, alluvial cone, tephra cover, Japan, Hokkaido, Tokachi Plain; 04922.
Shimanto Terrane
heavy mineral, source area, provenance, garnet, Cretaceous, sandston Japan, Yahagi River; 11731.
Shimosa Group
glacioeustatic change, sea level change, tectonic movement, sedimer tary cycle, sedimentary environment, Japan, Boso Peninsula; 13160.
Shimosueyoshi transgression
land bridge, strait, Quaternary(Late), sea level, erosion hole, sea ca dron, buried valley, Japan; 04966.
shingle
flint, Pleistocene, quartz, chert, Rhaxella, UK, England, Suffoll Orfordness; 06996.
ship
forecast, storm(1990), explosive development, surface observatio upper air observation, depression, storm development, UK; 10162 marine transport, seafarer requirement, meteorological service, 07618.
ship data
island observation data, sea surface temperature, air temperature dat 08892.
ship detection
tracking, infrared image, 02134.
ship generated internal wave
short surface wave, turbulent wake, SAR, mixed layer environmen USA, Gulf of Alaska; 08113.
ship observation
lightvessel observation, temperature, sea surface temperature, pressure cloud cover, precipitation, visibility, wave, climate, North Sea; 11214 mixing ratio, boundary layer, nitrogen loss, nitrogen transport, od nitrogen species, Bermuda; 12517. phytoplankton, CZCS, Bering Sea 02246. stratiform cloud, El Nino, precipitation, convection, rainfall Southern Oscillation, upper air sounding, Mexico; 01838.
ship observations
scatterometer data, forecast, quality assurance, quality validation, Euro pean Centre for Medium Range Weather Forecasts, 13619.
ship position
simulation and matching, coastal image, radar, position fixing, 02133.
ship report
meteorological fieldwork(1948), fishing ground, forecasting need trawler, North Sea; Barents Sea; 08851.
ship survey measurement
marine boundary layer, remote sensing, data buoy, synoptic scale wind wind data, 06471.
ship temperature field
Fourier transform, barotropic instability, wind stress, sea surface tem perature, Atlantic; 05407.
ship traffic
anthropogenic source, trace metal, estuary, particle size distribution Yugoslavia, Krka River Estuary; Kornati Islands; 01261.
shipboard sunphotometer
sunphotometer observation, air mass, aerosol, optical depths, Atlantic 12564.
shipborne receiving equipment
marine radionavigation, GPS, GLONASS, NAVSAT, 05598.
Shipek
sediment sampler, HORS, sampler, grab sampler, Caribbean Sea; 08311.
Shipek grab
bathymetry, sediment thickness, rock head contour, bedform, biogenic carbonate, sand sorting, British Geological Survey, sea bed sediment Quaternary geology, UK, England, Hampshire, Wight; Solent; 07144 seismic record, glacial sequence, interglacial formation, Quaternary map sheet, British Geological Survey, sea bed sample, North Sea 10771.
ships compass
gyroscope, air navigation, compass, 03293.
Shishu Formation
wood, logs, stump, meander, Jurassic, petrified forest, China, Xinjiang Junggar Basin; 01307.
shoal
grain size, beach sediment, borrow site, beach nourishment, USA Maryland, Ocean City; 02380.
shoal deposit
Quaternary(Upper), tidal current, circulation pattern, discriminant function analysis, shelf, sand, USA, Virginia, Lower Chesapeake Bay, James River; 09343.
shoal facies
Ca-2 interval, Permian, diagenesis, dolomotisation, anhydrite, Denmark, Logumkloster-1 Well; 05938.
shoaling
discharge, channel, tide, estuary, salt-wedge, Canada, British Columbia, Fraser River; 02324. wave, coastal structure, nearshore zone, sediment transport, surf zone, 03547.
Shobudani Formation
plant extinction, climatic change, topographical change, extinction, Pleistocene(Early), plant biostratigraphy, Japan, Wakayama Prefecture, Hashimoto City; 00287.
shock dymamics
transcritical flow, nonlinear wave, wave, solitons, resonant flow, 01176.
shock formation
overland flow, kinematic cascade, kinematic wave, rainfall excess, Kibler-Wollhiser criterion, 04033.
shore
bank retreat, coastal development, abrasion profile, 10542. carbonate rock, bioerosion, boring, ichnology, hardground, Greece, Rhodes; 03647. management, dune, France; 04744.
shore based sampling
bacterial indicator, European Community Directive, microbiological sampling, bathing water, coastal water quality, UK, Scotland; 00571.
shore bluff
brecciated diamicton, heat flow simulation program, COLDSPOT, simulation, cryostatic desiccation process, sand intraclast, diamicton, Canada, Ontario, Mohawk Bay; 01428.
shore displacement

glacial sculpture, lake sediment, postglacial marine limit, deglaciation, glacio isostatic rebound, pumice, Weichselian(Late), glaciation, Holocene, Svalbard, Nordaustlandet, Prins Oscars Land; 07278.
hore platform
gelifraction, progradation, wind erosion, stratigraphy, palaeoenvironmental significance, loess, Adriatic Sea, Dalmatian Archipelago, Susak Island; 07214. Holocene, phosphogenesis, concretion, mud, Quaternary, New Zealand, Raglan Harbour; 02350.
hore profile
forebeach, beachfill, erosion, beach nourishment, groyne, longshore transport, Germany, Island of Norderney; 05875.
hore protection
breakwater, beach, 05877. erosion, groin, sea wall, sediment transport, property value, International Conference on Coastal Engineering, 00051.
hore retreat
Bruun rule, sea level rise, 10543.
hore stability
catastrophe theory, beach forming material, cliff, beach degradation, 06989.
hore zone impact
lithodynamic process, submarine sandquarry, Finland, Gulf of Finland; 08411.
horeface
barrier beach, gravel, Holocene, overstepping, continental shelf, Canada, Atlantic Coast; 10545. erosion, accretion, sand body, bathymetry, USA, New York, Long Island; 03553. sediment transport, nearshore system, storm, surf zone, bar, 09350.
horeface deposit
barrier beach facies, Green River Formation, Eocene, Douglas Creek Member, channel sandstone, USA, Utah, Uinta Basin; 11719.
horeline
aeolian, sedimentation, geology student, USA, Gulf of Mexico; Bahamas; Atlantic, (Northwest); 11827. barrier island, dune stabilisation, erosion, storm surge, USA, North Carolina, Outer Bank; 10533. beach, longshore transport, wave, current, 03502. bottom sediment, coast, sand transport, engineering structure, beach, Japan, Toyama Prefecture, Miyazaki coast; Sakai coast; 07002. carbonate, basin, platform, sequence stratigraphy, France, Western Alps, Southern Vercors Plateau; 11742. coastal lowland, sea level history, glaciomarine delta, shell, Devensian(Late), UK, Scotland, Beauly Firth; Inverness; UK, Scotland, Nairn; 06177. earthquake, deformation, seismic cycle, subduction zone, tectonic displacement, USA, Alaska; 07166. estuary, abandoned channel, mangrove, inlet channel, South Africa, Zululand; 10537. gravel, eustatic sea level, sediment supply, barrier beach, beach, Holocene, UK, England, Sussex; 06995. Holocene, Quaternary, sedimentation, sea level rise, mangrove, 10626. hydrology, flood, climatic change, coastal regression, Egypt, Nile Delta; 10536. lake terrace, terminal moraine, alluvial fan, volcanic cone, lava flow, Large Format Camera, thematic map, geomorphology, geology, landuse, landcover, Basin and Range environment, USA, California; 09487. Laplace distribution, sand, harbour, provenance, grain size data, Libya, Tripolitania, Lepcis Magna; 04879. management, park, beach resource, estuary, erosion, urban park, USA, New York, Conference House Park; 00104. Mediterranean, mountain, dynamics, chronology, Quaternary detritism, mudflow, flood, till, glaciation, gelifraction, France, Corsica; 01383. run up data, wave, beach, wave breaking, 12827. sea level rise, wave, headland, erosion, longshore transport, Canada, Nova Scotia; 02338. uplift, strombus bubonius, Th-230/U-234, dating, isotope substage, Tyrrhenian, Italy, Calabria, Vibo Marina; 11986.
horeline change
erosion rate, aerial photographic coverage, rate of erosion, USA, Massachusetts, Boston Harbor; 12722. erosion, barrier island, inlet, wave height, storm, USA, South Carolina; 03554. gravel barrier, erosion, barrier migration, sea level rise, Canada, Nova Scotia, Story Head; 10544. inner shelf, erosion, bathymetric survey, accretion, navigation, Egypt, Nile Delta; 10557. sand, gravel, beach, spit, longshore drift, USA, Massachusetts, Cape Cod; 04740. typhoon, beach, erosion, beach rock, coral sand, cay, Japan, Ryukyus, Kume Island; 05839.
horeline defence
storm, perception, natural risk, 13482.
horeline deposit
arenite, Munising Formation, conglomerate, shale, vegetation, Cambrian, USA, Michigan; 02435. diagenesis, late Pleistocene, sedimentary facies, surf zone, breaker zone, swash zone, backbeach, boulder beach, dune environment, boulder beach, cementation, transgression, South Africa, Durban; 11987.
horeline diagram
radiocarbon date, carse clay, time altitude graph, Holocene, coastal lowland, sea level history, UK, Scotland, Beauly Firth; Conon Valley; 06178.
horeline displacement
deglaciation, raised beach, Mytilus edulis, transgression, sea level, glacial history, Svalbard, Spitsbergen, Bohemanflya; Erdmannflya; 07279. late glacial, glaciation, Older Dryas, Younger Dryas, postglacial shoreline displacement, Iceland, Skagi Peninsula; 03907.
horeline emergence
seabed, terrestrial, ground temperature, sea level, thermal signature, transgression, marine transgression, Canada; 11980.
horeline evolution
wave, refraction, cycle, sediment transport, beach profile, 02335.
horeline landform
Quindalup Dune, coastal zone, geomorphology, soil, Australia, Western Australia, Swan Coastal Plain, Yoongarillup Plain; 06010.
horeline management
flood damage, hazard, GIS, Canada, Great Lakes; 13954.
horeline map
radiocarbon age, coral reef, climatic fluctuation, Japanese research, relative sea level change, Holocene, sea level, Japan; 00324.
horeline mapping
beach erosion, USGS, lake shore topography, 08069.
horeline migration
shell assemblage, mollusc shell, gravel lag, barrier island, beach, Holocene, USA, Gulf Coast; 09426.
shoreline position
measurement time interval, geological geomorphological process rate, fiducial time, 08326.
shoreline retreat
subsidence, sea-level rise, erosion, submergence, coastline, USA, Texas, Gulf Coast; 03551.
short period forecasting
road weather service, forecast, commercial forecasting, user requirement, climate service, radar network, UK; 08818. squall line, mesoscale predictability, convection, low-level jet, internal undular bore, gravity current, gravity wave, radar, USA, Kansas, Wichita; 01923.
short period seismograph network
P wave mechanism, normal faulting, crustal extension, seismotectonics, earthquake, USA, Oregon, Portland; 10688.
short pulse radar survey
frost depth, airborne survey, dielectric permittivity, alluvial bedding pattern, ice thickness, groundwater prospecting, USA, Alaska, Tanana River; 12264.
short range air dispersion
toxics, K theory, non buoyant toxics, tracer study, vinyl chloride, landfill, USA, California; 06571.
short range forecast model
forecast model, narrow band model, radiation parameterisation scheme, mesoscale forecast model, 12327.
short range forecasting
rainfall, forecasting, European Centre for Medium Range Weather Forecasts, soil wetness distribution, Africa, Sahel; 13621.
short range order mineral
Spodosol, surface coating, mineral fraction, variable charge surface, USA, Washington, Cascade Range; 13284.
short range prediction
surface energy flux, explosive cyclogenesis, cyclogenesis, Atlantic, (West); 01922.
short range weather forecasting
forecast, boundary layer model, air mass transformation, 10163.
short surface wave
turbulent wake, SAR, mixed layer environment, ship generated internal wave, USA, Gulf of Alaska; 08113.
short term acidification
atmospheric deposition, aluminium concentration, soil chemistry, runoff water quality, through flow, deposition chemistry, acidification, soil piping, UK, Wales; 12195.
short term flow
chemical response, catchment model, stream chemistry, water chemistry, stream flow, rapid response, UK, Scotland, Allt a'Mharcaidh; 13390.
short term flux variation
solar ultraviolet, ultraviolet flux variation, model study, mesospheric ozone, 11330.
short term forecasting
Aramis radar network, radar technology, hydrology, radar-raingauge data combination, France; 04020.
short term interval
precipitation, Spearman rank correlation test, precipitation maximum, Yugoslavia, Zagreb; 07639.
short term ionic response
hydrochemical process, surface water chemistry, sampling regime, alkalinity source, acidification status, flow-ion relationship, low flow, time series sampling, flow related dip sample, UK, Scotland, Cairngorms, Allt a'Mharcaidh Catchment; 04096.
short term measurement
lake evaporation, eddy correlation, energy budget, evaporation, latent heat flux, energy storage, radiation, energy storage term, sensible heat flux, 13315. uranium, monitor reliability, charcoal monitor, alpha track radon monitor, 10203.
short term oscillation
climatic oscillation, eddy, zonal flow, El Nino, winter, 12395.
short term stability
long term stability, pore pressure, overconsolidation ratio, excavation stability, clay, 06023.
short term study
hydrochemical budget, input output budget, sulphate, acidification, surface water quality, long term study, UK, Scotland; 13372.
short term variability
long term varability, calibration, trend, ozone measurement, NOAA-9, Nimbus-7, satellite, 12525.
short wave radiation
energy balance model, ablation, margin, ice sheet, albedo, Fohn event, radiation, turbulent flux, sensible heat flux, Greenland, Nordbogletscher; Qamanarssup sermia; 01471. surface albedo, vapour transfer coefficient, wind speed, wind correction factor, regional evaporation, Mortons model, daily evaporation, long wave radiation flux, complementary relationship areal evapotranspiration model, evapotranspiration, atmospheric radiation flux, Canada; 09791.
short wave radiation flux
solar radiation, wind velocity, reflected radiation, temperature inversion, turbid ground layer, 05375.
short wave remote sensing
bidirectional reflectance, surface property, 12723.
short wavelength limit
rill, drainage network, channel, drainage stability, drainage initiation, surface drainage, 13012.
short-path transmissiometry
aerosol dosimetry, mass extinction coefficient, scattering albedo, radiative transfer, dust cloud, photoacoustical technique, 03202.
shortwave absorption
cloud, radiation, climate modelling, 05378.
shortwave flux
inversion, Nimbus-7, radiometer measurement, Earth radiation budget, longwave flux, 13486.

shortwave radiation
cirrus, atmosphere ocean system, 08059. climatonomy model, solar radiation, albedo, cloudiness, aerosol, surface energy balance, Africa, Sahel; Niger, Niamey; 04248. longwave radiation, latent heat, sensible heat, ECMWF, ocean, surface heat flux, forecast prediction, Atlantic; 06470. open water, sea ice decay, lead, ice albedo effect, 03017. surface temperature, land breeze, sea breeze, non-hydrostatic mesoscale model, radiative heating, longwave radiation, Greece, Athens; 01911.
shortwave transmissivity
transmissivity, stratiform cloud, cloud, empirical data, radiative transfer theory, optical thickness, parameterisation, 12320.
shortwave vegetation index
vegetation index, phenological classification, terrestrial vegetation, vegetation cover, 09243.
shower
cloud, radar polarimeter, seeding area, hail suppression, polarisation characteristic, cumulonimbus, hail, 11268. waterspout, rainy season, cumulus, cloud line, cloud top cooling, Australia, Gulf of Carpentaria; 08949.
shower depth
shower duration, Hershenhorn's technique, daily rainfall, parameter transferability, rainfall disaggregation model, dry period, shower event, USA; 05115.
shower duration
Hershenhorn's technique, daily rainfall, parameter transferability, rainfall disaggregation model, dry period, shower event, shower depth, USA; 05115.
shower event
shower depth, shower duration, Hershenhorn's technique, daily rainfall, parameter transferability, rainfall disaggregation model, dry period, USA; 05115.
Shrewsbury Formation
glacial deposit, Four Ashes, type site, Devensian stage, Stockport Formation, Newer Drift, Iron Bridge gorge, subglacial channel, Lightmoor Channel, Chelford interstadial, UK, England, West Midlands; Cheshire Plain; 13135.
shrimp
organic carbon, bioturbation, burrow, sampling procedure, Red Sea, Gulf of Aqaba; 08265.
shrimp harvest
La Nina, coastal water level, estuary, El Nino, Southern Oscillation, USA, Louisiana; 07727.
shrimping industry
hypoxia monitoring, CZCS, Airborne Ocean Color Image, chlorophyll, USA, Gulf of Mexico; 08119.
shrinkage
desiccation, synaeresis, crack, Proterozoic, mudstone, Libby Formation, USA, Montana; 04701. drying, clay, soil aggregate, Netherlands; 01552. swelling, clay loam soil, surface condition, soil water content, bulk density, nuclear probe, single probe, dual probe, calibration, 01699.
shrinkage geometry
heavy clay, soil cracking, clay soil, 07334.
shrinking
swelling, failure, cracking, clay, particle orientation, 03963.
shrinking algorithm
algorithm, 04518.
shrub clump
soil mound, soil chemical property, soil physical property, aridic soil, Argentina, Patagonia; 09751.
shrub steppe ecosystem
soil moisture, evapotranspiration, leaf area index, fire, 06386.
shrub-steppe soil
Xerollic Camborthid, nitrogen, nitrogen mineralization, 00411.
shrubland
rainfall simulator, desert pavement, infiltration rate, soil erosion, soil crust, Torriorthent, infiltration, sediment production, soil surface condition, Argentina, Patagonia; 01500.
Shublik Formation
Sag River Formation, carbonate, cement, Triassic, Jurassic, USA, Alaska, North Slope; 02443.
Shuttle-GPS Tracking for Anomalous Gravitation Estimation
satellite to satellite tracking, GPS, tracking, 02101.
Shuttleworth-Wallace model
dryland crop, diffusion porometer, infrared gas analyser, leaf area index, canopy conductance, evapotranspiration, transpiration, millet, stomatal conductance, Penman-Monteith model, Niger, Sadore; 01640.
Siberian High
Aleutian Low, sea ice cover, air-sea interaction, satellite, Sea of Okhotsk; 03079. cold surge, air mass transformation, propagation, Asia; 12337.
SICAD
ATKIS, data structure, GIS, 11501.
side scan sonar
Devensian(Late), Loch Lomond Stadial, radiocarbon dated, pollen, periglacial condition, Holocene, soil erosion, Quaternary(Late) stratigraphy, sedimentology, seismic survey, core, stratigraphy, UK, Wales, Lyn Tegid; 02663. phase error, sonar, 02088. tectonism, volcanic seascape, seamount, mud blanket, GLORIA survey, oceanic continental transition, back arc basin, New Zealand, Havre Trough; Taupo Volcanic Zone; New Zealand, Ngatoro Basin; 08381.
side-scan sonar
ocean depth, marine geoscienstist, plate tectonic model, 10287.
siderite
berthierine, clay mineral, electron spin resonance, Northampton ironstone, Jurassic(Middle), UK, England, (East); 08312.
sidescan sonar
sub bottom profiler recording, knowledge based interpretation, acoustic image, ocean resource development, 10286.
Sieben Hengste-Hohgant cave System
Barenschacht, speleothem, fault movement, karst, neo-tectonics, cave, Beutushohle, Batterich, Gelberbrunnen spring, Switzerland, Thun Lake; 02558.
Sierozem
agrochemical property, hydrophysical property, infiltration ra
earthworm, USSR, Chimkent Oblast; 09710.
Sierpinski carpet
Brooks-Corey model, Campbell model, soil water retention, unsaturat
hydraulic conductivity, soil texture, pore structure, fractal geomet
particle size distribution, 01706.
sieving
noise removal, feature extraction, 03338.
signal
space, hydrological cycle, moisture field, gas signal detection, gree
house gas, 11286.
signal attenuation
Z-R relationship, warm season rainstorm, surface rainfall estimatio
radar signal interpretation, precipitation assessment, radar rainfa
measurement, non-rainfall echo, wind effect, 00504.
signal detection
warming debate, climate variability, greenhouse gas buildup, pollutio
13623.
signal detection theory processor
probability density function, Hough transform, additive noise, 12634.
signal to noise ratio
hydrophone, acoustic positioning system, acoustic signal, 10289.
signal transmission
linejitter, geometric calibration, CCD camera, framegrabber, 00952.
signature type
angular signature, atmospheric effect, radar, remote sensing, optical si
nature, 03276.
silcrete
conglomerate, sand, cementation, Twin Mountains Formation, USA
Texas, Western Cross Timbers; 02391. duricrust, morphostratigraph
marker, planation surface, ferricrete, Pleistocene(Middle), alucret
Nigeria, Jos Plateau; 06006. pedogenic silcrete, silica solubilit
groundwater, opal, Australia, South Australia, Stuart Creek; 0827
Proterozoic, Mount Harper Group, Windermere Supergroup, Precan
brian, palaeokarst, breccia, calcrete, Canada, Yukon Territory, Ogilvi
Mountains; 02410. regressive sequence, opal, sepiolite, intermedia
unit, Spain, Tajo Basin, Vicalvaro; 11723. sandstone, orthoquartzit
diagenesis, paleosol, gore lignite measure, Miocene, New Zealan
Maitland Basin, Landslip Hill; 00132.
silica
accumulation, palaeogeographic, palaeomagnetic, micropalaeontolog
cal, diatom, Indian Ocean, Central Trough; 03579. acid neutralisin
capacity, base cation, chemical weathering, water chemistry, mountai
basin, surface water groundwater interaction, snow melt runoff, USA
California, Sierra Nevada, Emerald Lake; 08735. alkalinity, acid depo
sition, exchange leaching, water chemistry, surface water chemistry
weathering, base cation, USA, Blue Ridge Province; Piedmont Pro
vince; 07512. barite, Paleocene, Miocene, ooze, chalk, opal, India
Ocean, ODP Site 707; ODP Site 709; Indian Ocean, ODP Site 71
Indian Ocean, Mascarene Plateau; 03672. basin, salt accumulation
delta, sedimentation, calcrete, carbonate, Botswana, Okavango Delta
05831. biogenic chert, diagenesis, chert, 12967. calcite, micromor
phology, mineralogy, calcareous duripan, opaline, USA, California
Mojave Desert; 01585. calcium carbonate, migration of minerals, fros
action, cryogenic, physico-chemical precipitation, iron, 11994. cemen
tation, burial history, porosity, Mississippian, sandstone, Kekiktuk For
mation, USA, Alaska, North Slope, 1 Leffingwell well; 09315. cemen
tation, soil, hydroxy species, ferrihydrite, 08268. diagenesis, Magadi
type chert, chert, biogenic, Kenya, Lake Magadi; 02348. diagenesis
opal, pore water, solubility, marine sediment, dissolution, 05941. dia
tom, particle size, biogenic silica, thermal stratification, frustule, USA
Great Lakes, Lake Michigan; 11786. ionic tracer, tracer movement
snowpack, melt water, lysimeter, USA, Wyoming; 08786. iron, cemen
tation, Aeric Albaqualf, aluminosilicate, 03965. magnesium, deu
terium, hydrograph separation, isotopic tracer, overland flow, subsur
face flow, chemical hydrograph, geochemical tracer, Canada, Canadia
Shield; 13325. micromorphology, cangahua, silicate clay, Ecuador
Interandean Valley; 01592. Oligocene, Pliocene, microbial filament
neoformation, pore water chemistry, Atlantic, ODP Hole 699A; 12985
organic matter, spreading centre, hydrothermal deposit, sulphide, sul
phate, Pacific, East Pacific Rise; 12886. palygorskite, Typic Argix
rerolls, cristobalite, Spain, Ecija; 00468. quartz, degassing, deep se
sediment, Mesozoic, chert, USA; Japan; 10630. quartzite, Proterozoic
overgrowth, sandstone, cementation, Mali; 12919. smectite, equilibra
tion, clay mineral, pore water, illite, 11809. tectonic history, Caribbea
Plate, Cretaceous, Cenozoic, subduction zone, Caribbean Sea; 08241
Tethys, Cretaceous, goethite, phosphorite, iron, Israel, Negev; 08234
Visean, limestone, grainstone, carbonate, anhydrite, cementation, Bel
gium, Namur Basin, Saint Ghislain; 11743.
silica content
carbonate content, bulk density, acoustic velocity, porosity, cementa
tion, compaction, Atlantic, ODP Site 698-704; 12830.
silica cycle
eukaryote, biological process, diatom, diagenesis, chert, 01332.
silica powder
particle, kinetic nucleation, ballistic polymerisation, sintering, diffu
sion-limited aggregation, aerosol, 03204.
silica production
sea ice, sediment accumulation rate, ice proximal environment, cryo
sphere ocean interaction, Laurentide Ice Sheet, Younger Dryas chron
core, biogenic silica, Canada, Northwest Territories, Baffin Shelf
08436.
silica rich allophane
stream deposit allophane, soil, tephra, weathering process, allophane
aluminium rich soil allophane, New Zealand; 00355.
silica sand
sand modulus, cone penetration test, Marchetti dilatometer test, 03769
white sand, aeolian sand, sand, India, Karnataka, South Kanara Coast
10509.
silica solubility

groundwater, opal, silcrete, pedogenic silcrete, Australia, South Australia, Stuart Creek; 08273.
licate
atmospheric precipitation, suspended sediment, surface water chemistry, element load, drainage basin, weathering, erosion, carbonate, evaporite, China, Yellow River; Yangtze River; 05193. calcium, low salinity region, trace metal flux, surface water quality, acidic soil, alkaline, Thailand, Mae Klong River; Bang Pakong River; 08740. desilicification, bioleaching, oil shale, bacteria, Bacillus circulans, Yugoslavia, Aleksinac; 05957. diagenesis, evaporite, Salado Formation, Permian, fluid inclusion, brine, USA, New Mexico, Delaware Basin; 10632. hydroxyl, sorption, phosphate sorption, allophanic soil, sulphate, Spain; 07382. model, sedimentation process, Precambrian, carbon dioxide, pH, sea water, carbonate system, 07078. nutrient cycling, phytoplankton, eutrophication, cycling, carbon, nitrogen, phosphorus, North Sea; 12986. pseudomorph, olivine, pyroxene, amphibole, mica, feldspar, nepheline, quartz, microfabric, morphology, mineral weathering, neoinformation, weathering, 01477. reactivity, Quarternary, hydrophobic, alkyl chain, solvent, 01331.
licate clay
silica, micromorphology, cangahua, Ecuador, Interandean Valley; 01592.
licate colloid
contaminant transport, groundwater contamination, sampling method, colloid, coal ash disposal site, suspended colloid, 11073.
licate erosion
continental erosion, geochemical evidence, Chamberlins theory, glaciation, enhanced erosion, chemical weathering rate, 09537.
licate hydrolysis
acid neutralisation capacity, surface water chemistry, precipitation chemistry, throughfall chemistry, soil water chemistry, forest catchment, potassium, magnesium, sodium, calcium, subsurface flow, Spain, Montseny Mountains; 04090.
licate mineral
salt, water mixing, connate water, groundwater chemistry, shallow groundwater, water chemistry evolution, India, Tamil Nadu, Tinneveli District; 09895.
licate rock
aluminium, heavy mineral, paleosol, zircon, index weathering, soil, 09619.
licate weathering
mire, anoxic environment, mineral dissolution, USA, Minnesota, Lost River; 09455. weathering rate, long term weathering, sandy soil, podsol profile, Norway, Romerike, Nordmoen; 09623.
liceous formation
Triassic, USSR, Sikhote-Alin', Dal'negorska; River Ussuri; 04805.
liceous microfauna
Subtropical Convergence, Antarctic Polar Front, oceanographic front, faunal change, Pleistocene-Holocene, migration, Indian Ocean; 00278.
liceous rock
chondritic pattern, rare earth element, isotopic data, 09439.
liceous sponge reef
sedimentation rate, food supply, niche, foraminifera, seasonally ice covered area, perennially ice covered area, benthic foraminifera, Canada, Axel Heiberg Island; Ellesmere Island; Canada, Axel Heiberg Shelf; Arctic Ocean, Baffin Bay, Lancaster Sound; Arctic Ocean, Axel Heiberg Shelf; 10755.
licic massif
volcanic massif, ignimbrite, bornhardt, sheeting fracture, columnar joint, Beck Surface, stripping, regolith, weathering, Australia, South Australia, Gawler Ranges; 13038.
licic volcanic rock
inselberg, granitic rock, sheet structure, hillslope profile, subsurface weathering, columnar joint, etching, dilatation joint, bornhardt, Australia, South Australia, Gawler Ranges; 09499.
liciclastic
Triassic, Permian, energy resource, source rock, graben, terrestrial sediment, glacigene deposit, Tanzania; 03593.
liciclastic grain
pedogenic formation, sedimentation, volcanic event, palaeoenvironment, maar crater, Cameroon, Lake Barombi Mbo; 11671.
liciclastic rock
burial, pressure solution, porosity, sandstone, diagenesis, 12914.
liciclastic sediment
carbonate sediment, shelf sediment, Silurian, sea level, storm, Appalachian Foreland Basin, USA, Pennsylvania; 07042. Pennsylvanian, Allegheny Formation, cyclothem, Upper Freeport coal, thrust ridge, coal swamp, USA, Maryland; West Virginia; USA, Pennsylvania; 12940.
liciclastic sequence
storm, hurricane, reworking, turbidite, tempestite, shelf, 11688.
liciclastic unit
Proterozoic, Nagthat Formation, Jaunsar Group, sandstone, conglomerate, coarsening upward sequence, India, Lesser Himalaya, Kumaun; 12921.
licification
basin, pyroclastic flow, Barberton greenstone belt, Onverwacht Group, volcaniclastic sediment, South Africa, Eastern Transvaal; 03633. biogenic silica, chertification, fossil wood, 12952. Miocene, groundwater, climate, flint, weathering, Tertiary, Belgium, Ardenne; Limburg; 02395. phosphorus, cement, phosphorite, texture, volcanism, 00158. Silurian, carbonate, chert, mudrock, meteoric water, terrigenous, China, West Qinling; 01327.
lification process
calcareous pan, duripan, in situ alteration, eolian dust, loess, opal-A/X-ray amorphous phase, micromorphological technique, USA, Idaho; 12016.
lified wood
alluvial terrace, fossil hardwood, terrace, Late Acheulean, pluvio glacial sequence, Cambodia, Mekong River; 13173. river terrace, Pleistocene terrace, Acheulean(Late), alluvial terrace, Cambodia, Mekong River; 09600.
siliclastic rock
carbonate, facies mixing, sediment supply, cyclicity, shelf, mixing, karst, 13003.
silicon
acid neutralisation capacity, surface water quality, acidification, longitudinal variation, chemical flux, subsurface flow path, acidic surface runoff, concentration-discharge relationship, hydrogen, inorganic aluminium, dissolved organic carbon, USA, New Hampshire, Hubbard Brook Experimental Forest; 04089. aluminium oxide, kaolinite, montmorillonite, mordenite, pH, adsorption, heavy metals, 00408. calcium, iron, sulphur, particle, nitrate, sulphate, aluminium, USA, Appalachian Mountains; 02063. calcium, titanium, iron, sulphur, chlorine, aerosol, calcium sulphate, X-ray spectrometry, particle, magnesium, aluminium, Japan, Nagasaki; Nagoya; Pacific, (North); 00843. phosphorus, diatom, algae, biomass, Germany, Saxonia, Saidenbach; 12847. sulphur, marine aerosol, soil particle, aerosol, urban atmosphere, carbon, sulphate, nitrate, ammonium,, chloride, aluminium, sodium, copper, nickel, potassium, zinc, calcium, manganese, magnesium, cadmium, Japan, Sapporo; 03199. toxicity, chromium, Sweden; 01565.
silicon bonding
iron oxide, x-ray photoelectron spectroscopy, 00447.
silicon oxide
organo metallic complex, fulvic acid, adsorption, clay mineral, humic acid, aluminium oxide, 10873.
sill
deep water current, sea strait, vorticity, weir flow, hydraulic jump, 03496. oxygen, anoxic, Quaternary, pore water chemistry, benthic fauna, Indonesia, Halmahera, Kau Bay; 00050. palaeotemperature, weathering, soil, thermal influence, illite, 12987. water circulation, anoxic, biogenic, carbonate, Indonesia, Halmahera, Kau Bay; 00183.
sill crest
exchange flow, hydraulics, oceanography, Rossby radius, 03497.
sill formation
flysch, bed form, pothole, reflection face, channel morphology, 12186.
silt
clay, buried topography, bedrock topography, overdeepening, glacial Lake Winimusset, lacustrine sediment, USA, Massachusetts, Ware Quadrangle, Winimusset Brook; 11945. clay, flocculation, settling velocity, tracer sediment, radioisotope, sedimentation, 11649. continental shelf, mineral provenance, heavy mineral, sand, Atlantic, (Northeast); 08179. feldspar, aeolian, loess, quartz, soil, Germany, Ore Mountains; 02302. grain size, tortuosity, hydraulic conductivity, Pacific, ODP Site 679; ODP Site 681; 04712. Harmallan dust, soil mineralogy, clay mineral, soil chemical property, savanna soil, Nigeria; 12110. heavy mineral, clay, sedimentation, erosion, uplift, India, Bengal Fan; Himalayas; 04860. Holocene, sea level movement, coastal deposit, palaeoecological investigation, peat, clay, UK, England, Merseyside, Wirral, Newton Carr; 06153. hydromorphic paleosol, organic matter, paleosol, clay mineralogy, Spain, Duero Basin; 12995. lake, Holocene, nitratine, nitrogen, Kenya, Turkana Basin; 03592. longshore current, carbonate mineral, bottom sediment, Holocene, sand, Kuwait, Ras Al-Jalayah; Ras Al-Zour; 00069. nickel, manganese, pelagic sediment, micronodule, sand, Pacific, (North), Clarion-Clipperton Ore Province; 05870. overgrowth, detrital, isotopic composition, spalling, sand, crystal face, 00010. periphyton, turbidity, stream bed, siltation, braided river, clay, suspension, New Zealand, South Island; 02441. sedimentation, estuary, suspended solid, settling velocity, flocculation, Turkey, Sea of Marmara, Golden Horn Estuary; 04735. Torrie Silt, Windermere Interstadial, Loch Lomond Stadial, valley glacier, Devensian(Late), organic deposit, till, UK, Scotland, Perthshire, Teith Valley; 06149.
silt control
land management, bank erosion, flood control, river regulation, sediment, Bangladesh; 07595.
silt loam
particle-size fraction, organic matter, manure application, carbon, nitrogen, carbohydrate, 12060. Penman equation, soil moisture deficit, potential evapotranspiration, neutron probe, soil moisture content, pasture growth, crop water use, New Zealand, Christchurch; 04108. tillage, sediment, nutrient loss, Maury silt loam, Paleudalf, runoff, soil loss, 07337.
silt loam soil
carbon pool, cropping system, wet aggregate stability, aggregate stability, organic component, 08567. cropping pattern, agriculture, water management, water conservation, runoff, infiltration, contour tillage, 12273. preferential flow, pesticide transport, nutrient transport, drainage water quality, leaching, land drainage, tile drain, groundwater quality, surface water quality, USA, Indiana; 13453. Richards equation, groundwater flow, percolation test, layered soil, unsaturated flow, saturated flow, horizontal flow, vertical flow, hydraulic conductivity, Guelph permeameter technique, 11037.
silt soil
unstable soil, soil loosening, drainage, experiment, storm water, structural damage, 07335.
silt up reservoir
land use regulation, landslide problem, watershed management, typhoon season, sediment load, streambank erosion, Taiwan; 06039.
silt-enriched
alpine, surface mantle, soil profile, granite gneiss, clay mineralogy, gelifraction, chemical weathering, vermiculite, illite, chlorite, smectite kaolinite, loess, frost action, USA, Wyoming, Wind River Range, Indian Basin; 12015.
siltation
braided river, clay, suspension, silt, periphyton, turbidity, stream bed, New Zealand, South Island; 02441. engineering, harbour, gamma ray density gauge, port, China, Lianyun Harbour; 02491. farm system adaptation, erosion, taro patch system, ditch, water, runoff, Pacific, Micronesia, Caroline Islands, Yap Island; 06248. Lesotho Highlands Water Project, dam, water intake, sedimentation, hydraulics, Lesotho, Katse reservoir; 05817. sediment load, coral reef, terrigenous sediment, reef growth, Costa Rica, Golfo Dulce; 11690.
silting

erosion, soil conservation, reservoir, runoff, sediment transport, Morocco, Mohammed Ben Abdelkrim Al Khattabi Dam; 12183.
siltstone
sandstone, conglomerate, carbonate, red formation, Mesozoic, upward fining sequence, sedimentation, Morocco, High Atlas, Telouet area; 05908. Zarnowiec Formation, sandstone, Cambrian, 01273.
siltstone soil
elemental analysis, soil texture, lithological discontinuity, soil development sequence, sandstone soil, New Zealand, Canterbury; 12126.
silty clay
microbial activity, waterlogged soil, lacustrine clay, aliphatic compound, aggregate stability, 13224. soil structure, humic material, aggregate stability, soil aggregate, waterlogged soil, lacustrine soil, 12051.
silty clay loam texture
marine sediment, embankment, pedogenesis, soil development, dyke, Canada, Nova Scotia, Grand Pre; 08520.
silty clay soil
cumulative evaporation, ploughless tillage, straw incorporation, evaporation, lysimeter, clay soil, soil moisture conservation, Sweden; 05120. pore volume balance estimation, mercury porosimetry, backscattered electron scanning image, textural porosity, 08594.
silty fracture filling
crystalline bedrock, hydraulic lifting, ice retreat rate, adfrozen, pressurized meltwater discharge, Artesian condition, finite element analysis, fracture filling, ice retreat, 04992.
silty mantle
sedentary soil, particle size distribution, oxygen isotope composition, quartz, aeolian dust, parent material, Japan; Korea(South); 13300.
silty sand
liquefaction, ground failure, earthquake, lateral spreading, Canada, Quebec, Saguenay; 06027.
silty soil
geotechincal problem, arctic offshore activity, thaw behaviour, 06194. undrained triaxial test, Cam Clay concept, constitutive property, modelling, Sweden; 03815.
Silurian
carbonate, chert, mudrock, meteoric water, terrigenous, silicification, China, West Qinling; 01327. Clinton, oolitic ironstone, Europe; 11546. intracratonic basin, graptolite, Telychian, transgression, Norway, Oslo; 00152. sea level, storm, Appalachian Foreland Basin, siliciclastic sediment, carbonate sediment, shelf sediment, USA, Pennsylvania; 07042. transgression, sandstone, alluvial deposit, sedimentation, facies, Egypt; Sudan; 03603. volcanogenic material, ash, greywacke, Ludlovian, Poland, Gory Swietokrzyskie, Jurkowice; 01296.
Silurian aquifer
sinkhole, limestone pavement, ice scour, stepped bedrock topography, ice loading, ice unloading, karst, glaciated dolomite, USA, Wisconsin, Door County; 04924.
silver
copper, heavy metal, metal remobilisation, sorbed metal, bacterial wall, clay, leaching, chromium, 13253.
silver iodide burned in acetone
cloud seeding, cloud microphysics, ice crystal concentration, orogaraphic cloud, 05429.
silver iodide seeding
hail suppression, seeding, persistence effect, South Africa, Nelspruit; 10120.
silviculture
grazing treatment, longleaf pine forest, interrill erosion, nitrogen, phosphorus, infiltration, runoff, water quality, USA, Louisiana, Kisatchie National Forest, Vernon District; 01499. irrigation, saline water, groundwater, coastal sandy soil, India, Andhra Pradesh; 02812.
silylation
humate metal ion complex, plutonium complex, calcium complex, iron complex, copper complex, extraction procedure, organic complex, 08604.
simazine
metalochlor, alachlor, suspended sediment, contaminant transport, surface water quality, herbicide, degradation, atrazine, cyanazine, USA, Mississippi River; 02885. metolachlor, alachlor, sampling technique, agricultural pollutant, surface water quality, herbicide, triazine, acetanilide herbicide, atrazine, desethyl, desisopropylatrazine, cyanazine, USA, Mississippi River; 08737. norflurazon, diuron, Candler fine sand, sorption-desorption, herbicide, electrolyte, cation, ionic strength, bromacil, 13254.
similarity criteria
wind speed, saltation, suspension, particle size, 05795.
similarity formulation
neutral condition, turbulence structure, surface layer, 10025.
similarity index
error, Bagrov, 12303.
similarity law
physical model, movable bed, sediment transport, hydraulic modelling, 05791.
similarity scale
universal profile, statistical moment, convective boundary layer, mixed layer, large eddy simulation, penetration convention, 10017.
Simple Biosphere model
biosphere, general circulation model, rainfall climatology, hydrological cycle, land air flux, 06494.
simple expert system
program, LISP programming, student, sedimentary environment, SEDRULE, 03683.
simple polygon
Graham scan, computational geometry, 07975.
simplex analysis
slope stability, critical failure mechanism, 00246.
simplicial complex theory
GIS, triangular irregular network, geometric property, analytical geometry, topological relation, 08018.
simplified equation
perturbation analysis, turbulent flow, porous barrier, vorticity equation, Reynolds stress, 12307.
simplified numerical three dimensional ice sheet ice shelf model
ice volume change, grounding line, three dimensional ice sheet model, ice shelf, 00335.
Simpson Group
cycle, lithofacies, quartzarenite, tidal channel, quartz, overgrowth cement, Ordovician, USA, Oklahoma, Anadarko Basin, Knox Oil Field, 01271.
simulated front
deformation case, shear case, nonlinear interaction, lee side, orograph frontal process, 13598.
simulated lunar soil
crop plant, weathering, Moon, plant-induced, smectite neogenesi mineral component, USA, Minnesota, Duluth; 12018.
simulated rainfall
arid area, semi arid area, soil surface deterioration, runoff production infiltration equation, Niger; Burkina Faso; 06291. bare ground, runof pasture, range, soil loss equation, USA, North Dakota; 13206. desig simulator, rainfall simulator, field study, runoff, erosion, rainfall inten sity, Spain; 09637. hillslope, semiarid environment, simulated runof erosion, gypsiferous soil, gypsum, suspended transport, Spain, Ebr Valley; 12034. loess soil, soil strength, crust strength index, crust for mation, aggregate, fabric analysis, surface crust, China, Lishi; 10851 runoff, erodibility, interrill erodibility, fragipan soil, erosion, USA, Mis sissippi, Holly Springs; Tennessee, Alamo; 09634. simulated rainfa impact, fractal theory, roughness index, soil surface roughness, 02717 soil erosion process, splash erosion, wash erosion, erosion rate, Heide clay, antecedent soil moisture, splash detachment, 08536. soil erosion tillage, canopy cover, interrill erosion, alfalfa, USA, Wisconsin; 12025 solute transport, wind action, overland flow, water erosion, wind drive rain, flume experiment, 10829. water quality, surface sealing, runoff anionic polyacrylamide, 02718. water stable aggregate, soil erodibility erodibility, Nigeria; 13211.
simulated rainfall impact
fractal theory, roughness index, soil surface roughness, simulated rain fall, 02717.
simulated runoff
erosion, gypsife ous soil, gypsum, suspended transport, simulated rain fall, hillslope, semiarid environment, Spain, Ebro Valley; 12034.
simulated transpiration
water management, hydrological modelling, crop transpiration, agr hydrological simulation model, 12801.
simulated upwelling
monsoon wind, upwelling strength, Globigerina bulloides, climat optimum, sediment record, Arabian Sea; 13085.
simulation
atmospheric degradation, building stone, wet deposition, atmospheric pollutant, acid rain, wet-dry cycling, Porland stone, pollutant-materia response relationship, damage function, dry deposition, wet deposition laboratory exposure system, 02704. cryostatic desiccation process sand intraclast, diamicton, shore bluff, brecciated diamicton, heat flow simulation program, COLDSPOT, Canada, Ontario, Mohawk Bay 01428. GIS, SAR, image analysis, 01009. karst evolution, break through time, dissolution kinetics, karst aquifer, limestone, model, Ger many; 02557. orography, frontal process, model development, primitive equation, prognostic equation, terrain-following coordinate system 13597. prediction, drought, sea surface temperature, global climat model, statistical method, 13622. sampling landuse survey, landuse sur vey, satellite imagery, 12678. seasonal snowcover, snowcover, tempera ture, precipitation, Japan; 13521. suspended sediment, sediment volume, reflectance, water, 04657. vegetational response, climatic reconstruction, pollen stratigraphical data, Holocene, global climatic pattern, Europe; 03891. water retention property, hydraulic property operational model, frozen soil, freezing, water redistribution, 02692 winter blocking, blocking episode, sea surface, temperature, ocean sur face, ultralong wave, 13577.
simulation and matching
coastal image, radar, position fixing, ship position, 02133.
simulation facility
network design, bundle adjustment, close range measurement, 07926.
simulation method
numerical simulation, ice gouge depth, structure return interval, subsea structure, areal gouge generation rate, 08456.
simulation model
acidity index, acetate reaction method, humic acid, carboxyl content 08595. ammonia, soil, soil bulk density, banded ammonia, 00415 chemistry behaviour, contaminant transport, degradation, aldicarb bromide, pesticide simulation model, unsaturated zone, 09897. crop wateruse, energy water balance model, sorghum crop, soil water bal ance, Africa, Sudan; Sahel; 12235. evapotranspiration deficit, flux unsaturated zone, groundwater flow, soil property, hydraulic function 07527. FGMOD, erosion reduction, sedimentation, tropical watershed soil erosion, Guatemala, Chixoy River; 06222. hydrochemistry, Birk enes Model, surface water quality, acid precipitation model, highland catchment, UK, Scotland; 07510. multicomponent transport model water transport, matter transport, leaching, cation leaching, potassium fertilisation, 08576. soil compaction, agricultural soil, 09659. tensiometer, neutron probe, water storage, root growth, actual evapotranspiration, drainage, lysimeter, evapotranspiration, deterministic method, stochastic method, soil water balance, water balance model, crop characteristic, soil charactersitic, Ivory Coast, Bouake; 12236. Universal Soil Loss Equation, rill, interrill erosion, prediction technology, soil erosion water, research, erosion prediction technology, USA; 12028. Universal Soil Loss Equation, soil erosion, sediment yield, granitic roadfill, USA Idaho, Idaho Batholith; 09696. unsaturated flow, soil water content cation transport, sandy soil, finite difference numerical model, aqueous phase concentration, 08602. well location, pump rate, groundwater remediation, capture zone design, optimisation technique, groundwater contamination, 02923. wind induced current, current, 12194 windstorm, erosion, soil deposition, computer program, TEAM, 07326.
simulation modelling

ecological planning, GIS, urban development, rural development, USA, Indiana; 01066.
simulation system
information system, military information, terrain data, navigation system, 09136.
simulation technique
tropical cyclone occurrence, Monte Carlo method, typhoon season, China, Shanghai; 10065.
Sinclair sequence
stratigraphy, core, British Geological Survey, Quaternary geology, seafloor, Morrison sequence, Otter Bank sequence, submarine end moraine, UK, Scotland, Judd; 09564.
sine curve
solar serenity, regime, solar radiation, factor analysis, 12300.
single borehole hydrotest
univariate statistical method, well test, aquifer response, groundwater flow, frequency domain approach, head disturbance, 09868.
single buffer method
double buffer method, acidic surface soil, buffer method, lime requirement, Mehlich single buffer method, Australia, Queensland; 07436.
single channel approach
radiative transfer model, rainfall estimation, area averaged rainfall, rainfall, tropical ocean, ocean, microwave radiometry, 12322.
single factor simulation experiment
leaf area index, branch configuration, rainfall intensity, interception, canopy, stem flow, 09782.
single image technique
close range imagery, Direct Linear Transformation, 07921.
single parameter distribution
Weibull distribution, precipitation distribution, probability distribution, USA, Rocky Mountains; 09788.
single probe
dual probe, calibration, shrinkage, swelling, clay loam soil, surface condition, soil water content, bulk density, nuclear probe, 01699.
single pulse rain
coalescence, breakup, raindrop size distribution, one dimensional shaft model, 12468.
single sampling episode
carbon-14, tritium, half life, periodic sampling, aquifer dynamics, groundwater flow, recharge, Canada, Ontario, Waterloo; 11051.
single-row shelterbelt
contour land management, shelterbelt, deflation, effectiveness, USSR, Stavropol' Upland; 12040.
Singular Value Decomposition algorithm
groundwater recharge, mixing cell method, quadratic programming algorithm, linear regression theory, recharge component, geochemical species, environmental isotope, Botswana; 11054.
Sinian
Doushantuo Formation, sedimentation, phosphorite, eustatic movement, texture, China, Jiangxi Province, Zhaoyang; 10610.
sinistral strike slip motion
neotectonic fault, compression, seismic fault motion, strike slip, fault motion, earthquake, surface ruptures, Greece, Akarnania Region; 08367.
sink
carbon dioxide, partial pressure, plankton chlorophyll, biological activity, fossil fuel, spatial variability, Atlantic; 13653. equatorial forest, emission, compensation point, carboxylic monoacid, forest, source, Africa, Congo, Mayombe Forest; 13748. global balance, proton balance, alkalinity concept, graph property, atmospheric source, acidity, 06206. greenhouse gas, soil-plant environment, carbon dioxide, nitrous oxide, methane, source, 13741. nuclear magnetic resonance, marine sediment, phosphorus, biological cycle, 04854. sediment sink, suspended sediment, metal, contaminant, PCBs, Canada, St. Lawrence River, Lac St-Louis; 04770.
sink hole
melt water resurgence, water hardness value, karst drainage, permafrost environment, Canada, Northwest Territories, Akpatok Island; 06045.
sink process
nitrogen dioxide, ozone, long range transport, deposition, Finland; 12530.
sinkhole
caves, disappearing river, blind valley, spring, dye tracing, karst hydrogeology, groundwater problem, fluviokarst, Ordovician(Upper), pollutant, USA, Minnesota, Fillmore County; 03839. dolostone, Oligocene, Miocene, Bluff Formation, microorganism, terrestrial oincoid, oncoid, Cayman Islands; 12955. groundwater contamination, karst aquifer, agricultural pollutant, agricultural practice, conservation program, USA, Iowa; 01761. hydrogeology, karst, field trip report, limestone gorge, underground drainage basin, limestone tower, China, Guangxi; 06055. Lake Otjikoto, radiocarbon measurement, Holocene, environmental change, pollen analysis, swamp deposit, lake deposit, Namibia, Windhoek; 10761. limestone pavement, ice scour, stepped bedrock topography, ice loading, ice unloading, karst, glaciated dolomite, Silurian aquifer, USA, Wisconsin, Door County; 04924. solution pipe, ground penetrating radar, karst, limestone, USA, Florida; 01569. swallowhole, karrens, caves, speleothem, conduit direction, prediction method, opal, allophane, karst, quartzite karst, Itacolomi Group, subterranean drainage prediction method, Brazil, Minas Gerais, Ouro Preto; 02555. water resource, groundwater exploitation, river diversion, well, karst region, land drainage, 12293.
sinkhole density
permeability, borehole, cave geology, quantification, karst data, USA, Iowa; Yugoslavia, Herzogovinia; 06046.
sinkhole depression
fissure cave, weathering, block movement, creep, frost heaving, piping, forest clearing, quantitative study, debris movement, slope, Czechoslovakia, Western Carpathians, Javorniky Mountains; 11896.
sinkhole recharge
maze cave, ramiform cave, dissolution rate, artesian flow, cave origin, cave morphology, limestone cave, flow route, wall retreat rate, 06043.
sinking
biogenic silica, lateral transport, scavenging, sea water, sediment trap experiment, trace metal, 09446. continental shelf, sea floor, organic carbon, oxidation, USA, California; 03659. decomposition, fresh water, phytoplankton, halocline, river inflow, Yugoslavia, Krka Estuary; 09462.
sinking particle
marine organism, bioelement, eutrophication, scavenging process, suspended particle, Japan, Osaka Bay; 09389.
sinking velocity
copepod, coprorhexy, coprophagy, coprochaly, faecal material, 11783.
sintering
diffusion-limited aggregation, aerosol, silica powder, particle, kinetic nucleation, ballistic polymerisation, 03204.
sinuosity
asymmetry, channel geometry, depth to width ratio, bend amplitude, meander wavelength, Taiwan, Tanshui River; 01657. bedform, engineering, meander, bar, channel, 10516. channel migration, alluvial channel, floodplain slope, channel slope, uplift, floodplain instability, meander, neotectonic effects, USA, South Dakota, Belle Fourche River; 10673.
sinusitis
hay fever, urban air quality, respiratory disease, health history, smoking, ozone, particulate matter, 09056.
siphon action
karst spring, recharge, groundwater discharge, spring model, rhythmic spring, ebb and flow spring, intermittent spring, Yugoslavia; 12242.
SIR-A
metric camera, geomorphology, cartography, Algeria, Ahaggar Mountains; 07910. underground water, drainage density, hydrogeology, Iraq; 06904.
SIR-B
geological structure, fracture pattern, image enhancement technique, forested terrain, Canada, Canadian Shield; 08063. region adjacency analysis, blob extraction, region neighbour searching, 10297.
Sirius Formation
uplift, reconstructed surface profile, Alpine glacier, dry valleys, grounding line position, sea level changes, Cenozoic(Late), glacial history, ice core, Antarctica, Ross Embayment; Transantarctic Mountains; 02656.
SIRS
modelling tool, prototyping tool, forest inventory, 13936.
Sisimiut glacial maximum
readvance, moraine, calving glacier, topographic control, glaciological control, Holocene, ice-sheet margin dynamics, Greenland, West Greenland, Ilulissat; 00301.
Sisquoc Formation
Monterey Formation, burial history, Neogene, bulk density, porosity, USA, California, Point Pedernales; 10503.
Site 717 core
Bengal deep sea fan, glacier, sediment input, monsoon, North Equatorial Current, Pleistocene, climatic change, pollen analysis, India, Bay of Bengal; River Brahmaputra; India, River Irrawaddy; India, River Ganges; India, Himalays; 04965.
site change monitoring
gasoline station, storage tank, GIS, USA; 06933.
site characterisation
statistical method, two dimensional soil property interpolation, sampling spacing, cone penetration test, Canada, British Columbia, Sea Island, Vancouver International Airport; 03775.
site drainage
parent material, geomorphic history, classification, soil texture, phosphorus, eucalypt research, nutrient status, Australia, Queensland, Toolara State Forest; 10958.
site history
airphotograph, coastal region, toxic waste, USA; 13990.
site investigation problem
residual soil, Birrimian rock, regolith, weathered rock, Ghana; 04910.
Site Lm4
cavernous weathering, case hardening, geomorphological study, Romano Libyan farm, floodwater control, building stone, Libya, Wadi el Amud; Wadi umm el Bagul; 06105.
site measurement
groundwater development, village water supply, data processing, decision criteria, expert system, well location study, Africa; 07606.
site productivity
Landsat TM, forest, tropical forest, Australia, Queensland; 04627. mass balance equation, timber harvesting, weathering rate, cation nutrient pool, nutrient replenishment, mineral weathering, productivity, nutrient cycle, rock weathering, 08518.
site selection
building, environmental group, GIS, 01153. well design, monitoring technique, cost analysis, crystalline rocks, groundwater development, hydrogeology, aquifer yield, USA, North Carolina, Piedmont Province; Blue Ridge Province; 05211.
site specific monitoring
automatic data acquisition system, monitoring network, sample technique, landuse planning, groundwater protection, water management, point source pollution, sampling frequency, groundwater quality monitoring, Czechoslovakia; 12253.
site suitability
database, police, crime, waste water, USA, Hawaii, Honolulu; 13979.
site suitability management
marine management, benthic resource management, resource management, subtidal region, Chile, Yaldad Bay; 13957.
site survey
architectural design, ground modelling, engineering drawing, 04528.
site variability
SPOT calibration, ground reflectance measurement, radiometer, 10246.
siting criteria
paired comparison, ammonium, precipitation chemistry, USA, Mississippi; 12529. wet deposition, sampler, atmospheric deposition, 07457.
Sitka spruce
nuclear weapons test, photosynthate, carbon dioxide, carbon-14, cellu-

lose, USA, Washington; 05483. streamflow, surface water quality, throughfall, stemflow, soil throughflow, stream chemistry, hydrological budget, forest catchment, Norway spruce, 02949.
Siuntio Till
Espoo Till, Pikkala Sand, Kauhajoki Till, Harrinkangas Formation, sedimentological analysis, lithostratotype, Weichselian, sediment, stratotype, Kauhajoki Formation, Kela Formation, Finland; 07238.
size class
disruption index, aggregate index, particle size distribution, soil disruption, soil texture, 10915.
size distribution
accumulation mode, condensation, droplet, impactor, inorganic particle, ion, sulphate, nitrate, aerosol, USA, California; 06576. carbonyl carbon, aliphatic carbon, principal component analysis, automotive emission, aerosol analysis, infrared spectroscopy, source allocation, USA, Los Angeles; 05511. colloid, Doppler frequency shift, optical density, mass median diameter, aqueous colloid, contaminant transport, photon correlation spectroscopy, photosedimentation analysis, 09826. freeze-thaw cycle, mean weight diameter, aggregate wetting procedure, freezing, thawing, aggregate stability, Canada, Prince Edward Island; 13257. humidity, model, evaporating spray, spray, droplet dispersion, 13602. maritime aerosol, air mass source, aerosol, Ireland, Mace Head; 13708. precipitation, atmospheric stability, summertime, aerosol measurement, remote aerosol, Ross Sea; 13704. saline water, nitrite, flagellate, microplankton, suspended particle, Atlantic, Bay of Biscay, Cantabrian Sea; 01343. sulphur conversion, aerosol water content, sulphate, sulphur dioxide, seasalt, aerosol, particle, Bermuda; 12537. trace metal, particulate matter, motor vehicle, fuel combustion, aerosol, pollution, Puerto Rico, Ponce; 11399. virtual impactor, sulphate, optical particle counter, thermo optic technique, aerosol, volatility, 13717.
size distribution measurement
ultrafine aerosol, radiolysis, diameter measurement analyser, aerosol charger, 12574.
size distribution simulation
raindrop, throughfall drop, canopy height, model, erosion simulation, 06219.
size fraction
particle size separation, organic matter, physical separation, soil separation method, 09724.
size frequency relationship
impact crater, MAGELLAN image, Venera 15/16 mission, crater areal distribution, Venus; 07154.
size spectra
dry deposition, aerosol, remote concentration, coastal site, marine aerosol, UK, Scotland, Outer Hebrides, South Uist; 13709.
Skaershoj deposit
glacial lake, ice rafted stone, glaciomarine environment, annual variation, Quaternary, marine deposit, transgression, Elsterian(Late) age, Denmark, Jutland, Thyholm; 05035.
Skaerumhede sequence
Old Baltic Till, local till, tor, Norwegian Ice, snowdrift, Bastad flints, moraine stratigraphy, till, niviation valley, Sweden, Scania, Astorp; 05003.
Skaerumhede Series
foraminifera, stratigraphy, Quaternary, Saalian age, till, glaciofluvial sediment, Weichselian, Vennebjerg Stadial, Sandnes Interstadial, Denmark, Kattegat, Anholt Island; 07209.
skarn deposit
ore type, granitoid, mineralisation, carbonate, magnesian, 12960.
skeletal accretion
coral, El Nino, Southern Oscillation, warming episode, isotope, Pacific; Panama; Galapagos Islands; 07737.
skeletal debris
mixing rate, diagenesis, bioturbated sediment, opal, 00172.
skeletal fragment
turbidity, seabed sediment, carbonate, Australia, Queensland, Torres Strait; Papua New Guinea, Fly River; Indonesia, Irian Jaya, Fly River; 09362.
skeletal remains
trench, turbidite, dissolution, sedimentation, carbonate, Pacific, Palau Trench; Japan Trench; 12885.
skeletal stromatolite
ooid, girvanella, laminae, stromatolite, Cambrian, thrombolite, China, Sichuan Province, Xiushan; 07057.
skeleton
contour processing algorithm, thinning algorithm, ridge extraction, 03314. diagenesis, magnesian calcite, biomineralogy, stromatoporoid, aragonite, Devonian, USA, New York State; 12978. shape representation, thinning algorithm, 12638.
skeletonisation
parallel algorithm, binary object, decomposition, 12637.
skewed flow
open channel flow, compound channel, cross flow, shear stress distribution, 01664.
skewness
beach, geomorphic process, wave, grain size, sorting, India, Bay of Bengal; 01190. flow competence, flood, particle size, gravel, bed material, bedload, UK, England, Great Eggleshope Beck; USA, Oregon, Oak Creek; 12838. kurtosis, roundness, sand, dune, beach, India, West Bengal, Midnapur District, Junput Beach; 11685. texture, pebble, bedload, sand, grain size, sorting, Nigeria, Imo River; Gulf of Guinea; 02315.
skewness budget
turbulent exchange, forest, canopy, dry convective boundary layer, Brazil, Amazon; 07843.
Skibinskis formula
grain size distribution, bedload material, transport dynamics, Froude number, bedload transport intensity, Latyszenkows formula, Poland, Biala Nida River; 12176.
skill
forecast, ensemble forecasting, European Centre for Medium Range Weather Forecasts, extended range prediction, prediction, 13615. forecasting, numerical weather prediction, El Nino/Southern Oscillation Pacific; North America; 01937. glaciation, precipitation, model, general circulation model, 12498. jet stream splitting, feature based predictability, predictability, pressure height, forecast model error, weather system, 10161. storm structure, prediction experiment, Hurricane Gloria(1985), multiply nested model, movable mesh model, 12476. uncertainty, numerical weather prediction, limited area model, latent heating, surface flux, 00774. weather prediction, numerical weather prediction system, National Meteorological Center, global weather prediction, 13617.
skill score
precipitation forecast, climatology, probabilistic quantitative precipitation forecast, forecast, 07813.
skin flow
throughfall, soil water, surface water quality, evaporanspiration, dissolved organic carbon, subarctic fen, fen, Canada, Quebec, Schefferville; 07506.
skin temperature
nocturnal temperature inversion, temperature inversion, mountainous area, satellite, 11213. radiance change, AVHRR, VISSR atmospheric sounder, precipitation retrieval, precipitable water, surface temperature, split window technique, 09969. regional flux, surface flux, bulk similarity approach, boundary layer, radiometric temperature, 13552. surface climatology, sensible heating, lantent heating, heat flux, moisture flux, aerodynamic roughness, land surface, 06461.
Skipsea till
weathered mantle, Hessley Clay, proglacial lake, Lake Humber, Eskrick moraine, Withernsea till, Quaternary history, Wolstonian till, Ipswichian beach, Hoxnian, Dimlington Stadial, UK, England, Humberside; Yorkshire; 13138.
Skumpah soil
metal retention, cadmium, copper, acid mine waste, calcareous soil, mine waste, sorption, Kidman soil, 12080.
sky colour
air quality, Mie computation, multiple scattering radiation model, aerosol, microphysics, visibility, contrast, 13489.
sky irradiance
radiometer, optical thickness, 04597.
skycover
cloud, nephanalysis, earthview, 03007.
skyline logging
digital terrain model, natural resource conservation, 08102.
slaking
rainfall, mechanical breakdown, runoff, erosion, experimental study, crusting modelling, soil surface, crusting process, aggregate, 10826.
slantwise convective adjustment
boundary layer, explosive cyclone, hurricane, wind, temperature, potential vorticity, baroclinic wave, air-sea interaction, sensible heat flux, latent heat flux, 04273. Brunt-Vaisala frequency, eddy flux, baroclinic wave, moist baroclinic instability, Rossby number, semi geostrophic equation, updraft, hydrostatic approximation, 04293.
slantwise convective instability
cyclone, precipitation band, radiosonde data, saturated equivalent potential temperature, absolute angular momentum, equivalent potential temperature, 01909.
SLAR
Archimedes IIa, remote sensing, oil spills, North Sea; 11623.
slash and burn
slope, soil erosion, wind erosion, water erosion, Peru; 02727.
slash burned site
forest floor material, organic matter, nitrogen mineralisation, burning, Canada, British Columbia; 09741.
slash pile burning
pinyon-juniper woodland, ammonium, nitrate, burning, nitrogen, 12064.
Slaven Chert
Devonian, barite, phosphate, USA, Nevada, Toquima Range; 05950. stratiform body, chert, bedded barite, deep sea sediment, sea water, hydrothermal origin, barite, Devonian Chert, USA, Nevada; 09405.
sliced profile
monolith, laboratory study, soil reference collection, Tunisia; 09759.
slickenside
Miocene, clastic dike, tectonics, mudstone, New Zealand, Wairarapa, Annedale; 08151.
slide
climatic change, Saharan Sediment Slide, Quaternary(Late), mass movement, continental rise, abyssal plain, gravity core, stratigraphic analysis, coccolith species, pelagic sediment type, oxygen isotope time scale, turbidite, Africa, Sahara; 09567. sediment transport, flood discharge, high magnitude, geomorphic work, rainfall event, mass movement, slump, Spain, Pyrenees; 13016. slump, uplift, forest clearance, transformation threshold, slope transformation, river channel, bedload, channel geometry, India, Himalayas, Darjeeling Himalaya; 10717.
slide plane
wave action, landslide geology, landslide history, Holocene landslide, USA, California, Santa Catalina Island, Little Fishermans Campground; 06032.
slide repair
rock toe berm, embankment reliability, safety factor, 08387.
slide scar
submarine slide, Pliocene, continental slope, Mexico, Baja California, Vizcaino Bay, Ranger Slide; 03568.
slide stability
landslide hazard, movement mechanism, slide velocity, landslide, varved clay, France, Alps, La Mure; 04921.
slide velocity
landslide, varved clay, slide stability, landslide hazard, movement mechanism, France, Alps, La Mure; 04921.
sliding maxima
maxima, statistics of extreme, Hershfield coefficient, quantitative hydrology, 05110.

sliding probability map
probabilistic approach, rock slope stability, slope stability, joint, structural domain, stability analysis, Italy, Rome Region; 08389.
slightly rough facet model
SAR, ocean wave, propagating wave, surface wave spectral information, 05747.
Slingram method
Precambrian limestone, electromagnetic horizontal loop method, limestone aquifer, groundwater exploration, low frequency geoelectric method, very low frequency resistivity method, electromagnetic bipole method, resistivity method, karstified fracture, geoelectrical method, horizontal loop profiling, Mali, Gondo Plain; 06358.
slip
chalk cliff, cliff, UK, England, Sussex, Brighton; 04920. unstable zone, landslide geological context, latent landslide, Switzerland; 08397.
slip fault
outlier, graben, Central Rand Group, back stripping, deformation, South Africa, Witwatersrand Basin; 02422.
slip movement
Frasse Slip, glacial retreat, hydrological condition change, Switzerland, Alps; 08395.
slip plane
fault breccia, fault gouge, breccia type, brecciation, fracturing, neotectonic fault, normal fault, fault zone, fault movement, Greece, Aegean; 10693.
slip plane geometry
deformation pattern, hangingwall salient, fault scarp, degradation, structural heterogeneity, neotectonic fault zone, normal fault zone, Greece, Aegean Region; 08366.
slip rate
dextral slip rate, vertical movement rate, Quaternary(Late), movement, Wellington Fault, horizontal offset, New Zealand, Upper Hutt; 00236. Quaternary(Late), displacement, Hope Fault, earthquake, offset moraine, New Zealand, North Canterbury, Glynn Wye; 00239. segmentation, Holocene earthquake, Basin and Range province, active normal fault, palaeoseismological data, USA, Utah, Wasatch Fault Zone; 08359. strain accumulation cycle, offset, Holocene, stream channel, San Jacinto fault zone, fault, radiometric dating, USA, California, San Bernardino Valley; 11879. trench study, seismic event, earthquake magnitude, fault timing, fault displacement, Holocene faulting, Median Tectonic Line, Japan, Shikoku; 08374.
slope
aridity coefficient, runoff, physical environment, mesoregion, altitude, Hungary, North Hungarian Mountains; 08344. aspect, biophysical energy budget, surface energy budget, soil temperature, boreal forest, soil degree day, discontinuous permafrost zone, USA, Alaska; 13182. aspect, ecological condition, Hungary, Tokai Mountains, Bodrogkeresztur, Var Hill; 03831. aspect, phosphogypsum, runoff, erosion, Grumusol soil, Typic Chromoxerert, Israel; 03950. base flow, organic species, surface water quality, water chemistry, lithology, landuse, topography, hydrology, major ion, specific yield, sedimentary rock, pasture, forest, New Zealand; 11028. cluster bedform, particle size, river bed morphology, flow history, braided gravel river, critical tractive stress, dimensionless shear stress, New Zealand, Springfield, Kowai River; 00531. Cretaceous(Upper), carbonate slope, safety factor, circular failure, chalk, stability, Israel; 03833. design chart, geotextile, polymer grid, revised design chart, steep slope, reinforced slope, 09517. discharge variation, river, bedrock permeability, water retention, spatial variability, stream flow, Poland; 00517. ejecta, impact crater, windblown deposit, mass movement, Magellan observation, dielectric constant, Venus; 11874. energy balance component, Bowen ratio, 07697. epigenic phenomenon, creep, calcrete, weathering, Morocco; 00254. erosion, forest destruction, erosion rate, soil-stratigraphic technique, landform evolution, pedogenesis, terrace, regolith, New Zealand, Southern Alps; 02520. fault, topography, somma, Japan, Minami-Ashigara City; 00245. fluvial system, wilderness manager, alpine sediment, sediment transfer, hillslope sediment, USA, Colorado Front Range, Mummy Range; 09380. foreshore profile, video technique, beach profile, 10661. growan, solifluction material, grain size analysis, sorting, Rosin and Rammler distribution, weathered granite, head, UK, England, Dartmoor; 07183. hillslope hydrology, surface sealing, infiltration, surface runoff, topography, seal development, crust formation, 11000. hydraulic characteristics, water velocity, flow variability, in stream habitat, biota, catchment area, morphology, water storage capacity, transmissivity, New Zealand; 10983. hydraulic conductivity, porosity, saturated hydraulic conductivity, glacial till slope, Sweden; 07381. hypsometric analysis, groundwater accumulation, geomorphological study, drainage pattern, basin development, seventh order basin, bifurcation ratio, Hortons exponential relationship, drainage density, stream frequency, India, Kabini River Basin; 11872. infiltration rate, flood hydrograph, rainfall characteristics, hydrograph estimation, geomorphologic rainfall-runoff model, flash flood, hyetograph, catchment morphology, arid catchment, Saudi Arabia; 00513. infiltration, runoff factor values, ungauged basin, flood estimation, peak discharge estimation, runoff coefficient, unit hydrograph, hydrograph characteristic, rainfall depth, Africa, Sahel; 06293. lake depth, lake area, humic content, lake water, lake morphometry, watershed morphometry, water colour, drainage ratio, USA; Canada; 07489. land use, environment, slopeland utilisation, conceptual framework, Taiwan; 08415. rainfall, pedogeomorphic aspect, spatial variability, catenary sequence, intergrade, granitic material, hillslope development, South Africa, Kruger National Park; 09523. reef exhumation, geomorphology, Devonian reef, Windjana Limestone, Pillara Limestone, Napier Formation, foot slope pediment, rillenkarren, tufa, gilgai, Pleistocene(Late) dune, karst, Australia, Western Australia, Napier Range; 07150. regionalization method, flood regime, topography, geometry, river network, soil, vegetation, digital terrain model, flood estimation formula, basin characteristic, flood hydrograph, computer program, Austria; 05143. relative dating, moraine, landform degradation, lateral moraine, USA, California, Lee Vining Canyon; 13116. research program, stability, mass movement, flysch slopes, Poland, Karpaty Mountains, Szymbark, Bystrzyca; 08398. rib like relief, ledge failure, stability analysis, critical length, ledge, artificially cut slope, Japan, Ibaraki Prefecture, Tsukuba Upland; 08388. sediment transport, alluvial river, navigation, bedload, estuary, delta, dredging, Zaire, River Zaire; 05887. sinkhole depression, fissure cave, weathering, block movement, creep, frost heaving, piping, forest clearing, quantitative study, debris movement, Czechoslovakia, Western Carpathians, Javorniky Mountains; 11896. soil catena, soil texture, grain size, catena, hillslope evolution, evolution model, sediment transport equation, 10708. soil erosion, ridge top, soil movement, tillage, USA, Minnesota; 03937. soil erosion, wind erosion, water erosion, slash and burn, Peru; 02727. stability problem, saturated unsaturated analysis, water flow, Brazil, Rio de Janeiro; 10714. stochastic aspect, climate, hydrology, landform evolution, debris flow, climatic geomorphology, hydrogeomorphology, hillslope evolution, sheetwash, mass wasting, 11892. surface roughness, depressional storage, soil, ponding, 03511. technogenous load, coastal slope, morphodynamic characteristics, USSR, Crimea; 08399. temporal perspective, gullying pattern, spatial variation, precipitation, bedrock, soil, landuse, Zimbabwe, Eastern Highlands; 08553. topography, hydrogrph separation, hydrological modelling, mountainous terrain, rainfall variability, runoff generating mechanism, 08681. topsoil, soil characteristic, runoff generation, soil crust, runoff yield, soil cracking, plot length, topography, 12160. valley bottom, pebble, torrential deposit, geomorphology, colluvial deposit, Spain, Galicia, Lugo; 06963. width, roughness, rainfall intensity, dimensionless hydrograph, runoff discharge, rainfall duration, surface parameter, length scale, rainfall-runoff relationship, overland flow, spatial variability, 04044.
slope activity
hillslope, slope evolution magnitude, slope evolution frequency, temperate hillslope, Holocene, 10707.
slope alluviation
flow age, debris flow, triggering, Talus slope alluviation, granodiorite, debris flow track, timberline, Poland, Tatra Mountains; 11898.
slope angle
fabric, carbonate platform, eustatic, sediment deposition, 02402. slope length, water erosion, arable field, cause erosion, impact erosion, prediction erosion, soil erosion, surface roughness, rainfall intensity, UK; 08542.
slope aspect
parent material, aspect, spatial variation, erosion distribution, soil erosion, South Africa, Ciskei; 08556. slope gradient, DEM, elevation, USA, Oregon, Cascade Mountains; 10293.
slope aspect display
DEM, landform, colouring scheme, relief shading, 01075.
slope break
environmental change, Holocene(Late), snow accumulation hollow, soil stratigraphy, pollen assemblage, snow patch, Japan, Echigo Range, Mount Tango; 10794.
slope channel
sea floor, continental shelf, sediment instability, continental slope, USA, Gulf of Mexico; 08184.
slope class
regional erosional inventory, caesium-137, soil erosion, rates of soil redistribution, soil zone, Canada, Saskatchewan; 05053.
slope cover
asphalt, grass, concrete block, flume, embankment slope, wave run-up, Germany, Hannover; 00199.
slope decline rate
fluvial terrace scarp, slope profile, bedrock terrace scarp, terrace scarp, space-time transformation, Japan, Chichibu Basin; 02553.
slope degradation
sedimentation, postglacial deposit, Quaternary fill, intramorainic depression, cirque, lithostratigraphic unit, Atlantic period, Subboreal, radiocarbon date, deforestation, Poland, Tatra MountainsStarorobocianski Cirque; 11971.
slope denudation
colluvium, relief change, Poland, Kujawy Lakeland; 13058.
slope deposit
coarse slope deposit, cryogenic packing, permafrost, USSR, Sikhote-Alin Uplands; 03832. congelifluxion, slopewash, periglacial element, geological structure, relief, Poland, Czestochowa Upland; 12002. Culm series, gelifluction, periglacial effect, asymmetry, Pleistocene, Czechoslovakia, Moravia; 03829. fabric strength, eigenvalue method, clast fabric strength, periglacial slope deposit, clast size, clast shape, Japan, Hokkaido, Hidaka Mountains; 00334. fire, forest, savannas, cattle grazing, rilling of slopes, gullying, recent evolution, valley, dry phase, sangol, Nigeria, Adamawa Highlands; Cameroon, Adamawa Highlands; 12038. humid tropical Africa, Last Glacial Maximum, arid phase, humid climate, Holocene, environmental implication, Kenya; Cameroon; 03876. subequatorial mountain, solifluction sheet, creep, gelifluction, sorting, frost heaving, stratified slope deposit, slope model, stratification mechanism, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713.
slope development
Ahnerts model, system modelling, spatial conceptual model, 08390. Clarens Sandstone, slope replacement, rock resistance, Richter type slope, fluvial incision, parallel retreat, caprock, South Africa, Orange Free State, Klerkspruit Valley; 10715. landslide, scarp retreat, weathering rate, mass diffusion model, geomorphology, modelling, Japan; 03699. Last Glacial Stage, fluvial terrace, alluvial cone, tephra cover, Shikotsu pumice fall, Eniwa "a' pumice fall, Tarumae "d' pumice fall, Tokachi "c-2' ash fall, tephrochronological analysis, Last Glacial, Postglacial, terrace chronology, lateral erosion, climatic change, channel condition, valley side, Japan, Hokkaido, Tokachi Plain; 04922. particle size distribution, sediment distribution, erosion resistance, bed process, bedform characteristic, bed armouring, 08727. slope stability, soil pipe, landslide, research review, 07181.
slope drainage area power function
spatial uniformity of power, altitudinal geometry, river network geometry, discharge drainage area power function, 08695.
slope erosion
applied geomorphology, topographic map, 03842. erosion, black ground, black marl, suspended load, bed load, France, Southern Alps,

Buech Valley; 03943. Little Ice Age, human disturbance, postglacial deposit, cirque, intramorainic depression, lithostratigraphic unit, Atlantic period, subBoreal, subAtlantic, Poland, Tatra Mountains; 09601.

slope evolution
loess, yuan, slope model, valley side, China, Loess Plateau; 13060. periglacial denudation, frost-riven cliff, cryopediment, rate of cryoplanation, frost action, gelifluction, wash, cryoplanation surface, smooth slope, Hungary, Tokaj Mountains; 12003. regolith, weathering product, debris flow, lava slope, mud flow, altitudinal zonality, slope process, USSR, Armenian Highland; 08400. rockfall, canyon widening, debris movement, rock movement, mass wastage, USA, Arizona, Colorado River, Grand Canyon; 11895. valley side slope, rock property, hilly land, rock hardness, tensile strength, Schmidt rebound, infiltration capacity, v-shaped valley, headward erosion, mechanical strength, Japan, Hokkaido, Shiranuka Hill; Soya Hill; 08402.

slope evolution frequency
temperate hillslope, Holocene, slope activity, hillslope, slope evolution magnitude, 10707.

slope evolution magnitude
slope evolution frequency, temperate hillslope, Holocene, slope activity, hillslope, 10707.

slope facies
diagenesis, Hawker Group, Parara Limestone, Cambrian, carbonate, Australia, South Australia, Flinders Ranges, Wilkawillina Gorge; 11746.

slope failure
crystallophyllian formation, foliation, anisotropic structure, mechanical anisotropy, mountain slope, France, Isere, Bourg-d'Oisans, Charmonetier; Alps; 03828. gully erosion, glacial diamicton, lacustrine sediment, aeolian sediment, Wisconsinan deglaciation, glaciotectonism, landsliding, Canada, Alberta, Red Deer River, Little Sandhill Creek; 04918. hazard, landslide, sandstone shale sequence, deep seated landslide, pore water pressure, UK, England, Derbyshire; 07182. hazard, sediment failure, slump, debris flow, earthquake, Japan Sea, Korea Plateau Slope; 10570. mass movement, Cretaceous(Late), Eocene(Late), basement rock, Pliocene, Tertiary, Puerto Rico; 09365. orthophotomap, weathered soil depth, Hatano theory, heavy rainfall, Japan; 00255. radiocarbon dating, aerial photograph, tephra, levee, aggradation rate, debris accumulation rate, debris fan, Japan, Hokkaido, Yubari area; 07184. slope failure, storm rainfall, disaster, debris flow, Japan, Hiroshima Prefecture; 13061. storm rainfall, disaster, debris flow, slope failure, Japan, Hiroshima Prefecture; 13061. valley head hollow, discharge process, subsurface water, hydrogeomorphological characteristic, hillslope, piping, 08392.

slope failure history
palaeoenvironmental history, marine terrace, tephrochronology, pollen analysis, radiocarbon dating, Allerod Interstadial, postglacial, climatic change, landuse, Japan, Hokkaido, Hidaka District; 08401.

slope failure mechanism
hillslope development, humid tropical forest, translational failure, earthflow, shallow slide, saprolite, subsurface soil creep, shear strength, cove slope, landslide, soil process, Puerto Rico; 02550.

slope form
rock control, cross section, valley, coastal terrace, infiltration capacity, cone penetration hardness, Japan, Hokkaido, Funka Bay; 02507.

slope geometry
gully erosion, hillslope geometry, concave slope, gully evolution, colluvial sheet, Rampas de coluvies, subsurface flow, Brazil, Sao Paulo, Bananal; 10674.

slope gradient
DEM, elevation, slope aspect, USA, Oregon, Cascade Mountains; 10293. precipitation, infiltration, denudation rate, climate, fluvial soil loss, global scale, erodibility, sediment yield, relief, erosion rate, stream power, 01374. sub aerial denudation, passive margin, regional elevation, local relief, denudation rate, elevation, Africa, (Southern); 11833.

slope hydrology
subsurface flow, groundwater flow, hillslope scale, hillslope research, 11047. tropics, slope instability, resistance envelope method, hydrology-slope stability modelling, improved specification, 13050.

slope induced change
channel character, channel pattern, downstream fining, rational regime theory, hydraulic geometry, gravel bed, stream, UK, Scotland, Allt Dubhaig; 07138.

slope instability
landslide, highway, mass movement, geomorphological analysis, construction, human impact, Jordan; 11907. permafrost, ground ice, global change, sea level, coastal erosion, retrogressive thaw slump, Canada, Beaufort Sea Coastlands; 03911. resistance envelope method, hydrology-slope stability modelling, improved specification, slope hydrology, tropics, 13050. salt weathering, frost weathering, notch formation, cliff instability, pumice flow, Japan, Asama Volcano; 13062. sediment loading, earthquake, geotechnical data, submarine slope, seismicity, Banda Sea; 01245.

slope land management
GIS, error, data quality, Taiwan, Taitung; 06880.

slope length
erosion, deposition, Horton runoff volume, surface sealing, headcut incision, colluvial fan formation, infiltration, percolation, overland flow, runoff generation, rilling, sedimentation, 05125. water erosion, arable field, cause erosion, impact erosion, prediction erosion, soil erosion, surface roughness, rainfall intensity, slope angle, UK; 08542.

slope lowering rate
denudation rate, quantitative study, sediment transport, mountain drainage basin, Late Glacial, long term sediment transport, storage, alluvial fan, debris production, Holocene, slope stratigraphy, Japan, Central Japan, Matsumoto Basin; 11861.

slope mapping
aspect mapping, mapping, DEM, 11536.

slope model
stratification mechanism, slope deposit, subequatorial mountain, solifluction sheet, creep, gelifluction, sorting, frost heaving, stratified slope deposit, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713. valley side, slope evolution, loess, yuan, China, Loess Plateau; 13060.

slope modelling
rock fall, solifluction, creep, block field, landslide, talus, alluvial debris cone, Czechoslovakia, Slanske Vrchy; 03830.

slope monitoring
creep, interferometry, landslide, moire crack gauge, TM71 Crack Monitor, rock dilation, Canada, Alberta, Frank Slide; 10710.

slope morphology
hillslope hydrology, flood hazard, landslide hazard, hazard mapping, artificial reservoir, flood control, reservoir, sediment transport prediction, flow regime, runoff process, extreme flood, mountain hydrology, sediment deposition, flushing, 12136.

slope movement
nomenclature, landslide, IAEG Commission on Landslides, mass movement, English slope movement feature name, French slope movement feature name, 04914. reconstruction, past erosional force, tree ring information, torrential rainfall, landslide, debris flow, Japan, Rokko Mountains; 03835.

slope orientation
SAR, illumination requirement, geological structure, forested terrain, Canada, Canadian Shield; 08062.

slope pedimentation
soil property, landform evolution, weathering, landform model, soil formation, Malaysia, Padang Terap; 07434.

slope process
hillslope hydrology, soil erosion, slope stability, 10709. macroclimatic change, Holocene, soligenous fen, high Arctic, fault block, autochthonous peat deposit, macrofossil, rates of net organic accumulation, Canada, Northwest Territories, Ellesmere Island, Grant Land Mountains; 11965. mica gneiss, mica schist, saprolite, soil residuum, colluvium, secondary mineral, regolith, weathering, soil geomorphic relation, USA, North Carolina, Blue Ridge Front; 07420. mica schist, soil geomorphic relation, pedogenesis, mica gneiss, geomorphic position, colluvial transport, landscape context, USA, North Carolina, Blue Ridge Front; 07421. periglacial, mountain area, mass wasting, deglaciation, Little Ice Age, gelifluction, debris flow, Holocene, Poland; Scandinavia; 13188. slope evolution, regolith, weathering product, debris flow, lava slope, mud flow, altitudinal zonality, USSR, Armenian Highland; 08400. soil development rate, fault scarp dating, soil catena development, fault scarp, post-Tioga fault scarp, USA, California, Sierra Nevada; 02530. till, alpine slope, talus apron, rock glacier, snow avalanche, deglaciation, Quaternary geology, cirque glacier, Canada, Yukon Territory, Frances Lake; Northwest Territories, Frances Lake; 08470.

slope process activity
periglacial environment, topsoil, cascading system, sediment flux, Caesium-137, Sweden, Aknes; Karkevagge; 12001.

slope profile
bedrock terrace scarp, terrace scarp, space-time transformation, slope decline rate, fluvial terrace scarp, Japan, Chichibu Basin; 02553. tropical limestone, savanna vegetation, limestone, rock control, Australia, Western Australia, Napier Range; 13063.

slope repair
embankment, widening, overconsolidated clay, shallow slope failure, limit equilibrium method, safety factor, design approach, UK, England; 03735.

slope replacement
rock resistance, Richter type slope, fluvial incision, parallel retreat, caprock, slope development, Clarens Sandstone, South Africa, Orange Free State, Klerkspruit Valley; 10715.

slope retrogression
geomorphic effect, landslide, rotational type, mass movement, fault plane, cataclastic rock, piping, trigger mechanism, gully system, Venezuela, Andes, Aracay River, Buena Vista; 09521.

slope segment
computer model, solute transport, sediment transport, runoff, catchment model, Germany, Karlsruhe, Weiherbach Catchment; 06393.

slope shape
runoff, soil loss, irregular shape, 06218. soil erosion hazard, erodibility, erosion hazard, rill erosion, India, Punjab; 12041.

slope stability
chaparral, vegetation effect, soil slippage, pore pressure modification, USA, California, Transverse Ranges; 02549. critical failure mechanism, simplex analysis, 00246. deep opencast mine, complex geological condition, stability, opencast mine slope, finite element method, Krusne hory Fault, engineering-geological investigation, geotechnical investigation, Czechoslovakia, Bohemia; 01405. fabric reinforcement, cohesive soil slope, reinforced soil, 07177. flood, extreme event, geomorphology, flood damage, landslide, bank erosion, water table rise, foundation undermining, Spain, Pyrenees; 08690. groundwater level, aquifer recharge, water monitoring network, drainage system, water table rise, Italy, Urbino; 08769. joint, structural domain, stability analysis, sliding probability map, probabilistic approach, rock slope stability, Italy, Rome Region; 08389. landslide, retrogression surface, earthflow, sensitive clay, river erosion, Canada, Quebec, James Bay, La Grande River; 13052. neotectonics, stability remedial measure, rockfall cause, landslide cause, India, Himalayas, Kumaun Himalaya, Nainital, Naina Peak; 10716. Pleistocene, turbidite, deep sea fan, sedimentation, Mediterranean Sea, Ebro shelf; 05862. risk, debris slide, timber harvest, logging, mass movement checklist, classification accuracy, USA, California; 02548. root cohesion, forested hillslope, safety factor, avalanche headscarp, debris avalanche initiation, USA, Washington, Whatcom County, Smith Creek Basin; 06031. root strength value, root reinforcement, soil slip pattern, unstable hillside, chaparral, direct shear test, USA, California, Transverse Ranges; 13054. slope process, hillslope hydrology, soil erosion, 10709. soil pipe, landslide, research review, slope development, 07181. stability detection, rock slope, surficial excavation, Egypt, Asswan; 08065. steep slope, vegetation, debris slide, forested slope, tree root, landslide, Japan; 06040.

slope stability theorem
multiple solution, energy balance climate model, ice cap, albedo feedback, 06487.

slope statistic

radarclinometry, topographic map, radar image, 03286.
slope stratigraphy
slope lowering rate, denudation rate, quantitative study, sediment transport, mountain drainage basin, Late Glacial, long term sediment transport, storage, alluvial fan, debris production, Holocene, Japan, Central Japan, Matsumoto Basin; 11861.
slope transformation
river channel, bedload, channel geometry, slide, slump, uplift, forest clearance, transformation threshold, India, Himalayas, Darjeeling Himalaya; 10717.
slope unstability
geological structure, geotechnical characteristic, aquifer, hydraulic process, pressure measurement, interstitial pressure, France, Meurthe et Moselle, Chateau-sous-Clevant; 10702.
slope valley
glacimarine environment, subduction zone, sedimentological evidence, Yakataga diamict, GLORIA imagery, sediment pathway, low stands of sea level, USA, Alaska, Gulf of Alaska; 04970.
slope wash
sediment transport rate, gullying, rainfall intensity, threshold condition, thalweg gullying, loess, France, Paris Basin; Belgium; 10845.
slope waste deposit
freeze-thaw action, stratified slope deposit, stratified scree, grezes litees, periglacial environment, stratogenesis, France; 01458.
slope water flow
groundwater flow, pore water velocity, flow path, particle travel time, hillslope hydrology, runoff, Darcys law, 11034.
slope wind
terrain, gentle terrain, tower data, downslope flow, gravity flow, 07694.
slopeland development
soil conservation, water conservation, policy problem, environmental stress, Taiwan, Ta Chia River, Te Chi Watershed; 08413.
slopeland utilisation
conceptual framework, slope, land use, environment, Taiwan; 08415.
slopewash
flood event, proglacial storage, sediment concentration, Alpine sediment, sediment budget, sediment yield, suspended sediment, bedload transport, channel pattern, melt water flood, sandur, Switzerland, Val d'Herens, Bas Glacier d'Arolla; 07239. periglacial element, geological structure, relief, slope deposit, congelifluxion, Poland, Czestochowa Upland; 12002.
sloping land
hilly agricultural land, terrace, experimental study, erosion, crop production, bench terrace, Yugoslavia, Serbia; 02737.
sloping layer
aerosol layer, lidar, cloud cap, marine boundary layer, particle, 13649.
sloping terrain
conservation measure, Yallahs Valley Land Authority, soil erosion, land degradation, hillside farming, Jamaica, Fall River Basin; 10841. downslope motion, leeside wind, drainage flow, 10088. wind shear, baroclinicity, moist convection, scale selection, convection, 01853.
Slovak Hungarian Barrage
environmental change monitoring, geo ecological mapping, satellite imagery, floodplain, ox bow, backswamp, point bar, human influence, Hungary; 09532.
slow deformation
creep load, pressure measurement, nonlinear formulation, snow creep, alpine snow, 08403.
slow equation model
data initialisation, primitive equation forecast, filtered system, forecast, 07792.
slow flow
stream flow response, rainfall excess, parameter estimation, hydrograph separation, instantaneous unit hydrograph, upland catchment, quick flow, UK, Wales; 05138.
slow reaction
phosphate, goethite, sorptive behaviour, activation energy, Freundlich equation, 12073.
SLR
geocentric coordinate, coordinate, VLBI, 11435. tectonic motion, tectonic deformation, laser ranging, LAGEOS, 09186.
sludge
fishing, sedimentation, waste, environmental contamination, USA, Massachusetts Bay; Massachusetts, Boston Harbour; 07032. fractionation procedure, soil incorporation, groundwater quality, contaminant mobility, 00616. ocean dumping, dumping, floc, waste water, sewage, 08195.
sludge amended soil
cadmium, zinc, chromium, nickel, metal mobility, 01563. sewage sludge, soil profile, heavy metal accumulation, soil pollution, heavy metal, 09680. sorption, degradation, pentachlorophenol, 02772.
sludge amendment
PAH, plough layer, agricultural soil, 05086. PAH, soil pollution, heavy metal, agricultural soil, sewage sludge, 09688. soil, forest soil, nitrification, USA, Michigan; 02803.
sludge application
sewage sludge, trace metal, soil profile, Aeric Ochraqualf, 09679.
sludge use
sediment use, water purification, nutrient reuse, eutrophication, aquaculture, lake water quality, irrigation water, 02867.
slug flow
herbicide, groundwater contamination, chemical fate, bromide, atrazine, contaminant transport, tracer, preferential flow, piston flow, USA, Kansas, Great Bend Prairie; 02928.
slug injection method
mass balance, continuous injection method, dilution gauging, mountain stream, stream gauging, USA, California, Sierra Nevada; 08669.
slug test
groundwater level, computer program, hydraulic conductivity, 07536.
slump
debris flow, earthquake, slope failure, hazard, sediment failure, Japan Sea, Korea Plateau Slope; 10570. sediment supply, seafloor, iceberg, plough mark, Atlantic, Miller Region; 09368. slide, sediment transport, flood discharge, high magnitude, geomorphic work, rainfall event, mass movement, Spain, Pyrenees; 13016. uplift, forest clearance, transformation threshold, slope transformation, river channel, bedload, channel geometry, slide, India, Himalayas, Darjeeling Himalaya; 10717.
slump complex
decollement surface, deformation, mass movement, Tertiary, Ireland, Porcupine Basin; Atlantic, (Northeast); 12879.
slumping
acoustic void, sedimentation, mass movement, methane, diapirism, Indonesia, Savu Basin; 00145. autochthonous, debris flow, bedform, earthquake, turbidity current, Atlantic, Grand Banks; Laurentian Fan; 03572. Pleistocene, Holocene, sedimentation, continental slope, turbidite, USSR, Caucasus, Black Sea Margin; 10567. reef, coral, calcium carbonate, bioerosion, carbonate production, storm, Virgin Islands, St.Croix; 00065. seafloor erosion, continental slope, truncation, erosion, USSR, Black Sea; 12878. shear strength, wave, channel bank, bioturbation, tidal channel, Argentina, Bahia Blanca Estuary; 03539. structure, fluvial process, channel bank collapse, Tertiary, synsedimentary deformation, Germany, Lower Rhine Basin; Cologne-Duren Area, Hambach; 04706.
slurry
aromatic compound, anoxic sediment, marine sediment, fresh water sediment, syringic acid, anaerobic degradation, sulphur, demethoxylation, gas, 07085. metal, mobility, diagenesis, degradation, organic matter, 01253. photosynthesis, anoxic hypolimnia, methane, oxidation, wetland, Denmark; 07101.
slurry flow
steep slope, grain fluid mixture, bedload transport capacity, 05990.
slush avalanche
boulder tongue, geomorphic impact, spring avalanche, snow avalanching, avalanche, denudation rate, pellicular avalanche, Svalbard, Spitsbergen; 06042. lahar, released meltwater, eruption, snow pack, ice cap, Colombia, Nevado del Ruiz Volcano; 00243.
slush flow
Little Ice Age, lichenometric dating, snow field, permafrost mound, greenhouse warming, geomorphic feature, climatic fluctuation, periglacial environment, mass movement, climatic indicator, debris flow, Sweden, Abisko Mountains; 02696.
Sluyter,P.
map, Van Deventer,J., Netherlands, Gorinchem; 04574.
Smackover Formation
isotopic composition, burial, interstitial fluid, Jurassic, rare earth element, USA, Gulf Coast, Arkansas Shelf; 01278. San Andres Formation, diagenesis, fresh water lens, carbonate, grainstone, palaeoisland, Holocene, USA, Louisiana; Texas; 08228.
small basin
semi arid area, runoff storage, soil type, surface retention, antecedent soil moisture, separation curve, incipient runoff curve, infiltration, rainfall runoff model, point infiltration model, USA, Wyoming; 09792.
small catchment
channel protection, flood, design flood, 00516. surface water quality, atmospheric deposition, soil dynamics, cation loss, acidification, sulphate retention, afforestation, deforestation, nitrate leaching, vegetation type, biogeochemistry, France, Mont Lozere; 04154.
small crystal
aerosol, cirrus cloud, scavenging efficiency, cloud chamber, 13711.
small dam
arid region, sand dam, drought, water resource management, subsurface dam, water conservation, dam, Africa, Sahara; Sahel; 09930.
small dome
analog, lava shield, lava shield volcano, lava shield production rate, venusian analog, fissure eruption, Magellan radar image, Iceland; 02525.
small format film product
camera design, reseau image, close range photogrammetry, 12604.
small format photogrammetry
oblique photograph, terrestrial photogrammetry, photogrammetry, 04483.
small format photography survey
scale, object definition, aerial photography, 02091.
small fruit crop
runoff, Gerlach trough, soil loss, row cropping, sweet potato, soybean, USA, Alabama; 00359.
small sample
radiocarbon dating, liquid scintillation counting, intercomparison test, low carbon content, 02580.
small satellite technology
design issue, remote sensing application, 12593.
small scale flow
vortical flow, downslope windstorm, windstorm, storm damage, 10105.
small scale map
environmental planning, planning, map, Scandinavia; 09205.
small scale mixing
boundary layer, inversion, kinetic energy, entrainment, turbulent flux, cloud top entrainment, 04303.
small scale permeability
large scale permeability, groundwater flow model, permeability, 09888.
small watershed
geology, geomorphology, soil, climate, hydrology, water use, land use, coal mining history, USA, Indiana, Clay County; Owen County; USA, Indiana, Sullivan County; USA, Indiana, Vigo County; 05248.
small-scale forcing
staggered grid, finite difference model, shallow water integration, forcing scheme, 00667.
smallholder farming
food crop, GIS, crop modelling system, rural appraisal, Papua New Guinea, Morobe Province; 08104.
smalltalk implementation
heuristic, oriented locational analysis, 06760.
SMARTSCAN
scanner technology, raster, optical disk technology, 05579.

smear slide
identification, optical property, marine sediment, classification, 00200.
smectite
accretionary complex, thrust fault, clay mineralogy, subduction, decollement, volcanic ash, Atlantic, Barbados Ridge; 01356. ash, Scalia Rossa, Cretaceous, bentonite, montmorillonite, volcanic ash, Campanian, Italy, Marchigiano Appenines, Furlo Gorge; 01354. chalcopyrite, weathering, copper adsorption, Burkina Faso; 08297. contaminant, groundwater, anthropogenic activity, nitrogen heterocycle compound, sorption, 04767. Cretaceous, thermal history, burial, bentonite, illitisation, USA, Colorado, Denver Basin, Wattenberg Gas Field; 10652. deformation, clay-water system, soil mechanics, engineering, 04691. delta lobe, Nile delta clay, palaeoclimate, palaeogeographic evolution, radiocarbon dated core, clay mineralogy, kaolinite, Egypt, Nile Delta; 11854. equilibration, clay mineral, pore water, illite, silica, 11809. erosion, rifting, flysch, sedimentation, weathering, Cretaceous, burial, illite, Europe, Alps, Lombardian Basin; 11756. halloysite, clay mineral, weathering, pyroclast, layer charge, Cameroon; 02475. illite, source, denudation, uplift, weathering, clay mineralogy, India, Himalayas; Tibetan Plateau; 04868. illite, Tertiary, Cretaceous, sandstone, feldspar, shale, USA, Wyoming, Green River Basin; 02444. isohyperthermic temperature regime, ustic moisture regime, clay mineral, Andisol, halloysite, USA, Hawaii; 05096. maleic hydrazide, mineral soil component, adsorption capacity, sorption-desorption, iron oxide, fibrous clay, 13255. montmorillonite, beidellite, pumice, clay mineral, spring water, Indian Ocean, Kerguelen Islands; 08301. montmorillonite, oxygen isotope, phillipsite, analcime, diagenesis, illite, USA, California, Searles Lake; 09329. Mossbauer spectroscopy, aluminium for silica substitution, Kimmeridgian, diagenesis, illite, North Sea; 09445. Neogene, organic matter, clay mineral, thermal history, hydrocarbon, Czechoslovakia, Transcarpathian Depression, Vienna Basin; 05917. overpressuring, dehydration, shale, mudrock, isotope, illite, USA, Texas, Gulf Coast; 11812. paleosol, Tertiary, chlorite, detrital origin, illite, China, Yacheng Gas Field; 10656. permeability, porosity, consolidation, microfabric, clay, Weddell Sea, South Orkney; Antarctica, Leg 113, South Orkney; 03519. Pliocene, illite, accretionary prism, abyssal plain, Atlantic, Barbados Ridge, ODP Site 671; ODP Site 672; 01355. pyroclastic rock, volcanic region, hydrothermal alteration, hydrolysis, bentonite, Spain, Almeria, Cabo de Gata; 07115. Quaternary, soil, clay mineral, Indian Ocean, Kerguelen-Heard Plateau; 11814. sedimentation, clay mineral, Callovian-Oxfordian, Jurassic, Europe, Anglo-Paris Basin; 01294. soil, mineral weathering, phyllite colluvium, serpentinite, haplohumult, argixeroll, colluvium, weathering, chlorite, serpentine weathering, USA, California, Klamath Mountains; 12014. subduction, decollement, illite, earthquake, consolidation, seismicity, 01184. submarine volcanism, hydrothermal reaction, pelagic sediment, Neogene, clay mineral, Quaternary, Pacific, (Central); 11699. swelling, adsorption, desorption, hysteresis, montmorillonite, 04866. swelling, oil well drilling, calcium chloride, compaction, rheology, 09312. Tertiary, palaeoclimatic environment, Fort Hancock Formation, soil horizon, Vertisol, USA, Texas, Hueco Bolson; Mexico, Chihuahua; 09416. TGA, calcium, montmorillonite, sample size, sample packing, 03682. tuff, zeolite, Sucker Creek Formation, Miocene, clinoptilolite, diagenesis, opal CT, USA, Oregon, Succor Creek Canyon; 08293. volcanic activity, clay mineralogy, Cenozoic, provenance, Pacific, Peruvian Continental Margin; 02479. weathering, illite, chlorite, palygorskite, pelagic carbonate, turbidite, Arabian Sea; 12895. zeolite, diagenesis, volcaniclastic sediment, chlorite, Puerto Rico, North Coast Basin, Toa Baja Well; 10653.
smectite kaolinite
loess, frost action, silt-enriched, alpine, surface mantle, soil profile, granite gneiss, clay mineralogy, gelifraction, chemical weathering, vermiculite, illite, chlorite, USA, Wyoming, Wind River Range, Indian Basin; 12015.
smectite like mineral
kaolinite, geothite, hematite, weathering profile, monosiallitisation, ferruginisation, weathering mantle, chemical weathering, chlorite, palaeoweathering, Hercynian Massif, Spain, Iberian Hercynian Massif; Portugal, Iberian Hercynian Massif; 02707.
smectite neogenesis
mineral component, simulated lunar soil, crop plant, weathering, Moon, plant-induced, USA, Minnesota, Duluth; 12018.
smectite sand mixture
charge density, permeability, clay sand mixture, hydroxy polymer, hydraulic conductivity, 07343.
smectitic mineral
marine sediment, Jurassic, Paleogene, pedogenic formation, beidellite, weathering, 07113.
smectitic soil
exchangeable potassium percentage, potassium, calcium, illitic soil, kaolinitic soil, exchange equilibrium, India; 12119. kaolinitic soil, exchange equilibrium, potassium, illitic soil, India; 12118. sorption desorption, caesium-137, clay mineralogy, kaolinitic soil, illitic soil, Australia, Western Australia; 09712.
smelter
point source, PCB, organochlorine, organic matter, organism, bacteria, North Sea; 08213.
smeltery
dust, heavy metal, migration, 06705.
smelting
sedimentation rate, industry, organic matter, contaminant, PAH, Canada, Quebec, Saguenay Fjord; 00103.
SMMR
Nimbus-7 SMMR data, soil surface temperature, frozen ground, mapping, freeze-thaw boundary, USA, (Midwest); 02694. polarisation, visible reflectance, AVHRR, arid land, Africa, Sahel; Sudan; 04595. sea surface emissivity, SEASAT, scatterometer system, 10384. seasonal, inter annual variation, sea ice extent, radar altimetry, GEOSAT radar altimeter, Antarctica; 05048. vegetation index, forest, agriculture, land surface evaporation, AVHRR, Australia; 10383.
smog
CORINE, soil, erosion, 13896. heat wave, discomfort index, physiologic equivalent temperature, weather, climate, illness, death, bioclimatology, urban environment, 02037.
smog chamber
air quality, ozone precursor, ozone, hydrocarbon, nitrogen oxide, USA, California, Los Angeles; 11379. dimethyl sulphide, dimethyl disulphide, photooxidation mechanism, 09037. sea spray, aerosol, chlorine, salt, heterogeneous production, 06631.
smog episode
regional scale model, episodic concentration, episodic deposition, acidifying components, transport model, 07832. sulphur dioxide, nitrogen oxide, sulphate, nitrate, transport model, dispersion condition, control measure, emission scenario, 07831.
smog fog smog cycle
acid deposition, aerosol, droplet microphysics, 09062.
smog index
pollution monitoring, urban atmosphere, Terrain Protection Factor, 01974.
smog warning
air quality monitoring, particulate matter, pollution, Germany; 01981.
smoke
anthropogenic pollution, aerosol, satellite measurement, pollution, aerosol optical thickness, particle size, scattering albedo, 04357. aviation fuel burning, self lofting, solar heating, emission factor, optical property, temperature inversion, 04385. burning oil, oil well, soot transport model, monsoon, climate response, Kuwait; 13645. dispersion model, soiling, particulate, carbon, transport, emission inventory, building surface, particulate elemental carbon, diesel emission, 13722. emission control, heavy goods vehicle, diesel debate, 09028. emission, wildland, fire, biomass, 13742. nuclear winter, nitric oxide, stratosphere, dust, fireball, particle, 02997. oil spill, organic carbon, fuel layer, PAH, emission, combustion, crude oil, pollution, 05538. particle size, optical thickness, satellite measurement, pollution, forest fire smoke, USA; Canada; 04358. photometer, aerosol, spectral optical depth, optical depth, jet fuel, forest fire, 11158. stratospheric air, ozone depletion, postwar condition, nitrogen oxide, nuclear fireball, 11332. temperature inversion, urban pollution, sulphur dioxide, frequency analysis, Greece, Athens; 13684.
smoke layer
surface wetness, boundary layer, soil layer, aerosol, 04458.
smoke pall
Space Shuttle, burning, biomass, Brazil, Amazon Basin; 04625.
smoker chimney
helictite, speleothem, helictite bush, subaqueous speleothem, thermal water, USA, South Dakota, Wind Cave; 10723.
smoking
ozone, particulate matter, sinusitis, hay fever, urban air quality, respiratory disease, health history, 09056.
Smolarkiewicz method
algorithm, advection equation, numerical error, Taylor-Galerkin method, Petrov-Galerkin method, accurate space derivative method, 13480. particle growth, moving finite element method, population balance equation, upwind differencing, 00491.
smooth mountain slope
mass movement, pumice, solifluction deposit, tephra, quantitative characteristics, periglacial slope deposit, Japan, Hokkaido, Hidaka Mountains; 00333.
smooth slope
slope evolution, periglacial denudation, frost-riven cliff, cryopediment, rate of cryoplanation, frost action, gelifluction, wash, cryoplanation surface, Hungary, Tokaj Mountains; 12003.
smooth surface
colour map, continuous surface illustration, mapping, 09158.
smoothed altitude
modelisation, precipitation, rainfall modelling, France, Vosgien Massif; 09985.
smoothing scale length
observation spacing, Barnes objective analysis scheme, response function, Fourier transform, 05274.
smouldering fire
trace gas, remote sensing, biomass burning, emission, particulate, flaming fire, 04359.
snail
boreal forest species, treeline, temperature depression, modelling result, CLIMAP, full glacial summer temperature, summer temperature, Wisconsinan, vegetational zonation, pollen, macrofossil, North America; 02662. lichen, fertilisation, nitrogen, Israel, Central Negev Highlands; 01608. vertebrate, fauna, palaeoclimatic reconstruction, palaeoenvironmental reconstruction, reconstruction, Holocene, Poland, Cravow, Grodzisko, Nad Mosurem Starym Duza Cave; 06165.
snail shell
rainfall source area, radiocarbon date, atmospheric circulation, circulation pattern, oxygen isotope, Holocene, land snail, Israel, Negev Desert; 13099.
Snells law
cellular automata, erosion, landform, surface erosion modelling, isotropic erosion, Huyghens wavefront construction, computational cellular method, wave method, 10668.
SNOTEL
hydrometeorological data, data collection system, meteor burst technology, snowpack, telemetry, 09783.
snow
ablation, snow melt cycle, condensation, air temperature, energy balance analysis, avalance deposit, Pakistan, Himalaya Mountains; 09910. airborne pollutant, atmospheric deposition, long range transport, pH, trace metal, Japan, Hokuriku Region; 07577. Arctic ice cap, ice cap, low Arctic, tundra, seasonal pollen variation, annual pollen variation, pollen content, Canada, Ellesmere Island, Agassiz Ice Cap; 07224. atmospheric deposition, acid, heavy metal, carbon, nutrient, pollutant, wet only sampler, ecotoxic heavy metal, dissolved organic carbon, rain water, Netherlands, Yerseke; 09043. calcium, sulphate, nitrate, glaciochemical data, sodium chloride, Asia, Himalayas, Karakoram; 01750. Carmen constant, Darcy permeability, 04192. denitrification,

polar stratospheric cloud, stratosphere, ozone depletion, nitrate, Antarctica; 03200. desertification, wind speed, surface creep, saltation, suspension, aeolian transport, 05794. field teaching medium, earth science, scientific concept, teaching, 09609. freezing condition, aviation, severe weather, aircraft take off, landing performance, heavy rain, 07620. freezing rain, ice pellet, particle shape, terminal velocity, precipitation, accretion, Canada; 04315. glacier, water balance, river flow, bed load, water cycle, hydrological modelling, acid rain, basin characteristic, surface water resource, measurement method, mountain hydrology, evaporation estimation, river discharge, precipitation measurement, 12135. gliding, clast orientation, talus fabric, particle gliding, USA, California, Lassen Peak; 01408. graupel, hail, mie property, microwave radiative model, radiative transfer, cloud water, rain, ice, 05370. ground, thermal regime, subarctic woodland, snowpack, open woodland, Canada, Quebec, Schefferville; 01456. hail, radar, radar satellite, weather radar networking, real time measurement, precipitation, rain, Europe; 05365. ice core, spatial variability problem, depth profile, core, chemistry temporal change, precipitation chemistry, 09605. ice sheet, radionuclide, air snow fractionation, beryllium-7, lead-210, Denmark; Greenland; 11324. ice, carbon dioxide, lead, methane, radioactive species, nuclear bomb test, Chernobyl accident, nitrate, sulphate, organochlorine, ice core, pollution, Antarctica; Greenland; 05525. ice, depth hoar, hoar, Greenland; 09290. ice, fog, rain, visibility, weather radar data, road weather service, 05323. ice, glacier, cloud, fog, USA, Alaska, Malaspina Glacier; 11607. ice, relief evolution, dynamics, spatial organisation, geomorphic process, mountain area, timberline, 11836. ice, TIROS, vertical sounder, temperature retrieval, Antarctica; 06432. land-sea boundary, satellite, microwave radiometer, cartographic referencing, 00960. lead, sulphur, fossil fuel, acid precipitation, precipitation chemistry, USA, California, Sierra Nevada; 03205. Mars, water cycle, diamond dust, ice haze, 07625. micrometeorological technique, diurnal pattern, runoff delay, melt energy computation, ablatometer measurement, melting ice, Canada, Alberta, Peyto Glacier; 00338. microwave, radiometry, ice, Antarctica; 04650. microwave, remote sensing, 02274. nitrogen, anthropogenic emission, natural emission, emission, nitrate, 00887. numerical simulation, powder snow avalanche, Boussinesq approximation, turbulence, avalanche, Japan, Niigata Prefecture, Maseguchi; 01411. objective guidance, mesoscale forecast, lake effect, Canada, Great Lakes, Lake Huron, Georgian Bay; 11276. pendular regime, mathematical model, liquid water content, capillary pressure, experimental method, theoretical determination, characteristic equation, 01462. pH value, cloud water, ion concentration, supercooled cloud, chemical composition, 10185. precipitation chemistry, chloride, nitrate, sulphate, Australia, Snowy Mountains; 00863. precipitation chemistry, zinc, sodium, magnesium, aluminium, iron, calcium, sulphate, chloride, cadmium, copper, lead, snow core, volcanic emission flux, trace element, Colombia, Nevado del Ruiz; 03148. rain water, snow chemistry, inorganic ion, hydrogen peroxide, sulphate, sodium, chloride, nitrate, precipitation, chemistry, USA, California; 04419. rain, melting, refreezing, terminal velocity, storm, air-sea interaction, precipitation, Canada, Nova Scotia; 01927. runoff discharge, flood forecasting, snowmelt, surface temperature, freezing depth, heat balance method, 04148. sampling technique, mercury content, ice, Antarctica; 12550. satellite observation, orthogonal function, snow cover variation, Europe; Asia; North America; 04197. sedimentation record, brown snow, long range transport event, transport, particulate, trajectory, clay mineral composition, soot particle, Arctic; Canada, Keewatin; 09017. snow flake, precipitation, aerosol, particle, aerosol physics, 04407. soil frost, flow path, frozen soil, soil water-heat model, infiltration, drainage flow, frost, surface runoff, percolation, Sweden; 13437. soil moisture, muskoxen, plant community, microclimate, Canada, Northwest Territories, Ellesmere Island, Sverdrup Pass; Arctic; 07684. soil water, radiation balance, albedo, humidity, water vapour, infrared irradiance, chinook, Canada, Alberta; 04218. temperature budget, sea ice, winter, inversion, air-ice momentum coupling, radiation deficit, 13536. temperature, solar altitude, albedo decay, prairie snow, 04217. transmissiometer, snowflake, cyclone snow sampler, mass extinction coefficient, visible radiation, infra red radiation, 05379. vertical dispersion, Chernobyl fallout, melt water, glacier, radioactive contamination, fallout, alpine glacier, Austria, Otztal Alps, Kesselwandferner; 12263. wind transport, atmospheric shear force, aerodynamic roughness height, transport rate, friction velocity, saltation, 04147.

snow accumulation
ablation, temperature, precipitation, snowline modelling, New Zealand, Otago, The Remarkables; 00620. carbon dioxide induced climatic change, snowpack, stream flow, National Weather Service River Forecast System model, climatic change, snow melt, USA, Montana; 05132. integrated model, sulphate, snowmelt quality, snowmelt quantity, seasonal variation, 02934. snow cover, cartographic analysis, 03459. surface topography, katabatic zone, elevation profile, accumulation rate, maritime synoptic system, depositional regime, Antarctica, Wilkes Land; 02701.

snow accumulation hollow
soil stratigraphy, pollen assemblage, snow patch, slope break, environmental change, Holocene(Late), Japan, Echigo Range, Mount Tango; 10794.

snow albedo
Landsat, hydrological model, 05750.

snow algae
snow chemistry, sulphate, nitrate, ammonium, potassium, green alga, Chloromonas, acid rain, USA, New York; Canada, Quebec; 04406.

snow avalanch
snowpack, tree damage, stability, avalanch, fuzzy set, fuzzy factorial analysis, 04923.

snow avalanche
avalanche morphometry, avalanche path pattern, USA, Montana, Glacier National Park; 09278. avalanche runout, runout distance, extreme value, value prediction, 13070. debris flow, hazard, geological mapping, mass movement, land use planning, mass movement, rockslide, rockfall, Norway; 07190. deglaciation, Quaternary geology, cirque glacier, slope process, till, alpine slope, talus apron, rock glacier, Canada, Yukon Territory, Frances Lake; Northwest Territories, Frances Lake; 08470. sediment load total, avalanche, debris transport, Pakistan, Himalaya, Kaghan Valley; 03834.

snow avalanche path
GIS, lithologic, structural, topographic influence, remote sensing, USA, Montana, Glacier National Park; 03825. morphometric information, buffer, probability map, GIS, USA, Montana, Glacier National Park; 03460.

snow avalanching
avalanche, denudation rate, pellicular avalanche, slush avalanche, boulder tongue, geomorphic impact, spring avalanche, Svalbard, Spitsbergen; 06042.

snow band
forecast, winter storm, remote sensing, lake effect, snow storms, nowcast, Canada, Great Lakes, Lake Ontario; 11275.

snow bearing wind
glaciation pattern, Cenozoic(Late), glaciation, ice cap, Australia, Tasmania, Central Highlands; 07243.

snow chemistry
carbonyl, carboxylic acid, formaldehyde, acetaldehyde, adlehyde, glyoxal, methylglyoxal, benzaldehyde, formic acid, acetic acid, USA, California; 04420. chromatographic process, preferential elution, ion chromatographic property, meltwater chemistry, 02939. electrical conductivity, air pollution, precipitation chemistry, wet deposition, Switzerland, Canton of Appenzell, Gais; Alpstein; 08653. elevation, atmospheric deposition, snow collector, ionic concentration, UK, Scotland; 00617. inorganic ion, hydrogen peroxide, sulphate, sodium, chloride, nitrate, precipitation, chemistry, snow, rain water, USA, California; 04419. meltwater chemistry, environmental impact, heavy metals, snowpack, Sea of Japan; 01743. mineral dust, isotope, seasonal variation, glaciology, cosmogenic isotope, 13731. oxygen isotope, hydrogen isotope, strontium isotope, atmospheric deposition, isotope tracer, Scandinavia; 07578. snow cover, groundwater recharge, water quality, precipitation chemistry, Switzerland, Alps; 08654. snow cover, snow melt chemistry, trace ion chemistry, maritime airmass, ice crystal, melt water, sulphate, nitrate, spring thaw, UK, Scotland; 04404. sulphate, nitrate, ammonium, potassium, green alga, Chloromonas, acid rain, snow algae, USA, New York; Canada, Quebec; 04406. sulphate, sodium, chloride, magnesium, sea water, sea salt, convective mixing layer, deposition, snow melt run off, Japan, Sapporo; 04405.

snow cloud discrimination
AVHRR, cloud cover, 12687.

snow collector
ionic concentration, snow chemistry, elevation, atmospheric deposition, UK, Scotland; 00617.

snow core
volcanic emission flux, trace element, snow, precipitation chemistry, zinc, sodium, magnesium, aluminium, iron, calcium, sulphate, chloride, cadmium, copper, lead, Colombia, Nevado del Ruiz; 03148.

snow core data
snow water equivalent, Martinec and Rango degree day method, tree morphology, alpine catchment, precipitation measurement, raingauge, snowfall, USA, Wyoming, Glacier Lakes Ecosystem Experiments Site; 09909.

snow cover
albedo, oceanic roughness, NCAR CCM, carbon dioxide, summer melting, glaciation sensitivity, 08419. cartographic analysis, snow accumulation, 03459. forest limit, permafrost, thermal seasonality, mountain belt, season, Spain, Pyrenees; France, Pyrenees; 11167. frost, forest, air temperature, soil temperature, Sweden, Svartberget; 03037. frost, ground temperature, valley, precipitation, Sweden, Abisko; 03038. frost, precipitation, frost depth, USA, Idaho, Reynolds Creek; 00708. frost, soil frost, soil temperature, Finland, Kuusamo; 01825. groundwater recharge, water quality, precipitation chemistry, snow chemistry, Switzerland, Alps; 08654. hydro electric power, snow melt runoff, satellite monitoring, Switzerland, Tavanasa; Sedrun; 09279. hydrologic, airborne snow cover product, satellite snow cover product, 11604. ice cover, glaciation, carbon dioxide, greenhouse warming, climate change, albedo, temperature, Pleistocene, 00777. intergranular melt, borehole jack indentation data, uniaxial compressive strength ratio, radiation decay, river ice, solar radiation, 12268. isotopic composition, altitudinal gradient, mountain hydrology, Switzerland, Alps; 12261. mountain basin, karst aquifer, snow melt, aquifer recharge, runoff, solar radiation, groundwater discharge, France, Doubs; 08789. negative anomaly, seasonal mean, satellite imagery, secular variation, Northern Hemisphere; 12484. Nimbus 7, microwave radiometry, Finland; 09281. ozone, global change, sea surface temperature, vegetation index, radiation budget, 12587. Pleistocene, periglacial, eolian deposit, sedimentary facies, depositional process, sand sheet deposit, sand-loess intergrade, sand dune, loess, USA, Alaska; 02693. research problem, physical property, seasonal snow cover, layered character, 10810. runoff estimation, water equivalent variation, air temperature, precipitation, wind speed, water vapour pressure, global radiation, cloud cover, snow water equivalent, Switzerland, Alps; 08798. runoff variation, parallel hydrometric measurement, hydrograph, snow melt, flood wave, glacier, USSR, Pamir Mountains, Abramov Glacier; Europe, Alps, Vernagt Glacier; 08797. runoff, stream discharge, soil water discharge, water storage, water balance, Antarctica, King George Island; 01744. satellite data, hydrological modelling, mountainous terrain, cloud cover, Canada, Rocky Mountains, Kootenay Watershed; 08645. snow melt chemistry, trace ion chemistry, maritime airmass, ice crystal, melt water, sulphate, nitrate, spring thaw, snow chemistry, UK, Scotland; 04404. snow melt model, runoff, flood forecasting, lysimetric snow pillow station, hydrology, monitoring station, Austria, Kuhtai; Tyrol; 08795. snowmelt runoff, runoff forecasting, DEM, Italy, Cordevole River; 10448. solar activity, quasi-biennial oscillation, grain yield, 06429. temperature distribution, glacier, ablation area, polar type glacier, temperate type glacier, China; 01468.

snow cover cycle
hydrochemistry, snowmelt, catchment hydrology, hillslope hydrology, 11083.

snow cover energy

mass balance model, fir forest, heat transfer, water retention, meltwater runoff, Canada, Quebec, Lac Laflamme; 01747.
snow cover mapping
snowmelt runoff simulation, AVHRR, Landsat MSS, microcomputer, 01133.
snow cover variation
snow, satellite observation, orthogonal function, Europe; Asia; North America; 04197.
snow covered area
snowmelt, Landsat, remote sensing, aerial photography, river discharge, snow depth, water content, dry weather discharge, Israel, Jordan River; Mount Hermon; 00624.
snow covered ice
radar backscatter, sea ice, ice thickness, 01125.
snow covered mountain catchment
water yield model, soil water balance, overland flow, base flow, total runoff, soil storage, storage discharge relationship, Iran; 05133.
snow covered terrain
temperature variation, 11211.
snow creep
alpine snow, slow deformation, creep load, pressure measurement, non-linear formulation, 08403.
snow crystal
acid snow, cloud chemistry, sulphur dioxide, scavening, 06550.
snow depth
frost depth, palsa mire, Finland, Utsjoki; 03039. frost depth, soil temperature, temperature, energy balance, soil heat flow, surface energy balance, 08878. microwave radar, radar, Norway; 09280. reflectance, albedo, Landsat TM, USA, Minnesota; 08123. water content, dry weather discharge, snow covered area, snowmelt, Landsat, remote sensing, aerial photography, river discharge, Israel, Jordan River; Mount Hermon; 00624.
snow drift
rough sea, dust storm, friction velocity, roughness, thermal stability, mobile surface, 03068.
snow evaporation
bulk aerodynamic formula, sensible heat transfer, air temperature, snow surface temperature, 04244. melt rate, evaporation, wind speed, Canada, Alberta; 00621.
snow fall
radar, snow gauge, Japan, Sapporo; 04207. radar, snow gauge, rain, 04203.
snow field
permafrost mound, greenhouse warming, geomorphic feature, climatic fluctuation, periglacial environment, mass movement, climatic indicator, debris flow, slush flow, Little Ice Age, lichenometric dating, Sweden, Abisko Mountains; 02696.
snow flake
precipitation, aerosol, particle, aerosol physics, snow, 04407. wind tunnel, melting, ice, 01931.
snow gauge
rain, snow fall, radar, 04203. snow fall, radar, Japan, Sapporo; 04207.
snow gun hypothesis
isotopic signature, deepwater temperature, deep water, tectonic forcing, orbital forcing, warm saline deep water, ice volume fluctuation, sea level history, Tertiary, ice sheet dynamic, 12008.
snow hydrology
ice hydrology, snowstorage, glacier, water balance, river flow, remote sensing, hydrograph separation, monitoring technique, 08794.
snow ice
frazil ice, negative concentration, oxygen-18 concentration, sea ice, Weddell Sea; 07309.
snow line
tree line, lake level, palaeoclimate, glaciation, temperature, rainfall, Burundi; 00778.
snow melt
ablation, energy flux, energy balance, snowbank, permafrost zone, albedo, Canada, Northwest Territories, Melville Island; 06466. acid pulse, dystrophic lake, buffer capacity, precipitation quality, acidification, cirque lake, lake water quality, Germany, Black Forest; 08729. annual fluctuation, seasonal fluctuation, precipitation, stream flow, flooding, drought, climatic variation, El Nino/Southern Oscillation, Chile, Aconcagua River Basin; 09786. aquifer recharge, runoff, solar radiation, groundwater discharge, snow cover, mountain basin, karst aquifer, France, Doubs; 08789. atmospheric deposition, brackish lake, lake water quality, nitrogen metabolism, seasonal variation, nitrate nitrogen, Japan, Lake Nakanoumi; 06311. channel flow, telemetry system, flood warning system, flow forecasting system, river control, water management, rainfall runoff, 05142. deuterium, soil moisture, recharge, unsaturated flow, isotopic investigation, hydrometric investigation, preferential flow, groundwater recharge, hillslope, translatory flow, 07529. flood wave, glacier, snow cover, runoff variation, parallel hydrometric measurement, hydrograph, USSR, Pamir Mountains, Abramov Glacier; Europe, Alps, Vernagt Glacier; 08797. flood, sediment yield, dambreak, mountain stream, runoff, transport rate, sediment transport regime, USA, Colorado, Roaring River; 08728. frozen soil, thaw, rill erosion, gully erosion, arable land, acceptable soil loss, water erosion, Sweden; 02735. glacier, mass balance, runoff, mountain basin, river discharge, remote sensing, 08792. groundwater movement, potassium iodide tracer, unsaturated soil, frozen soil, macropore channel, preferential water movement, glacial till, 05240. hydrograph, outburst wave, lake outburst, glacier, lake filling, USSR, Tien-shan, Mertzbacher Lake; 08796. melt water chemistry, water quality, mineral dust, dust deposition, melt water quality, 06380. permafrost degradation, biogenic process, shallow water basin, hydrochemistry, Svalbard, Spitsbergen, Billefjorden, Ebbadalen; Arctic; 05246. precipitation, winter temperature, runoff peak, soil moisture condition, rainfall intensity, rainfall runoff model, climate change, peak flow, Sweden; Finland; 05149. rain-on-snow event, quickflow, antecedent condition, hydrograph recession, basin runoff, suburbanisation, runoff regime, 00622. reservoir system, catchment characteristic, water supply system, runoff, Spain, Madrid; 08677. runoff forecast, remote sensing, USA, Colorado; 09272. snow accumulation, carbon dioxide induced climatic change, snowpack, stream flow, National Weather Service River Forecast System model, climatic change, USA, Montana; 05132. soil erosion, runoff measurement, experimental plot, rainfall intensity, redeposition, infiltration, Hungary, Gaja Valley; 08549.
snow melt chemistry
trace ion chemistry, maritime airmass, ice crystal, melt water, sulphate, nitrate, spring thaw, snow chemistry, snow cover, UK, Scotland; 04404.
snow melt cycle
condensation, air temperature, energy balance analysis, avalance deposit, snow, ablation, Pakistan, Himalaya Mountains; 09910.
snow melt model
runoff, flood forecasting, lysimetric snow pillow station, hydrology, monitoring station, snow cover, Austria, Kuhtai; Tyrol; 08795.
snow melt modelling
fir forest, energy balance, model, all-wave radiation, air temperature, 13529.
snow melt run off
snow chemistry, sulphate, sodium, chloride, magnesium, sea water, sea salt, convective mixing layer, deposition, Japan, Sapporo; 04405.
snow melt runoff
satellite monitoring, snow cover, hydro electric power, Switzerland, Tavanasa; Sedrun; 09279. silica, acid neutralising capacity, base cation, chemical weathering, water chemistry, mountain basin, surface water groundwater interaction, USA, California, Sierra Nevada, Emerald Lake; 08735.
snow melting
oxygen isotopic composition, firn core, ice sheet, Antarctica; 03119.
snow pack
ice cap, slush avalanche, lahar, released meltwater, eruption, Colombia, Nevado del Ruiz Volcano; 00243.
snow particle size
lake effect snow, particle aggregation, USA, Lake Michigan; 04314.
snow patch
nivation, chemical weathering, Schmidt hammer, enhanced boulder weathering, Norway, Jotunheimen, Jostedalen; 00351. peat accumulation, alpine zone, pollen analysis, palsa, Holocene, mire development, timberline, Japan, Hokkaido, Daisetsuzan Mountains; 10792. slope break, environmental change, Holocene(Late), snow accumulation hollow, soil stratigraphy, pollen assemblage, Japan, Echigo Range, Mount Tango; 10794.
snow property
ice property, SAR, BEPERS-88, 09285.
snow region
mesoscale circulation, radar detection, precipitation type transition, winter, storm, updraft, Canada, Ontario; 11170.
snow sample
acid concentration, ice cap sample, volcanic eruption, oxygen isotope ratio, radioisotope peak, nuclear test, Coulter Counter, ion chromatograph, atomic absorption spectrophotometer, aerosol, electrolytic conductivity, 10139.
snow scavenging ratio
trajectory analysis, acid deposition, scavenging ratio, source region, acid related compound, trace metal, winter, USA, Michigan; 12509.
snow shower
Gulf Stream, surface heat flux, air-sea interaction, cold air outbreak, air-sea temperature difference, stratocumulus, cumulus congestus, USA, North Carolina; 01859.
snow storage
alpine watershed, glacier, mass balance, mountain basin, topography, basin characteristic, snow water equivalence, water storage, 08793. glacier, mass balance, mountain basin, melt water, discharge, runoff model, 08788.
snow storm
traffic, snowfall, seasonal variability, precipitation, Canada, Quebec; 12339.
snow storms
nowcast, snow band, forecast, winter storm, remote sensing, lake effect, Canada, Great Lakes, Lake Ontario; 11275.
snow surface temperature
dew point hygrometer, thermistor, thermocouple, frost-point hygrometer, USA, New Hampshire, Hanover; 04204. snow evaporation, bulk aerodynamic formula, sensible heat transfer, air temperature, 04244.
snow survey
snowpack water loss, melt water, forest, lysimeter, 02945.
snow survey measurement
telemetry, snow survey telemetry, snow water equivalent, total precipitation, temperature, water yield, whitebark pine ecosystem, USA; Canada; 05243.
snow survey telemetry
snow water equivalent, total precipitation, temperature, water yield, whitebark pine ecosystem, snow survey measurement, telemetry, USA; Canada; 05243.
snow temperature
grain size, meltwater infiltration, subfreezing snow, mathematical model, water flow, heat transfer, meltwater refreezing, porosity, capillary effect, bulk density, 01745.
snow tussock
lysimeter, evaporation, transpiration, interception loss, water balance, New Zealand, Otago; 05122.
snow water equivalence
water storage, snow storage, alpine watershed, glacier, mass balance, mountain basin, topography, basin characteristic, 08793.
snow water equivalent
computer simulation, airborne measurement technique, gamma radiation attenuation, estimate variation, measurement, 00623. Martinec and Rango degree day method, tree morphology, alpine catchment, precipitation measurement, raingauge, snowfall, snow core data, USA, Wyoming, Glacier Lakes Ecosystem Experiments Site; 09909. meltwater, remote sensing, surface measured data, stream flow forecasting, National Weather Service, Airborne Gammaa Radiation Snow Survey, gamma radiation, National Remote Sensing Hydrology Program, USA;

02941. snow cover, runoff estimation, water equivalent variation, air temperature, precipitation, wind speed, water vapour pressure, global radiation, cloud cover, Switzerland, Alps; 08798. snowmelt, climate record, water equivalent, USA; 13625. total precipitation, temperature, water yield, whitebark pine ecosystem, snow survey measurement, telemetry, snow survey telemetry, USA; Canada; 05243.

snow-ice edge
glaciation onset modelling, climate, albedo, 00267.

snowbank
ground ice genesis, frozen ground, permafrost, buried snowbank ice, Canada, Yukon Territory; 01453. perennial snowbank, permafrost zone, surface ablation, basal ice growth, subsurface flow, outflow hydrograph, snowmelt hydrology, Canada, Melville Island; 00619. permafrost zone, albedo, snow melt, ablation, energy flux, energy balance, Canada, Northwest Territories, Melville Island; 06466.

snowbank ice
tritium, climate change, internal structure, environmental significance, perennial snowbank, permafrost, aeolian, mudflow, thaw truncation, Canada, Northwest Territories, Melville Island; 11997.

snowbelt
operating cost, impact, snowfall, Canada, Great Lakes, Lake Erie; 11146.

snowcover
radiation balance, vapour pressure, radiation model, snowmelt, open environment, climatological data, albedo, 11194. temperature, precipitation, simulation, seasonal snowcover, Japan; 13521.

snowcover depth
cryolithozone, mathematical model, climate permafrost coupling, permafrost, USSR; Canada; 07287.

snowdrift
Bastad flints, moraine stratigraphy, till, niviation valley, Skaerumhede sequence, Old Baltic Till, local till, tor, Norwegian Ice, Sweden, Scania, Astorp; 05003.

snowfall
forecasting, movement rate, USSR; 11274. mixed rainfall snowfall, precipitation separation, rainfall, USA, Vermont, Danville; France, Durance River Basin; 08648. precipitation chemistry, marine aerosol, aerosol, Norway, Alta; Arctic; Norwegian Sea; 03210. seasonal variability, precipitation, snow storm, traffic, Canada, Quebec; 12339. snow core data, snow water equivalent, Martinec and Rango degree day method, tree morphology, alpine catchment, precipitation measurement, raingauge, USA, Wyoming, Glacier Lakes Ecosystem Experiments Site; 09909. snowbelt, operating cost, impact, Canada, Great Lakes, Lake Erie; 11146. synoptic climatology, air temperature, winter(1986), cyclonal activity, meridional circulation, Antarctica, King George Island, Arctowski Station; 04223. updraft, downdraft, boundary layer, Doppler sodar, monsoon season, cold air flow, Japan, Sapporo; 03061. volcanic island, Quaternary glaciation, Antarctic Convergence, intercalation, glacial sediment, lava flow, Southern Ocean; Southern Ocean, Marion; Southern Ocean, Kerguelan; Southern Ocean, Heard Islands; 02653.

snowfall event(January 1987)
convergence line, mesoscale snowfall, Germany; 07758.

snowfall intensity
lake anomaly, lake effect storm, regional, USA, Great Lakes; 11173.

snowfall measurement
precipitation gauge, forest hydrology, water use, stream flow, water quality, gauge distribution, domain theory, precipitation estimation, rainfall measurement, UK, Scotland, Balquhidder; 08650. precipitation gauge, mountain basin, dual gauge system, recording gauge, air temperature, tipping bucket gauge, rainfall measurement, USA, Idaho, Reynolds Creek Watershed; 08649.

snowfall rate
aggregation, ice particle, riming, USA, Sierra Nevada; 04313.

snowflake
bright band error, radar, rainfall, polarization diversity, 05328. cyclone snow sampler, mass extinction coefficient, visible radiation, infra red radiation, snow, transmissiometer, 05379. raindrop, microphysics, oceanic mesoscale, convective system, melting layer, Taiwan; 11266.

snowline
glacial trough, moraine, cryogenic bulge, periglacial, cirque, China, Beijing, Western Mountain, Lingyuesi Area; 11974. glaciation, Great Asau glacier, recession, mountain region, USSR, Caucasus Mountains; 13145. ice cover, glacier, diamicton, congelifluction, China, Jilin Province; 05008. ice sheet, climate change, nonlinear climate model, seasonal energy balance, climate model, steady state seasonal cycle, seasonal cycle, 08422. pollen sequence, lake level history, ice core data, Little Ice Age, glacial history, palaeoclimate, radiocarbon dating, climatic condition, Peru, Andes; Bolivia, Andes; 02624. trend surface, trend surface analysis, China; 13193.

snowline elevation
ice volume, sea level, ice load, last glaciation, advance, retreat, computer model, glaciosostacy, accumulation, ablation rate, ice velocity, 13109.

snowline modelling
snow accumulation, ablation, temperature, precipitation, New Zealand, Otago, The Remarkables; 00620.

snowmelt
acid neutralising capacity, basic cation dilution, lake water chemistry, acidification, episodic acidication, USA, New York, Adirondacks; 04057. catchment hydrology, hillslope hydrology, snow cover cycle, hydrochemistry, 11083. climate record, water equivalent, snow water equivalent, USA; 13625. Landsat, remote sensing, aerial photography, river discharge, snow depth, water content, dry weather discharge, snow covered area, Israel, Jordan River; Mount Hermon; 00624. nutrient release, water budget, nutrient budget, Arctic; Svalbard, Spitsbergen, Broggerjalvoya, Ny-Alesund; 00626. open environment, climatological data, albedo, snowcover, radiation balance, vapour pressure, radiation model, 11194. rain on snow event, lake outburst, impoundment failure, avalanche, channel system, flood, peak flow, USA, California, Sierra Nevada; 08691. salinisation, groundwater, water table, evaporation, Canada, Alberta; 01583. snowmelt-runoff, Streamflow Synthesis and Reservoir Regulation Model, runoff quantification, streamflow forecasting, water resource management, India, Himalayas, Upper Yamuna Basin; 02942. surface temperature, freezing depth, heat balance method, snow, runoff discharge, flood forecasting, 04148. suspended sediment, sediment transport, Germany, Bavaria, Lainbach Creek; 01659. turbidity, colour, organic carbon, aluminium, sulphate retention, precipitation chemistry, stream water chemistry, alpine catchment, Norway, Atna River, Storbekken; 13375. wilting point, evapotranspiration, sensitivity testing, CREAMS, ERHYM-II, computer model, groundwater flow, model calibration, waste disposal, radioactive waste, soil moisture, runoff, 11032.

snowmelt hydrology
snowbank, perennial snowbank, permafrost zone, surface ablation, basal ice growth, subsurface flow, outflow hydrograph, Canada, Melville Island; 00619.

snowmelt quality
snowmelt quantity, seasonal variation, snow accumulation, integrated model, sulphate, 02934.

snowmelt quantity
seasonal variation, snow accumulation, integrated model, sulphate, snowmelt quality, 02934.

snowmelt runoff
infiltration, frozen soil, variable source area model, lake water, discharge hydrograph, snowmelt temperature index model, drainage network, infiltrability index, storage, runoff modelling, Canada, Quebec; 01746. runoff forecasting, DEM, snow cover, Italy, Cordevole River; 10448. runoff generation, environmental isotope, tracer study, hillslope hydrology, oxygen-18, deuterium, tritium, precipitation to runoff conversion model, storm runoff, New Zealand; 11003.

snowmelt runoff simulation
AVHRR, Landsat MSS, microcomputer, snow cover mapping, 01133.

snowmelt temperature index model
drainage network, infiltrability index, storage, runoff modelling, snowmelt runoff, infiltration, frozen soil, variable source area model, lake water, discharge hydrograph, Canada, Quebec; 01746.

snowmelt wave
flood tables, inundation maps, flood forecasting, real time alert system, flood forecasting, ice dam outburst, glacier-dammed lake, flood wave, Argentina, Mendoza River; 05241.

snowmelt-runoff
Streamflow Synthesis and Reservoir Regulation Model, runoff quantification, streamflow forecasting, water resource management, snowmelt, India, Himalayas, Upper Yamuna Basin; 02942.

snowpack
melt water, lysimeter, silica, ionic tracer, tracer movement, USA, Wyoming; 08786. open woodland, snow, ground, thermal regime, subarctic woodland, Canada, Quebec, Schefferville; 01456. snow chemistry, meltwater chemistry, environmental impact, heavy metals, Sea of Japan; 01743. stream flow, National Weather Service River Forecast System model, climatic change, snow melt, snow accumulation, carbon dioxide induced climatic change, USA, Montana; 05132. telemetry, SNOTEL, hydrometeorological data, data collection system, meteor burst technology, 09783. tree damage, stability, avalanch, fuzzy set, fuzzy factorial analysis, snow avalanch, 04923.

snowpack chemistry
ion loss, ion accumulation, precipitation chemistry, meltwater, preferential elution, USA, Michigan; 00618. meltwater, forest floor leachate, chemical transformation, sodium, chloride, sulphate, hydrogen, potassium, ammonium, nitrate, USA, New York, Adirondacks; 02936.

snowpack structure
recrystallisation process, temperature gradient, potential sliding layer, avalanche release, New Zealand, Craigieburn Range; 03837.

snowpack water loss
melt water, forest, lysimeter, snow survey, 02945.

snowpatch
rapid weathering, permafrost, nivation, weathering, Schmidt hammer, enhanced boulder weathering, Switzerland; UK, Scotland; Norway, Glittertinden; 00352.

snowpit
Chernobyl nuclear accident, deposition, ice sheet, lead-210, Greenland; 03141. glaciochemical survey, ice core investigation, major anions, major cations, total acidity, radionuclide, oxygen isotope, glacier, Greenland; 01748.

snowstorage
glacier, water balance, river flow, remote sensing, hydrograph separation, monitoring technique, snow hydrology, ice hydrology, 08794.

snowstorm
boundary layer stability, humidity, wind speed, storm, lake effect, USA, Lake Michigan; 01821.

soakaway
hydrological pathway, groundwater recharge, sewer leak, water main leak, urban hydrology, septic tank, 13470.

Sobia Bodon Unit
carbonaceous platform, tidal plain, delta, palaeogeography, Spain, Cantabric Zone, Asturias; 12917.

social benefit
benefit evaluation, water quality information system, water resource protection, cost-benefit analysis, water quality control, 04175. hydrological service, climate service, meteorological service, hydrological service, economic benefit, 08811. meteorological service, hydrometeorological service, economic benefit, New Zealand; Sweden; 08815. weather service, economic benefit, Canada; 05289.

social change
planning decision, GIS, computer network, digital technology, 06748.

social development
economic development, commercialization of meteorological service, aeronautical meteorological service, 05303. economic development, meteorological and hydrological service, 05306. sustainable development, economic development, meteorological service, Africa; 05307.

social study
economic study, transformed image, scaling, USA, New York, Troy; 03482.

social system
economic system, mapping, multi state system, 09171.
social theory
map, GIS, topographical mapping, cartographic ethics, 09148.
socialist country
environmental management, GIS, environmental activity, China; 06848.
society
decision making, research, GIS, 01034. land surveyors, cadaster, 02075. landscape, historical atlas, twentieth century atlas, economy, Canada; 10350.
society journal
society meeting, American Meteorological Society, organisation structure, 09955.
society meeting
American Meteorological Society, organisation structure, society journal, 09955.
socio economic activity
farming, agriculture, meteorological assistance, Africa, Sahel; 05297.
socio economic benefit
crop forecasting system, growing season, rainfall, early warning system, crop growth, agrometeorology, Zimbabwe; 05387.
socio economic development
typhoon, agriculture, forecast, storm surge, hydrometeorological service, Vietnam; 08813.
socio economic variable
demographic variable, postal code, GIS, Canada; 13995.
socio-economic feature
hydro engineering, wetland management, catchment hydrology, river regulation, water abstraction, water conservation, anthropogenic effect, river ecology, inland water, limnology, floodplain, Africa, (Southern); 04161.
socio-economic system
map, aerial survey, space survey, Africa; 04683.
sociocultural environment
urban climate, health, 11185.
socioeconomic data
parcel information, intelligent information system, USA, California, San Francisco; 05762.
socioeconomic database
land record, transportation, utility database, base map, geographic information system, natural resource, Taiwan; 10325.
socioeconomic factor
terracing, bench terracing, soil erosion, upland management, farmer, terrace adoption, Indonesia, Java; Nepal; 06238.
socioeconomic resource
map manipulation, decision support, GIS, bio physical resource, Australia; 10324.
sod alluvial loamy sand soil
sod alluvial sandy soil, soil moisture, double electrical layer, anion exclusion moisture, Chernozem, grey forest soil, 10865.
sod alluvial sandy soil
soil moisture, double electrical layer, anion exclusion moisture, Chernozem, grey forest soil, sod alluvial loamy sand soil, 10865.
sod podsolic soil
clay mineral, layered silicate, particle size fraction, eluvial layer, 10860. coarse fraction mineral, gleying, mineralogical composition, 09662. fertiliser application, acidic soil, liming, humus, 10868. organic compound, nitrogen compound, potassium fertiliser, fertiliser application, USSR, Ramenskaya; 10876. particle size compostion, fertiliser application, nitrogen fertiliser, mineral nitrogen, nitrate nitrogen, 10878.
sod-podsolic soil
humus, mineralisation, organic matter, 12058.
Sod-Podzolic loam
reforestation, biogeocoenosis, pipeline construction, USSR, Moscow; 00477.
Sod-Podzolic soil
compaction, tractor, soil physical property, 00398. cultivation, soil organic component, soil mineral component, 01530. humus, organic matter, humic acid, carbon-14, 00404. moisture accumulation, humus, deep loosening, 00400.
soda-lime method
carbon dioxide effiux, forest soil, static chamber technique, 12096.
Sodar
air quality control, emission, chimney, pollution, sulphur dioxide, France, Provence; 04444. density current, shallow water equation, friction velocity, nocturnal boundary layer, fog front, 01845. pollution meteorology, acoustic sounding, inversion, thermal structure, Pasquill stability, Richardson number, dispersion coefficient, Monin-Obukhov length, 05496. surface roughness, shear stress, radiosonde, boundary layer wind profile, boundary layer, France, Landes Forest; 04250. tethered sonde, monsoon trough, boundary layer, experiment, tower, 13525.
sodar echo
acoustic scattering layer, marine boundary layer, boundary layer, 13524.
sodar estimate
surface heat, heat flux, mixed layer depth, acoustic sounder, 11192.
sodar measurement
acoustic sounder, boundary layer, boundary layer parameters, 06458.
sodar observation
boundary layer, frontal system, Doppler sodar, Mesogers 84 experiment, wind field, 13507. solitary-like wave, nocturnal boundary layer, boundary layer, Benjamin-Davis-Ono theory, meteorological tower, microbarograph array, 13523. wind profile, turbulence profile, diffusion meteorology, dispersive state, boundary layer, dispersion modelling, surface heat flux, mixing depth, 08957.
sodic clay soil
amelioration, leaching, aeration, stabilisation, 00380.
sodic soil
leaching, soil reclamation, gypsum, 00387. phosphorus release, sodium ion, phosphorus, India, Indo-Gangetic Plains; 07386. rice, leaching, rinsing, reclamation, 02780. soil taxonomy, soil water regime, saltgrass, sodium adsorption ratio, soil chemical property, landform position, USA, North Dakota; 12101.
sodicity
Indo Gangetic plain, Landsat TM, false colour, India, Uttar Pradesh; 11539.
sodium
acidic deposition, sampling, deposition, tree canopy, forest, rainfall, Brazil, Rio de Janeiro; 00865. airborne sodium lidar observation, wave number spectra, mesopause density, wind perturbation, 05416. calcium, base flow, runoff, surface water quality, water chemistry, specific yield, New Zealand; 11027. calcium, magnesium, chloride, cloud water, fog water, Rotating Arm Collector, Caltech Active Strand Cloudwater Collector, droplet chemistry, nitrate, sulphate, ammonium, USA, California, Santa Barbara Channel; 04421. calcium, potassium, shear strength, magnesium, exchangeable cation, tensile strength, soil mechanical property, 13221. calcium, subsurface flow, silicate hydrolysis, acid neutralisation capacity, surface water chemistry, precipitation chemistry, throughfall chemistry, soil water chemistry, forest catchment, potassium, magnesium, Spain, Montseny Mountains; 04090. chloride, blanket bog, soligenous poor fen, raised bog, soligenous fen, ombrotrophic bog, peatland, surface water chemistry, Sphagnum moss, Canada, British Columbia, Queen Charlotte Islands, Graham Island; 02873. chloride, calcium, sea water, aerosol, magnesium, chromium, manganese, iron, cobalt, nickel, copper, zinc, lead, Antarctica; Chile; 03168. chloride, magnesium, sea water, sea salt, convective mixing layer, deposition, snow melt run off, snow chemistry, sulphate, Japan, Sapporo; 04405. chloride, nitrate, precipitation, chemistry, snow, rain water, snow chemistry, inorganic ion, hydrogen peroxide, sulphate, USA, California; 04419. chloride, pH, aluminium concentration, iron, clearfelling, drainage water chemistry, forest hydrology, seasonal variability, nitrate, potassium, phosphate, 04155. chloride, sulphate, hydrogen, potassium, ammonium, nitrate, snowpack chemistry, meltwater, forest floor leachate, chemical transformation, USA, New York, Adirondacks; 02936. chlorine, ion concentration, atmospheric deposition, stream water chemistry, upland stream, magnesium, calcium, aerosol salt, surface water quality, UK, Wales, Plynlymon Range, River Leri; River Ystwyth; 05196. copper, nickel, potassium, zinc, calcium, manganese, magnesium, cadmium, silicon, sulphur, marine aerosol, soil particle, aerosol, urban atmosphere, carbon, sulphate, nitrate, ammonium,, chloride, aluminium, Japan, Sapporo; 03199. crown leaching, interception, podsolic soil, gleyed soil, hydrochemical flux, throughfall, stem flow, forest catchment, soil water chemistry, stream acidity, hydrogen, sulphate, chloride, UK, Scotland; 11086. deposition, ocean surface, observation ship, ion chromatography, atomic absorption spectrometry, sulphate, sea salt sulphate, chloride, Pacific, (North); 01992. dissolution, burial temperature, feldspar, reservoir, albite, potassium, sandstone, Norway, Norwegian Shelf; 02474. ion exchange, redox reaction, oxidation, salt water intrusion, sea sand, heavy metal, groundwater quality, infiltration, road construction, 07550. magnesium, aluminium, dissolved organic carbon, acidic soil water, soil water chemistry, peat soil, groundwater quality, iron, calcium, UK, Scotland; 01732. magnesium, aluminium, iron, calcium, sulphate, chloride, cadmium, copper, lead, snow core, volcanic emission flux, trace element, snow, precipitation chemistry, zinc, Colombia, Nevado del Ruiz; 03148. magnesium, calcium, dissolved silica, hydrograph separation, end member mixing analysis, acidic deposition, surface water chemistry, soil water chemistry, soil water end member, alkalinity, sulphate, USA, Georgia, Panola Mountain Catchment; 04099. magnesium, potassium, surface level concentration, deposition, dry deposition, aerosol, precipitation, scavenging ratio, calcium, 07887. mesosphere, lidar, temperature measurement, USA, Colorado, Fort Collins; 03013. metal pollution, heavy metal, surface water chemistry, suspended matter, calcium, China, Huang he River; Chang Jiang River; China, Zhu Jiang River; 08756. montmorillonite, binary miscible displacement, ternary miscible displacement, exchange selectivity coefficient, Sharkey clay soil, cation mobility, calcium, magnesium, USA, Louisiana; 12092. potassium, ammonium, anion, organic acid, cation, aerosol, precipitation chemistry, sampling, rain water, ion chromatography, chloride, nitrate, sulphate, 03186. potassium, ammonium, magnesium, calcium, fluoride, chloride, bromide, nitrate, sulphate, precipitation, nitric acid, sulphuric acid, hydrochloric acid, precipitation chemistry, sea salt, Japan, Tokyo; 00856. potassium, chloride, dry season, air mass, marine origin, precipitation chemistry, wet season, Brazil, Amazon; 10208. potassium, fire, preharvest burning, stream flow, water quality, nutrient, nitrate nitrogen, ammonium nitrogen, phosphate, calcium, magnesium, 06323. potassium, magnesium, calcium, chloride, sulphate, pine needle, sea salt, marine aerosol, storm, dry deposition, Sweden; 03219. potassium, pH, deposition, fossil fuel, cement, long range transport, acid precipitation, sulphate, acidity, alkalinity, nitrate, chloride, fluoride, ammonium, calcium, magnesium, USA, New York, Albany; 04436. rainwater, seasalt, chloride, air-sea interaction, emission, deposition, sodium-chloride ratio, Germany; 00868. rubidium, caesium, cation distribution, distribution ratio, surface impedance factor, self diffusion coefficent, calcium, 07367. sulfite, nitrite, acid deposition, dry deposition, nitrate, carbonate, sulphate, dew chemistry, frost, potassium, calcium, magnesium, USA, Indiana, Indianapolis; 05512. vanadium, manganese, copper, zinc, arsenic, cadmium, lead, inversion, particulate, aerosol, pollution, impactor, principal component analysis, trace metal, Switzerland, Berne; 05509. vegetation, steppe, moisture, salinisation, USSR, Kestanay Oblast, Turgay Plateau; 05101. vertical wind, seasonal variation, mesospheric sodium, tidal activity, laser radar measurement, Brazil, Sao Jose dos Campos; 03227.
sodium absorption ratio
electrolyte concentration, clay swelling, salt solution series, equivalent salt solution series, Australia, Tasmania; USA; 09737.
sodium adsorption ratio
electrical conductivity, salt precipitation, soil salinisation, water quality effect, irrigation, Alfalfa, Williams loam, Barnes loam, Svea loam, Parshall loam, saturation percentage, USA, Great Plains; 10856. exchangeable sodium percentage, salinity model, electrical conductivity, pH calculation, Australia, Murray Basin; 09736. hydraulic conductivity, dispersion, hexametaphosphate, kaolinite, sand, 12988. infiltration characteristic, land reclamation, salinity, flood sediment, arid

region, leaching requirement, gypsum requirement, India; 01754. pH, clay, flocculation, electrolyte concentration, exchangeable sodium percentage, 00381. soil chemical property, landform position, sodic soil, soil taxonomy, soil water regime, saltgrass, USA, North Dakota; 12101. soil swelling, soil hydraulic property, loam soil, salinity, Van Genutchen model, soil water retention, water diffusivity, hydraulic conductivity, Philips sorptivity, 09843.

sodium affected landscape
dispersive erosion, soil morphology, topography, Entisol, panspot, USA, North Dakota; 10898.

sodium bromide
stream water chemistry, aluminium mobilisation, water pathway, soil water chemistry, surface water chemistry, ionic loading, acidification, Norway, Birkenes Catchment; 02890.

sodium calcium ion exchange
calcite dissolution, nitrate reduction, saline groundwater, organic carbon oxidation, magnesium, isotopic evidence, hydrogeochemical process, groundwater chemistry, carbonate chemistry, calcite saturation, strontium, sulphate reduction, methane fermentation, UK, England, Lincolnshire Limestone; 11081.

sodium calcium selectivity
calcareous soil, gypsiferous soil, anion exclusion, mineral weathering, cation exchange capacity, 04003.

sodium carbonate
particle deposition, calcium carbonate, urban area, diffusion tube, coal, sulphur dioxide, nitrogen dioxide, nitric acid, nitrous acid, 03258. potassium hydroxide, pollution control, oxidant, annular denuder, ozone, nitrogen dioxide, nitric acid, peroxyacetyl nitrate, formaldehyde, potassium iodide, phenoxazine, 00878.

sodium chloride
brine, chemical model, lake, chloride, Australia; 11687. Eocene, Gehannam Formation, tomb, cement, halite, Egypt, Fayum Depression, Fag-el-Gamous; 12866. maritime particle, volatility, aerosol, ammonium sulphate, ammonium bisulphate, temperautre fractionation, Ireland, Mace Head; 05523. oxygen, polarographic method, Winkler method, sea water, salinity, Israel, Dead Sea; 07124. particle, annular denuder, hydrpchlonic acid, salt, road deicing, nitric acid, 06559. pH, Cecil soil, Putnam soil, Hoytville soil, particle interaction, clay suspension, shear stress, 13238. reaction probability, stratospheric chemistry, chlorine, photooxidation, eruption, alkalic volcano, volcano, nitrogen oxide, 10218. snow, calcium, sulphate, nitrate, glaciochemical data, Asia, Himalayas, Karakoram; 01750. throughfall solution, acid neutralising capacity, sea salt deposition, forest soil, aluminium, cation leaching, leachate, sulphate, 13248.

sodium chloride level
cyanide level, road salt storage, surface water quality, soil absorption, 07497.

sodium concentration
cation composition, sulphate concentration, tunnel flow, water chemistry, runoff source, semi arid basin, runoff routing, 10996.

sodium hydroxide
hydrogen peroxide, lead dioxide, nitrate carbon paste coated-wire electrode, sampling, air quality, nitrogen dioxide, 03194. sand filter, sorption screening test, groundwater quality, potable water, arsenic, 12289.

sodium hydroxide-extractable phosphorus
surface water quality, phosphorus, suspended solid, orthophosphorus, USA, Wyoming; 13359.

sodium illite
flocculation, critical coagulation concentration, 00454. potassium illite, pH, critical coagulation concentration, 00372.

sodium ion
phosphorus, sodic soil, phosphorus release, India, Indo-Gangetic Plains; 07386.

sodium layer
mesopause temperature, polar summer, 09076.

sodium lidar temperature
middle atmosphere, state density, temperature, wind, passive falling sphere, ionization gauge, mass spectrometer, 08942.

sodium loss
mechanical erosion, chemical erosion, metamorphic rock, weathering, France, Var, Maures Massif; 08523.

sodium measurement
lidar measurement, gravity wave, airborne measurement, 11154.

sodium nitrite
nitric acid, chemiluminescence, nitrous acid, hydrogen chloride, 06664.

sodium saturation
sonication treatment, soil carbonate, dispersion treatment, particle size distribution, carbonate, calcareous soil, Austin soil series, Rio Grande soil series, Victoria soil series, USA, Texas; 10921.

sodium sulphate treatment
lake water quality, catchment treatment, dissolved organic carbon, acidification, phosphorus, nitrogen, oligotrophication, secci depth, sulphur treatment, Sweden, Gardsjon Lake; 13345. surface water chemistry, soil water chemistry, runoff chemistry, catchment treatment, sulphur treatment, acidification, groundwater chemistry, Sweden; 13382. surface water quality, acid speciation, forested catchment, dissolved organic carbon, organic acid, aluminium hydroxide complex, carbonic acid, neutralising capacity, acidification, sulphur treatment, Sweden, Gardsjon Lake; 13383.

sodium-calcium exchange
ion transport, unsteady water flow, cation exchange, clay soil, potassium-calcium exchange, 00384.

sodium-calcium-magnesium soil
soil structure, soil sealing, kinetic energy effect, magnesium, exchangeable magnesium, water drop kinetic energy, infiltration rate, 06335.

sodium-chloride ratio
sodium, rainwater, seasalt, chloride, air-sea interaction, emission, deposition, Germany; 00868.

soft aged clay
stability analysis, undisturbed sample, embankment foundation, unconfined compression strength, 03751.

soft bottom sediment
coring, sampling, video camera, 12997.

soft clay
embankment failure, oedometer test, vane test, triaxial test, cohesion, sanitary fill, analysis, sanitary embankment, failure, Brazil, Rio de Janeiro, Caju District; 11891. undrained shear test, pore pressure behaviour, 03765. undrained stress path, pore pressure, stress ratio relationship, 03740.

soft foundation
finite element method, theory, reinforced embankment, embankment, 03736.

soft ground
road embankment, fabric enforcement, embankment, geotechnical analysis, reinforced embankment, Ireland, Clare County, Bunratty Bypass; 03737.

soft rock
engineering problem, foundation, tunneling, mechanical property, Belgium; 10701.

soft water
low mineralized water, atmospheric deposition, Arctic lake, lake water chemistry, oligotrophic water, Canada, Quebec, Peninsule d'Ungawa, New Quebec Crater; 02940.

softening effect
fissured deposit, overconsolidationed deposit, clay, mudstone, yield surface, softening mechanism, time dependent strength reduction, finite element analysis, 11888.

softening mechanism
time dependent strength reduction, finite element analysis, softening effect, fissured deposit, overconsolidationed deposit, clay, mudstone, yield surface, 11888.

software
cataloguing, cartographic archive, 04575. counter system, carbon-14 dating, radiocarbon dating, detector, 02582. database technology, data provision, GIS, 09121. engineering, DTM, 04525. government agency, GIS, hardware, USA; 01028. microcomputer, mapping, 13868. standards, computer, cartography, hardware, 02179. technology, education, CAM, university, Indonesia; 03485. workstation, operating system, computer science, computer hardware, 01008. WORLD DATA BASE II, map plotting, CARTOTOOL, 03386.

software acquisition
academic geocomputing, education curricula, hardware acquisition, 06707.

software design
information sharing, GIS, 13825.

software development
total station survey system, field data collection, least squares adjustment, USA, California; 07954.

software function
geographical data transfer, GIS, 06761.

software improvement
geographic technique merging, cartographic data, data display, hardware improvement, 13860.

software package
GIS, transportation planning, USA, Pikes Peak Area; 06928. relational database management, data format, GIS, interface, 03363. streambank erosion, USLE, soil erosion, 00195. thematic mapping, file format, GIS, 01007.

software programme
environmental evaluation, geostatistics, Brazil, Guanabara Bay; 06790.

software progress
three-dimensional display technique, data visualisation, meteorological data, 09956.

software tool
geocoding, SAR, terrain corrected product, ground control, image processing, 00954.

software use
forestry school, teaching programme, training exercise, image analysis, hardware use, USA; 11574.

soil
adsorption, phosphorus, diffusion, fertiliser, 03968. aerodynamic roughness, surface, cotton plant, 06845. agricultural area, GIS, landuse, everglades, USA, Florida; 09210. agricultural erosion, vegetation, geomorphology, France, Massif Central; 09639. alluvial soil, physico chemical soil characteristic, erosional soil characteristic, India, Uttar Pradesh, Deoria District; 06233. aluminium extractant, aluminium fraction, exchangeable aluminium, 05080. ammonia volatilisation, cattle slurry, nitrogen, 04408. anthropogenic activity, Holocene, Pleistocene, Poland; 05099. AVHRR, infrared vegetation index, vegetation index, red vegetation index, Africa, Sahara; 13952. basalt, Asher Volcanics, Jurassic, lava flow, paleosol, Israel; 02464. bibliography, UK; 01595. biopore channel, porosity, root, stress, 03957. canopy, PAN, nitrogen, hydrocarbon, ozone, rain forest, wet season, photochemical model, planetary boundary layer, Brazil, Amazon; 07850. chronosequence, Holocene, plant dynamics, neoglacial chronology, floristics, relative age, weathering feature, lichenometry, USA, Wyoming, Teton Range; 06140. clay mineral, smectite, Quaternary, Indian Ocean, Kerguelen-Heard Plateau; 11814. climate, hydrology, water use, land use, coal mining history, small watershed, geology, geomorphology, USA, Indiana, Clay County; Owen County; USA, Indiana, Sullivan County; USA, Indiana, Vigo County; 05248. climate, metamorphic rock, granite, basalt, tropical region, parent material, Nigeria; 00483. cold store, conduction, heat transfer, 01452. crop rotation, grain, lucerne, legume, nitrogen, carbon, 00393. degree of profile development, clay translocation, Gujranwala soil, Peshawar soil, Lyallpur soil, pedogenic change, mineral weathering, Pakistan, Indus River Plain; 01486. desert, multispectral image, Landsat TM, USA, California; 02215. desert, semiarid region, ecosystem, vegetation, USA, California, Owens Valley; 02216. desorption, adsorption, pesticide, Australia, Western Australia; 01567. diffusion, moisture content, radon, 07361. dynamic problem, thixotropic liquefaction, gravitational liquefaction, quicksand liquefaction, water saturated soil, liquefaction, 01407. ecotope, Pleistocene, Holocene, Germany, Odenwald; 00471. emission, red pine plantation, hardwood stand, nitrous oxide, USA; 05530. engineering geological

survey, sulphate, gypsum, soluble salt, geotechnical property, Iraq, Hadditha; 04911. erosion, freeze thaw activity, climatic change, gullying, rock, relief, Algeria, Oran-Atlas, Oued Mina; 07148. erosion, smog, CORINE, 13896. evaporation flux, pesticide evaporation rate, 07827. excursion route, physical geographical characteristics, Pleistocene relief, vegetation, Czechoslovakia, Slovakia; Poland, Slovakia, High Tatras; 01384. expansion treatment, halloysite, intercalation test, kaolinite, weathering, New Zealand; Fiji; 08298. fertilisation, forest, savanna, nitrogen oxide, nitrous oxide, emission, Venezuela, Guayana Shield; 11326. fertiliser, groundwater, nitrous oxide, emission, 00939. fire, wetting, water repellency, chaparral, USA, Arizona; 03964. forest soil, atmospheric methane, agricultural development, Panama; 09013. forest soil, nitrification, sludge amendment, USA, Michigan; 02803. forest, caesium-137, gamma dose rate, nuclear weapon test, USA, (Northeast); 00430. forest, greenhouse gas, biotic influence, carbon dioxide, global warming, climate change, organic matter decay, 05492. geoecological research, landscape analysis, Germany, Saxony, Dresden; 13021. geography, soil dynamics, 02747. geomorphic evolution, bedrock facet, tectonically active, mountain front, colluvial stratigraphy, hillslope morphology, triangular facet, active normal fault zone, transport limited hillslope, colluvial transport rate, soil development rate, USA, New Mexico, Sangre de Cristo Mountains; 02532. geomorphic evolution, volcanic ash deposit, alluvium, floodplain, terrace surface, deeply weathered soil, loess, fission track dating, USA, High Plains, Rolling Red Plains; 02514. geomorphological process, dambos, hydrological mechanism, anthropogenic utilisation, grassland, Malawi; Zambia; 08346. global warming, greenhouse gas, carbon dioxide, methane, nitrous oxide, agriculture, 01955. grassland, Lithic Cryorthent, calcschist, alpine zone, plant, France, Vanoise Massif; 00469. gravel, sand, alluvial bench, terrace, Australia, Queensland, Mary River; 01618. groundwater flow, thermal infrared, contamination, brine, 08128. heavy metals, pollution, industrial source, China, Shanghai, Baoshan-Wusong; 02768. heavy metals, zinc, copper, lead, nickel, cadmium, plant, China, Beijing; 00432. Holocene, forest clearance, anthropogenic source, climatic change, peat, lake sediment, Italy, Ligurian Apennines; 03636. hydroxy species, ferrihydrite, silica, cementation, 08268. in situ determination, radon-222, groundwater, 04002. indoor pollution, radon, barometric pressure, 00837. irrigated land, salinisation, alkalisation, USSR, Kalmuk ASSR, Chernaya Zemlya Plain; 05102. isotope, carbon, ecosystem, plant, succesional sequence, calcium carbonate, floodplain, USA, Alaska, Tanana River; 07070. isotopic chemistry, sediment transportation, erosion, uplift, detrital mineral, India, Himalayas; Bengal Fan; 04826. isotopic composition, fertiliser, nitrogen, USSR; 00476. isotopic ratio, mass spectrometry, plutonium, UK, England, Sellafield; 00927. land information, computer, surveying, property register, 06918. land use, vegetation, map, 02234. landform evolution, environmental change, pedogeomorphology, tropical landform, Pleistocene, 00219. landscape evolution, Binghamton symposium, hillslope study, terrace study, soil study, stratigraphic study, 08515. landscape evolution, eolian plain, Blackwater Draw Formation, buried soil, stability, pedogenesis, deflation, Ogallala Formation, USA, New Mexico, High Plains; Texas, High Plains; 02513. landscape geochemistry, chemical weathering, basalt, heavy metal contamination, India, Bombay; 10824. landscape, cryoturbation, sandstone colluvium, footslope surface colluvial soil, fragipan development, limestone valley, paleosol, clay mineral weathering, genesis, USA, Pennsylvania, Ridge and Valley Province; 02512. landscape, soil temperature regime, weathering, pedogenesis, erosion, infiltration rate, topographic inversion, Fall Zone, eroded upland, Piedmont peneplain, erosion rate, USA, Piedmont; Coastal Plain; 02515. landuse, slope, temporal perspective, gullying pattern, spatial variation, precipitation, bedrock, Zimbabwe, Eastern Highlands; 08553. leaf litter, plant part, sulphur gas, 10177. mapping, Landsat, land resource, India, Karnataka; 04608. Maya collapse, forest growth, anthropogenic control, lake, palaeolimnology, pollen, savanna, 08160. mercury, soil retention, mercuric chloride, 02776. micrograph, clay, microfabric, fabric classification, 08304. microtopography, DEM, erosion, flow line, depression storage, 02785. mineral weathering, phyllite colluvium, serpentinite, haplohumult, argixeroll, colluvium, weathering, chlorite, serpentine weathering, smectite, USA, California, Klamath Mountains; 12014. Miocene, drainage network, Pliocene, pediment, inselberg, Pleistocene, climatic phase, geomorphological map, landform, Italy, Sardinia, Nurra, La Corte; 08408. n-alkane, n-alkene, hydrocarbon, Antarctica, Victoria Land, McMurdo Dry Valleys; 05085. nature's continent, physical environment, climate, landform, vegetation, North America; 01380. nitrification inhibitor, temperature, USA, Iowa; 00413. nitrification, rice, cattle, fertilisation, vegetation, greenhouse warming, biological source, biological sink, methane, nitrous oxide, emission, 09012. nitrogen oxide, emission, ecosystem, USA, Colorado, Nunn; South Carolina, North Inlet; USA, Tennessee, Oak Ridge; 13647. nonassociated flow, triaxial test, granular material, instability, failure, 03820. nutrient, agriculture, arid land, dune, desertification, vegetation, sand, 07028. organic fluid, consolidometer, kaolinite, montmorillonite, Lockport clay, dielectric constant, permeability, 11889. organic matter, selinium, USA, California; 04007. oxidation, sulphur, rhodanese activity, 07371. paleosol, aeolian dust, atmospheric transport, China, Loess Plateau; Mongolia, Gobi Desert; China, Takla Nakan; Japan; 05103. pedogenic process, land use, climatic change, agroecosystem, nitrous oxide, denitrification, model, Canada, Great Plains; USA, Great Plains; 07317. pH, bottom sediment, fluvial sediment, suspended sediment, water chemistry, Brazil, Amazon Basin, Madeira River; 04717. physical geography, geographical literature bibliography, biogeography, climatology, geomorphology, coastal topic, glacial topic, landform topic, hydrology, UK; 09490. plasma spectrometry, chemical analysis, element, 11815. pollution, dust, factory emission, vegetation, India, Uttar Pradesh, Mirzapur, Dala Cement Factory; 00431. pollution, suspended soil, humic substance, river, China; 08210. ponding, slope, surface roughness, depressional storage, 03511. pore water, unsaturated soil, cup property, sampler geometry, vacuum, porous cup sampler, cup conductance, groundwater contamination, 04131. power station waste, fly ash, microbial population, 02758. provo debris, solifluction, cryoturbation, loess, Kastanozem, Fluvisol, Quaternary(Upper), sediment, USA, Utah, Great Salt Lake; 13091. Quaternary(Late), volcanic ash, aeolian dust, tephra, oxygen isotope composition, quartz, Japan; 00270. radar backscatter, crop canopies, Canada; 11559. radon, lead-210, emission, USA; 00835. rainfall, pH, Australia, New South Wales; 02814. reduction, sulphate, iron oxide, salinity, marsh, Eh, USA, Chesapeake Bay; Maryland, Dorchester County; 02457. research procedure, landscape research, soil erosion, 09486. resource ecology, energy transforming rate, basalt, geochemistry, China, Zhejiang Province; 04014. review, engineering geological aspect, foundation, 01406. risk, accelerated erosion, arable land, upland, frost action, sheep disturbance, land use change, UK, England; Wales; 02731. salt, trona, crust, efflorescence, Peru, Jequetepeque Valley; 12864. sea level history, chronology correlation, Quaternary, transgressive regressive cycle, marine incursion, depositional sequence, Greece, Gulf of Argos; Argive Plain; 06184. sea salt, steel mill, vanadium, fuel oil combustion, aerosol, chemical mass balance, motor vehicle emission, sulphate, factor analysis multiple regression model, source apportionment, suspended particulate matter, refuse incineration, Japan, Tokyo; 05501. sediment, climatic change, chemical release, Europe; 04778. semi arid woodland, erosion susceptibility, rain impacted flow, degraded woodland, hazard, fire effect, Australia, New South Wales, Coolabah; 07329. semi-arid region, remote sensing, Chile; 02195. shoreline landform, Quindalup Dune, coastal zone, geomorphology, Australia, Western Australia, Swan Coastal Plain, Yoongarillup Plain; 06010. silicate rock, aluminium, heavy mineral, paleosol, zircon, index weathering, 09619. silt, feldspar, aeolian, loess, quartz, Germany, Ore Mountains; 02302. soil bulk density, banded ammonia, simulation model, ammonia, 00415. soil carbon pool, chronosequence study, carbon storage potential, 04931. soil exchange rate, canopy exchange rate, exchange rate, radon 222, rain forest, clay soil, sand, Brazil, Amazon; 07859. soil mapping, trace element, soil test, China; 03999. soil moisture, aggregated soil, soil organic matter, microwave emissivity, 03401. steep slope, water supply, landform, Cameroon, Mandara Mountains; 00224. Stefan problem, ablation, thawing, glacier growth, glacier decay, ice formation, thermodynamics, melting, precipitation, freezing, 11082. stone line, nodule, pebble, sediment structure, desilicification, Brazil, Amazonia; 02301. stress history, consolidation model, Terzaghi, drainage condition, rheological model, 03819. tephra, weathering process, allophane, aluminium rich soil allophane, silica rich allophane, stream deposit allophane, New Zealand; 00355. thermal influence, illite, sill, palaeotemperature, weathering, 12987. thermoluminescence, radiocarbon dating, loess, Germany, Schiefergebirge, Bochum; 00308. topography, vegetation condition index, weather impacts, normalised difference vegetation index, geographic resource, Sudan; 05726. transport model, accumulation, pH, organic carbon, cadmium, 06253. Triassic substrate, colluvium, agricultural practice, magnetic property, geochemical property, UK, England, West Midlands; 02733. tropical region, global warming, climatic change, plant growth, 07313. tufa, terrace, acheulean tool, France, Seine-et-Marne; Celle-sur-Seine; 07007. urban environment, heavy metals, USSR, Moscow; 00478. vegetable, lead, cadmium, Poland, Upper Silesia; 01604. vegetation, derivative spectra, remote sensing, analytical chemistry, 06865. vegetation, digital terrain model, flood estimation formula, basin characteristic, flood hydrograph, computer program, slope, regionalization method, flood regime, topography, geometry, river network, Austria; 05143. vegetation, grazing, semi-arid region, satellite, monitoring, Australia, New South Wales; 02209. vegetation, soil moisture, microwave radiation, oat field, 05381. vegetation, spectrometry, colour, crop, Soviet research, remote sensing, USSR; 02210. waste amendment, organic residue, 01538. water resource, GIS, database, USA, Hawaii; 13897. weathering product, granitic rock, phyllosilicate crystallinity, Spain, Galicia; 07320. Westland Green Gravel, Anglian, gelifluction deposit, Kesgrave Formation, Valley Farm soil, Barham Soil, cambering, gull, micromorphology, Pleistocene sediment, UK, England, Essex, Stebbing; 06155. whitebark pine ecosystem, Pinus albicaulis, freeze thaw, mass wasting, glaciation, trough wall, moraine, cirque headwall, landslide, talus slope, rock glacier, severe climate, Cryoboralf, Cryochrept, geology, geomorphology, Canada, Rocky Mountains; USA, Rocky Mountains; 03711.

soil absorption

sodium chloride level, cyanide level, road salt storage, surface water quality, 07497.

soil acidification

acid neutralizing capacity, aluminium toxicity, solute budget, proton cycle, deciduous forest ecosystem, Netherlands; 05051. atmospheric deposition, acidification, water chemistry, granitic catchment, forest catchment, soil water chemistry, acid rain, acid neutralisation capacity, open field precipitation, throughfall, element flux, France, Vosges Massif; 04088. buffering capacity, acidification modelling, RAINS model, Europe; 09701. carbon cycle, buffering capacity, pasture, Australia, Victoria, Rutherglen; 09715. exchangeable cation, litterfall, aluminium, magnesium, soil chemistry, biogeochemistry, tree species effect, 13234. fertiliser use, nitrogen cycle, sulphur cycle, acid rain, pedosphere, afforestation, agriculture, South Africa, Transvaal; 10947. fertiliser, buffering capacity, carbon cycle, pasture, Australia, Victoria; 09714. forest soil, granitic soil, phyllitic soil, basaltic soil, organic horizon, acid forest soil, proton buffering, Germany, Bavaria; 12059. leaching, base cation, base status, exchange reaction, atmospheric pollution, Europe, (Central); Denmark; 10902. micro nutrient status, organic matter content, fertility status, fertiliser use, nitrogen content, South Africa; 10946. mineral weathering, strontium, titanium, zinc, cadmium, rubidium, potassium, manganese, boron, calcium, molybdenum, forest plant, herbarium plant, precipitation, Norway; 00933. oak tree, spatial distribution, litterfall, acidity, buffering capacity, litter accumulation, France; 13196. organic contaminant, trace substance, atmospheric input, soil contaminant, heavy metal, UK; Scandinavia; 10901. pH buffering capacity, buffering capacity, soil unit, maximum sorption capacity, sorption saturation degree, Czechoslovakia, Slovakia; 09757. rainfall-runoff relationship, transpiration, atmospheric deposition, forested catchment, water yield, forest decline, Germany, Black Forest, Eyach; 01753. red pine, Norway spruce, acidification, 03982. soil exchange complex, Oxisol, Ultisol, Alfisol, nitrogen source, tropical soil, fertiliser application, water drainage, 10900. subsoil, fertiliser

application, surface charge behaviour, liming, Eden subsoil, Lowell subsoil, Nicholson subsoil, titration, crop response, USA, Kentucky; 10929. sulphate deposition, aluminium, organic acid, acidification, hydrochemical study, surface water quality, anthropogenic pollutant, Norway, Birkenes; Atna; Norway, Hoylandet; Sweden, Svartberget; 13371. sulphate reduction, base cation reduction, calcium decline, magnesium decline, acidification, inorganic monomeric aluminium, surface water quality, stream water chemistry, Norway, Birkenes Catchment; 04085. water yield, forest catchment, rainfall runoff relationship, runoff coefficient, plant physiological process, transpiration, forest decline, acid deposition, Germany, Black Forest, Eyach Catchment; 08801.

soil acidity
acid base buffer system, permanent charge, variable charge, buffer capacity, 10866.

soil adsorbed chemical
infiltration rate, chemical transfer, runoff, rainfall impact, diffusion, 00587.

soil adsorption partition coefficient
trichloroethylene, contaminated soil, adsorption desorption, desorptive behaviour, 08585.

soil aeration
capillary retention effect, horticultural soil, soil moisture management, drainage status, 00575. cultivated horizon, Stagnogleyic Luvisol, field traffic, soil structure, compaction, 09658. forest ploughing, porosity, soil water, air filled porosity, paludified mineral soil, peatland, water table depth, aeration, water potential, Finland, Karelia; 10847. salt marsh, oxygen, sediment metabolism, respiration, macropore, USA, Massachusetts, Belle Isle Marsh; 05953.

soil age
aeolian source, pedogenic calcium carbonate, calcium carbonate genesis, soil carbonate genesis, uranium-series, Mexico, Sonora; 13093. pedogenic change, weathering, post depositional weathering, scanning electron microscope, zircon, rutile, podsol, chronosequence, aeolian sand, Australia, Queensland, Cooloola; 09629. radiocarbon dating, peat, alluvial material, soil mapping, France, Haut-Rhin, Illhaeusern; 09754.

soil age relationship
Quaternary(Late), moraine, loess, Holocene, moraine, till, soil development rate, radiocarbon date, loess reworking, fire, frost action, New Zealand, Southern Alps, Arrowsmith Range; 07324.

soil aggregate
aeration porosity, irrigation, specific volume, porosity, soil void, 10862. aggregate breakdown, soil stability, aggregate, soil loss magnitude, wet sieving method, Broughton clay, Heiden clay, antecedent water, water content, rainfall energy, 08537. aggregate formation, soil stabilisation, sandy soil, soil microorganism, 00373. anti erosion measure, deflation, soil erosion, wind, aerodynamic tunnel, 02721. chronosequence, cultivation sequence, Ultisol, aggregate size, tropical soil, carbon content, soil fractionation, nitrogen content, Peru, Amazon Basin; 09700. pore structure, soil moisture, moisture retention curve, fractal dimension, fractal structure, 13223. shrinkage, drying, clay, Netherlands; 01552. soil stability, infiltration, aggregate stability, rainfall energy, dispersion test, Australia, South Australia, Mount Lofty Ranges; 12054. water stable organic soil, aggregate stability, wettability, resin treatment, aluminium organic matter, organic matter association, cementing substance, ochreous brown soil, 08519. waterlogged soil, lacustrine soil, silty clay, soil structure, humic material, aggregate stability, 12051.

soil aggregation
micromorphological study, fulvic acid, vugh, aggregate, structural improvement, humic acid, 07341. mycorrhizal fungi, root, 00374.

soil air
humic clay soil, soil compaction, traffic induced compaction, 09692. tetrachlorethene, trichloroethane, trichloromethane, pollution, halocarbon, forest, chloroform, Germany; 04425.

soil albedo
pixel scale, vegetation, subpixel, canopy cover, 06870.

soil alteration
anthropogenically, transformed soil, soil taxonomy, 12048. earthworm, microfabric, thin section, burrowing channel, 10911.

soil amelioration
liming, subsoil acidity, calcium fulvate, 09670. soil cracking, aggregate fracture, soil structure, root penetrability, 12049. Solonetzic soil, crop yield, deep ploughing, soil chemical property, Canada, Alberta; 08580. takir soil, saline soil, soil salinity, USSR, Uzbekistan, Bukhara, Karaulbazar Massif; 13297.

soil amendment
acid neutralisation, weathering, pasture, limestone application, USA, Texas; 13229. calcareous soil, sulphur source, sulphur oxidation, liquid culture, Holloman soil, Belen soil, USA, New Mexico; 10879. infiltration, erosion, water droplet energy, 03933. kelp, bulk density, particle density, porosity, aeration, soil physical property, 02757. lime, gypsum, clay dispersion, infiltration, Oxisol, Brazil; 13261. soil physical condition, field seedbed, gel amendment, 09660. spoil deposit, soil chemical property, bentonite, mine spoil, gypsum, salinity, USA, South Dakota, Black Hills; Wyoming, Black Hills; 08591. wood ash, pH, nutrient, 05076.

soil analyses
mobile cation, chronosequence, chlorite decomposition, weathering process, mica, plagioclase feldspar, long term weathering, weathering rate, UK, Scotland, Loch Chon; Allt a'Mharcaidh; UK, Scotland, Kelty Water; Norway, Hoylandet; 09621.

soil analysis
land use profitability, land management, land use, soil management, 06250. metal accumulation, elemental concentration, soil chronosequence, transition metal, metal depletion, New Zealand, South Island, Reefton; 13301. nutrient concentration, soil fertility, sample preparation method, ion analysis, 07407. quadtree, GIS, soil mapping, Hungary; 11541. soil classification, base status, acidity, soil texture, South Africa, Natal; Natal, Tugela Basin; 13296.

soil association
bibliography, soil map, soil unit, USA; Canada; 01523. soil landscape relationship, natural resource, Tunisia, Kebili Region; 06005. soil map, ground truthing, India, Orissa; 01524. soil survey, relict soil, soil distribution, Austria, Thuringia; 08626.

soil attribute
plantation soil, soil classification system, 09652. salinisation, alkalinisation, sea level rise, irrigation, climatic change, 07311. soil profile attribute, prediction procedure, moisture deficit, kriging, isolinear map, Netherlands, Mander; 10853.

soil background reflectance
vegetation index, light use efficiency, grassland, biomass, canopy geometry, 12740.

soil behaviour
clay, cation exchange property, clay mineral, 10859. elastoplastic model, isotropic workhardening, triaxial test, gravel, 03816. test data, in situ testing, classification system, frost susceptibility, swelling, soil property, behaviour prediction, 13041. three modulus hypoelasticity, plastic clay, sand, constitutive modelling, China, Wuhan; France, Paris; 03766.

soil behaviour theory
soil constitutive behaviour, dilatant capability, endochronic plasticity, plasticity theory, shear volumetric coupling, 09514.

soil biochemical factor
copper toxicity, soil toxicity, fungicide, pesticide residue, Costa Rica; 10934.

soil biological property
polyacrylamide, soil physical property, soil conditioner, 09665.

soil blowing
salt, deflation, solonchak, USSR, Balkhash Alakul Depression; 10850.

soil boundary
forest-savanna boundary, rainforest soil, tropical soil, Brazil, Maraca Island; 12104. soil survey, magnetic susceptibility, particle size distribution, organic matter, USA, Oklahoma; 09651. statistical method, soil mapping, boundary calculation, USA, New Mexico; 12046.

soil buffer
ion diffusion, nutrient uptake, uptake modelling, buffer power, 07338.

soil bulk density
banded ammonia, simulation model, ammonia, soil, 00415. communicating vessel, depth indicator method, bulk density dynamics, 09723. hardsetting soil, root growth, structural regeneration, sandy loam, penetration resistance, UK; 12083. swelling soil, clod bulk density, 09722. tillage, wheat, yield, 05065. water content, soil property, gamma beam method, 09725.

soil bulk property
aggregation, pore, chemical composition, grain size distribution, 03961.

soil capping
clay deposition, clogging, infiltration rate, iron oxyhydroxide, hydraulic impedance, carbonate precipitation, surface runoff, artificial recharge, groundwater recharge, grain cementation, 11033.

soil carbon dioxide
carbon dioxide efflux, alkali absorption, absorption method, 09693. grass covered soil, diffusion equation, isotopic equilibrium, production, stable isotopic composition, carbon dioxide, Switzerland, Bern; 11912. soil temperature, soil moisture, evapotranspiration, karst denudation, carbon dioxide, climate, USA, Georgia, Pigeon Mountain; North Carolina, Rocky Point; 00915.

soil carbon pool
chronosequence study, carbon storage potential, soil, 04931.

soil carbonate
dispersion treatment, particle size distribution, carbonate, calcareous soil, Austin soil series, Rio Grande soil series, Victoria soil series, sodium saturation, sonication treatment, USA, Texas; 10921.

soil carbonate genesis
uranium-series, soil age, aeolian source, pedogenic calcium carbonate, calcium carbonate genesis, Mexico, Sonora; 13093.

soil carbonate liberation technique
carbonate, carbon-14 labelled carbonate, liquid scintillation counting, 10922.

soil catena
field data, relative age, moraine, catena profile development index, USA; 09549. soil texture, grain size, catena, hillslope evolution, evolution model, sediment transport equation, slope, 10708.

soil catena development
fault scarp, post-Tioga fault scarp, slope process, soil development rate, fault scarp dating, USA, California, Sierra Nevada; 02530.

soil cavity
water filled cavity, quasilinearisation, saturated-unsaturated flow, groundwater flow, 01708.

soil cementation
adhesion, cohesion, micromorphology, chemical bonding, 01546.

soil change
climate, boreal soil, subpolar soil, 07315. pedosphere, global change, anthropogenic action, 13218. tillage, grain yield, no-till, conventional till, nitrogen, 00394.

soil character
pH, specific conductance, geomorphological effect, 10854.

soil characterisation
soil component, infrared soil spectrum, diffuse reflectance infrared fourier transform, diffuse reflectance spectroscopy, halide pressed disc, Australia; 12097.

soil characteristic
catchment characteristic, surface water quality, adsorption, soil clay, clay content, dissolved organic matter, Australia, South Australia, Retreat Valley; Mount Lofty Ranges; Australia, South Australia, Lawless; 13357. crop wateruse, water management, soil water movement, infiltration, drainage, evaporation, wateruse efficiency, soil water balance, plant physiology, Africa, Sudan; Sahel; 12290. crust, morphogenetic classification, runoff, surface condition, infiltration, 12226. evapotranspiration, water balance model, precipitation, evaporation, transpiration, runoff, drainage, temperature, cloud cover, humidity, wind speed, moisture estimation, USA, Midwest; 12224. forest hydrology, soil moisture regime, water holding capacity, permeability, China, Wolong Natural Reserve; 01696. GIS, land resource management,

USA, Montana; 06853. macroporosity, saturated hydraulic conductivity, tillage practice, infiltration, groundwater flow, 06336. organic soil, cluster analysis, principal component analysis, Canada, Ontario; Quebec; 05095. radiological contamination, surface water quality, groundwater quality, strontium-90, cesium-137, Denmark; Faeroes; 06371. rainfall simulator, infiltration, surface runoff, spatial variation, throughflow, erosion, vegetation cover, France, Mount Lozere; 01645. rainfall, lowflow, streamflow, flow estimation, river recession rate, 04031. residence time, nitrogen, anthropogenic acidity, sulphate adsorption, base flow, cation release, hydrochemical flux, upland catchment, vegetation type, surface water quality, hydrological flux, acid neutralising capacity, UK, Scotland, Cairngorms, Allt a'Mharcaidh Catchment; 04095. runoff generation, soil crust, runoff yield, soil cracking, plot length, topography, slope, topsoil, 12160. water balance model, soil wetting index, rainfall runoff relationship, surface characteristic, runoff estimation, vegetation cover, infiltration, crusting, Mali, Kassela; Senegal, Thysse Kaymor; 12237. water balance, plant physiology, crop water balance, rainfall, evaporation, transpiration, runoff, deep drainage, soil water storage, crop wateruse, wateruse efficiency, tillage, fertiliser application, Africa, Sudan; Sahel; 12141. water table level, evaporation, isotopic profile, Sahelian climate, deuterium, oxygen-18, Niger, Niger Valley; 12158.

soil characteristics
topography, rainfall, interception, wind speed, temperature, radiation, evaporation process, hillslope hydrology, energy balance, water balance, hydroclimate, vegetation cover, 10999.

soil charactersitic
simulation model, tensiometer, neutron probe, water storage, root growth, actual evapotranspiration, drainage, lysimeter, evapotranspiration, deterministic method, stochastic method, soil water balance, water balance model, crop characteristic, Ivory Coast, Bouake; 12236.

soil chemical change
cleared forest land, nutrient availability, forest clearance, burning, soil physical change, Brazil, Roraima; 09747.

soil chemical characteristics
mineralogical composition, eluvial horizon, mineral genesis, illuvial horizon, alteration horizon, Spain, Madrid Basin; 10941.

soil chemical property
Arctic soil, humus, heavy metal, permafrost, trace element, Svalbard, Spitsbergen; 12115. bentonite, mine spoil, gypsum, salinity, soil amendment, spoil deposit, USA, South Dakota, Black Hills; Wyoming, Black Hills; 08591. black locust, pine, hardwood, oak, hickory, forest soil, soil solution, solution chemistry, nitrogen, USA, North Carolina, Appalachians; 13259. cation exchange capacity, sample variation, exchangeable cation, forest soil, soil sampling, USA, Minnesota; Wisconsin; USA, Michigan; 13258. Chernozem, waterlogging, gleying, stagnant regime, plough layer, irrigation, soil physical property, 10855. Chernozemic zone, soil transformation, rangeland, succession, abandoned cropland, organic matter, Canada, Alberta; 08613. earthworm, woodlice, Gibbs free energy, soil physical property, 01539. farming system, brown earth, boulder clay, arable farming, orchard, deciduous forest, soil compaction, soil physical property, Poland, Pomerania; 09756. forest soil, burning, fire, eucalypt forest, Australia, Victoria, Wombat State Forest; 12124. humid tropics, Ultisol, cropping system, land clearing, tropical soil, Nigeria, Okomu; 10944. land use effect, farming system, chronobiosequence, Belgium, Fagne de Chimay; 09753. landform position, sodic soil, soil taxonomy, soil water regime, saltgrass, sodium adsorption ratio, USA, North Dakota; 12101. landform position, volcanic soil, soil development, terrace soil, parent material, soil mineralogy, Cameroon, Tiko Plain; 12112. micronutrient, zinc, copper, manganese, iron, nutrient deficiency, India; 13299. mineralogy, weathering, clay mineral, nutrient deficiency, cation, aluminium toxicity, fertility, Fiji; 13302. nitrogen mineralisation, nitrification, podsolised sand, nitrogen dynamics, Australia, South Australia; Western Australia; 09711. organic matter, vegetable production, cultivation, Canada, British Columbia; 05092. saline soil, alkaline soil, Landsat, soil reclamation, Turkey, Cukurova; 12113. savanna soil, silt, Harmallan dust, soil mineralogy, clay mineral, Nigeria; 12110. soil amelioration, Solonetzic soil, crop yield, deep ploughing, Canada, Alberta; 08580. soil nutrition, clay content, flooded soil, nutrient deficiency, rice soil, iron toxicity, Senegal, Casamance; 13293. soil physical property, aridic soil, shrub clump, soil mound, Argentina, Patagonia; 09751. tropical soil, basaltic soil, carbon, nitrogen, rainforest soil, Australia, Queensland; 09776. tropical soil, organic matter, decomposition, grazing, savanna, organic carbon, nutrient deficiency, Nigeria, Guinea Savanna Zone; 13295. vegetation gradient, organic matter, forest-grassland, cation exchange capacity, savanna soil, atmospheric element source, Venezuela, Orinoco Llanos; 12103.

soil chemistry
acidification, afforested catchment, stream water quality, ion uptake, acidic deposition, dry deposition, evapotranspiration, UK, Scotland; 09917. agricultural pollutant, pollutant transport, leaching, pesticide, groundwater quality, surface water quality, 06394. biogeochemistry, tree species effect, soil acidification, exchangeable cation, litterfall, aluminium, magnesium, 13234. energy use, emission control, forest soil, acidification model, sulphur deposition, lake water quality, Finland; 11102. flow path, catchment drainage, runoff chemistry, preferential flow, base flow, acid shock, surface water quality, acidification, stream flow, UK, Scotland, Allt a'Mharcaidh; 13373. ion dynamics, reduced deposition, MIDAS, cation exchange, acidification, base saturation recovery, acid deposition, percolation, forest soil, Sweden; 11100. manure application, swine lagoon, bermudagrass, nutrient accumulation, lagoon effluent, effluent, 07358. organic matter, 09649. runoff contamination, mass balance equation, overland water, surface runoff, convective mass transfer, diffusion, 13349. runoff water quality, through flow, deposition chemistry, acidification, soil piping, short term acidification, atmospheric deposition, aluminium concentration, UK, Wales; 12195. soil solution, quasi steady state model, 05075. subsurface flow, runoff chemistry, stream water chemistry, antecedent condition, flow path, base flow, hydrogeochemistry, Norway, Birkenes; 13377. sulphate deposition, fish survival, Model of Acidification of Groundwater in Catchments, hydrochemical model, stream chemistry, Birkenes model, 13389. surface water chemistry, acidification, afforested catchment, acid deposition, forest growth, UK, Scotland; 09918. water chemistry, chemical migration, environmental fate, 04017.

soil chronosequence
alluvial soil, Holocene soil, Pleistocene soil, dating, soil development, USA, Great Basin; 13285. atmospheric dust influx, climatic change, paleosol, pedogenesis, diagenesis, soil-geomorphic research, overview, 02494. Latina Complex, intercalated volcanite, Complesso dei Tufi Inferiori, isotopic stage 15, Minturno Complex, isotopic stage 5, stratigraphic hiatus, radiometric dating, Pleistocene(Middle), transgressive complex, Italy, Agro Pontino; 08498. soil development rate, cold desert ecosystem, boulder weathering feature, desert varnish, spalling, pitting, salinisation, rubification, desert pavement, soil development rate, Antarctica, Transantarctic Mountains; 01491. transition metal, metal depletion, soil analysis, metal accumulation, elemental concentration, New Zealand, South Island, Reefton; 13301.

soil class
volcanic ash, andic feature, Fagaga series, soil mapping, Samoa, Western Samoa; 13217.

soil classification
arid zone soil, sand dune, alluvial terrace, Torripsamment, Camborthid, India, Punjab; 07432. base status, acidity, soil texture, soil analysis, South Africa, Natal; Natal, Tugela Basin; 13296. Griffy soil, Enos soil, Ethete soil, Apron soil, Glenton soil, soil-landscape relationship, Pleistocene soil, Holocene soil, soil composition, USA, Wyoming, Wind River Basin, Riverton; 13286. ion exchange, physicochemical classification, 02749. numerical technique, US Department of Agriculture, taxonomic classification, India; 02750. physiographic position, organic matter, sulphur, tidal marsh, Spain, Ria de Betanzos; 02805. potential evapotranspiration, precipitation, root zone capacity, irrigation map, map, irrigation water requirement, irrigation need, climate data, Denmark; 00634. SPOT, soil survey, spectral response, USA, Illinois; 03404. tropical soil, lateritic soil, saprolitic soil, coefficients, Miniature Compacted Tropical soil classification, 03797.

soil classification system
soil attribute, plantation soil, 09652.

soil clay
clay content, dissolved organic matter, soil characteristic, catchment characteristic, surface water quality, adsorption, Australia, South Australia, Retreat Valley; Mount Lofty Ranges; Australia, South Australia, Lawless; 13357.

soil clay mineral
subsoil, ternary exchange, binary exchange, potassium, ammonium, USA, Kentucky; 00421.

soil clod
soil strength, tillage, ploughing, cone penetrometer, 05066. water absorption, absorption tension, water content, soil water capacity, 13271.

soil cohesion
soil structure, water suction, unsaturated sand soil, organic matter, 09654.

soil colloid chemistry
alkalinity generation, forested catchment, aluminium biogeochemistry, acidic deposition, atmospheric deposition, buffering, acid neutralising capacity, USA, Tennessee, Cumberland Plateau; New York, Adirondacks; 04076.

soil colour
mineral surface, organic carbon, redox condition, goethite, carbon, 07375. soil saturation, piezometer, hydrosequence, water table, B horizon colour, USA, Michigan; 10948.

soil column
carbofuran movement, soil structure, pesticide, 07352. Panoche loam, transport model, selenate, selenite, selenomethionine, selenium transport, 09682. pesticide movement, root zone, microlysimeter, 09733. tillage plot, pesticide mobility, microlysimeter, 09690. tracer, mobile immobile model, unsaturated transport, contaminant, 07346.

soil compaction
agricultural soil, simulation model, 09659. antecedent condition, dimensionless unit hydrograph, deforestation, flood hydrograph, stream flow, peak flow, runoff, transpiration, Czechoslovakia, Sputka River; 06283. corn, subsoil compaction, soil strength, Kewaunee soil, Rozetta soil, USA, Wisconsin; 10858. cotton, Vertisol, soil profile morphology, soil shrinkage, Australia, Queensland, Dalby; 09713. crop yield, soil property, Poland; 09704. cultivation, soil degradation, land clearance, mechanised agriculture, farming system, Ivory Coast; 09760. heat flow model, soil temperature, thermal diffusivity, 05070. penetration resistance, grazing, bulk density, Canada, Alberta; 00458. penetrometer resistance, virgin soil, mechanised agriculture, soil strength, semi-arid soil, 12056. soil physical property, soil chemical property, farming system, brown earth, boulder clay, arable farming, orchard, deciduous forest, Poland, Pomerania; 09756. tillage system, infiltration rate, sandy soil, soil water conservation, 06385. tilled soil, no-till soil, macropore, infiltration rate, alfalfa, cotton, 00590. traffic induced compaction, soil air, humic clay soil, 09692. Ultisol, humid tropics, tropical soil, soil physical property, land clearing, cropping system, Nigeria; 10943. zero traffic system, crop yield, barley, UK, Scotland; 05062.

soil component
infrared soil spectrum, diffuse reflectance infrared fourier transform, diffuse reflectance spectroscopy, halide pressed disc, soil characterisation, Australia; 12097. Quaternary soil, Mossbauer spectroscopy, clay mineral, mineralogical investigation, Sudan, El Gezira; El Gunaid; Sudan, El Mukabrab; Sudan, El Gash; 09768.

soil composition
pedogenesis, gravel, Borofolist, dolomitic parent material, soil lithosequence, USA, Michigan, Lake Huron, Bois Blanc Island; 13287. soil classification, Griffy soil, Enos soil, Ethete soil, Apron soil, Glenton soil, soil-landscape relationship, Pleistocene soil, Holocene soil, USA, Wyoming, Wind River Basin, Riverton; 13286.

soil compression
agricultural soil, static uniaxial compression test, clay content, Canada, Quebec; 07376.

soil condition
colour, multispectral quantification, Germany, Halle; 03402. dynamic cone penetration testing, Ireland; 03781. spruce, pollution, forest decline, Germany, North Rhine Westfalia; 09026.
soil conditioner
soil biological property, polyacrylamide, soil physical property, 09665.
soil conservation
conservation measure, runoff response, recession time, India, Rajasthan, Aravalis Hills; 00520. degradation, fen soil, peat conservation, Germany; 08564. detachment, transport, runoff, dryland, tracer, accelerated soil erosion, water erosion, conservation, 12027. erodibility, sandy soil, erosion control, experimental plot, Wischmeiers' erosivity index, Zaire; 02739. financial inducement, US soil conservation policy, voluntary adoption, coercion, USA; 02723. ginger industry, land degradation, economics, Fiji; 06247. GIS, Universal Soil Loss Equation, database, Ethiopia, Awash Basin; 08071. land degradation, mapping, remote sensing, arid region, overgrazing, accelerated wind erosion, water erosion, India; 12043. land suitability, tropical environment, Kali Konto Project, erosion, Indonesia; 06240. mechanical soil conservation technique, indigenous knowledge, soil erosion, technology limitation, adoption, West Indies, Jamaica; Kenya; Lesotho; Malawi; Swaziland; Sierra Leone; 03946. moisture conservation, literature review, conservation technology, runoff, erosion, sedimentation, World Bank project, 02711. nutrient loss, water storage, water resource management, runoff farming, water conservation, water harvesting, Tanzania; Zimbabwe; Burkina Faso; Israel; Tunisia; 02984. policy, cropland, environmental protection, shelterbelt, terrace, irrigation, erosion hazard, erosion rate, Hungary, Komarom County; 01518. reclamation technique, desert reclamation, degradation, wind erosion, dust storm control, soil salinity, irrigation, water erosion, 08532. regional level study, soil database, GIS, USA; 09189. reservoir, runoff, sediment transport, silting, erosion, Morocco, Mohammed Ben Abdelkrim Al Khattabi Dam; 12183. soil degradation, soil loss, land utilisation, identification, reclamation, erosion affected land, Italy, Emilia-Romagna Region; 01516. soil disturbance, soil mechanical property, soil hydraulic property, water conservation, tillage, 12052. USLE, relative erosion hazard, evaluation, land management, cropping practice, Australia, New South Wales; 02746. water conservation, agricultural practice, watershed development, Asia; 04160. water conservation, available soil moisture, filtering dyke, water balance, crop yield, sedimentation, infiltration, groundwater supply, Burkina Faso, Rissiam Region; 12281. water conservation, policy problem, environmental stress, slopeland development, Taiwan, Ta Chia River, Te Chi Watershed; 08413. water resource management, monitoring technique, drainage basin, basin monitoring, sediment yield prediction, 13331. wind erosion, dust-storm, control, sand transport, threshold velocities, 12026.
soil conservation programme
deforestation, fire, alang alang invasion, soil erosion, fertility, Indonesia, East Kallmantan; 06242.
Soil Conservation Service curve number
runoff prediction, rangeland catchment, curve number method, Green and Ampt equation, model parameterisation, catchment characteristic, USA, Texas; Oklahoma; USA, Arizona; USA, Nebraska; USA, Idaho; 08665.
Soil Conservation Service curve number method
variable source area concept, saturation overland flow, runoff prediction, physical model, anthropogenic effect, flood event, mountainous region, curve number method, alpine watershed, Switzerland; 08679.
soil conservation structure
checkdam, water harvesting structure, cost-benefit analysis, economic analysis, off farm conservation, Indonesia; 02742.
soil conservation technology
vegetative technique, Vetiveria zizanioides, economic analysis, 02712.
soil constituent
elemental analysis, ICP-AES, ICP-MS, mass spectrometry, total elemental analysis, 08599.
soil constitutive behaviour
dilatant capability, endochronic plasticity, plasticity theory, shear volumetric coupling, soil behaviour theory, 09514.
soil contaminant
heavy metal, soil acidification, organic contaminant, trace substance, atmospheric input, UK; Scandinavia; 10901.
soil contamination
crop contamination, irrigation, heavy metals, industrial waste, USSR, Tomanyan Rayon; 01561. microbial cleansing, contaminant breakdown, Germany; 10897. soil reclamation, oilfield brine, calcium chloride, brine contamination, contaminated soil, USA, North Dakota; 07345. TNT, ammunition plant, adsorption, 02774.
soil convection
desiccation cracking, secondary sorting, patterned ground, sorted pattern, sorted circle, polygon, Svalbard, Spitzbergen, Kapp Linne; USA, Colorado, Colorado Front Range, Arikaree Cirque; 12007.
soil copper fraction
copper fractionation, sesquioxide, organic matter, copper, plant availability, Canada, Saskatchewan; 13282.
soil core
artificial soil core, microcosm experiment, soil structure, soil manipulation, 10913. lysimeter, permeameter, solute leaching, leaching rate, measurement error, instrumentation, hydraulic conductivity, edge flow, 13396. sampling device, boundary flow, 03984. soil monolith, sampling technique, lysimeter, 10914. Upidsamment, Plainfield soil, pesticide mobility, root zone model, tillage system, USA, Wisconsin; 07347.
soil core sampling
physical measurement, chemical measurement, automatic transmission fluid, monitoring well, groundwater contamination, 11079.
soil cover
cadaster, orthophotography, photogrammetry, photogrammetry, surveying, Switzerland; 06844. microaggregated horizon, pore size distribution, alterite, macroporous horizon, pore space, hydric behaviour, ferrallitic cover, French Guiana; 09745. planation, perhumid tropical zone, humid climate, ferrallitic soil, podzol, tropics, general planation model, peat soil, Venezuela, Amazonia, Rio Negro Basin; Brazil, Amazonia; 10680.
soil crack
gilgai soil, microrelief length, depression, moisture, overland flow, alluvial lowland, hypodermic flow, Zaire, Shaba; 07187.
soil cracking
aggregate fracture, soil structure, root penetrability, soil amelioration, 12049. clay soil, shrinkage geometry, heavy clay, 07334. irrigation, bypass flow, nitrate, leaching, cracking pattern, Greece; 13291. plot length, topography, slope, topsoil, soil characteristic, runoff generation, soil crust, runoff yield, 12160.
soil crust
Aquic Hapludalf, structural crust, depositional crust, infiltrability, crust development, France, Paris; 08566. crusting process, rainfall kinetic energy, alluvial soil, infiltration, rainfall simulation, surface crusting, ORSTOM, 72 Route d'Aulnay, 93134 Bondy Cedex, France; 13294. cumulative infiltration, low permeability layer, water absorption, soil water characteristic, hydraulic resistance, wetting front, inverse method, groundwater flow, infiltration, 13402. infiltration rate, rainfall intensity, surface crust, hydraulic resistance, aggregate size, microrelief, 10857. runoff yield, soil cracking, plot length, topography, slope, topsoil, soil characteristic, runoff generation, 12160. soil texture, rainfall, wind erodible material, crusted soil, 08534. Torriorthent, infiltration, sediment production, soil surface condition, shrubland, rainfall simulator, desert pavement, infiltration rate, soil erosion, Argentina, Patagonia; 01500.
soil crusting
crust formation, sealing, aggregate breakdown, micromorphology, experimental study, 03932. degradation sensibility, compaction, erodibility, loamy soil, ephemeral gully, France, Haute-Normandie, Pays de Caux; 03939. salinity, water erosion, wind erosion, permafrost, grazing land, climate warming, arid region soil, 07314.
soil cyclic response
calcareous soil, triaxial test, liquefaction, offshore geotechnics, repeated loading, Australia, Western Australia, North West Shelf; 09516.
soil cyclicity
sea level change, river deposit, marine transgression, regression transgression cycle, river cyclicity, 06170.
soil data
soil taxonomy, exchangeable base, base saturation, USA, Hawaii; Puerto Rico; 08608.
soil data analysis
water transport, chemical transport, rooting zone, soil hydrodynamics, Africa, Sahel; 09735.
soil database
agriculture, marginal land, Denmark; 04609. geomorphic unit, soil mapping, ILWIS database, Venezuela; 12044. GIS, soil conservation, regional level study, USA; 09189. soil distribution pattern, classification system, Venezuela; 12729.
soil deformation
indirect tensile strength, unconfined compressive strength, tensile strength, soil structure, 13220. permeability, pore space, air permeability, soil structure, macropore orientation, 13226. solute rejection, freezing soil, dissolved compound, salt rejection, ice lensing, 08506. temperature, atmospheric pressure, deformation measurement, Belgium; 09190.
soil degradation
aggregate stability, wind erosion, irrigation, soil erosion, land use zone, USSR; 13212. argillisation, compaction, Chernozem, physical property, irrigation, USSR, Ukraine; 10950. basalt plain, soil formation, Australia, Victoria; New South Wales; 07437. crop rotation, tillage, erosion, risk mapping, agricultural land, Switzerland, Sullens Region; 09640. foot slope soil, Acrisol, Lixisol, soil formation, Nigeria, Nsukka; 07428. groundwater salinisation, evaporation basin, controlled outflow, dilution flow, aquifer disposal, desalinisation, root zone, saline water reuse, saline water disposal, subsurface drainage effluent, land management, Australia, Murray Basin; 05264. land clearance, mechanised agriculture, farming system, soil compaction, cultivation, Ivory Coast; 09760. marginal land, soil map, GIS, Canada, Saskatchewan; 01098. relief, parent material, river terrace, alluvial fan, soil erosion chronology, environmental change, vegetation change, Mediterranean; 08550. seepage scald, salinity, soil loss, salinisation, Australia, New South Wales; 10906. seif, barchan, rilling, salinisation, drought, climate change, desertification, erosion, Senegal; 09642. soil loss, land utilisation, identification, reclamation, erosion affected land, soil conservation, Italy, Emilia-Romagna Region; 01516. soil science, tropics, soil management, cultivation, 09650. soybean, land reclamation, desertification, Landsat, cattle, Brazil, Rio Grande do Sul; 00467. steppe soil, soil reclamation, desertification, China; 12120.
soil degree day
discontinuous permafrost zone, slope, aspect, biophysical energy budget, surface energy budget, soil temperature, boreal forest, USA, Alaska; 13182.
soil denitrification
denitrification activity, particulate organic matter, hot spot, nitrous oxide, 12063.
soil deposition
computer program, TEAM, simulation model, windstorm, erosion, 07326.
soil depth
electrical conductivity, electromagnetic induction, field calibration, 03996. ground penetrating radar, soil horizon, water table, USA, Georgia; 02784.
soil depth profile
electromagnetic induction measurement, electrical conductivity, 00444.
soil description
soil mapping, aerial photography, photointerpretation, soil use, Brazil, Sao Paulo State, Botucatu, Tiete Basin; 13290.
soil development
catena, landform position, geomorphic unit, Turkey, Cukurova; 12114. climatic stream terrace, tectonic stream terrace, complex response degradation terrace, downcutting, aggradation, gravelly bedload, fill cut terrace, alluvium, strath terrace, chronosequence, diachronous, stream terrace genesis, 02678. dyke, silty clay loam texture, marine sediment,

embankment, pedogenesis, Canada, Nova Scotia, Grand Pre; 08520. Entisol, Inceptisol, cadmium, lead, Italy, Bologna, Northern Apennines; 00473. erosional relief, humid tropical climate, oxisol, relief generation, planarian surface, Thailand, Khorat Plateau; 02518. Harmattan dust, dust fall, dust composition, atmospheric dust, Nigeria, Zaria-Kano; 12111. paleosol, interglaical climate, palaeoclimate, Sangamonian interglacial, Holocene epoch, Canada; 07251. phosphorus, parent rock, Spain, Galicia; 01597. soil chronosequence, alluvial soil, Holocene soil, Pleistocene soil, dating, USA, Great Basin; 13285. soil mapping, aerial photograph, morphodynamics, tundra zone, relief unit, geomorphological process, Canada, Yukon Territory, Richardson Mountains; 08610. stable landform, landscape study, time, surface stability, field morphology, climatic change, primary mineral dissolution rate, soil formation rate, USA, California; Great Basin; 02495. terrace soil, parent material, soil mineralogy, soil chemical property, landform position, volcanic soil, Cameroon, Tiko Plain; 12112. Tertiary(Late), Pleistocene(Early), paleosol, unglaciated area, Podzolic soil, Luvisolic soil, cryogenic soil, rubified horizon, Canada, Yukon Territory; 11863.

soil development index
upland interfluve, stream terrace, river valley, landscape relative age, wetland surface, upland surface, pedogenic development, USA, North Carolina, Craven County; 08338.

soil development rate
cold desert ecosystem, boulder weathering feature, desert varnish, spalling, pitting, salinisation, rubification, desert pavement, soil development rate, soil chronosequence, Antarctica, Transantarctic Mountains; 01491. fault scarp dating, soil catena development, fault scarp, post-Tioga fault scarp, slope process, USA, California, Sierra Nevada; 02530. radiocarbon date, loess reworking, fire, frost action, soil age relationship, Quaternary(Late), moraine, loess, Holocene, moraine, till, New Zealand, Southern Alps, Arrowsmith Range; 07324. soil chronosequence, soil development rate, cold desert ecosystem, boulder weathering feature, desert varnish, spalling, pitting, salinisation, rubification, desert pavement, Antarctica, Transantarctic Mountains; 01491. soil, geomorphic evolution, bedrock facet, tectonically active, mountain front, colluvial stratigraphy, hillslope morphology, triangular facet, active normal fault zone, transport limited hillslope, colluvial transport rate, USA, New Mexico, Sangre de Cristo Mountains; 02532.

soil development sequence
cation exchange property, clay mineralogy, mountain area, New Zealand, South Island, Canterbury; 08639. NMR spectroscopy, carbon, humic acid, New Zealand; 09738. sandstone soil, siltstone soil, elemental analysis, soil texture, lithological discontinuity, New Zealand, Canterbury; 12126.

soil dilution
Woodburn silt loam, calibration technique, liquid culture, microbial sulphur, 10924.

soil disruption
soil texture, size class, disruption index, aggregate index, particle size distribution, 10915.

soil distortion
triaxial test, strain, soil physical property, 02787.

soil distribution
ground penetrating radar, soil map, karst, soil taxa, USA, Florida, Chiefland Limestone Plain; 03951. soil association, soil survey, relict soil, Austria, Thuringia; 08626. soil mapping, pedogenesis, USA; 13215.

soil distribution pattern
classification system, soil database, Venezuela; 12729.

soil disturbance
logging, Andesitic Dystrochrept, bulk density, saturated hydraulic conductivity, porosity, compaction, forest soil, Chile; 10936. rainforest, sorptivity, forestry, infiltration rate, Malaysia, Sabah; 09913. soil mechanical property, soil hydraulic property, water conservation, tillage, soil conservation, 12052. soil physical property, cattle, trampling, seedbed preparation, sandy loam, loam soil, USA, Arizona; 07417.

soil disturbance pattern
pit and mound microtopography, soil mixing, treethrow mound longevity, pedoturbation, mass wasting, tree uprooting, 07185.

soil dominated
radar characteristic, equatorial plain, Goldstone observation, interpretation, Magellan data, Heng-O ring structure, corona, Venus; 02523.

soil drainage
evapotranspiration, leaching, USA, South Dakota; 00460. stagnant moisture accumulation, waterlogged soil, 09666.

soil drying
electrohydrodynamic technique, soil moisture, 01580. evapotranspiration, surface soil moisture, Priestley Taylor concept, soil heat flux, vegetation cover, 10980.

soil dust
transport, lead, zinc, carbon, vanadium, sulphate, particulate matter, aerosol, Sea of Japan; Japan, Oki Islands; 00844.

soil dust source
ice record, aluminium, calcium, dust deposition, France, Alps, Mont Blanc; Africa, Sahara; 07863.

soil dynamics
cation loss, acidification, sulphate retention, afforestation, deforestation, nitrate leaching, vegetation type, biogeochemistry, small catchment, surface water quality, atmospheric deposition, France, Mont Lozere; 04154. physicochemical approach, iron, oxidation-reduction, waterlogged soil, 13235. soil, geography, 02747.

soil ecology
image analysis, micromorphology, thin section, faunal activity, 10908.

soil electric potential signature
drought, electric potential, electrolyte concentration, soil water, 07647.

soil electrical resistivity
hydraulic permeability, fuzzy regression, statistical hydrology, regression analysis, maximum average vagueness criterion, prediction vagueness criterion, 04019.

soil engineering property
soil structure, soil mineralogy, geotechnical property, Yemen, Sana'a; 12117.

soil erodibility
aerodynamics, portable equipment, wind erosion tunnel, 00357. chalky soil, flocculation, plot study, water erosion, non-calcareous soil, calcium carbonate, 02719. erodibility factor, rainstorm, tillage, USLE, temporal variation, 10827. erodibility, simulated rainfall, water stable aggregate, Nigeria; 13211. humus, Chernozem soil, erosion susceptibility, 13203. overland flow, infiltration, loess, tilled soil response, wetting, rainfall, Netherlands, South-Limbourg; 01512. soil erosion, organic matter loss, fallow land, vegetation cover, vegetation recolonisation, abandoned field, Spain, Murcia; 01511. Water Erosion Prediction Project, surface runoff, ephemeral gully, rill, erodibility value, USLE, cropland, rangeland, experiment, 13202. wind, light soil, aggregate, blown sand, aeolian erosion, 08533.

soil erodibility assessment
crusting, rainfall simulation, catena, organic matter content, savanna, surface crusting, wet savannah, aggregate, Ivory Coast; 03947.

soil erodibility factor
potato cropping, water runoff, soil erosion, soil loss, rainfall erosion index, erodibility, USLE, rainfall erosion index, topographic factor, Canada, New Brunswick; 00358.

soil erodibility parameter
entrainment limit, soil strength, erodibility, soil erosion, land management, erosion modelling, 10834.

soil erosibility
rill erosion, RUSLE, USLE, erosivity map, 13200.

soil erosion
actual, potential, erosion, erosion hazard, Zimbabwe; 12039. agricultural land, British Geomorphological Research Group Workshop, erosion process, conservation, policy, 02713. agricultural land, erosion modelling, greenhouse effect, erosion rate, climate change, UK, Wales; England, South Downs; 12033. agricultural land, lake sediment, recent record, long term record, soil erosion record, field study, Sweden; 01515. agroforestry system, erosion control, arable tropical steepland, steepland, accelerated runoff, 06217. airborne photography, thermal scanning, microwave sensor, 12727. automated geographic data, decision making information, land conservation, farm, USA, Wisconsin, Dane County; 06876. bioavailability, runoff, phosphorus transport, agricultural runoff, USA, Oklahoma; Texas; 01493. caesium-137, pattern, soil erosion rate, arable field, UK; 01502. caesium-137, USLE, accumulation rate, floodplain, 00194. canopy cover, infiltration, interception loss, rangeland, experiment, Water Erosion Prediction Project, vegetation canopy, USLE, runoff, USA; 13205. cavernous limestone catchment, karst terrain, limestone aquifer, cave sedimentation, allogenic feeder stream, UK, England; 01506. climatic change, soil moisture regime, soil texture, soil structure, erosion, 08535. computer program, erosion, prediction technology, Water Erosion Prediction Project, 13201. conservation policy, water management, shelter belt, strip cropping, Europe; 01501. conservation tillage, research needs, residue cover, USA; 02722. conservation, rainfall, reservoir, sedimentation, Italy, Sicily; 06971. control, vetiver grass, hedge, erosion, runoff, 00356. corn, wheat, contoured watershed, rainfall event, storm, USA, Ohio, Coshocton; 13207. cotton, coffee, andosol, talpetate, volcanic tuff, erosion, production system, runoff, Nicaragua, Managua Lake; 02726. cropland, erosion prone site, sedimentation, pollution problem, control ordinance, local regulation, USA, Minnesota, Olmstead County; 05057. cropping system, runoff, soil loss, steep slope, field experiment, contour cropping, India, Burnihat; 06236. dating, erosion study, conceptual model, temporal resolution, sediment source identification, catchment delivery ratio, lake sediment, 01492. deflation, conservation, map, erosion process, quantitative erosion assessment, regionalisation, erosion prone land, USSR, (European); 06229. DEM, tracer, erosion study, Chernobyl, fallout, Caesium-137, Netherlands, South Limburg; 13209. deposition, fallout cesium-137, USLE, rill erosion, karst terrain, USA, Alabama, Limestone Valley, Gilbert Farm Research Watershed; 12030. desertification, semi arid basin, fluvial basin, desertification, Spain, Segura Basin; 08544. digital terrain model, EPIC model, erosion risk, Austria, Ybbs River; 06227. direct drilling, compaction, conservation tillage, Canada, Maritime Provinces; 05056. erosion case study, coastal resource, environmental degradation, Philippines; 07328. erosion survey, land capabilty, Venezuela; 10842. erosion, cultural technique, vineyard, porosity, effective pore space, France, Champagne, Epernay, Moussy; 03941. fertility, soil conservation programme, deforestation, fire, alang alang invasion, Indonesia, East Kalimantan; 06242. field experimentation, physical geography, process, glaciology, landslide, China; 01376. field study site, degradation, dambo soil, peasant agriculture, Zimbabwe; 01520. flood hazard, review, China, Loess Plateau; 02743. flood, deforestation, accelerated soil erosion, flood, landslide, India, Himalayas, Darjeeling Himalaya, Gish River; 13074. forest clearance, soil hydrology, rainforest soil, tropical soil, Brazil, Maraca Island; 12105. groundwater level, environmental problem, geoecology, loess, sand, gravel, Germany, Frankfurt, Main River; 07147. Holocene(Late), lake sediment, magnetic property, pollen analysis, landuse change, France, Petit Lac d'Annecy; 10846. impact, woodland clearance, erodible loess, erosion rate, erosion frequency, valley floor storage, UK, England; Wales; 01504. land degradation, groundcover, tree, erosion control, Australia; 13214. land degradation, hillside farming, sloping terrain, conservation measure, Yallahs Valley Land Authority, Jamaica, Fall River Basin; 10841. land management, erosion modelling, soil erodibility parameter, entrainment limit, soil strength, erodibility, 10834. land use effect, erosion, parent material, soil type, taxonomic soil characteristics, Spain, Valencia Province; 09752. land use zone, soil degradation, aggregate stability, wind erosion, irrigation, USSR; 13212. landslide, anthropogenic effect, flooding, monsoon, deforestation, Thailand, Surat Thani, Lam Phan River; Chawang River Basin; Thailand, Surat Thani, Tapi River; 01758. landuse, rainfall, erosion risk, agricultural land, UK, England, South Downs; Sussex, Lewes; 10844. Late Devensian, aeolian clay, Holocene weathering, chalk dissolution, clay mineral transformation, cultivation, brown calcareous earth, rendzina, chalkland, soil formation, erosion, pedogenic processes, UK, England, Yorkshire Wolds; 12032. map, erosion classification, SPOT, China, Deqing; 08070. miniature patterned ground, nets and stripes, frost sorted pattern, regolith, patterned ground,

Falkland Islands, L'Antioja Valley; 13068. mountain, desert, pasture, USSR, Kazakhstan; 10849. nutrient loss, enrichment ratio, nitrogen, runoff sediment, 04034. nutrient loss, surface contact cover, enrichment ratio, nitrogen loss, 04035. organic matter loss, fallow land, vegetation cover, vegetation recolonisation, abandoned field, soil erodibility, Spain, Murcia; 01511. overgrazing, mudflow intensity, lichenometric study, glacier fluctuation, climatic warming, deglaciation, USSR, Caucasus, Baksan River; 13059. panchromatic photograph, aerial photograph, anthropogenic denudation, denudation landform, arable field, Poland, Torun; 08545. photograph, arable field, rill, gully, plot experiment, erosion estimate, UK; 08543. quantitative investigation, erosion form, loess, vineyard, field measurement, piping, runoff, terraced slope, Hungary, Tokaj Nagyegy; 08548. Quaternary(Late) stratigraphy, sedimentology, seismic survey, core, stratigraphy, side scan sonar, Devensian(Late), Loch Lomond Stadial, radiocarbon dated, pollen, periglacial condition, Holocene, UK, Wales, Lyn Tegid; 02663. rates of soil redistribution, soil zone, slope class, regional erosional inventory, caesium-137, Canada, Saskatchewan; 05053. review, flooding, rate, frequency, cause, agricultural policy, erosion impact, UK, England, Sussex, South Downs; 01509. ridge top, soil movement, tillage, slope, USA, Minnesota; 03937. runoff measurement, experimental plot, rainfall intensity, redeposition, infiltration, snow melt, Hungary, Gaja Valley; 08549. salinisation, water resource development, environmental conservation, surface water quality, water resource, catchment degradation, flow regulation, irrigated land, GIS, Ethiopia, Awash River; 13465. sampling strategy, lateral variability, caesium-137, Canada, Quebec Province; 10838. sediment transport, sediment generation, sediment deposition, suspended sediment, dissolved material, Sweden; 07139. sediment transport, sediment yield, transport event, tropical cyclone, Philippines; 06245. sediment yield, granitic roadfill, simulation model, Universal Soil Loss Equation, USA, Idaho, Idaho Batholith; 09696. sediment yield, monitoring network, mountain basin, soil erosion, transport parameter, runoff, landuse practice, Iran, Sefid Rud Basin; 08711. semi arid region, wind driven redistribution, net erosion, sagebrush, steppe landscape, caesium-137, USA, Wyoming; 10840. shear stress partitioning, arid land, canopy structure, erosion threshold, non-erodible roughness element, sheltering, wind erosion, vegetation, 12025. simulation model, FGMOD, erosion reduction, sedimentation, tropical watershed, Guatemala, Chixoy River; 06222. slope aspect, parent material, aspect, spatial variation, erosion distribution, South Africa, Ciskei; 08556. slope stability, slope process, hillslope hydrology, 10709. software package, streambank erosion, USLE, 00195. soil crust, Torriorthent, infiltration, sediment production, soil surface condition, shrubland, rainfall simulator, desert pavement, infiltration rate, Argentina, Patagonia; 01500. soil life, residual suitability, modelling, economic evalution, sustainability, agricultural land, land degradation, Sierra Leone; Botswana; 03948. soil loss, rainfall erosion index, erodibility, USLE, rainfall erosion index, topographic factor, soil erodibility factor, potato cropping, water runoff, Canada, New Brunswick; 00358. soil loss, rainwash, cultivated field, erosion pin measurement, pluvial regime, Rwanda, Runyinya Butare, Rwaza Hill; 10848. soil quality, yield, grain yield, Dark Brown soil, Weyburn Association, eroded hillslope, wind erosion, nutrient, soil productivity, catena, Canada, Saskatchewan; 05054. soil, research procedure, landscape research, 09486. steepland, topography, logging, land use control, sedimentation, Fiji; 06246. stream loading, average rainfall, USLE, rainfal intensity, sediment loading, surface water quality, USA, Iowa, Iowa City, Iowa River; 04070. sub tropical complex, coastal dune complex, fossil dune complex, accelerated erosion, sheetwash, deflation, gully form, South Africa, Transkei; 08554. subsoil horizon, erodible loess, aggregate stability, landscape position, spatial pattern, loess soil, wetting rate, clay content, USA, Washington, Palouse Region; 08538. surface roughness, rainfall intensity, slope angle, slope length, water erosion, arable field, cause erosion, impact erosion, prediction erosion, UK; 08542. suspended sediment, assessment strategy, rating curve, monitoring programme, sediment production, Hong Kong; 06244. Targetted Watershed Management Project, land fertility, conservation strategy, Haiti; 08541. technology limitation, adoption, soil conservation, mechanical soil conservation technique, indigenous knowledge, West Indies, Jamaica; Kenya; Lesotho; Malawi; Swaziland; Sierra Leone; 03946. tillage, canopy cover, interrill erosion, alfalfa, simulated rainfall, USA, Wisconsin; 12029. tolerable soil loss, redistribution, caesium-137, chemical indicator, environmental stress, Canada, Saskatchewan; 05052. transport parameter, runoff, landuse practice, soil erosion, sediment yield, monitoring network, mountain basin, Iran, Sefid Rud Basin; 08711. transport, sediment yield, detachment, model building, soil erosion prediction, soil erosion management, 01494. transported sediment, urban watershed, humid tropics, discharge, rainfall, soil loss, landuse, suspended sediment, sediment yield, Zaire, Lubumbashi; 08700. tropical region, savannah, gullying, Brazil, Brasilia; 00360. tropics, subtropics, debris flow, dry valley, desertification, China, Jinsha River Basin; Minjiang River Basin; 06243. upland erosion, ravine, runoff, anthropogenic erosion, accelerated soil erosion, France, Cevennes, Lingas Uplands; 08340. upland management, farmer, terrace adoption, socioeconomic factor, terracing, bench terracing, Indonesia, Java; Nepal; 06238. vegetative cover, erosion, sediment yield, 10835. water erosion, arable land, cereal cultivation, flooding, UK, England, South Downs; 13208. water, agricultural land, erosion prediction, USLE, source area, process based modelling, USA; 01496. water, research, erosion prediction technology, simulation model, Universal Soil Loss Equation, rill, interrill erosion, prediction technology, USA; 12028. waterlogging, flooding, soil structure deterioration, saline water, soil salinisation, Australia; 08636. wind erosion, water erosion, slash and burn, slope, Peru; 02727. wind, aerodynamic tunnel, soil aggregate, anti erosion measure, deflation, 02721.

soil erosion acceleration
overland flow, rain splash transport, freeze thaw, depositional quantification, postsettlement deposition, sediment basin, sediment transport, fly ash, spatial variability, USA, Illinois; 08540.

soil erosion area
digital terrain analysis, semi arid area, tropical pastureland, TOPOG model, erosion prediction, 06216.

soil erosion chronology
environmental change, vegetation change, soil degradation, relief, parent material, river terrace, alluvial fan, Mediterranean; 08550.

soil erosion data
USLE, P factor, subsurface drainage, low slope, humid climate, sediment loss, runoff erosion, universal soil loss equation, USA, Louisiana, Baton Rouge; 05058.

soil erosion declining
sheet erosion, rill erosion, erosion rate, cropland, soil erosion dynamic, USA; 09633.

soil erosion dynamic
soil erosion declining, sheet erosion, rill erosion, erosion rate, cropland, USA; 09633.

soil erosion event
knowledge based approach, rule based expert system, prediction, waterborne soil erosion, high magnitude erosion event, UK, England, Sussex, East Sussex; 01510.

soil erosion flume
crust, one dimensional model, rill inter rill interaction, water sediment budget model, cyclic behaviour, colluviation, 10833.

soil erosion hazard
erodibility, erosion hazard, rill erosion, slope shape, India, Punjab; 12041.

soil erosion management
soil erosion, transport, sediment yield, detachment, model building, soil erosion prediction, 01494.

soil erosion measurement
plot measurement, runoff, soil loss, infiltration rate, thunderstorm, Germany; Hungary; 02736. runoff sampler, sampler, watershed, agricultural watershed, sediment concentration variation, erosion, India; 09481.

soil erosion prediction
soil erosion management, soil erosion, transport, sediment yield, detachment, model building, 01494.

soil erosion process
soil seal, infiltration rate, soil strength, runoff, splash, wash, aggregate stability, crust formation effect, 03931. splash erosion, wash erosion, erosion rate, Heiden clay, antecedent soil moisture, splash detachment, simulated rainfall, 08536.

soil erosion rate
arable field, soil erosion, caesium-137, pattern, UK; 01502. erosion model, physical equation, field scale erosion, erosion estimation, 10836. spatial heterogeneity, erosion estimate extrapolation, tropical erosion, catchment basin scale, Ecuador; 06223.

soil erosion record
field study, soil erosion, agricultural land, lake sediment, recent record, long term record, Sweden; 01515.

soil erosion study
assessment, excessive soil erosion, off farm problem, sediment source, erosion risk, 02714.

soil evaluation
contaminated soil, hazardous waste, AAL soil contact criterion, risk assessment, public health threat, USA, California; 08410.

soil evaporation
Institute of Hydrology, ICRISAT Sahelian Center, porometry, microlysimeter, energy balance, soil wetness, eddy correlation measuring device, semi arid area, water balance, dryland millet, evaporation, evapotranspiration, transpiration, Niger; 06270. vapour pressure deficit, crop weather model, carbon dioxide, plant growth, photosynthesis, partitioning, stomatal conductance, canopy evaporation, canopy temperature, 05280.

soil evolution
weathering, clay fraction, chemical weathering, Latosol, kaolinite, Brazil, Rio Grande do Norte, Serra do Martins Formation; 13289.

soil excavation
termite, permeability, lateritic soil, disturbed soil, Mali, Sankarani River; 10867.

soil exchange complex
aluminium mobilisation, atmospheric deposition, soil water chemistry, acid rain, acidification, surface water chemistry, Norway; 02892. Oxisol, Ultisol, Alfisol, nitrogen source, tropical soil, fertiliser application, water drainage, soil acidification, 10900.

soil exchange rate
canopy exchange rate, exchange rate, radon 222, rain forest, clay soil, sand, soil, Brazil, Amazon; 07859.

soil exchanger
model soil exchanger, fluoro aluminium complex, fluorine, aluminium, kaolinite, exchange reaction, cation exchange resin, Fuquay soil, USA, South Carolina; 10889.

soil extract analysis
automated combustion, mass spectrometry, nitrogen, nitrogen-15, 04001.

soil extractant
available potassium, potassium, extractant procedure, plant available potassium, predictive model, Canada, Ontario; 08614.

soil extraction method
ion exchange resin extraction, resin extracted nutrient, soil testing, nutrient accumulation, Phytoavailability Soil Test, 07405.

soil fabric structure
pore size distribution, secondary consolidation, clay, mercury intrusion porosimetry, pore size, consolidation, compressibility, 11887.

soil facies
classification, landscape zone, soil forming process, profile truncation, moisture regime, soil freezing, USSR, Soviet Central Asia; 10951.

soil fauna
catena, forest savanna soil, denitrification, nitrogen mineralisation, carbon mineralisation, savanna soil, tropical soil, organic matter content, Ivory Coast, Lamto; 10942. micromorphology, civilisation, Nigeria; 01606.

soil fertility
nutrient rich patch, dry savanna, savanna, nutrient status, Africa, (Southern); 09769. pasture soil, phosphorus pool, nitrogen mineralisa-

tion, phosphorus fertility status, New Zealand; 12072. plantation soil, soil property, tropical soil, agroforestry, Costa Rica; 07422. sample preparation method, ion analysis, soil analysis, nutrient concentration, 07407. soil nutrient, granitic area, cultivation, China; 07433.

soil flume
rainfall simulator, percentage rock fragment cover, raindrop impact, impact energy, water erosion, rock fragment, Portugal, Alentejo; 06224.

soil flush
pastoral soil, sulphur, plant root, phosphorus, potassium, nitrogen, microbial sulphur, New Zealand; 07366.

soil flux
model, prostrate ground cover, wind erosion, aerodynamic roughness, 02720.

soil formation
dune field, Quaternary(Late), sedimentary record, radiocarbon dated material, eolian landscape, USA, New Mexico, Colorado Plateau, Chaco Dune Field; 02511. dust deposition, sedimentation, deposition, loess, aeolian dust, Israel; 08632. erosion, pedogenic processes, soil erosion, Late Devensian, aeolian clay, Holocene weathering, chalk dissolution, clay mineral transformation, cultivation, brown calcareous earth, rendzina, chalkland, UK, England, Yorkshire Wolds; 12032. hydromorphic soil, micromorphology, land evaluation, 01553. leaching, salt accumulation, salinity, topography, Israel, Negev Desert; 02810. mineralogy, mineral dissolution, acidification, Podsol, chemical weathering, weathering, cation leaching, Canada, Ontario, Plastic Lake; 13283. planation surface, cuesta landscape, climato genetic geomorphology, geomorphology, climatic change, landform evolution, Germany; Europe, (Central); 07146. Pleistocene yedoma, soil mantle, Yedoma, microcomplex, Cryozem, classification, USSR, Kolyma Lowland; 10955. podsolic soil, profile differentiation, clay formation, USSR, Siberia; 09774. slope pedimentation, soil property, landform evolution, weathering, landform model, Malaysia, Padang Terap; 07434. soil degradation, basalt plain, Australia, Victoria; New South Wales; 07437. soil degradation, foot slope soil, Acrisol, Lixisol, Nigeria, Nsukka; 07428. stratigraphic correlation, palaeomagnetic correlation, correlation, Pleistocene, paleosol, Bahamas, San Salvador Islands; 13092. stratigraphy, palaeogeography, Pleistocene, USSR, Ukraina; Don; USSR, Dnieprr; USSR, Volga; 05026. weathering, saprolitic decomposition, gneiss, Budel's model, deep weathered soil, inselberg, Alfisol, paleosol, genesis, substratum, dynamics, peneplain, India; 00227.

soil formation rate
soil development, stable landform, landscape study, time, surface stability, field morphology, climatic change, primary mineral dissolution rate, USA, California; Great Basin; 02495. spatial autocorrelation, soil redistribution, cultivated field, caesium-137, soil redistribution, wind, Canada, Saskatchewan, Outlook; 10837.

soil forming process
mineralogical composition, soil physiochemical index, taiga soil, autonomous taiga soil, Okhotsk Sea; 10956. profile truncation, moisture regime, soil freezing, soil facies, classification, landscape zone, USSR, Soviet Central Asia; 10951. vermiculite, resin, geochemical process, podsolisation, chelating resin, spodic horizon, France; 13197.

soil forming rock
landscape zone, loess, cover loam, weathering crust, geographical environment, 08516.

soil fraction
particle fractionation, Paleustollic Torrert, adsorption, desorption, phosphate sorption, phosphate desorption, magnetic separation, Turkey; 07362.

soil fractionation
acid volatile sulphide, hydrogen chloride soluble sulphur, elemental sulphur, pyrite sulphur, ester sulphate sulphur, carbon bonded sulphur, salt marsh soil, seasonal sulphur variation, USA, Louisiana; 10931. nitrogen content, soil aggregate, chronosequence, cultivation sequence, Ultisol, aggregate size, tropical soil, carbon content, Peru, Amazon Basin; 09700. phosphorus fractionation method, sequential extraction method, soil phosphorus pool, microbial phosphorus, 09726.

soil fragility
tree, podsolisation, sand, France, Fontainebleau; 05098.

soil freezing
soil facies, classification, landscape zone, soil forming process, profile truncation, moisture regime, USSR, Soviet Central Asia; 10951.

soil friability
bulk density, NPK fertiliser, tensile strength, water stability, soil structure, fertiliser application rate, water stability, 08572.

soil frost
flow path, frozen soil, soil water-heat model, infiltration, drainage flow, frost, surface runoff, percolation, snow, Sweden; 13437. soil temperature, snow cover, frost, Finland, Kuusamo; 01825.

soil gas
radon, indoor pollution, alpha-scintillometer, sampling, USA, Maryland, Prince Georges County; 00840. soil temperature, emission, soil moisture, radon, USA, Pennsylvania; 00836.

soil geomorphic relation
pedogenesis, mica gneiss, geomorphic position, colluvial transport, landscape context, slope process, mica schist, USA, North Carolina, Blue Ridge Front; 07421. slope process, mica gneiss, mica schist, saprolite, soil residuum, colluvium, secondary mineral, regolith, weathering, USA, North Carolina, Blue Ridge Front; 07420.

soil geotextile system
hydraulic property, engineering drainage, geotextile, 07179.

soil grain size
shallow water resource, frequency domain aeroelectromagnetic method, groundwater prospecting, saline water, fresh water, brackish water, palaeosedimentary environment, China; 09923.

soil gravel
tree uprooting, treethrow, microtopography, gravel armor, pedoturbation, USA, Wisconsin; Pennsylvania; 06256.

soil heat conduction
Arakawa Schubert method, orography, subgrid scale physics, numerical weather prediction, general circulation model, Monin Abukhov similarity theory, boundary layer, turbulence closure scheme, 05438.

soil heat flow
surface energy balance, snow depth, frost depth, soil temperature, temperature, energy balance, 08878.

soil heat flux
agricultural water, water management, evapotranspiration, shallow watertable, crop evaporation, capillary rise, lysimeter, irrigation practice, watertable management, water balance model, radiant canopy temperature, soil water content, neutron probe, upward flux, energy balance model, 13454. latent heat flux, eddy correlation measurement, dry deposition, energy balance, sensible heat flux, net radiation, USA, Colorado, Pawnee Grasslands; 03076. remote sensing, multispectra data, radiation, 06811. vegetation cover, soil drying, evapotranspiration, surface soil moisture, Priestley Taylor concept, 10980.

soil heterogeneity
Richards equation, spatial variability, sensitivity analysis, groundwater flow, unsaturated flow, model verification, parameter uncertainty 00581.

soil homogenisation
grinding and sieving, riffle splitting, cone and quartering, homogenisation technique, 03985.

soil horizon
acidified catchment, surface water acidification model, aluminium solubility control, podsols, CHAOS model, aluminium solubility, Norway Birkenes Catchment; 09622. manganese nodule, iron rich nodule image analysis, pore structure, macroporosity, soil mesomorphology 09718. Mesolithic, tsunami, transgression, sand, UK, Scotland, Inverness; 03560. phytolith, quartz, vegetation, Buchanan Lake Formation forest deposit, Canada, Axel Heiberg Island, Geodetic Hills; 11767 Vertisol, smectite, Tertiary, palaeoclimatic environment, Fort Hancock Formation, USA, Texas, Hueco Bolson; Mexico, Chihuahua; 09416 water table, soil depth, ground penetrating radar, USA, Georgia; 02784.

soil horizon age
ash soil, relative dating, magnetoviscosity, USSR, Kamchatka; 09709.

soil hydraulic function
functional sensitivity analysis, soil water storage, Netherlands, Hupselse Beek Watershed; 00441.

soil hydraulic property
hydraulic conductivity, pore size distribution, specific water capacity, unsaturated flow, Monte Carlo simulation, spectral perturbation analysis, groundwater flow, 06344. hydraulic property, soil water flow, disc permeameter, 03994. hysteresis, infiltration, evaporation, drainage, soil water content pressure head relationship, soil water characteristic, hydraulic conductivity pressure head function, hillslope hydrology, 11043. irrigation, cropping, crop rotation, New Zealand, Canterbury Plains; 02816. land drainage, surface runoff, water table depth, Dupuit-Forchheimer flow, soil water flow, mole drain, 01698. loam soil, salinity, Van Genutchen model, soil water retention, water diffusivity, hydraulic conductivity, Philips sorptivity, sodium adsorption ratio, soil swelling, 09843. neutron probe, tensiometer, field capacity, rooting zone, drainage loss, soil water tension, available water content, hydrodynamic characteristic, sandy soil, Ivory Coast; 12230. parameter estimation, uncertainty propagation, numerical model, groundwater flow, unsaturated flow, solute transport, vector state space method, 08764. soil water potential, infiltration ring, disc permeameter, macropore, diffusivity, sorptivity, hydraulic conductivity, ponded infiltration, saturated flow, unsaturated flow, 00585. stream flow generation, water balance, hydrological modelling, mountain basin, spatial variability, water cycle, evapotranspiration, France, Ringelbach Research Catchment; 08644. through flow, hillslope, macropore, runoff generation, soil texture, auger hole permeameter, subsurface flow, overland flow, disc permeater, 13324. unsaturated hydraulic conductivity, saturated hydraulic conductivity, hydraulic conductivity, soil moisture retention curve, drainage modelling, water balance study, 06333. unsaturated transient flow, van Genuchten equation, cumulative drainage, parameter estimation, head profile, groundwater flow, 02898. water conservation, tillage, soil conservation, soil disturbance, soil mechanical property, 12052.

soil hydric status
soil wetness, factor analysis, TM, France, Alsace; 10398.

soil hydro-ecology
specific volume, specific weight, capillary water, porosity, water holding capacity, forest soil, soil moisture content, litter layer, China, Tianmu Mountain; 02957.

soil hydrodynamics
soil data analysis, water transport, chemical transport, rooting zone, Africa, Sahel; 09735.

soil hydrological property
soil physical property, soil management, tropical soil, millet field, hydraulic conductivity, Niger; 09762.

soil hydrology
forest hydrology, soil moisture content, soil water potential, infiltration, water table rise, waterlogged soil, runoff, seepage, hydraulic gradient, pseudogley, water balance, Germany, Hunsruck/Rhineland Palatinate; 01623. jet, Great Plains low-level jet, topographic forcing, boundary layer model, USA; 01900. leaching rate, human impact, climate change resilience, soil mineral, temperature regime, Kenya, Nairobi; Canada; Scandinavia; 07322. rainforest soil, tropical soil, soil erosion, forest clearance, Brazil, Maraca Island; 12105. soil taxonomy, soil mapping, soil sampling, landscape unit, Italy, Carnic Alps, Rio Moscardo; 12108.

soil hydrophobicity
splash process, splash detachment test, wettable soil, hydrophobic soil, experiment, 07325.

soil hydrophysics
soil property, erosion, seepage, grass yield, water resource development, India, Shiwalik; 06237.

soil hysteresis
agrohydrological model, agricultural water demand, model calibration, model verification, water management, unsaturated flow, drainage, evapotranspiration, DEMGEN model, soil physical characteristic, Netherlands; 06388.

soil image analysis system
soil section, SOLICON, 01570.

soil impact

land impact, salinisation, climatic change, Europe; 04012.
soil incorporation
groundwater quality, contaminant mobility, sludge, fractionation procedure, 00616.
soil infertility
phosphogypsum, subsoil acidity, Cecil series, Wedowee series, Bladen series, self liming effect, 08574.
soil information
database, land resource planning, Canada; 13944.
soil investigation
cone-piezocone penetration test, pressuremeter testing, in situ testing, piezocone, dilatometer, 13042. pipe drainage, 05069.
soil landform relationship
Mediterranean area, subtropical area, carbonaceous parent rock, landform evolution, Basement Complex, alluvial deposit, Senegal; Ivory Coast, Basement Complex; Lebanon, Mount Lebanon; 07427.
soil landscape
erosion cycle, drainage basin, mountain area, Mediterranean; 08628.
soil landscape relationship
natural resource, soil association, Tunisia, Kebili Region; 06005.
soil layer
aerosol, smoke layer, surface wetness, boundary layer, 04458.
soil life
residual suitability, modelling, economic evalution, sustainability, agricultural land, land degradation, soil erosion, Sierra Leone; Botswana; 03948.
soil lime requirement
pH change, proton diffusion, titration curve, 07401.
soil lipid
lipid fraction, protokerogen, 09684.
soil lithosequence
soil composition, pedogenesis, gravel, Borofolist, dolomitic parent material, USA, Michigan, Lake Huron, Bois Blanc Island; 13287.
soil loosening
drainage, experiment, storm water, structural damage, silt soil, unstable soil, 07335.
soil loss
bare fallow plot, Mollisol, USLE, erosivity index, runoff, Australia, New South Wales, Inverell; 02745. catchment response ratio, suspended sediment, overland flow, water repellency, wildfire, soil wettability, afforested catchment, bedload, quick flow, peak flow, South Africa; 10993. conservation, supplemental irrigation, water harvesting, rates of soil erosion, rainfall, runoff, India, Punjab; 12042. erosion control, Ruhengeri Resource Analysis and Management Project, contour planting, RRAM Project, Rwanda, Rhuengeri Prefecture; 06228. erosion index, sandy soil, climatic erosion index, runoff, sediment transport, France, Massif des Maures; 12184. experimental plot, bare soil, cash crop, forest plantation, runoff, Thailand, Phu Wiang Watershed; 06239. infiltration rate, thunderstorm, soil erosion measurement, plot measurement, runoff, Germany; Hungary; 02736. irregular shape, slope shape, runoff, 06218. land utilisation, identification, reclamation, erosion affected land, soil conservation, soil degradation, Italy, Emilia-Romagna Region; 01516. landuse, suspended sediment, sediment yield, soil erosion, transported sediment, urban watershed, humid tropics, discharge, rainfall, Zaire, Lubumbashi; 08700. particle size, bulk density, water stable aggregate, residual effect, Canada, Ontario, Ottawa, Central Experimental Farm; 13204. pipe flow, hydrograph, channel adjustment process, state of the art timber harvest, mixed conifer forest, overland flow, erosion, forestry, sediment transport, USA, Arizona; 09912. rain wash, differentiated USLE, modified, USLE, DTM, high resolution map, 02715. rainfall erosion index, erodibility, USLE, rainfall erosion index, topographic factor, soil erodibility factor, potato cropping, water runoff, soil erosion, Canada, New Brunswick; 00358. rainwash, cultivated field, erosion pin measurement, pluvial regime, soil erosion, Rwanda, Runyinya Butare, Rwaza Hill; 10848. row cropping, sweet potato, soybean, small fruit crop, runoff, Gerlach trough, USA, Alabama; 00359. salinisation, soil degradation, seepage scald, salinity, Australia, New South Wales; 10906. sediment transport, suspended load, semi arid area, sediment rating curve, Kenya, Malewa River; 07141. silt loam, tillage, sediment, nutrient loss, Maury silt loam, Paleudalf, runoff, 07337. sorghum, Kota clay soil, plot study, contour cultivation, runoff, India, Kota; 06235. steep slope, field experiment, contour cropping, soil erosion, cropping system, runoff, India, Burnihat; 06236. suspended sediment, clear felling, forestry, tropical rainforest, sediment yield, Malaysia, Sabah; 09920. unstable landscape, mountain geosystem, anthropogenic impact, USSR, Great Caucasus; 06062. water erosion, agricultural land, nutrient loss, eutrophication, rill erosion, Sweden; 13210.
soil loss equation
simulated rainfall, bare ground, runoff, pasture, range, USA, North Dakota; 13206.
soil loss magnitude
wet sieving method, Broughton clay, Heiden clay, antecedent water, water content, rainfall energy, soil aggregate, aggregate breakdown, soil stability, aggregate, 08537.
soil loss measurement
puente de erosion, farming system stabilizing, hillside farming system, Plan Sierra project, ecodevelopment, shifting cultivation, irrigated land, Dominican Republic, Sierra; 06221.
soil loss rate
long term rate, sediment budget, Chernobyl accident, caesium-137, erosion, arable land, UK; 09636.
soil loss tolerance level
nonparametric approach, potential erosion, mined, reclaimed land, prediction, sediment yield, USLE, USLE parameter, USA, Pennsylvania; 02725.
soil management
Baker Soil Test, soil testing, 07403. cultivated soil, Torrert, basaltic clay soil, Vertisol, soil property, Australia, Queensland, Oxford Land System; 09777. cultivation, soil degradation, soil science, tropics, 09650. soil analysis, land use profitability, land management, land use, 06250. tropical soil, desertification, hydraulic property, fertility, soil physical property, Nigeria; 09765. tropical soil, millet field, hydraulic conductivity, soil hydrological property, soil physical property, Niger; 09762.
soil manipulation
soil core, artificial soil core, microcosm experiment, soil structure, 10913.
soil mantle
Yedoma, microcomplex, Cryozem, classification, soil formation, Pleistocene yedoma, USSR, Kolyma Lowland; 10955.
soil map
cartographic method, European Community soil map, environmental policy, Europe; 07332. forest management, interpretive variability, 06249. GIS, soil degradation, marginal land, Canada, Saskatchewan; 01098. ground truthing, soil association, India, Orissa; 01524. karst, soil taxa, soil distribution, ground penetrating radar, USA, Florida, Chiefland Limestone Plain; 03951. soil productivity, crop yield, USA; 02751. soil property, SPOT, land management, USA, Illinois, Ford County; 03403. soil unit, soil association, bibliography, USA; Canada; 01523. symboilisation, legend design, 02748.
soil map unit
Ultisol, crop yield, USA, South Carolina, Florence; 00369. variability coefficient, soil survey, soil property, Mollisol, spatial variability, grid sampling, USA, Illinois; 08618.
soil mapping
aerial photograph, morphodynamics, tundra zone, relief unit, geomorphological process, soil development, Canada, Yukon Territory, Richardson Mountains; 08610. aerial photography, photointerpretation, soil use, soil description, Brazil, Sao Paulo State, Botucatu, Tiete Basin; 13290. boundary calculation, soil boundary, statistical method, USA, New Mexico; 12046. floodplain soil, zinc, local trend analysis, mathematical spline, inverse distance weighting, weighted local averaging, spatial prediction method, soil pollution, kriging, co kriging, Netherlands, Geul River; 08622. fuzzy grouping, geostatistics, Australia, South Australia, Mount Lofty Ranges, Forreston; 01568. geological material, climatic factor, pedogenetic process, agricultural use, Morocco, Settat; 05717. GIS, database, Europe; 13904. ILWIS database, soil database, geomorphic unit, Venezuela; 12044. pedogenesis, soil distribution, USA; 13215. satellite image, SPOT, spectral mapping unit, USA, Illinois, Ford County; 12045. soil age, radiocarbon dating, peat, alluvial material, France, Haut-Rhin, Illhaeusern; 09754. soil analysis, quadtree, GIS, Hungary; 11541. soil class, volcanic ash, andic feature, Fagaga series, Samoa, Western Samoa; 13217. soil sampling, landscape unit, soil hydrology, soil taxonomy, Italy, Carnic Alps, Rio Moscardo; 12108. SPOT, geological mapping, stereoscopic SPOT image, Indonesia, Java, Wonosari; 01099. trace element, soil test, soil, China; 03999.
soil mapping unit
crop response, management practice, 00435.
soil matrix flow
preferred pathway, saturated volume fluctuation, recharge, storativity, water balance equation, water level response, groundwater recharge, neutron probe measurement, saturated zone, unsaturated zone, South Africa, Karoo, Dewetsdorp; De Aar; 11055.
soil maturation
land disposal site, dredged material, soil ripening, nutrient, relief formation, physico chemical study, Germany, Essen Ruhr, Lake Baldeney; 08524.
soil mechanical property
mechanical soil strength, aggregate stability, agricultural soil, soil physical property, Germany, Bavaria; 09734. sodium, calcium, potassium, shear strength, magnesium, exchangeable cation, tensile strength, 13221. soil hydraulic property, water conservation, tillage, soil conservation, soil disturbance, 12052.
soil mechanics
classical soil mechanics, textbook, agricultural engineering, 02546. engineering, smectite, deformation, clay-water system, 04691. geotechnical property, glacial deposit, Atterberg limit, undrained shear strength, UK; 10767. laboratory strength, deformation testing, pressuremeter testing, in situ testing, swelling soil, international conference, 06018. theory, implementation, numerical tool, Nonlinear analysis, 02545. volumetric shrinkage, American Society for Testing Materials D427 method, soil shrinkage, 12088.
soil mesomorphology
soil horizon, manganese nodule, iron rich nodule, image analysis, pore structure, macroporosity, 09718.
soil metabolism
tropical forest soil, root, mixed deciduous tropical forest, India, Orissa; 05074.
soil metal
total metal, ion chromatography, atomic absorption spectrophotometry, 07392.
soil microbe
nitrification-denitrification, acetylene, nitrous oxide, emission, nitrogen, 00880.
soil microenvironment
pore space quantification, biota, soil structure, biotic factor, aggregate separation, 10909.
soil micromorphology
chlorite, peat podsolic soil, gley podsolic soil, bog podsolic soil, clay mineralogy, USSR, Northern Taiga; 09771. micrite, sparite, diagenesis, carbonate, Mediterranean; 01285. microorganism, thin section fluorescence microscopy, micromorphology, 01526. palaeoenvironment, archaeology, 09717.
soil microorganism
CNMR analysis, chemical structure, organic carbon, 00376. paleosol, radiocarbon dating, Kenya, Mount Kenya; 00451. soil aggregate, aggregate formation, soil stabilisation, sandy soil, 00373. staining, fluorochromic dye, 01575. terbacil, degradation, activation energy, biocatalysis, 00402.
soil mineral
Henrys Law, trichloroethylene vapour, vapour sorption, sorption, 09691. temperature regime, soil hydrology, leaching rate, human

impact, climate change resilience, Kenya, Nairobi; Canada; Scandinavia; 07322.
soil mineral component
Sod-Podzolic soil, cultivation, soil organic component, 01530.
soil mineralogy
clay mineral, soil chemical property, savanna soil, silt, Harmallan dust, Nigeria; 12110. geotechnical property, soil engineering property, soil structure, Yemen, Sana'a; 12117. soil chemical property, landform position, volcanic soil, soil development, terrace soil, parent material, Cameroon, Tiko Plain; 12112.
soil mixing
peat soil, fen peat soil, mixed soil, topsoil, mineral subsoil, UK, England, East Anglia; 10937. treethrow mound longevity, pedoturbation, mass wasting, tree uprooting, soil disturbance pattern, pit and mound microtopography, 07185.
soil mobilisation
desert dust, sandblasting, mineral aerosol, wind speed, erosion, sandstorm, Africa, Sahara; 05522.
soil model
computer simulation, soil process, anion diffusion, nitrate leaching, 13267. crop yield, computer simulation, root growth, nitrogen cycle, agrosystem, tropical soil, 13273. phosphorus, phosphate, surface site, exchangeable phosphate, 13276.
soil modification
corrosion, dispersive soil, nitrite alkaline composition, 08575.
soil moisture
aggregated soil, soil organic matter, microwave emissivity, soil, 03401. agricultural management, crop production, microwave radiometry, plant water content, Italy; 12758. Chernozem, chestnut brown soil, moisture hysteresis, soption characteristics, USSR, Siberia; 10864. crop yield, spatial variability, geostatistical analysis, soil texture, 03952. deep percolation, effective rainfall, water balance, crop management, tensiometer, neutron probe, runoff, hydraulic conductivity, Burkina Faso, Mossi Plateau, Gampela; 12280. denitrification, pH, soil temperature, USA, California, Sierra Nevada; 02802. double electrical layer, anion exclusion moisture, Chernozem, grey forest soil, sod alluvial loamy sand soil, sod alluvial sandy soil, 10865. environmental protection, airborne microwave radiometer, 10396. evapotranspiration, drought cycle, water balance, forest hydrology, transpiration, eucalypt forest, plant water use, cork oak forest, interception, stem flow, Portugal, Alentejo, Odemira; 09914. evapotranspiration, drought, GCM, climate change, 04346. evapotranspiration, karst denudation, carbon dioxide, climate, soil carbon dioxide, soil temperature, USA, Georgia, Pigeon Mountain; North Carolina, Rocky Point; 00915. evapotranspiration, leaf area index, fire, shrub steppe ecosystem, 06386. evapotranspiration, lysimeter, infiltration capacity, infiltration, melt water, water balance, sandy aquifer, groundwater recharge, groundwater resource, Finland, Hyryla; 05251. evapotranspiration, runoff, floodplain inundation, water balance model, water transport model, continental scale model, river discharge, Brazil, Amazon River; 02831. ground water recharge, rainfall, 00677. groundwater flow, solute transport, transient flow, mixing length, Lagrangean length scale, convection disperison equation, hydrodynamic dispersion, 12256. groundwater table, evaporation, hysteresis, consumptive wateruse, evapotranspiration, recharge, groundwater extraction, water management, irrigation water management, runoff yield model, infiltration, China; 11122. humidity, wind velocity, evporation, bare soil surface, water vapour transport, vapour diffusion, 04030. hydraulic head distribution, flow velocity, capillary fringe, overland flow, S shaped basin, infiltration, solute transport, unsaturated zone, boundary fitted grid method, Richards equation, Fickian equation, 13404. hydrological model, surface energy partition, albedo, surface roughness, turbulence, surface flux, 07704. infiltration, peak discharge, runoff volume, drainage basin, arid region, model calibration, model verification, channel flow, rainfall runoff model, kinematic wave routing, overland flow, Saudi Arabia; 09810. Less Favoured Area, land information system, GIS, hydrological modelling, Greece, Peloponnese; 10397. loess, mouldboard plough, cultivation, soil physical property, tillage, 13227. mathematical model, moisture storage, hydrologic process, vegetation cover, runoff, 06259. Michaelis-Menten expression, denitrification, nitrate loss, substrate concentration, soil temperature, Canada, Alberta; 04132. microwave radiation, oat field, soil, vegetation, 05381. microwave radiometer, vegetation cover, polarisation factor, Jackson's parametric model, 05718. microwave remote sensing, 11542. moisture retention curve, fractal dimension, fractal structure, soil aggregate, pore structure, 13223. moisture transmission, moisture retention, Typic Hapludoll soil, cultivated land, landuse, forest, grassland, available water capacity, organic carbon, bulk density, infiltration rate, saturated hydraulic conductivity, 11084. mountain slope, isothermic zone, hyperthermic zone, hyperthermic isohyperthermic boundary, isohyet, soil temperature, USA, Hawaii; 04232. mountain terrain, desert terrain, thermal infrared measurement, surface energy radiance, soil type, 08072. mountainous terrain, evaporation, alpine tundra, water balance, energy balance, potential evaporation, heat flux density, Canada, Cordillera; 08658. muskoxen, plant community, microclimate, snow, Canada, Northwest Territories, Ellesmere Island, Sverdrup Pass; Arctic; 07684. paddy soil, manure application, soil physical property, rice straw, China; 12121. plant biomass variability, multiple regression model, USA, Great Plains; 00492. precipitation, rain fall, surface energy balance, evapoclimatonomy, water balance, evapotranspiration, runoff, Africa, Sahel; Niger, Niamey; 04249. precipitation, topography soils index, water balance flux, land surface atmosphere interaction, surface hydrology, climate modelling, general circulation model, evapotranspiration, runoff, atmospheric model, 12129. radar detection, dew, wheat, backscatter, 09251. radon, soil gas, soil temperature, emission, USA, Pennsylvania; 00836. rainfall, evaporation, water balance study, Neutron moisture meter, calibration procedure, regional evaporation, Australia, New South Wales, Goulburn-Marulan Region; 12154. recharge, unsaturated flow, isotopic investigation, hydrometric investigation, preferential flow, groundwater recharge, hillslope, translatory flow, snow melt, deuterium, 07529. reflectometry, realtime monitoring, monitoring, USA, New Hampshire, Hubbard Brook Forest; 13895. root distribution, humic compound, France, Jura; 01600. runoff chemistry, acidification, acid drainage, groundwater chemistry, pyritic coal, co refuse, total dissolved solid, sulphate, iron, USA, Indiana; 13433. ru off, evapotranspiration, soil moisture, soil type, surface runoff, norma ized difference vegetation index, surface water balance, vegetatio cover, Lettaus climatonomy model, Africa, (West); 12239. runof snowmelt, wilting point, evapotranspiration, sensitivity testin CREAMS, ERHYM-II, computer model, groundwater flow, model cal bration, waste disposal, radioactive waste, 11032. SAR, Canad Oxford County; 11560. SAR, radar backscatter, 11540. saturation def cit, sensible heat flux, evaporation model, suburban evaporation regim advection, landuse effect, surface energy balance, latent heat flu atmospheric influence, Bowen ratio, moisture availability, 12153. so drying, electrohydrodynamic technique, 01580. soil physical propert aggregate stability, compaction, 09633. soil texture, moisture, turbule flux, pine forest, validation, land surface parameterisation, surface resi tance, 03073. soil type, surface runoff, normalized difference veget tion index, surface water balance, vegetation cover, Lettaus climato omy model, soil moisture, runoff, evapotranspiration, Africa, (West) 12239. surface thermal property, dust devil, USA, New Mexico, Whit Sands Missile Range; 05284. unsaturated hydraulic conductivity hydraulic conductivity, soil suction, 12222. vapour pressure metho thermocouple psychrometer, moisture retention curve, sedimentary soi basaltic soil, soil texture, USA, Arizona; 12223. vegetation change satellite data, climate change, rainfall decline, surface water balance Lettau climatonomy model, evapotranspiration, runoff, Africa, Sahel 12145. vegetation cover, satellite data, algorithm, land surface, insola tion, albedo, longwave flux, radiation, vegetation index, 13476. wate balance, computer program, evapotranspiration, water supply, regiona yield forecasting, crop yield, map, Mali; Niger; Senegal; 12283. wate balance, crop water requirements, Mali; 12284. water management climatic data, soil moisture regime, bimodal rainfall characteristic climatic data, soil resource management, sustainable agricultural pro duction, soil temperature, Ethiopia; 05388. water pathway, water qual ity, ecohydrological zone, river flow, water supply and demand, ground water table, climate change, landscape ecological change, hydrologica change, 05105. water use efficiency, grassland ecosystem, soil wate dynamics, transpiration, water loss, evapotranspiration, leaf conduc tance, plant water potential, 05118. wateruse efficiency, evaporation water balance study, crop wateruse, mulch, water conservation, Niger 12282.
soil moisture accounting model
evapotranspiration flux, Hortonian overland flow, rainfall-runoff model catchment dynamics, hillslope hydrology, antecedent condition, over land flow, subsurface flow, model calibration, streamflow time series saturated overland flow, 04042. rainfall-runoff model, hillslope hydrol ogy, overland flow, subsurface flow, antecedent conditions, flow mechanism, 04043.
soil moisture availability
vegetation cover, agricultural field, normalized difference vegetatio index, radiometric surface temperature, 05742.
soil moisture balance
forest, savanna, ecosystem pattern, Quaternary, climatic change, ston line, landform development, landscape development, Brazil; 05999.
soil moisture change
hydrological process, permafrost environment, gamma density meter moisture storage, melt water, infiltration, evaporation, fen, water bal ance, 13438.
soil moisture characteristic
unsaturated conductivity, hydrodynamic dispersion, optimisatio method, dispersion, parameter identification, solute transport, unsa turated soil, groundwater flow, 05208.
soil moisture condition
rainfall intensity, rainfall runoff model, climate change, peak flow, snow melt, precipitation, winter temperature, runoff peak, Sweden; Finland 05149.
soil moisture conservation
agricultural practice, long term soil moisture, continuous cropping, fal low, soil moisture status, available water content, Canada, Alberta Lethbridge; 01695. silty clay soil, cumulative evaporation, ploughles tillage, straw incorporation, evaporation, lysimeter, clay soil, Sweden 05120.
soil moisture content
actual evapotranspiration, water balance, leaf area index, cassava, wate use efficiency, evapotranspiration, neutron probe, Bowen ratio method Ivory Coast, Adiopodoume; 01636. dielectric constant, available soi moisture, 02894. erosion control, sandy soil, soil surface, infiltration runoff, Burkina Faso, Yatenga Province, Bidi Village; 06424. excess rainfall, antecedent precipitation index, flood forecasting, DPFI method, total rainfall, rainfall-runoff model, France, Aveyron River 00525. forest soil, infiltration, permeability, frozen soil, 02956 hydraulic conductivity, hysteresis, anisotropy, unsaturated media groundwater flow, solute transport, tracer test, 12260. hydrologica condition, mechanisation zone, plough layer, ground pressure, USSR European USSR; 10903. in situ calibration, calibration, neutron mois ture meter, lateritic soil, heterogeneity, Australia, Western Australia 02896. litter layer, soil hydro-ecology, specific volume, specific weight capillary water, porosity, water holding capacity, forest soil, China Tianmu Mountain; 02957. pasture growth, crop water use, silt loam Penman equation, soil moisture deficit, potential evapotranspiration neutron probe, New Zealand, Christchurch; 04108. rainfall variability agricultural calendar, potential evapotranspiration, traditional agricul ture, soil moisture retention, Benin, Upper Borou; 06426. runoff pro duction, contributing area, C band scatterometer, saturated area, tem poral variation, spatial variation, remote sensing, 01704. soil wate potential, infiltration, water table rise, waterlogged soil, runoff, seepage hydraulic gradient, pseudogley, water balance, soil hydrology, fores hydrology, Germany, Hunsruck/Rhineland Palatinate; 01623. solute diffusion coefficient, diffusion model, solute adsorption, tortuosity model, 00589. specific retention, hydraulic conductivity, electrica resistivity, Archie's law, saturated hydraulic conductivity, vadose zone sediment, Ottawa sand, unsaturated soil, sandy soil, 05209. storm run-

off, evapotranspiration, overland flow, subsurface flow, groundwater flow, flow route, base flow, hillslope hydrology, 10998.
il moisture deficit
evapotranspiration, hydrologic magnification, anti-transpirant effect, atmospheric carbon dioxide, carbon dioxide, climatic change, runoff, precipitation, 04021. potential evapotranspiration, neutron probe, soil moisture content, pasture growth, crop water use, silt loam, Penman equation, New Zealand, Christchurch; 04108. water table level, transpiration, evaporation, actual evapotranspiration, potential evapotranspiration, water balance, groundwater recharge, Penman estimate, lysimeter, pan evaporation, UK, Northern Ireland, Coleraine; 09790.
il moisture depletion
soil moisture recharge, forest soil, gypsum block, nonparametric statistics, Spearman rank correlation, Sweden; 02900.
il moisture depth
radiometric, measurement, airborne sensor, aircraft, Italy; 02194.
il moisture diffusivity
Van den Berg and Louters method, diffusivity, moisture depth curve, hot air method, 02895.
il moisture estimation
hydrological balance, precipitation, evaporation, runoff, Sudano-Sahelian climate, groundwater recharge, Africa, Sudano-Sahelian Region; 06356.
il moisture gradient
Bowen ratio, dew rise, dew fall, dew formation, energy balance, Leick plate, maize crop, soil temperature gradient, 04024.
il moisture heterogeneity
soil water movement, forest hydrology, spatial variability, interception, temporal variability, hillslope hydrology, stemflow, 02960.
il moisture management
drainage status, soil aeration, capillary retention effect, horticultural soil, 00575.
il moisture measurement
infiltration parameter spatial variability, measuring network, Germany; 06338.
il moisture movement
drip irrigation, infiltration, hydraulic conductivity, soil water potential, tensiometer, Mauritius; 09847. hydraulic conductivity, infiltration rate, groundwater level, seepage, unsaturated soil, homogeneous soil, layered soil, boundary conditions, model sensitivity, soil moisture profile, 02897.
il moisture pattern
rangeland, infiltration, groundwater recharge, harvester ant, USA, Idaho; 02893.
il moisture potential
chalk, recharge, groundwater hydrology, evaporation, fissure system, drainage, unsaturated zone, aquifer recharge, moisture content, piston flow, hydraulic conductivity, tracer experiment, UK, England, (Southeast); 07523. hydraulic conductivity, Richards equation, quasi-linear approximation, groundwater flow, unsaturated flow, 01709.
il moisture profile
soil moisture movement, hydraulic conductivity, infiltration rate, groundwater level, seepage, unsaturated soil, homogeneous soil, layered soil, boundary conditions, model sensitivity, 02897.
il moisture recharge
forest soil, gypsum block, nonparametric statistics, Spearman rank correlation, soil moisture depletion, Sweden; 02900.
il moisture recharge method
Penman formula, equilibrium evaporation method, Brutsaert-Stricker method, Bouchet method, complementary evaporation concept, catchment waterbalance method, actual evapotranspiration, evapotranspiration, Malawi; 02835.
il moisture regime
bimodal rainfall characteristic, climatic data, soil resource management, sustainable agricultural production, soil temperature, soil moisture, water management, climatic data, Ethiopia; 05388. soil texture, soil structure, erosion, soil erosion, climatic change, 08535. soil water tension, moisture distribution, Europe; 12106. water holding capacity, permeability, soil characteristic, forest hydrology, China, Wolong Natural Reserve; 01696.
il moisture retention
soil moisture content, rainfall variability, agricultural calendar, potential evapotranspiration, traditional agriculture, Benin, Upper Borou; 06426.
il moisture retention curve
drainage modelling, water balance study, soil hydraulic property, unsaturated hydraulic conductivity, saturated hydraulic conductivity, hydraulic conductivity, 06333.
il moisture status
available water content, soil moisture conservation, agricultural practice, long term soil moisture, continuous cropping, fallow, Canada, Alberta, Lethbridge; 01695.
il moisture storage
moisture conservation, sandy soil, bare fallowing, mulching, drainage, evaporation, zero flux boundary, Niger; 07584. moisture retention, moisture profile, infiltration, wetting front, neutron moisture meter, temporal variability, Burkina Faso; 06332. rainfall spatial distribution, evaporation, groundwater recharge, urban catchment, rural catchment, mathematical model, semi arid area, rainfall runoff modelling, model applicability, soil type, topography, rainfall pattern, infiltration, Tunisia; 06295. root zone capacity, available water content, till soil, Scandinavia; 01702. root zone, evapotranspiration, drainage, crop coefficient, soil water balance model, drought, actual evapotranspiration, millet crop, soil texture, Niger; 12240.
il moisture storage capacity
return period, basin discharge, rainfall-runoff relation, probability theory, storage, routing model, 04040.
il moisture study
semi arid area, groundwater resource, groundwater recharge, aquifer flow transmissivity, sandstone aquifer, recharge process, aquifer flow model, chloride balance, Botswana, Kalahari; 06361.
il moisture suction
hydraulic conductivity, effective hydraulic conductivity, unsaturated hydraulic conductivity, layered sand, groundwater flow, heterogeneity, 01720. pF-curve, unsaturated hydraulic conductivity, hot air method, till soil, 01701.
soil monolith
sampling technique, lysimeter, soil core, 10914.
soil morphology
soil process, global soil change, 08561. tephra, Spodosol, International Committee on the Classification of Spodosols, tephra derived soil, Japan, Tohoku; USA, Washington; USA, Alaska; 08558. topography, Entisol, panspot, sodium affected landscape, dispersive erosion, USA, North Dakota; 10898.
soil mound
soil chemical property, soil physical property, aridic soil, shrub clump, Argentina, Patagonia; 09751.
soil movement
forest, seasonal soil movement, sediment concentration, sediment source, overland flow, India, Himalayas, Kumaun Himalaya; 00365. levelling, Belgium; 09188. tillage, slope, soil erosion, ridge top, USA, Minnesota; 03937.
soil nitrate concentration
fertiliser, nitrate, agricultural pollutant, tillage, agricultural practice, groundwater contamination, 01760.
soil nitrate level
desert, alluvial fan, coarse soil, Pleistocene site, nitrate distribution, USA, California, Mojave Desert; 07416.
soil nutrient
beach plain, phosphorus, spatial variation, temporal variation, nitrogen, potassium, Netherlands; 06257. granitic area, cultivation, soil fertility, China; 07433.
soil nutrient pool
bootstrap method, sample size, carbon pool, exchangeable cation pool, element pool, soil property, USA, New Hampshire; 08603.
soil nutrient status
nitrification, ash deposition, clipping effect, chaparral, fire, USA, California, San Diego County; 10863.
soil nutrition
clay content, flooded soil, nutrient deficiency, rice soil, iron toxicity, soil chemical property, Senegal, Casamance; 13293. nitrogen, tree growth, metal concentration, cherry, irrigation, waste water, Osoyoos loamy sand, Canada, British Columbia, Osoyoos; 13243.
soil organic component
soil mineral component, Sod-Podzolic soil, cultivation, 01530.
soil organic matter
grassland ecosystem, interception, grazing intensity, rangeland hydrology, water holding capacity, litter, Canada, Alberta; 12276. microwave emissivity, soil, soil moisture, aggregated soil, 03401.
soil organomineral
molecular weight, humic substance, metal ion, gel chromatography, USSR, Moscow; 00403.
soil parameter
diurnal freeze thaw cycle, radiation penetration depth, frozen soil layer, bare soil, 08074. undrained shear strength, variogram, kriging, spatial variability modelling, Canada, Quebec, James Bay, Broadback River; 06028.
soil particle
aerosol, urban atmosphere, carbon, sulphate, nitrate, ammonium,, chloride, aluminium, sodium, copper, nickel, potassium, zinc, calcium, manganese, magnesium, cadmium, silicon, sulphur, marine aerosol, Japan, Sapporo; 03199. EDTA, adsorption, desorption, contaminant, 07393. Mie scattering, solar radiation, complex index of refraction, solar heating, aerosol, organics, sea salt, Japan, Sapporo; 00848.
soil particle migration
soil transformation, forest clearance, tillage, burning, organic matter, rainforest soil, Brazil, Amazon; 09749.
soil particle size
spatial distribution, aggregate stability index, tillage regime, 03958.
soil particle-size data
Hecla soil series, soil texture, hydraulic conductivity, soil water retention, fine-textured soil, unsaturated hydraulic conductivity, pore-interaction factor, 12057.
soil pattern
geomorphology, physiographic unit, Quaternary, basaltic material, landform, volcanic soil, Cameroon, Mount Cameroon; 07430. vegetation pattern, pine afforestation, regional planning, Mali; Chile; 11573.
soil pedogenesis
micromorphology, microaggregation, kaolinite, Oxisol, French Guiana; 01591.
soil penetration
penetrometer, root growth, 03956.
soil penetrometer
field instrument, penetrometer, hand held penetrometer, 08593.
soil penetrometer measurement interpretation
cone angle, penetrometer, standard measurement, 06019.
soil permeability
mercury intrusion porosimetry, Champlain Sea clay, Louiseville clay, pore size distribution, clay permeability, Canada, Quebec, Louiseville; 10927. numerical model, rainfall characteristic, seal formation, raindrop impact, rainstorm intensity, rainfall energy, infiltration, sealing soil, 08766. permeability, shape factor, finite element analysis, analysis, constant-head permeability test, clay, 02539. sandy soil, water management, nutrient management, compaction, 09667.
soil pH
conifer, alder, exchange complex, cation exchange capacity, base saturation, acid strength, USA, Washington, Wind River; 07414. phosphorus sorption, pH decrement, temperate soil, phosphate application, Canada; 08590. restricted maximum likelihood, universal kriging, spatial prediction method, 12090.
soil phosphorus
Bray Kurtz P1, Bray Kurtz P2, Mehlich 3, soil test, alkaline extractant, acidic extractant, phosphorus availability, Canada, Ontario; 07408. phosphorus, plant uptake, USA, Michigan; 00425.
soil phosphorus pool

microbial phosphorus, soil fractionation, phosphorus fractionation method, sequential extraction method, 09726.
soil physical change
soil chemical change, cleared forest land, nutrient availability, forest clearance, burning, Brazil, Roraima; 09747.
soil physical characteristic
soil hysteresis, agrohydrological model, agricultural water demand, model calibration, model verification, water management, unsaturated flow, drainage, evapotranspiration, DEMGEN model, Netherlands; 06388.
soil physical condition
field seedbed, gel amendment, soil amendment, 09660.
soil physical property
acoustic reflection, acoustic analysis, acoustic propagation, 00436. aggregate stability, compaction, soil moisture, 09653. Aquic Hapludult, bulk density, soil strength, wheel traffic, tillage, 00399. aridic soil, shrub clump, soil mound, soil chemical property, Argentina, Patagonia; 09751. brown soil, loess, compaction, field traffic, 09655. bulk density, forest harvesting, USA, Vermont; 12102. bulk density, soil strength, microaggregation, tillage, cropping sequence, USA, Texas, Burleson County; 02753. cation exchange capacity, water retention, volcanic glass, USA, Nebraska; 04008. cattle, trampling, seedbed preparation, sandy loam, loam soil, soil disturbance, USA, Arizona; 07417. Cecil sandy loam, crop rotation, sandy surface soil, tillage treatment, 12055. chemical property, gamma sterilised soil, enzyme activity, denitrifying enzyme, irradiated soil, dentrification potential, 10894. cracking pattern, root development, compaction, 09664. crop response, tillage, clay content, rice soil, Philippines; 03953. crop rotation, tillage, water balance, Spain, Seville Province; 01540. experimental basin, forest, USSR; 04013. fire, semi arid woodland, depositional material, aggregate stability, micromorphological property, surface crust, cryptogam cover, Australia, New South Wales, Coolabah; 07438. land clearing, cropping system, soil compaction, Ultisol, humid tropics, tropical soil, Nigeria; 10943. microfabric, Rhine deposit, Netherlands; 01601. micromorphological characteristic, porosity, tillage, 01542. rice straw, soil moisture, paddy soil, manure application, China; 12121. Sod-Podzolic soil, compaction, tractor, 00398. soil amendment, kelp, bulk density, particle density, porosity, aeration, 02757. soil chemical property, Chernozem, waterlogging, gleying, stagnant regime, plough layer, irrigation, 10855. soil chemical property, earthworm, woodlice, Gibbs free energy, 01539. soil chemical property, farming system, brown earth, boulder clay, arable farming, orchard, deciduous forest, soil compaction, Poland, Pomerania; 09756. soil conditioner, soil biological property, polyacrylamide, 09665. soil distortion, triaxial test, strain, 02787. soil management, tropical soil, desertification, hydraulic property, fertility, Nigeria; 09765. soil management, tropical soil, millet field, hydraulic conductivity, soil hydrological property, Niger; 09762. soil mechanical property, mechanical soil strength, aggregate stability, agricultural soil, Germany, Bavaria; 09734. soil structure, organic overlay, mineral sublayer, organic amendment, aggregate stability, Canada; 13228. soil water regime, tropical soil, hydraulic property, Benin; 09764. soil water retention, soil strength, matric potential, manure application, Australia, Queensland, Darling Downs; 12123. surface curvature, precipitation catch, clay content, infiltration, soil water relation, topography, soil water distribution, water availability, USA, West Virginia, Central Appalachia; 06330. tillage, maize, legume, ridging, subsoiling, disc harrowing, Nigeria, Kurmin Biri; 05064. tillage, soil moisture, loess, mouldboard plough, cultivation, 13227. traffic induced compaction, field traffic, compaction, 09657. traffic, compression test, field traffic, 02788. trampling, animal, stocking rate, USA, (Southeast); 05061. wheel traffic, field traffic, compression, structure degradation, Czechoslovakia; 09705.
soil physics
catchment scale, sub catchment scale, geographical information systems, hillslope hydrology, field process investigation, computer modelling, hydrological process, 10997. river basin modelling, hydrological process, climate modelling, water balance study, runoff study, environmental hydrology, pesticide transport, hydrochemical study, engineering hydrology, flood estimation, low flow research, applications research, instrument development, irrigation study, research report, Institute of Hydrology, hydrological cycle, 08640. soil research, 09648.
soil physiochemical index
taiga soil, autonomous taiga soil, soil forming process, mineralogical composition, Okhotsk Sea; 10956.
soil pigment
chrysotalunin, anthraquinone pigment, liquid chromatography, 12098.
soil pipe
inorganic aluminium, throughfow, rainfall intensity, stormflow hydrochemistry, upland catchment, runoff chemistry, flow path, subsurface flow, surface water chemistry, rainfall duration, dry antecedent condition, UK, Wales; 04094. karst related feature, palaeokarst, mesokarst, artesian flow, maze cave, phreatic cave, subterranean stream piracy, USA, Mississippi Valley; 03840. landslide, research review, slope development, slope stability, 07181.
soil piping
short term acidification, atmospheric deposition, aluminium concentration, soil chemistry, runoff water quality, through flow, deposition chemistry, acidification, UK, Wales; 12195.
soil plant atmosphere continuum
evapotranspiration, semi arid region, hydrogen isotope, oxygen isotope, isotopic composition, soil water, atmospheric water vapour, leaf water, transport mechanism, 05121.
soil plant atmosphere system
statistical dynamical approach, subgrid scale surface, land surface heterogeneity, climate model, 07706.
soil plant atmospheric continuum
design flood, spillway design, reservoir design, water management, hydrosystem maintenance, flood prediction, flood warning system, stochastic model, deterministic model, equatorial lake, Sacramento Model, Stanford Watershed Model IV, Queen's University Forecasting Model, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416.
soil plant relationship
soil sodicity, tree growth, Raphostalf, 07374.
soil pollution
heavy metal, agricultural soil, sewage sludge, sludge amendment, PA 09688. heavy metal, sludge amended soil, sewage sludge, soil pro heavy metal accumulation, 09686. kriging vs kriging soil mapp floodplain soil, zinc, local trend analysis, mathematical model, inverse distance weighting, weighted local averaging, spatial predict method, Netherlands, Geul River; 08822. organic matter, metal bu ing, arsenic, chromium, copper, Denmark; 15263. particle size separ tion, mercury, oil refinery, airborne contamination, Greece, Aspropo gos; 09758. pore water velocity, low permeability layer, point sour diffuse source, advection-dispersion equation, transverse dispersi solute transport, groundwater flow; 15405. SSM, industrial disposa uranium, Italy, Norcia; 01800. trace element, groundwater contami tion, heavy metal mobility, 09678. waste water irrigation, irrigated heavy metal pollution, China, Tianjin; 12086. zinc, kriging, mapp Netherlands, Geul Floodplain, 02786.
soil pool
zinc uptake, ryegrass, zinc, 09677.
soil pore
thin section, fenic nodule, fluviation, ferrisaprolite, genesis method, pedological property, 15268.
soil pore structure
image analysis, STRUCTURA, heterogeneous structure, digital imag vertical section, 09720.
soil porosity
evaporation, storm flow, parameter estimation, hillslope hydrology, s property, antecedent condition, surface runoff, subsurface runo groundwater flow, hydraulic conductivity, Australia, Western Austral 07472. microvoid, mesovoid, deforestation, revegetation, cryptogam water availability, pore size distribution, Brazil, Amazonia, 09748. nit gen supplying capacity, crop rotation, farming system, soil propert organic matter, soil structure, aggregate stability, New Zealand, Sou Island, Canterbury Plains; 09778.
soil preparation method
image analysis, micromorphology, soil structure, biota, micromorpho logical technique, photographic method, Dutch Programme on S Ecology of Arable Farming Systems, staining technique, 10810.
soil probe
specific heat, heat pulse method, soil temperature, 10825.
soil problem
alluvial domain, global climatic change, salt problem, microbial ma over, anaerobiosis, climatic change, 07512.
soil process
anion diffusion, nitrate leaching, soil model, computer simulation 13267. canopy indicator, below ground process, spectral propert remote sensing, 09716. global soil change, soil morphology, 08560 nutrient loss, nutrient availability, fire, supply capacity, forest soil, Au tralia; 08589. Oxisol, Spodosol, Ultisol, podzolization, soil sequenc Brazil, Amazonia, Manaus, 07625. percolating water, podzolic so acidic soil, upland soil, aluminium, sesquioxide accumulation, acid pollution, experimental leaching column, inorganic soil proces organic soil process, Norway, Hoylandet; UK, Scotland, Allt a' Mha caidh; UK, Scotland, Loch Chon; UK, Scotland, Kelly Water; 09671 slope failure mechanism, hillslope development, humid tropical forest translational failure, earthflow, shallow slide, saprolite, subsurface so creep, shear strength, cove slope, landslide, Puerto Rico, 02580. to pics, sub tropics, soil research, global soil change, climate chang 08560.
soil productivity
catena, soil erosion, soil quality, yield, grain yield, Duck Brown so Weyburn Association, eroded hillslope, wind erosion, nutrient, Canad Saskatchewan; 05054. crop yield, soil map, USA, 02751. EPIC model agricultural land, erosion impact, USA, 01468. erosion map, water ero sion, wind erosion, erosion, Africa, Algeria, Morocco, Tunisia, Ethiopia; Kenya; Uganda, Nigeria, Ghana, Lesotho, Swaziland, Zim babwe, Burkina Faso, Niger, Burundi, Madagascar, Malawi, Mozam bique, South Africa, 05095. erosion problem, research needs, tropic soil, 06215.
soil profile
Aeric Ochraqualf, sludge application, sewage sludge, trace metal 09679. bioturbation, bomb carbon, carbon-14, 02707. floodplain soil A2 horizon, 09665. granite gneiss, clay mineralogy, pelitization, chemi ion, weathering, vermiculite, mica, chlorite, smectite, kaolinite, loes frost action, silt-enriched, alpine, surface mantle, USA, Wyoming, Wind River Range, Indian Basin; 12015. heavy metal accumulation, soil pollution, heavy metal, sludge amended soil, sewage sludge, 09688 lead, cadmium, copper, organic lead compound, PAH, pollution, mot vehicle, UK, England; 00819. oil concentration, oil yield, sunflower subsoiling, USA, South Carolina, Florence; Blackville; 04071 recharge, groundwater discharge, salt degraded landscape, saline electrical conductivity, Thailand, 02765. isotope method, carbon carbon-14, tropical region, India; Philippines, 02782.
soil profile attribute
prediction procedure, moisture deficit, kriging, stochastic map, soil attribute, Netherlands, Mander, 10855.
soil profile data
weathering profile data, chronosequence study, landform age, pedo variability, USA, Cossits Plain Province, 00120.
soil profile development
surficial deposit, landform, bedrock morphology, weathering, glacial erosion, regolith, deglaciation, uplift, Finland, Baltic Sea; 10955.
soil profile morphology
soil shrinkage, soil compaction, cotton, Vertisol, Australia, Queensland, Dalby; 09715.
soil property
antecedent condition, surface runoff, subsurface runoff, groundwater flow, hydraulic conductivity, soil porosity, evaporation, storm flow parameter estimation, hillslope hydrology, Australia, Western Australia, 07472. basic rock, Podzolic soil, humus, USSR, 01551. behaviour prediction, soil behaviour, test data, in situ testing, classification system

frost susceptibility, swelling, 13041. capillary rise, landscape type, plant water use, groundwater, 05206. cassava, cropping system, earthworm cast, Alfisol, tropical soil, physico-chemical property, Nigeria; 09706. clay content, organic carbon, carbon, exchange capacity, lime requirement, buffer capacity, acidic surface soil, cation exchange, Australia, Queensland; 07435. electrical conductivity, soil salinity, 03995. erosion, seepage, grass yield, water resource development, soil hydrophysics, India, Shiwalik; 06237. fertiliser requirement, Ultisol, buffering capacity, phosphorus buffering capacity, USA, (Southeast); Spain; 08587. gamma beam method, soil bulk density, water content, 09725. groundwater flow, diffusion model, constant pond depth, sorptivity, absorption model, saturated unsaturated flow, infiltration, 08763. hillslope hydrology, hydraulic potential, soil water capacity, unsaturated flow, matrix flux potential, diffusivity, water retention, hydraulic conductivity, measurement method, field study, 11042. hydraulic function, simulation model, evapotranspiration deficit, flux, unsaturated zone, groundwater flow, 07527. instrument parameter, bulk soil, electrical conductivity, 07389. landform evolution, weathering, landform model, soil formation, slope pedimentation, Malaysia, Padang Terap; 07434. Mollisol, spatial variability, grid sampling, soil map unit, variability coefficient, soil survey, USA, Illinois; 08618. organic matter, soil structure, aggregate stability, soil porosity, nitrogen supplying capacity, crop rotation, farming system, New Zealand, South Island, Canterbury Plains; 09778. peat soil, raised bog, pH effect, alkaline fertilising, acid fertilising, sorption capacity, Germany, Lower Saxony, Konigsmoor; 08625. pedogenesis rate, eolian dust accumulation, spatial soil variability, chronosequence, geochronological tool, USA, California, Cajon Pass; 02510. potable water, pesticide dynamics, water quality, UK, England, Lincolnshire, Sleaford; 07582. potassium supply, potassium rate, exchangeable potassium, fertiliser, 07369. soil compaction, crop yield, Poland; 09704. soil management, cultivated soil, Torrert, basaltic clay soil, Vertisol, Australia, Queensland, Oxford Land System; 09777. soil nutrient pool, bootstrap method, sample size, carbon pool, exchangeable cation pool, element pool, USA, New Hampshire; 08603. soil variability, land facet, savanna climate, soil sampling, Nigeria; 07429. SPOT, land management, soil map, USA, Illinois, Pord County; 03403. subtropical soil, yellow earth, catena, red earth, USSR, Georgia; 12085. surface flux, soil water balance, groundwater recharge, water balance, unsaturated zone, Norway, Solor; Haslemoen; 07519. tillage, crop residue, Vertisol, sorghum, semi arid sub-tropics, Australia, Queensland; 07388. tropical soil, agroforestry, soil fertility, plantation soil, Costa Rica; 07422. vadose zone, groundwater flow, steady state infiltration, infiltration rate, infiltrometer, permeameter, hydraulic conductivity, wetting front, 00583. variogram, kriging, copper, cobalt, element deficiency, UK, Scotland; 13219.

oil property prediciton
kriging, cubic spline interpolator, France, Sandford St. Martin; Yenne; 03986.

oil quality
yield, grain yield, Dark Brown soil, Weyburn Association, eroded hillslope, wind erosion, nutrient, soil productivity, catena, soil erosion, Canada, Saskatchewan; 05054.

oil radon
radon, detector, 01578.

oil radon analysis
groundwater exploration, radon gas, rock fracture, aquifer fracture, crystalline basement, Burkina Faso, Sanon; Katchari; Burkina Faso, Barogo; 06409.

oil reclamation
acidity neutralisation, weathering, lime requirement, coal waste, USA, Montana; 09697. desertification, soil degradation, steppe soil, China; 12120. fertiliser application, cultivation, podsolic loam soil, taiga, physicochemical property, USSR, Komi; 10949. forest soil, Grey Luvisol, nitrogen, fertiliser, sulphur, liming, polluted soil, 09673. gypsum, sodic soil, leaching, 00387. landfill site, methane, tree growth, UK, England, Essex, Pitsea Landfill Site; 09703. nitrification, topsoil, coal mine spoil, USA, New Mexico, San Juan; 09699. oilfield brine, calcium chloride, brine contamination, contaminated soil, soil contamination, USA, North Dakota; 07345. salinity, saline sodic soil, leaching, hydraulic conductivity, Canada, Alberta; 05071. soil chemical property, saline soil, alkaline soil, Landsat, Turkey, Cukurova; 12113.

oil recurrently frozen
polygon, stripe, free convection model, self organisation form, patterned ground, 06193.

oil redistribution
Boroll landscape, agricultural field, caesium-137, soil transport process, Ustic soil, Aridic soil, Udic soil, Canada, Saskatchewan; 09742. cultivated field, caesium-137, soil redistribution, wind, soil formation rate, spatial autocorrelation, Canada, Saskatchewan, Outlook; 10837. wind, soil formation rate, spatial autocorrelation, soil redistribution, cultivated field, caesium-137, Canada, Saskatchewan, Outlook; 10837.

oil reference collection
sliced profile, monolith, laboratory study, Tunisia; 09759.

oil reflectance spectra
spectral variability, thermal infrared spectra, 08073.

oil region
soil temperature regime, thermal classification, USSR; 12047.

oil research
global soil change, climate change, soil process, tropics, sub tropics, 08560. scientific recognition, soil science, 09647. soil physics, 09648.

oil residuum
colluvium, secondary mineral, regolith, weathering, soil geomorphic relation, slope process, mica gneiss, mica schist, saprolite, USA, North Carolina, Blue Ridge Front; 07420.

resilience
compressive stress, deformation, cyclic loading, structured soil, 03962.

resistance
standard test, standard penetration test, 13043.

resource
sea level rise, eustatic rise, drainage, salinisation, 07272.

resource management
sustainable agricultural production, soil temperature, soil moisture, water management, climatic data, soil moisture regime, bimodal rainfall characteristic, climatic data, Ethiopia; 05388.

soil resource survey
survey method, geostatistics, statistical method, land resource survey, 07330.

soil respiration
carbon cycle, carbon dioxide, biosphere model, temperature, 00930. greenhouse effect, glacial cycle, carbon dioxide, climatic impact, soil-borne carbon dioxide, 13752.

soil restoration
organic matter, mineralisation, microbial decomposition, anaerobic condition, topsoil, ammonia gas, sensing electrode, restored soil, 08573.

soil retention
coumaric acid, adsorption, microbial degradation, Freundlich isotherm, 03974. mercuric chloride, soil, mercury, 02776.

soil ripening
climatic deterioration, micromorphological evidence, Pleistocene(Mid), landscape, climatic change, transgressive-regressive coastline, Acheulean site, karstic environment, cryoclastic activity, UK, England, Somerset, Mendips; Sussex, West Sussex, Boxgrove; 01441. nutrient, relief formation, physico chemical study, soil maturation, land disposal site, dredged material, Germany, Essen Ruhr, Lake Baldeney; 08524.

soil S wave velocity
numerical analysis, in situ, S wave measurement, lacustrine silty clay, Italy, Fucino Valley; 03782.

soil salinisation
soil erosion, waterlogging, flooding, soil structure deterioration, saline water, Australia; 08636. water quality effect, irrigation, Alfalfa, Williams loam, Barnes loam, Svea loam, Parshall loam, saturation percentage, sodium adsorption ratio, electrical conductivity, salt precipitation, USA, Great Plains; 10856.

soil salinisatioon
salt exchange, salt blowing, Aral Sea; 10953.

soil salinity
chloride ion, saline soil, electrical conductivity, saturated soil extract, soil saturation extract, Iran, Great Desert; 13279. disjunctive kriging, salinity estimation, Israel, Bet Shean Valley; 02793. electrical conductivity, salinity, saturated paste, 07397. groundwater salinity, watertable depth, land drainage, leaching efficiency, SALTMOD, irrigation water management, salinity prediction, Egypt, Nile Delta, Zagazig, Mashtul; 11107. herbaceous cover, kriging, interpolation, GIS, stochastic model, Israel; Botswana; 03364. intertidal gradient, sediment, salt marsh, mud flat, precipitation, evapotranspiration, salinity, Netherlands; 12140. irrigation water, salt accumulation, 09669. irrigation, water erosion, soil conservation, reclamation technique, desert reclamation, degradation, wind erosion, dust storm control, 08532. salinity, salinisation, Canada, Alberta, Blackspring Ridge; 04005. soil amelioration, takir soil, saline soil, USSR, Uzbekistan, Bukhara, Karaulbazar Massif; 13297. soil property, electrical conductivity, 03995. spectroradiometer, remote sensing, Australia, Western Australia; 00434.

soil sample
land surface, thermal infrared, spectral emissivity signature, 03416.

soil sampling
landscape unit, soil hydrology, soil taxonomy, soil mapping, Italy, Carnic Alps, Rio Moscardo; 12108. phosphorus soil test, no-till soil, phosphorus fertiliser, Keith clay loam, Woodsen silt loam, Harney silt loam, USA, Great Plains; 12089. point emission source, fluoride, atmospheric pollutant, Greece; 13292. soil chemical property, cation exchange capacity, sample variation, exchangeable cation, forest soil, USA, Minnesota; Wisconsin; USA, Michigan; 13258. soil property, soil variability, land facet, savanna climate, Nigeria; 07429. spoil physicochemistry, mine spoil, geostatistical technique, sample spacing, kriging, USA, Montana; 13270.

soil saturation
piezometer, hydrosequence, water table, B horizon colour, soil colour, USA, Michigan; 10948.

soil saturation extract
soil salinity, chloride ion, saline soil, electrical conductivity, saturated soil extract, Iran, Great Desert; 13279.

soil science
agricultural research, 09643. agriculture, climatic change, 09646. computer modelling, 09644. crop production, soil testing, 07402. electron paramagnetic resonance, paramagnetism, humic substance, 00446. land management, 09645. soil research, scientific recognition, 09647. tropics, soil management, cultivation, soil degradation, 09650.

soil seal
crust, loamy sand, infiltration rate, seal formation, surface sealing, USA, Georgia, Piedmont; Coastal Plain; 10932. infiltration rate, soil strength, runoff, splash, wash, aggregate stability, crust formation effect, soil erosion process, 03931.

soil sealing
kinetic energy effect, magnesium, exchangeable magnesium, water drop kinetic energy, infiltration rate, sodium-calcium-magnesium soil, soil structure, 06335.

soil section
image analysis, soil structure, fractal approach, soil texture, surface charge, aggregate stability, 13222. SOLICON, soil image analysis system, 01570.

soil sectioning
chemical extraction, carbonate removal, 01576. chemical extraction, iron, manganese, 01577. micromorphology, 01573.

soil separability
tallgrass prairie, SPOT, satellite image, canonical transformation technique, Digital Elevation Model, soil survey, USA, Kansas, Manhattan; 08616.

soil separation method
size fraction, particle size separation, organic matter, physical separation, 09724.

soil sequence
soil process, Oxisol, Spodosol, Ultisol, podzolisation, Brazil, Amazonia, Manaus; 07425.

soil series

hydric soil series, nonhydric soil series, upland, wetland, soil vegetation correlation, USA, Florida; 10933.
soil settlement
arid soil, sabkha soil, saline soil, Africa, (North); Middle East; 12084.
soil shrinkage
field testing, clay surface cover, municipal solid waste, landfill leachate, leachate recirculation, Canada, Ontario; 09694. soil compaction, cotton, Vertisol, soil profile morphology, Australia, Queensland, Dalby; 09713. soil mechanics, volumetric shrinkage, American Society for Testing Materials D427 method, 12088.
soil sink
ammonium fixation, ammonium release, nitrification, immobilisation, 10882.
soil size fraction
adsorption, organic compound, wheat, microbial carbon, microbial nitrogen, mineralisation, decomposition, 10870. carbon concentration, nitrogen concentration, near infrared reflectance spectroscopy, 10920.
soil slip pattern
unstable hillside, chaparral, direct shear test, slope stability, root strength value, root reinforcement, USA, California, Transverse Ranges; 13054.
soil slippage
pore pressure modification, slope stability, chaparral, vegetation effect, USA, California, Transverse Ranges; 02549.
soil sodicity
tree growth, Haplustalf, soil plant relationship, 07374.
soil solute transport
standard batch method, miscible displacement method, exchange isotherm, adsorption isotherm, 00455.
soil solution
charge, ion binding model, organic soil, humic substance, acid organic soil, 07356. chemical model, chemical reaction, weathering process, proton donor, pedogenesis, 09611. coniferous forest, sulphur, nitrogen, USA, (Northeast); 05078. forest soil, acid deposition, ion concentration, Germany, Bavaria; New Zealand; 03983. land management, iron, aluminium, dissolved organic carbon, UK, Wales; 02806. lysimetry, centrifugation, seasonal change, 03989. nitrogen loss, forest catchment, groundwater quality, denitrification, nitrous oxide, 04137. quasi steady state model, soil chemistry, 05075. reversibility, iron(III) fulvic acid reaction, Mossbauer spectroscopy, fulvic acid, Countesswells series, Tipperty series, iron concentration, 09612. runoff water, overland flow, hillslope, convective dispersive solute transport, concentration hydrograph, rainfall induced runoff, solute transfer, 06316. soil solution composition, drying, incubation, 03992. soil water, water retention, cone index, lime, gypsum, ionic strength, calcium, soil strength, Typic Hapludult, USA, Georgia, Watkinsville; 13236. solution chemistry, nitrogen, soil chemical property, black locust, pine, hardwood, oak, hickory, forest soil, USA, North Carolina, Appalachians; 13259. speciation, cadmium, 02777. supersaturation, gypsum, calcium, sulphate, 13237. variable charge soil, Bladen series, Wedowee series, Podsolic soil, aluminium, Albaquult, Hapludult, Epiaquic Haplustult, supporting solution, Australia; USA, Georgia; 08581.
soil solution chemistry
forest hydrology, organic sulphur, throughfall, stem flow, sulphur, 07445.
soil solution composition
drying, incubation, soil solution, 03992.
soil stabilisation
sandy soil, soil microorganism, soil aggregate, aggregate formation, 00373. stabilisation, difficult soil, developing country, 03786.
soil stability
aggregate, soil loss magnitude, wet sieving method, Broughton clay, Heiden clay, antecedent water, water content, rainfall energy, soil aggregate, aggregate breakdown, 08537. erosion control, eutrophication amelioration, aquatic weed control, flood prevention, herbicide, water quality, 02964. infiltration, aggregate stability, rainfall energy, dispersion test, soil aggregate, Australia, South Australia, Mount Lofty Ranges; 12054. wet aggregate stability, dispersible clay, root exudate, corn, bromegrass, 05067.
soil stiffness
granular soil, field performance, case history, foundation settlement, 09511. lateral stress, in situ soil test, stiffness, 03778. overconsolidated soil, London Clay, reconstituted sample, clay, shear modulus, triaxial test, recent stress history, 04905.
soil stiffness parameter
stress path probing test, anisotropic elastic stiffness, London Clay, 03739.
soil storage
storage discharge relationship, snow covered mountain catchment, water yield model, soil water balance, overland flow, base flow, total runoff, Iran; 05133.
soil stratigraphy
pollen assemblage, snow patch, slope break, environmental change, Holocene(Late), snow accumulation hollow, Japan, Echigo Range, Mount Tango; 10794.
soil strength
crust strength index, crust formation, aggregate, fabric analysis, surface crust, simulated rainfall, loess soil, China, Lishi; 10851. erodibility, soil erosion, land management, erosion modelling, soil erodibility parameter, entrainment limit, 10834. field description, engineering soil, rock, logging technique, 13040. Kewaunee soil, Rozetta soil, soil compaction, corn, subsoil compaction, USA, Wisconsin; 10858. matric potential, manure application, soil physical property, soil water retention, Australia, Queensland, Darling Downs; 12123. microaggregation, tillage, cropping sequence, soil physical property, bulk density, USA, Texas, Burleson County; 02753. root, plant, Indonesia; 01547. runoff, splash, wash, aggregate stability, crust formation effect, soil erosion process, soil seal, infiltration rate, 03931. semi-arid soil, soil compaction, penetrometer resistance, virgin soil, mechanised agriculture, 12056. shear test, laboratory equipment, triaxial test, strength measurement, 13045. tillage, ploughing, cone penetrometer, soil clod, 05066. Typic Hapludult, soil solution, soil water, water retention, cone index, lime, gypsum, ionic strength, calcium, USA, Georgia, Watkinsvil 13236. wheel traffic, tillage, soil physical property, Aquic Hapludu bulk density, 00399.
soil strength behavior technique
cohesive strength, scarp height, scarp bevel, age, bevel inclination, fa scarp age, fault scarp, dating, USA, California, Owens Valley, Lo Pine Scarp; Nevada, Pleasant Valley; USA, Nevada, Dixie-Valley; US Nevada, Fairview Peak; 02531.
soil structural change
microaggregate structure, clay leaching, ferrallitic soil, Oxisol, orga matter, Cameroon; 09767.
soil structural stability
freezing, Conestogo soil loam, frost heave, frost penetration, ice seg gation, solute, 08571.
soil structure
aggregate stability, soil porosity, nitrogen supplying capacity, crop ro tion, farming system, soil property, organic matter, New Zealand, So Island, Canterbury Plains; 09778. ANOSOL, pore space, ima analysis, 03987. biota, micromorphological technique, photograp method, Dutch Programme on Soil Ecology of Arable Farming Syste staining technique, soil preparation method, image analysis, microm phology, 10910. biotic factor, aggregate separation, soil microenviro ment, pore space quantification, biota, 10909. compaction, field traff cultivated horizon, 09656. compaction, soil aeration, cultivated h izon, Stagnogleyic Luvisol, field traffic, 09658. dextran, polys charide, kaolinite, kaolinite polysaccharide system, xanthan, 1086 erodibility, hillslope hydrology, overland flow, erosion, sediment tra sport, kinematic wave approach, flow resistance value, 11006. erosic soil erosion, climatic change, soil moisture regime, soil texture, 085 fertiliser application rate, water stability, soil friability, bulk densi NPK fertiliser, tensile strength, water stability, 08572. forest so ANOSOL, image analysis, 03988. fractal approach, soil texture, surfa charge, aggregate stability, soil section, image analysis, 1322 hillslope hydrology, solute transport, groundwater flow, unsaturat flow, 11046. humic material, aggregate stability, soil aggregate, wat logged soil, lacustrine soil, silty clay, 12051. macropore orientatio soil deformation, permeability, pore space, air permeability, 1322 organic overlay, mineral sublayer, organic amendment, aggregate stab ity, soil physical property, Canada; 13228. pesticide, soil column, c bofuran movement, 07352. porosity, rotary cultivator, 03955. ro penetrability, soil amelioration, soil cracking, aggregate fractu 12049. sand, gravel, erosion, cohesive sediment, sediment transpo 00005. soil deformation, indirect tensile strength, unconfined compre sive strength, tensile strength, 13220. soil manipulation, soil core, art icial soil core, microcosm experiment, 10913. soil mineralog geotechnical property, soil engineering property, Yemen, Sana 12117. soil sealing, kinetic energy effect, magnesium, exchangeab magnesium, water drop kinetic energy, infiltration rate, sodium-c cium-magnesium soil, 06335. tillage, dispersive behaviour, structu stability, hardsetting soil, Australia, Western Australia; 12053. triaxi testing, weakly bonded soil, damage, 03741. turbic cryosol, patte ground, mud hummock, Porphyroskelic fabric, micromorphology, cry turbation, Canada, Yukon Territory, Herschel Island; 13184. vane she strength, tactile clay content, shear strength, clay content, root growt 10912. water suction, unsaturated sand soil, organic matter, soil coh sion, 09654. water suspensible solid, structural stability, microaggr gate, ploughed layer, 08569. wheel traffic, track traffic, Kuban bla earth soil, traffic induced compaction, field traffic, crop yield, USS 09708. yellow soil, soil transformation, mineralogical investigatio tropical soil, red soil, Ivory Coast, Booro Borotou; 09761.
soil structure deterioration
saline water, soil salinisation, soil erosion, waterlogging, flooding, Au tralia; 08636.
soil structure mapping
vegetation structure mapping, remote sensing imagery, mapping, USS Siberia; 09191.
soil study
sand deposit, arid formation, USSR; 00475. stratigraphic study, so landscape evolution, Binghamton symposium, hillslope study, terra study, 08515.
soil suction
soil moisture, unsaturated hydraulic conductivity, hydraulic condu tivity, 12222. surface elevation measurement, arid climate, edge li heave condition, field measurement, edge moisture variation distanc USA, Texas, Amarillo; College Station; 03813.
soil sulphur
inductively coupled argon plasma spectroscopy, liquid ion chromato raphy, sulphur, USA, Great Plains; 07410.
soil sulphur fraction
sulphur fertilisation, sulphur transformation, fertiliser, sulphate, micr bial carbon, microbial sulphur, USA, Oregon; 10880.
soil surface
crusting process, aggregate, slaking, rainfall, mechanical breakdow runoff, erosion, experimental study, crusting modelling, 10826. infiltr tion, runoff, soil moisture content, erosion control, sandy soil, Burki Faso, Yatenga Province, Bidi Village; 06424. leaf area index, two lay model, evapotranspiration, one layer model, heat transfer, parti canopy cover, canopy cover, cotton field, 10016. rainfall, cover, ro fragment, infiltration, micromorphology, rock flow, rock mulc saturated hydraulic conductivity, surface sealing, vesicle, hydrologic response, 03930. surface temperature, meteorological data, energy ba ance, model input, net radiation, 13520. surface temperature, temper ture, heat balance, asphalt pavement, 12357. water storage capacit rain drop impact, infiltration capacity, sandy soil, weeding, rainfa intensity, storm duration, total rainfall, runoff rate, rainfall intensi threshold, Africa, Sahel, Yatenga Region; 12227. water use efficienc micro lysimeter, leaf area index, evapotranspiration, evaporation, ev porative loss, Syria; 01639.
soil surface area
total specific surface, specific surface, 09721.
soil surface characteristic
remote sensing, surface classification, surface mapping, surfa

hydraulic parameter, rainfall simulation experiment, infiltration, runoff, vegetation cover, faunal activity, surface roughness, surface crust, tillage, Africa, Sahel; 06292.
l surface condition
shrubland, rainfall simulator, desert pavement, infiltration rate, soil erosion, soil crust, Torriorthent, infiltration, sediment production, Argentina, Patagonia; 01500.
l surface deterioration
runoff production, infiltration equation, simulated rainfall, arid area, semi arid area, Niger; Burkina Faso; 06291.
l surface roughness
simulated rainfall, simulated rainfall impact, fractal theory, roughness index, 02717. surface digitisation, surface roughness, laser scanner, 07390.
l surface sealing
rainstorm intensity, surface seal, rainstorm intensity, USA; 10839.
l surface temperature
crop cover, surface temperature, vegetative cover, biomass, potato, maize, cassava, USA, Hawaii; 08870. frozen ground, mapping, freeze-thaw boundary, SMMR, Nimbus-7 SMMR data, USA, (Midwest); 02694.
l survey
loess, rubified soil, paleosol, Rissian, Eemian, Denekamp interstadial, sediment reworking, pedological study, micromorphological study, loessial deposit, Spain, Gerona; 07208. magnetic susceptibility, particle size distribution, organic matter, soil boundary, USA, Oklahoma; 09651. organic matter content, soil texture, clay content, Atterberg limit, carbon content, Canada, Saskatchewan; 08607. relict soil, soil distribution, soil association, Austria, Thuringia; 08626. soil property, Mollisol, spatial variability, grid sampling, soil map unit, variability coefficient, USA, Illinois; 08618. soil separability, tallgrass prairie, SPOT, satellite image, canonical transformation technique, Digital Elevation Model, USA, Kansas, Manhattan; 08616. spectral response, soil classification, SPOT, USA, Illinois; 03404. yield variation, banana plantation, Thematic Mapper, vegetation index, Costa Rica; 10421.
l survey data
textural fraction, topsoil, semivariogram, calcium carbonate content, spatial variability, distance lag, Belgium, East Flanders, Polder Region; 08623.
l susceptibility
liquefaction, membrane compliance, membrane compliance effect elimination, undrained testing, 03759.
l suspension
caesium, cobalt, strontium, ion adsorption, adsorption site, USA, Texas, Hidspeth County; 09681. concentration ratio, quantity intensity relationship, ion selective electrode, potassium, USA, Iowa; 08605.
l swelling
soil hydraulic property, loam soil, salinity, Van Genutchen model, soil water retention, water diffusivity, hydraulic conductivity, Philips sorptivity, sodium adsorption ratio, 09843.
l taxa
soil distribution, ground penetrating radar, soil map, karst, USA, Florida, Chiefland Limestone Plain; 03951.
l taxonomy
calcareous soil, Entisol, atoll soil, Pacific, Pacific Islands; 12127. exchangeable base, base saturation, soil data, USA, Hawaii; Puerto Rico; 08608. soil alteration, anthropogenically, transformed soil, 12048. soil mapping, soil sampling, landscape unit, soil hydrology, Italy, Carnic Alps, Rio Moscardo; 12108. soil water regime, saltgrass, sodium adsorption ratio, soil chemical property, landform position, sodic soil, USA, North Dakota; 12101.
l temperature
agriculture, forest, 00717. analytical solution, heat conduction, surface mulch, thermal property, 07333. arid site, energy budget, 07720. boreal forest, soil degree day, discontinuous permafrost zone, slope, aspect, biophysical energy budget, surface energy budget, USA, Alaska; 13182. carbon, nitrogen, phosphorus, nitrification, substrate quality, Arctic soil, toposequence, mineralisation rate, USA, Alaska, North Slope; 09743. emission, soil moisture, radon, soil gas, USA, Pennsylvania; 00836. freezing index, ground freezing, permafrost, frost, Canada; 10811. hydraulic conductivity, groundwater flow, temperature dependent infiltration model, infiltration rate, 00586. methane emission, rice paddy field, 10213. model, thermal response, active layer, climate warming, permafrost environment, USA, Alaska, Toolik Lake; 13183. moisture content, summer temperature, moss cover, cryolite zone region, temperature regime, USSR, Central Yakutiya; 12362. pollutant transport, soil water content, organic pollutant, unsaturated soil, effective partition coefficient, Korea(South); 10874. rock temperature, discontinuous permafrost, periglacial, geomorphology, permafrost, freezing, thawing, weathering, Switzerland, Alps, Wallis, Unterrothorn; Gornergrat; 06199. snow cover, frost, forest, air temperature, Sweden, Svartberget; 03037. snow cover, frost, soil frost, Finland, Kuusamo; 01825. soil moisture, denitrification, pH, USA, California, Sierra Nevada; 02802. soil moisture, evapotranspiration, karst denudation, carbon dioxide, climate, soil carbon dioxide, USA, Georgia, Pigeon Mountain; North Carolina, Rocky Point; 00915. soil moisture, Michaelis-Menten expression, denitrification, nitrate loss, substrate concentration, Canada, Alberta; 04132. soil moisture, mountain slope, isothermic zone, hyperthermic zone, hyperthermic isohyperthermic boundary, isohyet, USA, Hawaii; 04232. soil moisture, water management, climatic data, soil moisture regime, bimodal rainfall characteristic, climatic data, soil resource management, sustainable agricultural production, Ethiopia; 05388. soil probe, specific heat, heat pulse method, 10925. soil vegetation atmosphere interface, thermal infrared, remote sensing, energy budget, leaf area index, evapotranspiration, remote sensing, areal evapotranspiration, satellite imagery, Finland, Kirajoki River Basin; 10982. temperature, energy balance, soil heat flow, surface energy balance, snow depth, frost depth, 08878. thermal diffusivity, soil compaction, heat flow model, 05070. tillage simulation, experimental verification, energy exchange process, water flux, heat flux, 12368.
l temperature gradient
soil moisture gradient, Bowen ratio, dew rise, dew fall, dew formation, energy balance, Leick plate, maize crop, 04024.
soil temperature measurement
permafrost, postglacial marine terrace, thermal regime, sandy postglacial soil, Canada, Quebec, Kangiqsualujjuaq; 03912.
soil temperature regime
thermal classification, soil region, USSR; 12047. weathering, pedogenesis, erosion, infiltration rate, topographic inversion, Fall Zone, eroded upland, Piedmont peneplain, erosion rate, soil, landscape, USA, Piedmont; Coastal Plain; 02515.
soil test
alkaline extractant, acidic extractant, phosphorus availability, soil phosphorus, Bray Kurtz P1, Bray Kurtz P2, Mehlich 3, Canada, Ontario; 07408. dry matter, plant yield, phosphorus, 02795. Pelloxerert, Bray Kurtz P1, phosphorus, sampling intensity, liming, 07406. soil, soil mapping, trace element, China; 03999.
soil test comparison
soil testing, elemental analysis, Mehlich 3 extractant, USA, South Carolina; North Carolina; USA, Virginia; USA, Delaware; 08609.
soil test extractant
Mehlich 1, Mehlich 3, Bray Kurtz P1, Mississippi method, soil testing, USA, Alabama; 07412.
soil test method
available phosphorus, phosphorus, chemical method, Ethiopia; 08631.
soil testing
agricultural soil, Mehlich 3, Mehlich 1, Bray Kurtz P1, USA, Georgia, Coastal Plain; 07413. elemental analysis, Mehlich 3 extractant, soil test comparison, USA, South Carolina; North Carolina; USA, Virginia; USA, Delaware; 08609. fertiliser recommendation, calcium chloride extract, nutrient status, extraction procedure, Netherlands; 13272. microcomputer based, laboratory apparatus, 03761. nitrate, ammonium, fertiliser recommendation, nitrogen, 13274. nutrient accumulation, Phytoavailability Soil Test, soil extraction method, ion exchange resin extraction, resin extracted nutrient, 07405. Olsen extract, Bray no. 1 extract, phosphorus, malachite green method, 13277. phosphorus, ammonium oxalate extract, colourimetric method, 13278. soil management, Baker Soil Test, 07403. soil science, crop production, 07402. soil test extractant, Mehlich 1, Mehlich 3, Bray Kurtz P1, Mississippi method, USA, Alabama; 07412. sorption index, phosphate availability, Canada, Peace River Region; 00437. universal soil extractant, extraction reagent, 07404.
soil texture
auger hole permeameter, subsurface flow, overland flow, disc permeater, soil hydraulic property, through flow, hillslope, macropore, runoff generation, 13324. clay content, Atterberg limit, carbon content, soil survey, organic matter content, Canada, Saskatchewan; 08607. grain size, catena, hillslope evolution, evolution model, sediment transport equation, slope, soil catena, 10708. hydraulic conductivity, soil water retention, fine-textured soil, unsaturated hydraulic conductivity, pore-interaction factor, soil particle-size data, Hecla soil series, 12057. land cover, biogeochemical cycling, land surface atmosphere interaction, climate modelling, basin model, anthropogenic effect, impoundment, landuse change, climate change, hydrologic process, soil water, evapotranspiration, runoff, discharge, Africa, Zambezi River; 12275. lithological discontinuity, soil development sequence, sandstone soil, siltstone soil, elemental analysis, New Zealand, Canterbury; 12126. microbial carbon, Alfisol, Vertisol, fumigation extraction technique, microaggregate stability, carbon mineralisation, nitrogen mineralisation, 10875. moisture, turbulent flux, pine forest, validation, land surface parameterisation, surface resistance, soil moisture, 03073. organic matter content, land leveling, water conservation, USA; 02752. organic matter content, sorption, herbicide, s-triazine, thiocarbamate, 02773. phosphorus, eucalypt research, nutrient status, site drainage, parent material, geomorphic history, classification, Australia, Queensland, Toolara State Forest; 10958. physical property, chemical property, calcareous soil, permanent wilting point, moisture characteristics, crop mid day stress, tropical soil, Sudan, Gezira; 10945. pore measurement, quick capillary rise, pore geometrical characteristics, penetration coefficient, hydraulic conductivity, 09731. pore structure, fractal geometry, particle size distribution, Sierpinski carpet, Brooks-Corey model, Campbell model, soil water retention, unsaturated hydraulic conductivity, 01706. rainfall, wind erodible material, crusted soil, soil crust, 08534. size class, disruption index, aggregate index, particle size distribution, soil disruption, 10915. soil analysis, soil classification, base status, acidity, South Africa, Natal; Natal, Tugela Basin; 13296. soil moisture storage, root zone, evapotranspiration, drainage, crop coefficient, soil water balance model, drought, actual evapotranspiration, millet crop, Niger; 12240. soil moisture, crop yield, spatial variability, geostatistical analysis, 03952. soil moisture, vapour pressure method, thermocouple psychrometer, moisture retention curve, sedimentary soil, basaltic soil, USA, Arizona; 12223. soil structure, erosion, soil erosion, climatic change, soil moisture regime, 08535. surface charge, aggregate stability, soil section, image analysis, soil structure, fractal approach, 13222.
soil thermal property
mesoscale thermal circulation, dry salt lake, surface wind, albedo, 05424.
soil thickness
age, stratigraphic horizon, Omachi APm Tephra Beds, Pleistocene(Middle), eruption style, accumulation rate, loess, Japan, (central); 02675.
soil throughflow
stream chemistry, hydrological budget, forest catchment, Norway spruce, sitka spruce, streamflow, surface water quality, throughfall, stemflow, 02949.
soil toxicity
aluminium, hydroxy aluminium polymer, organic soil horizon, 10891. fungicide, pesticide residue, soil biochemical factor, copper toxicity, Costa Rica; 10934.
soil transformation
forest clearance, tillage, burning, organic matter, rainforest soil, soil particle migration, Brazil, Amazon; 09749. mineralogical investigation, tropical soil, red soil, soil structure, yellow soil, Ivory Coast, Booro Borotou; 09761. rangeland, succession, abandoned cropland, organic

matter, soil chemical property, Chernozemic zone, Canada, Alberta; 08613.

soil transport process
Ustic soil, Aridic soil, Udic soil, soil redistribution, Boroll landscape, agricultural field, caesium-137, Canada, Saskatchewan; 09742.

soil type
forest hydrology, water resource, forest water use, water quality, climatic variation, evaporation, land management, 02955. interrill erosion, infiltration rate, watershed management, grazing, vegetation, Somalia; 11095. loess covered terrace, fluvial geomorphodynamics, Quaternary, river terrace, Talgrundterrassen, Holocene terrace, Germany, Isar River; Danube Valley; 06182. soil moisture, mountain terrain, desert terrain, thermal infrared measurement, surface energy radiance, 08072. surface retention, antecedent soil moisture, separation curve, incipient runoff curve, infiltration, rainfall runoff model, point infiltration model, small basin, semi arid area, runoff storage, USA, Wyoming; 09792. surface runoff, normalized difference vegetation index, surface water balance, vegetation cover, Lettaus climatonomy model, soil moisture, runoff, evapotranspiration, soil moisture, Africa, (West); 12239. taxonomic soil characteristics, soil erosion, land use effect, erosion, parent material, Spain, Valencia Province; 09752. topography, rainfall pattern, infiltration, soil moisture storage, rainfall spatial distribution, evaporation, groundwater recharge, urban catchment, rural catchment, mathematical model, semi arid area, rainfall runoff modelling, model applicability, Tunisia; 06295. urban heat island, pasture land, 00941.

soil unit
evaporation, groundwater, surface temperature, surface reflectance, Egypt; 01140. maximum sorption capacity, sorption saturation degree, soil acidification, pH buffering capacity, buffering capacity, Czechoslovakia, Slovakia; 09757. soil association, bibliography, soil map, USA; Canada; 01523.

soil use
soil description, soil mapping, aerial photography, photointerpretation, Brazil, Sao Paulo State, Botucatu, Tiete Basin; 13290.

soil variability
land facet, savanna climate, soil sampling, soil property, Nigeria; 07429. texture, moisture, soluble salt, electrical conductivity, 00370.

soil variable
plant community, elevation, total soil depth, water holding capacity, rooting depth, USA, Nevada, Humboldt National Forest; 00459.

soil variation
hillslope, landform, UK, England, Dartmoor; Wyre Forest; 02807. volcanic soil, nutrient supply, weathering, organic matter decomposition, clay content, decomposition, altitudinal effect, Costa Rica, Volcan Barva; 08620.

soil vegetation atmosphere interface
thermal infrared, remote sensing, energy budget, leaf area index, evapotranspiration, remote sensing, areal evapotranspiration, satellite imagery, soil temperature, Finland, Eurajoki River Basin; 10982.

soil vegetation correlation
soil series, hydric soil series, nonhydric soil series, upland, wetland, USA, Florida; 10933.

soil void
soil aggregate, aeration porosity, irrigation, specific volume, porosity, 10862.

soil vulnerability assessment
groundwater vulnerability assessment, GIS, pollution modelling, remote sensing, 09192.

soil water
air filled porosity, paludified mineral soil, peatland, water table depth, aeration, water potential, soil aeration, forest ploughing, porosity, Finland, Karelia; 10847. areal precipitation, hail, thunderstorm, weather radar data, Doppler radar, agriculture, Italy, Emilia-Romagna; 05350. arid rangeland, matrix potential, precipitation, USA, New Mexico; 01554. atmospheric water vapour, leaf water, transport mechanism, soil plant atmosphere continuum, evapotranspiration, semi arid region, hydrogen isotope, oxygen isotope, isotopic composition, 05121. canopy, optical data, remote sensing, vegetation, USA, Arizona; 06871. carbon cycle, emission, carbon dioxide, temperate grassland, eddy correlation, USA, Kansas; 03065. cassava, tillage, organic carbon content, 03954. convection, boundary layer, surface flux, 00731. cowpea, rainy season, rain onset, millet, Niger, Niamey; Africa, Sahel; 00713. electrical conductivity, time domain reflectometry, dielectric constant, 05090. energy balance, stem flow measurement, evapotranspiration, water balance, evaporation, transpiration, Bowen ratio method, cotton crop, microlysimeter, leaf area, plant density, USA, Texas, Lubbock; 05119. evapotranspiration, runoff, discharge, soil texture, land cover, biogeochemical cycling, land surface atmosphere interaction, climate modelling, basin model, anthropogenic effect, impoundment, landuse change, climate change, hydrologic process, Africa, Zambezi River; 12275. gale, tree line, climatic change, tree ring, 02994. groundwater flow, lysimeter, volume recorder, 11041. groundwater, watershed hydrology, hydrological cycle, water movement, water storage, evaporation, condensation, infiltration, antecedent moisture condition, variable source area, return period, environmental water, transpiration, interception, photosynthesis, respiration, precipitation, 10963. radiation balance, albedo, humidity, water vapour, infrared irradiance, chinook, snow, Canada, Alberta; 04218. soil electric potential signature, drought, electric potential, electrolyte concentration, 07647. sulphate desorption, desorption modelling, extractable sulphate, 12074. surface water quality, evaporanspiration, dissolved organic carbon, subarctic fen, fen, skin flow, throughfall, Canada, Quebec, Schefferville; 07506. tracer technique, unsaturated hydraulic conductivity, recharge rate, solute transport, heat transport, groundwater recharge, mobile water content, water flux, infiltration, 07524. water retention, available water capacity, volcanic material, air porosity, water retention property, specific surface area, Tanzania; 13280. water retention, cone index, lime, gypsum, ionic strength, calcium, soil strength, Typic Hapludult, soil solution, USA, Georgia, Watkinsville; 13236. water transport, heat transport, ridged soil, groundwater flow, unsaturated zone, tilled soil, 06334. wick tensiometer, coarse soil, gravelly soil, sand, water tensio 07391.

soil water balance
available soil water, climate change, rainfall decline, Nigeria, Sudan Sahelian Zone; 12232. crop water supply, evapotranspiration, cropp field, fallow field, millet crop, water conservation, Niger; 12234. da file, crop growth simulation model, water balance model, WATERMA IBSNAT, 12238. groundwater recharge, water balance, unsaturat zone, soil property, surface flux, Norway, Solor; Haslemoen; 0751 neutron probe, water content, surface runoff, infiltration, evaporatio grassland, Niger, Ibecetene; 12233. overland flow, base flow, total ru off, soil storage, storage discharge relationship, snow covered mounta catchment, water yield model, Iran; 05133. plant physiology, databas cultural practice, wateruse efficiency, evaporation, crop water requir ment, potential evapotranspiration, Africa, Sudan; Sahel; 12142. pla physiology, soil characteristic, crop wateruse, water management, sc water movement, infiltration, drainage, evaporation, wateruse ef ciency, Africa, Sudan; Sahel; 12290. simulation model, crop waterus energy water balance model, sorghum crop, Africa, Sudan; Sahe 12235. water balance model, crop characteristic, soil characersiti simulation model, tensiometer, neutron probe, water storage, ro growth, actual evapotranspiration, drainage, lysimeter, evapotranspir tion, deterministic method, stochastic method, Ivory Coast, Bouak 12236.

soil water balance model
drought, actual evapotranspiration, millet crop, soil texture, soil moi ture storage, root zone, evapotranspiration, drainage, crop coefficien Niger; 12240.

soil water capacity
soil clod, water absorption, absorption tension, water content, 1327 unsaturated flow, matrix flux potential, diffusivity, water retentio hydraulic conductivity, measurement method, field study, soil propert hillslope hydrology, hydraulic potential, 11042.

soil water characteristic
hydraulic conductivity pressure head function, hillslope hydrology, so hydraulic property, hysteresis, infiltration, evaporation, drainage, so water content pressure head relationship, 11043. hydraulic resistanc wetting front, inverse method, groundwater flow, infiltration, soil crus cumulative infiltration, low permeability layer, water absorption, 1340

soil water characteristic curve
through flow, runoff, soil water storage, pipe flow, bypass flow, ol water, water discharge, macropore, humid catchment, hillslope, pre ferential flow, 09804.

soil water chemistry
acid rain, acid neutralisation capacity, open field precipitatio throughfall, element flux, soil acidification, atmospheric deposition, aci dification, water chemistry, granitic catchment, forest catchmen France, Vosges Massif; 04088. acid rain, acidification, surface wate chemistry, soil exchange complex, aluminium mobilisation, atmospheri deposition, Norway; 02892. acidification, canopy deposition, catio leaching, throughfall enrichment, sulphate, dry deposition, leaching precipitation chemistry, model ecosystem, mineral cycling, fores hydrology, lysimeter, canopy leaching, 11087. alkalinity, total organi carbon, baseflow, surface water chemistry, mixing analysis, UK, Scot land, Cairngorms, Allt a'Mharcaidh Catchment; 04101. atmospheri deposition, element budget, experimental watershed, forest catchment water budget, nitrogen, sulphur, fertilizer, acidification, surface wate quality, Germany, Black Forest; 06392. biogeochemical ion exchange weathering reaction, water pathway, chemical change, acid rain, runof chemistry, surface water chemistry, lake water chemistry, precipitatio chemistry, 04082. dissolved organic carbon, riparian zone, dissolve free amino acid, flow path, UK, Wales; 04093. flow path, dry-we hydrological cycle, bog, base flow, piston flow, antecedent conditions surface water quality, Norway, Birkenes; 13380. forest catchment potassium, magnesium, sodium, calcium, subsurface flow, silicat hydrolysis, acid neutralisation capacity, surface water chemistry, precip itation chemistry, throughfall chemistry, Spain, Montseny Mountains 04090. forest hydrology, runoff water quality, acidification, surfac water quality, nitrogen, precipitation chemistry, infiltration, throughfall 06391. forest soil, inorganic nitrogen, nitrate leaching, nitrogen load ing, surface water quality, bulk precipitation, throughfall, stem flow nitrogen flux, spruce forest, dissolved inorganic nitrogen, UK, Wales Beddgelert; Plynlimon; UK, England, Cumbria, Kershope; 11098 hydrogen calcium, runoff chemistry, oxygen-18 isotope, inorganic monomeric aluminium, soil water end member, surface water chemistry Norway, Birkenes Catchment; 04103. long term trend, acidification atmospheric deposition, afforested catchment, moorland, landuse change, Model of Acidification of Groundwaters in Catchments, surface water chemistry, UK, Scotland; Wales; 13446. lysimeter, nitrogen dynamics, spodosol, USA, New York, Adirondack Mountains, Hunting ton Forest; 02919. nitrate, representative basin, leaching, agricultural practice, surface water quality, France, Orgeval, Melarchez Basin 06396. nutrient, vegetation growth, wetland, sewage effluent, pH redox potential, nitrogen, phosphorus, ammonium, iorganic phos phorus, water quality, New Zealand, Waitangi Forest; 12278. organic acidity, spate specific flow pathway, surface water quality, acid stream stream episodicity, tracer study, flow path, pre event water, Sweden Svartberget; 13378. peat soil, groundwater quality, iron, calcium sodium, magnesium, aluminium, dissolved organic carbon, acidic soil water, UK, Scotland; 01732. runoff chemistry, catchment treatment sulphur treatment, acidification, groundwater chemistry, sodium sul phate treatment, surface water chemistry, Sweden; 13382. sample size requirement, leachate chemistry, tension lysimeter, pan lysimeter, groundwater quality, lysimeter, USA, Pennsylvania, Pea Vine Hill; 01731. soil water end member, alkalinity, sulphate, sodium, mag nesium, calcium, dissolved silica, hydrograph separation, end membe mixing analysis, acidic deposition, surface water chemistry, USA, Geor gia, Panola Mountain Catchment; 04099. storm runoff, pH data, base flow, acid neutralisation capacity, forest stream, water chemistry, sur face water chemistry, UK, Wales, Hafren; 11026. stream acidity, hydro gen, sulphate, chloride, sodium, crown leaching, interception, podsolic soil, gleyed soil, hydrochemical flux, throughfall, stem flow, forest

atchment, UK, Scotland; 11086. subsurface runoff, acidification, flow ath, chemical tracer, catchment acidification model, antecedent field ondition, tracer flux, surface water quality, UK, Scotland, Loch Ard; Allt a'Mharcaidh; 13391. surface water chemistry, flow path, acid neu- ralisation capacity, pH, afforestation, hydrograph separation, UK, Wales, Llyn Brianne; 04100. surface water chemistry, ion-exchange, veathering process, exchangeable cation, aluminium-hydrogen ion rela- ionship, acidification, UK, Scotland; Wales; Norway; 04083. surface vater chemistry, ionic loading, acidification, sodium bromide, stream vater chemistry, aluminium mobilisation, water pathway, Norway, Birk- nes Catchment; 02890. surface water chemistry, soil water end nember, acidification model, UK, Wales, Plynlimon; Norway, Birkenes Catchment; 04098. surface water quality, acid rain map, bedrock, gla- ial sediment, acid buffering, carbonate mineral, clay, acid leaching, xchange reaction, geology, acid rain, lake water chemistry, Canada, Ontario; 06315. surface water quality, forested catchment, aluminum, cidic deposition, aqueous labile aluminum, Europe; North America; 01680. surface water, ion exchange process, aluminium, hydrogen, ion elationship, Surface Waters Acidification Programme, UK, Scotland; Norway; 13387.

l water conservation
gricultural practice, tillage, macroporosity, infiltration, 05247. soil ompaction, tillage system, infiltration rate, sandy soil, 06385.

l water content
cetylene inhibition, nitrous oxide, nitrogen, denitrification, 13275. utomated technique, measurement technique, time domain reflec- ometry system, 08762. bulk density, nuclear probe, single probe, dual robe, calibration, shrinkage, swelling, clay loam soil, surface condi- ion, 01699. bulk density, porosity, 00388. cation transport, sandy soil, inite difference numerical model, aqueous phase concentration, simula- ion model, unsaturated flow, 08602. chalk, water balance, groundwater echarge, Coombe deposit, soil water potential, zero flux plane method, nsaturated hydraulic conductivity, drainage flux, hydraulic conduc- ivity, UK, England, Eastbourne; 07530. denitrification, denitrification ctivity, hot spot, nitrous oxide, 12062. dielectric mixing model, olumetric water content, thermogravimetric method, time domain eflectometry, water content measurement, composite dielectric pproach, 08761. field capacity, wilting point, saturation percentage, aturation paste method, New Zealand; 09739. neutron probe, tensiom- ter, hydrodynamic model, unsaturated zone, surface runoff, water ten- ion, aquifer recharge, water balance, Burkina Faso; 12231. neutron robe, upward flux, energy balance model, soil heat flux, agricultural vater, water management, evapotranspiration, shallow watertable, crop vaporation, capillary rise, lysimeter, irrigation practice, watertable nagement, water balance model, radiant canopy temperature, 13454. rganic pollutant, unsaturated soil, effective partition coefficient, soil emperature, pollutant transport, Korea(South); 10874. soil water otential, chalk aquifer, sandstone aquifer, groundwater recharge, echarge pathway, zero flux plane method, water balance, 11035. soil vater tension, 01548. steady flow, unsteady flow, pore water velocity, vater exchange, immobile water, solute transport, unsaturated sand olumn, 08765. three dimensional axial-symmetric water flow, time- lomain reflectometry, 00438. variance spatial analysis, geostatistical echnique, groundwater flow, double ring infiltrometer, infiltration, 09839.

l water content pressure head relationship
oil water characteristic, hydraulic conductivity pressure head function, illslope hydrology, soil hydraulic property, hysteresis, infiltration, eva- oration, drainage, 11043.

l water diffusivity
ne step over flow method, Passioura, 03993.

l water discharge
vater storage, water balance, snow cover, runoff, stream discharge, Antarctica, King George Island; 01744.

l water distribution
rrigated field, root extraction, unsaturated flow, lateral flow, sprinkler rrigation, irrigation non uniformity, 07525. water availability, soil hysical property, surface curvature, precipitation catch, clay content, nfiltration, soil water relation, topography, USA, West Virginia, Central Appalachia; 06330.

l water dynamics
ine textured soil, infiltration, neutron moisture meter, tensiometer, gyp- um block, saturation zone, soil water storage, forest hydrology, illslope hydrology, Australia, Western Australia; 02902. jarrah forest, illslope transect, coarse textured soil, infiltration, neutron moisture neter, tensiometer, gypsum block, soil water storage, Australia, Western Australia; 02901. quick flow analysis, spatial variability, landuse, basin haracteristic, flood, runoff, hydrologic process, 08667. transpiration, vater loss, evapotranspiration, leaf conductance, plant water potential, oil moisture, water use efficiency, grassland ecosystem, 05118.

l water end member
cidification model, soil water chemistry, surface water chemistry, UK, Wales, Plynlimon; Norway, Birkenes Catchment; 04098. alkalinity, sul- hate, sodium, magnesium, calcium, dissolved silica, hydrograph eparation, end member mixing analysis, acidic deposition, surface vater chemistry, soil water chemistry, USA, Georgia, Panola Mountain Catchment; 04099. surface water chemistry, soil water chemistry, ydrogen calcium, runoff chemistry, oxygen-18 isotope, inorganic nonomeric aluminium, Norway, Birkenes Catchment; 04103.

water evaporation
rop coefficient, rangeland, evapotranspiration, transpiration, lysimeter, rassland, USA, South Dakota, Newell; Idaho, Reynolds; USA, Wyom- g, Gillette; 10979.

water extraction
xygen-18, deuterium, isotope analysis, 02932. suction cup method, acropore flow, bypass flow, spatial variability, sampling system, 3401.

water flow
isc permeameter, soil hydraulic property, hydraulic property, 03994. le drain, soil hydraulic property, land drainage, surface runoff, water ble depth, Dupuit-Forchheimer flow, 01698. sulphate, buffering, flow h, precipitation chemistry, acidification, wet deposition, bulk deposi- tion, mist, fog, enhancement deposition, vegetation ecosystem, UK, Scotland, Allt a'Mharcaidh; Norway; 13374.

soil water flux
contaminant transport, lysimeter, leaching, pesticide, 09838.

soil water hydrodynamics
ferruginous soil, sand dunes, water holding capacity, hydraulic conduc- tivity, water characteristic curve, Africa, Sudan; Sahel; 12229.

soil water management
erosion control, agricultural land, off-farm impact, cropping pattern, UK, England; 01505.

soil water movement
forest hydrology, spatial variability, interception, temporal variability, hillslope hydrology, stemflow, soil moisture heterogeneity, 02960. frost, groundwater flow, heat flux, 12262. infiltration, drainage, eva- poration, wateruse efficiency, soil water balance, plant physiology, soil characteristic, crop wateruse, water management, Africa, Sudan; Sahel; 12290.

soil water potential
calibration, thermocouple psychrometer, pressure plate measurement, psychrometric measurement, 09841. chalk aquifer, sandstone aquifer, groundwater recharge, recharge pathway, zero flux plane method, water balance, soil water content, 11035. infiltration ring, disc permeameter, macropore, diffusivity, sorptivity, hydraulic conductivity, ponded infil- tration, saturated flow, unsaturated flow, soil hydraulic property, 00585. infiltration, water table rise, waterlogged soil, runoff, seepage, hydraulic gradient, pseudogley, water balance, soil hydrology, forest hydrology, soil moisture content, Germany, Hunsruck/Rhineland Palati- nate; 01623. tensiometer, soil moisture movement, drip irrigation, infiltration, hydraulic conductivity, Mauritius; 09847. zero flux plane method, unsaturated hydraulic conductivity, drainage flux, hydraulic conductivity, soil water content, chalk, water balance, groundwater recharge, Coombe deposit, UK, England, Eastbourne; 07530.

soil water process
unsaturated zone, environmental database, lysimeter, tensiometer, research programme, instrumentation, observation well, pumping well, groundwater research, Germany, Horkheimer Insel; 09780.

soil water property
topography, water balance, hydrograph, rainfall variability, runoff model, France, Vosges, Fecht Basin; 08682.

soil water redistribution
Richards equation, convection dispersion equation, preferential flow path, unstable flow, groundwater flow, coarse textured soil, solute tran- sport, water repellent soil, unsaturated flow, infiltration, 09837.

soil water regime
climatic effect, tropical soil, Continental Terminal material, toposе- quence, topographic position, Niger, Hamdallaye; Malgorou; 09763. furrow irrigation, agricultural crop, irrigation water, infiltration, 09730. saltgrass, sodium adsorption ratio, soil chemical property, landform position, sodic soil, soil taxonomy, USA, North Dakota; 12101. surface water distribution, clay loam, georelief, morphometric characteristics, spatial differentiation, Czechoslovakia, Ronava River; 08627. tropical soil, hydraulic property, soil physical property, Benin; 09764.

soil water relation
topography, soil water distribution, water availability, soil physical pro- perty, surface curvature, precipitation catch, clay content, infiltration, USA, West Virginia, Central Appalachia; 06330.

soil water retention
fine-textured soil, unsaturated hydraulic conductivity, pore-interaction factor, soil particle-size data, Hecla soil series, soil texture, hydraulic conductivity, 12057. soil strength, matric potential, manure application, soil physical property, Australia, Queensland, Darling Downs; 12123. unsaturated hydraulic conductivity, soil texture, pore structure, fractal geometry, particle size distribution, Sierpinski carpet, Brooks-Corey model, Campbell model, 01706. water diffusivity, hydraulic conduc- tivity, Philips sorptivity, sodium adsorption ratio, soil swelling, soil hydraulic property, loam soil, salinity, Van Genutchen model, 09843.

soil water status
canopy temperature, infrared thermometry, crop water stress, 12767.

soil water storage
canopy, evapotranspiration, Douglas fir stand, carbon dioxide flux, sum- mertime change, root zone, 12356. catchment scale approach, water balance, hillslope hydrology, runoff production, peat covered catch- ment, UK, England, East Anglia; Somerset Levels; 11004. climate, equilibrium state, land surface, hydrology, precipitation, evaporation, general circulation model, 07699. crop wateruse, wateruse efficiency, tillage, fertiliser application, soil characteristic, water balance, plant physiology, crop water balance, rainfall, evaporation, transpiration, run- off, deep drainage, Africa, Sudan; Sahel; 12141. evaporation, tran- spiration, drainage, water balance study, storage, loss, rainfall, runoff, 12144. forest hydrology, hillslope hydrology, soil water dynamics, fine textured soil, infiltration, neutron moisture meter, tensiometer, gypsum block, saturation zone, Australia, Western Australia; 02902. neutron probe, electrical conductivity, electromagnetic induction meter, coherency analysis, water storage variability, 07521. pipe flow, bypass flow, old water, water discharge, macropore, humid catchment, hillslope, preferential flow, soil water characteristic curve, through flow, runoff, 09804. runoff, flood genesis, rainfall runoff relationship, stream flow, groundwater storage, France, Massif Central, Mont-Lozere; 06279. soil hydraulic function, functional sensitivity analysis, Nether- lands, Hupselse Beek Watershed; 00441. soil water dynamics, jarrah forest, hillslope transect, coarse textured soil, infiltration, neutron mois- ture meter, tensiometer, gypsum block, Australia, Western Australia; 02901.

soil water storage estimation
streamflow forecasting, hillslope hydrology, flow forecasting model, 00574.

soil water system
micelle, PAH, surfactant, solubilisation, organic contamination, 07031.

soil water tension
available water content, hydrodynamic characteristic, sandy soil, soil hydraulic property, neutron probe, tensiometer, field capacity, rooting

zone, drainage loss, Ivory Coast; 12230. moisture distribution, soil moisture regime, Europe; 12106. soil water content, 01548.
soil water through flow
stem flow, throughfall, canopy effect, infiltration, water chemistry, preferential flow, hillslope hydrology, flow path, stream flow chemistry, acidification, UK, Scotland, Loch Ard; Allt a'Mharcaidh; 13316.
soil water transmissivity
sorptivity, saturated hydraulic conductivity, macroporosity, Ultisol, maize, tillage, mulching, Nigeria, Nsukka; 09766.
soil water-heat model
infiltration, drainage flow, frost, surface runoff, percolation, snow, soil frost, flow path, frozen soil, Sweden; 13437.
soil wedge polygon
palaeoclimatic significance, polygonal patterned ground, till, fire, thermal cracking, radiocarbon date, permafrost aggradation, Canada, Quebec; 07288.
soil wetness
eddy correlation measuring device, semi arid area, water balance, dryland millet, evaporation, evapotranspiration, transpiration, soil evaporation, Institute of Hydrology, ICRISAT Sahelian Center, porometry, microlysimeter, energy balance, Niger; 06270. factor analysis, TM, soil hydric status, France, Alsace; 10398.
soil wetness distribution
short range forecasting, rainfall, forecasting, European Centre for Medium Range Weather Forecasts, Africa, Sahel; 13621.
soil wettability
afforested catchment, bedload, quick flow, peak flow, soil loss, catchment response ratio, suspended sediment, overland flow, water repellency, wildfire, South Africa; 10993.
soil wetting
aggregate stability, vacuum wetting, wet aggregate, prewetting technique, 13269.
soil wetting index
rainfall runoff relationship, surface characteristic, runoff estimation, vegetation cover, infiltration, crusting, soil characteristic, water balance model, Mali, Kassela; Senegal, Thysse Kaymor; 12237.
soil zinc concentration
zinc application, immobilisation, pasture, New Zealand, South Island, Southland; Otago; 10907.
soil zonality
foothill, vertical zonality, horizontal zonality, Europe, (Central); Czechoslovakia, Slovakia; 08559.
soil zone
slope class, regional erosional inventory, caesium-137, soil erosion, rates of soil redistribution, Canada, Saskatchewan; 05053.
soil-forming process
horizon thickness, landform position, Boroll, catena, Canada, Saskatchewan; 12100.
soil-geomorphic research
overview, soil chronosequence, atmospheric dust influx, climatic change, paleosol, pedogenesis, diagenesis, 02494.
soil-grass canopy
grass biomass assessment, AVHRR, vegetation index, leaf area index, regression analysis, Poland; 10413.
soil-landform interaction
landform, hillslope, pedogenesis, upslope distance, canonical ordination analysis, convexity, gradient, multivariate analysis, parent material, Australia, South Australia; 13216.
soil-landscape relationship
Pleistocene soil, Holocene soil, soil composition, soil classification, Griffy soil, Enos soil, Ethete soil, Apron soil, Glenton soil, USA, Wyoming, Wind River Basin, Riverton; 13286.
soil-plant environment
carbon dioxide, nitrous oxide, methane, source, sink, greenhouse gas, 13741.
soil-root interface
calcium, aluminium, nutrient uptake, Fragiaquic Paleudult, lime, USA, (Southeast); 00418.
soil-stratigraphic technique
landform evolution, pedogenesis, terrace, regolith, slope, erosion, forest destruction, erosion rate, New Zealand, Southern Alps; 02520.
soil-structure interface behaviour
elastoplasticity, rate type law, modelling, 00248.
soil-water film
specific surface, montmorillonite, kaolinite, hydromica, 00390.
soilborne carbon dioxide
soil respiration, greenhouse effect, glacial cycle, carbon dioxide, climatic impact, 13752.
soiling
particulate, carbon, transport, emission inventory, building surface, particulate elemental carbon, diesel emission, smoke, dispersion model, 13722.
Sojuzkarta
marketing, commercialisation, remote sensing, Landsat, SPOT, 05559.
Sola Formation
tectonism, fault block, Cretaceous, sand, North Sea, Witch Ground Graben; 07048.
solar absorptivity
dust storm, optical property, aerosol, radiative heating, 07657.
solar actinic irradiance
preconcentration, chemiluminescence detection, hydrogen peroxide, 13736.
solar activity
beryllium 10, heliomagnetic cyclicity, polar ice, 11 year cycle, 06521. lightning, cosmic ray, nitrous oxide, sulphuric acid, sulphur dioxide, volcanic ash, precipitation chemistry, nitrate, precipitation, Antarctica; 02029. Little Ice Age, historical data, climate change, sunspot activity, Maunder minimum period, France, Paris; 10142. polar vortex, ionospheric data, 06443. quasi-biennial oscillation, grain yield, snow cover, 06429. sunspot cycle, cross correlation, residual time series, drought index, 07640.
solar almucantar
multiwavelength radiometer, aerosol, optical property, remote sensing, China, Beijing; 06557.
solar altitude
albedo decay, prairie snow, snow, temperature, 04217.
solar aureole intensity
boundary layer, accumulation model, coarse particle mode, air mass trajectory, isentropic surface, coarse particle aerosol, free troposphere aerosol, Japan; 04382.
solar backscatter ultraviolet instrument
travelling wave, Nimbus-7, ozone measurement, stratosphere, Kelvin wave, 13643.
solar backscattered ultraviolet
instrument degradation, satellite observation, Dobson network, Umkehr, ozone depletion, 03225. spectral radiometer, solar cycle dependence, middle atmosphere, ultraviolet, albedo data, noctilucent cloud, satellite observation, polar mesospheric cloud, 09954.
solar constant
ice cover, energy balance modelling, cool sun paradox, 06518.
solar corona
plasma, solar wind, Ulysses, heliosphere, 05563.
solar cycle
ion pair production, hydrogen, proton, hydroxyl, hydro-peroxy, nitrogen, nitrogen monoxide, nitrogen dioxide, solar proton event, middle atmosphere, 03004. tidal forcing, drought, deterministic signal, precipitation, rain gauge, USA, Wyoming; Montana; USA, Idaho; 05392.
solar cycle 21
geomagnetic activity, aurorae, ozone depletion, Antarctica; 04412.
solar cycle dependence
middle atmosphere, ultraviolet, albedo data, noctilucent cloud, satellite observation, polar mesospheric cloud, solar backscattered ultraviolet, spectral radiometer, 09954.
solar cycle influence
glacial interglacial period, greenhouse effect, anthropogenic phenomena, climatic fluctuation, geomagnetic activity, 11393.
solar elevation angle
weather condition, radiation balance, sea surface, albedo, Atlantic, 11221.
solar energy
wind potential, oil seed production, ocean current, upwelling, plankton accumulation, fishery, climatic service, agricultural development, food production, 05293.
solar flux
deposition velocity, biosphere exchange, carbon dioxide, ozone, rain forest, respiration, ecosystem, Brazil, Amazon; 07841.
solar forced tide
tide, ozone depletion, stratosphere, trace gas, 11248.
solar forcing
anthropogenic effect, middle atmosphere change, 11247. high resolution record, Quaternary(Late), upwelling, anoxic basin, planktonic foraminiferal fauna, piston core, trade wind, glacial interglacial transition, sea level, melt water discharge, Holocene, Venezuela, Cariaco Basin; Caribbean Sea; 10745. sea level, last glacial interglacial cycle, greenhouse gas, ice sheet model, Pleistocene(Late), ice sheet growth, realistic geography, cryodynamics, geodynamics, Northern Hemisphere, 09544.
solar forcing trend
global temperature, warming trend, sunspot fluctuation, 06526.
solar heating
aerosol, organics, sea salt, soil particle, Mie scattering, solar radiation, complex index of refraction, Japan, Sapporo; 00848. emission factor, optical property, temperature inversion, smoke, aviation fuel burning, self lofting, 04385. infrared cooling, wave forcing, barotropic model, Hadley cell, Rossby wave, 04274. satellite data, carbon dioxide, mesosphere, thermosphere, 04221.
solar heating rate
global mean temperature, global mean solar heating, ozone, radiative, dynamical feedback, 00787.
solar height
surface heat budget, sea surface, radiative flux, sea surface, bulk formula, heat budget, Mediterranean, Sardinian Sea; 10033.
solar illumination
condensation nuclei, ozone depletion, photochemistry, Arctic; Antarctica; Sweden, Kiruna; 00891. Lambertian surface, terrain height, Landsat MSS, 12625.
solar influence
oceanic influence, geomagentic influence, late glacial, Holocene, atmospheric carbon-14:carbon-12, carbon reservoir, carbon-14:carbon-12 change, climatic influence, 07192.
solar infrared absorption spectra
chlorine, hydrochloric acid, fluorine, hydrofluoric acid, concentration profile, Trace Molecule Spectroscopy, Spacelab 3, stratosphere, 11353.
solar input
Neogene, phosphorite, transgression, precipitation, weathering, 01275.
solar irradiance
data fusion, geostatistics, 10381. seasonal variation, satellite image, euphotic zone, chlorophyll fluorescence, phytoplankton, 06899.
solar irradiance change
global mean temperature, climatic change, 09000.
solar irradiance variation
swell, microseim, cyclonic activity, 06519.
solar irradiation
diffuse irradiation, radiation measurement, empirical separation model, model, direct component, diffuse component, 12313.
solar luminosity
entropy, ice albedo feedback, maximum entropy production, climate model, faint young sun paradox, stellar evolution, 13579.
solar luminosity variation
general circulation model, climate forecasting, climate change, brightness change, solar type star, 08997.
solar lunar influence
superposed epoch analysis, stratosphere, thunderstorm, cosmic ray, 05282.

olar Mesosphere Explorer
infrared emission, hydrogen, oxygen, mesopause, 06693. temperature climatology, mesosphere, CIRA model, ultraviolet limb radiance, 11139.
olar occultation data
stratospheric chemistry, rate ratio, photochemical theory, 06548.
olar proton event
middle atmosphere, solar cycle, ion pair production, hydrogen, proton, hydroxyl, hydro-peroxy, nitrogen, nitrogen monoxide, nitrogen dioxide, 03004.
olar radiant exposure
transparency, clear sky, turbidity, Australia, New South Wales; 13485.
olar radiation
aerosol, turbidity, radiometer, 03021. albedo, cloudiness, aerosol, surface energy balance, shortwave radiation, climatonomy model, Africa, Sahel; Niger, Niamey; 04248. albedo, wide field of view measurement, deconvolution, 04215. avalanche, precipitation, wind, temperature, Czechoslovakia, West Carpathians; Chopok; Czechoslovakia, Nizke Tatry Mountains; 01837. boundary layer, surface-atmosphere interaction, surface flux, turbulent heat transfer, longwave radiation, 00739. cloud, ozone, Rayleigh scattering, radiation parameterisation scheme, forecast model, emissivity, water vapor path length, aerosol, 05371. cloudiness, transparency, USSR, Estonia; 01816. complex index of refraction, solar heating, aerosol, organics, sea salt, soil particle, Mie scattering, Japan, Sapporo; 00848. deposition, hydrogen peroxide, ozone, air quality, photochemical model, emission rate, inversion layer, mixing height, USA, California, Los Angeles; 11404. empirical orthogonal function, tropical ocean, radiation budget, 06530. energy balance, radiation climatology, Spain; 01820. evaporation, hill pasture, microclimate, Bellani plate evaporimeter, frost free period, USA, Appalachian Mountains; 00728. factor analysis, sine curve, solar serenity, regime, 12300. groundwater discharge, snow cover, mountain basin, karst aquifer, snow melt, aquifer recharge, runoff, France, Doubs; 08789. heat budget, El Nino/Southern Oscillation, sea surface temperature, ocean transparency, mixed layer, Pacific; 07728. Lambertian ground reflectance, observation geometry, atmosphere, 00961. long wave radiation, outgoing long-wave, net solar irradiance, energy balance, 00691. marine stratocumulus, cloud, scanning radiometer, albedo, ocean surface, spectral absorption, 04222. net radiation, sensible heat flux, microclimate variation, urban canyon asymmetry, 05406. ocean circulation, sea surface temperature, maritime continental contrast, sea ice extent, empirical orthogonal function, power spectrum, maximum entropy spectrum, 10042. particulate, long range transport, ozone, sulphate, sulphur dioxide, nitrogen oxide, aerosol, pollution, Israel; 03167. photoelectric emission, instrumentation, balloon observation, conductivity, relaxation time, 00689. radiation budget, out going longwave radiation, albedo, Earth Radiation Budget Experiment, 04213. radiation transfer, cloud, 01810. radiatively active trace gas, greenhouse gas, cloud, aerosol, carbon dioxide, methane, CFC's, nitrous oxide, tropospheric ozone, aerosol, radiative balance, 04326. rainday, regionally stable coefficient, rainfall, Australia; 00698. satellite data, cloud transmittance, global radiation, 04220. sea ice, energy balance, climate sea-ice model, Milaknovitch cycle, surface air temperature, 03018. sea surface temperature, mixed layer depth, cloud amount, wind speed, Indian Ocean; 01815. seasonal trend, transmissivity, New Guinea, Port Moresby; 03020. shadow, energy budget, effective horizon, steep pasture, 07652. snow cover, intergranular melt, borehole jack indentation data, uniaxial compressive strength ratio, radiation decay, river ice, 12268. straw burning episode, aircraft measurement, satellite measurement, aerosol property, North Sea; 13642. temperature inversion, sea breeze, aerosol, meteorological condition, carbonaceous species, USA, California, San Gabriel Valley; 02046. temperature, humidity, wind, rainfall, leaf wetness, sugar cane, evapotranspiration, automatic weather station, irrigation water management, agro-meteorology, Reunion; 03012. tropical, forest understory, El Nino year, canopy photographs, Panama, Barro Colorado; 06462. turbidity, air mass, aerosol, Bahrain; 09034. ultraviolet radiation, ozone, New Zealand; 00699. water vapour absorption, microphysics property, cloud absorption anomaly, 07780. wind velocity, reflected radiation, temperature inversion, turbid ground layer, short wave radiation flux, 05375.
lar radiation data
El Nino, volcanic dust, diffuse radiation, Earth surface, Mexico, El Chichon; 08846.
lar radiation transmittance
energy balance, global radiation model, crop radiation model, crop residue, 00439.
lar radiative spectrum
trace gas, nitrogen dioxide, radiative transfer, 06580.
lar radiometer
iterative procedure, optical depth, Langley plot data, 06807.
lar reflective range
narrow band radiometer, radiometer, 11425.
lar serenity
regime, solar radiation, factor analysis, sine curve, 12300.
lar simulator
biological process, photochemical transformation, natural water, radical flux, USA, East Coast; Gulf of Maine; 10662.
lar spectra
trend, trace gas, nitrous oxide, carbon monoxide, USA, Arizona, Kitt Peak National Observatory; 06686.
lar type star
solar luminosity variation, general circulation model, climate forecasting, climate change, brightness change, 08997.
lar ultra violet radiation
water vapour, ozone, pollution, nitrogen oxide, methane, carbon monoxide, emission, hydroxyl radical, oxygen, global change, tropospheric chemistry, 00914.
lar ultraviolet
ultraviolet flux variation, model study, mesospheric ozone, short term flux variation, 11330.
lar variability
energy use, global climate trends, dust, greenhouse gas, climate change, 04336.
solar wind
Ulysses, heliosphere, solar corona, plasma, 05563.
solar zenith angle
AVHRR, NDVI, leaf area index, coniferous forest, surface cover type, USA; 08099. diurnal moisture change, bare soil surface, bidirectional reflectance factor, surface roughness, Tunisia; 12726.
solfataric gas
carbon tetrachloride, methylchloroform, ozone depletion, sampling, trichlorofluoromethane, dichlorodifluoromethane, dichlorofluoromethane, volcanic gas, volatile organic compound, 02014.
SOLICON
soil image analysis system, soil section, 01570.
solid core model
coupled reaction, pollutant, suspended sediment, reversible reaction, adsorption, desorption, kinetics, diffusion, 07030.
solid earth exchange
Madden Julian oscillation, surface stress, daily time scale, momentum exchange, atmospheric exchange, ocean exchange, 08935.
Solid Earth Programme
ESA, gravity field, geopotential, geophysics, oceanography, global change, 06719.
solid geology
gravity model, stratigraphy, seismic data, UK, Scotland, Outer Hebrides, Lewis; 10353.
solid organic matter
dissolved organic carbon, radiocarbon dating, carbon isotope, geochemistry, pore water, clay soil, organic carbon, carbon cycle, glacial till, Canada, Alberta, Western Interior Great Plains; 09900.
solid phase transformation
biological oxidation, pyritic mine spoil, spoil material, coal, weathered face, oxidized pyrite, sulphur, iron, USA, Ohio; 09614.
solid solution
solubility, hydronium jarosite, groundwater quality, jarosite, acid mine drainage, USA, California, Iron Mountain; 13436.
solid state volcanism
satellite, impact crater morphology, central peak crater, central pit crater, surface rigidity, tectonically degraded terrain, dome crater, Neptune, Triton; 01389.
solid transport
suspended sediment, erosion rate, transport budget, bed load, France, Alpes du Sud, Buech Valley, Savournon; 06225.
solid waste
GIS, recycling programme management, 06932.
solifluction
creep, block field, landslide, talus, alluvial debris cone, slope modelling, rock fall, Czechoslovakia, Slanske Vrchy; 03830. cryoturbation, loess, Kastanozem, Fluvisol, Quaternary(Upper), sediment, soil, provo debris, USA, Utah, Great Salt Lake; 13091. mass movement, Atterberg limit, internal friction angle, permeability, erosion control, land sensitivity, 03824. radiocarbon dating, debris flow, Little Ice Age, landuse change, Holocene(Late), erosion, upland erosion, climatic deterioration, human influence, UK; 10843. solimixim layered soil, loess, periglacial surface layer, pedology, 00326. tourism, geomorphological impact, human activity, timberline, forest soil, Spain, Pyrenees; 09534.
solifluction deposit
tephra, quantitative characteristics, periglacial slope deposit, smooth mountain slope, mass movement, pumice, Japan, Hokkaido, Hidaka Mountains; 00333.
solifluction lobe
terracette, patterned ground, altitudinal belt, geomorphic process, timberline, grazing, periglacial form, rock glacier, Spain, Pyrenees; 05042. tundra zone, altitude minimum, periglacial landform, latitude, cirque, USA, Colorado; New Mexico; 07289.
solifluction material
grain size analysis, sorting, Rosin and Rammler distribution, weathered granite, head, slope, growan, UK, England, Dartmoor; 07183.
solifluction sheet
creep, gelifluction, sorting, frost heaving, stratified slope deposit, slope model, stratification mechanism, slope deposit, subequatorial mountain, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713.
solifluctional deposit
deluvial deposit, tectonic movement, uplift rate, uplift rate, downwarping, long profile, terrace system, tectonic movement, flysch, fluvial terrace, Poland, Beskid Zywiecki Mountains, Koszarawa River; 11883.
soligenous fen
high Arctic, fault block, autochthonous peat deposit, macrofossil, rates of net organic accumulation, slope process, macroclimatic change, Holocene, Canada, Northwest Territories, Ellesmere Island, Grant Land Mountains; 11965. ombrotrophic bog, peatland, surface water chemistry, Sphagnum moss, sodium, chloride, blanket bog, soligenous poor fen, raised bog, Canada, British Columbia, Queen Charlotte Islands, Graham Island; 02873.
soligenous poor fen
raised bog, soligenous fen, ombrotrophic bog, peatland, surface water chemistry, Sphagnum moss, sodium, chloride, blanket bog, Canada, British Columbia, Queen Charlotte Islands, Graham Island; 02873.
solimixim layered soil
loess, periglacial surface layer, pedology, solifluction, 00326.
solitary wave
morning glory, gravity wave, solitary wave family, thunderstorm, density current, boundary layer, cold outflow, 01793. trough, waveguide, surface inversion, tropospheric critical level, 10060.
solitary wave family
thunderstorm, density current, boundary layer, cold outflow, solitary wave, morning glory, gravity wave, 01793.
solitary-like wave
nocturnal boundary layer, boundary layer, Benjamin-Davis-Ono theory, meteorological tower, microbarograph array, sodar observation, 13523.
solitons
resonant flow, shock dymamics, transcritical flow, nonlinear wave, wave, 01176.

solodised solonetz
saline groundwater, land management, Landsat MSS imagery, saline soil, hydrogeology, fault, Australia, Murray-Darling River Basin, Yelarbon; 05273.
Solonchak
microarthropod, halophytic ecosystem, biological indicator, USSR, Dagestan, Terek River Delta; 00480. saline soil, salinity, frost, solonetz, Canada, Yukon Territory, Kluane National Park, Slims River Delta; 01582. soil blowing, salt, deflation, USSR, Balkhash Alakul Depression; 10850.
solonetz
solonchak, saline soil, salinity, frost, Canada, Yukon Territory, Kluane National Park, Slims River Delta; 01582.
solonetzic character
Chernozem, irrigation, degradation, USSR, Danube-Dniester; 00481.
Solonetzic soil
crop yield, deep ploughing, soil chemical property, soil amelioration, Canada, Alberta; 08580.
solubilisation
organic contamination, soil water system, micelle, PAH, surfactant, 07031. organic matter, iron oxide, iron availability, 09674. organochlorine, pesticide, PCBs, bottom sediment, contaminant, desorption, Canada, St.Lawrence River; 04771.
solubility
calcium, magnesium, manganese, zinc, aluminium, iron, fertiliser, 01564. cooling rate, solute partitioning, freezing soil, frost front, frost penetration rate, temperature gradient, clayey silt, salinity, 10809. equilibration method, illite, potassium, structural formula, 11810. halite, temperature, brine, Harned's rule, salinity, Middle East, Dead Sea; 04752. hydrolysis, aqueous aluminium, surface water quality, aluminium hydroxide, temperature effect, pH, 07504. hydronium jarosite, groundwater quality, jarosite, acid mine drainage, solid solution, USA, California, Iron Mountain; 13436. marine sediment, dissolution, silica, diagenesis, opal, pore water, 05941. reservoir water chemistry, alkalinity, ammonium, pH, reactive phosphorus, nitrogen, phosphorus, nutrient, trophic state, seasonal variation, spatial variation, physico chemical variable, Venezuela, Guanapito Reservoir; 13336. spatial variability, calcium carbonate, desert soil, Mexico, Chihuahuan Desert; 04011. surface water quality, sewage water, eutrophication, organic carbon, decomposition, calcium carbonate, Jordan, King Talal Reservoir; 13333. water bottom interface, pelagic water, manganese, nodule, solution rate, sea water, 07019.
solubility equilibrium
phosphorus, excessively fertilised soil, GEOCHEM computer model, carbon, constant ion activity, 12070.
solubility product
calcite, dissociation, ion pairs dissociation, 05931.
soluble ion
groundwater quality, upland area, leaching, layered aquifer, recharge, irrigation water, heterogeneous aquifer, water quality evolution, chloride ion, Japan, Ibaraki Prefecture, Dejima; 11068.
soluble reactive phosphate
dissolved inorganic nitrogen, on site sewage disposal, surface water-groundwater interaction, surface water quality, septic tank, waste disposal, coastal surface water, ammonium, nitrate, 04080.
soluble reactive phosphorus
dissolved organic phosphorus, lake water, phytase, phosphate release, UK, Northern Ireland, Lough Neagh; 09333.
soluble salt
electrical conductivity, soil variability, texture, moisture, 00370. geotechnical property, soil, engineering geological survey, sulphate, gypsum, Iraq, Haditha; 04911.
soluble source
calcareous soil, phosphorus transformation, diffusion model, 08583.
solute
soil structural stability, freezing, Conestogo soil loam, frost heave, frost penetration, ice segregation, 08571.
solute adsorption
tortuosity model, soil moisture content, solute diffusion coefficient, diffusion model, 00589.
solute behaviour
acid stream, episodic stream, discharge, water chemistry, antecedent precipitation, multivariate model, Germany, Black Forest; 08734.
solute budget
proton cycle, deciduous forest ecosystem, soil acidification, acid neutralizing capacity, aluminium toxicity, Netherlands; 05051.
solute chemistry
closed basin, groundwater, evaporite, arid area, evaporation, mass balance, USA, New Mexico, Southern High Plains; Texas, Southern High Plains; 09356.
solute cloud
tidal flow, diffusion, shear, dispersion patchiness, advection, velocity field, Wadden Sea; North Sea, Western Scheldt Estuary; 08144.
solute concentration
glacial runoff, melt water, weathering, geochemistry, Antarctica, Victoria Land, Walcott Bay; Alph River; 09326.
solute content
surface water quality, alpine stream, annual cycle, melt water, groundwater contribution, stream flow regime, geochemical denudation, stream solute variation, USA, Colorado, Colorado Front Range; 07496.
solute diffusion coefficient
diffusion model, solute adsorption, tortuosity model, soil moisture content, 00589.
solute flux
permeability, porosity, specific surface, biofilm growth, porous medium, dispersivity, groundwater flow, inverse problem, pore geometry, solute transport, 06375.
solute leaching
leaching rate, measurement error, instrumentation, hydraulic conductivity, edge flow, soil core, lysimeter, permeameter, 13396.
solute load
dissolved solid, water quality, temperature-conductivity relationship, temperature correction, electrical conductivity, 06321. flux, climati impact, fluvial transport, chemical weathering, mechanical erosion suspended load, France, Adour; Morocco, Souss; Morocco Oum-er-Rbia; Morocco, Sebou; 00206. mountain basin, structure cali bration, stream gauging, current meter, forested catchment, grass catch ment, evaporative loss, crump weir, v notch weir, water balance, flat weir, dilution gauging, sediment accretion, velocity distribution, sedi ment load, UK, Scotland, Balquhidder, Kirkton Catchment; Monachyl Catchement; 08708.
solute loss
nutrient loss, lake water quality, runoff, hydrological process, eutrophi cation, sediment loss, UK, England, Devon, Slapton Ley; 06308.
solute movement
sorption desorption, hydraulic conductivity, groundwater flow, advec tion, arrival time analysis, 06351.
solute partitioning
freezing soil, frost front, frost penetration rate, temperature gradient clayey silt, salinity, solubility, cooling rate, 10809.
solute rejection
freezing soil, dissolved compound, salt rejection, ice lensing, soil defor mation, 08506.
solute residence time
nutrient leaching, cropping system, humid tropics, leaching loss, fertiliser, 12220.
solute retention
stream, abiotic sorption, surface water quality, uptake rate, biotic sorp tion, sediment, dissolved organic carbon, nitrate, calcium, phosphorus USA, Oregon, Cascade Mountains; North Carolina, Appalachian Mountains; 11021.
solute transfer
soil solution, runoff water, overland flow, hillslope, convective disper sive solute transport, concentration hydrograph, rainfall induced runoff 06316.
solute transfer function model
dispersion, groundwater flow, vadose zone, transient water flow, solute transport, 00588.
solute transport
advection, dispersion, mountain stream, lithium tracer, transient storage acidic stream water, surface water quality, stream tracer, USA Colorado, Montezuma, Snake River; 01681. aggregated media, aggregate size, distribution, particle radii, groundwater flow, particle size distribution, 01722. aperture variability, fracture, groundwater flow tracer, parallel flow, convergent flow, transport time, dispersion, mass balance fracture aperture, 08771. bilinear interpolation, linear interpolation, transmissivity boundary, nonuniform flow, heterogeneous aquifer, particle velocity, groundwater flow model, finite difference model, 01717. chloride distribution, wetland, vertical water flux, salinity, subarctic marsh, coastal marsh, subsurface water flux, advection, dispersion model, Canada, James Bay; 09852. clay, porosity model, ion exclusion, exchange process, groundwater flow, diffusion, advection dispersion, UK, England, London; 09844. conjunctive use management model, optimal operation strategy, reservoir operation, water quality, groundwater management, reservoir, groundwater flow, 11118. convective movement, hydraulic head gradient, diffusion, micropore, macropore, preferential flow, aggregated soil, groundwater flow, 11036. diagenesis, buoyancy flow, heat transfer, sedimentary basin, temperature change, pressure change, interstitial solution, mass transfer, 08269. dispersivity, groundwater flow, unsaturated zone, macrodispersivity, heterogeneous soil, Dagans formulae, advection, lateral mixing, 13397. fracture channel model, parallel plate model, groundwater flow model, breakthrough curve, 13410. fracture flow, groundwater flow, advection, reactive solute, diffusion, 13411. fractured rock, delta-type source condition, adsorptive solute transport, flux injection, column breakthrough curve, fluid injection, radioactive waste repository, 02907. groundwater contamination, fissured media, porosity ratio, dispersivity, matrix diffusion, parameter estimation, tracer test, 09867. groundwater flow, advection equation, dispersion equation, three dimensional flow, one dimensional flow, advection-dispersion equation, 04110. groundwater flow, computer modelling, supercomputer, equation solution, visualisation technique, particle tracking method, data analysis, 07441. groundwater flow, environmental tracer, model calibration, aquitard storage, storage coefficient, hydrodynamic model, storage effect, hydraulic head, salinity, water transmissivity, France, Paris Basin, Dogger Aquifer; 09855. groundwater flow, heterogeneous porous formation, spatial moment, ergodicity, dispersion, 01721. groundwater flow, saturated media, heterogeneous flow system, random walk particle method, advection process, dispersion process, unsaturated media, variable flow field, plume dispersion, mixing, numerical model, three dimensional method, 08776. groundwater flow, soil pollution, pore water velocity, low permeability layer, point source, diffuse source, advection-dispersion equation, transverse dispersion, 13405. groundwater flow, unsaturated flow, soil structure, hillslope hydrology, 11046. groundwater flow, water management, groundwater quality, heat flux, 12225. groundwater quality, orthophosphate, sorption model, spatial variability, 12258. heat transport, groundwater recharge, mobile water content, water flux, infiltration, soil water, tracer technique, unsaturated hydraulic conductivity, recharge rate, 07524. hillslope hydrology, coniferous forest, subsurface flow, free surface method, tangent continuity method, ionic concentration, water movement, surface water quality, runoff chemistry, UK, Wales; 04092. immiscible fluid, vapour transport, fluid property, groundwater contamination, volatilisation, remediation effort, mass transfer, nonaqueous phase liquid, aqueous solubility, vadose zone, phreatic zone, 07563. inverse method, model calibration, aquifer model, maximum likelihood estimation theory, Gauss Newton algorithm, parameter estimation, concentration data, matrix diffusion, matrix adsorption, groundwater flow, coupled flow, 09878. leachate, compacted layer, clay subsoil, infiltration rate, infiltrometer, groundwater flow, 12259. macropore, preferential flow, immobile pore water fraction, groundwater flow, infiltration, tillage practice, 13398. marshland, tidal marsh, groundwater, discharge, pore water chemistry, salt marsh, 04120. mass transport, unsaturated-saturated flow, Galerkin finite element method, vertical water flow, groundwater flow, 02899.

migration cycle, water flow, anthropogenic influence, chemical migration, substance migration, USSR, Kansk; Achinsk; 12134. migration process, advection, groundwater flow, river water infiltration, alluvial aquifer, groundwater recharge, Czechoslovakia, Slovakia, Danube River; 06345. model evaluation, chloride leaching, groundwater flow model, macropore flow, hydraulic conductivity, lysimeter, 13400. parameter estimation, automatic calibration, model calibration, maximum likelihood method, sensitivity analysis, radioactive solute, groundwater flow, Spain; 09870. particle diffusion, diffusion model, particle diffusion equation, sorption dynamics, 01625. porous tuff, groundwater flow simulation, hydraulic conductivity, fracture transmissivity, fracture flow, dispersivity, 12245. pressure field simulation, velocity field simulation, particle tracking method, groundwater model, MARCHAL, three dimensional model, flow model, quality model, 09874. rock matrix diffusion, granitic rock, tracer, groundwater flow, hydraulic conductivity, nuclear waste disposal, Sweden; 09860. runoff, fertilizer, loess soil, model calibration, surface water quality, pollutant transport, sediment transport, Germany, Karlsruhe, Weiherbach Catchment; 06324. saturated soil, physical non equilibrium model, groundwater flow, adsorption, dispersion, 04105. sediment transport, runoff, catchment model, slope segment, computer model, Germany, Karlsruhe, Weiherbach Catchment; 06393. sensitivity analysis, convection-dispersion equation, Richards equation, groundwater flow model, macropore, 13399. solute flux, permeability, porosity, specific surface, biofilm growth, porous medium, dispersivity, groundwater flow, inverse problem, pore geometry, 06375. solute transfer function model, dispersion, groundwater flow, vadose zone, transient water flow, 00588. suspended sediment, sediment transport, discharge, topography, landuse, loess region, Belgium, Burdinale River; 08699. tracer test, soil moisture content, hydraulic conductivity, hysteresis, anisotropy, unsaturated media, groundwater flow, 12260. tracer test, stochastic model, groundwater flow, concentration data, natural gradient tracer test, 09891. transient flow, mixing length, Lagrangean length scale, convection disperison equation, hydrodynamic dispersion, soil moisture, groundwater flow, 12256. transport model, groundwater flow, kriging technique, nitrate, water quality, network geometry, modelling spatial uncertainty, Austria; 09893. uniform flow, homogeneous aquifer, cell analytical numerical method, advection dispersion equation, groundwater flow, 09857. unsaturated sand column, soil water content, steady flow, unsteady flow, pore water velocity, water exchange, immobile water, 08765. unsaturated soil, groundwater flow, soil moisture characteristic, unsaturated conductivity, hydrodynamic dispersion, optimisation method, dispersion, parameter identification, 05208. unsaturated zone, boundary fitted grid method, Richards equation, Fickian equation, soil moisture, hydraulic head distribution, flow velocity, capillary fringe, overland flow, S shaped basin, infiltration, 13404. vector state space method, soil hydraulic property, parameter estimation, uncertainty propagation, numerical model, groundwater flow, unsaturated flow, 08764. volatile solvent, groundwater flow, two-phase transport, multi-phase flow, oil shale, 01742. volatilisation, organic compound, infiltration, unsaturated zone, groundwater contamination, vapour phase transport, dispersion, 11076. water repellent soil, unsaturated flow, infiltration, soil water redistribution, Richards equation, convection dispersion equation, preferential flow path, unstable flow, groundwater flow, coarse textured soil, 09837. wind action, overland flow, water erosion, wind driven rain, flume experiment, simulated rainfall, 10829.

lute transport model
chloride plume, transient flow, groundwater flow, longitudinal dispersivity, dispersion, model calibration, transverse dispersivity, 09908. distance dependent dispersion, convection dispersion equation, hydrodynamic dispersion, diffusion, pore water velocity, parameter estimation technique, heterogeneous media, 08781. freshwater-saltwater interface, groundwater flow, transition zone, dispersion, coastal aquifer, layered aquifer, 01714. groundwater flow, density dependent flow, layered aquifer model, fresh water salt water interaction, fresh water lens, tidal variation, atoll island, island hydrogeology, Pacific, Micronesia, Marshall Islands, Enjebi Island, Enewetak Atoll; 09854. groundwater quality, saturated unsaturated soil water flow, pesticide leaching, pesticide root zone model, leaching, model evaluation, 12257. lake outflow, groundwater lake system, mixing process, unsaturated zone, flow path, surface water groundwater interaction, mass balance method, groundwater exchange, stable isotope mass balance method, flow model, lake inflow, USA, Wisconsin; 08772. stable isotope plume, flow model, recharge, discharge, inflow rate, outflow rate, surface water groundwater interaction, groundwater lake system, groundwater exchange, USA, Wisconsin; 08773. well-to-well recirculation, advection-dispersion equation, Laplace transform, groundwater contamination, remedial action, one-dimensional transport, 01718.

lution
toxicity, arsenic, birnessite, oxidation, potassium, 03654.

lution breccia
dissolution, subsidence, karst, gypsum, Kirschberg Evaporite Member, evaporite, USA, Texas, Gillespie County, Fredericksburg; 02347.

lution chemistry
nitrogen, soil chemical property, black locust, pine, hardwood, oak, hickory, forest soil, soil solution, USA, North Carolina, Appalachians; 13259.

lution dispersivity
transverse dispersivity, storativity, longitudinal dispersivity, groundwater flow, transient flow, flow direction, velocity fluctuation, 08782.

lution droplet
cloud, cold condensation nuclei, ice nucleation, freezing nucleation rate, 04304.

lution nebulisation
clay, atomic emission spectroscopy, particle size, Grundite illite, Geogia kaolinite number 3, suspension nebulisation, 10917.

lution pipe
ground penetrating radar, karst, limestone, sinkhole, USA, Florida; 01569.

lution rate
pollution, acid rain, anthropogenic influence, dissolution rate, dolomitic marble, marble, rainfall, Greece, Thessaloniki; Plagiari; 10821. sea water, solubility, water bottom interface, pelagic water, manganese, nodule, 07019.

solution transport
contaminant transport, groundwater quality, adsorption desorption, unsaturated zone, radionuclide migration, particle transport, 07565.

solution weathering
hydrology, cave, karst, point recharge, water tracing, hydrochemical analysis, fissure widening, Ireland, Sligo, Geevagh Karst; Bricklieve Karst; 09524.

solutional fissure
fissure, cave infilling, phreatic conduit, haematite, Triassic, palaeokarst, karst, limestone, conduit cave system, UK, England; Wales; 10725.

solutional process
cave system, geomorphic evolution, karst, youthfulness, UK, England, Yorkshire, Ingleborough; Ribblehead; 00258.

solvent
silicate, reactivity, Quarternary, hydrophobic, alkyl chain, 01331.

solvent contamination
groundwater quality, carbon isotope study, vadose zone, carbon dioxide production, vadose zone, stable isotope, radioactive carbon, USA, Arizona, Phoenix; 07549.

Sombric horizon
organo clay horizon, pyroclastic material, mountain soil, clay humic colloid, humus, particle translocation, Colombia, Andes; South America, Andes; 10935.

somma
slope, fault, topography, Japan, Minami-Ashigara City; 00245.

sonar
accuracy, Intermediate Depth Swath Sonar System, bathymetric surveying, 02085. lidar profilometer, ice thickness, sea ice cover, microwave sensor, Arctic Ocean; 12793. side scan sonar, phase error, 02088.

sonar image
echo sounding, scour, bedform, depression, turbidity current, Canada, Newfoundland, Grand Banks; 02360.

sonar performance
high frequency sonar, acoustic design, electronic design, 10284.

sonar receiving array
sonar sounding system, 09090.

sonar sounding system
sonar receiving array, 09090.

sonic anemometer
atmospheric test, flow distortion error, 07643.

sonication treatment
soil carbonate, dispersion treatment, particle size distribution, carbonate, calcareous soil, Austin soil series, Rio Grande soil series, Victoria soil series, sodium saturation, USA, Texas; 10921.

soot
aerosol, cloud chamber, ice, nucleation, 13606. nitrogen, sulphate, visibility, aerosol, carbonaceous species, USA, California; 02060.

soot aerosol
air mass, marine aerosol, maritime polar air, carbon dioxide, aerosol, Antarctica; 07875.

soot particle
PAHs, heterogeneous reaction, particle surface, nitrogen dioxide, nitric acid, 10181. snow, sedimentation record, brown snow, long range transport event, transport, particulate, trajectory, clay mineral composition, Arctic; Canada, Keewatin; 09017. trace metal, magnetism, atmospheric deposition, palaeolimnology, lake, USA, New York State, Adirondack Mountains, Big Moose Lake; 05815.

soot transport model
monsoon, climate response, smoke, burning oil, oil well, Kuwait; 13645.

soption characteristics
soil moisture, Chernozem, chestnut brown soil, moisture hysteresis, USSR, Siberia; 10864.

sorbed metal
bacterial wall, clay, leaching, chromium, silver, copper, heavy metal, metal remobilisation, 13253.

sorbent cartridge sampling
gas chromatography/mass spectrometry, air monitoring strategy, personal exposure, volatile organic compound, indoor pollution, air quality monitoring, sampling, USA, California, Los Angeles County; 03217.

sorbent efficiency
sorption isotherm, organic compound, hexadecyltrimethylammonium, clay mineral, organo clay, 10871.

sorghum
Kota clay soil, plot study, contour cultivation, runoff, soil loss, India, Kota; 06235. semi arid sub-tropics, soil property, tillage, crop residue, Vertisol, Australia, Queensland; 07388.

sorghum crop
soil water balance, simulation model, crop wateruse, energy water balance model, Africa, Sudan; Sahel; 12235.

sorghum culture
nonpoint-source pollution, desorption kinetics, enrichment ratio relationship, sediment, nitrate, phosphate, surface water quality, agricultural pollutant, tillage practice, USA, Southern Plains; 13451.

sorption
binary aqueous solution, acrylonitrile, montmorillonite, ternary aqueous solution, clay-organic interaction, acetonitrile, 12081. degradation, pentachlorophenol, sludge amended soil, 02772. desorption, Candler fine sand, cation, herbicide, 05079. dissolved organic matter, napropamide, 02771. estuarine circulation, kepone cycling, estuary, sedimentological fate, surface water quality, polychlorinated hydrocarbon, sediment sink, hydrodynamic model, particle transport, cycling mechanism, fine sediment dispersal, USA, Virginia, James River Estuary; 08760. ferruginous nodule, semiarid soil, phosphate, phosphorus fixation, nodule, Ghana; Brazil; 13264. fluorescence-quenching method, hydrophobic organic pollutant, groundwater contamination, PAH, colloids, contaminant transport, 02914. herbicide, s-triazine, thiocarbamate, soil texture, organic matter content, 02773. humic substance, hydrophobic organic compound, hematite, kaolinite, 03973. humic substance, surface water quality, PCB, particulate retention, suspended particle, cen-

trifugation, filtration, Canada, St Lawrence River; USA, St Lawrence River; 08747. hydrophobic material, particle size distribution, mineral composition, electrophoretic mobility, water quality analysis, contaminant transport, colloid, surface water quality, sampling, sediment transport, USA, Missouri, St Louis, Mississippi River; 07501. isotope, retention, microbial, sulphate, adsorption, fractionation, Canada, Ontario, Dorset; 05948. Kidman soil, Skumpah soil, metal retention, cadmium, copper, acid mine waste, calcareous soil, mine waste, 12080. lake sediment, phosphorus, pH, acidification, cycling, oligotrophication, USA, Wisconsin, Vila Country, Little Rock Lake; 12844. methyl parathion, fenitrothion, carbofuran, desorption, pesticide sorption, insecticide, 07348. organic carbon content, trichloroethylene, vapour partition coefficient, specific surface area, 08586. Paleudult, Orangeburg Series, clover residue, orthophosphate sorption, ferric hydroxide, hydroxide coated soil, 07359. pH, phosphorus, acidification, oligotrophication, lake sediment, equilibrium model, USA, Wisconsin, Vilas Country, Little Rock Lake; 12843. phosphate sorption, allophanic soil, sulphate, silicate, hydroxyl, Spain; 07382. radioactive decay, diffusion coefficient, dispersivion, effective porosity, water quality, groundwater flow, transport model, fractured till, contaminant migration, water quality, landfill, dilution, 07548. smectite, contaminant, groundwater, anthropogenic activity, nitrogen heterocycle compound, 04767. soil mineral, Henrys Law, trichloroethylene vapour, vapour sorption, 09691. speciation, strontium speciation, strontium sorption, sediment groundwater system, groundwater quality, surface complexation model, cation exchange capacity, Germany, Gorleben; 07569. Van Bemmelen Freundlich equation, groundwater modelling, Langmuir equation, travelling wave solution, adsorption, contaminant transport, 08777.

sorption capacity
soil property, peat soil, raised bog, pH effect, alkaline fertilising, acid fertilising, Germany, Lower Saxony, Konigsmoor; 08625.

sorption characteristic
decalcification, phosphate sorption, calcareous soil, phosphorus, 09671.

sorption coefficient
contaminant transport, groundwater contamination, chemical contaminant, surface complexation model, cation exchange capacity, sediment, geochemical process, Germany; 09904. molecular connectivity, organic chemical sorption, organic carbon, aqueous solubility, octanol water partition coefficient, 08597.

sorption complex
glacial deposit, glaciomarine deposit, inland glacial deposit, seawater, coastal glacial deposit, till, Poland; Svalbard, Spitsbergen; 00300.

sorption desorption
caesium-137, clay mineralogy, kaolinitic soil, illitic soil, smectitic soil, Australia, Western Australia; 09712. hydraulic conductivity, groundwater flow, advection, arrival time analysis, solute movement, 06351.

sorption dynamics
solute transport, particle diffusion, diffusion model, particle diffusion equation, 01625.

sorption index
phosphate availability, soil testing, Canada, Peace River Region; 00437.

sorption isotherm
Cinnamon Brown soil, phosphate sorption, Cuba; 01560. organic compound, hexadecyltrimethylammonium, clay mineral, organo clay, sorbent efficiency, 10871.

sorption mechanism
pesticide, water treatment, charcoal, DDT, potable water quality, remedial technique, Freundlichs sorption isotherm equation, 07500.

sorption model
spatial variability, solute transport, groundwater quality, orthophosphate, 12258.

sorption saturation degree
soil acidification, pH buffering capacity, buffering capacity, soil unit, maximum sorption capacity, Czechoslovakia, Slovakia; 09757.

sorption screening test
groundwater quality, potable water, arsenic, sodium hydroxide, sand filter, 12289.

sorption-desorption
herbicide, electrolyte, cation, ionic strength, bromacil, simazine, norflurazon, diuron, Candler fine sand, 13254. iron oxide, fibrous clay, smectite, maleic hydrazide, mineral soil component, adsorption capacity, 13255. phosphate, phosphorus, molybdate, molybdenum, Dalhousie clay, St. Bernard loam, 13252.

sorptive behaviour
activation energy, Freundlich equation, slow reaction, phosphate, goethite, 12073.

sorptive number
saturated hydraulic conductivity, unsaturated zone, constant head well permeameter, saturated unsaturated flow, Australia, Western Australia; 07528.

sorptive reversibility
herbicide residue, atrazine, metolachlor, 09689.

sorptivity
absorption model, saturated unsaturated flow, infiltration, soil property, groundwater flow, diffusion model, constant pond depth, 08763. forestry, infiltration rate, soil disturbance, rainforest, Malaysia, Sabah; 09913. hydraulic conductivity, ponded infiltration, saturated flow, unsaturated flow, soil hydraulic property, soil water potential, infiltration ring, disc permeameter, macropore, diffusivity, 00585. saturated hydraulic conductivity, macroporosity, Ultisol, maize, tillage, mulching, soil water transmissivity, Nigeria, Nsukka; 09766. tillage, infiltration, cumulative infiltration, ponded infiltration, saturated hydraulic conductivity, 00385.

sorted circle
cryoturbation, periglacial geomorphology, Arctic, thermokarstic feature, permafrost, warming, segregation ice, stratified scree, USA, Alaska; South America, Andes; China, Tibet; 07285. polygon, soil convection, desiccation cracking, secondary sorting, patterned ground, sorted pattern, Svalbard, Spitzbergen, Kapp Linne; USA, Colorado, Colorado Front Range, Arikaree Cirque; 12007.

sorted pattern
sorted circle, polygon, soil convection, desiccation cracking, secondary sorting, patterned ground, Svalbard, Spitzbergen, Kapp Linne; USA, Colorado, Colorado Front Range, Arikaree Cirque; 12007.

sorted patterned ground
freeze thaw process, magnetic susceptibility anisotropy, matrix fabric, frost disturbed soil, anisotropy, USA, Colorado; 03915.

sorting
frost heaving, stratified slope deposit, slope model, stratification, mechanism, slope deposit, subequatorial mountain, solifluction sheet, creep, gelifluction, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713. gravel, sand, particle shape, beach, 06990. Quaternary, fluvial deposit, aeolian deposit, sand, trace element, sediment provenance, Netherlands, Limburg; 09443. Rosin and Rammler distribution, weathered granite, head, slope, growan, solifluction material, grain size analysis, UK, England, Dartmoor; 07183. roughness, channel, bed topography, bedform, semivariogram, Hausdorff dimension, 12837. seasonal change in sediment size, sediment transport, bedform, estuary, sediment supply, sediment size, USA, Oregon, Columbia River Estuary; 05800. skewness, beach, geomorphic process, wave, grain size, India, Bay of Bengal; 01190. skewness, texture, pebble, bedload, sand, grain size, Nigeria, Imo River; Gulf of Guinea; 02315. weathering, fractionation, titanium oxide, zircon, clay mineral, heavy mineral, sedimentation, Portugal; 09442.

sound propagation
manganese, nodule density, anisotropic nodule, Indian Ocean, Central Indian Ocean Basin; 12897.

sounder experiment
equatorial plasma turbulence, plasma wave, upper hybrid frequency, emission, 03399.

sounder observation
cloud top pressure, emissivity, radiative transfer, convection, cloud characteristics, radiometer, Brazil, Amazon; 07872.

sounding
plume behaviour, chimney, deposition, modelling strategy, air pollution, pollution control, satellite picture, 11294.

sounding method
echo sounder, multi beam swath sounding, bathymetry, deep sea sounding, 07961.

sounding retrieval
satellite, water vapour analysis, mesoscale analysis, numerical modelling, 07764.

sounding retrieval process
first guess data, forecasting use, numerical weather prediction, dropwindsonde data, VISSR Atmospheric Sounder, Atlantic; 08913.

sounding rocket
turbulence study, middle atmosphere dynamics, 08937.

sounding station
optimal interpolation method, meteorological information, objective analysis, satellite data, 12301.

sounding system
gravity wave, wavelength, measurement, mesopause, 12308.

source
carbonate, miliolites, Quaternary, clay mineral, India, Gujarat, Kutch; Saurashtra; 03680. contaminant, carbonate, sulphide, water quality, carrier, 04764. denudation, uplift, weathering, clay mineralogy, smectite, illite, India, Himalayas; Tibetan Plateau; 04868. emission estimate, Monin-Obukhov similarity theory, Gaussian plume model, dispersion model, uncertainty model, 12511. facies, ice cover, mud, sedimentation, shelf, Canada, Axel Heiberg Island, Axel Heiberg Shelf; 01239. fluvial deposit, cycle, Cretaceous, Neocomian, redbed, Iran, Kopet-Dagh Basin; 00143. gravel, sand, lithology, alluvium, tributary, grain size distribution, Canada, British Columbia, Bella Coola River; 02311. provenance, roundness, quartz sand, Antarctica, Weddell Sea; 03517. sink, equatorial forest, emission, compensation point, carboxylic monoacid, forest, Africa, Congo, Mayombe Forest; 13748. sink, greenhouse gas, soil-plant environment, carbon dioxide, nitrous oxide, methane, 13741. volcanism, sedimentation pattern, Eocene, sediment load, apron, USA, Texas, Big Bend Region; 02392.

source allocation
size distribution, carbonyl carbon, aliphatic carbon, principal component analysis, automotive emission, aerosol analysis, infrared spectroscopy, USA, Los Angeles; 05511.

source apportionment
chemical mass balance, principal component analysis, aerosol, carbon, lead, USA, Pennsylvania, Allegheny Mountain; 11313. factor analysis, principal component, complex airshed, multivariate modelling approach, inhalable particulate matter, receptor model, USA, New Jersey, Newark; 13732. sea salt, chemical mass balance method, aerosol, particulate matter, Japan, Kashima; 11406. suspended particulate matter, refuse incineration, soil, sea salt, steel mill, vanadium, fuel oil combustion, aerosol, chemical mass balance, motor vehicle emission, sulphate, factor analysis multiple regression model, Japan, Tokyo; 05501. trace element, nitric acid, hydrochloric acid, ammonia, aerosol, background level, Portugal; 13713. transport, acid, aerosol, ozone, regional transport, mesoscale flow, deposition, Canada, Ontario; 11377. visibility, fine particle, particle measurement, 07785.

source area
antimony, red bed, Devonian, Catskill Formation, sandstone, shale, USA, Pennsylvania; 02445. boundary layer, footprint, contact distance, fluid parcel, 13559. burial, clay mineral, tectonics, diagenesis, uplift, Nigeria, Benue Trough; 03678. chert, Brioverian, Proterozoic, geodynamic evolution, France, Armorican Massif; 05897. hydrothermal, conglomerate, Promise Formation, sedimentation, South Africa, West Rand; Klerksdorp; 02384. oil shale, ironstone, coal, minor element, mineralization, organic matter, UK, Scotland, Westfield Opencast Site; 02460. process based modelling, soil erosion, water, agricultural land, erosion prediction, USLE, USA; 01496. provenance, garnet, Cretaceous, sandstone, Shimanto Terrane, heavy mineral, Japan, Yahagi River; 11731. sedimentation, depocenter, Cenozoic, erosion, Oligocene, Barents Sea; 03580. transgression, Tortonian, sand, gravel, uplift, Spain, Betic Cordilleras, Granada Basin; 12943. turbulent exchange, surface layer, patchy terrain, model, 12370.

ource attribution
receptor modelling, long range transport, sulphur, eigenvector, power plant, particulate sulphur, USA, (Western); 11374.
ource databank
street network, GIS, emergency service, Canada, Ontario; 01156.
ource identification
exposures, volatile organic compound, particulate matter, factor analysis, USA, Kanawha Valley; 11403. mercury contamination, detection limit, sewage sludge incineration, lake water contamination, water quality analysis, water quality sampling, North America, Great Lakes; 01676.
ource lithology
sandstone, quartz grain, granite, Hercynian, Holocene, provenance analysis, Spain, Central System; 06962.
ource material
cartography, research, 02158.
ource potential
Cretaceous, Mancos Shale, Tocito Sandstone, organic carbon, USA, New Mexico, San Juan Basin; 11788.
ource receptor relationship
error analysis, long range transport, model evaluation, sulphur deposition, Europe; 05508. sulphur dioxide, nitrogen oxide, emission, acid rain, nitrate, pollutant emission, sulphate, North America; 04437. transboundary air, pollution, control strategy, emission reduction cost, RAINS model, receptor area, uncertainty, Austria; 11367.
ource receptor study
chemical industry, pollutant exposure, volatile organic compound, particulate matter, USA, West Virginia, Kanawha Valley; 11402.
ource region
acid related compound, trace metal, winter, snow scavenging ratio, trajectory analysis, acid deposition, scavenging ratio, USA, Michigan; 12509.
ource rock
anoxic lake, stratification, climate, organic matter, tectonism, Zaire, Lake Tanganyika; Tanzania, Lake Tanganyika; 11670. black shale, lacustrine environment, geochemical characterisation, biological marker characterisation, Brazil; 10644. caprock, rift lake, basin, lithofacies architecture, reservoir facies, Zaire, Lake Tanganyika; Tanzania, Lake Tanganyika; 11668. Cenozoic, weathering, lacustrine basin, heavy mineral, clay mineralogy, palaeolake, Cameroon, Adamaoua, Anloua Basin; 12945. chemical mapping, organic matter, Dorset Formation, Jurassic, planktonic algae, kerogen, UK, England, Dorset; 07097. clay, carbonate, kerogen, oil, Triassic, Noto Formation, Italy, Sicily, Ragusa Basin; 07064. coast, alluvial sediment, heavy mineral, Saudi Arabia, Wadi Al-Fagh; Wadi Al-Qunfudah; Saudi Arabia, Red Sea coast; 05837. diagenesis, mud, upwelling, Pacific(East); 04863. diagenesis, organic matter, petroleum, geochemical data, Indian Ocean; Arabian Sea; 07014. facies architecture, passive margin, rift-valley lake, Tanzania, Lake Tanganyika; Zaire, Lake Tanganyika; Malawi, Lake Malawi; 11669. foreset bed, glaciolacustrine delta, delta, dispersal pattern, heavy mineral, USA, Connecticut, Lake Quinebaug; 00026. gas chromatography, Paleozoic, lacustrine, Greenland; 04861. graben, terrestrial sediment, glacigene deposit, siliciclastic, Triassic, Permian, energy resource, Tanzania; 03593. heavy mineral analysis, shelf sediment, sediment discharge, ilmenite, USA, Atlantic Shelf; Hudson River; 02393. hydrocarbon, Proterozoic, Nonesuch Formation, sandstone, lake, shale, USA, Michigan; Wisconsin; 10640. isotope, lake, rift, modern analogue, lacustrine sediment, 11826. lake, organic matter, oil shale, kerogen, hydrocarbon, 10612. maturity, rank, fluorescence, vitrinite reflectance, thermal evolution, oil, organic matter, 11785. phosphorite, Pennsylvanian, cyclothem, sea level change, black shale, nodule, USA; 01338. rift basin, Jurassic, East Berlin Formation, black shale, tricyclic terpane, lacustrine, petroleum, USA, Connecticut, Hartford Basin; 02459. rifting, Cretaceous, volcaniclastic conglomerate, evaporite, shale, Lagoa Feia Formation, Brazil, Campos Basin; 11755. sand, gravel, heavy mineral, sedimentation, oil reserve, basin type, 03583. sand, quartz, feldspar, detrital grain, India, Kerala, Bharathapuzha; 11773. tectonic origin, hydrocarbon, petroleum, lake, 10521. Toarcian, organic matter, palaeoenvironment, biomass productivity, Tethys, 07086.
ource strength
residence time, interhemispheric distribution, acetonitrile budget, emission rate, 11346.
ource term
critical review, radio nuclide, noble gas, halogen, accident source term, USSR, Chernobyl; 12516.
ource term model
atmospheric dispersion, hazardous substance, toxic gas, aerosol, two phase pipe flow, two phase jet, 06564.
ource terrain
palaeotectonics, sand, tectonic setting, weathering, Panama; Costa Rica; Venezuela; Colombia; 01323.
ource terrane
uplift, conglomerate, sandstone, heavy mineral, Cretaceous(Upper), flysch, Switzerland, Southern Alps; Italy; 04821.
urce-sink function
water table elevation, groundwater flow model, regional groundwater flow, lumped model, deterministic model, probability model, hydraulic conductivity, storage coefficient, specific yield, USA, California, Owens Valley; 04125.
urce/sink process
baseline monitoring, inverse problem, 03240.
eris spillway
sediment laden water, sand, lignite particle, low density turbide, turbidity current, aggradation, braided river, USA, North Dakota; 07229.
uth Amorican Shear Zone
mapping, temperate region, structural mapping, SPOT, France; 04603.
uth Bar Formation
Pennsylvanian, antidune, palaeocurrent, sandstone, bedform, Canada, Nova Scotia, Sydney; 02300.
uth Equatorial Current
interannual time scale, El Nino/Southern Oscillation, warm pool, sea surface temperature, Pacific; 10046.
southerly current
cyclonic gyre, dropstone, Quaternary(Late), circulation pattern, surface current system, Greenland Sea; Norwegian Sea; 02608.
southern beech
isotope temperature, late glacial, Holocene, vegetation, climate, fossil pollen, Chile, Tierra del Fuego; Argentina, Tierra del Fuego; 05016.
southern bluefin tuna
sea surface temperature, tuna fishing, Australia; 10433.
southern hemisphere
autumn(1989), summer(1988-89), Southern Oscillation index, sea surface temperature, climate summary, Australia; Argentina; Uruguay; 08854. circulation pattern, isotope record, climate, deuterium record, proxy record, Antarctica, Antarctica Peninsula, James Ross Island; 07308. general circulation, El Nino/Southern Oscillation, long range forecasting, forecast, Northern Hemisphere, Zimbabwe; 07793. winter(1989), winter(1988), Southern Oscillation index, blocking activity, climate summary, Australia; Pacific; 08855.
Southern Hemisphere spring(1987)
quasi-biennial oscillation, stratospheric condition, polar temperature, ozone, Southern Hemisphere spring(1988), Southern Hemisphere; 08923.
Southern Hemisphere spring(1988)
Southern Hemisphere spring(1987), quasi-biennial oscillation, stratospheric condition, polar temperature, ozone, Southern Hemisphere; 08923.
Southern Hemispheric wave
gravity wave, middle atmosphere, Southern Hemisphere; 08930.
Southern Irish End Moraine
till, leaching, granite erratic, shelly till, chronological control, glacial deposit, Munsterian, Ireland; 13125.
Southern Oscillation
annual cycle, biennial component, El Nino/Southern Oscillation variability, sea surface temperature, Pacific; 07733. atmospheric anomaly, El Nino, 07738. coral, El Nino/Southern Oscillation event, surface water, salinity, oxygen isotope record, Pacific, Tarawa Atoll; Galapagos Islands; Pacific; 11281. ecosystem dynamics, fire scar, tree growth chronology, USA; 07796. ITCZ, prediction, deep convection migration, rainfall, annual variation, Brazil; 12347. quasi-biennial oscillation, teleconnection, Chebyshev coefficient, geopotential field, Asia, (East); 03088. rainfall variation, documentary data, historical evidence, South Africa; 07678. rainfall, synoptic aspect, rainfall variability, circulation pattern, blocking, Chile; 11168. runoff variability, climatic influence, stream flow variability, principal component analysis, spectral analysis, quick flow, base flow, rainfall variability pattern, USA, (Southeast); Australia, (Southeast); 08666. shrimp harvest, La Nina, coastal water level, estuary, El Nino, USA, Louisiana; 07727. stratosphere, mesosphere, sea surface temperature, 10048. teleconnection, cloud climatology, cloudband, sea surface temperature, Hadley cell, tropical-extratropical cloudband, Australia; 01926. tropical atmosphere, atmospheric circulation, El Nino(1982-83), 07740. upper air sounding, ship observation, stratiform cloud, El Nino, precipitation, convection, rainfall, Mexico; 01838. warming episode, isotope, skeletal accretion, coral, El Nino, Pacific; Panama; Galapagos Islands; 07737.
Southern Oscillation index
Blinova index, circulation, index, surface air temperature, Northern Hemisphere; 00706. blocking activity, climate summary, Southern Hemisphere, winter(1989), winter(1988), Australia; Pacific; 08855. drought anomaly field, ENSO, drought, El Nino, Zimbabwe; 07661. sea surface temperature, climate summary, southern hemisphere, autumn(1989), summer(1988-89), Australia; Argentina; Uruguay; 08854. tropical circulation(1988), Australia; Asia, (South); 08853.
southern winter
zonal wavenumber, tropics correlation plot, vertical propagation, tropical forcing, atmospheric oscillation, stratosphere, 10078.
Soviet research
remote sensing, soil, vegetation, spectrometry, colour, crop, USSR; 02210.
Soviet space program
fine resolution, remote sensing, 00940.
soxhlet leaching
basalt, tuff lapilli, leaching, laboratory simulation, quartz synthesis, 08517.
soybean
field radiometry, phytomass, radiometer, reflectanc factor, Brazil, Paraiba; 06867. land reclamation, desertification, Landsat, cattle, soil degradation, Brazil, Rio Grande do Sul; 00467. laser induced fluorescence, chlorophyll fluorescence, stress detection, 12765. nitrate leaching, no-till agriculture, conventional till agriculture, root zone, leaching loss, 01756. selenium, spectral reflectance, morphology, 02238. small fruit crop, runoff, Gerlach trough, soil loss, row cropping, sweet potato, USA, Alabama; 00359. yield response, depths of erosion, fragipan soil, management system, 03935.
Soyuz Karta satellite
agrarian morphology, alluvial cone, irrigation system, China, Xin-Jiang, Khotan Oasis; 05743.
space
hydrological cycle, moisture field, gas signal detection, greenhouse gas, signal, 11286. space observation, remote sensing, altimetry, earth observation, climate, 11130.
space and time structure
time structure, landscape research, raised landscape dynamics, Germany; 04887.
space correlation coefficient
surface layer, wind fluctuation, Taylors hypothesis, horizontal distribution, 13547.
space debris
remote sensing satellite, 05562.
space discontinuous Galerkin method
convection diffusion equation, streamline diffusion method, Petrov Galerkin modification, artificial diffusion, water contamination, surface water quality, 11015.

space dynamics
rural pioneer zone, colonisation, Argentina, Misiones Province; 11627.
space image
nature management, photography processing, 09209.
space imagery
climatic environment, historical geography, landscape, Iraq; 09146. landscape, human action, degraded landscape, India, Rajasthan; 03446.
space observation
lake surface decrease, water area observation, albedo, mapping, Chad, Lake Chad; 09268. remote sensing, altimetry, earth observation, climate, space, 11130.
space photograph
geological age, refief form, geomorphological map, Vietnam; 13069. symmetry theory, relief symmetry, natural formation, USSR; 08322.
space photography
classification, pasture type, steppe pasture resource, 03427. KFA-1000, relief mapping, geocoding, digital orthophotograph, 10368. photograph resolution, coastal research, aerial photography, 10444.
space problem
Quaternary uplift, Mendocino triple junction, fission track age, uplift, unroofing, stability, uplift history, strike slip offset, USA, California, King Range, San Andreas Fault; 11878.
space programme
Earth Observation Programme, World Climate Research Programme, 01094.
space series
spatial process, impulse response, 05613.
Space Shuttle
burning, biomass, smoke pall, Brazil, Amazon Basin; 04625. Earth monitoring, 12584. earth photography, videocamcorder, geographic research, 00946. meteorology, urban environment, environment, atmospheric pall, 06859. NASA, remote sensing, environment, 04466. stratosphere, chlorine, ozone, rocket emission, 09069.
space shuttle launch
deposition, sand grain, sea shell fragment, paint chip, wind speed, aluminium oxide, hydrochloric acid, particulate deposition, USA, Florida, John F.Kennedy Space Center; 05488.
Space Shuttle photography
forest reserve, elephant, animal population, Botswana, Chobe National Park; 12775.
space survey
socio-economic system, map, aerial survey, Africa; 04683.
space time analysis
meteorological data, 11147.
space time model
remote sensing, computer graphic, cartography, geographics, geoiconic, 06711.
space time structure
empirical space time, orthogonal function, pressure surface, algorithm, 12302.
space-time
paleogeography, synchronicity, Pleistocene, 11831.
space-time related study
historical digital cadastral database, land information system, temporal data, 01070.
space-time transformation
slope decline rate, fluvial terrace scarp, slope profile, bedrock terrace scarp, terrace scarp, Japan, Chichibu Basin; 02553.
spaceborne photogrammetry
digital mapping, optoelectronic CCD sensor, multispectral stereo scanner, 10244.
spacecraft
image corruption, corruption, spatial filtering, 13789. research, National Space Development Agency, Japan; 10235.
Spacelab
HCMM, structural analysis, image processing, linear feature, Landsat MSS, France; 03414.
Spacelab 3
stratosphere, solar infrared absorption spectra, chlorine, hydrochloric acid, fluorine, hydrofluoric acid, concentration profile, Trace Molecule Spectroscopy, 11353.
spaceplane
GPS, navigation, 10276.
spallation ratio
erosion rate, uplift, cosmic ray, neon, quartz, Antarctica; 09489.
spalling
pitting, salinisation, rubification, desert pavement, soil development rate, soil chronosequence, soil development rate, cold desert ecosystem, boulder weathering feature, desert varnish, Antarctica, Transantarctic Mountains; 01491. rock varnish, erosion rate, range fire, exposure age, geomorphic surface, USA, California, Owens Valley; 13195. sand, crystal face, silt, overgrowth, detrital, isotopic composition, 00010.
SPANS
park resources, wildlife monitoring, forest fire management, GIS, 01119.
sparite
diagenesis, carbonate, soil micromorphology, micrite, Mediterranean; 01285. micrite, film flow, cyanobacteria, calcite, proglacial, freezing, subglacial water, Switzerland, Glacier de Tasnfleuron; 01232. micromorphology, subsurface water flow, carbonate crust, calcrete, Israel, Judean Desert; 01607.
sparse crop
heat transport, water vapour transport, canopy transport, gradient diffusion relationships, aerodynamic resistance, surface resistance, energy transport, 12354.
Spartina
oxygen, rhizosphere, iron hydroxide, pore water, rhizoconcretion, salt marsh sediment, plant, Portugal, Tagus Estuary; 04842.
Spartina alterniflora
seagrass, sulphate, reduction, pore water chemistry, bioturbation, 12953.
spartina anglica
geomorphology, management, lagoon, accretion, tidal level, France, Brittany, Kernic Bay; 10535.
Spartina spp
salt marsh, pyrite, sulphate, estuary, tidal, China, Huanghe River, 03544.
spate specific flow pathway
surface water quality, acid stream, stream episodicity, tracer study, flow path, pre event water, soil water chemistry, organic acidity, Sweden, Svartberget; 13378.
spatial accuracy
photo aircraft, GPS, kinematic method, aerial analytical photogrammetry, 07922. spatial reference system, digital cadastral database, GIS, local government, 05646.
spatial adjacency
interpolation, polygon skeletonisation, raster-vector integration, Voronoi diagram, 00978.
spatial analysis
acid precipitation, non linear regression, variogram modelling, moving window estimation, kriging, automated variogram modelling, 04195. crime analysis application system, urban crime, GIS, USA; 05780. data structure, hierarchical representation, multidimensional point data, polygon map, three dimensional regional data, quadtree, 06799. data structure, visual analysis, 09134. GIS, polygon processing, CADD, drafting and design, 06778. GIS, urban planning, regional planning, decision support system, 05616. information management, surveying, engineering, education, training, 01012. mapping system, GIS, planning agency, USA, California; 03481. petrology, power spectrum, sandstone, mathematical framework, Fourier transform, 02484. precipitation chemistry, mapping, acidity, hydrogen, nitrate, ammonium, sulphate, Regionalized Variable Theory, UK; 10972. statistical analysis, statistical error, wet deposition, acid rain, precipitation, deposition, surface fitting algorithm, kriging, 13667. time series, quantitative analysis, geography, statistics, 06791. visualisation, GIS, communication, conceptual framework, 06777.
spatial analysis technology
statistics, computational geography, GIS, 05628.
spatial autocorrelation
soil redistribution, cultivated field, caesium-137, soil redistribution, wind, soil formation rate, Canada, Saskatchewan, Outlook; 10837. wildfire distribution, multiple GIS layer, fire rotation, USA, California, San Bernardino National Forest; 10416.
spatial averaging
photochemical model, stratosphere, ozone budget, modelling problem, 07889.
spatial characterisation
rice field, mosquito habitat, USA, California; 11562.
spatial characteristic
flood frequency estimate, flood bar, alluvial fan, tree scar, flood, hydrometeorology, flash flood, flooding, elevation, palaeohydrologic technique, geomorphology, sedimentology, botany, USA, Colorado, Big Thompson River; Rocky Mountains; 01642.
spatial cognitive ability
cognitive mapping, primary school, Korea(South); Korea(North); 06801.
spatial conceptual model
slope development, Ahnerts model, system modelling, 08390.
spatial correlation
auto correlation, autocorrelation, temporal sampling scheme, trend estimate, trend, 11132.
spatial data
inventory, data resource pyramid, GIS, 13937. land resource data, areal, mean rainfall, climate data, quadtree, hydrological research, data, storage, data processing, 04016. missing data, map comparison, weighted input, 11526. National Mapping Program, mapping science, 05680. temporal information, automated nautical charting, nautical, charting, 09130. vector, raster, GIS, 04540. water resource, watershed, GIS, 11512.
spatial data analysis
spatial referencing, parametric model, spatial data collection, modelling, spatial data, 05627.
spatial data collection
modelling spatial data, spatial data analysis, spatial referencing, parametric model, 05627.
spatial data format
data integrity, integrated GIS, object oriented database, 01063. GIS, 10334.
spatial data handling
digital cartography, GIS, earth science, 01027. GIS, research, institutional development, 05617.
spatial data model
geographic database system, 05651.
spatial data processing
GIS, GIS tutor, 06772. radioisotope, radiological protection, 01150.
spatial data transfer standard
GIS standard, data management, data integration, 05640.
spatial database
algorithm, data structure, knowledge engineering, computer network, GIS, management, 13817. data modelling, database, 04541. database, GIS, multi format database, 13833. GIS, accessing, 06766. GIS, grammar, data set name, 13845. GIS, image data, remote sensing, temporal, database, 06767.
spatial density
meteorological data, trajectory sensitivity, sensitivity, three dimensional, trajectory, wind field, temporal density, 12431.
spatial differentiation
soil water regime, surface water distribution, clay loam, georelief, morphometric characteristics, Czechoslovakia, Ronava River; 08627.
spatial distribution
aggregate stability index, tillage regime, soil particle size, 03958. estuary, mud flat, salinity, metal, France, Loire Estuary; 00042. geological map, computer classification, pattern recognition, geological anomaly, 12599. halocarbon, TOXFATE model, hydrodynamic model, toxic con-

taminant, lake circulation, lake water quality, North America, Great Lakes, Lake St. Clair; 01671. litterfall, acidity, buffering capacity, litter accumulation, soil acidification, oak tree, France; 13196. planning, rural settlement, geomorphology, India, Rajasthan, Barmer District; 00265. rainfall, rain gauge, topography, atmospheric circulation, station height, Greece, Athens; 13497. sea ice, polar region, ice distribution, interannual variability, Canada, Hudson Bay; Barents Sea; Okhotsk Sea; Bering Sea; 13503. temporal distribution, organic carbon, inorganic carbon, nutrient, sediment transport, Carbon in the Amazon River Experiment, biogeochemisry, river system, surface water quality, Brazil, Amazon River; 12211.

patial ecological phenomena
raster, vector data, ecological research, GIS, temporal ecological phenomena, 06803.

patial factor
rural area, natural resource, GIS, land use, USA, California; 06920.

patial feature
planar graph, scale dependence, 01052.

patial filtering
spacecraft, image corruption, corruption, 13789.

patial grid
service area boundary, transportation cost, transportation network, South Africa, Transvaal; 01160.

patial groundwater variability
groundwater recharge, recharge estimation, arid area, semi arid area, estimation technique, temporal groundwater variability, 06355.

patial handling
multiparticipant GIS, GIS, database construction, public utility, 03369.

patial heterogeneity
erosion estimate extrapolation, tropical erosion, catchment basin scale, soil erosion rate, Ecuador; 06223.

patial hydrological variability
spatial meteorological variability, stream flow, water balance modelling, areal precipitation, semi arid area, rainfall runoff model, temporal hydrological variability, temporal meteorological variability, Botswana, Mahalapswe; 06294.

patial inferencing
production rule, syntax, environmental management, expert system, 05654.

patial information
cartographic literature, 02072. data storage, mapping model, mapping curriculum, 01005. data structure, 02071. government policy, Netherlands; 02074. map processor, visual information manipulation, quantitative information manipulation, archaeological study, GIS, Canada, British Columbia, Thompson River Valley; 06931. planning, GIS, 05622. surveying, mapping, GEOMATICS, 12655.

patial information system
analytical tool, information processing, geomatic, 13872. datum redefinition, datum transformation, optimal modelling, positional data revision, 07950. decision support, GIS, Netherlands; 10329. exchange format, topographic data, cartographic data, 09172. geodetic reference system, coordinate system, positional data revision, topological relationship, 01014. GIS, inventory, cartographic data, 13882.

patial information systems
information engineering, data model, structured information, 01011.

patial interaction model
US Census, urban planning, regional planning, USA; Canada; 10465.

patial interpolation
point-kriging, kriging, geostatistics, 00433. topographic map, digital elevation model resolution, 06779.

patial interpolation technique
river regulation, channel modification, channel adjustment, fractal analysis, spectral analysis, Nigeria, Elemi River; 11005.

patial knowledge
image, database, 04539.

patial knowledge engineering
computational geography, geographic information, conceptual model, 10379.

patial lag
scaling law, scour, physical model, movable bed, sediment transport, 05789.

patial location
nutrient, precipitation chemistry, forest hydrology, throughfall chemistry, stand age, 11094.

patial meteorological variability
stream flow, water balance modelling, areal precipitation, semi arid area, rainfall runoff model, temporal hydrological variability, temporal meteorological variability, spatial hydrological variability, Botswana, Mahalapswe; 06294.

patial model
urban information system, USA; 10316.

patial modelling
probabilistic function, logistic regression, GIS, mathematical function, 01051.

patial moment
ergodicity, dispersion, solute transport, groundwater flow, heterogeneous porous formation, 01721.

patial object
hierarchical relation, multipurpose GIS, object modelling, topological data structure, 08017.

patial operator
morphological operator, image data structure, image processing, pattern recognition, computer vision terms, image operator, 10299.

patial order
ripple, polygonal pattern, drainage network, geomorphological spatial self organisation, geomorphology, periodic bedform, patterned ground, scale invariant topography, 05986.

patial organisation
geomorphic process, mountain area, timberline, snow, ice, relief evolution, dynamics, 11836. landscape, cartographic methodology, topographic map, 09157.

patial pattern
acid rain, long range transport, orographic enhancement, rainfall acidity, trajectory analysis, UK, Scotland; 12534. drought type, principal components analysis, USA; 07662. geographical correlates exploration, map coverage, GIS, 13859. loess soil, wetting rate, clay content, soil erosion, subsoil horizon, erodible loess, aggregate stability, landscape position, USA, Washington, Palouse Region; 08538. radiation, radiation flux, Landsat TM, GIS, 09174.

spatial pH variation
acid soil, management history, lime requirement, pH variation, Australia, New South Wales, Southern Highlands; 08637.

spatial prediction method
soil pH, restricted maximum likelihood, universal kriging, 12090. soil pollution, kriging, co kriging, soil mapping, floodplain soil, zinc, local trend analysis, mathematical spline, inverse distance weighting, weighted local averaging, Netherlands, Geul River; 08622.

spatial process
impulse response, space series, 05613.

spatial query
binary space partitioning tree, GIS, data structure, 01056.

spatial radiation variation
global solar radiation, sunshine duration, temporal radiation variation, Canada; 06444.

spatial reference
information system, vector system, 06775.

spatial reference system
digital cadastral database, GIS, local government, spatial accuracy, 05646.

spatial referencing
data reliability, cartographic representation, data exchange, data standard, Canada, New Brunswick; 01017. GIS pilot study, system viability, UK, England, West Yorkshire, Kirklees; 08012. parametric model, spatial data collection, modelling spatial data, spatial data analysis, 05627.

spatial relation
fuzzy set, natural language, 04515.

spatial resolution
AVHRR, thermal channel, water temperature, Australia, New South Wales, Darling River; 01134. Earth resources satellite system, hydrometeorology, data coverage, USSR; 12684. fuzzy classification, land cover, suburban zone, 11628. geometric accuracy, land-cover, 11643. landscape, AVHRR, crop condition, spectral confusion, Canada, Alberta; 03448. Meteosat, rain gauge measurement, precipitation monitoring, 12686. remote sensing, coastal research, 13958. satellite image, urban analysis, spectral band, Switzerland, Lausanne; 03474. semivariograms, conifer canopy structure, Douglas fir, 12748. urban land use, land cover mapping, Large Format Camera, 08132.

spatial resolving power
Landsat TM, thermal information, detector, 07941.

spatial retity
digital line graph, digital cartographic data, topological relationship, 08056.

spatial sampling
land use evaluation, 02286.

spatial soil variability
chronosequence, geochronological tool, soil property, pedogenesis rate, eolian dust accumulation, USA, California, Cajon Pass; 02510.

spatial stochastic process
Bayes regionalisation method, hydraulic conductivity, regionalisation method, 12219.

spatial structure
accessibility, connectivity, inland water route, road transportation, self scanning radiometer, Japan, Nagoya; 08137. system information, cartographic generalisation, 09156. temperature, ozone, satellite observation, middle atmosphere instability, phase speed, growth rate, 04261.

spatial subdivision
mathematical order, topology, metric space, 08019.

spatial surface
isarithmic mapping, choropleth mapping, interpolation, point observation, 01053.

spatial trend
hydrological data, large-scale spatial trend, statistical method, 08641.

spatial uniformity of power
altitudinal geometry, river network geometry, discharge drainage area power function, slope drainage area power function, 08695.

spatial variability
aerosol, optical depth, vegetation, remote sensing, Africa, Sahel; 13948. atmospheric deposition, dry deposition, net deposition, bulk precipitation, acidification, eutrophication, forest hydrology, throughfall, stemflow, 01633. calcium carbonate, desert soil, solubility, Mexico, Chihuahuan Desert; 04011. catenary sequence, intergrade, granitic material, hillslope development, slope, rainfall, pedogeomorphic aspect, South Africa, Kruger National Park; 09523. distance lag, soil survey data, textural fraction, topsoil, semivariogram, calcium carbonate content, Belgium, East Flanders, Polder Region; 08623. flood prediction, rainfall intensity, effective rain, rain concentration index, mountain basin, rain runoff model, 12171. geomorphic impact, climate change, erosion process, mountain region, hydrologic regime, global climatic model, lagged response, Canada; 01381. geostatistical analysis, soil texture, soil moisture, crop yield, 03952. grid sampling, soil map unit, variability coefficient, soil survey, soil property, Mollisol, USA, Illinois; 08618. infiltration, rangeland catchment, geostatistical technique, steady state infiltration, rainfall-runoff model, 01705. interception, temporal variability, hillslope hydrology, stemflow, soil moisture heterogeneity, soil water movement, forest hydrology, 02960. kriging technique, areal precipitation, mapping, topography, precipitation data, USA, Arizona; 12146. landuse, basin characteristic, flood, runoff, hydrologic process, soil water dynamics, quick flow analysis, 08667. rainfall event, field experiment, fractal approach, Africa, (West); 12345. rainfall, rainy season, storm, Niger; 07674. remote sensing, biogeochemistry, river, surface water chemistry, organic matter, nutrient, 12209. river plume, eutrophication, estuary, surface water quality, sediment load, nutrient concentration, mixing water, remote sensing tech-

nique, estuarine mixing, 12210. runoff depth, runoff rate, watershed response, runoff accumulation, 13317. runoff, total runoff, annual runoff, catchment characteristic, direct runoff, linear multiple correlation, regression analysis, 08672. sampling system, soil water extraction, suction cup method, macropore flow, bypass flow, 13401. sensitivity analysis, groundwater flow, unsaturated flow, model verification, parameter uncertainty, soil heterogeneity, Richards equation, 00581. sink, carbon dioxide, partial pressure, plankton chlorophyll, biological activity, fossil fuel, Atlantic; 13653. slope, width, roughness, rainfall intensity, dimensionless hydrograph, runoff discharge, rainfall duration, surface parameter, length scale, rainfall-runoff relationship, overland flow, 04044. soil erosion acceleration, overland flow, rain splash transport, freeze thaw, depositional quantification, postsettlement deposition, sediment basin, sediment transport, fly ash, USA, Illinois; 08540. solute transport, groundwater quality, orthophosphate, sorption model, 12258. SPOT, digitised aerial photograph, ground based radiometric data, France, Crau; 05587. stream flow, slope, discharge variation, river, bedrock permeability, water retention, Poland; 00517. temporal variability, erodibility, tropical soil, runoff plot, natural rainfall, erodibility index, Wischmeier's nomograph, ferrallitic soil, Africa; Madagascar; Guyana; 02738. water cycle, evapotranspiration, soil hydraulic property, stream flow generation, water balance, hydrological modelling, mountain basin, France, Ringelbach Research Catchment; 08644.

spatial variability modelling
soil parameter, undrained shear strength, variogram, kriging, Canada, Quebec, James Bay, Broadback River; 06028.

spatial variability problem
depth profile, core, chemistry temporal change, precipitation chemistry, snow, ice core, 09605.

spatial variablity
stream flow, runoff, peak discharge, catchment characteristic, drainage density, France, Massif des Hautes Vosges; 12168.

spatial variation
altitude, pluviometry, rainfall distribution, rainfall, topography, Burkina Faso, Ouagadougou; 02832. beach change, dry season, wet season, erosion, accretion, seasonal variation, Nigeria; 11684. chemical denudation rate, mechanical denudation rate, dissolved load, suspended load, denudation, hydrological year 1986, system, Poland, Pomerania, Parseta catchment; 08327. erosion distribution, soil erosion, slope aspect, parent material, aspect, South Africa, Ciskei; 08556. form, rock slope, tropical limestone, rock mass strength, limestone, Devonian, reef complex, Australia, Western Australia, Kimberley Region, Napier Range; 02554. hydrologic regime, coastal lagoon, salinity, temperature distribution, rain flushing, Mexico, Cancun, Nichupte Lagoon System; 01626. lead concentration, oceanic surface water, temporal variation, Atlantic; 11217. physico chemical variable, solubility, reservoir water chemistry, alkalinity, ammonium, pH, reactive phosphorus, nitrogen, phosphorus, nutrient, trophic state, seasonal variation, Venezuela, Guanapito Reservoir; 13336. precipitation, bedrock, soil, landuse, slope, temporal perspective, gullying pattern, Zimbabwe, Eastern Highlands; 08553. rainfall intensity, storm, rainfall runoff, 08972. remote sensing, soil moisture content, runoff production, contributing area, C band scatterometer, saturated area, temporal variation, 01704. seasonal variation, seston concentration, current speed, fresh water, tide, USA, Maryland, Choptank River; 03536. sediment yield, catchment characteristics, runoff, environmental variable, South Africa; 13318. temporal variation, coastal upwelling, Quaternary(Late), Peru; Pacific; 00274. temporal variation, nitrogen, potassium, soil nutrient, beach plain, phosphorus, Netherlands; 06257. temporal variation, specific conductance, hydrogeochemistry, fen, dissolved organic carbon, bog, peatland, USA, Wisconsin, Crystal Bog; 02829. throughflow, erosion, vegetation cover, soil characteristic, rainfall simulator, infiltration, surface runoff, France, Mount Lozere; 01645. volcanic landscape, surface water groundwater interaction, phosphate, nitrate, stream water chemistry, Costa Rica; 12201.

spatial water balance distribution
model calibration, temporal water balance distribution, water resource, water management, water balance, gauged catchment, Belgium, Flanders; 06400.

spatially averaged precipitation
precipitation, trend, time dependent series, USA; USSR; Europe; 12485.

spatially inhomogeneous system
Bernoulli test, Stirling number, liquid water content, droplet spectrum, coagulation, 03109.

spawning
estuary, larvae, dye test, oyster, freshwater, USA, Virginia, James River Estuary; 03643.

spawning habitat
fishery, habitat management, littoral zone, Canada, Lake Ontario; Ontario, Grimsby; Canada, Niagara River; 13928.

Spearman rank correlation
soil moisture depletion, soil moisture recharge, forest soil, gypsum block, nonparametric statistics, Sweden; 02900.

Spearman rank correlation test
precipitation maximum, short term interval, precipitation, Yugoslavia, Zagreb; 07639.

special sensor microwave
imager observation, radiometer channel, surface wind speed, sensor, North Sea; 13573.

Special Sensor Microwave/Imager
ocean, remote sensing, water vapour, 01806.

speciation
acidification, lake sediments, anthropogenic, watershed, trace metal, aluminium, USA, New York, Adirondack region; 03529. anthropogenic input, heavy metal, bioavailbility, trace element, estuary, India, Cochin Estuary; 08209. arsenic, lake water quality, agricultural chemical, sewage discharge, delta lake, Egypt, Nile Delta; 04056. bioavailability, sequential extraction, trace element, radionuclide, 03687. cadmium, soil solution, 02777. diagenesis, partitioning, pollution, lead, New Zealand, Auckland, Manukau Harbour; 07036. flood, heavy metals, effluent, contamination, Egypt, Nile Delta; River Nile Valley; 04792. fulvic acid, nutrient, lake, humic substance, iron, Netherlands, Lake Tjeukemeer; 11665. groundwater quality, thermodynamic error, mineral saturation, analytic error, sensitivity analysis, saturation index, WATEQ4F, acid mine drainage, 13435. heavy metal, natural water, metal bioavailability, 09452. manganese, interstitial water, organic carbon, Japan, Lake Fukami-ike; 10528. redox state, sea water, osmium, ferromanganese, 12961. sea water, hydrogen peroxide, chromium, oxidation, 10631. strontium speciation, strontium sorption, sediment groundwater system, groundwater quality, surface complexation model, cation exchange capacity, sorption, Germany, Gorleben; 07569.

speciation study
nitrilotriacetic acid, lead speciation, surface water quality, 01690. trace metal, estuary, environmental factor, cadmium, copper, zinc, surface water quality, metal speciation, India, Muvattupuzha River; Periyar River; 08752.

species frequency
forest, floodplain, levee, depression, floristic makeup, Venezuela, Orinoco River; 02503.

species zonation
lagoonal fauna, Cenozoic(Late), sea level fluctuation, bivalve fauna, tropical island, glacial regression, Pacific; 08503.

specific conductance
dissolved oxygen, contaminant plume, bacterial growth, heterotrophic activity, chemical gradient, vertical sampling, microbiological gradient, groundwater quality, unconfined aquifer, nitrate, organic compound, USA, Massachusetts, Cape Cod; 13434. geomorphological effect, soil character, pH, 10854. hydrogeochemistry, fen, dissolved organic carbon, bog, peatland, spatial variation, temporal variation, USA, Wisconsin, Crystal Bog; 02829. phosphate, nutrient, eutrophication, ecotone, riparian zone, phosphorus, groundwater, lake water quality, surface water-groundwater interaction, Sweden, Bysjon Lake; 13342.

specific fracture
surface area, radon-222 concentration, uranium, radon, groundwater quality, fractured rock, crack width, emission efficiency, fracture spacing, USA, Connecticut; 01727.

specific heat
complex ion, molecular structure, binding energy, entropy, 05520. dryline mixing, buoyancy, dryline convection, moisture, 04186. heat pulse method, soil temperature, soil probe, 10925.

specific humidity
wind profile, radiosonde, surface roughness, surface flux, Monin-Obukhov layer, temperature, humidity, complex hilly grassland, potential temperature, USA, Kansas; 01846.

specific momentum
current, coast, topographic drag, recirculating drag, 01178.

specific retention
hydraulic conductivity, electrical resistivity, Archie's law, saturated hydraulic conductivity, vadose zone sediment, Ottawa sand, unsaturated soil, sandy soil, soil moisture content, 05209.

specific storage
heterogeneity, transient fluid flow, steady state fluid flow, aquifer parameter, groundwater flow, hydraulic conductivity, 01716. interbed storage change, compaction, groundwater flow, interbed, compressible fine grained interbed, effective stress, 06348.

specific storage coefficient
Theis type curve, groundwater flow, type curve, time drawdown data, large diameter well, non-penetrating well, aquifer parameter, Boltzmann transformation, non-penetrating well, hydraulic conductivity, Saudi Arabia; 00592.

specific surface
biofilm growth, porous medium, dispersivity, groundwater flow, inverse problem, pore geometry, solute transport, solute flux, permeability, porosity, 06375. exchange capacity, clay soil, Tripp soil, Mitchell soil, water content, volcanic glass, cation exchange, USA, Nebraska; 07418. montmorillonite, kaolinite, hydromica, soil-water film, 00390. soil surface area, total specific surface, 09721.

specific surface area
soil water, water retention, available water capacity, volcanic material, air porosity, water retention property, Tanzania; 13280. sorption, organic carbon content, trichloroethylene, vapour partition coefficient, 08586.

specific volume
porosity, soil void, soil aggregate, aeration porosity, irrigation, 10862. specific weight, capillary water, porosity, water holding capacity, forest soil, soil moisture content, litter layer, soil hydro-ecology, China, Tianmu Mountain; 02957.

specific water capacity
unsaturated flow, Monte Carlo simulation, spectral perturbation analysis, groundwater flow, soil hydraulic property, hydraulic conductivity, pore size distribution, 06344.

specific weight
capillary water, porosity, water holding capacity, forest soil, soil moisture content, litter layer, soil hydro-ecology, specific volume, China, Tianmu Mountain; 02957.

specific yield
discharge drawdown relationship, groundwater management, multiple aquifer system, karst aquifer, groundwater flow model, conjunctive management, storage coefficient, transmissivity, China, Taiyuan City; 11129. irrigation water management, aquifer characteristic, groundwater resource, hydrogeological study, Algeria, Khemis-Miliana, Cheliff Basin; 00639. sedimentary rock, pasture, forest, slope, base flow, organic species, surface water quality, water chemistry, lithology, landuse, topography, hydrology, major ion, New Zealand; 11028. sodium, calcium, base flow, runoff, surface water quality, water chemistry, New Zealand; 11027. source-sink function, water table elevation, groundwater flow model, regional groundwater flow, lumped model, deterministic model, probability model, hydraulic conductivity, storage coefficient, USA, California, Owens Valley; 04125. transmissivity, irrigation water quality, drawdown, groundwater development, hydrogeology, water resource, Cambro Ordovician sandstone aquifer, Jordan; Saudi Arabia; 11116.

speckle

edge detection, detection algorithm, thresholding operation, linear feature extraction, SAR image, 07980.
speckle analysis
forest signature, radar data, airborne multiband scatterometer, Netherlands; 03441.
speckle noise
image registration, autofocus, intensity segmentation algorithm, change detection algorithm, neural network, SAR, 10311.
SPECMAP
magnetostratigraphy, astronomical calibration, Pleistocene(Lower), timescale, foraminifera, oxygen isotope record, Milankovitch, Pacific, ODP Site 677; 09546. Milankovitch periodicities, Pleistocene(Late), periodicity, oxygen isotope ratio, calcium carbonate, magnetic susceptibility, high resolution stratigraphy, planktonic foraminifer, sediment accumulation rate, Indian Ocean, ODP Site 728A; Arabian Sea, ODP Site 728A; 11923.
SPECMAP data
oscillatory system, Late Glacial, climatic record, loess sequence, Mollusc assemblage, climatic cycle, France, Alsace, Achenheim; 05020.
SPECMAP record
statistical test, probability distribution, Pleistocene(Late), climatic record, model validation, 09536.
spectra
maximum entropy method, time scale, intraseasonal zonal wind, zonal wind fluctuation, radiosonde observation, monsoon, India; 12402. ultraviolet, photoluminescence, calcite, spectroscopy, 04870.
spectra spectra
gravity wave, scale dependent diffusion, wave equation, saturated, unsaturated spectra, 12433.
spectral absorption
solar radiation, marine stratocumulus, cloud, scanning radiometer, albedo, ocean surface, 04222.
spectral albedo
carbon dioxide snow, grain size, thermal infrared, 08131.
spectral analyses
astronomical theory, climate ice sheet model, orbital perturbation, climatic record, 06068.
spectral analysis
coniferous forest classification, textural analysis, principal component, Canada, Ontario; 08089. downhole logging, geochemical logging, sedimentation rate, hiatus, periodicity, Milankovitch obliquity cycle, eccentricity cycle, Atlantic, (South); Southern Ocean, ODP Site 704; 11935. mesoscale motion, gravity wave, vortical mode, nonstationarity, 06506. monsoon, deep sea core, Indian summer Southwest Monsoon, coastal upwelling, palaeoproductivity, uranium series radiochemistry, Arabian Sea; 09568. Ocean Drilling Program, biostratigraphic, magnetobiochronology, high resolution, planktic, stable isotope record, USA, Mississippi River; Gulf of Mexico; 03860. quick flow, base flow, rainfall variability pattern, Southern Oscillation, runoff variability, climatic influence, stream flow variability, principal component analysis, USA, (Southeast); Australia, (Southeast); 08666. spatial interpolation technique, river regulation, channel modification, channel adjustment, fractal analysis, Nigeria, Elemi River; 11005. tracer, pollution, phosphorus, iron, heavy metals, Canada, Great Lakes, Lake Ontario, Hamilton Harbour; 01203.
spectral band
spatial resolution, satellite image, urban analysis, Switzerland, Lausanne; 03474. stereoscopic coverage, planning, market, SPOT, 02076.
spectral brightness
sea surface, outgoing radiation, sea ice, 08845.
spectral characteristics
aerosol, backscatter, particle, Hawaii, Mauna Loa Observatory; 12566.
spectral classification
topographical data, GIS, land cover classification, Netherlands; 10403.
spectral confusion
spatial resolution, landscape, AVHRR, crop condition, Canada, Alberta; 03448.
spectral consideration
stress, discrimination, biomass, remote sensing, vegetation, agriculture, 12754.
spectral data
biophysical data, corn, reflectance factor, USA, Texas, Bushland; 06873. thematic mapper, climatic change, sand sea, aeolian sand source, desert, Mexico, Gran Desierto; 02307.
spectral description
gravity wave field, middle atmosphere, mesoscale range, 11257.
spectral digital data
suspended solid, visible wavelength, India, Narmada Basin; 12800.
spectral domain
atmospheric baroclinic instability, baroclinic energy source, energy source, normal mode, 12421.
spectral emissivity signature
soil sample, land surface, thermal infrared, 03416.
spectral energy
wind characteristic, boundary layer, pilot balloon, India, Pune; 10008.
spectral fluorescence technique
phycoerythrin, submarine light field, pigment concentration, 10438.
spectral greenness
Thematic Mapper, SPOT, digital elevation data, radiometric comparison, 10248.
spectral image
urban landscape, automated resolution, aerial photograph, Germany, Halle; 05754.
spectral index
thermal infrared, AVHRR, 04596.
spectral information
illumination information, digital scanner, cosine transformation, 06735. topographic information, fault, TM, SPOT, SAR, USA, California, Mojave Desert; Bristol Mountains; USA, California, Cady Mountains; USA, California, Alvord Mountains; USA, California, Granite Mountains; USA, California, Fort Irwin; 06831.
spectral integration
error, photodissociation rate coefficient, ozone, nitrogen dioxide, nitrous acid, methylaldehyde, photolysis, 02022.
spectral mapping unit
soil mapping, satellite image, SPOT, USA, Illinois, Ford County; 12045.
spectral measurement
pigment concentraion, loblolly pine, chlorophyll level, 08090. tidal wave, wind wave, Crank Nicolson method, logarithmic transform, modal method, finite difference, 09308.
spectral method
microwave radiometry, temperature accuracy, sea surface temperature, 11621.
spectral model
CISK mechanism, nonlinear wave CISK mode, flow pattern, perturbation, 12444. numerical experiment, blocking situation, USSR; 06491. transport scheme, precipitation, numerical advection, moisture transport, 00754. weather forecasting, model, nonadiabatic process, 12412.
spectral modelling
multicomponent landscape, landscape, vegetation, Africa, Sahel; 13913.
spectral optical depth
optical depth, jet fuel, forest fire, smoke, photometer, aerosol, 11158.
spectral peak
interannual coherence, atmospheric surface pressure, sea level, time series, USA; 11984.
spectral perturbation analysis
groundwater flow, soil hydraulic property, hydraulic conductivity, pore size distribution, specific water capacity, unsaturated flow, Monte Carlo simulation, 06344.
spectral property
Lambertian property, field, reflection panel, polytetrafluoroethylene, 02109. remote sensing, soil process, canopy indicator, below ground process, 09716. spectral window, absorption line, brightness temperature, cirrus case study, 12455.
spectral radiance standard
organic matter, microspectrofluorimetry, Lamberts Law, fluorescence, opalin glass, 11821.
spectral radiometer
solar cycle dependence, middle atmosphere, ultraviolet, albedo data, noctilucent cloud, satellite observation, polar mesospheric cloud, solar backscattered ultraviolet, 09954.
spectral radiometer observation
infrared emission, cirrus structure, radiative parameter, lidar, 12458.
spectral reflectance
cotton leaf, leaf, water, gas exchange, 02239. Daedalus 1268 multispectral scanner, suspended sediment concentration, 12798. morphology, soybean, selenium, 02238. Phanerozoic, USA, Wyoming, Wind River Basin; Bighorn Basin; 02487. rice, crop nitrogen status, 03424. rock varnish, arid area, rock coating, laboratory spectra, 08066. water quality, mountain, lake, USA, Adirondack Mountain; 11617.
spectral resolution
forest vegetation, Landsat, classification accuracy, USA, Minnesota, Itasca State Park; 03436. sensor data, surface character, rock accessory, 09182. spectral resolution reflectance, leaf property, optical property, 09248.
spectral resolution reflectance
leaf property, optical property, spectral resolution, 09248.
spectral response
citrus canopy, composite scene reflectance, Landsat-5 TM, crop cover, 05730. DEM, Landsat TM, surface cover, topography, Canada, Yukon; 03447. European beech, chlorophyll concentration, manganese soil depletion, 05737. soil classification, SPOT, soil survey, USA, Illinois; 03404. suspended sediment, sediment colour, satellite imagery, remote sensing, particle size, India; 13309.
spectral signature
crop, remote sensing, Greece, Thessaloniki; 04623. mineral exploration, vegetation stress, imaging spectrometry, 00958. shadow-free image, colour composite image, geological interpretation, Spain; 05612.
spectral slope
sea level, Geosat, Atlantic, Cape Hatteras, Gulf Stream; 06893.
spectral technique
best fitting adjustment, Fourier transform, conformality, line generalisation, 00977.
spectral textural cooperation
cooperation, SPOT, segmentation, 12641.
spectral variability
thermal infrared spectra, soil reflectance spectra, 08073.
spectral variable
urban agglomeration, Landsat, Greece; 05756.
spectral window
absorption line, brightness temperature, cirrus case study, spectral property, 12455.
spectro radiometer
column ozone measurement, austral spring, total ozone, ozone depletion, Antarctica, Palmer Station; 04395.
spectrometer
sea, optical property, FORTRAN, radiation, 04636. spruce forest, pigment content, FLI, airborne spectrometer, 09235.
spectrometer data
data calibration, spectroscopy, 09101.
spectrometric characterisation
chromatographic characterisation, formaldehyde, carbon isotopic analysis, 00882.
spectrometry
algal bloom mapping, bloom, pollution mapping, Norway; 09223. colour, crop, Soviet research, remote sensing, soil, vegetation, USSR; 02210. error, radiocarbon dating, liquid scintillation, 02574. NMR spectrometry, paddy soil, phosphorus, phosphate compound, Madagascar; 09707.
spectrophotometer data
chaparral ecosystem, fire hazard, tasseled cap transformation, 08100.
spectrophotometric determination

hydrogen peroxide, rain water, polarographic determination, voltamperometric determination, 06669.
spectrophotometry
liquid chromatography, sampling, hydrogen peroxide, formaldehyde, ozone, diurnal variation, photochemical smog, annular denuder, titanium (IV) sulphate, dinitrophenylhydrazine, eugenol, 03164. uranium concentration, groundwater quality, stream water quality, spring water quality, water quality analysis, adsorption, ferric hydroxide, radiation method, Turkey, Bergama-Balikesir Area; 07448.
spectroradiometer
aperture, spherical aperture, hemispherical aperture, large aperture, 02093. remote sensing, soil salinity, Australia, Western Australia; 00434.
spectroradiometer measurement
damage sympton, reflection, forest, tree, 02220.
spectroscopic investigation
peat-water interaction, electron spin resonance spectroscopy, Fourier transform infrared spectroscopy, nuclear magnetic resonance spectroscopy, 04112.
spectroscopic measurement
polar vortex, nitrogen dioxide, Arctic; 00805.
spectroscopic observation
mesopause temperature, hydroxyl, oxygen, 03005. trace gas, carbon dioxide, methane, air sampling, seasonal variation, USA, Arizona, Kitt Peak; 04351.
spectroscopy
hectorite, caesium, clay, phyllosilicate, 01351. hydroperoxide, diode laser, methylhydroperoxide, ozone, 06680. nitric acid, measurement, Dennder difference method, filter pack, transition flow reactor, Fourier transform infrared, 13675. organic matter, surface water, lake, water, fluorescence, 02263. spectra, ultraviolet, photoluminescence, calcite, 04870. spectrometer data, data calibration, 09101.
spectrum model
bifurcation, turbulence, nonlinear dynamics, chaos theory, strange attractor theory, 06497.
speed
pollutant concentration, turbulence, diffusion, vehicle, traffic, 11212.
speleogenesis
granite cave, talus, boulder-filled stream channel cave, open-joint cave, Pikes Peat Granite, weathering, grus, corestone, weathering front, USA, Colorado, Lost Creek; 12017.
speleological research
Tell(L.), cave, karst, Sweden; 13066.
speleothem
archaeological fired sediment, cave sediment, geomagnetic record, China, Guangxi; 04753. conduit direction, prediction method, opal, allophane, karst, quartzite karst, Itacolomi Group, subterranean drainage prediction method, sinkhole, swallowhole, karrens, caves, Brazil, Minas Gerais, Ouro Preto; 02555. fall rate, watertable, thermal water, de gassing, cave genesis, multi storey dissolution maze, phreatic water, groundwater, joint system, corrosion effect, spring migration, uranium series dating, magnetic study, USA, South Dakota, Black Hills, Wind Cave; Jewel Cave; 10721. fault movement, karst, neo-tectonics, cave, Beutushohle, Batterich, Gelberbrunnen spring, Sieben Hengste-Hohgant cave System, Barenschacht, Switzerland, Thun Lake; 02558. helictite bush, subaqueous speleothem, thermal water, smoker chimney, helictite, USA, South Dakota, Wind Cave; 10723. Ipswichian, erratic, glacial deposit, Devensian age, raised beach, Amino acid dating, uranium series dating, UK, Wales; 10768. palaeoclimatic significance, isotopic composition, carbonate cave deposit, equilibrium, precipitation process, HENDYS kinetic equation, 02563. phreatic drainage system, tower, cave, cave exploration, China Caves Project, China, Guangxi, Mashan County, Jin Lung Dong; Gang Zei; 06057. Pleistocene, stalactite, aragonite, carbonate mineral, karstic carbonate, Israel, Beth Shemesh, Soreq Cave; 09358. rain forest, palaeokarst, limestone, isotope; carbonate, groundwater, bauxite, Italy, Palermo, Monte Gallo; 03662. stable isotope signature, humid climate, carbonate, calcrete, stromatolitic carbonate, microtexture, 01475. stalagmite, climatic change, ESR analysis, radiometric dating, Quaternary(Late), palaeotemperature record, Australia, Tasmania, Florentine Valley; 02677. subaerial stromatolite, stalagmite, stromatolite, biomineralization, calcite, cave, cyanobacterially deposited speleothem, Australia, New South Wales; 01413. Tertiary, cave, relief, Miocene, valley entrenchment rate, wall retreat rate, erosion rate, Uranium series dating, Norway, Rana, Hammarnesgrotta; 00260.
speleothem abundance
insolation variation, Milankovitch theory, periodic variation, Pleistocene(Late), UK; 10782.
speleothem dates
cryoplanation terrace, low-angle slope, periglacial activity, limestone solution, pediment, age, Canada, Yukon, Old Crow Mountains; 11996.
speleothem deposition
cave, calcite, gypsum, halite, uranium series dating, Pleistocene, climatic change, Australia, South Australia, Nullarbor Plain; Western Australia, Nullarbor Plain; 06109.
speleothem fragment
cave, postglacial, sea level, glaciation, ice free period, Norway; 06160.
Sphagnum
Carex, humification, carbon number, acyclic methyl ketone, peat, Finland; 02440.
Sphagnum fuscum
decay, compaction, peat core, Sweden; 06252.
Sphagnum moss
sodium, chloride, blanket bog, soligenous poor fen, raised bog, soligenous fen, ombrotrophic bog, peatland, surface water chemistry, Canada, British Columbia, Queen Charlotte Islands, Graham Island; 02873.
sphere
map use, map production, technology, economic limitation, political limitation, 04586. ridge orientation, ridge shape, topography, growth rate, baroclinic energy conversion, linear instability, 12404.
sphere packing
haphazard packing, packing concentration, void, 03510.
spherical aperture
hemispherical aperture, large aperture, spectroradiometer, aperture, 02093. hemispherical aperture, large aperture, SPOT-2, aperture, 02083.
spherical coordinate system
geographical coordinate system, beta plane approximation, quasi geostrophic approximation, 13584.
spherical distance
gravimetric geoid determination, error bound, Canada; 11431.
spherical excess
triangulation adjustment, calculator, equal shift, 00969.
spherical harmonic model
gravimetric geoid, DTM, geoid, Philippines; 04499.
sphericity
beach gravel, gravel shape, conglomerate, 02298. triangular plot, BASIC, TEEPLOT, clast shape, 08305.
spheroid
complex number theory, scale factor, grid convergence, Transverse Mercator projection, 05691.
spheroidal weathering
tholeiitic basalt, mathematical modelling, Liesegang diffusion, weathering initial stage, Lesotho; 08529.
spherule
micrometeorite, cosmic spherule, cryoconite, lake, noble gas, extraterrestrial, 04850.
spicular flint
flint pebble, Quaternary gravel, Carg Gravel, Westleton Bed, Tertiary pebble bed, UK, England, East Anglia; 06002.
spike
glacial interglacial boundary, rapid deposition, manganese, ocean, atmospheric carbon dioxide, redox cycle, 11917.
spill
intertidal sediment, tropical environment, beach, hydrocarbon, contaminant, Puerto Rico, Bahia Sucia; 03587. nickel, vanadium, sea water, oil seep, hydrocarbon, Mexico, Veracruz; 12902.
spill probability
failure probability, storage yield design, arid area, semi arid area, reservoir management, water rationing, Gould probability matrix method, reservoir design, 06404.
spillway
deglacial thinning, outwash, Wisconsinan(Late), ice margin, recessional event, Moody South Meadows ice margin, marginal alignment, lake stage, USA, New York, Adirondack Mountains; 07231. overflow, weir, erosion, revetment, model testing, flood, Canada, Alberta, Bow River, Bearspaw Hydroelectric Development; Calgary, Bearspaw Hydroelectric Development; 02377.
spillway channel
bedload transport, outwash apron, ice marginal lake, strandline, drawdown phase, Canada, British Columbia, Bridge Glacier; 13111.
spillway design
reservoir design, water management, hydrosystem maintenance, flood prediction, flood warning system, stochastic model, deterministic model, equatorial lake, Sacramento Model, Stanford Watershed Model IV, Queen's University Forecasting Model, soil plant atmospheric continuum, design flood, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416.
spillway operation
bottom outlet, water quality management, computer model, mathematical model, reservoir water quality, hydraulic structure, Brazil, Amazon Basin, Cachoeira Porteira Reservoir; 12192.
spin scan radiometer
atmospheric sounder, water vapour, wind field, infrared radiometer, Brazil, Amazon; 07644.
spinach
wheat, atmospheric deposition, heavy metal, field crop, carrot, grass, 11369.
spine
diagenesis, aragonite, compaction, porosity, ooid, Tunisia, Sebkha el Melah; 03514.
spinup
forecast rainfall rate, forecast skill, regional data, data assimilation system, 07788.
spinup problem
geostrophic adjustment, baroclinic atmosphere, 01886. latent heating, precipitation rate, divergent wind, frontal zone, diabatic initialisation, regional finite element model, satellite data, storm, prediction model, forecasting, Canada; 10102.
spinup time
diabatic initialisation, regional finite element model, satellite data, humidity enhancement, latent heating profile, rate rate, frontal development, Canada; 10103.
spit
cuspate foreland, coastline, sea level, Australia, South Australia, Victor Harbor; 04749. estuary, sediment transport, jetty, river mouth, delta, Colombia, Magdalena River, Puerto Colombia; 05824. isostatic rebound, TL dating, marine record, Eemian, Yoldia sea, Cardium edule, transgression, Denmark, Jutland, Vendsyssel-Skagen; 13152. longshore drift, shoreline change, sand, gravel, beach, USA, Massachusetts, Cape Cod; 04740. tidal flat, longshore transport, sand transport, gravel transport, chenier, intertidal mud flat, deflation, gravel drift, wind effect, sea level, beach, Argentina, Tierra del Fuego, San Sebastian Bay; 10802.
splash
wash, aggregate stability, crust formation effect, soil erosion process, soil seal, infiltration rate, soil strength, runoff, 03931.
splash detachment
simulated rainfall, soil erosion process, splash erosion, wash erosion, erosion rate, Heiden clay, antecedent soil moisture, 08536.
splash detachment test
wettable soil, hydrophobic soil, experiment, soil hydrophobicity, splash process, 07325.
splash erosion

wash erosion, erosion rate, Heiden clay, antecedent soil moisture, splash detachment, simulated rainfall, soil erosion process, 08536.
splash process
splash detachment test, wettable soil, hydrophobic soil, experiment, soil hydrophobicity, 07325.
spline approximation
cyclone path, ocean, 07754.
split and merge
segmentation implementation, image segmentation, 11473.
split explicit finite difference
model prediction, storm surge model, ocean current model, cold front, sea surface elevation, current elevation, Australia; 12390.
split window
precipitable water estimation, radiance measurement, aircraft data, 09971.
split window technique
skin temperature, radiance change, AVHRR, VISSR atmospheric sounder, precipitation retrieval, precipitable water, surface temperature, 09969.
splitted ring
measurement, lateral stress, oedometer, Norway; 03760.
splitting convective cloud
convective tower, storm, shear, precipitation, convective initiation, dryline, 07778.
splitting method
corner point identification, line drawing, computing time reduction, 11469.
splitting shooting method
computer vision, digital image transformation, pattern transformation, shape transformation, 07989.
Spodic horizon
phosphorus release, aluminium release, organic acid, Bh horizon, 12067. soil forming process, vermiculite, resin, geochemical process, podsolisation, chelating resin, France; 13197.
Spodosol
Alfisol, sulphur mineralisation, sulphate retention, cation leaching, forest soil, acid addition, USA, Maine; Illinois; 09672. geochemistry, podzolisation, Oxisol, Ultisol, Brazil, Amazonia, Manaus; 02804. humic Cryorthod, aluminium sulphate, sulphate retention, gibbsite, alunite, mineral horizon, 08584. International Committee on the Classification of Spodosols, tephra derived soil, soil morphology, tephra, Japan, Tohoku; USA, Washington; USA, Alaska; 08558. leaching, adsorption, sulphur, sulphur dynamics, USA, New York, Adirondack Mountains; Maine, Bear Brook Watershed; 00426. oxalate, formate, kinetics, organic anion, phosphorus release, USA, Florida; 07368. soil water chemistry, lysimeter, nitrogen dynamics, USA, New York, Adirondack Mountains, Huntington Forest; 02919. sulphate, desorption kinetics, Canada, Quebec, Laurentians; 09695. sulphate, forest soil, acid addition, salt addition, sulphate retention, USA, Maine; Illinois; 12076. surface coating, mineral fraction, variable charge surface, short range order mineral, USA, Washington, Cascade Range; 13284. toposequence, fulvic acid, aromaticity, nitrogen, humic acid, Oxisol, Brazil, Amazonia; 12082. Ultisol, podzolisation, soil sequence, soil process, Oxisol, Brazil, Amazonia, Manaus; 07425. weathering rate, chemical weathering rate, dissolution mechanism, kinetic, chemical weathering, B horizon, USA, Maine; 12019.
Spodosolic soil
grain morphology, mineral grain, feldspar, Canada, Ontario, Chapleau; 01532.
spoil
sulphur, lake, mine drainage, strip mine, pore water, organic matter, USA; 09327.
spoil bank
alkaline waste, grass cultivar, rehabilitation, stabilisation, limestone quarry, UK, England, West Yorkshire, Skipton, Embsay, Hawbank Rock; 03938. canalisation, remote sensing, coastal wetland, pond formation, impoundment, open water formation, erosion, sediment deposition, wetland fragmentation, hydrologic change, deltaic coast, USA, Louisiana, Gulf of Mexico; 05252.
spoil deposit
soil chemical property, bentonite, mine spoil, gypsum, salinity, soil amendment, USA, South Dakota, Black Hills; Wyoming, Black Hills; 08591.
spoil material
coal, weathered face, oxidized pyrite, sulphur, iron, solid phase transformation, biological oxidation, pyritic mine spoil, USA, Ohio; 09614.
spoil physicochemistry
mine spoil, geostatistical technique, sample spacing, kriging, soil sampling, USA, Montana; 13270.
sponge
boring, carbonate, reef, microboring, pelecypod, algae, fungi, Mexico, Yucatan, Cozumel; 00150. Holocene, coral, algae, reef, shelf environment, scleractinian, rhodolite, 08253. Jurassic(Upper), shelf sediment, limestone platform, reef, marl, basin, 08286. stromatolite, lamination, Holocene, reef, cyanobacteria, mollusc, algae, Atlantic, (Northwest); Bahamas; 05924. terrigenous influence, organism distribution, pericontinental margin, Tethys, Jurassic(Upper), Germany; 08285. transgression, regression, Cretaceous, Eocene, palaeochannel, Australia, Western Australia, Eucla Basin; 02423.
sponges
biofacies, Eocene, shelf, bryozoan, Spain; 10624.
spongy deposit
wind tunnel, ice water interface, supercooling, water skin, gyrating hailstone, hailstones, 10129.
spongy ice
stagnant point, supercooled water droplet, experiment, growth, 01463.
spontaneous potential log
hydrogeochemistry, aquifer zone, coastal aquifer, multi-aquifer system, groundwater quality, electrical logging, 01735.
spore
diatom, settlement, water depth, velocity, suspension, UK, England, Dorset, Waterston; 04693. moss polster, peat core, pollen deposition, New Zealand, South Island, Southern Alps; 06093. pollen, diatom, Late Pleistocene, geomorphological data, mollusc, USSR, Siberian Lowland; 11972. pollen, dinoflagellate cyst, acritarch, microfossil, palynological preparation technique, macerationtank-method, preparation technique, 11910. pollen, laboratory study, differential spore and pollen transport, UK, England, Surrey, Silwood Lake; 06083. pollen, suspended sediment concentration, marine sediment, river deposit resuspension, USA, Louisiana, Mississippi River, Pointe a la Hache; 06078. river, vegetation, sedimentation, palynomorph load, flowering peak, recycling, pollen, USA, Texas, Trinity River; 06077.
spore assemblage
Last Glacial Age, tephra, peat bed, fossil pollen, Japan, Hokkaido, Konsen Plateau; 02672.
spore release
mould problem, buildings, ventillation, humidity, air velocity, fungi, hygroscopic spores, 13676.
sporo pollen analysis
Pleistocene(Late) deposit, second step platform, Salawusu Group, China, Nei Mongol, Ho Bao Basin; 08489.
SPOT
aerial photograph, field data, resource, inventory, Tunisia, Kasserine; 04656. agriculture, land use, lithology, TM, Italy, Sardinia; 10408. automatic correlation, DTMs, 12624. bare soil, erosion phenomena, limestone area, France, Orleans Forest, Fere-en-Tardenois; 05713. beach accretion, active coastal drift, tidal delta, digitized aerial photograph, France, Vendee, Fromentine Channel; 05714. birdirectional reflectance, agricultural target, off nadir imagery, USA; 06874. borehole siting, landslide mapping, stereoscopic capability, New Caledonia; Bolivia; 05715. climate change, blue ice extent, Landsat TM, Antarctica, Dronning; 03456. coral reef ecosystem, benthic algae, time monitoring, Pacific, French Polynesia, Moorea; 05749. DEM, geological data, strike, dip, uranium exploration, France, Herault, Lodeve Basin; 12720. desertification, steppe, Algeria; 02193. digital elevation data, radiometric comparison, spectral greenness, Thematic Mapper, 10248. digital elevation, height information, 10290. digitised aerial photograph, ground based radiometric data, spatial variability, France, Crau; 05587. drainage network, mapping, 11618. elephant impact, teak forest, Botswana, Chobe National Park; Zambezi; 04632. environmental assessment, hydrogeological application, Landsat TM, subsidence, Germany; 06902. geological mapping, stereoscopic SPOT image, soil mapping, Indonesia, Java, Wonosari; 01099. geology, landscape unit, France, Massif Central, Cevennes; 05711. geomorphometrical information, DTM, automatic correlation, Algeria, Beni-Chougrane; 05602. GIS, environmental sensitivity, oil spill, remote sensing, 01122. GIS, LIS, environmental monitoring, map production, New Zealand; 13917. GIS, planners, remote sensing, Landsat, 02082. GIS, vegetation pattern, digital soil map, USA, Wisconsin; 08084. high resolution image, geometric evaluation, gravity field, 11421. HRV, surface reflectance, atmospheric data, view angle data, 06809. hydrographical system, Canada, Saskatchewan Province; 10450. hydrologic forecasting, infiltrometer test, lithologic composition, vegetation, 08129. image, lineament mapping, field checking, detection accuracy, geological map, Landsat MSS image, 08064. infrared colour photograph, mangrove, delta, Guinea, Rio Pongo; 02244. irrigation, groundwater, hydrogeology, Burkina Faso, Sahel; 04655. land management, soil map, soil property, USA, Illinois, Ford County; 03403. land use analysis, landcover analysis, land use change, GIS, 08080. land use mapping, Landsat TM, Greece, Messinia; 05724. Landsat TM, coral reef, hydrodynamics, Saudi Arabia; 03463. Landsat TM, data space volume, principal components analysis, probability density contour, maximum likelihood classifier, 10314. Landsat TM, Landsat RBV, drainage, Greece, Macedonia; 04653. Landsat TM, tree cover, vegetation type, fire, Ivory Coast, Korhogo; 03435. Landsat, cloud free image, cloud cover, Europe; 04593. Landsat, rift system, geological photo interpretation, fault kinematics, morpho-structural analysis, China, Shaanxi, Wei He; 05704. large format camera, lava flow, volcano, caldera, Pacific, Galapagos Islands, Isla Fernandina; 05700. macrophyte zonation, wetland community differentiation, environmental management, USA, South Carolina, Aiken; 08124. magma, fracture system, mineral exploration, alkaline intrusion, France, Bas Languedoc; 05702. map revision, rural-urban fringe, GPS, Canada, Ontario, Toronto; 13853. multiresolution data, multispectral data, Themtic Mapper, 11448. multispectral data, deforestation monitoring, conservation management, multitemporal Landsat MSS, LandsatMSS, China; 09208. multispectral image data, panchromatic image, intensity hue saturation, USA, Wisconsin, Madison; 06733. photogrammetry, OS, correlation, image point, aerial triangulation, 04480. photographic processing technique, false color composite, photographic edge extraction, area of change, 05673. principal component image, classification accuracy, sampling strategy, land cover classification, 03450. quantitative geomorphology, GIS, DTM, hazardous zone, Bolivia, La Paz; 10395. reflectance factor, mapping, DEM, 04524. remote sensing technique, Landsat, Italy; 11410. rural-urban fringe, classification, change detection, accuracy assessment, 03476. SAR, geomorphometry, DEM, texture processing, classification accuracy, 12643. SAR, spectral information, topographic information, fault, TM, USA, California, Mojave Desert; Bristol Mountains; USA, California, Cady Mountains; USA, California, Alvord Mountains; USA, California, Granite Mountains; USA, California, Fort Irwin; 06831. satellite image, canonical transformation technique, Digital Elevation Model, soil survey, soil separability, tallgrass prairie, USA, Kansas, Manhattan; 08616. scanner, AVHRR, SAR, microwave sensor, 10230. segmentation, spectral textural cooperation, cooperation, 12641. soil erosion, map, erosion classification, China, Deqing; 08070. soil survey, spectral response, soil classification, USA, Illinois; 03404. Sojuzkarta, marketing, commercialisation, remote sensing, Landsat, 05559. South American Shear Zone, mapping, temperate region, structural mapping, France; 04603. spectral band, stereoscopic coverage, planning, market, 02076. spectral mapping unit, soil mapping, satellite image, USA, Illinois, Ford County; 12045. structural description, linear filtering, lineament, 03413. structural mapping, mapping, coral, reef, thematic mapping, Pacific, New

Caledonia, Tetembia Reef; 04660. suspended matter, coastal water circulation, Colombia, Magdalena River; 10435. technology transfer, cartographic base, management system, Thailand; 02150. textural algorithm, spring fire, management practice, tallgrass prairie ecosystem, USA, Kansas, Konza Prairie; 12752. textural analysis, ice structure, Antarctica, Terre Adelie; 12796. topographic mapping, road network, forestry, Canada; 12673. tree species identification, digital classification, visual interpretation, acquisition date, Belgium, Flanders; 05732. urban expansion, GIS, 12802. urban street, street network, road delineation, Canada; 13981. Variscan basement, shear zone, structural map, granitic dome, France, Brittany; 05707. vegetation cover, savanna woodland, Acacia, Terminalia, Landsat, Botswana; 01105. vegetation index, topography, high altitude vegetal formation, Mexico, Sierra Juarez; 12738.

SPOT 1
HRV information, forest management, Scots pine, Landsat TM, 09228.

SPOT callbration
ground reflectance measurement, radiometer, site variability, 10246.

SPOT data
grassland, mapping, France, Lorraine; 06866.

SPOT image
elevation model, map overlay, hologrammetry, holographic stereogram, 07935.

SPOT imagery
affine model, projective model, conformal transformation, georeferencing, 07951. dambo environment, digital image processing, land degradation, image processing, Microvax computer, I2S software, maximum likelihood classifier, Zaire, Shaba, Lubumbashi; Zambia; 09496. digital stereo work station, analytical plotter, photogrammetric application, DEM generation, terrain data extraction, 10291. stereo imagery, photogrammetric reduction, 07938. topographic mapping, map updating, DEM, digital technqiue, 10358. X band SLR imagery, IHS transformation, airborne radar imagery, gold exploration, China, Xinjiang, Qiagen; 06821.

SPOT system
digital elevation model, digital imagery, orthographic satellite, satellite image map, USA, California; 08041.

SPOT three dimensional data
stereo pair, DEM, automated terrain extraction, 10292.

SPOT-1
bathymetry, lagoon, Pacific, Cook Islands, Aitutaki Atoll; 02273. GIS, resource manager, phytosanitary phenomena, forest cover type mapping, France, Mercantour National Park; 05735. panchromatic data, forest stand, multispectral data, 04614.

SPOT-2
aperture, spherical aperture, hemispherical aperture, large aperture, 02083.

SPOT-HRV
DTM, forest, classification, 02207.

spray
droplet dispersion, size distribution, humidity, model, evaporating spray, 13602. time constant, droplet evolution, sea spray, 11218.

spread rate
weather data, fire behaviour modelling, GIS, Canada, Manitoba; 01109.

spreading axis
plate movement, climatic zone, montmorillonite, clay mineral, Atlantic, (Northwest); 00090.

spreading centre
factor analysis, hydrothermal sediment, tectonic environment, Pacific, Lau Basin; 12893. heat flow anomaly, sulphide, hydrothermal fluid, hemipelagic sediment, oxygen isotope, nodule, Pacific, Juan de Fuca Ridge, Middle Valley; 11698. hydrothermal deposit, sulphide, sulphate, silica, organic matter, Pacific, East Pacific Rise; 12886.

spreading zone
subduction zone, ridge belt, compressional structure, extensional structure, extension, Venus; 07160.

spreadsheet
project management, mapping, digital conversion, project tracking, 07899.

spring
ammonium, denitrification, bank seepage, chloride, nitrogen chemistry, near stream zone, flow path, groundwater flow, water chemistry, 12248. artesian water, saline water, groundwater hydrochemistry, groundwater circulation, United Arab Emirates, Ain bu Sukhanah; 00601. biological process, carbonate, travertine, microenvironment, precipitation, USA, Colorado; 08169. discharge, electrical conductivity, water temperature, isotopic analysis, aquifer characteristic, Madagascar; 02904. doline, submarine spring, palaeocave system, peneplain, uplift, low sea level, dissolution, hydrogeology, karst hydrogeology, phreatic cave system, drainage conduit, carbonate rock, New Zealand, Nelson, Golden Bay, Takaka Valley; 09526. dye tracing, karst hydrogeology, groundwater problem, fluviokarst, Ordovician(Upper), pollutant, sinkhole, caves, disappearing river, blind valley, USA, Minnesota, Fillmore County; 03839. groundwater quality, chemical property, physical property, Bahrain, Adari Spring; 00602. gypsum, Quaternary, salt crust, halite, brine, Bolivia, Altiplano, Uyuni; Coipasa; 12863. hydrochemistry, decisional statistics, discriminant analysis, validation, geohydrological hypothesis, karst spring, hydrograph, France, Charente, La Rochefoucauld Karst System; Lussac Springs; France, Fontaine de Vaucluse Spring; 13065. ice motion, drag coefficient, Richardson number, aircraft observation, boundary layer, Arctic; 13535. lake, corrosion, karst, disappearing lake, USSR, Valdai Upland, Novgorod Region; 11901. nitrate, chloride, total dissolved solids, historical data, groundwater quality, groundwater protection, education program, USA, Virginia; 01781. oxygen-18 tracer, flow path, groundwater flow, groundwater discharge, karst aquifer, flow velocity, China, Guangxi Province, Guilin; 02913. phenological model, 07683. Quaternary, radium, calcium carbonate, aragonite, travertine, USA, Wyoming, Mammoth Hot Springs; 03558. salinity, ion concentration, groundwater resource, groundwater hydrochemistry, Saudi Arabia; 01725. sedimentation, loess, neolithic, Holocene, tufa, France, Val d'Oise, Guiry-en-Vexin; 07009. submarine spring, groundwater discharge, radium, surface water quality, coastal water quality, USA, Florida, Suwannee River; Gulf of Mexico; 04079.

spring avalanche
snow avalanching, avalanche, denudation rate, pellicular avalanche, slush avalanche, boulder tongue, geomorphic impact, Svalbard, Spitsbergen; 06042.

spring bloom
chelator, copper, sea water, trace metal adsorption, phytoplankton, Canada, Nova Scotia, Bedford Basin; 09432.

spring break-up
historical record, river, ice, Canada, Athabasca River, Pond's Fort; 01831.

spring complex
geochemical time series data, groundwater hydrodynamics, groundwater quality, hydrogeochemistry, groundwater flow, Switzerland, Acquarossa; 05213.

spring contamination
water quality management, groundwater quality, water resource protection, karst groundwater, China, Shanxi Province; 11067.

spring deposit
travertine, playa, deflation, radiocarbon, sedimentation, Australia, South Australia, Lake Torrens, Mountford Spring; 00037.

spring discharge
thermal spring, groundwater flow, groundwater discharge, diffuse flow, Italy, Tuscany; 05221.

spring drainage
lake evaporation, water balance, flooding, lake water level, hydrological regime, spring flood recharge, Canada, Northwest Territories, Mackenzie Delta; 01668.

spring fed river
direct runoff river, river classification, hydrograph shape, runoff fluctuation, water yield, drainage basin characteristic, glacier river, Iceland; 06272.

spring fed swamp
base flow, seepage, surface water groundwater interaction, groundwater discharge, wetland maintenance, Canada, Ontario; 07442.

spring fire
management practice, tallgrass prairie ecosystem, SPOT, textural algorithm, USA, Kansas, Konza Prairie; 12752.

spring flood recharge
spring drainage, lake evaporation, water balance, flooding, lake water level, hydrological regime, Canada, Northwest Territories, Mackenzie Delta; 01668.

spring migration
uranium series dating, magnetic study, speleothem, fall rate, watertable, thermal water, de gassing, cave genesis, multi storey dissolution maze, phreatic water, groundwater, joint system, corrosion effect, USA, South Dakota, Black Hills, Wind Cave; Jewel Cave; 10721.

spring model
rhythmic spring, ebb and flow spring, intermittent spring, siphon action, karst spring, recharge, groundwater discharge, Yugoslavia; 12242.

spring ozone maximum
nitric acid, sulphate, nitrate, beryllium-7, sulphur dioxide, peroxy acetylnitrate, ozone, surface ozone, isentropic trajectory analysis, Japan, Sapporo; 00857.

spring phenology
green up period, surface maximum temperature, phenological data, transpiration onset, vegetation, maximum temperature, 07637.

spring thaw
snow chemistry, snow cover, snow melt chemistry, trace ion chemistry, maritime airmass, ice crystal, melt water, sulphate, nitrate, UK, Scotland; 04404. winter freezing, subarctic fen, ombrotrophic fog, methane emission, fen, bog, swamp peatland, static chamber technique, Canada, Quebec; 04411.

spring travertine
terminal lake, Pleistocene, lake, Sayif Formation, facies, palaeoenvironmental setting, lacustrine carbonate, Israel, Arava Valley; 03877.

spring water
smectite, montmorillonite, beidellite, pumice, clay mineral, Indian Ocean, Kerguelen Islands; 08301.

spring water quality
water quality analysis, adsorption, ferric hydroxide, radiation method, spectrophotometry, uranium concentration, groundwater quality, stream water quality, Turkey, Bergama-Balikesir Area; 07448.

spring weather(1990)
thunderstorm, wet spring, UK; 09983.

spring wheat
production, semi arid, zero tillage fallow, grain yield, wind erodible aggregate, conservation tillage, Canada, Saskatchewan; 05055.

spring-neap tidal mixing
tidal mixing, estuarine circulation, hydraulic jump, Froude number, wind forcing, estuary-ocean exchange, Canada, Columbia, Strait of Georgia; North America, Strait of Juan de Fuca; 01627.

sprinkler irrigation
irrigation non uniformity, soil water distribution, irrigated field, root extraction, unsaturated flow, lateral flow, 07525.

spruce
Picea abies, adventitious root, dendrogeomorphology, debris flow, 06029. pine, forest mapping, Landsat TM, forest classification, Germany, Bavaria, Regensburg; 01108. pollution, forest decline, soil condition, Germany, North Rhine Westfalia; 09026.

spruce fir
Thematic Mapper, topographic data, forest decline, USA, North Carolina, Black Mountains; 08096.

spruce fir forest
acidity, organic matter content, forest soil, trace metal, montane forest, subalpine forest, USA, (Northeast); 07419.

spruce forest
dissolved inorganic nitrogen, soil water chemistry, forest soil, inorganic nitrogen, nitrate leaching, nitrogen loading, surface water quality, bulk precipitation, throughfall, stem flow, nitrogen flux, UK, Wales, Beddgelert; Plynlimon; UK, England, Cumbria, Kershope; 11098. fluorescence measurement, reflectance measurement, chlorophyll meas-

urement, 09233. interception, throughfall, stem flow, forest hydrology, precipitation, evaporation, UK, Scotland, Balquhidder; 05116. pigment content, FLI, airborne spectrometer, spectrometer, 09235. precipitation, pollution, nitric acid, ammonia, forest damage, suspended particle, leaching, 03259. radiocarbon date, adiabatic lapse rate, Little Ice Age, Holocene(Late), tree limit, Sweden; 07268.

spruce needle
biological indicator, organic air pollutant, terrestrial plant, 03264.

spruce stand
long range transport, peroxyacetyl nitrate, Germany, Eggegebirge; 05507.

sputter ion source
radiocarbon dating, Gif-sur-Yvette Tandetron Accelerator, isotopic fractionation, 02571.

sputter source
sample changing, computer control system, carbon dioxide source, radiocarbon dating, accelerator mass spectrometry, 02572.

SQL
algorithm, cartographic database, database, 11508. database query language, object oriented modelling, GIS, Prolog, 03359. deductive algebra, database language, 04565. GIS instruction, AUTOCAD, GIS, graphics database, 01077.

SQL retrieval
three dimensional GIS, Italy, Pompeii; 10468.

squall forecasting
radar data, satellite data, squall formation condition, aerological data, cumulonimbus, forecasting, 06516.

squall formation condition
aerological data, cumulonimbus, forecasting, squall forecasting, radar data, satellite data, 06516.

squall line
cloud model, low-level moisture, low-level shear, 01924. cloud, precipitation, cold front, occulsion, lee trough, dryline, USA; Pacific; 01901. hail, cloud dynamics, cloud microphysics, radar measurement, precipitation, deep convection, 00762. heat budget, moisture budget, tropical squall line, Africa, (West); 10110. kinematics, thermodynamics, water budget, mesoscale convective system, updraft, Doppler observation, 08951. latent heating, vertical mixing, updraft, stratiform region, mesoscale momentum budget, 05423. mesoscale predictability, convection, low-level jet, internal undular bore, gravity current, gravity wave, radar, short period forecasting, USA, Kansas, Wichita; 01923. mesoscale, convective system, dehydration, stratosphere, tropopause, vertical motion, trailing stratiform region, 12447. Meteosat imagery, cloud cluster, tropical storm, convection index, precipitation, rainfall, Africa, Sahel; 10099. ozone, convective transport, photochemical production, downdraft development, anvil, anvil core, cloud draft structure, trace gas transport, cloud model, transport pathway, 10210. radiative cooling, convection, stratiform, cloud band, numerical experiment, virga settling, 12465. troposphere, boundary layer, updraft, gravity wave, 04292. vertical velocity, mesovortex, mesoscale convective system, vortex, thunderstorm, USA, Kansas; Oklahoma; 01925.

square array
Schlumberger array, groundwater exploration, village water supply, fissured zone, fractured zone, crystalline formation, resistivity profiling, horizontal profiling, Benin; 06359.

square grid regionalization
rainfall runoff model, hydrologic data, uncertainty analysis, network operation, water resources development, reservoir, meteorological data, isoline mapping, Venezuela; 05315.

Srisailam quartzite
Proterozoic, Cuddapah Group, arenaceous, quartzite, basin, 00113.

SSARR
catchment characteristic, hydrograph prediction, rainfall-runoff model, model calibration, 01649.

St Geneys
interstadial, Pleniglacial, Les Echets sequence, pollen analysis, Pleistocene(Upper), maar, vegetational history, Ribains interglacial, France, Massif Central, Velay, Le Bouchet Lake; 03895.

St Venant equation
cascade dam rupture, dam rupture analysis, computational model, 05171. flood wave, river management, stream flow, flood propagation, Africa, Niger River; Senegal River; Africa, Gambia River; 06298. Preissmann scheme, Abbott Ionescu scheme, river geometry, open channel flow model, cross section selection, flow equation, 05178.

St Venant's equation
prismatic rectangular channel, flood routing, stage hydrograph, routing method, flood wave, 05183.

St. Bernard loam
sorption-desorption, phosphate, phosphorus, molybdate, molybdenum, Dalhousie clay, 13252.

St. Charles site
radiocarbon age, alluvial fill, stratigraphy, Wisconsinan(Middle), stratigraphy, palaeoenvironment, USA, Iowa, Clanton Creek; 07262.

St. Erth Beds
cave, plateau gravel, preAnglian, glacial deposit, UK; 13148.

St. Germain II
Odderade, Upton Warren type site, last interglacial glacial cycle, amino acid geochronology, oxygen isotope stratigraphy, Ipswichian, Eemian, Chelford, UK; Europe; 06082.

St. Louis Limestone
Ste. Genevieve Limestone, porosity, Mississippian, packstone, cementation, diagenesis, neomorphism, USA, Kansas, Gray County; 09316.

St. Maurice Rhythmite
Leclercville Rhythmite, St. Pierre Sediment, bioturbation, varve, glaciolacustrine event, rhythmite, pollen content, Pleistocene(Late), Deschaillons Varve, Canada, Quebec, St Lawrence Valley; 02660. Leclercville Rhythmite, St. Pierre Sediment, La Perade Clay, climatic optimum, lithostratigraphy, tectonically stable, allochtonous ice, glacioisostasy, glacial lake, climatic cycle, isostatic rebound, eustatic sea level, rhythmite, Deschaillons Varve, Canada, Quebec, St Lawrence Valley; 02657.

St. Pierre Sediment
bioturbation, varve, glaciolacustrine event, rhythmite, pollen content, Pleistocene(Late), Deschaillons Varve, St. Maurice Rhythmite, Leclercville Rhythmite, Canada, Quebec, St Lawrence Valley; 02660. La Perade Clay, climatic optimum, lithostratigraphy, tectonically stable, allochtonous ice, glacioisostasy, glacial lake, climatic cycle, isostatic rebound, eustatic sea level, rhythmite, Deschaillons Varve, St. Maurice Rhythmite, Leclercville Rhythmite, Canada, Quebec, St Lawrence Valley; 02657. Portneuf Till, deglaciation varve, Deschambault Varve, lodgement till, Sainte Anne diamicton, Becancour Till, varve, Canada, Quebec, Sainte-Anne-de-la-Perade; 13115. stratotype, lithozone, pollen, boreal vegetation, rhythmite, sedimentary cycle, fluvial, glacioisostatically depressed, Canada, Quebec, St Lawrence Valley; 02658.

St. Venant equation
bedload, mobile bed hydraulics, 11652. open channel network, unsteady flow, channel flow, finite element method, 13329.

Stabilenka fabric
reinforced soil retaining wall, sandbag, wrap around face construction, UK, England, Essex, Barking, Hewetts Quay; 03734.

stabilisation
difficult soil, developing country, soil stabilisation, 03786. limestone quarry, spoil bank, alkaline waste, grass cultivar, rehabilitation, UK, England, West Yorkshire, Skipton, Embsay, Hawbank Rock; 03938. sensitive clay, shear strength, quicklime stabilisation, cementation, cohesion, laboratory chart, laboratory investigation, lime, USA, Alaska; Canada; Scandinavia; 02538. sodic clay soil, amelioration, leaching, aeration, 00380. vegetation, eolianite, root fossilisation, dune, aeolian deposit, Tunisia; 03648.

stabilised debris flow track
deforestation, dynamics, debris flow, flow track, cirque floor, talus slope, alluvial slope, Poland, Tatra Mountains, Staroróbocianska Valley; 11897.

stability
avalanch, fuzzy set, fuzzy factorial analysis, snow avalanch, snowpack, tree damage, 04923. breakwater, poor foundation, liquefaction, Brazil; 03791. creeping landslide, long term slope stability, landslide, pore fluid, frictional heating, 02536. downslope flow, valley wind, boundary layer, radiation cooling, 00734. frontal mean state, baroclinic instability, jet, WKBJ approximation, 13596. frontogenesis, air mass, potential vorticity, 07767. geomorphological system, defluction slope, creep, 05987. horizontal shear, shear front, potential vorticity, semi geostrophic theory, Eady wave, 12442. humic substance, molecular size, organic waste amendment, microaggregate, 00395. ice cover, Pleistocene warming, Glacial-marine sediment, Arctic ice cover, chronology, deep ocean ventilation, Arctic; 02618. inertia, geosystem, polessie, alluvial plain, floodplain, USSR, Meshchera Lowlands; 13007. mass movement, flysch slopes, slope, research program, Poland, Karpaty Mountains, Szymbark, Bystrzyca; 08398. opencast mine slope, finite element method, Krusne hory Fault, engineering-geological investigation, geotechnical investigation, slope stability, deep opencast mine, complex geological condition, Czechoslovakia, Bohemia; 01405. parameter alpha, net radiation partitioning, Priestley-Taylor formulation, alpha diurnal variation, Bowen ratio, Brazil, Amazon Forest; 13527. pedogenesis, deflation, Ogallala Formation, soil, landscape evolution, eolian plain, Blackwater Draw Formation, buried soil, USA, New Mexico, High Plains; Texas, High Plains; 02513. pollution, sulphur dioxide, particulate matter, Pasquill's stability categories, Spain, Salamanca; 01989. precipitation, acid deposition, pH, ammonium, nitrate, acidity, deposition, trace metal, acid rain, sample storage, 12512. recession, chalk cliff, cliff failure, coastal recession rate, UK, England, Isle of Wight, Compton Down; 03827. slope, Cretaceous(Upper), carbonate slope, safety factor, circular failure, chalk, Israel; 03833. stratification, scatterometer wind, surface roughness, surface stress, temperature, 00730. sub-cloud layer, monsoon, lifting condensation level, 03071. surface roughness, dispersion parameter, wind speed, turbulent diffusivity, 02005. technogenic load, urban morpholithosystem, morpholithosystem, urban relief, USSR, Moscow; Bratislava; 11906. uplift history, strike slip offset, space problem, Quaternary uplift, Mendocino triple junction, fission track age, uplift, unroofing, USA, California, King Range, San Andreas Fault; 11878. wave transmission, breakwater, overtopping, hydraulic model, USA, California, Redondo Beach; 02339.

stability analysis
block toppling failure, rock slope, probabilistic method, toppling failure, Monte Carlo simulation, Markov Chains theory, 04917. critical length, ledge, artificially cut slope, slope, rib like relief, ledge failure, Japan, Ibaraki Prefecture, Tsukuba Upland; 08388. landslides, red laterised soil, mulching, mass movement, creep, clayey soil, shearing test, terracette, Rwanda, Zaire-Nile Divide; 02551. sliding probability map, probabilistic approach, rock slope stability, slope stability, joint, structural domain, Italy, Rome Region; 08389. undisturbed sample, embankment foundation, unconfined compression strength, soft aged clay, 03751.

stability breakdown
planetary boundary layer, heat flux, complex terrain, boundary layer, 13505.

stability class
wind speed, Gaussian plume, dispersion model, odour concentration, peak to mean concentration ratio, 01993.

stability constant
ligand, uranium, thorium, complexing, 09447.

stability correction
wind speed, Monin-Obukhov similarity theory, boundary layer, sea water temperature, air temperature, logarithmic profile, North Sea; 01856.

stability dependence
temperature structure parameter, surface layer, 07696.

stability dependent closure
UK Meteorological Office, general circulation model, monsoon, convection scheme, cloud ensemble characteristics, 10112.

stability detection
rock slope, surficial excavation, slope stability, Egypt, Asswan; 08065.

stability investigation

quasi geostrophic model, three level model, baroclinic wave, 07757.
stability level
evaporation, frequency analysis, Taiwan; 11187.
stability measure
thermodynamic structure, static stability measure, tropospheric sounding, Africa, (West); 13501.
stability of element
adsorption, fresh water, complexation, particulate, 05933.
stability problem
saturated unsaturated analysis, water flow, slope, Brazil, Rio de Janeiro; 10714.
stability remedial measure
rockfall cause, landslide cause, slope stability, neotectonics, India, Himalayas, Kumaun Himalaya, Nainital, Naina Peak; 10716.
stabilization
stratigraphic research, Quaternary, Holocene, radiocarbon dating, eolian deposit, fossil soil, cover sand, France, Pas de Calais, Wissant; 11968.
stability
radon, boundary layer, urban atmosphere, 02003.
stable air flow
nocturnal air flow, isolated hill, tetroon, mesoscale model, 08966.
stable atmosphere
acid rain model, numerical weather prediction model, turbulence modelling, vertical eddy diffusion, K theory, intermittent turbulence, clear air turbulence, 06500.
stable carbon isotope ratio
cellulose, carbon reservoir, sea level lowering, carbon-13: carbon-12 ratio, glacial-interglacial excursion, carbon dioxide concentration, atmospheric carbon dioxide, wood cellulose, 08421. Chenopodiaceae, rainfall, Holocene(Middle), organic matter, land snail shell, Israel, Negev Desert; 03878.
stable channel
gravel river, bank vegetation, straight channel, flow resistance, cross sectional geometry, depth averaged fluid velocity, bed shear stress, channel width, channel depth, 08696.
stable condition
precipitation heterogeneity, arid desert, Humbolt cold sea current, Bolivia, Andes; 07667.
stable flow
hill, linear theory, laboratory measurement, towing tank, dye plume, Froude number, 07761. on shore flow, dispersion, pollution level, plume trapping, Canada, Ontario, Hamilton; 11196.
stable isotope
adjacent closed basin, precipitation, groundwater recharge, surface water, hydrogeochemistry, Chile, Atacama Desert, Punta Negra Basin; Hamburgo Basin; 05236. cave pool system, cave hydrology, isotopic ratio, hydrologic model, drip water, pool water, water vapour, USA, New Mexico, Carlsbad Cavern; 07446. ostracode, Holocene, palaeoclimatic evidence, sedimentation rate, core, palaeolimnology, radiocarbon, USA, Great Lakes, Lake Michigan; 08474. radioactive carbon, solvent contamination, groundwater quality, carbon isotope study, vadose zone, carbon dioxide production, vadose zone, USA, Arizona, Phoenix; 07549. tritium, groundwater chemistry, carbon-14 dating, precipitation chemistry, geothermal system, Yugoslavia, Surdulica; 04144.
stable isotope analysis
planktonic foraminifera, salinity, anoxia, Pliocene, Tertiary, laminated sediment, Pleistocene, climatic change, laminite, geochemistry, micropalaeontology, palaeoclimatic condition, Italy, Calabria, Vrica; 00281.
stable isotope chemistry
pedogenic carbonate, alluvial soil, terrace, Aridic Haplustalf, radiocarbon age, Pakistan, Punjab, Harappa; 00283.
stable isotope composition
groundwater flow path, carbon-14, groundwater origin, groundwater dating, groundwater recharge, Brazil, Botucatu Aquifer System; 04119. Thalassia, seagrass, inundation, organic carbon, carbonate, Atlantic, Bahamas, Bight of Abaco; 01236.
stable isotope content
ice cap, palaeoclimate, proxy data, particle, conductivity, China, West Kunlun; 03118.
stable isotope data
tufa data, tree stump data, lake size change, sediment core, shallow lake interval, climatic aridity, diatom population, lake level record, USA, Nevada, Walker Lake; California, Walker Lake; 08473.
stable isotope mass balance method
flow model, lake inflow, solute transport model, lake outflow, groundwater lake system, mixing process, unsaturated zone, flow path, surface water groundwater interaction, mass balance method, groundwater exchange, USA, Wisconsin; 08772.
stable isotope model
oxygen isotope, deuterium, precipitation, water vapour, air temperature, sea temperature, wind speed, sea ice cover, supersaturation, 04198.
stable isotope plume
flow model, recharge, discharge, inflow rate, outflow rate, surface water groundwater interaction, groundwater lake system, groundwater exchange, solute transport model, USA, Wisconsin; 08773.
stable isotope ratio
carbon, phytolith, vegetation monitoring, climate change, occluded carbon, opal phytolith, palaeoclimatic reconstruction, Holocene climate, USA, Great Plains; 10738.
stable isotope record
foraminifer, glacial interglacial amplitude, surface water temperature, cooling event, carbon accumulation rate, upwelling, monsoon, Pleistocene(Late), hydrography, planktonic isotope record, benthic isotope record, Indian Ocean, ODP Site 724; Arabian Sea, ODP Site 724; 11922. last glacial cycle, lacustrine ostracode, ostracode, glaciolacustrine sediment, glacial melt water, Laurentide ice sheet, Canada, Toronto, Scarborough Bluffs; 09555. Quaternary(Late), sedimentation rate, Antarctic continental margin, ice shelf edge, diagenetic process, meltwater spike, primary productivity, climatic cycle, sedimentation rate, Antarctica; 02622. spectral analysis, Ocean Drilling Program, biostratigraphic, magnetobiochronology, high resolution, planktic, USA, Mississippi River; Gulf of Mexico; 03860.
stable isotope signature
humid climate, carbonate, calcrete, stromatolitic carbonate, microtexture, speleothem, 01475.
stable isotopic composition
carbon dioxide, soil carbon dioxide, grass covered soil, diffusion equation, isotopic equilibrium, production, Switzerland, Bern; 11912. ostracode, glaciolacustrine sediment, Late Wisconsin till, meltwater, till, Laurentide ice sheet, Canada, Ontario, Toronto, Scarborough Bluffs; 13112.
stable isotopic evidence
pedogenic origin, carbonate, Trench 14, nuclear waste respository, USA, Nevada, Yucca Mountain; 07205.
stable isotopic record
stratified water column, productivity, Younger Dryas event, Holocene, palaeoenvironmental event, Pteropoda, high resolution record, sedimentary sequence, core, R/V Meteor cruise, Red Sea; 10748.
stable isotopic stratigraphy
pelagic carbonate, last glacial termination, monospecific foraminifera, isotopic change, Glacial-Holocene trend, fine fraction, 04954.
stable landform
landscape study, time, surface stability, field morphology, climatic change, primary mineral dissolution rate, soil formation rate, soil development, USA, California; Great Basin; 02495.
stable layer
storm, mesoscale process, synoptic scale process, coastal-shelf circulation, coastal physical oceanography, air sea interaction, shelf frontogenesis, USA; 10044.
stable oxygen isotope
anoxia, carbon-14, Quaternary(Late), stratigraphy framework, sapropel S1, Mediterranean; 13084.
stable oxygen isotope stratigraphy
radiometric age, uranium/thorium method, iceberg melting, salinity, oxygen isotope stage 5, Atlantic, Fram Strait; 02606.
stable stratification
atmospheric stability, wind profile, power law exponent, 13560. boundary layer, large eddy simulation, 07695. light wind, gravity wave, vortex, plume meandering, 05402. precipitation, foehn, synoptic data, air mass, potential temperature, Italy, Po Valley; Europe, Alps; 04225. turbulence, boundary layer, wind tunnel, complex topography, 13699. wind shear, cold frontal zone, diabatic modification, extratropical warm sector, marine cyclone, warm sector, cold underlying water, ocean, 10027.
stably stratified air
air mass, blocking, nocturnal wind, katabatic wind, topographic blocking, Australia, South Australia, Adelaide; 13495.
stably stratified flow
complex terrain, wind tunnel, gas diffusion, USA, Steptoe Butte; 05403.
stack
dispersion parameter, effluent, sulphur dioxide, Mathura refinery, monsoon, winter, India, Agra, Taj Mahal; 11384. morphological variation, calcareous sandstone, visor and notch morphology, mollusc, bioerosion, sandstone, Australia, Western Australia, Trigg Beach; 07075. turbulent boundary layer, numerical calculation, dispersion, elevated source, 12371.
stack gas
pollution, sampling, isokinetic sampling system, fly ash, gravimetric method, beta ray, dust, 03192.
stack height
sulphur dioxide, plume rise, pollutant, South Africa, Transvaal; 07819.
stacking pattern
sequence, parasequence, Milankovitch, stratigraphic sequence, eustatic cycle, 09314.
stacks
diffusion coefficient, plume model, point source, transport, 13691.
stadial
interstadial, Eemian age, stratigraphy, Weichselian, till stratigraphy, glacial history, Pleistocene(Late), Norway, Finnmark, Finnmarksvidda; 06130.
stage 3
International Collaborative Program, internal reproducibility, radiocarbon date, 04938.
Stage 5
interstadial, Brorup, Odderade, integlacial correlation, Eemian, Weichselian, oxygen isotope stratigraphy, last interglacial, Netherlands; Europe, (Northern); 06081.
stage 5a
uranium series dating, interstadial site, peat, pollen, lithostratigraphy, UK, Scotland, Allt Odhar; 06147.
Stage 9
aminoacid, isotopic stage, fauna, tufa, uranium thorium dating, interglacial, France, Vernon; 07008.
stage discharge curve
floodplain width, channel width, floodplain height, water depth, roughness coefficient, discharge assessment, compound channel, floodplain roughness, channel geometry, boundary shear force, total shear force, 05163.
stage discharge measurement
data base management, water management, hydrometric network, data processing, hydraulic structure, waterway, gauging station, Belgium, Flanders; 09941. suspended sediment, thermal property, sediment load, runoff variation, Arctic; Svalbard, Spitsbergen, Billefjorden, Ebbaelva River; Svalbard, Spitsbergen, Billefjorden, Petuniabukta River; 05245.
stage discharge relationship
dilution gauging, irregular channel geometry, microcomputer system, discharge measurement, stream flow, turbulent stream, salt tracer dilution, current meter, 08668.
stage hydrograph
routing method, flood wave, St Venant's equation, prismatic rectangular channel, flood routing, 05183.
staggered grid
finite difference model, shallow water integration, forcing scheme,

small-scale forcing, 00667.
stagnant moisture accumulation
waterlogged soil, soil drainage, 09666.
stagnant point
supercooled water droplet, experiment, growth, spongy ice, 01463.
stagnant regime
plough layer, irrigation, soil physical property, soil chemical property, Chernozem, waterlogging, gleying, 10855.
stagnation lake
kame hummock, flood plain, outwash, kettle gully, Vistula lobe, dead ice melting, river mouth evolution, drumlin field, Poland, Wierzyca Valley, Gniew; 01379.
Stagnogleyic Luvisol
field traffic, soil structure, compaction, soil aeration, cultivated horizon, 09658.
staining
cement, aquifer, Mississippian, carbonate dolomitisation, palaeoaquifer, USA, Appalachian Mountains; 00160. fluorochromic dye, soil microorganism, 01575.
staining technique
soil preparation method, image analysis, micromorphology, soil structure, biota, micromorphological technique, photographic method, Dutch Programme on Soil Ecology of Arable Farming Systems, 10910.
stalactite
aragonite, carbonate mineral, karstic carbonate, speleothem, Pleistocene, Israel, Beth Shemesh, Soreq Cave; 09358.
stalagmite
climatic change, ESR analysis, radiometric dating, Quaternary(Late), palaeotemperature record, speleothem, Australia, Tasmania, Florentine Valley; 02677. flowstone sequence, U series technique, oxygen isotope variation, pollen assemblage, palaeoclimate, Norway, Rana; 06159. stromatolite, biomineralization, calcite, cave, cyanobacterially deposited speleothem, speleothem, subaerial stromatolite, Australia, New South Wales; 01413.
stalagmitic floor
Mousterian deposit, Neanderthal remains, ESR dating, hominid bearing deposit, Italy, Ligure, Caverna delle Fate; 01417.
stand age
spatial location, nutrient, precipitation chemistry, forest hydrology, throughfall chemistry, 11094.
stand density
mangrove forest, aerial photograph, Malaysia; 03433.
stand index
Landsat TM, Scots pine, forestry detection, GIS, 09237.
stand information
decision support system, GIS, inventory, timber, USA; 06882.
stand overstorey process
turbulent eddy, gradient-diffusion theory, 03051.
stand productivity
radar imagery, vegetation analysis, forest, 03428.
standard
accuracy, GIS, data quality, digital point position, qualilty, 13830. architecture, exchange, geographic data, 13878. data accuracy, GIS, resource plan, Canada, Ontario, Scarborough; 13971. data quality, GIS, data transfer, 13821. digitisation, cartographic data, exchange, Canada, Quebec; 13877. GIS, digital geographic interchange, geographic interchange, 13874. navigation, cartography, GIS, data capture, expert system, 13755.
standard batch method
miscible displacement method, exchange isotherm, adsorption isotherm, soil solute transport, 00455.
standard deviation
precipitation chemistry, deposition, wet deposition, heteroscedasticity, mean deviation, 13666.
standard interchange format
GIS, interface, relational database management system, data format, 01020.
standard measurement
soil penetrometer measurement interpretation, cone angle, penetrometer, 06019.
standard parallel
conformal projection, conical projection, 11437.
standard penetration test
laboratory cyclic test, excess pore pressure, granular soil, energy approach, seismic liquefaction potential, earthquake, liquefaction potential, 02541. soil resistance, standard test, 13043.
standard production
calibration, laminar flow element, pollution monitoring, flow metering, 01975.
standard reference water sample
sediment analysis, inorganic substance, water quality analysis, analytical method, laboratory manual, US Geological Survey, suspended sediment, bottom material, 00497.
standard test
standard penetration test, soil resistance, 13043.
standardisation
classification, GIS, Netherlands; 02151. trend, laboratory intercomparison, European Monitoring and Evaluation Programme, monitoring programme, 06678.
standardised name
school atlas, atlas, exonym, 09140.
standardised procedure
abrasion, Channel Tunnel, salt weathering, sandblast erosion test, physical characterisation, chalk, 04913.
tandards
computer, cartography, hardware, software, 02179. digital topographic information model, vendor, GIS, automated cartography, 01019. exchange format, microcomputer, commercial system, geographic information, 01021. land information system, information exchange, access, Canada, Alberta; 01018.
tanding stock
discharge, organic matter, macrophyte, USA, Idaho, Snake River; 10517.
standing wave
shallow water, sediment concentration, turbulent viscous coefficient, 04692.
standline tilt
glacier load, post glacial, sea level history, Weichselian(Late), Holocene, raised beach sequence, emergence rate, transgression, Svalbard, Spitsbergen; 05039.
Stanford Watershed Model IV
Queen's University Forecasting Model, soil plant atmospheric continuum, design flood, spillway design, reservoir design, water management, hydrosystem maintenance, flood prediction, flood warning system, stochastic model, deterministic model, equatorial lake, Sacramento Model, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416.
stanol
microalgae, prymnesiophyte, Pavlova, sterol, methyl sterol, 04837.
Stanton number
neutral stratification, roughness height, bulk transfer coefficient, saturated barley field, Dalton number, 05400.
Starlette
orbit, tide solution, satellite laser ranging, perturbations, 02097.
Starr, V.P. (1909-76)
Massachusetts Institute of Technology, angular momentum cycle, 11230.
state
GIS, natural resource, USA, Illinois; 02231.
state atlas
thematic content, physical environment, population, 05689.
state density
temperature, wind, passive falling sphere, ionization gauge, mass spectrometer, sodium lidar temperature, middle atmosphere, 08942.
State Development Plan
resource analysis, GIS, historical description, grid-referenced data, USA, Maryland; 05638.
state enterprise
cartography, Cartographia, Hungary; 03491. training, geodesy, cartography, Hungary; 03490.
state of the art timber harvest
mixed conifer forest, overland flow, erosion, forestry, sediment transport, soil loss, pipe flow, hydrograph, channel adjustment process, USA, Arizona; 09912.
static behaviour
dynamic behaviour, quantitative solution, fully saturated problem, computer program, SWANDYNE-X, 01396. dynamic behaviour, quantitative solution, semi-saturated problem, cohesion, earthquake induced failure, USA, California, San Fernando Dam; 01397.
static chamber technique
soda-lime method, carbon dioxide efflux, forest soil, 12096. spring thaw, winter freezing, subarctic fen, ombrotrophic fog, methane emission, fen, bog, swamp peatland, Canada, Quebec; 04411.
Static Cone Penetration Test
empirical correlation, liquefaction potential, 03789.
static cone penetrometer
rheological test, cone penetrometer, 03779.
static liquefaction
loose sand, liquefaction, densification, dilatation, mixture model, model, 03730.
static penetration
large diameter, borehole, instrument, in situ testing, Spain; 03787.
static stability
aggregate, marine snow, pycnocline, carbon-nitrogen ratio, organic matter, Pacific, (North); 02467. perturbation, transient atmospheric wave, zonal wind, 01899. planetary wave, climatic change, middle atmosphere, carbon dioxide, troposphere, stratosphere, 01953. vertical motion, cirrus case study, meteorology, cloud, synoptic scale system, 12463.
static stability measure
tropospheric sounding, stability measure, thermodynamic structure, Africa, (West); 13501.
static stability parameter
temperature, available potential energy, annual temperature variation, 07747.
static uniaxial compression test
clay content, soil compression, agricultural soil, Canada, Quebec; 07376.
station calibration
telemetry, data quality, hydrometric network, informatic requirement, ARGOS system, data collection, station maintenance, Benin; 06265.
station data
radiative-dynamical-photochemical model, seasonal cycle, quasi biennial oscillation, ozone, satellite data, 13650.
station height
spatial distribution, rainfall, rain gauge, topography, atmospheric circulation, Greece, Athens; 13497.
station maintenance
station calibration, telemetry, data quality, hydrometric network, informatic requirement, ARGOS system, data collection, Benin; 06265.
station measurement
temperature, salinity, dissolved oxygen, nutrient, zooplankton, sediment, metal, NERC research programme, survey station, North Sea; 11603.
station pairing
GPS, orbit relaxation software, USA, Florida; 10263.
Station Quarry Bed
Brigantian, carbonate platform, palaeogeography, basin, sea level, UK, England, Derbyshire, Millers Dale; 09412.
stationarity
quiescent upper layer, North Atlantic Deep water, rotating hydraulics, Atlantic, Faroe Bank Channel; Norwegian Sea; 02291. stream flow, representative basin, temporal flow variability, flow response, catchment, UK; 06280.

stationary disturbance
decaying disturbance, disturbance, equatorial atmosphere, disturbance modelling, 11243.
stationary eddy
streamfunction budget, budget analysis, quadrature relationship, vorticity advection, eddy maintenance, 13588.
stationary wave
general circulation model, transient forcing, linear diagnosis, 13574. Laurentide ice sheet, diabatic heating, surface albedo, continental ice volume, air sea interaction, ice albedo effect, Last Glacial Maximum, Atlantic; 03126. mean low-level wind, orographic forcing, thermal forcing, 01887. streamfunction, general circulation model, thermal forcing, low-frequency pattern, 01889. thermal forcing, asymmetric climatology, diabatic heating, general circulation model, 01869. wave response, tropical sea, sea surface temperature, general circulation model, nonlinear model, 13583.
stationary wave fluctuation
jet stream, orographic forcing, zonal mean flow, 01870.
statistical
quality control graph, radiocarbon dating, 04948.
statistical analysis
analysis of variance, suspended sediment, Argentina, Monte Hermoso Coast; 04742. coliform bacteria, fecal streptococci, membrane filtration technique, water quality monitoring, surface water quality, fecal indicator, random sampling, 01684. dolomite, Bonneterre Formation, Cambrian, Bayes formula, factor analysis, USA, Missouri; 12927. fabric, granular soil, pore volume, 03818. frequency distribution, logarithmic transformation, Monte Carlo simulation, frequency distribution bias, log transformed frequency distribution, 05109. historical data, glacier terminus, data correlation, climatic data, frontal dynamics, ablation, accumulation, long term trend, polynomial regression, glacier length, Italy, Giulie Alps; 08511. hydrochemistry, flow path, basalt formation, groundwater flow, USA, Washington, Hanford Reservation, Columbia River; Grande Ronde Basalt Formations; USA, Washington, Wanapum, Saddle Mountains; 07542. lognormal distribution, radon concentration, groundwater contamination, 07571. method of moments, Weibull distribution, method of probability weighted moments, method of maximum likelihood, low flow frequency, stream flow, frequency analysis, Australia, (South East); 06276. probabilistic model, temporal series, rainfall deficit, 00676. rainfall stimulation experiment, precipitation, target, seeding effect, Israel; 12471. sandstone, model, salt weathering, wetting-drying, tafoni weathering, Spain, Ebro Basin, Barbastro Anticline; 02708. statistical error, wet deposition, acid rain, precipitation, deposition, surface fitting algorithm, kriging, spatial analysis, 13667. stream discharge, flow variability, lake tributary, non-point source pollution, North America, Great Lakes; 01647. zinc, copper, chromium, nickel, cadmium, Gaussian distribution, wet deposition, sampling strategy, outlier detection, 04434.
statistical approach
cursive text, pattern recognition, character recognition, 02126. feature analysis, recognition, 02106. Rayleigh theory, Mie theory, ensemble averaging, backscattering, nonspherical particle, particle, 12561.
statistical area
street network, postal code, GIS, Canada; 13967.
statistical characteristic
gust, wind flow characteristic, turbulence spectrum, 11203.
statistical characteristics
sediment estimator, nutrient load estimator, surface water quality, sediment load, 06317.
statistical classification
thin line edge, outlier detection, edge detection, robust edge detection, 03321.
statistical comparison
geostrophic wind estimate, surface wind; Froude number, sea level pressure, pressure reduction, 12416.
statistical correlation
filtering technique, cloud clearing procedure, Infrared Radiation Sounder, 05611.
statistical distribution
design flood, expert system, flood frequency analysis, return period, exceedence probability, 09793.
statistical dynamical approach
subgrid scale surface, land surface heterogeneity, climate model, soil plant atmosphere system, 07706.
statistical dynamical model
climate model, trace gas, transport, tropopause gap, ozone, stratosphere, 12577. deep ocean temperature, ocean surface temperature, ocean temperature, climate, Cretaceous, energy balance model, 06486.
statistical error
wet deposition, acid rain, precipitation, deposition, surface fitting algorithm, kriging, spatial analysis, statistical analysis, 13667.
statistical evaluation
engineering property, clay, undrained shear strength, plasticity index, liquidity index, plastic limit, over consolidated ratio, lacustrian clay, Canada; 02543. thematic map accuracy, land use, land cover mapping, database development, GIS, USA, Florida; 05645.
statistical forecasting predictability
weather forecasting, surface pressure, air temperature, circulation index, geomagnetic disturbance index, 06515.
statistical framework
diagnostic tool, random observational error, model performance evaluation, data error, observational error, Monte Carlo simulation, value bias, random error, 08324.
statistical graphics
GIS, querying, exploratory statistical analysis, 03365.
statistical hydrology
regression analysis, maximum average vagueness criterion, prediction vagueness criterion, soil electrical resistivity, hydraulic permeability, fuzzy regression, 04019.
statistical inference
Box Cox Power transformation, probability model, acid rain, alkalinity, lake alkalinity, pH alkalinity relationship, probability distribution, Canada; 05187.
statistical information system
information system, landuse, 09138.
statistical map
cartographic design, design, locational map, 13861. computerised database, US Census Bureau, TIGER, USA; 03384. map, disease, health care, 04583.
statistical method
disease atlas mapping, cancer registry, 10356. emission control, air quality, urban ozone, ozone trend, robust statistical method, USA; 12513. in situ testing, paper review, piezocone, 13044. jacknife, bootstrap, indicator power, saprobity index, Pantle and Buck index, surface water quality, biological index, water quality index, 05201. land resource survey, soil resource survey, survey method, geostatistics, 07330. mapping, work method, physical geography, field method, laboratory method, chemical investigation, 08319. numerical modelling, rainfall anomaly, El Nino, tropical climate, climate prediction, general circulation, 10157. parameter estimation, Weibull distribution, Gumbel distribution, Frechet distribution, data analysis, bias error, maximum likelihood estimation, 13308. parameter estimator variance, parameter estimator covariance, maximum entropy estimator, Pearson type-3 distribution, flood, Monte Carlo simulation, 09779. parameter uncertainty, conditional probability region, hydrological model, nonlinearity, response surface plot, 05111. peak magnitude, estimate bias, estimate variance, quantile estimate, partial duration series, maximum likelihood estimate, hydrological variable, Poisson distribution, 09785. periodicity, stream flow data, rainfall data, hydrological series, data analysis, Turkey; Saudi Arabia; USA; 13307. probability plotting position, Cunnane formula, Gringorten formula, EVI distribution, unbiased plotting positions, general extreme value distribution, Arnell et al. formula, In na formula, 10968. probability plotting position, Weibull rule, unbiased plotting position formula, Cunnane formula, plotting position formula, historical flood, 10991. simulation, prediction, drought, sea surface temperature, global climate model, 13622. soil mapping, boundary calculation, soil boundary, USA, New Mexico; 12046. spatial trend, hydrological data, large-scale spatial trend, 08641. two dimensional soil property interpolation, sampling spacing, cone penetration test, site characterisation, Canada, British Columbia, Sea Island, Vancouver International Airport; 03775.
statistical model
background air pollution, frequency distribution, multimodal distribution, 13743. teaching, physical geography, model, 00202. urban model, sunshine, climate, Mexico, Mexico City; 09982.
statistical moment
convective boundary layer, mixed layer, large eddy simulation, penetration convention, similarity scale, universal profile, 10017.
statistical periodicity
sea level pressure, pressure, statistical trend, Mediterranean; 07675.
statistical procedure
quality control, groundwater monitoring, waste disposal, water quality management, 11109.
statistical representation
sub grid variation, mixing length model, boundary layer, gradient transfer model, large eddy simulation, 10022.
statistical significance test
transition matrix, Markov chain, Monte Carlo simulation, 09960.
statistical significant
greenhouse effect, climate model, climate record, trend, USA; 12483.
statistical simulation
turbulent motion, heavy particle, particle dispersion, Lagrangian simulation, 13511.
statistical summary
climatological study, nocturnal boundary layer, boundary layer, time-height structure, 13509.
statistical synoptic regression scheme
tropical cyclone, cyclone position, forecasting skill, climatological persistence, Australia; 08982.
statistical technique
automated survey measurement, GIS, land ownership, cadastral data, 07958. climate data application, equatorial area, Asia, (Southeast); 07619. image analysis, computer mapping, resource exploration, petroleum exploration, 12701. image classification, waveband, surface cover, 12629. multivariate strategy, Tertiary, grain size distribution, sediment transport, Bangladesh, Bengal Basin; 01371.
statistical test
probability distribution, Pleistocene(Late), climatic record, model validation, SPECMAP record, 09536.
statistical trend
statistical periodicity, sea level pressure, pressure, Mediterranean; 07675.
statistical trend analysis
total ozone, ozone trend, regional variation, Northern Hemisphere; 04349.
statistical trend anlysis
mineralogy, Precambrian basement, sediment, remote geophysics, Egypt, Central Eastern Desert; 03411.
statistics
computational geography, GIS, spatial analysis technology, 05628. population, census, microdata, GIS, 04685. spatial analysis, time series, quantitative analysis, geography, 06791.
Statistics Canada
boundary file, census tract, street network file, postal code, Canada; 01031. Circular Map Accuracy Standard, positional accuracy, data quality, digital geographical product, 01022. cross-sectoral analysis, environmental condition, GIS, Canada; 01032. digital image analysis, agricultural census, crop monitoring, remote sensing, Canada, Alberta; Saskatchewan; Canada, Manitoba; 01117. geographical information holdings, street network, census data, database design, Canada; 01026. street network, transportation planning, data graphics, census data, vehicle dispatch, Canada; 01159.
statistics of extreme
Hershfield coefficient, quantitative hydrology, sliding maxima, maxima,

05110.
statocumulus
cumulus, buoyancy reversal, cloud top entrainment, entrainment instability, 07781.
statoscope
laser range measurement, GPS, onboard sensor data, ground control, aerial triangulation, 03290.
statospore
palaeolimnology, lake, algae, cyst taxonomy, stomatocyst, Canada, Ontario; 09328.
Ste. Genevieve Limestone
porosity, Mississippian, packstone, cementation, diagenesis, neomorphism, St. Louis Limestone, USA, Kansas, Gray County; 09316.
steady flow
uniform flow, channel hydraulics, main channel, flood plain, shear stress distribution, discharge calculation method, 01662. unsteady flow, pore water velocity, water exchange, immobile water, solute transport, unsaturated sand column, soil water content, 08765.
steady state
colluvium, erosion rate, equilibrium, hillslope erosion, sediment yield, storage, USA, Oregon, Coast Range; 13053. forcing source, wave activity flux, linear wave, nonlinear wave, wave, 11237.
steady state flow
pumping test analysis, groundwater flow, finite element method, discharge drawdown relationship, rectangular confined aquifer, 11053.
steady state fluid flow
aquifer parameter, groundwater flow, hydraulic conductivity, specific storage, heterogeneity, transient fluid flow, 01716.
steady state infiltration
infiltration rate, infiltrometer, permeameter, hydraulic conductivity, wetting front, soil property, vadose zone, groundwater flow, 00583. rainfall-runoff model, spatial variability, infiltration, rangeland catchment, geostatistical technique, 01705.
steady state method
quasi steady problem, freezing soil, growth experiment, ice layer, freezing test, segregated ice, 07283.
steady state seasonal cycle
seasonal cycle, snowline, ice sheet, climate change, nonlinear climate model, seasonal energy balance, climate model, 08422.
steady state solution
bottom friction, velocity, Poisson equation, friction, convolution, hydrodynamics, 10489.
steam flow
forest renewal, hydrology, runoff, air pollution, water budget, storm hydrograph, Czechoslovakia, Beskydy Mountains; 09915.
steel mill
vanadium, fuel oil combustion, aerosol, chemical mass balance, motor vehicle emission, sulphate, factor analysis multiple regression model, source apportionment, suspended particulate matter, refuse incineration, soil, sea salt, Japan, Tokyo; 05501.
steep mountain
large bed element, energy dissipation mechanism, stream, channel, 05989.
steep pasture
solar radiation, shadow, energy budget, effective horizon, 07652.
steep reinforced slope
reinforced soil slope, reinforcement bond, bond allowance, design chart, 03732.
steep slope
field experiment, contour cropping, soil erosion, cropping system, runoff, soil loss, India, Burnihat; 06236. grain fluid mixture, bedload transport capacity, slurry flow, 05990. reinforced slope, slope, design chart, geotextile, polymer grid, revised design chart, 09517. vegetation, debris slide, forested slope, tree root, landslide, slope stability, Japan; 06040. water supply, landform, soil, Cameroon, Mandara Mountains; 00224.
steep terrain
drainage basin, forested terrain, rainfall impulse tracking, runoff routing, data logger, storm hyetograph, tipping bucket rain gauge, headwater piezometer, stream flow gauging, lag time, unit area discharge, 08673.
steepland
accelerated runoff, soil erosion, agroforestry system, erosion control, arable tropical steepland, 06217. logging induced soil erosion, fishery industry, tourism industry, erosion monetizing, sedimentation cost, 06059. road design, secondary road planning, erosion, sedimentation, 06058. sediment budget, erosion, gullying, sheetwash, topsoil, sedimentation, Tanzania, Shinyanga; 07033. topography, logging, land use control, sedimentation, soil erosion, Fiji; 06246.
steepland area
prediction policy, prevention policy, forest landing failure, rainfall area, exotic forest harvesting, New Zealand; 06065.
Stefan problem
ablation, thawing, glacier growth, glacier decay, ice formation, thermodynamics, melting, precipitation, freezing, soil, 11082. ice bearing permafrost, palaeotemperature model, time lag, freezing rate, thawing rate, permafrost thickness, palaeoclimate, USSR, East Siberia; USA, Alaska, Barrow; USA, Alaska, Prudhoe Bay; 09602.
Stefan solution
thaw, ice rich soil, radiocarbon date, forest fire, thermokarst lake, Holocene, talik profile, Canada, Yukon Territory, Mayo; 06196.
Stefan's equation
permafrost, seasonal growth band, pingo ice, pingo growth, 05040.
stellar evolution
solar luminosity, entropy, ice albedo feedback, maximum entropy production, climate model, faint young sun paradox, 13579.
stellar scintillation analysis
turbulent layer, horizontal wind fluctuation, wind fluctuation, buoyancy range, 05283.
stem
leaf sheath, chaff, leaf blade, crop residue decomposition, wheat, residue component, 00405.
stem flow
forest catchment, soil water chemistry, stream acidity, hydrogen, sulphate, chloride, sodium, crown leaching, interception, podsolic soil, gleyed soil, hydrochemical flux, throughfall, UK, Scotland; 11086. forest hydrology, precipitation, evaporation, spruce forest, interception, throughfall, UK, Scotland, Balquhidder; 05116. interception, canopy storage capacity, storage capacity, forest thinning, rainfall partitioning, forest hydrology, 00512. nitrogen flux, spruce forest, dissolved inorganic nitrogen, soil water chemistry, forest soil, inorganic nitrogen, nitrate leaching, nitrogen loading, surface water quality, bulk precipitation, throughfall, UK, Wales, Beddgelert; Plynlimon; UK, England, Cumbria, Kershope; 11098. single factor simulation experiment, leaf area index, branch configuration, rainfall intensity, interception, canopy, 09782. soil moisture, evapotranspiration, drought cycle, water balance, forest hydrology, transpiration, eucalypt forest, plant water use, cork oak forest, interception, Portugal, Alentejo, Odemira; 09914. sulphur, soil solution chemistry, forest hydrology, organic sulphur, throughfall, 07445. throughfall, canopy effect, infiltration, water chemistry, preferential flow, hillslope hydrology, flow path, stream flow chemistry, acidification, soil water through flow, UK, Scotland, Loch Ard; Allt a'Mharcaidh; 13316.
stem flow measurement
evapotranspiration, water balance, evaporation, transpiration, Bowen ratio method, cotton crop, microlysimeter, leaf area, plant density, soil water, energy balance, USA, Texas, Lubbock; 05119.
STEM II model
transport model, gas phase chemistry model, pollution transport, ozone, Japan; 11314.
STEM-II
photochemical oxidant model, diagnostic analysis, mesoscale acid deposition, storm, long range transport, acid rain, acid deposition, 12514.
stemflow
interception loss, rainfall redistribution, semi-arid region, throughfall, Mexico; 02833. interception, rainfall partitioning, forest hydrology, throughfall measurement, measurement method, rainfall angle, throughfall, Australia; 00509. rainfall angle, rainfall partitioning, forest hydrology, Australia; 00510. soil moisture heterogeneity, soil water movement, forest hydrology, spatial variability, interception, temporal variability, hillslope hydrology, 02960. soil throughflow, stream chemistry, hydrological budget, forest catchment, Norway spruce, sitka spruce, streamflow, surface water quality, throughfall, 02949. spatial variability, atmospheric deposition, dry deposition, net deposition, bulk precipitation, acidification, eutrophication, forest hydrology, throughfall, 01633.
step mountain
envelope orography, mountain blocking, lee cyclogenesis, cyclogenesis, China, Altai Sayan; 08963.
step mountain coordinate
turbulence closure model, eta model, 10095.
step pool river
mountain basin, sediment deposition, sediment transport, bedload, 08717.
step wise analysis
topographic feature, computer vision system, object detection, 07984.
Stephanian
alluvial fan, tectonic activity, palynology, Spain, Cantabrian Mountains, Leon Province; 10615. Variscan basin, volcanic control, tectonic control, lacustrine sedimentation, alluvial sedimentation, sedimentation, Spain, Catalonia, Malpas-Sort Basin; 09419.
Stephens Subgroup
backarc basin, Permian, Triassic, island arc, mass flow apron, New Zealand, Southland; 01301.
steppe
moisture, salinisation, sodium, vegetation, USSR, Kestanay Oblast, Turgay Plateau; 05101. SPOT, desertification, Algeria; 02193.
steppe environment
post depositional weathering, pluvial period, loess, loess like deposit, palaeoclimatic significance, Pleistocene(Upper), dust, France; Italy; Africa, (North); 07216.
steppe landscape
caesium-137, soil erosion, semi arid region, wind driven redistribution, net erosion, sagebrush, USA, Wyoming; 10840.
steppe pasture resource
space photography, classification, pasture type, 03427.
steppe soil
humification, organic residue, microbiological process, humus, USSR, Transbaikalia; 12116. morphology, x-ray diffraction analysis, USSR, Kazakhstan, Tersek Plateau; 01610. soil reclamation, desertification, soil degradation, China; 12120.
steppe vegetation
maquis, garrigue, climatic condition, Quaternary(Late), multivariate analysis, palynological data, phytosociological data, Tenagi Philippon core, interglacial, evergreen oak forest, Greece; 10758. savanna grassland, lake level decline, seasonal climatic change, salt lake, India, Thar Desert; 06108. tundra, palaeoclimate, vegetation, Quaternary environment, cold stage, China; 08491.
stepped bedrock topography
ice loading, ice unloading, karst, glaciated dolomite, Silurian aquifer, sinkhole, limestone pavement, ice scour, USA, Wisconsin, Door County; 04924.
stepwise time series
regression procedure, demand model, water demand, autoregressive integrated moving average, Box Jenkins model, 07597.
stereo camera
meridional plane, rotation, translation, 07976.
stereo coverage
Large Format Camera, archaeological study, Jordan; Lebanon; Israel; 08135.
stereo disparity image
ground truth scene segmentation, scene registration, aerial image analysis, automated interpretation, 06713.

stereo display
tropical forest, multisensor, Costa Rica, Braulio Carrillo National Park; 04618.
stereo image
SAR, map resolution, elevation map, Italy, Panamint Valley; 09178. three dimensional reconstruction, image extraction system, 11463.
stereo image injection
digital terrain model, photogrammetry, GIS, aerial triangulation, 07931.
stereo imagery
photogrammetric reduction, SPOT imagery, 07938.
stereo matching
random dot stereogram, computer stereo vision, human binocular vision, 07913.
stereo pair
DEM, automated terrain extraction, SPOT three dimensional data, 10292.
stereo SPOT imagery
Ordnance Survey, map compilation, DTM production, topographic line mapping, Yemen; 10359.
stereo system
relative angle, calibration, 02130.
stereodigitiser
GIS, photogrammetric data capture system, 12602.
stereophotogrammetry
human body, surface motion, breathing, 02129. pattern recognition, photogrammetry, 04532.
stereoplotter
anaglyph method, videotechnique, 07934.
stereopsis
camera geometry, robot vision, 03311.
stereoscopic activity
testing procedure, photogrammetrists recruitment, training, 06708.
stereoscopic capability
SPOT, borehole siting, landslide mapping, New Caledonia; Bolivia; 05715.
stereoscopic coverage
planning, market, SPOT, spectral band, 02076. topographic data, mapping, Landsat, satellite monitoring, 03273.
stereoscopic imagery
correlation, data extraction, digital terrain model, 07991.
stereoscopic map
colour steroscopic effect, cartography, 04579.
stereoscopic model
nadir shot, numerical alignment, photogram, 11442.
stereoscopic observation
aurora stereo observations, luminosity, Antarctica; 03001.
stereoscopic photography
stereozoom transfer scope, photogrammetry, three-dimensional coordinate, GIS, 13772.
stereoscopic SPOT image
soil mapping, SPOT, geological mapping, Indonesia, Java, Wonosari; 01099.
stereozoom transfer scope
photogrammetry, three-dimensional coordinate, GIS, stereoscopic photography, 13772.
sterol
El Nino, fatty acid, lipid, USA, California, Santa Barbara Basin; 07094. fatty acid, anoxic pond, salt pond, suspended particle, lipid, particulate matter, 06970. fatty acid, microbial activity, zooplankton, organic matter, faecal pellet, lipid transformation, 12969. fatty acid, microbial, floc, faecal pellet, coccolith, Black Sea; 11795. hopane, phytanyl thiophene, isoprenoid, evaporite, salt pond, bacteria, lactone, Spain, Alacante, Santa Pola; 07098. methyl sterol, stanol, microalgae, prymnesiophyte, Pavlova, 04837.
sterol content
humic acid, fulvic acid, organic wall, microfossil, organic substance, Holocene sediment, marine level, dinoflagellate cyst, pollen grain, sediment weathering, lacustrine level, chlorococcal algae, Typhaceae pollen, Brazil, Rio de Janeiro, Guarapina Lagoon; 08458.
Stevenson screen
unaspirated screen, temperature measurement, 01805.
Stewart River glacial unit
relative dating, moraine, boulder weathering, moraine morphometrics, glacial advance, Salmon Lake glacial unit, relative age data, USA, Alaska, Kigluaik Mountains; 04993.
Steyne Wood Clay
raised beach, Bembridge Raised Beach, Lane End deposit, Priory Bay deposit, Boxgrove deposit, Earnley deposit, Stone deposit, West Wittering deposit, deposit correlation, Pleistocene, sea level, neotectonic history, UK, England, Isle of Wight, Bembridge; Solent; 02679.
stiffness
soil stiffness, lateral stress, in situ soil test, 03778.
stiffness property
numerical analysis, oil sand, nonisothermal condition, pore fluid pressure, finite element, undrained heating, thermal consolidation, Canada, Alberta, Athabasca; 10699.
Stilo Capo d'Orlando Formation
Miocene, calcite, kaolinite, compaction, cementation, authigenic mineral, Italy, Calabria; Sicily; 05803.
Stirling number
liquid water content, droplet spectrum, coagulation, spatially inhomogeneous system, Bernoulli test, 03109.
stirred flow chamber
clay mineral, vermiculite, montmorillonite, potassium, calcium, potassium calcium exchange, adsorption kinetics, USA, Texas, Llano; Arizona; 07395. ion exchange kinetics, kinetic model, adsorption kinetics, 07394.
stochastic analysis
laminated reservoir deposit, long term erosion rate, sediment yield, erosion rate, probability distribution, event sediment yield, Israel, Negev Desert; 02741.
stochastic aspect
climate, hydrology, landform evolution, debris flow, climatic geomorphology, hydrogeomorphology, hillslope evolution, sheetwash, mass wasting, slope, 11892.
stochastic boundary value problem
domain recharge, boundary element solution, groundwater flow, random boundary condition, recharge, 13413.
stochastic coherence
climate model, attractor, temperature field fluctuation, 07752.
stochastic conceptual model
catchment model, unit hydrograph, rainfall-runoff process, Nash-Dooge linear reservoir cascade, streamflow generation, evapotranspiration loss, 02842.
stochastic difference model
weather prediction, barotropic stochastic difference model, empirical orthogonal function, forecasting, prediction verification, 10053.
stochastic differential equation model
erratic infiltration, infiltration, diffusivity, hysteretic soil, unsaturated flow, groundwater flow, 00582.
stochastic inverse modelling
groundwater flow, head distribution, aquifer characteristic, transmissivity, recharge, inverse problem, regional head distribution, hydraulic parameter, Portugal, Rio-Maior Aquifer; 05223.
stochastic landslide occurrence
landslide, sediment yield, hillslope stability simulation model, landslide prediction, USA, Washington State; 06030.
stochastic method
soil water balance, water balance model, crop characteristic, soil charactersitic, simulation model, tensiometer, neutron probe, water storage, root growth, actual evapotranspiration, drainage, lysimeter, evapotranspiration, deterministic method, Ivory Coast, Bouake; 12236.
stochastic model
abyssal hill, seafloor topography, ridge process, seafloor model, SeaMARC II, bathymetry, sea beam data, Pacific, East Pacific Rise; 09506. convective precipitation, rain gauge site, rainfall duration, extreme precipitation event, rainfall intensity, hyetograph, Spain, Valencia, Alicante; 05113. deterministic model, equatorial lake, Sacramento Model, Stanford Watershed Model IV, Queen's University Forecasting Model, soil plant atmospheric continuum, design flood, spillway design, reservoir design, water management, hydrosystem maintenance, flood prediction, flood warning system, Africa, Nile River; Canada, Ontario, Big Deer Creek River Basin; Tanzania, Rufiji River Basin; 06416. frequency wavenumber spectrum, rainfield, 10097. groundwater flow, concentration data, natural gradient tracer test, solute transport, tracer test, 09891. groundwater flow, heterogeneous aquifer, unsteady head field, water table response, head variance, infiltration, 09892. observation network, theoretical hydrology, data acquisition, rainfall runoff transformation method, drought persistence, Africa, (West); 06261. photogrammetric block adjustment, multiple outlier, 07927. rainfall runoff model, Poisson model, Neyman Scott model, runoff model, rainfall point process, 09802. risk methodology, peak flow, flood flow, low flow, stream flow modelling, reservoir planning, 08731. soil salinity, herbaceous cover, kriging, interpolation, GIS, Israel; Botswana; 03364. streamflow, auto-regressive moving average, maximum likelihood method, minimum mean square error method, flow forecasting, India, Malaprabha River; Hemavathy River; India, Couvery River; 02840.
stochastic modelling
Box-Jenkins model, suspended sediment, transfer-function/noise model, sediment concentration, 04045.
stochastic process
digital image matching, Langevin, computer vision, 07987.
stochastic stream flow
interbasin transfer system, reservoir operation, water resource management, optimal operation, multi unit reservoir system, China; 11128.
stochastic supervision
logistic-normal stochastic supervision, discriminant analysis, 04514.
stochastically classified
discriminant analysis, sample, 02118.
stochastically perturbed surface
energy balance model, white noise, temperature, 07756.
stocking rate
soil physical property, trampling, animal, USA, (Southeast); 05061.
Stockport Formation
Newer Drift, Iron Bridge gorge, subglacial channel, Lightmoor Channel, Chelford interstadial, Shrewsbury Formation, glacial deposit, Four Ashes, type site, Devensian stage, UK, England, West Midlands; Cheshire Plain; 13135.
stockwerk
thrust fault imbrication, kinetostratigraphical unit, glaciodynamic structure, Main Stationary Line, Bovbjerg profile, Holsteinian marine clay, Saalian till, sandur, Denmark, Jutland; 00298.
stoichiometric composition
aquifer, backscattering imaging, cement, mixing zone, dolomitisation, calcium, Barbados; 11740.
stoichiometry
dolomitisation, hydrothermal bomb, carbonate, 01321.
Stoke flow
dynamo theory, streamline pattern, chaotic streamline, fluid flow, vortex structure, 10490.
Stokes range
settling velocity, particle, wind field, Reynolds number region, 13481.
Stokes' wave theory
seabed, sand, gravel, sediment transport, wave theory, UK, Isle of Man; 02352.
stomatal conductance
canopy evaporation, canopy temperature, soil evaporation, vapour pressure deficit, crop weather model, carbon dioxide, plant growth, photosynthesis, partitioning, 05280. leaf water potential, surface energy balance, temperate grassland, eddy correlation measurement, 01847. Penman-Monteith model, Shuttleworth-Wallace model, dryland crop, diffusion porometer, infrared gas analyser, leaf area index, canopy conductance, evapotranspiration, transpiration, millet, Niger, Sadore;

01640. transpiration, leaf energy balance, leaf temperature, 02995.
stomatal conductance characteristic
McNaughton-Jarvis parameter, understorey evapotranspiration, evapotranspiration, aerodynamic characteristic, forest hydrology, forest floor evaporation, understorey radiation regime, 02836.
stomatal resistance
aerosol, cloud droplet, deposition, hydrochloric acid, ammonia, pollution, sulphur dioxide, ozone, nitric acid, UK, England, Kielder Forest; 03144. surface energy budget, forest, mesoscale meteorology, albedo, roughness, 03100.
stomatal response
humidity, Bowen ratio technique, sugarcane, cultivated sugarcane, transpiration, 11180.
stomatocyst
statospore, palaeolimnology, lake, algae, cyst taxonomy, Canada, Ontario; 09328.
stone count
fabric analysis, glacial stratigraphy, glaciogenic deposit, ice tongue, till, diamict, USA, New Hampshire, Gorham, Peabody Valley; 11944. transport distance, geophysical method, indicator tracing, field method, glacial indicator, till survey, ice flow, till fabric, Finland; 07237.
stone counting
radiocarbon dating, pedostratigraphy, lithostratigraphy, Weichselian moraine, Warthe stage moraine, morphostratigraphy, landform evolution, Pleistocene, pollen analysis, Germany, Schlesweg-Holstein, Schwansen; 13144.
stone cover
semiarid hillslope, gravel, hillslope hydrology, vegetation cover, rainsplash, overland flow, organic matter, rainfall-runoff modelling, infiltration, USA, Arizona; 13321.
stone decay
granite weathering, urban environment, pollution, Brazil, Rio de Janeiro; 10820.
Stone deposit
West Wittering deposit, deposit correlation, Pleistocene, sea level, neotectonic history, Steyne Wood Clay, raised beach, Bembridge Raised Beach, Lane End deposit, Priory Bay deposit, Boxgrove deposit, Earnley deposit, UK, England, Isle of Wight, Bembridge; Solent; 02679.
stone deterioration
pollutant, tombstone, marble, weathering, industrial environment, Australia, New South Wales, Port Kembla; 12023.
stone line
landform development, landscape development, soil moisture balance, forest, savanna, ecosystem pattern, Quaternary, climatic change, Brazil; 05999. meandering, braided river, sheetflood, pedology, climatic oscillation, Ruzizi Plain Deposit, calcrete, ferricrete, Zaire, Lake Tanganyika; Burundi, Lake Tanganyika; Rwanda, Lake Tanganyika; 06106. nodule, pebble, sediment structure, desilicification, soil, Brazil, Amazonia; 02301. palaeoenvironmental indicator, catenary approach, gravel layer, tropical landscape, landscape morphodynamics, forest savanna zone, Sierra Leone; 08345.
stone stripe
Mima type mound, pocket gopher, tunneling, weathering, colluvial dynamics, USA, Washington, Columbia Plateau; 07186.
stone tablets
geomorphology, theoretical framework, sea level change, complex response, tectono climatic interaction, 07128.
stone tool
lithic tool, hunting, gathering, pictograph, Pleistocene, human population, megafauna, Brazil; 13094.
stoneline
headward extension, prehistoric gullying, Recent, gullying, gully growth, colluvium, Zimbabwe, St. Michaels Mission; 08552. reference dating, cyclic feature, geomorphology, pedology, Brazil; 07424.
stopped elution method
gas chromatography, diffusion coefficient, organic substance, high performance liquid chromatography, 09732.
storage
alluvial fan, debris production, Holocene, slope stratigraphy, slope lowering rate, denudation rate, quantitative study, sediment transport, mountain drainage basin, Late Glacial, long term sediment transport, Japan, Central Japan, Matsumoto Basin; 11861. carbon, nitrogen, organic horizon, UK, Scotland; 02761. cartographic data, positional data, data capture, 13863. librarian, academic, cartographic material, digital data, 04576. loss, rainfall, runoff, soil water storage, evaporation, transpiration, drainage, water balance study, 12144. routing model, soil moisture storage capacity, return period, basin discharge, rainfall-runoff relation, probability theory, 04040. runoff modelling, snowmelt runoff, infiltration, frozen soil, variable source area model, lake water, discharge hydrograph, snowmelt temperature index model, drainage network, infiltrability index, Canada, Quebec; 01746. steady state, colluvium, erosion rate, equilibrium, hillslope erosion, sediment yield, USA, Oregon, Coast Range; 13053. vegetation canopy, temperature variation, interception loss, 01632.
storage capacity
canopy storage, epiphyte, evaporation, montane tropical rainforest, rainfall interception, interception, rainforest, 07455. forest thinning, rainfall partitioning, forest hydrology, stem flow, interception, canopy storage capacity, 00512. infiltration, bedrock, leakage, groundwater recharge, ephemeral stream, dam, river regulation, resource management, Cyprus; 09932. litter layer, pine forest, delayed surface runoff, detention storage, surface runoff, 07469. rainforest, epiphyte cover, rainfall interception, montane tropical rainforest, interception, canopy storage, Colombia; 07454. reservoir capacity, input output characteristic, partial flow regulation, reservoir design, 05189.
storage coefficient
groundwater flow, leakage coefficient, water chemistry, recharge, discharge drawdown relationship, aquifer characteristic, hydrogeology, transmissivity, USA, Florida; 11117. groundwater flux, water balance equation, volcanic basin, thermal groundwater, Mexico, Baja California Sur; San Luis Potosi; 11048. hydrodynamic model, storage effect, hydraulic head, salinity, water transmissivity, solute transport, groundwater flow, environmental tracer, model calibration, aquitard storage, France, Paris Basin, Dogger Aquifer; 09855. specific yield, source-sink function, water table elevation, groundwater flow model, regional groundwater flow, lumped model, deterministic model, probability model, hydraulic conductivity, USA, California, Owens Valley; 04125. transmissivity, specific yield, discharge drawdown relationship, groundwater management, multiple aquifer system, karst aquifer, groundwater flow model, conjunctive management, China, Taiyuan City; 11129.
storage control
drift deposit, groundwater recharge, chalk aquifer, hydrogeology, hydrochemistry, transmissivity control, nitrate, tritium, denitrification, UK, England, Norfolk; 07539.
storage discharge relationship
snow covered mountain catchment, water yield model, soil water balance, overland flow, base flow, total runoff, soil storage, Iran; 05133.
storage effect
hydraulic head, salinity, water transmissivity, solute transport, groundwater flow, environmental tracer, model calibration, aquitard storage, storage coefficient, hydrodynamic model, France, Paris Basin, Dogger Aquifer; 09855.
storage facility
water resource management, surface water, rainfall, India; 08804.
storage function model
large scale basin, mountain basin, rainfall distribution, runoff prediction, distributed model, radar, Japan, Kusaki-dam Basin; 08688.
storage process
contaminant migration, fracture matrix model, advection, diffusion, remedial action, risk analysis, groundwater contamination, transport model, 09905.
storage reservoir
inflow hydrograph, reservoir volume, inflow rate, fuzzy inference, reservoir operation, expert system, water resource management, 09944.
storage structure
geographical resolution, network access, management issue, labour market analysis, 01045.
storage tank
GIS, site change monitoring, gasoline station, USA; 06933.
storage yield design
arid area, semi arid area, reservoir management, water rationing, Gould probability matrix method, reservoir design, spill probability, failure probability, 06404.
storage yield model
institutional arrangement, environmental consideration, mathematical model, water demand, water supply, regional water resource, large scale water resources planning, water resources planning, North Atlantic Regional Water Resources Study, 05255.
storativity
longitudinal dispersivity, groundwater flow, transient flow, flow direction, velocity fluctuation, solution dispersivity, transverse dispersivity, 08782. water balance equation, water level response, groundwater recharge, neutron probe measurement, saturated zone, unsaturated zone, soil matrix flow, preferred pathway, saturated volume fluctuation, recharge, South Africa, Karoo, Dewetsdorp; De Aar; 11055.
storativity perturbation vector
heterogeneous aquifer, perturbation approach, groundwater flow model, hydraulic head variability, transmissivity perturbation vector, 09864.
store carbon
global production, decay, radiocarbon, Holocene, coastal wetland, 02590.
storm
air-sea interaction, precipitation, snow, rain, melting, refreezing, terminal velocity, Canada, Nova Scotia; 01927. anoxia, basin floor, laminated sediment, coccolith, particle flux, bloom, Black Sea; 00155. anthropogenic response, rescue operation, coastal planning, regional planning, Europe, (Northwest); 13498. Appalachian Foreland Basin, siliciclastic sediment, carbonate sediment, shelf sediment, Silurian, sea level, USA, Pennsylvania; 07042. baroclinic zone, jet streak, cyclogenesis, 01906. beach profile, coastal process, structure, erosion, scour, 01254. bottom stress, Grant-Madsen model, sediment movement, current, continental shelf, Atlantic, Mid-Atlantic Bight; Georges Bank; Canada; 00073. climate, temperature, summer, Atlantic, South Georgia, Royal Bay; King Edward Point (Grytviken); Atlantic, South Georgia, Salvesen Range; 00712. coastal engineering, beach restoration, geomorphic feature, beach, 07029. continental margin, sediment transport, suspended sediment, water depth, current, benthic storm, Atlantic, Georges Bank; Mid-Atlantic Bight; 00067. continental shelf, current data, bedload, suspended load, bottom sediment, Spain, River Ebro; 05846. continental shelf, sand ridge, wave, sediment transport, infragravity wave, Atlantic, Scotian Shelf, Sable Island Bank; 08178. Cretaceous, sandbody, basin, oceanic crust, tectonic history, Atlantic, Grand Banks; Bay of Biscay; 01302. current, sand ridge, sandstone, American Interior Seaway, Wall Creek Member, Frontier Formation, USA, Wyoming, Powder River Basin; 08217. cyclic fluctuation, sedimentation, Proterozoic, epeiric sea, tidal rhythm, India; 00112. cyclone, intraseasonal oscillation, monsoon, INSAT satellite measurement, monsoon failure, tropical storm, Asia; 12335. cyclone, rapidly intensifying cyclone, bomb, air-sea interaction, 00747. drought, renewable energy source, water resource, reforestation, climate change, global warming, carbon dioxide, greenhouse gas, agriculture, 05460. dry deposition, sodium, potassium, magnesium, calcium, chloride, sulphate, pine needle, sea salt, marine aerosol, Sweden; 03219. ebb channel, sedimentation, mudflat, intertidal sedimentation, channel geometry, Korea(South), Inchon; 04738. eddy transport, tropopause level jet, deep moist convection, thunderstorm, 04321. emission, long range transport, acid deposition, nitrate, sulphate, wet deposition, Japan; 05498. estuary, anthropogenic event, land clearance, sedimentation rate, historical record, USA, Maryland, Chesapeake Bay; 04733. eutrophic, sedimentation, nutrient, nitrogen, estuary, pycnocline, Japan, Tokyo Bay; 02334. fine mesh simulation, great storm(16 October 1987), dynamical aspects, UK; 13599. finite element, floodplain, inundation zone, Germany, River Fulda; 02314. focusing, radioactive dating, sedimentation rate, lake sediment, sediment water interface, USA,

Great Lakes, Lake Michigan; 11664. front, wave, Canada, British Columbia; 01181. granulometry, temporal variability, core, wave disturbance, larvae, Ireland, Galway Bay; 03644. hurricane, reworking, turbidite, tempestite, shelf, siliciclastic sequence, 11688. lake effect, snowstorm, boundary layer stability, humidity, wind speed, USA, Lake Michigan; 01821. long range transport, acid rain, acid deposition, STEM-II, photochemical oxidant model, diagnostic analysis, mesoscale acid deposition, 12514. mesoscale process, synoptic scale process, coastal-shelf circulation, coastal physical oceanography, air sea interaction, shelf frontogenesis, stable layer, USA; 10044. microwave evaluation, rain area, rain rate, marine wind, wind speed, October 1987 storm, great storm, UK; 07642. misocyclone, boundary layer, gust front, momentum transport, kinetic energy transport, microburst, 03103. nearshore, infragravity wave, edge wave, wave, morphological change, bar, Denmark; 02343. numerical weather prediction, UK, England; 00770. perception, natural risk, shoreline defence, 13482. precipitation estimate, rainfall rate, Hurricane Debby, thermodynamic field, convective instability, moisture field, 10093. prediction model, forecasting, spinup problem, latent heating, precipitation rate, divergent wind, frontal zone, diabatic initialisation, regional finite element model, satellite data, Canada; 10102. pressure, temperature, humidity, wind, electric field, radiosonde, balloon sounding, observation, 01803. rain fall, raingauge, deterministic chaos, USA, Massachusetts, Cambridge; 04319. rain gauge network, rainfall, intense point rainfall, UK, England, Thames Valley; 08848. rain, melting phase, ice sphere, albedo, extinction coefficient, microwave radiative transfer, radar, radiometer, microwave radiometer, 04219. rain-snow boundary, melting snow, temperature, low pressure centre, winter, 13502. rainfall frequency, heavy rainfall, UK, England; 09984. rainfall runoff, spatial variation, rainfall intensity, 08972. rainfall variation, thunder, tropical climate, Indonesia, Jakarta; 10003. recording station, hyetograph, rainfall event, Sweden, Lund; 07776. sand, beach, surf zone, sediment transport, accretion, Atlantic, Middle Atlantic Bight; 06993. sandstone, Holder Formation, Pennsylvanian, shelf facies model, sand ridge, USA, New Mexico, Sacramento Mountain; 02386. sedimentation, radiocarbon date, Holocene(Late), depositional history, borehole, succession, prograding succession, barred shoreline type, sea level rise, Midley Sand, UK, England, Kent, Dungeness; 06180. severe storm, mesogamma scale, elastic atmospheric model, 10111. shear, precipitation, convective initiation, dryline, splitting convective cloud, convective tower, 07778. shoreline change, erosion, barrier island, inlet, wave height, USA, South Carolina; 03554. slumping, reef, coral, calcium carbonate, bioerosion, carbonate production, Virgin Islands, St.Croix; 00065. soil erosion, corn, wheat, contoured watershed, rainfall event, USA, Ohio, Coshocton; 13207. spatial variability, rainfall, rainy season, Niger; 07674. structural performance assessment, building structure, tornado, Hurricane Gilbert(1988), Jamaica; 09993. supercooled liquid water development, precipitation, microwave radiometer, polarization lidar, radar, Doppler radar, ice cloud, USA. Utah; 04317. surf zone, bar, shoreface, sediment transport, nearshore system, 09350. surface runoff, topography, rainfall, catchment scale, 02999. suspended sediment, shelf sediment, Cyclone Winifred, mudrock, Australia, Great Barrier Reef; 00072. synoptic analysis, mesoscale kinematics, water release rate, condensation, deposition, cloud, radar, updraft, saturation mixing ratio, USA, Utah; 04294. tempestite, stratification, sedimentary structure, Bouma sequence, sandstone, 10499. thermal wind balance, Richardson number, frontal zone, secondary front, cyclogenesis, 01908. typhoon, vegetation, estuary, mud, tidal flat, China, Hangzhou Bay, Qian Tang Jiang River; 01317. updraft, snow region, mesoscale circulation, radar detection, precipitation type transition, winter, Canada, Ontario; 11170. wave, bathymetric survey, meteorological data, oceanographic data, coastal engineering, 06477. weather related disaster, storm(October 1987), weather forecasting, disaster alleviation, UK; 01799. wind speed, sea, mesoscale disturbance, gravity wave, mesoscale variability, 11225.

storm action
continental shelf, particulate matter, sediment supply, delta, resuspension, mud, Spain, River Ebro; 05855.

storm beach
peat, beach ridge, sea level, backbarrier deposit, coastal energy, coast, Holocene, Fiji, Viti Levu, Pacific Harbour; 06192.

storm bed
grain fabric, sandstone, lamination, sedimentary structure, hummocky cross stratification, 08147. sand, shelf, sandstone, hummocky cross stratification, cross stratification, current, 11654.

storm case study
derecho, windstorm, supercell, thunderstorm, tornado, USA, Central Plains; 10106.

storm cell
hailpad data, hail pattern, stratification, seeding effect, 05432.

storm damage
Hurricane Hugo, timber industry, tourism industry, ecosystem, beach front development, USA, South Carolina; 04231. small scale flow, vortical flow, downslope windstorm, windstorm, 10105. whirlwind, tornado, Bulgaria; 07777.

storm day
doubled carbon dioxide climate, cloud feedback, climate model, anthropogenic change, tropical cyclone climate, carbon dioxide, cyclone, 10146.

storm deposit
tidal flat, typhoon, chenier, hummocky cross stratification, delta, China, Changjiang Delta; 03545. turbidity current, tool mark, wave, flow direction, bottom current, 05891.

storm development
ship, forecast, storm(1990), explosive development, surface observation, upper air observation, depression, UK; 10162.

storm duration
total rainfall, runoff rate, rainfall intensity threshold, soil surface, water storage capacity, rain drop impact, infiltration capacity, sandy soil, weeding, rainfall intensity, Africa, Sahel, Yatenga Region; 12227.

storm erosion
accretion, beach erosion, berm, sand transport, longshore bar, 01221.

storm event
hillslope sediment production, stream sediment load, overland flow, land use, sediment production controls, lowland catchment, sediment production, runoff, UK, England, Devon, Slapton Ley; 01507. pollution, point source, PAH, UK, England, Derbyshire, River Derwent; 03589.

storm flow
parameter estimation, hillslope hydrology, soil property, antecedent condition, surface runoff, subsurface runoff, groundwater flow, hydraulic conductivity, soil porosity, evaporation, Australia, Western Australia; 07472. suspended sediment, sediment concentration, watershed study, watershed pretreatment, forest hydrology, land management, basin stability, discharge characteristics, peak discharge, quick flow, USA, California, Caspar Creek; 06382.

storm frequency
flow measurement, isotopic tracing, water table level monitoring, runoff generation mechanism, land use change, antecedent soil moisture condition, flow process, hydrograph, experimental basin, conceptual distributed model, physically based model, Switzerland, Haute Menthue Watershed; 06278. ice age, vegetation, climate, subtropical Chile, pollen, lacustrine deposit, aridity, lake level, Chile, Laguna de Tagua Tagua; 04979.

storm hazard
flow regime, flood study, remote sensing, instrumentation, data collection, Institute of Hydrology, catchment study, water quality, groundwater process, tree, energy balance, climate change, water information system, hydrological modelling, agrohydrology, hydrochemistry, land surface energy balance, vegetation water use, 10960.

storm hydrograph
steam flow, forest renewal, hydrology, runoff, air pollution, water budget, Czechoslovakia, Beskydy Mountains; 09915.

storm hyetograph
tipping bucket rain gauge, headwater piezometer, stream flow gauging, lag time, unit area discharge, steep terrain, drainage basin, forested terrain, rainfall impulse tracking, runoff routing, data logger, 08673.

storm identification
radar viewing angle, thunderstorm, echo size, echo asymmetry, NEXRAD, 10114.

storm initiation
front, trough, lee cyclogenesis, USA, Colorado; 10080.

storm laid sediment
sedimentary structure, microsequence, Rewa Formation, hummocky cross stratification, India, Rajasthan, Bhainsrorgarh; 03516.

storm propagation
radar data processing, thunderstorm, detection, Canada, Quebec; 05345.

storm rainfall
disaster, debris flow, slope failure, slope failure, Japan, Hiroshima Prefecture; 13061. erosion, erosion effectiveness, downpour, Czechoslovakia, Svermovo; 09641.

storm runoff
catchment response, lithology, land use, runoff, Luxembourg; 07468. evapotranspiration, overland flow, subsurface flow, groundwater flow, flow route, base flow, hillslope hydrology, soil moisture content, 10998. pH data, base flow, acid neutralisation capacity, forest stream, water chemistry, surface water chemistry, soil water chemistry, UK, Wales, Hafren; 11026. snowmelt runoff, runoff generation, environmental isotope, tracer study, hillslope hydrology, oxygen-18, deuterium, tritium, precipitation to runoff conversion model, New Zealand; 11003. streamflow, lag time, infiltration, subsurface flow, road construction, logging, flow regime, hydrograph, USA, California, Caspar Creek; 04152.

storm runoff load
urban watershed, dissolved solids, total nitrogen, total ammonia, organic nitrogen, suspended solids, water quality, storm runoff volume, USA; 01648.

storm runoff volume
storm runoff load, urban watershed, dissolved solids, total nitrogen, total ammonia, organic nitrogen, suspended solids, water quality, USA; 01648.

storm sewage
benthic community, pollution tolerant species, sewage discharge, water quality criteria, surface water quality, intermittent pollution, 07517.

storm sewage discharge
non-oxygenation, oxygen injection, surface water quality, dissolved oxygen, surface runoff, sewage treatment, UK, England, Thames River; 00556.

storm structure
prediction experiment, Hurricane Gloria(1985), multiply nested model, movable mesh model, skill, 12476.

storm surge
climatic change, palaeoshoreline, reef, sea level rise, Quaternary, coral reef, USA, Florida Keys; 09598. coast, microseism, forecast, Belgium; North Sea; 06513. hydrometeorological service, socio economic development, typhoon, agriculture, forecast, Vietnam; 08813. return period, sea level rise, coastal protection, landuse, lagoon, Italy, Venice; 09599. river discharge, extreme event, extreme upstream discharge, extreme downstream storm surge, extreme value analysis, correlation analysis, UK, England, Medway River; 05145. sea state, ice, coastal area, water level, Germany, Schleswig-Holstein; Baltic Sea; 00053. sediment budget, beach, coast, nearshore area, sand, sea bottom, Germany, Probstei Coast; Baltic Sea; 00054. shoreline, barrier island, dune stabilisation, erosion, USA, North Carolina, Outer Bank; 10533. surge prediction, data dossiers, India, Bay of Bengal; 10040. tsunami, radiocarbon dating, particle size analysis, diatom, mineral magnetism, UK, England, Scilly Isles, St Agnes, Big Pool; 11683. water level, sea ice, ice barrier, current, sedimentary balance, cliff, Germany, Kiel Bay; 00055.

storm surge model
hazard prediction, database, USA, Texas, Galveston Bay; 06907. ocean current model, cold front, sea surface elevation, current elevation, split explicit finite difference, model prediction, Australia; 12390.

storm system
bipolar pattern, lightning location, thunderstorm, cloud to ground

lightning flash, mesoscale storm, 13484. gravity wave activity, vertical velocity, Flatland VHF radar, radar, front, jet stream, convection, mesoscale weather event, wave activity, 10098. sulphate, nitrate, acid rain, precipitation, rain water acidity, ion concentration, 13750.
storm track
operational forecast, experimental systematic error, relaxation experiment, ECMWF model, forecast field, tropics, baroclinic wave, 07791. Pacific ocean, satellite observation, GEOSAT, tropical ocean, cyclone pair, wind speed, 01807. wave model, eddy, diabatic heating, baroclinicity, boundary current, 10074.
storm tracking method
rainstorm, rain gauge, tracking procedure, radar, 08835.
storm warning
thunderstorm, Doppler radar, radar, 05369.
storm water
evaporation, precipitation chemistry, precipitation, 00869. structural damage, silt soil, unstable soil, soil loosening, drainage, experiment, 07335. water cycle, permeable pavement, water budget, urban hydrology, waste water, water management, urban water, model, Sweden, Lund; 13469.
storm water management
recreation, phosphorus loading, flood prevention, lake design, lake water quality, artificial lake, trophic state, UK, Northern Ireland, Craigavon Lakes; 04059.
Storm Water Management Modelling package
water resources management, computer model, runoff model, hydrograph simulation, 09943.
storm water model
surface flow, subsurface flow, urban hydrology, design flow, drainage analysis, GIS, terrain analysis, USA, North Carolina, Asheville; 12167.
storm water runoff
hydrocarbon, runoff pollution, surface water quality, bottom sediment, urban runoff, aliphatic hydrocarbon, PAH, water quality, Japan, Tokyo, Tama River Basin, Nogawa River; 07514. urban pollutant, surface water, dissolved oxygen, oxygen, ammonia, toxic pollutant, pollutant, water quality, sewer overflow, Netherlands, Amstel-en Gooiland; 13352.
storm wave
sand transport, beach erosion, coast, wave hindcast, USA, Virginia; North Carolina; 02340.
storm(1987)
hailstorm, thunderstorm, flash flood, UK, England, Essex; Suffolk; 10126.
storm(1989)
rainfall total, forecaster, Spain, Valencia; 09996.
storm(1990)
explosive development, surface observation, upper air observation, depression, storm development, ship, forecast, UK; 10162.
storm(February 1990)
jet stream wind, back bent occlusion, depression, occlusion, 09997. wind strength, synoptic event, wind damage, UK, Northern Ireland; 09995.
storm(January 1990)
wind, storm(October 1987), satellite image, UK; 01829.
storm(October 1987)
frontal system, jet stream, Doppler radar, wind velocity, radar observation, France, Brittany, Lannion; 00752. satellite image, storm(January 1990), wind, UK; 01829. weather forecasting, disaster alleviation, storm, weather related disaster, UK; 01799.
stormflow hydrochemistry
upland catchment, runoff chemistry, flow path, subsurface flow, surface water chemistry, rainfall duration, dry antecedent condition, soil pipe, inorganic aluminium, throughflow, rainfall intensity, UK, Wales; 04094.
stormtrack
symbiotic relationship, synoptic scale wave, wave, planetary scale wave, 13575.
stormwater management
database design, infrastructure, AM-FM, 01164.
stormwater runoff
rainfall, wet deposition, dry deposition, transport, heavy metals, urban environment, particulate matter, lead, zinc, cadmium, copper, deposition, surface dust, 00818.
stormy sea
tracer technique, carbon dioxide, sea surface, gas exchange, radon deficit technique, global oceanic sink, air sea gas exchange, 09078.
stormy weather
extreme event, occlusion, depression, 08850. gale, winter(1989/90), UK; 08849.
stormy weather(February 1990)
windy period, cyclogenesis, UK; 09979.
straight channel
flow resistance, cross sectional geometry, depth averaged fluid velocity, bed shear stress, channel width, channel depth, stable channel, gravel river, bank vegetation, 08696.
straight line
edge support, matching, intensity image, feature extraction, 13785. segment, convexity, 04508.
straight line determination
life accuracy, 10274.
strain
laboratory, compression, clay, permeability anisotropy, natural clay, 06021. soil physical property, soil distortion, triaxial test, 02787.
strain accumulation cycle
offset, Holocene, stream channel, San Jacinto fault zone, fault, radiometric dating, slip rate, USA, California, San Bernardino Valley; 11879.
strain change
geodetic survey, GPS, satellite visibility, Japan, Kanto; Chubu; 12612.
strain localisation
elastoplastic soil, shear band inclination, 10698.
strain rate
accumulation rate, basal melting, melt rate, thermohaline convection cell, Antarctic Bottom Water, ice ocean interaction, glaciological study, ice velocity, Antarctica, Ronne Ice Shelf; 08513. flow law, glacier ice, numerical prediction, field measurement, velocity profile, surface strain, bore hole tilting measurement, Glen's flow law, Greenland, South Greenland, Dye 3 Site; 07306.
strain softening dilatant soil model
localisation, porewater pressure, Mohr-Coulomb analysis, Monot double-hardening model, 00252.
strain value
crustal deformation, geodetic measurement, recent tectonic movement, tectonic movement, vertical movement, neotectonic framework, subsidence zone, China; 08373.
strait
Quaternary(Late), sea level, erosion hole, sea caldron, buried valley, Shimosueyoshi transgression, land bridge, Japan; 04966.
strand plain system
glacio eustatic change, sea level change, Pleistocene, Atsumi Group, depositional cycle, barrier island, Japan; 13177.
strandline
drawdown phase, spillway channel, bedload transport, outwash apron, ice marginal lake, Canada, British Columbia, Bridge Glacier; 13111.
strandline age
uplift rate, dating technique, dating method, Pleistocene, marine terrace, New Zealand; 00325.
strandline marker
carbon-14 dating, foraminiferal zonation, salt marsh, zonation, elevation, sea level, salinity, marsh, USA, Massachusetts, Falmouth, Great Sippewissett Salt Marsh; 10800.
strange attractor theory
spectrum model, bifurcation, turbulence, nonlinear dynamics, chaos theory, 06497.
strangulation
sea strait, two-layer hydraulics, rotating hydraulics, remote control, virtual control, 01175.
strapdown technology
inertial technology, surveying, geodesy, production environment, 03284. surveying, inertial surveying, 02086.
stratal pattern analysis
Triassic, basin evolution, unconformity, lithofacies, classification, Italy, Dolomites; 01373.
strategic implementation
GIS, project planning, project management, database construction, 01037.
strategic plan
cost-benefit analysis, GIS, technical issue, funding, 01069.
strategy
emission, transport, sulphur dioxide, RAINS model, acidification, Europe; 11295. growth stage, management, 13813. regional planning, GIS, transportation planning, 04679. sulphur, nitrogen compound, acid deposition, transport models, emission scenario, RAINS model, acidification, Europe; 11296.
strath terrace
chronosequence, diachronous, stream terrace genesis, soil development, climatic stream terrace, tectonic stream terrace, complex response degradation terrace, downcutting, aggradation, gravelly bedload, fill cut terrace, alluvium, 02678.
stratification
carbonate, Cambrian, salt accumulation, palaeobasin, USSR, Siberia; 12934. Chernobyl disaster, lake water quality, caesium transport, radionuclide, sediment, UK, England, Cumbria, Esthwaite Water; Windermere; 13343. climate, organic matter, tectonism, source rock, anoxic lake, Zaire, Lake Tanganyika; Tanzania, Lake Tanganyika; 11670. compressible mantle, post glacial rebound, mantle compressibility, mantle viscosity, post glacial relaxation, viscous, 07165. grain size, minipermeameter, permeability, channel, sand body, UK, England, Yorkshire coast; 04705. gyre, circulation, precipitation, evaporation, baroclinic experiment, barotropic experiment, 01182. hypolimnetic temperature, groundwater input, inter-lake dissimilarity, basin morphometry, thermal structure, multibasin lake, interbasin exchange, USA, Wisconsin, Trout Lake; 00549. laboratory experiments, cloud top, entrainment instability, buoyancy reversal, 12452. organic matter, halocline, sedimentation, phosphorus, productivity, Baltic Sea; 10650. oxygen regime, mixing depth, productivity, nutrient recycling, lake, Canada; 00023. peat, tidal flat, suspended sediment, sediment budget, mudflat, salt marsh, estuary, UK, Severn Estuary; 04734. scatterometer wind, surface roughness, surface stress, temperature, stability, 00730. sea water, estuary, halocline, salinity, fresh water sea water interface, discharge, nutrient, biogeochemical process, Yugoslavia, Krka River; 11680. sedimentary structure, Bouma sequence, sandstone, storm, tempestite, 10499. seeding effect, storm cell, hailpad data, hail pattern, 05432. settling rate, seston, organic matter, trap, Italy, Lago di Mergozzo; 12850. surface water, Landsat, suspended solid, Chile; 03469. surface wind, low level transport, mass transport, Seasat, scatterometer observation, wind stress, ocean, baroclinic boundary layer model, thermal advection, 10045. tidal forcing, salinity intrusion length, riverflow data, river regulation, channel morphology, carbon budget, sediment budget, estuary, historical change, numerical flow model, mixing, USA, Washington, Columbia River; 10965. turbulence, vertical velocity, potential temperature, boundary layer, local similarity theory, Monin-Obukhov similarity theory, Australia; 03064. water column, heavy metals, halite, coprecipitation, overturn, Middle East, Dead Sea; 00032.
stratification mechanism
slope deposit, subequatorial mountain, solifluction sheet, creep, solifluction, sorting, frost heaving, stratified slope deposit, slope model, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713.
stratified flow
fluid modelling, atmospheric diffusion, complex terrain, wind tunnel modelling, pollution, boundary layer, 05404. friction, sea straits, 03498. hurricane, fluid dynamics, laboratory analogue, 12409. isolated topography, rotating annulus experiment, Rossby number, oceanographic current system, 06498. topography, non-linear flow, flow property, 03495.
stratified fluid

boudin, model, Sangamon ice, radio echo sounding, structure zone, boudinage, stratigraphic disturbance, glacial ice, hydrodynamic model, interface stability, Greenland, Summit; 07305.
stratified random sampling
photo interpretation, classification, forest stand, inventory, Dominican Republic; 10415.
stratified rotating atmosphere
lee cyclogenesis, relative vorticity, cyclonic vorticity, convergence, potential vorticity, upper level jet, semi geostrophic flow, orography, 04278.
stratified scree
grezes litees, periglacial environment, stratogenesis, slope waste deposit, freeze-thaw action, stratified slope deposit, France; 01458. sorted circle, cryoturbation, periglacial geomorphology, Arctic, thermokarstic feature, permafrost, warming, segregation ice, USA, Alaska; South America, Andes; China, Tibet; 07285.
stratified sediment
ice thickness, Pleistocene, valley glacier, ice loading, shear strength, Atterberg consistency limit, ice thickness reconstruction, subglacial consolidation, fine grained sediment, Austria, Alps, Vorarlberg; 07240.
stratified slope deposit
slope model, stratification mechanism, slope deposit, subequatorial mountain, solifluction sheet, creep, gelifluction, sorting, frost heaving, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713. stratified scree, grezes litees, periglacial environment, stratogenesis, slope waste deposit, freeze-thaw action, France; 01458.
stratified soil
tropical forest, Semmel, Cainozoic sediment, Brazil; 00465.
stratified water column
productivity, Younger Dryas event, Holocene, palaeoenvironmental event, Pteropoda, high resolution record, sedimentary sequence, core, R/V Meteor cruise, stable isotopic record, Red Sea; 10748.
stratiform
altiform, cirriform, cloud, contingency probability, 06512. cloud band, numerical experiment, virga settling, squall line, radiative cooling, convection, 12465. cloud, droplet formation mechanism, droplet concentration, 06508. cloud, ice particle, crystal, convective cloud, updraft, microphysical observation, 07769. cloud, satellite, microwave measurement, liquid water content, stratiform cloud precipitation characteristic, 06511. Kupferschiefer, pyrite, organic matter, redbed, redox state, 00170. stylolite, dissolution, precipitation, burial, limestone, 04809.
stratiform body
chert, bedded barite, deep sea sediment, sea water, hydrothermal origin, barite, Devonian Chert, Slaven Chert, USA, Nevada; 09405.
stratiform cloud
cloud, empirical data, radiative transfer theory, optical thickness, parameterisation, shortwave transmissivity, transmissivity, 12320. El Nino, precipitation, convection, rainfall, Southern Oscillation, upper air sounding, ship observation, Mexico; 01838.
stratiform cloud precipitation characteristic
stratiform, cloud, satellite, microwave measurement, liquid water content, 06511.
stratiform echo
reflectivity, weather radar, radar horizon, 05333.
stratiform precipitation
ice-ice interaction, positive lightning, cloud to ground lightning, lightning, mesoscale system, convective system, flash, charge structure, 12315. isotopic composition, precipitation, extratropical cyclone, oxygen isotope analysis, cloud top temperature, evaporation, convective precipitation, 01959.
stratiform region
mesoscale momentum budget, squall line, latent heating, vertical mixing, updraft, 05423.
stratiform situation
convective situation, scavenging mechanism, scavenging ratio, air mass, trajectory, rain volume, rain rate, 12507.
stratigraphic
microfaunal, palynological evidence, Tyrrell Sea, latitudinal gradient, biogenic productivity, postglacial, palaeoceanography, Canada, Hudson Bay; 04973.
stratigraphic analysis
coccolith species, pelagic sediment type, oxygen isotope time scale, turbidite, slide, climatic change, Saharan Sediment Slide, Quaternary(Late), mass movement, continental rise, abyssal plain, gravity core, Africa, Sahara; 09567.
stratigraphic architecture
organic carbon, bioturbator, lake system, Newark Supergroup, palaeoecology, 11750.
stratigraphic classification
coal, Permo-Triassic sequence, sedimentation, basin deposition, genetic stratigraphy, Australia, New South Wales, Gunnedah Basin; 09403.
stratigraphic correlation
Devensian(Late) glaciation, Loch Lomond Stadial, sea level change, field guide, UK, Scotland, Nairn; Beauly; 06145. palaeomagnetic correlation, correlation, Pleistocene, paleosol, soil formation, Bahamas, San Salvador Islands; 13092.
stratigraphic disturbance
glacial ice, hydrodynamic model, interface stability, stratified fluid, boudin, model, Sangamon ice, radio echo sounding, structure zone, boudinage, Greenland, Summit; 07305.
stratigraphic effect
internal drainage, external drainage, extensional faulting, White River Narrows Formation, active fault, USA, Nevada, White River Valley; 05997.
stratigraphic evidence
isostatic rebound, climate related variation, coastal engineering, historical variation, water level, USA, Lake Erie; Lake Michigan; USA, Lake Huron; USA, Great Lakes; Canada, Great Lakes; 05996.
stratigraphic hiatus
radiometric dating, Pleistocene(Middle), transgressive complex, soil chronosequence, Latina Complex, intercalated volcanite, Complesso dei Tufi Inferiori, isotopic stage 15, Minturno Complex, isotopic stage 5, Italy, Agro Pontino; 08498.
Stratigraphic High-Resolution Dipmeter Tool
electrofacies, dip data, Schlumberger, facies recognition, dipmeter, 00193.
stratigraphic history
Quaternary, Wisconsin(Late), advance, retreat, climatic change, chronologic sequence, USA, Ohio; 00295.
stratigraphic horizon
Omachi APm Tephra Beds, Pleistocene(Middle), eruption style, accumulation rate, loess, soil thickness, age, Japan, (central); 02675.
stratigraphic implication
palaeochannel, molluscan fauna, Pleistocene(Middle), interglacial deposit, environmental implication, UK, England, Essex, Little Oakley; 02667.
stratigraphic interpretation
Pleni Vistulian grain, aeolian coversand, permafrost, frost fissure, fragipan, coversand, dune stabilisation, inland dune, Vistulian(Late), aeolian phenomena, palaeoenvironmental interpretation, Poland; 10790.
stratigraphic marker
microfacies analysis, fossil, cyanobacteria, limestone, Lauterecken Formation, Germany, Saar Nahe Basin; 08257.
stratigraphic marker species
datum age, palaeoceanographic condition, Pliocene(Late), Quaternary, diatom stratigraphy, Southern Ocean; Atlantic, (South); 11932.
stratigraphic nomenclature
geosol, magnetostratigraphy, climatic cycle, loess, Baoji type section, pedostratigraphic section, China, Loess Plateau, Baoji; 08490.
stratigraphic position
clayey-dusty deposit, paleomagnetic, micromagnetic logging, aeolian deposition, loess, Poland, Nowy Sacz, Carpathians, Zalubincze Brickyard; 11969. palynology, Pleistocene, rhythmite, pollen content, Leclercville Rhythmites, last interglacial, lake sedimentation, Canada, Saint-Lawrence Valley, Leclercville; 01437.
stratigraphic record
benthic-planktonic age difference, ocean ventilation, oxygen isotope stratigraphy, radiocarbon date, stratigraphy, nannofossil, foraminiferal assemblage, pelagic carbonate, Atlantic; 10746.
stratigraphic research
Quaternary, Holocene, radiocarbon dating, eolian deposit, fossil soil, cover sand, stabilization, France, Pas de Calais, Wissant; 11968.
stratigraphic response
carbonate platform, sea level change, Ocean Drilling Program, tectonic uplift, prograding clinoform, prograde, onlapping sequence, sediment supply, Indian Ocean, Broken Ridge; 11988.
stratigraphic sequence
eustatic cycle, stacking pattern, sequence, parasequence, Milankovitch, 09314.
stratigraphic study
pollen analysis, peat bog, agricultural activity, radiocarbon date, postglacial landscape history, Norway, Trondheim, Dragvoll; 02669. soil, landscape evolution, Binghamton symposium, hillslope study, terrace study, soil study, 08515.
stratigraphic trap
Miocene, Afam Clay, channelling, hydrocarbon, incised channel, Nigeria, Niger Delta; 12946.
stratigraphic unit
terrace, Quaternary(Late), fluvial sedimentation, radiometric dating, alluvial fill, alluviation, valley glaciation, overgrazing, Greece, Epirus, Voidomatis Basin; 07215.
stratigraphical analysis
Holocene fill, colluvial unit, climate change, anthropisation, alluvial deposit, France, Basse Provence, Bouches-du-Rhone, Etang de Berre, Vallat Neuf Brook; 11846.
stratigraphical evidence
Holocene, river alignment, river evolution, palaeohydrology, fluvial history, terrace, USSR, Siberia; 11857.
stratigraphical position
dating, Pleistocene(Late), environment, mammoth, Mammuthus primigenius, Denmark; 07267.
stratigraphical record
discontinuity, stratigraphy concept, Quaternary stratigraphy, 06072. mollusc, pollen, radiocarbon, method, concept, Quaternary stratigraphy, France, Massif Central; 03845.
stratigraphical scheme
hydrogeomorphological change, maritime catchment, tectonic change, isostatic rebound, deforestation, UK, England, Severn Basin; 10675.
stratigraphy
alluvial terrace, river terrace, Holocene chronology, radiocarbon dating, floodplain, river channel change, chronology, UK, England, Cheshire, Dane Valley; 06179. amino acid, radiocarbon evidence, foraminifera, Weichselian(Middle), sediment accumulation rate, Weichselian(Late), Barents Sea; 09569. Antarctic ice volume, seismic sequence stratigraphy, tectonoeustasy, orbital forcing, low-frequency, glacioeustasy, 11978. British Geological Survey, drift geology, geology, Quaternary, geological map, UK, England, Avon, Weston Super Mare; Wales, Cardiff; 10682. carbon-14 dating, accelerator mass spectrometry, Mousterian period, Hengelo period, lithic industry, France, Ardeche, Lagorce, Ranc de l'Arc Shelter; 04934. chronology, Pleistocene(Late) reef, sea level, coral reef, makatea limestone, reefal limestone, uranium series dating, flexure, lithospheric flexure, Quaternary(Late) reef, uplift, Pacific, Cook Islands, Makatea Islands; 10808. climatic reconstruction, interglacial, Pleistocene, fluvial deposit, molluscan fauna, palaeoenvironmental reconstruction, UK, England; 03893. core, British Geological Survey, Quaternary geology, seafloor, Morrison sequence, Otter Bank sequence, submarine end moraine, Sinclair sequence, UK, Scotland, Judd; 09564. drumlin, directional indicator, ice flow pattern, rock cored drumlin, sedimentary sequence, Ireland; 11950. glacial extent, Pleistocene, continental glaciation, ice cap, Europe, (Central); 11963. Holocene, sand-shell ridges, marine transgression, radiocarbon dating, calcrete, cheniers, Argentina, Bahia Blanca Estuary; 03904. lacustrine deposit, alluvium, forealpine lake, glaciation, meandering channel,

diversion channel, Switzerland, Aare River; 11847. laminated sediment, trophic change, diatom, pollen, sediment, microstratigraphical analysis, anthropological influence, Austria, Hollerer See; 10789. Melville Formation, Little Sole Formation, ice raft, glaciation, glacigenic sediment, UK, Scilly Isles, Celtic Sea; 13082. nannofossil, foraminiferal assemblage, pelagic carbonate, stratigraphic record, benthic-planktonic age difference, ocean ventilation, oxygen isotope stratigraphy, radiocarbon date, Atlantic; 10746. palaeoecology, Pleistocene, interstadial sediment, organic rich, interstadial sediment, middle Wisconsinan, Cordilleran Ice Sheet, interstadial sediment, Bullion Pit bed, Mexican Hill, Canada, British Columbia, Quesnel River Valley; 03889. palaeoenvironment, St. Charles site, radiocarbon age, alluvial fill, stratigraphy, Wisconsinan(Middle), USA, Iowa, Clanton Creek; 07262. palaeoenvironment, Weichselian(Middle), diamicton, Piaski Formation, permafrost, braided system, fluvial system, Weichselian(Late), Poland; 07269. palaeoenvironmental significance, loess, shore platform, gelifraction, progradation, wind erosion, Adriatic Sea, Dalmatian Archipelago, Susak Island; 07214. palaeogeography, Pleistocene, soil formation, USSR, Ukraina; Don; USSR, Dniepr; USSR, Volga; 05026. palaeontological investigation, cave, Hungary; 06052. paleosol, Sale terrace, loess section, radiocarbon date, China, Sale Terrace Section; 02632. parent material, parent material, paleosol, USA, Pennsylvania, Allegheny Plateau; 04009. Pleistocene(Late), environmental change, ice rafting, sea level, last interglacial glacial cycle, Denmark; 06086. Quaternary(Late), gravity core, till, carbonate content, clast petrography, Barents Sea; 00276. Quaternary, Saalian age, till, glaciofluvial sediment, Weichselian, Vennebjerg Stadial, Sandnes Interstadial, Skaerumhede Series, foraminifera, Denmark, Kattegat, Anholt Island; 07209. radiocarbon dating, palaeoecology, pollen assemblage, Loch Lomond Stadial, elm decline, salt marsh, Devensian(Late), Holocene, UK, England, Severnside; Vale of Gordano; 07264. radiocarbon, pollen analysis, rainfall, summer monsoon, vegetation, seasonal climate, last full glacial, Australia, South Australia, Lake Frome; 13108. sedimentation rate, oxygen isotope composition, organic carbon content, grain size distribution, upwelling region, Ocean Drilling Program, Pacific; Peru; 00272. sedimentology, mammoth, bison, bone bearing sediment, McConnell Glaciation, Wisconsinan(Middle), mammal, Canada, Yukon Territory, Ketza River; 13147. seismic data, solid geology, gravity model, UK, Scotland, Outer Hebrides, Lewis; 10353. side scan sonar, Devensian(Late), Loch Lomond Stadial, radiocarbon dated, pollen, periglacial condition, Holocene, soil erosion, Quaternary(Late) stratigraphy, sedimentology, seismic survey, core, UK, Wales, Lyn Tegid; 02663. stratotype, glaciation, Saalian, Wolstonian, cold stage, type section, Europe, (Northern); UK; 06122. structure, groundwater interception scheme, upward leakage, saline groundwater, hydrogeology, groundwater discharge, surface water quality, Australia, South Australia, Murray Basin; 05269. tectonic implication, uranium series dating, coral reef, raised reef terrace, terrace, interglacial raised reef, uplift, Red Sea, Zabargad Island; Northern Brother Island; 10806. tectonic uplift, sea level, palaeohydrology, palaeogeography, delta, Iron Gate terrace, terrace, subsidence plain, Romania, Danube River; 11853. tephrochronology, Tatara, Aira Tn ash, tephra, Hikawa Formation, postglacial transgression, Kandogawa Formation, Sambe Ohirayama pyroclastic flow, bedrock topography, transgression, sea level, geomorphological development, alluvial plain, microrelief, deltaic plain, Japan, Izumo Plain; 08350. tidal shoal, tidal delta, estuarine embayment, beachridge system, lobate delta, sealevel curve, radiocarbon age, coastal landform, Australia, Western Australia, Peel-Harvey Estuary; 11992. TL dating, Late Glacial, cover sand, pollen analysis, lithostratigraphy, Denmark, Jutland; 09588. volcanic construct, eruptive style, Mars, geomorphology, Mars, Alba Patera; 08354. Warneton pedocomplex, micromorphological budget, humic soil, palaeoclimatology, Belgium, Warneton; 06157. Weichselian, till stratigraphy, glacial history, Pleistocene(Late), stadial, interstadial, Eemian age, Norway, Finnmark, Finnmarksvidda; 06130. Wisconsinan(Middle), stratigraphy, palaeoenvironment, St. Charles site, radiocarbon age, alluvial fill, USA, Iowa, Clanton Creek; 07262.

tratigraphy concept
Quaternary stratigraphy, stratigraphical record, discontinuity, 06072.

tratigraphy framework
sapropel S1, stable oxygen isotope, anoxia, carbon-14, Quaternary(Late), Mediterranean; 13084.

tratispheric ion
aerosol chemistry, cirrus cloud, microphysics, stratosphere, volcano, cosmic ray, gas to particle conversion, nucleation, 10215.

tratocumulus
air-sea interaction, boundary layer, 03104. climate modelling, cloud albedo, albedo control, entrainment, aircraft measurement, 07770. cloud breakup, entrainment instability, vertical motion, 13612. cloud climate interaction, climate feedback, positive feedback, sea surface temperature, cloud climatology, marine stratocumulus, 12374. cumulus congestus, snow shower, Gulf Stream, surface heat flux, air-sea interaction, cold air outbreak, air-sea temperature difference, USA, North Carolina; 01859. marine boundary layer, cyclone, Gulf Stream, 01907. mesoscale cloud structure, boundary layer, sea surface, cloud top, Rayleigh mode, convective pattern, 07779. wet virtual adiabat, surface flux measurement, cloudiness, marine boundary layer, cumulus, 04253.

tratocumulus property
radiometer, marine stratocumulus, cloud optical depth, rain drop raduis, measurement inconsistency, remotely sensed measurement, 12326.

tratogenesis
slope waste deposit, freeze-thaw action, stratified slope deposit, stratified scree, grezes litees, periglacial environment, France; 01458.

tratopause
diurnal variation, ozone trend, stratosphere, aerosol, ozone, 02031. mesosphere, gravity wave, ozone variability, equatorial middle atmosphere, semi annual oscillation, residual mean circulation, temperature dependence, 04392. zonal mean, temperature, pressure, zonal wind, geopotential height, mesopause, middle atmosphere, reference atmosphere, tropopause, 11141.

tratopspheric ozone
wave length scattering, cirrus, radiometer, satellite cloud observation, cloud particle, ice crystal, 04206.

stratospehre
saturation limit, gravity wave, middle atmosphere, Rayleigh, lidar, case study, mesosphere, 12305.

stratosphere
aerosol layer, lidar, 11392. aerosol, condensation nuclei, supersaturation, nitric acid aerosol formation, Arctic; 05548. aerosol, ozone, stratopause, diurnal variation, ozone trend, 02031. aircraft measurement, nitric oxide, chlorine oxide, ozone, 09072. austral spring, catalytic cycle, free radical, vortex, CFC's, ozone loss, Antarctica; 07869. bromine oxide, bromine nitrate, bromine chloride, chlorine monoxide, ozone depletion, polar vortex, Antarctica; Arctic; 00826. bromine oxide, chlorine dioxide, chlorine monoxide, Arctic; 00827. Carboniferous, aerosol particle, sulphuric acid, 06552. carbonyl halide, matrix isolation spectroscopy, halogenated carbonyl, 06612. chlorine dioxide, bromine oxide, polar vortex, Arctic; Antarctica; 00823. chlorine monoxide, hydrogen chloride, chlorine, sulphate, heterogeneous chemistry, aerosol, polar vortex, Arctic; 05549. chlorine monoxide, nitrogen dioxide, photolysis, chlorine nitrate, sunrise, sunset, 00825. chlorine nitrate, chlorine compound, nitrogen oxide, nitric acid, hydrogen chloride, transport, potential vorticity, potential temperature, Arctic; 00831. chlorine, monoxide, polar vortex, ozone depletion, heterogeneous chemistry, Arctic; Antarctica; 00824. chlorine, ozone depletion, cold temperature, Antarctica; 06582. chlorine, ozone, rocket emission, Space Shuttle, 09069. chlorine, photochemical model, nitrogen oxide, denitrification, Antarctica; 02017. chlorofluorocarbon, middle atmosphere, oxygen, hydrogen, nitrogen, chlorine, climate model, transport-chemistry model, carbon dioxide, temperature, ozone, 00786. cosmic dust, pollution, microtektite, dust, 02035. data assimilation system, subplanetary scale feature, three dimensional simulation, wintertime, ozone variability, 12553. data quality, data source, Southern Hemisphere; 08832. diabatic cooling, radiative transfer, water vapour, ozone, nitrous oxide, polar vortex, ozone depletion, chlorine oxide, 00798. diode laser spectrometer, nitrogen oxide, nitrogen dioxide, nitric acid, ozone, nitrous oxide, balloon UV ozone spectrometer, photochemical model, active nitrogen partitioning, 04393. diurnal variation, nitric oxide, 11331. dust, fireball, particle, smoke, nuclear winter, nitric oxide, 02997. dust, global climatology, optical climatology, tropospheric aerosol, satellite, occultation measurement, extinction ratio, 12562. eruption, aerosol, optical depth, volcanic perturbation, Mexico, El Chichon; 12559. gaseous nitric acid, Nitric Acid Trihydrate, aerosol, supersaturation, condensation nuclei, nitric acid aerosol formation, Arctic; 05547. general circulation model, forecast error, climate drift, 10058. geopotential height, temperature, trend, 11287. gravity wave, middle atmosphere, wave drag, momentum flux convergence, mesosphere, Southern Hemisphere; 08929. hydrogen chloride, chlorine nitrate, polar vortex, polar stratospheric cloud, ozone depletion, chlorine monoxide, nitric acid, Arctic; 00917. hydrogen chloride, hydrogen fluoride, gas phase chemistry, heterogeneous chemistry, Arctic; 00830. hydrogen peroxide, sulphur dioxide, ice core, sulphate, volcanic fallout, volcanic sulphur, Greenland; 03220. infrared solar occultation spectra, sulphur hexafluoride, chlorine, fluorine, trend, 06694. Kelvin wave, solar backscatter ultraviolet instrument, travelling wave, Nimbus-7, ozone measurement, 13643. laser absorption spectrometer, aircraft observation, 00801. laser induced fluorescence technique, hydroxyl radical, hydrogen peroxide, 10197. lidar, ozone depletion, volcanic eruption, ozonesonde, quasibiennial oscillation, aerosol, Germany, Hohenpeissenberg; Garmisch-Partenkirchen; 02021. lidar, ozone, polar vortex, ozone depletion, Arctic; Norway, Sola Air Station; 00890. lidar, polar stratospheric cloud, polar vortex, nitric acid trihydrate, scattering ratio, aerosol depolarisation, Arctic; 00895. LIMS, momentum balance, middle atmosphere, observation, Rossby gravity wave, 12426. Lyman-alpha hygrometer, balloon gondola, free radical, photofragment fluorescence, hydroxyl, hydroperoxy radical, ozone, water vapor, 04202. mass continuity, stratosphere-troposphere exchange, downward control principle, residual vertical circulation, troposphere, 01883. mass flow controller, sampling of stratopheric species, 04350. mesosphere, gravity wave, middle atmosphere, 11256. mesosphere, sea surface temperature, Southern Oscillation, 10048. modelling, lidar, backscatter, aerosol, carbon dioxide laser, 12560. modelling, nuclear explosion, ozone, photochemical reaction, 11389. Montreal Protocol, CFC's, chlorine, ozone depletion, Antarctica; 10214. National Meteorological Center, European Centre for Medium Range Weather Forecasts, eddy heat flux, heat flux calculation, Antarctica; 10056. nitric acid, polar stratospheric cloud, ice particle, nitric acid trihydrate, 00795. nitrogen chemistry, ozone depletion, Antarctica; 09054. nitrogen dioxide, potential vorticity, potential temperature, ozone, ozonesonde, lidar, satellite profile, polar vortex, 00828. nitrous oxide, microphysical process, polar vortex, particle, polar stratospheric cloud, total reactive nitrogen, Arctic; 00802. nitrous oxide, ozone, water vapour, reactive odd nitrogen, Arctic; 00796. oxygen O(1D), isotopic exchange, carbon dioxide, ozone, 10217. ozone budget, modelling problem, spatial averaging, photochemical model, 07889. ozone depletion, nitrate, snow, denitrification, polar stratospheric cloud, Antarctica; 03200. ozone depletion, polar stratospheric cloud, chlorine, 06541. ozone hole, chlorine measurement, winter, 10219. ozone loss rate, flight track, chlorine, bromine, Antarctica; 12554. ozone profile, polar stratospheric cloud, chemical ozone depletion, Arctic; 07876. ozone, atmospheric hydrogen, anthropogenic source, 07821. ozone, chlorine monoxide, nitrogen dioxide, chlorine nitrate, dinitrogen pentoxide, polar vortex, photodissociation rate, nitric oxide, Arctic; 00803. ozone, interannual variability, trace gas, middle atmosphere, quasi biennial oscillation, 03222. ozone, stratospheric warming, polar stratospheric cloud, ozone depletion, low temperature, Europe, (Central); (Northern); 13747. photochemical process, ozone, air quality standard, Alpine region, foehn, 06538. planetary wave transport, planetary wave forcing, stratosphere, polar vortex, tropical wind, quasi-biennial oscillation, 01890. planetary wave, global temperature data, geopotential height data, eastward travelling wave, Southern Hemisphere; 12418. polar stratosphere, ice cloud, nitric acid particle, denitrification, Antarctica; Arctic; 00793. polar stratospheric cloud, photochemistry,

heterozenous chemistry, cloud physics, chlorine monoxide, ozone depletion, 00832. polar stratospheric cloud, radiative transfer, nitric acid, cirrus cloud, tropopause, 00694. polar stratospheric cloud, temperature, winter, stratospheric warming, 00670. polar vortex, nitrogen dioxide, nitric acid trihydrate, balloon-borne measurement, total reactive nitrogen, nitric acid, aerosol, Arctic; Sweden, Esrange; 00909. polar vortex, polar stratospheric cloud, winter, temperature, Arctic; 00671. polar vortex, potential vorticity field, warming, 08922. polar vortex, tropical wind, quasi-biennial oscillation, stratosphere, planetary wave transport, planetary wave forcing, 01890. pollution, ultraviolet radiation, Montreal Protocol, CFC's, ozone depletion, Arctic; Antarctica; 03209. potential temperature, gravity wave, wave, variability, Arctic; 00759. potential vorticity, barotropic calculation, horizontal eddy transport, eddy transport, thermal drive, 10082. potential vorticity, global transport, equivalent barotropic system, 01877. potential vorticity, radiation, 08921. preliminary assessment, aerosol, contamination effect, SAGE, ozone trend, 11394. QBO signal, interannual variability, transport, temperature, ozone, photochemical model, 12547. quasi periodic amplification, planetary wave, wave wave interaction, winter warming, Southern Hemisphere; 12417. radar, frequency domain interferometry, middle and upper atmosphere radar, scattering layer, 08829. radar, gravity wave, topography, momentum flux, horizontal wind, vertical wind disturbance, 12309. radiative heating, temperature, ozone, water vapour, tracer transport, diabatic circulation, 00757. radiative photochemical model, methane, nitrogen, chlorine, ozone, anthropogenic effect, photochemistry, gas composition, 12526. radioactivity, temporal variation, fallout, accident, strontium 90, caesium isotope, USSR, Chernobyl; Japan, Ibaraki, Tsukuba; 11371. saturation theory, universal spectrum, wave spectrum, atmospheric temperature, velocity fluctuation, 10061. solar infrared absorption spectra, chlorine, hydrochloric acid, fluorine, hydrofluoric acid, concentration profile, Trace Molecule Spectroscopy, Spacelab 3, 11353. southern winter, zonal wavenumber, tropics correlation plot, vertical propagation, tropical forcing, atmospheric oscillation, 10078. static stability, planetary wave, climatic change, middle atmosphere, carbon dioxide, troposphere, 01953. statistical dynamical model, climate model, trace gas, transport, tropopause gap, ozone, 12577. sulphuric acid, sulphate particle, nitric acid, aerosol nucleation, winter, Arctic; Antarctica; 00905. surface climate effect, temperature, chemical composition, methane, ozone, CFC's, nitrous oxide, carbon dioxide, transient change, troposphere, 05495. thermosphere, mesosphere, satellite, 08823. thunderstorm, cosmic ray, solar lunar influence, superposed epoch analysis, 05282. trace constituent, equatorial stratosphere, Kelvin wave induced oscillation, ozone, water vapour, nitric acid, nitrogen dioxide, LIMS data, 09073. trace gas, solar forced tide, tide, ozone depletion, 11248. tracer transport, zonally averaged circulation, Eliassen-Palm flux, isentropic mixing coefficient, 01878. tropopause, vertical motion, trailing stratiform region, squall line, mesoscale, convective system, dehydration, 12447. troposphere, greenhouse gas, global warming, trace gas, climate, seasonal model, carbon dioxide, CFCs, methane, nitrous oxide, ozone, surface temperature, 01954. troposphere, satellite observation, infrared spectroscopic detection, sulphur hexafluoride, 00876. tropospheric lifetime, CFC, halon, chlorine, bromine, ozone, 07837. twilight photometry, turbidity, aerosol, India, Pune; 03174. vertical propagation, planetary wave structure, sea surface temperature, ozone hole, Pacific, (South); 08928. volcano, cosmic ray, gas to particle conversion, nucleation, stratispheric ion, aerosol chemistry, cirrus cloud, microphysics, 10215. warming, cyclogenesis, polar stratospheric cloud, heterogeneous chemical reaction, ozone destruction, cyclone breakdown, 07755. water vapour, nitric oxide, nitrogen dioxide, Arctic; 00804. water, vapour pressures, ternary system, nitric acid, sulphuric acid, low temperature, aerosol, 06537. wave property, radiosonde observation, large amplitude gravity wave, gravity wave, 11255.

stratosphere-troposphere exchange
downward control principle, residual vertical circulation, troposphere, stratosphere, mass continuity, 01883.

stratospheric aerosol
aerosol, sampling, sulphuric acid, calibration, active scattering spectrometer probe, refractive index, 03195. polar stratospheric cloud, aerosol measurement, polar vortex, Arctic; 00898. satellite measurement, sampling, ozone profile, lidar, electrochemical, concentration cell, balloon sonde, rocket ozonesonde, 04363.

stratospheric air
chemistry transport model, hydrogen chloride, polar stratospheric cloud, air extent variability, chlorine, ozone hole, chemically processed air, Arctic; 10221. ozone depletion, postwar condition, nitrogen oxide, nuclear fireball, smoke, 11332. tropical cyclone, cyclone upper atmospheric interaction, satellite, ozone, TOMS, tropopause fold, jet, air intrusion, 10200.

stratospheric chemistry
chlorine, photooxidation, eruption, alkalic volcano, volcano, nitrogen oxide, sodium chloride, reaction probability, 10218. denitrification, temperature oscillation, one dimensional model, polar stratospheric cloud, 13749. hydrogen peroxide, hydroxyl radical, ozone, 10186. quantum yield, nitrogen oxide, ozone, 02032. rate ratio, photochemical theory, solar occultation data, 06548. stratospheric transport, isentropic surface, ozone column, wavenumber one disturbance, photochemistry, semi Lagrangian technique, Eulerian grid, 06542.

stratospheric chemistry model
ozone hole, chemical propagation, chlorine, chlorine monoxide, nitrogen oxide, ozone depletion, Antarctica; 02028.

stratospheric circulation
wave zonal flow interaction model, tropospheric forcing, circulation variation, 10073.

stratospheric cloud
micro layer, temperature, nitric acid, nitric acid trihydrate, sulphate aerosol, polar stratospheric cloud, Arctic; 00894. surface albedo, ultraviolet radiation, polar stratospheric cloud, polar twilight, visible radiation, multiple scattering, ozone depletion, 03226. temperature dependence, polar stratosphere, 11395.

stratospheric cloud detection
balloon campaign, total ozone field, TOVS/HIRS2 infrared radiance, TOMS ozone data, polar stratospheric cloud, ozone measurement, Arctic; Europe, (Northern); 10222.

stratospheric condition
Henry's law solubility, nitric acid uptake, sulphuric acid, 06700. polar temperature, ozone, Southern Hemisphere spring(1988), Southern Hemisphere spring(1987), quasi-biennial oscillation, Southern Hemisphere, 08923.

stratospheric depletion
Titan, carbon monoxide, 11397.

stratospheric height
lidar, gravity wave, Rayleigh scatter observation, UK, Wales, Aberystwyth; 09965.

stratospheric intrusion
ozone trend, ozone profile, cosmogenic radio nuclide, cable car, photochemical production, Germany, Zugspitze; 10202.

stratospheric measurement
isotopic abundance, ozone, cryogenic sampler, mass spectrometer, 05552.

stratospheric model
chlorine, ozone, methane, 12558.

stratospheric ozone
heterogeneous chemistry, sulphuric acid aerosol, London protocol, volcanic eruption, ozone depletion, 09053. Montreal Protocol, ozone depletion, halocarbon, chlorine, halon, CFC's, emission, 04409. ozone depletion, ozone sounding, lidar, stratospheric warming, tropopause, Svalbard, Spitsbergen; 00889. photodissociation, ozone destruction, chlorine dioxide, 09070. seasonal variation, lidar, aerosol, remote sensing, ozone, 00784. sulphuric acid aerosol, aerosol, carbonyl sulphide, USA, Wyoming, Laramie; 03221.

stratospheric particle
balloon-borne collector, particle, sampling, microparticle, chlorine, iron, zirconium, copper, sulphur, bromine, zinc, titanium, nickel, strontium, 03201.

stratospheric planetary wave
EP flux signature, Rossby wave radiation, zonal mean flow, baroclinic waves, wave life cycle, tropospheric medium scale wave, 08924.

stratospheric profile
heavy water vapour isotope, deuterium, ATMOS Spacelab 3, infrared solar spectra, 10198.

stratospheric species
absorption cross section, photolysis rate, nitrate, dinitrogen pentoxide, 04391.

stratospheric spectra
nitrogen dioxide, Balloon Intercomparison Campaign, line parameter, 08828.

stratospheric sudden warming
ozone hole, warming dynamics, Antarctica; 08927.

stratospheric temperature
atmospheric characteristics, temperature variation, Titan; 09951. climate change, high pressure system, greenhouse effect, atmosphere ocean system, Netherlands, De Bilt; 04333.

stratospheric temperature trend
volcanic eruption, carbon dioxide, aerosol, climate change, 05466.

stratospheric tracer
Ertels potential vorticity, potential vorticity, tracer, 10069.

stratospheric transport
aerosol, sunradiometry, optical depth, El Chichon, 00789. isentropic surface, ozone column, wavenumber one disturbance, photochemistry, semi Lagrangian technique, Eulerian grid, stratospheric chemistry, 06542.

stratospheric volcanic cloud
optical thickness, polarisation, lidar, synoptic analyses, aerosol cloud, volcano, twilight effect, USA, Utah, Salt Lake City; Guatemala, Santiaguito; 13654.

stratospheric warming
photochemistry, ozone depletion, polar vortex, trajectory, ozone, nitric acid, 00791. planetary wave, circumpolar vortex, gravity wave, ozone hole, atmospheric dynamics, atmospheric transport, photochemistry, middle atmosphere, Southern Hemisphere; 08919. polar stratosphere, circumpolar cyclonic vortex, 03095. polar stratospheric cloud, ozone depletion, low temperature, stratosphere, ozone, Europe, (Central); (Northern); 13747. potential vorticity, ozone depletion, total ozone, winter, TOMS, total ozone, 00888. stratosphere, polar stratospheric cloud, temperature, winter, 00670. tracer transport model, balloon observation, GCM, nitrous oxide, trace constituent, 04388. tropopause, stratospheric ozone, ozone depletion, ozone sounding, lidar, Svalbard, Spitsbergen; 00889.

stratospheric water vapour
charge transfer process, ozone attacking radical, heterogeneous reaction process, ozone layer, methane, Antarctica; 06645. water vapour, methane oxidation, Antarctic vortex, Arctic; Antarctica; 00797.

stratospheric wind
grain crop, climate changeability, equatorial wind, quasi biennial cycle, USSR; 09962. wind velocity, ballon flight, 12310.

stratospheric zonal flow
zonal mean jet, vorticity gradient, two day wave, barotropic stability, westward moving wave, 01894.

stratospheric zonal wind
extratropics, tropopause level, subtropical jet, jet location, zonal wind variability, tropospheric zonal wind, 10079.

stratotype
biozonation, Neogene, Mio-Pliocene boundary, Tortonian-Messinian boundary, magnetic polarity stratigraphy, Tyrrhenian Sea; 00014. European Loess Belt, Mediterranean Belt, Coversand Region, Rocourt soil, climatic condition, last interglacial, glacial, geosoil traverse, Italy, Sardina; Belgium; Greece; 07266. glaciation, Saalian, Wolstonian, cold stage, type section, stratigraphy, Europe, (Northern); UK; 06122. Kauhajoki Formation, Kela Formation, Siuntio Till, Espoo Till, Pikkala Sand, Kauhajoki Till, Harrinkangas Formation, sedimentological analysis, lithostratotype, Weichselian, sediment, Finland; 07238. lithozone, pollen, boreal vegetation, rhythmite, sedimentary cycle, fluvial,

glacioisostatically depressed, St. Pierre Sediment, Canada, Quebec, St Lawrence Valley; 02658. paleomagnetic study, pollen analysis, Pliocene Pleistocene boundary, magnetostratigraphic, climatic information, Italy, Crotone, Vrica; 03850.
ratovolcano
submarine volcano, caldera, topographical map, deposit volume, volcanic material, Japan, Izu-Bonin Arc; 11886.
TRATOZ equipment
chemiluminescence, sulphur dioxide, transport, troposphere, 06602.
ratus
albedo, global warming, wind dependent aerosol generation, ocean surface, sea salt, cloud droplet, 06472. cloud, transfer equation, ground based measurement, microwave, dynamic parameter, 13609. vertical velocity skewness, boundary layer, large eddy simulation, buoyancy driven planetary boundary layer, 04238.
ratus cloud
albedo, cloud amount, atmosphere transmittance, radiation budget, multiple reflection, USA, Alaska, Barrow; 07658. boundary layer, kinetic energy, radiative cooling, pressure velocity correlation, turbulence structure, Arctic; 04318. cloud condensation nucleus, marine atmosphere, atmospheric particle, cumuliform cloud, gas phase process, aqueous sulphate production, 08971. cloud droplet chemistry, droplet chemistry, precipitation chemistry, sulphur dioxide, ozone, hydrogen peroxide, sea salt nuclei, 03245. cumulus cloud, precipitation, power station, acid deposit, plume, deposition, pollution, 04445.
raw amendment
organic matter, urease inhibitor, urea, hydrolysis, nitrogen, alkaline soil, nitrogen immobilisation, Belgium; 13233.
raw burning episode
aircraft measurement, satellite measurement, aerosol property, solar radiation, North Sea; 13642.
raw incorporation
evaporation, lysimeter, clay soil, soil moisture conservation, silty clay soil, cumulative evaporation, ploughless tillage, Sweden; 05120.
ream
abiotic sorption, surface water quality, uptake rate, biotic sorption, sediment, dissolved organic carbon, nitrate, calcium, phosphorus, solute retention, USA, Oregon, Cascade Mountains; North Carolina, Appalachian Mountains; 11021. channel, steep mountain, large bed element, energy dissipation mechanism, 05989. land classification, surface water quality management, watershed classification, multivariate technique, factor analysis, cluster analysis, discriminant analysis, taxonomic land classification, 05281. rifting, isotopic data, geochemical survey, tectonostratigraphic unit, Precambrian, Greenland; 07065. slope induced change, channel character, channel pattern, downstream mining, rational regime theory, hydraulic geometry, gravel bed, UK, Scotland, Allt Dubhaig; 07138.
ream acidity
hydrogen, sulphate, chloride, sodium, crown leaching, interception, podsolic soil, gleyed soil, hydrochemical flux, throughfall, stem flow, forest catchment, soil water chemistry, UK, Scotland; 11086.
ream bed
siltation, braided river, clay, suspension, silt, periphyton, turbidity, New Zealand, South Island; 02441.
ream capture
stream gradient, drainage network optimization, stream network, 06275.
ream channel
land drainage, channel morphology, peak discharge, Canada, Quebec, Cookshire; 04151. Pleistocene(Middle), hydrographic network, wadis, relict valley, Villafranchian, rillwash, sheet flood, braided stream, Morocco, Sahara, Daoura Hamada; Algeria, Sahara, Saovra Hamada; 08460. San Jacinto fault zone, fault, radiometric dating, slip rate, strain accumulation cycle, offset, Holocene, USA, California, San Bernardino Valley; 11879.
ream channel sediment
permeability, sediment stratification, Darcian seepage equation, Green Ampt infiltration equation, groundwater recharge, intermittent stream, 00576.
ream chemistry
acid neutralising capacity, elevation, acidification, surface water quality, cokriging, USA, North Carolina, Southern Blue Ridge Province; 04075. Birkenes model, soil chemistry, sulphate deposition, fish survival, Model of Acidification of Groundwater in Catchments, hydrochemical model, 13389. hydrological budget, forest catchment, Norway spruce, sitka spruce, streamflow, surface water quality, throughfall, stemflow, soil throughflow, 02949. water chemistry, stream flow, rapid response, short term flow, chemical response, catchment model, UK, Scotland, Allt a'Mharcaidh; 13390.
ream classification
water purification, surface water quality, agricultural non-point source pollutant, industrial pollutant, water quality parameter, France, Garonne River; 02878. water quality objective, catchment management, riparian ecosystem management, USA, Washington; Oregon; 01783.
ream corridor management
surface water quality, nitrate, agricultural pollutant, pollution control, buffer zone, floodplain, 06397.
ream crossing
water storage, cost benefit analysis, data collection, stream flow data, resource management, 09939.
ream depletion
superposition principle, stream flow, groundwater withdrawal, pumping well, surface water-groundwater interaction, 01789.
ream deposit allophane
soil, tephra, weathering process, allophane, aluminium rich soil allophane, silica rich allophane, New Zealand; 00355.
ream discharge
catchment geology, surface water groundwater exchange, aquifer recharge, sackung, runoff characteristic, infiltration, Alpine stream, peak flow, Switzerland, Poschiavo, Varuna; 08693. chemical modelling, Birkenes model, acidification, chemical species, catchment acidification model, UK, Scotland, Allt a'Mharcaidh; 13392. flow condition, hydrological network, flow average, mountain basin, ungauged catchment, runoff modelling, 08671. flow variability, lake tributary, non-point source pollution, statistical analysis, North America, Great Lakes; 01647. meltwater production, summer precipitation, monsoon, runoff, Pakistan, Karakoram; 02935. river classification, perennial streamflow, discharge-duration pattern, intermittent streamflow, variable flow, Nigeria; 02839. soil water discharge, water storage, water balance, snow cover, runoff, Antarctica, King George Island; 01744.
stream dynamics
estuary, tidal surge, tidal variation, stream kinematics, 00529.
stream ecosystem
pore water flowline, convective flow, streambed, <I>Chara<R>, sea lamprey, beaver, hyporheic zone, flow pattern, 01686.
stream episodicity
tracer study, flow path, pre event water, soil water chemistry, organic acidity, spate specific flow pathway, surface water quality, acid stream, Sweden, Svartberget; 13378.
stream erosion
denudation, land use, morphological phenomena, Italy, Pescara, Abruzzo; 06004.
stream flow
Alpine water course, mean monthly flow rate, mountain basin, Parde index, flow rate estimation, Switzerland, Dranse de Bagnes, Valais Waterways; 12170. basin storage, drainage, wetland hydrology, beaver dam, subarctic wetland, runoff, 07470. boulder clay cover, lateral flow, field drainage system, groundwater recharge, stream head migration, runoff process, chalkland, UK, England; 05129. catchment characteristics, runoff regime, afforestation, flood, return period, extreme event, landuse effect, urbanisation, runoff, Switzerland, Emme River; Reuss Valley; 09916. catchment model, rainfall excess, flood peak, basin response, rainfall runoff model, overland flow, Monte Carlo study, rainfall sampling effect, USA, Iowa, Ralston Creek Watershed; 12164. climatic change, anthropogenic influence, water demand, flow forecasting, water resource, USSR; 09946. climatic variation, drought, rainfall deficit, runoff distribution, surface runoff, water resource, interannual fluctuation, Africa, Sahel; Senegal River; Africa, Niger River; 06266. data collection, monitoring network, gauging station, Canada, Manitoba, Pembina River; 13322. data shortage, arid area, semi arid area, rainfall runoff relationship, water resource study, regionalisation technique, flow duration curve, ungauged basin, Zimbabwe; 06290. delay time, unit hydrograph, shape parameter, geomorphologic unit hydrograph, catchment geomorphology, stream length, runoff, 05135. evapotranspiration, water budget, broadleaved sclerophyllous forest, forested catchment, rainfall runoff relationship, interannual variability, precipitation, Spain, Montseny Mountains; 06387. flood frequency, drought index, Palmers drought index, river stage, USA, Tennessee, Hatchie River; 10984. flood propagation, St Venant equation, flood wave, river management, Africa, Niger River; Senegal River; Africa, Gambia River; 06298. flood, travel time, crest, runoff event, Israel; 13326. flooding, drought, climatic variation, El Nino/Southern Oscillation, snow melt, annual fluctuation, seasonal fluctuation, precipitation, Chile, Aconcagua River Basin; 09786. forested catchment, runoff, deforestation, USA, Idaho, Horse Creek; Silver Creek; USA, Idaho, Tailholt Creek; 11091. frequency analysis, statistical analysis, method of moments, Weibull distribution, method of probability weighted moments, method of maximum likelihood, low flow frequency, Australia, (South East); 06276. groundwater storage, soil water storage, runoff, flood genesis, rainfall runoff relationship, France, Massif Central, Mont-Lozere; 06279. groundwater withdrawal, pumping well, surface water-groundwater interaction, stream depletion, superposition principle, 01789. historical sequence, index sequential method, reservoir storage, exceedance probability, parameter estimation, AR(1) log normal model, hydrological sequence, USA, California, Colorado River; Lake Powell; USA, California, Lake Mead; 13310. hydrological atlas, water resource, map, lake, water quality, precipitation, glacier, evaporation, water balance, Switzerland; 10967. hydrological data, flood, computer model, discharge forecasting, onchocerciasis, monitoring network, telemetry, river discharge, Togo; 06300. hydrological method, groundwater resource regime, surface water groundwater interaction, hydrogeology, Czechoslovakia, Bohemian Massif, Police Cretaceous Basin; 08803. National Weather Service River Forecast System model, climatic change, snow melt, snow accumulation, carbon dioxide induced climatic change, snowpack, USA, Montana; 05132. open water, velocity estimation, water velocity, water plant, discharge measurement, weed bed, 05154. parameter estimation procedure, mathematical model, model verification, catchment model, Germany, Northrhine-Westphalia; 06287. peak flow, runoff, transpiration, soil compaction, antecedent condition, dimensionless unit hydrograph, deforestation, flood hydrograph, Czechoslovakia, Sputka River; 06283. rapid response, short term flow, chemical response, catchment model, stream chemistry, water chemistry, UK, Scotland, Allt a'Mharcaidh; 13390. representative basin, temporal flow variability, flow response, catchment, stationarity, UK; 06280. runoff, peak discharge, catchment characteristic, drainage density, spatial variablity, France, Massif des Hautes Vosges; 12168. runoff, water balance equation, discharge variability, 13319. runoff, water balance, water exchange transfer, savannah catchment, evapotranspiration, computer model, Ivory Coast; 06297. seasonal flow, Mejia and Rousselle model, parameter estimation, disaggregation, 09805. slope, discharge variation, river, bedrock permeability, water retention, spatial variability, Poland; 00517. soil chemistry, flow path, catchment drainage, runoff chemistry, preferential flow, base flow, acid shock, surface water quality, acidification, UK, Scotland, Allt a'Mharcaidh; 13373. surface water constituent, transport estimate, flow record, regression analysis, river transport, 06274. surface water regime, runoff, acid rain, atmospheric deposition, deforestation, forest catchment, industrial emission, clear cutting, hydrological regime, Czechoslovakia, Jizera Mountains; 06390. suspended solid, sediment transport, erosion, mountain hydrology, Bolivia, Rio Beni; 12181. topography, elevation, groundwater flow, gravity flow, regional discharge, discharge drainage area relationship, base flow, Canada, Alberta, Plains Region; 07471. total suspended matter, sediment concentration, monsoon, total annual load, coarse silt fraction, sediment discharge, water discharge, India, Mahanadi River Basin; 05155. tropi-

cal environment, peakflow estimation, antecedent precipitation index model, rainfall runoff model, hydrograph recession coefficient, India, Wainganga River; USA, Hawaii; USA; 09800. turbulent stream, salt tracer dilution, current meter, stage discharge relationship, dilution gauging, irregular channel geometry, microcomputer system, discharge measurement, 08668. water balance modelling, areal precipitation, semi arid area, rainfall runoff model, temporal hydrological variability, temporal meteorological variability, spatial hydrological variability, spatial meteorological variability, Botswana, Mahalapswe; 06294. water marketing, instream flow benefit, water recreation, fishing, instream flow policy, wildlife habitat, USA; 01788. water quality, gauge distribution, domain theory, precipitation estimation, rainfall measurement, snowfall measurement, precipitation gauge, forest hydrology, water use, UK, Scotland, Balquhidder; 08650. water quality, nutrient, nitrate nitrogen, ammonium nitrogen, phosphate, calcium, magnesium, sodium, potassium, fire, preharvest burning, 06323.

stream flow chemistry
acidification, soil water through flow, stem flow, throughfall, canopy effect, infiltration, water chemistry, preferential flow, hillslope hydrology, flow path, UK, Scotland, Loch Ard; Allt a'Mharcaidh; 13316.

stream flow data
rainfall data, hydrological series, data analysis, statistical method, periodicity, Turkey; Saudi Arabia; USA; 13307. resource management, stream crossing, water storage, cost benefit analysis, data collection, 09939.

stream flow forecasting
National Weather Service, Airborne Gammaa Radiation Snow Survey, gamma radiation, National Remote Sensing Hydrology Program, snow water equivalent, meltwater, remote sensing, surface measured data, USA; 02941. telemetry, water resource forecasting, drought management, weather radar, rain gauge data, meteorological data, hydrological forecasting, reservoir operation, flood forecasting, UK, England, London; 06273.

stream flow gauging
hydrological data, water resources assessment, surface water resource, 09940. ice cover, runoff variability, glacier, mountain basin, Switzerland, Alps; 08799. lag time, unit area discharge, steep terrain, drainage basin, forested terrain, rainfall impulse tracking, runoff routing, data logger, storm hyetograph, tipping bucket rain gauge, headwater piezometer, 08673. rectangular weir, sediment flow, weir, V-notch weir, 12179.

stream flow generation
fissure, joint, flow path, infiltration, tensiometer, piezometer, overland flow, saturated lateral flow, groundwater flow, inter flow, groundwater discharge, 05127. water balance, hydrological modelling, mountain basin, spatial variability, water cycle, evapotranspiration, soil hydraulic property, France, Ringelbach Research Catchment; 08644.

stream flow measurement
precipitation gauge, hydrologic process, monitoring technique, analytical procedure, quality control, water budget, nutrient budget, mountain basin, data collection, Switzerland, Alptal Valley; 06286.

stream flow model
base flow, hydrograph, groundwater discharge, runoff, rainfall runoff relationship, initial contributing area, stream surface, surface saturation, subsurface flow, 05139. rainfall runoff model, daily runoff, tank model, mountain basin, India, Malaprabha River; 08683.

stream flow modelling
reservoir planning, stochastic model, risk methodology, peak flow, flood flow, low flow, 08731.

stream flow objective function
groundwater recharge, surface watershed model, sensitivity analysis, HYDROLOG, 01654.

stream flow pattern
runoff characteristics, flow duration curve, flow variability, flood, low flow, rainfall, vegetation, catchment characteristic, Guyana; 07467.

stream flow record
discharge, ice, daily stream flow, winter ice condition, Canada; 13441. historical data, flow reduction, cloud seeding, rainfall depth, watershed management, rainfall runoff relationship, mountainous watershed, 05124.

stream flow regime
forested basin, rainfall runoff relationship, water balance, afforestation, climatic fluctuation, air pollution, Czechoslovakia, Carpathian Mountains; 06389. geochemical denudation, stream solute variation, solute content, surface water quality, alpine stream, annual cycle, melt water, groundwater contribution, USA, Colorado, Colorado Front Range; 07496.

stream flow response
rainfall excess, parameter estimation, hydrograph separation, instantaneous unit hydrograph, upland catchment, quick flow, slow flow, UK, Wales; 05138.

stream flow variability
principal component analysis, spectral analysis, quick flow, base flow, rainfall variability pattern, Southern Oscillation, runoff variability, climatic influence, USA, (Southeast); Australia, (Southeast); 08666.

stream frequency
slope, hypsometric analysis, groundwater accumulation, geomorphological study, drainage pattern, basin development, seventh order basin, bifurcation ratio, Hortons exponential relationship, drainage density, India, Kabini River Basin; 11872.

stream function
equivalent fresh water head, variable density groundwater, groundwater flow pattern, fluid density, brine aquifer, variable density groundwater, cross sectional flow model, stream function solution, topographically driven flow, USA, Texas, Palo Duro Basin; 06353.

stream function equation
groundwater flow pattern, variable density groundwater, streamlines, variable density flow, equivalent freshwater head, 06352.

stream function solution
topographically driven flow, stream function, equivalent fresh water head, variable density groundwater, groundwater flow pattern, fluid density, brine aquifer, variable density groundwater, cross section flow model, USA, Texas, Palo Duro Basin; 06353.

stream gauging
bedload, drop sill, overflow weir, gauging station, mountain strea 08710. current meter, forested catchment, grass catchment, evaporati loss, crump weir, v notch weir, water balance, flat v weir, dilution gau ing, sediment accretion, velocity distribution, sediment load, sol load, mountain basin, structure calibration, UK, Scotland, Balquhidd Kirkton Catchment; Monachyle Catchement; 08708. flow met fluorescence dye tracer, flow measurement, salt dilution method, dil tion gauging, 08670. gauge network, flow measurement, data colle tion, cost evaluation, data value, flood protection, UK, England; 0418 gauge network, influence approach region, regional flood frequen flood frequency analysis, 08662. gauging structure, measureme method selection, expert system, flow measurement, 09812. slug inje tion method, mass balance, continuous injection method, dilution gau ing, mountain stream, USA, California, Sierra Nevada; 0866 telemetry, cost effectiveness, instrumentation system, 04184. ultrason gauge, sediment deposition, coarse sediment, sediment transport, Ita Rio Cordon; 08709.

stream gradient
drainage network optimization, stream network, stream capture, 0627

stream head migration
runoff process, chalkland, stream flow, boulder clay cover, lateral flo field drainage system, groundwater recharge, UK, England; 05129.

stream kinematics
stream dynamics, estuary, tidal surge, tidal variation, 00529.

stream length
runoff, stream flow, delay time, unit hydrograph, shape parame geomorphologic unit hydrograph, catchment geomorphology, 05135.

stream line
colour tracer, unsaturated flow, saturated flow, hydraulic conductivit groundwater flow, refractional water flow, layered soil, 04114.

stream loading
average rainfall, USLE, rainfal intensity, sediment loading, surfa water quality, soil erosion, USA, Iowa, Iowa City, Iowa River; 04070.

stream management
aquatic plant, aquatic animal, surface water quality, bioindicator, Ge many, Giessen, Wieseck Brook; Hassen, Wieseck Brook; 12205.

stream momentum method
surface water quality, river discharge, water resource, momentum equ tion, Poland, Odra Basin; Vistula Basin; 11110.

stream network
stream capture, stream gradient, drainage network optimization, 06275

stream power
sediment distribution, velocity, channel scour, concrete channel, floo dynamics, urban stream, flood event, Boundary shear stress, USA, Mi souri, Kansas City, Brush Creek; 04049. slope gradient, precipitatio infiltration, denudation rate, climate, fluvial soil loss, global scale, er dibility, sediment yield, relief, erosion rate, 01374.

stream profile adjustment
crustal warping, nonlinear result, model, crustal tilting, domal uplif 02501.

stream quality model
sewage overflow, dissolved oxygen, Streeter Phelps equation, transpo dispersion model, biodegradation, water quality, oxygen depletion, su face water quality, 07516.

stream sediment
trace element, tropical rainforest, rainforest, rainfall, cyclone, geochem ical mapping, Solomon Islands, Guadalcanal; 09484.

stream sediment load
overland flow, land use, sediment production controls, lowland catch ment, sediment production, runoff, storm event, hillslope sediment pro duction, UK, England, Devon, Slapton Ley; 01507.

stream solute variation
solute content, surface water quality, alpine stream, annual cycle, me water, groundwater contribution, stream flow regime, geochemic denudation, USA, Colorado, Colorado Front Range; 07496.

stream surface
surface saturation, subsurface flow, stream flow model, base flo hydrograph, groundwater discharge, runoff, rainfall runoff relationshi initial contributing area, 05139.

stream terrace
climatic gradient, upwelling, palaeoenvironment, arid zone river, allu vial plain, playa, gypsum crust, Namibia, Namib Desert, Tumas Basi 07218. Quaternary(Late), palaeoecology, palaeoenvironment, alluvi valley, radiocarbon dating, melt water, aeolian activity, sand dune, gl cial meltwater, braided stream, meandering river, pollen assemblag Holocene, USA, Missouri, Mississippi River; 07263. river valle landscape relative age, wetland surface, upland surface, pedogeni development, soil development index, upland interfluve, USA, Nort Carolina, Craven County; 08338.

stream terrace genesis
soil development, climatic stream terrace, tectonic stream terrace, com plex response degradation terrace, downcutting, aggradation, gravell bedload, fill cut terrace, alluvium, strath terrace, chronosequence diachronous, 02678.

stream tracer
solute transport, advection, dispersion, mountain stream, lithium trace transient storage, acidic stream water, surface water quality, USA Colorado, Montezuma, Snake River; 01681.

stream water chemistry
afforestation, liming, forest catchment, moorland catchmen aluminium, UK, Scotland, Loch Fleet Catchment; 02883. alpine catch ment, snowmelt, turbidity, colour, organic carbon, aluminium, sulphat retention, precipitation chemistry, Norway, Atna River, Storbekker 13375. aluminium mobilisation, water pathway, soil water chemistr surface water chemistry, ionic loading, acidification, sodium bromid Norway, Birkenes Catchment; 02890. antecedent condition, flow pat base flow, hydrogeochemistry, soil chemistry, subsurface flow, runo chemistry, Norway, Birkenes; 13377. cation concentration, riparia zone, groundwater quality, forest hydrology, hydrologic flow pat

Canada, Ontario, Toronto; 00603. groundwater chemistry, denitrification, sediment, hyporheic zone, 00494. mountain stream, nitrate, ammonia, suspended sediment, forest, chemistry condition, Switzerland, Prealps, Flyschzone; 08733. runoff chemistry, nitrogen, sulphur, canopy throughfall, drainage pattern, subsurface runoff, biogeochemical cycling, element budget, precipitation chemistry, throughfall density, Germany, Black Forest; 04087. soil acidification, sulphate reduction, base cation reduction, calcium decline, magnesium decline, acidification, inorganic monomeric aluminium, surface water quality, Norway, Birkenes Catchment; 04085. spatial variation, volcanic landscape, surface water groundwater interaction, phosphate, nitrate, Costa Rica; 12201. surface water, chemical dynamics, acid stream, atmospheric deposition, wet deposition, sulphate, aluminium, carbon, organic acidity, precipitation chemistry, acidification, Sweden, Svartberget; 13376. upland stream, magnesium, calcium, aerosol salt, surface water quality, sodium, chlorine, ion concentration, atmospheric deposition, UK, Wales, Plynlymon Range, River Leri; River Ystwyth; 05196.

ream water quality
drainage, bog, groundwater chemistry, leaching, nutrient budget, peatland, afforestation, runoff, 01752. ion uptake, acidic deposition, dry deposition, evapotranspiration, soil chemistry, acidification, afforested catchment, UK, Scotland; 09917. spring water quality, water quality analysis, adsorption, ferric hydroxide, radiation method, spectrophotometry, uranium concentration, groundwater quality, Turkey, Bergama-Balikesir Area; 07448. wetland, streamflow, nitrate removal, suspended solid removal, total phosphorus removal, USA, Minnesota, Minneapolis; St. Paul; 02879.

ream water temperature
mean temperature, daily mean, temperature estimation, UK, England, Teesdale; 01685.

ream-gauging program
streamflow record, data accuracy, USGS, data use, cost-effective operation, USA; 04179.

reambank erosion
silt up reservoir, land use regulation, landslide problem, watershed management, typhoon season, sediment load, Taiwan; 06039. USLE, soil erosion, software package, 00195.

reambed
<I>Chara<R>, sea lamprey, beaver, hyporheic zone, flow pattern, stream ecosystem, pore water flowline, convective flow, 01686.

reamflow
auto-regressive moving average, maximum likelihood method, minimum mean square error method, flow forecasting, stochastic model, India, Malaprabha River; Hemavathy River; India, Couvery River; 02840. extreme flood, low flow condition, hydrological model, forest cover, pasture, land use change, vegetation cover, water balance, evapotransporation, Belgium, Houille; 01655. flow estimation, river recession rate, soil characteristic, rainfall, lowflow, 04031. forecasting, suspended sediment, regression analysis, transfer function model, river, USA, Iowa; 09479. lag time, infiltration, subsurface flow, road construction, logging, flow regime, hydrograph, storm runoff, USA, California, Caspar Creek; 04152. log-linear relationship, log-quadratic relationship, kinematic routing model, partitioned log-linear model, velocity measurement, hydraulic geometry, velocity-discharge relationship, lowland river, UK, England, Lincolnshire; 04048. nitrate removal, suspended solid removal, total phosphorus removal, stream water quality, wetland, USA, Minnesota, Minneapolis; St. Paul; 02879. rainfall-runoff model, groundwater flow model, Dupuit-Forchheimer theory, Muskat theory, Darcy equation, average river runoff, 02844. surface water quality, throughfall, stemflow, soil throughflow, stream chemistry, hydrological budget, forest catchment, Norway spruce, sitka spruce, 02949. upland management, runoff, nitrate, eutrophication, phosphorus, potassium, reservoir, nutrient loss, sediment loss, surface water quality, catchment study, pasture improvement, UK, Wales, Nant-y-Moch; 02947. yield, low flow, runoff, antecedent precipitation, logging, USA, California, Caspar Creek; 04153.

reamflow characteristics
water quality, estuarine system, waste water, nitrogen, phosphorus, landuse, wateruse, USA, Florida, Charlotte Harbour; 09924.

reamflow data
water pollution control, opportunity loss model, economic value, 04183.

reamflow fluctuation
forest catchment, evapotranspiration, ion concentration, groundwater flow, throughflow, diurnal fluctuation, electric conductance, drought, Japan; 02843.

reamflow forecasting
AutoRegressive Integrated Moving Average model, reservoir operation, real time operational methodology, India, Karnataka, Bhadra Reservoir; 02849. hillslope hydrology, flow forecasting model, soil water storage estimation, 00574. hydrologic forecasting, realtime forecasting, National Weather Service River Forecast System, WMO, USA, Oklahoma, Bird Creek; France, Orgeval Basin; 00518. water resource management, snowmelt, snowmelt-runoff, Streamflow Synthesis and Reservoir Regulation Model, runoff quantification, India, Himalayas, Upper Yamuna Basin; 02942.

reamflow generation
evapotranspiration loss, stochastic conceptual model, catchment model, unit hydrograph, rainfall-runoff process, Nash-Dooge linear reservoir cascade, 02842.

reamflow loss
geochemical tracer, groundwater recharge, groundwater discharge, groundwater-surface water interaction, groundwater influx, Puerto Rico, Rio Grande de Manati; 02824.

reamflow management
sediment deposition, check dam, flood control structure, catchment management, riparian vegetation, riparian ecosystem management, channel stabilisation, erosion control, USA; 01782.

reamflow record
data accuracy, USGS, data use, cost-effective operation, stream-gauging program, USA; 04179. extreme flood event, palaeoflood record, parameter estimation, probability distribution, flood frequency analysis, 00514.

streamflow regulation
culvert, forest stream, cost-benefit model, pipe installation, 01769.

Streamflow Synthesis and Reservoir Regulation Model
runoff quantification, streamflow forecasting, water resource management, snowmelt, snowmelt-runoff, India, Himalayas, Upper Yamuna Basin; 02942.

streamflow time series
saturated overland flow, soil moisture accounting model, evapotranspiration flux, Hortonian overland flow, rainfall-runoff model, catchment dynamics, hillslope hydrology, antecedent condition, overland flow, subsurface flow, model calibration, 04042.

streamfunction
barotropic instability, beta channel, 01873. general circulation model, thermal forcing, low-frequency pattern, stationary wave, 01889. modon, vorticity, blocking, potential vorticity, 01893.

streamfunction budget
budget analysis, quadrature relationship, vorticity advection, eddy maintenance, stationary eddy, 13588.

streamline diffusion method
Petrov Galerkin modification, artificial diffusion, water contamination, surface water quality, space discontinuous Galerkin method, convection diffusion equation, 11015.

streamline pattern
chaotic streamline, fluid flow, vortex structure, Stoke flow, dynamo theory, 10490.

streamlined feature
erratic, esker, kame, delta, cirque, glacial trough, glacial deposit, Landsat TM, drumlin, Ireland; 13124.

streamlines
variable density flow, equivalent freshwater head, stream function equation, groundwater flow pattern, variable density groundwater, 06352.

street
address, GIS, emergency service, Canada; 13996.

street address file
housing intensification, GIS, municipal application, Canada, Ontario, Toronto; 01158.

street canyon
carbon monoxide, nitrogen dioxide, urban atmosphere, air quality modelling, air quality control, motor vehicle emission, Netherlands, Amsterdam; 01988.

street network
area master file, temporal model, database model, Canada; 13980. census data, database design, Statistics Canada, geographical information holdings, Canada; 01026. database, navigation system, road, 13982. GIS, emergency service, source databank, Canada, Ontario; 01156. network file, revision capacity, distributed file, Canada; 13985. postal code, GIS, statistical area, Canada; 13967. road delineation, SPOT, urban street, Canada; 13981. transportation planning, data graphics, census data, vehicle dispatch, Statistics Canada, Canada; 01159.

street network file
postal code, Statistics Canada, boundary file, census tract, Canada; 01031.

street traffic
environmental spatial research, emission, pollutant, 12521.

Streeter Phelps equation
transport dispersion model, biodegradation, water quality, oxygen depletion, surface water quality, stream quality model, sewage overflow, dissolved oxygen, 07516.

Streeter-Phelps dissolved oxygen model
dissolved oxygen, risk evaluation, water quality standard, 02963.

strength
deformation characteristic, foundation engineer, Older Sand, geotechnical aspect, Nigeria, Niger Delta; 03814. deformation, partly saturated soil, suctions test, penetration test, shear strength, 03745. elasticity modulus, cohesive soil, correlation, Iran; 03771. sand, in situ testing, screwplate test, triaxial compression test, Danish Code of Practice, Denmark, Sollerod; 03823.

strength measurement
soil strength, shear test, laboratory equipment, triaxial test, 13045.

strength moisture relation
hydraulic conductivity, tepetate, reclamation, indurated soil material, permeability, Mexico; 07423.

strength parameter
Maastrichtian, Cretaceous, Netherlands, Limburg; 03513.

stress
discrimination, biomass, remote sensing, vegetation, agriculture, spectral consideration, 12754. disturbance, vegetation dynamics, overgrazing, cattle breeding, gallery forest, river bed migration, Argentina, Chaco Region; 08329. fracture pattern, Alpine Fault, lineament, extension fracture, normal displacement, regional strain, neotectonics, New Zealand, Westland; 09505. geotechnical property, permeability, porosity, consolidation, carbonate sediment, 03509. inertial oscillation, sea breeze, dry season, savanna site, boundary layer process, Koorin experiment data(1974), surface flux, heat flux, Australia; 08871. pore water pressure, resilient property, granular material, hollow cylinder apparatus, 03817. shear deformation, micromorphological clay orientation, plasmic fabric, plasma separation, swelling, stress-strain regime, 02534. soil, biopore channel, porosity, root, 03957. turbulence, boundary layer, roughness change, rough surface, 07714.

stress budget
Reynolds stress, turbulent kinetic energy, forest, shear production, canopy, atmospheric stability, 10015.

stress detection
soybean, laser induced fluorescence, chlorophyll fluorescence, 12765.

stress divergence
equatorial Pacific, zonal momentum balance, ocean measurement, El Nino, turbulent stress, 13580.

stress evalution
agricultural crop, SAR data, 11552.

stress field

digital image processing, photoelastic stress analysis, underground chamber, 06732. plate convergence, authigenesis, coal, shale, cleat set, hydrothermal, USA, Pennsylvania, Anthracite Region; 02416.
stress field change
palaeostress indicator, Quaternary, Kenya, Gregory Roft; 08369.
stress history
consolidation model, Terzaghi, drainage condition, rheological model, soil, 03819.
stress measurement
tectonic interpretation, in situ stress measurement, flatjack technique, doorstopper technique, horizontal stress, neotectonic faulting, UK, England, Gloucestershire, Daglingworth Quarry; 08361.
stress orientation
Cretaceous(Late), Recent, tectonic stress, basalt dyke, magnetic susceptibility, microstructure, tectonic overprinting, Italy, Sicily, Capo Passero; 07170.
stress path dependent soil behaviour
hollow cylinder, torsional apparatus, generalised stress path, principal stress rotation, sand, 06020.
stress path probing test
anisotropic elastic stiffness, London Clay, soil stiffness parameter, 03739.
stress pattern
crustal inhomogeneity, neotectonic fault, tectodynamics, earthquake activity, earthquake catalogue, seismicity, focal mechanism, Fennoscandia; 11882.
stress physiology
ground truth control, terrestrial vegetation, chlorophyll fluorescence, 12766. laser induced chlorophyll fluorescence, blue fluorescence, 10409.
stress ratio relationship
soft clay, undrained stress path, pore pressure, 03740.
stress related change
biochemical change, coniferous forest, airborne spectrometer, 09236.
stress release
neotectonic activity, isostatic rebound, methane hydrate, methane venting, glacial plucking, bedrock fragmentation, Precambrian, crystalline bedrock, frost induced wedging, Finland; 08466.
stress strain behaviour
kaolin, electrolytes influence, 03752. oedometer, constraint modulus, mixed grained cohesive soil, till, 03755. sand, triaxial, shear test, shear modulus, 13046.
stress strain response curve
laboratory experiment, undrained triaxial compression, linearised integration technique, incremental constitutive equation, numerical technique, 08384.
stress system
orientation, near surface compressive stress, quarry floor, pop-up, Canada, Quebec, Quebec City; 01390.
stress test
granular material, general stress apparatus, 03750.
stress testing
reversed direct stress, ice, equipment, uniaxial stress experiment, experimental result, 07295. reversed direct stress, ice, fresh water ice, cyclic loading, Bausehinger effect, Granato Lucke theory, 07296.
stress-strain regime
stress, shear deformation, micromorphological clay orientation, plasmic fabric, plasma separation, swelling, 02534.
stretching
reequilibration, deformation, palaeotemperature, fluid inclusion, diagenesis, 09440.
striae
glaciotectonic loading, unloading, glacigenic, postglacial faulting, deplaced glacial striae, glacial erosion, Canada, New Brunswick, Saint John; 04999. moraine form, morphology, glacial transport direction, ore body, boulder train, 06114.
striated clast pavement
deforming sediment, subglacial sediment, glacier dynamics, abrasion, yield strength, subglacial deformation transport, sediment shear strength, Canada; USA; 11941.
strike
digital terrain model, dip, three dimensional geological map, 12712. dip, uranium exploration, SPOT, DEM, geological data, France, Herault, Lodeve Basin; 12720.
strike slip
fault motion, earthquake, surface ruptures, sinistral strike slip motion, neotectonic fault, compression, seismic fault motion, Greece, Akarnania Region; 08367. plate movement, sedimentation, rift, tectonics, upheaval, Egypt, Red Sea; 03630. reverse faulting, geodetic survey, surface displacement, earthquake, San Francisco earthquake, Loma Prieta earthquake, USA, California, San Andreas fault; 07168.
strike slip fault
foreland fold thrust belt, Kalabagh Fault, decollement thrust, right lateral offset, gravity anomaly, earthquake, Pakistan, Salt Range; 04897. tectonic block, microearthquake, magnetotelluric survey, active fault system, geophysical survey, Japan, Kinki District; 09504.
strike slip faulting
subduction, structure, continuous reflection profile, seismic reflection profile, tectonic depression, Aegean Sea; 03715.
strike slip movement
Galdenoch Formation, Ordovician, greywacke, sedimentary provenance, Kirkcolm Formation, isotopic composition, UK, Scotland, Southern Uplands; 08244. GLORIA data, neotectonic setting, Puerto Rico; 06012.
strike slip offset
space problem, Quaternary uplift, Mendocino triple junction, fission track age, uplift, unroofing, stability, uplift history, USA, California, King Range, San Andreas Fault; 11878.
strike-slip fault
extrusion, Landsate MSS, Turkey; 03410. fan delta, sediment supply, Gilbert type, Miocene, alluvial fan, sandstone, facies change, Korea, Ulleung Back-arc Basin, Pohang Basin; 00144. Miocene, subsidence, San Andreas Fault, Oligocene, Vaqueros Formation, USA, Californ Coast Ranges, Cuyama Basin; 03626.
strike-slip movement
geodetic shear strain, Alpine fault zone, triangulation network, Pacifi Australian Plate, plate boundary, New Zealand, South Island, Haas 13032.
strip
curve fitting, 02121.
strip cropping
discharge depth equation, flow retardation, flood flow, vegetation, ove land flooding, erosion control, flow equation, Manning n, Australi 07461. soil erosion, conservation policy, water management, shelt belt, Europe; 01501.
strip mine
pore water, organic matter, spoil, sulphur, lake, mine drainage, USA 09327.
stripe
free convection model, self organisation form, patterned ground, so recurrently frozen, polygon, 06193.
stripping
regolith, weathering, silicic massif, volcanic massif, ignimbrit bornhardt, sheeting fracture, columnar joint, Beck Surface, Australi South Australia, Gawler Ranges; 13038.
stroke
length bound, discharge, triggered lightning, lightnining, 11159.
stromatolite
algae, cyanobacteria, tidal current, diatom, Atlantic, (North-West 11770. benthic, Precambrian, stromatolite, microbial community, salin lake, Australia, Western Australia, Cervantes, Lake Thetis; 0121 biomineralization, calcite, cave, cyanobacterially deposited speleothen speleothem, subaerial stromatolite, stalagmite, Australia, New Sout Wales; 01413. calcium, fluorite, dolomite, carbonate, palaeoenviron ment, lake, Tanzania, Lake Natron; 05816. calcrete, carbonate, geomo phology, Spain, Henares; 01229. Cambrian, thrombolite, skelet stromatolite, ooid, girvanella, laminae, China, Sichuan Provinc Xiushan; 07057. carbon-13 depletion, sea water, brine, carbon cycl microbial mat, Precambrian, Israel, Elat; 05911. chert, Proterozoic, Bi Cusp Algal Dolomite Member, Kona Dolomite, diagenesis, dolomit gypsum, ooid, USA, Michigan, Marquette; 05904. Holocene, hydro climatic history, encrustation, benthic community, Burundi, Lake Tan ganyika; 02320. hypersalinity, Messinian, sand, algae, diatom, trap ping, Spain, Almeria, El Joyazo; 11741. iron oxide, sea level chang iridium anomaly, hardground, meteorite impact, microbial process, Aus tralia, Western Australia, Canning Basin; 11799. lamination, Holocen reef, cyanobacteria, mollusc, algae, sponge, Atlantic, (Northwest) Bahamas; 05924. microbial community, saline lake, stromatolit benthic, Precambrian, Australia, Western Australia, Cervantes, Lak Thetis; 01212. oolite, sedimentary cycle, platform, Buntsandstein, Plat Dolomite, packstone, Poland, Leba Elevation, Puck Bay Area; 0128 organo-sedimentary structure, cyanobacteria, growth rate, lamination Precambrian, Holocene, Australia, Western Australia, Shark Bay 01318. sea water, cyanobacteria, calcite, Proterozoic, aragonite, micro bialite, Turkey, Anatolia, Lake Van; 07073. sedimentation, ice cove lake, microbial mat, Antarctica, Lake Hoare; 10530. Triassic, lime stone, brachiopod, Haliw Formation, Norian, wackestone, Oman, Oma Mountains; 11744. tufa, oncolite, fluvial channel, France, Seine Basin Somme Basin; 07005.
stromatolithic coating
micromorphological interpretation, nari-calcrete, calcrete, Israel Galilee, Nazerat; 01485.
stromatolitic
calcareous, tufa, organism, tufa edification, France, Paris Basin; 05926.
stromatolitic carbonate
microtexture, speleothem, stable isotope signature, humid climate, car bonate, calcrete, 01475.
stromatoporoid
aragonite, Devonian, skeleton, diagenesis, magnesian calcite, biom ineralogy, USA, New York State; 12978.
strombus bubonius
Th-230/U-234, dating, isotope substage, Tyrrhenian, shoreline, uplift Italy, Calabria, Vibo Marina; 11986.
strong acid
peat soil, forest catchment, lysimeter, surface water quality, input outpu budget, chemical mineralisation, leaching, runoff chemistry, organi acid, Sweden; 13379.
strong wind
winter(1989-1990), historical perspective, windy period, wind climat mean, UK; 09980.
strong winds
boundary layer, Von Karman formula, turbulence, wind, gustiness 01855.
strongly implicit procedure
computer storage, iterative solution, groundwater flow problem, conju gate gradient method, 06349.
strontium
ankerite, Permian, decarboxylation, Rotliegend Sandstone, carbon North Sea, Leman Gas Field; 05964. barite, sandstone, Jurassic Morrison Formation, saline water, USA, Colorado Plateau; 05936. cal cite, diagenesis, Holocene, fresh water, groundwater, cement, Atlantic Bahamas, Schooner Cays; 00064. calcium, barium, phosphorite, substi tution, apatite, 03653. carbonate, isotope ratio, sea water, reservoi pore water, Weddell Sea, Maud Rise, ODP Site 689; 03657. ion adsorp tion, adsorption site, soil suspension, caesium, cobalt, USA, Texas Hudspeth County; 09681. marl, carbonate, gypsum, evaporite, trac element, Spain, Duero Basin; 10602. Pleistocene, Pliocene, interstitia waters, isotopic composition, magnesium, Caribbean Sea, ODP Hol 671 B; Barbados Ridge, ODP Hole 671B; 02369. rubidium, cascad impactor, isotope dilution mass spectrometry, sea salt, dust, aerosol Pacific easterly, lead, barium, potassium, Pacific, American Samoa 02044. salinity, hydrochemistry, ostracode, Pleistocene, lacustrin deposit, palaeohydrochemistry, magnesium, Spain, Baza Basin; 00280 sea water, foraminifera, palaeoceanographic record, marine sediment

chronostratigraphy, 09371. sea water, Permian, Zechstein, sulphur, isotopic composition, Germany; 12930. sedimentation, cement, pelagic carbonate, diagenesis, isotopic composition, Indian Ocean, ODP Site 709; Mascarene Plateau, ODP Site 709; 03623. stratospheric particle, balloon-borne collector, particle, sampling, microparticle, chlorine, iron, zirconium, copper, sulphur, bromine, zinc, titanium, nickel, 03201. sulphate reduction, methane fermentation, sodium calcium ion exchange, calcite dissolution, nitrate reduction, saline groundwater, organic carbon oxidation, magnesium, isotopic evidence, hydrogeochemical process, groundwater chemistry, carbonate chemistry, calcite saturation, UK, England, Lincolnshire Limestone; 11081. titanium, zinc, cadmium, rubidium, potassium, manganese, boron, calcium, molybdenum, forest plant, herbarium plant, precipitation, soil acidification, mineral weathering, Norway; 00933.

rontium 90
caesium isotope, stratosphere, radioactivity, temporal variation, fallout, accident, USSR, Chernobyl; Japan, Ibaraki, Tsukuba; 11371.

rontium carbonate
celestite, mineralisation, Permian, limestone, gypsum, 00163.

rontium isotope
atmospheric deposition, isotope tracer, snow chemistry, oxygen isotope, hydrogen isotope, Scandinavia; 07578. carbonate, Carboniferous, isotope diagenesis, aragonite, sea water, 08276. till, modelling approach, organic acid, mineral weathering, weathering, acid rain research, historical weathering loss, input output budget, Norway; Sweden; Finland; 09626.

rontium isotopic composition
sea water, chemical weathering rate, dissolved flux, ocean, planktonic foraminifer, uplift rate, accumulation rate, marine sedimentary record, tectonism rate, 05049.

rontium sorption
sediment groundwater system, groundwater quality, surface complexation model, cation exchange capacity, sorption, speciation, strontium speciation, Germany, Gorleben; 07569.

rontium speciation
strontium sorption, sediment groundwater system, groundwater quality, surface complexation model, cation exchange capacity, sorption, speciation, Germany, Gorleben; 07569.

rontium-90
caesium-137, nuclear fallout, groundwater contamination, surface water contamination, surface geology, radiological contamination, drinking water, morainic soil, peat soil, Denmark; Greenland; Faroe Islands; 04023. caesium-137, radioactivity, iodine, particulate, Chernobyl nuclear accident, radionuclide, deposition, Italy, Saluggia; 00926. caesium-137, soil characteristic, radiological contamination, surface water quality, groundwater quality, Denmark; Faeroes; 06371.

RUCTURA
heterogeneous structure, digital image, vertical section, soil pore structure, image analysis, 09720.

uctural
topographic influence, remote sensing, snow avalanche path, GIS, lithologic, USA, Montana, Glacier National Park; 03825.

uctural analysis
image processing, linear feature, Landsat MSS, Spacelab, HCMM, France; 03414. multiphase deformation, deformation, geodynamics, Borneo, Rajang-Crocker; 04601. shear zone, gold mineralisation, France, Brittany; 06819.

uctural characteristic
earthquake, Ierissos Earthquake(1932), Agios Efstratios Earthquake(1968), fault geometry, dextral strike slip movement, transtensional deformation, hangingwall, Aegean Sea; 08368.

uctural control
overdeepened lake, seismic reflection, fjord lake, bedrock relief, glacial sediment fill, glacial overdeepening, Canada, British Columbia, Kalamalka Lake; 07226. regional slope, Precambrian rift, preglacial drainage, USA, Kentucky, Kentucky River; Licking River; USA, Ohio; USA, Indiana; 01395.

uctural crust
depositional crust, infiltrability, crust development, soil crust, Aquic Hapludalf, France, Paris; 08566.

uctural damage
silt soil, unstable soil, soil loosening, drainage, experiment, storm water, 07335. swelling soil, building, embankment, Greece; 03812.

uctural description
linear filtering, lineament, SPOT, 03413.

uctural domain
stability analysis, sliding probability map, probabilistic approach, rock slope stability, slope stability, joint, Italy, Rome Region; 08389.

uctural feature
Landsat imagery, geomorphology, India, Andhra Pradesh, Vamsadhara River Basin; 00225.

uctural formula
solubility, equilibration method, illite, potassium, 11810.

uctural heterogeneity
neotectonic fault zone, normal fault zone, slip plane geometry, deformation pattern, hangingwall salient, fault scarp, degradation, Greece, Aegean Region; 08366.

uctural high
Holocene, seismostratigraphic unit, Quaternary, erosional surface, seafloor, clinoform, tectonic deformation, Italy, Adriatic coast, Gargano Promontory; 05848.

ctural history
raben, extension, fault, Tertiary, Paleogene, Neogene, USA, Utah, Salt Lake City; Basin and Range Province; USA, Utah, Great Salt Lake; 01290.

ctural improvement
mic acid, soil aggregation, micromorphological study, fulvic acid, ugh, aggregate, 07341.

ctural interpretation
ndsat TM, geological map, lithologic component image, Saudi Ara-; 03408.

ctural lineament
desert, radioactive area, autocorrelation, lineament, Egypt, Gebel El Missikat; 04600.

structural map
granitic dome, SPOT, Variscan basement, shear zone, France, Brittany; 05707.

structural mapping
arid terrain, DEM, Landsat TM, Tunisia; 06833. mapping, coral, reef, thematic mapping, SPOT, Pacific, New Caledonia, Tetembia Reef; 04660. remote sensing, geology, France, Parisian Basin; 13901. SPOT, South American Shear Zone, mapping, temperate region, France; 04603.

structural matching
segment splitting, line correspondence, 03328.

structural model
image classifier, classifier, parallel processing, transputer, implementational model, 13795.

structural non uniformity
quantitative assessment, territorial differentiation, karst system, taiga, mathematico-statistical method, USSR, Arkhangel'sk Oblast'; 11902.

structural orientation
Cretaceous, fault, Jurassic(Upper), Wessex Basin, tectonism, subcrop, UK, England; 09418.

structural performance assessment
building structure, tornado, Hurricane Gilbert(1988), storm, Jamaica; 09993.

structural property
over consolidated clay, lacustro glacial clay, Saalian ice sheet, geotechnical engineering, sub glacial sediment, sediment deformation model, geotechnical property, Netherlands, Groningen Province, Marum; 10772.

structural regeneration
sandy loam, penetration resistance, soil bulk density, hardsetting soil, root growth, UK; 12083.

structural relief
relief form, volcanic activity, lineament, geomorphological map, Mexico, Basin of Mexico, Sierra de Monte Alto; 09528.

structural stability
aluminium oxide, iron oxide, organic matter, flocculation, dispersion, arid zone soil, clay dispersivity, 08570. genericity, terminal moraine, field evidence, past ice sheet, 00289. hardsetting soil, soil structure, tillage, dispersive behaviour, Australia, Western Australia; 12053. microaggregate, ploughed layer, soil structure, water suspensible solid, 08569.

structural style
Campo Grande Fault, fault, basin and range tectonism, fault scarp, movement rate, recurrence interval, extensional tectonism, neotectonic history, USA, Texas, Hueco Basin; 11881. Neogene, Nazca Plate, continental margin, forearc sediment, tectonic erosion, accretionary complex, Pacific, Peruvian Forearc; 01303.

structural subdivision
megageomorphology, global geomorphology, plate tectonics, ocean floor, 07126.

structural subunits
fractionation, humic acid, absorption chromatography, 08596.

structural unit
flood volcanism, hot spot, supercoronae, tectonics, model review, Venus; 07152.

structure
body, territoriality, landscape, territorial structure, macro body interaction, 05985. continuous reflection profile, seismic reflection profile, tectonic depression, strike slip faulting, subduction, Aegean Sea; 03715. engineering surveying, intersection, verticality, three-dimensional coordinate, 05607. erosion, scour, storm, beach profile, coastal process, 01254. fluvial process, channel bank collapse, Tertiary, synsedimentary deformation, slumping, Germany, Lower Rhine Basin; Cologne-Duren Area, Hambach; 04706. groundwater interception scheme, upward leakage, saline groundwater, hydrogeology, groundwater discharge, surface water quality, stratigraphy, Australia, South Australia, Murray Basin; 05269. gust, bridge, wind, UK, Scotland, Forth Railway Bridge; 01801. natural soil, weak rock, engineering property, compressibility, constitutive relations, fabric-structure of soil, shear strength, 04904. Quaternary, outwash sediment, ice striated pebble, ice melt, graben structure, periglacial environment, ice rich diamicton, redeposited diamicton, diamicton block, Austria, Inn Valley, Innsbruck; 07241. remote sensing, geological structure, geomorphological structure, USA; 02198. temperate karst, tropical karst, polymorphism, residual karst relief, mogote, karstic landform, lithology, Spain; Poland; UK; 08405. triangulation, optical triangulation, cross section, profile, 04478. uplift, piggyback basin, fault, compressional structure, palaeostress, Italy, Sant'Arcangelo Basin; 13037.

structure calibration
stream gauging, current meter, forested catchment, grass catchment, evaporative loss, crump weir, v notch weir, water balance, flat v weir, dilution gauging, sediment accretion, velocity distribution, sediment load, solute load, mountain basin, UK, Scotland, Balquhidder, Kirkton Catchment; Monachyle Catchement; 08708.

structure degradation
soil physical property, wheel traffic, field traffic, compression, Czechoslovakia; 09705.

structure function
turbulent flow, shear flow, scaling function, 07635.

structure life
flood, return period, extreme event, design flood, 07474.

structure mapping
granite, middle mountain, biogeodynamic factor, geomorphic process, pedologic process, hydrologic process, France, Mont Lozere; 09494.

structure return interval
subsea structure, areal gouge generation rate, simulation method, numerical simulation, ice gouge depth, 08456.

structure stability
flood, embankment, dyke, hydraulic model, erosion, France, Arve River; 12182.

structure zone
boudinage, stratigraphic disturbance, glacial ice, hydrodynamic model, interface stability, stratified fluid, boudin, model, Sangamon ice, radio echo sounding, Greenland, Summit; 07305.
structured information
spatial information systems, information engineering, data model, 01011.
structured soil
soil resilience, compressive stress, deformation, cyclic loading, 03962.
structuring
cartographic data, database management, quality criteria, data model, 13864.
Struthio camelus
dating, lacustrine episode, epimerisation, isoleucine, ostrich eggshell, eggshell, Africa, Sahara; 13097.
Strzelecki dunefield
hyperaridity, uranium series, dating, lake, dune, hydrological cycle, salt lake basin, evaporite, carbonate pedogenesis, aeolian dune, uranium series date, dune stabilisation, Australia; 13106.
student
sedimentary environment, SEDRULE, simple expert system, program, LISP programming, 03683. ternary diagram, classification, sandstone, provenance, 04882.
study contribution
temperature, river, tropical region, dry season, Zaire, Lubumbashi, Lubumbashi River; 11171.
study period(1932-1983)
rainy season, interannual variability, Africa, (East); 07677.
study soil
Reynolds Number, permeability, laminar flow, percolation, groundwater flow, 06328.
stump
meander, Jurassic, petrified forest, Shishu Formation, wood, logs, China, Xinjiang, Junggar Basin; 01307.
stump cluster
glacier advance, Laurentide ice sheet, readvance, Miami sublobe, radiocarbon, glacial stratigraphic interpretation, contamination, USA, Ohio, Cincinnati, Sharonville Site; 01430.
stylolite
compaction, cementation, sandstone, pressure solution, porosity, 02385. dissolution, precipitation, burial, limestone, stratiform, 04809.
stylolitisation
burial, Cretaceous, Helvetiafjellet Formation, synsedimentary, delta front sediment, deformation, Svalbard, Spitsbergen; 04711. pore space, diagenesis, permeability, cementation, porosity, Mississippian, Salem limestone, USA, Indiana; 00123.
sub aerial denudation
passive margin, regional elevation, local relief, denudation rate, elevation, slope gradient, Africa, (Southern); 11833.
sub aqueous precipitate
cave, tilting, faulting, geothermal gradient, boxwork, seasonal solutional enlargement, aquifer, Quaternary, tectonic activity, regional aquifer flow, radiometric dating, USA, South Dakota, Wind Cave; 10722.
sub Boreal
dam, pollen analysis, tufa, peat, France, Calvados, Reviers; 07010. river incision, tufa dam, Holocene, pollen analysis, Atlantic, France, Eure, Bernouville; 06964.
sub bottom profiler recording
knowledge based interpretation, acoustic image, ocean resource development, sidescan sonar, 10286.
sub catchment scale
geographical information systems, hillslope hydrology, field process investigation, computer modelling, hydrological process, soil physics, catchment scale, 10997.
sub glacial sediment
sediment deformation model, geotechnical property, structural property, over consolidated clay, lacustro glacial clay, Saalian ice sheet, geotechnical engineering, Netherlands, Groningen Province, Marum; 10772.
sub grid scale process
general circulation model, carbon dioxide, climate change, 05445.
sub grid variation
mixing length model, boundary layer, gradient transfer model, large eddy simulation, statistical representation, 10022.
sub humid area
plant cover, semi arid area, erosion, weathering, Morocco, Adour Basin; Sebou Basin; 09325.
sub ice bathymetry
AEM sounding system, sea water conductivity, airborne measurement, electromagnetic measurement, sea ice thickness, USA, Alaska, Prudhoe Bay; 10814.
sub marine geology
intra continental shear, morphogenesis, coastal relief, continental margin, marginal ridge, subduction chain, Spain, Galicia; 03712.
sub surface colluviation
colluvial deposit, eutrophication, nitrogen transport, UK, England, West Sussex; 08394.
sub surface deformation structure
bioturbation, ice keel turbate, iceberg scour, geological record, glacial Lake Agassiz, Canada, Manitoba; 04996.
sub tropical complex
coastal dune complex, fossil dune complex, accelerated erosion, sheetwash, deflation, gully form, soil erosion, South Africa, Transkei; 08554.
sub tropics
global soil change, atmospheric pollution, greenhouse effect, acid deposition, climate change, tropics, 08562. soil research, global soil change, climate change, soil process, tropics, 08560.
sub-Arctic coccolith
coccolith biochronology, North Atlantic drift water influx, coccolith, biostratigraphy, oxygen isotope stratigraphy, ice rafting, synthesis, Arctic coccolith, Atlantic; 02607.
sub-arid area
erosion rate, thorium-uranium disequilibria, carbonate rich soil, Syria Palmyra Basin; 00209.
sub-bottom profiling
overcompacted diamicton, sediment texture, mud, lag sediment, diamicton, Weddell Sea, Filchner Depression; 02357.
sub-cloud layer
monsoon, lifting condensation level, stability, 03071.
subaerial deposition
subaqueous deposition, Miocene, Tecuya Formation, volcanic succession, pyroclastic flow, USA, California, San Joaquin Basin; 07060.
subaerial exposure
estuary, diatom, sediment load, mudflat, UK, England, Tamar Estuary Severn Estuary; 03541.
subaerial stromatolite
stalagmite, stromatolite, biomineralization, calcite, cave, cyanobacterially deposited speleothem, speleothem, Australia, New South Wales 01413.
subalpine
pine woodland, summer frost, pine climatic requirement, resource competition, 06465.
subalpine avalanche
sediment yield, microscale cascade, sediment cascade, dendrogeomorphology, Holocene, non equilibrium process, geomorphic process geomorphic pattern, avalanche path, USA, Rocky Mountains; 13055.
subalpine forest
spruce fir forest, acidity, organic matter content, forest soil, trace metal montane forest, USA, (Northeast); 07419.
subalpine heath
periglacial condition, evapotranspiration, tundra, cryogenic process Permafrost, geoecology, Sweden, Abisko Valley; 03916.
subantarctic
environment, biology, coastal erosion, glaciation, periglacial phenomena, bibliography, Southern Ocean, Macquarie Island; 04894. pollen, diatom, desmid, rhythmite, Holocene, environmental change, lake sediment, Antarctica, South Georgia; 09597.
Subantarctic forest
Magellanic moorland mosaic, rainfall, hygrophyllous plant formation, glacial climate, vegetation, palynological evidence, Chile, Isla de Chiloe; 05015.
subaqueous deposition
Miocene, Tecuya Formation, volcanic succession, pyroclastic flow, subaerial deposition, USA, California, San Joaquin Basin; 07060.
subaqueous fan
drainage network instability, discharge surging, moraine formation, subglacial sedimentation, glaciolacustrine sedimentation, rapid sedimentation event, glacial Lake Agassiz, esker, Canada, Ontario; 09575. fan delta, debris poor glacier, moraine, kame, glacier morphology, surficial geology, glacial stratigraphy, high arctic, mountainous terrain, till, morainal bank, Canada, Ellesmere Island, Wootton Peninsula; Phillips Inlet; 10764.
subaqueous speleothem
thermal water, smoker chimney, helictite, speleothem, helictite bush, USA, South Dakota, Wind Cave; 10723.
subarctic
deep water, lysocline depth, carbonate system, oceanography, palaeoclimatology, carbon dioxide, Pacific, (North); 10649.
subarctic climate
subtropical climate, climate type, oceanic climate, continental climate, Bacsaks climate type, Milankovic theory, glacial climate, antiglacial climate, 08417.
subarctic fen
boreal fen, fen margin, pore water, peat, methane flux, Canada, Quebec; 09014. fen, skin flow, throughfall, soil water, surface water quality, evaporanspiration, dissolved organic carbon, Canada, Quebec, Schefferville; 07506. ombrotrophic fog, methane emission, fen, bog, swamp peatland, static chamber technique, spring thaw, winter freezing, Canada, Quebec; 04411.
subarctic marsh
coastal marsh, subsurface water flux, advection, dispersion model, solute transport, chloride distribution, wetland, vertical water flux, salinity, Canada, James Bay; 09852.
subarctic wetland
runoff, stream flow, basin storage, drainage, wetland hydrology, beaver dam, 07470.
subarctic woodland
snowpack, open woodland, snow, ground, thermal regime, Canada, Quebec, Schefferville; 01456.
subAtlantic
slope erosion, Little Ice Age, human disturbance, postglacial deposit, cirque, intramorainic depression, lithostratigraphic unit, Atlantic period, subBoreal, Poland, Tatra Mountains; 09601.
Subboreal
radiocarbon date, deforestation, slope degradation, sedimentation, postglacial deposit, Quaternary fill, intramorainic depression, cirque, lithostratigraphic unit, Atlantic period, Poland, Tatra MountainsStararobocianski Cirque; 11971. subAtlantic, slope erosion, Little Ice Age, human disturbance, postglacial deposit, cirque, intramorainic depression, lithostratigraphic unit, Atlantic period, Poland, Tatra Mountains; 09601.
subcrop
structural orientation, Cretaceous, fault, Jurassic(Upper), Wessex Basin, tectonism, UK, England; 09418.
subcrustal layering
rheological parameter, uplift paradigm, glacial isostatic theory, driving mechanism, Fennoscandia; 13034.
subdivision planning
residential area, GIS, Canada, Saskatchewan, Saskatoon; 13973.
subduction
accretionary wedge, methane, manganese, chloride, sea water, fluid

advection, Caribbean Sea, Barbados Accretionary Complex, Leg 110; Leg 110; 08240. decollement, illite, earthquake, consolidation, seismicity, smectite, 01184. decollement, volcanic ash, smectite, accretionary complex, thrust fault, clay mineralogy, Atlantic, Barbados Ridge; 01356. Nazca Plate, convergent margin, tephra, volcanic acticity, Quaternary, Miocene, Pliocene, Peru; 01292. sediment loading, convergent margin, permeability, compaction, porosity, dewatering, Caribbean Sea, Barbados Ridge; 02370. structure, continuous reflection profile, seismic reflection profile, tectonic depression, strike slip faulting, Aegean Sea; 03715. volcaniclastic deposit, thrust slice, Palaeozoic, chert, orogen, Australia, New South Wales, New England; 01299.

bduction chain
sub marine geology, intra continental shear, morphogenesis, coastal relief, continental margin, marginal ridge, Spain, Galicia; 03712.

bduction hinge migration
rollback, plate motion, trench arc backarc system, hotspot, Philippine Sea, Izu-Bonin-Mariana Arc; 03726.

bduction margin
dextral fault, reverse fault, palaeoearthquake, seismic hazard studies, fault behaviour variation, tectonic province, marine terrace, New Zealand; 08375.

bduction zone
back arc basin, lithosphere, geodynamic event, Quaternary, Philippine Sea; Japan Sea, Gulf of Peter the Great, Vostok Gulf; 10562. eustatic rise, sea level, earthquake, postseismic uplift, coseismic uplift, uplift rate, postseismic relaxation, tide gauge, USA, Alaska; 09503. geotechnical study, bulk density, shear strength, plate margin, pelagic clay, volcanic sediment, Banda Sea; 00093. manganese, hydrothermal, dolomite, backarc basin, volcanic arc, Tyrrhenian Sea; 00096. Quaternary(Late), terrace deformation, marine terrace, Cascadia subduction zone, neotectonics, tectonic tilting, regional stress, USA, Oregon, Cape Blanco; 06174. ridge belt, compressional structure, extensional structure, extension, spreading zone, Venus; 07160. sedimentological evidence, Yakataga diamict, GLORIA imagery, sediment pathway, low stands of sea level, slope valley, glacimarine environment, USA, Alaska, Gulf of Alaska; 04970. silica, tectonic history, Caribbean Plate, Cretaceous, Cenozoic, Caribbean Sea; 08241. tectonic displacement, shoreline, earthquake, deformation, seismic cycle, USA, Alaska; 07166.

bequatorial mountain
solifluction sheet, creep, gelifluction, sorting, frost heaving, stratified slope deposit, slope model, stratification mechanism, slope deposit, Bolivia, Andes; Peru, Andes; Ecuador, Andes; 10713.

bfreezing snow
mathematical model, water flow, heat transfer, meltwater refreezing, porosity, capillary effect, bulk density, snow temperature, grain size, meltwater infiltration, 01745.

bglacial
marine process, piston core, dropstone, tidal pumping, iceberg rafting, laminated terrigenous sediment, Antarctica, Antarctic Peninsula; 05010.

bglacial aquifer
glacial surge, hummocky stagnation moraine, Rainy lobe, Laurentide Ice Sheet, subglacial meltwater production, pore water pressure, permafrost, ice margine thrusting, drift, bedrock, thermal regime, USA, Minnesota; 02638.

bglacial bed topography
ice thickness, mass balance, climatic change, geostatistics, glaciology, radio echo data, Antarctica, Dronning Maud Land, Scharffenbergbotnen; 00346.

bglacial boundary
boundary layer, water pocket, regelation cycle, debris rich ice layer, temperate glacier, 07298.

bglacial channel
British Geological Survey, Quaternary geology, UK Norway median line, Ferdar Formation, Cape Shore Formation, Flags Formation, Elsterian, Saalian, Weichselian, UK, Scotland, Bressay Bank; 09563. flood, glacier lake, outburst flood, jokulhlaup, China, Xinjiang, Yarkant River; 03899. geological memoir, geology map, Anglian ice sheet, Crag deposit, UK, England, Essex, Great Dunmow; 10683. Lightmoor Channel, Chelford interstadial, Shrewsbury Formation, glacial deposit, Four Ashes, type site, Devensian stage, Stockport Formation, Newer Drift, Iron Bridge gorge, UK, England, West Midlands; Cheshire Plain; 13135. radiocarbon date, Allerod, laminated rhythmite, deadice, Bolling interstadial, Weichselian(Late), Flandrian(Early), vegetation, pollen diagram, core, Germany, Schleswig Holstein, Angeln; 08482.

bglacial component
conductivity, calcium concentration, glacier, melt water, chemograph separation, englacial component, hydrograph separation, bulk discharge, Switzerland, Valais, Arolla Glacier; 08800.

bglacial conduit
glacial drainage, conduit shape, subglacial water pressure, 00628.

bglacial consolidation
fine grained sediment, stratified sediment, ice thickness, Pleistocene, valley glacier, ice loading, shear strength, Atterberg consistency limit, ice thickness reconstruction, Austria, Alps, Vorarlberg; 07240.

bglacial deformation transport
sediment shear strength, striated clast pavement, deforming sediment, subglacial sediment, glacier dynamics, abrasion, yield strength, Canada; USA; 11941.

bglacial deposition
deformable bed, clast fabric, sand intraclast, diamicton melange, glacial sedimentology, Canada, Ontario, Niagara Peninsula; 09576.

bglacial drainage
glacier, dye tracer test, drainage system, Norway, Midtdalsbreen; 00630.

bglacial dune
dune, gravel, drumlin field, gravel dune, cross bedding, esker, Canada, Ontario, Trenton; 13113.

bglacial environment
sand grain, sediment source, surface texture, quartz, grain roundness, glacial deposit, 09313.

bglacial lake
lake, basalt shear stress, ice topography, 07297.

bglacial melt water origin
Quaternary(Late), lacustrine environment, trench, Lake Iroquois, Canada, Ontario, Lake Ontario, Bateau Channel; 04998.

subglacial meltwater
warm based glacier, climatic amelioration, turbid plume, glacier, glaciomarine sedimentation, floating glacier tongue, low energy depositional environment, sedimentation rate, cold based glacier, deglaciation, Canada, Ellesmere Island, Disraeli Fiord; 01427.

subglacial meltwater production
pore water pressure, permafrost, ice margine thrusting, drift, bedrock, thermal regime, subglacial aquifer, glacial surge, hummocky stagnation moraine, Rainy lobe, Laurentide Ice Sheet, USA, Minnesota; 02638.

subglacial process
landform, glacial erosion, plucking, abrasion, basal ice pressure, freeze thaw, regelation, cavitation, polished surface, Greenland; 07247.

subglacial sediment
geotechnical test, bed deformation, glacier bed, deformation measurement, deformation modelling, unlithified bed, 07292. glacier dynamics, abrasion, yield strength, subglacial deformation transport, sediment shear strength, striated clast pavement, deforming sediment, Canada; USA; 11941.

subglacial sedimentation
glaciolacustrine sedimentation, rapid sedimentation event, glacial Lake Agassiz, esker, subaqueous fan, drainage network instability, discharge surging, moraine formation, Canada, Ontario; 09575.

subglacial till
supraglacial till, glacier transport, till classification, till formation, till deposition, till identification, 07223.

subglacial tunnel
lake, surge, satellite image, Landsat image, glacier, Argentina, Mendoza, Grande Del Nevado Glacier; 07303.

subglacial undermelt till
deforming basal till, glacial erosion, lift off moraine, till tongue, seismostratigraphic study, continental shelf, terminal deposit, marine ending glacier, wedge, floating terminus, grounding line, gravity flow, ice rafted debris, glaciomarine sediment, Canada, Nova Scotia, Scotian Shelf; Norway, Norwegian Shelf; 11943.

subglacial water
sparite, micrite, film flow, cyanobacteria, calcite, proglacial, freezing, Switzerland, Glacier de Tasnfleuron; 01232.

subglacial water pressure
subglacial conduit, glacial drainage, conduit shape, 00628.

subgrid scale
vertical energy flux, thermodynamic, energy budget, enthalpy, convective signal, ITCZ, mass convergence, 13537.

subgrid scale physics
numerical weather prediction, general circulation model, Monin Abukhov similarity theory, boundary layer, turbulence closure scheme, soil heat conduction, Arakawa Schubert method, orography, 05438. numerical weather prediction, systematic error, blocking forecast, westerly wind, 05439.

subgrid scale process
climate simulation, precipitation, hydrological regime, land surface, 13542.

subgrid scale surface
land surface heterogeneity, climate model, soil plant atmosphere system, statistical dynamical approach, 07706.

subgrid scale vertical tracer transport
troposphere, convective cloud, frontal zone, carbon monoxide, krypton-85, radon-222, sulphur dioxide, 05533.

subhypergraph
join dependency, losslessness, 03344.

subjective generalisation
Black settlement, census data, place recognition, cartography, South Africa; 08038.

Sublette Range Conglomerate
proximal deposit, thrust, tectonic provenance, Evanston Formation, USA, Utah; Wyoming; USA, Idaho; 10590.

sublimation
ice crystal, parameterisation, ice cloud, water content, general circulation model, ice deposition, sedimentation, 10127. particle supply, aeolian transport, cold environment, periglacial environment, particle size, pore ice, dunes, 07249. precipitation, mountain glacial climate, glacier, continentality, longwave radiation, condensation, evaporation, 03028. till, sediment landform association, moraine, glacier, depositional environment, glacial process, valley glacier, supraglacial debris, ablation area, India, Kashmir, Karakorum, K2 Glacier; 09580. warm air advection, frontal movement, road slipperiness, Sweden; 10020. warm snowstorm, forecasters dilemma, cloud base, 11258.

sublimation till
ice cored moraine, thermal regime, climate, melt out till, ice margin, depositional process, polar maritime environment, sedimentation, debris band, ablation, Antarctica, Vestfold Hills; 07248.

sublitharenite
detritus source, sandstone, Murree Group, palaeoenvironment, palaeoclimate, India, Kashmir Himalaya, Jammu; 05901.

submarine
ice thickness, remote sensing, ice cover, Greenland; Arctic; 01798.

submarine abrasion
abrasion platform, cliff, boulder, lag boulder, till, Baltic Sea, Kieler Bucht; 13171.

submarine canyon
continental shelf, shelf, density gradient, salinity, Spain, Gulf of Lyons; 11691. sediment drape, fault, turbidite, deformation, progradation, tectonics, Pacific, (Southeast), Chile Trench; 05857.

submarine cave
cave, ecosystem, benthos, redox potential, oligotrophy, Mediterranean; 09466.

submarine end moraine
basal melting, basal freezing, mass flow, glacially influenced sedimentation, continental margin, Pleistocene sediment, debris flow diamict, UK, Scotland, Hebrides Slope; 04960. Sinclair sequence, stratigraphy, core,

British Geological Survey, Quaternary geology, seafloor, Morrison sequence, Otter Bank sequence, UK, Scotland, Judd; 09564.
submarine eruption
plate boundary, earthquake, tsunami, seafloor, volcano, subsidence, 08168.
submarine fan
continental slope, delta, uplift, collision, tectonics, India, Ganges Brahmaputra River; Asia, Himalayas; Indian Ocean, Bengal Fan, ODP Site 717; Indian Ocean, Bengal Fan, ODP Site 718; 09422. flysch, turbidite, tectonic formation, Miocene, Pliocene, Tamugigawa Formation, Japan, Fossa Magna; 11761. hydrocarbon, lobe, sand body, reservoir, 06953. Nodani Formation, flysch, turbidite, Miocene, Nambayama Formation, Japan, Fossa Magna, Nishikubiki; 11763. organic material, lipid, turbidite, biomarker, organism, Indian Ocean, Bengal Fan, Hole 717C; 09465. sand, trap, basin, fault, Eocene, North Sea, Witch Ground Graben, Alba Field; 07066. sedimentation, eustatic cycle, overbank deposit, mass transport, levee, sand, USA, Gulf of Mexico, Mississippi Fan; 04731. seismic data, continental shelf, fan deposit, channel levee system, interglacial, glacier, Weddell Sea, Crary Fan; 10569. tectonics, basin, reservoir, clastic, turbidite, Mediterranean Sea; 02426. uplift, collision, turbidite, fan channel, seafloor, Indian Ocean, Bengal Fan, ODP Site 717; ODP Site 718; Indian Ocean, Bengal Fan, ODP Site 719; 09423.
submarine groundwater discharge
water table height, denitrification, nitrate concentration, microbial nitrogen transformation, sediment-water interface, coastal sediment, USA, New York, Great South Bay; 04136.
submarine light field
pigment concentration, spectral fluorescence technique, phycoerythrin, 10438.
submarine photograph
gravity core, diapiric high, turbidity, sea-level variation, mud diapir, Quaternary deposit, accretionary prism, Caribbean Sea, South Barbados Prism; 08440.
submarine sand wave
tidal channel, sand wave, radar, 02203.
submarine sandquarry
shore zone impact, lithodynamic process, Finland, Gulf of Finland; 08411.
submarine sediment
sedimentary trail, remote sensing, three-dimensional survey, 13964.
submarine slide
flowslide, viscoplastic, turbidity current, numerical modelling, 11653. Pliocene, continental slope, slide scar, Mexico, Baja California, Vizcaino Bay, Ranger Slide; 03568. translation, mass movement, foredeep basin, Plio-Quaternary, continental margin, Italy, Sicily; 00078.
submarine sliding
Cenozoic, continental slope, sediment drift feature, Labrador Current, Western Boundary Undercurrent, sedimentation, depocentre, Atlantic, Grand Banks, Sackville Spur; 02362.
submarine sliding deposit
lithofacies change, geological significance, Iozumi Tuff, Plio Pleistocene, Kakegawa Group, Horinouchi Formation, tuff, Japan, Shizuoka Prefecture; 10795.
submarine slope
seismicity, slope instability, sediment loading, earthquake, geotechnical data, Banda Sea; 01245.
submarine spring
groundwater discharge, radium, surface water quality, coastal water quality, spring, USA, Florida, Suwannee River; Gulf of Mexico; 04079. palaeocave system, peneplain, uplift, low sea level, dissolution, hydrogeology, karst hydrogeology, phreatic cave system, drainage conduit, carbonate rock, spring, doline, New Zealand, Nelson, Golden Bay, Takaka Valley; 09526.
submarine terrain
reef, seafloor, remotely operated vessels, microcomputer, bathymetry, coral, 07120.
submarine volcanics
landslide, volcanic island, sedimentation, Reunion, Fournaise Volcano; 08192.
submarine volcanism
black coral, manganese nodule, Italy, Sicily Channel, Sciacca; 03616. hydrothermal reaction, pelagic sediment, Neogene, clay mineral, Quaternary, smectite, Pacific, (Central); 11699.
submarine volcano
caldera, topographical map, deposit volume, volcanic material, stratovolcano, Japan, Izu-Bonin Arc; 11886. guyot, hypsometric analysis, planation surface, regional subsidence, subsidence, geomorphology, Okhotsk slope, USSR, Kuril Ridge, Iturup Island; Sea of Okhotsk; 08383.
submerged drumlin
wave planed summit, proglacial lake, drumlin field, morphometric analysis, Glacial Lake Iroquois, swash zone, USA, New York; 07230.
submerged relief
shallow water, coast line, littoral water, seismic sounding, Laptev Sea; 06101.
submerged soil
phosphate, phosphorus, calcareous soil, redox potential, reduction-oxidation, Egypt, Nile Delta; 13244.
submerged vegetation
discharge-depth equation, roughness coefficient, channel flow, earth-lined channel, Mannings formula, flow capacity, flow resistance, 13330.
submergence
coastline, shoreline retreat, subsidence, sea-level rise, erosion, USA, Texas, Gulf Coast; 03551. sediment budget, sediment load, estuary, salt marsh, fresh water, tidal range, USA, Pennsylvania, Philadelphia; Philadelphia, Delaware River; 06981.
submergence rate
groundwater pumpage, petroleum production, Delphic analysis, risk assessment, subsidence cause, inundation cause, tidal gauge data, USA, Texas, Gulf Coast; 06060.
submergent
emergent observer, thermal structure, isostatic effect, global isostasy, eustatic curve, modeling, sea level change, 11977.
submersible
bacteria, microbial population, water-sediment interface, deep sea sediment, organic matter, Atlantic, Bay of Biscay; 03650. deep sea work, BIOCYAN, sea floor, carbon flux, sampling, France, Bay of Biscay; 05980.
submersible image
fish, bioturbation, lake sediment, fresh water, burbot, sediment water interface, Lota lota, USA, Great Lakes, Lake Superior, Caribou Island Basin; 09431.
submersible management
flood mitigation, flood damage, water management, environmental protection, Bangladesh, Ganges-Brahmaputra River; 13464.
submersible observation
sediment volume, vertical accumulation rate, lateral progradation, peri platform mud, sea level, accumulation, bank top sediment, progradation, carbonate megabank, seismic profile, Atlantic, Great Bahama Bank; 02611.
submicrometer
aerosol mass distribution, emission, boiler, fire place, automobile, diesel truck, meat cooking operation, 11339. aerosol particle, nucleation scavenging, 11264.
submicroscopy
micromorphology, sampling procedure, microscopy, 01527.
submoraine
organogenic deposit, terminal moraine, pollen analyses, carbon-14 dating, geological geomorphological analysis, dating, Svalbard, Spitsbergen, Wedel Jarlsberg Land, Renardbreen; 07245.
subpixel
canopy cover, soil albedo, pixel scale, vegetation, 06870.
subplanetary scale feature
three dimensional simulation, wintertime, ozone variability, stratosphere, data assimilation system, 12553.
subpolar
Permian, subtropical climate, Ordovician, cool temperate climate, Recent, Pleistocene, Australia, Tasmania; 12935.
subpolar air mass
air mass motion, lidar, ozone change, USA, California, Table Mountain; 11349.
subpolar soil
soil change, climate, boreal soil, 07315.
subregional planning
two planning data, GIS, regional database, 10458.
subrosion
collapse breccia, salt dome, dissolution, groundwater, cap rock strata, 03610.
subsea structure
areal gouge generation rate, simulation method, numerical simulation, ice gouge depth, structure return interval, 08456.
subsea technology
Exclusive Economic Zone, robotics, 10429.
subsidence
Aptian-Albian, carbonate platform, rudist, coral, terrigenous sedimentation, Spain, Aitzgorri Massif; 12942. backstripping, basin, Jurassic, Australia, Queensland, Eromanga Basin; 02424. basin evolution, backstripping, sedimentation, porosity, 02408. Berea Sandstone, Mississippian, delta front facies, sand, shale, USA, Ohio, Black River, Elyria; 11720. cyclicity, peat, Carboniferous, swamp, tree, compaction, USA, Alabama, Warrior Basin; 10613. Devonian, carbonate, cement, seafloor, Swan Hills Formation, diagenesis, burial, Canada, Alberta, Rosevear Field; 05934. Dinantian, transgression, palaeoenvironment, sedimentation, fault block, UK, England, Lancashire; Lake District; 00139. Ella Bay Formation, Cambrian, progradation, carbonate platform, Canada, Ellesmere Island; 00138. estuary, ria subsidence, valley profile, Spain, Galicia, Eo river; 07145. geomorphology, Okhotsk slope, submarine volcano, guyot, hypsometric analysis, planation surface, regional subsidence, USSR, Kuril Ridge, Iturup Island; Sea of Okhotsk; 08383. Holocene, sea level change, model, crustal behaviour, rheological model, uplift, UK, England, Thames River; North Sea; Netherlands; 13169. Holocene, sedimentation, shelf, sea level rise, Quaternary, Mediterranean, Gulf of Lions; 12875. karst, gypsum, Kirschberg Evaporite Member, evaporite, solution breccia, dissolution, USA, Texas, Gillespie County, Fredericksburg; 02347. lake water, fault, terrace, sedimentary cycle, transgressive phase, Japan, Lake Biwa, Echi River Delta; 11673. land loss, marsh, vertical accretion rate, sea-level change, rate of submergence, pollen geochronology, USA, Maryland, Chesapeake Bay; 11983. land reclamation, potentiometric level, hydrologic perturbation, groundwater regime, coal mine, USA, Indiana, Terre Haute; 01757. loess, compaction, arid condition, alluvial deposit, 04799. Maastrichtian, Lance Formation, fluvio deltaic environment, facies architecture, basin, USA, Wyoming, Wind River Basin; 11753. marine boundary layer, monsoon, inversion, convective activity, Indian Ocean; 03067. Milankovitch theory, sedimentation, Rhaetic, eustasy, Triassic, cyclicity, Italy, Lombardy Basin; 02418. Mount Daubeny Formation, palaeocurrent, Devonian, arenite, conglomerate, Australia, New South Wales, Darling Basin; 11764. organic carbon, marsh, delta plain, accretionary budget, USA, Louisiana, Mississippi River, Barataria Basin; 00038. overthrusting, Paleogene, carbonate platform, foreland basin, neritic, Spain, Pyrenees, Sierra del Cadi; Sierra de Port del Comte; 00140. Quaternary, continental shelf, river discharge, suspended load, sedimentation, China; 08176. river diversion, barrier island, delta, USA, Mississippi River Deltaic Plain; 02328. salt marsh sediment, dam, tide level, flooding, Netherlands, Eastern Scheldt; 00041. San Andreas Fault, Oligocene, Vaqueros Formation, strike-slip fault, Miocene, USA, California Coast Ranges, Cuyama Basin; 03626. sea-level rise, erosion, submergence, coastline, shoreline retreat, USA, Texas, Gulf Coast; 03551. sedimentary provenance, basin rifting, Jurassic(Upper), Cretaceous(Lower), uplift, erosion, UK; France; 08243. sedimentation process, geomorphological mapping, genetic classification, landform type, Italy, Po Plain, Ravenna; 09530. sedimentation,

fault, graben, Messinian, oceanic crust, evaporite, Tyrrhenian Sea, Site 652; Site 654; 00147. sedimentation, sea level curve, passive margin, eustatic, 01286. shale, hydrocarbon, rift, lacustrine deposit, basin, lake, 11751. SPOT, environmental assessment, hydrogeological application, Landsat TM, Germany; 06902. submarine eruption, plate boundary, earthquake, tsunami, seafloor, volcano, 08168. subtropical high, long term drought, drought, atmospheric circulation, rainbelt, pressure height trend, temperature trend, Africa, Sahel; 11179. syncline, Devonian, Carboniferous, facies evolution, deepening event, shallowing event, sea level change, bathymetric change, sedimentation, Belgium, Dinant; 07062. tilting, radiocarbon dating, subsiding, delta margin, Holocene deltaic facies, saline ground water, Egypt, Nile Delta; 01392. topographic deformation, mine, multivariant statistic, 03843. unroofing, uplift, Oligocene(Upper), Miocene(Middle), rifting, Red Sea, Gulf of Suez; 09424. warmer climate, humidity, water vapour feedback, climate change, drying, 13624.

bsidence area
fault, Pleistocene(Middle), beach ridge, Tyrrhenian, sea level, barrier island, Spain, Alicante; 06982.

bsidence cause
inundation cause, tidal gauge data, submergence rate, groundwater pumpage, petroleum production, Delphic analysis, risk assessment, USA, Texas, Gulf Coast; 06060.

bsidence plain
stratigraphy, tectonic uplift, sea level, palaeohydrology, palaeogeography, delta, Iron Gate terrace, terrace, Romania, Danube River; 11853.

bsidence problem
carbon dioxide, warming, climate change, urban infrastructure planner, water supply, sea level rise, coastal community, regional impact, 10149.

bsidence rate
last interglacial, reef, Holocene sand, limestone, uranium series age, coral, Darwins hypothesis, atoll, Indian Ocean, Cocos Islands; Kelling Islands; 08501. Pennsylvanian, Sandia Formation, fault, sheetflood, sandstone, braid delta, USA, New Mexico, Taos Trough; 02412. sea level change, radiometric dating, rapid vertical accumulation, reef island, Darwin, coral atoll, geomorphology, volcanic basement, reef growth, Indian Ocean, Cocos Islands; Keeling Islands; 02681. sedimentation, Carboniferous(Upper), deltaic cycle, Westward Ho! Formation, Bideford Group, UK, England, Devon; 07044. uranium series dating, mass spectrometer, drowned reef, open system behaviour, crustal subsidence, coral reef, USA, Hawaii; 07277.

bsidence zone
strain value, crustal deformation, geodetic measurement, recent tectonic movement, tectonic movement, vertical movement, neotectonic framework, China; 08373.

bsiding
delta margin, Holocene deltaic facies, saline ground water, subsidence, tilting, radiocarbon dating, Egypt, Nile Delta; 01392. mineral, organic matter, marsh, sediment budget, coastal erosion, vertical accretion, wetland soil formation, USA, Louisiana, Mississippi Delta; 03903.

bsoil
arid subsoil, gypsum, phosphogypsum, 03980. fertiliser application, surface charge behaviour, liming, Eden subsoil, Lowell subsoil, Nicholson subsoil, titration, crop response, soil acidification, USA, Kentucky; 10929. landfill, water velocity, pesticide degradation, groundwater pollution, organophosphate, chlorophenol, nitrophenol, 07564. ternary exchange, binary exchange, potassium, ammonium, soil clay mineral, USA, Kentucky; 00421.

bsoil acidity
calcium fulvate, soil amelioration, liming, 09670. Cecil series, Wedowee series, Bladen series, self liming effect, soil infertility, phosphogypsum, 08574.

bsoil compaction
soil strength, Kewaunee soil, Rozetta soil, soil compaction, corn, USA, Wisconsin; 10858.

bsoil flow
pore water pressure, mechanic, tropical region, flowslide, landslide, residual shear strength, West Indies, Dominica; 03826.

bsoil horizon
erodible loess, aggregate stability, landscape position, spatial pattern, loess soil, wetting rate, clay content, soil erosion, USA, Washington, Palouse Region; 08538.

bsoil property
pressuremeter test, India, South Gujarat; 03785.

bsoil stone
periglacial stone accumulation, glacial region, Germany; 00331.

bsoiling
disc harrowing, soil physical property, tillage, maize, legume, ridging, Nigeria, Kurmin Biri; 05064. Paleudult, chisel ploughing, root distribution, yield response, 00401. plate bearing resistance, drainage, bearing resistance, New Zealand, South Island; 04015. soil profile, oil concentration, oil yield, sunflower, USA, South Carolina, Florence; Blackville; 04010.

bstage 5e
amino acid result, Beaver River peat bed, palaeoecology, organic deposit, last interglacial age, nonglacial deposit, Missinaibi Formation, peat, Owl Creek bed, Canada, Ontario; 07258. fossil pollen, sedimentation rate, pollen assemblage zone, dating, long continental pollen sequence, correlation, marine pollen, oxygen isotope stratigraphy, USA, Washington State, Olympic Peninsula, Humptulips; 01418.

betance migration
solute transport, migration cycle, water flow, anthropogenic influence, chemical migration, USSR, Kansk; Achinsk; 12134.

bt antiallsmic geomorphology
phenomenalism, essentialism, causal relationship, quantitative substantialism, methodology, terminology, 03694.

bzitutability analyses
sandstone, conglomerate, shelf sediment, facies trend, cycle, 11822.

bs-itution
apatite, strontium, calcium, barium, phosphorite, 03653.

be rate composition
suspended particulate matter, trophic structure, deforestation, river disturbance, surface water quality, thermal regime, benthic matter, organic matter, USA, Maine, Piscataquis River; 12199.

substrate concentration
soil temperature, soil moisture, Michaelis-Menten expression, denitrification, nitrate loss, Canada, Alberta; 04132.

substrate inhibition
nitrification, growth kinetics, nitrifying microorganism, Monod model, double substrate limiting model, environmental factor, water quality model, 09836.

substrate quality
Arctic soil, toposequence, mineralisation rate, soil temperature, carbon, nitrogen, phosphorus, nitrification, USA, Alaska, North Slope; 09743.

substratum
dynamics, peneplain, soil formation, weathering, saprolitic decomposition, gneiss, Budel's model, deep weathered soil, inselberg, Alfisol, paleosol, genesis, India; 00227.

subsurface
surface energy balance, net radiation, glacier, albedo, surface roughness, thermal diffusivity, 03052.

subsurface dam
alluvial fan deposit, exoreic basin, endoreic basin, groundwater exploitation, groundwater recharge, interflux dam, Africa, Sahel; (Central); Africa, (South); Africa, (East); Africa, (North); 06406. water conservation, dam, small dam, arid region, sand dam, drought, water resource management, Africa, Sahara; Sahel; 09930.

subsurface decollement
glaciotectonic structure, glaciotectonic form, continental shelf, hill hole pair, Norway; 00277.

subsurface drainage
infiltration, water resistant screen, mine drainage, open case mine, Yugoslavia, Kostolac, Cirkovac; 04109. land degradation, irrigation recharge, water table rise, land use change, recharge reduction, Australia, Murray-Darling Basin, Riverine Plains; 05265. low slope, humid climate, sediment loss, runoff erosion, universal soil loss equation, soil erosion data, USLE, P factor, USA, Louisiana, Baton Rouge; 05058. peak flow, rainfall intensity, rainfall runoff model, Rosenbrock optimisation technique, deterministic model, conceptual model, saturated flow, groundwater flow, 06339. phosphorus, sewage sludge, lysimeter, water quality, fertiliser, runoff, 02881. runoff loss, atrazine, metolachlor, runoff quality, runoff quantity, leaching, agricultural chemical loss, USA, Louisiana; 02950. water quality treatment, nitrate adsorption, drainage water quality, anion exchange, 04150.

subsurface drainage effluent
land management, soil degradation, groundwater salinisation, evaporation basin, controlled outflow, dilution flow, aquifer disposal, desalinisation, root zone, saline water reuse, saline water disposal, Australia, Murray Basin; 05264.

subsurface flow
antecedent conditions, flow mechanism, soil moisture accounting model, rainfall-runoff model, hillslope hydrology, overland flow, 04043. chemical hydrograph, geochemical tracer, silica, magnesium, deuterium, hydrograph separation, isotopic tracer, overland flow, Canada, Canadian Shield; 13325. distributed hydrological model, hillslope hydrology, flow path, digital terrain model, surface runoff, topography, 12165. free surface method, tangent continuity method, ionic concentration, water movement, surface water quality, runoff chemistry, solute transport, hillslope hydrology, coniferous forest, UK, Wales; 04092. groundwater flow, flow route, base flow, hillslope hydrology, soil moisture content, storm runoff, evapotranspiration, overland flow, 10998. groundwater flow, hillslope scale, hillslope research, slope hydrology, 11047. hillslope, lumped mass matrix, saturated-unsaturated flow, groundwater flow, Richards' equation, distributed mass matrix, 01703. hydrograph, forested catchment, landscape partitioning, runoff modelling, mountainous terrain, contour based method, saturation overland flow, Australia, (Southeast); 08680. model calibration, streamflow time series, saturated overland flow, soil moisture accounting model, evapotranspiration flux, Hortonian overland flow, rainfall-runoff model, catchment dynamics, hillslope hydrology, antecedent condition, overland flow, 04042. outflow hydrograph, snowmelt hydrology, snowbank, perennial snowbank, permafrost zone, surface ablation, basal ice growth, Canada, Melville Island; 00619. overland flow, disc permeater, soil hydraulic property, through flow, hillslope, macropore, runoff generation, soil texture, auger hole permeameter, 13324. road construction, logging, flow regime, hydrograph, storm runoff, streamflow, lag time, infiltration, USA, California, Caspar Creek; 04152. runoff chemistry, stream water chemistry, antecedent condition, flow path, base flow, hydrogeochemistry, soil chemistry, Norway, Birkenes; 13377. runoff formation, rainfall runoff relationship, forest basin, capillary rise, non capillary flow, convolution integral, mountain watershed, kinematic wave equation, Boussinesq equation, USSR, Carpathian Mountains; 09808. runoff production, hillslope hydrology, surface runoff, hydrological pathway, 11002. silicate hydrolysis, acid neutralisation capacity, surface water chemistry, precipitation chemistry, throughfall chemistry, soil water chemistry, forest catchment, potassium, magnesium, sodium, calcium, Spain, Montseny Mountains; 04090. slope geometry, gully erosion, hillslope geometry, concave slope, gully evolution, colluvial sheet, Rampas de coluvies, Brazil, Sao Paulo, Bananal; 10674. stream flow model, base flow, hydrograph, groundwater discharge, runoff, rainfall runoff relationship, initial contributing area, stream surface, surface saturation, 05139. surface water chemistry, rainfall duration, dry antecedent condition, soil pipe, inorganic aluminium, throughflow, rainfall intensity, stormflow hydrochemistry, upland catchment, runoff chemistry, flow path, UK, Wales; 04094. urban hydrology, design flow, drainage analysis, GIS, terrain analysis, storm water model, surface flow, USA, North Carolina, Asheville; 12167.

subsurface flow path
acidic surface runoff, concentration-discharge relationship, hydrogen, inorganic aluminium, dissolved organic carbon, silicon, acid neutralisation capacity, surface water quality, acidification, longitudinal variation, chemical flux, USA, New Hampshire, Hubbard Brook Experimental Forest; 04089.

subsurface flow process
hydrograph, subsurface runoff, hillslope hydrology, physically based model, Darcian flow, non Darcian flow, flow path, macropore flow, 11045.
subsurface geology
geological history, salinisation, groundwater rise, irrigation, agricultural development, Australia, Murray Basin; 05262.
subsurface geomorphology
glacier study, digital radar data, cryogenic feature, anomalous pattern, ice-phase change, USA, Alaska, Malaspina Glacier; 05045.
subsurface runoff
acidification, flow path, chemical tracer, catchment acidification model, antecedent field condition, tracer flux, surface water quality, soil water chemistry, UK, Scotland, Loch Ard; Allt a'Mharcaidh; 13391. biogeochemical cycling, element budget, precipitation chemistry, throughfall density, stream water chemistry, runoff chemistry, nitrogen, sulphur, canopy throughfall, drainage pattern, Germany, Black Forest; 04087. groundwater flow, hydraulic conductivity, soil porosity, evaporation, storm flow, parameter estimation, hillslope hydrology, soil property, antecedent condition, surface runoff, Australia, Western Australia; 07472. hillslope hydrology, physically based model, Darcian flow, non Darcian flow, flow path, macropore flow, subsurface flow process, hydrograph, 11045.
subsurface sediment
bacteria, organic carbon, biomass, microbiology, terrestrial environment, groundwater, USA, South Carolina, Savannah River Plant; 12979. Cape Fear Formation, Middendorf Formation, microorganism, contaminant, bioremediation, bacteria, USA, South Carolina, Savannah River Site; 09434. clay, sand, gravel, oxygen isotope ratio, Japan, Kinki District; 10596.
subsurface soil
pH, aluminium, acidic soil, pH spatial variation, aluminium spatial variation, extractable aluminium, surface soil, Australia, Western Australia; 10957.
subsurface soil creep
shear strength, cove slope, landslide, soil process, slope failure mechanism, hillslope development, humid tropical forest, translational failure, earthflow, shallow slide, saprolite, Puerto Rico; 02550.
subsurface storage
mobile water, retardation factor, hydrogeological parameter, flow model, environmental isotope, groundwater flow model, fissured rock catchment, fractured rock aquifer, dispersion model, tritium, Germany, Harz Mts; 05214.
subsurface water
hydrogeomorphological characteristic, hillslope, piping, slope failure, valley head hollow, discharge process, 08392.
subsurface water flow
carbonate crust, calcrete, sparite, micromorphology, Israel, Judean Desert; 01607.
subsurface water flux
advection, dispersion model, solute transport, chloride distribution, wetland, vertical water flux, salinity, subarctic marsh, coastal marsh, Canada, James Bay; 09852.
subsurface weathering
columnar joint, etching, dilatation joint, bornhardt, silicic volcanic rock, inselberg, granitic rock, sheet structure, hillslope profile, Australia, South Australia, Gawler Ranges; 09499.
subterranean chamber
cave, hydrogeology, Saudi Arabia, Majlis al-Jinn; 06054.
subterranean drainage prediction method
sinkhole, swallowhole, karrens, caves, speleothem, conduit direction, prediction method, opal, allophane, karst, quartzite karst, Itacolomi Group, Brazil, Minas Gerais, Ouro Preto; 02555.
subterranean stream piracy
soil pipe, karst related feature, palaeokarst, mesokarst, artesian flow, maze cave, phreatic cave, USA, Mississippi Valley; 03840.
subterranean water
jointing, uplift rate, formation condition, karst cave, cave, USSR, Caucasus; 08406.
subthermocline
satellite, altimeter, ocean model, 02257.
subtidal region
site suitability management, marine management, benthic resource management, resource management, Chile, Yaldad Bay; 13957.
subtree merging
data structure, cartographic database, database, quadtree, 02117.
subtropical area
carbonaceous parent rock, landform evolution, Basement Complex, alluvial deposit, soil landform relationship, Mediterranean area, Senegal; Ivory Coast, Basement Complex; Lebanon, Mount Lebanon; 07427.
subtropical Chile
pollen, lacustrine deposit, aridity, lake level, storm frequency, ice age, vegetation, climate, Chile, Laguna de Tagua Tagua; 04979.
subtropical climate
climate type, oceanic climate, continental climate, Bacsaks climate type, Milankovic theory, glacial climate, antiglacial climate, subarctic climate, 08417. Ordovician, cool temperate climate, Recent, Pleistocene, subpolar, Permian, Australia, Tasmania; 12935.
Subtropical Convergence
Antarctic Polar Front, oceanographic front, faunal change, Pleistocene-Holocene, migration, siliceous microfauna, Indian Ocean; 00278.
subtropical gyre
heat balance, Warmwassersphaere, oceanic heat gain, Atlantic; Indian Ocean; 07730.
subtropical high
long term drought, drought, atmospheric circulation, rainbelt, pressure height trend, temperature trend, subsidence, Africa, Sahel; 11179.
subtropical jet
jet location, zonal wind variability, tropospheric zonal wind, stratospheric zonal wind, extratropics, tropopause level, 10079.
subtropical region
carbon dioxide, partial pressure, surface waters, Indian Ocean; 07735.
subtropical scrub zone
runoff reduction, sediment yield reduction, tree planting, channel erosion, control structure erosion, grazing management, watershed restoration, Pakistan; 08694.
subtropical soil
yellow earth, catena, red earth, soil property, USSR, Georgia; 12085.
subtropics
debris flow, dry valley, desertification, soil erosion, tropics, China, Jinsha River Basin; Minjiang River Basin; 06243. morphometry, retention time, thermal stratification, circulation pattern, dissolved oxygen consumption, eutrophication, loading capacity, river recovery, flow regime, biomass production, ecological modelling, reservoir, tropics, South America; 12191. thermal process, dynamic process, ozone valley, India; 10211.
subtropics region
tropics region, frontogenesis, baroclinic wave, diabatic heating, bore like structure, cold front structure, Australia; 08953.
suburb
atmospheric acidity, acid aerosol, nitric acid, nitrous acid, fine particle, ozone, trajectory, aerosol measurement, USA, Connecticut; 13712.
suburban area
breeze vertical structure, sea breeze, urban complex, frontal case, Japan, Tokyo; 10014.
suburban evaporation regime
advection, landuse effect, surface energy balance, latent heat flux, atmospheric influence, Bowen ratio, moisture availability, soil moisture, saturation deficit, sensible heat flux, evaporation model, 12153.
suburban precipitation
atmospheric deposition, precipitation chemistry, acid precipitation, wet deposition, atmospheric pollutant, urban precipitation, USA, Chicago, Illinois; 10973.
suburban terrain
land use, surface energy balance, energy flux variability, Canada, Vancouver; 10009.
suburban zone
spatial resolution, fuzzy classification, land cover, 11628.
suburbanisation
runoff regime, snow melt, rain-on-snow event, quickflow, antecedent condition, hydrograph recession, basin runoff, 00622.
subzonal boundary
accumulation rate, biogeographic model, Quaternary, planktonic foraminiferal assemblage zone, tropical, graphic correlation, oxygen, Florida Loop Current, Caribbean Sea, Colombia Basin; Atlantic; USA, Gulf of Mexico; 03857.
successional sequence
calcium carbonate, floodplain, soil, isotope, carbon, ecosystem, plant, USA, Alaska, Tanana River; 07070.
succession
abandoned cropland, organic matter, soil chemical property, Chernozemic zone, soil transformation, rangeland, Canada, Alberta; 08613. prograding succession, barred shoreline type, sea level rise, Midley Sand, storm, sedimentation, radiocarbon date, Holocene(Late), depositional history, borehole, UK, England, Kent, Dungeness; 06180.
succession reconstruction
faunal succession, Quaternary(Late), mammalian fauna, Japan, Toyohashi, Suse Quarry; 08492.
successional reconstruction
Holocene(Late), sea level fluctuation, diatom analysis, radiocarbon dating, Japan, Sendai Bay, Matsushima Bay; 05036.
successive convective element
inversion, parcel, drop spectrum, cloud, 13611.
successor
algorithm, quasi stationary pattern, tendency, blocked flow, zonal flow, blocking event, weather regime, precursor, Atlantic, (North); Greenland; 11176.
succulent
biomonitor, chlorophyll, ascorbic acid, nitrogen, pollution, sulphur dioxide, 03257.
Sucker Creek Formation
Miocene, clinoptilolite, diagenesis, opal CT, smectite, tuff, zeolite, USA, Oregon, Succor Creek Canyon; 08293.
suction
unfrozen water, ice location, clay shrinkage, Schofield equation, frost action, clay soil, water location, 07282.
suction cup method
macropore flow, bypass flow, spatial variability, sampling system, soil water extraction, 13401.
suctions test
penetration test, shear strength, strength, deformation, partly saturated soil, 03745.
Sudano-Sahelian climate
evaporation, free water surface, Penman formula, evaporation pan, water management, 06269. groundwater recharge, soil moisture estimation, hydrological balance, precipitation, evaporation, runoff, Africa, Sudano-Sahelian Region; 06356.
Sudano-Sahelian zone
vegetation canopy, NOAA, AVHRR, Sudan; Senegal; 06869.
Suess effect
carbon dioxide, carbon-14, fossil fuel, emission, Europe, (Central); 05485.
sufficiency relation
forecast skill, forecast sufficiency, precipitation probability, forecast probability, 08977.
suffosion deformation
gypsum soil, collapsibility property, USSR; 03810.
sugar beet crop
marketing, production forecast, UK, England; 12764.
sugar cane
carbon dioxide, alcohol engine, carbon monoxide, ozone, methane, foliage burning, Brazil; 09022. evapotranspiration, automatic weather station, irrigation water management, agro-meteorology, solar radiation, temperature, humidity, wind, rainfall, leaf wetness, Reunion; 03012.

nowcasting, agriculture, radar network, weather radar network, Brazil, Sao Paulo; 05322.
ugar maple stand
liming, fertiliser, nutrient availability, 03966.
ugarcane
agrometeorological spectral model, yield estimation, 07710. cultivated sugarcane, transpiration, stomatal response, humidity, Bowen ratio technique, 11180.
ulfite
nitrite, acid deposition, dry deposition, nitrate, carbonate, sulphate, dew chemistry, frost, potassium, calcium, magnesium, sodium, USA, Indiana, Indianapolis; 05512.
ulfur dioxide measurement technique
filter pack, pulsed fluorescence, ion chromatography, USA, Eastern Colorado Plains; 04438.
ulphate
acid rain, trend, precipitation acidity, deposition, nitrate, USA, Sierra Nevada; 13656. acidification, surface water quality, long term study, short term study, hydrochemical budget, input output budget, UK, Scotland; 13372. acidity, alkalinity, nitrate, chloride, fluoride, ammonium, calcium, magnesium, sodium, potassium, pH, deposition, fossil fuel, cement, long range transport, acid precipitation, USA, New York, Albany; 04436. adsorption, fractionation, sorption, isotope, retention, microbial, Canada, Ontario, Dorset; 05948. aerosol concentration, methanesulphonate, seasonal cycle, dimethylsulphide, oceanic sources, biogenic sulphur, Antarctica, Mawson; Southern Ocean; 11215. aerosol, acidity, sulphur dioxide, particle, USA, PA, Chestnut Ridge; 13685. aerosol, DMS, intercontinental transport, sulphur, nitrogen, sulphur dioxide, 11309. air mass, particle, oceanic dimethylsulphide, dimethylsulphide, marine aerosol, 10225. air quality, wet depositon, total suspended particulate, acidic deposition, aerosol, USA, New York State, Adirondack Park; 03180. aluminium, carbon, organic acidity, precipitation chemistry, acidification, stream water chemistry, surface water, chemical dynamics, acid stream, atmospheric deposition, wet deposition, Sweden, Svartberget; 13376. aluminium, silicon, calcium, iron, sulphur, particle, nitrate, USA, Appalachian Mountains; 02063. ammonium, precipitation chemistry, aerosol, long range transport, forest ecosystem, pollution, meteorological parameter, sulphur dioxide, nitrogen oxide, 03157. ammonium, sodium, calcium, magnesium, chloride, cloud water, fog water, Rotating Arm Collector, Caltech Active Strand Cloudwater Collector, droplet chemistry, nitrate, USA, California, Santa Barbara Channel; 04421. anoxic sediment, continental slope, reduction, oxidation, organic matter, Peru, ODP Site 680; ODP Site 688; 01244. buffering, flow path, precipitation chemistry, acidification, wet deposition, bulk deposition, mist, fog, enhancement deposition, vegetation ecosystem, soil water flow, UK, Scotland, Allt a'Mharcaidh; Norway; 13374. calcium, iron, magnesium, potassium, nickel, lead, zinc, cadmium, chromium, aerosol, heavy metals, particle, sampling, Spain, Valladolid; 03179. carbon fraction, carbon solubilisation, forest soil, decomposition rate, throughfall solution, organic carbon, 13249. carbon, nitrogen, hydrogen, organic matter, lake sediment, palaeolimnology, 04719. carbon, sampling, Fourier transform infrared analysis, aerosol, ammonium, nitrate, aliphatic carbon, carbonyl group, 00937. chloride, atmospheric deposition, forested catchment, groundwater contamination, recharge, acidification, aluminium concentration, buffering capacity, nitrate, Germany, Fichtelgebirge; Spessart; Germany, Ebersberger Forst; 08785. chloride, cadmium, copper, lead, snow core, volcanic emission flux, trace element, snow, precipitation chemistry, zinc, sodium, magnesium, aluminium, iron, calcium, Colombia, Nevado del Ruiz; 03148. chloride, hydrochloric acid, sulphuric acid, volcanic chemistry record, ice core, climate change, Greenland; 03140. chloride, Pitzers equation, evaporite, sedimentation, 12925. chloride, sodium, crown leaching, interception, podsolic soil, gleyed soil, hydrochemical flux, throughfall, stem flow, forest catchment, soil water chemistry, stream acidity, hydrogen, UK, Scotland; 11086. chlorine, alkalinity, fertiliser, lime, calcium, agricultural pollutant, surface water quality, dissolved substance, buffered river, anthropogenic pollution, Sweden; 01682. cloud cover, Lagrangian one layer model, sulphur dioxide, pollution concentration, long range transport, 04435. cloud microphysics, precipitation chemistry, acid precipitation, orographic cloud, aerosol, 00862. desorption kinetics, Spodosol, Canada, Quebec, Laurentians; 09695. dew chemistry, frost, potassium, calcium, magnesium, sodium, sulfite, nitrite, acid deposition, dry deposition, nitrate, carbonate, USA, Indiana, Indianapolis; 05512. dry deposition, ammonium, biological loss mechanism, bulk precipitation collector, wet only precipitation collector, precipitation quality, wet deposition, aerodynamic blockage, ionic composition, UK; 10978. dry deposition, leaching, precipitation chemistry, model ecosystem, mineral cycling, forest hydrology, lysimeter, canopy leaching, soil water chemistry, acidification, canopy deposition, cation leaching, throughfall enrichment, 11087. dry deposition, wet deposition, deposition, sulphur, 00932. estuary, tidal, Spartina spp, salt marsh, pyrite, China, Huanghe River; 03544. factor analysis multiple regression model, source apportionment, suspended particulate matter, refuse incineration, soil, sea salt, steel mill, vanadium, fuel oil combustion, aerosol, chemical mass balance, motor vehicle emission, Japan, Tokyo; 05501. fog event, boundary layer, chemistry model, aerosol, trace gas, sulphur dioxide, 09063. forest soil, acid addition, salt addition, sulphate retention, Spodosol, USA, Maine; Illinois; 12076. fresh water sediment, concentration profile, temperature, reduction, pore water, seasonal change, Germany, Lake Constance; Switzerland, Lake Constance; 09336. fresh water system, ion chromatography, lake sediment, reduction, Germany, Lake Constance; Switzerland, Lake Constance; 09475. gypsum, soluble salt, geotechnical property, soil, engineering geological survey, Iraq, Hadita; 04911. heavy metal, aquifer pollution, electricity production, landfill, waste disposal, dispersion, convection, contaminant transport, model calibration, groundwater quality model, Denmark; 11058. heterogeneous chemistry, aerosol, polar vortex, stratosphere, chlorine monoxide, hydrogen chloride, chlorine, Arctic; 05549. hydrogen fluoride, sulphur dioxide, sulphuric acid, deposition, volcanic gas, ash, wet deposition, chloride, fluoride, aluminium, Japan, Mount Sakurajima; 00855. hydrogen peroxide, air quality, atmospheric water, sulphur dioxide oxidiser, 07836. hydrogen peroxide, sulphur dioxide, cloud chemistry, ozone, droplet chemistry, 05529. hydrogen, potassium, ammonium, nitrate, snowpack chemistry, meltwater, forest floor leachate, chemical transformation, sodium, chloride, USA, New York, Adirondacks; 02936. iron oxide, salinity, marsh, Eh, soil, reduction, USA, Chesapeake Bay; Maryland, Dorchester County; 02457. iron sulphide, reduction, anoxic sediment, pyrite, sedimentation rate, organic carbon, delta sediment, shelf sediment, USA, Mississippi River Delta; Gulf of Mexico; USA, Texas; USA, Louisiana; 09359. iron, soil moisture, runoff chemistry, acidification, acid drainage, groundwater chemistry, pyritic coal, coal refuse, total dissolved solid, USA, Indiana; 13433. kerogen, anoxic sediment, iron mineral, pyrite, biogenic, Peru, ODP Site 680; 01341. marine aerosol, aerosol, review, particle size distribution, gas-to-particle conversion, dimethylsulphide, sea salt, 13696. marine aerosol, precipitation, deposition, methanesulphonate, sea salt, Atlantic; 06650. marine air, climate feedback, albedo, seasonal cycle, dimethyl sulphide, methanesulphonate, 07886. methane, bottom sediment, oxidation, carbonate, interstitial water, Sea of Okhotsk; 03573. methanogenesis, lagoon, organic matter, anoxic, nitrate, France, Marseille, Etang de Berre; 01207. microbial carbon, microbial sulphur, soil sulphur fraction, sulphur fertilisation, sulphur transformation, fertiliser, USA, Oregon; 10880. multicomponent transport, microbial transformation, contaminant transport, groundwater contamination, nitrate, Germany, Fuhrberger Field; 04138. nitrate, acid deposition, wet deposition, inorganic ion, bulk deposition sample, precipitation quality, Finland; 10977. nitrate, acid rain, precipitation, rain water acidity, ion concentration, storm system, 13750. nitrate, aerosol, size distribution, accumulation mode, condensation, droplet, impactor, inorganic particle, ion, USA, California; 06576. nitrate, ammonium, hydrogen ion, cloud water deposition, vegetation, lysimeter, flux gradient technique, deposition velocity, 00715. nitrate, ammonium, potassium, green alga, Chloromonas, acid rain, snow algae, snow chemistry, USA, New York; Canada, Quebec; 04406. nitrate, ammonium,, chloride, aluminium, sodium, copper, nickel, potassium, zinc, calcium, manganese, magnesium, cadmium, silicon, sulphur, marine aerosol, soil particle, aerosol, urban atmosphere, carbon, Japan, Sapporo; 03199. nitrate, atmospheric deposition, acidification, organic acid, runoff chemistry, Reversing Acidification in Norway project, Norway; 13381. nitrate, beryllium-7, sulphur dioxide, peroxy acetylnitrate, ozone, surface ozone, isentropic trajectory analysis, spring ozone maximum, nitric acid, Japan, Sapporo; 00857. nitrate, chloride, adsorption, transport, 03969. nitrate, chloride, wet deposition, washout, aerosol, precipitation, Spain; 03177. nitrate, deposition, acid deposition, precipitation chemistry, Japan, Shimane; 13670. nitrate, dew, dry deposition, guttation, aerodynamic resistance, deposition velocity, precipitation chemistry, sulphur dioxide, 03235. nitrate, glaciochemical data, sodium chloride, snow, calcium, Asia, Himalayas, Karakoram; 01750. nitrate, hydrogen, lead, ozone, elevation, ecosystem, deposition, acid deposition, mountain, 11321. nitrate, n-alkane, PAH's, background level, marine aerosol, Mediterranean Sea; 12532. nitrate, non sea salt sulphate, anthropogenic emission, ice core record, 04415. nitrate, optics, visibility impairment, particle measurement, chemical species, ammonia, light scattering, extinction, absorption, fine particle, USA, Colorado, Denver; 13738. nitrate, precipitating cloud, power station, plume, acid deposition, 07824. nitrate, precipitation chemistry, mountain, acid rain, UK, Wales, Snowdonia; 06701. nitrate, seasonal concentration ratio, concentration ratio, precipitation, USA; Sweden; 11338. nitrate, spring thaw, snow chemistry, snow cover, snow melt chemistry, trace ion chemistry, maritime airmass, ice crystal, melt water, UK, Scotland; 04404. nitrate, transport model, dispersion condition, control measure, emission scenario, smog episode, sulphur dioxide, nitrogen oxide, 07831. nitrification, acidification, air pollution, 01558. nitrogen, precipitation chemistry, USSR, Lake Baikal; 03249. optical particle counter, thermo optic technique, aerosol, volatility, size distribution, virtual impactor, 13717. organic matter, isotopic composition, carbonate sediment, calcite, aragonite, dolomite, Red Sea, Shaban-Deep; 04819. organochlorine, ice core, pollution, snow, ice, carbon dioxide, lead, methane, radioactive species, nuclear bomb test, Chernobyl accident, nitrate, Antarctica; Greenland; 05525. organosulphur formation, heterotrophic activity, 02759. oxalate, ion chromatography, hailstone, cloud water composition, cloud droplet chemistry, convective storm, chloride, nitrate, nitrite, 05435. oxidation, organic matter, interstitial water, diagenesis, coral reef, USA, Hawaii, Oahu; 04754. oxygen isotope, reduction, bacteria, sulphur, 12973. ozone, hydrogen peroxide, nitric acid, oxidant, forest decline, sulphur dioxide, USA; 03262. particle, rotary inertial impactor, nitrate, friction velocity, ozone, sampling, pollution, USA, California, Los Angeles; 02048. particulate matter, aerosol, soil dust, transport, lead, zinc, carbon, vanadium, Sea of Japan; Japan, Oki Islands; 00844. particulate sulphate, sulphur, USA; 02007. particulate, sampling, glass impactor, annular denuder, filter pack, 00681. periBaltic syneclise, anhydrite, Zechstein, sabkha deposit, Upper Anhydrite, Poland; 12931. permanganate value, alkalinity, iron, chloride, total hardness, groundwater chemistry, Quaternary waters, Tertiary waters, manganese, Poland; 02971. pine needle, sea salt, marine aerosol, storm, dry deposition, sodium, potassium, magnesium, calcium, chloride, Sweden; 03219. pollution, advection differential equation, receptor modelling, particle, empirical orthogonal function, multivariate statistics, 13683. potassium, foliar washoff, acid rain, rainfall, deposition, washoff, forest, tree, leaf, dry deposition, 13665. precipitation chemistry, oxidation, acid precipitation, USA, Hawaii, Kilauea Volcano; 10976. precipitation, nitric acid, sulphuric acid, hydrochloric acid, precipitation chemistry, sea salt, sodium, potassium, ammonium, magnesium, calcium, fluoride, chloride, bromide, nitrate, Japan, Tokyo; 00856. rainforest, sea salt, aerosol, long range transport, precipitation chemistry, Saharan dust, deposition, Puerto Rico, El Verde; 11311. reduction, denitrification, glucose, iron, manganese, biogeochemistry, USA, Gulf of Maine, Jeffreys Basin; Wilkinson Basin; 10641. reduction, fermentation, nitrogen, glutamic acid, alanine, USA, Virginia, Bordenstake Bay; Chesapeake Bay; 12976. reduction, freshwater, lake sediment, iron, manganese, porewater, bacteria, organic material, 03525. reduction, pore water chemistry, bioturbation, Spartina alterniflora, seagrass, 12953. Regionalized Variable Theory, spatial analysis, precip-

itation chemistry, mapping, acidity, hydrogen, nitrate, ammonium, UK; 10972. sampling, aerosol, denuder-filter pack, thermodenuder, wet denuder, ammonia, nitric acid, hydrochloric acid, ammonium, nitrate, chloride, 03183. sampling, ion chromatography, Fourier transform infrared spectrometry, aerosol, carbonaceous species, 02056. sampling, nitric acid, particulate, transition-flow reactor, carbonaceous species, 02049. sea salt aerosol, ice crystal, dry deposition, air-snow fractionation, aerosol, aerosol removal process, Antarctica; 03247. sea salt sulphate, chloride, sodium, deposition, ocean surface, observation ship, ion chromatography, atomic absorption spectrometry, Pacific, (North); 01992. sedimentation rate, diagenesis, sea water, bacteria, productivity, Mexico, Gulf of California; 05954. silica, organic matter, spreading centre, hydrothermal deposit, sulphide, Pacific, East Pacific Rise; 12886. silicate, hydroxyl, sorption, phosphate sorption, allophanic soil, Spain; 07382. snow, precipitation chemistry, chloride, nitrate, Australia, Snowy Mountains; 00863. snowmelt quality, snowmelt quantity, seasonal variation, snow accumulation, integrated model, 02934. sodium chloride, throughfall solution, acid neutralising capacity, sea salt deposition, forest soil, aluminium, cation leaching, leachate, 13248. sodium, chloride, magnesium, sea water, sea salt, convective mixing layer, deposition, snow melt run off, snow chemistry, Japan, Sapporo; 04405. sodium, chloride, nitrate, precipitation, chemistry, snow, rain water, snow chemistry, inorganic ion, hydrogen peroxide, USA, California; 04419. sodium, magnesium, calcium, dissolved silica, hydrograph separation, end member mixing analysis, acidic deposition, surface water chemistry, soil water chemistry, soil water end member, alkalinity, USA, Georgia, Panola Mountain Catchment; 04099. sodium, potassium, ammonium, anion, organic acid, cation, aerosol, precipitation chemistry, sampling, rain water, ion chromatography, chloride, nitrate, 03186. soil solution, supersaturation, gypsum, calcium, 13237. source receptor relationship, sulphur dioxide, nitrogen oxide, emission, acid rain, nitrate, pollutant emission, North America; 04437. sulphide, dissolved sulphur species, bacterial reduction, isotopic study, geothermal aquifer, groundwater quality, France, Paris Basin, Dogger; 00605. sulphide, organic matter, basin, Weichselian, fresh water sediment, terrigenous isotope, Indonesia, Halmahera Island, Kau Bay; 10647. sulphite, cloud water chemistry, aerosol, ammonia, ammonium, hydrogen peroxide, nitrate, nitric acid, organic acid, organic carbonyl compound, USA, California, Sierra Nevada; 04426. sulphite, hydroxymethane sulphonate, aerosol, fog water, sulphur compound, 06666. sulphur dioxide, hydrogen peroxide, cloud microphysics, ammonium, cloud chemistry, 00870. sulphur dioxide, nitrate, nitrogen oxide, hydrogen ion, chemical impact, regional emission, acid rain, emission, precipitation chemistry, trend, USA, (East); Midwest; 13668. sulphur dioxide, nitrogen oxide, aerosol, pollution, solar radiation, particulate, long range transport, ozone, Israel; 03167. sulphur dioxide, particle production, marine cloud, Aitken nuclei, cloud condensation nuclei, nucleation, global climate, dimethyl sulphide, 05521. sulphur dioxide, particulate matter, elemental composition, air quality, deposition, nitrogen oxide, Japan, Tokyo; 05502. sulphur dioxide, S(IV) oxidation, vertical transport, ion chromatography, field study, fog, aerosol, scavenging, ammonium, nitrate, 13658. sulphur dioxide, seasalt, aerosol, particle, size distribution, sulphur conversion, aerosol water content, Bermuda; 12537. sulphur oxidation, acid deposition, fog, cloud droplet, droplet chemistry, 04310. tar, boiler furnace, cane bagasse, fuel, dustfall, calcium, chloride, Egypt, Abu Qurqas; 02039. thiosulphate, reduction, biogeochemistry, oxidation, anoxic sediment, sulphur, 01333. trace chemical, cloud chemistry, cold front, deposition, 00792. urban atmosphere, aliphatics, PAH, lead, copper, manganese, iron, fluoride, chloride, bromide, nitrate, Spain, Barcelona; 03175. vanadium, zinc, trace element, aerosol, bromine, aluminium, calcium, cobalt, iron, potassium, lanthanum, manganese, titanium, elemental composition, chlorine, iodine, arsenic, nitrate, ammonium, Arctic; Canada, Ellesmere Island, Alert; 02030. visibility, aerosol, carbonaceous species, soot, nitrogen, USA, California; 02060. volcanic fallout, volcanic sulphur, stratosphere, hydrogen peroxide, sulphur dioxide, ice core, Greenland; 03220. water management, urban water, urbanisation, groundwater contamination, sewage leakage, Egypt, Cairo; 13473. wet deposition, storm, emission, long range transport, acid deposition, nitrate, Japan; 05498. wheat, sulphur dynamics, winter wheat-summer fallow, tillage, fallow, crop rotation, 12077.

sulphate : chloride ratio
sulphate concentration, irrigated horticulture, nitrate concentration, lysimeter, groundwater quality, root zone drainage, denitrification, Australia, Western Australia, Swan Coastal Plain; 06383.

sulphate adsorption
base flow, cation release, hydrochemical flux, upland catchment, vegetation type, surface water quality, hydrological flux, acid neutralising capacity, soil characteristic, residence time, nitrogen, anthropogenic acidity, UK, Scotland, Cairngorms, Allt a'Mharcaidh Catchment; 04095. sulphate desorption, adsorption, desorption, goethite, pressure jump relaxation, kinetics, 07364.

sulphate aerosol
aerosol size distribution, backscatter, carbon dioxide, USA, Hawaii, Manua Loa Observatory; 12563. climate change, dendrochronology, ice age, glaciation, tree ring evidence, volcanic eruption, USA, Sierra Nevada; 04337. cooling effect, warming, fossil fuel, emission, carbon dioxide, sulphur dioxide, 07803. hydrogen ion, aerosols, USA; 03171. maritime polar air masses, sulphur dioxide, nitrogen oxide, hydrogen peroxide, aerosol, pollution, air quality measurement, Poland, Karkonosze Range; 02004. polar stratospheric cloud, stratospheric cloud, micro layer, temperature, nitric acid, nitric acid trihydrate, Arctic; 00894. sea salt aerosol, heterogeneous oxidation, homogeneous oxidation, oxidation, remote marine atmosphere, particle, sulphur dioxide, 12536. wet deposition, sulphur cycle, wet season, sulphur dioxide, dimethylsulphide, hydrogen sulphide, biogenic source species, Brazil, Amazon; 07844.

sulphate aerosols
ozone depleting chemistry, heterogeneous chemistry, volcanic aerosol, eruptions, nitric acid aerosol, ozone, Mexico, El Chichon; 12522.

sulphate analysis
detection index, surface water quality, electrical conductivity, field indicator, coal mining pollution, USA, Kentucky; Tennessee, Big South Fork National River and Recreation Area; 02874.

sulphate calcium water
calcium sulphate bicarbonate water, lake water chemistry, hydrogeochemistry, glacier water, Arctic; Svalbard, Spitsbergen, Alandvatnet; Svalbard, Spitsbergen, Hoglandvatnet; 05244.

sulphate concentration
irrigated horticulture, nitrate concentration, lysimeter, groundwater quality, root zone drainage, denitrification, sulphate : chloride ratio, Australia, Western Australia, Swan Coastal Plain; 06383. nitrate concentration, missing data, wet deposition, acid deposition, precipitation-weighted-mean concentration, 04025. pH, bark test, pollution, Pinus sylvestris, electrolytic conductivity, Poland, Ojcow National Park; 04455. sulphur mobilisation, mobilisation capacity, organic sulphur, sulphur accumulation, USA; 10881. tunnel flow, water chemistry, runoff source, semi arid basin, runoff routing, sodium concentration, cation composition, 10996.

sulphate deposition
aluminium, organic acid, acidification, hydrochemical study, surface water quality, anthropogenic pollutant, soil acidification, Norway, Birkenes; Åtna; Norway, Hoylandet; Sweden, Svartberget; 13371. fish survival, Model of Acidification of Groundwater in Catchments, hydrochemical model, stream chemistry, Birkenes model, soil chemistry, 13389. hydrochemical model, MAGIC model, water quality restoration, surface water quality, atmospheric deposition, acidified stream, liming, UK, Wales; 00550. Model of Acidification of Groundwater in Catchments, surface water quality, acidification, Birkenes model, 13394.

sulphate deposition field
acid precipitation, precipitation chemistry, air pollutant, monitoring network, deposition field, acidic deposition estimate, Canada, Ontario; North America; 10975.

sulphate desorption
adsorption, desorption, goethite, pressure jump relaxation, kinetics, sulphate adsorption, 07364. desorption modelling, extractable sulphate, soil water, 12074.

sulphate ion
ozone, oxidation, emission reduction, oxidant limitation, aqueous chemistry, numerical experiment, sulphur dioxide, 13673.

sulphate ion content
eutrophication, oil shale fired power plant, lake water quality, phosphorus, nitrogen, sulphur, anaerobic condition, USSR, Lake Peipsi; 11013.

sulphate level
sewage effluent, groundwater chemistry, shallow groundwater, metamorphic terrain, hand dug well, groundwater quality, colour, alkalinity, nitrate level, Nigeria, Modakeke; Ile Ife; 05231.

sulphate linearity
precipitation chemistry, gas phase profile, cloud chemistry, wet deposition, 13687.

sulphate mobility
forest soil, dissolved organic matter, aliphatic acid, 03970.

sulphate morphology
sea salt, aerosol, microphysics, tropospheric size distribution, particle, sulphuric acid, Southern Hemisphere; 12571.

sulphate nss
dimethylsulphide, remote marine condition, marine atmosphere, sulphur cycle, aerosol, methanesulphonate, Atlantic; North Sea; 13703.

sulphate oxidation
catalytic effect, metal ions, 12543.

sulphate oxygen fractionation
groundwater quality, sulphate sulphur fractionation, bacterial desulphurication, sandy aquifer, isotope fractionation, Germany, Fuhrberger Feld; 11080.

sulphate particle
nitric acid, aerosol nucleation, winter, stratosphere, sulphuric acid, Arctic; Antarctica; 00905. particle size distribution, Forward Scattering Spectrometer, nitric acid, nitric acid trihydrate, ice, particle evolution, polar stratospheric cloud, 00904.

sulphate radical
kinetics, rate constant, absorption spectrum, 06635.

sulphate reducing bacteria
bacteria, mineralisation, organic matter, enrichment culture, fresh water sediment, Germany, Lake Constance; Switzerland, Lake Constance; 09337.

sulphate reduction
acetate determination, mineralisation, organic matter, kinetics, anoxic sediment, USA, Alaska, Skan Bay; 09474. anaerobic condition, bog, carbon mineralisation, methane production, wetland site, peat, 09031. base cation reduction, calcium decline, magnesium decline, acidification, inorganic monomeric aluminium, surface water quality, stream water chemistry, soil acidification, Norway, Birkenes Catchment; 04085. chloride concentration, unconfined aquifer, salt water intrusion, carbonate dissolution, geochemistry, groundwater quality, aquifer characteristic, confined aquifer, USA, Alabama; South Carolina; USA, Florida, Floridan Aquifer System; USA, Georgia; 01733. groundwater chemistry, geochemical reaction model, carbon isotope, sulphur isotope, dedolomitisation, calcite precipitation, dolomite dissolution, anhydrite dissolution, USA, Montana, Madison Aquifer; South Dakota, Madison Aquifer; USA, Wyoming, Madison Aquifer; 06372. iron reduction, organic carbon, methanogenesis, organic acid, groundwater chemistry, aquitard sediment, aquifer geochemistry, microbial activity, 11063. methane fermentation, sodium calcium ion exchange, calcite dissolution, nitrate reduction, saline groundwater, organic carbon oxidation, magnesium, isotopic evidence, hydrogeochemical process, groundwater chemistry, carbonate chemistry, calcite saturation, strontium, UK, England, Lincolnshire Limestone; 11081.

sulphate release
aliphatic acid, forest soil, Cecil soil, aluminium release, 03971.

sulphate retention
afforestation, deforestation, nitrate leaching, vegetation type, biogeochemistry, small catchment, surface water quality, atmospheric deposition, soil dynamics, cation loss, acidification, France, Mont Lozere;

04154. cation leaching, forest soil, acid addition, Spodosol, Alfisol, sulphur mineralisation, USA, Maine; Illinois; 09672. gibbsite, alunite, mineral horizon, Spodosol, humic Cryorthod, aluminium sulphate, 08584. precipitation chemistry, stream water chemistry, alpine catchment, snowmelt, turbidity, colour, organic carbon, aluminium, Norway, Atna River, Storbekken; 13375. Spodosol, sulphate, forest soil, acid addition, salt addition, USA, Maine; Illinois; 12076.

ılphate sulphur fractionation
bacterial desulphurication, sandy aquifer, isotope fractionation, sulphate oxygen fractionation, groundwater quality, Germany, Fuhrberger Feld; 11080.

ılphater eduction
pyrite, sulphur, carbonate, Cretaceous(Upper), phosphorite, sulphur sink, organic carbon, Israel; 09464.

ılphates
limestone-lime treatment technique, groundwater pollution, water quality, surface water contamination, remedial treatment, pyrite mine, environemtnal impact, acidity, India, Amjhore; 12277.

ılphide
anoxic sediment, organic matter, trace metal, pyrite, diagenesis, 01359. dissolved sulphur species, bacterial reduction, isotopic study, geothermal aquifer, groundwater quality, sulphate, France, Paris Basin, Dogger; 00605. Holocene, anoxic sediment, magnetite, UK, Scotland, Loch Ba; 10665. hydrocarbon, limestone, cave development, aquifer, phreatic, UK, Wales, South Wales Coalfield; 02461. hydrothermal fluid, hemipelagic sediment, oxygen isotope, nodule, spreading centre, heat flow anomaly, Pacific, Juan de Fuca Ridge, Middle Valley; 11698. lagoon, iron sulphide, pyrite, framboid, Italy, Venice Lagoon; 11792. mud, estuary, neogenesis, calcium carbonate, gypsum, France, Loire Estuary; 10552. organic matter, basin, Weichselian, fresh water sediment, terrigenous isotope, sulphate, Indonesia, Halmahera Island, Kau Bay; 10647. sulphate, silica, organic matter, spreading centre, hydrothermal deposit, Pacific, East Pacific Rise; 12886. water quality, carrier, source, contaminant, carbonate, 04764.

ılphide deposit
manganese nodule, iron oxide, trace element, nodule, coral, encrustation, Indonesia, Misool; 00088.

ılphite
ammonium, photofragment emission flow tube, ammonium sulphate, rate constant, 05528. cloud water chemistry, aerosol, ammonia, ammonium, hydrogen peroxide, nitrate, nitric acid, organic acid, organic carbonyl compound, sulphate, USA, California, Sierra Nevada; 04426. hydroxymethane sulphonate, aerosol, fog water, sulphur compound, sulphate, 06666. nitrite, organic substance, sulphur dioxide, hydroxymethanesulphonic acid, ammonia, dew chemistry, precipitation chemistry, wet deposition, deposition, 03155. nitrite, sulphur dioxide, hydroxymethane sulphonic acid, air pollution, acidifying component deposition, wet surface, dew, deposition, 06611.

ılphometuron
hydrolysis, pesticide movement, pesticide persistence, USA, North Dakota; 09698.

ılphur
aerosol, Mie theory, particulate size, visibility, USA, California; 02068. aerosol, photochemical experiment, ambient air, sulphuric acid, 06643. anaerobic condition, sulphate ion content, eutrophication, oil shale fired power plant, lake water quality, phosphorus, nitrogen, USSR, Lake Peipsi; 11013. anthropogenic sulphur, lead, Paleoecological Investigation of Recent Lake Acidification project, isotope, lake, acidification, palaeolimnology, North America, PIRLA Study Lakes; 04720. biosphere, climate change, acid deposition, nutrient flux, heavy metal burden, oxidant, nitrogen, carbon cycle, forest decline, coastal eutrophication, 05459. bromine, zinc, titanium, nickel, strontium, stratospheric particle, balloon-borne collector, particle, sampling, microparticle, chlorine, iron, zirconium, copper, 03201. canopy throughfall, drainage pattern, subsurface runoff, biogeochemical cycling, element budget, precipitation chemistry, throughfall density, stream water chemistry, runoff chemistry, nitrogen, Germany, Black Forest; 04087. carbon content, light extinction, particulate characteristic, visual effect, light scatter coefficient, USA, North Carolina, Research Triangle Park; 09974. carbon, nitrogen, ozone, aerosol, warming, trace gas, climate change, acid rain, radionuclide, transport, air quality, global pollution, 11298. carbonate, Cretaceous(Upper), phosphorite, sulphur sink, organic carbon, sulphater eduction, pyrite, Israel; 09464. chlorine, aerosol, calcium sulphate, X-ray spectrometry, particle, magnesium, aluminium, silicon, calcium, titanium, iron, Japan, Nagasaki; Nagoya; Pacific, (North); 00843. demethoxylation, gas, slurry, aromatic compound, anoxic sediment, marine sediment, fresh water sediment, syringic acid, anaerobic degradation, 07085. deposition, forest, forest canopy, throughfall flux, Europe; 00872. dimethyl sulfide, methane thiol, carbonyl sulfide, emission, biogenic sulphur emission, salt marsh, USA, New Hampshire; 04427. dimethyl sulphide, marine boundary layer, diurnal variation, carbon disulphide, Atlantic, (Western); 10182. dimethylalkadiene, isomerisation, biological marker, diagenesis, lipid, sediment, carbon skelton, 07090. dimethylsulphide, marine sulphur, iodine cycle, 09066. dispersion model, meteorological model, explicit treatment, cloud, regional model, Scandinavia; 11341. dry deposition, forest, watershed ecosystem, 05474. eigenvector, power plant, particulate sulphur, source attribution, receptor modelling, long range transport, USA, (Western); 11374. emission control, visibility modelling, sulphur dioxide emission, air quality, visibility, 06442. emission, mercury, Swedish mor layer, deposition, selenium, Sweden; 04442. fertiliser, acidification, surface water quality, soil water chemistry, atmospheric deposition, element budget, experimental watershed, forest catchment, water budget, nitrogen, Germany, Black Forest; 06392. fossil fuel, acid precipitation, precipitation chemistry, snow, lead, USA, California, Sierra Nevada; 03205. Haploboroll, microwave-radiation treatment, microbial activity, incubation effect, resin-extractable nutrient, nitrate, ammonium, USA, Montana; 12094. haze, isotope measurement, Arctic; Canada; 09077. Humic Fluvisol, peat, marshland, Germany, Sehestedter Aussendeichsmoor; 01602. humic substance, iron, marsh sediment, organic matter, salt marsh, USA, Delaware; 00642. Humisol, cultivation, transect, acid hydrolysis, hydrolysable element, vegetable production, carbon, nitrogen, Canada, British Columbia; 08611. incubation technique, carbon-bonded sulphur, sulphur mineralisation, New Zealand; 12125. iron, pollution, Pinus sylvestris, bioindicator, sulphur dioxide, fluorine compound, pine needle, Finland, Kevo; Poland; 02069. iron, solid phase transformation, biological oxidation, pyritic mine spoil, spoil material, coal, weathered face, oxidized pyrite, USA, Ohio; 09614. isotopic composition, strontium, sea water, Permian, Zechstein, Germany; 12930. isotopic content, burial, lake, drying, lacustrine sediment, 04875. lake, mine drainage, strip mine, pore water, organic matter, spoil, USA; 09327. liming, polluted soil, soil reclamation, forest soil, Grey Luvisol, nitrogen, fertiliser, 09673. marine aerosol, soil particle, aerosol, urban atmosphere, carbon, sulphate, nitrate, ammonium,, chloride, aluminium, sodium, copper, nickel, potassium, zinc, calcium, manganese, magnesium, cadmium, silicon, Japan, Sapporo; 03199. nitrate radical, dimethylsuphide, methanesulphonic acid, 06662. nitrogen compound, acid deposition, transport models, emission scenario, RAINS model, acidification, strategy, Europe; 11296. nitrogen compound, transport, long range transport, 11306. nitrogen oxide, hydrogen chloride, ammonia, precipitation chemistry, cloud water acidity, aircraft measurement, 03153. nitrogen, acid deposition, nitrogen oxide, long range transport, 04453. nitrogen, chlorine species, nitric acid, hydrochloric acid, ammonia, scavenging ratio, deposition, UK, England; 12541. nitrogen, organic compound, pollution, radioactivity, volcanic activity, residence time, long range transport, continent to ocean transport, meteorological regime, transport process, trace element, mineral aerosol, 11304. nitrogen, soil solution, coniferous forest, USA, (Northeast); 05078. nitrogen, sulphur dioxide, sulphate, aerosol, DMS, intercontinental transport, 11309. oceanic water, reduction, oxidation, disproportionation, organic matter, redox, sedimentation, 05942. organic carbon, river, hydrological cycle, precipitation, river runoff, terrestrial source, nitrogen, phosphorus, 12217. oxidation rate, fertiliser, 05084. oxidation, disproportionation, transformation pathway, bacteria, electron flow, reduction pathway, Denmark, Kattegat; 09460. oxidation, reduction, estuarine sediment, oxidative pathway, reductive pathway, thiosulphate, Denmark, Kysing Fjord; 05828. particle, haze, airborne measurement, lidar, Arctic; 11336. particle, nitrate, sulphate, aluminium, silicon, calcium, iron, USA, Appalachian Mountains; 02063. particulate matter, aerosol, fuel burning, agricultural burning, principal component analysis, visibility, pollution, USA, California; 02067. plant root, phosphorus, potassium, nitrogen, microbial sulphur, soil flush, pastoral soil, New Zealand; 07366. proton induced X-ray emission, sea salt, chlorine, gas particle chemical interaction, particle size distribution, aerosol, Arctic aerosol, cascade impactor sampling, aerodynamic diameter, Arctic; 05519. pyrite, marine sediment, organic matter, iron, reduction, Rickard's rate laws, diagenesis, 01329. rhodanese activity, soil, oxidation, 07371. scavenging efficiency, deposition wet, background sulphur concentration, trajectory analyses, background, UK, Northern Ireland; 13724. soil solution chemistry, forest hydrology, organic sulphur, throughfall, stem flow, 07445. soil sulphur, inductively coupled argon plasma spectroscopy, liquid ion chromatography, USA, Great Plains; 07410. sulphate, dry deposition, wet deposition, deposition, 00932. sulphate, oxygen isotope, reduction, bacteria, 12973. sulphate, particulate sulphate, USA; 02007. sulphate, thiosulphate, reduction, biogeochemistry, oxidation, anoxic sediment, 01333. sulphur dynamics, Spodosol, leaching, adsorption, USA, New York, Adirondack Mountains; Maine, Bear Brook Watershed; 00426. tidal marsh, soil classification, physiographic position, organic matter, Spain, Ria de Betanzos; 02805. wet deposition, emission, dimethyl sulphide, precipitation chemistry, methanesulphonate, rainwater, Australia, Tasmania, Cape Grim; 02024.

sulphur accumulation
sulphate concentration, sulphur mobilisation, mobilisation capacity, organic sulphur, USA; 10881.

sulphur balance
atmospheric deposition, sea spray, marine aerosol, precipitation chemistry, andesitic soil, Tonga; 10974. biogenic sulphur, dimethyl sulphide, methyl mercapton, carbon disulphide, dimethyl disulphide, marine biological activity, air sea exchange, Europe; 09021.

Sulphur Bank
gault, Folkestone Bed, Lower Greensand, phosphate clast, nodule bed, UK, England, Kent, Folkestone; 00127.

sulphur budget
nitrogen budget, emission flux, deposition flux, anthropogenic input, Europe; 12510.

sulphur compound
peroxyacetyl radical, PAN, rate constant, secondary reaction, 06661. sea water, marine atmosphere, dimethyl sulphide, carbonyl sulphide, carbon disulphide, biogenic, Atlantic; 06648. sulphate, sulphite, hydroxymethane sulphonate, aerosol, fog water, 06666. thiophene, thiolane, thiane, benzothiophene, maturity, oil, organic matter, 07089. ultraviolet fluorescence analyser, hydrogen sulphide, pollution, Finland, South Karelia; 01976.

sulphur concentration
precipitation, sulphur dioxide, nitrogen dioxide, acid rain, wet deposition, emission, 06677.

sulphur conversion
aerosol water content, sulphate, sulphur dioxide, seasalt, aerosol, particle, size distribution, Bermuda; 12537.

sulphur cycle
acid rain, pedosphere, afforestation, agriculture, soil acidification, fertiliser use, nitrogen cycle, South Africa, Transvaal; 10947. aerosol, methanesulphonate, sulphate nss, dimethylsulphide, remote marine condition, marine atmosphere, Atlantic; North Sea; 13703. dimethylsulphide, ammonia, non seasalt sulphate, methanesulphonate, trajectory, air mass regime, reduced nitrogen cycle, Pacific; 06688. ice core record, oceanic emission, dimethylsulphide, climate cycle, Vostok ice core, glacial period, ocean-atmosphere cycle, Antarctica; 13632. wet season, sulphur dioxide, dimethylsulphide, hydrogen sulphide, biogenic source species, sulphate aerosol, wet deposition, Brazil, Amazon; 07844.

sulphur cycling
chalk grassland, acid rain, eutrophication, nitrogen cycling, atmospheric

deposition, Netherlands; 01634.
sulphur deposition
acid neutralising capacity, acidification, surface water chemistry, USA, Virginia, Blue Ridge Mountains; 00559. lake water quality, soil chemistry, energy use, emission control, forest soil, acidification model, Finland; 11102. nitrogen deposition, transport model, Europe, (Central); (Eastern; 06592. source receptor relationship, error analysis, long range transport, model evaluation, Europe; 05508. sulphur reduction, surface water quality, acidification, water quality improvement, acid neutralising capacity, surface water quality, fish, Norway, Birkenes Catchment; 04086.
sulphur determination
peat, oxidation procedure, 08606.
sulphur dioxide
